LML PAYMENT SYSTEMS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The consolidated balance sheet as of September 30, 2001, the consolidated statements of operations for the three months and six months ended September 30, 2000 and 2001, and the consolidated statements of cash flows for the six months ended September 30, 2000 and 2001, of LML Payment Systems Inc. and its subsidiaries (collectively, the "Corporation") are unaudited. The Corporation's consolidated balance sheet as of March 31, 2001, was derived from audited financial statements. In the opinion of management, all adjustments necessary for a fair presentation of such financial statements are included herein. Other than those discussed in the notes below, such adjustments consist only

of normal recurring items. Interim results are not necessarily indicative of results for a full year. The Corporation's consolidated financial statements and notes are presented in accordance with generally accepted accounting principles in Canada for interim financial information and in accordance with the instructions for Form 10-Q and Article 10 of Regulation S-X, and do not contain certain information included in the Corporation's consolidated audited annual financial statements and notes. The consolidated financial statements and notes appearing in this report should be read in conjunction with the Corporation's consolidated audited financial statements and related notes thereto, together with management's discussion and analysis of financial condition and results of operations, contained in the Corporation's Annual Report on Form 10-K for the fiscal year ended March 31, 2001, as filed with the Securities and Exchange Commission on June 29, 2001 (file no. 0-13959). Certain of the prior period financial statement amounts have been reclassified to conform to the current period presentation.

2. GOODWILL

All of the Corporation's goodwill is associated with the entire company ("enterprise level") rather than any specific identifiable asset or product line. Each quarter the Corporation evaluates whether an impairment of this enterprise goodwill may exist by comparing the book value of the Corporation's common stock to the product of (i) the number of shares of common stock issued and outstanding at the end of the quarter and (ii) the market price of the common stock at the end of the quarter. If the product of shares and market price exceeds the book value, impairment does not exist. If the product of shares and market price is less than book value, the Corporation evaluates whether the condition is other than temporary, based primarily on fluctuations in the Corporation's stock price, and considering all other relevant evidence. If the product of shares and market price is continuously less than the book value for a period of six months the Corporation considers all other relevant factors to determine whether the current market condition would be deemed to be other than temporary. If the Corporation determines that the condition is other than temporary, additional amortization would be recorded for the impairment equal to the excess book value at the end of the quarter. See also Note 3 - "Recent Accounting Pronouncements."

Goodwill has been recorded as follows:					September 30, 2001 \$	March 31, 2001 \$
	Total Goodwill		Accumulated Amortization		Net	Net
CFDC Holdings Corp. *	4,334,368		794,634		3,539,734	3,756,453
National Recovery Systems, Ltd. of America*	2,891,793		506,064		2,385,729	2,530,319
Phoenix EPS, Inc. (a) *	539,805		67,476		472,329	499,320
Check Technologies, Inc. (b) *	<u>511,846</u>		<u>63,870</u>		<u>447,976</u>	<u>473,573</u>
	<u>8,277,812</u>		<u>1,432,044</u>		<u>6,845,768</u>	<u>7,259,665</u>

Edgar Filing: LML PAYMENT SYSTEMS INC - Form 10-Q

* Effective April 1, 2001, these subsidiary companies were merged into LML Payment Systems Corp. (formerly known as ChequeMARK Inc.).

a) On July 9, 2000, the Corporation purchased all of the issued and outstanding shares of Phoenix EPS, Inc. ("Phoenix") in exchange for 220,857 shares of the Corporation's common stock with a fair market value of \$4.5 million. Phoenix, located in Scottsdale, Arizona, engineered and marketed electronic payment system software solutions to the retail industry. Phoenix also provided selective routing, including real-time monitoring of check, debit, credit and EBT transactions for authorization and settlement through its transaction processing product REPS. In connection with the acquisition, the Corporation incurred transaction costs consisting primarily of professional fees of \$126,205 and a finder's fee of 7,730 shares of the Corporation's common stock with a fair market value of \$157,500, resulting in a total purchase price of \$4,783,705. The acquisition was accounted for as a purchase business combination; accordingly, the results of operations of Phoenix have been included with the Corporation's results of operations since July 9, 2000.

The total purchase price paid for the Phoenix acquisition was allocated based on the estimated fair values of the assets acquired as determined by the cost and residual method valuation approaches as follows:

			\$
Software			4,243,900
Goodwill			539,805
			4,783,705

A total of approximately \$4.2 million of the purchase consideration was allocated to software, which is being depreciated over 5 years. Goodwill is being amortized over ten years.

b) On July 22, 2000, the Corporation purchased all of the issued and outstanding shares of Check Technologies, Inc. ("Check Technologies"), a Dallas-based check verification and recovery business, in exchange for 22,987 shares of the Corporation's common stock with a fair market value of \$250,000 and \$250,000 cash. The Corporation also agreed to pay to certain former Check Technologies shareholders and a former employee a total of \$150,010 pursuant to separate non-compete agreements having a maximum term of three (3) years. The former employee and one of the former shareholders of Check Technologies were each paid additional consideration of \$25,000 in the first year upon satisfaction of certain conditions. The Corporation is obligated to pay additional consideration of \$25,000 to each of these persons in each of the second and third years of the terms of their respective agreements. The non-compete agreement payments are recorded as other assets, and the carrying value net of accumulated amortization at March 31, 2001, was \$160,722. In connection with the acquisition, the Corporation incurred transaction costs consisting primarily of professional fees of \$43,088 and a finder's fee of \$26,020, resulting in a total purchase price of \$769,118. The acquisition was accounted for as a purchase business combination; accordingly, the results of operations of Check Technologies have been included with the Corporation's results of operations since July 22, 2000.

The total purchase price paid for the Check Technologies acquisition was allocated based on the estimated fair values of the assets acquired as follows:

			\$
Net assets acquired			57,262

Edgar Filing: LML PAYMENT SYSTEMS INC - Form 10-Q

Identifiable intangible assets			200,010
Goodwill			<u>511,846</u>
			<u>769,118</u>

c) The following summary, prepared on an unaudited pro forma basis, reflects the condensed consolidated results of operations for the six months ended September 30, 2000 and 2001, assuming Phoenix and Check Technologies had been acquired as of April 1, 2000:

- 5 -

		PRO FORMA (UNAUDITED) Six months ended September 30		
		2000 \$		2001 \$
Revenue		5,320,154		4,701,605
Net Loss		<u>(1,609,905)</u>		<u>(3,702,272)</u>
Basic net loss per share		<u>(0.11)</u>		<u>(0.20)</u>

The pro forma results are not necessarily indicative of what would have occurred if the acquisitions had been in effect for the periods presented and are not intended to be a projection of future results. During the six months ended September 30, 2001 the Corporation had additional costs related to the development of the Corporation's data center. During the six months ended September 30, 2000, Phoenix recorded software license and software development revenue associated with the REPS system. The Corporation has discontinued providing licensing of the REPS system and therefore recorded no revenue from this service.

d) The purchase price for each of Phoenix and Check Technologies was paid either entirely or partially with shares of the Corporation's common stock. As part of each transaction, the Corporation agreed to certain price protection covenants for the benefit of the former shareholders of the acquired companies. In the event the value of the shares of the Corporation's common stock exchanged for the shares of the acquired company's stock decreases below the deemed issue price per share of the Corporation's common stock, and the former shareholders of the acquired company sell such shares of the Corporation's common stock at a lower price after the expiration of any applicable hold period and within a specified period of time thereafter, such shareholders would have a right to receive additional shares of the Corporation's common stock. On June 27, 2001, the Corporation issued 679,134 shares of common stock to the former shareholders of Phoenix under the price protection covenants. The issuance of these shares did not result in additional purchase consideration, but only an increase in the Corporation's common shares outstanding.

3. Recent Accounting Pronouncements

In July 2001, the Financial Accounting Standards Board issued the accounting rules governing business combinations, goodwill and intangible assets. These rules are Statement of Financial Accounting Standards No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets. With the adoption of Statement 142, goodwill is no longer subject to amortization over its estimated useful life. Rather, goodwill will be subject to at least an annual assessment for impairment by applying a fair-value-based test at the reporting units level. Impairment loss would be recognized to the extent the carrying amount of goodwill exceeds the implied fair value. Under the new rules, an acquired intangible asset should be separately recognized if the benefit of the intangible asset is obtained through contractual or other legal rights, or if the intangible asset can be sold, transferred, licensed, rented, or exchanged, regardless of the acquirer's intent to do so. Determining the useful lives of intangible assets will require considerable judgment and fact-based analysis. The Corporation plans to adopt the provisions of this standard in fiscal 2003, beginning April 1, 2002. Upon its adoption, the Corporation plans to conform its accounting policy to the requirements in this standard.

Management believes this standard may have a significant non-cash impact on the Corporation's financial statements, as it may not allow for amortization of goodwill, which currently approximates \$830,000 annually. At this time the Corporation has not determined how goodwill will be allocated to specific reporting units as of April 1, 2002, as the Corporation is in the process of evaluating its reporting units. Accordingly, the Corporation has not made a determination about whether or not an impairment charge will be necessary upon adoption of the new standard.

