ITEM 4.02 - NON-RELIANCE ON PREVIOUSLY ISSUED FINANCIAL STATEMENTS OR A RELATED
AUDIT REPORT OF COMPLETED

Interim Review

On November 17, 2006, in conjunction with the interim review of our consolidated financial statements as of and for the quarter ended September 30, 2006 and the associated analysis of various equity transactions entered into during the 3rd quarter of Calendar 2006, management discovered that certain 1st and 2nd quarter events were not properly recorded and were not brought to the attention of the Company's auditors for specific review and comment.

The errors discovered by management in the accounting for and recording various capital transactions are as follows: 1) the erroneous classification of proceeds from the sale of 50,000 shares of Series E 8% Convertible Preferred Stock, 2) the recognition and classification of placement fees related to the sale of 50,000 shares of Series E 8% Convertible Preferred Stock, 3) the payment of public relations fees directly to the vendor by the holder of the Company's Convertible Debentures which increased the working capital advances/prepaid warrant exercise and 4) the accrual of dividends payable on the Series E 8% Convertible Preferred Stock.

	=====	=====

We have discussed the above matter with our current and previous independent registered accountants pursuant to Item 4.02(a) and they concur with our corrections and corrective action.

Management has undertaken the process of filing amended Quarterly Reports on Form 10-QSB/A for the quarters ended March 31, 2006 and June 30, 2006 to reflect the noted corrections presented above.

The restatements to the financial statements disclosed above were, in part, caused by a failure in the Company's internal control over financing reporting due to the limitations in the Company's accounting resources to identify and react in a timely manner to non-routine, complex and/or transactions originated by other parties on the Company's behalf, as well as gaining an adequate understanding of the disclosure requirements relating to these types of transactions. The accounting error disclosed above was, in part, caused by this material weakness in internal control over financial reporting. In order to remediate the material weaknesses, the management is in the process of designing and

implementing and communicating its controls to aid in the correct preparation, review, presentation and disclosures of the Company's financial statements.
