Siebert Financial Corp. & Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six Months Ended June 30, 2017 and 2016
(Unaudited)

1. Business and Basis of Presentation:

Siebert Financial Corp. (“SFC”), a New York corporation, incorporated in 1934, is a holding company that conducts its retail discount brokerage business through its wholly-owned subsidiary, Muriel Siebert & Co., Inc., (“MSC”) a Delaware corporation and a registered broker-dealer, and its investment advisory business through its wholly-owned subsidiary Siebert Investment Advisors, Inc. (“SIA”) a New York corporation which is registered with the Securities and Exchange Commission as a Registered Investment Advisor (“RIA”). For purposes of this Quarterly Report on Form 10-Q, the terms “Siebert,” “Company,” “we,” “us” and “our” refer to Siebert Financial Corp., MSC and SIA collectively, unless the context otherwise requires.

Our principal offices are located at 120 Wall Street, New York, New York 10005, and our phone number is (212) 644-2400. Our Internet address is www.siebertnet.com. Our SEC filings are available through our website at www.siebertnet.com, where you are able to obtain copies of the Company’s public filings free of charge. Our common stock, par value \$.01 per share (the “Common Stock”) trades on the NASDAQ Capital Market under the symbol “SIEB.”

The condensed consolidated interim financial statements presented herein are unaudited and include all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations of the interim periods pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles (“GAAP”) in the United States of America (“U.S.”) have been condensed or omitted pursuant to SEC rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. The balance sheet at December 31, 2016 has been derived from the audited consolidated statement of financial condition at that date, but does not include all information and footnotes required by U.S. GAAP for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2016. Because of the nature of our business, the results of operations for the six months ended June 30, 2017 are not necessarily indicative of operating results for the full year.

Certain reclassifications have been made to the 2016 balances to conform to the presentation used in 2017. These reclassifications had no effect on operating results previously reported.

2. Securities:

Securities owned are carried at fair value with realized and unrealized gains and losses reflected in trading profits. MSC clears all its security transactions through an unaffiliated clearing firm on a fully disclosed basis. Accordingly, MSC does not hold funds or securities for, or owe funds or securities to, its customers. Those functions are performed by its clearing firm.

3. Fair Value of Financial Instruments:

Authoritative accounting guidance defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. Fair value measurements are not adjusted for transaction costs. The fair value hierarchy prioritizes inputs to valuation techniques used to measure fair value into three levels:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs, other than quoted prices that are observable, either directly or indirectly, and reasonably available.

Level 3 – Unobservable inputs, which reflect the assumptions that management develops based on available information about the assumptions market participants would use in valuing the asset or liability.

The Company estimates that fair value approximates carrying value for cash and cash equivalents, receivable from broker, and accounts payable and accrued liabilities due to the relatively short maturity of the instruments.

4. Per Share Data:

Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average outstanding common shares during the period. Diluted earnings per share is calculated by dividing net income by the number of shares outstanding under the basic calculation and adding all dilutive securities, which consist of options. The Company had income of \$424,000 for the six months ended June 30, 2017 and incurred a net loss of (\$1,229,000) for the six months ended June 30, 2016 respectively. Basic and diluted net loss per common share are the same during 2016 as the effect of stock options is anti-dilutive. There were no options outstanding in 2017 that would result in any dilutive effect. Shares underlying stock options not included in the diluted computation amounted to 0 in 2017 and 265,000 in 2016.

5. Net Capital:

MSC is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. Siebert has elected to use the alternative method, permitted by the Rule, which requires that MSC maintain minimum net capital, as defined, equal to the greater of \$250,000 or two percent of aggregate debit balances arising

from customer transactions, as defined. The Net Capital Rule of the New Stock Exchange also provides that equity capital may not be withdrawn or cash dividends paid if resulting net capital would be less than 5% of aggregate debits. As of June 30, 2017, Siebert had net capital of approximately \$2,900,000 as compared with net capital requirements of \$250,000. Siebert claims exemption from the reserve requirement under section 15c3-3(k)(2)(ii).

