JOINT PROXY STATEMENT/PROSPECTUS

MERGER PROPOSED YOUR VOTE IS VERY IMPORTANT

The boards of directors of Nanometrics Incorporated and Accent Optical Technologies, Inc. have unanimously approved the merger of Alloy Merger Corporation, a wholly owned subsidiary of Nanometrics, with and into Accent Optical pursuant to the terms and conditions of an agreement and plan of merger and reorganization, dated as of January 25, 2006, by and among Nanometrics, Alloy Merger Corporation, Accent Optical and Sanford S. Wadler, as Stockholder Agent. The maximum number of shares that Nanometrics would issue in connection with the merger and reserve for issuance upon the exercise of assumed options is approximately 5,215,062 shares of common stock, assuming that the average closing price of Nanometrics common stock for the 10 trading days ending the two consecutive trading days prior to the consummation of the merger is \$15.63, which would result in the Accent Optical stockholders holding approximately 27% of the fully diluted shares of Nanometrics common stock immediately after the merger, and Nanometrics shareholders holding approximately 73% of the fully diluted shares of Nanometrics common stock immediately after the merger. The actual number of Nanometrics shares to be issued in the merger depends on several factors. See the sections of the attached joint proxy statement/prospectus captioned *Summary Overview of Merger Agreement and Related Agreements* *Merger Consideration* beginning on page 12 and *The Merger Agreement Treatment of Securities* beginning on page 83 for a description of how the final number of shares will be determined. Nanometrics common stock trades on the Nasdaq National Market under the symbol NANO.

Nanometrics and Accent Optical cannot complete the merger unless Nanometrics shareholders approve the issuance of shares of Nanometrics common stock in the merger and Accent Optical stockholders approve and adopt the merger agreement and the merger and approve certain other matters described in the joint proxy statement/prospectus including the escrow agreement and the appointment of a stockholder agent. These matters, among others, are included in the proposals to be voted on at the special meetings of the Nanometrics shareholders and Accent Optical stockholders, to be held on [], 2006, as more fully described in this joint proxy statement/prospectus, which also includes more information about Nanometrics, Accent Optical and the merger. **You are encouraged to carefully read this joint proxy statement/prospectus in its entirety, including the section entitled *Risk Factors* beginning on page 28 before voting on the matters set forth in the attached joint proxy statement/prospectus.**

The Nanometrics board of directors unanimously recommends that Nanometrics shareholders vote FOR Nanometrics proposal to approve the issuance of shares of Nanometrics common stock in the merger.

The Accent Optical board of directors unanimously recommends that the Accent Optical stockholders vote FOR Accent Optical's proposal to approve and adopt the merger agreement and approve the merger, as well as the other matters set forth in the joint proxy statement/prospectus for their consideration.

Your vote is very important. Whether or not you plan to attend your company's meeting, please take the time to vote by completing and mailing to us the enclosed proxy card or, if the option is available to you, by granting your proxy electronically over the internet or by telephone. If your shares are held in street name, you must instruct the record holder of your shares in order to vote.

QUESTIONS AND ANSWERS ABOUT THE MERGER

The following are some questions that shareholders of Nanometrics Incorporated and stockholders of Accent Optical Technologies, Inc. may have regarding the matters being considered at the special meeting of the Nanometrics shareholders and the special meeting of the Accent Optical stockholders, as well as brief answers to those questions. Nanometrics and Accent Optical urge you to read the remainder of this joint proxy statement/prospectus carefully and in its entirety because the information below does not provide all of the information that might be important to you.

Q: What is the proposed transaction?

A: The respective boards of directors of Nanometrics and Accent Optical have unanimously approved the merger of a wholly owned subsidiary of Nanometrics, Alloy Merger Corporation, with and into Accent Optical in accordance with the terms and conditions of an agreement and plan of merger and reorganization, dated as of January 25, 2006, between Nanometrics, Accent Optical, Alloy Merger Corporation and Sanford S. Wadler as Stockholder Agent. Pursuant to the terms of the merger agreement, Accent Optical will become a wholly owned subsidiary of Nanometrics. If Nanometrics and Accent Optical complete the merger, Nanometrics will issue (or, in the case of assumed options, reserve for issuance), subject to the escrow provisions described below, 4,900,000 shares of its common stock to the holders of Accent Optical capital stock and the holders of certain Accent Optical stock options that have exercise prices less than the price implied by the common stock exchange ratio (the in-the-money options) in the merger. Nanometrics will also issue (or, in the case of assumed options, reserve for issuance) an additional number of shares of its common stock equal to the quotient of the aggregate exercise price of all Accent Optical stock options that are assumed pursuant to the merger agreement (other than stock options issued on or after January 23, 2006), divided by the average closing price of Nanometrics common stock for the ten trading days ending two days prior to the closing date of the merger, which we refer to in this joint proxy statement/prospectus as the Average Closing Price. Nanometrics will also assume all Accent Optical stock options granted on or after January 23, 2006, regardless of whether those options are in-the-money. The maximum number of shares of common stock that Nanometrics would issue in connection with the merger and reserve for issuance upon the exercise of assumed options is approximately 5,215,062 shares of its common stock, assuming that the Average Closing Price is equal to \$15.63, which would result in the Accent Optical stockholders holding approximately 27% of the outstanding shares of Nanometrics common stock immediately after the merger, and Nanometrics shareholders holding approximately 73% of the outstanding shares of Nanometrics common stock immediately after the merger. If the Average Closing Price is more than or less than \$15.63, then Nanometrics will, in either case, issue or reserve for issuance fewer of its shares as merger consideration. The Average Closing Price of the 10 trading days ended on March 29, 2006 was \$13.23.

Q: Why am I receiving this joint proxy statement/prospectus?

A: Nanometrics and Accent Optical cannot complete the merger unless the shareholders of Nanometrics approve the issuance of shares of Nanometrics common stock in the merger and the stockholders of Accent Optical adopt and approve the merger agreement and approve the merger, as well as the escrow agreement and the appointment of the stockholder agent as set forth in the Accent Optical Notice of Special Meeting. In addition, Accent Optical is seeking stockholder approval for certain payments to its executive officers in connection with the merger. The Nanometrics board of directors is soliciting the proxy of its shareholders to vote FOR Nanometrics proposal to approve the issuance of shares of Nanometrics common stock in the merger. The Accent Optical board of directors is soliciting the proxy of its stockholders to vote FOR Accent Optical's proposal to adopt and approve the merger agreement and approve the merger, as well as the other matters set forth in the Accent Optical Notice of Special Meeting. This joint proxy statement/prospectus describes Nanometrics, Accent Optical and the merger so that you may make an informed decision with respect to the matters under consideration.

Table of Contents

The board of directors of Accent Optical has also unanimously approved payments to certain executive officers, Bruce C. Rhine, its Chief Executive Officer, Bruce Crawford, its President and Chief Operating Officer and Reid Langrill, its Chief Financial Officer in connection with the merger. Because these payments could be deemed parachute payments under Section 280G of the Internal Revenue Code of 1986, as amended, (the Internal Revenue Code), which would result in adverse tax consequences to Accent Optical and the executives, Messrs. Rhine, Crawford and Langrill have agreed to waive their respective rights to these payments unless Accent Optical obtains the requisite stockholder approval to avoid the adverse tax consequences. Holders of more than 75% of Accent Optical Common Stock and Accent Optical Convertible Preferred Stock, voting together as a single class on an as-converted basis, not including shares owned or constructively owned by executive officers receiving payments in connection with the merger, must approve such payments in order to avoid the adverse tax consequences. Accordingly, Accent Optical is soliciting the proxy of its stockholders to vote FOR the proposal to approve the payments to these executive officers.

Q: Why are Nanometrics and Accent Optical proposing to merge?

A: Nanometrics and Accent Optical believe that by combining their product lines and technologies, they can generate improved long-term operating and financial results, improving their competitive position in the industry. The boards of directors of Nanometrics and Accent Optical also believe that the merger of Nanometrics and Accent Optical will create one of the largest independent metrology companies in the semiconductor industry and allow the combined company to expand its market position in each of its primary stand-alone metrology segments after the merger. The merger is expected to create a strong platform for the combined company to deliver metrology systems to both new and existing customers. The Nanometrics and Accent Optical boards of directors believe that the merger will create an opportunity for the holders of both companies' capital stock to participate in the growth of the combined company after the merger.

Q: What are the risks of the merger?

A: The merger involves numerous risks and uncertainties, including, but not limited to, the following:

the expense, time and disruption of Nanometrics' business related to integrating the operations of Nanometrics and Accent Optical;

the anticipated benefits and synergies of the merger may not be realized;

the trading price of Nanometrics common stock may decline if the cost benefits of the merger are not realized; and

customers, distributors, resellers or others may delay or defer decisions concerning Nanometrics and/or Accent Optical during the pendency, or as a result, of the merger.

You are encouraged to read this joint proxy statement/prospectus carefully, including the section entitled Risk Factors beginning on page 28, for a discussion of risks associated with the merger, the combined company and the businesses of each of Nanometrics and Accent Optical.

Q: What will Nanometrics shareholders receive in the merger and how much of the combined company will those shareholders hold?

A: If Nanometrics and Accent Optical complete the merger, Nanometrics shareholders will continue to hold the Nanometrics shares that they currently hold and will not receive any payment or other consideration in the merger. The Nanometrics shareholders immediately prior to the merger are expected to hold approximately 73% of the outstanding common stock of the combined company immediately after the merger, based upon the Average Closing Price for the 10 trading days ended on March 29, 2006.

Q: What will Accent Optical stockholders receive in the merger?

A: Accent Optical has three classes of capital stock outstanding. Each class of Accent Optical capital stock will receive a portion of the total merger consideration, which will consist solely of a specified number of shares

of Nanometrics common stock and cash in lieu of fractional shares, if any. Each class of Accent Optical capital stock will be converted into Nanometrics common stock at a different exchange ratio in the merger. The following table shows the calculation of the per share exchange ratios for each class of Accent Optical capital stock, subject to the escrow:

Class	Per Share Exchange Ratio	Estimate if	Estimated
		Average	Value Per
		Closing Price	Share
		is \$13.23	
Series A Preferred	\$1,000.00 / Average Closing Price	75.5858	\$ 1,000.00
Convertible Preferred Stock	\$1.13 / Average Closing Price	0.0854	\$ 1.13
Common Stock	(4,900,000 shares (as adjusted for additional shares issued for in-the-money options), minus shares issued to Accent Optical Series A Preferred Stock, minus shares issued to Accent Optical Convertible Preferred Stock), divided by (total outstanding Accent Optical Common Stock, plus in-the-money options (other than options issued on or after January 23, 2006))	0.0243	\$ 0.3210

Because the final exchange ratios are based on the Average Closing Price for the ten days ending two days prior to closing, they cannot be determined until immediately prior to the closing date of the merger.

Issuance of the merger consideration will be made to holders of Accent Optical Series A Preferred Stock and Convertible Preferred Stock (collectively, the Accent Optical Preferred Stock) on a *pari passu* basis. If the value of the shares of Nanometrics common stock issuable in the merger is insufficient to provide \$1,000 of Nanometrics common stock for each share of Accent Optical Series A Preferred Stock and \$1.13 of Nanometrics common stock for each share of Accent Optical Convertible Preferred Stock, then the available merger consideration will be prorated, and holders of Accent Optical Common Stock and options will receive no consideration in the merger.

Q: Can you provide more examples of the dollar value of Nanometrics stock that will be received by Accent Optical stockholders based on differences in the Average Closing Price?

A: The following table shows the approximate dollar value that will be received for one share of Accent Optical Common Stock, one share of Series A Preferred Stock and one share of Convertible Preferred Stock based on varying Average Closing Prices. The following table overstates the actual value that will be received by Accent Optical stockholders because a portion of the shares will be deposited in escrow, and there will be an immediate claim on the escrow relating to transaction expenses.

Q: Will Accent Optical's stockholders receive the full amount of their preferences and accrued dividends as set forth on Accent Optical's certificate of incorporation?

A: No. The holders of Series A Preferred Stock will receive Nanometrics common stock valued at \$1,000 for each share of Series A Preferred Stock, which is the amount that such stockholders originally paid for their Series A Preferred Stock. The holders of Series A Preferred Stock will forego the 13.5% cumulative dividend that Accent Optical has been accruing since 2000 (which dividends totaled approximately \$1,027 per share as of December 31, 2005).

The holders of Convertible Preferred Stock will receive Nanometrics common stock valued at \$1.13 for each share of Convertible Preferred Stock, which is approximately 55% of the \$2.05 liquidation preference on such shares. In addition, the holders of Convertible Preferred Stock will forego the 8% cumulative dividend that Accent Optical has been accruing since such shares were issued (which dividends totaled approximately \$0.83 per share as of December 31, 2005).

Similarly, Bio-Rad Laboratories, Inc. (Bio-Rad), in addition to its rights as a holder of Accent Optical Common Stock, had a contractual right to receive a \$13 million change of control payment from Accent Optical as a result of the change of control contemplated by the merger agreement. The provision governing this change of control payment is contained in the agreement between Bio-Rad and Accent Optical pursuant to which Accent Optical purchased the assets of the former Semiconductor Measurements Division of Bio-Rad (the Bio-Rad SMD). Bio-Rad has agreed that, if the merger is consummated, it will forego all but \$2.5 million of the change of control payment to which it otherwise would have been entitled.

The allocation of the consideration was structured so that the merger would provide benefit to all Accent Optical stockholders, and to provide incentive for the holders of Accent Optical Common Stock to approve the merger. If the merger and merger agreement are approved by the necessary vote of the Accent Optical stockholders, the allocation of the merger consideration set forth in the merger agreement will supersede the rights of stockholders to the preferences and accrued dividends described in Accent Optical's certificate of incorporation.

Q: What is the escrow and how does it work?

A: Upon completion of the merger, Nanometrics will withhold approximately 490,000 shares of Nanometrics common stock from the shares to be distributed to the Accent Optical stockholders at closing of the merger and deposit those shares into an escrow account. These escrowed shares will be available to compensate Nanometrics if it is entitled to indemnification under the merger agreement. Any portion of this escrowed amount that, within 12 months following the completion of the merger, has not been withdrawn or earmarked to satisfy a claim for loss by Nanometrics, will be distributed to the Accent Optical stockholders.

Q: What will holders of options to purchase Accent Optical Common Stock receive in the merger?

A: At the closing of the merger, Nanometrics will assume each outstanding option to acquire shares of Accent Optical Common Stock that is in-the-money or that was granted on or after January 23, 2006, regardless of whether such option is in-the-money. An option will be in-the-money if the per share exercise price for the option is less than the value of Nanometrics common stock that the holder of one share of Accent Optical Common Stock would be entitled to receive in the merger.

Each assumed option will be converted into an option to purchase the number of Nanometrics shares that would have been issuable in exchange for the number of Accent Optical shares subject to the assumed option,

Table of Contents

had such shares been outstanding at the closing of the merger. The exercise price of such assumed options will be adjusted such that the aggregate exercise price for the option remains constant.

In addition, if the employment or service relationship of the holder of any assumed options or Accent Optical Common Stock that is subject to vesting is terminated within six months following the completion of the merger, other than by Accent Optical or its successor for cause or by the holder without good reason, the vesting of the options or shares held by such holder will accelerate in full. Each assumed option will be subject to all other terms and conditions set forth in the applicable documents evidencing the option immediately prior to the closing of the merger.

As of March 29, 2006, options to purchase approximately 13,518,880 shares of Accent Optical Common Stock were outstanding and either in-the-money (based upon the Average Closing Price, had the merger closed two days following March 29, 2006) or granted on or after January 23, 2006.

Nanometrics has agreed to file, within 15 business days after completion of the merger, a registration statement on Form S-8 with the SEC covering shares of Nanometrics common stock issuable in connection with the assumed options. As a result, all shares of Nanometrics common stock issuable upon exercise of assumed options will be freely transferable as long as the registration statement remains effective.

All Accent Optical options that are not in-the-money (and which were not granted on or after January 23, 2006) will be out-of-the-money at the closing of the merger and will terminate if not exercised prior to the closing of the merger. The options that are not assumed by Nanometrics will vest in full as of the closing of the merger, pursuant to the terms of the Accent Optical stock incentive plan, immediately prior to their termination. As of March 29, 2006, options to purchase approximately 3,211,750 shares of Accent Optical common stock were outstanding and out-of-the-money, based upon Accent Optical's outstanding capital stock and the Average Closing Price, had the merger closed two days following March 29, 2006. If the Average Closing Price is equal to or greater than \$15.63, then all outstanding stock options of Accent Optical will be assumed in the merger.

Q: Do the Accent Optical stockholders have obligations relating to Accent Optical's transaction expenses?

A: The merger agreement provides that Accent Optical stockholders will indemnify Nanometrics with respect to any transaction expenses of Accent Optical in excess of \$4.2 million. Transaction expenses are broadly defined within the merger agreement to include the \$2.5 million fee owed to Bio-Rad, as well as fees owed to Accent Optical's investment banker, lawyers and accountants. Accent Optical currently estimates its transaction expenses at \$5.15 million. Accordingly, upon closing of the merger, Nanometrics would have an immediate claim on the escrow in the amount of approximately \$950,000.

Q: What are the United States federal income tax consequences of the merger?

A: Nanometrics and Accent Optical each expect the merger to qualify as a reorganization pursuant to Section 368(a) of the Internal Revenue Code for U.S. federal income tax purposes. Assuming that the merger so qualifies, Accent Optical stockholders will not recognize gain or loss for United States federal income tax purposes as a result of the merger, other than gain or loss attributable to cash received by Accent Optical stockholders instead of fractional shares. It is a condition to the merger that each of Nanometrics and Accent Optical receive a legal opinion to the effect that the merger will constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code. The tax consequences of the merger to Accent Optical stockholders may vary depending upon each such stockholder's situation. Each Accent Optical stockholder is urged to consult its own tax advisors with respect to the tax consequences of the merger.

A: Under the applicable rules of the Nasdaq Stock Market, Nanometrics cannot complete the merger unless the issuance of shares of Nanometrics common stock in the merger is approved by the affirmative vote of the holders of a majority of the shares of Nanometrics common stock represented and voting at the Nanometrics special meeting. Members of Nanometrics board of directors and officers holding approximately 30.9% of Nanometrics outstanding common stock as of January 25, 2006 have entered into voting agreements, which obligate them to approve the share issuance.

Q: How does the Nanometrics board of directors recommend that the Nanometrics shareholders vote on the share issuance?

A: Yes. On January 25, 2006, Cowen & Co., LLC, (formerly SG Cowen & Co., LLC) (Cowen) financial advisor to Nanometrics, provided to the Nanometrics board of directors its opinion, that, as of the date of such opinion, the consideration provided for in the merger agreement was fair, from a financial point of view, to Nanometrics. The full text of the Cowen opinion is attached to this joint proxy statement/prospectus as Annex C. Nanometrics encourages its shareholders to read this opinion carefully in its entirety for a description of the procedures followed, assumptions made, matters considered and limitations on the review undertaken. The Cowen opinion is directed to the Nanometrics board of directors and addresses only the fairness from a financial point of view of the consideration provided for in the merger agreement as of the date of the opinion. Nanometrics paid Cowen a fee upon the delivery of the Cowen fairness opinion.

Q: What vote is required by Accent Optical stockholders to proceed with the merger and approve the payments to certain Accent Optical executive officers?

A: Holders of a majority of the outstanding shares of Accent Optical Common Stock and Convertible Preferred Stock, voting together on an as-converted basis, must approve the merger agreement and the merger. In addition, a majority of each of the Accent Optical Series A Preferred Stock, the Accent Optical Convertible Preferred Stock and the Accent Optical Common Stock, voting as separate classes, must approve the merger.

More than 75% of the outstanding shares of Accent Optical s Convertible Preferred Stock and Common Stock, voting together as a single class on an as-converted basis, not including shares owned or constructively owned by executive officers receiving payments in connection with the merger, must approve the payments to Accent Optical executive officers.

Members of Accent Optical s board of directors, officers and other investors holding 87% of Accent Optical s Common Stock and Preferred Stock, 89% of Accent Optical s Series A Preferred Stock, 65% of Accent

Table of Contents

Optical s Convertible Preferred Stock and 88% of Accent Optical s Common Stock have entered into voting agreements that obligate them to:

approve and adopt the merger agreement;

approve the merger;

approve the appointment of Mr. Wadler as the Stockholder Agent; and

approve the escrow agreement.

Q: Did the Accent Optical board of directors obtain a fairness opinion in connection with its determination to proceed with the merger?

A: Yes. On January 24, 2006, Merrill Lynch, Pierce, Fenner & Smith Incorporated (Merrill Lynch), financial advisor to Accent Optical, provided to the Accent Optical board of directors its opinion, that, as of such date and based upon the assumptions made, matters considered and limits of such review, the aggregate consideration provided for in the merger agreement was fair, from a financial point of view, to the holders of Accent Optical capital stock. The full text of the Merrill Lynch opinion is attached to this joint proxy statement/prospectus as Annex D. Accent Optical encourages its stockholders to read this opinion carefully in its entirety for a description of the procedures followed, assumptions made, matters considered and limitations on the review undertaken. The Merrill Lynch opinion is addressed to the Accent Optical board of directors and addresses only the fairness, from a financial point of view, of the aggregate consideration provided for in the merger agreement as of January 24, 2006. Accent Optical will pay Merrill Lynch a customary fee for the Merrill Lynch fairness opinion upon the closing of the merger.

Q: Do any of the directors and executive officers of Accent Optical have any special interests in the merger?

A: Yes. In considering the recommendation of the board of directors of Accent Optical with respect to the adoption and approval of the merger agreement, approval of the merger and the other matters described in the Notice of Special Meeting of Accent Optical Stockholders, the stockholders of Accent Optical should be aware that members of the Accent Optical board of directors and Accent Optical executive officers have interests in the merger that may be different than, or in addition to, the interests of the Accent Optical stockholders generally. These interests include:

the appointment of Bruce C. Rhine, a director and the current Chief Executive Officer of Accent Optical, as a director and executive officer of the combined company upon completion of the merger;

the potential receipt of severance payments by certain Accent Optical executive officers;

the receipt of option grants in connection with the merger by Accent Optical officers which will be assumed by Nanometrics;

Edgar Filing: NANOMETRICS INC - Form S-4

the acceleration of vesting of assumed options of officers and directors if their employment is terminated in connection with the merger;

Table of Contents

the continued indemnification following the merger of the current Accent Optical directors and officers for acts or omissions occurring prior to the closing of the merger;

the receipt by Bio-Rad, a company affiliated with Accent Optical director David Schwartz, of approximately \$12.0 million as repayment of a loan and a contractual fee of \$2.5 million (related to the 2000 asset purchase from Bio-Rad to form Accent Optical), each in connection with the closing of the merger; and

the re-allocation of the merger consideration so that holders of Accent Optical Common Stock can receive more of the merger consideration than they originally would have been entitled to, which benefits the directors and officers that hold Accent Optical Common Stock.

The Accent Optical board of directors was aware of these interests and considered them, among other matters, in making its recommendation that Accent Optical stockholders approve the merger agreement, the merger and the related transactions and certain payment to executive officers.

Q: What should the shareholders of Nanometrics and the stockholders of Accent Optical do now?

A: After reading and considering the information contained in this joint proxy statement/prospectus carefully, Nanometrics shareholders and Accent Optical stockholders should then vote their respective shares of capital stock in accordance with the instructions in this joint proxy statement/prospectus.

Regardless of whether a Nanometrics shareholder intends to attend the Nanometrics special meeting in person, the Nanometrics board of directors requests that all shareholders submit a proxy prior to the meeting.

Q: If my shares of Nanometrics common stock are held in street name, will my broker, bank, or nominee vote my shares for me on the merger proposal?

Nanometrics is a leader in the design, manufacture, and marketing of high-performance process control metrology systems used in the manufacture of semiconductors and integrated circuits. Nanometrics' metrology systems (i) measure various thin film properties, critical circuit dimensions and layer-to-layer circuit alignment (overlay) and (ii) inspect for surface defects during various steps of the manufacturing process, enabling semiconductor and integrated circuit manufacturers to improve yields, increase productivity and lower their manufacturing costs. The relative alignment of sequentially patterned thin film layers is critical to device production.

Nanometrics has been a pioneer and innovator in the field of metrology for nearly three decades. It has been selling metrology systems since 1977 and has an extensive installed base with industry leading customers worldwide.

Alloy Merger Corporation

Alloy Merger Corporation is an acquisition subsidiary that Nanometrics formed solely to effect the merger. Alloy Merger Corporation has not conducted any other business.

Overview of Merger Agreement and Related Agreements

The Merger Agreement (See page 83)

On January 25, 2006, Nanometrics, Alloy Merger Corporation, Accent Optical and, solely with respect to Article IX, Sanford S. Wadler entered into the merger agreement. Pursuant to the terms and subject to the conditions set forth in the merger agreement, Alloy Merger Corporation will merge with and into Accent Optical, and Accent Optical will continue as the surviving corporation in the merger as a wholly owned subsidiary of Nanometrics. The merger agreement is attached to this joint proxy statement/prospectus as Annex A. You are encouraged to read the merger agreement carefully and in its entirety because it is the legal document that governs the merger.

Merger Consideration (See page 83)

Upon completion of the merger, shares of outstanding Accent Optical capital stock and in-the-money options to acquire Accent Optical Common Stock (as well as all Accent Optical stock options granted on or after January 23, 2006 regardless of their exercise price) will be converted into the right to receive Nanometrics common stock and options to acquire Nanometrics common stock. The total number of shares of Nanometrics common stock that will be issued in the merger will be: (i) 4,900,000, plus (ii) a number of shares equal to the aggregate exercise price of the outstanding in-the-money Accent Optical stock options prior to closing (other than options granted after January 23, 2006), divided by the Average Closing Price, plus (iii) shares of Nanometrics common stock issuable upon exercise of the Accent Optical stock options granted on or after January 23, 2006 (at the same conversion ratio as the Accent Optical in-the-money options). Of the total shares issued to Accent Optical stockholders at closing, Nanometrics will deposit approximately 490,000 shares of common stock into an escrow account that will be available to compensate Nanometrics if it is entitled to indemnification under the merger agreement. Upon closing, Nanometrics will have an immediate claim on the escrow for a number of shares equal to (x) the Accent Optical transaction costs that exceed \$4.2 million, which excess is currently estimated to be approximately \$950,000, divided by (y) the Average Closing Price.

The Average Closing Price will be equal to the average of the closing sales prices of Nanometrics common stock as reported on the Nasdaq Stock Market for the 10 trading days ending two days prior to the closing of the merger.

The maximum number of shares of common stock Nanometrics would issue and reserve for issuance upon the exercise of assumed options is approximately 5,215,062 shares, assuming that the Average Closing Price is equal to \$15.63, which would result in the Accent Optical stockholders holding approximately 27% of the fully diluted shares of Nanometrics common stock immediately after the merger, and the Nanometrics shareholders holding approximately 73% of the fully diluted shares of Nanometrics common stock immediately after the merger. For comparison purposes, the Average Closing Price for the 10 trading days ending on March 29, 2006 was \$13.23 per share, which would have resulted in the issuance, or reservation for issuance upon the exercise of assumed options, of approximately 5,137,349 shares of Nanometrics common stock had the merger closed two days following March 29, 2006.

Nanometrics will not issue fractional shares of its common stock in the merger. As a result, each Accent Optical stockholder will receive cash in lieu of any fractional share of Nanometrics common stock the stockholder would otherwise be entitled to receive in the merger.

Allocation of Merger Consideration among Accent Optical Stockholders (See page 83)

Accent Optical has three classes of capital stock outstanding. Each class of Accent Optical capital stock will receive a portion of the total merger consideration, which will consist solely of a specified number of shares of Nanometrics common stock and cash in lieu of fractional shares, if any. Each class of Accent Optical capital

Table of Contents

stock will be converted into Nanometrics common stock at a different exchange ratio in the merger. The following table shows the calculation of the per share exchange ratios for each class of Accent Optical capital stock subject to the escrow:

Class	Per Share Exchange Ratio	Estimate if	Estimated
		Average Closing Price is	Value
Series A Preferred	\$1,000.00 / Average Closing Price	\$13.23 75.5858	Per Share \$ 1,000.00
Convertible Preferred Stock	\$1.13 / Average Closing Price	0.0854	\$ 1.13
Common Stock	((4,900,000 shares (as adjusted for additional shares issued for in-the-money options) minus shares issued to Accent Optical Series A Preferred Stock minus shares issued to Accent Optical Convertible Preferred Stock)) divided by (total outstanding Accent Optical Common Stock plus in-the-money options (other than options issued on or after January 23, 2006))	0.0243	\$ 0.3210

The amounts receivable by the holders of Accent Optical Series A Preferred Stock and Convertible Preferred Stock are less than the preferences and accrued dividends payable to such holders under Accent Optical's certificate of incorporation. The allocation of consideration was structured so that the merger would provide benefit to all Accent Optical stockholders and to provide incentive for the holders of Accent Optical Common Stock to approve the merger.

Because the final exchange ratios are based on the Average Closing Price for the ten days ending two days prior to closing, they cannot be determined until immediately prior to the closing date of the merger.

Issuance of the merger consideration will be made to holders of Accent Optical Series A Preferred Stock and Convertible Preferred Stock (collectively, the Accent Optical Preferred Stock) on a *pari passu* basis. If the value of the shares of Nanometrics common stock issuable in the merger is insufficient to provide \$1,000 of Nanometrics common stock for each share of Series A Preferred Stock and \$1.13 of Nanometrics common stock for each share of Convertible Preferred Stock, then the available merger consideration will be prorated, and holders of Accent Optical Common Stock and options will receive no consideration in the merger.

The following table shows the approximate dollar value that will be received for one share of Accent Optical Common Stock, one share of Series A Preferred Stock and one share of Convertible Preferred Stock based on varying average closing prices for Nanometrics stock. The following table overstates the actual value that will be received by Accent Optical stockholders because a portion of the shares will be deposited in escrow, and there will be an immediate claim on the escrow relating to transaction expenses.

Average Closing Price	Value Received for One		Value Received for One
	Share of Accent Optical	Share of Accent Optical	Share of Accent Optical

Treatment of Accent Optical Stock Options (See page 85)

At the closing of the merger, Nanometrics will assume each outstanding option to acquire shares of Accent Optical Common Stock that is in-the-money or that was granted on or after January 23, 2006, regardless of whether such option is in-the-money. An option will be in-the-money if the per share exercise price for the option is less than the value of Nanometrics common stock that the holder of one share of Accent Optical Common Stock would be entitled to receive in the merger.

Each assumed option will be converted into an option to purchase the number of Nanometrics shares that would have been issuable in exchange for the number of Accent Optical shares subject to the assumed option, had such shares been outstanding at the closing of the merger. The exercise price of such assumed options will be adjusted such that the aggregate exercise price for the option remains constant.

In addition, if the employment or service relationship of the holder of any assumed options or Accent Optical Common Stock that is subject to vesting is terminated within six months following the completion of the merger, other than by Accent Optical or its successor for cause or by the holder without good reason, the vesting of the options or shares held by such holder will accelerate in full. Each assumed option will be subject to all other terms and conditions set forth in the applicable documents evidencing the option immediately prior to the closing of the merger.

As of March 29, 2006, options to purchase approximately 13,518,880 shares of Accent Optical Common Stock were outstanding and either in-the-money (based upon the Average Closing Price, had the merger closed two days following March 29, 2006), or granted on or after January 23, 2006.

Nanometrics has agreed to file, within 15 business days after completion of the merger, a registration statement on Form S-8 with the SEC covering shares of Nanometrics common stock issuable in connection with the assumed options. As a result, all shares of Nanometrics common stock issuable upon exercise of assumed options will be freely transferable as long as the registration statement remains effective.

All Accent Optical options that are not in-the-money (and which were not granted on or after January 23, 2006) will be out-of-the-money at the closing of the merger and will terminate if not exercised prior to the closing. The options that are not assumed by Nanometrics will vest in full as of the closing date of the merger in full, pursuant to the terms of the Accent Optical stock incentive plan, immediately prior to their termination. As of March 29, 2006, options to purchase approximately 3,211,750 shares of Accent Optical Common Stock were outstanding and out-of-the-money (based upon the Average Closing Price, had the merger closed two days following March 29, 2006). If the Average Closing Price is equal to or greater than \$15.63, then all outstanding stock options of Accent Optical will be assumed in the merger.

Non-Solicitation Restrictions (See page 90)

The merger agreement contains detailed provisions that prohibit Accent Optical and its subsidiaries, as well as its officers, directors and representatives, from taking any action to solicit or engage in discussions or negotiations with any person or group with respect to certain types of alternative acquisition proposals.

