GENERAL DEVELOPMENT OF THE BUSINESS

The Company was originally incorporated under the name G.T.5-Limited on May 25, 1990 as a Nevada corporation. The Company's original focus was to engage in the business of designing and building exotic body styles for automobiles compatible with the vehicle's existing chassis. The Company provided a series of hand molded body style products that were based on the chassis designs of the Ford Mustang, Pantera, Ford Cobra and Ferrari Daytona Spider. The Company's goal was to provide customers with a cost effective solution to developing a great look to their own vehicles without the high costs associated with buying very expensive new vehicles. Acceptance of the Company's concept never materialized, and revenues during the past few years declined. In 2004, the Company did not have any revenues. As a result, the foregoing operations were discontinued. In January 2005, the Company's board of directors determined that it would be in its best interests, and that of its shareholders, to find a suitable acquisition candidate.

In March 2005, the Company entered into a Share Exchange Agreement with CryoPort Systems, Inc., a California corporation, and its stockholders, pursuant to which the Company acquired all of the issued and outstanding shares of CryoPort Systems, Inc. in exchange for 24,108,105 shares of the Company's common stock (which represents approximately 81% of its total issued and outstanding shares of common stock following the close of the transaction). In connection with this transaction, the Company changed its name to CryoPort, Inc., effective March 16, 2005. In addition, the Company's then directors and officers resigned, and the directors and officers of CryoPort Systems were elected to fill the vacancies created by such resignations.

CryoPort Systems, Inc. was originally formed in California in 1999 as a limited liability company and was reorganized into a California corporation in December 2000. CryoPort Systems, Inc. was founded in 1999 principally to capitalize on servicing the transportation needs of the growing global "biotechnology revolution".

The purpose of this meeting is to restructure the Board to meet the needs of the Company now and in the future and to restructure the capitalization of the Company to secure the funding necessary to attract management and executive management to ramp up the Company into manufacturing, distribution and recycling of its CryoPort Express® one way shipper in the cold chain market. The Board of Directors of the Company at a Special Board of Directors Meeting held on September 14, 2007 by Resolutions duly passed, made these proposed changes and now they are being presented to the Shareholders for their approval and ratification.

DESCRIPTION OF SECURITIES

As of September 14, 2007 at the time of the Special Board of Directors Meeting when the Board approved the proposed changes a total 39,677,561 common shares were issued and outstanding held by approximately 1,600 shareholders. One of the proposals before the Shareholders for approval and approved by the Board of Directors at that meeting, is to increase the number of authorized shares from the current 100,000,000 to 125,000,000.

Additionally, at a Special Board of Directors Meeting held September 14, 2007, approval was given to increase the number of authorized Board seats from five (5) to nine (9) to allow for full compliance with SEC and Sarbanes-Oxley compliance. It is not anticipated that these seats will be filled immediately, but it is anticipated that as the Company expands its manufacturing, marketing and recycling of its CryoPort Express® one way shipper, and with potential acquisitions, that the need to fill more independent Board seats will occur.