6. Other Assets:

The Company incurred \$125,000 in professional fees in connection with a potential transaction with an affiliate. These costs will be deferred until which point that the transaction is consummated.

7. Revenue:

Commission revenues, margin interest, marketing and distribution fees and related clearing expenses are recorded on a trade-date basis. Fees, consisting principally of revenue participation with the Company's clearing broker in distribution fees, and interest are recorded as earned.

Investment banking revenue includes advisory fees charged clients thru SIA. Revenues are earned typically on a monthly or quarterly basis in accordance with terms of the contract.

Trading profits are also recorded on a trade-date basis and principally represent riskless principal transactions in which the Company, after receiving an order, buys or sells securities as principal and at the same time sells or buys the securities with a markup or markdown to satisfy the order.

Interest is recorded on an accrual basis and dividends are recorded on the ex-dividend date.

8. Capital Transactions:

SFC's control entity, Kennedy Cabot Acquisition, LLC made a net payment of \$803,000 to satisfy certain obligations of the Company. This amount is treated as a capital contribution.

9. Contingencies and Commitments:

Retail customer transactions are cleared through a clearing broker on a fully disclosed basis. If customers do not fulfill their contractual obligations, the clearing broker may charge MSC for any loss incurred in connection with the purchase or sale of securities at prevailing market prices to satisfy the customer obligations. MSC regularly monitors the activity in its customer accounts for compliance with its margin requirements. MSC is exposed to the risk of loss on unsettled customer transactions if customers fail to fulfill their contractual obligations. There were no material losses for unsettled customer transactions for the three months and six months ended June 30, 2017 and 2016.

In December 2015, a former employee of MSC commenced an arbitration before FINRA against MSC, alleging a single cause of action for employment retaliation under the Sarbanes-Oxley Act of 2002. In February 2016, the employee amended his claim to replace the Sarbanes-Oxley claim with a substantially identical claim arising under the Dodd-Frank Act of 2010. The matter was settled for \$825,000 in February 2017 which was paid by the Company's control entity Kennedy Cabot Acquisitions LLC.

10. Income Taxes:

As of December 31, 2016 and June 30, 2017, the Company had approximately \$24,223,000 and \$23,799,000 of remaining net operating loss carryforwards which management had fully reserved against based on a history of unprofitable operations. Based on a change in control during December 2016, management concluded that they would be limited to utilizing net operating loss carryforwards of \$895,000 per year until the balance is utilized. During the three and six months ended June 30, 2017, the Company utilized net operating losses of \$365,000 and \$424,000 to offset its net income earned during this period. The utilization of these credits resulted in a reduction of current tax expense and an offsetting increase in the deferred tax benefit of \$146,000 and \$169,000 for the three and six months ended, respectively. No tax benefit has been recognized related to the net loss in the three and six months ended June 30, 2016 as the Company has recorded a full valuation allowance against these credits.

11. Non Recurring Changes:

Included in the second-quarter net income is approximately \$110,000 of non-recurring expenses. Included in the six months net income is approximately \$342,000 of non-recurring expenses. These expenses were primarily due to relocating the firm's call center and costs affiliated with staff reductions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with our audited consolidated financial statements as of and for the year ended December 31, 2016, and our unaudited condensed consolidated financial statements and the notes thereto contained elsewhere in this Quarterly Report.

Business Environment

Our cash is invested primarily in bank accounts with large financial institutions. Our cash and working capital is sufficient to service the firm's operations.

