Item 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On October 25, 2006, IHOP Corp. issued a press release announcing its third quarter 2006 financial results. A copy of the press release is attached as Exhibit 99.1, and incorporated herein by reference.

Also on October 25, 2006, IHOP Corp. held a conference call to discuss its third quarter 2006 financial results. A copy of the prepared remarks of management is attached as Exhibit 99.2, and incorporated herein by reference.

The prepared remarks of management accompanying management s discussion during the conference call includes references to the non-GAAP financial measures free cash flow and net income excluding stock based compensation expense. The Company defines free cash flow for a given period as cash provided by operating activities for such period, less capital expenditures for such period. The Company defines net income excluding stock based compensation expense for a given period as net income for such period, less any stock based compensation expense incurred in such period. Management utilizes free cash flow as a measure of operating efficiency to determine the amount of cash remaining for general corporate and strategic purposes after funding operating activities and capital expenditures. Management believes this information is helpful to investors to determine the Company s cash available for these purposes. Management believes net income excluding stock based compensation expense and basic and diluted net income per share excluding stock based compensation expense is useful because it provides a more accurate period to period comparison. Free cash flow and net income excluding stock based compensation expense for any given period may be affected by a variety of factors, including but not limited to, changes in assets and liabilities and the timing of purchases and payments. Free cash flow and net income excluding stock based compensation expense are supplemental non-GAAP financial measures and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles.

The following table reconciles the Company s free cash flow to the Company s cash provided by operating activities for each of the nine months ended September 30, 2006 and 2005:

	Nine Month (dollars in t	ns Ended September 30, 2006 housands)	Nine Months (dollars in th	s Ended September 30, 2005 nousands)	;
Cash flows from operating activities:	\$	53,878	\$	45,433	
Capital expenditures	(7,373) (3,476)
Free cash flow	\$	46,505	\$	41,957	

The following table reconciles net income to net income excluding the impact of stock based compensation expense, and basic and diluted net income per share to net income excluding the impact of stock based compensation expense per share, for each of the three and nine months ended September 30, 2006 and 2005:
