VODAFONE ANNOUNCES NEW FOUR YEAR SPONSORSHIP OF

THE ENGLAND CRICKET TEAM

Vodafone today announces a new agreement with the England and Wales Cricket Board with a commitment to continue its sponsorship of the England Cricket Team for a further four years. Vodafone has been the team sponsor since the 1997 tour to the West Indies and this agreement will now continue through to the end of the 2009 Ashes Series.

The new commercial partnership provides Vodafone with a full package of sponsorship rights; branding on all playing and training kit, extensive access to the England players, and exclusive 3G mobile content. Starting with this summer's Ashes series, all Vodafone live! with 3G customers will be able to watch video highlights of all the action from England's home matches on their mobile phone.

Commenting on the agreement, Peter Bamford, Vodafone Group's Chief Marketing Officer said, "We are pleased to announce this new partnership with the England and Wales Cricket Board which extends our relationship with the England Cricket Team. The inclusion of the 3G cricket rights in this deal further expands the parameters of our partnership and ensures that cricket fans across the country will be able to catch the action on the field wherever they are."

David Collier, Chief Executive of the England and Wales Cricket Board added, "The ECB places great value on Vodafone's commitment to English cricket and we look forward to another successful partnership. This four year agreement, which includes sponsorship of the England A Team, the England Women's Team and the ECB National Cricket Academy Teams, demonstrates Vodafone's ongoing commitment to cricket and provides the ECB with valuable support in our longer term objective of delivering continuing success at the national level."

VODAFONE JOINS JAVA VERIFIED™ PROGRAM

Vodafone today announces that it has joined the Java Verified Program, a program to provide a unified process for the testing and certification of Java technology-based applications for mobile handsets. In joining the program Vodafone becomes the first mobile operator to become a Platinum member in the initiative.

The Java Verified Program is fast becoming the standard for mobile Java application testing since its launch in February 2004 by Motorola, Nokia, Sony Ericsson, Siemens and Sun Microsystems. The program provides developers with the most effective way to test, promote and distribute mobile content to global end-users and subscribers. Developers whose applications successfully pass Java Verified testing can choose to participate in the marketing and distribution program offered by Vodafone.

Guy Laurence, Global Terminals and Consumer Marketing Director, Vodafone Group, said, "Vodafone has already stated its commitment to reducing fragmentation in the mobile content value chain. Our advocacy of the Java Verified Program further demonstrates that commitment by helping lead the industry towards a standard approach to testing. A single testing process ensures that developers can now more easily reach out to the millions of Vodafone live! customers worldwide, with significantly reduced time-to-market."

Vodafone will also bring to the Java Verified Program a considerable experience in certification as an operator, and will work closely with Sun Microsystems and the other members of the program to ensure evolution of testing standards in line with the growth and needs of the industry going forward.

"We have entered a new era of participation on the network. 2005 marks the year that worldwide mobile phone deployments officially surpass the total worldwide installation of both PCs and fixed-line phones and it will only expand from here," said Jonathan Schwartz, President and COO at Sun Microsystems. "Vodafone brings a wealth of experience to the Java Verified Program, and their active participation with Sun and its partners in this initiative helps the entire mobile communications ecosystem monetize the enormous growth in the wireless market."

Vodafone is confident that the market is mature enough to migrate from previous certification methods and beginning 25th July 2005, will require all new mobile Java applications distributed over Vodafone live! to be successfully tested under the Java Verified Program. By defining common criteria for content testing, the Java Verified Program provides developers with the most effective way to test, promote, and distribute mobile content to global end-users and subscribers.

- (1) Conditional awards of shares were granted on 26 July 2005 by the Trustees of the Vodafone Group Employee Trust. The awards have been granted in accordance with the Vodafone Group Plc 1999 Long Term Stock Incentive Plan. The vesting of these awards is conditional on continued employment with the Vodafone Group and on the satisfaction of a performance condition approved by the Remuneration Committee. The performance measure is comparative total shareholder return (TSR). The TSR of Vodafone Group Plc over the three year performance period is compared to that of other constituent companies of the FTSE Global Telecommunications index and companies are ranked by reference to

their relative TSR performance. If Vodafone's TSR performance is such as to position it in the top half of the performance ranking of the constituent companies, all or some of the shares comprised in the award will vest. The vesting schedule provides that 25% of the award will vest for median performance, rising to full vesting if the Company's performance is within the top 20% of companies in the index.

- (2) The options were granted on 26 July 2005 by the Company in accordance with the Vodafone Group Plc 1999 Long Term Stock Incentive Plan and with the Company's policy on long-term incentives that has been approved by shareholders. The options will be exercisable at a price per share of 145.25p, which is the London Stock Exchange closing price per share on 25 July 2005. The options will be exercisable subject to continued employment with the Vodafone Group and the satisfaction of a performance condition approved by the Remuneration Committee. The performance condition is that compound growth in adjusted earnings per share over the three-year performance period must exceed at least 8% per annum. If the compound growth is 8% per annum, 25% of the option will vest rising to full vesting if compound growth is 16% per annum. In the event that full vesting is not achieved after three years, the options will lapse. The options are normally exercisable at any time between 3 and 10 years from the date of grant.
- (3) These awards are also conditional on the directors and other PDMRs being compliant with the Company's share ownership guidelines, which provide that they will acquire and maintain minimum levels of shareholding. The levels are four times salary for the Chief Executive, three times salary for other Board directors and two times salary for the other PDMRs, who are members of the Executive Committee.
