FORM 10-K

x Annual Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the fiscal year ended SEPTEMBER 30, 2017

-or-

o Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission File Number: 000-55084

PRUDENTIAL BANCORP, INC.

(Exact Name of Registrant as Specified in its Charter)

PENNSYLVANIA

46-2935427

(State or other jurisdiction of incorporation or organization) (IRS Employer Identification No.)

1834 WEST OREGON AVENUE 19145
PHILADELPHIA, PENNSYLVANIA (Zip Code)
(Address of Principal Executive Offices)

Registrant's telephone number: (including area code) **(215) 755-1500**

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
<u>Common Stock (par value \$0.01 per share)</u>	<u>The Nasdaq Stock Market, LLC</u>

Securities registered pursuant to Section 12(g) of the Act: **NONE**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
YES NO

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. YES NO

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer Accelerated Filer
Non-Accelerated Filer (Do not check if a smaller reporting company) Smaller Reporting Company
Emerging Growth Company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). YES NO

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

The aggregate market value of the voting stock held by non-affiliates of the Registrant based on the closing price of \$17.85 on March 31, 2017, the last business day of the Registrant's second quarter was approximately \$148.9 million (9,007,996) shares issued and outstanding less approximately 667,500 shares held by affiliates at \$17.85 per share). Although directors and executive officers of the Registrant and certain employee benefit plans were assumed to be "affiliates" of the Registrant for purposes of the calculation, the classification is not to be interpreted as an admission of such status.

As of the close of business on December 1, 2017, there were 8,988,855 shares of the Registrant's Common Stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

¹ Portions of the Definitive Proxy Statement for the 2018 Annual Meeting of Shareholders are incorporated by reference into Part III, Items 10-14 of this Form 10-K.

Forward-looking Statements.

In addition to historical information, this Annual Report on Form 10-K includes certain "forward-looking statements" based on management's current expectations. Prudential Bancorp, Inc.'s (the "Company" or "Prudential Bancorp") actual results could differ materially, as such term is defined in the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, from management's expectations. These forward looking statements are intended to be covered by the safe harbor for forward looking statements provided by the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include statements regarding management's current intentions, beliefs or expectations as well as the assumptions on which such statements are based. These forward-looking statements are subject to significant business, economic and competitive uncertainties and contingencies, many of which are not subject to the Company's control. You are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. Factors that could cause future results to vary from current management expectations include, but are not limited to, general economic conditions, legislative and regulatory changes, monetary and fiscal policies of the federal government, changes in tax policies, rates and regulations of federal, state and local tax authorities, changes in interest rates, deposit flows, the cost of funds, demand for loan products, demand for financial services, competition, changes in the quality or composition of the Company's loan, investment and mortgage-backed securities portfolios, changes in accounting principles, policies or guidelines and other economic, competitive, governmental and technological factors affecting the Company's operations, markets, products, services and fees.

The Company undertakes no obligation to update or revise any forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results that occur subsequent to the date such forward-looking statements are made.

PART I

Item 1. Business

General

Prudential Bancorp is a Pennsylvania corporation that was incorporated in June 2013. It is the successor corporation to Prudential Bancorp, Inc. of Pennsylvania ("Old Prudential Bancorp"), the former stock holding company for Prudential Bank (the "Bank" or "Company" and formally know as "Prudential Savings Bank"), a Pennsylvania-chartered, FDIC-insured savings bank, after the completion in October 2013 of the mutual-to-stock conversion of Prudential

Mutual Holding Company (the "MHC"), the former mutual holding company for the Bank.

The mutual-to-stock conversion was completed on October 9, 2013. In connection with the conversion, Prudential Bancorp sold 7,141,602 shares of common stock at \$10.00 per share in a public offering. In addition 2,403,207 shares were issued in exchange for the outstanding shares of common stock of Old Prudential Bancorp held by shareholders other than the MHC. Each share of Old Prudential Bancorp's common stock owned by the public was exchanged for 0.9442 shares of Prudential Bancorp common stock. Gross proceeds from the conversion and offering were approximately \$71.4 million. Upon completion of the offering and the exchange, 9,544,809 shares of common stock of Prudential Bancorp were issued and outstanding.

As of January 1, 2017, the Company completed its acquisition of Polonia Bancorp, Inc. (“Polonia Bancorp”) and Polonia Bank, Polonia’s wholly owned subsidiary. Polonia Bancorp and Polonia Bank were merged with and into the Company and the Bank, respectively. Under the terms of the Merger Agreement, shareholders of Polonia had the option to receive \$11.09 per share in cash or 0.7460 of a share of Prudential common stock for each share of Polonia common stock, subject to allocation provisions to assure that, in the aggregate, Polonia shareholders received total merger consideration that consists of 50% stock and 50% cash. As a result of Polonia shareholder stock and cash elections and the related proration provisions of the Merger Agreement, Prudential Bancorp issued approximately 1,274,197 shares of its common stock and approximately \$18.9 million in the merger.

Financial information as of and for the year ended September 30, 2013 presented in this annual report is derived from the consolidated financial statements of Old Prudential Bancorp.

Prudential Bancorp’s business activity primarily consists of the ownership of the Bank’s common stock. Prudential Bancorp does not own or lease any property. Instead, it uses the premises, equipment and other property of the Bank. Accordingly, the information set forth in this annual report, including the consolidated financial statements and related financial data, relates primarily to the Bank. As a bank holding company, Prudential Bancorp is subject to the regulation of the Board of Governors of the Federal Reserve System (“Federal Reserve Board”).

The Company’s results of operations are primarily dependent on the results of the Bank. As of September 30, 2017, the Company, on a consolidated basis, had total assets of approximately \$899.5 million, total deposits of approximately \$636.0 million, and total stockholders’ equity of approximately \$136.2 million.

The Bank is a community-oriented savings bank headquartered in South Philadelphia which was originally organized in 1886 as a Pennsylvania-chartered building and loan association known as “The South Philadelphia Building and Loan Association No. 2.” The Bank grew through a number of mergers with other mutual institutions with the last merger being with Polonia Bank in January 2017. The Bank converted to a Pennsylvania-chartered savings bank in August 2004. The banking office network currently consists of the headquarters and main office and 10 additional full-service branch offices. Eight of the banking offices are located in Philadelphia (Philadelphia County), one is in Drexel Hill, Delaware County and one is in Huntingdon Valley, Montgomery County, Pennsylvania. The Bank maintains ATMs at all of the banking offices. We also provide on-line and mobile banking services.

We are primarily engaged in attracting deposits from the general public and using those funds to invest in loans and securities. The Company’s principal sources of funds are deposits, repayments of loans and mortgage-backed securities, maturities and calls of investment securities and interest-bearing deposits, funds provided from operations and funds borrowed from the Federal Home Loan Bank of Pittsburgh. These funds are primarily used for the origination of various loan types including single-family residential mortgage loans, construction and land development loans, non-residential or commercial real estate mortgage loans, home equity loans and lines of credit,

commercial business loans and consumer loans. Traditionally, the Bank focused on originating long-term single-family residential mortgage loans for portfolio, although the focus has shifted in recent years to emphasis commercial and construction lending. Construction and land development loans increased from \$11.4 million or 3.7% of the total loan portfolio at September 30, 2013 to \$145.5 million or 22.3% of the total loan portfolio at September 30, 2017. The Company also increased its commercial real estate loans from \$19.5 million or 6.3% of the total loan portfolio at September 30, 2013 to \$127.6 million or 19.6% of the total loan portfolio at September 30, 2017. See “-Asset Quality” and “-Lending Activities”.

The investment and mortgage-backed securities portfolio increased by \$61.0 million to \$239.7 million at September 30, 2017 from \$178.7 million at September 30, 2016. This increase was primarily due to the acquisition of the investment securities portfolio of Polonia Bank on January 1, 2017. The securities were liquidated and replaced by other mortgage backed securities and corporate debt securities at no gain or loss to the Bank. The Company recorded approximately \$235,000 in gains from the sale of investment and mortgage-backed securities during fiscal 2017. At September 30, 2017, the investment and mortgage-backed securities had an aggregate net unrealized loss of \$1.7 million compared with the unrealized gain of \$1.5 million as of September 30, 2016, which was primarily due to recent increases in the yield on longer term U.S. Treasury bond yields which resulted in a decrease in the fair value of our available-for-sale securities.

At September 30, 2017, the Company's non-performing assets totaled \$15.6 million or 1.7% of total assets as compared to \$16.5 million or 2.9% of total assets at September 30, 2016. Non-performing assets at September 30, 2017 included five construction loans aggregating \$8.7 million, 33 one-to-four family residential loans aggregating \$3.7 million, one single-family residential investment property loan in the amount \$1.4 million and five commercial real estate loans aggregating \$1.6 million. Non-performing assets also included at September 30, 2017 one real estate owned property consisting of a single-family residential property with a carrying value of \$192,000. At September 30, 2017, the Company had nine loans aggregating \$6.0 million that were classified as troubled debt restructurings ("TDRs"). Three of such loans aggregating \$4.9 million were designated non-performing as of September 30, 2017 and on non-accrual status; one of such loans in the amount of \$1.4 million has continued to make payments in accordance with the restructured loan terms, but management continues to have concerns over the borrower's ability to make future payments and as a result has determined to not return the loan to performing status. The remaining two TDRs classified non-accrual totaling \$3.5 million are a part of a troubled borrowing relationship totaling \$10.7 million (after taking into account the previously disclosed \$1.9 million write-down recognized during the quarter ending March 31, 2017 related to this borrowing relationship). The primary project of the borrower is the subject of litigation between the Bank and the borrower and as a result, the project currently is not proceeding. Subsequent to the commencement of the litigation, the borrower filed for bankruptcy under Chapter 11 of the federal bankruptcy code in June 2017. The Bank has moved the underlying litigation noted above with the borrower and the Bank from state court to the federal bankruptcy court in which the bankruptcy proceeding is being heard. The remaining six TDRs have performed in accordance with the terms of their revised agreements and have been placed on accruing status. As of September 30, 2017, the Company had reviewed \$19.7 million of loans for possible impairment of which \$15.0 million was classified substandard compared to \$19.4 million reviewed for possible impairment and \$14.6 million of which was classified substandard as of September 30, 2016. The allowance for loan losses totaled \$4.5 million, or 0.8% of total loans and 29.0% of total non-performing loans (which included loans acquired from Polonia Bank at their fair value) at September 30, 2017. See "*-Asset Quality*".

The main office is located at 1834 West Oregon Avenue, Philadelphia, Pennsylvania and the Company's telephone number is (215) 755-1500.

Market Area and Competition

Most of Prudential Bancorp's business activities are conducted within a few hours' drive from Philadelphia and include New Jersey, eastern Pennsylvania, Delaware and southern New York.

We face substantial competition from other financial institutions in our service area, especially from many local community banks, as well as many local credit unions. Competition among financial institutions is based upon a number of factors, including the quality of services rendered, interest rates offered on deposit accounts, interest rates charged on loans and other credit services, service charges, the convenience of banking facilities, locations and hours of operation and, in the case of loans to larger commercial borrowers, applicable lending limits. Many of the financial institutions with which we compete have greater financial resources than we do, and offer a wider range of deposit and lending products.

We believe that an attractive niche exists serving small to medium sized business customers not adequately served by our larger competitors, and we will seek opportunities to build commercial relationships to complement our retail strategy. We believe small to medium-sized businesses will continue to respond in a positive manner to the attentive and highly personalized service we provide.

Lending Activities

General. At September 30, 2017, the net loan portfolio totaled \$571.3 million or 63.5% of total assets. The Company has changed its lending philosophy and started to increase its investment in loans for construction and land development secured by multi-family and commercial real estate which comprised 22.9% of the loan portfolio at September 30, 2017. Management believes it has the expertise to underwrite these types of loans which management believes will add to earnings while reducing interest rate risk due to the generally shorter contractual maturity of such loans. The Company still holds \$351.3 million of residential real estate loans collateralized by one-to-four family, also known as "single-family", residential properties secured by properties located primarily in the Company's market area.

The types of loans that we may originate are subject to federal and state banking laws and regulations. Interest rates charged by us on loans are affected principally by the demand for such loans and the supply of money available for lending purposes and the rates offered by competitors. These factors are, in turn, affected by general and economic conditions, the monetary policy of the federal government, including the Federal Reserve Board, legislative tax policies and governmental budgetary matters.

Loan Portfolio Composition. The following table shows the composition of the loan portfolio by type of loan at the dates indicated.

	September 30, 2017		2016		2015		2014		2013	
	Amount	%	Amount	%	Amount	%	Amount	%	Amount	%
(Dollars in Thousands)

Net loans	\$571,343		\$344,948		\$312,633		\$321,063		\$306,517	

(1) Includes home equity loans totaling \$6.5 million, \$3.8 million, \$4.1 million, \$5.0 million and \$6.2 million as of September 30, 2017, 2016, 2015, 2014 and 2013, respectively. Also includes lines of credit totaling \$14.1 million,

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

\$7.4 million, \$8.5 million, \$10.0 million and \$9.5 million, as of September 30, 2017, 2016, 2015, 2014 and 2013, respectively.

Contractual Terms to Final Maturities. The following table shows the scheduled contractual maturities of loans as of September 30, 2017, before giving effect to net items. Demand loans, loans having no stated schedule of repayments and no stated maturity, and overdrafts are reported as due in one year or less. The amounts shown below do not take into account loan prepayments.

	One-to-Four		Construction				Consumer	Total
	Family Residential	Multi-family Residential	Commercial Real Estate	and Land Development	Commercial Business	Leases		
Amounts due after September 30, 2017 in:								
One year or less	\$ 12,846	\$ -	\$ 1,097	\$ 69,229	\$ -	\$ 339	\$ 912	\$ 84,423
After one year through two years	9,672	7,452	5,166	41,294	-	946	72	64,602
After two years through three years	4,665	983	5,988	30,663	-	1,750	66	44,115
After three years through five years	23,247	2,821	13,363	-	488	1,205	117	41,241
After five years through ten years	55,580	8,958	77,325	4,300	-	-	265	146,428
After ten years through fifteen years	58,191	945	8,142	-	-	-	88	67,366
After fifteen years	187,097	349	16,563	-	-	-	423	204,432
Total	\$ 351,298	\$ 21,508	\$ 127,644	\$ 145,486	\$ 488	\$ 4,240	\$ 1,943	\$ 652,607

The following table shows the dollar amount of all loans due after one year from September 30, 2017, as shown in the table above, which have fixed interest rates or which have floating or adjustable interest rates.

	Fixed-Rate	Floating or Adjustable-Rate	Total
	(In Thousands)		
One-to-four family residential (1)	\$278,450	\$ 60,002	\$338,452
Multi-family residential	15,866	5,642	21,508
Commercial real estate	100,361	26,186	126,547
Construction and land development	76,257	-	76,257
Commercial business	488	-	488
Leases	3,901	-	3,901
Consumer	1,031	-	1,031
Total	\$476,354	\$ 91,830	\$568,184

(1) Includes home equity loans and lines of credit.

The Bank originates construction and development loans and commercial real estate loans with fixed rates and shorter contractual maturities (than is generally the case for residential mortgage loans). To a lesser extent mortgage loans are originated for sale on the secondary market in order to mitigate interest rate risk and to increase non-interest income.

Loan Originations. The Bank's lending activities are subject to underwriting standards and loan origination procedures established by our board of directors and management. Loan originations are obtained through a variety of sources, including existing customers as well as new customers obtained from referrals and local advertising and promotional efforts. Consumer loan applications are taken at any of our offices while loan applications for all other types of loans, including home equity and home equity line of credits, are taken only at our main office. All loan applications are processed and underwritten centrally at our executive office in Huntingdon Valley, PA.

Single-family residential mortgage loans are generally written on standardized documents used by the Federal Home Loan Mortgage Corporation ("FHLMC" or "Freddie Mac") and Federal National Mortgage Association ("FNMA" or "Fannie Mae"). Property valuations of loans secured by real estate are undertaken by independent third-party appraisers approved by the board of directors and are reviewed internally before acceptance. At both September 30, 2017 and September 30, 2016, the Company had no real estate loans that would be considered subprime loans, which we define as mortgage loans advanced to borrowers who do not qualify for loans bearing market interest rates because of problems with their credit history. The Bank does not originate and has not in the past originated subprime loans.

We also purchase participation interests in larger balance loans, typically commercial real estate and construction and land development loans, from other financial institutions in our market area. Such participations are reviewed for compliance, are underwritten independently in accordance with our underwriting criteria and are approved before they are purchased by the Management Loan Committee and one of the following: the President's Committee, the Executive Committee or the full board, based upon the amount of participation being purchased. Generally, loan purchases have been without any recourse to the seller. However, we actively monitor the performance of such loans through the receipt of regular updates, including inspection reports, from the lead lender regarding the loan's performance, discussing the loan with the lead lender on a regular basis and receiving copies of updated financial statements of the borrower from the lead lender. These loans are subjected to regular internal reviews in accordance with our loan policy.

The Bank typically holds a 100% interest in construction and land development loans. The Bank has in the past and currently reserves the option to sell participation interests. We generally have sold participation interests in loans only when a loan would exceed the Bank's internal and/or legal loans to one borrower limits. With respect to the sale of participation interests in such loans, we have typically received commitments to purchase such participation interests prior to the time the loan is closed. See *"-Lending Activities - Construction and Land Development Lending."*

As part of the Bank's loan policy, we are permitted, to make loans to one borrower and related entities in an aggregate amount of up to 15% of the capital accounts of the Bank which consist of the aggregate of its capital, surplus, undivided profits, capital securities and allowance for loan losses. At September 30, 2017, the Bank's internal "guidance" limit is \$12.5 million to one borrower as a threshold. The Bank is permitted to exceed such limit in certain situations subject to the (i) approval of the Board of Directors and (ii) subject to the overall legal/regulatory lending limit which was calculated to be \$18.0 million at September 30, 2017. At September 30, 2017, our three largest loans to one borrower and related entities amounted to \$14.8 million, \$12.6 million and \$12.0 million. The largest relationship consist of a participation interest in four construction and land development loans to construct a 212 unit apartment building in Plainfield, New Jersey and to construct 24 townhouses in Hanover Township, New Jersey. The second largest relationship consists of four commercial real estate loans to finance retail space in the Philadelphia suburbs. The third largest relationship consists of a participation interest in a commercial real estate loan to purchase a 316-unit apartment complex in East Rutherford, New Jersey. The three relationships are all performing in accordance with contractual terms. For more information regarding these loans, see *"-Lending Activities - Construction and Land Development Lending."*

The following table shows our total loans originated, purchased, sold and repaid during the periods indicated.

Total loans sold and principal repayments	149,413	54,546	67,974
Decrease due to other items, net (2)	(2,959)	(403)	(948)

Net increase (decrease) in loan portfolio \$226,398 \$32,315 \$(8,430)

(1) Includes loan participations with other lenders.

Other items consist of the undisbursed portion of loans in process, deferred fees and the allowance for loan losses.

The 2017 balance consisted of the \$3.0 million provision for loan losses recorded to the allowance and the \$31,000 (2) amortization of net loan fees. The 2016 balance consisted of the \$225,000 provision for loan losses recorded to the allowance and the \$177,000 amortization of net loan fees. The 2015 balance consisted of a \$735,000 provision for loan losses recorded to the allowance.

One-to-Four Family Residential Mortgage Lending. A prudent lending activity continues to be the origination or purchase of loans secured by first mortgages on one-to-four family residential properties located in the Company's market area. Our single-family residential mortgage loans are obtained through the lending department and branch personnel and to a lesser extent through correspondents. The balance of such loans increased, on a dollar basis, from \$270.8 million or 87.8% of total loans at September 30, 2013 to \$351.3 million, or 53.8% of total loans at September 30, 2017. The percentage of total loans as well as the total amount of such loans represented has decreased (excluding the effects of the acquisition of Polonia Bank) as our focus has shifted to the origination of commercial real estate loans and construction and land development.

Single-family residential mortgage loans generally are underwritten on terms and documentation conforming to guidelines issued by Freddie Mac and Fannie Mae. We have retained for portfolio a substantial portion of the single-family residential mortgage loans that we historically originate, including our jumbo residential mortgage loans, only selling certain long-term, fixed-rate loans bearing interest rates below certain levels established by the board. During fiscal year ended 2017, the Company sold 14 single-family residential loans servicing released totaling \$2.6 million for a gain \$52,000. We service all loans that we have originated and retained. We currently offer adjustable-rate mortgage and balloon loans, which are structured as shorter term fixed-rate loans (generally 10 years or less) followed by a final payment of the full amount of the principal due at the maturity date. Due to the interest rate environment, originations of such loans have been limited in recent years. At September 30, 2017, \$60.0 million, or 17.7%, of our one-to-four family residential loan portfolio consisted of adjustable-rate loans, including hybrid loans. We also originate fixed-rate, fully amortizing mortgage loans with maturities of 15, 20 or 30 years, for resale in the secondary market.

While continuing to operate in the historically low current interest rate environment and to assist in the implementation of our asset/liability management policy, we have placed an emphasis on the origination of single-family mortgage loans to be sold in the secondary markets.

We underwrite one-to-four family residential mortgage loans with loan-to-value ratios of up to 95%, provided that the borrower obtains private mortgage insurance on loans that exceed 80% of the appraised value or sales price, whichever is less, of the secured property. We also require that title insurance, hazard insurance and, if appropriate, flood insurance be maintained on all properties securing real estate loans. A licensed appraiser appraises all properties securing one-to-four family first mortgage loans. Our mortgage loans generally include due-on-sale clauses which provide us with the contractual right to deem the loan immediately due and payable in the event the borrower transfers ownership of the property.

Our single-family residential mortgage loans also include home equity loans and lines of credit, which amounted to \$6.5 million and \$14.1 million, respectively, at September 30, 2017. The unused portion of home equity lines was \$6.1 million at such date. Our home equity loans are fully amortizing and have terms to maturity of up to 20 years. While home equity loans also are secured by the borrower's residence, we generally obtain a second mortgage position on these loans. Our lending policy provides that our home equity loans have loan-to-value ratios, when combined with

any first mortgage, of 80% or less at time of origination, although the preponderance of our home equity loans have combined loan-to-value ratios of 75% or less at time of origination. We also offer home equity revolving lines of credit with interest tied to the Wall Street Journal prime rate plus a stipulated margin. Generally, we have a second mortgage on the borrower's residence as collateral on our home equity lines. In addition, our home equity lines generally have loan-to-value ratios (combined with any loan secured by a first mortgage) of 75% or less at time of origination. Our customers may apply for home equity lines as well as home equity loans at any banking office. While there has been decline in some collateral values due to the continued weak real estate market, we believe our conservative underwriting guidelines have minimized our exposure in that regard.

Construction and Land Development Lending. We have maintained our emphasis on construction and land development loans originations because construction loans have shorter terms to maturity, provide an attractive yield and generally have either higher fixed interest rates or adjustable interest rates.. At September 30, 2017, our construction and loan development loans amounted to \$145.5 million, or 22.3% of our total loan portfolio. This amount includes \$73.9 million of undisbursed loans in process. The average size of our construction and land development loans, excluding loans to our largest lending relationship, was approximately \$3.3 million at September 30, 2017. Our construction loan portfolio has increased substantially since September 30, 2013 when construction loans amounted to \$11.4 million or 3.7% of our total loan portfolio as compared to \$145.5 million or 22.3% of our total loan portfolio at September 30, 2017.

Loans to finance the construction of condominium projects or single-family homes and subdivisions are generally offered to experienced builders in our primary market area with whom we have an established relationship. Residential construction and development loans are offered with terms of up to 36 months although typically the terms are 12 to 24 months. The maximum loan-to-value limit applicable to these loans is 75% of the appraised post construction value and the policy does not require amortization of the principal during the term of the loan. We often establish interest reserves and obtain personal and corporate guarantees as additional security on the construction loans. Interest reserves are used to pay the monthly interest payments during the development phase of the loan and are treated as an addition to the loan balance. Interest reserves pose an additional risk to the Company if it does not become aware of deterioration in the borrower's financial condition before the interest reserve is fully utilized. In order to help monitor the risk, financial statements and tax returns are obtained from borrowers on an annual basis. Additionally, construction loans are reviewed at least annually pursuant to a third party loan review. Construction loan proceeds are disbursed periodically in increments as construction progresses and as inspection by approved appraisers or loan inspectors warrants. Construction loans are negotiated on an individual basis but typically have floating rates of interest based upon the Wall Street Journal prime rate plus a stipulated margin. Additional fees may be charged as funds are disbursed. In addition to interest payments during the term of the construction loan, we typically require that payments to reduce the principal outstanding be made as units are completed and released. Generally such principal payments must be equal to 110% of the amount attributable to the acquisition and development of the lot plus 100% of the amount attributable to construction of the individual home. We permit a pre-determined limited number of model homes to be constructed on an unsold or "speculative" basis. All other units must be pre-sold before we will disburse funds for construction. Construction loans also include loans to acquire land and loans to develop the basic infrastructure, such as roads and sewers. The majority of the construction loans are secured by properties located in our primary lending area.

Set forth below is a brief description of the five largest construction loan or loan relationships.

The largest construction loan is in the amount of \$10.0 million of which \$10.0 million has been disbursed as of September 30, 2017. This loan was originated March 2017 and is a participation interest in a \$35.1 million loan purchased from another financial institution. The proceeds were used to acquire land and construct a 312 unit garden apartment complex in Winslow Township, New Jersey. The project was substantially complete as of September 30, 2017. The loan is performing in accordance with contractual terms.

The second largest construction loan is in the amount of \$10.0 million of which \$1.4 million has been disbursed as of September 30, 2017. This loan was originated in January of 2017. The proceeds will be used to construct 66 residential units and 9,000 square feet of retail space in Jersey City, New Jersey. The project was 14.3% complete as of September 30, 2017. The loan is performing in accordance with contractual terms.

The third largest construction loan is in the amount of \$10.0 million of which \$3.4 million has been disbursed as of September 30, 2017. The loan was originated in March of 2017 and is a participation interest in a \$24.0 million loan purchased from another financial institution. The proceeds are being used to construct a six story building with 150 apartment units and 3,500 square feet of retail space. The project was 34.3% complete as of September 30, 2017. The loan is performing in accordance with contractual terms.

The fourth largest construction loan is in the amount of \$10.0 million of which \$624,000 has been disbursed as of September 30, 2017. The loan was originated in April 2017 and is a participation interest in a \$35.0 million loan purchased from another financial institution. The proceeds are being used to construct a 212 unit apartment complex in Plainfield, New Jersey. The project was 6.3% complete as of September 30, 2017. The loan is performing in accordance with contractual terms.

The fifth largest construction loan is in the amount of \$8.4 million of which \$6.1 million has been disbursed as of September 30, 2017. The loan was originated July of 2017 and is a participation interest in a \$16.8 million loan purchased from another financial institution. The proceeds are being used to construct a 200 unit apartment complex in Aberdeen Township, New Jersey. The project was 72.8% complete as of September 30, 2017. The loan is performing in accordance with contractual terms.

Construction financing is generally considered to involve a higher degree of credit risk than long-term financing on improved, owner-occupied real estate. Risk of loss on a construction loan depends largely upon the accuracy of the initial estimate of the property's value at completion of construction compared to the estimated costs, including interest, of construction and other assumptions. Additionally, if the estimate of value proves to be inaccurate, we may

be confronted with a project, when completed, having a value less than the loan amount.

Multi-Family Residential and Commercial Real Estate Loans. At September 30, 2017, multi-family residential and commercial real estate loans amounted in the aggregate to \$149.2 million or 22.9% of the total loan portfolio.

The commercial real estate and multi-family residential real estate loan portfolio consists primarily of loans secured by small office buildings, strip shopping centers, small apartment buildings and other properties used for commercial and multi-family purposes located in the Company's market area. At September 30, 2017, the average commercial and multi-family real estate loan size was approximately \$932,000. The largest multi-family residential or commercial real estate loan at September 30, 2017 was a \$11.9 million fixed-rate loan secured by 38-unit luxury condominium building located in Brooklyn, New York with retail space on the first floor. The second largest multi-family residential or commercial real estate loan at September 30, 2017 was a \$6.8 million fixed-rate loan used to develop a nine unit apartment building for student housing located in Philadelphia, PA. Substantially all of the properties securing the multi-family residential and commercial real estate loans are located in the Company's primary lending area.

Although terms for commercial real estate and multi-family loans vary, our underwriting standards generally allow for terms up to 15 years with loan-to-value ratios of not more than 75%. Most of the loans are structured with balloon payments of 10 years or less and amortization periods of up to 25 years. Interest rates are either fixed or adjustable, based upon designated market indices such as the Wall Street Journal prime rate plus a margin or, with respect to our multi-family residential loans, the Average Contract Interest Rate for previously occupied houses as reported by the Federal Housing Finance Board. In addition, fees are charged to the borrower at the origination of the loan.

Commercial real estate and multi-family real estate lending involves different risks than single-family residential lending. These risks include larger loans to individual borrowers and loan payments that are dependent upon the successful operation of the project or the borrower's business. These risks can be affected by supply and demand conditions in the project's market area of rental housing units, office and retail space and other commercial space. We attempt to minimize these risks by limiting loans to proven businesses, only considering properties with existing operating performance which can be analyzed, using conservative debt coverage ratios in our underwriting, and periodically monitoring the operation of the business or project and the physical condition of the property.

Various aspects of commercial and multi-family loan transactions are evaluated in an effort to mitigate the additional risk in these types of loans. In our underwriting procedures, consideration is given to the stability of the property's cash flow history, future operating projections, current and projected occupancy levels, location and physical condition. Generally, we impose a debt service ratio (the ratio of net cash flows from operations before the payment of debt service to debt service) of not less than 120%. We also evaluate the credit and financial condition of the borrower, and if applicable, the guarantor. With respect to loan participation interests we purchase, we underwrite the loans as if we were the originating lender. Appraisal reports prepared by independent appraisers are reviewed by us prior to the closing of the loan.

During the past year, the Company has shifted its emphasis to originate for portfolio more multi-family and commercial real estate loans, due to their higher yield and shorter duration. Although some delinquencies have existed with respect to these types of loans in our portfolio, no losses have been incurred over the past several years.

Consumer Lending Activities. We offer various types of consumer loans such as loans secured by deposit accounts and unsecured personal loans. Consumer loans are originated primarily through existing and walk-in customers and direct advertising. At September 30, 2017, \$1.9 million, or 0.3% of the total loan portfolio consisted of consumer loans.

Consumer loans generally have higher interest rates and shorter terms than residential loans. However, consumer loans have additional credit risk due to the type of collateral securing the loan or in some cases the absence of collateral.

Commercial Business Loans. At September 30, 2017, commercial business consisted of one loan that amounted to \$488,000. The Bank anticipates being able to originate commercial business loans during fiscal year 2018.

Commercial business loans are made to small to mid-sized businesses in our market area primarily to provide working capital. Small business loans may have adjustable or fixed rates of interest and generally have terms of three years or less but may be as long as 15 years. Our commercial business loans have historically been underwritten based on the creditworthiness of the borrower and generally require a debt service coverage ratio of at least 120%. In addition, we generally obtain personal guarantees from the principals of the borrower with respect to commercial business loans and frequently obtain real estate as additional collateral.

Leases. The Company purchases small business equipment leases through a relationship with a local lender specializing in originating such loans. These leases are purchased based on remaining cash flow's present value on agreed upon yield. This lender provides the servicing for leases purchased.

Loan Approval Procedures and Authority. Our Board of Directors establishes the Bank's lending policies and procedures. Our various lending policies are reviewed at least annually by our management team and the Board in order to consider modifications as a result of market conditions, regulatory changes and other factors.

The Company maintains separate loan approval committees with tiered levels of approvals. Management Loan Committee, comprised of the Chief Operating Officer ("COO"), the Chief Lending Officer ("CLO"), the Chief Credit Officer ("CCO"), the Chief Financial Officer ("CFO") and the Controller has lending approval authority up to \$3.0 million. The next tier in the approval process, with an approval range of \$3.0 million to \$5.0 million, is the President's Loan committee, comprised of the Chief Executive Officer ("CEO") and the COO. All loans in excess of \$5.0 million must be presented to the full board of directors for approval. All loans submitted to the top tiers of approval must be recommended for approval by the Management Loan Committee. For single-family residential loans originated for sale into the secondary market are processed through underwriting software and are reviewed for approval by two senior officers in the credit department

Asset Quality

General. One of our key objectives has been, and continues to be, maintaining a high level of asset quality. In addition to maintaining credit standards for new originations which we believe are prudent, we are proactive in our loan monitoring, collection and workout processes in dealing with delinquent or problem loans. We have also retained an independent, third party to undertake periodic reviews of the credit quality of a random sample of new loans as well as all of our major loans on at least an annual basis.