Table of Contents

Conditions to Completion of Merger (See page 93)

Under the terms of the merger agreement, Nanometrics and Accent Optical are not required to complete the merger until the following conditions have been satisfied:

the registration statement filed with the Securities and Exchange Commission (the "SEC") with respect to the shares of Nanometrics common stock to be issued in connection with the merger has been declared effective by the SEC;

the Nanometrics shareholders have approved the issuance of shares of Nanometrics common stock in the merger, and the Accent Optical stockholders have approved the merger agreement and the merger as well as certain other items included in the Notice of the Accent Optical Special Meeting of Stockholders including the escrow agreement and appointment of the stockholder agent;

any applicable waiting periods have expired or the parties have received all clearances, consents and approvals necessary for completion of the merger under United States and foreign antitrust laws;

the absence of any legal restraints or prohibitions preventing the completion of the merger;

the authorization for listing on the Nasdaq National Market of the shares of Nanometrics common stock to be issued in the merger;

the delivery to each party of tax opinions of legal counsel to the effect that the merger will qualify as a "reorganization" within the meaning of Section 368(a) of the Internal Revenue Code;

the representations and warranties of each party contained in the merger agreement are true and correct, except to the extent that breaches of these representations and warranties would not result in a material adverse effect on the representing party;

each party has performed or complied in all material respects with all agreements and covenants contained in the merger agreement at the completion of the merger; and

the absence of events or developments since the date of the merger agreement that would reasonably be expected to have a material adverse effect with respect to either party.

Either Nanometrics or Accent Optical may waive the conditions to the performance of its respective obligations under the merger agreement and complete the merger even though one or more of these conditions has not been met.

Termination Rights and Fees (See page 95)

Under circumstances specified in the merger agreement, either Nanometrics or Accent Optical may terminate the merger agreement, subject to the limitations set forth in the merger agreement, if:

the Boards of Directors of both Nanometrics and Accent Optical mutually consent in writing;

Edgar Filing: NANOMETRICS INC - Form S-4

the merger is not completed by June 30, 2006;

a non-appealable final order of a court or other action of any governmental authority has the effect of permanently prohibiting completion of the merger;

the required approval of the shareholders of Nanometrics and the stockholders of Accent Optical has not been obtained at their respective special meetings; or

the other party breaches its representations, warranties or covenants in the Merger Agreement such that its conditions to completion of the merger regarding representations, warranties or covenants would not be satisfied.

If the merger is not completed under because the Nanometrics shareholders have not approved the issuance of Nanometrics common stock or the Accent Optical stockholders have not approved the matters set forth in the

Table of Contents

Notice of Special Meeting of Accent Optical Stockholders, then Nanometrics or Accent Optical, respectively, will be required to pay the other \$5 million, plus expenses.

Accounting Treatment of the Merger (See page 79)

Nanometrics will account for the merger as a purchase business combination under United States generally accepted accounting principles.

Voting Agreements

Nanometrics Voting Agreements (See page 96)

Each of the directors and officers of Nanometrics has entered into a voting agreement with Accent Optical, agreeing to vote all of his respective shares of Nanometrics common stock, including shares of Nanometrics common stock acquired after the date of the voting agreements, in favor of the Nanometrics proposal related to the merger, including approval of the merger agreement and any action required to further the merger.

Each of these shareholders has also granted to Accent Optical an irrevocable proxy to vote the shares of Nanometrics common stock subject to the voting agreements in accordance with its terms. The voting agreements and irrevocable proxies terminate upon the earlier of the termination of the merger agreement or the effective time of the merger.

At the close of business on January 25, 2006, the parties to the Nanometrics voting agreements and their affiliates owned and were entitled to vote 4,024,815 shares of Nanometrics common stock, collectively representing approximately 30.9% of the shares of Nanometrics common stock outstanding on that date. As of the record date for the Nanometrics special meeting, the parties to the Nanometrics voting agreement and their affiliates owned and were entitled to vote [] shares of Nanometrics common stock, collectively representing approximately [%] of the shares of Nanometrics common stock outstanding on that date.

The voting agreements prohibit the signing shareholders from selling or disposing of any shares or options of Nanometrics common stock beneficially owned by the signing shareholders, unless the transferee agrees to be bound by the terms and conditions of the voting agreement. A form of the Nanometrics voting agreement is attached to this joint proxy statement/prospectus as Annex B-1.

Accent Optical Voting Agreements (See page 97)

Certain Accent Optical directors, officers and their affiliated entities and certain other affiliates of Accent Optical have entered into a voting agreement with Nanometrics and Alloy Merger Corporation, agreeing to vote all of their respective shares of Accent Optical capital stock, including shares of Accent Optical capital stock acquired after the date of the voting agreements, in favor of the Accent Optical merger-related proposals including the adoption and approval of the merger agreement. Some of the voting agreements included certain conditions on the holder's obligation to vote the holder's shares related to the terms of the merger agreement.

Each of these stockholders has also granted to Nanometrics an irrevocable proxy to vote the shares of Accent Optical capital stock subject to the voting agreements in accordance with its terms. The voting agreements and irrevocable proxies terminate upon the earlier of the termination of the merger agreement, the closing of the merger or 12 months after the date of the agreement. The voting agreements originally contained the agreement of each of these stockholders to vote the holder's shares in favor of the approval of certain payments to Accent Optical executive officers pursuant to Section 280G of the Internal Revenue Code. Nanometrics and Alloy Merger Corporation subsequently waived this requirement.

Table of Contents

At the close of business on January 25, 2006, and as of the record date for the Accent Optical special meeting, _____, these stockholders and their affiliates beneficially owned and were entitled to vote 124,193,172 shares of Accent Optical Common Stock, collectively representing approximately 87.9% of the shares of Accent Optical Common Stock outstanding on that date; 8,396.77 shares of Accent Optical Series A Preferred Stock, collectively representing approximately 88.9% of the shares of Accent Optical Series A Preferred Stock outstanding on that date; and 5,036,584 shares of Accent Optical Convertible Preferred Stock, collectively representing approximately 64.7% of the shares of Accent Optical Convertible Preferred Stock outstanding on that date.

The voting agreements prohibit the signing stockholders from selling or disposing of any shares or options of Accent Optical capital stock beneficially owned by the signing stockholders without the prior written consent of Nanometrics. A form of the Accent Optical voting agreement is attached to this joint proxy statement/prospectus as Annex B-2.

Escrow Agreement (See page 99)

Pursuant to the merger agreement, approximately 490,000 shares of Nanometrics common stock deliverable as consideration in the merger will be withheld and deposited with U.S. Stock Transfer Corporation to hold in an escrow fund in order to secure Accent Optical's and its former stockholders' performance of indemnification obligations under Article IX of the merger agreement.

Upon closing, Nanometrics will have an immediate claim on the escrow for a number of shares equal to the Accent Optical transaction costs that exceed \$4.2 million, which excess is currently anticipated to be approximately \$950,000, divided by the Average Closing Price.

In connection with the execution of the merger agreement, Nanometrics, Alloy Merger Corporation, Sanford S. Wadler, as Stockholder Agent, and U.S. Stock Transfer, as Depositary Agent, entered into an escrow agreement setting forth additional terms and conditions relating to the operation of the escrow fund and the indemnification claim procedures. The full text of the escrow agreement is attached as Annex F.

Employment and Severance Agreements

Employment Agreement (See page 99)

Bruce C. Rhine, Accent Optical's Chairman and Chief Executive Officer, has entered into an employment agreement with Nanometrics, pursuant to which Mr. Rhine will become the Chief Strategy Officer of Nanometrics following the merger. He will receive a base salary of \$250,000, standard Nanometrics employee benefits and paid vacation. In connection with his employment, Mr. Rhine has agreed to certain non-competition and non-solicitation provisions, described under *Agreements Related to the Merger Employment Agreement*.

Executive Officer Retention and Severance Arrangements (See page 74)

Reid Langrill. In connection with the merger, Accent Optical entered into an agreement with Reid Langrill, its Chief Financial Officer, which provides for Mr. Langrill's continued employment with Accent Optical or its successors through the completion of the merger and up to 30 days thereafter. During his period of employment, he will continue to earn his regular salary. Upon his termination, he will receive a severance payment equal to the greater of either \$185,000 or the difference between \$500,000 and the value of Mr. Langrill's options that are in-the-money as of the completion of the merger, subject to withholding. Following his termination, Mr. Langrill has agreed to provide consulting services to Nanometrics through March 31, 2007, subject to earlier termination, for an hourly rate and reimbursement of expenses.

Table of Contents

Bruce Crawford. Accent Optical entered into an employment agreement with Bruce Crawford, upon commencement of his role as President and Chief Operating Officer, which provides for certain severance benefits if Accent Optical terminates Mr. Crawford's employment without good cause or Mr. Crawford terminates his employment for good reason during the five-year term of the agreement. Upon such termination, Mr. Crawford is entitled to receive a lump-sum payment of his annual salary (currently \$213,000), continued group health or other group benefits as allowed under the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) for a period of 12 months (with a potential gross-up for taxes arising from the provision of such benefits) and reimbursement of relocation expenses up to \$50,000. See *The Merger Interests of Accent Optical Directors and Executive Officers in the Merger Executive Officer Retention and Severance Arrangements.*

Opinion of Nanometrics Financial Advisor (See page 62)

Cowen delivered its opinion to the board of directors of Nanometrics that, as of January 25, 2006, the consideration to be paid in the merger was fair, from a financial point of view, to Nanometrics.

The full text of the Cowen opinion is attached hereto as Annex C. You are urged to read the opinion carefully in its entirety.

Opinion of Accent's Optical Financial Advisor (See page 67)

Merrill Lynch delivered its opinion to the board of directors of Accent Optical that, as of January 24, 2006, the aggregate consideration to be paid in the merger was fair, from a financial point of view, to the holders of Accent Optical capital stock.

The full text of the Merrill Lynch opinion is attached hereto as Annex D. You are urged to read the opinion carefully in its entirety.

Interests of Certain Directors, Officers and Affiliates of Accent Optical (See page 73)

Members of the Accent Optical board of directors and Accent Optical executive officers have interests in the merger that may be different than, or in addition to, the interests of Accent Optical stockholders generally. These interests include:

the appointment of Bruce C. Rhine, a current director and Chief Executive Officer of Accent Optical, as a director and executive officer of Nanometrics upon completion of the merger;

the potential receipt of severance payments by certain Accent Optical executive officers;

the receipt of option grants in connection with the merger by Accent Optical officers which will be assumed by Nanometrics;

the acceleration of vesting of assumed options of officers and directors if their employment is terminated in connection with the merger;

the continued indemnification of current directors and officers of Accent Optical following the merger for acts and omissions occurring prior to the closing of the merger;

the receipt by Bio-Rad, a company affiliated with Accent Optical director David Schwartz, of approximately \$12.0 million as repayment of a loan and a contractual fee of \$2.5 million (related to the 2000 asset purchase from Bio-Rad to form Accent Optical), each in connection with the closing of the merger; and

Edgar Filing: NANOMETRICS INC - Form S-4

the reallocation of the merger consideration so the holders of Accent Optical Common Stock can receive more of the merger consideration than they originally would have been entitled to, which benefits the directors and officers that hold Accent Optical Common Stock.

The Accent Optical board of directors was aware of these interests and considered them, among other matters, in making its recommendation that Accent Optical stockholders approve the merger agreement, the merger and the related transactions and certain payments to executive officers.

Material U.S. Federal Income Tax Consequences of the Merger

Nanometrics and Accent Optical each expect the merger to qualify as a reorganization pursuant to Section 368(a) of the Internal Revenue Code for U.S. federal income tax purposes. Assuming that the merger so qualifies, Accent Optical stockholders will not recognize gain or loss for United States federal income tax purposes as a result of the merger, other than gain or loss attributable to cash received by Accent Optical stockholders instead of fractional shares. It is a condition to the merger that each of Nanometrics and Accent Optical receive a legal opinion to the effect that the merger will constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code. The tax consequences of the merger to Accent Optical stockholders may vary depending upon each such stockholder's situation. Each Accent Optical stockholder is urged to consult its own tax advisors with respect to the tax consequences of the merger. Please see *Material United States Federal Income Tax Consequences of the Merger*, beginning on page 77 for more information.

Ability to Sell Nanometrics Common Stock

Listing of Nanometrics Common Stock (See page 82)

Nanometrics will apply to have the shares of Nanometrics common stock to be issued in the merger to holders of Accent Optical capital stock approved for listing on the Nasdaq National Market.

Restrictions on Sales of Certain Shares of Nanometrics Common Stock Received in the Merger (See page 82)

The Nanometrics common shares that Accent Optical stockholders receive in the merger will be freely transferable, except that shares received by persons who are deemed to be affiliates of Accent Optical under SEC rules and regulations will be subject to certain resale restrictions.

In addition, certain Accent Optical stockholders have executed shareholder agreements imposing restrictions on their disposition of shares of Nanometrics common stock received in connection with the merger. These restrictions continue for a period of 24 months following the merger for some of these stockholders or a period of 12 months following the merger for others.

Regulatory Approval (See page 79)

The merger is not subject to review by the Department of Justice and the FTC under the HSR Act. However, the Department of Justice, the FTC, or other United States or foreign governmental authorities could challenge or seek to block the merger under the antitrust laws, at any time, even after completion of the merger. Moreover, in some jurisdictions, a competitor, customer or other third party could initiate a private action under the antitrust laws challenging or seeking to enjoin the merger, either before or after it is completed.

Appraisal Rights (See page 79)

Nanometrics shareholders are not entitled to appraisal rights in connection with the merger. Accent Optical stockholders have the right under Delaware law to dissent from the adoption and approval of the merger agreement, to exercise appraisal rights and to receive payment in cash for the fair value of their shares of Accent Optical stock, determined in accordance with Delaware law.

Comparison of Shareholder Rights (See page 139)

Accent Optical stockholders receiving shares of Nanometrics common stock in the merger will have different rights once they become Nanometrics shareholders. These differences are described in detail under the heading *Comparison of Rights of Holders* on page 139.

This data is not intended to represent or be indicative of the consolidated results of operations or financial condition of Nanometrics that would have been reported had the merger been completed as of the dates presented, and should not be taken as representative of future consolidated results of operations or financial condition of Nanometrics. A final determination of fair values relating to the merger, which cannot be made prior to the completion of the merger, may differ materially from the preliminary estimates and will include management's final valuation of the fair value of assets acquired and liabilities assumed. This final valuation will be based on the actual net tangible and identifiable intangible assets of Accent Optical that exist as of the date of the completion of the merger, the final number of shares issued associated with the aggregate merger consideration and stock options assumed. The final valuation may change the allocations of the purchase price, which could affect the fair value assigned to the assets and liabilities and could result in a change to the unaudited pro forma condensed combined financial statements data. The pro forma adjustments are more fully described in the notes to the unaudited pro forma condensed combined financial statements found elsewhere in this document.

The selected pro forma condensed combined financial data (i) have been derived from and should be read in conjunction with the unaudited pro forma condensed combined financial statements and accompanying notes included in this joint proxy statement/prospectus as described under *Unaudited Pro Forma Condensed Combined Financial Statements* beginning on page 101, and (ii) should be read in conjunction with the consolidated financial statements of Nanometrics and Accent Optical and other information filed by Nanometrics with the SEC and incorporated by reference into this joint proxy statement/prospectus.

Recent Developments

Acquisition of Soluris, Inc. On March 15, 2006, Nanometrics acquired Soluris, Inc., an overlay metrology company headquartered in Concord, Massachusetts. Total consideration to purchase all the outstanding stock and to retire all the outstanding debt of Soluris was \$7.0 million in an all-cash transaction.

Acceleration of Working Capital Loan. Pursuant to the merger agreement, Nanometrics agreed to provide Accent Optical with a working capital loan in the aggregate amount of \$2,500,000, payable in two equal installments of \$1,250,000 pursuant to a form of unsecured, subordinated, convertible promissory note as more fully described in Section 6.17 of the merger agreement. Nanometrics' obligation to provide the working capital loan arises in the event that the merger between Nanometrics and Accent Optical has not yet been consummated as of April 30, 2006 or June 30, 2006 and the merger agreement has not been terminated prior to such date.

Accent Optical is entitled to make demand for payment of the first installment of the working capital loan on or after April 30, 2006 and is also entitled to make an additional demand for payment for the second installment of the working capital loan on or after June 30, 2006. On February 23, 2006, Nanometrics' Board of

Directors unanimously approved the acceleration of the initial loan date to February 24, 2006. Accordingly, Nanometrics received Accent Optical's demand for payment of a portion of the first installment of the working capital loan on March 10, 2006 and Nanometrics and Accent Optical executed the Note with an outstanding principal amount of \$1,250,000. Nanometrics accelerated a portion of the loan, in the amount of \$750,000, and disbursed such amount to Accent Optical on March 13, 2006.

Sales Representative Agreements. On March 13, 2006, Nanometrics and Accent Optical entered into a sales representative agreement whereby Nanometrics agreed to provide Accent Optical with the ability to act as a sales representative for Accent Optical to sell Nanometrics products in Europe in advance of the closing of the merger.

These statements can be identified by the fact that they do not relate strictly to historical or current facts. These forward-looking statements are based on Nanometrics' current expectations about future events. Further, statements that include words such as may, will, project, might, expect, believe, anticipate, intend, could, would, estimate, continue or pursue, or the negative words or expressions of similar meaning, identify forward-looking statements. These forward-looking statements should, therefore, be considered in light of various important factors, including those set forth in this joint proxy statement/prospectus and incorporated by reference into this joint proxy statement/prospectus. In addition to the risk factors identified elsewhere, important factors that could cause actual results to differ materially from estimates or projections contained in the forward-looking statements include, without limitation:

the ability to obtain the approvals of Nanometrics' shareholders and Accent Optical's stockholders, to satisfy the closing conditions in the merger agreement and to otherwise complete the merger in a timely manner;

the ability to timely and cost-effectively integrate the geographically dispersed operations of Nanometrics and Accent Optical;

the ability to realize the synergies and other perceived advantages resulting from the merger;

the ability to retain key personnel both before and after the merger;

the extent and timing of market acceptance of new products;

the ability of Nanometrics and Accent Optical to procure, maintain, enforce and defend their respective patents and other proprietary rights;

the effects of local, national and global economic, credit and capital market conditions on the economy in general, and on the semiconductor industry in particular, and the effects of currency exchange rates and interest rates;

litigation outcomes and judicial actions, including costs of existing litigation matters;

RISK FACTORS

You should carefully consider the risks described below before deciding how to vote your shares. The business, results of operations or financial condition of Nanometrics, Accent Optical and/or the combined company following the merger could be seriously harmed if any of these risks were to materialize. The trading price of shares of Nanometrics common stock may also decline due to the occurrence or perceived impact of any of these risks.

Nanometrics operates in a market environment that is difficult to predict and that involves significant risks, many of which are beyond Nanometrics' control. There may be additional risks and uncertainties not set forth in this joint proxy statement/prospectus that also may adversely affect the merger, Nanometrics or Accent Optical should they materialize.

Risks Relating to the Merger

Nanometrics common stock received by Accent Optical stockholders in the merger will fluctuate in value.

Nanometrics will issue and reserve for issuance upon exercise of assumed stock options a maximum of approximately 5,215,062 shares of its common stock in connection with the merger. Because the market price of Nanometrics common stock may fluctuate, the value of the per share merger consideration and the number of shares to be received by the holders of Accent Optical Common Stock and assumed options will depend upon the market price of Nanometrics common stock at the time of the closing of the merger. Holders of Accent Optical Preferred Stock have a right to receive a fixed dollar value of merger consideration per share. Because the value of the Nanometrics common stock will be determined using the Average Closing Price, which will not be known until two days prior to the closing, the number of Nanometrics shares required to pay holders of Accent Optical Preferred Stock could exhaust the available shares. If such event occurred, the holders of Accent Optical Common Stock will receive no Nanometrics shares and holders of Accent Optical Preferred Stock will divide the available Nanometrics shares in proportion to the fixed preference amounts to which they were entitled.

In addition, because the Average Closing Price will not be known until two days prior to the closing, you may not know what the per share merger consideration would be if you hold Accent Optical Common Stock or assumed options when you vote on the matters set forth in this joint proxy statement/prospectus.

Accent Optical stockholders may not receive the consideration to be held in the escrow account, and even if they do receive the shares, the value of the escrowed shares may decline.

Upon completion of the merger, Nanometrics will deposit into an escrow account approximately 490,000 shares of Nanometrics common stock, to be withheld from the shares issued at closing to holders of outstanding shares of Accent Optical capital stock, which shares will be available for a one year period to compensate Nanometrics if it is entitled to indemnification for losses due to breaches of Accent Optical's representations and warranties or other matters specified in the merger agreement. In the event shares of Nanometrics common stock are withdrawn from the escrow to satisfy a claim, the number of shares will be determined on the basis of the fair market value of the shares at the time the claim is made. As a result, if the market price for Nanometrics common stock falls between closing and the filing of a claim, the former Accent Optical stockholders may be required to forego more shares to satisfy the claim. If the total amount of claims paid or pending at the first anniversary of the closing of the merger exceeds the market value of the escrowed shares, the former Accent Optical stockholders may not receive any of the escrowed shares.

The market value of the Nanometrics common stock deposited in the escrow account may fluctuate or decrease between the time of such deposit and the time at which any escrowed amount is distributed to the Accent Optical equity holders. Accent Optical equity holders will not be compensated for fluctuations in value of the Nanometrics stock.

Table of Contents

Some of the directors and executive officers of Accent Optical have interests and arrangements that may have affected their decisions to support or approve the merger.

The interests of some of the directors and executive officers of Accent Optical in the merger and their participation in arrangements that are different from, or are in addition to, those of Accent Optical stockholders generally, may have affected their decision to support or approve the merger.

As a result, some of the directors and executive officers of Accent Optical may be more likely to recommend the merger than if they did not have these interests. These interests are described in more detail in the section of this joint proxy statement/prospectus entitled *The Merger Interests of Accent Optical Directors and Executive Officers in the Merger* beginning on page 73.

Nanometrics and Accent Optical expect to incur significant costs in connection with the merger.

Nanometrics and Accent Optical estimate that they will incur direct transaction costs of \$6.7 million in connection with the merger. Certain of Nanometrics costs will be capitalized. Nanometrics will have an immediate claim against the escrow for the portion of Accent Optical's costs that exceeds \$4.2 million. Accent Optical currently estimates this claim at \$950,000. Nanometrics and Accent Optical believe that the combined company will also incur charges to operations, but cannot reasonably estimate those costs at this time, in the quarter in which the merger is completed to reflect the costs of integrating the two companies. There can be no assurance that the combined company will not incur additional material charges in subsequent quarters to reflect additional costs associated with the merger.

The stock price and businesses of Nanometrics and Accent Optical may be adversely affected if the merger is not completed, and, under certain circumstances, Nanometrics or Accent Optical may be required to pay a termination fee.

If the merger is not completed, the trading price of Nanometrics common stock may decline to the extent that the current market prices reflect an assumption that the merger will be completed. In addition, Nanometrics' and Accent Optical's businesses and operations may be harmed to the extent that customers, suppliers and others believe that the companies cannot effectively compete in the marketplace alone, or that uncertainty exists surrounding the future direction of the product and service offerings and strategy of the companies on a stand alone basis.

Nanometrics and Accent Optical will be required to pay significant costs incurred in connection with the merger, including legal, accounting and a portion of the financial advisory fees, regardless of whether the merger is completed.

In that regard, Nanometrics has agreed to make a working capital loan to Accent Optical in two disbursements of \$1.25 million each, the first on or after April 30, 2006 and the second on or after June 30, 2006. However, Nanometrics and Accent Optical agreed to accelerate a portion of the first disbursement, and Nanometrics issued a \$750,000 loan to Accent Optical on March 13, 2006.

In the event the merger is not completed, the working capital loans may continue as a debt obligation of Accent Optical or may be converted to Accent Optical Common Stock if certain events occur. In the event that the merger does not occur, Nanometrics may not receive repayment of the loans in a timely manner, if at all.

If either Nanometrics or Accent Optical fails to obtain shareholder approval of the matters set forth in this joint proxy statement/prospectus, it may be required to pay the other party a termination fee equal to \$5 million, plus any applicable costs, expenses and interest pursuant to the merger agreement.

Table of Contents

Nanometrics and Accent Optical must continue to retain and motivate executives and key employees and recruit new employees, and failure to do so could seriously harm the combined company.

In order to be successful, each of Nanometrics and Accent Optical must continue to retain and motivate executives and other key employees and recruit new employees before the merger is completed. Employees of Nanometrics or Accent Optical may experience uncertainty about their future roles until or after strategies with regard to Nanometrics after the merger are announced or executed. These potential distractions related to the merger may adversely affect each company's ability to attract, motivate and retain executives and key employees and keep such executives and key employees focused on strategic corporate goals. Any failure by Nanometrics or Accent Optical to retain and motivate executives and key employees during the period prior to the completion of the merger could seriously harm their respective businesses or the business of the combined company after the closing of the merger.

The combined company will need to retain and motivate key executives and employees after the merger in order to be successful. Uncertainty during the integration period after closing will pose retention challenges for the combined company after the closing. Failure to address these challenges could result in undesirable attrition, which would likely harm the combined company's business.

The announcement of the merger may cause customers, distributors, resellers and others to delay or defer decisions concerning purchases from Nanometrics and Accent Optical, which may harm their or the combined company's results of operations.

Because the merger is subject to several closing conditions, uncertainty exists regarding whether and when the merger will be completed. In addition, customers, distributors, resellers and others may be uncertain about the combined company's plans for each of Nanometrics' and Accent Optical's products. This uncertainty may cause customers, distributors, resellers and others to delay or defer purchasing decisions, or elect to switch to other suppliers, which could negatively affect the businesses and results of operations of Nanometrics, Accent Optical or the combined company. Prospective customers might also be reluctant to purchase the combined company's products after the merger due to uncertainty about the direction of its products and its willingness to support and service existing products. Customers, distributors, resellers and others may also seek to change existing agreements with Nanometrics or Accent Optical as a result of the merger. These and other actions by customers, distributors, resellers and others could negatively affect the businesses and results of operations of Nanometrics and/or Accent Optical.

Provisions of the merger agreement may discourage other companies from entering into a merger or other business combination with Accent Optical that might otherwise benefit its stockholders.

The merger agreement prohibits Accent Optical and its affiliates from soliciting or encouraging any discussions regarding a proposal to enter into a merger or business combination with a party other than Nanometrics and requires Accent Optical to seek the approval of the matters set forth in this joint proxy statement/prospectus from its stockholders. In addition, officers, directors and certain stockholders of Accent Optical and their respective affiliates have entered into voting agreements with Nanometrics pursuant to which those persons have agreed to vote their shares of Accent Optical capital stock in favor of the matters set forth in this joint proxy statement/prospectus. As a result of these provisions, a third party may be discouraged from making a proposal to acquire Accent Optical on terms that its stockholders may consider more favorable unless the merger agreement between Accent Optical and Nanometrics is first terminated, or at all.

Table of Contents

The merger may be completed even though Nanometrics or Accent Optical suffers a material adverse change.

In general, either party can refuse to complete the merger if the other party suffers from a material adverse change between January 25, 2006, the date of the signing of the merger agreement, and the closing of the merger. However, certain types of changes would not prevent the merger from going forward, even if the change would have a material adverse effect on Nanometrics or Accent Optical including:

changes in the market price or trading volume of Nanometrics common stock;

changes, circumstances or conditions affecting the economy as a whole or the industries in which Nanometrics and Accent Optical operate if those changes, circumstances or conditions do not disproportionately affect either or both parties;

any effects resulting primarily from the pendency of the merger or restrictions imposed thereby;

any litigation by Accent Optical stockholders or Nanometrics shareholders relating to the merger; and

the impact of Nanometrics' restatements of past financial statements as described in its Current Report on Form 8-K dated October 25, 2005, as amended.

Governmental authorities could seek to block or challenge the merger.

The merger is exempt from the pre-merger notification filing requirements of the Hart-Scott-Rodino Act. However, even after completion of the merger, governmental authorities could seek to block or challenge the merger, impose conditions or require asset divestitures as they deem necessary or desirable in the public interest. In addition, in some jurisdictions, a competitor, customer or other third party could initiate a private action under the antitrust laws challenging or seeking to enjoin the merger, before or after it is completed. Nanometrics and Accent Optical may not prevail in such action, and significant legal fees and costs may be incurred even if they are ultimately successful.

Challenges involved in integrating Accent Optical's operations may negatively impact Nanometrics efforts to remediate and improve its financial and managerial control and reporting systems and processes, including with respect to its internal control over financial reporting.

The combined company's ability to successfully offer its products and implement its business plan in a rapidly evolving market will require an effective planning and management process. The combined company will need to continue to improve its financial and managerial control and its reporting systems and procedures in order to manage its business effectively in the future.

Accent Optical has not been required to prepare a report on the effectiveness of its internal controls over financial reporting because it is not subject to the registration requirements of the Securities Exchange Act of 1934, as amended.

The merger will require significant integration efforts by management. Additionally, unanticipated factors may hinder the effectiveness or delay the integration of Nanometrics' and Accent Optical's control systems and as such, there can be no assurances regarding the combined company's ability to remediate the material weakness in our internal controls over financial reporting. Unless the combined company is able to evolve its current capabilities with respect to control systems and procedures, its ability to file reports with the SEC in a timely manner may be adversely affected.

Accent Optical will need to obtain consents to the assignment of certain agreements it has with third parties as a result of the merger and if it cannot obtain these consents, Accent Optical and/or Nanometrics may lose the benefits of these relationships.

Accent Optical is currently attempting to obtain third-party consents for some agreements requiring consent upon a change of control. If Accent Optical is unable to do so, it may be forced to renegotiate these agreements

Table of Contents

or enter into new agreements with these various third parties. The agreements requiring consent include certain sales representative and distributor agreements, customer agreements, real property leases and license agreements. There can be no assurance that Accent Optical will be able to renegotiate or to negotiate new agreements on favorable terms, or at all.

Risks Related to the Combined Company after the Merger

Although Nanometrics and Accent Optical expect the merger to result in benefits to the combined company, those benefits may not be realized because of integration difficulties or other challenges.

Nanometrics and Accent Optical each have global operations that will need to be integrated successfully in order for Nanometrics to realize the benefits anticipated from the merger. Realizing these benefits will require the meshing of technology, operations and personnel of Nanometrics and Accent Optical into a single organization. Nanometrics and Accent Optical expect the integration to be a complex, time-consuming and expensive process that, even with proper planning and implementation, could cause significant disruption. The challenges that the combined company may face include, but are not limited to, the following:

consolidating operations, including rationalizing corporate information technology and administrative infrastructures;

coordinating sales and marketing efforts between the two companies;

overcoming any perceived adverse changes in business focus, including customers' concerns that the merger will result in erosion of customer service standards or business focus;

coordinating and harmonizing research and development activities to accelerate introduction of new products and technologies with reduced cost;

preserving customer, distribution, reseller, manufacturing, supplier, marketing and other important relationships of Nanometrics and Accent Optical and resolving any potential conflicts that may arise;

retaining key employees and maintaining employee morale;

addressing differences in the business cultures of Nanometrics and Accent Optical;

coordinating and combining operations, relationships and facilities outside of the United States, which may be subject to additional constraints imposed by geographic distance, local laws and regulations; and

creating a consolidated internal control over financial reporting structure so that the combined company and its independent auditors can report on the effectiveness of its internal controls over financial reporting.

Nanometrics may not successfully integrate the operations of Accent Optical in a timely manner, or at all. In addition, the combined company may not realize the anticipated benefits and synergies of the merger to the extent or when anticipated.

Even if the integration of Nanometrics' and Accent Optical's operations, products and personnel is successful, it may place a significant burden on the combined company's management resources. The diversion of management attention and any difficulties encountered in the transition and integration process could harm Nanometrics' business, financial condition and operating results.

Charges to earnings resulting from the application of the purchase method of accounting may adversely affect the market value of Nanometrics common stock following the merger.

In accordance with GAAP, Nanometrics will account for the merger using the purchase method of accounting, which may require an increase in intangible assets and inventory and a decrease in deferred revenues to their respective fair values. Further, a portion of the purchase price may be allocated to in-process research and development. These purchase accounting adjustments may result in material recurring and nonrecurring charges

Table of Contents

to earnings that could have a material adverse effect on the market value of the Nanometrics common stock following completion of the merger. Under the purchase method of accounting, Nanometrics will allocate the total estimated purchase price to Accent Optical's net tangible assets and amortizable intangible assets based on their fair values as of the date of completion of the merger, and record the excess of the purchase price over those fair values as goodwill. Nanometrics will incur amortization expense over the useful lives of amortizable intangible assets acquired in connection with the merger. In addition, to the extent the value of goodwill becomes impaired, Nanometrics may be required to incur material charges relating to the impairment of that asset. Further, Nanometrics may be impacted by nonrecurring charges related to reduced gross profit margins from the requirement to adjust Accent Optical's inventory and deferred revenues to fair value. These charges resulting from the application of purchase accounting could have a material impact on Nanometrics' results of operations.

If the combined company fails to successfully develop and introduce new products and services after the merger, it will not be able to compete effectively and its ability to generate revenues will suffer.

Competition is intense in the markets in which Nanometrics and Accent Optical operates. The combined company's future success depends upon its ability to develop and introduce new products and services that customers choose to buy. Several of Nanometrics' and Accent Optical's competitors have greater financial, engineering, manufacturing, marketing and customer support resources than the combined company will have after the merger. As a result, the combined company's competitors may be able to respond more quickly to new or emerging trends by devoting greater resources to the development, promotion and sale of products, all of which could impair sales of the combined company's products. If the combined company is unsuccessful at developing and introducing new products and services that are appealing to its customers with acceptable prices and terms, the combined company will not be able to compete effectively and its ability to generate revenues will suffer.

