2.1 Nature of Business Acquired

On March 12, 2010, the company acquired 91% of the issued and outstanding common shares of NetHawk Oyj. Headquartered in Oulu, Finland, NetHawk Oyj was a privately held company providing 2G, 3G and 4G/LTE protocol analyzers and simulators aimed mostly at network equipment manufacturers and wireless network operators.

On March 15, 2010, the company made a voluntary offer to purchase the remaining issued and outstanding shares; this offer expired on April 30, 2010. Simultaneously, the company entered into a statutory procedure under the Finnish Companies Act to acquire the remaining issued and outstanding common shares by which it acquired the remaining of the issued and outstanding common shares that were not tendered under the voluntary offer.

2.2 Date of Acquisition

The date of acquisition for accounting purposes was March 12, 2010.

2.3 Consideration

Total consideration was comprised of a cash consideration of €37,264,000 (US\$51,139,000), including estimated acquisition-related costs of US\$2,842,000, or €25,121,000 (US\$34,438,000), excluding acquired cash of NetHawk Oyj of €12,143,000 (US\$16,701,000) at the acquisition date, plus a cash contingent consideration of up to €8,700,000

(US\$12,000,000) based on certain sales volume of NetHawk Oyj over the next three years. The cash contingent consideration will be accounted for as additional goodwill when the amounts of any contingent consideration can be reasonably estimated and the outcome of the contingency is resolved. Acquisition-related costs include an amount of US\$780,000 for a statutory transfer tax payable in Finland based on the purchase price of shares.

The company used cash and short-term investments to finance this acquisition.

2.4 Effect on Financial Position

The acquisition of NetHawk Oyj was accounted for using the purchase method, whereby the purchase price was allocated to the net assets acquired based on their estimated fair value as of the date of acquisition. The allocation of the purchase price is preliminary. The unallocated balance of the purchase price was allocated to goodwill. Other than the resulting impact of the acquisition on the company's consolidated balance sheet and the statement of earnings, the company does not foresee, as a result of this acquisition, any material changes in its business affairs or the affairs of the acquired business which may have a significant effect on the results of operations and financial position of the company.
