Item 5. Other Events

A. PG&E Corporation - New waiver extension

On October 1, 2002, PG&E Corporation and the lenders under its Amended and Restated Credit Agreement dated June 25, 2002 (Credit Agreement), entered into an Amendment to Second Amended and Restated Waiver and Amendment Agreement that extends the existing waiver of the Credit Agreement's requirement that PG&E National Energy Group, Inc., (PG&E NEG) continue to maintain investment grade ratings with either Standard & Poor's or Moody's Investor Services, Inc., from October 4, 2002, when the waiver would otherwise expire, until October 18, 2002. During the term of the amended waiver, PG&E Corporation may not make any investment, capital expenditure, or other payment to any of its subsidiaries, in an amount that in the aggregate exceeds \$5 million (without deduction for amounts paid by subsidiaries to PG&E Corporation) except as may be required under applicable law or by conditions established by the California Public Utilities Commission in decisions approving the formation of PG&E Corporation to hold the stock of its subsidiary, Pacific Gas and Electric Company. The prior waiver permitted PG&E Corporation to make investments, capital expenditures, or other payments to any of its subsidiaries, in an aggregate

amount up to \$10 million after deducting amounts paid by subsidiaries to PG&E Corporation. Also, while the prior waiver required that PG&E Corporation pay a fee of 5% of the amount of any principal repaid on or before October 21, 2002, the amended waiver extends this date to November 5, 2002. All other terms of the waiver, as previously disclosed, remain in full force and effect. A copy of the Amendment to Second Amended and Restated Waiver and Amendment Agreement is filed as Exhibit 99.1 hereto.

During the extended term of the waiver, PG&E Corporation intends to negotiate with its lenders for the elimination of the credit rating maintenance covenant from the Credit Agreement or for such other amendments as may be needed; however, PG&E Corporation cannot predict whether, or to what extent, it would be successful in such efforts.