As the combined company introduces new or enhanced products or integrates Accent Optical's or other new technology into its products, it will face risks relating to such transitions including, among other things, disruption in customers' ordering patterns, excessive levels of older product inventories, insufficient supplies of new products to meet customers' demand, possible product and technology defects arising from the integration of new technology, and a potentially different sales and support environment relating to any new technology. The combined company's failure to manage the transition to newer products or the integration of newer technology into its products could adversely affect its business' operating results and financial results.

If the combined company is unable to compete successfully against existing and future competitors on the basis of product offerings or price, the combined company could experience an erosion of market share and/or be required to reduce prices, which could result in reduced gross margins.

Nanometrics' and Accent Optical's operating results are subject to fluctuations and are inherently unpredictable; if the combined company fails to meet the expectations of securities analysts or investors, the combined company's stock price may decline significantly.

Nanometrics' and Accent Optical's operating results are difficult to predict and vary significantly from period to period. As a result, Nanometrics and Accent Optical believe that quarter-to-quarter comparisons of their respective operating results are not necessarily a good indication of what their or the combined company's future performance will be. In addition, future operating results may fluctuate significantly due to several factors, many of which are outside of its control and may not meet the management's expectations or those of securities analysts or investors. If this occurs, the price of the common stock will likely decrease. Factors that may cause fluctuations in the combined company's operating results include, but are not limited to, the following:

changes in customer demand and spending levels and limited visibility into customers' spending plans;

changes in general economic conditions and specific market conditions related to the semiconductor and microelectronic industries;

Table of Contents

changes in customer preferences for the combined company's products and services;

competitive pricing pressures and new product introductions by the combined company's competitors;

inability or failure to respond to changing technology within the semiconductor and microelectronic industries;

seasonality of demand for the combined company's products and services;

variations in product costs or the mix of products sold;

the expected high selling prices of the combined company's products which typically results in a long sales cycle and variations in the length of sales cycles;

product quality issues;

inability of third party manufacturers to produce quality products on time;

failure to achieve targeted product cost reductions and operating expense reductions;

the timely introduction and market acceptance of new products and services;

excess inventory or insufficient inventory to meet demand; or

litigation.

Any of the foregoing factors, or any other factors discussed elsewhere herein, could have a material adverse effect on the business, results of operations and financial condition of Nanometrics.

The combined company will be dependent on its suppliers, some of which will likely be the sole source for certain components and elements of its technology, and the combined company's production or reputation could be seriously harmed if these suppliers were unable to timely meet its demand or technical requirements on a cost effective basis.

The combined company's products will contain components and subassemblies that are procured from a variety of suppliers. The cost, quality and availability of components will be essential to the successful production and sale of its products. Some components and subassemblies will likely come from sole or limited source suppliers. Alternative sources may not always be available or may be cost prohibitive. If suppliers were unable or unwilling to meet the combined company's needs for sole source components and if the combined company is unable to obtain an alternative source or if the price for an alternative source is prohibitive, the combined company's ability to maintain timely and cost-effective production of its products would be seriously harmed.

The combined company is expected to be dependent on contract manufacturers to manufacture many of the components and subassemblies for its products. Nanometrics and Accent Optical do not have long-term supply contracts with these manufacturers, and changes to those relationships, expected or unexpected, may result in delays or disruptions that could cause the combined company to lose revenue and damage its customer relationships.

Edgar Filing: NANOMETRICS INC - Form S-4

The combined company is expected to be dependent on contract manufacturers (each of whom is typically a third party manufacturer for numerous companies) to manufacture many of the components and subassemblies for its products. Nanometrics has no long-term supply contracts with such manufacturers and if the combined company should fail to effectively manage its contract manufacturer relationships or if one or more of them should experience delays, disruptions or quality control problems in its manufacturing operations, the combined company's ability to ship products to its customers could be delayed which could adversely affect its business and financial results.

Table of Contents

A limited number of Nanometrics and Accent Optical's customers will continue to comprise a significant portion of the combined company's revenues and any decrease in revenue from these customers could have an adverse effect on the combined company.

Even though the combined company's customer base is expected to increase as a result of the merger, a large portion of the combined company's net revenues will likely continue to depend on sales to a limited number of customers. During 2005, sales to its top 10 customers accounted for 74.2% of Nanometrics' net revenues. During 2005, sales to Accent Optical's 10 largest customers accounted for 49.3% of its net revenues. Any downturn in the business of these customers or potential new customers could significantly decrease sales to those customers which, in turn, could adversely affect the combined company's net revenues and results of operations.

The cyclical nature of the semiconductor industry may adversely impact the combined company's operating results.

The semiconductor industry is highly cyclical and subject to rapid technological change. From time to time, the semiconductor industry has experienced significant economic downturns, including the recent downturn, characterized by diminished product demand, accelerated erosion of prices and excess production capacity. The industry also periodically experiences increased demand and production capacity constraints. Because the combined company's revenues will be dependent upon capital equipment spending by semiconductor manufacturers to increase their capacity or transition to a new process geometry, the combined company's operating results may vary significantly as a result of general conditions in the semiconductor industry.

Nanometrics and Accent Optical's products are highly technical and if they contain undetected errors, the combined company's business could be adversely affected.

Nanometrics and Accent Optical's products are highly technical and complex. Technically complex products such as those of Nanometrics and Accent Optical may contain undetected errors or defects, some of which may only be discovered after a product has been installed and used by customers. Any errors discovered in the products offered by the combined company after commercial release could result in loss of revenue or delay in revenue recognition, loss of customers and increased service and warranty cost, any of which could adversely affect the combined company's reputation, business and results of operations.

Third parties have claimed and may claim in the future that Nanometrics, Accent Optical or the combined company have infringed or are infringing their intellectual property which claims may result in the combined company incurring significant litigation or licensing expenses or being prevented from selling certain of its products if the claims are successful.

In the normal course of business, Nanometrics and Accent Optical have each received claims of infringement or otherwise become aware of potentially relevant patents or other intellectual property rights held by other parties. For example, Nanometrics announced on March 14, 2005 that it had received notice of a patent infringement lawsuit brought by Nova Measuring Instruments, Ltd. alleging infringement of United States Patent No. 6,752,689, or the '689 Patent. Also, in August 2005, Nanometrics was served with a complaint by KLA-Tencor Corporation alleging that certain of our products infringe two of KLA's patents, Patent No. 6,483,580 and Patent No. 6,590,656. In January 2006, KLA added Patent No. 6,611,330 to their claim. In March 2006, the court granted Nanometrics' motion to stay the proceedings pending a re-examination of the KLA patents by the U.S. Patent and Trademark Office.

Upon receipt of a claim or becoming aware of potentially relevant patents or other intellectual property rights, the combined company will evaluate the validity and applicability of its intellectual property rights, and determine in each case whether it must negotiate licenses or cross-licenses to incorporate or use the proprietary technologies in its products. Third parties may claim that Nanometrics, Accent Optical and/or the combined company or their customers are infringing or contributing to the infringement of their intellectual property rights, and the combined company may be found to infringe or contribute to the infringement of those intellectual

Table of Contents

property rights and require a license to use those rights. Nanometrics, Accent Optical and/or the combined company may be unaware of intellectual property rights of others that may cover some of their respective technology, products and services.

Any litigation regarding patents or other intellectual property could be costly and time consuming and could divert the attention of management and key personnel from the combined company's business operations. The complexity of the technology involved and the uncertainty of litigation generally increase the risks associated with intellectual property litigation. Moreover, patent litigation has increased recently due to the current uncertainty of the law and the increasing competition and overlap of product functionality in the markets served by Nanometrics and Accent Optical. Claims of intellectual property infringement might also require Nanometrics, Accent Optical and/or the combined company to enter into costly royalty or license agreements or to indemnify its customers. However, the combined company may not be able to obtain royalty or license agreements on terms acceptable to it or at all. The combined company also may be subject to significant damages or injunctions against development and sale of its products.

If third parties infringe the intellectual property of the combined company or if the combined company is unable to secure and protect its intellectual property, the combined company may expend significant resources enforcing its rights or suffer competitive injury.

The success of the combined company will depend in large part on its proprietary technology and other intellectual property rights. Nanometrics and Accent Optical each rely on a combination of patents, copyrights, trademarks and trade secrets, confidentiality provisions and licensing arrangements to establish and protect their proprietary rights. If the combined company fails to protect or to enforce its intellectual property rights successfully, the combined company's competitive position could suffer, which could harm its operating results.

Nanometrics and Accent Optical's pending patent and trademark applications for registration may not be allowed, or third parties may challenge the validity or scope of such patents or trademarks, including the patent or trademark applications or registrations. Even if the patent or trademark registrations are issued and maintained, these patents or trademarks may not be of adequate scope or benefit to the combined company or may be held invalid and unenforceable against third parties.

The combined company may be required to spend significant resources to monitor and police its intellectual property rights. Effective policing of the unauthorized use of the combined company's products or intellectual property is difficult and litigation may be necessary in the future to enforce its intellectual property rights. Intellectual property litigation is expensive and time-consuming, regardless of the merits of any claim, and could divert the attention of the combined company's management from operating the business. The combined company may not be able to detect infringement despite its efforts and may lose competitive position in the market before it does so. In addition, competitors may design around the combined company's technology or develop competing technologies.

Despite the efforts of Nanometrics and Accent Optical to protect their proprietary rights, existing laws, contractual provisions and remedies afford only limited protection. Intellectual property lawsuits are subject to inherent uncertainties due to, among other things, the complexity of the technical issues involved, and there can be no assurance that the combined company will be successful in asserting its intellectual property claims. Attempts may be made to copy or reverse engineer aspects of Nanometrics and/or Accent Optical's products or to obtain and use information that is regarded as proprietary. Accordingly, there can be no assurance that the combined company will be able to protect its proprietary rights against unauthorized third-party copying or use. Infringement by others of such proprietary rights could materially harm the combined company's business.

Table of Contents

Nanometrics and Accent Optical have international presences in countries whose laws may not provide protection of their intellectual property rights to the same extent as the laws of the United States, which may make it more difficult to protect the combined company's intellectual property.

Nanometrics and Accent Optical have both targeted countries with large populations and propensities for adopting new technologies as a part of their business plans. However, some of these countries do not have or vigorously enforce laws designed to prevent misappropriation of intellectual property or to deter others from developing similar, competing technologies or intellectual property that otherwise infringe upon existing proprietary technology. Effective protection of patents, copyrights, trademarks, trade secrets and other intellectual property may be unavailable or limited in some countries in which the combined company does business. As a result, the combined company may not be able to effectively prevent competitors in these regions from infringing its intellectual property rights, which would reduce the combined company's ability to compete in those regions and could negatively impact its business.

Nanometrics and Accent Optical are subject to litigation claims as part of their operations, and the combined company could suffer significant litigation expenses in defending these claims and could be subject to significant damages or remedies that would harm its business.

In the normal course of business, Nanometrics expects that the combined company (consistent with their experience) will occasionally receive general claims related to the conduct of their business and the performance of their products and services, as well as other litigation claims. Any litigation regarding these claims could be costly and time-consuming and could divert the attention of the combined company's management and key personnel from its business operations. The complexity of the technology involved and the uncertainty of litigation increase these risks. The combined company also may be subject to significant damages or equitable remedies regarding the development and sale of its products and the operation of its business.

Due to the global nature of the combined company's operations, economic or social conditions or changes in a particular country or region could adversely affect the combined company's sales or increase its costs and expenses, which could have a material adverse impact on its financial condition.

Nanometrics currently conducts significant sales and customer support operations directly and indirectly through its facilities, distributors and resellers outside of the United States. Accent Optical also maintains a substantial portion of its business and operations outside of the United States, with its primary manufacturing facility located in York, England. Both companies depend on the operations of contract manufacturers and suppliers that are located outside of the United States. During 2005, sales outside of the United States accounted for 66.7% of Nanometrics net revenues and 71.8% of Accent Optical's net revenues. Accordingly, the combined company's future results could be materially adversely affected by a variety of uncontrollable and changing factors including, among others,

political or social unrest or economic instability in a specific country or region;

military and terrorism risks;

trade protection measures and import or export licensing requirements;

changes in a specific country's or region's political or economic conditions, particularly in emerging markets;

changes in employment, environmental and other local laws applicable to the combined company's operations in foreign jurisdictions;

potentially negative consequences from changes in tax laws in the foreign jurisdiction or with respect to the tax treaty between the jurisdiction and the United States;

difficulty in managing widespread operations; and

difficulty in managing a geographically dispersed workforce.

Table of Contents

Any or all of these factors could have a material adverse impact on the combined company's revenue, expenses and financial condition following completion of the merger.

Future acquisitions or investments that the combined company may make could disrupt its business and harm its financial condition and may dilute the ownership of Accent Optical stockholders.

Each of Nanometrics and Accent Optical has made, and the combined company may continue to make, acquisitions in order to enhance its business. For example, on March 15, 2006, Nanometrics announced that it had purchased Soluris. Acquisitions involve numerous risks, including problems combining the purchased operations, technologies or products, unanticipated costs, diversion of management's attention from its core businesses, adverse effects on existing business relationships with suppliers and customers, risks associated with entering markets in which the combined company has no or limited prior experience and potential loss of key employees. There can be no assurance that the combined company will be able to successfully integrate any businesses, products, technologies or personnel of Soluris or any other company that it might acquire in the future. The integration of businesses that each of Nanometrics and Accent Optical has acquired has been, and will continue to be, a complex, time-consuming and expensive process. Additionally, if the combined company fails to efficiently operate as a combined organization utilizing common information and communication systems, operating procedures, financial controls and human resources practices, its business and financial condition may be adversely affected. In the event of any such investments or acquisitions, the combined company could issue stock that would dilute its then current shareholders' percentage ownership, incur debt, assume liabilities, incur amortization expenses related to purchases of intangible assets, or incur large write-offs.

Risks Related to Nanometrics' Business

Cyclical nature of the semiconductor industry has led to substantial fluctuations in demand for Nanometrics systems, and this cyclical nature may, from time to time, continue to cause these fluctuations.

Nanometrics' operating results have varied significantly from period to period due to the cyclical nature of the semiconductor industry. The majority of Nanometrics' business depends upon the capital expenditures of semiconductor device and equipment manufacturers. These manufacturers' capital expenditures, in turn, depend upon the current and anticipated market demand for semiconductors and products using semiconductors. The semiconductor industry is cyclical and has historically experienced periodic downturns. These downturns have often resulted in substantial decreases in the demand for semiconductor manufacturing equipment, including metrology systems. Nanometrics has found that the resulting decrease in capital expenditures has typically been more pronounced than the downturn in semiconductor device industry revenues. Nanometrics expects the cyclical nature of the semiconductor industry, and therefore, its business, to continue in the foreseeable future. Recently, the semiconductor industry emerged from a sustained downturn. Should this trend reverse and the downturn resume, the Nanometrics business and results of operations would suffer.

Because Nanometrics derives a significant portion of its revenues from sales in Asia, Nanometrics' revenues and results of operations could be adversely affected by the instability of Asian economies.

Revenues from customers in Asian markets represented approximately 65.5%, 68.8% and 72.7% of Nanometrics' total net revenues in 2005, 2004 and 2003, respectively. Countries in the Asia Pacific region, including Japan, South Korea and Taiwan, each of which accounted for a significant portion of Nanometrics' business in Asia, experienced general economic weaknesses in 2002 and 2003, which adversely affected Nanometrics' revenues at that time. It is anticipated that Nanometrics will continue to rely upon customers in Asia for a majority of its revenues and any future weaknesses or instabilities in the economies of countries in Asia may continue to have a material adverse effect on Nanometrics' results of operations and financial condition.

Table of Contents

Nanometrics depends on Applied Materials, Inc. and other OEM suppliers for sales of Nanometrics integrated metrology systems, and the loss of Applied Materials or any other Nanometrics OEM suppliers as a customer could harm its business.

Nanometrics believes that sales of integrated metrology systems will continue to be an important source of its revenues. Sales of Nanometrics integrated metrology systems depend upon the ability of Applied Materials, Inc. to sell semiconductor equipment products that include Nanometrics metrology systems as components. If Applied Materials is unable to sell such products, or if Applied Materials chooses to focus its attention on products that do not integrate Nanometrics systems, its business could suffer. If Nanometrics were to lose Applied Materials as a customer for any reason, its ability to realize sales from integrated metrology systems would be significantly diminished, which would harm its business.

Nanometrics largest customers account for a substantial portion of its revenue, and its revenue would materially decline if one or more of these customers were to purchase significantly fewer of Nanometrics systems or if they delayed or cancelled a large order.

Historically, a significant portion of Nanometrics revenues in each quarter and each year has been derived from sales to a relatively few number of customers, and this trend is expected to continue. There are only a limited number of large companies operating in the semiconductor industry. Accordingly, Nanometrics expects that it will continue to depend on a small number of large customers for a significant portion of its revenues for the foreseeable future. If any of Nanometrics key customers were to purchase significantly fewer systems, or if a large order were delayed or cancelled, Nanometrics revenues could significantly decline. In 2005, sales to Applied Materials accounted for 20.6% and sales to Samsung Electronics Co. Ltd. accounted for 15.9% of Nanometrics total net revenues, respectively. In 2004, sales to Applied Materials accounted for 21.4% and sales to Samsung accounted for 14.7% of Nanometrics total net revenues, respectively. In 2003, sales to Applied Materials accounted for 15.4% and sales to Hynix Semiconductor, Inc. accounted for 12.0% of Nanometrics total net revenues, respectively.

The success of Nanometrics product development efforts depends on Nanometrics ability to anticipate market trends and the price, performance and functionality requirements of semiconductor device manufacturers. In order to anticipate these trends and ensure that critical development projects proceed in a coordinated manner, Nanometrics must continue to collaborate closely with its customers. Nanometrics relationships with its customers provides it with access to valuable information regarding industry trends, which enables Nanometrics to better plan its product development activities. If Nanometrics current relationships with its large customers are impaired, or if it is unable to develop similar collaborative relationships with important customers in the future, Nanometrics long-term ability to produce commercially successful systems could be adversely affected.

Nanometrics current and potential competitors have significantly greater resources than it does, and increased competition could impair sales of Nanometrics products.

Nanometrics operates in the highly competitive semiconductor industry and faces competition from a number of companies, many of which have greater financial, engineering, manufacturing, marketing and customer support resources than Nanometrics does. As a result, Nanometrics competitors may be able to respond more quickly to new or emerging technologies or market developments by devoting greater resources to the development, promotion and sale of products, which could impair sales of Nanometrics products. Moreover, there has been merger and acquisition activity among Nanometrics competitors and potential competitors. These transactions by competitors and potential competitors may provide them with a competitive advantage over Nanometrics by enabling them to rapidly expand their product offerings and service capabilities to meet a broader range of customer needs. Many of Nanometrics customers and potential customers in the semiconductor industry are large companies that require global support and service for their metrology systems. Some of Nanometrics larger or more geographically diverse competitors might be better equipped to provide this global support.

Table of Contents

If any of Nanometrics' systems fail to meet or exceed internal quality specifications, Nanometrics typically will not ship them until such time as they have met such specifications. If Nanometrics experiences significant delays or is unable to ship its products to customers as a result of internal processes, or for any other reason, its business and reputation may suffer.

Nanometrics' products are complex and require technical expertise to design and manufacture properly. Various problems occasionally arise during the manufacturing process that may cause delays and/or impair product quality. Nanometrics must actively monitor its manufacturing processes to ensure that its products meet internal quality specifications. Any significant delays stemming from the failure of Nanometrics' products to meet or exceed internal quality specifications, or for any other reasons, would delay shipments. Shipment delays could harm Nanometrics' business and reputation in the industry.

If Nanometrics delivers systems with defects, its credibility will be harmed, revenue from, and market acceptance of, its systems will decrease and it could expend significant capital and resources as a result of such defects.

Notwithstanding its internal quality specifications, Nanometrics' systems have sometimes contained errors, defects and bugs when introduced. If Nanometrics delivers systems with errors, defects or bugs, its credibility and the market acceptance and sales of its systems would be harmed. Further, if Nanometrics' systems contain errors, defects or bugs, Nanometrics may be required to expend significant capital and resources to alleviate such problems. Defects could also lead to product liability as a result of product liability lawsuits against Nanometrics or against its customers. Nanometrics has agreed to indemnify its customers in some circumstances against liability arising from defects in Nanometrics' systems. In the event of a successful product liability claim, Nanometrics could be obligated to pay damages significantly in excess of its product liability insurance limits.

Relatively small fluctuations in the sales volume of Nanometrics' systems may cause its operating results to vary significantly each quarter.

During any quarter, a significant portion of Nanometrics' revenue is derived from the sale of a relatively small number of systems. Nanometrics' automated metrology systems range in price from approximately \$200,000 to over \$1,000,000 per system, integrated metrology systems range in price from approximately \$80,000 to \$400,000 per system and tabletop metrology systems range in price from approximately \$50,000 to \$200,000 per system. Accordingly, a small change in the number or mix of systems that Nanometrics sells could cause significant changes in its operating results.

Nanometrics depends on orders that are received and shipped in the same quarter, and therefore its results of operations may be subject to significant variability from quarter to quarter.

Nanometrics' net sales in any given quarter depend upon a combination of orders received in that quarter for shipment in that quarter and shipments from backlog. Nanometrics' backlog at the beginning of each quarter does not include all systems sales needed to achieve expected revenues for that quarter. Consequently, Nanometrics is dependent on obtaining orders for systems to be shipped in the same quarter that the order is received. Moreover, customers may reschedule shipments, and production difficulties could delay shipments. Accordingly, Nanometrics has limited visibility into future product shipments, and its results of operations may be subject to significant variability from quarter to quarter.

Because of the high cost of switching equipment vendors, it is sometimes difficult for Nanometrics to attract customers from its competitors even if the Nanometrics metrology systems are superior to those of its competitors.

Once a semiconductor customer has selected one vendor's metrology system, the customer generally relies upon that system and, to the extent possible, subsequent generations of the same vendor's system, for the life of the application. Once a vendor's metrology system has been installed, a customer must often make substantial

Table of Contents

technical modifications and may experience downtime in order to switch to another vendor's metrology system. Accordingly, unless Nanometrics systems offer performance or cost advantages that outweigh a customer's expense of switching to Nanometrics systems, it will be difficult for Nanometrics to achieve significant sales from that customer once it has selected another vendor's system for an application.

Nanometrics manufactures all of its systems at a limited number of facilities, and any prolonged disruption in the operations of those facilities could reduce its revenues.

Nanometrics produces all of its systems in its manufacturing facilities located in Milpitas, California and, to a lesser extent, through its subsidiaries in Japan and South Korea. Nanometrics manufacturing processes are highly complex and require sophisticated, costly equipment and specially designed facilities. As a result, any prolonged disruption in the operations of its manufacturing facilities, such as those resulting from a severe fire or earthquake, could seriously harm Nanometrics' ability to satisfy its customer order deadlines. A significant portion of Nanometrics' operations are located in Japan, Taiwan and South Korea, which may be subject to regional political and economic instability.

Nanometrics' customers may cease purchasing its systems at any time.

Nanometrics typically does not have long-term purchase commitments from its customers or a substantial noncancelable backlog. Therefore, generally:

Nanometrics' customers are not obligated to purchase a specified number of its systems and can cancel purchase orders or return systems prior to payment;

Nanometrics' customers are free to purchase systems from its competitors;

Nanometrics is exposed to competitive price pressure on each order; and

Nanometrics' customers are not required to make minimum purchases.

As a result, Nanometrics' sales and revenues over the long term will depend on its ability to provide its customers with the best systems and service. Depending on customers' needs and competitive conditions in the marketplace, anticipated system orders may not materialize, and orders that do materialize may be cancelled or delayed. The lack of long-term purchase commitments from customers and a substantial noncancelable backlog may impede the Nanometrics' ability to allocate its capacity efficiently and forecast its future revenues. In addition, because Nanometrics' expense levels will be based in part on its expectations of future revenues, it may be unable to adjust costs in a timely manner to offset revenue shortfalls.

Risks Related to Accent Optical's Business

Accent Optical has experienced net losses during its limited history operating as an independent company.

From the inception of Accent Optical's business on April 6, 2000 through December 31, 2005, Accent Optical incurred cumulative net losses of \$30.4 million. While Accent Optical achieved net income in the period starting on the date of inception and ending December 31, 2000, it has subsequently incurred net losses each year and may continue to do so in the future. Further, to support its worldwide customer base, Accent Optical maintains significant operations around the world. Accent Optical's revenues may not be sufficient to cover the costs of sustaining these operations.

The factors that have most significantly affected Accent Optical's business in the past are the demand for semiconductor devices and the rate of capital spending by semiconductor device and wafer manufacturers, both of which adversely affected Accent Optical's operating results during a cyclical industry downturn in 2002 and 2003. Accent Optical's operating results have also been negatively affected by order patterns and competitive conditions, including, for example, a significant competitive loss at Accent Optical's then largest customer, Intel

Table of Contents

Corporation in 2002. Accent Optical expects these factors to continue to be among the most important factors affecting its operating results in the future.

Accent Optical's business plan is premised in part on growth in the market for lattice engineering metrology systems and its business will not be successful if this market does not develop as expected.

Accent Optical's business plan is premised in part on growth in the demand for advanced semiconductor devices such as compound semiconductors, high brightness LEDs (HBLEDs) and strained silicon devices and the adoption of technologies for manufacturing these devices that are compatible with its metrology systems. If the market for these advanced semiconductor devices fails to grow as expected or if the manufacturers of these advanced semiconductor devices do not adopt manufacturing technologies for which Accent Optical's metrology systems are not well suited, the demand Accent Optical anticipates for its lattice engineering metrology systems will not materialize.

Accent Optical's systems have long development cycles, and it may encounter numerous obstacles to successful commercialization.

As the semiconductor industry is characterized by rapid change, emerging standards and the introduction of new technologies, Accent Optical expects to spend a significant amount of time and resources to develop new systems and upgrades for its existing systems. In light of the long product development cycles inherent in Accent Optical's industry, it will make these expenditures well in advance of any revenues from the sale of new systems and upgrades. Accent Optical's ability to commercially introduce and successfully market any new system or upgrade is subject to a variety of challenges including problems associated with transitioning development prototypes to production, design defects and other challenges that could increase Accent Optical's costs and prevent or delay introduction of these systems or upgrades to the marketplace. If it is unable to introduce new systems or upgrades on a timely basis, or if it is unable to recover the research and development costs associated with such systems, Accent Optical's operating results and financial condition would be harmed.

The high cost of switching system vendors in Accent Optical's markets makes it difficult for us to win customers from its competitors even if its systems are superior.

Once a vendor's system has been installed in a production line application, a semiconductor device manufacturer must often make costly technical modifications, retrain personnel and suffer production downtime in order to switch to another vendor's system. To avoid these costs, semiconductor device manufacturers generally rely upon the system from the incumbent vendor and, to the extent possible, subsequent generations of the same vendor's system, for the life of the application. Accordingly, unless Accent Optical's systems offer performance or cost advantages that substantially outweigh the expense of switching to Accent Optical's systems, it will be difficult for us to achieve significant sales to a potential customer after it has selected another vendor's system.

The markets in which Accent Optical participates are intensely competitive, and if it is unable to compete effectively, its business would be harmed.

Accent Optical competes in the emerging market for lattice engineering metrology systems and the more mature market for photolithography process control and metrology systems. The market for lattice engineering metrology systems is highly fragmented. Competition typically consists of privately held companies or divisions of large, established companies such as Spectris plc and Thermo Electron Corporation. Accent Optical expects intense competition in this market to continue. Accent Optical's market share and operating results can fluctuate dramatically as a result of the introduction of new, competitive systems and the ability of competitors to secure patent and other intellectual property rights.

The market for photolithography process control and metrology systems is highly competitive with numerous large, established companies. Accent Optical's most significant competitors in this market are Hitachi,

Table of Contents

Ltd., KLA-Tencor Corporation, Nikon Instruments Inc., Therma-Wave, Inc. and Timbre Technologies, Inc., a subsidiary of Tokyo Electron Limited (TEL). These companies have substantially superior distribution capabilities and larger research and development budgets than Accent Optical does and greater ability to offer bundled and integrated product offerings to customers. In addition, significant competition for Accent Optical s critical dimension systems has emerged from manufacturers of traditional reflectometers and ellipsometers, such as Rudolph Technologies, that have extended their technology by using new algorithms that enable their tools to perform critical dimension measurements.

Many of Accent Optical s existing and potential competitors in both the lattice engineering metrology and photolithography process control and metrology markets have greater name recognition, larger customer bases, more established customer relationships and greater financial, technical, manufacturing, marketing and other resources than Accent Optical does. As a result, they may be able to respond more quickly to new or emerging technologies and to changes in customer requirements, to devote greater resources to the development, promotion, sale and support of their products and to reduce prices to increase market share. They may also be able to drive industry standards or influence standard-setting bodies in order to limit Accent Optical s access to or exclude us from markets. If the research and development efforts of Accent Optical s competitors are more effective than Accent Optical s own, some or all of Accent Optical s systems and technologies may become non-competitive or obsolete. Potential customers may also decide for risk management reasons to purchase products from Accent Optical s larger competitors who have greater financial resources than it does. Moreover, there has been significant merger and acquisition activity among Accent Optical s existing and potential competitors. These combinations may provide Accent Optical s existing and potential competitors with an advantage over us by enabling them to expand their product offerings and service capabilities to meet a broader range of customer needs.

Sales of Accent Optical s photolithography process control and metrology systems are subject to decline if the market adopts the competitive integrated metrology.

A significant portion of Accent Optical s revenues are derived from the sale of stand-alone overlay and critical dimension systems that are used to detect and diagnose problems in the photolithography process. Semiconductor device manufacturers may demand integration of these metrology systems with other semiconductor processing equipment to lower their costs. To provide integrated systems, Accent Optical would need to establish relationships with a small number of original equipment manufacturers, or OEMs, that control a large portion of the semiconductor processing systems markets. Some of these OEMs are Accent Optical s competitors or may choose to work with its competitors to Accent Optical s exclusion. Furthermore, Accent Optical may not be able to timely or cost-effectively adapt its systems to be competitive in the market for integrated metrology tools. If Accent Optical is unable to compete effectively with integrated metrology systems, or if it is unable to establish relationships with OEMs on commercially satisfactory terms, its sales, operating results and financial condition would be harmed.

Sales to manufacturers of HBLEDs may be negatively impacted by lawsuits and intellectual property disputes.

Accent Optical s future success will depend in part on growth in the worldwide market for semiconductor devices such as HBLEDs. The HBLED market consists of a few large manufacturers, several of whom have asserted infringement of intellectual property rights against each other. This litigation, if it continues, may constrain market acceptance of HBLED products. Further, a resolution that requires manufacturers to pay royalties to intellectual property holders or that similarly increases costs for manufacturers, may result in investment decisions or pricing that delays or prevents market acceptance. Accent Optical supplies lattice engineering metrology systems to the manufacturers of HBLEDs and, to the extent that the sales growth of their products is limited, it would reduce the demand for Accent Optical s systems.

Table of Contents

Accent Optical manufactures most of its systems at a single facility, and its results of operations would be harmed if manufacturing disruptions cause it to not meet customer requirements.

Accent Optical manufactures most of its systems in York, United Kingdom. Accent Optical's manufacturing operations could be disrupted as a result of a number of events, including power outages, fire, or other natural or man-made catastrophes. As part of its restructuring efforts in 2003, Accent Optical closed its operations in Randolph, Massachusetts, Waterloo, Canada and Albuquerque, New Mexico. The Randolph facility was primarily responsible for Accent Optical's fourier transform infrared scatterometers (FTIR) product line including engineering, product marketing, final test and qualification. Accent Optical has transferred all production, testing and qualification procedures to its primary manufacturing facility in York. The Waterloo facility was responsible for engineering, product marketing, final test and manufacturing of Accent Optical's Vektor and PLM 100 systems. Accent Optical has transferred all such activities to its facilities in the United Kingdom. The Albuquerque facility was responsible for engineering, product marketing, final test and qualification of Accent Optical's critical dimension scatterometers (CDS) product line, all of which have been transferred to its York facility and its Bend, Oregon facilities. Accent Optical may experience difficulties meeting delivery deadlines and quality expectations during the transition period.

Quorum and Vote Required

A quorum of shareholders is necessary to hold a valid special meeting of Nanometrics shareholders. In order to have a quorum for the transaction of business at the Nanometrics special meeting, a majority of shares of Nanometrics common stock issued and outstanding and entitled to vote on the record date must be present in person or by proxy. Shares that are voted FOR, AGAINST or ABSTAIN a matter are treated as being present at the special meeting for purposes of establishing a quorum.

Approval of the issuance of shares of Nanometrics common stock in the merger will require the affirmative vote of the holders of a majority of the shares of Nanometrics common stock represented and voting at the Nanometrics special meeting.

Voting Agreements

All of the Nanometrics directors and executive officers have entered into voting agreements with Accent Optical pursuant to which they have agreed to vote their shares of Nanometrics common stock in favor of the proposal to approve the issuance of shares of Nanometrics common stock in the merger.

provided by their brokers, banks, or other nominee and returning their voting instruction forms as directed therein. Voting by Proxy

All properly executed proxies that are received prior to the Nanometrics special meeting and not revoked will be voted at the special meeting according to the instructions indicated on the proxies. For example, if you hold shares through someone else, such as a broker, you may get proxy materials from that person.