- 6 -

4. Reconciliation of United States to Canadian Generally Accepted Accounting Principles

These financial statements are prepared using Canadian generally accepted accounting principles ("CDN GAAP") which do not differ materially from United States generally accepted accounting principles ("U.S. GAAP") with respect to the accounting policies and disclosures in these financial statements except as set out below:

- a. Under U.S. GAAP, the Corporation could not effect the reduction in deficit of \$22,901,744 (performed in fiscal 2001 and disclosed in the Corporation's Form 10-K for the fiscal year ended March 31, 2001) by reducing the stated capital of the shares of the Corporation's common stock.
- b. Under U.S. GAAP, the Corporation follows Financial Accounting Standards No. 123 "Accounting for Stock Based Compensation" for options issued to a non-employee. The Corporation's policy is to record the compensation when the options vest. During the three months ended September 30, 2000, options to purchase 39,999 shares of the Corporation's common stock issued to a non-employee vested.

Adjustments under U.S. GAAP result in changes to the Consolidated Statement of Operations of the Corporation as follows:

	Three months ended September 30		Six months ended September 30
--	------------------------------------	--	----------------------------------

Edgar Filing: LML PAYMENT SYSTEMS INC - Form 10-Q

	2001 \$		2000 \$		2001 \$		2000 \$
Net loss - CDN GAAP	(1,999,884)		(995,985)		(3,702,272)		(1,556,983)
U.S. GAAP adjustments:							
Non-employee stock based compensation (b)	=		<u>(166,229)</u>		=		<u>(221,668)</u>
Net loss - U.S. GAAP	<u>(1,999,884)</u>		(1,162,214)		(3,702,272)		(1,778,651)
Loss per share - U.S. GAAP Basic	<u>(0.10)</u>		<u>(0.08)</u>		<u>(0.20)</u>		<u>(0.12)</u>
Diluted	<u>(0.10)</u>		<u>(0.08)</u>		<u>(0.20)</u>		<u>(0.12)</u>

Under U.S. GAAP there are no adjustments that resulted in changes to the Consolidated Statement of Cash Flows or the Consolidated Balance Sheet of the Corporation.

- 7 -

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless the context otherwise requires, references in this report on Form 10-Q to the "Corporation", "LML", "we", "us" or "our" refer to LML Payment Systems Inc. and its direct and indirect subsidiaries. LML Payment Systems Inc.'s direct subsidiaries include LML Corp., Legacy Promotions Inc. and LHTW Properties Inc. LML Corp.'s subsidiaries are LML Patent Corp., and LML Payment Systems Corp. Unless otherwise specified herein, all references herein to dollars or "\$" are to U.S. Dollars.

The following discussion and analysis should be read in conjunction with the consolidated audited financial statements and related notes thereto contained in the Corporation's Annual Report on Form 10-K for the fiscal year ended March 31, 2001, filed with the Securities and Exchange Commission on June 29, 2001 (file no. 0-13959). The Corporation believes that all necessary adjustments (consisting only of normal recurring adjustments) have been included in the amounts stated below to present fairly the following quarterly information. Quarterly operating results have varied significantly in the past and can be expected to vary in the future. Results of operations for any particular quarter are not necessarily indicative of results of operations for a full year.

Forward Looking Information

All statements other than statements of historical fact contained herein are forward-looking statements. Forward-looking statements generally are accompanied by words such as "anticipate," "believe," "project," "potential" or "expect" or similar statements. The forward-looking statements were prepared on the basis of certain assumptions

which relate, among other things, to the demand for and cost of marketing the Corporation's services, the volume and total value of transactions processed by merchants utilizing the Corporation's services, the technological adaptation of check verification end-users, the issuance of additional patents necessary to protect the business enterprise, the renewal of material contracts in the Corporation's business, the Corporation's ability to anticipate and respond to technological changes, particularly with respect to financial payments and e-commerce, in a highly competitive industry characterized by rapid technological change and rapid rates of product obsolescence, the Corporation's ability to develop and market new product enhancements and new products and services that respond to technological change or evolving industry standards, no unanticipated developments relating to previously disclosed lawsuits against the Corporation, and the cost of protecting the Corporation's intellectual property. Even if the assumptions on which the forward-looking statements are based prove accurate and appropriate, the actual results of the Corporation's operations in the future may vary widely due to technological change, increased competition, additional government regulation or intervention in the industry, general economic conditions, other risks described in the Corporation's filings with the Securities and Exchange Commission and other factors not yet known or anticipated. Accordingly, the actual results of the Corporation's operations in the future may vary widely from the forward-looking statements included herein. All forward-looking statements included herein are expressly qualified in their entirety by the cautionary statements in this paragraph.

- 8 -

Overview

The Corporation is a financial payment processor that provides check processing solutions for national, regional and local retail merchants in the United States. The Corporation's processing services include check verification and collection services along with electronic processing services, including Electronic Check Re-presentment or "RCK" (whereby returned checks are re-presented for payment electronically) and Electronic Check Conversion or "ECC" (whereby paper checks are converted into electronic transactions at the point of sale). The Corporation focuses on providing these services to supermarkets, grocery stores, multi-lane retailers, convenience stores and other national, regional and local retailers in the United States. The Corporation also provides selective routing, including real-time monitoring of debit, credit and Electronic Benefit Transaction or "EBT" card transactions for authorization and settlement.

The Corporation's ECC services utilize the Corporation's proprietary system, including software, hardware and modes of interaction, known as the "ChequeMARK System." An objective of the Corporation is to increase transaction volume through internal growth and acquisitions, including the acquisition of business relationships through which the Corporation can integrate its ChequeMARK technology as a preferred service provider. During the past two fiscal years, the Corporation has begun to implement this objective through a number of acquisitions. These acquisitions give the Corporation a suite of retail point-of-sale check handling services and an infrastructure to further expand its offerings to include other forms of electronic payment systems in the future such as expansion into the e-commerce market.

The acquisitions that have been completed by the Corporation over the past two years have made the Corporation's results of operations not comparable period over period due to the increase in amortization as well as the acquisitions of Phoenix and Check Technologies, which were completed in fiscal year 2001, and were not included in the Corporation's results of operations until July 2000.

Effective April 1, 2001, CFDC Holdings Corp., CF Data Corp., Check Technologies, Check Center, National Process Servers, Inc. and Phoenix EPS merged operations and management into LML Payment Systems Corp. (formerly known as ChequeMARK Inc.), a Delaware corporation and a wholly-owned subsidiary of LML Corp. LML Payment Systems Corp. maintains operations in Dallas, Texas; Wichita, Kansas; Tulsa, Oklahoma; and Phoenix, Arizona. The merger was designed to achieve certain economies related to costs and the elimination of redundant systems and services. It was also designed to take advantage of the growing recognition of the Corporation's brand name. The

consolidation has allowed for a coordinated approach to the marketing of payment services under the Corporation's trademarks.

Other Operations

. LHTW Properties Inc. owns and operates Wildwood Estates, a 332-acre residential community located in Wildwood, Florida. Operations have included sale of manufactured homes and lots. In exchange for monthly maintenance fees, LHTW Properties provides the resident community with certain amenities and services commonly associated with similar developments. The results of operations for LHTW Properties were not significant for the six month period ended September 30, 2001, or September 30, 2000.

Results of Operations

Three Months Ended September 30, 2001 results compared to Three Months Ended September 30, 2000

Revenues

The Corporation's revenues consist primarily of fees from the Corporation's check verification and electronic processing business and check recovery business. Revenues are recognized in accordance with SEC Staff Accounting Bulletin ("SAB") 101, "Revenue Recognition." Revenue from the Corporation's check verification and electronic processing business is recognized at the time the transactions are processed by the merchant, provided the fee is fixed and determinable and collectability is reasonably assured. Fees associated with the Corporation's check recovery business are contingent on successful recovery; accordingly, revenue is recognized as cash is received. Software license revenue is recognized upon shipment, provided fees are fixed and determinable and collection is probable, in accordance with Statement of Position ("SOP") 97-2, "Software Revenue Recognition." Software maintenance revenues are recognized over the term of the maintenance agreement. Any cash consideration received prior to meeting revenue recognition criteria is recorded as deferred revenue. Revenue regarding Wildwood Estates is recognized when sales of property lots and mobile homes are completed. Maintenance fees from the management of the property and from the maintenance of the common areas are recognized straight line over the service period.

