REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and Administrative Committee of

The Legg Mason Profit Sharing and 401(k) Plan and Trust:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of The Legg Mason Profit Sharing and 401(k) Plan and Trust (the Plan) as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

As of December 31, 2009 and 2008 and

For the Year Ended December 31, 2009

1. DESCRIPTION OF PLAN

The following description of The Legg Mason Profit Sharing and 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan, which was established on December 30, 1960, is a defined contribution plan covering substantially all employees of Legg Mason & Co., LLC (LM & Co.) and affiliated participating companies (the Company) with the exception of leased and temporary employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). An employee becomes eligible to participate in the Plan on his or her date of hire. A participant shares in discretionary Company contributions and forfeitures by completing 1,000 hours of service, as defined by the Plan, in a Plan year and being employed on the last day of the Plan year.

Affiliated companies and their effective dates of adoption of the Plan are as follows:

Howard, Weil, Labouisse, Friedrichs, Incorporated (January 1, 1989)

Bartlett & Co. (January 1, 1996)

Western Asset Management Company (April 1, 2002)

Citigroup, Inc. (December 1, 2005)

Brandywine Global Investment Management, LLC (July 1, 2008)

Participant Contributions

Contributions by employees are voluntary and may be composed of all or any of the following:

- A. A rollover of accumulated deductible employee contributions as contemplated by Section 408(d)(3) of the Internal Revenue Code.

- B. A voluntary compensation deferral whereby the participant may elect to defer, in the form of Company contributions to the Plan on the participant's behalf, compensation that would otherwise have been paid to the participant during the Plan year. This compensation deferral, if elected, cannot be less than 1% and not more than 50% of the compensation that would otherwise have been paid to the participant during the Plan year. Participant contributions may not exceed the maximum allowable contribution under the Internal Revenue Code (the Code). The maximum allowable contribution totaled \$16,500 for the year ended December 31, 2009. Participants who have attained age 50 before the end of the Plan year may make additional catch-up contributions, subject to limitations imposed by the Code.

1. DESCRIPTION OF PLAN cont d.

Company Contributions

The Company may contribute a matching contribution to all eligible employees to be determined annually by the Board of Managers. During 2009, the Company matched 50% of the employee contributions up to 6% of annual earnings up to a maximum of \$5,000 per employee. Prior to May 1, 2009, such contributions were nondiscretionary in nature and followed the benefit calculation used through 2009. Additionally, the Company may make discretionary profit sharing contributions to the Plan.

The Company approved a discretionary profit sharing contribution for 2009 of \$1,365,580, which includes \$340,000 of reallocated forfeitures. Company matching contributions for 2009 totaled \$6,291,876. These Company contributions were remitted to the Plan subsequent to December 31, 2009, and accordingly, are included as contributions receivable in the accompanying statements of net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) Plan earnings/losses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Edgar Filing: LEGG MASON INC - Form 11-K

Participants are immediately vested in deferral contributions, rollover contributions, and income earned thereon. Participants are also immediately vested in the Company's discretionary matching contribution. Vesting in the Company's discretionary profit sharing contributions is based on years of continuous service as presented in the following chart:

Years of Service	Percentage Vested
Less than 2	0%
2	25%

1. DESCRIPTION OF PLAN cont d.

Vesting cont d.

A participant's account becomes 100% vested in the discretionary profit sharing contribution, regardless of years of service, at age 65 or in the event of permanent disability, death, or by reason of, and as part of, a partial Plan termination.

Forfeitures

Terminating employees of the Plan are paid the current value of the vested balance in their Plan account as soon as administratively feasible. Unvested amounts are forfeited and reallocated to continuing participants in the year in which they are forfeited. As of December 31, 2009 and 2008, unallocated forfeitures totaled \$364,875 and \$781,383, respectively. Forfeitures are allocated in subsequent years based on the respective profit sharing allocations. During 2009, \$1,003,505 in forfeitures was credited to participant accounts, including an interim allocation of forfeitures totaling \$245,000 to all eligible participants as of March 31, 2009, and \$584,718 of forfeitures was created.

Upon an employee's withdrawal from the Plan or a break in service of more than five years, any non-vested portion of a participant's account is forfeited and is reallocated to participants' accounts in the same proportion as the Company's discretionary profit sharing contribution to the Plan attributable to the Plan year in which the forfeitures occurred.