Changing Your Vote

If you are the record holder of your shares of Nanometrics common stock, you can change your vote at any time before your proxy is voted at the Nanometrics special meeting by:

delivering to the Nanometrics corporate secretary a signed notice of revocation;

Your attendance alone will not revoke your previously granted proxy.

If you hold your shares in street name and you have provided voting instructions to your broker, bank or other nominee for the Nanometrics special meeting, you must follow the instructions of your broker, bank or other nominee in order to change your vote or revoke your proxy for the Nanometrics special meeting.

Abstentions and Broker Non-Votes

An abstention occurs when a shareholder attends a meeting, either in person or by proxy, but abstains from voting. While there is no definitive statutory or case law authority in California as to the proper treatment of abstentions, Nanometrics believes that abstentions should be counted for purposes of determining both (i) the presence or absence of a quorum for the transaction of business and (ii) the total number of shares of Nanometrics common stock represented and voting with respect to a proposal. In the absence of controlling authority to the contrary, Nanometrics intends to treat abstentions in the following manner:

Broker non-votes are shares held by a broker or other nominee that are represented at the special meeting, but with respect to which the broker or nominee is not instructed by the beneficial owner of the shares to vote on the particular proposal and the broker does not have discretionary voting power on the proposal. Broker non-votes will be counted for purposes of determining the presence or absence of a quorum but will not be counted for purposes of determining the number of shares represented and voting with respect to a proposal.

For the proposal to issue shares of Nanometrics common stock, abstentions will be counted towards a quorum, but will not be counted for any purpose in determining whether the proposal is approved.

PROPOSAL ONE-THE MERGER

Background of the Merger

In their ongoing evaluations of their respective businesses, the Nanometrics and Accent Optical boards of directors have, in the past, periodically considered various strategic opportunities to enhance their respective brands and build shareholder value. Nanometrics had, from time to time over the past several years, begun preliminary discussions with various parties, including Accent Optical, with respect to potential strategic transactions.

As a result of the abandonment of its plans for an initial public offering of common stock in 2004, Accent Optical's board of directors increasingly focused on selling all or a part of its business to improve its ability to fund its operations and growth. In March 2005, Accent Optical retained Merrill Lynch as a financial advisor in connection with consideration of such transactions. With Merrill Lynch's assistance, Accent Optical continued to contact potential purchasers in order to discuss the sale of all or a part of the Accent Optical business.

In July 2005, John D. Heaton, the President and Chief Executive Officer of Nanometrics, met with Bruce C. Rhine, Chairman and Chief Executive Officer of Accent Optical, at a trade show in San Francisco, California. During the meeting, Messrs. Heaton and Rhine discussed the potential for Nanometrics to purchase Accent Optical's overlay metrology business.

As a result of this meeting, Messrs. Heaton and Rhine continued periodic discussions regarding the potential asset purchase.

Beginning in September 2005, Mr. Heaton, along with Douglas J. McCutcheon, Nanometrics' Chief Financial Officer, and a representative of Headgate Partners LLC, a consulting firm, had several teleconferences with Mr. Rhine, other representatives of Accent Optical and Merrill Lynch about a potential asset purchase.

On October 4, 2005, Messrs. Heaton and McCutcheon had a telephone conference with Mr. Rhine and Reid Langrill, Accent Optical's Chief Financial Officer, during which those present discussed a broader strategic transaction between the parties that could include a purchase of additional assets or a merger of the two companies.

Thereafter, on October 13, 2005, Messrs. McCutcheon and Langrill had a telephone discussion regarding the financial performance and finance organization of the respective companies. They also discussed potential synergies that could result from the proposed strategic transaction.

On October 17, 2005, Messrs. Heaton and McCutcheon discussed the terms of a proposed strategic transaction with Mr. Rhine and a representative of Merrill Lynch. The transaction contemplated was an all-stock acquisition of Accent Optical by Nanometrics.

On October 18, 2005, a representative of Merrill Lynch called Mr. McCutcheon to discuss further the proposed strategic transaction. Subsequently, during a call on October 21, 2005, Accent Optical proposed modifications to the nonbinding preliminary proposal made on October 17, 2005 by Messrs. Heaton and McCutcheon.

On October 25, 2005, Messrs. Heaton and McCutcheon spoke by telephone with Mr. Rhine and a representative of Merrill Lynch. During that call, the representatives of Nanometrics indicated that Nanometrics was unwilling to accept the changes proposed by Accent Optical on October 21, 2005. Mr. Heaton subsequently confirmed the discussion in an e-mail to Mr. Rhine.

Table of Contents

On October 28, 2005, Messrs. Heaton and McCutcheon and a representative of Headgate Partners had a telephone conference with Mr. Rhine and representatives of Merrill Lynch. During the conference, the Nanometrics representatives discussed a revised nonbinding proposal by Nanometrics to acquire Accent Optical. Subsequently, via e-mail on October 31, 2005, Mr. Heaton confirmed terms of the nonbinding proposal to Mr. Rhine.

On November 3, 2005, Messrs. Heaton and McCutcheon and a representative of Headgate Partners had another call with Mr. Rhine to review in greater detail the terms and conditions of the nonbinding proposal. During a November 4, 2005 conference call with representatives of Nanometrics, Accent Optical, Headgate Partners and Merrill Lynch presented certain proposed revisions to Nanometrics' proposal. Later that day, Mr. Heaton indicated via e-mail to Mr. Rhine that Nanometrics was not amenable to the proposed revisions and suggested that Nanometrics and Accent Optical discontinue discussions.

On November 5, 2005, Mr. Rhine and Mr. Heaton spoke by telephone and Mr. Rhine reinforced Accent Optical's interest in pursuing a business combination transaction with Nanometrics. In that meeting, Messrs. Heaton and Rhine preliminarily agreed to negotiate the acquisition of Accent Optical by Nanometrics pursuant to the November 3, 2005 nonbinding proposal.

On November 14, 2005, Mr. Rhine traveled to Nanometrics' headquarters in Milpitas, California to meet with Messrs. Heaton and McCutcheon and Vincent Coates, Chairman of the Nanometrics board of directors. During the meetings, the parties agreed to begin drafting a confidentiality agreement and preliminary term sheet to guide future discussions and the negotiation of a definitive agreement.

On November 18, 2005, representatives of Wilson Sonsini Goodrich & Rosati, Professional Corporation (WSGR), Nanometrics' legal counsel, sent drafts of a non-binding preliminary term sheet and confidentiality agreement to representatives of Perkins Coie LLP, Accent Optical's legal counsel. Representatives of WSGR and Perkins Coie continued to negotiate the confidentiality agreement and non-binding term sheet from November 18, 2005, to November 29, 2005.

On November 29, 2005, Mr. Rhine and Mr. Heaton discussed the substantive open issues on the preliminary term sheet and confidentiality agreement and scheduled a trip for Mr. Heaton to visit the Accent Optical facilities in Bend, Oregon.

On November 30, 2005, the Nanometrics board of directors had a regularly scheduled meeting. Also present were Mr. McCutcheon and representatives of WSGR. In addition to the regularly scheduled agenda items, Mr. Heaton reviewed the status of discussions regarding the proposed acquisition of Accent Optical by Nanometrics. Mr. Heaton also reviewed anticipated strategic and operational benefits of a transaction with Accent Optical. During the meeting, the Nanometrics board of directors authorized management to continue negotiations with Accent Optical and to enter into the non-binding term sheet and confidentiality agreement with such revisions as would be approved by Messrs. Heaton and McCutcheon and legal counsel.

On December 2, 2005, Mr. Heaton met with Messrs. Rhine and Langrill at Accent Optical's headquarters in Bend, Oregon to discuss Accent Optical's business and intellectual property. On December 3, 2005, Messrs. Heaton and Rhine discussed by telephone the remaining unresolved issues on the non-binding term sheet and confidentiality agreement.

On December 5, 2005, the Accent Optical board of directors met to consider the proposed acquisition as well as the preliminary non-binding term sheet and confidentiality agreement. Also present at the meeting were Mr. Langrill and representatives of Merrill Lynch and Perkins Coie. Mr. Rhine presented the proposal from Nanometrics, including the proposed exclusivity period through January 10, 2006. After discussion, the Accent Optical authorized Mr. Rhine to enter into the non-binding term sheet and confidentiality agreement on substantially the terms presented.

Table of Contents

On December 30, 2005, Messrs. Rhine and Heaton spoke on the telephone regarding the allocation of the proposed consideration in an acquisition of Nanometrics and, as an alternative, the sale of Accent Optical's overlay metrology business to Nanometrics.

From January 2, 2006 to January 6, 2006, Messrs. Heaton and Rhine spoke several times regarding the proposed asset sale term sheet. On January 4, 2006, Mr. Heaton circulated a draft of a non-binding asset sale term sheet to Mr. Rhine. Mr. Heaton circulated a revised version to Mr. Rhine on January 6, 2006, as well as an amendment to the confidentiality agreement, extending the exclusivity period until January 14, 2006.

On January 6, 2005, Mr. Rhine contacted Mr. Heaton to discuss the concerns of Accent Optical's board of directors and management that the impact of the Bio-Rad change of control payment and preference amounts due to holders of Accent Optical Preferred Stock would result in an unsatisfactory outcome in which holders of Accent Optical Common Stock would not approve the merger as they would receive almost no consideration in the merger.

On January 9, 2006, Accent Optical and Bio-Rad reached a tentative agreement to restructure and reduce the change of control payment conditioned upon the acceptance of concessions by Accent Optical's preferred stockholders.

On January 10, 2006, the Accent Optical board of directors met. Representatives of Perkins Coie were present at the invitation of the board. Mr. Rhine provided the board with an update of the merger negotiations and ongoing efforts to structure the proposed sale in a manner that would benefit all of Accent Optical's stockholders by seeking to obtain concessions from its preferred stockholders and from Bio-Rad with respect to its right to a change of control payment, in order to provide some consideration for its common stockholders. Mr. Rhine also indicated that management was analyzing an alternative proposal to sell only its overlay and scatterometry business to Nanometrics, and that more time was needed to determine whether the alternative transaction was more favorable for Accent Optical and its stockholders. The board authorized management to complete the analysis and to extend the exclusivity period with Nanometrics.

On January 10, 2006, Accent Optical and Nanometrics executed an amended confidential agreement, which extended the exclusivity period until January 14, 2006.

On January 12, 2006, Accent Optical and RS Coinvestment Fund, LLC, the holder of the largest number of shares of Accent Optical Convertible Preferred Stock, reached an agreement pursuant to which RS Coinvestment agreed to restructure its liquidation preference and to vote in favor of the allocation of consideration with respect to the proposed merger.

Also on January 12, 2006, the Nanometrics board of directors held a special meeting. Also present were Mr. McCutcheon, a representative of Headgate Partners and representatives of Cowen and WSGR. At the meeting, Mr. Heaton provided a summary of his recent discussions with Mr. Rhine. The board of directors approved a revised asset sale term sheet presented to them at the meeting and authorized management to move forward with the transaction described therein in the event that Accent Optical was unwilling or unable to agree to be acquired.

On January 13, 2006, Messrs. Heaton and Rhine executed an amendment to the confidentiality agreement extending the exclusivity period to January 21, 2006.

On January 18, 2006, the Accent Optical board of directors met. Mr. Rhine presented management's analysis of the competing proposals to sell either the entire company, or just the overlay and scatterometry businesses, to Nanometrics. The Board authorized management to continue negotiation of the merger as well as the existing preferences and to further extend the exclusivity period if needed. Mr. Rhine and representatives of Bio-Rad and certain holders of Accent Optical's Preferred Stock reached an agreement to restructure the Bio-Rad change of control payment and the liquidation preferences of the Preferred Stock in connection with an acquisition, as contemplated by the December 5, 2005 non-binding term sheet.

At that time, Mr. Rhine contacted Mr. Heaton to discuss the accommodation reached and Accent Optical's desire to pursue the merger described in the December 5, 2005 non-binding term sheet rather than the sale of the overlay metrology business. Messrs. Heaton and Rhine agreed to proceed on that basis.

On January 19, 2006, Mr. Langrill and representatives of Merrill Lynch had a call with Mr. McCutcheon to discuss Nanometrics' financial outlook.

From January 19 to January 25, 2006, the parties worked on finalizing the definitive merger agreement and the ancillary agreements, including the form of working capital note, employment agreements and the form of escrow agreement. During that same period, Accent Optical was in communication with some of its largest stockholders with respect to the allocation of consideration and to obtain voting agreements.

On January 20, 2006, Messrs. Heaton and Rhine discussed certain changes to the merger agreement, including a proposal regarding placing additional limitations on stockholder indemnification obligations under the merger agreement.

On January 21, 2006, Messrs. Heaton, McCutcheon, Rhine and Langrill and representatives of Perkins Coie and WSGR had a call to discuss the status of various agreements, a proposed schedule to signing and any material, open diligence items.

On January 24, 2006, the Accent board of directors met. A representative from Perkins Coie reviewed with the board of directors the legal principles applicable to the proposed sale, including the board's fiduciary duties and authority in considering the proposed merger. The representative from Perkins Coie reviewed the terms of the draft merger agreement and related agreements, and the results of Accent Optical's due diligence investigation of Nanometrics. Representatives from Merrill Lynch made a presentation and delivered its oral fairness opinion to the board of directors, later confirmed in writing, that, as of January 24, 2006, based upon the assumptions made, matters considered and limits of such review, the aggregate consideration was fair, from a financial point of view, to holders of Accent Optical capital stock. See *The Merger Opinion of Accent Optical's Financial Advisor* beginning on page 67. Following lengthy board discussions, the board of directors determined that additional time was needed to fully evaluate the merger agreement and related documents.

On January 25, 2006, the Accent Optical board of directors met. Representatives of Merrill Lynch and Perkins Coie were also present. The board of directors reviewed and discussed the process that had been employed to market the company to potential buyers and the strategic and tactical reasons for the merger. After further discussion and extensive deliberation, the board of directors determined that the merger is in the best interests of Accent Optical, approved the merger, the merger agreement and the transactions contemplated by the merger agreement, determined to submit the merger and merger agreement to the Accent Optical's stockholders for approval with the board of director's recommendation that they be so approved, and authorized Accent Optical's management to execute and deliver the merger agreement and related agreements.

Thereafter, also on January 25, 2006, the Nanometrics board of directors held a special meeting. Also present were Mr. McCutcheon, a representative of Headgate Partners and representatives of Cowen and WSGR. The Cowen representatives summarized the terms of the proposed merger and the related financial analyses. The WSGR representatives reviewed the draft merger agreement and related agreements, as well as the findings of the legal diligence review by WSGR and Taylor Wessing. The WSGR representatives also reviewed with the Nanometrics board of directors the legal principles applicable to the proposed acquisition, including the board's fiduciary duties and authority in considering the proposed merger and the share issuance by Nanometrics. Following the presentations and discussions, Cowen delivered its oral opinion to the board of directors, later confirmed in writing that, as of January 25, 2006 and based upon and subject to the factors and assumptions set forth in its written opinion, the merger consideration to be issued pursuant to the merger agreement was fair from a financial point of view to Nanometrics. See *The Merger Opinion of Nanometrics' Financial Advisor* beginning on page 62. The board of directors discussed the prior negotiations with Accent Optical and again reviewed the strategic rationale for the merger. After further discussion and extensive deliberation, the

Nanometrics board of directors approved and declared the merger, the merger agreement and the transactions contemplated by the merger agreement advisable, determined that it was in the best interests of Nanometrics and its shareholders that the company enter into the merger agreement and consummate the merger on the terms and conditions set forth in the merger agreement, resolved to recommend that the Nanometrics shareholders approve the issuance of Nanometrics common stock in the merger, approved the ancillary agreements, and authorized execution of the merger agreement and the ancillary agreements.

On the evening of January 25, 2006, the parties executed the merger agreement and issued a press release announcing the execution of the merger agreement.

On March 31, 2006, the board of directors of Accent Optical acted by written consent to unanimously recommend to the Accent Optical stockholders to vote for the proposal to approve the payments to certain executive officers in connection with the merger.

Joint Reasons of Nanometrics and Accent Optical for the Merger

The Nanometrics and Accent Optical boards of directors have consulted with senior management as well as their respective legal counsel and financial advisors, and considered a number of factors in their analysis of the merger agreement and the proposed merger, including but not limited to:

Combining Accent Optical with Nanometrics is expected to create one of the largest independent metrology companies, which would provide an opportunity for increased sales to and support of current Nanometrics and Accent Optical customers by offering a broader product line.

The combined company would have the technical resources of both Nanometrics and Accent Optical, which will enable the combined company to avoid relying on limited technology platforms in developing its products.

The combined company would have a greater product portfolio available to its customers.

Due to the limited overlap of the customer base of Nanometrics and Accent Optical, the combined company is expected to have a much larger customer base.

The combined company would have greater opportunities for marketing its products due to the creation of worldwide sales and service channels, the expansion of the companies' dedicated sales teams and a higher profile with customers.

The combined company's sales channels are expected to provide a more effective geographic distribution for its products, which would benefit the combined company by increasing market penetration of such products. In particular, Nanometrics' strength in Japan and Accent Optical's strength in Europe would provide the combined company with greater potential sales opportunities.

The shareholders of Nanometrics and the stockholders of Accent Optical will have the opportunity to participate in the potential for growth of the combined company after the merger.

The experience, financial resources, development expertise, size and breadth of product offerings of the combined company may allow it to respond more quickly and effectively to technological change, increased consolidation and industry demands.

Edgar Filing: NANOMETRICS INC - Form S-4

The creation of a combined customer service and technical support system may permit the combined company to provide more effective support and broader geographical coverage to its customers and make it more attractive to new customers.

The combined company may enjoy other economies of scale such as combined administrative functions and efficiencies in manufacturing.

Combining Accent Optical with Nanometrics would provide additional depth and experience to the combined company's management team.

The Nanometrics and Accent Optical boards of directors also considered the following additional factors in its deliberations:

information concerning the financial performance, financial condition, business and prospects of Nanometrics and Accent Optical, as well as conditions in the semiconductor equipment industry generally;

information concerning the recent and past stock price performance of Nanometrics common stock;

the prices paid in comparable transactions involving other semiconductor manufacturing equipment companies, as well as the trading performance of the stock of comparable companies in the industry;

the stock-based merger consideration, which preserves the financial strength of the combined company for continued business investment;

the number of shares issuable as consideration, which provide a level of certainty as to the aggregate number of shares of Nanometrics common stock to be issued to Accent Optical stockholders and optionees and the percentage of the total shares of Nanometrics common stock that current Accent Optical stockholders and optionees will own after the merger; and

the conditions to completion of the merger, in particular the likelihood of obtaining the necessary regulatory and shareholder approvals.

Nanometrics Reasons for the Merger

The Nanometrics board of directors considered a number of factors in its analysis of the merger agreement and the proposed merger, in addition to those listed above, including but not limited to:

the shareholders of Nanometrics will have the opportunity to participate in the potential for growth of the combined company after the merger;

an assessment of alternatives to the merger, including development opportunities and other possible acquisition candidates, and the determination that the merger with Accent Optical was the best strategic fit and presented a unique opportunity to enhance and expand Nanometrics operations, product and service offerings and best positioned Nanometrics for future growth; and

the written opinion of Cowen, dated January 25, 2006, that, as of that date, and based upon and subject to the considerations described in its opinion, the full text of which is attached to this joint proxy statement/prospectus as Annex C, the merger consideration to be issued by Nanometrics was fair from a financial point of view to Nanometrics.

the provisions that prohibit Accent Optical from soliciting other acquisition offers; and

the provisions that require Accent Optical to pay Nanometrics expenses and a termination fee of \$5 million, plus expenses, if the merger agreement is terminated due to Accent Optical's failure to obtain the required stockholder approval.

Edgar Filing: NANOMETRICS INC - Form S-4

The Nanometrics board of directors also considered a variety of uncertainties and risks in its deliberations concerning the merger. However, the Nanometrics board of directors concluded that the potential benefits of the merger outweighed these risks, which include, without limitation:

the risk that the potential benefits sought in the merger might not be fully realized;

the possibility that the merger might not be completed, or that completion might be unduly delayed, for reasons beyond Nanometrics control;

the possibility that the merger might not be completed and that, in the event that Nanometrics fails to obtain shareholder approval for the issuance of shares in the proposed merger, Nanometrics would be required to pay Accent Optical a termination fee of \$5 million, plus expenses;

Table of Contents

the potential dilution of Nanometrics earnings per share as a result of the issuance of the shares in the merger, and the estimated time period for the merger to be accretive to Nanometrics earnings per share;

the risk that efforts to integrate the two companies may disrupt Nanometrics operations;

the effect of the public announcement of the merger on Nanometrics stock prices;

the substantial costs to be incurred in connection with the merger, including the costs of integrating the businesses of Nanometrics and Accent Optical and the transaction expenses arising from the merger;

the risk that, despite Nanometrics efforts and the efforts of Accent Optical after the merger, Nanometrics may lose key Accent Optical personnel;

the risk that the restrictions on the conduct of Nanometrics business during the period between the signing of the merger agreement and the completion of the merger may negatively impact Nanometrics business; and

the other risks described in the section of this joint proxy statement/prospectus entitled *Risk Factors Risks Relating to the Merger* beginning on page 28.

It was not practical to, and thus the Nanometrics board of directors did not, quantify, rank or otherwise assign relative weights to the wide variety of factors it considered in evaluating the merger and the merger agreement, nor did the board of directors determine that any one factor was of particular importance in deciding that the merger agreement and associated transactions were in the best interests of Nanometrics and its shareholders. This discussion of information and material factors considered by the Nanometrics board of directors is intended to be a summary rather than an exhaustive list. In considering these factors, individual members of the Nanometrics board of directors may have given different weight to different factors. The board of directors conducted an overall analysis of the factors described above, and overall considered the factors to support its decision in favor of the merger and the merger agreement. The decision of each member of the Nanometrics board of directors was based upon his own judgment, in light of all of the information presented, regarding the overall effect of the merger agreement and associated transactions on the Nanometrics shareholders as compared to any potential alternative transactions or courses of action. After considering this information, the members of the Nanometrics board of directors unanimously approved the merger agreement and the transactions contemplated thereby, including the issuance of shares of Nanometrics common stock in the merger and recommended that the Nanometrics shareholders approve the issuance of shares of Nanometrics common stock in the merger.

Accent Optical's Reasons for the Merger

The board of directors of Accent Optical considered a number of factors in its analysis of the merger agreement and the proposed merger, in addition to those listed above, including but not limited to:

the recent performance of Accent Optical's business and Accent Optical's cash position;

the prospects for Accent Optical's growth and profitability as a stand-alone company and the risks related to such growth and profitability;

the capital requirements to operate Accent Optical's business on a going-forward basis;

Edgar Filing: NANOMETRICS INC - Form S-4

the considerable financial resources available from Nanometrics to help develop the Accent Optical business;

the terms on which additional funding might be available to Accent Optical and the related dilution that existing stockholders would suffer as a result of obtaining such additional funding;

the aggregate value of the merger consideration payable to Accent Optical stockholders pursuant to the merger agreement;

the written opinion of Merrill Lynch, dated January 24, 2006, that, as of that date, and based upon and subject to the assumptions made, matters considered and limits of review, as further described in its opinion, the full text of which is attached to this joint proxy statement/prospectus as Annex D, the aggregate consideration was fair, from a financial point of view, to holders of Accent Optical capital stock;

the fact that the Accent Optical stockholders would receive Nanometrics common stock in the merger, which provides them the opportunity to participate in the potential growth of the combined company following the merger as shareholders of Nanometrics and the opportunity to hold publicly traded stock;

the current financial market conditions and historical market prices, volatility and trading information with respect to Nanometrics common stock;

the fact that the merger is structured such that Accent Optical stockholders would not be immediately taxed on merger consideration consisting of Nanometrics common stock;

the conditions to completion of the merger, in particular the likelihood of obtaining the necessary regulatory and stockholder approvals;

the interests that certain executive officers and directors of Accent Optical may have with respect to the merger. See the section of this proxy statement/prospectus entitled *Interests of Accent Optical Directors and Executive Officers in the Merger* beginning on page 73;

the costs associated with being a public company if Accent Optical pursued its own public offering as a way to access additional capital for its business and liquidity for its stockholders; and

the other strategic alternatives available to Accent Optical discussed above under *Background to the Merger*.

The Accent Optical board of directors also considered a variety of uncertainties and risks in its deliberations concerning the merger. However, the Accent Optical board of directors concluded that the potential benefits of the merger outweighed these risks, which include, without limitation:

the risk that the potential benefits sought in the merger might not be fully realized;

the possibility that the merger might not be completed, or that completion might be unduly delayed, for reasons beyond Accent Optical's control;

the possibility that the merger might not be completed and that, if it failed to obtain the required stockholder approval, Accent Optical might be required to pay Nanometrics a termination fee of \$5 million, plus expenses;

the provisions that prohibit Accent Optical from soliciting other acquisition offers;

the substantial costs to be incurred in connection with the merger, including the costs of integrating the businesses of Accent Optical and Nanometrics and the transaction expenses arising from the merger;

the risk that the restrictions on the conduct of Accent Optical's business during the period between the signing of the merger agreement and the completion of the merger may negatively impact Accent Optical's business;

the risk that efforts to integrate the two companies would disrupt Accent Optical's operations;

the risk that Nanometrics may be unable to retain key personnel of the combined company; and

the other risks described in the section of this joint proxy statement/prospectus entitled *Risk Factors Risks Relating to the Merger* beginning on page 28.

It was not practical to, and thus the Accent Optical board of directors did not, quantify, rank or otherwise assign relative weights to the wide variety of factors it considered in evaluating the merger and the merger agreement, nor did the board of directors determine that any one factor was of particular importance in deciding that the merger agreement and associated transactions were in the best interests of Accent Optical and its stockholders. In considering these factors, individual members of the Accent Optical board of directors may have given different weight to different factors. The board

After considering this information, the members of the Accent Optical board of directors unanimously approved the merger, the merger agreement and the transactions contemplated thereby and recommended that the Accent Optical stockholders approve the proposal to approve and adopt the merger agreement and approve the merger, the appointment of Mr. Wadler as Stockholder Agent and the escrow agreement.

Opinion of Nanometrics Financial Advisor

On January 25, 2006, Cowen delivered its opinion to the Nanometrics board of directors that, subject to the various assumptions set forth therein, as of January 25, 2006, the consideration to be paid in the merger was fair, from a financial point of view, to Nanometrics.

The full text of the written opinion of Cowen, dated January 25, 2006, is attached to this joint proxy statement/prospectus as Annex C. Holders of Nanometrics common stock are urged to read the opinion in its entirety for the assumptions made, procedures followed, other matters considered and limits of the review undertaken in connection with the opinion by Cowen. The summary of the written opinion of Cowen set forth herein is qualified in its entirety by reference to the full text of such opinion. Cowen's analyses and opinion were

Table of Contents

prepared for and addressed to the Nanometrics board of directors and are directed only to the fairness, from a financial point of view, to Nanometrics of the consideration to be paid in the merger, and do not constitute an opinion as to the merits of the merger or a recommendation to any shareholder as to how to vote on the proposed merger. The consideration paid in the merger was determined through negotiations between Nanometrics and Accent Optical and not pursuant to recommendations of Cowen.

In arriving at its opinion, Cowen reviewed and considered such financial and other matters as it deemed relevant, including, among other things:

a draft of the merger agreement dated January 23, 2006;

certain publicly available financial and other information for Nanometrics, and certain other relevant financial and operating data furnished to Cowen by Nanometrics;

certain publicly available financial and other information for Accent Optical, and certain other relevant financial and operating data furnished to Cowen by Accent Optical and Nanometrics;

certain internal financial analyses, financial forecasts, reports and other information concerning Nanometrics and Accent Optical prepared by the managements of Nanometrics and Accent Optical, respectively, as well as the amounts and timing of the cost savings and related expenses expected to result from the merger furnished to Cowen by Nanometrics;

First Call estimates and financial projections in Wall Street analyst reports for Nanometrics;

discussions Cowen had with certain members of the managements of each of Nanometrics and Accent Optical concerning their respective historical and current business operations and financial conditions and the prospects of Nanometrics and Accent Optical, the expected synergies and such other matters Cowen deemed relevant;

certain operating results and the reported price and trading history of the shares of the common stock of Nanometrics compared to the operating results and reported price and trading histories of certain publicly traded companies Cowen deemed relevant;

certain financial terms of the merger as compared to the financial terms of certain selected business combinations Cowen deemed relevant; and

certain anticipated pro forma financial effects of the merger excluding goodwill of the merger on an accretion/dilution basis.

In conducting its review and arriving at its opinion, Cowen, with Nanometrics' consent, assumed and relied, without independent investigation, upon the accuracy and completeness of all financial and other information provided to it by Nanometrics and Accent Optical or which was publicly available. Cowen further relied upon the assurance of management of Nanometrics that they were unaware of any facts that would make the information provided to Cowen incomplete or misleading in any respect. In addition, Cowen did not conduct any physical inspection of the properties or facilities of Nanometrics or Accent Optical. Cowen, with Nanometrics' consent, assumed that the financial forecasts and synergies provided to Cowen were reasonably prepared by the management of Nanometrics, and reflected the best available estimates and good faith judgments of such management as to the future performance of Nanometrics and the synergies. Management of each of Nanometrics and Accent Optical confirmed to Cowen, and Cowen assumed, with Nanometrics' consent, that each of the financial forecasts and synergies, and the First Call estimates and analyst projections utilized in Cowen's analyses with respect to Nanometrics and Accent Optical provided a reasonable basis for its opinion.

Edgar Filing: NANOMETRICS INC - Form S-4

Cowen did not make or obtain any independent evaluations, valuations or appraisals of the assets or liabilities of Nanometrics or Accent Optical, nor was Cowen furnished with these materials. Cowen's services to Nanometrics in connection with the merger were limited to rendering an opinion from a financial point of view of the consideration paid in the merger. Cowen's opinion was necessarily based upon economic and market

Table of Contents

conditions and other circumstances as they existed and could be evaluated by Cowen on the date of its opinion. Cowen assumed that the final form of the merger agreement would be substantially similar to the last draft received by Cowen prior to rendering its opinion. Cowen also assumed that all governmental, regulatory and other consents and approvals contemplated by the merger agreement would be obtained and that, in the course of obtaining any of those consents, no restrictions will be imposed or waivers made that would have an adverse effect on the contemplated benefits of the merger.

Cowen's opinion does not constitute a recommendation to any Nanometrics shareholder or Accent Optical stockholder as to how such person should vote on the matters set forth in this joint proxy statement/ prospectus. Cowen's opinion does not imply any conclusion as to the likely trading range for Nanometrics common stock following consummation of the merger or otherwise, which may vary depending on numerous factors that generally influence the price of securities. Cowen expresses no opinion as to the underlying business reasons that may support the decision of the Nanometrics board to approve, or Nanometrics' decision to consummate, the merger.

The following is a summary of the principal financial analyses performed by Cowen to arrive at its opinion. Some of the summaries of financial analyses include information presented in tabular format. In order to fully understand the financial analyses, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses, nor does the order of the analyses described represent the relative importance or weight given to those analyses by Cowen. Considering the data set forth in the tables without considering the full narrative description of the financial analyses, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of the financial analyses. Cowen performed certain procedures, including each of the financial analyses described below, and reviewed with the management of Nanometrics the assumptions on which such analyses were based and other factors, including the historical and projected financial results of Nanometrics and Accent Optical.

Analysis of Selected Transactions. Cowen reviewed the financial terms, to the extent publicly available, of selected transactions referred to as the Precedent Transactions involving the acquisition of companies in the semiconductor capital equipment industry, which were announced or completed since January 1, 2001. These Precedent Transactions were (listed as acquirer/target):

Cowen reviewed the market capitalization of common stock plus total debt less cash and equivalents (the Enterprise Value) paid in the Precedent Transactions as a multiple of the last quarter annualized (LQA) revenues, the latest reported twelve month (LTM) revenues and the estimated next twelve month (NTM) revenues, and also examined the multiples of equity value paid in the Precedent Transactions to NTM earnings.

The following table presents, for the periods indicated, the multiples implied by the ratio of Enterprise Value to LTM revenues and NTM revenue, and the ratio of equity value to NTM earnings. The information in the table was based on the closing sale price of Nanometrics stock as reported on the Nasdaq Stock Market on January 24, 2006.

	Precedent Transactions				Multiple Implied by
	1 st Quartile	Mean	Median	3 rd Quartile	Consideration Paid
Enterprise Value / LTM Revenue	1.3 x	1.8 x	1.9 x	2.3 x	1.9 x
Enterprise Value / NTM Revenue	1.5 x	1.8 x	1.8 x	2.1 x	1.5 x
Equity Value / NTM Earnings	30 x	37 x	37 x	46 x	24 x ^(a)

(a) Equity Value / NTM Earnings assumes earnings are fully taxed at 36%.