- 9 -

Total revenues decreased to approximately \$2.3 million for the three months ended September 30, 2001 from approximately \$2.5 million for the three months ended September 30, 2000. Although there was an overall decrease in the Corporation's revenue, the revenues derived from the financial payment processing services increased 7.6% from approximately \$1.5 million for the three months ended September 30, 2000 to approximately \$1.6 million for the three months ended September 30, 2001. The decrease was mainly attributable to revenues derived from software license revenue, software maintenance revenue and consulting fees associated with the REPS system, which decreased 62.4% from approximately \$333,000 for the three months ended September 30, 2000 to approximately \$125,000 for the three months ended September 30, 2001. The Corporation has discontinued providing licensing of the REPS system and therefore recorded no revenue from this service.

During the three months ended September 30, 2001, revenue from and associated with the Corporation's three largest customers amounted to approximately 56% of the Corporation's total sales volume. The Corporation may be economically dependent on sales volume to these customers.

During the year ended March 31, 2001, one of the Corporation's three largest customers notified the Corporation that it intends to move its check verification processing in house. Verification transactions started being transferred in February 2001 and were completed by the end of the Corporation's second quarter of fiscal 2002. This customer is also planning on moving its primary check collections in house. The Corporation is continuing to provide secondary check collection services to this customer. During the three months ended September 30, 2001, this customer's sales

amounted to 14% of the Corporation's total sales volume. The Corporation has not yet experienced a significant reduction in the revenue received from this customer during this period, but anticipates a reduction in the Corporation's third quarter of fiscal 2002.

Costs of operations

Costs of operations increased from approximately \$1.9 million for the three months ended September 30, 2000, to approximately \$2.3 million for the three months ended September 30, 2001, an increase of approximately 21%. Financial payment processing costs of operations increased approximately 28% from approximately \$1.8 million for the three months ended September 30, 2000, to approximately \$2.3 million for the three months ended September 30, 2001. The increase was principally attributable to incremental fixed costs associated with the development of the Corporation's data center. Costs of operations consist of transaction processing costs, personnel costs, equipment related costs and telecommunication costs. For the three months ended September 30, 2001, costs of operations as a percentage of sales increased to approximately 102% compared to approximately 77% for the three months ended September 30, 2000. This increase was due to the operating activities from the Corporation's data center. The Corporation continues to seek ways to reduce costs of operations. The initial implementation of electronic check recovery methods allowed the Corporation to commence migration from labor-intensive traditional check recovery methods to more cost efficient automated electronic check recovery methods. The Corporation was able to reduce staffing levels in late September 2001, which the Corporation expects should have a positive impact on reducing costs of operations for the Corporation's third quarter of fiscal 2002.

Costs of operations related to Wildwood Estates decreased approximately 10% from approximately \$54,000 for the three months ended September 30, 2000, to approximately \$49,000 for the three months ended September 30, 2001.

- 10 -

Sales, general and administrative expenses

Sales, general and administrative expenses consist primarily of personnel costs, commissions, office facilities, travel, promotional events such as trade shows, seminars and technical conferences and public relations. Sales, general and administrative expenses were approximately \$1.2 million and approximately \$917,000 for the three months ended September 30, 2001 and 2000, respectively. The increase in sales, general and administrative expense is primarily attributable to costs associated with the development of marketing and sales activity, and general corporate expenses.

Amortization and depreciation

Amortization of intangibles increased to approximately \$614,000 from approximately \$525,000 for the three months ended September 30, 2001 and 2000, respectively. Depreciation expenses for capital assets increased to approximately \$196,000 from approximately \$193,000 for the three months ended September 30, 2001 and 2000, respectively. These increases are principally associated with amortization of goodwill from all of the Corporation's acquisitions and amortization of the Corporation's Intellectual Property Estate, depreciation of the ChequeMARK system software and the software acquired in the acquisition of Phoenix, and depreciation of capital assets acquired in all of the Corporation's acquisitions.

Other expenses

Other expenses decreased to approximately \$30,000 from approximately \$112,000 for the three months ended September 30, 2001 and 2000, respectively. The decrease in other expenses was primarily attributed to costs incurred in September 2000 to relocate the Jacksonville, Florida office to Dallas, Texas.

Interest

Interest expense increased to approximately \$3,000 from approximately \$1,000 for the three months ended September 30, 2001 and 2000, respectively. Interest income decreased to approximately \$52,000 from approximately \$187,000 for the three months ended September 30, 2001 and 2000, respectively. This decrease in interest earned was primarily attributed to a decrease in funds placed in term deposits or short-term commercial paper, as well as the decrease in interest rates from an average of 6.3% to 2.32% for the three months ended September 30, 2000 and 2001, respectively.