The following table sets forth certain metrics as of and for the six months ended June 30, 2017 and 2016, respectively, which we use in evaluating our business.

| | For the Three Months ended June 30, | | For the Six Months ended June 30, | |

| Retail customer margin debit balances (in millions): | \$224.0 | \$254.2 |
| Retail customer accounts with positions: | 28,953 | 29,968 |

* Based on new management analysis

Description:

- Total retail trades represent retail trades that generate commissions.
- Average commission per retail trade represents the average commission generated for all types of retail customer trades.
- Retail customer net worth represents the total value of securities and cash in the retail customer accounts before deducting margin debits.
- Retail customer money market fund value represents all retail customers accounts invested in money market funds.
- Retail customer margin debit balances represent credit extended to our customers to finance their purchases against current positions.
- Retail customer accounts with positions represent retail customers with cash and/or securities in their accounts. We, like other securities firms, are directly affected by general economic and market conditions including fluctuations in volume and prices of securities, changes and prospects for changes in interest rates and demand for brokerage and investment banking services, all of which can affect our relative profitability. In periods of reduced financial market activity, profitability is likely to be adversely affected because certain expenses remain relatively fixed, including salaries and related costs, portions of communications costs and occupancy expenses. Accordingly, earnings or loss for any period should not be considered representative of any other period.

Critical Accounting Policies

We generally follow accounting policies standard in the brokerage industry and believe that our policies appropriately reflect our financial position and results of operations. Our management makes significant estimates that affect the reported amounts of assets, liabilities, revenues and expenses and the related disclosure of contingent assets and liabilities included in the financial statements. The estimates relate primarily to revenue and expense items in the normal course of business as to which we receive no confirmations, invoices, or other documentation at the time the books are closed for a period. We use our best judgment, based on our knowledge of these revenue transactions and expenses incurred, to estimate the amount of such revenue and expense. We are not aware of any material differences between the estimates used in closing our books for the last five years and the actual amounts of revenue and expenses incurred when we subsequently receive the actual confirmations, invoices or other documentation. Estimates are also used in determining the useful lives of intangible assets, and the fair market value of intangible assets. Our management believes that its estimates are reasonable.

Results of Operations

Commission and fee income for the three months ended June 30, 2017 was \$1.0 million, a decrease of \$194,000 or 15.8% from the same corresponding period in 2016 primarily due to a reduction in commissions per trade.

Margin interest, marketing and distribution fees for the three months ended June 30, 2017, was \$1,545,000, an increase of \$588,000 or 61.4% primarily due to rising interest rates and match funding margin debits and free credit balances.

Income from interest and dividends for the three months ended June 30, 2017 were \$3,000, a decrease of \$135,000 or 97.8% from the same corresponding period due to the distribution of the subordinated notes and capital market notes in 2016 to the former majority shareholder.

Total expenses for the three months ended June 30, 2017 were \$2.3 million, a decrease of \$866,000 or 27.1% from the same corresponding period in 2016 due to streamlining the firm's operations.

Clearing and floor brokerage costs for the three months ended June 30, 2017 were \$304,000, an increase of \$68,000 or 28.8% from the same corresponding period in 2016 primarily due to increased retail customer trading volumes.

Professional fees were \$468,000 for the three months ended June 30, 2017, a decrease of \$447,000, or 48.9% from the same corresponding period in 2016 primarily due to a decrease in legal fees and consulting fees.

Advertising and promotion expenses for the three months ended June 30, 2017 were \$25,000, a decrease of \$42,000 or 62.7% from the same corresponding period in 2016 due to a reduction in overall advertising.

Occupancy costs for the three months ended June 30, 2017 were \$79,000, a decrease of \$118,000 or 59.9% from the same corresponding period in 2016 due to moving the firm's call center.

Other general and administrative expenses were \$393,000, a decrease of \$50,000 or 11.3% from the same corresponding period in 2016 due to streamlining the firm's operations.

No tax benefit related to the pre-tax gain loss was recorded for the three months ended June 30, 2017 and June 30, 2016 due to the recording of a full valuation allowance to offset deferred tax assets based on recent losses and the likelihood of realization of such assets.

Six Months Ended June 30, 2017 Compared to Six Months Ended June 30, 2016

We had net income of \$424,000 and a net loss of \$1,229,000 for the six months ended June 30, 2017 and 2016, respectively.