Although the Precedent Transactions were used for comparison purposes, none of those transactions is directly comparable to the merger, and none of the companies in those transactions is directly comparable to Nanometrics or Accent Optical. Accordingly, an analysis of the results of such a comparison is not purely mathematical, but instead involves complex considerations and judgments concerning differences in historical and projected financial and operating characteristics of the companies involved and other factors that could affect the acquisition value of such companies or Accent Optical to which they are being compared.

Analysis of Selected Publicly Traded Companies. To provide contextual data and comparative market information, Cowen compared selected historical operating and financial data and ratios for Accent Optical to the corresponding financial data and ratios of certain other companies (the Selected Companies) whose securities are publicly traded and which Cowen believes have operating, market valuation and trading valuations similar to what might be expected of Accent Optical. These Selected Companies were:

ADE Corporation

FEI Company

KLA-Tencor Corp.

Nanometrics Incorporated

Nova Measuring Instruments Ltd.

Rudolph Technologies, Inc.

Therma-Wave, Inc.

Veeco Instruments Inc.

Zygo Corporation

The data and ratios included the Enterprise Value of the Selected Companies as multiples of LQA revenues, estimated 2005 calendar year revenues and estimated 2006 calendar year revenues. Cowen also examined the ratios of the current share prices of the Selected Companies to estimated 2006 calendar year earnings per share (EPS) (as available from research analyst reports or, if not so available, First Call) for the Selected Companies.

Table of Contents

The following table presents, for the periods indicated, the multiples implied by the ratio of Enterprise Value to estimated (E) 2005 calendar year (CY) revenues, and estimated 2006 CY revenues, and the ratio of equity value as reported on the Nasdaq Stock Market to estimates for 2006 CY earnings. The information in the table is based on the closing sale price of Nanometrics stock on January 24, 2006 as reported on the Nasdaq Stock Market.

	Selected Company Multiples				Multiple Implied by
	1 st Quartile	Mean	Median	3 rd Quartile	Consideration Paid

Equity Value / CY 2006 E Earnings	23 x	30 x	24 x	35 x	24 x (a)

(a) Equity Value / NTM Earnings assumes earnings are fully taxed at 36%.

Although none of the Selected Companies is directly comparable to Accent Optical, the companies included were chosen because they are publicly traded companies with operations that for purposes of analysis may be considered similar to certain operations of Accent Optical.

Contribution Analysis. Cowen analyzed the respective implied contributions of various operating metrics of Nanometrics and Accent Optical to the combined company, based upon the historical and projected financial results of Nanometrics and Accent Optical (based upon Wall Street research analyst estimates for Nanometrics, and the financial forecasts supplied by Accent Optical and revised by management of Nanometrics). The contribution analysis did not reflect any synergies, purchase accounting adjustments or merger related costs resulting from the consummation of the merger.

Pro Forma Ownership Analysis. Cowen analyzed the pro forma ownership in the combined company by the holders of Accent Optical and noted that holders of Accent Optical capital stock would own approximately

27% of the combined company, based on the Nanometrics closing sales price as reported on the Nasdaq Stock Market on January 24, 2006.

Pro Forma Earnings Analysis. Cowen analyzed the potential effect of the merger on the projected combined income statement of operations of Nanometrics and Accent Optical for the calendar year ending December 31, 2006, and for the period from April 1, 2006 to December 31, 2006. This analysis was based upon publicly available information, estimates prepared by Nanometrics management and selected Wall Street research estimates. For purposes of the analysis, EPS was calculated both on the basis of GAAP and on a cash EPS basis, which added back to GAAP net income amortization of intangible assets and transaction expenses resulting from the merger. In addition, for purposes of the analysis of pro forma 2006 results, Cowen assumed the merger will close on March 31, 2006 and prepared this analysis assuming no synergies and \$5.2 million in transaction expenses. Based on these estimates and assumptions, Cowen's analysis showed that the merger would result in accretion for the calendar year ending December 31, 2006, and for the period from April 1, 2006 to December 31, 2006, to Nanometrics' cash EPS, and dilution for the calendar year ending December 31, 2006, and for the period from April 1, 2006 to December 31, 2006 to Nanometrics' GAAP EPS. The financial forecasts that underlie this analysis are subject to substantial uncertainty and, therefore, actual results may be substantially different.

Cowen was selected by the Nanometrics board to render an opinion to the Nanometrics board because Cowen is a nationally recognized investment banking firm and because, as part of its investment banking business, Cowen is continually engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, negotiated underwritings, secondary distributions of listed and unlisted securities, private placements and valuations for corporate and other purposes. In addition, in the ordinary course of its business, Cowen and its affiliates trade the equity securities of Nanometrics for their own account and for the accounts of their customers, and, accordingly, may at any time hold a long or short position in such securities. Cowen and its affiliates in the ordinary course of business have from time to time provided, and in the future may continue to provide, commercial and investment banking services to Nanometrics, including serving as a financial advisor on potential acquisitions and as an underwriter on equity offerings, and have received and may in the future receive fees for the rendering of such services.

Pursuant to a letter agreement, Nanometrics engaged Cowen to act as its exclusive financial advisor in connection with the merger, for which it is entitled to receive a customary transaction fee if the merger is consummated. Nanometrics has also paid a fee to Cowen for rendering its opinion, which fee shall be credited against any transaction fee paid. Additionally, Nanometrics has agreed to reimburse Cowen for its out of pocket expenses, including attorneys' fees, and has agreed to indemnify Cowen against certain liabilities, including liabilities under the federal securities laws.

Opinion of Accent Optical's Financial Advisor

Accent Optical retained Merrill Lynch to act as exclusive financial advisor to Accent Optical in connection with the merger. In connection with that engagement, Accent Optical requested that Merrill Lynch evaluate the fairness of the aggregate consideration, from a financial point of view, to the holders of Accent Optical shares of capital stock. At the meeting of Accent Optical's board of directors on January 24, 2006, Merrill Lynch rendered its oral opinion to the Accent Optical board, and confirmed in writing, that as of January 24, 2006, based upon the assumptions made, matters considered and limits of such review, as set forth in its opinion, the aggregate consideration was fair, from a financial point of view, to the holders of Accent Optical shares of capital stock.

The full text of Merrill Lynch's opinion, which sets forth material information relating to Merrill Lynch's fairness opinion, including the assumptions made, matters considered and qualifications and limitations on the scope of review undertaken by Merrill Lynch, is attached as Annex D and is incorporated into this document by reference in its entirety. This description of Merrill Lynch's opinion is qualified in its entirety by reference to, and should be reviewed together with, the full text of the opinion. You are urged to read the opinion and consider

it carefully. Merrill Lynch's opinion is addressed to the Board of Directors of Accent Optical and addresses only the fairness, from a financial point of view, of the aggregate consideration to the holders of Accent Optical shares of capital stock. The opinion does not address the merits of the underlying decision of Accent Optical to engage in the merger and does not constitute a recommendation to any stockholder as to how such stockholder should vote on, or consent to, the proposed merger or any matter related thereto. In addition, Accent Optical has not asked Merrill Lynch to address, and this opinion does not address, the fairness to, or any other consideration of, the holders of any class of securities, creditors or other constituencies of Accent Optical, other than the holders of Accent Optical shares of capital stock on an aggregate basis.

In arriving at its opinion, Merrill Lynch, among other things:

Reviewed certain publicly available business and financial information relating to Accent Optical and Nanometrics that Merrill Lynch deemed to be relevant;

Reviewed certain information, including financial forecasts, relating to the business, earnings, cash flow, assets, liabilities and prospects of Accent Optical and Nanometrics furnished to Merrill Lynch by Accent Optical and Nanometrics, respectively, as well as the amount and timing of the cost savings and related expenses and synergies expected to result from the merger (the Expected Synergies) furnished to Merrill Lynch by Accent Optical;

Conducted discussions with members of senior management of Accent Optical and Nanometrics concerning the matters described above, as well as their respective businesses and prospects before and after giving effect to the merger and the Expected Synergies;

Reviewed the valuation multiples for Accent Optical and Nanometrics and compared them with those of certain publicly traded companies that Merrill Lynch deemed to be relevant;

Reviewed the results of operations of Accent Optical and Nanometrics and compared them with those of certain publicly traded companies that Merrill Lynch deemed to be relevant;

Compared the proposed financial terms of the merger with the financial terms of certain other transactions that Merrill Lynch deemed to be relevant;

Participated in certain discussions and negotiations among representatives of Accent Optical, and Nanometrics and its financial advisor;

Reviewed the potential pro forma impact of the merger;

Reviewed the merger agreement; and

Reviewed such other financial studies and analyses and took into account such other matters as Merrill Lynch deemed necessary, including its assessment of general economic, market and monetary conditions.

In preparing its opinion, Merrill Lynch assumed and relied on the accuracy and completeness of all information supplied or otherwise made available to it, discussed with or reviewed by or for it, or publicly available, and Merrill Lynch did not assume any responsibility for independently verifying such information or undertake an independent evaluation or appraisal of any of the assets or liabilities of Accent Optical or Nanometrics, nor was Merrill Lynch furnished with any such evaluation and appraisal, and Merrill Lynch did not evaluate the solvency or fair value of Accent Optical or Nanometrics under any state or federal laws relating to bankruptcy, insolvency or similar matters. In addition, Merrill

Edgar Filing: NANOMETRICS INC - Form S-4

Lynch did not assume any obligation to conduct any physical inspection of the properties or facilities of Accent Optical or Nanometrics. With respect to the financial forecast information and the Expected Synergies furnished to or discussed with Merrill Lynch by Accent Optical or Nanometrics, Merrill Lynch assumed that they had been reasonably prepared and reflected the best currently available estimates and judgment of Accent Optical's or Nanometrics' management as to the expected future financial performance of Accent Optical or Nanometrics, as the case may be, and the Expected Synergies. Merrill Lynch makes no representations as to the actual timing or amount of Expected Synergies, if

Table of Contents

any, which may result from the merger. Merrill Lynch assumed that the final form of the merger agreement would be substantially similar to the last draft reviewed by it.

Merrill Lynch's opinion was necessarily based upon market, economic and other conditions as they existed and could be evaluated on the date of the opinion, and upon the information made available to Merrill Lynch as of the date of the opinion. For purposes of rendering this opinion, Merrill Lynch assumed that, in all respects material to its analysis, the representations and warranties of Accent Optical, Nanometrics and the merger subsidiary contained in the merger agreement were true and correct, that Accent Optical, Nanometrics and the merger subsidiary will each perform all of the covenants and agreements to be performed by it under the merger agreement, and all conditions and obligations of each of Accent Optical, Nanometrics and the merger subsidiary will be satisfied without waiver. Merrill Lynch also assumed that all governmental, regulatory or other approvals and consents required in connection with the consummation of the merger will be obtained, and that in connection with obtaining such governmental or other approvals and consents, or any amendments, modifications or waivers to any agreements, instruments or orders to which either Accent Optical or Nanometrics is a party or is subject or by which it is bound, no limitations, restrictions or conditions will be imposed that would have a material adverse effect on Accent Optical or Nanometrics or materially reduce the contemplated benefits of the merger to Accent Optical, Nanometrics or the combined company.

Merrill Lynch has no obligation to update its opinion to take into account events occurring after the date that its opinion was delivered to Accent Optical's board of directors. Circumstances could develop prior to consummation of the merger that, if known at the time Merrill Lynch rendered its opinion, would have altered such opinion. Merrill Lynch has expressed no opinion as to the prices at which shares of Nanometrics common stock will trade following the announcement or consummation of the merger. In addition, as described above, Merrill Lynch's fairness opinion was among several factors taken into consideration by Accent Optical's board of directors in making its determination to approve the merger agreement and the merger. Consequently, Merrill Lynch's analysis described below should not be viewed as determinative of the decision of Accent Optical's board of directors or the Accent Optical management with respect to the fairness of the aggregate consideration, to the holders of Accent Optical shares of capital stock.

At the meeting of Accent Optical's board of directors held on January 24, 2006, Merrill Lynch presented certain financial analyses accompanied by delivery of its written materials in connection with the delivery of its oral opinion at that meeting and its subsequent written opinion. The following is a summary of the material financial analyses performed by Merrill Lynch in arriving at its opinion.

Accent Optical Valuation Analysis

Comparable Public Trading Multiples Analysis. Using publicly available securities research analyst estimates and other information, Merrill Lynch compared selected financial data of Accent Optical with similar data for selected publicly traded companies engaged in businesses that Merrill Lynch judged to be reasonably comparable to those of Accent Optical. These companies were:

FEI Company

Veeco Instruments Inc.

ADE Corporation

Zygo Corporation

Rudolph Technologies, Inc.

Nanometrics Incorporated

August Technology Corporation

Therma-Wave, Inc.

Nova Measuring Instruments Ltd.

Merrill Lynch used publicly available securities research analyst estimates for each of these companies to determine multiples of the enterprise value or equity value of the comparable companies to several estimated financial metrics for the comparable companies. The following table summarizes the derived ranges of multiples and the ranges of enterprise values of Accent Optical implied by such multiples, assuming Accent Optical target and conservative management estimates:

	Implied Enterprise Value		
	of Accent Optical		
	Multiple Range		(in millions)
Target Case CY2005 Estimated Revenue	0.41x	2.12x	\$17 - \$89
Target Case CY2006 Estimated EBITDA	6.8x	13.6x	\$69 - \$138
Target Case CY2007 Estimated EBITDA	5.9x	17.0x	\$71 - \$205
Target Case CY2007 Estimated Net Income	10.7x	22.3x	\$80 - \$155
Conservative Case CY2005 Estimated Revenue	0.41x	2.12x	\$17 - \$89
Conservative Case CY2006 Estimated EBITDA	6.8x	13.6x	\$13 - \$27
Conservative Case CY2007 Estimated EBITDA	5.9x	17.0x	\$18 - \$53
Conservative Case CY2007 Estimated Net Income	10.7x	22.3x	\$23 - \$36

Merrill Lynch observed that the implied multiples being paid for Accent Optical were:

in the range of the comparable public trading multiples for target case for CY 2005 based on estimated revenue, and target case for CYs 2006 and 2007 based on estimated EBITDA;

below the range of the comparable public trading multiples for target case for CY 2007 based on estimated net income;

in the range of the comparable public trading multiples for conservative case for CY 2005 based on estimated revenue; and

above the range of the comparable public trading multiples for conservative case for CYs 2006 and 2007 based on estimated EBITDA, and conservative case for CY 2007 based on estimated net income.

It should be noted that no company used in the above analysis is identical to Accent Optical. In evaluating companies identified by Merrill Lynch as comparable to Accent Optical, Merrill Lynch made judgments and assumptions with regard to industry performance, general business, economic, market and financial conditions and other matters, many of which are beyond the control of Accent Optical, such as the impact of competition on the business of Accent Optical and the industry generally, industry growth and the absence of any material change in the financial condition and prospects of Accent Optical or the industry or in the financial markets in general. A complete analysis involves complex considerations and judgments concerning differences in financial and operating characteristics of the comparable companies and other factors that could affect the public trading values of such comparable companies to which they are being compared; mathematical analysis is not in itself a meaningful method of using selected company data.

Comparable Transaction Analysis. Using publicly available securities research analyst estimates and other information, Merrill Lynch examined the following transactions that Merrill Lynch deemed to be relevant to determine the multiple of the value of such transactions at the time of announcement to estimates at the time of announcement of the LTM revenues and next CY revenues for the target companies. The precedent transactions that Merrill Lynch considered are:

All calculations of multiples paid in the selected transactions were based on public information available at the time of public announcement. Merrill Lynch's analysis did not take into account different market and other conditions during the period in which the selected transactions occurred. The following table summarizes the derived ranges of multiples and the ranges of enterprise value implied by such multiples, assuming Accent Optical target and conservative management estimates:

	Implied Enterprise Value			
	of Accent Optical			
	Multiple Range		(in millions)	
Target Case LTM Revenue	0.43x	2.70x	\$18	\$113
Target Case Next CY Estimated EBITDA	3.8x	15.2x	\$55	\$222
Conservative Case LTM Revenue	0.43x	2.70x	\$18	\$113
Conservative Case Next CY Estimated EBITDA	3.8x	15.2x	\$21	\$85

Merrill Lynch observed that the implied multiples being paid for Accent Optical were in the range of multiples paid for selected comparable transactions.

It should be noted that no transaction utilized in the analysis above is identical to the proposed merger. A complete analysis involves complex considerations and judgments concerning differences in financial and operating characteristics of the companies involved in these transactions and other factors that could affect the transaction multiples or premiums paid in such comparable transactions to which the transaction is being compared; mathematical analysis (such as determining the mean or the median) is not in itself a meaningful method of using selected transaction data.

Merrill Lynch used publicly available securities research analyst estimates for each of these companies to determine multiples of the enterprise value or equity value of the comparable companies to several estimated financial metrics for the comparable companies. The following table summarizes the derived ranges of multiples and the ranges of equity values per Nanometrics share implied by such multiples, assuming Nanometrics management estimates for calendar years 2005 and 2006 and estimates derived from discussion with Nanometrics management for calendar year 2007:

Merrill Lynch observed that the multiples for Nanometrics were:

in the range of the comparable public trading multiples for management case for CY 2005 and 2006 based on estimated revenue, management-derived case for CY 2007 based on estimated EBITDA and management-derived case for CY 2007 based on P/E; and

above the range of the comparable public trading multiples for management case for CY 2006 based on estimated EBITDA. It should be noted that no company used in the above analysis is identical to Nanometrics. The summary set forth above does not purport to be a complete description of the analyses performed by Merrill Lynch in arriving at its opinion. The preparation of a fairness opinion is a complex process involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances and, therefore, such an opinion is not readily susceptible to partial analysis or summary description. No company, business or transaction used in such analyses as a comparison is identical to Nanometrics or Accent Optical or the merger, nor is an evaluation of such analyses entirely mathematical. In arriving at its opinion, Merrill Lynch did not attribute any particular weight to any analysis or factor considered by it, but rather made qualitative judgments as to the significance and relevance of each analysis and factor. Accordingly, Merrill Lynch believes that its analyses must be considered as a whole and that selecting portions of its analyses and of the factors considered by it, without considering all factors and analyses, would, in the view of Merrill Lynch, create an incomplete and misleading view of the analyses underlying Merrill Lynch's opinion.

Accent Optical retained Merrill Lynch based upon Merrill Lynch's experience and expertise. Merrill Lynch is an internationally recognized investment banking firm with substantial experience in transactions similar to the proposed merger. Merrill Lynch, as part of its investment banking business, is continually engaged in the valuation of businesses and securities in connection with business combinations and acquisitions and for other purposes and has substantial experience in transactions similar to the proposed Nanometrics-Accent Optical transaction.

Under the terms of the engagement letter between Merrill Lynch and Accent Optical, Merrill Lynch provided financial advisory services and the financial fairness opinion in connection with the transaction, and Accent Optical agreed to pay Merrill Lynch a customary fee which is contingent upon consummation of the transaction. In addition, Accent Optical has agreed to indemnify Merrill Lynch and its affiliates, their respective directors, officers, agents, employees and controlling persons against certain liabilities and expenses, including certain liabilities under the federal securities laws, related to or arising out of Merrill Lynch's engagement.

In the ordinary course of its business, Merrill Lynch may actively trade in the securities of Nanometrics, for its own account and for the accounts of its customers and, accordingly, may at any time hold a long or short position in such securities.

Interests of Nanometrics Directors and Executive Officers in the Merger

Nanometrics Board of Directors and Executive Officers after the Merger

Accent Optical and Nanometrics have agreed that all of the current directors of Nanometrics will serve as members of the board of directors of Nanometrics following the completion of the merger. Additionally, Accent Optical and Nanometrics have agreed to take all action necessary to ensure that the current executive officers of Nanometrics will continue to serve as executive officers of Nanometrics following completion of the merger. In addition, Mr. Rhine, a current director of Accent Optical, will join the Nanometrics board of directors following completion of the merger. Mr. Rhine, also the current Chief Executive Officer of Accent Optical, will also become an executive officer of Nanometrics and serve as Chief Strategy Officer after the merger is completed.

Directors' and Officers' Insurance

Nanometrics does not currently maintain directors' and officers' insurance for its directors and officers.

Interests of Accent Optical Directors and Executive Officers in the Merger

In considering the recommendation of the Accent Optical board of directors that Accent Optical stockholders approve the merger agreement, the merger and the related transactions and approve the payments to certain executive officers, you should be aware that members of the Accent Optical board of directors and Accent

Table of Contents

Optical executive officers have interests in the merger that may be different than, or in addition to, the interests of Accent Optical stockholders generally. These interests include:

the appointment of Mr. Rhine, a current director and Chief Executive Officer of Accent Optical, as a director of the combined company upon completion of the merger, and the appointment of Mr. Rhine, as an executive officer of the combined company upon completion of the merger;

the potential receipt of severance payments by certain Accent Optical executive officers, including Mr. Rhine, Reid Langrill, Accent Optical's Chief Financial Officer, and Bruce Crawford, Accent Optical's President and Chief Operating Officer;

the grant of additional stock options to Accent Optical officers which will be assumed by Nanometrics, including Messrs. Rhine and Crawford, Gregory Kaiser, Accent Optical's Senior Vice President, Business Development, and Steve Hummel, Accent Optical's Chief Technology Officer;

the acceleration of vesting of assumed options of officers and directors, including Messrs. Rhine, Langrill and Crawford, if their employment or service relationship is terminated in connection with the merger;

the continued indemnification following the merger of the current Accent Optical directors and officers for acts or omissions occurring prior to the closing of the merger;

the receipt by Bio-Rad, a company affiliated with Accent Optical director David Schwartz, of approximately \$12.0 million as repayment of a loan and a contractual fee of \$2.5 million (related to the 2000 Bio-Rad SMD purchase), each in connection with the closing of the merger; and

the re-allocation of the merger consideration so that holders of Accent Optical Common Stock can receive more of the merger consideration than they originally would have been entitled to, which benefits the directors and officers that hold Accent Optical Common Stock.

The Accent Optical board of directors was aware of these interests and considered them, among other matters, in making its recommendation.

Nanometrics Board of Directors after the Merger

Accent Optical and Nanometrics have agreed that up to three current directors of Accent Optical will join the board of directors of Nanometrics following the completion of the merger. The parties currently expect that Mr. Rhine will become a member of the Nanometrics board of directors and that no other appointments of the two other candidates will be made.

Employment Agreement with Nanometrics

Mr. Rhine, Accent Optical's Chairman and Chief Executive Officer, has entered into an employment agreement with Nanometrics, pursuant to which Mr. Rhine will become an executive officer of Nanometrics and serve as its Chief Strategy Officer following the completion of the merger. He will receive a base salary of \$250,000, standard Nanometrics employee benefits and paid vacation. In connection with his employment, Mr. Rhine has agreed to certain non-competition and non-solicitation provisions, described under *Agreements Related to the Merger Employment Agreement*.

Executive Officer Retention and Severance Arrangements

Edgar Filing: NANOMETRICS INC - Form S-4

Reid Langrill. In connection with the merger, Accent Optical entered into an agreement with Reid Langrill, its Chief Financial Officer, which provides for Mr. Langrill's continued employment with Accent Optical or its successors through the completion of the merger and for up to 30 days thereafter. During his period of employment, he will continue to earn his regular salary. Upon his termination, he will receive a severance payment equal to the greater of either \$185,000 or the difference between \$500,000 and the value of

Table of Contents

Mr. Langrill's options that are in-the-money as of the completion of the merger, subject to withholding. Following his termination, Mr. Langrill has agreed to provide consulting services to Nanometrics through March 31, 2007, subject to earlier termination, for an hourly rate and reimbursement of expenses.

Bruce Crawford. Accent Optical entered into an employment agreement with Bruce Crawford, upon commencement of his role as President and Chief Operating Officer, which provides for certain severance benefits if Accent Optical terminates Mr. Crawford's employment without good cause or Mr. Crawford terminates his employment for good reason, as defined below, during the five-year term of the agreement. Upon such termination, Mr. Crawford is entitled to receive a lump-sum payment of his annual salary (currently \$213,000), continued group health or other group benefits as allowed under COBRA for a period of 12 months (with a potential gross-up for taxes arising from the provision of such benefits) and reimbursement of relocation expenses up to \$50,000.

As used in Mr. Crawford's employment agreement with Accent Optical, the term *good cause* means: (a) willful and repeated failure to comply with the lawful instructions of the board of directors or chief executive officer, (b) willful misconduct in the performance of duties, (c) Mr. Crawford's dishonesty, fraud or willful misconduct with respect to the business or affairs of Accent Optical, or (d) Mr. Crawford's conviction of a felony or conviction of a misdemeanor involving theft, fraud, dishonesty or other acts of moral turpitude. As used in Mr. Crawford's employment agreement with Accent Optical, the term *good reason* means (1) a material reduction in Mr. Crawford's reporting responsibilities not mutually agreed upon, (2) a reduction in Mr. Crawford's salary by more than 15%, (3) demand by Accent Optical that Mr. Crawford relocate more than 50 miles from the Bend, Oregon area, (4) the occurrence of a change of control of Accent Optical; however, Mr. Crawford will remain during the six-month transition period after such change in control upon written request. The term *change of control* means the acquisition by any person or entity or group of related persons or entities of beneficial ownership of more than 50% of Accent Optical's Common Stock or voting power entitled to vote in an election of directors, subject to exclusions for public offerings and acquisitions of stock by Accent Optical, an employee benefit plan or persons and entities who beneficially owned more than 50% of Accent Optical's stock or voting power prior to the acquisition. In certain circumstances, *change of control*, as used in the employment agreement, has the same meaning as used in Section 409A of the Internal Revenue Code. Mr. Crawford must provide written notice to Accent Optical of the *good reason* event, and allow Accent Optical 50 days to cure the conditions. If Accent Optical does not cure the conditions within 50 days, Mr. Crawford must exercise his right to terminate the employment agreement for *good reason* within 50 days thereafter, or he will have waived the conditions.

Executive Officer Option Grants

In connection with the merger, Accent Optical granted options to purchase its Common Stock to certain of its executive officers, as set forth below, and to certain key employees. The options have an exercise price of \$0.33 per share and will be assumed by Nanometrics upon completion of the merger. The exercise price is equal to the fair market value of Accent Optical Common Stock as of the date of grant, as determined by the merger consideration payable for such shares as of that date. If the employment of the holder of Accent Optical stock options assumed by Nanometrics upon completion of the merger, is terminated by Accent Optical or Nanometrics without cause or by the employee for good reason, as defined below, within six months following the completion of the merger, the vesting of such options will accelerate in full.

		Shares Subject to Accent Optical Options Granted in connection with the Merger
Executive Officer	Title	
Bruce C. Rhine	Chairman and Chief Executive Officer	4,122,000
Bruce Crawford	President and Chief Operating Officer	800,000
Gregory Kaiser	Senior Vice President, Business Development	100,000
Steve Hummel	Chief Technology Officer	250,000

Table of Contents

With respect to these option grants, the term "good reason" means: (a) a change in the holder's status, title, position or responsibilities (including reporting responsibilities) that, in the holder's reasonable judgment, represents a substantial reduction in the status, title, position or responsibilities as in effect immediately prior thereto; the assignment to the holder of any duties or responsibilities that, in the holder's reasonable judgment, are materially inconsistent with such status, title, position or responsibilities; or any removal of the holder from or failure to reappoint or reelect the holder to any of such positions, except in connection with the termination of the holder's employment for "cause," as a result of his or her disability or death, or by the holder other than for "good reason"; (b) a reduction in the holder's annual base salary; or (c) Accent Optical or its successor requiring the holder (without the holder's consent) to be based at any place outside a 50 mile radius of his place of employment prior to the completion of the merger, except for reasonably required travel on business that is not materially greater than such travel requirements prior to the completion of the merger.

With respect to these option grants, the term "cause" means: a termination of employment or service based upon a finding by Accent Optical, acting in good faith and based on its reasonable belief at the time, that the holder (a) has been negligent in the discharge of his duties to Accent Optical, has refused to perform stated or assigned duties or is incompetent in or (other than by reason of a disability or analogous condition) incapable of performing those duties; (b) has been dishonest or committed or engaged in an act of theft, embezzlement or fraud, a breach of confidentiality, an unauthorized disclosure or use of inside information, customer lists, trade secrets or other confidential information; (c) has breached a fiduciary duty, or willfully and materially violated any other duty, law, rule, regulation or policy of Accent Optical or an affiliate; or has been convicted of, or plead guilty or nolo contendere to, a felony or misdemeanor (other than minor traffic violations or similar offenses); (d) has materially breached any of the provisions of any agreement with Accent Optical or an affiliated entity; (e) has engaged in unfair competition with, or otherwise acted intentionally in a manner injurious to the reputation, business or assets of, Accent Optical or an affiliate; or (f) has improperly induced a vendor or customer to break or terminate any contract with Accent Optical or an affiliate or induced a principal for whom Accent Optical or an affiliate acts as agent to terminate such agency relationship.

Indemnification; Directors and Officers Insurance

In the merger agreement, Nanometrics agreed that, for a period of six years following completion of the merger, Nanometrics and any of its subsidiaries would honor any indemnification agreements currently in place between Accent Optical and any of its current or former directors and officers. Additionally, Nanometrics agreed that, for a period of six years following completion of the merger, Nanometrics and any of its subsidiaries would cause the certificate of incorporation and bylaws (or any similar organizational documents) of the surviving corporation and its subsidiaries to contain indemnification and exculpation provisions no less favorable than the indemnification and exculpation provisions contained in the Accent Optical certificate of incorporation and bylaws immediately prior to the merger and not amend, repeal or otherwise modify such provisions of the certificate or articles of incorporation or bylaws in any manner.

In addition, for a period of six years from the completion of the merger, Nanometrics and the surviving corporation will cause Accent Optical's existing policy of directors' and officers' and fiduciary liability insurance to be maintained, subject to certain limitations. Alternatively, Nanometrics is permitted to purchase a six-year "tail" prepaid policy on Accent Optical's current policy of directors' and officers' and fiduciary liability insurance and maintain the policy in full force and effect for a period of six years.

Payments to Bio-Rad Corporation

In 2000, Accent Optical purchased the assets of the former Bio-Rad SMD from Bio-Rad, a company affiliated with Accent Optical director David Schwartz. Pursuant to the asset purchase agreement, Accent Optical agreed to pay Bio-Rad \$13.0 million upon a change of control of Accent Optical. In connection with the negotiations with Nanometrics related to the merger described in this joint proxy statement/prospectus, Bio-Rad agreed to reduce this change of control payment to \$2.5 million, which will be paid to it upon completion of the

Table of Contents

merger. In addition, Bio-Rad will receive approximately \$12.0 million in connection with the closing of the merger as repayment of a loan to Accent Optical.

Stock and Options of Directors and Executive Officers

In addition to the interests of Accent Optical's directors and executive officers described above, which may be different from the interests of an Accent Optical stockholder, each of the directors and executive officers of Accent Optical owns stock and/or options to purchase Accent Optical Common Stock. They will be entitled to the same rights as other Accent Optical stockholders and optionholders with respect to such ownership interests, including the right to a portion of the merger consideration, assumption of options and vesting acceleration, as applicable. The allocation of the merger consideration required by the merger agreement reflects a reduction of the liquidation preference on Accent Optical's Convertible Preferred Stock and elimination of accrued dividends on both Accent Optical's Series A Preferred Stock and Convertible Preferred Stock. As a result of these concessions, holders of Accent Optical's Common Stock, including directors and executive officers, will receive a greater amount of the merger consideration.

Material United States Federal Income Tax Consequences of the Merger

The following discussion summarizes the material United States federal income tax consequences of the merger that are generally applicable to holders of Accent Optical stock. This discussion is based on the Internal Revenue Code, judicial decisions, and administrative regulations and interpretations in effect as of the date of this proxy statement/prospectus, all of which are subject to change, possibly with retroactive effect. Accordingly, the tax consequences of the merger to the holders of Accent Optical stock could differ from those described below.

This discussion does not address all aspects of United States federal income taxation that may be relevant to holders of Accent Optical stock in light of their particular circumstances, nor does it address the United States federal income tax consequences to holders that are subject to special rules under United States federal income tax law, including:

dealers in securities or foreign currencies;

tax-exempt organizations;

foreign persons;

financial institutions or insurance companies;

holders who have a functional currency other than the U.S. dollar;

holders who own their shares indirectly through partnerships, trusts, or other entities that may be subject to special treatment;

holders who acquired their Accent Optical stock in connection with stock options or stock purchase plans or other compensatory transactions; and

holders who hold their shares as a hedge or as part of a straddle, constructive sale, conversion transaction, or other risk management transaction.

In addition, this discussion does not describe the federal income tax consequences of transactions other than those pursuant to the merger or the tax consequences of the merger under foreign, state, or local law or federal estate and gift tax laws.

Edgar Filing: NANOMETRICS INC - Form S-4

The obligation of each of Accent Optical and Nanometrics to effect the merger is conditioned upon the receipt of a written opinion, respectively, from each of Perkins Coie, counsel to Accent Optical, and WSGR,

Table of Contents

counsel to Nanometrics to the effect that, on the basis of statements and representations made by each of Nanometrics, Accent Optical and Alloy Merger Corporation, and subject to the limitations, qualifications and assumptions set forth therein, for United States federal income tax purposes, the merger will constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code. If one party's counsel fails to deliver an opinion, this condition shall be satisfied if counsel to the other party delivers an opinion to both parties. These opinions will not be binding on the Internal Revenue Service and will not preclude the Internal Revenue Service from taking a contrary position. Neither Accent Optical nor Nanometrics has requested, nor will request, a ruling from the Internal Revenue Service regarding any of the federal income tax consequences of the merger.