EBITDA¹

Earnings before income taxes, interest, depreciation and amortization, or "EBITDA," increased to a loss of approximately \$1.2 million from a loss of approximately \$464,000 for the three months ended September 30, 2001 and 2000, respectively. The increase is primarily due to increased costs associated with the development of the Corporation's data center, increased costs associated with the development of marketing and sales activity, and other general corporate expenses.

Net loss

Net loss increased to approximately \$2 million from approximately \$1 million for the three months ended September 30, 2001 and 2000, respectively. The increase in the Corporation's net loss is due primarily to increased costs associated with the development of the Corporation's data center, increased costs associated with the development of marketing and sales activity, the increased amortization of intangibles, depreciation of capital assets, and other general corporate expenses.

Loss per both basic and diluted shares was (\$0.10) for the three months ended September 30, 2001, as compared to (\$0.06) for the three months ended September 30, 2000.

Six Months Ended September 30, 2001 results compared to Six Months Ended September 30, 2000

Revenues

Total revenues increased to approximately \$4.7 million for the six months ended September 30, 2001 from approximately \$4.6 million for the six months ended September 30, 2000. This increase was mainly attributable to increased transaction processing fees and the acquisition of Phoenix and Check Technologies in July 2000.

During the six months ended September 30, 2001, revenue from and associated with the Corporation's three largest customers amounted to approximately 54% of the Corporation's total sales volume. The Corporation may be economically dependent on sales volume to these customers.

During the year ended March 31, 2001, one of the Corporation's three largest customers notified the Corporation that it intends to move its check verification processing in house. Verification transactions started being transferred in February 2001 and were completed by the end of the Corporation's second quarter of fiscal 2002. This customer is also planning on moving its primary check collections in house. The Corporation is continuing to provide secondary check collection services to this customer. During the six months ended September 30, 2001, this customer's sales amounted to 16% of the Corporation's total sales volume. The Corporation has not yet experienced a significant reduction in the revenue received from this customer during this period, but anticipates a reduction in the Corporation's third quarter of fiscal 2002.

¹ EBITDA is earnings before income taxes, interest and depreciation and amortization. The Corporation believes that, in addition to cash flows from operations and net income, EBITDA is a useful financial performance measure for assessing operating performance as it provides an additional basis to evaluate the ability of the Corporation to incur and service debt and to fund capital expenditures. To evaluate EBITDA, the components of EBITDA such as revenue

and operating expenses and the variability of such components over time should also be considered. EBITDA should not be construed, however, as an alternative to operating income (as determined in accordance with accounting principles generally accepted in Canada or the United States of America ("GAAP")) as an indicator of the Corporation's operating performance or to cash flows from operating activities (as determined in accordance with GAAP) as a measure of liquidity. The Corporation's method of calculating EBITDA may differ from methods used by other companies, and as a result, EBITDA measures disclosed herein may not be comparable to other similarly titled measures used by other companies.

- 11 -

Cost of operations

Costs of operations increased from approximately \$3.6 million for the six months ended September 30, 2000, to approximately \$4.7 million for the six months ended September 30, 2001, an increase of approximately 31%. Financial payment processing costs of operations increased approximately 31% from approximately \$3.5 million for the six months ended September 30, 2000, to approximately \$4.6 million for the six months ended September 30, 2001. The increase was principally attributable to incremental fixed costs associated with the development of the Corporation's data center. Costs of operations consist of transaction processing costs, personnel costs, equipment related costs and telecommunication costs. For the six months ended September 30, 2001, costs of operations as a percentage of sales increased to approximately 100% compared to approximately 79% for the six months ended September 30, 2000. This increase was due to the operating activities from the Corporation's data center. The Corporation continues to seek ways to reduce costs of operations. The initial implementation of electronic check recovery methods allowed the Corporation to commence migration from labor-intensive traditional check recovery methods to more cost efficient automated electronic check recovery methods. The Corporation was able to reduce staffing levels in late September 2001, which the Corporation expects should have a positive impact on reducing costs of operations for the Corporation's third quarter of fiscal 2002.

Costs of operations related to Wildwood Estates increased approximately 11% from approximately \$102,000 for the six months ended September 30, 2000, to approximately \$113,000 for the six months ended September 30, 2001.

- 12 -

Sales, general and administrative expenses

Sales, general and administrative expenses consist primarily of personnel costs, commissions, office facilities, travel, promotional events such as trade shows, seminars and technical conferences and public relations. Sales, general and administrative expenses were approximately \$2.2 million and approximately \$1.6 million for the six months ended September 30, 2001 and 2000, respectively. The increase in sales, general and administrative expense is primarily attributable to costs associated with increased marketing and sales activities including the establishment of a sales force, increased participation at industry trade shows, and other general corporate expenses.

Amortization and depreciation

Amortization of intangibles increased to approximately \$1.2 million from approximately \$787,000 for the six months ended September 30, 2001 and 2000, respectively. Depreciation expenses for capital assets increased to approximately \$397,000 from approximately \$358,000 for the six months ended September 30, 2001 and 2000, respectively. These increases are principally associated with amortization of goodwill from all of the Corporation's acquisitions and amortization of the Corporation's Intellectual Property Estate, depreciation of the ChequeMARK system software and the software acquired in the acquisition of Phoenix, and depreciation of capital assets acquired in all of the Corporation's acquisitions.

Other expenses

Other expenses decreased to approximately \$48,000 from approximately \$97,000 for the six months ended September 30, 2001 and 2000, respectively. The decrease in other expenses was primarily attributed to costs incurred in September 2000 to relocate the Jacksonville, Florida office to Dallas, Texas.

Interest

Interest expense decreased to approximately \$16,000 from approximately \$83,000 for the six months ended September 30, 2001 and 2000, respectively. This decrease was due to the payment of long-term debt during the six months ended September 30, 2000. Interest income decreased to approximately \$120,000 from approximately \$390,000 for the six months ended September 30, 2001 and 2000, respectively. This decrease in interest earned was primarily attributed to a decrease in funds placed in term deposits or short-term commercial paper, as well as the decrease in interest rates from an average of 6.3% to 2.32% for the six months ended September 30, 2000 and 2001, respectively.

EBITDA

Earnings before income taxes, interest, depreciation and amortization, or "EBITDA," increased to a loss of approximately \$2.2 million from a loss of approximately \$719,000 for the six months ended September 30, 2001 and 2000, respectively. The increase is primarily due to increased costs associated with the development of the Corporation's data center, increased costs associated with the development of marketing and sales activity, and other general corporate expenses.

Net Loss

Net loss increased to approximately \$3.7 million from approximately \$1.6 million for the six months ended September 30, 2001 and 2000, respectively. The increase in the Corporation's net loss is due primarily to increased costs associated with the development of the Corporation's data center, increased costs associated with the development of marketing and sales activity, the increased amortization of intangibles, depreciation of capital assets, and other general corporate expenses.

Loss per both basic and diluted shares was (\$0.20) for the six months ended September 30, 2001, as compared to (\$0.10) for the six months ended September 30, 2000.

- 13 -

Liquidity and Capital Resources

The Corporation's liquidity and financial position consisted of approximately \$4.1 million in working capital as of September 30, 2001, compared to approximately \$6.7 million in working capital as of March 31, 2001. The decrease in working capital was related to normal operating activities and the development of the Corporation's data center, a decrease in accounts payable and accrued liabilities of approximately \$322,000, and an increase in accounts receivable of approximately \$253,000. Cash flows used in operations were approximately \$2.6 million for the six months ended September 30, 2001, and cash flows provided by operations was approximately \$400,000 for the six months ended September 30, 2000. Cash used in investing activities was approximately \$425,000 as compared to approximately \$3,702,000 for the six months ended September 30, 2001 and 2000, respectively. The decrease during the six months ended September 30, 2000 was due to acquisitions and additional cash consideration paid for the ChequeMARK asset and Patent in August 2000. Cash used by financing activities was approximately \$127,000 for the six months ended September 30, 2001, as compared to cash provided by financing activities of approximately \$3 million for the six months ended September 30, 2000. The decrease in cash provided by financing activities is primarily due to the

exercise of options of the Corporation's common stock that were completed in the six months ended September 30, 2000.

Management believes that existing cash and cash equivalent balances, and potential cash flows from operations should satisfy the Corporation's working capital and capital expenditure requirements in the foreseeable future. However, any material acquisitions of complementary businesses, products or technologies, other arrangements, unexpected losses, or a further economic slowdown in the retail industry could require the Corporation to obtain additional equity or debt financing. There can be no assurance that such financing would be available on acceptable terms, if at all.

Recently Issued Accounting Standards

In July 2001, the Financial Accounting Standards Board issued the accounting rules governing business combinations, goodwill and intangible assets. These rules are Statement of Financial Accounting Standards No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets. With the adoption of Statement 142, goodwill is no longer subject to amortization over its estimated useful life. Rather, goodwill will be subject to at least an annual assessment for impairment by applying a fair-value-based test at the reporting units level. Impairment loss would be recognized to the extent the carrying amount of goodwill exceeds the implied fair value. Under the new rules, an acquired intangible asset should be separately recognized if the benefit of the intangible asset is obtained through contractual or other legal rights, or if the intangible asset can be sold, transferred, licensed, rented, or exchanged, regardless of the acquirer's intent to do so. Determining the useful lives of intangible assets will require considerable judgment and fact-based analysis. The Corporation plans to adopt the provisions of this standard in fiscal 2003, beginning April 1, 2002. Upon its adoption, the Corporation plans to conform its accounting policy to the requirements in this standard.

