Item 8.01. Other Events.

On May 31, 2012, Aventine Renewable Energy Holdings, Inc. (the Company) served Aurora Cooperative Elevator Company (Aurora) with a petition for declaratory relief filed in the District Court of Dallas County, Texas, 160th Judicial District. The petition alleges, among other things, that Aurora has improperly threatened in direct contravention of the agreement between the Company and Aurora to invoke a contractual option to repurchase the land on which the Company's Aurora West ethanol plant (the Plant) is located. Aurora's stated position is that Aurora has the right to invoke the option if the Plant has not been producing ethanol for thirty days, at a daily rate equivalent to an annualized production rate of 90 million gallons, by July 31, 2012.

The petition alleges that the contract setting forth the option does not require thirty days of production in order to prevent Aurora's exercise of the contractual option. Rather the Company asserts the contract only requires that the Company diligently pursue construction of the Plant to completion by July 1, 2012, where diligently pursue construction . . . to completion does not mean operation or production. The Company is seeking a declaratory judgment that the Company is not required to operate the plant or produce ethanol at the Plant at the rates or amounts asserted by Aurora before July 31, 2012 and the Company need not operate the Plant or meet the production requirements to avoid the exercise of the contractual option. The Company intends to pursue any and all rights available to it with respect to the foregoing.