Payment of Benefits

Edgar Filing: LEGG MASON INC - Form 11-K

Benefit payments are available to participants upon retirement, early retirement, termination of employment, death, attainment of age 59 1/2 or disability. Participants are entitled to a benefit equal to the vested portion of their account which will be distributed in the form of a lump sum payment unless the participant elects another option as provided by the Plan. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed by the employee may be withdrawn for a hardship purpose. Distributions are subject to the applicable provisions of the Plan agreement. Certain income taxes and penalties may apply to withdrawals or distributions prior to age 59 1/2. Net assets of the Plan allocated to the accounts of participants who had elected to withdraw from the Plan that had not received such distributions as of December 31, 2009 and 2008 totaled \$1,517,144 and \$64,688, respectively.

Loans to Participants

Participants are eligible to obtain loans from the Plan. Participants can borrow up to 50% of their vested account balance, in amounts of at least \$1,000 but not more than \$50,000 less the highest outstanding loan balance during the preceding twelve months. Loan repayment periods range from one to twenty-seven years. Loans for any purpose other than the purchase of a primary residence must be repaid within 5 years. The loans accrue interest at a rate commensurate with prevailing rates as determined by the Plan. As of December 31, 2009 and 2008, interest rates on these loans ranged from 4.25% to 10.50%. The Company has the authority to deny participant loans to any director or executive officer to the extent necessary to conform to the Sarbanes Oxley Act of 2002. The Company has the right to discontinue the policy of extending loans to participants; however, it may not affect the terms or provisions of any loans outstanding at that time.

Administrative Expenses

Administrative and operational expenses of the Plan are to be paid by the Trustee with Plan assets unless the Company elects to pay them. For the year ended December 31, 2009, the majority of expenses of the Plan were paid with Plan assets.

Plan Changes

During 2009, the Plan was amended to make matching contributions discretionary in nature.

During 2009, Legg Mason Real Estate Investors, Inc., a subsidiary of LM & Co., stock was transferred to an unrelated party. In conjunction with the transaction, the Plan was amended to provide for full vesting to all affected participants and account for forfeiture reallocations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from Plan assets during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES cont d.

Codification of Accounting Standards

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (Codification or ASC) 105, *Generally Accepted Accounting Principles* (ASC 105), defines the FASB ASC as the single source of authoritative accounting principles generally accepted in the United States of America (US GAAP) recognized by the FASB to be applied by nongovernmental entities. ASC 105 and the Codification are effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Codification has superseded all existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification is non-authoritative. With the adoption of ASC 105, the FASB no longer issues new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts. Instead, the FASB issues Accounting Standards Updates, which serve only to: (a) update the Codification; (b) provide background information about the guidance; and (c) provide the basis for conclusions on the change(s) in the Codification. The adoption of ASC 105 did not have an impact on the Plan's financial statements.

Subsequent Events

ASC 855, *Subsequent Events* (ASC 855), defines general standards of accounting for and disclosure of events that occur after the net assets available for benefits date, but before the financial statements are issued or are available to be issued. The Plan implemented the provisions of ASC 855 for the year ended December 31, 2009, and the implementation did not have a material impact on the Plan's net assets available for benefits and changes in net assets available for benefits. The Plan evaluated for disclosure any subsequent events through the report issuance date and determined there were no material events that warrant disclosure, except as disclosed in Note 7.

Risks and Uncertainties

The Plan provides for investments in financial instruments that, in general, are exposed to risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment

securities may occur and materially affect the amounts reported in the statements of net assets available for benefits.

Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Table of Contents

THE LEGG MASON PROFIT SHARING

AND 401(k) PLAN AND TRUST

Notes to Financial Statements

As of December 31, 2009 and 2008 and

For the Year Ended December 31, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES cont d.

Fair Value Measurements cont d.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Registered investment companies' equity and fixed income: Valued at the net asset value (NAV) of shares held by the Plan at year-end. Assets are traded on an active market.

Common stock: Valued at unadjusted quoted market share prices within active markets.

Common stock fund: Valued using net asset values of similar quoted market prices of common stock.

Participant loans: Valued at amortized (unpaid) cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date.

4. INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a determination letter, dated August 31, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ASC 740, *Income Taxes* (ASC 740), prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Plan implemented the provisions of ASC 740 during the year ended December 31, 2009. As the Plan is tax exempt and had no unrelated business taxable income; the implementation did not have an impact on the Plan's financial statements. The Plan recognizes interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. The Plan does not have any amounts relating to interest and penalties as of December 31, 2009.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

6. OTHER MATTERS

Edgar Filing: LEGG MASON INC - Form 11-K

The Plan invests in shares of Legg Mason, Inc. common stock, which qualifies as a party-in-interest transaction, through two plan alternatives, one of which is a unitized fund consisting primarily of shares of the common stock of Legg Mason, Inc. The other consists of common stock transferred in from a prior plan. Sales of 10,664 shares of Legg Mason, Inc. common stock with aggregate proceeds of \$287,234 were made during 2009.