Management believes this standard will have a material non-cash impact on the Corporation's financial statements, as it will not allow for amortization of goodwill, which currently approximates \$830,000 annually. At this time the Corporation has not determined how goodwill will be allocated to specific reporting units as of April 1, 2002, as the Corporation is in the process of evaluating its reporting units. Accordingly, the Corporation has not made a determination about whether or not an impairment charge will be necessary upon adoption of the new standard.

Contingencies

In addition to the legal matters previously reported in the Corporation's Annual Report filed on Form 10-K for the year ended March 31, 2001, as filed with the Securities and Exchange Commission on June 29, 2001 (file no. 0-13959), the Corporation is party from time to time to ordinary litigation incidental to its business, none of which is expected to have a material adverse effect on the results of operations, financial position or liquidity of the Corporation.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

From March 31, 2001, until September 30, 2001, there were no material changes from the information concerning market risk contained in the Corporation's Annual Report on Form 10-K for the year ended March 31, 2001, as filed with the Securities and Exchange Commission on June 29, 2001 (file no. 0-13959).

PART II.

OTHER INFORMATION

Item 1. Legal Proceedings

Edgar Filing: LML PAYMENT SYSTEMS INC - Form 10-Q

On February 1, 2001, the Corporation and its indirect, wholly owned subsidiary LML Patent Corp. filed suit in the United States District Court for the District of Nevada against Global Transaction Systems, LLC ("Global") regarding ownership of United States Patent Nos. 5,484,988 and 6,164,528 (the "Patent Estate"). On August 16, 2001, the Corporation entered into a settlement agreement with Global confirming that the Corporation, through its subsidiaries, owned and held exclusive right, title and interest in the Patent Estate. In connection with the settlement, the Corporation granted a non-exclusive, non-transferable, limited sub-license under the Patent Estate to Global. The sub-license agreement includes the payment of royalties on electronic check conversion on a per transaction basis. The Corporation has also agreed to provide Global with processing services regarding electronic check conversion transaction under similar terms to those provided by the Corporation to other third parties.

Other than as described herein, there are no material changes with respect to the information concerning legal proceedings contained in the Corporation's Annual Report on Form 10-K for the year ended March 31, 2001, as filed with the Securities and Exchange Commission on June 29, 2001, (file no. 0-13959). In addition to the legal matters as described herein and as previously reported in the Corporation's most recent report on Form 10-K, the Corporation is party from time to time to ordinary litigation incidental to its business, none of which is expected to have a material adverse effect on the results of operations, financial position or liquidity of the Corporation.

Item 2. Submission of Matters to a Vote of Security Holders

At the Corporation's Annual General and Special Meeting of Shareholders held September 5, 2001 (the "Meeting"), the following proposals were adopted by shareholders of the Corporation (the "Shareholders") by ordinary resolution: (1) to set the number of directors at five (5); (2) to elect PATRICK H. GAINES, GREG A. MACRAE, L. WILLIAM SEIDMAN, ROBIN B. MARTIN and JACQUELINE PACE, as directors of the Corporation for terms expiring at the Annual General Meeting of Shareholders in 2002, as described in the Corporation's Information Circular and Proxy Statement for the Meeting; (3) to confirm an amendment to the Corporation's By-Laws to alter the quorum requirements with respect to the transaction of business at any Shareholders' meeting to 33 1/3 percent; and (4) to appoint Arthur Andersen LLP, as auditor of the Corporation to hold office until the Annual General Meeting of Shareholders in 2002.

In addition, the following proposal was adopted by Shareholders by special resolution: (1) to approve the amendment of our restated articles of incorporation to change the Corporation's name to "LML Financial Services Inc.".

The number of shares cast for, against and withheld, as well as the number of abstentions and broker non-votes as to each of these matters are as follows:

PROPOSAL	S H A R E S FOR	SHARES AGAINST	WITHHELD	ABSTENTIONS	BROKER NON-VOTES
Ordinary Resolutions:					
1. Set the Number of Directors at Five (5)	9,808,849	38	0	35,139	0
2. Election of Directors:
