Forward Looking Statements

All statements contained in the following description of the business of Hong Xiang (which, following closing under the Agreement for Share Exchange will be the business to be conducted by the Company through its wholly owned subsidiary, Hong Xiang) which are not statements of historical fact are what is known as "forward looking statements", which are basically statements about the future, and which for that reason, involve risk and uncertainty, since no one can accurately predict the future. Words such as "plans", "intends", "will", "hopes", "seeks", "anticipates", "expects", "goal" and "objective" often identify such forward looking statements, but are not the only indication that a statement is a forward looking statement. Such forward looking statements include statements of the plans and objectives of the management of Hong Xiang with respect to its present and future operations, and statements which express or imply that such present and future operations will or may produce revenues, income or profits. Numerous factors and future events could cause such plans and objectives to change or not to be implemented, or cause such present and future operations to fail to produce revenues, income or profits.

Description of the Business of Hong Xiang

Hong Xiang is engaged in the extraction and production of crude oil. Its current operations are in a portion of the Jilin Quinan Oil Field which is located southwest of Quinan City in the Jilin Province of the Peoples Republic of China. The area in which Hong Xiang conducts operations is one of the portions of the Quinan Oil Field which, in 1999, was designated by the Jilin Petroleum Group for cooperative exploration and production. Hong Xiang has taken over an exclusive 20 year contract to produce oil from the designated portion of the Jilin Quinan Oil Field. Hong Xiang currently subcontracts all oil well drilling activities to third parties but has retained direct responsibility for well logging, drill-stem testing and core sampling. All crude oil produced from the production site is currently sold to the Jilin Refinery of PetroChina.
