PACIFICNET INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts expressed in United States dollars unless otherwise stated)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

Edgar Filing: PACIFICNET INC - Form 10QSB

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. For further information, refer to the financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended December 31, 2004, as filed with the SEC.

In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for all periods presented have been made. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Examples include provisions for returns and impairment losses, accounting for income taxes, bad debts, and property, plant and equipment lives for depreciation purposes. Actual results may differ from these estimates. The results of operations for the three and six month period ended June 30, 2005 are not necessarily indicative of the operating results that may be expected for the entire year ending December 31, 2005. These financial statements should be read in conjunction with the notes to the financial statements and the Management's Discussion and Analysis included elsewhere in this report.

STOCK-BASED COMPENSATION

During the quarter ended June 30, 2005, the Company granted stock options to purchase 200,000 shares of the Company's common stock at \$6.80 per share (based on the market price on May 3, 2005) which will expire on May 3, 2009. During the quarter ended June 30, 2005, no options were canceled or forfeited, and no options were exercised. As of June 30, 2005, there were 1,207,100 stock options outstanding and 490,000 options exercisable. The weighted average exercise price of the options outstanding and exercisable is \$5.80 and \$2.07, respectively, and the weighted average remaining contractual life is 3.50 and 1.50 years, respectively.

The Company accounts for stock-based compensation using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," under which no compensation cost for stock options is recognized for stock option awards granted at or above fair market value. Had compensation expense for the Company's stock-based compensation plans been determined under FAS No. 123, based on the fair market value at the grant dates, the Company's pro forma net earnings (loss) and pro forma net earnings (loss) per share would have been reflected as follows at June 30:

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the FASB issued SFAS No. 123 (Revised 2004) "Share-Based Payment" ("SFAS No. 123R"). SFAS No. 123R addresses all forms of share-based payment ("SBP") awards, including shares issued under employee stock purchase plans, stock options, restricted stock and stock appreciation rights. SFAS No. 123R will require the Company to expense SBP awards with compensation cost for SBP transactions measured at fair value. On March 29, 2005, the SEC issued Staff Accounting Bulletin (SAB) 107 which expresses the views of the SEC regarding the interaction between SFAS No. 123R and certain SEC rules and regulations and provides the SEC's views regarding the valuation of share-based payment arrangements for public companies. In April 2005, the SEC issued a release which amends the compliance dates for SFAS No. 123R. We expect the adoption of SFAS No. 123R and SAB 107 to have a material impact on the Company's financial statements.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections". SFAS No. 154 replaces APB Opinion No. 20 "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements". SFAS No. 154 requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. We do not expect the adoption of SFAS No. 154 to have any impact on the Company's financial statements.

2. EARNINGS PER SHARE

Basic earnings per share are based on the weighted average number of shares of common stock outstanding. Diluted earnings per share is based on the weighted average number of shares of common stock outstanding and dilutive common stock equivalents. All earnings per share amounts in these financial statements are basic earnings per share as defined by SFAS No. 128, "Earnings Per Share." Diluted EPS is computed using weighted average shares outstanding plus additional shares issued as if in-the-money options and warrants were exercised (utilizing the treasury stock method). Dilutive earnings per share for 2005 excludes the potential dilutive effect of 500,000 warrants because their impact would be antidilutive based on current market prices. All per share and per share information are adjusted retroactively to reflect stock splits and changes in par value.

The computation of basic and diluted earnings per share is as follows:

3. BUSINESS ACQUISITIONS

In April, 2005, the Company completed the acquisition of a controlling interest in Guangzhou 3G Information Technology Co. Ltd. ("Guangzhou3G-WOFE"), through the purchase of a 51% interest of Guangzhou3G-WOFE's parent company, Pacific 3G Information & Technology Co. Limited (Guangzhou3G-BVI), a British Virgin Islands company.

PacificNet Holdings agreed to purchase 23,050 shares (the "Sale Shares") of 3G-BVI from Asiafame International Limited, Stargain International Limited and Trilogic Investments Limited, with principle place of business located in the People's Republic of China (the "Sellers"), and directly subscribed to 3G-BVI to purchase 5,000 shares (the "Subscribed Shares").

