A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

ROAMING MESSENGER, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2004

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included. Operating results for the nine-month period ended March 31, 2004 are not necessarily indicative of the results that may be expected for the year ending June 30, 2004. For further information refer to the financial statements and footnotes thereto

Edgar Filing: ROAMING MESSENGER INC - Form 10QSB

included in the Company's Form 10-SB for the year ended June 30, 2003.

2. CAPITAL STOCK

The weighted average number of shares used for the basic and diluted loss per share for 2003 has been restated to reflect the recapitalization transaction that occurred in April 2003. The weighted average number of shares used for the calculation of diluted loss per share is the same as the one used for the basic loss per share. The inclusion of any potential shares to be issued would have had an anti-dilutive effect due to the Company generating a loss.

3. STOCK OPTIONS AND WARRANTS

Stock-Based Compensation

 The Company accounts for employee stock option grants in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and related interpretations (APB 25), and has adopted the "disclosure only" alternative described in Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, amended by SFAS No. 148 Accounting for Stock-Based Compensation-Transition and Disclosure.

SFAS No. 123, Accounting for Stock-Based Compensation, requires pro forma information regarding net income (loss) using compensation that would have been incurred if the Company had accounted for its employee stock options under the fair value method of that statement. Options to purchase 2,465,994 and 0 shares of Roaming Messenger, Inc. were granted during the nine months ended March 31, 2004 and 2003, respectively. The fair value of options granted, which have been estimated at \$60,982 and \$0, respectively, at the date of grant were determined using the Black-Scholes Option pricing model with the following assumptions:

	2004 ----	2003 ----
Risk free interest rate	3.18% - 3.83%	N/A
Stock volatility factor	0.01	N/A
Weighted average expected option life	4 years	N/A

CURRENT OVERVIEW

The Company has developed a proprietary wireless messaging solution called "Roaming Messenger" for delivering real-time information for homeland security, emergency response, military and enterprise applications. Unlike solutions based on existing messaging technology such as e-mail, text messaging, and voicemail, Roaming Messenger packages time-critical information into "smart courier" messages. These messages automatically roam throughout the wired and wireless worlds - from mobile devices to desktop PCs to central servers - tracking down people and obtaining responses in real-time.

The Roaming Messenger product line is a new line from which the Company has not yet earned significant revenue. The Company has established a number of strategic partners in several vertical markets for beta testing and pilot programs. Roaming Messenger is gaining the most traction in the Public Safety and Emergency Response industry where advanced real-time wireless messaging is a valuable addition to existing solutions. Roaming Messenger is primarily distributed via a Value-Added-Reseller ("VAR") or private labeled model where it is an add-on to existing solutions such as personnel scheduling, threat detection and response, and computer aided dispatch. The Company intends to focus on the Public Safety vertical market over the next few quarters by establishing more channel partners and VARs.

In facilitating longer term strategic plans, the Company is engaged in early developments in the enterprise application sector as well. Current opportunities include Automated Process Control, Mobile Field Service, Remote Monitoring, Mobile Commerce and Mobile Entertainment applications. All of these are expected to be significant market opportunities for the Roaming Messenger technology within the next 2 to 5 years.

The Company conducts most of its operations in its wholly owned subsidiary, Warp 9, Inc. ("W9"), and financial statements for the Company and W9 are consolidated for reporting purposes. In addition to the Roaming Messenger product, W9 currently offers two primary web-based e-commerce software products, Internet Commerce System and Email Marketing System, to the catalog and retail

-10-

industry. These products were introduced for sale to the Business market before the development of the Roaming Messenger product and have been a source of revenue for W9 since 1999. Customers of these e-commerce products pay a recurring monthly fee for their access and use. A majority of the total revenues are recurring monthly revenue from e-commerce products. Every new customer is expected to increase the topline for at least several quarters. From an operational perspective the e-commerce product line is already profitable. Revenue from the past quarters has been relatively stable. The Company anticipates steady growth from the e-commerce products operation as a profit center.

The Company will continue to fulfill its working capital requirements through the private placement of Common Stock. A majority of the investment

Edgar Filing: ROAMING MESSENGER INC - Form 10QSB

proceeds will be allocated for the sales, marketing and technical development of the Roaming Messenger product line. The Company believes most of its rapid growth in revenue and shareholder value, if achieved, will come from the Roaming Messenger product line as the wireless industry continues to grow.

RESULTS OF OPERATIONS FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2004 COMPARED TO THE SAME PERIOD IN 2003

Total revenue for the three-month period ending March 31, 2004 was \$234,701 as compared to \$235,785 for the three-month period ending March 31, 2003.

Operating expenses increased from \$254,245 for the three months ended March 31, 2003 to \$567,996 for the three months ended March 31, 2004. The large increase in operating expenses between the two periods is due to the fact that prior to March 31, 2003, the Company was not a public company and had minimal working capital. Primary sources of increase in operating expenses include: an increase of \$73,242 in Research and Development expenses, and an increase of \$237,839 in Selling and General and Administrative expenses which include additional personnel and new expenses associated with being a public company.

The \$237,829 increase in Selling and General Administrative expenses includes \$40,000 of stock compensation arising from the issuance of 500,000 shares of restricted common stock paid to consultants for services rendered. The share price used for expensing stock compensation is equivalent to the share price of a concurrent private placement of restricted common stock. The Company incurred \$65,000 of cash expense for investor relation services provided by two investor relations firms that have been utilized by the Company.

Operating costs are expected to exceed revenue in the foreseeable future as the Company continues to increase sales and marketing efforts as well as increasing staff.

For the three months ended March 31, 2004, the Company's consolidated net loss was (\$359,622) as compared to a consolidated net loss of (\$49,031) for the three months ended March 31, 2003.

-11-

LIQUIDITY AND CAPITAL RESOURCES

Cash flow used in investing activities was (\$25,507) for the nine months ended March 31, 2004 as compared to cash used in investing activities of (\$3,708) during the nine months ended March 31, 2003. Cash flow from financing activities was \$2,286,638 for the nine months ended March 31, 2004 as compared to cash provided by financing activities of \$133,607 during the nine months ended March 31, 2003. For the nine months ended March 31, 2004, the Company's capital needs have primarily been met from the proceeds of a series of private placements of Common Stock made by the Company. See "Part II - Item 2. Changes in Securities."

The Company will need to obtain additional operating capital to permit continuing execution of its business plan. The Company anticipates that it will obtain the additional working capital it requires through the private placement of Common Stock to domestic accredited investors pursuant to Regulation D of the

Edgar Filing: ROAMING MESSENGER INC - Form 10QSB

Securities Act of 1933, as amended (the "Act"), and to offshore investors pursuant to Regulation S of the Act. There is no assurance that the Company will obtain the additional working capital that it needs through the private placement of Common Stock. The Company has incurred operating deficits since inception, which are expected to continue until its business model is fully developed.

Item 3. CONTROLS AND PROCEDURES

The Company's Chairman, Chief Executive Officer, and Chief Financial Officer has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report and, based on this evaluation, has concluded that the disclosure controls and procedures are effective.
