TELESP CELULAR PARTICIPAÇÕES S.A.  
public company

Telesp Celular Participações S.A. ( TCP ) and Tele Centro Oeste Celular Participações S.A. ( TCO and, together with TCP, the Companies ) hereby clarify the following in connection with the merger of shares of TCO by TCP, for the conversion of TCO into a wholly owned subsidiary of TCP ( Merger of Shares ).

1. The decision issued by the Brazilian Securities Commission (*Comissão de Valores Mobiliários*, or CVM ), on December 26, 2003, by a majority of votes of the members of its Board, concluded that the Merger of Shares did not fully comply with current laws in force.
2. The Companies reiterate their understanding that the Merger of Shares is structured, announced and being implemented strictly in accordance with all applicable laws and grants equitable treatment for the shareholders of both Companies. This equitable treatment was attested to by economic and financial analyses prepared by Citigroup Global Markets Inc. and Merrill Lynch & Co., financial institutions well known to have the technical capacity and experience required for such judgment.
3. Furthermore, the management of the Companies consider that the Merger of Shares results in significant advantages for their shareholders, as it allows them to participate in the combined businesses of both Companies and increases the liquidity and trading volume of the shares, after its implementation. The Merger of Shares also eliminates costs and overlap resulting from the existence of two separate Companies with different shareholders.
4. The Companies will bring the appropriate legal claims for the purpose of not allowing the CVM Decision to prevail, since they understand it to be illegal and, in that manner, to prove definitively that the actions taken and proposed by the Companies and their managers, in the course of the Merger of Shares, contrary to the conclusions set out in the CVM Decision, are in accordance with applicable laws and grant equitable treatment for all the shareholders involved.
5. Although the Companies disagree with the arguments and conclusion stated in the the CVM Decision and continue to be of the opinion that the Merger of Shares would be the best alternative for both Companies and their shareholders, they consider that the CVM Decision makes uncertain, in practical terms, the implementation of the Merger of Shares, as originally proposed, due to the potential obstacles that may be created by third parties. Therefore, taking into account the best interest of their shareholders, the management of TCO and TCP have concluded that the most adequate and opportune decision in light of this situation is to cancel the Merger of Shares.
6. Notwithstanding the foregoing, the Companies intend to maximize the generation of synergies between them with the purpose of increasing the value of both Companies. Further to the actions already taken in this regard, the boards of officers of TCP and TCO intend to submit to the approval of their boards of directors a proposal to incorporate the TCO investment held by TCP into TCO in order to allow the amortization of the goodwill related to the acquisition by TCP of the TCO common shares. The proposal will be implemented in strict conformity with CVM Instruction 319 using the option contemplated by Article 7 of that instruction and CVM Instruction 349 and, therefore, without the immediate issuance of shares for the incorporation of that investment. Shares will be issued only after the tax benefits of such amortization are effectively obtained by TCO. All terms and conditions of this transaction will be announced immediately after they have been defined and approved by the respective boards of directors of the Companies.
7. Finally, TCP clarifies that the conversion of preferred shares into common shares, which would have been implemented in order to enable the Merger of Shares and that was conditioned upon the occurrence of the Merger of Shares, will no longer be implemented. Requests for conversion that have already been made will be cancelled, and the shares will be released for trading.
