PROXY STATEMENT

-----

The accompanying proxy is being solicited by the board of directors (the "Board") of Simtek Corporation, a Colorado corporation (the "Company") for use at the Company's annual meeting of shareholders, including any adjournment thereof (the "Annual Meeting").

Time and Place; Purpose

The Annual Meeting will be held at 2:00 p.m., local time, Monday, May 24, 2004, at the Radisson Inn Colorado Springs North, 8110 N. Academy Blvd., Colorado Springs, Colorado 80920. At the Annual Meeting, our shareholders will be asked to consider and vote upon the following proposals (the "Proposals"):

1. to amend our amended and restated articles of incorporation to increase the number of authorized shares of common stock from 80,000,000 to 300,000,000 (the "Authorized Shares Proposal") ;
2. to consider and vote upon a proposal to elect two directors to our Board each to serve for a three year term (the "Director Election Proposal"); and
3. to ratify the selection of Hein & Associates LLP, independent auditors, as auditors of the Company for the year ending December 31, 2004 (together with the Authorized Shares Proposal and Director Election Proposal, the "Proposals").

Our Board has determined that the Proposals are advisable to and in the best interests of us and our shareholders. Our Board recommends that you vote in favor of the Proposals.

VOTING RIGHTS; RECORD DATE

Our Board has fixed the close of business on April 20, 2004 as the record date (the "Record Date") for the determination of holders of common stock entitled to receive notice of and to vote at the Annual Meeting. Accordingly, only holders of record of shares of common stock at the close of business on the Record Date are entitled to receive notice of and to vote at the meeting. At the close of business on the Record Date, we had outstanding 57,244,220 shares of common stock, par value \$0.01 per share.

The holders of shares of common stock are entitled to one vote per share on each matter that properly comes before the Annual Meeting. The affirmative vote

## Edgar Filing: SIMTEK CORP - Form DEF 14A

of a majority of the shares of common stock represented in person or by proxy, and entitled to vote, at the Annual Meeting will be required to approve a Proposal. According to Colorado law and our amended and restated articles of incorporation and bylaws, abstentions and broker non-votes will be treated as present for purposes of determining whether a quorum exists, and will be treated as votes against for purposes of approving a proposal. The presence, in person or by proxy, of the holders of a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting is necessary to constitute a quorum.

### PROXIES

Unless otherwise specified, the shares of common stock represented by the accompanying form of proxy, properly executed and returned, will be voted FOR the Proposals as described below. As to any other matters that may properly come before the Annual Meeting, the persons named in the accompanying form of proxy will vote thereon in accordance with their best judgment. Votes will be tabulated by Continental Stock Transfer & Trust Company, the Company's transfer agent for the common stock.

The Proposals are the only matters to be acted upon at the meeting. As to any other matter that may properly come before the Annual Meeting the persons named in the accompanying proxy card will vote thereon in accordance with their best judgment. A properly submitted proxy marked "ABSTAIN," although counted for purposes of determining whether there is a quorum and for purposes of determining the aggregate voting power and number of shares represented and entitled to vote at the meeting, will not be voted and will have no effect. Shares represented by "broker non-votes" (i.e., shares held by brokers or nominees which are represented at the Annual Meeting but with respect to which the broker or nominee is not empowered to vote on a particular proposal) will also be counted for purposes of determining whether there is a quorum at the meeting.

Any person giving a proxy has the right to revoke the proxy at any time before it is voted by giving written notice to the Secretary of the Company. The Company will bear the cost of preparing and mailing proxy materials as well as the cost of soliciting proxies. In addition to solicitation by mail, employees or representatives of the Company may personally solicit proxies. Such persons will receive no additional compensation for such work.

This proxy statement and accompanying form of proxy and annual report are first being mailed to shareholders on or about April 24, 2004.

### ANNUAL REPORT

The Company's annual report to shareholders for the year ended December 31, 2003 is being mailed to the Company's shareholders with this proxy statement.

## Edgar Filing: SIMTEK CORP - Form DEF 14A

The Board has adopted, subject to shareholder approval, an amendment to Section 2.1 of the Company's amended and restated articles of incorporation to increase the number of authorized shares of common stock from 80,000,000 to 300,000,000. The text of the Section 2.1 as it is proposed to be amended, is as follows:

"2.1 Authorized Capital. The aggregate number of shares that the corporation shall have authority to issue is 300,000,000 shares of common stock with par value \$.01 per share ("Common Stock") and 2,000,000 shares of preferred stock with a par value of \$1.00 per share ("Preferred Stock")."

A form of the amendment to the Company's amended and restated articles of incorporation reflecting the increase in its authorized capital is annexed to this proxy statement as Exhibit A.

The amended and restated articles of incorporation of the Company currently authorizes the issuance of up to 80,000,000 shares of common stock and 2,000,000 shares of preferred stock. As of the Record Date, 57,244,220 shares of common stock were issued and 57,234,220 shares of common stock were outstanding, and no preferred shares were outstanding. In addition, there were 6,487,600 shares subject to outstanding issued stock options and 2,175,715 shares subject to stock options available for issuance under the Company's existing stock option plans. In addition, 9,615,384 shares are issuable in relation to the debentures held by affiliates to RENN Capital Group, Inc. and 750,000 shares are issuable upon the exercise of certain warrants previously issued to affiliates to RENN Capital Group, Inc.

Based upon the foregoing, the Company will only have available for issuance an aggregate of 3,727,081 shares of common stock for other corporate purposes.

### PURPOSE AND EFFECT OF AMENDMENT

The Board is proposing that the Company's shareholders approve an increase in the number of authorized shares of common stock from 80,000,000 to 300,000,000 in order to provide the Board with the necessary flexibility to issue common stock in connection with financings, acquisitions, employee benefits, stock dividends and for other general corporate purposes. Without an increase in the number of authorized shares of common stock, the number of available shares for issuance may be insufficient to complete one or more of these transactions when and if the Board deems advisable.

Approving an increase in the number of authorized shares at this time will enable the Company to take advantage of market conditions and favorable opportunities at the time the Board deems it advisable to enter into one of the transactions described above, without the expense and delay associated with holding a special meeting to obtain shareholder approval to authorize additional shares of common stock. No additional action or authorization by shareholders would be necessary prior to the issuance of such additional shares, unless required by the amended and restated articles of incorporation, applicable law or the listing requirements for any exchange or market, if any, on which the Company's common stock may be listed. Examples of circumstances in which further shareholder authorization generally would be required for issuance of additional stock include:

- o certain mergers of the Company into another entity; and
- o the sale of all, or substantially all, of the Company's assets.

Each share of common stock authorized for issuance will have the same rights as, and will be identical in all respects with, each other share of

## Edgar Filing: SIMTEK CORP - Form DEF 14A

common stock. The newly authorized shares of common stock will not affect the rights, such as voting and liquidation rights, of the shares of common stock currently outstanding. Should the Board elect to issue additional shares of common stock, existing shareholders will not have preferential rights to purchase such stock.

### ANTI-TAKEOVER PROVISIONS

We are not introducing this Proposal with the intent that it be utilized as a type of anti-takeover device. However, the ability of the Board to issue

3

additional shares of common stock without additional shareholder approval may be deemed to have an anti-takeover effect because unissued shares of common stock could be issued by the Board in circumstances that may have the effect of deterring takeover bids. For example, without further shareholder approval, the Board could strategically sell shares of common stock in a private transaction to purchasers who would oppose a takeover. In addition, the Board could issue additional shares of common stock and because shareholders do not have preemptive rights under the amended and restated articles of incorporation, the rights of existing shareholders would (depending on the particular circumstances in which the additional shares of common stock are issued) be diluted by any such issuance, reducing the percentage of the common stock any one shareholder controls and increasing the potential cost to acquire control of the Company. Although the Board is motivated by business and financial considerations in proposing this amendment, and not by the threat of any attempt to accumulate shares or otherwise gain control of the Company, shareholders should nevertheless be aware that approval of the amendment could facilitate efforts by the Company to deter or prevent changes of control in the future. The Board does not intend to issue any additional shares of common stock except on terms that it deems to be in the best interest of the Company and its shareholders.

The following is a description of other anti-takeover provisions in our charter documents and other agreements. We have no current plans or proposals to enter into any other arrangement that could have material anti-takeover consequences.

**Amended and Restated Articles of Incorporation.** Our amended and restated articles of incorporation allows our Board to issue up to 2,000,000 shares of preferred stock and to determine the price, rights, preferences and privileges of those shares without any further vote or action by our shareholders. The rights of the holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued in the future. Issuance of preferred stock, while providing desired flexibility in connection with possible acquisitions and other corporate purposes, could make it more difficult for a third party to acquire a majority of our outstanding voting stock.

**Classified Board.** Our amended and restated articles of incorporation and bylaws provide for a classified Board when we have six or more directors. This may have the effect of delaying or preventing changes in control of our management, which could adversely affect the market price of our common stock by discouraging or preventing takeover attempts that might result in the payment of a premium price to our shareholders.

**Stock Option Plan.** Our 1994 Non-Qualified Stock Option Plan (the "Stock Option Plan") provides for acceleration of vesting under certain circumstances.

## Edgar Filing: SIMTEK CORP - Form DEF 14A

Upon certain changes in control of the Company, all options issued under the Stock Option Plan which have been held for at least six months shall become exercisable in full, without regard to applicable exercise periods set forth in the applicable option agreements. The acceleration of vesting of options upon a change in control may be viewed as an anti-takeover measure.

THE BOARD RECOMMENDS A VOTE "FOR" THE APPROVAL OF THE AMENDMENT TO THE COMPANY'S AMENDED AND RESTATED ARTICLES OF INCORPORATION.

4

### PROPOSAL 2 - ELECTION OF DIRECTORS

The Company's amended and restated articles of incorporation and bylaws provide that if the Board consists of six or more persons, then the members of the Board shall be divided into three classes, each class to be as nearly equal in number as possible. The Board is currently divided into three (3) classes, each class consisting of two directors, with each class having a three-year term. Vacancies on the Board may be filled only by persons elected by a majority of the remaining directors. A director elected by the Board to fill a vacancy (including a vacancy created by an increase in the Board) will serve for the remainder of the full term of the class of directors in which the vacancy occurred and until the director's successor is elected and qualified.