The total consideration paid for the Sale Shares was payable as follows:

(i) USD\$1,183,000 payable to the Sellers in cash within 30 days after the closing of the transaction;

(ii) USD\$4,182,000, by delivery of 522,750 shares of common stock, par value \$0.0001 per share (the "Common Stock") of PacificNet (the "PacificNet Shares") to the Sellers. The PacificNet Shares are to be held in an escrow account with an Escrow Agent designated by PacificNet Holdings. The first installment of the PacificNet Shares in the amount of 130,050 will be released 45 days after the closing of the transaction. The remaining installments will be released in equal installments of 98,175 shares within 30 days after the end of each quarter, including the quarter ended March 31, 2005, provided that Guangzhou 3G attains certain net income milestones by the end of each quarter.

Edgar Filing: PACIFICNET INC - Form 10QSB

The Sellers will be entitled to receive all of the PacificNet Shares if Guangzhou 3G has achieved cumulative net income for the year ended December 31, 2005 of not less than USD\$2,000,000. The Sellers appointed Tony Tong and Victor Tong, PacificNet's current CEO and President, respectively, as proxy for the Sellers for a period of 10 years with full power to vote the PacificNet Shares at all meetings of stockholders of the Registrant.

(iii) issuance of warrants to purchase up to 100,000 shares of the PacificNet's Common Stock. The exercise price of the warrants is the 5-Day Volume Weighted Average Price of the PacificNet's Common Stock prior to March 30, 2005. The warrant is exercisable for a period of 3 years.

PacificNet Holdings subscribed to 3G-BVI to purchase an additional 5,000 shares. The total purchase price for the Subscribed Shares is USD\$500,000, payable within 45 days after the delivery of (i) stock powers transferring the Sale Shares to PacificNet Holdings; (ii) stock certificates for the Sale Shares and the Subscribed Shares; (iii) an executed Subscription Agreement for the Subscribed Shares; and (iv) minutes of the Board of Directors and shareholders of Guangzhou 3G and 3G-BVI approving the transaction. Net assets acquired totaled \$253,000 representing total assets acquired of \$495,000 less liabilities assumed of \$242,000.

PACT included the financial results of the subsidiary in its consolidated 2005 financial results from the date of the purchase April 2005 through June 30, 2005. Guangzhou3G-WOFE was set up as a wholly-owned foreign enterprise ("WOFE") in the PRC immediately prior to the acquisition and therefore no unaudited pro forma results are required.

4. STOCKHOLDERS' EQUITY

For the six months period ended June 30, 2005, the Company issued (i) 280,225 shares of restricted common stock in connection with acquisitions of certain subsidiaries and (ii) 57,000 shares of common stock as a result of exercise of options and 600,000 shares of common stock from the exercise of warrants for cash consideration totaling \$981,400.

RECENT ACCOUNTING PRONOUNCEMENTS

Edgar Filing: PACIFICNET INC - Form 10QSB

In December 2004, the FASB issued SFAS No. 123 (Revised 2004) "Share-Based Payment" ("SFAS No. 123R"). SFAS No. 123R addresses all forms of share-based payment ("SBP") awards, including shares issued under employee stock purchase plans, stock options, restricted stock and stock appreciation rights. SFAS No. 123R will require the Company to expense SBP awards with compensation cost for SBP transactions measured at fair value. On March 29, 2005, the SEC issued Staff Accounting Bulletin (SAB) 107 which expresses the views of the SEC regarding the interaction between SFAS No. 123R and certain SEC rules and regulations and provides the SEC's views regarding the valuation of share-based payment arrangements for public companies. In April 2005, the SEC issued a release which amends the compliance dates for SFAS No. 123R. We expect the adoption of SFAS No. 123R and SAB 107 to have a material impact on the Company's financial statements.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections". SFAS No. 154 replaces APB Opinion No. 20 "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements". SFAS No. 154 requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. We do not expect the adoption of SFAS No. 154 to have any impact on the Company's financial statements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis or plan of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to accounts receivable reserves, provisions for impairment losses of affiliated companies and other intangible assets, income taxes and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

10

We believe the following critical accounting policies reflect our more significant estimates and assumptions used in the preparation of our consolidated financial statements:

ALLOWANCE FOR DOUBTFUL ACCOUNTS

We evaluate the collectibility of our trade receivables based on a combination of factors. We regularly analyze our significant customer accounts, and, when we become aware of a specific customer's inability to meet its financial obligations to us, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position, we record a specific reserve for bad debt to reduce the related receivable to the amount we reasonably believe is collectible. We also record reserves for bad debt for all other customers based on a variety of factors including the length of time the receivables are past due, the financial health of the customer, macroeconomic

Edgar Filing: PACIFICNET INC - Form 10QSB

considerations and historical experience. If circumstances related to specific customers change, our estimates of the recoverability of receivables could be further adjusted. In the event that our trade receivables become uncollectible, we would be forced to record additional adjustments to receivables to reflect the amounts at net realizable value. The accounting effect of this entry would be a charge to income, thereby reducing our net profit. Although we consider the likelihood of this occurrence to be remote based on past history and the current status of our accounts, there is a possibility of this occurrence.

INCOME TAXES - We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. We have considered future market growth, forecasted earnings, future taxable income, and prudent and feasible tax planning strategies in determining the need for a valuation allowance. We currently have recorded a full valuation allowance against net deferred tax assets as we currently believe it is more likely than not that the deferred tax assets will not be realized.

CONTINGENCIES - We may be subject to certain asserted and unasserted claims encountered in the normal course of business. It is our belief that the resolution of these matters will not have a material adverse effect on our financial position or results of operations, however, we cannot provide assurance that damages that result in a material adverse effect on our financial position or results of operations will not be imposed in these matters. We account for contingent liabilities when it is probable that future expenditures will be made and such expenditures can be reasonably estimated.

VALUATION OF LONG-LIVED ASSETS INCLUDING GOODWILL AND PURCHASED INTANGIBLE ASSETS

We review property, plant and equipment, goodwill and purchased intangible assets for impairment at least annually or whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. Our asset impairment review assesses the fair value of the assets based on the future cash flows the assets are expected to generate. An impairment loss is recognized when estimated undiscounted future cash flows expected to result from the use of the asset plus net proceeds expected from disposition of the asset (if any) are less than the carrying value of the asset. This approach uses our estimates of future market growth, forecasted revenue and costs, expected periods the assets will be utilized and appropriate discount rates. Such evaluations of impairment of long-lived assets including goodwill arising on a business combination and purchased intangible assets are an integral part of, but not limited to, our strategic reviews of our business and operations performed in conjunction with restructuring actions. When an impairment is identified, the carrying amount of the asset is reduced to its estimated fair value. Deterioration of our business in a geographic region or within a business segment in the future could also lead to impairment adjustments as such issues are identified. The accounting effect of an impairment loss would be a charge to income, thereby reducing our net profit.

Edgar Filing: PACIFICNET INC - Form 10QSB

industries in China, which includes the People's Republic of China (PRC), or mainland China, Hong Kong Special Administrative Region (HKSAR), and Macau Special Administrative Region. We intend to continue to grow our business by acquiring and managing growing technology and network communications businesses with established products and customers in China. Our current subsidiaries are grouped into the following three divisions providing various voice focused telecom services:

(1) Outsourcing Services [Human Voice Service]: including Business Process Outsourcing (BPO), CRM, call center, IT Outsourcing (ITO) and software development services. PacificNet's Outsourcing Services Group includes the following subsidiaries: PacificNet Epro, Smartime (aka Soluteck Shenzhen), and PacificNet Solutions. Our business process outsourcing services generate revenues from call center services, call center management software sales, and training and consulting. We invoice our call center clients monthly at per seat monthly rates, a base price plus commission per call, or a per hour charge rate, depending on the customer's preference. Our call center software clients pay per license, for which there is usually a one-time charge on sale of the software and annual maintenance fees for service. We charge per project for our consulting and training services and for our telecom VAS, which are invoiced throughout the project.

(2) Value-Added Telecom Services (VAS) [Machine Voice Service]: including Interactive Voice Response (IVR), SMS and related VAS. PacificNet's VAS Group includes the following subsidiaries: Linkhead, Clickcom, and Guangzhou 3G (aka Sunroom). Our telecom VAS often includes a post-sale service contract for systems integration and consulting services for which we bill separately.

(3) Communication Products Distribution Services Group [Voice Product Distribution Service]: including calling cards, GSM/CDMA/XiaoLingTong products, and multimedia self-service entertainment kiosks. This group includes the following subsidiaries: PacificNet Communications, Yueshen, and Cheer Era. Our calling card and related mobile telecom products are mostly sold cash-on-delivery.

Our clients include the leading telecom operators, banks, insurance, travel, marketing, and service companies, as well as telecom consumers, in Greater China. Clients include China Telecom, China Netcom, China Mobile, China Unicom, PCCW, Hutchison Telecom, CSL, SmarTone, Sunday, Swire Travel, Coca-Cola, SONY, Samsung, TNT Express, Huawei, TCL, Dun & Bradstreet, American Express, Bank of China, DBS, Hong Kong Government, and Hongkong Post. Headquartered in Hong Kong and Minneapolis USA, PacificNet employs over, 1400 staff in its various subsidiaries in China with offices Beijing, Shenzhen, Guangzhou, Shandong, and 27 provinces in China.

For the three months ended June 30, 2005, we continue to win business from high-profile Chinese and multinational companies conducting business in China such as China Mobile, China Unicom, China Telecom, Bank of China, Ping An Insurance, TCL, TNT Express, Watsons, Hutchison, etc. All of our business units remain strong, and we continue to focus on penetrating the CRM and VAS/IVR markets through organic growth and via acquisition. With the launch of the 'iPACT' IVR-Alliance program, we hope to sign up new local IVR service providers to join our unified brand and strong IVR content and service offerings, under a chain of unified service standard under the iPACT brand. We look forward to revenue growth, market share improvement, and stronger partnerships with all the major telecom operators and local IVR service providers in China. With business activity increasing across all of our units, we are excited about the prospects for the Company in the coming quarters. We believe that our fundamentals are stronger than ever and that market opportunities for sustainable growth and profitability in China's CRM and VAS sector are vast. The following are some of the highlights in the second quarter:

Edgar Filing: PACIFICNET INC - Form 10QSB

- o We have formed an alliance with the largest Call Center in Japan, under which we will be the designated agent for Bellsystem24, Inc. in China and Hong Kong. Bellsystem24 is Japan's largest telemarketing, call center, and CRM services company with over 4,300 clients, 22,135 communication service representatives, 9,500 workstations, 160 system engineers, and 31 offices in Japan.
- o We have successfully deployed its WISE-xb Interactive Voice Response System (IVRS) Contact Center Solution for TNT Hong Kong, a division of TPG NV and the world's leading business to business express delivery company, as TNT's key customer relationship management (CRM) initiative to enhance its customer services.
- o Watsons Water selected PacificNet Epro's WISE-xb Multimedia Contact Center System as its customer services initiative for its customer services center.
- o We also continue to win high-profile government and private sector projects. We won a project tender by the City of Guangzhou, one of the largest and most affluent cities in China, to develop an internet and intranet based e-business platform for Guangzhou Metro.
- o We expanded our operations by acquiring entities that operate as service providers in the VAS & IVR industries, which have grown rapidly in China in recent years and to further develop products and services organically. On the acquisition front, the purchase of Guangzhou 3G Information Technology Co. Ltd. in April was a significant event. We purchased a 51% controlling interest, which is expected to help expand PacificNet's value-added service coverage to all of China through Guangzhou 3G's experienced operation team of 285 staff and sales offices in 26 provinces in China. Guangzhou 3G is one of the largest value-added telecom and information services providers in China with both voice and data connections to the four major telecom operators including China Mobile, China Unicom, China Telecom, and China Netcom, covering both mobile and fixed-line networks.
- o In July, we announced the launch of a new IVR-Alliance program called "iPACT" at the 2005 Voice Value-added Service (VAS) Conference. Under this iPACT program, PacificNet plans to sign up qualified Voice-VAS and IVR service providers as profit sharing members in China under a unified brand "iPACT". PacificNet will provide to qualified VAS-Alliance partners, on a profit sharing basis, all of the hardware, software, application, and content for VAS, including a variety of IVR and other wireless and fixed-line VAS content. Mobile and fixed-line phone users can access PacificNet's VAS-Alliance services through Guangzhou 3G presence in 26 provinces in China.
- o PacificNet Clickcom, reached an agreement with China Unicom's Guangdong Branch to launch a new Mobile Mailbox Service called "UMAIL" for Unicom's CDMA users on its WAP Portal website. Guangdong is one of the largest and most affluent provinces in China and represents a significant opportunity for PacificNet to offer value added telecom services. As of June, 2005, China Unicom has 30.47 million CDMA users and 8.5 million WAP users nationwide. China Unicom's CDMA users in Guangdong may go to its WAP Portal, enter UMAIL service, and be able to send and receive e-mail by mobile phone.

The increase in revenues is primarily due to the new revenues as a result of the acquisition of Guangzhou 3G completed in April 2005.

Several of our businesses experience fluctuations in quarterly performance. Traditionally, the first quarter from January to March is a low season for our call center business due to the long Lunar New Year holidays in China. Revenues from the VAS and IVR segment can vary from quarter to quarter due to new product launches and the seasonality of certain product lines.

Our operations include the following three groups:

- (1) Outsourcing Services: including Business Process Outsourcing (BPO), call center, IT Outsourcing (ITO) and software development services.
- (2) Value-Added Telecom Services (VAS): including Interactive Voice Response (IVR), SMS and related VAS.
- (3) Communication Distribution Services: including calling cards, GSM/CDMA/ XiaoLingTong products, multimedia self-service Kiosks.

Gross margin for the three months ended June 30, 2005, was 21% of total revenues compared to 16% for the same period in 2004. We believe that our gross margin overall approximates the industry standards. The improvement on gross margins for both 3 months and 6 months from the prior periods were primarily due to higher margin acquisitions added to PACT in 1Q and 2Q in 2005, such as PACT 3G and Clickcom, both WOFEs are set up with revenues net of operating costs from the PRC operating entities. In addition, the proportionate increase of high-margin investees in groups (1) outsourcing services and group (2) VAS services have outgrown the 2-5% of low-margin investees under group 3 Communication Distribution Services for both quarters.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, general and administrative expenses totaled \$1,032,000 for the three months ended June 30, 2005, an increase of \$157,000, from \$875,000 for the three months ended June 30, 2004. As a result, such interim estimates are subject to change as the year progresses and more information becomes available.

MINORITY INTERESTS. Minority interests for the three months ended June 30, 2005 totaled \$(745,000), compared with \$(323,000) for the same period in the prior year, which represents increased number of our subsidiaries resulted in increased outside ownership interests consolidated with the parent for financial reporting purposes.

As contrast to prior period revenue, contributors by Epro and Linkhead, in the aggregate, 94% of total revenues, revenues for the six months ended June 30, 2005 were mainly derived from the following 3 sources:

- (a) Newly acquired subsidiaries in Group (1) Outsourcing Services such as Smartime has added approx. US\$1.9m to 6 months ended June 30, 2005 as compared to the same period prior year;
- (b) Newly acquired subsidiary in Group (2) Value-added Telecom Services, such as PACT 3G and Clickcom have together added approx. US\$1.1m revenues in the six months ended June 30, 2005 as compared to the same period prior year.
- (c) The remaining incremental revenues for six months ended June 30, 2004 as compared to prior period were derived from growth from existing subsidiaries such as Yue Shen (Group 3), Linkhead (Group 2), EPRO (Group 1), for US\$5.1m, US\$0.6m and US\$0.3m respectively.

GROSS MARGIN AND GROSS MARGIN RATIO. Gross margin for the six months ended June 30, 2005 was \$3,865,000, an increase of \$1,321,000 from \$2,544,000 for the six months ended June 30, 2004. As explained above, the improvement on gross margins for both 3 months and 6 months from the prior periods were primarily due to higher margin acquisitions added to PACT in 1Q and 2Q in 2005, such as PACT 3G and Clickcom, both WOFEs are set up with revenues net of operating costs from the PRC operating entities. INFLATION. Inflation has not had a material impact on the Company's business in recent years.

