Fundamental change conversion rate:

The following table sets forth the fundamental change conversion rate per mandatory convertible preference share for each common share price (as defined in the Preliminary Prospectus Supplement) and effective date set forth below:

Effective	Common Share Price on Effective Date														
Date	\$ 40.00	\$ 60.00	\$ 80.00	\$ 100.00	\$ 103.11	\$ 120.00	\$ 121.67	\$ 140.00	\$ 160.00	\$ 180.00	\$ 200.00	\$ 250.00	\$ 300.00	\$ 350.00	\$ 400.00

if the common share price is between two common share price amounts on the table or the effective date is between two dates on the table, the fundamental change conversion rate will be determined by straight-line interpolation between the fundamental change conversion rates set forth for the higher and lower common share price amounts and the two dates, as applicable, based on a 365-day year;

if the common share price is in excess of \$400 (subject to adjustment), then the fundamental change conversion rate will be the minimum conversion rate, subject to adjustment. If the common share price is less than \$40 (subject to adjustment), then the fundamental change conversion rate will be the maximum conversion rate, subject to adjustment.

Fundamental change dividend make-whole payment:

For any mandatory convertible preference shares that are converted during the fundamental change conversion period, in addition to the common shares issued upon conversion, the Company must, in its sole discretion, either (a) pay you an amount in cash equal to the sum of (i) all accumulated and unpaid dividends on your mandatory convertible preference shares to, but excluding, the date the holder receives the fundamental change dividend make-whole amount and (ii) the present value of all dividend payments on the Company's mandatory convertible preference shares held by you for all remaining dividend periods to but excluding the mandatory conversion date (excluding any unpaid dividends accrued during the portion of the then-current dividend period through, but excluding, the date the holder receives the fundamental change dividend make-whole amount), in each case, to the extent the Company is legally permitted to do so (the fundamental change dividend make-whole amount), or (b) increase the number of the Company's common shares to be issued on conversion by a number equal to (x) the sum of all accumulated and unpaid dividends and the fundamental change dividend make-whole amount divided by (y) 97% of the common share price; *provided that*, in no event shall we increase the number of the Company's common shares to be issued in excess of the dividend cap. The present value of the remaining dividend payments will be computed using a discount rate equal to 6.50%.