The discussion set forth below, subject to the limitations and qualifications set forth herein, constitutes the opinion of each of Perkins Coie and WSGR as to the material federal income tax consequences to the Accent Optical stockholders of the exchange of Accent Optical stock for Nanometrics common stock pursuant to the merger.

The merger will qualify as a reorganization under Section 368(a) of the Internal Revenue Code.

Holders of Accent Optical stock will not recognize any gain or loss upon receipt of Nanometrics common stock solely in exchange for their Accent Optical stock in the merger.

A holder of Accent Optical stock who receives cash in the transaction in lieu of a fractional share of Nanometrics common stock will be treated as if the holder had received the fractional share and then had that share redeemed for cash. The holder of Accent Optical stock will recognize gain or loss equal to the difference between the cash received and that portion of the holder's basis in the Accent Optical stock attributable to the fractional share.

The aggregate tax basis in the Nanometrics common stock received by a holder of Accent Optical stock pursuant to the merger (including any fractional share that the holder will be treated as having received and then as having immediately redeemed for cash) will be the same as the aggregate tax basis of the Accent Optical stock surrendered in the exchange.

The holding period of Nanometrics common stock received by a holder of Accent Optical stock in exchange for shares of Accent Optical stock will include the holding period of the shares of Accent Optical stock surrendered in the exchange if the holder held that Accent Optical stock as a capital asset at the time of the transaction.

Holders of Accent Optical capital stock will be treated as having received the escrowed shares upon the consummation of the merger. No gain or loss will be recognized and no amount will be included in the income of the Accent Optical stockholders by reason of the release of escrowed shares to the Accent Optical stockholders. However, if escrowed shares are released to Nanometrics in satisfaction of any indemnity claims, a holder of Accent Optical capital stock will recognize gain or loss on each such share in an amount equal to the difference between (i) the value of the share released in satisfaction of the claim as determined pursuant to the merger agreement (with such amount to be added to the basis of the holder's remaining Nanometrics shares), and (ii) the Accent Optical stockholder's basis in such share.

An Accent Optical stockholder who exercises appraisal rights with respect to Accent Optical capital stock and receives payment for such stock in cash will recognize capital gain or loss based on the difference between such holder's tax basis in such stock and the amount of cash received, provided that such payment is not treated as a dividend distribution for tax purposes. Such payment to an Accent Optical stockholder should not be treated as a dividend distribution if, after the payment, the Accent Optical stockholder owns no shares of Nanometrics capital stock, actually or constructively.

These opinions have been rendered on the basis of certain assumptions, including assumptions regarding the absence of changes in existing facts and that the merger will be completed in accordance with the merger agreement. These opinions also have been rendered on the basis of statements and representations, including

Table of Contents

those contained in the merger agreement, the registration statement of which this proxy statement/prospectus forms a part, and officers certificates of Accent Optical and Nanometrics, all of which must be true, correct and complete as of the effective date of the registration statement and must continue to be true, correct and complete at all relevant times thereafter, including as of the effective time of the merger. If any of those statements, representations or assumptions is untrue, incorrect, or incomplete, the conclusions contained in these opinions could be adversely affected.

Accent Optical stockholders will be required to attach a statement to their U.S. federal income tax returns that contains the information listed in Treasury Regulation Section 1.368-3(b). Such statement must include the stockholder's tax basis in the Accent Optical capital stock surrendered in the merger and a description of the Nanometrics common stock received.

Holders of Accent Optical stock are urged to consult their own tax advisors as to specific tax consequences to them of the merger in light of their particular circumstances, including the applicability and effect of any state, local or foreign tax laws and of changes in applicable tax laws.

Accounting Treatment of the Merger

The merger will be accounted for under the purchase method of accounting in accordance with Statement of Financial Accounting Standards No. 141, *Business Combinations*. Under the purchase method of accounting, the total estimated purchase price is allocated to the net tangible and identifiable intangible assets of Accent Optical acquired in connection with the merger, based on their respective estimated fair values. Management has made a preliminary allocation of the estimated purchase price to the tangible and identifiable intangible assets acquired and liabilities assumed based on various preliminary estimates. Any excess of the estimated purchase price over the fair value of net assets acquired will be accounted for as goodwill.

In accordance with the Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets*, goodwill resulting from the business combination will not be amortized but instead will be tested for impairment at least annually (more frequently if certain indicators are present).

Regulatory Matters Relating to the Merger

The merger is not subject to review by the Department of Justice and the FTC under the HSR Act. However, the Department of Justice, the FTC, or other United States or foreign governmental authorities could challenge or seek to block the merger under the antitrust laws, at any time, even after completion of the merger. Moreover, in some jurisdictions, a competitor, customer or other third party could initiate a private action under the antitrust laws challenging or seeking to enjoin the merger, either before or after it is completed. Nanometrics and Accent Optical cannot be sure that a challenge to the merger will not be made or that, if a challenge is made, the merger will be allowed to go forward.

Dissenters or Appraisal Rights in Connection with the Merger

Appraisal Rights for the Accent Optical Stockholders

Under the provisions of the Delaware General Corporation Law, or the DGCL, Accent Optical stockholders may object to the transaction and demand in writing that the combined company pay the fair value of their shares. Determination of fair value is based on all relevant factors, but excludes any appreciation or depreciation resulting from the anticipation or accomplishment of the transaction. Accent Optical stockholders who elect to exercise appraisal rights must comply with all of the procedures to preserve those rights. Failure to vote against the merger in and of itself will not constitute a waiver of appraisal rights. However, a vote in favor of the merger will constitute a waiver of appraisal rights. A copy of Section 262 of the DGCL, which sets forth the appraisal rights, is attached hereto as Annex H.

Table of Contents

Section 262 of the DGCL sets forth the procedures that an Accent Optical stockholder requesting appraisal must follow. These procedures are complicated and must be followed in their entirety. A vote against the merger will not be deemed to satisfy any portion of Section 262 of the DGCL. Failure to comply with these procedures may cause an Accent Optical stockholder to lose his or her appraisal rights. In the event that a stockholder fails to perfect his or her appraisal rights, he or she will receive the same merger consideration per share as other Accent Optical stockholders receive in the transaction. The following information is only a summary of the required procedures and is qualified in its entirety by the provisions of Section 262 of the DGCL. Please review Section 262 for the complete procedures. Accent Optical will not give to its stockholders any notice of their appraisal rights other than as described in this document and as required by the DGCL.

General Requirements. Section 262 of the DGCL requires that stockholders must:

deliver a written demand for appraisal to the secretary of Accent Optical at its offices located at 1320 SE Armour Drive, Suite B2, Bend, Oregon 97702 no later than 20 days after _____, 2006, the date this document is first mailed to Accent Optical stockholders; and

continuously hold their shares of Accent Optical stock from the date they make the demand for appraisal rights through the closing of the transaction.

Requirements for Written Demand for Appraisal. A written demand for appraisal of Accent Optical stock is sufficient if it reasonably informs Accent Optical of the identity of the stockholder, as well as the intention of the stockholder to demand an appraisal of the fair value of the shares held.

Accent Optical's stockholders electing to exercise their appraisal rights should address the written demand to Accent Optical Technologies, Inc., 1320 SE Armour Drive, Suite B2, Bend, Oregon 97702, Attention: Secretary. Accent Optical must receive all written demands by _____, 2006 in order for the demands to be honored. This written demand should be signed by, or on behalf of, the stockholder of record. The written demand for appraisal should specify the stockholder's name and mailing address, the number of shares of stock owned and that the stockholder is thereby demanding appraisal of the stockholder's shares.

Written Notice. Within 10 days after the closing of the transaction, the combined company must give written notice of the date that the transaction closed to each Accent Optical stockholder who has fully complied with the conditions of Section 262 of the DGCL. Except as required by law, stockholders will not be notified of any dates by which appraisal rights must be exercised.

Petition with the Chancery Court. Within 120 days after the closing of the transaction, the combined company or any stockholder who has complied with the conditions of Section 262 of the DGCL may file a petition in the Delaware Court of Chancery. This petition should request that the Chancery Court determine the value of the shares of Accent Optical stock held by all of the stockholders who are entitled to appraisal rights. Stockholders should file a petition in the Chancery Court if they intend to exercise rights of appraisal. Neither Accent Optical nor Nanometrics have any intention at this time to file a petition. Because neither Accent Optical nor Nanometrics has an obligation to file a petition, if stockholders do not file such a petition within 120 days after the closing, they will lose their rights of appraisal.

Withdrawal of Demand. A stockholder may withdraw a demand for appraisal at any time within 60 days after the closing of the transaction. A stockholder may withdraw his or her demand for appraisal 60 or more days after the closing of the transaction, but only with the written consent of Nanometrics. Stockholders who withdraw their demands for appraisal will receive the merger consideration as provided in the merger agreement.

Request for Appraisal Rights Statement. Stockholders who have complied with the conditions of Section 262 of the DGCL will be entitled to receive a statement setting forth the number of shares for which appraisal rights have been exercised and the number of Accent Optical stockholders who own those shares. In order to receive this statement, a stockholder must send a written request to Nanometrics, addressed

Table of Contents

c/o Nanometrics Incorporated, 1550 Buckeye Drive, Milpitas, California 95035, Attention: Chief Financial Officer, within 120 days after the closing of the transaction. After the transaction is completed, Nanometrics will have 10 days after receiving a request to mail the statement to the stockholder.

Chancery Court Procedures. Nanometrics will have 20 days after the petition is filed in the Chancery Court to provide the Chancery Court with a list of the names and addresses of all Accent Optical stockholders who have demanded appraisal and have not reached an agreement with Nanometrics as to the value of their shares. If the Chancery Court decides it is appropriate, it will then send notice to all of the Accent Optical stockholders who have demanded appraisal and publish such notice in one or more publications it deems advisable at least one week before the day of the hearing. The Chancery Court has the power to conduct a hearing to determine whether the Accent Optical stockholders have fully complied with Section 262 of the DGCL and whether the Accent Optical stockholders are entitled to appraisal under that section. The Chancery Court may also require stockholders to submit their stock certificates to the Registry in Chancery so that it can note on the certificates that an appraisal proceeding is pending. Stockholders who do not follow the Chancery Court's directions may be dismissed from the proceeding.

Chancery Court Appraisal of Accent Optical Shares. After the Chancery Court determines which Accent Optical stockholders are entitled to appraisal rights, the Chancery Court will appraise the shares of stock. To determine the fair value of the shares, the Chancery Court will consider all relevant factors except for any appreciation or depreciation resulting from the anticipation or accomplishment of the transaction. After the Chancery Court determines the fair value of the shares, it will direct Nanometrics to pay that value to the stockholders who are entitled to appraisal. The Chancery Court can also direct Nanometrics to pay interest, simple or compound, on that value if the Chancery Court determines that interest is appropriate. Stockholders must surrender their stock certificates to Nanometrics in order to receive fair value for their shares. The Chancery Court could determine that the fair value per share of Accent Optical stock is more than, the same as, or less than the merger consideration per share of Common Stock. Stockholders could receive less consideration than they would under the merger agreement.

Costs and Expenses of Appraisal Proceeding. The costs and expenses of the appraisal proceeding may be assessed against Nanometrics and the Accent Optical stockholders participating in the appraisal proceeding, as the Chancery Court deems equitable under the circumstances. Stockholders may request that the Chancery Court determine the amount of interest, if any, that Nanometrics should pay on the value of Accent Optical Common Stock owned by stockholders entitled to the payment of interest. Stockholders may also request that the Chancery Court allocate the expenses of the appraisal action incurred by any stockholder pro rata against the value of all of the Accent Optical shares entitled to appraisal.

Loss of Stockholder's Rights. After the closing of the acquisition, stockholders who demand appraisal rights will not be entitled to:

vote, for any purpose, the shares of Accent Optical Common Stock for which appraisal has been demanded;

receive payment of dividends or any other distribution with respect to their shares of Accent Optical Common Stock, except for dividends or distributions, if any, that are payable to holders of record as of a record date before the effective time of the transaction;
or

receive the payment of the merger consideration provided for in the merger agreement.

Dissenting stockholders may regain these rights with respect only to the Nanometrics shares into which their Accent Optical stock will convert in part, if no petition for an appraisal is filed with the Chancery Court within 120 days after the closing of the transaction, or if such stockholder delivers to Nanometrics a written withdrawal of their demand for an appraisal and their acceptance of the transaction, either within 60 days after the closing of the transaction or with the written consent of Nanometrics. These actions will also terminate such stockholder's

Table of Contents

appraisal rights. However, an appraisal proceeding in the Chancery Court cannot be dismissed without the Chancery Court's approval. The Chancery Court may condition its approval upon any terms that it deems just.

Accent Optical stockholders who fail to comply strictly with these procedures will lose their appraisal rights they may otherwise wish to perfect. Consequently, Accent Optical stockholders who wish to exercise their appraisal rights are strongly urged to consult their personal legal advisor before attempting to exercise appraisal rights.

Listing of Nanometrics Common Stock

Application will be made to have the shares of Nanometrics common stock issued in the merger approved for listing on the Nasdaq National Market.

Restrictions on Sales of Certain Shares of Nanometrics Common Stock Received in the Merger; Shareholder Agreements with Nanometrics

All Nanometrics common shares that Accent Optical stockholders receive in the merger will be freely transferable, with the exception of the Nanometrics common shares received by persons who are deemed to be affiliates of Accent Optical under the Securities Act of 1933, as amended (the Securities Act), and the related SEC rules and regulations, at the time of the Accent Optical stockholders' meeting. These affiliates may resell their Nanometrics common shares only in transactions permitted by Rule 145 under the Securities Act or as otherwise allowed under that Act. Persons who may be deemed to be affiliates of Accent Optical for these purposes generally include individuals or entities that control, are controlled by, or are under common control with Accent Optical and may include some officers, directors and principal stockholders of Accent Optical.

In addition, each of Messrs. Rhine and Joost and their respective affiliates and Bio-Rad have executed shareholder agreements (the Shareholder Agreements) prohibiting them from selling, transferring or otherwise disposing of shares of Nanometrics common stock received in connection with the merger or received by such stockholder during the period its respective Shareholder Agreement is in effect (excluding any shares of Nanometrics common stock purchased on the open market by such stockholder). During the period commencing on the effective date of the merger and ending 24 months after the effective date of the merger, each of Messrs. Rhine and Joost and their affiliates has agreed not to, nor to contract to, sell, pledge, encumber or grant an option with respect to, transfer or dispose of (each referred to as a transfer) any Nanometrics shares or any securities convertible into or exercisable or exchangeable for Nanometrics shares except as follows: each such stockholder may transfer up to 1/24th of their holdings of such shares on a monthly basis or, if such stockholder sells less than the permitted number of shares, it can accumulate the right to sell up to 1/8th of its original holdings in a single month. During the period commencing on the effective date of the merger and ending 12 months after the effective date of the merger, Bio-Rad has agreed not to, nor to contract to, transfer any Nanometrics shares or any securities convertible into or exercisable or exchangeable for Nanometrics shares provided that Bio-Rad may transfer up to 1/12th of its holdings of such shares on a monthly basis. Forms of the shareholder agreements are attached to this joint proxy statement/prospectus as Annex E-1 and E-2, respectively.

THE MERGER AGREEMENT

The following summary describes the material provisions of the merger agreement. The merger agreement is complicated and not easily summarized. This summary may not contain all of the information about the merger agreement that is important to you. The merger agreement is attached to this joint proxy statement/prospectus as Annex A and is incorporated by reference into this joint proxy statement/prospectus. You are encouraged to read the merger agreement carefully in its entirety for a more complete understanding of the terms and conditions of the merger agreement. The representations and warranties of Nanometrics, Alloy Merger Corporation and Accent Optical contained in the merger agreement are qualified by information in confidential disclosure schedules delivered by each of Nanometrics, Alloy Merger Corporation and Accent Optical to each other in connection with signing the merger agreement, which schedules modify and create exceptions to the representations and warranties contained in the merger agreement. While neither Nanometrics nor Accent Optical believe that the disclosure schedules contain information that the securities laws require to be publicly disclosed, the disclosure schedules do contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the attached merger agreement. Accordingly, the representations and warranties should not be relied upon as characterizations of the actual state of facts, since they are modified by the underlying disclosure schedules. These disclosure schedules contain information that has been included in Nanometrics' prior public disclosures, as well as potential additional non-public information. Moreover, information concerning the subject matter of the representations and warranties may have changed since the date of the merger agreement, which subsequent information may or may not be fully reflected in Nanometrics' public disclosures.

Structure of the Merger

The merger agreement provides for the merger of Alloy Merger Corporation, a wholly owned subsidiary of Nanometrics, with and into Accent Optical, with Accent Optical surviving the merger as a wholly owned subsidiary of Nanometrics. The surviving subsidiary will, effective as of the closing of the merger, be named Accent Optical Technologies Nanometrics, Inc.

Closing and Effective Time of the Merger

Nanometrics and Accent Optical will complete the merger when all of the conditions to completion of the merger, which are described in the section entitled *Conditions to Obligations to Complete the Merger* beginning on page 93, are satisfied or waived. Such conditions include, but are not limited to, approval by the Nanometrics shareholders of the issuance of shares of Nanometrics common stock in the merger and approval by the Accent Optical stockholders of the merger agreement and the merger.

The merger will become effective upon the filing of the certificate of merger with the Secretary of State of the State of Delaware.

Nanometrics and Accent Optical are working to complete the merger as quickly as possible. Because completion of the merger is subject to certain conditions that are beyond our control, we cannot predict the exact timing. Absent any unanticipated delay, we expect to complete the merger during the second quarter of 2006.

Treatment of Securities

Upon completion of the merger, shares of outstanding Accent Optical capital stock and in-the-money and certain other options to acquire Accent Optical Common Stock will be converted into the right to receive Nanometrics common stock and options to acquire Nanometrics common stock. The total number of shares of Nanometrics common stock that will be issued or subject to assumed options in the merger will be: (i) 4,900,000, plus (ii) a number of shares equal to the value of the outstanding in-the-money Accent Optical stock options prior

Table of Contents

to closing (other than options granted after January 23, 2006) divided by the Average Closing Price, described below, plus (iii) shares of Nanometrics common stock issuable upon exercise of the Accent Optical stock options granted on or after January 23, 2006 (at the same conversion ratio as the Accent Optical in-the-money options). Of the shares issued to Accent Optical stockholders at closing, Nanometrics will deposit approximately 490,000 shares of common stock into an escrow account that will be available to compensate Nanometrics if it is entitled to indemnification under the merger agreement. Upon closing, Nanometrics will have an immediate claim on the escrow for a number of shares equal to (x) the Accent Optical transaction costs that exceed \$4.2 million which excess is currently estimated to be approximately \$950,000 divided by (y) the Average Closing Price.

The Average Closing Price will be equal to the average of the closing sales prices of Nanometrics common stock as reported on the Nasdaq Stock Market for the 10 trading days ending two days prior to the closing of the merger.

The maximum number of shares of common stock that Nanometrics would issue (or, in the case of options reserved for issuance) is approximately 5,215,062 shares, assuming that the Average Closing Price is equal to \$15.63, which would result in the Accent Optical stockholders holding approximately 27% of the fully diluted shares of Nanometrics common stock immediately after the merger, and the Nanometrics shareholders holding approximately 73% of the fully diluted shares of Nanometrics common stock immediately after the merger. For comparison purposes, the Average Closing Price for the 10 trading days ending on March 29, 2006 was \$13.23 per share which would have resulted in the issuance or reservation for issuance of approximately 5,137,349 shares of Nanometrics common stock had the merger closed two days following March 29, 2006.

Nanometrics will not issue fractional shares of its common stock in the merger. As a result, each Accent Optical stockholder will receive cash in lieu of any fractional share of Nanometrics common stock the stockholder would otherwise be entitled to receive in the merger.

Accent Optical has three classes of capital stock outstanding, and each class will be entitled to a different exchange ratio in the merger. Each share of Accent Optical's Series A Preferred Stock will receive Nanometrics common stock valued at \$1,000, the original purchase price of such shares. In addition, holders of Series A Preferred will forego the 13.5% cumulative dividend that Accent Optical has been accruing since 2000 (which dividends totaled approximately \$1,027 per share as of December 31, 2005). Each share of Accent Optical's Convertible Preferred Stock will receive Nanometrics common stock valued at \$1.13, which is approximately 55% of the \$2.05 liquidation preference on such shares under Accent Optical's certificate of incorporation. In addition, holders of Convertible Preferred will forego the 8% cumulative dividend that Accent Optical has been accruing since the shares were issued (which dividends totaled approximately \$0.83 per share as of December 31, 2005). If the value of the shares of Nanometrics common stock to be issued in the merger is insufficient to provide the full amounts to the holders of Series A Preferred Stock and Convertible Preferred Stock, as described above, then the available merger consideration will be prorated, and the holders of Accent Optical's Common Stock and options will receive no consideration in the merger.

If the value of Nanometrics common stock is sufficient to provide the full amounts to the holders of Series A Preferred Stock and Convertible Preferred Stock described above, the remaining shares of Nanometrics common stock to be issued in the merger will be issued (or, in the case of options, reserved for issuance) to the holders of Accent Optical Common Stock and in-the-money options (other than options granted on or after January 23, 2006) pro rata. In addition, holders of options to purchase Accent Optical Common Stock granted on or after January 23, 2006 will receive options to purchase Nanometrics common stock at the same exchange ratio.

For more information relating to the treatment of options to purchase Accent Optical Common Stock, see the section of this joint proxy statement/prospectus entitled *Treatment of Accent Optical Stock Options and Stock Plan* beginning on page 85.

Table of Contents

The exchange ratio of common stock in the merger (*i.e.*, the number of shares of Nanometrics common stock issuable for each share of Accent Optical capital stock) will be adjusted to reflect the effect of any stock split, reverse stock split, reclassification, stock dividend, reorganization, recapitalization, consolidation, exchange or other like change with respect to Nanometrics common stock or Accent Optical capital stock occurring or having a record date after the date of the merger agreement and prior to the closing of the merger.

Fractional Shares

Nanometrics will not issue any fractional shares of common stock in the merger. Instead, each holder of Accent Optical capital stock who would otherwise be entitled to receive a fraction of a share of Nanometrics common stock (determined after taking into account all of the Accent Optical capital stock held by each such holder and multiplying such shares by the applicable exchange ratio) will receive cash, without interest, in an amount equal to the fraction multiplied by the per share value of Nanometrics common stock.

Treatment of Accent Optical Stock Options and Stock Plan

When the merger is completed, Nanometrics will assume all outstanding options to purchase shares of Accent Optical Common Stock that are either in-the-money or were granted between January 23, 2006 and the closing of the merger, and convert them into options to purchase shares of Nanometrics common stock. Nanometrics will convert each assumed option into an option to purchase that number of shares of Nanometrics common stock equal to the number of shares of Accent Optical Common Stock subject to the option immediately prior to the merger, multiplied by the common stock exchange ratio, rounded down to the nearest whole share. The exercise price per share for each assumed Accent Optical option will be equal to the exercise price per share of the original Accent Optical option divided by the common stock exchange ratio, rounded up to the nearest whole cent such that the aggregate exercise price for such option remains constant. Each assumed option will be subject to all other terms and conditions set forth in the applicable documents evidencing each Accent Optical option immediately prior to the effective time of the merger. However, if the employment of the holder of Accent Optical stock options assumed by Nanometrics is terminated by Accent Optical or Nanometrics without cause or by the employee for good reason, as defined below, within six months following the completion of the merger, the vesting of such options will accelerate in full. As of March 29, 2006, options to purchase approximately 16,730,630 shares of Accent Optical Common Stock were outstanding in the aggregate under the Accent Optical stock option plan. Of these options, approximately 13,518,880 of the outstanding Accent Optical options were in-the-money based on an assumed Average Closing Price of \$13.23 or were granted between January 23, 2006 and the closing of the merger and would be assumed by Nanometrics. The remaining 3,211,750 Accent Optical options would not be assumed based on the same assumed Average Closing Price.

With respect to the options and shares subject to vesting, the term *cause* means: a termination of employment or service based upon a finding by Nanometrics (as the successor to Accent Optical), acting in good faith and based on its reasonable belief at the time, that the holder (a) has been negligent in the discharge of his duties to Nanometrics, has refused to perform stated or assigned duties or is incompetent in or (other than by reason of a disability or analogous condition) incapable of performing those duties; (b) has been dishonest or committed or engaged in an act of theft, embezzlement or fraud, a breach of confidentiality, an unauthorized disclosure or use of inside information, customer lists, trade secrets or other confidential information; (c) has breached a fiduciary duty, or willfully and materially violated any other duty, law, rule, regulation or policy of Nanometrics or an affiliate; or has been convicted of, or plead guilty or nolo contendere to, a felony or misdemeanor (other than minor traffic violations or similar offenses); (d) has materially breached any of the provisions of any agreement with Nanometrics or an affiliated entity; (e) has engaged in unfair competition with, or otherwise acted intentionally in a manner injurious to the reputation, business or assets of, Nanometrics or an affiliate; or (f) has improperly induced a vendor or customer to break or terminate any contract with Nanometrics or an affiliate or induced a principal for whom Nanometrics or an affiliate acts as agent to terminate such agency relationship.

Table of Contents

With respect to the options and shares subject to vesting, the term "good reason" means: (a) a change in the holder's status, title, position or responsibilities (including reporting responsibilities) that, in the holder's reasonable judgment, represents a substantial reduction in the status, title, position or responsibilities as in effect immediately prior thereto; the assignment to the holder of any duties or responsibilities that, in the holder's reasonable judgment, are materially inconsistent with such status, title, position or responsibilities; or any removal of the holder from or failure to reappoint or reelect the holder to any of such positions, except in connection with the termination of the holder's employment for cause, as a result of his or her disability or death, or by the holder other than for "good reason"; (b) a reduction in the holder's annual base salary; (c) Nanometrics or its successor requiring the holder (without the holder's consent) to be based at any place outside a 50 mile radius of his place of employment prior to the completion of the merger, except for reasonably required travel on business that is not materially greater than such travel requirements prior to the completion of the merger.

Nanometrics will file, within 15 business days after completion of the merger, a registration statement on Form S-8 with the SEC covering shares of Nanometrics common stock issuable in connection with the assumed options. As a result, all shares of Nanometrics common stock issuable upon the exercise of assumed options will be freely transferable as long as the registration statement remains effective.

Exchange Fund; Exchange of Stock Certificates

Prior to completion of the merger, Nanometrics will establish an exchange fund with a bank or trust company, which shall act as the exchange agent for the merger, to hold the stock and cash to be issued to Accent Optical stockholders in the merger. The exchange fund will consist of stock certificates representing shares of Nanometrics common stock and cash to be issued in lieu of fractional shares of Nanometrics common stock or as dividends or other distributions, if any, on Nanometrics common stock with a record date occurring after the completion of the merger.

As soon as practicable following completion of the merger, the exchange agent will mail to each record holder of Accent Optical capital stock a letter of transmittal and instructions for surrendering the record holder's stock certificates in exchange for a certificate representing the shares of Nanometrics common stock issuable to each such holder pursuant to the merger. Only those holders of Accent Optical capital stock who properly surrender their Accent Optical stock certificates in accordance with the exchange agent's instructions will receive (i) a certificate representing the shares of Nanometrics common stock issuable to each such holder pursuant to the merger, (ii) cash in lieu of any fractional share of Nanometrics common stock issuable to any such holders, and (iii) dividends or other distributions, if any, to which they are entitled under the terms of the merger agreement. The surrendered certificates representing Accent Optical capital stock will be cancelled. After the merger has been completed, each certificate representing shares of Accent Optical capital stock that has not been surrendered will represent only the right to receive shares of Nanometrics common stock issuable pursuant to the merger and cash in lieu of any fractional share of Nanometrics common stock to which the holder of any such certificate is entitled. Following the completion of the merger, Accent Optical will not register any transfers of Accent Optical capital stock on its stock transfer books.

Holders of Accent Optical capital stock should not send in their Accent Optical stock certificates until they receive a letter of transmittal from the exchange agent with instructions for the surrender of Accent Optical stock certificates.

Distributions with Respect to Unexchanged Shares

Holders of Accent Optical capital stock are not entitled to receive any dividends or other distributions on Nanometrics common stock until the merger is completed. After the merger is completed, holders of Accent Optical capital stock will be entitled to dividends and other distributions declared or made after completion of the merger with respect to the number of whole shares of Nanometrics common stock which they are entitled to

Table of Contents

receive upon exchange of their Accent Optical capital stock. These holders will not be entitled to receive these dividends or distributions, however, until they surrender their Accent Optical capital stock to the exchange agent in accordance with the exchange agent instructions.

Termination of Exchange Fund; No Liability

At any time following the six-month anniversary of the completion of the merger, Nanometrics will be entitled to the return of all cash and shares of Nanometrics common stock held in the exchange fund. Thereafter, Accent Optical equity holders may look only to Nanometrics for any merger consideration and any cash payment relating to any fractional shares, dividends or distributions to which they may be entitled.

Neither Nanometrics nor Accent Optical will be liable to any holder of Accent Optical capital stock, Accent Optical optionee for any shares (or any related dividends or distributions) delivered to a public official under any applicable abandoned property, escheat or similar law following the passage of time specified therein.

Lost, Stolen or Destroyed Certificates

If an Accent Optical stock certificate is lost, stolen or destroyed, the holder of the certificate must deliver an affidavit of such fact, and may also be required to deliver an agreement of indemnity or an indemnity bond prior to receiving any merger consideration. Nanometrics will issue only (i) Nanometrics common stock, (ii) cash in lieu of a fractional share and (iii) any dividends or distributions that may be applicable in a name other than the name in which a surrendered Accent Optical stock certificate is registered only if the person requesting the exchange presents to the exchange agent all documents required to show and effect the unrecorded transfer of ownership and to show that the requesting person paid any applicable stock transfer taxes.

Representations and Warranties

The notice must include the material terms and conditions of the acquisition proposal or information request, the identity of the person or group making the acquisition proposal or information request, and all related written materials provided in connection with the proposal or request.

Obligations of the Nanometrics Board of Directors and the Accent Optical Boards of Directors with Respect to their Recommendation and Holding a Meeting

The Accent Optical board of directors agreed to recommend to its stockholders the approval of the merger agreement and the merger and to use reasonable best efforts to obtain the required stockholder approvals.

The board of directors of Accent Optical has also agreed not to withdraw or modify, or publicly propose to withdraw or modify, its recommendations relating to the merger agreement and the transactions contemplated thereby, and not to adopt, approve or recommend to its shareholders that they accept any other acquisition proposal of the type described above. Regardless of whether either the Nanometrics or Accent Optical board of directors has received an acquisition proposal of the type described above, or has withheld, withdrawn, amended or modified its recommendation to its shareholders or stockholders relating to the merger agreement, each of Nanometrics and Accent Optical is obligated to call, give notice of, convene and hold a meeting to consider and vote upon its respective proposal relating to the merger agreement and the transactions contemplated thereby; and the fact that any of the foregoing has occurred will not give Nanometrics or Accent Optical a right to terminate the merger agreement or affect any other obligation of the parties under the merger agreement.

Neither Nanometrics nor Accent Optical will issue any press release or make any public statement with respect to the merger agreement or the transactions contemplated thereby without the prior written consent of the other party, which consent shall not be unreasonably withheld. However, Nanometrics and Accent Optical may, without the prior consent of the other, issue a press release or make a public statement relating to the merger agreement or the transactions contemplated thereby if, after consulting with outside counsel, it determines that the press release or public statement is required by applicable law or the rules and regulations of the Nasdaq National Market, and it has used all reasonable best efforts to consult with the other party regarding the timing, scope and content of any such press release or public statement.

Indemnification and Insurance

Under the terms of the merger agreement, Nanometrics agreed to honor for a period of six years after completion of the merger all obligations of Accent Optical contained in any indemnification agreement between Accent Optical or its subsidiaries, on the one hand, and any of its current or former directors or officers, on the other; provided that such agreement was in effect prior to completion of the merger. Also, for six years following completion of the merger, the certificate of incorporation and bylaws of Nanometrics will contain provisions with respect to indemnification and exculpation that are at least as favorable as the indemnification and exculpation provisions contained in the articles of incorporation or bylaws or similar organizational documents of Accent Optical and its subsidiaries as in effect prior to completion of the merger, and Nanometrics and its subsidiaries will not amend, repeal or otherwise modify such provisions in any respect, except as required by law.