Reports listing all delinquent accounts are generated and reviewed by management on a monthly basis. These reports include information regarding all loans 30 days or more delinquent as to principal and/or interest and all real estate owned properties and are provided to the Board of Directors. The procedures we take with respect to delinquencies vary depending on the nature of the loan, period and cause of delinquency and whether the borrower is habitually delinquent. When a borrower fails to make a required payment on a loan, we take a number of steps to have the borrower cure the delinquency and restore the loan to current status. We generally send the borrower a written notice of non-payment after the loan is first past due. Our guidelines provide that telephone, written correspondence and/or face-to-face contact will be attempted to ascertain the reasons for delinquency and the prospects of repayment. When contact is made with the borrower at any time prior to foreclosure, we will attempt to obtain full payment, work out a repayment schedule with the borrower to avoid foreclosure or, in some instances, accept a deed in lieu of foreclosure. In the event payment is not then received or the loan not otherwise satisfied, additional letters and telephone calls generally are made. If the loan is still not brought current or satisfied and it becomes necessary for us to take legal action, which typically occurs after a loan is 90 days or more delinquent, we will commence foreclosure proceedings against any real property that secures the loan. If a foreclosure action is instituted and the loan is not brought current, paid in full, or refinanced before foreclosure sale, the property securing the loan generally is sold at foreclosure and, if purchased by us, becomes real estate owned. Since there has not been a significant increase in recent years in the one-to-four family residential loans that are 90 days past due, the Company was not adversely impacted by any recent government programs related to the foreclosure process.

On loans where the collection of principal or interest payments is doubtful, the accrual of interest income ceases (“non-accrual” loans). On loans 90 days or more past due as to principal and/or interest payments, our policy is to discontinue accruing additional interest and reverse any interest previously accrued. On occasion, this action may be taken earlier if the financial condition of the borrower raises significant concern with regard to his/her ability to service the debt in accordance with the terms of the loan agreement. Interest income is not accrued on these loans until the borrower’s financial condition and payment record demonstrate an ability to service the debt.

Property acquired by the Bank through foreclosure is initially recorded at the lower of cost, which is the carrying value of the loan, or fair value at the date of acquisition, which is fair value of the related assets at the date of foreclosure, less estimated costs to sell. Thereafter, if there is a further deterioration in value, we charge earnings for the diminution in value. The Bank’s policy is to obtain an appraisal on real estate subject to foreclosure proceedings prior to the time of foreclosure if the property is located outside the Company’s market area or consists of other than single-family residential property. We obtain re-appraisals on a periodic basis, generally on at least an annual basis, on foreclosed properties. We also conduct inspections on foreclosed properties.

We account for our impaired loans in accordance with generally accepted accounting principles. An impaired loan generally is one for which it is more likely than not, based on current information, that the lender will not collect all the amounts due under the contractual terms of the loan. Large groups of smaller balance, homogeneous loans are collectively evaluated for impairment. Loans collectively evaluated for impairment include smaller balance commercial real estate loans, residential real estate loans and consumer loans. These loans are evaluated as a group because they have similar characteristics and performance experience. Larger commercial real estate, construction and land development and commercial business loans are individually evaluated for impairment on at least a quarterly basis by management. All loans classified as substandard as part of the loan review process or due to delinquency status are evaluated for potential impairment. There were \$19.7 million of loans evaluated for impairment as of September 30, 2017 (of which \$10.7 million is related to one relationship), consisting of \$8.7 million of construction and land development loans, \$8.3 million of one-to-four family residential loans, \$2.3 million of commercial real estate loans, \$317,000 of multi-family residential loans and \$10,000 of consumer loans. Although no specific allocations were applied to these loans, there were partial charge-offs totaling \$2.0 million during fiscal 2017. As of September 30, 2017, there were nine loans totaling \$3.1 million designated as special mention loans consisting of six non-residential real estate loans aggregating \$1.5 million, one residential investment property aggregating \$1.4 million, and two single-family residential loans aggregating \$275,000. As of September 30, 2016 there were five loans totaling \$2.6 million designated as special mention loans, consisting of five single-family residential loans aggregating \$1.7 million, two commercial real estate loans aggregating \$943,000.

Federal regulations and our policies require that we utilize an internal asset classification system as a means of reporting problem and potential problem assets. We have incorporated an internal asset classification system, consistent with Federal banking regulations, as a part of our credit monitoring system. We currently classify problem and potential problem assets as “special mention”, “substandard,” “doubtful” or “loss” assets. An asset is considered “substandard” if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. “Substandard” assets include those characterized by the “distinct possibility” that the insured institution will sustain “some loss” if the deficiencies are not corrected. Assets classified as “doubtful” have all of the weaknesses inherent in those classified “substandard” with the added characteristic that the weaknesses present make “collection or liquidation in full,” on the basis of currently existing facts, conditions, and values, “highly questionable and improbable.” Assets classified as “loss” are those considered “uncollectible” and of such little value that their continuance as assets without the establishment of a specific loss reserve is not warranted. Assets which do not currently expose the insured institution to sufficient risk to warrant classification in one of the aforementioned categories but possess weaknesses are required to be designated “special mention.”

When an insured institution classifies one or more assets, or portions thereof, as “substandard” or “doubtful,” it is required that a general valuation allowance for loan losses be established for loan losses in accordance with established methodology. General valuation allowances represent loss allowances which have been established to recognize the inherent losses associated with lending activities, but which, unlike specific allocations, have not been allocated to particular problem assets. When an insured institution classifies one or more assets, or portions thereof, as “loss,” it is required to charge off such amount.

Our allowance for loan losses includes a portion which is allocated by type of loan, based primarily upon our periodic reviews of the risk elements within the various categories of loans. The specific components relate to certain impaired loans. The general components cover non-classified loans and are based on historical loss experience adjusted for qualitative factors in response to changes in risk and market conditions. Our management believes that, based on information currently available, the allowance for loan losses is maintained at a level which covers all known and inherent losses that are both probable and reasonably estimable at each reporting date. However, actual losses are dependent upon future events and, as such, further additions to the level of the allowance for loan losses may become necessary.

We review and classify assets on no less frequently than a quarterly basis and the Board of Directors is provided with reports on our classified and criticized assets. We classify assets in accordance with the management guidelines described above. At September 30, 2017 and 2016, we had no assets classified as “doubtful” or “loss” and \$12.7 million and \$14.6 million, respectively, of assets classified as “substandard.” In addition, there were \$3.1 million and \$2.6 million of loans designated as “special mention” as of September 30, 2017 and 2016, respectively. There was one loan totaling \$1.4 million classified as non-performing included in the loans classified “special mention” as of September 30, 2016. See –“Construction and Land Development Lending”. See also -“Non-Performing Loans and Real Estate Owned.”

Delinquent Loans. The following table shows the delinquencies in the loan portfolio as of the dates indicated.

	September 30, 2017				September 30, 2016			
	30-89 Days Overdue		90 or More Days Overdue		30-89 Days Overdue		90 or More Days Overdue	
	Number of Loans	Principal Balance	Number of Loans	Principal Balance	Number of Loans	Principal Balance	Number of Loans	Principal Balance
	(Dollars in Thousands)

Non-Performing Loans and Real Estate Owned. The following table sets forth information regarding non-performing loans and real estate owned. The Company's general policy is to cease accruing interest on loans which are 90 days or more past due and to reverse all accrued interest. At September 30, 2017, all of the loans listed as 90 or more days past due in the table above were in non-accrual status. At September 30, 2017, the Company had nine loans aggregating \$6.0 million that were classified as troubled debt restructurings ("TDRs"). As of September 30, 2017, six of the TDRs were performing in accordance with their restructured terms. Three of such loans aggregating \$4.9 million as of September 30, 2017 were classified as non-performing of which two totaling \$3.5 million are related to one lending relationship and the remaining one for \$1.4 million remained on non-accrual status as a result of not achieving a sufficiently sustained payment history under the restructured terms to justify returning the loan to performing (accrual) status.

The following table shows the amounts of non-performing assets (defined as non-accruing loans, accruing loans 90 days or more past due as to principal or interest and real estate owned) at the dates indicated.

	September 30,				
	2017	2016	2015	2014	2013
	(Dollars in Thousands)				
Non-accruing loans:

Consumer	-	-	-	-	-
Total accruing loans 90 days or more past due	-	-	-	-	-
Total non-performing loans (2)	15,397	15,878	13,932	5,879	6,634
Real estate owned, net (3)	192	581	869	360	406
Total non-performing assets	\$15,589	\$16,459	\$14,801	\$6,239	\$7,040
Total non-performing loans as a percentage of loans	2.67 %	4.56 %	4.21 %	1.83 %	2.16 %
Total non-performing loans as a percentage of total assets	1.71 %	2.84 %	2.86 %	1.12 %	1.09 %
Total non-performing assets as a percentage of total assets	1.73 %	2.94 %	3.04 %	1.19 %	1.16 %

(1) Includes at: (i) September 30, 2017, \$5.7 million of troubled debt restructurings (TDRs) that were classified non-performing consisting of a \$3.6 million construction and land development loan, a \$1.4 million one-to-four family loan and five commercial real estate loans aggregating \$1.6 million; (ii) September 30, 2016, \$5.7 million of troubled debt restructurings (TDRs) that were classified non-performing consisting of a \$3.6 million construction and land development loan, a \$1.4 million one-to-four family loan and a \$729,000 commercial real estate loan; (iii) September 30, 2015, \$5.8 million of TDRs that were classified non-performing consisting of a \$3.6 million construction and land development loan, a \$1.4 million one-to-four family loan and a \$737,000 commercial real estate loan; (iv) September 30, 2014, \$2.4 million of TDRs that were classified non-performing consisting of a \$1.5 million one-to-four family loan and a \$877,000 commercial real estate loan, and (v) at September 30, 2013, \$2.1 million of TDRs consisting of a one-to-four family loan in the amount of \$157,000 and five commercial real estate loans totaling \$1.9 million.

- (2) Non-performing loans consist of non-accruing loans plus accruing loans 90 days or more past due.
- (3) Real estate owned balances are shown net of related loss allowances and consist solely of real property.

Interest income on non-accrual loans is recognized on the cash basis until either the loan is paid-in full or the Bank determines after a significant payment history has been achieved to warrant the involved loan being classified as a performing loan and being returned to accruing status. There was \$161,000 of such interest recognized during fiscal 2017 while there was \$175,000 of such interest recognized for non-accrual loans for fiscal 2016. Approximately \$636,000 in additional interest income would have been recognized during the year ended September 30, 2017 if these loans had been performing during fiscal 2017.

At September 30, 2017, the Company's non-performing assets totaled \$15.6 million or 1.7% of total assets as compared to \$16.5 million or 2.9% of total assets at September 30, 2016. Non-performing assets at September 30, 2017 included five construction loans aggregating \$8.7 million, 33 one-to-four family residential loans aggregating \$3.7 million, one single-family residential investment property loan in the amount \$1.4 million and five commercial real estate loans aggregating \$1.6 million. Non-performing assets also included at September 30, 2017 one real estate owned property consisting of a single-family residential property with a carrying value of \$192,000. At September 30, 2017, the Company had nine loans aggregating \$6.0 million that were classified as TDRs. Three of such loans aggregating \$4.9 million were designated non-performing as of September 30, 2017 and on non-accrual status; one of such loans in the amount of \$1.4 million has continued to make payments in accordance with the restructured loan terms, but management continues to have concerns over the borrower's ability to make future payments and as a result has determined to not return the loan to performing status. The remaining two TDRs classified non-accrual totaling \$3.5 million are a part of a troubled relationship totaling \$10.7 million (after taking into account the previously disclosed \$1.9 million write-down recognized during the quarter ending March 31, 2017 related to this borrowing relationship). The primary project of the borrower is the subject of litigation between the Bank and the borrower and as a result, the project currently is not proceeding. Subsequent to the commencement of the litigation, the borrower filed for bankruptcy under Chapter 11 of the federal bankruptcy code in June 2017. The Bank has moved the underlying litigation noted above with the borrower and the Bank from state court to the federal bankruptcy court in which the bankruptcy proceeding is being heard. The remaining six TDRs totaling \$1.1 million have performed in accordance with the terms of their revised agreements and have been placed on accruing status. As of September 30, 2017, the Company had reviewed \$19.7 million of loans for possible impairment of which \$12.7 million was classified substandard compared to \$19.4 million reviewed for possible impairment and \$14.6 million of which was classified substandard as of September 30, 2016.

Allowance for Loan Losses. The allowance for loan losses is established through a provision for loan losses charged to expense. We maintain the allowance at a level believed, to the best of management's knowledge, to cover all known and inherent losses in the portfolio that are both probable and reasonable to estimate at each reporting date. Management reviews the allowance for loan losses on no less than a quarterly basis in order to identify those inherent losses and to assess the overall collection probability for the loan portfolio. For each primary type of loan, we establish a loss factor reflecting an estimate of the known and inherent losses in such loan type using both a quantitative analysis as well as consideration of qualitative factors. Management's evaluation process includes, among other things, an analysis of delinquency trends, non-performing loan trends, the level of charge-offs and recoveries, prior loss experience, total loans outstanding, the volume of loan originations, the type, size and geographic concentration of our loans, the value of collateral securing the loan, the borrower's ability to repay and repayment performance, the number of loans requiring heightened management oversight, local economic conditions and industry experience.

The carrying value of loans is periodically evaluated and the allowance is adjusted accordingly. The establishment of the allowance for loan losses is significantly affected by management judgment and uncertainties and there is a likelihood that different amounts would be reported under different conditions or assumptions. Various regulatory agencies, as an integral part of their examination process, periodically review the allowance for loan losses. Such agencies may require us to make additional provisions for estimated loan losses based upon judgments that differ from those of management. Loans acquired from Polonia Bancorp amounted to \$160.8 million of which there is no allowance for loan loss because these loans were recorded at fair value. A general credit mark of \$2.3 million was recorded in connection with completion of the acquisition and is being amortized over 30 years. As of September 30, 2017, our allowance for loan losses of \$4.5 million was 0.8% of total loans receivable and 29.0% of non-performing loans.

Charge-offs on loans totaled \$2.0 million and \$11,000 for the years ended September 30, 2017 and 2016, respectively. The charge-offs during fiscal 2017 were primarily the result of one borrowing relationship described in “-Non-performing Assets and Real Estate Owned” Section. Management took a prudent approach in writing down all substandard loans to the net realizable value of the applicable underlying collateral.

Management will continue to monitor and modify the allowance for loan losses as conditions dictate. No assurances can be given that the level of allowance for loan losses will cover all of the inherent losses on our loans or that future adjustments to the allowance for loan losses will not be necessary if economic and other conditions differ substantially from the economic and other conditions used by management to determine the current level of the allowance for loan losses.

The following table shows changes in the allowance for loan losses during the periods presented.

	At or For the Year Ended September 30,				
	2017	2016	2015	2014	2013
	(Dollars in Thousands)

Commercial real estate	1,201	19.60 %	859	22.70 %	231	7.80 %	122	4.87 %	70	6.33 %
Construction and land development	1,358	22.30 %	318	6.20 %	725	11.80 %	323	6.77 %	653	3.68 %
Commercial business	4	0.10 %	1	0.00 %	-	0.00 %	15	0.60 %	4	0.19 %
Leases	23	0.70 %	21	0.90 %	-	0.00 %	-	0.00 %	-	0.00 %
Consumer	24	0.30 %	10	0.30 %	4	0.10 %	4	0.12 %	2	0.14 %
Unallocated	410	-	299	-	268	-	231	-	218	-
Total allowance for loan losses	\$4,466	100.10 %	\$3,269	100.00 %	\$2,930	100.00 %	\$2,424	100.00 %	\$2,353	100.00 %

The aggregate allowance for loan losses increased by \$1.2 million from September 30, 2016 to September 30, 2017, due to a provision of \$3.0 million, partially offset by a net charge off of \$1.8 million recorded during the period. Substantially all of the charge offs for fiscal 2017 related to one borrowing relationship. During the year ended September 30, 2016, we recorded a provision in the amount of \$225,000 primarily due to the increase in the level of commercial real estate loans. Fluctuations in the allowance may occur based on management's consideration of the known and inherent losses in the loan portfolio that are reasonably estimable as well as current qualitative and quantitative risk factors at the time of the analysis.

Investment Activities

General. We invest in securities in accordance with policies approved by our board of directors. The investment policy designates the President, CFO and Controller as the Investment Committee, which is authorized by the board to make the Bank's investments consistent with the investment policy. The Board of Directors of the Bank reviews all investment activity on a monthly basis.

The investment policy is designed primarily to manage the interest rate sensitivity of the assets and liabilities, to generate a favorable return without incurring undue interest rate and credit risk, to complement the lending activities and to provide and maintain liquidity. The current investment policy generally permits investments in debt securities issued by the U.S. government and U.S. agencies, municipal bonds, and corporate debt obligations, as well as investments in preferred and common stock of government agencies and government sponsored enterprises such as Fannie Mae, Freddie Mac and the Federal Home Loan Bank of Pittsburgh (federal agency securities) and, to a lesser extent, other equity securities. Securities in these categories are classified as "investment securities" for financial reporting purposes. The policy also permits investments in mortgage-backed securities, including pass-through securities issued and guaranteed by Fannie Mae, Freddie Mac and Ginnie Mae as well as collateralized mortgage obligations ("CMOs") issued or backed by securities issued by these government sponsored agencies.

Ginnie Mae is a government agency within the Department of Housing and Urban Development which is intended to help finance government-assisted housing programs. Ginnie Mae securities are backed by loans insured by the Federal Housing Administration, or guaranteed by the Department of Veterans Affairs. The timely payment of principal and interest on Ginnie Mae securities is guaranteed by Ginnie Mae and backed by the full faith and credit of the U.S. Government. Freddie Mac is a private corporation chartered by the U.S. Government. Freddie Mac issues participation certificates backed principally by conventional mortgage loans. Freddie Mac guarantees the timely payment of interest and the ultimate return of principal on participation certificates. Fannie Mae is a private corporation chartered by the U.S. Congress with a mandate to establish a secondary market for mortgage loans. Fannie Mae guarantees the timely payment of principal and interest on Fannie Mae securities. Freddie Mac and Fannie Mae securities are not backed by the full faith and credit of the U.S. Government.

Investments in mortgage-backed securities involve the risk that actual prepayments will be greater than estimated prepayments over the life of the security, which may require adjustments to the amortization of any premium or accretion of any discount relating to such instruments thereby changing the net yield on such securities. There is also reinvestment risk associated with the cash flows from such securities or in the event such securities are redeemed by the issuer. In addition, the market value of such securities may be adversely affected by changes in interest rates. Further, privately issued mortgage-backed securities and CMOs also have a higher risk of default due to adverse changes in the creditworthiness of the issuer. Management's practice is generally to not invest in such securities. See further discussion in Note 5 of the Notes to Consolidated Financial Statements included in Item 8 herein.

The Company has portfolio corporate debt securities with an investment grade rating from one of the three largest rating agencies, Standard and Poors, Moody's, Fitch and Kroll. In purchasing these types of securities, the Company looks for known publicly trading entities along with utilizing the credit department to underwrite each issuing entity as if it were a direct commercial loan. The mortgage-backed securities consist both of mortgage pass-through and cmos guaranteed by Ginnie Mae, Fannie Mae or Freddie Mac.

The Company has portfolio municipal and government subdivisions securities which are graded at least "A" by a national rating agency. The securities are exempt from taxation.

At September 30, 2017, the investment and mortgage-backed securities portfolio amounted to \$239.7 million or 26.6% of total assets at such date. The largest component of the securities portfolio as of September 30, 2017 consisted of mortgage-backed securities which amounted to \$125.1 million or 52.2% of the securities portfolio at September 30, 2017. In addition, we invest in U.S Government and agency obligations and to a significantly lesser degree, other securities.

The securities are classified at the time of acquisition as available for sale, held to maturity or trading. Securities classified as held to maturity must be purchased with the intent and ability to hold that security until its final maturity,

and can be sold prior to maturity only under rare circumstances. Held to maturity securities are accounted for based upon the amortized cost of the security. Available for sale securities can be sold at any time based upon needs or market conditions. Available for sale securities are accounted for at fair value, with unrealized gains and losses on these securities, net of income tax provisions, reflected as accumulated other comprehensive income. At September 30, 2017, we had \$61.3 million of investment and mortgage-backed securities classified as held to maturity, \$178.4 million of investment and mortgage-backed securities classified as available for sale and no securities classified as trading securities.

The following table sets forth certain information relating to the investment and mortgage-backed securities portfolios at the dates indicated.

Mortgage-backed securities at end of period	\$126,459	\$97,289	\$69,917
Weighted average yield at end of period	2.59 %	2.38 %	2.44 %

Impairment primarily relates to non-agency mortgage-backed securities received in the redemption in kind of an (1) investment in a mutual fund. The Company sold the remaining mortgage-backed securities received in the redemption in kind as of September 30, 2015.

Sources of Funds

General. Deposits, loan repayments and prepayments, proceeds from sales of loans, cash flows generated from operations and FHLB advances are the primary sources of funds for use in lending, investing and for other general purposes.

Deposits. We offer a variety of deposit accounts with a range of interest rates and terms. Deposits consist of checking, both interest-bearing and non-interest-bearing, money market, savings and certificate of deposit accounts. At September 30, 2017, 38.0% of the funds deposited with Prudential Savings were in core deposits, which are deposits other than certificates of deposit.

The flow of deposits is influenced significantly by general economic conditions, changes in money market rates, prevailing interest rates and competition. Deposits are obtained predominantly from the areas where the branch offices are located. We have historically relied primarily on customer service and long-standing relationships with customers to attract and retain these deposits; however, market interest rates and rates offered by competing financial institutions

significantly affect the Company's ability to attract and retain deposits. The interest rates offered on deposits are competitive in the market place.

The Bank uses traditional means of advertising its deposit products, including broadcast and print media and generally does not solicit deposits from outside its market area.

At September 30, 2017, jumbo CDs (certificates of deposit of \$100,000 or more) amounted to \$276.1 million, of which \$169.3 million are scheduled to mature within twelve months subsequent to such date. At September 30, 2017, the weighted average remaining period until maturity of the certificate of deposit accounts was 16.5 months. During fiscal 2017, jumbo CDs from government agencies and other financial institutions were utilized to fund growth.

The following table shows the distribution of, and certain other information relating to, deposits by type of deposit, as of the dates indicated.

Borrowings. From time to time we utilize advances from the Federal Home Loan Bank of Pittsburgh as an alternative to retail deposits to fund the operations as part of the operating and liquidity strategy. See “*Liquidity and Capital Resources*” in Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operation. These FHLB advances are collateralized primarily by certain mortgage loans and mortgage-backed securities and secondarily by an investment in capital stock of the Federal Home Loan Bank of Pittsburgh. There are no specific credit covenants associated with these borrowings. FHLB advances are made pursuant to several different credit programs, each of which has its own interest rate and range of maturities. The maximum amount that the Federal Home Loan Bank of Pittsburgh will advance to member institutions, including the Bank, fluctuates from time to time in accordance with the policies of the Federal Home Loan Bank of Pittsburgh. At September 30, 2017, the Company had \$114.3 million in outstanding advances with the FHLB, and in addition had the ability to obtain additional advances in the amount of \$277.5 million. The Bank utilized the FHLB advances to fund an investment leverage strategy along with funding growth in the loan and investment portfolios.

The following table shows certain information regarding short-term borrowings at or for the dates indicated:

	At or For the Year Ended September 30,					
	2017		2016		2015

Total						\$94,318	\$30,638

Subsidiaries

The Company has only one direct subsidiary: Prudential Savings Bank. The Bank's sole subsidiary as of September 30, 2017 was PSB Delaware, Inc. ("PSB"), a Delaware-chartered corporation established to hold investment securities. As of September 30, 2017, PSB had assets of \$155.5 million primarily consisting of mortgage-backed and investment securities. We may consider the establishment of one or more additional subsidiaries in the future.

Employees

At September 30, 2017, we had 80 full-time employees, and seven part-time employees. None of such employees are represented by a collective bargaining group, and we believe that the Company's relationship with its employees is good.

REGULATION

General

Prudential Savings Bank is a Pennsylvania-chartered savings bank and is subject to extensive regulation and examination by the Pennsylvania Department of Banking and Securities (the "Department") and by the Federal Deposit Insurance Corporation ("FDIC"), and is also subject to certain requirements established by the Federal Reserve Board. The federal and state laws and regulations which are applicable to banks regulate, among other things, the scope of their business, their investments, their reserves against deposits, the payment of dividends, the timing of the availability of deposited funds and the nature and amount of collateral for certain loans. There are periodic examinations by the Department and the FDIC to test the Bank's compliance with various regulatory requirements. This regulation and supervision establishes a comprehensive framework of activities in which an institution can engage and is intended primarily for the protection of the insurance fund and depositors. The regulatory structure also gives the regulatory authorities extensive discretion in connection with their supervisory and enforcement activities and examination policies, including policies with respect to the classification of assets and the establishment of adequate loan loss reserves for regulatory purposes. Any change in such regulation, whether by the Department, the FDIC, the Federal Reserve Board or the Congress could have a material adverse impact on Prudential Bancorp and the Bank and their respective operations.

Federal law provides the federal banking regulators, including the FDIC and the Federal Reserve Board, with substantial enforcement powers. This enforcement authority includes, among other things, the ability to assess civil money penalties, to issue cease-and-desist or removal orders, and to initiate injunctive actions against banking

organizations and institution-affiliated parties, as defined. In general, these enforcement actions may be initiated for violations of laws and regulations and unsafe or unsound practices. Other actions or inactions may provide the basis for enforcement action, including misleading or untimely reports filed with regulatory authorities.

Prudential Bancorp is a registered as bank holding company under the Bank Holding Company Act and is subject to regulation and supervision by the Federal Reserve Board and by the Department. Prudential Bancorp files annually a report of its operations with, and is subject to examination by, the Federal Reserve Board and the Department. This regulation and oversight is generally intended to ensure that Prudential Bancorp limits its activities to those allowed by law and that it operates in a safe and sound manner without endangering the financial health of the Bank.

The common stock of Prudential Bancorp is registered with the Securities and Exchange Commission (“SEC”) under the Securities Exchange Act of 1934. Prudential Bancorp is subject to the proxy and tender offer rules, insider trading reporting requirements and restrictions, and certain other requirements under the Securities Exchange Act of 1934. Prudential Bancorp’s common stock is listed on the Nasdaq Global Market under the symbol “PBIP.” The Nasdaq Stock Market listing requirements impose additional requirements on us, including, among other things, rules relating to corporate governance and the composition and independence of our board of directors and various committees of the board, such as the audit committee.

Certain of the regulatory requirements that are applicable to the Bank and Prudential Bancorp are described below. This description of statutes and regulations is not intended to be a complete explanation of such statutes and regulations and their effects on the Bank and Prudential Bancorp and is qualified in its entirety by reference to the actual statutes and regulations.

2010 Regulatory Reform

On July 21, 2010, the President signed into law the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”). The Dodd-Frank Act imposes new restrictions and an expanded framework of regulatory oversight for financial institutions, including depository institutions. The law also established an independent federal consumer protection bureau within the Federal Reserve Board. The following discussion summarizes significant aspects of the new law that may affect the Bank and Prudential Bancorp. Not all of the regulations implementing these changes have been promulgated, so we cannot determine the full impact on our business and operations at this time.

The following aspects of the financial reform and consumer protection act are related to the operations of the Bank:

- A new independent consumer financial protection bureau was established, the Consumer Financial Protection Bureau (“CFPB”) within the Federal Reserve Board, empowered to exercise broad regulatory, supervisory and enforcement authority with respect to both new and existing consumer financial protection laws. Smaller financial institutions, like the Bank, are subject to the supervision and enforcement of their primary federal banking regulator with respect to the federal consumer financial protection laws.
- Tier 1 capital treatment for “hybrid” capital items like trust preferred securities was eliminated subject to various grandfathering and transition rules.

- The prohibition on payment of interest on demand deposits was repealed.
- Deposit insurance on most accounts increased to \$250,000.
- The deposit insurance assessment base calculation now equals the depository institution's total assets minus the sum of its average tangible equity during the assessment period.
- The minimum reserve ratio of the Deposit Insurance Fund increased to 1.35 percent of estimated annual insured deposits or assessment base; however, the FDIC is directed to "offset the effect" of the increased reserve ratio for insured depository institutions with total consolidated assets of less than \$10 billion.

The following aspects of the financial reform and consumer protection act are related to the operations of Prudential Bancorp:

- The Federal Deposit Insurance Act was amended to direct federal regulators to require depository institution holding companies to serve as a source of strength for their depository institution subsidiaries.
- The SEC is authorized to adopt rules requiring public companies to make their proxy materials available to shareholders for nomination of their own candidates for election to the board of directors.
- Public companies are now required to provide their shareholders with a non-binding vote: (i) at least once every three years on the compensation paid to executive officers, and (ii) at least once every six years on whether they should have a “say on pay” vote every one, two or three years.
- A separate, non-binding shareholder vote is now required regarding golden parachutes for named executive officers when a shareholder vote takes place on mergers, acquisitions, dispositions or other transactions that would trigger the parachute payments.
- Securities exchanges are now required to prohibit brokers from using their own discretion to vote shares not beneficially owned by them for certain “significant” matters, which include votes on the election of directors and executive compensation matters.
- Stock exchanges are prohibited from listing the securities of any issuer that does not have a policy providing for (i) disclosure of its policy on incentive compensation payable on the basis of financial information reportable under the securities laws, and (ii) the recovery from current or former executive officers, following an accounting restatement triggered by material noncompliance with securities law reporting requirements, of any incentive compensation paid erroneously during the three-year period preceding the date on which the restatement was required that exceeds the amount that would have been paid on the basis of the restated financial information.
- Disclosure in annual proxy materials will be required concerning the relationship between the executive compensation paid and the financial performance of the issuer.

- Item 402 of Regulation S-K promulgated by the SEC will be amended to require companies to disclose the ratio of the Chief Executive Officer's annual total compensation to the median annual total compensation of all other employees, commencing with fiscal years starting after January 1, 2017.

Regulation of Prudential Bank

Pennsylvania Banking Law. The Pennsylvania Banking Code of 1965 (the "Banking Code") contains detailed provisions governing the organization, location of offices, rights and responsibilities of directors, officers, employees and members, as well as corporate powers, savings and investment operations and other aspects of the Bank and its affairs. The Banking Code delegates extensive rulemaking power and administrative discretion to the Department so that the supervision and regulation of state-chartered savings banks may be flexible and readily responsive to changes in economic conditions and in savings and lending practices.

One of the purposes of the Banking Code is to provide savings banks with the opportunity to be competitive with each other and with other financial institutions existing under other Pennsylvania laws and other state, federal and foreign laws. A Pennsylvania savings bank may locate or change the location of its principal place of business and establish an office anywhere in Pennsylvania, with the prior approval of the Department.

The Department generally examines each savings bank not less frequently than once every two years. Although the Department may accept the examinations and reports of the FDIC in lieu of its own examination, the present practice is for the Department to alternate conducting examinations with the FDIC. The Department may order any savings bank to discontinue any violation of law or unsafe or unsound business practice and may direct any director, trustee, officer, attorney or employee of a savings bank engaged in an objectionable activity, after the Department has ordered the activity to be terminated, to show cause at a hearing before the Department why such person should not be removed.

Insurance of Accounts. The deposits of the Bank are insured to the maximum extent permitted by the Deposit Insurance Fund and are backed by the full faith and credit of the U.S. Government. The Dodd-Frank Act increased deposit insurance on most accounts to \$250,000. As insurer, the FDIC is authorized to conduct examinations of, and to require reporting by, insured institutions. It also may prohibit any insured institution from engaging in any activity determined by regulation or order to pose a serious threat to the FDIC. The FDIC also has the authority to initiate enforcement actions against savings institutions.

The Dodd Frank Act raises the minimum reserve ratio of the Deposit Insurance Fund from 1.15% to 1.35% and requires the FDIC to offset the effect of this increase on insured institutions with assets of less than \$10 billion (small institutions). In March 2016, the FDIC adopted a rule to accomplish this by imposing a surcharge on larger institutions commencing when the reserve ratio reaches 1.15% and ending when it reaches 1.35%. The reserve ratio reached 1.15% effective as of June 30, 2016. This surcharge period became effective July 1, 2016 and is expected to end by December 31, 2018. Small institutions will receive credits for the portion of their regular assessments that contributed to growth in the reserve ratio between 1.15% and 1.35%. The credits will apply to reduce regular assessments by 2.0 basis points for quarters when the reserve ratio is at least 1.38%.

Effective July 1, 2016 the FDIC adopted changes that eliminated its risk-based premium system. The FDIC assesses deposit insurance premiums on the assessment base of a depository institution, which is their average total asset reduced by the amount of its average tangible equity. For a small institution (one with assets of less than \$10 billion) that has been federally insured for at least five years, effective July 1, 2016, the initial base assessment rate ranges from 3 to 30 basis points, based on the institution's CAMELS composite and component ratings and certain financial ratios: its leverage ratio; its ratio of net income before taxes to total assets; its ratio of nonperforming loans and leases to gross assets; its ratio of other real estate owned to gross assets; its brokered deposits ratio (excluding reciprocal deposits if the institution is well capitalized and has a CAMELS composite rating of 1 or 2); its one year asset growth ratio (which penalizes growth adjusted for mergers in excess of 10%); and its loan mix index (which penalizes higher risk loans based on historical industry charge off rates). The initial base assessment rate is subject to downward adjustment (not below 1.5%) based on the ratio of unsecured debt the institution has issued to its assessment base, and to upward adjustment (which can cause the rate to exceed 30 basis points) based on its holdings of unsecured debt issued by other insured institutions. Institutions with assets of \$10 billion or more are assessed using a scorecard method. In addition, all institutions with deposits insured by the FDIC are required to pay assessments to fund interest payments on bonds issued by the Financing Corporation, a mixed-ownership government corporation established to recapitalize a predecessor to the Deposit Insurance Fund. These assessments will continue until the Financing Corporation bonds mature in 2019.

The FDIC may terminate the deposit insurance of any insured depository institution, including the Bank, if it determines after a hearing that the institution has engaged or is engaging in unsafe or unsound practices, is in an unsafe or unsound condition to continue operations, or has violated any applicable law, regulation, order or any condition imposed by an agreement with the FDIC. It also may suspend deposit insurance temporarily during the hearing process for the permanent termination of insurance, if the institution has no tangible capital. If insurance of accounts is terminated, the accounts at the institution at the time of the termination, less subsequent withdrawals, shall continue to be insured for a period of six months to two years, as determined by the FDIC. Management is not aware of any existing circumstances which could result in termination of the Bank's deposit insurance.

Recent Regulatory Capital Regulations. In July of 2013 the respective U.S. federal banking agencies issued final rules implementing Basel III and the Dodd-Frank Act capital requirements to be fully-phased in on a global basis on January 1, 2019. The new regulations establish a new tangible common equity capital requirement, increase the minimum requirement for the current Tier 1 risk-weighted asset ("RWA") ratio, phase out certain kinds of intangibles treated as capital and certain types of instruments and change the risk weightings of certain assets used to determine required capital ratios. The new common equity Tier 1 capital component requires capital of the highest quality – predominantly composed of retained earnings and common stock instruments. For community banks, such as the Bank, a common equity Tier 1 capital ratio of 4.5% became effective on January 1, 2016. The new capital rules also increased the current minimum Tier 1 capital ratio from 4.0% to 6.0% beginning on January 1, 2016. In addition, in order to make capital distributions and pay discretionary bonuses to executive officers without restriction, an institution must also maintain greater than 2.5% in common equity attributable to a capital conservation buffer to be phased in from January 1, 2016 until January 1, 2019. The new rules also increase the risk weights for several categories of assets, including an increase from 100% to 150% for certain acquisition, development and construction loans and more than 90-day past due exposures. The new capital rules maintain the general structure of the prompt corrective action rules (described below), but incorporate the new common equity Tier 1 capital requirement and the increased Tier 1 RWA requirement into the prompt corrective action framework.

Regulatory Capital Requirements. Federally insured state-chartered non-member banks and savings banks are required to maintain minimum levels of regulatory capital. Current FDIC capital standards require these institutions to satisfy a common equity Tier 1 capital requirement, a leverage capital requirement and a risk-based capital requirement. The common equity Tier 1 capital component generally consists of retained earnings and common stock instruments and must equal at least 4.5% of risk-weighted assets. Leverage capital, also known as "core" capital, must equal at least 3.0% of adjusted total assets for the most highly rated state-chartered non-member banks and savings banks. Core capital generally consists of common stockholders' equity (including retained earnings). An additional cushion of at least 100 basis points is required for all other savings associations, which effectively increases their minimum Tier 1 leverage ratio to 4.0% or more. Under the FDIC's regulations, the most highly-rated banks are those that the FDIC determines are strong banking organization and are rated composite 1 under the Uniform Financial Institutions Rating System. Under the risk-based capital requirement, "total" capital (a combination of core and "supplementary" capital) must equal at least 8.0% of "risk-weighted" assets. The FDIC also is authorized to impose capital requirements in excess of these standards on individual institutions on a case-by-case basis.

In determining compliance with the risk-based capital requirement, a savings bank is allowed to include both core capital and supplementary capital in its total capital, provided that the amount of supplementary capital included does not exceed the savings bank's core capital. Supplementary capital generally consists of general allowances for loan losses up to a maximum of 1.25% of risk-weighted assets, together with certain other items. In determining the required amount of risk-based capital, total assets, including certain off-balance sheet items, are multiplied by a risk weight based on the risks inherent in the type of assets. The risk weights range from 0% for cash and securities issued by the U.S. Government or unconditionally backed by the full faith and credit of the U.S. Government to 100% for loans (other than qualifying residential loans weighted at 80%) and repossessed assets.

Savings banks must value securities available for sale at amortized cost for regulatory capital purposes. This means that in computing regulatory capital, savings banks should add back any unrealized losses and deduct any unrealized gains, net of income taxes, on debt securities reported as a separate component of capital, as defined by generally accepted accounting principles.

At September 30, 2017, the Bank exceeded all of its regulatory capital requirements, with Tier 1, Tier 1 common equity, Tier 1 (to risk-weighted assets) and total risk-based capital ratios of 13.59%, 21.97%, 21.97% and 22.86%, respectively.

Any savings bank that fails any of the capital requirements is subject to possible enforcement action by the FDIC. Such action could include a capital directive, a cease and desist order, civil money penalties, the establishment of restrictions on the institution's operations, termination of federal deposit insurance and the appointment of a conservator or receiver. The FDIC's capital regulations provide that such actions, through enforcement proceedings or otherwise, could require one or more of a variety of corrective actions.

Department Capital Requirements. The Bank is also subject to more stringent Department capital guidelines. Although not adopted in regulation form, the Department utilizes capital standards requiring a minimum of 6% leverage capital and 10% risk-based capital. The components of leverage and risk-based capital are substantially the same as those defined by the FDIC. At September 30, 2017, Prudential Savings's capital ratios exceeded each of its capital requirements.

Prompt Corrective Action. The following table shows the amount of capital associated with the different capital categories set forth in the prompt corrective action regulations.

Capital Category	Total Risk-Based Capital	Tier 1 Risk-Based Capital	Tier 1 Common Equity Capital	Tier 1 Leverage Capital
Well capitalized	10% or more	8% or more	6.5% or more	5% or more
Adequately capitalized	8% or more	6% or more	4.5% or more	4% or more
Undercapitalized	Less than 8%	Less than 6%	Less than 4.5%	Less than 4%
Significantly undercapitalized	Less than 6%	Less than 4%	Less than 3%	Less than 3%

In addition, an institution is "critically undercapitalized" if it has a ratio of tangible equity to total assets that is equal to or less than 2.0%. Under specified circumstances, a federal banking agency may reclassify a "well capitalized" institution as adequately capitalized and may require an adequately capitalized institution or an undercapitalized institution to comply with supervisory actions as if it were in the next lower category (except that the FDIC may not

reclassify a significantly undercapitalized institution as critically undercapitalized).

An institution generally must file a written capital restoration plan which meets specified requirements within 45 days of the date that the institution receives notice or is deemed to have notice that it is undercapitalized, significantly undercapitalized or critically undercapitalized. A federal banking agency must provide the institution with written notice of approval or disapproval within 60 days after receiving a capital restoration plan, subject to extensions by the agency. An institution which is required to submit a capital restoration plan must concurrently submit a performance guaranty by each company that controls the institution. In addition, undercapitalized institutions are subject to various regulatory restrictions, and the appropriate federal banking agency also may take any number of discretionary supervisory actions.

At September 30, 2017, the Bank was deemed to be a “well capitalized” institution for purposes of the prompt corrective action regulations and as such is not subject to the above mentioned restrictions.

The table below sets forth the Company and the Bank’s capital position relative to its respective regulatory capital requirements at September 30, 2017.

	Actual Amount	Ratio	Required for Capital Adequacy Purposes(1)		To Be Well Capitalized Under Prompt Corrective Action Provisions	
			Amount	Ratio	Amount	Ratio
	(Dollars in Thousands)					
Tier 1 capital (to average assets)						
Company	\$ 130,128	14.81 %	N/A	N/A	N/A	N/A
Bank	119,189	13.59	\$ 35,093	4.00 %	\$ 43,866	5.0 %
Tier 1 Common (to risk-weighted assets)						
Company	130,128	23.94	N/A	N/A	N/A	N/A
Bank	119,189	21.97	24,411	4.5	35,260	6.5
Tier 1 capital (to risk-weighted assets)						
Company	130,128	23.94	N/A	N/A	N/A	N/A
Bank	119,189	21.97	32,548	6.0	43,397	8.0
Total capital (to risk-weighted assets)						
Company	134,963	24.83	N/A	N/A	N/A	N/A
Bank	124,024	22.86	43,397	8.0	54,247	10.0

- (1) The Company is not subject to the regulatory capital ratios imposed by Basel III on bank holding companies because the Company was deemed to be a small bank holding company as of September 30, 2017

Activities and Investments of Insured State-Chartered Banks and Savings Banks. The activities and equity investments of FDIC-insured, state-chartered banks and savings banks are generally limited to those that are permissible for national banks. Under regulations dealing with equity investments, an insured state bank or savings bank generally may not directly or indirectly acquire or retain any equity investment of a type, or in an amount, that is not permissible for a national bank. An insured state bank is not prohibited from, among other things:

- acquiring or retaining a majority interest in a subsidiary;

- investing as a limited partner in a partnership the sole purpose of which is direct or indirect investment in the acquisition, rehabilitation or new construction of a qualified housing project, provided that such limited partnership investments may not exceed 2% of the bank's total assets;

- acquiring up to 10% of the voting stock of a company that solely provides or reinsures directors', trustees' and officers' liability insurance coverage or bankers' blanket bond group insurance coverage for insured depository institutions; and

- acquiring or retaining the voting shares of a depository institution if certain requirements are met.

The FDIC has adopted regulations pertaining to the other activity restrictions imposed upon insured state-chartered banks and savings banks and their subsidiaries. Pursuant to such regulations, insured state banks and savings banks engaging in impermissible activities may seek approval from the FDIC to continue such activities. State banks and savings banks not engaging in such activities but that desire to engage in otherwise impermissible activities either directly or through a subsidiary may apply for approval from the FDIC to do so; however, if such bank fails to meet the minimum capital requirements or the activities present a significant risk to the FDIC insurance funds, such application will not be approved by the FDIC. Pursuant to this authority, the FDIC has determined that investments in certain majority-owned subsidiaries of insured state-chartered banks and savings banks do not represent a significant risk to the deposit insurance funds. Investments permitted under that authority include real estate activities and securities activities.

Restrictions on Capital Distributions. Under federal rules, an insured depository institution may not pay any dividend if payment would cause it to become undercapitalized or if it is already undercapitalized. In addition, federal regulators have the authority to restrict or prohibit the payment of dividends for safety and soundness reasons. The FDIC also prohibits an insured depository institution from paying dividends on its capital stock or interest on its capital notes or debentures (if such interest is required to be paid only out of net profits) or distributing any of its capital assets while it remains in default in the payment of any assessment due the FDIC. The Bank is currently not in default in any assessment payment to the FDIC. Pennsylvania law also restricts the payment and amount of dividends, including the requirement that dividends be paid only out of accumulated net earnings.

Incentive Compensation. Guidelines adopted by the federal banking agencies pursuant to the FDIA prohibit excessive compensation as an unsafe and unsound practice and describe compensation as excessive when the amounts paid are unreasonable or disproportionate to the services performed by an executive officer, employee, director or principal stockholder.

In January 2010, the FDIC announced that it would seek public comment on whether banks with compensation plans that encourage risky behavior should be charged higher deposit assessment rates than such banks would otherwise be charged. The comment period ended in February 2010. As of September 30, 2017, a final rule has not been adopted.

In June 2010, the federal banking agencies issued comprehensive guidance on incentive compensation policies (the "Incentive Compensation Guidance") intended to ensure that the incentive compensation policies of banking organizations do not undermine the safety and soundness of such organizations by encouraging excessive risk-taking. The Incentive Compensation Guidance, which covers all employees that have the ability to materially affect the risk profile of an organization, either individually or as part of a group, is based upon the key principles that a banking organization's incentive compensation arrangements should (i) provide incentives that do not encourage risk-taking

beyond the organization's ability to effectively identify and manage risks, (ii) be compatible with effective internal controls and risk management, and (iii) be supported by strong corporate governance, including active and effective oversight by the organization's board of directors. Any deficiencies in compensation practices that are identified may be incorporated into the organization's supervisory ratings, which can affect its ability to make acquisitions or perform other actions. The Incentive Compensation Guidance provides that enforcement actions may be taken against a banking organization if its incentive compensation arrangements or related risk-management control or governance processes pose a risk to the organization's safety and soundness and the organization is not taking prompt and effective measures to correct the deficiencies.

In April 2011, the federal banking agencies and the SEC jointly published proposed rulemaking designed to implement provisions of the Dodd-Frank Act prohibiting incentive compensation arrangements that would encourage inappropriate risk taking. Those proposed regulations apply only to a financial institution or its holding company with \$1 billion or more of assets. In June 2016, the federal banking agencies and the SEC published a new proposed rule to implement these provisions.

The scope and content of the U.S. banking regulators' policies on incentive compensation are continuing to develop. It cannot be determined at this time whether a final rule will be adopted and whether compliance with such a final rule will adversely affect the ability of Prudential Bancorp and the Bank to hire, retain and motivate their key employees.

Privacy Requirements. Federal law places limitations on financial institutions like the Bank regarding the sharing of consumer financial information with unaffiliated third parties. Specifically, these provisions require all financial institutions offering financial products or services to retail customers to provide such customers with the financial institution's privacy policy and provide such customers the opportunity to "opt out" of the sharing of personal financial information with unaffiliated third parties. The Bank currently has a privacy protection policy in place and believes such policy is in compliance with applicable regulations.

Anti-Money Laundering. Federal anti-money laundering rules impose various requirements on financial institutions to prevent the use of the U.S. financial system to fund terrorist activities. These provisions include a requirement that financial institutions operating in the United States have anti-money laundering compliance programs, due diligence policies and controls to ensure the detection and reporting of money laundering. Such compliance programs supplement existing compliance requirements, also applicable to financial institutions, under the Bank Secrecy Act and the Office of Foreign Assets Control Regulations. The Bank has established policies and procedures to ensure compliance with the federal anti-money laundering provisions.

UDAP and UDAAP. Recently, banking regulatory agencies have increasingly used a general consumer protection statute to address "unethical" or otherwise "bad" business practices that may not necessarily fall directly under the purview of a specific banking or consumer finance law. The law of choice for enforcement against such business practices has been Section 5 of the Federal Trade Commission Act (the "FTC Act"), which is the primary federal law that prohibits unfair or deceptive acts or practices, referred to as UDAP, and unfair methods of competition in or affecting commerce. "Unjustified consumer injury" is the principal focus of the FTC Act. Prior to the Dodd-Frank Act, there was little formal guidance to provide insight to the parameters for compliance with UDAP laws and regulations. However, UDAP laws and regulations have been expanded under the Dodd-Frank Act to apply to "unfair, deceptive or abusive acts or practices," referred to as UDAAP, which have been delegated to the CFPB for supervision. The CFPB has published its first Supervision and Examination Manual that addresses compliance with and the examination of UDAAP. The potential reach of the CFPB's broad new rulemaking powers and UDAAP authority on the operations of financial institutions offering consumer financial products or services, including the Bank is currently unknown.

Community Reinvestment Act. All insured depository institutions have a responsibility under the Community Reinvestment Act and related regulations to help meet the credit needs of their communities, including low- and moderate-income neighborhoods. An institution's failure to comply with the provisions of the Community Reinvestment Act could result in restrictions on its activities. The Bank received a "satisfactory" Community Reinvestment Act rating in its most recently completed examination.

Federal Home Loan Bank System. The Bank is a member of the Federal Home Loan Bank of Pittsburgh, which is one of 11 regional Federal Home Loan Banks. Each Federal Home Loan Bank serves as a reserve or central bank for its members within its assigned region. It is funded primarily from proceeds from the sale of consolidated obligations of the Federal Home Loan Bank System. It makes loans to members (i.e., advances) in accordance with policies and procedures established by the board of directors of the Federal Home Loan Bank.

As a member, the Bank is required to purchase and maintain stock in the Federal Home Loan Bank of Pittsburgh in an amount in accordance with the Federal Home Loan Bank's capital plan and sufficient to ensure that the Federal Home Loan Bank remains in compliance with its minimum capital requirements. At September 30, 2017, the Bank was in compliance with this requirement.

Federal Reserve Board System. The Federal Reserve Board requires all depository institutions to maintain non-interest bearing reserves at specified levels against their transaction accounts, which are primarily checking and NOW accounts, and non-personal time deposits. The balances maintained to meet the reserve requirements imposed by the Federal Reserve Board may be used to satisfy the liquidity requirements that are imposed by the Department. At September 30, 2017, the Bank was in compliance with these reserve requirements.

Regulation of Prudential Bancorp

Bank Holding Company Act Activities and Other Limitations. Under the Bank Holding Company Act, Prudential Bancorp must obtain the prior approval of the Federal Reserve Board before it may acquire control of another bank or bank holding company, merge or consolidate with another bank holding company, acquire all or substantially all of the assets of another bank or bank holding company, or acquire direct or indirect ownership or control of any voting shares of any bank or bank holding company if, after such acquisition, Prudential Bancorp would directly or indirectly own or control more than 5% of such shares.

Federal statutes impose restrictions on the ability of a bank holding company and its nonbank subsidiaries to obtain extensions of credit from its subsidiary bank, on the subsidiary bank's investments in the stock or securities of the holding company, and on the subsidiary bank's taking of the holding company's stock or securities as collateral for loans to any borrower. A bank holding company and its subsidiaries are also prevented from engaging in certain tie-in arrangements in connection with any extension of credit, lease or sale of property, or furnishing of services by the subsidiary bank.

A bank holding company is required to serve as a source of financial and managerial strength to its subsidiary banks and may not conduct its operations in an unsafe or unsound manner. In addition, it has been the policy of the Federal

Reserve Board that a bank holding company should stand ready to use available resources to provide adequate capital to its subsidiary banks during periods of financial stress or adversity and should maintain the financial flexibility and capital-raising capacity to obtain additional resources for assisting its subsidiary banks. A bank holding company's failure to meet its obligations to serve as a source of strength to its subsidiary banks will generally be considered by the Federal Reserve Board to be an unsafe and unsound banking practice or a violation of the Federal Reserve Board regulations, or both. The Dodd-Frank Act included a provision that directs federal regulators to require depository institution holding companies to serve as a source of strength for their depository institution subsidiaries. To date, no regulations have been promulgated to implement that provision.

Non-Banking Activities. The business activities of Prudential Bancorp, as a bank holding company, are restricted by the Bank Holding Company Act. Under the Bank Holding Company Act and the Federal Reserve Board's bank holding company regulations, bank holding companies may only engage in, or acquire or control voting securities or assets of a company engaged in:

- banking or managing or controlling banks and other subsidiaries authorized under the Bank Holding Company Act; and
- any Bank Holding Company Act activity the Federal Reserve Board has determined to be so closely related that it is incidental to banking or managing or controlling banks.

The Federal Reserve Board has determined by regulation that certain activities are closely related to banking including operating a mortgage company, finance company, credit card company, factoring company, trust company or savings association; performing certain data processing operations; providing limited securities brokerage services; acting as an investment or financial advisor; acting as an insurance agent for certain types of credit-related insurance; leasing personal property on a full-payout, non-operating basis; providing tax planning and preparation services; operating a collection agency; and providing certain courier services. Moreover, as discussed below, certain other activities are permissible for a bank holding company that becomes a financial holding company.

Financial Holding Companies. Bank holding companies may also engage in a broad range of activities under a type of financial services company known as a "financial holding company." A financial holding company essentially is a bank holding company with significantly expanded powers. Financial holding companies are authorized by statute to engage in a number of financial activities previously impermissible for bank holding companies, including securities underwriting, dealing and market making; sponsoring mutual funds and investment companies; insurance underwriting and agency; and merchant banking activities. The Federal Reserve Board and the Department of the Treasury are also authorized to permit additional activities for financial holding companies if the activities are "financial in nature" or "incidental" to financial activities. A bank holding company may become a financial holding company if each of its subsidiary banks is well capitalized, well managed, and has at least a "satisfactory" Community Reinvestment Act rating. A financial holding company must provide notice to the Federal Reserve Board within 30 days after commencing activities previously determined by statute or by the Federal Reserve Board and Department of the Treasury to be permissible. Prudential Bancorp has not submitted notices to the Federal Reserve Board of its intent to be deemed a financial holding company. However, it is not precluded from submitting a notice in the future should it wish to engage in activities only permitted to financial holding companies.

Regulatory Capital Requirements. The Federal Reserve Board has adopted capital adequacy guidelines pursuant to which it assesses the adequacy of capital in examining and supervising a bank holding company and in analyzing applications to it under the Bank Holding Company Act. The Federal Reserve Board's capital adequacy guidelines for

bank holding company, on a consolidated basis, are similar to those imposed on the Bank by the FDIC. See “-Regulation of Prudential Savings Bank - Capital Requirements.” Moreover, certain of the bank holding company capital requirements promulgated by the Federal Reserve Board in 2013 became effective as of January 1, 2016. Those requirements establish four minimum capital ratios that Prudential Bancorp had to comply with as of that date as set forth in the table below. However, in May 2016, amendments to the Federal Reserve Board’s small bank holding company policy statement (the “SBHC Policy”) became effective which increased the asset threshold to qualify to utilize the provisions of the SBHC Policy from \$500 million to \$1.0 billion. Bank holding companies which are subject to the SBHC Policy are not subject to compliance with the regulatory capital requirements set forth in the table below until they exceed \$1.0 billion in assets. As a consequence, as of June 30, 2016, Prudential Bancorp was not required to comply with the requirements set forth below until such time that its consolidated total assets exceed \$1.0 billion or the Federal Reserve Board determines that Prudential Bancorp is no longer deemed to be a small bank holding company. However, if Prudential Bancorp had been subject to the requirements, it would have been in compliance with such requirements.

Capital Ratio	Regulatory Minimum	
Common Equity Tier 1 Capital	4.5	%
Tier 1 Leverage Capital	4.0	%
Tier 1 Risk-Based Capital	6.0	%
Total Risk-Based Capital	8.0	%

The leverage capital requirement is calculated as a percentage of total assets and the other three capital requirements are calculated as a percentage of risk-weighted assets. For a more detailed discussion of the 2013 capital rules, see “Recent Regulatory Capital Regulations” under “Regulation of Prudential Savings Bank” above.

Restrictions on Dividends and Repurchases. Prudential Bancorp’s ability to declare and pay dividends may depend in part on dividends received from the Bank. The Banking Code regulates the distribution of dividends by savings banks and states, in part, that dividends may be declared and paid out of accumulated net earnings, provided that the bank continues to meet its surplus requirements. In addition, dividends may not be declared or paid if the Bank is in default in payment of any assessment due the FDIC.

A Federal Reserve Board policy statement on the payment of cash dividends states that a bank holding company should pay cash dividends only to the extent that the holding company’s net income for the past year is sufficient to cover both the cash dividends and a rate of earnings retention that is consistent with the holding company’s capital needs, asset quality and overall financial condition. The Federal Reserve Board’s policy statement also provides that it would be inappropriate for a company experiencing serious financial problems to borrow funds to pay dividends. Furthermore, under the federal prompt corrective action regulations, the Federal Reserve Board may prohibit a bank holding company from paying any dividends if the holding company’s bank subsidiary is classified as “undercapitalized.” See “-Regulation of Prudential Savings Bank - Prompt Corrective Action” above.

Section 225.4(b)(1) of Regulation Y promulgated by the Federal Reserve Board requires that a bank holding company that is not well capitalized or well managed, or that is subject to any unresolved supervisory issues, provide prior notice to the Federal Reserve Board for any repurchase or redemption of its equity securities for cash or other value that would reduce by 10 percent or more the bank holding company’s consolidated net worth aggregated over the preceding 12-month period. The Federal Reserve Bank may disapprove such a purchase or redemption if it determines that the proposal would constitute an unsafe or unsound practice or would violate any law, regulation, Federal Reserve Board order or any condition imposed by, or written agreement with, the Federal Reserve Board.

Federal Securities Laws. Prudential Bancorp's common stock is registered with the SEC under Section 12(b) of the Securities Exchange Act of 1934. Prudential Bancorp is subject to the proxy and tender offer rules, insider trading reporting requirements and restrictions, and certain other requirements under the Securities Exchange Act of 1934.

The Sarbanes-Oxley Act. As a public company, Prudential Bancorp is subject to the Sarbanes-Oxley Act of 2002 which addresses, among other issues, corporate governance, auditing and accounting, executive compensation, and enhanced and timely disclosure of corporate information. As directed by the Sarbanes-Oxley Act, our principal executive officer and principal financial officer are required to certify that our quarterly and annual reports do not contain any untrue statement of a material fact. The rules adopted by the SEC under the Sarbanes-Oxley Act have several requirements, including having these officers certify that: they are responsible for establishing, maintaining and regularly evaluating the effectiveness of our internal control over financial reporting; they have made certain disclosures to our auditors and the audit committee of the Board of Directors about our internal control over financial reporting; and they have included information in our quarterly and annual reports about their evaluation and whether there have been changes in our internal control over financial reporting or in other factors that could materially affect internal control over financial reporting.

Volcker Rule Regulations. Regulations adopted by the federal banking agencies to implement the provisions of the Dodd-Frank Act commonly referred to as the Volcker Rule became effective on April 1, 2015 with full compliance being phased in over a period ending on July 21, 2016. The regulations contain prohibitions and restrictions on the ability of financial institutions holding companies and their affiliates to engage in proprietary trading and to hold certain interests in, or to have certain relationships with, various types of investment funds, including hedge funds and private equity funds. Prudential Bancorp is in compliance with the various provisions of the Volcker Rule regulations.

Limitations on Transactions with Affiliates. Transactions between insured financial institutions and any affiliate are governed by Sections 23A and 23B of the Federal Reserve Act. An affiliate of an insured financial institution is any company or entity which controls, is controlled by or is under common control with the insured financial institution. In a bank holding company context, the bank holding company of an insured financial institution (such as Prudential Bancorp) and any companies which are controlled by such holding company are affiliates of the insured financial institution. Generally, Section 23A limits the extent to which the insured financial institution or its subsidiaries may engage in “covered transactions” with any one affiliate to an amount equal to 10% of such institution’s capital stock and surplus, and contains an aggregate limit on all such transactions with all affiliates to an amount equal to 20% of such capital stock and surplus. Section 23B applies to “covered transactions” as well as certain other transactions and requires that all transactions be on terms substantially the same, or at least as favorable to the insured financial institution, as those provided to a non-affiliate. The term “covered transaction” includes the making of loans to, purchase of assets from and issuance of a guarantee to an affiliate and similar transactions. Section 23B transactions also include the provision of services and the sale of assets by an insured financial institution to an affiliate.

In addition, Sections 22(g) and (h) of the Federal Reserve Act place restrictions on loans to executive officers, directors and principal stockholders. Under Section 22(h), loans to a director, an executive officer and to a greater than 10% stockholder of an insured financial institution, and certain affiliated interests of either, may not exceed, together with all other outstanding loans to such person and affiliated interests, the insured financial institution’s loans to one borrower limit (generally equal to 15% of the institution’s unimpaired capital and surplus). Section 22(h) also requires that loans to directors, executive officers and principal stockholders be made on terms substantially the same as offered in comparable transactions to other persons unless the loans are made pursuant to a benefit or compensation program that (i) is widely available to employees of the institution and (ii) does not give preference to any director,

executive officer or principal stockholder, or certain affiliated interests of either, over other employees of the insured financial institution. Section 22(h) also requires prior board approval for certain loans. In addition, the aggregate amount of extensions of credit by an insured financial institution to all insiders cannot exceed the institution's unimpaired capital and surplus. Furthermore, Section 22(g) places additional restrictions on loans to executive officers. At September 30, 2017, the Bank was in compliance with the above restrictions.

TAXATION

Federal Taxation

General. Prudential Bancorp and the Bank are subject to federal income taxation in the same general manner as other corporations with some exceptions listed below. The following discussion of federal, state and local income taxation is only intended to summarize certain pertinent income tax matters and is not a comprehensive description of the applicable tax rules. During fiscal 2017, the Internal Revenue Service had concluded an audit of the Company's tax returns for the year ended September 30, 2014 and no adverse findings were noted. The federal and state income tax returns for taxable years through September 30, 2014 have been closed for purposes of examination by the Internal Revenue Service or the Pennsylvania Department of Revenue.

Prudential Bancorp files a consolidated federal income tax return with the Bank and its subsidiary, PSB. Any distributions made by Prudential Bancorp to its shareholders generally will be treated as cash dividends and not as a non-taxable return of capital to shareholders for federal and state tax purposes.

Method of Accounting. For federal income tax purposes, Prudential Bancorp and the Bank report income and expenses on the accrual method of accounting and file their federal income tax return on a fiscal year basis.

Bad Debt Reserves. The Small Business Job Protection Act of 1996 eliminated the use of the reserve method of accounting for bad debt reserves by savings associations, effective for taxable years beginning after 1995. Prior to that time, the Bank was permitted to establish a reserve for bad debts and to make additions to the reserve. These additions could, within specified formula limits, be deducted in arriving at taxable income. As a result of the Small Business Job Protection Act of 1996, savings associations must use the specific charge-off method in computing their bad debt deduction beginning with their 1996 federal tax return. In addition, federal legislation required the recapture over a six year period of the excess of tax bad debt reserves at December 31, 1995 over those established as of December 31, 1987.

Taxable Distributions and Recapture. Prior to the Small Business Job Protection Act of 1996, bad debt reserves created prior to January 1, 1988 were subject to recapture into taxable income if the Bank failed to meet certain thrift asset and definitional tests. New federal legislation eliminated these savings association related recapture rules. However, under current law, pre-1988 reserves remain subject to recapture should the Bank make certain non-dividend distributions or cease to maintain a bank charter.

At September 30, 2017, the total federal pre-1988 reserve was approximately \$6.6 million. The reserve reflects the cumulative effects of federal tax deductions by the Bank for which no federal income tax provisions have been made.

Alternative Minimum Tax. The Internal Revenue Code imposes an alternative minimum tax at a rate of 20% on a base of regular taxable income plus certain tax preferences. The alternative minimum tax is payable to the extent such alternative minimum tax income is in excess of the regular income tax. Net operating losses, of which the Bank has none, can offset no more than 90% of alternative minimum taxable income. Certain payments of alternative minimum tax may be used as credits against regular tax liabilities in future years. The Bank has not been subject to the alternative minimum tax.

Corporate Dividends Received Deduction. Prudential Bancorp may exclude from its income 100% of dividends received from the Bank as a member of the same affiliated group of corporations. The corporate dividends received deduction is 80% in the case of dividends received from corporations which a corporate recipient owns less than 80%, but at least 20% of the distribution corporation. Corporations which own less than 20% of the stock of a corporation distributing a dividend may deduct only 70% of dividends received.

State and Local Taxation

Pennsylvania Taxation. Prudential Bancorp is subject to the Pennsylvania Corporate Net Income Tax and the Capital Stock and Franchise Tax. The Corporation Net Income Tax rate for 2017 is 9.99% and is imposed on unconsolidated taxable income for federal purposes with certain adjustments. In general, the Capital Stock and Franchise Tax is a property tax imposed on a corporation's capital stock value at a statutorily defined rate, such value being determined in accordance with a fixed formula based upon average net income and net worth.

