Edgar Filing: SeaCube Container Leasing Ltd. - Form FWP

The number of common shares to be issued and outstanding after the completion of this offering is based on 16,477,812 common shares issued and outstanding as of October 22, 2010 and includes 30,000 shares to be granted to each of Messrs. Goodwin, Hacker and Hamm after October 22, 2010 but prior to completion of this offering but excludes an additional 1,000,000 shares reserved for issuance under our equity incentive plan, all of which remain available for grant.

Net proceeds to SeaCube: Approximately \$18.6 million or \$27.5 million if the underwriters' over-allotment option is exercised in full, after deducting the underwriting discount and estimated offering expenses payable by us.

We intend to use the net proceeds to us from this offering for working capital, investment in new

containers and other general corporate purposes, which may include the repayment or refinancing of a portion of outstanding indebtedness, as well as potential strategic investments and acquisitions. See Use of Proceeds in the Preliminary Prospectus.

Net proceeds to the Initial Shareholder

We will not receive any proceeds from the sale of our common shares by the Initial Shareholder, including any proceeds the Initial Shareholder may receive if the underwriters exercise their over-allotment option in full. The Initial Shareholder plans to use the net proceeds from the sale of shares in this offering to repay approximately \$65.1 million of indebtedness under the Amended Seacastle Credit Facility owed to affiliates of some of the underwriters. Upon such payment, which will occur upon consummation of this offering, CLI's and SeaCube Operating Company Ltd.'s guaranty and the pledge of certain collateral by the Initial Shareholder and SeaCube Operating Company Ltd. (which pledges include the beneficial equity interests in CLI) to the lenders thereunder, will terminate.

Initial Shareholder ownership:

Following completion of this offering, our Initial Shareholder will own approximately 47.2% of our outstanding common shares or 42.6% if the underwriters exercise their over-allotment option in full. After this offering, the Initial Shareholder will own shares sufficient for the election of our directors and the majority vote over fundamental and significant corporate matters and transactions. See Risk Factors Risks Related to Our Organization and Structure in the Preliminary Prospectus.

Capitalization

Cash and cash equivalents as of June 30, 2010 as adjusted for this offering will be \$52.5 million, which gives effect to the net proceeds from this offering, plus approximately \$1.3 million in offering expenses paid by us prior to June 30, 2010. Total capitalization as of June 30, 2010 as adjusted for this offering will be \$910.4 million.

Dilution

Our net tangible book value as of June 30, 2010, was approximately \$119.3 million, or approximately \$7.24 per share, based on the 16,477,812 common shares issued and outstanding as of such date. After giving effect to our sale of common shares in this offering at the initial public offering price of \$10.00 per share, and after deducting underwriting discounts and estimated expenses related to this offering, our pro forma as adjusted net tangible book value as of June 30, 2010 would have been \$137.9 million, or \$7.27 per share (assuming no exercise of the underwriters' over-allotment option). This represents an immediate and substantial dilution of \$2.73 per share to new investors purchasing common shares in this offering. Sales of shares by the Initial Shareholder in this offering do not affect our net tangible book value.