For six years from completion of the merger, Nanometrics also will maintain the existing policy of Accent Optical's directors and officers and fiduciary liability insurance covering claims arising from facts or events that occurred prior to the completion of the merger, including acts or omissions occurring in connection with the merger agreement and completion of the transactions contemplated thereby to the extent such acts or omissions are covered by the existing insurance policy, and covering each director and officer of Accent Optical who was covered at the closing of the merger on terms with respect to coverage and amounts no less favorable than those in effect on the date of the signing of the merger agreement. However, Nanometrics will not be required to expend in any one year an amount in excess of 200% of the annual premium paid by Accent Optical at the time the merger agreement was signed. In the event the premium exceeds 200% of the annual premium at the time the merger agreement was signed, Nanometrics will be obligated to obtain an insurance policy with the greatest coverage available for a cost not exceeding 200% of the annual premium paid by Accent Optical at the time the merger agreement was signed. Alternatively, Nanometrics may, prior to completion of the merger, purchase a tail prepaid insurance policy for an effective term of six years from the completion of the merger, covering only those directors and officers of Accent Optical who were covered at the closing of the merger for actions and omissions that occurred prior to the completion of the merger, and on terms, conditions and amounts no less advantageous than the existing insurance policy.

Pursuant to those agreements, each of the above-listed shareholders, with the exception of Bio-Rad, has agreed not to transfer any shares of Nanometrics common stock acquired as consideration in the merger until the earlier to occur of (i) such date and time as the merger agreement shall have been validly terminated in accordance with its terms and conditions or (ii) the second anniversary of such date and time as the merger shall become effective in accordance with its terms and conditions. Notwithstanding the foregoing, these shareholders may transfer (i) shares of Nanometrics common stock held by the shareholder in transactions effected on a national securities exchange or through the Nasdaq Stock Market so long as the number of shares so transferred in any month does not exceed 1/24th of the number of shares received in the merger by such shareholder; provided that, if such stockholder sells less than the permitted number of shares he, she or it can accumulate the right to sell up to 1/8th of his, her or its original holdings in a single month, (ii) any of the shares in connection with the exercise (cashless or otherwise) of options to acquire shares of Nanometrics common stock in an amount that is sufficient to satisfy the payment of any transaction costs and any tax liability incurred by that shareholder in connection with that exercise, (iii) to a family member or trust for estate planning purposes, provided the transferee has agreed in writing to be bound by the terms of the Shareholder Agreement and to hold such shares subject to all the terms and provisions of the Shareholder Agreement, (iv) to a lender pursuant to a margin loan or other secured lending obligation provided the lender has agreed in writing to be bound by the terms of the Shareholders Agreement, (v) pursuant to, and in accordance with, the terms of a shareholder's 10b5-1 plan or arrangement with Nanometrics, if any, with terms and conditions consistent with the provisions of the Shareholders Agreement or (vi) in a transaction approved in writing by Nanometrics.

Pursuant to the Shareholder Agreement between Bio-Rad and Nanometrics, Bio-Rad agreed not to transfer any shares of Nanometrics common stock acquired as consideration in the merger until the earlier to occur of (i) such date and time as the merger agreement shall have been validly terminated in accordance with its terms and conditions or (ii) the first anniversary of such date and time as the merger shall become effective in accordance with its terms and conditions. Notwithstanding the foregoing, Bio-Rad may transfer (i) shares of Nanometrics common stock in transactions effected on a national securities exchange or through the Nasdaq Stock Market so long as the number of shares so transferred in any month does not exceed 1/12th of the number of shares received in the merger by Bio-Rad, (ii) any of the shares in connection with the exercise (cashless or otherwise) of options to acquire shares of Nanometrics common stock in an amount that is sufficient to satisfy the payment of any transaction costs and any tax liability incurred by Bio-Rad in connection with that exercise, (iii) to a family member or trust for estate planning purposes, provided the transferee has agreed in writing to be bound by the terms of the Shareholder Agreement and to hold such shares subject to all the terms and provisions of the Shareholder Agreement, (iv) to a lender pursuant to a margin loan or other secured lending obligation

provided the lender has agreed in writing to be bound by the terms of the Shareholder Agreement, (v) pursuant to, and in accordance with, the terms of a shareholder's 10b5-1 plan or arrangement with Nanometrics, if any, with terms and conditions consistent with the provisions of the Shareholder Agreement or (vi) in a transaction approved in writing by Nanometrics. Forms of the shareholder agreements are attached to this joint proxy statement/prospectus as Annex E-1 and E-2, respectively.

Employment Agreement

As a condition to Nanometrics entering into the merger agreement, Mr. Rhine entered into an employment agreement with Nanometrics, which provides for his employment with Nanometrics following the merger, as described in *Interests of Accent Optical Directors and Executive Officers in the Merger*. In addition, Mr. Rhine has agreed that, during the period from the completion of the merger until one year following Mr. Rhine's termination of employment with Nanometrics, Mr. Rhine will not engage as an employee or other service provider of, have any ownership interest in (other than certain passive interests in publicly traded entities) or participate in the financing, operation, management or control of a corporation or other entity or business that is in competition with Nanometrics or its subsidiaries or any business or proposed business of Nanometrics or its subsidiaries. Mr. Rhine has also agreed that, during the period from the completion of the merger until one year following Mr. Rhine's termination of employment with Nanometrics, he will not directly or indirectly solicit, induce or encourage any employee or customer of Nanometrics or its subsidiaries to terminate his, her or its employment or customer relationship with Nanometrics or its subsidiaries.

Escrow Agreement

Pursuant to the merger agreement, approximately 490,000 shares of Nanometrics common stock deliverable as consideration in the merger will be withheld and deposited with U.S. Stock Transfer Corporation (the *Escrow Agent*) and held in an escrow fund (the *Escrow Fund*) in order to secure Accent Optical's and its former stockholders' performance of indemnification obligations under Article IX of the merger agreement.

Upon closing, Nanometrics will have an immediate claim on the escrow for a number of shares equal to the Accent Optical transaction costs that exceed \$4.2 million, which excess is currently anticipated to be approximately \$950,000, divided by the Average Closing Price for the 10 trading days ending two days prior to the closing date of the merger.

In connection with the execution of the merger agreement on January 25, 2006, Nanometrics, Alloy Merger Corporation, the Stockholder Agent and the Escrow Agent entered into an escrow agreement setting forth additional terms and conditions relating to the operation of the Escrow Fund, treatment of the Escrow Shares and the indemnification claim procedures.

The full text of the escrow agreement is attached as Annex F. The escrow agreement includes the following provisions:

Escrow Fund the Escrow Fund will, subject to the terms and conditions of the merger agreement and the escrow agreement, be held as security for the indemnification obligations of Accent Optical stockholders pursuant to Article IX of the merger agreement.

Dividends any securities distributed in respect of or in exchange for any of the Escrow Shares, whether by way of stock dividends, stock splits or otherwise, will be delivered to the Escrow Agent, who will hold such securities in the Escrow Fund on behalf of Accent Optical stockholders.

Voting Rights the Stockholder Agent has the right, in his sole discretion, on behalf of Accent Optical stockholders, to direct the Escrow Agent in writing as to the exercise of any voting rights pertaining to the Escrow Shares, and the Escrow Agent must comply with any such written instructions.

Transferability the respective interests of Accent Optical stockholders in the Escrow Shares are not assignable or transferable, other than by operation of law.

Table of Contents

Indemnification Claim Procedures on or before the first anniversary of the closing date of the merger (the Termination Date), Nanometrics may deliver to the Escrow Agent a certificate signed by any officer of Nanometrics (an Officer s Certificate):

stating that an indemnified party has paid, suffered, incurred or sustained (or reasonably and in good faith anticipates that it may pay, suffer, incur or sustain) losses for which such indemnified party is entitled to indemnification pursuant to the merger agreement;

stating the amount of such losses (which, in the case of losses not yet paid, suffered, incurred, sustained, may be the maximum amount reasonably anticipated to be so paid, suffered, incurred or sustained);

specifying in reasonable detail (based upon the information then possessed by Nanometrics) the individual items of such losses included in the amount so stated and the nature of the claim for indemnification to which such losses relate; and

the specific provisions of the merger agreement that form the basis for such claim for indemnification of such losses.

Distribution of Escrow Shares at the time of delivery of any Officer s Certificate to the Escrow Agent, Nanometrics must deliver a duplicate copy of such Officer s Certificate to the Stockholder Agent, and for a period of 20 business days after such delivery to the Escrow Agent and the Stockholder Agent of such Officer s Certificate, the Escrow Agent may make no disbursement of Escrow Shares unless the Escrow Agent shall have received written authorization from the Stockholder Agent to make such delivery or disbursement. After the expiration of such 20 business day period, the Escrow Agent will deliver or disburse Escrow Shares having a value equal to such losses from the Escrow Fund to Nanometrics; provided, however, that no such delivery may be made if and to the extent the Stockholder Agent objects in a written statement to any claim or claims made in the Officer s Certificate, and such statement has been delivered to the Escrow Agent and to Nanometrics prior to the expiration of such 20 business day period.

Value of Escrow Shares for the purposes of determining the number of Escrow Shares to be delivered to Nanometrics or the Stockholder Agent, as applicable, out of the Escrow Fund, the Escrow Shares are valued at the average of the closing prices of Nanometrics common stock for the 10 trading days ending two trading days prior to the time that an Officer s Certificate is delivered to the Escrow Agent.

Distribution Following Termination Date within 20 business days after the Termination Date, the Escrow Agent must distribute to Accent Optical stockholders that number of Escrow Shares, if any, then held in escrow less any Escrow Shares to be delivered to the Stockholder Agent. Notwithstanding the foregoing, if Nanometrics has previously delivered to the Escrow Agent a copy of an Officers Certificate and the Escrow Agent has not received written notice of the resolution of the claim covered thereby, the Escrow Agent, upon written instructions received from Nanometrics and the Stockholder Agent will retain in escrow after such Termination Date such number of Escrow Shares as have a value equal to 100% of (i) the losses covered by such Officers Certificate or (ii) the estimated amount of losses set forth in such Officers Certificate, as the case may be.

Method of Distribution any distribution of all or a portion of the Escrow Shares to Accent Optical stockholders will be made by delivery of a check, in the case of a cash payment, other property or stock certificates, as applicable, issued in the name of Accent Optical stockholders, with the distribution to the individual Accent Optical stockholders to be determined by multiplying the aggregate cash, other property or Escrow Shares being distributed by the percentages set forth opposite such holders respective names listed on Attachment A of the escrow agreement; provided, however, that the Escrow Agent will withhold the distribution of the portion of the cash, other property or Escrow Shares otherwise distributable to a Accent Optical stockholder who has not, according to a written notice provided by Nanometrics to the Escrow Agent and the Stockholder Agent, prior to such distribution, surrendered pursuant to the terms of the merger agreement such Accent Optical stockholder s stock certificates formerly representing shares of capital stock of Accent Optical.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

The following unaudited pro forma condensed combined balance sheet as of December 31, 2005 and the unaudited pro forma condensed combined statements of operations for the year ended December 31, 2005 are based on the historical consolidated financial statements of Nanometrics, incorporated by reference and the historical consolidated financial statements of Accent Optical included in this joint proxy statement/prospectus, after giving effect to the merger as a purchase of Accent Optical by Nanometrics using the purchase method of accounting and applying the assumptions and adjustments described in the accompanying notes to the unaudited pro forma condensed combined financial statements.

The fiscal years of Nanometrics and Accent Optical ended on the same day in 2005. Accordingly, the unaudited pro forma condensed combined balance sheet combines Nanometrics' with Accent Optical's historical consolidated balance sheet as of December 31, 2005, giving effect to the merger as if it had occurred on December 31, 2005. The unaudited pro forma condensed combined statement of operations for the year ended December 31, 2005 combines Nanometrics' historical consolidated statement of operations for the year then ended with Accent Optical's historical consolidated statement of operations for the year ended December 31, 2005. The unaudited pro forma condensed combined statements of operations give effect to the merger as if it had occurred on January 2, 2005.

The merger will be accounted for under the purchase method of accounting in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations*. Under the purchase method of accounting, the total estimated purchase price, calculated as described in Note 1 to these unaudited pro forma condensed combined financial statements, is allocated to the net tangible and identifiable intangible assets of Accent Optical acquired in connection with the merger, based on the assets' respective estimated fair values. Nanometrics has made a preliminary allocation of the estimated purchase price to the tangible and identifiable intangible assets acquired and liabilities assumed based on various preliminary estimates. A final determination of these estimated fair values, which cannot be made prior to the completion of the merger, will be based on the actual net tangible and identifiable intangible assets of Accent Optical that exist as of the date of completion of the merger.

The unaudited pro forma condensed combined financial statements do not include any adjustments for liabilities that may result from integration activities, as Nanometrics and Accent Optical are in the process of making these assessments and estimates of these costs are not currently known. However, liabilities ultimately may be recorded for severance related to Accent Optical employees, costs of vacating some facilities of Accent Optical, or other costs associated with exiting activities of Accent Optical that may affect amounts in the pro forma financial statements. Any such liabilities would be recorded as an adjustment to the purchase price and an increase in goodwill. In addition, Nanometrics may incur significant restructuring charges upon completion of the merger or in subsequent quarters for severance costs related to Nanometrics employees, costs of vacating some pre-merger Nanometrics' facilities, or other costs associated with exiting activities of Nanometrics. Any such restructuring charges would be recorded as an expense in the consolidated statement of operations in the period in which they were incurred. Since the final estimated fair value of the unvested stock options assumed will be calculated at the closing date of the merger, the associated deferred stock-based compensation could change materially depending on the price of Nanometrics common stock or the number of Accent Optical unvested options outstanding as of the time of the closing of the merger.

These unaudited pro forma condensed combined financial statements have been prepared based on preliminary estimates of fair values. Amounts preliminarily allocated to intangible assets with definite lives may change significantly, which could result in a material change in amortization of intangible assets. Therefore, the actual amounts recorded as of the completion of the merger may differ materially from the information presented in these unaudited pro forma condensed combined consolidated financial statements. The impact of ongoing integration activities, the timing of completion of the merger and other changes in Accent Optical's net tangible and intangible assets that occur prior to completion of the merger could cause material differences in the information presented.

Table of Contents

The unaudited pro forma condensed combined financial statements have been prepared by Nanometrics and Accent Optical for illustrative purposes only and are not necessarily indicative of the condensed consolidated financial position or results of operations in future periods or the results that actually would have been realized had Nanometrics and Accent Optical been a combined company during the specified periods. The pro forma adjustments are based on the preliminary information available at the time of the preparation of this document. The unaudited pro forma condensed combined financial statements, including the notes thereto, should be read in conjunction with, Nanometrics' historical consolidated financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2005, which is incorporated herein by reference, and Accent Optical's historical consolidated financial statements included elsewhere herein.

Table of Contents**Notes to Unaudited Pro Forma****Condensed Combined Balance Sheet****1. Basis of Pro Forma Presentation**

On January 25, 2006, Nanometrics and Accent Optical entered into the merger agreement pursuant to which a subsidiary of Nanometrics will merge with and into Accent Optical and Accent Optical will become a wholly owned subsidiary of Nanometrics in a business combination to be accounted for using the purchase method. The total estimated purchase price of \$71.1 million includes the exchange of approximately 4.9 million shares of Nanometrics common stock valued at \$68.1 million, assumed vested stock options with a fair value of \$1.2 million and estimated direct transaction costs of \$1.7 million.

The unaudited pro forma condensed combined financial statements assume the issuance of 4.9 million shares of Nanometrics common stock to the holders of Accent Optical capital stock and the issuance of Nanometrics options to the holders of certain Accent Optical stock options that have exercise prices less than the price implied by the common stock exchange ratio in the merger. Nanometrics will also issue to the holders of Accent Optical capital stock an additional number of shares (Option Adjustment Amount) of its common stock equal to the quotient of the aggregate exercise price of all Accent stock options assumed, other than stock options issued on or after January 23, 2006 (aggregate exercise price), divided by the Average Closing Price currently estimated to be 80,122 shares. As the Average Closing Price and the aggregate Accent Optical stock options assumed will not be known until the date of closing, the additional shares to be issued under the Option Adjustment Amount was estimated using the aggregate exercise price divided by \$13.87, the average closing price for the period beginning two trading days before and ending two trading days after the merger was announced. The actual number of shares of Nanometrics common stock to be issued will be determined based on the number of in-the-money stock options of Accent Optical and the Average Closing Price on the date of closing of the merger. Accent Optical has agreed to indemnify Nanometrics for its transaction expenses in excess of \$4.2 million. Accent Optical estimates its transaction expenses to be approximately \$5.15 million. Upon closing, Nanometrics will have an immediate claim against the escrow for that portion of Accent Optical's transaction expenses in excess of \$4.2 million. The aggregate merger consideration includes an estimated reduction of 68,483 shares of Nanometrics common stock, the expected claim against escrow divided by the Average Closing Price. As the Average Closing Price and the claim against escrow will not be known until the date of closing, the reduction in shares was estimated using the expected claim against escrow divided by \$13.87, the average closing price for the period beginning two trading days before and ending two trading days after the merger was announced.

Under the terms of the merger agreement, each outstanding in-the-money option, as determined prior to closing, and each option granted on or after January 23, 2006 (whether in-the-money or not) to purchase Accent Optical Common Stock will be assumed by Nanometrics and converted into an option to purchase Nanometrics Common Stock. Under the terms of the merger agreement, Nanometrics would assume Accent Optical stock options to purchase approximately 0.3 million shares of Nanometrics common stock. The estimated fair value of the vested options assumed was determined using a Black-Scholes valuation model with the following weighted-average assumptions: volatility of 65.2%; risk-free interest rate of 4.5%, expected life of 2.85 years and dividend yield of zero. The actual number of stock options to be assumed will be determined based on the actual number of Accent Optical stock options in-the-money or granted on or after January 23, 2006 that are outstanding at the completion of the merger.

The unaudited pro forma condensed combined financial statements reflect the exchange of the outstanding in-the-money Accent Optical stock options as a modification based on the guidance of Financial Accounting Standards Board Interpretation No. 44 and Emerging Issues Task Force Issue No. 00-23 by analogy to the fair value model of Statement of Financial Accounting Standards 123(R) (SFAS 123R) as the transaction is expected to close after the implementation date of SFAS 123R. Accordingly the amount recorded as purchase consideration is equal to the fair value of Nanometrics vested and unvested options issued to holders of Accent

Table of Contents

Optical options, less the portion of the fair value of the unvested options attributable to the post-acquisition service period.

There were no significant intercompany balances and transactions between Nanometrics and Accent Optical as of the dates and for the periods of these pro forma condensed combined financial statements. However, as part of the merger agreement, Nanometrics agreed to provide Accent Optical with a working capital loan in the aggregate amount \$2.5 million. On March 13, 2006, Nanometrics advanced \$750,000 to Accent Optical as part of this agreement. Certain reclassification adjustments have been made to conform Nanometrics and Accent Optical's historical reported balances to the pro forma condensed combined financial statement basis of presentation.

The estimated purchase price and the allocation of the estimated purchase price discussed below are preliminary because the proposed merger has not yet been completed. The actual purchase price will be based on the Nanometrics shares issued to Accent Optical stockholders and the options to purchase Accent Optical stock assumed by Nanometrics on the closing date of the merger. The final allocation of the purchase price will be based on Accent Optical's assets and liabilities on the closing date.

The total preliminary estimated purchase price of the merger is as follows (in thousands):

	Amount
Estimated fair value of Nanometrics shares issued to Accent Optical stockholders	\$ 68,134
Estimated fair value of assumed Accent Optical stock options	1,224
Estimated direct transaction fees and expenses	1,710
Total preliminary estimated purchase price	\$ 71,068

Under the purchase method of accounting, the total preliminary estimated purchase price as shown in the table above is allocated to Accent Optical's tangible and intangible assets and liabilities based on their estimated fair values as of the date of completion of the merger. The total preliminary estimated purchase price is allocated as follows (in thousands):

	Amount	First Year Charges	Estimated Useful Life
Net tangible liabilities	\$ (2,948)		n/a
Identifiable intangible assets:			
Purchased technology	9,400	1,289	7.7 years
Brand names	3,700	507	7.7 years
Customer relationships	12,600	840	15 years
Backlog	1,100	1,100 ⁽¹⁾	1 year
Goodwill	47,216		n/a
Total preliminary estimated purchase price	\$ 71,068	\$ 3,736	

⁽¹⁾ These charges represent the portion of the estimated purchase price allocated to the fair value of existing backlog as of December 31, 2005. These charges are non-recurring and as such are not reflected in the unaudited pro forma condensed combined statement of operations. A final determination of fair values, which cannot be made prior to the completion of the merger, may differ materially from the preliminary estimates and will include Nanometrics' final valuation of the fair values of assets acquired and liabilities assumed. This final valuation will be based on the actual net tangible assets of Accent Optical that exist as of the date of the completion of the merger. The final valuation may change the allocations of purchase price, which could affect the fair value assigned to the assets and liabilities and could result in a change to the unaudited pro forma condensed combined financial statements data.

Table of Contents

A preliminary estimate of \$2.9 million has been allocated to net tangible liabilities assumed and \$26.8 million has been allocated to amortizable identifiable intangible assets acquired. The depreciation and amortization related to the fair value adjustment to net tangible assets and the amortization related to the amortizable identifiable intangible assets are reflected as pro forma adjustments to the unaudited pro forma condensed combined statements of operations.

Identifiable intangible assets. Of the total estimated purchase price, \$26.8 million was allocated to purchased technology, brand names, backlog and customer relationships. This adjustment is preliminary and is based on Nanometrics management's estimates. The amount ultimately allocated to identifiable intangible assets may differ materially from this preliminary allocation. A \$5.0 million increase or decrease in value allocated to the amortizable intangible assets would increase or decrease annual amortization by approximately \$0.5 million.

Identification and allocation of value to the identified intangible assets was based on the provisions of SFAS 141. The fair value of the identified intangible assets was estimated by performing a discounted cash flow analysis using the income approach. This method includes a forecast of direct revenues and costs associated with the respective intangible assets and charges for economic returns on tangible and intangible assets utilized in cash flow generation. Net cash flows attributable to the identified intangible assets are discounted to their present value at a rate commensurate with the perceived risk. The projected cash flow assumptions considered contractual relationships, customer attrition, eventual development of new technologies and market competition.

Amounts allocated to the identifiable intangible assets are expected to be amortized over a life of seven to 15 years with the exception of the value allocated to the backlog existing as of December 31, 2005, which is estimated to have one year life. The estimates of expected useful lives are based on guidance from SFAS 141 and take into consideration the effects of competition, product lives and possible obsolescence. The useful lives of the purchased technology and brand names are based on the number of years in which net cash flows have been projected. The useful lives of customer relationships were estimated based upon Accent Optical's established and long-standing customer relationships with its major customers.

Assumptions used in forecasting cash flows for each of the identified intangible assets included consideration of the following:

Accent Optical's historical operating margins;

Accent Optical's market share and growth;

trends in technology; and

the nature and expected timing of new product introductions by Accent Optical and its competitors.

Goodwill. Goodwill represents the excess of the purchase price over the fair value of the underlying net tangible and intangible assets. In accordance with SFAS 142, *Goodwill and Other Intangible Assets*, goodwill will not be amortized but instead will be tested for impairment at least annually (more frequently if certain indicators are present). In the event the management of the combined company determines that the value of goodwill has become impaired, the combined company will incur an accounting charge for the amount of impairment during the fiscal quarter in which the determination is made.

Deferred stock-based compensation. The total estimated fair value of all unvested Accent Optical stock options assumed by Nanometrics (which is not included in the purchase consideration) was \$1.8 million. The estimated fair value of the unvested options assumed was determined using a Black-Scholes valuation model with the following weighted-average assumptions: volatility of 89.5%; risk-free interest rate of 4.1%, expected life of 5.7 years, forfeiture rate of 20% and dividend yield of zero. This balance will be amortized over the remaining vesting period of the unvested stock options.

THE NANOMETRICS BUSINESS

Nanometrics offers a complete line of systems to address the metrology requirements of its customers. Nanometrics metrology systems can be categorized as follows:

Standalone, fully automated systems for high-volume manufacturing inspection;

Integrated systems built into semiconductor processing equipment that provide real-time measurements and feedback to improve process control and increase throughput; and

Tabletop systems used to provide manual or semi-automatic measurements for engineering and low-volume production environments. Nanometrics also provides systems that are used to measure the overlay accuracy of successive layers of semiconductor patterns on wafers in the photolithography process. The accurate alignment, or overlay, of successive film layers, relative to each other, across the wafer is critical for device performance and favorable production yields. Additional demands on process tool manufacturers for better film uniformity, tighter dimensional control, tool-to-tool matching and within-tool chamber uniformity is driving the need for integrated process control metrology. These new tool requirements will drive the need to place metrology inside the process tool for real-time, integrated, process control metrology, using both feed forward and feedback of the collected metrology data to control the process equipment.

Nanometrics has made several strategic changes in its business model to enable the company to further address these metrology trends. These changes include:

The sale of the company's flat panel display metrology business in Japan effective October 2005;

The introduction of a new 300 millimeter wafer platform for advanced overlay metrology;

The continued outsourcing of certain system components, such as robotics, enabling the company to leverage its technical resources;

The maximum utilization of an in-house manufacturing strategy for the company's products;

The development of new measurement technologies for advanced chemical mechanical planarization (CMP) and lithography; and

The acquisition of Soluris, Inc., a privately-held Massachusetts corporation, focused on overlay and critical dimension measurement. Demand for Nanometrics products is driven by the increasing use of multiple thin film technology by manufacturers of electronic products and, more recently, by the increased adoption of both integrated metrology and advanced process control (APC) by semiconductor manufacturers. With feature sizes shrinking below 65 nanometers, or nm, well below the wavelength of light, the need for very tight process tolerances as well as productivity improvements in semiconductor fabrication, or fabs, are driving the need for integrated metrology and APC. Nanometrics innovative Optical Critical Dimension (OCD) measurement system is being increasingly viewed not only as an enabling technology for APC, but also as a solution for critical dimension measurement for wafers as well as reticles and photomasks used for photolithography.

Nanometrics extended the wavelength range of the company's deep ultraviolet (DUV) reflectometry technology with the introduction of a new, integrated metrology module, the Nano9010T. The compact size and speed of this technology enables the measurement system to be fully integrated into the customer's process tool, thus providing a complete, feed forward and feedback APC solution for wafer to wafer closed loop

control. By measuring the critical dimensions of developed photoresist and then adjusting the final etched dimensions of a silicon gate etch process by feeding this information back into the process and trimming the resist, the device manufacturer is able to achieve consistent gatelength and the maximum possible microprocessor speed. addition, new semiconductor process technologies, such as copper interconnects, require that new measurement technologies be developed in order to keep pace with the latest metrology demands. This integrated metrology module also provides a method of measuring the remaining oxide film thickness as well as the loss of material over arrays of copper lines during the CMP process with the added capability of detecting residual films remaining after the polishing process.

Nanometrics' OCD technology has also proven to be applicable to the emerging requirements for advanced lithography measurements such as the characterization of critical dimensions and film thicknesses on masks and reticles which are comprised of square glass substrates. In 2005, Nanometrics successfully installed the Nanometrics Atlas-M, the first fully automated, standalone metrology system to use OCD technology for these square glass substrates at several key customer locations. This system is crucial to the suppliers and users of masks and reticles by providing the means for accurately determining line widths and analyzing complex profiles for a variety of structures found in today's mask fabrication process.

Nanometrics successfully introduced the Nanometrics Orion Overlay Control System, an advanced overlay metrology and analysis system for monitoring microlithography stepper performance. Orion provides exceptional throughput and measurement performance required by today's demanding 200mm and 300mm overlay control applications. Nanometrics has also continued the development of the Universal Defect Inspection (UDI) system in the company's facility in South Korea. The NanoUDI technology can be configured as either a standalone, fully automated 300-millimeter system or an integrated module for defect and contamination detection on a wide variety of films and surfaces. The system combines high efficiency illumination and high-resolution optics with sophisticated image processing to detect and classify particles and defects in the sub-micron range.

Additional information about Nanometrics' business and products is contained in the Nanometrics annual report on Form 10-K, filed with the SEC on March 24, 2006, and incorporated by reference into this joint proxy statement/prospectus.

Table of Contents**THE ACCENT OPTICAL BUSINESS****Industry Overview**

Semiconductor devices are enabling a wide variety of advanced computing, communications and consumer electronics products such as high-performance computing clusters, engineering workstations, routers, switches, cell phones, digital cameras, portable MP3 players, game boxes, DVD players, high-definition televisions, global positioning systems and flat panel displays. In addition, because of their enhanced energy efficiency, semiconductor devices are being used for illumination in cell phones and other mobile appliances, as well as traffic signals, automobiles and advertisement displays. The increasing demand for these sophisticated products is driving the need for lower-cost semiconductor devices that are smaller, faster and more power-efficient. In the case of light-emitting semiconductor devices, such as HBLED, manufacturers must meet additional requirements for increased brightness and the ability to emit light over a broader, more controlled spectrum of wavelengths.

The Semiconductor Device Manufacturing Process

The fabrication of silicon semiconductor devices, or integrated circuits, is accomplished through a complex, multi-step process of precisely depositing and removing layers of materials upon a silicon wafer. Each individual integrated circuit is sometimes called a die. The first layers of the device structure, known as the active region, typically consist of millions of transistors, which are formed, in part, by introducing dopants such as phosphorus and boron into the lattice. Subsequent layers form the interconnects that connect the device's transistors, capacitors and other components into an integrated circuit. Many steps in the manufacturing process are repeated multiple times. Among the most critical of these steps is photolithography, which creates the precise patterns required for each successive layer of the device. The patterning of layers requires precise alignment with previously patterned layers in order to ensure the correct formation and connection of device structures and interconnects.

The demand for smaller, faster, more power-efficient and more cost-effective semiconductor devices creates numerous semiconductor manufacturing challenges, including:

Smaller Device Geometries In order to fit more transistors into the same amount of surface area, manufacturers must produce devices with ever smaller feature sizes, including transistors as small as 50 nanometers and interconnect line diameters thinner than 250 nanometers. As the physical features of semiconductor devices continue to shrink, device sensitivity to defects in both transistor formation and layer deposition increases significantly.

More Device Layers The increasing number of transistors per device, the need to operate devices at higher speeds and the desire for greater functionality per device are requiring more interconnect layers per device. For example, today's advanced microprocessors are manufactured with seven or more interconnect layers. Each additional layer increases the potential for improper alignment during each photolithography process step.

Larger Silicon Wafers To reduce costs and enhance capital efficiencies, leading silicon semiconductor manufacturers have transitioned from 200mm to 300mm diameter wafers, which enable significantly more semiconductor device production per wafer. As a result of this transition, for a given device type, any material or process defect that affects an entire wafer represents a significantly greater financial loss for the device manufacturer.

Larger Die Sizes Semiconductor device manufacturers are incorporating greater functionality into each device, resulting in larger die sizes for certain complex applications. As an example, some manufacturers are integrating several functions, including memory, logic and analog circuitry, onto a single die. These devices, known as systems on a chip, increase the size of the die and the chance for defects or alignment errors in any one component, which can render the entire device inoperable.

Table of Contents*Process Control and Metrology*

With the cost of new semiconductor manufacturing facilities (fabs) in some cases exceeding \$2 billion, manufacturers are seeking ways to improve fab throughput, or the rate of device production, while simultaneously increasing yield, or the number of functional devices per wafer. Improving fab throughput lowers the amount of in-process inventory, speeds the time to market of devices in production and spreads fixed fab overhead expenses across more devices. One means of improving throughput is to reduce the time necessary to take the many process control measurements required in the manufacturing process. Increasing yield generates more functional devices per wafer, which may increase revenues and lower costs by reducing the amount of scrapped materials. Higher yield can be achieved by identifying defects and process variations as early as possible in the manufacturing process.

As a result, semiconductor device and wafer manufacturers are investing in process control and metrology systems that improve their manufacturing efficiency by detecting process variations sooner and facilitating rapid diagnosis and corrective action. Process control and metrology systems measure and characterize the physical dimensions, material composition, optical and electrical characteristics and other critical parameters of semiconductor devices during their fabrication. For the photolithography process, overlay and critical dimension systems provide enhanced control of layer alignment and device dimensions. For lattice engineering applications, metrology systems monitor the physical, optical, electrical and material characteristics of compound semiconductor, strained silicon and silicon on insulator devices, including composition, crystal structure, layer thickness, dopant concentration, contamination and carrier mobility.

The market for process control and metrology systems, like other semiconductor capital equipment, is influenced primarily by activity in the underlying market for semiconductor devices. These markets are highly cyclical and are likely to have future periods of growth and contraction.

Lattice Engineering

Improvements to the traditional semiconductor device manufacturing process are limited in their ability to achieve higher speed, lower power and enhanced functionality for certain applications. As a result, semiconductor device manufacturers are using advanced materials such as compound semiconductors or are modifying the lattice, or basic crystal structure, of pure silicon using technologies such as strained silicon (SSI) and silicon on insulator (SOI) to enhance device performance and functionality.

Compound semiconductors, which combine elements such as gallium with arsenic or nitrogen, indium with phosphorus, or even silicon with germanium, are used in a wide variety of applications, including wireless communications, broadband data communications, HBLEDs and laser diodes. SSI and SOI technologies enable higher performance silicon semiconductor devices used in logic applications such as microprocessors. SSI is formed by depositing a thin layer of silicon over a mixture of silicon and germanium. The strain induced upon the silicon lattice increases the mobility of carriers that move through the strained silicon region, increasing the operating speed and frequency, and reducing the power consumption of the device. SOI is a form of silicon wafer on which a thin top layer of silicon is isolated from the rest of the silicon wafer by an underlying layer of silicon dioxide. This insulating layer of silicon dioxide reduces current leakage to the underlying silicon, which lowers the device's power consumption.

