**Item 2.02. Results of Operations and Financial Condition**

OGE Energy Corp. (the "Company") is the parent company of Oklahoma Gas and Electric Company ("OG&E"), a regulated electric utility with approximately 765,000 customers in Oklahoma and western Arkansas, and Enogex Inc. and its subsidiaries ("Enogex"), a natural gas pipeline business with principal operations in Oklahoma.

On May 7, 2008, the Company issued a press release describing the Company's consolidated financial results for the quarter ended March 31, 2008, which is furnished as Exhibit 99.01 and incorporated herein by reference. As described in the press release, the Company reported earnings of \$0.14 per diluted share in the first quarter of 2008 compared to \$0.19 per diluted share in the first quarter of 2007. Lower earnings were largely a result of higher operation and maintenance expenses at OG&E in the first quarter of 2008 as compared to the first quarter of 2007. Offsetting these decreases in earnings were higher gross margin on revenues, volumes and commodity price spreads at Enogex in the first quarter of 2008 as compared to the first quarter of 2007. Also, the Company reaffirmed its 2008 earnings guidance of between \$2.40 to \$2.60 per diluted share but revised the guidance for the Company's individual business segments. For further information, see the press release attached as Exhibit 99.01.

OG&E posted a net loss of \$0.12 per diluted share in the first quarter of 2008 as compared to earnings of \$0.02 per diluted share in the first quarter of 2007. Enogex posted earnings of \$0.24 per diluted share in the first quarter of 2008 as compared to \$0.17 per diluted share in the first quarter of 2007. The holding company, including results from its marketing business, posted earnings of \$0.02 per diluted share in the first quarter of 2008 as compared to break-even results in the first quarter of 2007.

## **OGE Energy Corp. announces 1<sup>st</sup> quarter results**

### *Company increases Enogex 2008 earnings guidance*

OKLAHOMA CITY – OGE Energy Corp. (NYSE: OGE), the parent company of Oklahoma Gas and Electric Company (OG&E) and Enogex LLC, today reported earnings of \$0.14 per diluted share for the three months ended March 31, 2008, compared with \$0.19 per share for the first quarter of 2007.

Enogex, an unregulated natural gas pipeline business, recorded earnings of \$0.24 per share, compared with \$0.17 per share in the year-ago quarter. OG&E, a regulated electric utility, posted a loss of \$0.12 per share, compared with earnings of \$0.02 per share in the comparable period last year. The holding company, including results from its marketing business, posted earnings of \$0.02 per share in the first quarter, compared with break-even results in the first quarter of 2007.

“We are pleased with our progress to position OGE for growth, as strong business fundamentals continue in both businesses,” said Pete Delaney, chairman, president and CEO of OGE Energy. “Enogex continues to take advantage of the positive midstream environment, as evidenced by the 95 percent increase in spending on capital projects this year compared to 2007 to support our customers’ natural gas production. Sales growth at OG&E remains in line with historical levels as the economy in our service area continues to outperform the national economy.”

### **Discussion of First Quarter 2008**

**OGE Energy** reported consolidated operating revenues of \$995 million in the first quarter of 2008, compared with \$882 million a year earlier. The first-quarter gross margin on revenues was \$246 million, compared with \$215 million in the year-earlier quarter. Operating income was \$48 million in the first quarter, compared with \$46 million in the year-earlier quarter. Net income was \$13 million in the first quarter, compared to \$17 million a year ago.

**OG&E** reported gross margin on revenues of \$146 million in the first quarter, compared with \$141 million in the comparable quarter last year. The increase was due primarily to customer growth and higher rates.

OG&E reported a \$20 million increase in operation and maintenance (O&M) expenses, \$94 million in the first quarter of 2008 compared with \$74 million a year earlier, due to various factors. These factors included a one-time, pre-tax charge of \$9.5 million in the 2008 first quarter to correct the method of applying employee-related and overhead costs to capital projects. In March 2008, OG&E determined that its method of applying O&M costs to capital projects had unintentionally resulted in the over-capitalization of some of those costs in prior years. Other factors affecting O&M expenses were an overhaul of a generating unit in one of OG&E’s power plants that was completed in the first quarter of 2008 and significant capital expenditures in response to a January 2007 ice storm, which had the effect of reducing O&M spending in the first quarter of 2007.

## Edgar Filing: OGE ENERGY CORP - Form 8-K

Largely as a result of these increases in O&M expenses, OG&E recorded a first-quarter 2008 net loss of \$11.3 million, compared with net income of \$1.9 million a year ago.

---

## Edgar Filing: OGE ENERGY CORP - Form 8-K

*Enogex* reported gross margin on revenues of \$95 million in the first quarter, compared with \$74 million in the comparable quarter last year. The increase was primarily due to higher margins, volumes and commodity price spreads in the gathering and processing business. Net income was \$23 million in the first quarter, compared with \$16 million in the same period last year.

### 2008 Outlook

OGE Energy has reaffirmed its 2008 consolidated earnings guidance at \$2.40 - \$2.60 per diluted share. Though the consolidated earnings guidance has not changed, the guidance for individual business segments has been revised to reflect an increase in projected earnings at Enogex, due primarily to more favorable commodity price assumptions, and a decrease in projected earnings at OG&E, due primarily to the increased O&M expenses discussed above. The guidance assumes approximately 93.1 million average diluted shares outstanding, normal weather and excludes any gains on asset sales.

The 2008 guidance includes:

- OG&E, \$1.50 to \$1.61 per share on net income of \$140 million to \$150 million.
- Enogex, \$0.95 to \$1.08 per share on net income of \$88 million to \$101 million.
- Holding company, a loss of \$0.04 to \$0.05 per share on a net loss of \$4 million to \$5 million.

### Conference Call Webcast

OGE Energy will host a conference call for discussion of the results and the outlook for 2008 on Wednesday, May 7, at 8 a.m. CDT. The conference, hosted by James R. Hatfield, senior vice president and CFO, will be available through [www.oge.com](http://www.oge.com).

OGE Energy is the parent company of Oklahoma Gas and Electric Company (OG&E), which serves more than 765,000 customers in a service territory spanning 30,000 square miles in Oklahoma and western Arkansas, and of Enogex LLC, a midstream natural gas pipeline business with principal operations in Oklahoma.

Some of the matters discussed on this news release may contain forward-looking statements that are subject to certain risks, uncertainties and assumptions. Such forward-looking statements are intended to be identified in this document by the words “anticipate”, “believe”, “estimate”, “expect”, “intend”, “objective”, “plan”, “possible”, “potential”, “project” and similar expressions. Actual results may vary materially. Factors that could cause actual results to differ materially include, but are not limited to: general economic conditions, including the availability of credit, actions of rating agencies and their impact on capital expenditures; the Company’s ability and the ability of its subsidiaries to obtain financing on favorable terms; prices of electricity, coal, natural gas and natural gas liquids, each on a stand-alone basis and in relation to each other; business conditions in the energy and natural gas midstream industries; competitive factors including the extent and timing of the entry of additional competition in the markets served by the Company; unusual weather; availability and prices of raw materials for current and future construction projects; federal or

state legislation and regulatory decisions (including the approval of regulatory filings related to the