Prudential is subject to tax under the Pennsylvania Mutual Thrift Institutions Tax Act, as amended to include thrift institutions having capital stock. Pursuant to the Mutual Thrift Institutions Tax, the tax rate is 11.50%. The Mutual Thrift Institutions Tax exempts Prudential Savings from other taxes imposed by the Commonwealth of Pennsylvania for state income tax purposes and from all local taxation imposed by political subdivisions, except taxes on real estate and real estate transfers. The Mutual Thrift Institutions Tax is a tax upon net earnings, determined in accordance with generally accepted accounting principles with certain adjustments. The Mutual Thrift Institutions Tax, in computing income according to generally accepted accounting principles, allows for the deduction of interest earned on state and federal obligations, while disallowing a percentage of a thrift's interest expense deduction in the proportion of interest income on those securities to the overall interest income of Prudential Savings. Net operating losses, if any, thereafter can be carried forward three years for Mutual Thrift Institutions Tax purposes.

Item 1A. Risk Factors.

In analyzing whether to make or to continue on investment in our securities, investors should consider, among other factors, the following risk factors.

Our non-performing assets expose us to increased risk of loss

At September 30, 2017, we had total non-performing assets of \$15.6 million, or 1.70% of total assets as compared to \$16.5 million or 2.94% of total assets as of September 30, 2016. Our non-performing assets adversely affect our net income in various ways. We do not accrue interest income on non-accrual loans and no interest income is recognized until the loan is performing and the financial condition of the borrower supports recording interest income on a cash basis. We must reserve for probable losses, which are established through a current period charge to income in the provision for loan losses, and from time to time, write down the value of properties in our other real estate owned portfolio to reflect changing market values. Additionally, there are legal fees associated with the resolution of problem assets as well as carrying costs such as taxes, insurance and maintenance related to our other real estate owned. Further, the resolution of non-performing assets requires the active involvement of management, which can distract us from the overall supervision of operations and other income-producing activities of Prudential Savings. Finally, if our estimate of the allowance for loan losses is inaccurate, we will have to increase the allowance accordingly. At September 30, 2017, our allowance for loan losses amounted to \$4.5 million, or 0.8% of total loans and 29.0% of non-performing loans, compared to \$3.3 million, or 0.9% of total loans and 20.6% of non-performing loans at September 30, 2016.

Higher loan losses could require us to increase our allowance for loan losses through a charge to earnings

When we loan money we incur the risk that our borrowers will not repay their loans. We reserve for loan losses by establishing an allowance through a charge to earnings. The amount of this allowance is based on our assessment of loan losses inherent in our loan portfolio. The process for determining the amount of the allowance is critical to our financial results and condition. It requires subjective and complex judgments about the future, including forecasts of economic or market conditions that might impair the ability of our borrowers to repay their loans. We might underestimate the loan losses inherent in our loan portfolio and have loan losses in excess of the amount reserved. We might increase the allowance because of changing economic conditions. For example, in a rising interest rate environment, borrowers with adjustable-rate loans could see their payments increase. There may be a significant increase in the number of borrowers who are unable or unwilling to pay their loans, resulting in our charging off more loans and increasing our allowance. In addition, when real estate values decline, the potential severity of loss on a real estate-secured loan can increase significantly, especially in the case of loans with high combined loan-to-value ratios. The continued weakness in the national economy and the economies of the areas in which our loans are concentrated could result in an increase in loan delinquencies, foreclosures or repossessions, resulting in the increased charge-off amounts and the need for additional loan loss provisions in future periods. In addition, our determination as to the amount of our allowance for loan losses is subject to review by our primary banking regulators, the Pennsylvania Department of Banking and Securities and the Federal Deposit Insurance Corporation, as part of their examination process, which may result in the establishment of an additional provision based upon the judgment of such agencies after a review of the information available at the time of its examination. Our allowance for loan losses amounted to 0.8% of total loans and 29.0% of non-performing loans at September 30, 2017. Our allowance for loan losses at September 30, 2017 may not be sufficient to cover future loan losses. A large loss could deplete the allowance and require an increased provision to replenish the allowance, which would negatively affect earnings.

Our existing residential mortgage loans exposes us to lending risks, and the geographic concentration of our loan portfolio and lending activities makes us vulnerable to a downturn in the local economy.

At September 30, 2017, \$351.3 million, or 53.8 % of our loan portfolio, was secured by one-to-four family real estate. One-to-four family residential mortgage lending is generally sensitive to regional and local economic conditions that significantly impact the ability of borrowers to meet their loan payment obligations, making loss levels difficult to predict. The decline in residential real estate values as a result of the downturn in our local housing market that occurred in recent years in many cases reduced the value of the real estate collateral securing these types of loans. Declines in real estate values could cause some of our residential mortgages loans to be inadequately collateralized, which would expose us to a greater risk of loss if we seek to recover on defaulted loans by selling the real estate collateral. Real estate values are affected by various factors, including supply and demand, changes in general or regional economic conditions, interest rates, governmental rules or policies and natural disasters. Future weakness in economic conditions also could result in reduced loan demand and a decline in loan originations. In particular, a significant decline in real estate values would likely lead to a decrease in new construction, commercial real estate and residential mortgage loan originations and increased delinquencies and defaults in our real estate loan portfolio.

Our increased emphasis on originating construction and commercial real estate loans may expose us to increased lending risks.

At September 30, 2017, \$145.5 million, or 22.3%, of our loan portfolio consisted of construction loans, including loans for the acquisition and development of property, and \$127.6 million, or 19.6%, of our loan portfolio consisted of commercial real estate loans. Construction financing is generally considered to involve a higher degree of credit risk than long-term financing on improved, owner-occupied residential real estate. Risk of loss on a construction loan depends largely upon the accuracy of the initial estimate of the property's value at completion of construction compared to the estimated costs, including interest, of construction and other assumptions. Additionally, if the estimate of value proves to be inaccurate, we may be confronted with a project, when completed, having a value less than the loan amount. We have attempted to minimize these risks by generally concentrating on residential construction loans in our market area to contractors with whom we have established lending relationships and by selling, with respect to larger construction and land development loans, participation interests in order to reduce our exposure. Likewise, commercial real estate loans generally expose a lender to a greater risk of loss than one-to-four family residential loans. Repayment of commercial real estate loans generally is dependent, in large part, on sufficient income from the property or business to cover operating expenses and debt service. Commercial real estate loans typically involve larger loan balances to single borrowers or groups of related borrowers compared to one-to-four family residential mortgage loans. Changes in economic conditions that are out of the control of the borrower and lender could impact the value of the security for the loan, the future cash flow of the involved property, or the marketability of a construction project with respect to loans originated for the acquisition and development of property. Additionally, any decline in real estate values may be more pronounced with respect to commercial real estate properties than residential properties. Also, many of construction borrowers have more than one loan outstanding with us. Consequently, an adverse development with respect to one loan or one credit relationship can expose us to a significantly greater risk of loss compared to an adverse development with respect to a residential mortgage loan.

In recent periods, the majority of our non-performing assets have related to construction loans. At September 30, 2017, five construction loans aggregating \$8.7 million were considered non-performing and on non-accrual status. All of these construction loans were related to a loan relationship consisting of nine loans with a total principal balance outstanding of \$10.7 million, all of which was deemed non-performing as of such date. In addition, non-performing assets at September 30, 2017 included 33 one-to-four family loans aggregating \$3.7 million, five commercial real estate loans aggregating \$1.6 million and one single-family residential loan aggregating \$1.4 million related to the same borrower.

Imposition of limits by the bank regulators on commercial and multi-family real estate lending activities could curtail our growth and adversely affect our earnings.

In 2006, the FDIC, the FRB and the Office of the Comptroller of the Currency (collectively, the "Agencies") issued joint guidance entitled "Concentrations in Commercial Real Estate Lending, Sound Risk Management Practices" (the "CRE

Guidance”). Although the CRE Guidance did not establish specific lending limits, it provides that a bank’s commercial real estate lending exposure could receive increased supervisory scrutiny where total non-owner-occupied commercial real estate loans, including loans secured by apartment buildings, investor commercial real estate, and construction and land loans, represent 300% or more of an institution’s total risk-based capital, and the outstanding balance of the commercial real estate loan portfolio has increased by 50% or more during the preceding 36 months. Our level of commercial real estate and multi-family loans represents 220.2% of the Bank’s total risk-based capital at September 30, 2017.

In December 2015, the Agencies released a new statement on prudent risk management for commercial real estate lending (the “2015 Statement”). In the 2015 Statement, the Agencies, among other things, indicate the intent to continue “to pay special attention” to commercial real estate lending activities and concentrations going forward. If the FDIC, our primary federal regulator, were to impose restrictions on the amount of commercial real estate loans we can hold in our portfolio, for reasons noted above or otherwise, our earnings would be adversely affected.

We have a high concentration of loans secured by real estate in our market area; adverse economic conditions in our market area have adversely affected, and may continue to adversely affect, our financial condition and result of operations

Substantially all of our loans are to individuals, businesses and real estate developers in Pennsylvania, New Jersey, New York and Delaware and our business depends significantly on general economic conditions in these market areas. Severe declines in housing prices and property values have been particularly acute in our primary market areas in recent years. A deterioration in economic conditions or a prolonged weakness in the economic recovery in our primary market areas could result in the following consequences, any of which could have a material adverse effect on our business:

- Loan delinquencies may increase;
- Problem assets and foreclosures may increase;
- Demand for our products and services may decline;
- The carrying value of our other real estate owned may decline further; and
 - Collateral for loans made by us, especially real estate, may continue to decline in value, in turn reducing a customer’s borrowing power, and reducing the value of assets and collateral associated with our loans.

The Company’s credit standards and its on-going credit assessment processes might not protect it from significant credit losses.

The Company assumes credit risk by virtue of making loans and extending loan commitments and letters of credit. We manage our credit risk through a program of underwriting standards, the review of certain credit decisions and a continuous quality assessment process of credit already extended. Our exposure to credit risk is managed through the use of consistent underwriting standards that emphasize local lending while avoiding highly leveraged transactions as well as excessive industry and other concentrations. The Company’s credit administration function employs risk management techniques to help ensure that problem loans and leases are promptly identified. While these procedures are designed to provide us with the information needed to implement policy adjustments where necessary and to take appropriate corrective actions, there can be no assurance that such measures will be effective in avoiding undue credit risk.

A significant percentage of our assets is invested in securities which typically have a lower yield than our loan portfolio.

Our results of operations are substantially dependent on our net interest income. At September 30, 2017, \$269.2 million or 29.9 % of our assets was invested in investment securities, certificates of deposit, cash and amounts due from banks. These investments yield substantially less than the loans we hold in our portfolio. The weighted average yield on such assets for the year ended September 30, 2017 was 2.67% as compared to 4.12% for loans. Accordingly, our net interest margin is lower than it would have been if a higher proportion of our interest-earning assets consisted of loans. In addition, at September 30, 2017, \$178.4 million, or 74.4% of our investment securities, are classified as available for sale and reported at fair value with unrealized gains or losses excluded from earnings and reported in other comprehensive income, which affects our reported equity. Accordingly, given the material size of the investment securities portfolio classified as available for sale and due to possible mark-to-market adjustments of that portion of the portfolio resulting from market conditions, we may experience greater volatility in the value of reported equity. Moreover, given that we actively manage our investment securities portfolio classified as available for sale, we may sell securities which could result in a realized loss, thereby reducing our net income.

While we intend to invest a greater proportion of our assets in loans with the goal of increasing our net interest income, we may not be able to increase originations of loans that are acceptable to us.

Our success depends on hiring and retaining certain key personnel.

Our performance largely depends on the talents and efforts of highly skilled individuals. We rely on key personnel to manage and operate our business, including major revenue generating functions such as loan and deposit generation, as well as operational functions such as regulatory compliance and information technology. The loss of key staff may adversely affect our ability to maintain and manage these functions effectively, which could negatively affect our revenues. In addition, loss of key personnel could result in increased recruiting and hiring expenses, which could cause a decrease in our net income. Our continued ability to compete effectively depends on our ability to attract new employees and to retain and motivate our existing employees.

Higher interest rates would hurt our profitability

Management is unable to predict fluctuations of market interest rates, which are affected by many factors, including inflation, recession, unemployment, monetary policy, domestic and international disorder and instability in domestic and foreign financial markets, and investor and consumer demand. Our primary source of income is net interest income, which is the difference between the interest income generated by our interest-earning assets (consisting primarily of single-family residential loans) and the interest expense generated by our interest-bearing liabilities (consisting primarily of deposits). The level of net interest income is primarily a function of the average balance of our interest-earning assets, the average balance of our interest-bearing liabilities, and the spread between the yield on such assets and the cost of such liabilities. These factors are influenced by both the pricing and mix of our interest-earning assets and our interest-bearing liabilities which, in turn, are impacted by such external factors as the local economy, competition for loans and deposits, the monetary policy of the Federal Open Market Committee of the Federal Reserve Board (the "FOMC"), and market interest rates. The FOMC raised the federal funds rate twice to date in 2017 and may implement an additional increase as of the end of December 2017.

A sustained increase in market interest rates could adversely affect our earnings. A significant portion of our loans have fixed interest rates (or, if adjustable, are initially fixed for periods of five to 10 years) and longer terms than our deposits and borrowings. Our net interest income could be adversely affected if the rates we pay on deposits and borrowings increase more rapidly than the rates we earn on loans. As a result of our historical focus on the origination of one-to-four family residential mortgage loans, which focus has been emphasized in recent years due to asset quality issues experienced by our construction and land development lending activities, the majority of our loans have fixed interest rates. In addition, a large percentage of our investment securities and mortgage-backed securities have fixed interest rates and are classified as held to maturity. As is the case with many banks and savings institutions, our emphasis on increasing the development of core deposits, those with no stated maturity date, has resulted in our

interest-bearing liabilities having a shorter duration than our assets. As of September 30, 2017, 41.7% of our loan portfolio had maturities of 10 years or more. Furthermore, at such date, only \$91.8 million or 14.1% of the loans due after September 30, 2017 bear adjustable interest rates. At September 30, 2017, 38.0% of our deposits had no stated maturity date and 37.1% consisted of certificates of deposit with maturities of one year or less. This imbalance can create significant earnings volatility because interest rates change over time and are currently at historical low levels. As interest rates increase, our cost of funds will increase more rapidly than the yields on the bulk of our interest-earning assets. In addition, the market value of our fixed-rate assets for example, our investment and mortgage-backed securities portfolios, would decline if interest rates increase. For example, we estimate that as of September 30, 2017, a 200 basis point increase in interest rates would have resulted in our net portfolio value declining by approximately \$34.1 million or 2.6%. Net portfolio value is the difference between incoming and outgoing discounted cash flows from assets, liabilities and off-balance sheet contracts.

Changes in laws and regulations and the cost of regulatory compliance with new laws and regulations may adversely affect our operations and/or increase our costs of operations.

The Company and Prudential Savings are subject to extensive regulation, supervision and examination by the Pennsylvania Department of Banking and Securities and the FDIC. Such regulation and supervision governs the activities in which an institution and its holding company may engage and are intended primarily for the protection of insurance funds and the depositors and borrowers of Prudential Savings rather than for holders of our common stock. Regulatory authorities have extensive discretion in their supervisory and enforcement activities, including the imposition of restrictions on our operations, the classification of our assets and determination of the level of our allowance for loan losses. These regulations, along with the currently existing tax, accounting, securities, insurance, monetary laws, rules, standards, policies, and interpretations control the methods by which financial institutions conduct business, implement strategic initiatives and tax compliance, and govern financial reporting and disclosures. Any change in such regulation and oversight, whether in the form of regulatory policy, regulations, legislation or supervisory action, may have a material impact on our operations. Further, changes in accounting standards can be both difficult to predict and involve judgment and discretion in their interpretation by us and our independent accounting firms. These changes could materially impact, potentially even retroactively, how we report our financial condition and results of our operations as could our interpretation of those changes.

The Dodd-Frank Act is significantly changing the current bank regulatory structure and affects the lending, deposit, investment, trading and operating activities of financial institutions and their holding companies. The Dodd-Frank Act requires various federal agencies to adopt a broad range of new implementing rules and regulations, and to prepare numerous studies and reports for Congress. The federal agencies are given significant discretion in drafting the implementing rules and regulations, and consequently, many of the details and much of the impact of the Dodd-Frank Act may not be known for many months or years.

The Dodd-Frank Act created a new Consumer Financial Protection Bureau with broad powers to supervise and enforce consumer protection laws. The Consumer Financial Protection Bureau has broad rule-making authority for a wide range of consumer protection laws that apply to all banks and savings institutions, including the authority to prohibit "unfair, deceptive or abusive" acts and practices. The Consumer Financial Protection Bureau has examination and enforcement authority over all banks with more than \$10 billion in assets. Banks with \$10 billion or less in assets continue to be examined for compliance with the consumer laws by their primary bank regulators.

The Dodd-Frank Act requires minimum leverage (Tier 1) and risk-based capital requirements for bank holding companies and savings and loan holding companies that are no less than those applicable to banks, which could limit our ability to borrow at the holding company level and invest the proceeds from such borrowings as capital in Prudential Savings Bank, and will exclude certain instruments that previously have been eligible for inclusion by bank holding companies as Tier 1 capital, such as trust preferred securities.

The full impact of the Dodd-Frank Act on our business will not be known until all of the regulations implementing the statute are adopted and implemented. As a result, we cannot at this time predict the extent to which the Dodd-Frank Act will impact our business, operations or financial condition. However, compliance with these new laws and regulations may require us to make changes to our business and operations and will likely result in additional costs and divert management's time from other business activities, any of which may adversely impact our results of operations, liquidity or financial condition.

However, in February 2017, the President issued an executive order that a policy of his administration would be making regulation efficient, effective, and appropriately tailored, and directed certain regulatory agencies to review and identify laws and regulations that inhibit federal regulation of the U.S. financial system in a manner consistent with the policies stated in the executive order. Any changes in laws or regulation as a result of this review could result in a repeal, amendment to or delayed implementation of the Dodd-Frank Act.

Changes in tax laws and regulations may adversely affect our operations and/or increase our costs of operations.

The Bank has deferred tax assets totaling \$4.1 mil and any future reduction in the federal statutory tax rate could also cause a reduction in the economic benefit of the net operating loss and other deferred tax assets available to us and a corresponding charge to reduce the book value of the deferred tax asset recorded on our balance sheet. The U.S. House of Representatives and Senate have each passed tax reform legislation which, if enacted, would reduce the corporate income tax rate to 20%, from a current rate of 35%. At September 30, 2017, we had deferred tax assets with a net book value of \$86.2 million, based on a federal tax rate of 35%. If the federal statutory corporate income tax rate is reduced to 20%, this asset will be revalued at the lower rate, resulting in a charge to income tax expense and a corresponding reduction in deferred tax assets.

We have become subject to more stringent capital requirements, which may adversely impact our return on equity, require us to raise additional capital, or constrain us from paying dividends or repurchasing shares.

In July 2013, the federal banking agencies approved a new rule that has substantially amended regulatory risk-based capital rules. The final rule implements the regulatory capital reforms from the Basel Committee on Banking Supervision ("Basel III") and changes required by the Dodd-Frank Act.

The final rule includes new minimum risk-based capital and leverage ratios, which were effective for us on January 1, 2016, and refines the definition of what constitutes "capital" for calculating these ratios. The new minimum capital requirements are: (i) a new common equity Tier 1 capital ratio of 4.5%; (ii) a Tier 1 to risk-based assets capital ratio of

6% (increased from 4%); (iii) a total capital ratio of 8% (unchanged from prior rules); and (iv) a Tier 1 leverage ratio of 4%. The final rule also requires unrealized gains and losses on certain “available-for-sale” securities holdings to be included for calculating regulatory capital requirements unless a one-time opt-out is exercised. Prudential Savings elected to opt out of the requirement under the final rule to include certain “available-for-sale” securities holdings for calculating its regulatory capital requirements. The final rule also establishes a “capital conservation buffer” of 2.5%, and, when fully phased in, will result in the following minimum ratios: (i) a common equity Tier 1 capital ratio of 7.0%, (ii) a Tier 1 to risk-based assets capital ratio of 8.5%, and (iii) a total capital ratio of 10.5%. The new capital conservation buffer requirement began being phased-in January 2016 at 0.625% of risk-weighted assets and will increase each year until fully implemented in January 2019. An institution will be subject to limitations on paying dividends, engaging in share repurchases and paying discretionary bonuses if its capital level falls below the buffer amount. These limitations will establish a maximum percentage of eligible retained income that can be utilized for such actions.

We have analyzed the effects of these new capital requirements on a fully phased-in basis, and we believe that we meet all of these new requirements, including the full 2.5% capital conservation buffer, as if these new requirements had been in effect as of September 30, 2017.

The application of more stringent capital requirements could, among other things, result in lower returns on equity, require the raising of additional capital, and result in regulatory actions if we were to be unable to comply with such requirements. Furthermore, the imposition of liquidity requirements in connection with the implementation of Basel III could result in our having to lengthen the term of our funding, restructure our business models, and/or increase our holdings of liquid assets. Implementation of changes to asset risk weightings for risk-based capital calculations, items included or deducted in calculating regulatory capital and/or additional capital conservation buffers could result in management modifying its business strategy, and could limit our ability to make distributions, including paying dividends or repurchasing shares. Specifically, beginning in 2017, Prudential Savings ability to pay dividends is limited if it does not have the capital conservation buffer required by the new capital rules, which may further limit our ability to pay dividends to stockholders.

Proposed and final regulations could restrict our ability to originate and sell loans.

The Consumer Financial Protection Bureau has issued a rule designed to clarify for lenders how they can avoid legal liability under the Dodd-Frank Act, which would hold lenders accountable for ensuring a borrower's ability to repay a mortgage. Loans that meet this "qualified mortgage" definition will be presumed to have complied with the new ability-to-repay standard. Under the Consumer Financial Protection Bureau's rule, a "qualified mortgage" loan must not contain certain specified features, including:

- excessive upfront points and fees (those exceeding 3% of the total loan amount, less "bona fide discount points" for prime loans);
- interest-only payments;
- negative amortization; and
- terms of longer than 30 years.

Also, to qualify as a "qualified mortgage," a loan must be made to a borrower whose total monthly debt-to-income ratio does not exceed 43%. Lenders must also verify and document the income and financial resources relied upon to qualify the borrower on the loan and underwrite the loan based on a fully amortizing payment schedule and maximum interest rate during the first five years, taking into account all applicable taxes, insurance and assessments.

In addition, the Dodd-Frank Act requires the regulatory agencies to issue regulations that require securitizers of loans to retain "not less than 5% of the credit risk for any asset that is not a qualified residential mortgage." The regulatory

agencies have issued a final rule to implement this requirement. The final rule provides that the definition of “qualified residential mortgage” includes loans that meet the definition of qualified mortgage issued by the Consumer Financial Protection Bureau.

The final rule could have a significant effect on the secondary market for loans and the types of loans we originate, and restrict our ability to make loans. Similarly, the Consumer Financial Protection Bureau's rule on qualified mortgages could limit our ability or desire to make certain types of loans or loans to certain borrowers, which could limit our growth or profitability.

We are a community bank and our ability to maintain our reputation is critical to the success of our business

We are a community bank, and our reputation is one of the most valuable components of our business. A key component of our business strategy is to rely on our reputation for customer service and knowledge of local markets to expand our presence by capturing new business opportunities from existing and prospective customers in our current market and contiguous areas. As such, we strive to conduct our business in a manner that enhances our reputation. This is done, in part, by recruiting, hiring and retaining employees who share our core values of being an integral part of the communities we serve, delivering superior service to our customers and caring about our customers and associates. If our reputation is negatively affected by the actions of our employees, by our inability to conduct our operations in a manner that is appealing to current or prospective customers, or otherwise, our business and, therefore, our operating results may be materially adversely affected.

Strong competition within our market area could hurt our profits and slow growth

We face intense competition in making loans, attracting deposits and hiring and retaining experienced employees. This competition has made it more difficult for us to make new loans and attract deposits. Price competition for loans and deposits sometimes results in us charging lower interest rates on our loans and paying higher interest rates on our deposits, which reduces our net interest income. Competition also makes it more difficult and costly to attract and retain qualified employees. Some of the institutions with which we compete have substantially greater resources and lending limits than we have and may offer services that we do not provide. We expect competition to increase in the future as a result of legislative, regulatory and technological changes and the continuing trend of consolidation in the financial services industry. Our profitability depends upon our continued ability to compete successfully in our market area.

The fair value of our investment securities can fluctuate due to market conditions outside of our control

As of September 30, 2017, the fair value of our investment securities portfolio was approximately \$238.6 million. We have historically taken a conservative investment strategy, with concentrations of securities that are backed by government sponsored enterprises. Factors beyond our control can significantly influence the fair value of securities in our portfolio and can cause potential adverse changes to the fair value of these securities. These factors include, but

are not limited to, rating agency actions in respect of the securities, defaults by the issuer or with respect to the underlying securities, and changes in market interest rates and continued instability in the capital markets. Any of these factors, among others, could cause other-than-temporary impairments and realized and/or unrealized losses in future periods and declines in other comprehensive income, which could have a material adverse effect on us. The process for determining whether impairment of a security is other-than-temporary usually requires complex, subjective judgments about the future financial performance and liquidity of the issuer and any collateral underlying the security in order to assess the probability of receiving all contractual principal and interest payments on the security.

If the Company fails to maintain an effective system of internal controls, it may not be able to accurately report its financial results or prevent fraud. As a result, current and potential shareholders could lose confidence in the Company's financial reporting, which could harm its business and the trading price of its common stock.

The Company has established a process to document and evaluate its internal controls over financial reporting in order to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 and the related regulations, which require annual management assessments of the effectiveness of the Company's internal controls over financial reporting. In this regard, management has, among other things, dedicated internal resources and engaged outside consultants to (i) assess and document the adequacy of internal controls over financial reporting, (ii) take steps to improve control processes, where appropriate, (iii) validate through testing that controls are functioning as documented and (iv) implement a continuous reporting and improvement process for internal control over financial reporting. Although the Company's management and audit committee believe that its system of internal controls is effective, the Company cannot be certain that these measures will ensure that the Company implements and maintains adequate controls over its financial processes and reporting in the future. Any failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm the Company's operating results or cause the Company to fail to meet its reporting obligations. If the Company fails to correct any issues in the design or operating effectiveness of internal controls over financial reporting, or fails to prevent fraud, current and potential shareholders could lose confidence in the Company's financial reporting, which could harm its business and the trading price of its common stock.

The Company is subject to a variety of operational risks, including reputational risk, legal and compliance risk, and the risk of fraud or theft by employees or outsiders.

The Company is exposed to many types of operational risks, including reputational risk, legal and compliance risk, the risk of fraud or theft by employees or outsiders, and unauthorized transactions by employees or operational errors, including clerical or record-keeping errors or those resulting from faulty or disabled computer or telecommunications systems. Negative public opinion can result from its actual or alleged conduct in any number of activities, including lending practices, corporate governance and acquisitions and from actions taken by government regulators and community organizations in response to those activities. Negative public opinion can adversely affect its ability to attract and keep customers and can expose the Company to litigation and regulatory action.

Because the nature of the financial services business involves a high volume of transactions, certain errors may be repeated or compounded before they are discovered and successfully rectified. The Company's necessary dependence upon automated systems to record and process its transaction volume may further increase the risk that technical flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect. The Company also may be subject to disruptions of its operating systems arising from events that are wholly or partially beyond its control (for example, computer viruses or electrical or telecommunications outages), which may give rise to disruption of service to customers and to financial loss or liability. The Company is further exposed to the risk that its external vendors may be unable to fulfill their contractual obligations (or will be subject to the same risk of fraud or

operational errors by their respective employees as the Company is) and to the risk that its (or its vendors') business continuity and data security systems prove to be inadequate. The occurrence of any of these risks could result in a diminished ability of the Company to operate its business, potential liability to clients, reputational damage and regulatory intervention, which could adversely affect its business, financial condition and results of operations, perhaps materially.

The Company relies on other companies to provide key components of its business infrastructure.

Third parties provide key components of the Company's business infrastructure, for example, system support and network access. While the Company has selected these third party vendors carefully, it does not control their actions. Any problems caused by these third parties, including those resulting from their failure to provide services for any reason or their poor performance of services, could adversely affect the Company's ability to deliver products and services to its customers and otherwise conduct its business. Replacing these third party vendors could also entail significant delay and expense.

The Company's operations may be adversely affected by cyber security risks.

In the ordinary course of business, the Company collects and stores sensitive data, including proprietary business information and personally identifiable information of our customers and employees in systems and on networks. In some cases, this confidential or proprietary information is collected, compiled, processed, transmitted or stored by third parties on our behalf. The secure processing, maintenance and use of this information is critical to operations and our business strategy. The Company has invested in accepted technologies, and continually reviews processes and practices that are designed to protect our networks, computers and data from damage or unauthorized access. Despite these security measures, the Company's computer systems and infrastructure or those of third parties used by us to compile, process or store such information may be vulnerable to attacks by hackers or breached due to employee error, malfeasance, or other disruptions. A breach of any kind could compromise systems and the information stored there could be accessed, damaged or disclosed. A breach in security could result in legal claims, regulatory penalties, disruption in operations, and damage to the Company's reputation, which could adversely affect our business.

Our ability to successfully compete may be reduced if we are unable to make technological advances.

The banking industry is experiencing rapid changes in technology. In addition to improving customer services, effective use of technology increases efficiency and enables financial institutions to reduce costs. As a result, our future success will depend in part on our ability to address our customers' needs by using technology. We cannot assure you that we will be able to effectively develop new technology-driven products and services or be successful in marketing these products to our customers. Many of our competitors have far greater resources than we have to invest in technology.

We expect that implementation of a new accounting standard could require us to increase our allowance for loan losses and may have a material adverse effect on our financial condition and results of operations.

The Financial Accounting Standards Board (“FASB”) has adopted a new accounting standard that will be effective for the Bank for our first fiscal year beginning after December 15, 2019. This standard, referred to as Current Expected Credit Loss, or CECL, will require financial institutions to determine periodic estimates of lifetime expected credit losses on loans, and recognize the expected credit losses as allowances for loan losses. This will change the current method of providing allowances for loan losses that are probable, which we expect may require us to increase our allowance for loan losses, and to greatly increase the data we would need to collect and review to determine the appropriate level of the allowance for loan losses. Any increase in our allowance for loan losses, or expenses incurred to determine the appropriate level of the allowance for loan losses, may have a material adverse effect on our financial condition and results of operations.

Federal Reserve Board policy could limit our ability to pay dividends to our shareholders.

The Federal Reserve Board has issued a policy statement regarding the payment of dividends and the repurchase of shares of common stock by bank holding companies. In general, the policy provides that dividends should be paid only out of current earnings and only if the prospective rate of earnings retention by the holding company appears consistent with the organization's capital needs, asset quality and overall financial condition. These regulatory policies could affect our ability to pay dividends, repurchase shares of common stock or otherwise engage in capital distributions.

The integration of Polonia Bancorp as a result of its merger with the Company may be more difficult, costly or time-consuming than expected.

Prudential Bancorp and Polonia Bancorp historically operated until the effective time of the merger on January 1, 2017, independently. The success of the merger will depend, in part, on the Company's ability to successfully combine the businesses of Prudential Bancorp and Polonia Bancorp. Prudential Bancorp is integrating Polonia's business into its own. It is possible that the integration process could result in the loss of key employees, the disruption of each company's ongoing businesses or inconsistencies in standards, controls, procedures and policies that adversely affect the combined company's ability to maintain relationships with clients, customers, depositors and employees or to achieve the anticipated benefits of the merger. The loss of key employees could adversely affect the Company's ability to successfully conduct its business in the markets in which Polonia Bancorp previously operated, which could have an adverse effect on Prudential Bancorp's financial results and the value of its common stock. If Prudential Bancorp experiences difficulties with the integration process, the anticipated benefits of the merger may not be realized fully or at all, or may take longer to realize than expected. As with any merger of financial institutions, there also may be business disruptions that cause the Company to lose current customers or cause customers of Polonia Bancorp to remove their accounts from Polonia Bancorp or Prudential Bancorp and move their business to competing financial institutions. Integration efforts will also divert management attention and resources. These integration matters could have an adverse effect on the Company for an undetermined period after consummation of the merger.

Prudential Bancorp may fail to fully realize the cost savings estimated for the merger with Polonia Bancorp.

Prudential Bancorp estimates that it will achieve cost savings from the merger when the two companies have been fully integrated. While the Company continues to be comfortable with these expectations as of the date of the Annual Report on Form 10-K for the year ended September 30, 2017, it is possible that the estimates of the potential cost savings could turn out to be incorrect.

The actual integration may result in additional and unforeseen expenses, and the anticipated benefits of the integration plan may not be realized. Actual growth and cost savings, if achieved, may be lower than what Prudential Bancorp expects and may take longer to achieve than anticipated. If the Company is not able to adequately address integration challenges, Prudential Bancorp may be unable to successfully integrate the Company's and Polonia Bancorp's operations or to realize the anticipated benefits of the integration of the two companies.

Item 2. Properties

We currently conduct business from our main office and ten banking offices. On January 1, 2017, the Company completed its acquisition of Polonia Bancorp and Polonia Bank, Polonia's wholly owned subsidiary. The acquisition added five banking offices to our existing properties. The following table sets forth the net book value of the land, building and leasehold improvements and certain other information with respect to our offices at September 30, 2017.

Description/Address	Leased/Owned	Date of Lease Expiration	Net Book Value of Property and Leasehold Improvements (In Thousands)	Amount of Deposits

Item 3. Legal Proceedings

As previously disclosed in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2016, on March 31, 2016, Island View Properties, Inc., trading as Island View Crossing II, LP, and Renato J. Gualtieri (collectively, the "Gualtieri Parties") filed suit (the "Philadelphia Litigation") in the Court of Common Pleas, Philadelphia, Pennsylvania (the "Court"), against the Bank seeking damages in an amount in excess of \$27.0 million. The lawsuit asserts allegations related to a loan granted by the Bank to the Gualtieri Parties to develop a 169-unit townhouse and condominium project located in Bristol Borough in Bucks County, Pennsylvania (the "Project").

In May 2016, the Bank filed a motion with the court seeking to dismiss the majority of claims asserted in the Philadelphia Litigation. In August 2016, the Court dismissed a majority of the Gualtieri Parties' claims. The Bank has also counterclaimed against the Gualtieri Parties for failure to satisfy the nine loans extended thereto and for failure to complete the Project. In February 2017, the Court stayed the Philadelphia Litigation pending possible resolution of the Litigation. No resolution was obtained and the stay has expired.

Since commencement of the Philadelphia Litigation, the Bank has filed Complaints for Confession against the Gualtieri Parties and certain other entities affiliated with Renato J. Gualtieri ("Gualtieri Parties and Affiliated Entities") based on the claimed defaults under the nine loans issued by the Bank. These actions have been stayed pending the resolution of the Philadelphia Litigation. The Bank has also filed foreclosure actions with regard to the commercial properties collateralizing the loans issued to the Gualtieri Parties and Affiliated Entities.

Shortly after the Court lifted the stay in the Philadelphia Litigation, the Gualtieri Parties and Affiliated Entities filed for bankruptcy under Chapter 11. The Bank has removed the underlying Philadelphia Litigation from state court to the federal bankruptcy court. As the Philadelphia Litigation is in its early stages, no prediction can be made as to the outcome thereof. However, the Bank believes that it has meritorious defenses to the remaining claims under the Philadelphia Litigation and it intends to vigorously defend the case.

In addition, as the Chapter 11 bankruptcy is in its early stages, no prediction can be made as to the outcome thereof. However, the Bank believes that it has meritorious challenges to the Chapter 11 bankruptcy filed by the Gualtieri Parties and Affiliated Entities. The Bank recently filed a motion in the Federal Bankruptcy Court seeking to convert the bankruptcy to a Chapter 7 proceeding or in the alternative to appoint a Chapter 11 trustee to preserve the assets securing the Bank's loans with the Gualtieri Parties and Affiliated Entities.

As previously disclosed, the Bank had reached a preliminary settlement in two putative shareholder derivative and class action lawsuits related to the merger of Polonia Bancorp with the Company, consolidated as Parshall v. Eugene

Andruczyk et al., which were filed in the Circuit Court for Montgomery County, Maryland (“Maryland Court”) on July 21, 2016.

The merger with Polonia Bancorp was completed effective as of January 1, 2017. On May 26, 2017, the Maryland Court entered an order providing final approval of the settlement.

Prudential Bancorp is involved in various legal proceedings occurring in the ordinary course of business. Management of the Company, based on discussions with litigation counsel, does not believe that such proceedings will have a material adverse effect on the financial condition or operations of Prudential Bancorp. There can be no assurance that any of the outstanding legal proceedings to which the Company is a party will not be decided adversely to the Company's interests and have a material adverse effect on the financial condition and operations of the Company.

Item 4. Mine Safety Disclosures

PART II**Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

(a) Our common stock is traded on the NASDAQ Global Market (NASDAQ) under the symbol "PBIP". At December 1, 2017, there were approximately 356 registered shareholders of record, not including the number of persons or entities whose stock is held in nominee or "street" name through various brokerage firms and banks.

The following table shows the quarterly high and low trading prices of our stock, reported on the NASDAQ Stock Market, and the amount of cash dividends declared per share for each of the quarters in fiscal 2017 and 2016:

Quarter ended:	Stock Price		Cash dividends per share
	High	Low	
September 30, 2017	\$18.96	\$18.51	\$ 0.03
June 30, 2017	18.48	18.13	0.03
March 31, 2017	18.13	17.68	0.03
December 31, 2016	17.39	17.04	0.03

Quarter ended :	Stock Price		Cash dividends per share
	High	Low	
September 30, 2016	\$15.15	\$13.95	\$ 0.03
June 30, 2016	15.42	13.80	0.03
March 31, 2016	16.20	13.83	0.03
December 31, 2015	15.60	14.29	0.03

The following graph compares the cumulative total return of the Company common stock with the cumulative total return of the SNL Mid-Atlantic Thrift Index and the Nasdaq Stock Market (US Companies). The graph assumes that \$100 was invested on September 30, 2012. Prices prior to October 17, 2013 are for Old Prudential Bancorp and have been adjusted for the .9442 exchange ratio applied as part of the mutual to-stock conversion. Cumulative total return assumes reinvestment of all dividends.

Index	<i>Period Ending</i>					
	09/30/12	09/30/13	09/30/14	09/30/15	09/30/16	09/30/17
Prudential Bancorp Inc.	100.00	174.24	196.74	236.60	239.68	308.83
NASDAQ Composite Index	100.00	122.77	148.08	153.99	179.29	221.75
SNL Mid-Atlantic Thrift Index	100.00	116.47	128.86	151.23	151.49	176.33

(b)Not applicable

(c) The Company's repurchases of equity shares for the fourth quarter of fiscal year 2017 were follows:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number of Shares that May Yet Be Purchased Under Plans or Programs (1)
July 1 - 31, 2017	-	(2) \$ -	-	188,159
August 1 - 31, 2017	37	(2) \$ 18.27	-	188,159
September 1 - 30, 2017	-	(2) \$ -	-	188,159
	37			

On July 15, 2015, the Company announced the Board of Directors had approved a second stock repurchase (1) program authorizing the Company to repurchase up to 850,000 shares of common stock, approximately 10% of the Company's outstanding shares upon completion of the first repurchase program.

(2) Shares repurchased in connection with withholding shares to meet income tax withholding obligations upon the vesting of restricted stock awards.

Company	24.83	39.70	51.98	58.28	27.72
Bank	22.86	35.49	43.00	41.59	26.18

(1) With the exception of end of period ratios, all ratios are based on average monthly balances during the indicated periods.

(2) Average interest rate spread represents the difference between the average yield earned on interest-earning assets and the average rate paid on interest-bearing liabilities. Net interest margin represents net interest income as a percentage of average interest-earning assets.

(3) The efficiency ratio represents the ratio of non-interest expense divided by the sum of net interest income and non-interest income.

(4) Asset quality ratios and capital ratios are end of period ratios, except for net charge-offs to average loans receivable.

Non-performing assets generally consist of all loans on non-accrual, loans which are 90 days or more past due as to principal or interest, and real estate acquired through foreclosure or acceptance of a deed in-lieu of foreclosure.

- (5) Non-performing assets and non-performing loans also include loans classified as troubled debt restructurings (“TDR”) due to being recently restructured and placed on non-accrual in connection with such restructuring. The TDRs in most cases are performing in accordance with their restructured terms. It is the Company’s policy to cease accruing interest on all loans which are 90 days or more past due as to interest or principal.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

At September 30, 2017, we had total assets of \$899.5 million, including net loans of \$571.3 million and \$239.7 million of investment and mortgage-backed securities, total deposits of \$636.0 million and total stockholders' equity of \$136.2 million.

The Company conducts community banking activities by accepting deposits and making loans secured by properties located primarily in our market area. Our lending products consist of residential mortgage loans, including loans for sale in the secondary market, along with commercial real estate, multi-family and construction loans. The Company also originates commercial business and consumer loans in an effort to maintain strong customer relationships.

Despite the challenging current market and economic conditions, the Company continues to maintain capital substantially in excess of regulatory requirements.

This Management's Discussion and Analysis section is intended to assist in understanding the financial condition and results of operations of Prudential Bancorp. The results of operations of Prudential Bancorp are primarily dependent on the results of the Bank. The information contained in this section should be read in conjunction with our consolidated financial statements and the accompanying notes to the consolidated financial statements contained in Item 8 of this Annual Report on Form 10-K.

Critical Accounting Policies

In reviewing and understanding financial information for Prudential Bancorp, you are encouraged to read and understand the significant accounting policies used in preparing our financial statements. These policies are described in Note 2 of the notes to our consolidated financial statements included in Item 8 hereof. The accounting and financial reporting policies of Prudential Bancorp conform to accounting principles generally accepted in the United States of America ("U.S. GAAP") and to general practices within the banking industry. Accordingly, the financial statements require certain estimates, judgments and assumptions, which are believed to be reasonable, based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities as well as contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of income and expenses during the periods presented. The following accounting policies comprise those that management believes are the most critical to aid in fully understanding and evaluating our reported financial results. These policies

require numerous estimates or economic assumptions that may prove inaccurate or may be subject to variations which may significantly affect our reported results and financial condition for the period or in future periods.

Allowance for Loan Losses. The allowance for loan losses is established through a provision for loan losses charged to expense. Losses are charged against the allowance for loan losses when management believes that the collectability in full of the principal of a loan is unlikely. Subsequent recoveries are added to the allowance. The allowance for loan losses is maintained at a level that management considers adequate to provide for estimated losses and impairments based upon an evaluation of known and inherent losses in the loan portfolio that are both probable and reasonable to estimate. Loan impairment is evaluated based on the fair value of collateral or estimated net realizable value. It is the policy of management to provide for losses on unidentified loans in its portfolio in addition to criticized and classified loans.

Management monitors its allowance for loan losses at least quarterly and makes adjustments to the allowance through the provision for loan losses as economic conditions and other pertinent factors indicate. The quarterly review and adjustment of the qualitative factors employed in the allowance methodology and the updating of historic loss experience allow for timely reaction to emerging conditions and trends. In this context, a series of qualitative factors are used in a methodology as a measurement of how current circumstances are affecting the loan portfolio. Included in these qualitative factors are:

- Levels of past due, classified, criticized and non-accrual loans, troubled debt restructurings and loan modifications;
 - Nature and volume of loans;
- Changes in lending policies and procedures, underwriting standards, collections, charge-offs and recoveries and for commercial loans, the level of loans being approved with exceptions to lending policy;
 - Experience, ability and depth of management and staff;
 - National and local economic and business conditions, including various market segments;
 - Quality of the Company's loan review system and degree of Board oversight;
 - Concentrations of credit and changes in levels of such concentrations; and
 - Effect of external factors on the level of estimated credit losses in the current portfolio.

In determining the allowance for loan losses, management has established both specific and general pooled allowances. Values assigned to the qualitative factors and those developed from historic loss experience provide a dynamic basis for the calculation of reserve factors for both pass-rated loans (general pooled allowance) and for criticized and classified loans. The amount of the specific allowance is determined through a loan-by-loan analysis of certain large dollar commercial real estate loans. Loans not individually reviewed are evaluated as a group using reserve factor percentages based on historical loss experience and the qualitative factors described above. In determining the appropriate level of the general pooled allowance, management makes estimates based on internal risk ratings, which take into account such factors as debt service coverage, loan-to-value ratios and external factors. Estimates are periodically measured against actual loss experience.

This evaluation is inherently subjective as it requires material estimates including, among others, exposure at default, the amount and timing of expected future cash flows on impaired loans, value of collateral, estimated losses on our commercial, construction and residential loan portfolios and historical loss experience. All of these estimates may be susceptible to significant change.

While management uses the best information available to make loan loss allowance evaluations, adjustments to the allowance may be necessary based on changes in economic and other conditions or changes in accounting guidance. In addition, the Pennsylvania Department of Banking and Securities and the FDIC, as an integral part of their examination processes, periodically review our allowance for loan losses. The Pennsylvania Department of Banking and Securities and the FDIC may require the recognition of adjustments to the allowance for loan losses based on their judgment of information available to them at the time of their examinations. To the extent that actual outcomes differ from management's estimates, additional provisions to the allowance for loan losses may be required that would adversely affect earnings in future periods.

Investment and Mortgage-Backed Securities Available for Sale. Where quoted prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated using quoted prices of securities with similar characteristics or discounted cash flows and are classified within Level 2 of the fair value hierarchy. In certain cases where there is limited activity or less transparency around inputs to the valuation, securities are classified within Level 3 of the valuation hierarchy, although there were no securities with that classification as of September 30, 2017 or 2016.

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. The Company determines whether the unrealized losses are temporary in accordance with U.S. GAAP. The evaluation is based upon factors such as the creditworthiness of the issuers/guarantors, the underlying collateral, if applicable, and the continuing performance of the securities. In addition the Company also considers the likelihood that the security will be required to be sold by a regulatory agency, our internal intent not to dispose of the security prior to maturity and whether the entire cost basis of the security is expected to be recovered. In determining whether the cost basis will be recovered, management evaluates other facts and circumstances that may be indicative of an other-than-temporary impairment condition. This includes, but is not limited to, an evaluation of the type of security, length of time and extent to which the fair value has been less than cost, and near-term prospects of the issuer.

In addition, certain assets are measured at fair value on a non-recurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). The Company measures impaired loans, FHLB stock and properties serving as collateral for loans or bank properties transferred into real estate owned at fair value on a non-recurring basis.

Valuation techniques and models utilized for measuring financial assets and liabilities are reviewed and validated by the Company at least quarterly.

Business Combinations - At the date of acquisition the Company records the assets and liabilities of the acquired companies on the Consolidated Statement of Financial Condition at their estimated fair value. The results of operations for acquired companies are included in the Company's Consolidated Statements of Operations beginning at the acquisition date. Expenses arising from acquisition activities are recorded in the Consolidated Statements of Operations during the period incurred. The difference between the purchase price and the fair value of the net assets acquired (including identified intangibles) is recorded as goodwill.

Income Taxes. The Company accounts for income taxes in accordance with U.S. GAAP. The Company records deferred income taxes that reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Management exercises significant judgment in the evaluation of the amount and timing of the recognition of the resulting tax assets and liabilities. The judgments and estimates required for the evaluation are updated based upon changes in business factors and the tax laws. If actual results differ from the assumptions and other considerations used in estimating the amount and timing of tax recognized, there can be no assurance that additional expenses will not be required in future periods.

In evaluating our ability to recover deferred tax assets, we consider all available positive and negative evidence, including our past operating results and our forecast of future taxable income. In determining future taxable income,

we make assumptions for the amount of taxable income, the reversal of temporary differences and the implementation of feasible and prudent tax planning strategies. These assumptions require us to make judgments about our future taxable income and are consistent with the plans and estimates we use to manage our business. Any reduction in estimated future taxable income may require us to record an additional valuation allowance against our deferred tax assets. An increase in the valuation allowance would result in additional income tax expense in the period and could have a significant impact on our future earnings.

U.S. GAAP prescribes a minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. The Company recognizes, when applicable, interest and penalties related to unrecognized tax benefits in the provision for income taxes in the consolidated income statement. Assessment of uncertain tax positions requires careful consideration of the technical merits of a position based on management's analysis of tax regulations and interpretations. Significant judgment may be involved in the assessment of the tax position.

Recent Accounting Pronouncements

Information regarding recent accounting pronouncements is included in Note 2 to the Consolidated Financial Statements set forth in Item 8 hereto.

Derivative Financial Instruments, Contractual Obligations and Other Off Balance Sheet Arrangements.

Derivative financial instruments include futures, forwards, interest rate swaps, option contracts, and other financial instruments with similar characteristics. To remain competitive in our local lending area and to support the Company's asset/liability positioning, on occasion the Bank enters into interest rate swaps contract to control its funding costs.

In addition, these instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated statements of financial condition. Commitments to extend credit generally have fixed expiration dates and may require additional collateral from the borrower if deemed necessary. Commitments to extend credit are not recorded as an asset or liability by us until the instrument is exercised.

Commitments

The following table summarizes our outstanding commitments to originate loans and to advance additional amounts pursuant to outstanding letters of credit, lines of credit and undisbursed construction loans at September 30, 2017.

Total Amounts Committed 1 Year (In Thousands)	Amount of Commitment Expiration - Per Period		
	Less than 1 Year	1-3 Years	3-5 Years

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

Average interest-earning assets to average interest-bearing liabilities		111.83	%		124.28	%		128.72	%

(1) Includes nonaccrual loans during the respective periods. Calculated net of deferred fees and discounts, loans in process and allowance for loan losses.

(2) Equals net interest income divided by average interest-earning assets.

(3) Tax exempt yields have been adjusted to a tax-equivalent basis.

Rate/Volume Analysis. The following table shows the extent to which changes in interest rates and changes in the volume of interest-earning assets and interest-bearing liabilities affected our interest income and expense during the periods indicated. For each category of interest-earning assets and interest-bearing liabilities, information is provided on changes attributable to (1) changes in rate, which is the change in rate multiplied by prior year volume, and (2) changes in volume, which is the change in volume multiplied by prior year rate. The combined effect of changes in both rate and volume has been allocated proportionately to the change due to rate and the change due to volume.

Comparison of Financial Condition at September 30, 2017 and September 30, 2016

At September 30, 2017, the Company had total assets of \$899.5 million, as compared to \$559.5 million at September 30, 2016, an increase of \$340.0 million or 60.8%. The substantial majority of the growth was attributable to the acquisition of Polonia Bancorp. In addition to the acquisition, the Company experienced growth in the balance of net loans receivable of \$67.2 million or 19.5% not related to the acquisition when compared to the \$344.9 million balance of net loans receivable as of September 30, 2016.

Total liabilities increased by \$317.9 million to \$763.4 million at September 30, 2017 from \$445.5 million at September 30, 2016. As with the asset growth, the bulk of the liability growth resulted from the acquisition of Polonia Bancorp. In addition to the deposits assumed, the Company assumed \$56.0 million in FHLB advances in connection with the acquisition. In addition to the deposit growth resulting from the acquisition, the Company experienced growth in deposits of \$73.3 million or 18.8% when compared the balance outstanding at September 30, 2017 to the \$389.2 million balance as of September 30, 2016.

Total stockholders' equity increased by \$22.2 million to \$136.2 million at September 30, 2017 from \$114.0 million at September 30, 2016. This increase was primarily due to the issuance of common stock to the stockholders of Polonia Bancorp in connection with the acquisition. In addition, stockholders' equity was affected by the termination of the Bank's employee stock ownership plan ("ESOP") as of December 31, 2016. A portion of the shares of common stock held in the ESOP's suspense account as collateral for the loans to the ESOP was used to satisfy the ESOP's indebtedness in full. As a result of the ESOP termination, the Bank reduced its compensation expense by approximately \$85,000 per quarter. In addition, stockholders' equity was affected by a \$1.6 million decline in the fair value of the Company's available-for-sale portfolio.

Results of Operations for the Years Ended September 30, 2017, 2016 and 2015

General.

2017 vs. 2016. For the fiscal year ended September 30, 2017, the Company recognized net income of \$2.8 million, or \$0.32 per diluted share, as compared to net income of \$2.7 million, or \$0.36 per diluted share for the fiscal year ended September 30, 2016. The fiscal year 2017 results included a one-time \$2.5 million pre-tax expense related to the Polonia Bancorp acquisition as well as a \$1.9 million non-cash pre-tax charge-off associated with a large lending relationship. Increased profitability for the year ended September 30, 2017 was primarily attributable to an increase in net interest income.

2016 vs 2015. For the fiscal year ended September 30, 2016, the Company recognized net income of \$2.7 million, or \$0.36 per diluted share, as compared to net income of \$2.2 million, or \$0.27 per diluted share for the fiscal year ended September 30, 2015. Increased profitability for the year ended September 30, 2016 was primarily attributable to an increase in net interest income, gains recognized on the sale of mortgage-backed securities and a reduction in the provision for loan losses recorded during the fiscal 2016. In addition, the Company reduced its non-interest expenses by approximately \$1.9 million (including the effect of expenses related to the merger with Polonia) resulting from a comprehensive expense reduction program which began at the beginning of the fiscal 2016. Profitability for the year ended September 30, 2016 primarily reflected the \$2.1 million aggregate gain realized on the sale of three branch offices as well as a \$138,000 gain on the sale of a SBA loan, partially offset by a provision for loan losses of \$735,000 and increased non-interest expense primarily related to salaries and benefits expense.

Net Interest Income.

2017 vs. 2016. For the year ended September 30, 2017, net interest income increased to \$21.1 million as compared to \$14.2 million for the same period in fiscal 2016. The increase reflected an \$8.9 million, or 50.7%, increase in interest

income, partially offset by a \$1.9 million increase, or 58.3%, in interest paid on deposits and borrowings. The increase in net interest income for fiscal 2017 was primarily due to the increase in the weighted average balance of earning assets reflecting in large part the addition of earning assets acquired as of January 1, 2017 upon completion of the Polonia acquisition. The weighted average yield on interest earning assets increased 25 basis points to 3.65% while the cost of funds increased only 1 basis point to 0.82%.

2016 vs. 2015. For the year ended September 30, 2016, net interest income increased to \$14.2 million as compared to \$13.3 million for fiscal year 2015. The increase reflected an \$803,000 or 4.8% increase in interest income combined with a decrease of \$104,000 or 3.0% in interest paid on deposits and borrowings. The increase in interest income reflected the \$19.8 million, or 4.8%, increase in average interest earning assets, primarily consisting of increases of \$4.5 million and \$28.7 million, respectively, in loans and investment securities available for sale. During the year ended September 30, 2016, the Company expanded its investment strategy to include purchases of investment grade corporate bonds with a carrying value of approximately \$26.1 million as of September 30, 2016. The Company's borrowings from the FHLB also increased during the year ended September 30, 2016 as a result of the leverage strategy implemented during the second quarter of fiscal 2016. The Company had an average balance of borrowings of \$35.6 million with a weighted average yield of 1.30% during the year ended September 30, 2016, an increase of \$35.4 million from the level of average borrowings during the same period in 2015. The total weighted average cost of funds decreased 10 basis points to 0.80% for the year ended September 30, 2016, from 0.90% for fiscal year 2015.

Provision for Loan Losses.

2017 vs. 2016. The Company established provisions for loan losses of \$3.0 million for the year ended September 30, 2017 primarily due to the \$1.9 million charge-off related to the borrower whose primary project financed by the Bank involves the proposed development of 169 residential lots. The Bank and the borrower are in litigation and no resolution of the situation has been arrived at as of the date hereof in part due to the bankruptcy filing by the borrower effected in June 2017. In light of the status of both the litigation as well as the progress of construction of the project, the Company recorded a \$1.9 million non-cash charge-off during the quarter ended March 31, 2017. The remaining portion of the provision recorded during the year ended September 30, 2017 was related to the increase in the outstanding balance of loans. The loans acquired from Polonia Bancorp initially did not have any impact on the allowance for loan losses, because they were acquired at their fair value. Any write-downs to fair value were reflected in the one-time merger-related charge. In the event that the credit quality of any loans acquired from Polonia Bancorp credit should deteriorate in the future, additional provisions may be required.

The allowance for loan losses totaled \$4.5 million, or 0.8% of total loans and 29.0% of total non-performing loans (which included loans acquired from Polonia Bancorp at their fair-value) at September 30, 2017 as compared to \$3.3 million, or 0.9% of total loans and 20.6% of total non-performing loans at September 30, 2016. The Company believes that the allowance for loan losses at September 30, 2017 was sufficient to cover all inherent and known losses associated with the loan portfolio at such date.

2016 vs. 2015. The Company established provisions for loan losses of \$225,000 during the year ended September 30, 2016 primarily due to the increase in the level of commercial real estate loans. For the year ended September 30, 2015, the Company established provisions for loans losses of \$735,000 during the year ended September 30, 2015 primarily due to the increase in the level of commercial real estate and construction loans outstanding, charge-offs incurred during fiscal 2015 and the previously disclosed classification of a \$10.3 million loan workout relationship as non-performing. The Company believes that the allowance for loan losses at September 30, 2016 was sufficient to cover all inherent and known losses associated with the loan portfolio at such date.

The allowance for loan losses totaled \$3.3 million, or 0.9% of total loans and 20.6% of total non-performing loans at September 30, 2016 as compared to \$2.9 million, or 0.9% of total loans and 21.0% of total non-performing loans at September 30, 2015.

Non-interest Income.

2017 vs. 2016. With respect to the year ended September 30, 2017, non-interest income amounted to \$2.2 million compared with \$1.3 million for fiscal 2016. The increase experienced in 2017 was primarily attributable to the addition of five full-service financial centers, along with the related customer deposit base (increased ATM fees as well as account service charges and transaction fees), acquired from Polonia Bancorp along with an increased return on bank owned life insurance (“BOLI”) as a result of the increase in the amount of BOLI due to the purchase of an additional \$10.0 million of BOLI in the first quarter of the fiscal year.

2016 vs. 2015. With respect to the year ended September 30, 2016, non-interest income amounted to \$1.3 million compared with \$3.0 million for fiscal 2015. The primary reason for the difference in non-interest income between fiscal 2016 compared to fiscal 2015 was in fiscal 2015 the Company recorded an aggregate gain of \$2.1 million from the sale of three former branch locations. During fiscal 2016, the Company recorded a \$418,000 gain from the sale of mortgage-back securities classified available for sale (“AFS”) while there were no securities gains recognized during fiscal 2016.

Non-interest Expense.

2017 vs. 2016. For the year ended September 30, 2017, non-interest expense increased \$5.3 million, to \$16.6 million compared to fiscal year 2016. The primary reason for the increase for year ended September 30, 2017 was the additional expense resulting from the Polonia Bancorp acquisition which added five financial centers to our branch network as well as additional personnel. In addition, the Company recorded a one-time merger related charge of approximately \$2.5 million, pre-tax, during the quarter ended March 31, 2017.

2016 vs. 2015. For the year ended September 30, 2016, non-interest expense decreased \$1.9 million to \$11.3 million compared to fiscal 2015. The decrease for the year ended September 30, 2016 was primarily due to a cost reduction strategy that began in the beginning of this fiscal year. Major component included in this strategy was a reduction in compensation and benefits of approximately \$1.5 million, reduction in professional services of approximately \$303,000, partially offset by small increases in general administrative expenses. Also the Company recorded \$300,000 of merger-related costs during fiscal 2016.

Income Tax Expense.

2017 vs. 2016. For the year ended September 30, 2017, the Company recorded income tax expense of \$941,000 resulting in an effective tax rate of 25.3%, compared to \$1.3 million and an effective tax rate of 31.6% for fiscal 2016. The effective tax rate for the year ended September 30, 2017 was lower due to the increased tax free income from BOLI and tax benefits associated with the exercise of stock options and vesting of restricted stock.

2016 vs. 2015. For the year ended September 30, 2016, the Company recorded income tax expense of \$1.3 million as compared to \$116,000 for fiscal 2015. The Company’s tax obligation for the year ended September 30, 2015 was greatly reduced due its ability to utilize its prior period capital loss carryforwards to offset the entire amount of the gains it recorded relating to the sale of its Center City, Snyder and Drexel Hill branch offices.

Liquidity and Capital Resources

Liquidity is the ability to maintain cash flows that are adequate to fund operations and meet other obligations on a timely and cost effective basis in various market conditions. The ability of the Company to meet its current financial obligations is a function of balance sheet structure, the ability to liquidate assets and the availability of alternative sources of funds. To meet the needs of the clients and manage the risk of the Company, the Company engages in liquidity planning and management.

Our primary sources of funds are from deposits, scheduled principal and interest payments on loans, loan prepayments and the maturity of loans, mortgage-backed securities and other investments, and other funds provided from operations. While scheduled payments from the amortization of loans and mortgage-backed securities and maturing investment securities are relatively predictable sources of funds, deposit flows and loan prepayments can be greatly influenced by general interest rates, economic conditions and competition. We also maintain excess funds in short-term, interest-bearing assets that provide additional liquidity. At September 30, 2017, our cash and cash equivalents amounted to \$27.9 million. In addition, our available for sale investment and mortgage-backed securities amounted to an aggregate of \$178.4 million at September 30, 2017.

We use our liquidity to fund existing and future loan commitments, to fund maturing certificates of deposit and demand deposit withdrawals, to invest in other interest-earning assets, and to meet operating expenses. At September 30, 2017, we had certificates of deposit maturing within the next 12 months amounting to \$235.8 million. We anticipate that a significant portion of the maturing certificates of deposit will be redeposited with us unless we determine to lower rates to below those of our competition in order to facilitate the reduction of higher cost deposits during periods when there is excess cash on hand or in order to satisfy our asset/liability goals. There were no deposits as of September 30, 2017 requiring the pledging of collateral.

In addition to cash flows from loan and securities payments and prepayments as well as from sales of available for sale securities, we have significant borrowing capacity available to fund liquidity requirements should the need arise. As of September 30, 2017, the Company had \$277.5 million of available borrowing capacity along with a line of credit has also been established with the Federal Reserve Bank of Philadelphia. In addition, the Bank has the ability to generate brokered certificates of deposit.

We anticipate that we will continue to have sufficient funds and alternative funding sources to meet our current commitments.

Impact of Inflation and Changing Prices

The consolidated financial statements, accompanying notes, and related financial data of Prudential Bancorp presented in Item 8, Financial Statements and Supplementary Data, in Part II of this Annual Report on Form 10-K have been prepared in accordance with U.S. GAAP, which requires the measurement of financial position and operating results in terms of historical dollars without considering the changes in purchasing power of money over time due to inflation. The impact of inflation is reflected in the increased cost of operations. Most of our assets and liabilities are monetary in nature; therefore, the impact of interest rates has a greater impact on our performance than the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the prices of goods and services.

Exposure to Changes in Interest Rates

Gap Analysis. The matching of assets and liabilities may be analyzed by examining the extent to which such assets and liabilities are “interest rate sensitive” and by monitoring the Bank’s interest rate sensitivity “gap.” An asset or liability is said to be interest rate sensitive within a specific time period if it will mature or reprice within that time period. The interest rate sensitivity gap is defined as the difference between the amount of interest-earning assets maturing or repricing within a specific time period and the amount of interest-bearing liabilities maturing or repricing within that same time period. A gap is considered positive when the amount of interest rate sensitive assets exceeds the amount of interest rate sensitive liabilities. A gap is considered negative when the amount of interest rate sensitive liabilities exceeds the amount of interest rate sensitive assets. During a period of rising interest rates, a negative gap would tend to affect adversely net interest income while a positive gap would tend to result in an increase in net interest income. Conversely, during a period of falling interest rates, a negative gap would tend to result in an increase in net interest income while a positive gap would tend to affect adversely net interest income.

The table on the next page sets forth the amounts of our interest-earning assets and interest-bearing liabilities outstanding at September 30, 2017, which we expect, based upon certain assumptions, to reprice or mature in each of the future time periods shown (the “GAP Table”). Except as stated below, the amounts of assets and liabilities shown which reprice or mature during a particular period were determined in accordance with the earlier of term to repricing or the contractual maturity of the asset or liability. The table sets forth an approximation of the projected repricing of assets and liabilities at September 30, 2017, on the basis of contractual maturities, anticipated prepayments, and scheduled rate adjustments within a three-month period and subsequent selected time intervals. The loan amounts in the table reflect principal balances expected to be redeployed and/or repriced as a result of contractual amortization and anticipated prepayments of adjustable-rate loans and fixed-rate loans, and as a result of contractual rate adjustments on adjustable-rate loans. Annual prepayment rates for adjustable-rate and fixed-rate single-family and multi-family residential and commercial mortgage loans are assumed to range from 5.4% to 30.7%. The annual prepayment rate for mortgage-backed securities is assumed to range from 0.8% to 17.9%. Money market deposit accounts, savings accounts and interest-bearing checking accounts are assumed to have annual rates of withdrawal, or “decay rates,” based on information from an internal analysis of our accounts up to a maximum of ten years.

	3 Months or Less (Dollars in Thousands)	More than 3 Months to 1 Year	More than 1 Year to 3 Years	More than 3 Years to 5 Years	More than 5 Years	Total Amount
Interest-earning assets(1):

Loans receivable(2)	94,109	84,258	159,289	102,196	131,491	571,343
Other interest-earning assets (3)	25,629	-	6,251	1,355	-	33,235
Total interest-earning assets	\$128,088	\$100,968	\$205,527	\$139,374	\$270,307	\$844,264
Interest-bearing liabilities:						
Savings accounts	\$3,881	\$10,472	\$17,884	\$16,728	\$52,773	\$101,738
Checking and money market accounts	3,485	10,440	17,504	14,289	84,826	130,544
Certificate accounts	73,886	161,900	114,925	43,614	-	394,325
Advances from Federal Home Loan Bank	12,915	25,062	33,095	42,925	321	114,318
Real estate tax escrow accounts	2,207	-	-	-	-	2,207
Total interest-bearing liabilities	\$96,374	\$207,874	\$183,408	\$117,556	\$137,920	\$743,132
Interest-earning assets less interest-bearing liabilities	\$31,714	\$(106,906)	\$22,119	\$21,818	\$132,387	\$101,132
Cumulative interest-rate sensitivity gap(4)	\$31,714	\$(75,192)	\$(53,073)	\$(31,255)	\$101,132	
Cumulative interest-rate gap as a percentage of total assets at September 30, 2017	3.53	% -8.36	% -5.90	% -3.47	% 11.24	%
Cumulative interest-earning assets as a percentage of cumulative interest-bearing liabilities at September 30, 2017	132.91	% 75.29	% 89.12	% 94.84	% 113.61	%

(1) Interest-earning assets are included in the period in which the balances are expected to be redeployed and/or repriced as a result of anticipated prepayments, scheduled rate adjustments and contractual maturities.

(2) For purposes of the gap analysis, loans receivable includes non-performing loans, gross of the allowance for loan losses, undisbursed loan funds, unamortized discounts and deferred loan fees.

(3) Includes FHLB stock.

(4)

Interest-rate sensitivity gap represents the difference between total interest-earning assets and total interest-bearing liabilities.

Certain shortcomings are inherent in the method of analysis presented in the foregoing table. For example, although certain assets and liabilities may have similar maturities or periods to repricing, they may react in different degrees to changes in market interest rates. Also, the interest rates on certain types of assets and liabilities may fluctuate in advance of changes in market interest rates, while interest rates on other types may lag behind changes in market rates. Additionally, certain assets, such as adjustable-rate loans, have features which restrict changes in interest rates both on a short-term basis and over the life of the asset. Further, in the event of a change in interest rates, prepayment and early withdrawal levels would likely deviate significantly from those assumed in calculating the table. Finally, the ability of many borrowers to service their adjustable-rate loans may decrease in the event of an interest rate increase.

Net Portfolio Value Analysis. Our interest rate sensitivity also is monitored by management through the use of a model which generates estimates of the changes in our net portfolio value (“NPV”) over a range of interest rate scenarios. NPV is the present value of expected cash flows from assets, liabilities and off-balance sheet contracts. The NPV ratio, under any interest rate scenario, is defined as the NPV in that scenario divided by the market value of assets in the same scenario. The following table sets forth our NPV as of September 30, 2017 and reflects the changes to NPV as a result of immediate and sustained changes in interest rates as indicated.

Change in Interest Rates In Basis Points (Rate Shock)	Net Portfolio Value			NPV as % of Portfolio Value of Assets				
	Amount	\$ Change	% Change	NPV Ratio	Change			
	(Dollars in Thousands)							
300	\$118,264	\$(49,472)	-29.49	% 14.73	%	-3.89	%	
200	\$133,601	\$(34,135)	-20.35	% 16.03	%	-2.59	%	
100	\$151,181	\$(16,555)	-9.87	% 17.44	%	-1.18	%	
Static	\$167,736	\$-	-	18.62	%	-		
(100)	\$172,546	\$4,810	2.87	% 18.68	%	0.06	%	
(200)	\$169,568	\$1,832	1.09	% 18.09	%	-0.53	%	
(300)	\$174,435	\$6,699	3.99	% 18.33	%	-0.29	%	

At September 30, 2016, the Company’s NPV was \$129.7 million or 23.2% of the market value of assets. Following a 200 basis point increase in interest rates, the Company’s “post shock” NPV would have been \$102.1 million or 20.0% of the market value of assets, a decline of approximately 21.3%. The change in the NPV ratio or Company’s sensitivity measure was a decrease of 321 basis points.

As is the case with the GAP Table, certain shortcomings are inherent in the methodology used in the above interest rate risk measurements. Modeling changes in NPV require the making of certain assumptions which may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. In this regard, the models presented assume that the composition of our interest sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and also assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration to maturity or repricing of specific assets and liabilities. Accordingly, although the NPV model provides an indication of interest rate risk exposure at a particular point in time, such model is not intended to and does not provide a precise forecast of the effect of changes in market interest rates on net interest income and will differ from actual results.

Item 7A. Quantitative and Qualitative Disclosure About Market Risk

See Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Exposure to Changes in Interest Rates.”

Item 8. Financial Statements and Supplementary Data

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders

Prudential Bancorp, Inc.

We have audited the accompanying consolidated statements of financial condition of Prudential Bancorp, Inc. and subsidiary as of September 30, 2017 and 2016, and the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended September 30, 2017. These consolidated financial statements are the responsibility of Prudential Bancorp, Inc.'s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Prudential Bancorp, Inc. and subsidiary as of September 30, 2017 and 2016, and the results of their operations and their cash flows for each of the three years in the period ended September 30, 2017, in conformity with U.S. generally accepted accounting principles.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Prudential Bancorp, Inc. and subsidiary's internal control over financial reporting as of September 30, 2017, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013 and our report dated December 14, 2017, we expressed an unqualified opinion on the effectiveness of Prudential Bancorp, Inc. and subsidiary's internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders

Prudential Bancorp, Inc.

We have audited Prudential Bancorp Inc. and subsidiary's internal control over financial reporting as of September 30, 2017, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in 2013. Prudential Bancorp, Inc. and subsidiary's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on Prudential Bancorp, Inc.'s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Prudential Bancorp, Inc. and subsidiary maintained, in all material respects, effective internal control over financial reporting as of September 30, 2017, based on criteria established in *Internal Control — Integrated Framework* issued by COSO in 2013.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the accompanying consolidated statements of financial condition of Prudential Bancorp, Inc. and subsidiary as of September 30, 2017 and 2016 and the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended September 30, 2017, and our report dated December 14, 2017, expressed an unqualified opinion.

PRUDENTIAL BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED SEPTEMBER 30, 2017 AND 2016

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Prudential Bancorp, Inc. (the “Company”) is a Pennsylvania corporation that was incorporated in June 2013 to be the successor corporation of Prudential Bancorp, Inc. of Pennsylvania (“Old Prudential Bancorp”), the former stock holding company for Prudential Bank (the “Bank”), a Pennsylvania-chartered, FDIC-insured savings bank with seven full service branches in the Philadelphia area. The Bank’s primary federal banking regulator is the Federal Deposit Insurance Corporation. The Bank is principally in the business of attracting deposits from its community through its branch offices and investing those deposits, together with funds from borrowings and operations, primarily in single-family residential loans. The Bank’s sole subsidiary as of September 30, 2017 was PSB Delaware, Inc. (“PSB”), a Delaware-chartered corporation established to hold certain investments. As of September 30, 2017, PSB had assets of \$155.5 million primarily consisting of investment and mortgage-backed securities.

The Company’s primary market area is Philadelphia, in particular South Philadelphia and Center City, as well as Delaware County. The Company also conducts business in Bucks, Chester and Montgomery Counties which, along with Delaware County, comprise the suburbs of Philadelphia. We also make loans in contiguous counties in southern New Jersey.

On January 1, 2017, the Company completed its acquisition of Polonia Bancorp, Inc. (“Polonia Bancorp”) and Polonia Bank, Polonia’s wholly owned subsidiary. Polonia Bancorp and Polonia Bank were merged with and into the Company and the Bank, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consolidation –The accompanying consolidated financial statements include the accounts of the Company and the Bank. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates in the Preparation of Financial Statements—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The most significant estimates and assumptions in the consolidated financial statements are recorded in the allowance for loan losses, the fair value of financial instruments, other than temporary

impairment of securities, goodwill and valuation of deferred tax assets. Actual results could differ from those estimates.

Cash and Cash Equivalents—For purposes of reporting cash flows, cash and cash equivalents include cash and amounts due from depository institutions and interest-bearing deposits with original maturities of less than 90 days.

Certificates of Deposit—The Bank may purchase certificates of deposit issued by FDIC insured banks up to \$249,000 and for a period of one to three years.

Investment Securities and Mortgage-Backed Securities—Management classifies and accounts for debt and equity securities as follows:

Held to Maturity—Debt securities that management has the positive intent and ability to hold until maturity are classified as held to maturity and are carried at their remaining unpaid principal balance, net of unamortized premiums or unaccreted discounts. Premiums are amortized and discounts are accreted using the interest method over the estimated remaining term of the underlying security.

Available for Sale—Debt and equity securities that will be held for indefinite periods of time, including securities that may be sold in response to changes in market interest or prepayment rates, needs for liquidity, and changes in the availability and the yield of alternative investments, are classified as available for sale. These assets are carried at fair value. Fair value is determined using public market prices, dealer quotes, and prices obtained from independent pricing services that may be derivable from observable and unobservable market inputs. Unrealized gains and losses are excluded from earnings and are reported net of tax as a separate component of stockholders' equity until realized. Realized gains or losses on the sale of investment and mortgage-backed securities are reported in earnings as of the trade date and determined using the adjusted cost of the specific security sold. Premiums are amortized and discounts are accreted using the interest method over the estimated remaining term of the underlying security.

Other-than-temporary impairment —Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market conditions warrant such evaluation. For all securities that are in an unrealized loss position for an extended period of time and for all securities whose fair value is significantly below amortized cost, Management performs an evaluation of the specific events attributable to the market decline of the security. Management considers the length of time and extent to which the security's fair value has been below cost as well as the general market conditions, industry characteristics, and the fundamental operating results of the issuer to determine if the decline is other-than-temporary. Management also considers as part of the evaluation its intention whether or not to sell the security until its market value has recovered to a level at least equal to the amortized cost. When management determines that a security's unrealized loss is other-than-temporary, a realized loss is recognized in the period in which the decline in value is determined to be other-than-temporary. The write-down is measured based on the fair value of the security at the time the Company determines the decline in value is other-than-temporary.

Loans Receivable— Lending consists of various loan types including single-family residential mortgage loans, construction and land development loans, non-residential or commercial real estate mortgage loans, home equity loans and lines of credit, commercial business loans, and consumer loans and the loans are stated at their unpaid principal balances net of unamortized net fees/costs. Loans that management has the intent and ability to hold for the foreseeable future or until maturity or pay-off are reported at their outstanding unpaid principal balance adjusted for unearned income, the allowance for loan losses and any unamortized deferred fees or costs.

Loan Origination and Commitment Fees—Management defers loan origination and commitment fees, net of certain direct loan origination costs. The balance is accreted into income as a yield adjustment over the life of the loan using the level-yield method.

Interest on Loans—Management recognizes interest on loans on the accrual basis. Income recognition is discontinued when a loan becomes 90 days or more delinquent. Any interest previously accrued is deducted from interest income. Such interest ultimately collected is credited to income when loans are no longer 90 days or more delinquent.

Allowance for Loan Losses— The allowance for loan losses represents the amount which management estimates is adequate to provide for probable losses inherent in its loan portfolio as of the Consolidated Statement of Financial Condition date. The allowance method is used in providing for loan losses. Accordingly, all loan losses are charged to the allowance, and all recoveries are credited to it. The allowance for loan losses is established through a provision for loan losses charged to operations. The provision for loan losses is based on management's periodic evaluation of individual loans, economic factors, past loan loss experience, changes in the composition and volume of the portfolio, and other relevant factors, both qualitative and quantitative. The estimates used in determining the adequacy of the allowance for loan losses, including the amounts and timing of future cash flows expected on impaired loans, are particularly susceptible to changes in the near term.

Impaired loans are loans for which it is not probable to collect all amounts due according to the contractual terms of the loan agreements. Management individually evaluates such loans for impairment and does not aggregate loans by major risk classifications. Factors considered by management in determining impairment include payment status and collateral value. The amount of impairment for impaired loans is determined by the difference between the present value of the expected cash flows related to the loans, using the original interest rate, and their recorded value, or as a practical expedient in the case of collateralized loans, the difference between the fair value of the collateral and the recorded amount of the loans. When foreclosure is probable, impairment is measured based on the fair value of the collateral.

Mortgage loans and consumer loans are comprised of large groups of smaller balance homogeneous loans which are evaluated for impairment collectively. Loans that experience insignificant payment delays, which are defined as less than 90 days, generally are not classified as impaired. Management determines the significance of payment delays on a case-by-case basis taking into consideration all of the circumstances surrounding the loan and the borrower including the length of the delay, the borrower's prior payment record, and the amount of shortfall in relation to the principal and interest owed.

Real Estate Owned—Real estate acquired through, or in lieu of, loan foreclosure is recorded at fair value at the date of acquisition, less estimated selling costs, establishing a new basis. Costs related to the development and improvement of real estate owned properties are capitalized and those relating to holding the properties are charged to expense. After foreclosure, a valuation is periodically performed by management and a write-down is recorded, if necessary, by a charge to operations if the carrying value of a property exceeds its fair value less estimated costs to sell.

Federal Home Loan Bank of Pittsburgh (“FHLB”) Stock – FHLB stock is classified as a restricted equity security because ownership is restricted and there is no established market for its resale. FHLB stock is carried at cost and is evaluated for impairment when certain conditions warrant further consideration.

The Company is a member of the Federal Home Loan Bank of Pittsburgh and as such, is required to maintain a minimum investment in stock of the Federal Home Loan Bank that varies with the level of advances outstanding with the Federal Home Loan Bank. The stock is bought from and sold to the Federal Home Loan Bank based upon its \$100 par value. The stock does not have a readily determinable fair value and as such is classified as restricted stock, carried at cost and evaluated for impairment by management. The stock's value is determined by the ultimate recoverability of the par value rather than by recognizing temporary declines. The determination of whether the par value will ultimately be recovered is influenced by criteria such as the following: (a) the significance of the decline in net assets of the Federal Home Loan Bank as compared to the capital stock amount and the length of time this situation has persisted; (b) commitments by the Federal Home Loan Bank to make payments required by law or regulation and the level of such payments in relation to the operating performance; (c) the impact of legislative and regulatory changes on the customer base of the Federal Home Loan Bank; and (d) the liquidity position of the Federal Home Loan Bank.

The Federal Home Loan Bank continues to report net income, continues to declare quarterly cash dividends and had its Aaa bond rating affirmed by Moody's and AA+ rating affirmed by Standard and Poor's during 2017 and remain unchanged as of September 30, 2017. With consideration given to these factors, management concluded that the stock was not impaired at September 30, 2017 or 2016.

Office Properties and Equipment—Land is carried at cost. Office properties and equipment are recorded at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the expected useful lives of

the assets. The costs of maintenance and repairs are expensed as they are incurred, and renewals and betterments are capitalized and depreciated over their useful lives. The estimated useful life is generally 10-39 years for office properties and 1-7 years for furniture and equipment.

Cash Surrender Value of Life Insurance—The Company funds the policy premiums for the lives of certain officers and directors of the Bank. The bank owned life insurance policies (“BOLI”) provide an attractive tax-exempt return to the Company and is being used by the Company to fund various employee benefit plans and arrangements. The BOLI is recorded at its cash surrender value.

Dividend Payable – Upon declaration of a dividend, a payable is established with a corresponding reduction to retained earnings at the declaration date. There was no dividend payable as of September 30, 2017 or 2016. The Company paid \$1.0 million, \$895,000 and \$2.2 million in cash dividends during the years ended September 30, 2017, 2016 and 2015, respectively.

Goodwill – Goodwill represents the excess of cost over the identifiable net assets of businesses acquired. Goodwill is recognized as an asset and is to be reviewed for impairment annually as of March 31 and between annual tests when events and circumstances indicate that impairment may have occurred. The Company’s goodwill and intangible assets are related to the acquisition of Polonia Bancorp on January 1, 2017.

Employee Stock Ownership Plan – The Bank established an employee stock ownership plan (“ESOP”) for substantially all of its full-time employees. Shares of the Company’s common stock purchased by the ESOP are held in a suspense account until released for allocation to participants as the loans are repaid. Shares released are allocated to each eligible participant based on the ratio of each such participant’s compensation, as defined in the ESOP, to the total compensation of all eligible plan participants in the ESOP. As the unearned shares are released from suspense, the Company recognizes compensation expense equal to the fair value of the ESOP shares during the periods in which they become committed to be released. To the extent that the fair value of the ESOP shares released differs from the cost of such shares, the difference is recorded to equity as an adjustment to additional paid-in capital. Effective October 2016, the Board of directors approved the termination of the ESOP plan effective December 31, 2016. \$102,000 of ESOP expenses were incurred in 2017 as the plan was active in first quarter 2017.

Share-Based Compensation – The Company accounts for stock-based compensation issued to employees, directors, and where appropriate non-employees, in accordance with U.S. GAAP. Under fair value provisions, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the appropriate vesting period using the straight-line method. The amount of stock-based compensation recognized at any date must at least equal the portion of the grant date fair value of the award that is vested at that date and as a result it may be necessary to recognize the expense using a ratable method. Determining the fair value of stock-based awards at the date of grant requires judgment, including estimating the expected term of the stock options and the expected volatility of the Company’s stock. In addition, judgment is required in estimating the amount of stock-based awards that are expected to be forfeited. If actual results differ significantly from these estimates or different key assumptions were used, it could have a material effect on the Company’s Consolidated Financial Statements. See Note 13 of the Notes to Consolidated Financial Statements for additional information regarding stock-based compensation.

Treasury Stock – Common stock held in treasury is accounted for using the cost method, which treats stock held in treasury as a reduction to total stockholders’ equity. During the year ended September 30, 2017, the Company repurchased 303,115 shares of common stock of unallocated shares held in a suspense account by the Bank’s ESOP as collateral with an aggregate value of \$5.2 million in order to payoff the associated loans as of December 31, 2016 in connection with the termination of the Bank’s ESOP. In addition, 42,791 shares of common stock were purchased in conjunction with the termination of the Polonia Bank ESOP as a result of the acquisition. The remaining shares purchased were related to the Company buying shares for the benefit of the employee stock benefit. The shares may be purchased in the open market or in privately negotiated transactions from time to time depending upon market conditions and other factors over a one-year period or such longer period of time as may be necessary to complete such repurchases.

Comprehensive Income—Management presents in the consolidated statements of comprehensive income those amounts arising from transactions and other events which currently are excluded from the statements of operations and are recorded directly to stockholders' equity. For the years ended September 30, 2017, 2016 and 2015, the components of comprehensive income were net income, unrealized holding (loss) gain, net of income tax (benefit) expense, on available for sale securities and reclassifications related to realized gains on sale of securities recognized in earnings, net of tax, and unrealized holdings (loss) gain, net of tax, on the fair value of interest rate swaps. Reclassifications are made to avoid double counting in comprehensive income items which are displayed as part of net income for the period.

Income Taxes— Management records deferred income taxes that reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Management exercises significant judgment in the evaluation of the amount and timing of the recognition of the resulting tax assets and liabilities. The judgments and estimates required for the evaluation are updated based upon changes in business factors and the tax laws. If actual results differ from the assumptions and other considerations used in estimating the amount and timing of tax recognized, there can be no assurance that additional expense will not be required in future periods.

In evaluating the Company's ability to recover deferred tax assets, management considers all available positive and negative evidence, including past operating results and forecast of future taxable income. In determining future taxable income, management makes assumptions for the amount of taxable income, the reversal of temporary differences and the implementation of feasible and prudent tax planning strategies. These assumptions require management to make judgments about future taxable income and are consistent with the plans and estimates the Company uses to manage the business. Any reduction in estimated future taxable income may require management to record an additional valuation allowance against the deferred tax assets. An increase in the valuation allowance would result in additional income tax expense in the period and could have a significant impact on our future earnings.

Transfers and Servicing of Financial Assets and Extinguishments of Liabilities—Management recognizes the financial and servicing assets it controls and the liabilities it has incurred, and will derecognize financial assets when control has been surrendered, and derecognize liabilities when extinguished. Servicing assets and other retained interests in the transferred assets are measured by allocating the previous carrying amount between the assets sold, if any, and retained interests, if any, based on their relative fair values at the date of transfer.

Interest Rate Swap Agreement—For asset/liability management purposes, the Company uses interest rate swap agreements to hedge various exposures or to modify interest rate characteristics of assets and liabilities. Interest rate swaps are contracts in which a series of interest rate flow is exchanged over a prescribed period. The notional amount on which the interest payments are based is not exchanged. These swap agreements are derivative instruments and generally convert a portion of the Company's variable-rate debt to a fixed rate (cash flow hedge) and convert a portion of its fixed rate loans to a variable rate (fair value hedge).

The gain or loss on a derivative designated and qualifying as a fair value hedging instrument, as well as the offsetting gain or loss on the hedged item attributable to the risk being hedged, is recognized currently in earnings in the same accounting period. The effective portion of the gain or loss on a derivative designated and qualifying as a cash flow hedging instrument is initially reported as a component of other comprehensive income and subsequently reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The ineffective portion of the gain or loss on the derivative instrument, if any, is recognized currently in earnings.

For cash flow hedges, the net settlement (upon close-out or termination) that offsets changes in the value of the hedged debt is deferred and amortized into net interest income over the life of the hedged debt. For fair value hedges, the net settlement (upon close-out or termination) that offsets changes in the value of the loans adjusts the basis of the loans and is deferred and amortized to loan interest income over the life of the loans. The portion, if any, of the net settlement amount that did not offset changes in the value of the hedged asset or liability is recognized immediately in noninterest income.

Interest rate derivative financial instruments receive hedge accounting treatment only if they are designated as a hedge and are expected to be, and are, effective in substantially reducing interest rate risk arising from the assets and liabilities identified as exposing the Company to risk. Those derivative financial instruments that do not meet specified hedging criteria would be recorded at fair value, with changes in fair value recorded in income. If periodic assessment indicates derivatives no longer provide an effective hedge, the derivative contracts would be closed out and settled, or classified as a trading activity.

Loans Acquired - Loans acquired including loans that have evidence of deterioration of credit quality since origination and for which it is probable, at acquisition, that the Company will be unable to collect all contractually required payments receivable, are initially recorded at fair value (as determined by the present value of expected future cash flows) with no valuation allowance. Loans are evaluated individually to determine if there is evidence of deterioration of credit quality since origination. The difference between the undiscounted cash flows expected at acquisition and the investment in the loan, or the “accretable yield,” is recognized as interest income on a level-yield method over the life of the loan. Contractually required payments for interest and principal that exceed the undiscounted cash flows expected at acquisition, or the “non-accretable difference,” are not recognized as a yield adjustment or as a loss accrual or a valuation allowance. Increases in expected cash flows subsequent to the initial investment are recognized prospectively through adjustment of the yield on the loan over its remaining estimated life. Decreases in expected cash flows are recognized immediately as impairment. Any valuation allowances on these impaired loans reflect only losses incurred after acquisition. Loans acquired with evidence of deterioration of credit quality since origination were not material.

For purchased loans acquired that are not deemed impaired at acquisition, credit discounts representing the principal losses expected over the life of the loan are a component of the initial fair value. Loans are aggregated and accounted for as a pool of loans if the loans being aggregated have common risk characteristics. Subsequent to the purchase date, the methods utilized to estimate the required allowance for credit losses for these loans is similar to originated loans; however, the Company records a provision for loan losses only when the required allowance exceeds any remaining credit discounts. The remaining differences between the purchase price and the unpaid principal balance at the date of acquisition are recorded in interest income over the life of the loans.

Business Combinations - At the date of acquisition the Company records the assets and liabilities of the acquired companies on the Consolidated Statement of Financial Condition at their estimated fair value. The results of operations for acquired companies are included in the Company’s Consolidated Statements of Operations beginning at the acquisition date. Expenses arising from acquisition activities are recorded in the Consolidated Statements of Operations during the period incurred. The difference between the purchase price and the fair value of the net assets acquired (including identified intangibles) is recorded as goodwill.

Reclassification of Comparative Amounts - Certain items previously reported have been reclassified to conform to the current year’s reporting format. Such reclassifications did not affect consolidated net statement of operations or consolidated stockholders’ equity.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU 2014-09, *Revenue from Contracts with Customers* (a new revenue recognition standard). The ASU’s core principle is that a company will recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, this ASU specifies the accounting for certain costs to obtain or fulfill a contract with a customer and expands disclosure requirements for revenue recognition. This ASU was to be effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period; the effective date was deferred by a year discussed below. Because the guidance does not apply to revenue associated with financial instruments, including loans and securities, we do not expect the new standard, or any of the amendments, to result in a material change from our current accounting for revenue because the majority of the Company's financial instruments are not within the scope of Topic 606. However, we do expect that the standard will result in new disclosure requirements, which are currently being evaluated.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. This ASU applies to all entities that hold financial assets or owe financial liabilities and is intended to provide more useful information on the recognition, measurement, presentation, and disclosure of financial instruments. Among other things, this ASU (a) requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income; (b) simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; (c) eliminates the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities; (d) eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; (e) requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; (f) requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments; (g) requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements; and (h) clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. For public business entities, the amendments in this ASU are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. For all other entities including not-for-profit entities and employee benefit plans within the scope of Topics 960 through 965 on plan accounting, the amendments in this ASU are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. All entities that are not public business entities may adopt the amendments in this ASU earlier as of the fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position and/or results of operations.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. A short-term lease is defined as one in which (a) the lease term is 12 months or less and (b) there is not an option to purchase the underlying asset that the lessee is reasonably certain to exercise. For short-term leases, lessees may elect to recognize lease payments over the lease term on a straight-line basis. For public business entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2018, and interim periods within those years. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2019, and for interim periods within fiscal years beginning after December 15, 2020. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. The Company is currently assessing the practical expedients it may elect at adoption, but does not anticipate the amendments will have a significant impact on the financial statements. Based on the Company's preliminary analysis of its current portfolio, the impact to the Company's statement of financial condition is estimated to result in less than a 1 percent increase in assets and liabilities. The Company also anticipates additional disclosures to be provided at adoption.

In March 2016, the FASB issued ASU 2016-05, *Derivatives and Hedging (Topic 815)*. The amendments in this ASU apply to all reporting entities for which there is a change in the counterparty to a derivative instrument that has been designated as a hedging instrument under Topic 815. The standards in this ASU clarify that a change in the counterparty to a derivative instrument that has been designated as the hedging instrument under Topic 815 does not, in and of itself, require designation of that hedging relationship provided that all other hedge accounting criteria continue to be met. For public business entities, the amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. For all other entities, the amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within fiscal years beginning after December 15, 2018. An entity has an option to apply the amendments in this ASU on either a prospective basis or a modified retrospective basis. Early adoption is permitted, including adoption in an interim period. This ASU is not expected to have a significant impact on the Company's financial statements.

In March 2016, the FASB issued ASU 2016-06, *Derivatives and Hedging (Topic 815)*. The amendments apply to all entities that are issuers of or investors in debt instruments (or hybrid financial instruments that are determined to have a debt host) with embedded call (put) options. The amendments in this Update clarify the requirements for assessing whether contingent call (put) options that can accelerate the payment of principal on debt instruments are clearly and closely related to their debt host. An entity performing the assessment under the amendments in this Update is required to assess the embedded call (put) options solely in accordance with the four-step decision sequence. For public business entities, the amendments in this Update are effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. For entities other than public business entities, the amendments in this Update are effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within fiscal years beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period. This Update is not expected to have a significant impact on the Company's financial statements.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments*, which changes the impairment model for most financial assets. This Update is intended to improve financial reporting by requiring timelier recording of credit losses on loans and other financial instruments held by financial institutions and other organizations. The underlying premise of the Update is that financial assets measured at amortized cost should be presented at the net amount expected to be collected, through an allowance for credit losses that is deducted from the amortized cost basis. The allowance for credit losses should reflect management's current estimate of credit losses that are expected to occur over the remaining life of a financial asset. The income statement will be effected for the measurement of credit losses for newly recognized financial assets, as well as the expected increases or decreases of expected credit losses that have taken place during the period. ASU 2016-13 is effective for annual and interim periods beginning after December 15, 2019, and early adoption is permitted for annual and interim periods beginning after December 15, 2018. With certain exceptions, transition to the new requirements will be through a cumulative effect adjustment to opening retained earnings as of the beginning of the first reporting period in which the guidance is adopted. We expect to recognize a one-time cumulative effect adjustment to the allowance for loan losses as of the beginning of the first reporting period in which the new standard is effective, but cannot yet determine the magnitude of any such one-time adjustment or the overall impact of the new guidance on the consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which addresses eight specific cash flow issues with the objective of reducing diversity in practice. Among these include recognizing cash payments for debt prepayment or debt extinguishment as cash outflows for financing activities; cash proceeds received from the settlement of insurance claims should be classified on the basis of the related insurance coverage; and cash proceeds received from the settlement of bank-owned life insurance policies should be classified as cash inflows from investing activities while the cash payments for premiums on bank-owned policies may be classified as cash outflows for investing activities, operating activities, or a combination of investing and operating activities. The amendments in this ASU are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period. The amendments in this ASU should be applied using a retrospective transition method to each period presented. If it is impracticable to apply the amendments retrospectively for some of the issues, the amendments for those issues would be applied prospectively as of the earliest date practicable. The Company is currently evaluating the impact the adoption of the standard will have on the Company's statement of cash flows.

In October 2016, the FASB issued ASU 2016-16, *Income Taxes (Topic 740)*, which requires recognition of current and deferred income taxes resulting from an intra-entity transfer of any asset (excluding inventory) when the transfer occurs. Consequently, the amendments in this ASU eliminate the exception for an intra-entity transfer of an asset other than inventory. The amendments in this ASU are effective for public business entities for fiscal years beginning after December 15, 2017, including interim periods within those annual reporting periods. For all other entities, the amendments are effective for annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual periods beginning after December 15, 2019. Early adoption is permitted for all entities as of the beginning of an annual reporting period for which financial statements (interim or annual) have not been issued or made available for issuance. That is, earlier adoption should be in the first interim period if an entity issues interim financial statements. The amendments in this ASU should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to the amount of retained earnings as of the beginning of the period of adoption. This ASU is not expected to have a significant impact on the Company's financial statements.

In October 2016, the FASB issued ASU 2016-17, *Consolidation (Topic 810)*, which amends the consolidation guidance on how a reporting entity that is the single decision maker of a VIE should treat indirect interests in the entity held through related parties that are under common control with the reporting entity when determining whether it is the primary beneficiary of that VIE. The primary beneficiary of a VIE is the reporting entity that has a controlling financial interest in a VIE and, therefore, consolidates the VIE. A reporting entity has an indirect interest in a VIE if it has a direct interest in a related party that, in turn, has a direct interest in the VIE. Under the amendments, a single decision maker is not required to consider indirect interests held through related parties that are under common control with the single decision maker to be the equivalent of direct interests in their entirety. Instead, a single decision maker is required to include those interests on a proportionate basis consistent with indirect interests held through other related parties. This ASU is not expected to have a significant impact on the Company's financial statements.

