Hanson PLC Annual General Meeting

Speaking at the Annual General Meeting of Hanson PLC later today, Alan Murray, Chief Executive, will review the company's performance during 2006 and make the following comments regarding the group's outlook:

"Whilst it is still early in the construction season, overall our trading

Edgar Filing: HANSON PLC - Form 6-K

outlook for 2007 is substantially the same as two months ago.

In the USA, selling prices have remained robust. However, the residential market has been difficult and, together with a prolonged winter season, will result in a challenging first half compared to an unusually strong first half of 2006. In addition, the weak US dollar will affect the translated results for the period.

Elsewhere, our operations in the UK, Australia, Asia and Continental Europe have started the year well.

We continue to invest in our business and expect our level of capital investment to increase by around £100m against 2006 to between £350m and £400m in 2007. Many of these projects will take more than one year to complete and hence most of the benefit will be delivered in 2008 and beyond.

Acquisitions remain an important part of our growth strategy. To date in 2007, we have invested approximately £120m in seven acquisitions, principally in our US building products division. The pipeline of potential deals remains encouraging, particularly in North America."

Slides, speeches and proxy votes will be available on Hanson's website www.hanson.biz from 3pm (BST).