CURRENCY EXCHANGE FLUCTUATIONS. All of the Company's revenues are denominated either in U.S. dollars or Hong Kong dollars, while its expenses are denominated primarily in Hong Kong dollars and Renminbi ("RMB"), the currency of the People's Republic of China. The value of the RMB-to-U.S. dollar or Hong Kong dollar-to-United States dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions. Since 1994, the conversion of Renminbi into foreign currencies, including U.S. dollars, has been based on rates set by the People's Bank of China, which are set daily based on the previous day's interbank foreign exchange market rates and current exchange rates on the world financial markets. Since 1994, the official exchange rate generally has been stable. Recently there has been increased political pressure on the Chinese government to decouple the RMB from the United States dollar. Although a devaluation of the Hong Kong dollar or RMB relative to the United States dollar would likely reduce the Company's expenses (as expressed in United States dollars), any material increase in the value of the Hong Kong dollar or RMB relative to the United States dollar would increase the Company's expenses, and could have a material adverse effect on the Company's business, financial condition and results of operations. The Company has never engaged in currency hedging operations and has no present intention to do so.

17

On July 21, 2005, the Chinese government changed its policy of pegging the value of the Renminbi to the U.S. dollar. This revaluation of the Renminbi is based on a conversion of Renminbi (RMB) into United States dollars (USD) at an exchange rate of USD1.00 = RMB8.11. Under the new policy, the Renminbi will be permitted to fluctuate within a band against a basket of certain foreign currencies. This change in policy resulted initially in an approximately 2.0% appreciation in the value of the Renminbi against the U.S. dollar and could result in further and more significant appreciations. Although the Company generates substantially all of its revenues in Renminbi which has become more valuable in U.S. dollar terms, the Company's U.S. dollar cash deposits are subject to foreign currency translations which will impact net income.

For the financial figures stated in this Form 10-QSB, the conversion of Renminbi (RMB) into U.S. dollar (USD) is based on the noon buying rate of USD1.00=RMB8.2765 on June 30, 2005 in The City of New York for cable transfers

of RMB as certified for customs purposes by the Federal Reserve Bank of New York. Therefore, the conversion rate is based on the rate prior to the Renminbi revaluation on July 21, 2005.

There is a risk that fluctuations in the value of the Renminbi with respect to other currencies could adversely affect our business and financial results.

OFF-BALANCE SHEET ARRANGEMENTS. We had no outstanding derivative financial instruments, off-balance sheet guarantees, interest rate swap transactions or foreign currency forward contracts. We did not engage in trading activities involving non-exchange traded contracts during 2005.

CONTRACTUAL OBLIGATIONS.

We have significant cash resources to meet our contractual obligations as of June 30, 2005, as detailed below:

Contractual Obligations	Payments Due by Period				
	Less than Total	1 year	1-3 years	4-5 years	After 5 y
	-----	-----	-----	-----	-----
Line of credit	\$ 793,000	\$ 793,000	--	--	
Bank Loans	\$2,123,000	\$ 923,000	\$1,200,000	--	
Capital leases	\$ 271,000	\$ 135,000	\$ 136,000	--	
	-----	-----	-----		
Total cash contractual obligations	\$3,187,000	\$1,851,000	\$1,336,000

CONCENTRATION OF CREDIT RISK. All of the Company's revenues are derived in Asia and Greater China. The Company does not have any single customer that accounts for more than 10% of its revenues or 10% of its purchases. If the Company was unable to derive any revenue from Asia and Greater China, it would have a significant, financially disruptive effect on the normal operations of the Company. Based on the current economic environment in China, the Company does not expect any material adverse impact to its business, financial condition and results of operations.

SEASONALITY AND QUARTERLY FLUCTUATIONS. Several of our businesses experience fluctuations in quarterly performance. Traditionally, the first quarter from January to March is a low season for our call center business due to the long Lunar New Year holidays in China. Revenue and income from operations for the call center and VAS tend to be higher in the fourth quarter due to special holiday promotions. Internet/Direct Commerce revenues also tend to be higher in the fourth quarter due to increased consumer spending during that period. Revenues from the VAS and IVR segment can vary from quarter to quarter due to new product launches and the seasonality of certain product lines.

We have not identified any significant deficiencies or material weaknesses in our internal controls, and therefore there were no corrective actions taken.