In October 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230)*, which requires that a statement of cash flows explains the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The amendments in this Update should be applied using a retrospective transition method to each period presented. The Company is currently evaluating the impact the adoption of the standard will have on the Company's statement of cash flows.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805), Clarifying the Definition of a Business*, which provides a more robust framework to use in determining when a set of assets and activities (collectively referred to as a "set") is a business. The screening process requires that when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the set is not a business. This screen reduces the number of transactions that need to be further evaluated. Public business entities should apply the amendments in this ASU to annual periods beginning after December 15, 2017, including interim periods within those periods. All other entities should apply the amendments to annual periods beginning after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. The amendments in this ASU should be applied prospectively on or after the effective date. This ASU is not expected to have a significant impact on the Company's financial statements.

In January 2017, the FASB issued ASU 2017-04, *Simplifying the Test for Goodwill Impairment*. To simplify the subsequent measurement of goodwill, the FASB eliminated Step 2 from the goodwill impairment test. In computing the implied fair value of goodwill under Step 2, an entity had to perform procedures to determine the fair value at the impairment testing date of its assets and liabilities (including unrecognized assets and liabilities) following the procedure that would be required in determining the fair value of assets acquired and liabilities assumed in a business combination. Instead, under the amendments in this Update, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting units fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. A public business entity that is a U.S. Securities and Exchange Commission ("SEC") filer should adopt the amendments in this Update for its annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. A public business entity that is not an SEC filer should adopt the amendments in this Update for its annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2020. All other entities, including not-for-profit entities, that are adopting the amendments in this Update should do so for their annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2021. This ASU is not expected to have a significant impact on the Company's financial statements.

In February 2017, the FASB issued ASU 2017-05, *Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20)*. The amendments in this Update clarify what constitutes a financial asset within the scope of Subtopic 610-20. The amendments also clarify that entities should identify each distinct nonfinancial asset or in-substance nonfinancial asset that is promised to a counterparty and to derecognize each asset when the counterparty obtains control. There is also additional guidance provided for partial sales of a nonfinancial asset and when derecognition, and the related gain or loss, should be recognized. The amendments in this Update are effective at the same time as the amendments in Update 2014-09. Therefore, for public entities, the amendments are effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. For all other entities, the amendments in this Update are effective for annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual reporting periods beginning after December 15, 2019. The Company is currently evaluating the impact the adoption of this standard will have on the Company's financial position or results of operations.

In March 2017, the FASB issued ASU 2017-08, *Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20)*. The amendments in this Update shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. For public business entities, the amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity should apply the amendments in this Update on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. Additionally, in the period of adoption, an entity should provide disclosures about a change in accounting principle. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

In July 2017, the FASB issued ASU 2017-11, *Earnings Per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480), and Derivative and Hedging (Topic 815)*. The amendments in Part I of this Update change the classification analysis of certain equity-linked financial instruments (or embedded features) with down-round features. When determining whether certain financial instruments should be classified as liabilities or equity instruments, a down-round feature no longer precludes equity classification when assessing whether the instrument is indexed to an entity's own stock. The amendments also clarify existing disclosure requirements for equity-classified instruments. As a result, a freestanding equity-linked financial instrument (or embedded conversion option) no longer would be accounted for as a derivative liability at fair value as a result of the existence of a down-round feature. For freestanding equity classified financial instruments, the amendments require entities that present earnings per share ("EPS") in accordance with Topic 260 to recognize the effect of the down-round feature when it is triggered. That effect is treated as a dividend and as a reduction of income available to common shareholders in basic EPS. Convertible instruments with embedded conversion options that have down-round features are now subject to the specialized guidance for contingent beneficial conversion features (in Subtopic 470-20, *Debt—Debt with Conversion and Other Options*), including related EPS guidance (in Topic 260). The amendments in Part II of this Update recharacterize the indefinite deferral of certain provisions of Topic 480 that now are presented as pending content in the Accounting Standards Codification, to a scope exception. Those amendments do not have an accounting effect. For public business entities, the amendments in Part I of this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. For all other entities, the amendments in Part I of this Update are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted for all entities, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The amendments in Part I of this Update should be applied either retrospectively to outstanding financial instruments with a down-round feature by means of a cumulative-effect adjustment to the statement of financial position as of the beginning of the first fiscal year and interim period(s) in which the pending content that links to this paragraph is effective or retrospectively to outstanding financial instruments with a down-round feature for each prior reporting period presented in accordance with the guidance on accounting changes in paragraphs 250-10-45-5 through 45-10. The amendments in Part II of this Update do not require any transition guidance because those amendments do not have an accounting effect. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

In August 2017, the FASB issued ASU 2017-12, *Derivatives and Hedging (Topic 850)*, the objective of which is to improve the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. In addition, the amendments in this Update make certain targeted improvements to simplify the application and disclosure of the hedge accounting guidance in current general accepted accounting principles. For public business entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and interim periods beginning after December 15, 2020. Early application is permitted in any period after issuance. For cash flow and net investment hedges existing at the date of adoption, an entity should apply a cumulative-effect adjustment related to eliminating the separate measurement of ineffectiveness to accumulated other comprehensive income with a corresponding adjustment to the opening balance of retained earnings as of the beginning of the fiscal year that an entity adopts the amendments in this Update. The amended presentation and disclosure guidance is required only prospectively. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

In September 2017, the FASB issued ASU 2017-13, *Revenue Recognition (Topic 605), Revenue from Contracts with Customers (Topic 606), Leases (Topic 840), and Leases (Topic 842): Amendments to SEC Paragraphs Pursuant to the Staff Announcement at the July 20, 2017 EITF Meeting and Rescission of Prior SEC Staff Announcements and Observer Comments*. The SEC Observer said that the SEC staff would not object if entities that are considered public business entities only because their financial statements or financial information is required to be included in another entity's SEC filing use the effective dates for private companies when they adopt ASC 606, *Revenue from Contracts with Customers*, and ASC 842, *Leases*. The Update also supersedes certain SEC paragraphs in the Codification related to previous SEC staff announcements and moves other paragraphs, upon adoption of ASC 606 or ASC 842. This Update is not expected to have a significant impact on the Company's financial statements.

3.EARNINGS PER SHARE

Basic earnings per share is computed based on the weighted average number of common shares outstanding. Diluted earnings per share is computed based on the weighted average number of common shares outstanding and common share equivalents (“CSEs”) that would arise from the exercise of dilutive securities.

The calculated basic and diluted earnings per share are as follows:

	Year Ended September 30,				2015	
	2017		2016		Basic	Diluted
	(Dollars in Thousands Except Per Share Data)					
	Basic	Diluted	Basic	Diluted	Basic	Diluted
Net income	\$2,778	\$2,778	\$2,720	\$2,720	\$2,232	\$2,232
Weighted average shares outstanding	8,316,638	8,316,638	7,417,044	7,417,044	8,335,273	8,335,273
Effect of CSEs	-	357,871	-	217,701	-	114,817
Adjusted weighted average shares used in earnings per share computation	8,316,638	8,674,509	7,417,044	7,634,745	8,335,273	8,450,090
Earnings per share	\$0.33	\$0.32	\$0.37	\$0.36	\$0.27	\$0.26

As of September 30, 2017 and 2016, there were 555,185 and 554,445 shares of common stock, respectively, subject to options with an exercise price less than the then current market and which were included in the computation of diluted earnings per share. All options shares vested as of September 30, 2017 and 2016 have exercise prices less than the then current market and are consider dilutive.

4. ACCUMULATED OTHER COMPREHENSIVE (LOSS) INCOME

The following table presents the changes in accumulated other comprehensive (loss) income by component net of tax:

	Year Ended September 30,			2016		2015	
	2017	2017	2017	2016	2016	2016	2015
	Unrealized gain on AFS securities (a)	Unrealized gain on interest rate swaps (a)	Total other comprehensive income	Unrealized gain on AFS securities (a)	Unrealized gain on interest rate swaps (a)	Total other comprehensive income	Unrealized gain on AFS securities (a)
Beginning Balance	\$ 931	\$ (133)	\$ 798	\$ 18	\$ -	\$ 18	\$ (953)
Other comprehensive (loss) income before reclassification	(1,867)	464	(1,403)	1,189	(133)	1,056	971
Amount reclassified from accumulated other comprehensive income	(155)	-	(155)	(276)	-	(276)	-
Total other comprehensive income (loss)	(2,022)	464	(1,558)	913	(133)	780	971
Ending Balance	\$ (1,091)	\$ 331	\$ (760)	\$ 931	\$ (133)	\$ 798	\$ 18

(a) All amounts are net of tax. Amounts in parentheses indicate debits.

The following table presents significant amounts reclassified out of each component of accumulated other comprehensive (loss) income for the year ended September 30, 2017, 2016 and 2015:

Details about other comprehensive income	Year Ended September 30,			Affected Line Item in the Statement Where Net Income is Presented
	2017	2016	2015	
	Amount	Amount	Amount	
	Reclassified from Accumulated Other Comprehensive Income (a)	Reclassified from Accumulated Other Comprehensive Income	Reclassified from Accumulated Other Comprehensive Income	

Unrealized gains on available for sale securities:

Reclassification for net gains in net income	\$ 235	\$ 418	\$ -	Gain on sale of mortgage-backed securities available-for-sale, net
Tax effect	(80)	(142)	-	Income taxes
	\$ 155	\$ 276	\$ -	

(a) Amounts in parentheses indicate debits to net income

5. INVESTMENT AND MORTGAGE-BACKED SECURITIES

The amortized cost and fair value of securities, with gross unrealized gains and losses, are as follows:

	September 30, 2017			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(Dollars in Thousands)			
Securities Available for Sale:				
U.S. government and agency obligations	\$26,125	\$ 9	\$ (335)) \$25,799
Mortgage-backed securities - U.S. government agencies	119,456	146	(1,475)) 118,127
Corporate debt securities	34,500	185	(285)) 34,400
Total debt securities available for sale	180,081	340	(2,095)) 178,326
FHLMC preferred stock	6	70	-	76
Total securities available for sale	\$180,087	\$ 410	\$ (2,095)) \$178,402
Securities Held to Maturity:				
U.S. government and agency obligations	\$33,500	\$ 229	\$ (1,688)) \$32,041
State and political subdivisions	20,781	165	(104)) 20,842
Mortgage-backed securities - U.S. government agencies	7,003	304	(11)) 7,296
Total securities held to maturity	\$61,284	\$ 698	\$ (1,803)) \$60,179

	September 30, 2016			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(Dollars in Thousands)			
Securities Available for Sale:				
U.S. government and agency obligations	\$20,988	\$ 36	\$ -	\$21,024
Mortgage-backed securities - U.S. government agencies	90,817	860	(102)	91,575
Corporate debt securities	25,411	661	(19)	26,053
Total debt securities	137,216	1,557	(121)	138,652
FHLMC preferred stock	6	36	-	42
Total securities available for sale	\$137,222	\$ 1,593	\$ (121)	\$138,694
Securities Held to Maturity:				
U.S. government and agency obligations	\$33,499	\$ 399	\$ (129)	\$33,769
Mortgage-backed securities - U.S. government agencies	6,472	459	-	6,931
Total securities held to maturity	\$39,971	\$ 858	\$ (129)	\$40,700

As of September 30, 2017 the Bank maintained \$106.9 million in a safekeeping account at the FHLB of Pittsburgh used for collateral as a convenience. The Bank is not required to maintain any specific collateral for its borrowings; therefore these securities are not restricted and could be sold or transferred if needed.

The following table shows the gross unrealized losses and related fair values of the Company's investment securities, aggregated by investment category and the length of time that individual securities had been in a continuous loss position at September 30, 2017:

	Less than 12 months		More than 12 months		Total	
	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value
	(Dollars in Thousands)

Management evaluates securities for other-than-temporary impairment (“OTTI”) at least once per quarter, and more frequently when economic or market conditions warrant such evaluation. The evaluation is based upon factors such as the creditworthiness of the issuers/guarantors, the underlying collateral, if applicable, and the continuing performance of the securities. Management also evaluates other facts and circumstances that may be indicative of an OTTI condition. This includes, but is not limited to, an evaluation of the type of security, the length of time and extent to which the fair value of the security has been less than cost, and the near-term prospects of the issuer.

Management has reviewed its investment securities portfolios and determined that during the year ended September 30, 2017, there were no impairment required for its investment portfolio deemed other than temporarily impaired.

The Company assesses whether the credit loss existed by considering whether (1) the Company has the intent to sell the security, (2) it is more likely than not that it will be required to sell the security before recovery, or (3) it does not expect to recover the entire amortized cost basis of the security. The Company bifurcates the OTTI impact on impaired securities where impairment in value was deemed to be other than temporary between the component representing credit loss and the component representing loss related to other factors. The portion of the fair value decline attributable to credit loss must be recognized through a charge to earnings. The credit component is determined by comparing the present value of the cash flows expected to be collected, discounted at the rate in effect before recognizing any OTTI with the amortized cost basis of the debt security. The Company uses the cash flow expected to be realized from the security, which includes assumptions about interest rates, timing and severity of defaults, estimates of potential recoveries, the cash flow distribution from the bond indenture and other factors, then applies a discount rate equal to the effective yield of the security. The difference between the present value of the expected cash flows and the amortized book value is considered a credit loss. The fair value of the security is determined using the same expected cash flows; the discount rate is a rate the Company determines from the open market and other sources as appropriate for the security. The difference between the fair value and the security’s remaining amortized cost is recognized in other comprehensive income(loss).

For the years ended September 30, 2017, 2016 and 2015, the Company determined that no OTTI had occurred within the investment and mortgage-back securities portfolios.

U.S. Government and agency obligations – The Company’s investments reflected in the tables above in U.S. Government sponsored enterprise notes consist of debt obligations of the FHLB and Federal Farm Credit System (“FFCS”). These securities are typically rated AAA by one of the internationally recognized credit rating services. There were six securities in a gross unrealized loss position for less than twelve months having an aggregate depreciation of \$335,000 or 1.3% from the Company’s amortized cost basis. The unrealized losses on these debt securities relates principally to the changes in market interest rates in the financial markets and are not as a result of projected shortfall of cash flows. In addition, the Company does not intend to sell these securities and it is more likely than not that the Company will not be required to sell the securities. As such, the Company anticipates it will recover the entire amortized cost basis of the securities. As a result, the Company does not consider these investments to be other-than-temporarily impaired at September 30, 2017.

U.S. Government agency issued mortgage-backed securities — At September 30, 2017, the gross unrealized loss in U.S. government agency issued mortgage-backed securities in the category of experiencing a gross unrealized loss for greater than 12 months was \$340,000 or 0.3% from the Company's amortized cost basis and consisted of nine securities. The securities in a gross unrealized loss position experiencing a gross unrealized loss for less than 12 months was \$1.1 million or 0.9% from the Company's amortized cost basis and consisted of 34 securities at September 30, 2017. These securities represent asset-backed issues that are issued or guaranteed by a U.S. Government sponsored agency or carry the full faith and credit of the United States through a government agency and are currently rated AAA by at least one bond credit rating agency. The unrealized losses on these debt securities relates principally to the changes in market interest rates in the financial markets and are not as a result of projected shortfall of cash flows. The Company anticipates it will recover the entire amortized cost basis of the securities. As a result, the Company does not consider these investments to be other-than-temporarily impaired at September 30, 2017.

Corporate debt securities — At September 30, 2017, the gross unrealized loss corporate debt securities in the category of experiencing a gross unrealized loss for less than 12 months was \$285,000 or 0.8% from the Company's amortized cost basis and consisted of 17 securities. The unrealized losses on these debt securities relates principally to the changes in market interest rates in the financial markets and are not as a result of projected shortfall of cash flows. In addition, the Company does not intend to sell these securities and it is more likely than not that the Company will not be required to sell the securities. As such, the Company anticipates it will recover the entire amortized cost basis of the securities. As a result, the Company does not consider these investments to be other-than-temporarily impaired at September 30, 2017.

State and political subdivision debt securities — At September 30, 2017, the gross unrealized loss state and political subdivision debt securities in the category of experiencing a gross unrealized loss for less than 12 months was \$104,000 or 0.5% from the Company's amortized cost basis and consisted of 6 securities. The unrealized losses on these debt securities relates principally to the changes in market interest rates in the financial markets and are not as a result of projected shortfall of cash flows. In addition, the Company does not intend to sell these securities and it is more likely than not that the Company will not be required to sell the securities. As such, the Company anticipates it will recover the entire amortized cost basis of the securities. As a result, the Company does not consider these investments to be other-than-temporarily impaired at September 30, 2017.

The following table shows the gross unrealized losses and related fair values of the investment securities, aggregated by investment category and length of time that individual securities have been in a continuous loss position at September 30, 2016:

	Less than 12 months		More than 12 months		Total	
	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value
	(Dollars in Thousands)

The amortized cost and fair value of debt securities by contractual maturity are shown below. Expected maturities as of September 30, 2017 will differ from contractual maturities because of call provisions in the securities. Mortgage-backed securities were not included as the contractual maturity is generally irrelevant due to the borrowers' right to prepay without pre-payment penalty which results in significant prepayments.

	Held to Maturity		Available for Sale	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
	(Dollars in Thousands)			
Due within one year	\$-	\$-	\$-	\$-
Due after one through five years	2,867	2,953	6,058	6,078
Due after five through ten years	22,601	22,479	25,975	25,872
Due after ten years	28,813	27,451	28,592	28,249
Total	\$54,281	\$52,883	\$60,625	\$60,199

During the fiscal year ended September 30, 2017 and 2016, the Company recorded net realized gains of \$235,000 and \$418,000, respectively, and gross proceeds from the from the sale of investment and mortgage-backed securities of \$20.9 million and \$11.6 million, respectively.

During the fiscal year ended September 30, 2016, the Company sold for \$2.9 million mortgage-backed securities classified as held-to-maturity for total proceeds of \$3.1 million, that had a remaining balance of less than 15% of its original par value. These sales did not taint the Company's intent to hold the remaining portfolio.

6. LOANS RECEIVABLE

Loans receivable consist of the following:

	September 30,	
	2017	2016
	(Dollars in Thousands)	
One-to-four family residential	\$ 351,298	\$ 233,531
Multi-family residential	21,508	12,478
Commercial real estate	127,644	79,859
Construction and land development	145,486	21,839
Commercial business	488	99
Leases	4,240	3,286
Consumer	1,943	799
Total loans	652,607	351,891
Undisbursed portion of loans-in-process	(73,858)	(5,371)
Deferred loan (fees) costs	(2,940)	1,697
Allowance for loan losses	(4,466)	(3,269)

Net loans	\$ 571,343	\$ 344,948
-----------	------------	------------

The Company originates loans to customers located primarily in its local market area. The ultimate repayment of these loans at September 30, 2017 and 2016 is dependent, to a certain degree, on the local economy and real estate market.

The following table summarizes the loans individually evaluated for impairment by loan segment at September 30, 2017:

	One- to four- family residential	Multi-family residential	Commercial real estate	Construction and land development	Commercial business	Leases	Consumer	Total
(Dollars in Thousands)								
Individually evaluated for impairment	\$8,277	\$ 317	\$ 2,337	\$ 8,724	\$ -	\$-	\$ 10	\$19,665
Collectively evaluated for impairment	343,021	21,191	125,307	136,762	488	4,240	1,933	632,942
Total loans	\$351,298	\$ 21,508	\$ 127,644	\$ 145,486	\$ 488	\$4,240	\$ 1,943	\$652,607

The following table summarizes the loans individually evaluated for impairment by loan segment at September 30, 2016:

	One- to four- family residential	Multi-family residential	Commercial real estate	Construction and land development	Commercial business	Leases	Consumer	Total
(Dollars in Thousands)								
Individually evaluated for impairment	\$5,553	\$ 335	\$ 3,154	\$ 10,288	\$ 99	\$-	\$ -	\$19,429
Collectively evaluated for impairment	227,978	12,143	76,705	11,551	-	3,286	799	\$332,462
Total loans	\$233,531	\$ 12,478	\$ 79,859	\$ 21,839	\$ 99	\$3,286	\$ 799	\$351,891

The loan portfolio is segmented at a level that allows management to monitor risk and performance. Management evaluates all loans classified as substandard or lower and loans delinquent 90 plus days for potential impairment. Loans are considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement.

Once the determination is made that a loan is impaired, the determination of whether a specific allocation of the allowance is necessary is generally measured by comparing the recorded investment in the loan to the fair value of the loan using one of the following three methods: (a) the present value of the expected future cash flows discounted at the loan's effective interest rate; (b) the loan's observable market price; or (c) the fair value of the collateral less selling costs. Management primarily utilizes the fair value of collateral method as a practically expedient alternative.

The following table presents impaired loans by class, segregated by those for which a specific allowance was required and those for which a specific allowance was not necessary as of September 30, 2017:

	Impaired Loans with Specific Allowance		Impaired Loans with No Specific Allowance		Total Impaired Loans	Unpaid Principal Balance
	Recorded Investment	Related Allowance	Recorded Investment	Recorded Investment		
One-to-four family residential	\$-	\$ -	\$ 8,277	\$ 8,277	\$ 9,245	\$ 9,245

Total	\$21,276	\$ 1,097	\$ 412

Federal banking regulations and our policies require that the Bank utilize an internal asset classification system as a means of reporting problem and potential problem assets. The Bank has incorporated an internal asset classification system, consistent with Federal banking regulations, as a part of the credit monitoring system. Management currently classifies problem and potential problem assets as “special mention,” “substandard,” “doubtful” or “loss” assets. An asset is considered “substandard” if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. “Substandard” assets include those characterized by the “distinct possibility” that the insured institution will sustain “some loss” if the deficiencies are not corrected. Assets classified as “doubtful” have all of the weaknesses inherent in those classified “substandard” with the added characteristic that the weaknesses present make “collection or liquidation in full,” on the basis of currently existing facts, conditions, and values, “highly questionable and improbable.” Assets classified as “loss” are those considered “uncollectible” and of such little value that their continuance as assets without the establishment of a specific loss reserve is not warranted. Assets which do not currently expose the insured institution to sufficient risk to warrant classification in one of the aforementioned categories but possess weaknesses are required to be designated “special mention.”

The following tables present the classes of the loan portfolio in which a formal risk weighting system is utilized summarized by the aggregate “Pass” and the criticized category of “special mention”, and the classified categories of “substandard” and “doubtful” within the Bank’s risk rating system. The Bank had no loans classified as “loss” at the dates presented.

	September 30, 2017				Total Loans
	Pass	Special Mention	Substandard	Doubtful	
	(Dollars in Thousands)				
One-to-four residential	\$-	\$ 1,635	\$ 3,878	\$ -	\$5,513

Interest income on nonaccrual loans would have increased by approximately \$636,000, \$604,000, and \$279,000, during fiscal years ended September 30, 2017, 2016 and 2015, respectively, if these loans would have performed in accordance with their original terms.

The allowance for loan losses is established through a provision for loan losses charged to expense. Management maintains the allowance at a level believed to cover all known and inherent losses in the portfolio that are both probable and reasonable to estimate at each reporting date. Management reviews the allowance for loan losses no less than quarterly in order to identify those inherent losses and to assess the overall collection probability for the loan portfolio in view of these inherent losses. For each primary type of loan, a loss factor is established reflecting an estimate of the known and inherent losses in such loan type using both a quantitative analysis as well as consideration of qualitative factors. The evaluation process includes, among other things, an analysis of delinquency trends, non-performing loan trends, the level of charge-offs and recoveries, prior loss experience, total loans outstanding, the volume of loan originations, the type, size and geographic concentration of our loans, the value of collateral securing the loans, the borrower's ability to repay and repayment performance, the number of loans requiring heightened management oversight, local economic conditions and industry experience.

Commercial real estate loans entail significant additional credit risks compared to one-to four-family residential mortgage loans, as they generally involve large loan balances concentrated with single borrowers or groups of related borrowers. In addition, the payment experience on loans secured by income-producing properties typically depends on the successful operation of the related real estate project and/or business operation of the borrower who is also the primary occupant, and thus may be subject to a greater extent to the effects of adverse conditions in the real estate market and in the economy in general. Commercial business loans typically involve a higher risk of default than residential loans of like duration since their repayment is generally dependent on the successful operation of the borrower's business and the sufficiency of collateral, if any. Land acquisition, development and construction lending exposes us to greater credit risk than permanent mortgage financing. The repayment of land acquisition, development and construction loans depends upon the sale of the property to third parties or the availability of permanent financing

upon completion of all improvements. These events may adversely affect the borrower and the value of the collateral property.

The following tables summarize the primary segments of the allowance for loan losses, segmented into the amount required for loans individually evaluated for impairment and the amount required for loans collectively evaluated for impairment as of September 30, 2017 and 2016. Activity in the allowance is presented for the years ended September 30, 2017 and 2016:

Loans acquired in the merger with Polonia were recorded at fair value with no carryover of the related Allowance for Loan Losses. Management measured loan fair values based on loan file reviews, appraised collateral values, expected cash flows, and historical loss factors of Polonia. The fair value of the loans acquired was \$160.8 million net of a \$4.6 million discount. The discount is accreted to interest income over the remaining contractual life of the loans. All loans that had a loan to value ratio of greater than 80% were determined to have sufficient collateral to recover the carrying amount. Thus, none of the loans acquired were considered to be purchased credit-impaired loans and any possible loss would be considered immaterial.

Management established a provision for loan losses of \$3.0 million, \$225,000 and \$735,000 during the years ended September 30, 2017, 2016 and 2015, respectively. The provision for loan losses was deemed necessary for fiscal 2017 due to the increase in the level of commercial real estate and construction loans outstanding and charge-offs incurred during fiscal 2017. The Company believes that the allowance for loan losses at September 30, 2017 is sufficient to cover all inherent and known losses associated with the loan portfolio at such date. At September 30, 2017, the Company's non-performing assets totaled \$15.6 million or 1.7% of total assets as compared to \$16.5 million or 2.8% of total assets at September 30, 2016. Non-performing assets at September 30, 2017 included five construction loans aggregating \$8.7 million, 33 one-to-four family residential loans aggregating \$3.7 million, one single-family residential investment property loan in the amount \$1.4 million and five commercial real estate loans aggregating \$1.6 million. Non-performing assets also included at September 30, 2017 one real estate owned property consisting of a single-family residential property with a carrying value of \$192,000. At September 30, 2017, the Company had nine loans aggregating \$6.0 million that were classified as troubled debt restructurings ("TDRs"). Three of such loans aggregating \$4.9 million were designated non-performing as of September 30, 2017 and on non-accrual status; one of such loans in the amount of \$1.4 million has continued to make payments in accordance with the restructured loan terms, but management continues to have concerns over the borrower's ability to make future payments and as a result

has determined to not return the loan to performing status. The remaining two TDRs classified non-accrual totaling \$3.5 million are a part of a troubled relationship totaling \$10.7 million (after taking into account the previously disclosed \$1.9 million write-down recognized during the quarter ending March 31, 2017 related to this borrowing relationship). The primary project of the borrower is the subject of litigation between the Bank and the borrower and as a result, the project currently is not proceeding. Subsequent to the commencement of the litigation, the borrower filed for bankruptcy under Chapter 11 of the federal bankruptcy code in June 2017. The Bank has moved the underlying litigation noted above with the borrower and the Bank from state court to the federal bankruptcy court in which the bankruptcy proceeding is being heard. The remaining six TDRs have performed in accordance with the terms of their revised agreements and have been placed on accruing status. As of September 30, 2017, the Company had reviewed \$19.7 million of loans for possible impairment of which \$12.7 million was classified substandard compared to \$19.4 million reviewed for possible impairment and \$14.6 million of which was classified substandard as of September 30, 2016.

Management will continue to monitor and modify the allowance for loan losses as conditions dictate. No assurances can be given that the level of allowance for loan losses will cover all of the inherent losses on the loans or that future adjustments to the allowance for loan losses will not be necessary if economic and other conditions differ substantially from the economic and other conditions used by management to determine the current level of the allowance for loan losses.

The following tables set forth a summary of the TDRs activity for the years ended September 30, 2016 and 2015. There were no TDRs approved in 2017. All of the TDRs involved changes in the interest rates on the loans; no debt was forgiven. At September 30, 2017, out of the 9 TDRs loans, six were performing and the remaining three were classified as non-performing.

There were no TDRs established for the year ended September 30, 2017.

As of and for the Year Ended September 30, 2016			
Restructured Current Period			
(amount in thousands)	Number of Loans	Pre- Modification	Post-Modification
		Outstanding	Outstanding
		Recorded	Recorded
		Investment	Investment
One-to-four family residential	1	\$ 482	\$ 482
	1	\$ 482	\$ 482

As of and for the Year Ended September 30, 2015			
Restructured Current Period			
(amount in thousands)	Number of Loans	Pre- Modification	Post-Modification
		Outstanding	Outstanding
		Recorded	Recorded
		Investment	Investment
Commerical real estate	1	\$ 750	\$ 750
Construction and land development	1	3,665	3,665
	2	\$ 4,415	\$ 4,415

At September 30, 2017, the Company had seventeen consumer mortgages with a carrying amount of \$1.9 million that are secured by residential real estate property for which foreclosure proceedings are in process according to local jurisdictions.

7. OFFICE PROPERTIES AND EQUIPMENT

Office properties and equipment are summarized by major classifications as follows:

	September 30,	
	2017	2016
	(Dollars in Thousands)	
Land	\$ 1,437	\$ 198
Buildings and improvements	7,449	2,492
Furniture and equipment	3,158	2,355
Total	12,044	5,045
Accumulated depreciation	(4,240)	(3,701)
Total office properties and equipment, net of accumulated depreciation	\$ 7,804	\$ 1,344

For the years ended September 30, 2017, 2016 and 2015, depreciation expense amounted to \$553,000, \$325,000 and \$304,000, respectively.

Lease expense was \$383,000, \$352,000 and \$242,000 for the years ended September 30, 2017, 2016 and 2015, respectively. The Company has executed certain lease commitments is obligated to pay; \$394,000 for fiscal year 2018, \$369,000 for fiscal year 2019, \$249,000 for fiscal year 2020, \$253,000 for fiscal year 2021, \$257,000 for fiscal year 2022 and \$1.3 million thereafter.

8. DEPOSITS

Deposits consist of the following major classifications:

	September 30,		2016	
	2017	Percent	Amount	Percent
	(Dollars in Thousands)			
Non-interest-bearing checking accounts	\$9,375	1.5 %	\$3,804	0.7 %
Interest-bearing checking accounts	54,267	8.5 %	34,984	9.3 %

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

Money market deposit accounts	76,272	12.0	%	55,552	14.3	%
Passbook, club and statement savings	101,743	16.0	%	70,924	18.2	%
Certificates maturing in six months or less	154,750	24.3	%	97,418	25.0	%
Certificates maturing in more than six months	239,575	37.7	%	126,519	32.5	%
Total	\$635,982	100.0	%	\$389,201	100.0	%

The amount of scheduled maturities of certificate accounts was as follows:

	September 30, 2017 (Dollars in Thousands)
One year or less	\$ 236,407
One through two years	65,576
Two through three years	48,723
Three through four years	12,372
Four through five years	31,247
Total	\$ 394,325

Certificates of deposit of \$250,000 or more at September 30, 2017 and 2016 totaled \$28.9 million and \$17.0 million, respectively.

Interest expense on deposits was comprised of the following:

	Year Ended September 30, 2017 2016 2015 (Dollars in Thousands)		
Checking and money market deposit accounts	\$ 192	\$ 165	\$ 323
Passbook, club and statement savings accounts	55	83	208
Certificate accounts	3,683	2,613	2,899
Total	\$ 3,930	\$ 2,861	\$ 3,430

9. ADVANCES FROM FEDERAL HOME LOAN BANK – SHORT TERM

The year ended September 30, outstanding balances and related information of short-term borrowings from the FHLB are summarized follows:

(Dollar amount in thousands)	2017	2016
Balance at year-end	20,000	20,000
Average balance outstanding	21,784	8,975

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

Maximum month-end balance	35,000		20,000	
Weight-average rate at year-end	1.31	%	1.17	%
Weight-average rate during the year	0.84	%	1.23	%

As of September 30, 2017 and September 30, 2016, the \$20.0 million consists of two \$10.0 million 30 day FHLB advance associated with an interest rate swap contract with a weighted average effective cost of 125 bps and 117 bps respectively.

Average balances outstanding during the year represent daily average balance and interest rates represent interest expense divided by the related average balance.

The Company maintains borrowing facilities with the FHLB and Federal Reserve Banks and the terms and interest rate are subject to change on the date of execution.