The Board presently consists of six (6) members. There are two Class 1 Directors, Messrs. Douglas Mitchell and Robert Keeley, whose terms of office will expire at the 2004 annual meeting. The Board has nominated each of Mr. Mitchell and Mr. Keeley for re-election. Proxies cannot be voted for a greater number of persons than the number of nominees named. If elected at the Annual Meeting, each of the nominees would serve until the 2007 annual meeting and until his successor is elected and has qualified, or until such director's earlier death, resignation or removal.

Directors are elected by a plurality of the votes present in person or represented by proxy, and entitled to vote, at the meeting. Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of Messrs. Mitchell and Keeley. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as management may propose. Each person nominated for election has agreed to serve if elected, and management has no reason to believe that any nominee will be unable to serve.

Set forth below is biographical information for each person nominated and each person whose term of office as a director will continue after the Annual Meeting. Ages are as of April 20, 2004, the Record Date.

## AUDIT COMMITTEE CHARTER SIMTEK CORPORATION ADOPTED MARCH 24, 2003

### PURPOSE

The primary function of the Audit Committee is to assist the Board of Directors in fulfilling its oversight responsibilities by reviewing: the financial reports and other financial information provided by the Corporation to any governmental body or the public; the Corporation's systems of internal controls regarding finance, accounting, and ethics that management and the Board have established; and the Corporation's auditing, accounting and financial reporting processes generally. Consistent with this function, the Audit Committee should encourage continuous improvement of, and should foster adherence to, the corporation's policies, procedures and practices at all levels. The Audit Committee's primary duties and responsibilities are to:

- o Serve as an independent and objective party to monitor the Corporation's financial reporting process and internal control system.
- o Review and appraise the audit efforts of the Corporation's independent accountants.
- o Provide an open avenue of communication among the independent accountants, financial and senior management, and the Board of Directors.

### MEMBERSHIP

The audit committee will be composed of not less than 3 members of the Board. They will be selected by the Board, taking into account prior experience in matters to be considered by the committee, probable availability at times required for consideration of such matters, and their individual independence and objectivity.

The committee's membership will meet the requirements of the audit committee policy of the National Association of Securities Dealers (NASD). Accordingly, all of the members will be directors independent of management and free from relationships that, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment as a committee member.

Former officers or employees of the Company or any of its subsidiaries may serve on the committee (even though the former officer may be receiving pension or deferred compensation payments from the Company) if, in the opinion of the Board of Directors, the former officer will exercise independent judgment and will significantly assist the committee to function. However, a majority of the committee will be directors who were not formerly officers of the Company or any of its subsidiaries.

When considering relationships that might affect independence, including possible affiliate status, the Board of Directors will give appropriate consideration, in addition to its audit committee policy, to guidelines issued by the NASD, which were provided to assist Board of Directors in observing the spirit of the NASD policy.

### MEETINGS

## Edgar Filing: SIMTEK CORP - Form DEF 14A

The Committee shall meet at least two times annually, or more frequently as circumstances dictate. As part of its job to foster open communication, the Committee should meet at least annually with management, and the independent

auditors in separate executive sessions to discuss any matters that the Committee or each of these groups believe should be discussed privately. In addition, the Committee or at least its Chair should meet with the independent auditors and management quarterly to review the Corporation's financials.

### ACTIONS OF THE COMMITTEE

The committee's activities will include the following actions:

- o Oversight of the financial statements and relations with the independent auditors.
  - o Instruct the independent auditors that the Board of Directors is the client in its capacity as the shareholders' representative.
  - o Expect the independent auditors to meet with the Board of Directors at least annually so the Board has a basis on which to recommend the independent auditors' appointment to the shareholders or to ratify its selection of the independent auditors.
  - o Expect financial management and the independent auditors to analyze significant financial report issues and practices on a timely basis.
  - o Expect financial management and the independent auditors to discuss with the audit committee:
    - o Qualitative judgments about whether current or proposed accounting principles and disclosures are appropriate, not just acceptable.
    - o Aggressiveness or conservatism of accounting principles and financial estimates.
  - o Expect the independent auditors to provide the audit committee with:
    - o Independent judgments about the appropriateness of the Company's current or proposed accounting principles and whether current or proposed financial disclosures are clear.
    - o Views on whether the accounting principles chosen by management are conservative, moderate, or aggressive as they relate to income, asset, and liability recognition, and whether these accounting principles are commonly used.
    - o Reasons why accounting principles and disclosure practices used for new transactions or events are appropriate.
    - o Reasons for accepting or questioning significant estimates made by management.

- o Views on how selected accounting principles and disclosure practices affect shareholder and public attitudes about the Company.
- o Actions taken on the Board's behalf that require Board notification but not Board approval:

2

- o Answer questions raised by shareholders during an annual shareholders' meeting on matters relating to the committee's activities if asked to do so by the Board of Directors.