10. ADVANCES FROM FEDERAL HOME LOAN BANK – LONG TERM

Pursuant to collateral agreements with the FHLB of Pittsburgh, advances are secured by a blanket collateral of loans held by the Company and qualifying fixed-income securities and FHLB stock. The long-term advances outstanding as of September 30, 2017 are as follows:

Type	Maturity Date	Coupon	Call Date	2017 Amount	2016 Amount

2020	485	1.45	%
2021	996	1.49	%
	30,638	1.34	%

The Bank maintains a blanket collateral agreement using qualifying loans with the FHLB for future borrowing needs. At September 30, 2017, the Bank had the ability to obtain \$277.5 million of additional FHLB advances.

11.

INCOME TAXES

The Company files a consolidated federal income tax return. The Company uses the specific charge-off method for computing reserves for bad debts. Generally this method allows the Company to deduct an annual addition to the reserve for bad debt equal to its net charge-offs.

The provision for income taxes for the years ended September 30, consists of the following:

	Year Ended September 30,		
	2017	2016	2015
	(Dollars in Thousands)		
Current:			
Federal expense	\$ 801	\$ 1,275	\$ 461
Total current taxes	801	1,275	461
Deferred income tax (benefit) expense	140	(16)	(345)
Total income tax provision	\$ 941	\$ 1,259	\$ 116

Items that gave rise to significant portions of deferred income taxes are as follows:

	September 30,	
	2017	2016
	(Dollars in Thousands)	
Deferred tax assets:		
Allowance for loan losses	\$ 1,675	\$ 1,289
Non-accrual interest	349	163
Accrued vacation	12	13
Capital loss carryforward	476	378
Post-retirement benefit plans	98	96
Split dollar life insurance	15	18
Unrealized losses on available for sale securities	569	-
Unrealized losses on interest rate swaps	-	69
Deferred compensation	1,439	-
Goodwill	148	-
Purchase accounting adjustments	731	-
Other	254	-
Employee benefit plans	90	434
Total deferred tax assets	5,856	2,460

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

Valuation allowance	(378)	(378)
Total deferred tax assets, net of valuation allowance	5,478	2,082
Deferred tax liabilities:		
Property	332	423
Unrealized gains on available for sale securities	-	500
Unrealized gains on interest rate swaps	171	-
481(a)Adjustment	-	12
Deferred loan fees	884	578
Total deferred tax liabilities	1,387	1,513
Net deferred tax asset	\$ 4,091	\$ 569

The Company establishes a valuation allowance for deferred tax assets when management believes that the deferred tax assets are not likely to be realized either through a carry back to taxable income in prior years, future reversals of existing taxable temporary differences, and, to a lesser extent, future taxable income. The valuation allowance totaled \$378,000 at both September 30, 2017 and 2016. The gross deferred tax assets related to capital loss carryforwards increased in the aggregate by \$98 thousand during the year ended September 30, 2017, primarily due to the sale of AFS investment securities acquired from the Polonia Bancorp acquisition.

The income tax expense differs from that computed at the statutory federal corporate tax rate as follows:

	2017		2016		2015	
	Amount	Percentage of Pretax Income	Amount	Percentage of Pretax Income	Amount	Percentage of Pretax Income (Loss)
	(Dollars in Thousands)					
Tax at statutory rate	\$1,265	34.0 %	\$1,353	34.0 %	\$798	34.0 %
Adjustments resulting from:						
Valuation allowance	-	-	(156)	(3.9)	(677)	(28.8)
Tax exempt income	(109)	(2.9)	-	-	-	-
Nondeductible merger expenses	80	2.1	-	-	-	-
Income from bank owned life insurance	(230)	(6.2)	(113)	(2.8)	(117)	(5.0)
Employee benefit plans	(39)	(1.1)	151	3.8	126	5.4
Other	(26)	(0.6)	24	0.5	(14)	(0.6)
Income tax expense	\$941	25.3 %	\$1,259	31.6 %	\$116	5.0 %

There is currently no liability for uncertain tax positions and no known unrecognized tax benefits. The Company recognizes, when applicable, interest and penalties related to unrecognized tax benefits in the provision for income taxes in the Consolidated Statements of Operations as a component of income tax expense. During fiscal 2017, the Internal Revenue Service conducted an audit of the Company's tax returns for the year ended September 30, 2014, and no adverse findings were reported. The Company's federal and state income tax returns for taxable years through September 30, 2014 have been closed for purposes of examination by the Internal Revenue Service and the Pennsylvania Department of Revenue.

12.

REGULATORY CAPITAL REQUIREMENTS

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory – and possibly additional discretionary – actions by regulators that, if undertaken, could have a direct material effect on the Company's consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt

corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The Company's and the Bank's capital amounts and the Bank's classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the table below) of Tier 1 capital (as defined in the regulations) to average assets (as defined) and risk-weighted assets (as defined), and of total capital (as defined) to risk-weighted assets. Management believes, as of September 30, 2017 and 2016, that the Company and the Bank met all regulatory capital adequacy requirements to which they each are subject.

To be categorized as well capitalized, the Bank must maintain the minimum Tier 1 capital, Tier common equity, Tier 1 risk-based and total risk-based ratios as set forth in the table below.

The Company's and the Bank's actual capital amounts and ratios are also presented in the following table:

	Actual		Required for Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
(Dollars in Thousands)						
September 30, 2017:

Bank	103,859	35.49	23,415	8.0	29,268	10.0

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

The Bank is a member of a multi-employer (under the provisions of the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1986) defined benefit pension plan covering all employees meeting certain eligibility requirements. The Bank's policy is to fund pension costs accrued. The expense relating to this plan for the years ended September 30, 2017, 2016 and 2015 was \$379,000, \$256,000 and \$623,000, respectively. There are no collective bargaining agreements in place that require contributions to the plan. Additional information regarding the plan as of September 30, 2017 is noted below:

Legal Name of Plan	Pentegra Defined Benefit Plan for Financial Institutions	
Plan Employer Identification Number	13-5645888	
The Company's Contribution for the year ended September 30, 2017	\$	379,000
Are Company's Contributions more than 5% of total contributions?	No	
Funded Status	95.06	%

The Pentegra Defined Benefits Plan for Financial Institutions is a single plan under Internal Revenue Code Section 413 (c) and, as a result, all of the assets stand behind all of the liabilities. Accordingly, under the plan, contributions made by a participating employer may be used to provide benefits to participants of other participating employers. During November 2016, participation in the Plan was frozen in an effort to reduce expenses on a going forward basis.

The Bank also has a defined contribution plan for employees meeting certain eligibility requirements. The defined contribution plan may be terminated at any time at the discretion of the Bank. There was no expense relating to this plan for the years ended September 30, 2017, 2016 and 2015. .

As of December 31, 2016, the Boards of Directors of the Company and the Bank voted to terminate the Bank's employee stock ownership plan ("ESOP") effective December 31, 2016. The Company has received a determination letter from the Internal Revenue Service in connection with the termination of the ESOP and the final allocation is anticipated to be made to the individual participants during December 2017. The Bank maintained the ESOP for substantially for the benefit all its full-time employees. The ESOP purchased 427,057 shares of common stock for an aggregate cost of approximately \$4.5 million in fiscal 2005 in connection with the Bank's mutual holding company reorganization. The ESOP purchased in connection with the second-step conversion of the Bank an additional 255,564 shares during December 2013 and an additional 30,100 shares at the beginning of January 2014, of the Company's common stock for an aggregate cost of approximately \$3.1 million. The shares were purchased with the proceeds of two loans from the Company. Shares of the Company's common stock purchased by the ESOP are held in a suspense account until released for allocation to participants as the loans are repaid. Shares are allocated to each eligible participant based on the ratio of each such participant's compensation, as defined in the ESOP, to the total compensation of all eligible plan participants. As the unearned shares are released from the suspense account, the Company recognizes compensation expense equal to the fair value of the ESOP shares during the periods in which they become committed to be released. To the extent that the fair value of the ESOP shares upon release differs from the cost of such shares, the difference is charged or credited to equity as additional paid-in capital. In connection with the termination of the ESOP, the ESOP was required to repay the outstanding indebtedness the collateral held in the suspense account. As of September 30, 2017, the ESOP held 394,156 shares of which a total of 243,734 shares were allocated to participants, 303,115 shares were used to pay-off the remaining \$5.2 million balance the two loans used to fund the ESOP plan and released an additional 35,517 shares as of December 31, 2016. The expense relating to the ESOP for the years ended September 30, 2017, 2016 and 2015 was \$152,000, \$526,000 and \$467,000, respectively.

The Company maintains the 2008 Recognition and Retention Plan ("RRP") which is administered by a committee of the Board of Directors of the Company. The RRP provides for the grant of shares of common stock of the Company to officers, employees and directors of the Company. In order to fund the grant of shares under the RRP, the RRP Trust purchased 213,528 shares (on a converted basis) of the Company's common stock in the open market for approximately \$2.5 million, at an average purchase price per share of \$11.49 as part of the RRP. The Company made sufficient contributions to the RRP Trust to fund these purchases. Shares subject to awards under the RRP generally vest at the rate of 20% per year over five years. During February 2015, shareholders approved the 2014 Stock Incentive Plan (the "2014 SIP"). As part of the 2014 SIP, a maximum of 285,655 shares can be awarded as restricted stock awards or units, of which 235,500 shares were awarded during February. In August 2016, the Company granted 7,473 shares under the 2008 RRP and 3,207 shares under the 2014 SIP. In March 2017, the Company granted 17,128

shares under the 2014 SIP.

During the year ended September 30, 2017, approximately \$578,000 was recognized in compensation expense for the RRP. Tax benefits of \$286,000 were recognized during the year ended September 30, 2017. Tax benefits of \$219,000 were recognized during the year ended September 30, 2016. During the year ended September 30, 2016, approximately \$463,000 was recognized in compensation expense for the RRP. At September 30, 2017, approximately \$1.5 million of additional compensation expense for the shares awarded related to the RRP remained unrecognized.

A summary of the Company's non-vested stock award activity for the year ended September 30, 2017 and 2016 is presented in the following table:

	Year Ended September 30, 2017	
	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested stock awards at beginning of year	172,788	\$ 12.03
Issued	17,128	17.43
Forfeited	(1,467)	10.47
Vested	(45,855)	11.72
Nonvested stock awards at the end of the period	142,594	\$ 12.79

	Year Ended September 30, 2016	
	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested stock awards at beginning of year	241,428	\$ 11.74
Issued	10,500	14.42
Forfeited	(30,180)	11.92
Vested	(48,960)	11.60
Nonvested stock awards at the end of the period	172,788	\$ 12.03

	Year Ended September 30, 2015	
	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested stock awards at beginning of year	38,055	\$ 8.07
Issued	235,500	12.23
Forfeited	(21,813)	11.85
Vested	(10,314)	9.07
Nonvested stock awards at the end of the period	241,428	\$ 11.74

The Company maintains the Stock Option Plan (the "Option Plan") which authorizes the grant of stock options to officers, employees and directors of the Company to acquire shares of common stock with an exercise price at least equal to the fair market value of the common stock on the grant date. Options generally become vested and

exercisable at the rate of 20% per year over five years and are generally exercisable for a period of ten years after the grant date. A total of 533,808 shares of common stock were approved for future issuance pursuant to the Stock Option Plan. As of September 30, 2017, all of the options had been awarded under the Option Plan. As of September 30, 2017, 544,802 options were vested under the Option Plan. The 2014 SIP reserved up to 714,145 shares for issuance pursuant to options. Options to purchase 605,000 shares were awarded during February 2015. During August 2016, the Company granted 18,866 shares under the Option Plan and 8,634 shares under the 2015 SIP. In March 2017, the Company granted 22,828 shares under the 2014 SIP. In May 2017, the Company granted 25,000 shares under the 2014 SIP.

A summary of the status of the Company's stock options under the Stock Option Plan as of September 30, 2017 and 2016 and changes during the year ended September 30, 2017 and 2016 are presented below:

	Year Ended September 30, 2017	
	Number of Shares	Weighted Average Exercise Price
Options outstanding at beginning of year	921,909	\$ 11.70
Granted	47,828	17.92
Exercised	(43,890)	11.41
Forfeited	(3,283)	11.84
Outstanding at the end of the period	922,564	\$ 12.04
Exercisable at the end of the period	554,802	\$ 11.47

	Year Ended September 30, 2016	
	Number of Shares	Weighted Average Exercise Price
Options outstanding at beginning of year	1,074,430	\$ 11.92
Granted	27,500	14.42
Exercised	(99,545)	11.45
Forfeited	(80,476)	11.52
Outstanding at the end of the period	921,909	\$ 11.70
Exercisable at the end of the period	467,397	\$ 11.40

	Year Ended September 30, 2015	
	Number of Shares	Weighted Average Exercise Price
Options outstanding at beginning of year	530,084	\$ 11.57
Granted	608,737	12.23
Exercised	-	-
Forfeited	(64,391)	11.92
Outstanding at the end of the period	1,074,430	\$ 11.92
Exercisable at the end of the period	440,976	\$ 11.42

The weighted average remaining contractual term was approximately 4.2 years for options outstanding as of September 30, 2017.

The estimated fair value of options granted during fiscal 2009 was \$2.98 per share, \$2.92 for options granted during fiscal 2010, \$3.34 for options granted during fiscal 2013, \$4.67 for the options granted during fiscal 2014, \$4.58 for options granted during fiscal 2015, \$2.13 for options granted during fiscal 2016 and \$3.18 for options granted during fiscal 2017. The fair value for grants made in fiscal 2016 was estimated on the date of grant using the Black-Scholes pricing model with the following assumptions: an exercise and fair value of \$14.42, term of seven years, volatility rate of 13.82%, interest rate of 1.36% and a yield rate of 0.80%. The fair value for grants made in fiscal 2017 was estimated on the date of grant using the Black-Scholes pricing model with the following assumptions: an exercise and fair value of \$17.43, term of seven years, volatility rate of 14.37%, interest rate of 2.22% and a yield rate of 0.69%.

During the year ended September 30, 2017, \$531,000 was recognized in compensation expense for the Option Plan. A tax benefit of \$146,000 was recognized during the year ended September 30, 2017. During the year ended September 30, 2016, \$455,000 was recognized in compensation expense for the Option Plan. A tax benefit of \$155,000 was recognized during the year ended September 30, 2016. At September 30, 2017, approximately \$1.3 million of additional compensation expense for awarded options remained unrecognized. The weighted average period over which this expense will be recognized is approximately 3.0 years.

14. INTEREST RATE SWAP AGREEMENTS

The Company has contracted with a third party to engage pay-fixed interest rate swap contracts and the outstanding at September 30, 2017, is being utilized to hedge \$20.0 million in floating rate debt and a \$1.1 million commercial loan. Below is a summary of the interest rate swap agreements and the terms as of September 30, 2017.

	2017				
	Natinal Amount	Pay Rate	Receive Rate (Dollars in thousands)	Maturity Date	Unrealized Gain
Interest rate swap contract	\$ 10,000	1.15 %	1 Mth Libor	6-Apr-21	\$ 217
Interest rate swap contract	10,000	1.18 %	1 Mth Libor	13-Jun-21	223
Interest rate swap contract	1,100	4.10 %	1 Mth Libor +276 bp	1-Aug-26	62
					\$ 502
	2016				
	Natinal Amount	Pay Rate	Receive Rate (Dollars in thousands)	Maturity Date	Unrealized (Loss)
Interest rate swap contract	\$ 10,000	1.15 %	1 Mth Libor	6-Apr-21	\$ (92)
Interest rate swap contract	10,000	1.18 %	1 Mth Libor	13-Jun-21	(103)
Interest rate swap contract	1,100	4.10 %	1 Mth Libor +276 bp	1-Aug-26	(7)
					\$ (202)

15. COMMITMENTS AND CONTINGENT LIABILITIES

At September 30, 2017, the Company had \$45.9 million in outstanding commitments to originate fixed and variable-rate loans with market interest rates ranging from 4.75% to 5.50%. At September 30, 2016, the Company had \$9.9 million in outstanding commitments to originate fixed and variable-rate loans with market interest rates ranging from 3.75% to 5.25%. The aggregate undisbursed portion of loans-in-process amounted to \$73.9 million and \$5.4 million, respectively, at September 30, 2017 and 2016.

The Company also had commitments under unused lines of credit of \$7.4 million and \$3.3 million, respectively, and letters of credit outstanding of \$1.4 million and \$1.9 million, respectively, at September 30, 2017 and 2016.

The Company is subject to various pending claims and contingent liabilities arising in the normal course of business which are not reflected in the accompanying consolidated financial statements. Management considers that the aggregate liability, if any, resulting from such matters will not be material.

Among the Company's contingent liabilities are exposures to limited recourse arrangements with respect to the Company's sales of whole loans and participation interests. At September 30, 2017, the exposure, which represents a portion of credit risk associated with the sold interests, amounted to \$1.8 million. This exposure is for the life of the related loans and payables, on the Company's proportionate share, as actual losses are incurred.

The Company is involved in various legal proceedings occurring in the ordinary course of business. Management of the Company, based on discussions with litigation counsel, does not believe that such proceedings will have a material adverse effect on the financial condition or operations of the Company (See "Item#3 legal proceedings"). There can be no assurance that any of the outstanding legal proceedings to which the Company is party will not be decided adversely to the Company's interest and have a material adverse effect on the financial condition and operations of the Company.

16. FAIR VALUE MEASUREMENT

The fair value estimates presented herein are based on pertinent information available to management as of September 30, 2017 and 2016, respectively. Although management is not aware of any factors that would significantly affect the fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date and, therefore, current estimates of fair value may differ significantly from the amounts presented herein.

Generally accepted accounting principles used in the United States establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value.

The three broad levels of hierarchy are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Those assets as of September 30, 2017 which are to be measured at fair value on a recurring basis are as follows:

	Category Used for Fair Value Measurement			
	Level 1	Level 2	Level 3	Total
	(Dollars in Thousands)			
Assets:				
Securities available for sale:				
U.S. Government and agency obligations	\$ -	\$ 25,799	\$ -	\$ 25,799
Mortgage-backed securities - U.S. Government agencies	-	118,127	-	118,127
Corporate bonds	-	34,400	-	34,400
FHLMC preferred stock	76	-	-	76
Interest rate swap contracts	-	502	-	502
Total	\$ 76	\$ 178,828	\$ -	\$ 178,904

Those assets as of September 30, 2016 which are measured at fair value on a recurring basis are as follows:

	Category Used for Fair Value Measurement			
	Level 1	Level 2	Level 3	Total
	(Dollars in Thousands)			
Assets:				
Securities available for sale:				
U.S. Government and agency obligations	\$ -	\$ 21,024	\$ -	\$ 21,024
Mortgage-backed securities - U.S. Government agencies	-	91,575	-	91,575
Corporate bonds	-	26,053	-	26,053
FHLMC preferred stock	42	-	-	42
Total	\$ 42	\$ 138,652	\$ -	\$ 138,694
Liabilities:				
Interest rate swap contracts:				
	\$ -	\$ 202	\$ -	\$ 202
	\$ -	\$ 202	\$ -	\$ 202

Certain assets are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). The Company measures impaired loans and real estate owned at fair value on a non-recurring basis.

Impaired Loans

Collateral dependent impaired loans are based on the fair value of the collateral which is based on appraisals and would be categorized as Level 2 measurement. In some cases, adjustments are made to the appraised values for various factors including the age of the appraisal, age of the comparable included in the appraisal, and known changes in the market and in the collateral. These adjustments are based upon unobservable inputs, and therefore, the fair value measurement has been categorized as a Level 3 measurement. These loans are reviewed for impairment and written down to their net realizable value by charges against the allowance for loan losses. The collateral underlying these loans had a fair value of \$19.7 million and \$19.4 million at September 30, 2017 and 2016, respectively.

Real Estate Owned

Once an asset is determined to be uncollectible, the underlying collateral is generally repossessed and reclassified to foreclosed real estate and repossessed assets. These repossessed assets are carried at the lower of cost or fair value of the collateral, based on independent appraisals, less cost to sell and would be categorized as Level 2 measurement. In some cases, adjustments are made to the appraised values for various factors including age of the appraisal, age of the comparables included in the appraisal, and known changes in the market and in the collateral. Thus the evaluations are based upon unobservable inputs, and therefore, the fair value measurement has been categorized as a Level 3 measurement.

Summary of Non-Recurring Fair Value Measurements

	At September 30, 2017 (Dollars in Thousands)			
	Level 1	Level 2	Level 3	Total
Impaired loans	\$-	\$ -	\$ 19,665	\$ 19,665
Real estate owned	-	-	192	192
Total	\$-	\$ -	\$ 19,857	\$ 19,857

	At September 30, 2016 (Dollars in Thousands)			
	Level 1	Level 2	Level 3	Total
Impaired loans	\$-	\$ -	\$ 19,429	\$ 19,429
Real estate owned	-	-	581	581
Total	\$-	\$ -	\$ 20,010	\$ 20,010

The following tables provide information describing the valuation processes used to determine nonrecurring fair value measurements categorized within level 3 of the fair value hierarchy:

	At September 30, 2017 (Dollars in Thousands)			
	Fair Value	Valuation Technique	Unobservable Input	Range/ Weighted Ave.
Impaired Loans	\$ 19,665			6% to 57%

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

	Property appraisals (1) (3)	Management discount for selling costs, property type and market volatility (2)	discount/ 7%
Real estate owned \$192	Property appraisals (1) (3)	Management discount for selling costs, property type and market volatility (2)	10% discount

At September 30, 2016 (Dollars in Thousands)				
	Fair Value	Valuation Technique	Unobservable Input	Range/ Weighted Ave.
Impaired loans	\$ 19,429	Property appraisals (1) (3)	Management discount for selling costs, property type and market volatility (2)	6% to 46% discount 10%
Real estate owned	\$ 581	Property appraisals (1) (3)	Management discount for selling costs, property type and market volatility (2)	10% discount

(1) Fair value is generally determined through independent appraisals of the underlying collateral, which generally includes various Level 3 inputs, which are not identifiable.

Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated (2) liquidation expenses. The range and weighted average of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal.

(3) Includes qualitative adjustments by management and estimated liquidation expenses.

The fair value amounts have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is necessarily required to interpret market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Cash and Cash Equivalents—For cash and cash equivalents, the carrying amount is a reasonable estimate of fair value.

Certificates of deposit—For certificates of deposit, the carrying amount is a reasonable estimate of fair value.

Investments and Mortgage-Backed Securities— The fair value of investment securities and mortgage-backed securities is based on quoted market prices, dealer quotes, and prices obtained from independent pricing services.

Loans Receivable—The fair value of loans is estimated based on present value using the current market rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. The carrying value that fair value is compared to is net of the allowance for loan losses and other associated premiums and

discounts. Due to the significant judgment involved in evaluating credit quality, loans are classified within level 3 of the fair value hierarchy.

Accrued Interest Receivable – For accrued interest receivable, the carrying amount is a reasonable estimate of fair value.

Federal Home Loan Bank (FHLB) Stock—Although FHLB stock is an equity interest in an FHLB, it is carried at cost because it does not have a readily determinable fair value as its ownership is restricted and it lacks a market. The estimated fair value approximates the carrying amount.

Bank Owned Life Insurance—The fair value of bank owned life insurance is based on the cash surrender value obtained from an independent advisor that are be derivable from observable market inputs.

Checking Accounts, Money Market Deposit Accounts, Passbook Accounts, Club Accounts, Statement Savings Accounts, and Certificates of Deposit—The fair value of passbook accounts, club accounts, statement savings accounts, checking accounts, and money market deposit accounts is the amount reported in the financial statements. The fair value of certificates of deposit is based on market rates currently offered for deposits of similar remaining maturity.

Advances from Federal Home Loan Bank (short-term)—The fair value of advances from FHLB is the amount payable on demand at the reporting date.

Advances from Federal Home Loan Bank (long-term)—The fair value of advances from FHLB is the amount payable on demand at the reporting date.

Accrued Interest Payable – For accrued interest payable, the carrying amount is a reasonable estimate of fair value.

Advances from borrowers for taxes and insurance – For advances from borrowers for taxes and insurance, the carrying amount is a reasonable estimate of fair value.

Interest rate swap contracts – For interest rate swap contracts, the fair values of derivative contracts are based upon the estimated amount the Company would receive or pay to terminate the contracts or agreements, taking into account underlying interest rates, creditworthiness of underlying customers for credit derivatives and, when appropriate, the creditworthiness of the counterparties.

Commitments to Extend Credit and Letters of Credit—The majority of the Bank's commitments to extend credit and letters of credit carry current market interest rates if converted to loans. Because commitments to extend credit and letters of credit are generally unassignable by either the Bank or the borrower, they only have value to the Bank and the borrower. The estimated fair value approximates the recorded deferred fee amounts, which are not significant.

17. GOODWILL AND OTHER INTANGIBLE ASSETS

The Company's goodwill and intangible assets are related to the acquisition of Polonia Bancorp on January 1, 2017.

Edgar Filing: PRUDENTIAL BANCORP, INC. - Form 10-K

	Balance October 1, 2016	Additions/ Adjustments	Amortization	Balance September 30, 2017	Amortization Period
Goodwill	\$ -	\$ 6,102	\$ -	\$ 6,102

	\$ -	\$ 6,924	\$ (112)	\$ 6,812	

As of September 30, 2017, the future fiscal periods amortization expense for the core deposit intangible is:

(In thousands)

2018	\$ 138
2019	123
2020	108
2021	93
2022	77
Thereafter	169

18. BUSINESS COMBINATIONS

On January 1, 2017, the previously announced proposed acquisition (the “Merger”) of Polonia Bancorp pursuant to the Agreement of Plan of Merger by and between Polonia Bancorp and the Company, dated as of June 2, 2016 (the “Merger Agreement”) was completed. The shareholders of Polonia Bancorp had the option to receive \$11.09 per share in cash or 0.7460 of a share of the Company common stock for each share of Polonia Bancorp common stock held thereby, subject to allocation provisions to assure that, in the aggregate, Polonia Bancorp shareholders received total merger consideration that consisted of 50% stock and 50% cash. As a result of Polonia Bancorp shareholder stock and cash elections and the related proration provisions of the Merger Agreement, the Company issued 1,274,197 shares of its common stock and approximately \$18.9 million was paid in cash for the Merger.

In connection with the Merger, the consideration paid and the estimated fair value of identifiable assets and liabilities assumed as of the date of the Merger are summarized in the following table:

(dollars in thousands)

Consideration paid:

Common stock issued (1,274,197 shares) at a fair value per share of \$17.12 per share.	\$21,814
Cash for common stock exchanged	18,944
Cash in lieu of fractional shares	1
	40,759

Assets acquired:

Cash and due from banks	22,911
Investments available for sale	67,154
Loans	160,785
Premises and equipment	6,702
Deferred taxes	3,492
Bank-owned life insurance	4,316
Core deposit intangible	822
Regulatory Stock	3,399
Other assets	2,273
Total assets	271,854

Liabilities assumed:

Deposits	172,243
FHLB advances, short-term	7,000
FHLB advances, long -term	50,232
Other liabilities	7,722
Total liabilities	237,197
Net assets acquired	34,657
Goodwill resulting from the acquisition	\$6,102

The following table summarizes the fair value of the assets acquired and the liabilities assumed as of the date of acquisition of Polonia Bancorp. The core deposit intangible will be amortized over 10 years using an accelerated method. Goodwill will not be amortized, but instead will be evaluated for impairment.

(Dollars in thousands, except per share data)

Due to rounding, the sum of the earnings per share in individual quarters may differ from reported amounts.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

Not Applicable.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Management evaluated, with the participation of the Chief Executive Officer and Chief Financial Officer, the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of September 30, 2017. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and regulations and are operating in an effective manner.

Management's Report of Internal Control over Financial Reporting. Management is responsible for designing, implementing, documenting, and maintaining an adequate system of internal control over financial reporting, as such term is defined in the Securities Exchange Act of 1934. An adequate system of internal control over financial reporting encompasses the processes and procedures that have been established by management to:

- maintain records that accurately reflect the Company's transactions;
- prepare financial statement and footnote disclosures in accordance with U.S. GAAP that can be relied upon by external users; and
- prevent and detect unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Management conducted an evaluation of the effectiveness of the Company's internal control over financial reporting based on the criteria in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this evaluation under the criteria in Internal Control-Integrated Framework, management concluded that internal control over financial reporting was effective as of September 30, 2017. Furthermore, during the conduct of its assessment, management identified no material weakness in its financial reporting control system.

The Board of Directors of Prudential Bancorp, through its Audit Committee, provides oversight to managements' conduct of the financial reporting process. The Audit Committee, which is composed entirely of independent directors, is also responsible for the appointment of the independent registered public accounting firm. The Audit

Committee also meets with management, the internal audit staff, and the independent registered public accounting firm throughout the year to provide assurance as to the adequacy of the financial reporting process and to monitor the overall scope of the work performed by the internal audit staff and the independent public accountants.

Because of its inherent limitations, the disclosure controls and procedures may not prevent or detect misstatements. A control system, no matter how well conceived and operated, can only provide reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

SR Snodgrass, P.C., a registered public accounting firm, has audited the effectiveness of the Company's internal controls over financial reporting as stated in their report which is included in Item 8 hereof.

/s/Dennis Pollack	/s/Jack E. Rothkopf
Dennis Pollack	Jack E. Rothkopf
President and Chief Executive Officer	Senior Vice President, Chief Financial Officer and Treasurer

Changes in Internal Controls over Financial Reporting. No change in the internal control over financial reporting (as defined in Rules 13a-15(f) and 15(d)-15(f) under the Securities Exchange Act of 1934) occurred during the fourth quarter of fiscal 2017 that has materially affected, or is reasonably likely to materially affect, the internal control over financial reporting.

Item 9B. Other Information

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required herein is incorporated by reference from the sections captioned "Information with Respect to Nominees for Director, Continuing Directors and Executive Officers" and "Beneficial Ownership of Common Stock by Certain Beneficial Owners and Management – Section 16(a) Beneficial Ownership Reporting Compliance" in the Company's Definitive Proxy Statement for the Annual Meeting of Shareholders to be held on February 21, 2018, is expected to be which filed with the Securities and Exchange Commission on or about January 15, 2018 ("Definitive Proxy Statement").

The Company has adopted a code of ethics policy, which applies to its principal executive officer, principal financial officer, principal accounting officer, as well as its directors and employees generally. The Company will provide a copy of its code of ethics to any person, free of charge, upon request. Any requests for a copy should be made to the shareholder relations administrator, Prudential Bancorp, Inc., 1834 West Oregon Avenue, Philadelphia, Pennsylvania 19145. In addition, a copy of the Code of Ethics is available at the Company's website at www.prudentialbanker.com under the Investor Relations menu.

Item 11. Executive Compensation

The information required herein is incorporated by reference from the sections captioned "Management Compensation" and "Compensation Committee Interlocks and Insider Participation" in the Company's Definitive Proxy Statement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Security Ownership of Certain Beneficial Owners and Management. Information regarding security ownership of certain beneficial owners and management is incorporated by reference to "Beneficial Ownership of Common Stock by Certain Beneficial Owners and Management" in the Definitive Proxy Statement.

Equity Compensation Plan Information. The following table provides information as of September 30, 2017 with respect to shares of common stock that may be issued under the existing equity compensation plans, which consist of the 2008 Stock Option Plan, the 2008 Recognition and Retention Plan and the 2014 Stock Incentive Plan, all of which were approved by the Company's shareholders. The share amounts set forth below with respect to the 2008 Stock

Option Plan and the 2008 Recognition and Retention Plan have been adjusted for the exchange of shares in connection with the second-step conversion completed on October 9, 2013, at an exchange ratio of 0.9442 of a share of Company common stock for each share of Old Prudential Bancorp held by other than the MHC.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	1,065,158	(1) \$ 12.14	(1) 336,229
Equity compensation plans not approved by security holders	—	—	—
Total	1,065,158	\$ 12.14	336,229

(1) Includes 142,594 shares subject to restricted stock grants which were not vested as of September 30, 2017. The weighted average exercise price excludes such restricted stock grants.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required herein is incorporated by reference from the sections captioned "Management Compensation – Related Party Transactions" and "Information with Respect to Nominees for Director, Continuing Directors and Executive Officers" in the Definitive Proxy Statement.

Item 14. Principal Accounting Fees and Services

The information required herein is incorporated by reference from the section captioned "Ratification of Appointment of Independent Registered Public Accounting Firm (Proposal Two) – Audit Fees" in the Definitive Proxy Statement.

PART IV

Item 15. Exhibits, Financial Statement Schedules

(a) Documents Filed as Part of this Report.