HBLED fabrication steps differ from traditional silicon semiconductor device fabrication steps. Because HBLEDs are discrete devices that perform the sole function of converting an electrical input into a light output, they typically do not require additional component integration, extensive use of photolithography processes or interconnection layers. HBLEDs are ordinarily manufactured through a crystal growth process in which very thin layers of compound semiconductors, known as epilayers, are grown on a dissimilar substrate. Because compound semiconductors are grown on a dissimilar substrate, HBLED manufacturers are forced to introduce additional buffer layers, sometimes comprised of altogether different materials, to minimize defect generation in the active device region. As a result, differences in crystal structure, material properties and physical stress between the layers frequently cause defects that affect device yield in HBLEDs.

Table of Contents

Devices using advanced materials or modified lattices offer significant improvements in device performance, but introduce numerous additional design and manufacturing challenges due to:

Increased Likelihood of Defects Advanced technologies such as compound semiconductors, SSI and SOI introduce new challenges with respect to defects, contamination, crystal structure and verification of material composition and thickness. In the case of compound semiconductors, such as HBLEDs, and strained silicon, defects are more prevalent due to differences in the size, spacing and shape of the atoms between the various layers.

Sophisticated Thermal Modeling Requirements The electrical properties of some advanced semiconductor devices are sensitive to heat generated by the operation of the device. Measurements during final test, however, are typically taken without operating semiconductor devices at frequencies or power levels equal to or greater than their normal operating levels. Accurate design and development of devices requires accurate measurement tools that account for the complex and non-linear variations in device performance as a function of operating frequency and power.

Increased Sensitivity to Defects Advanced devices frequently operate at lower voltages in order to further decrease their power consumption. At lower voltages, tolerance of contamination and defects in the lattice becomes smaller. This requires greater measurement and control of dopant amount and placement, contamination and atomic structure.

These non-destructive measurements calculate line widths, line shapes and cross-sectional profiles quickly and accurately. Accent Optical's CDS200 runs on the Linux operating system, which the company believes results in high reliability.

Lattice Engineering Metrology Systems

Photoluminescence Mapping Systems PL mapping systems are used to non-destructively measure the light emitted by a compound semiconductor wafer after illumination by a laser in order to determine composition uniformity, material quality and defects in substrates, lattices and device structures. The information obtained by the PL mapping system allows manufacturers to determine whether a wafer should be further processed or if it should be removed from production due to defects or contamination.

Silicon Photoluminescence Mapping System The SiPHER system uses a variation of Accent Optical's PL mapping technology that analyzes the light emitted from the silicon wafer surface to provide real-time, automated wafer mapping of electrically-active defects and contamination in the lattice with sub-micron resolution. PL technology is applicable to strained silicon and silicon on insulator technologies as well as traditional integrated circuit materials, and is able to detect minute levels of metallic contamination and other structural defects that impede proper device performance.

Electrochemical Capacitance Voltage Profiling System The dopant profiling systems measure the change in dopant concentration through each compound semiconductor device layer in order to verify desired composition.

Deep Level Transient Spectrometers The deep level transient spectrometers detect, identify and quantify impurities that could lead to device failure or substandard performance, such as reduced light output from LEDs.

Hall Mobility Measurement Systems The Hall mobility measurement systems use the Hall Effect to measure the mobility of electrons and other carriers within the semiconductor material. The Hall Effect is a phenomenon in which electrons change their direction under the influence of a magnetic field. By measuring this phenomenon, Accent Optical's systems help determine the purity of the material, allowing semiconductor device manufacturers to make faster and more efficient devices.

Accent Optical Customers

Accent Optical sells its systems globally to a variety of semiconductor device and wafer manufacturers, including Samsung Electronics Co. Ltd., Intel Corporation, Shin-Etsu Handotai Co. Ltd., International Business Machines Corporation, Texas Instruments Incorporated, Advanced Micro Devices, Inc., Headway Technologies Inc., Hitachi Electronics, Wacker-Chemie, Sumitomo Electric, Nichia Corporation, Micron Technology, Inc., and ST Microelectronics N.V.

Accent Optical depends on a relatively small number of customers and end users for a large percentage of its revenues. In 2005, together with its distributors, Accent Optical sold its lattice engineering metrology systems and photolithography process control and metrology systems to approximately 80 customers. Sales to its top five customers were 35.7%, 31.3% and 42.9% of its revenues in 2005, 2004 and 2003, respectively. Sales to Samsung, Accent Optical's largest customer in 2005, were 12.7%, 10.3% and 10.3% of Accent Optical's revenues for 2005, 2004 and 2003, respectively.

Sales, Marketing and Service

Sales Accent Optical believes that a direct sales and support capability is essential for developing and maintaining close customer relationships and for rapidly responding to changing customer requirements. It maintains a direct sales force of highly trained, technically sophisticated sales engineers, many of whom have Ph.D.s. These engineers are knowledgeable in the use of process control and metrology systems in general and the features and advantages of Accent Optical's systems in particular. As of December 31, 2005, Accent Optical's sales force included 34 people located in the United States, Japan, Taiwan, South Korea, Singapore, France and Germany. Accent Optical uses third-party sales representatives and distributors to supplement its direct sales force in certain geographic regions and to provide sales coverage for specific product lines where it lacks a direct sales force for such product lines. Accent Optical's largest third-party sales representative is Hermes-Epitek Corporation, an exclusive representative of most of Accent Optical's systems for silicon semiconductor device manufacturers in Taiwan, China and Singapore. Accent Optical's largest third-party distributor is Quatek Co. Ltd., which exclusively distributes its systems for compound semiconductor device manufacturers in Taiwan and China. Accent Optical also engages a variety of sales representatives in Europe and the United States to sell its DIVA product line.

Marketing Marketing functions include global marketing strategy, advertising and sales promotion, product definition and evaluation of new systems. In order to raise market awareness of its systems, Accent Optical advertises in trade publications, distribute promotional materials, publish technical articles, conduct marketing programs, issue press releases regarding new systems, employ the services of a public relations firm and participate in industry trade shows and conferences.

Service Customer service and technical support are important competitive factors and help build and maintain close long-term relationships with Accent Optical's customers. Its teams of highly trained technologists

and customer service personnel are organized by the same geographical regions as its sales teams. Through these personnel, Accent Optical provides support before, during and after the delivery of its systems, including training programs, dedicated on-site service, service contracts, spare parts and technical support. Hermes-Epitek and Quatek are responsible for installation, warranty service and ongoing support for Accent Optical's systems that they sell. New system warranties typically range from 12 to 24 months for most of Accent Optical's systems. Accent Optical derives a substantial portion of its revenues by providing post-warranty service and upgrades for its growing installed base of systems. A significant portion of these services are provided pursuant to service contracts with Accent Optical's customers. In 2005, service revenues accounted for 19.0% of total revenues. As of December 31, 2005, Accent Optical employed 41 service personnel.

Manufacturing

Accent Optical performs the design, final assembly and test function for most of its systems in-house. Its main manufacturing facility is located in York, United Kingdom. To improve its manufacturing efficiency, it selectively outsources the production of subsystems and components in many cases to sole-source suppliers. In addition, a third party manufactures its DIVA systems. A portion of its FTIR product line, the QS1200, is also currently manufactured by a third party. Accent Optical believes that DIVA and QS1200 manufacturing could be brought in-house if necessary, although such transition would require a several month lead-time. A number of components and subsystems, such as factory automation and environmental control interfaces, wafer stages and monochromators, are expensive and require long lead-times. As a result, Accent Optical typically enters into purchase agreements with its suppliers and regularly update them as to its forecasted demand. Several alternate suppliers are available for most of these components and subsystems. However, if Accent Optical were required to purchase monochromators from an alternative vendor, it would expect a significant delay.

Accent Optical Competition

The market for photolithography process control and metrology systems is highly competitive with numerous large, established companies. Accent Optical's most significant competitors in this market are Hitachi, KLA-Tencor, Nanometrics, Nikon, Therma-Wave and Timbre Technologies\Tokyo Electron, and they have substantially superior distribution capabilities, larger research and development budgets and greater ability to offer bundled and integrated product offerings to customers. In addition significant competition for Accent Optical's critical dimension scatterometers has emerged from manufacturers of traditional reflectometers and ellipsometers, such as Rudolph Technologies, that have extended their technology by using new algorithms that enable their tools to perform critical dimension measurements.

Accent Optical competes in the emerging market for lattice engineering metrology systems and the more mature market for photolithography process control and metrology systems. The market for lattice engineering metrology systems is highly fragmented. Competition typically consists of privately held companies or divisions of large, established companies such as Spectris plc. and Thermo Electron Corporation. Accent Optical expects intense competition in this market to continue. Accent Optical's market share and operating results can fluctuate dramatically as a result of the introduction of new, competitive systems and the ability of competitors to secure patent and other intellectual property rights.

Accent Optical Research and Development

The markets in which Accent Optical competes are characterized by rapid technological development and product innovation. Accent Optical believes that continued and timely development of new systems and enhancements to existing systems are necessary to maintain its competitive position. Accordingly, Accent Optical devotes a significant portion of its resources to research and development and seeks to maintain close relationships with customers to remain responsive to their needs. Accent Optical's research and development costs were \$8.2 million, \$7.3 million and \$7.0 million in 2005, 2004 and 2003, respectively. As of December 31, 2005, Accent Optical had a total of 40 employees performing research and development activities in York,

Table of Contents

United Kingdom; Hemel Hempstead, United Kingdom; San Jose, California; and Bend, Oregon. Of these employees, 20 hold Ph.D.s.

Intellectual Property and Other Proprietary Rights

At December 31, 2005, Accent Optical owned 15 United States patents and exclusively licensed one United States patent as part of its ongoing research, development and manufacturing activities. Accent Optical has or has applied for foreign patents on some technologies in some of the countries where its systems are sold and used. Accent Optical filed 29 patent applications in 2005 and five patent applications in 2004. The patents it owns or exclusively licenses have expiration dates ranging from 2007 to 2020. Accent Optical's patents principally cover various aspects of process control and metrology and semiconductor materials characterization.

Employees

As of December 31, 2005, Accent Optical had 203 employees. None of Accent Optical's employees is represented by a collective bargaining agreement. To date, Accent Optical has experienced no work stoppages and believes that its relationship with its employees is good.

Facilities

As of December 31, 2005, Accent Optical leased facilities in the following cities:

Location	Square Footage	Use
York, United Kingdom	40,000	Manufacturing, sales and marketing and research and development
San Jose, California	8,137	Sales and marketing and spare parts depot
Bend, Oregon (two facilities)	6,100	Corporate headquarters and advanced research and development
Cambridge, United Kingdom	877	Research and development

These leases expire between 2006 and 2008, and most of the leases have options to extend their terms. Accent Optical believes its current facilities are adequate to meet its needs for the immediate future, but when its current leases expire, it may need to find alternative facilities. Although such facilities may generally be available, Accent Optical may not be able to obtain them on commercially reasonable terms.

When Accent Optical acquired the Waterloo, Canada business of Philips Electronics, Accent Optical agreed to assume certain liabilities, including a lease on a 25,305 square foot facility that expires in 2011, with an option to buy out the lease in 2006. Accent Optical does not currently utilize this facility and has subleased approximately 13,300 square feet of this facility to a third party and is attempting to sublease the remaining portion.

Accent Optical also has offices primarily supporting sales and service activities in Japan, Switzerland, Taiwan and South Korea.

This discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties, such as Accent Optical's plans, objectives and intentions. As a result of many factors, such as those set forth under Risk Factors beginning on page 28 of this joint proxy statement/prospectus, Accent Optical's actual results may differ materially from those anticipated in these forward-looking statements.

Overview

Accent Optical designs, manufactures, sells and services a broad suite of process control and metrology systems used by manufacturers of semiconductor wafers and compound and silicon semiconductor devices for the advanced computing, communications and consumer electronics markets. Accent Optical's systems measure optical, electrical and material properties, including the structural composition of compound and silicon semiconductor wafers, the amount of impurities or contaminants in semiconductor devices, electron mobility and the wavelength and intensity of light emitted by LEDs and laser diodes. Accent Optical's systems also measure the degree of alignment and dimensions of semiconductor device features. Customers use Accent Optical's process control and metrology systems to lower their costs by enhancing their manufacturing efficiency and increasing their production yields, and to improve their product performance and quality. Accent Optical sells its systems globally to leading semiconductor device and wafer manufacturers, including Samsung Electronics Co. Ltd., Intel Corporation, Shin-Etsu Handotai Co. Ltd., International Business Machines, Texas Instruments Incorporated, Advanced Micro Devices, Inc., Headway Technologies Inc., Hitachi Electronics, Wacker-Chemie, Sumitomo Electric, Nichia Corporation, Micron Technology, Inc., and ST Microelectronics N.V.

Our business is principally comprised of Bio-Rad Semiconductor Measurement Division, which we acquired on July 31, 2000 for approximately \$36.4 million (excluding \$6.6 million in assumed liabilities), which consisted of \$27.2 million in cash, a subordinated note payable to Bio-Rad in the original principal amount of \$8.0 million and the issuance to Bio-Rad of 21,951,000 shares of our Common Stock valued at \$220,000 (based on the most recent issuance of Common Stock at the time of the acquisition), representing approximately 20% of our issued and outstanding Common Stock immediately after the acquisition, and incurred transaction costs of approximately \$1.0 million. We financed the acquisition with bank debt, loans from stockholders, a subordinated note issued to Bio-Rad and proceeds from the issuance of Common and Preferred Stock.

The markets that Accent Optical serves are subject to sharp cyclical changes in supply and demand. Accent Optical bases its business activities in large part upon anticipated capital spending by semiconductor industry manufacturers. These spending levels are influenced by general economic conditions affecting demand for end products, production capacity relative to existing and projected demand, the manufacturer's existing and projected profitability and cash flows, new technologies requiring replacement equipment, and other competitive changes affecting the market for semiconductor devices. Accent Optical's revenues were \$37.6 million in 2003, increased in 2004 to \$42.0 million and remained approximately the same at \$41.9 million in 2005, in large part reflecting industry wide trends.

A significant portion of Accent Optical's revenues in each quarter and year has been derived from sales to relatively few customers, and Accent Optical expects this characteristic of its business to continue. In 2005, together with its distributors, Accent Optical sold its lattice engineering metrology systems and photolithography process control and metrology systems to approximately 80 customers. Sales to Accent Optical's top five customers accounted for 35.7%, 31.3% and 42.9% of its revenues in 2005, 2004 and 2003, respectively. Sales to Samsung, Accent Optical's largest customer in 2005, accounted for 12.7%, 10.3% and 10.3% of its revenues in 2005, 2004 and 2003, respectively. Sales to IBM accounted for 14.9% of revenues in 2003. No other customer

Table of Contents

accounted for more than 10% of Accent Optical's revenues in 2005, 2004 or 2003. In addition to its system sales, Accent Optical derives a substantial portion of its revenues from service and technical support that it provides to its customers. Service and technical support represented 19.0%, 20.3% and 25.2% of Accent Optical's total revenues in 2005, 2004 and 2003, respectively. Accent Optical's service and technical support revenues have increased in absolute terms as the installed base of its systems has grown. Additional factors affecting these revenues include the proportion of Accent Optical's systems sales represented by overlay systems, which generate higher levels of service revenue than its other systems, the level of factory utilization of Accent Optical's systems by its customers, and Accent Optical's success in selling post-warranty service contracts.

Accent Optical derives a substantial portion of its total revenues from sales outside the United States. Sales in Japan, in particular, have increased as a percentage of Accent Optical's revenues due to higher demand for its lattice engineering metrology systems from Japanese customers who increased their capital spending budgets for high brightness LEDs, bare silicon wafer and semiconductor device manufacturing. Accent Optical expects demand in Japan to grow in the short-term at a rate similar to worldwide growth. During 2005, 71.8% of Accent Optical's revenues were derived from customers outside of the United States. Managing Accent Optical's global operations presents challenges and involves uncertainties that may affect its business, financial condition and results of operations. Substantially all of Accent Optical's revenues to date, except revenues in Japan, have been denominated in United States dollars.

The geographic distribution of Accent Optical's revenues is as follows:

	2005	2004	2003
United States	28.2%	21.0%	36.9%
Japan	27.7	25.5	26.2
Asia (excluding Japan)	28.0	37.7	24.6
Europe	16.1	15.8	12.3
Total	100.0%	100.0%	100.0%

Each year, as part of Accent Optical's review of its financial results, Accent Optical performs an assessment of the carrying value of its long-lived assets to be held and used, including acquired intangible assets other than goodwill.

The assessment is performed pursuant to Statement of Financial Accounting Standards, or SFAS, No. 144 and is determined using undiscounted cash flows. Accent Optical recorded an impairment charge of approximately \$156,000 for the year ended December 31, 2003 related to the assets it acquired from the Waterloo, Canada business of Philips Electronics. This impairment was primarily related to the continuing substantial development efforts required for certain product lines that Accent Optical acquired. No impairment charge was recorded for the years ended December 31, 2005 and December 31, 2004.

During 2003, Accent Optical consolidated certain operations and reduced its number of employees worldwide to enhance operational efficiencies and reduce operating costs to a level more commensurate with industry conditions at that time. In early 2003, Accent Optical reduced its workforce and closed its Waterloo, Canada facility. Also during 2003, Accent Optical closed its Albuquerque, New Mexico and Randolph, Massachusetts facilities.

Accent Optical sells its systems primarily through its direct sales force and in certain locations or for certain products through sales representatives and distributors. Accent Optical's sales cycle can range from two to 24 months. Sometimes its sales cycle can be much longer than 24 months, particularly with its international customers. Due to the length of these cycles, Accent Optical invests significantly in research and development and sales and marketing in advance of generating revenues related to these investments. Additionally, Accent Optical does not have purchase contracts with any of its customers that obligate them to continue to purchase its

Table of Contents

systems, and they could cease purchasing systems from Accent Optical at any time. Generally, Accent Optical's customers are able to delay or cancel orders, often without penalty. A delay in purchase or cancellation by any of its large customers could cause Accent Optical's quarterly revenues to vary significantly. Given the high price of certain of its systems, a small change in the number of systems Accent Optical sells or in its product mix may cause significant changes in its operating results and financial position.

Accent Optical's revenues and gross profits are significantly affected by the prices at which it can sell its systems. Accent Optical operates in an intensely competitive market and sells to customers that have significant buying power. Both of these factors can result in downward pricing pressure. Accent Optical's gross profits as a percentage of revenues are also affected from period to period by its product mix, composition of service and technical support revenues, the impact of sales volumes on its factory utilization, and inventory adjustments and changes to warranty reserves. Accent Optical's lattice engineering metrology systems, which represented 58.6% of its systems revenues during 2005, typically have higher gross margins than its photolithography process control and metrology systems. Within service and technical support, spare parts sales typically generate higher gross margins than other activities.

Results of Operations

The following describes certain of the line items appearing in Accent Optical's consolidated statements of operations.

Revenues. Accent Optical currently derives revenues from the sales of systems to semiconductor wafer and device manufacturers and by providing service and technical support to its customers. Service and technical support include non-warranty maintenance, spare parts sales and contract services.

Cost of Revenues and Gross Profit. Accent Optical manufactures most of its systems in York, United Kingdom. Accent Optical uses third party suppliers for components of its systems, the most significant of which are robotic front-ends, lasers, environmental chambers and stages. Accent Optical uses subcontractors for services such as general machining, cable assembly and electronic board and rack manufacture. Accordingly, a majority of Accent Optical's cost of revenues consists of payments to its suppliers and subcontractors. Cost of product revenues also encompasses Accent Optical's internal manufacturing, which primarily consists of direct labor, a portion of its facilities costs, and installation and warranty costs. Cost of revenues for services primarily consists of service and technical support personnel and spare parts.

Research and Development. Research and development expenses primarily consist of salaries and related personnel costs, fees paid to consultants and outside service providers, and prototype costs related to the fabrication of Accent Optical's systems. Accent Optical expenses its research and development costs as they are incurred. Several components of Accent Optical's research and development initiatives require significant expenditures, such as prototype expenses, the timing of which can cause significant quarterly variability in its expenses. Because Accent Optical's research and development is critical to its future success, Accent Optical expects to continue to incur significant research and development expenditures.

Selling, General and Administrative. Selling, general and administrative expenses consist primarily of salaries, commissions and related expenses for executives, as well as finance, accounting, information services, human resources, recruiting, professional fees and other corporate expenses, and costs associated with selling and marketing activities.

Amortization of Acquired Intangibles and Goodwill. Acquired intangibles and goodwill consist of, respectively, identifiable intangible assets and the excess of purchase price over identifiable assets, in each case arising from Accent Optical's acquisitions of the Bio-Rad SMD and the other businesses and related assets that Accent Optical has acquired. Through 2005, Accent Optical amortized acquired intangibles over three to five years. Accent Optical does not amortize goodwill since its adoption of SFAS No. 142 in 2002.

Table of Contents

Interest Expense. Interest expense consists of interest on Accent Optical's subordinated note payable to Bio-Rad, which bears interest at 13.5% per annum, floating rate bank debt and capitalized leases. Through December 31, 2003, semi-annual interest on the Bio-Rad note was added to the outstanding principal. In November 2003, the Bio-Rad note was amended to provide for current payments of interest beginning in July 2004 and continuing semiannually for the remainder of its term. On January 8, 2006, Bio-Rad agreed to amend the note to defer the January 2006 interest payment to the earlier to occur of June 30, 2006 or the closing of a merger transaction with Nanometrics.

Provision for Income Taxes. As of December 31, 2005, Accent Optical had federal, state and foreign net operating loss carry forwards before valuation allowance of \$12.2 million, \$20.4 million and \$3.5 million, respectively. These net operating loss carry forwards will expire at various dates beginning in 2007. A valuation allowance is recognized if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Accent Optical recorded a valuation allowance on net deferred tax assets of \$10.1 million, \$9.0 million and \$6.6 million at December 31, 2005, 2004 and 2003, respectively.

Table of Contents**Years Ended December 31, 2005 and 2004**

Revenues. Accent Optical's revenues remained approximately the same in 2005 and 2004. Revenues were \$41.9 million in 2005 and \$42.0 million in 2004. Product revenues increased slightly to \$33.9 million in 2005 from \$33.5 million in 2004. Service revenues declined slightly to \$8.0 million in 2005 from \$8.5 million in 2004. Revenues from U.S. customers increased as a percentage of total revenues, primarily as a result of increased demand for photolithography systems, and to a lesser extent, increased demand for lattice systems. The increased revenue from U.S. customers was offset by a decline in revenues from customers in the Far East outside of Japan. Sales to customers in the Far East declined, both in absolute dollars and as a percentage of Accent Optical's revenues, primarily due to reduced demand for its lattice engineering metrology systems as customers decreased their capital spending budgets for high brightness LED and other compound semiconductor products.

Cost of Revenues and Gross Profit. Accent Optical's gross profit was \$19.7 million, or 47.0% of its revenues, in 2005, and \$20.9 million, or 49.7% of its revenues, in 2004. The decline in gross profit percentage from 2005 to 2004 was primarily attributable to two factors. First, revenues for two higher gross margin product lines, DIVA and RPM, declined as a percentage of total. Second, the gross profit in Accent Optical's service business declined due to lower service revenues, particularly for spare parts sales, which generate higher gross profit than other service revenues. During the year ended December 31, 2005, Accent Optical recorded charges for excess and obsolete inventory of \$478,500. Accent Optical recorded these charges based on the results of its regular analysis of inventories and their net realizable value based on current market conditions and forecasted customer demand for related products. This analysis highlighted limited anticipated consumption of certain spare parts and reduced sales expectations for Accent Optical's older generation equipment due to product design changes, the industry downturn and product obsolescence. During the year ended December 31, 2004, Accent Optical recorded a credit of \$830,000 reflecting a reduction in reserves for excess and obsolete inventory. The credit was primarily the result of sales of demonstration equipment which had previously been written down.

Research and Development. Accent Optical's research and development expenses were \$8.2 million, or 19.7% of its revenues, in 2005, and \$7.3 million or 17.5% of its revenues in 2004. Research and development expenses increased during 2005 due to increased development efforts on SiPHER and scatterometry systems and improvements to overlay systems. Increased costs for these development efforts were partially offset by slightly fewer personnel engaged in research and development, primarily due to the consolidation of engineering resources in the United Kingdom. In addition, Accent Optical incurred increased legal expenses in 2005 than in 2004, due to an increase in the filing of patent applications in 2005.

Selling, General and Administrative. Accent Optical's selling, general and administrative expenses were \$14.1 million, or 33.6% of its revenues, in 2005 and \$15.1 million, or 35.9% of its revenues, in 2004. Expenses were lower in 2005 due to lower headcount and slightly lower agent's commission due to the reduction in revenues in Asian markets. In addition, Accent Optical incurred costs of approximately \$1.0 million in conjunction with an anticipated initial public offering during 2004. Due to market conditions, the offering was abandoned in the fourth quarter of 2004, and all costs of the offering were expensed in 2004.

Amortization of Acquired Intangibles. Accent Optical amortized acquired intangibles of \$453,000 in 2005 and \$637,000 in 2004. The reduction in 2005 primarily reflects the impact of the reduced level of amortizable intangibles.

Interest Expense. Accent Optical's interest expense in 2005 and 2004 was \$1.8 million and \$1.9 million, respectively. Most of this interest expense is related to the Bio-Rad note. Beginning in 2004, Accent Optical has been required to make semi-annual interest payments on this note in cash. Accent Optical is required to repay the note as a result of the closing of the merger. Additional interest expense is related to Accent Optical's bank borrowings. Average bank borrowings were lower in 2005 than in 2004; however, average interest rates were slightly higher on the outstanding borrowings.

Table of Contents

Provision for Income Taxes. Accent Optical recorded an income tax expense of \$124,000 and \$93,000 in 2005 and 2004, respectively. Income tax expenses were incurred despite net losses due to taxable income in certain foreign jurisdictions and temporary differences in the recognition of expenses for tax purposes versus financial reporting purposes. As of December 31, 2005, Accent Optical had a valuation allowance against its gross deferred tax asset of \$10.1 million. The valuation allowance was provided primarily because of Accent Optical's cumulative pre-tax losses during the periods since its inception. After these periods of losses, Accent Optical has only recorded tax assets to the extent that it can recover taxes paid in prior periods.

Years Ended December 31, 2004 and 2003

Revenues. Accent Optical's revenues were \$42.0 million in 2004, an 11.7% increase from \$37.6 million in 2003. Product revenues increased by 19.4% based upon the rebound in the semiconductor and telecommunications equipment industries after a cyclical downturn in 2002 and 2003. The increase is also attributable to strong demand from high brightness LED manufacturers. To reduce excess capacity and to liquidate insolvent operations, several of Accent Optical's customers resold used systems in third-party markets at reduced prices, causing additional competition in a period of reduced product demand. Service revenues decreased by 10.0% from 2003 to 2004, primarily reflecting a reduction in service contract revenue to one of Accent Optical's largest service customers as the customer transitioned to next generation products.

Cost of Revenues and Gross Profit. Accent Optical's gross profit was \$20.9 million, or 49.7% of its revenues, in 2004, and \$18.8 million, or 49.9% of its revenues, in 2003. The increase in gross profit as a percentage of products revenue was due to increased factory utilization resulting from lower system sale volumes and a favorable product mix due to the increase in revenues from higher margin lattice engineering products. Service gross margins declined to 38.1% in 2004 from 50.4% in 2003 due primarily to lower utilization of service personnel due to the lower service revenues. During the year ended December 31, 2004 Accent Optical recorded a credit of \$830,000 reflecting a reduction in reserves for excess and obsolete inventory. The credit was primarily the result of sales of demonstration equipment which had previously been written down. For the year ended December 31, 2003, Accent Optical recorded charges for excess and obsolete inventory of \$1.4 million. Accent Optical recorded these charges based on the results of its regular analysis of inventories and their net realizable value based on current market conditions and forecasted customer demand for related products. This analysis highlighted limited anticipated consumption of certain spare parts and sales expectations for Accent Optical's older generation equipment due to product design changes, the industry downturn and product obsolescence.

Research and Development. Accent Optical's research and development expenses were \$7.3 million, or 17.5% of its revenues, in 2004, and \$7.0 million, or 18.7% of revenues, in 2003. The higher revenues caused research and development expense to decline as a percent of revenues during 2004.

Selling, General and Administrative. Accent Optical's selling, general and administrative expenses were \$15.1 million, or 35.9% of its revenues, in 2004 and \$15.7 million, or 41.7% of its revenues, in 2003. Selling, general and administrative personnel costs were lower in 2004 due to a reduction in personnel as part of various restructuring efforts, a reduction in audit costs due to the completion of a re-audit of Accent Optical's 2000 and 2001 financial statements in 2003 and Accent Optical's decision to restrain spending due to market conditions. These costs were partially offset by higher selling commissions associated with the increased revenues and costs of approximately \$1.0 million incurred in conjunction with an anticipated initial public offering during 2004. Due to market conditions, the offering was abandoned in the fourth quarter of 2004 and all costs of the offering were expensed.

Amortization of Acquired Intangibles. Accent Optical amortized acquired intangibles and goodwill of \$637,000 in 2004 and \$711,000 in 2003. Amortization costs in 2003 included an impairment charge of \$156,000 in 2003 related to the Waterloo acquisition.

Table of Contents

Interest Expense. Interest expense was \$1.9 million in 2004 and \$1.7 million in 2003. The slight increase in interest expense resulted from higher average borrowings in 2004, as accrued interest was added to the principal on the Bio-Rad note.

Provision for Income Taxes. Accent Optical recorded an income tax expense of \$93,000 in 2004 versus an income tax benefit of \$166,000 in 2003. Income tax expenses were incurred despite net losses due to taxable income in certain foreign jurisdictions and temporary differences in the recognition of expenses for tax purposes versus financial reporting purposes. As of December 31, 2004, Accent Optical had a valuation allowance against its gross deferred tax asset of \$9.0 million. The valuation allowance was provided primarily because of Accent Optical's cumulative pre-tax losses during the periods since its inception. After these periods of losses, Accent Optical has only recorded tax assets to the extent that it can recover taxes paid in prior periods.

Accent Optical's revenues varied between \$6.9 million and \$12.7 million during the eight quarters ended December 31, 2005. The volatility in Accent Optical's revenues during the period resulted from a variety of factors including: cyclical customer capital spending budgets, the timing of customer capacity additions, design wins for its systems, a downturn in 2005 capital spending by Accent Optical's high brightness LED customers, and seasonal factors, particularly for Accent Optical's lattice engineering systems. Certain of Accent Optical's photolithography process control and metrology systems carry a higher average selling price than its other systems and the sale of a few systems can significantly influence its level of quarterly revenue. Service revenues have varied between \$1.7 million and \$2.5 million, and are generally influenced by equipment utilization rates at Accent Optical's customers.

Accent Optical's gross profit fluctuates each quarter due to changes in product and service mix, the overall level of revenues, inventory adjustments and currency rates. Gross profit varies from product to product and occasionally varies depending upon the region in which the system is sold. For instance, Accent Optical's FTIR product line can experience gross margins in the mid-40% range, whereas its RPM product line can achieve gross margins in the mid-70% range. On an annual basis, Accent Optical's product mix has remained relatively constant; however there is often significant fluctuation on a quarterly basis. Service gross margins vary depending upon the overall utilization of Accent Optical's service personnel and the level of spare parts revenue which generally has higher gross margins than labor-based service revenue.

Accent Optical's operating expenses have varied quarter to quarter, depending upon the timing of various restructuring efforts, the level of sales and timing and level of product development efforts. Accent Optical's operating expenses declined in the latter half of 2005 as Accent Optical's ongoing restructuring efforts have resulted in a lower operating expense run rate. Research and development costs in the latter half of 2004 and the first half of 2005 were higher as Accent Optical expensed costs associated with the building of prototype systems. Accent Optical's expenses for the fourth quarter of 2004 included approximately \$1.0 million as it wrote off costs associated with its abandoned initial public offering.

Liquidity and Capital Resources

Since Accent Optical's inception in April 2000, it has financed its operations from the issuance of its common and preferred stock and incurrence of debt and capital lease obligations, and from cash generated by operating activities. Accent Optical's working capital was \$10.1 million, \$15.5 million and \$16.6 million at December 31, 2005, 2004 and 2003, respectively. Accent Optical's cash equivalents and short-term investments were \$3.6 million, \$5.1 million and \$5.5 million at December 31, 2005, 2004 and 2003, respectively.

Based on its operating plan, Accent Optical's management estimates that cash at December 31, 2005, existing debt financing arrangements and cash flows generated from operating activities will not be sufficient to fund operations at the current and projected levels for the next twelve months. Accordingly, in the event that the merger with Nanometrics is not completed, Accent Optical will pursue alternatives to decrease expenses and increase capital available to it. Such alternatives could include selling certain product lines, reducing costs in a manner that could affect operational activities, seeking alternative financing arrangements or pursuing additional placement of Accent Optical stock. There can be no assurance that such sources of financing and capital will be available if required or, if available, will be on terms satisfactory to Accent Optical.

Net cash generated by operating activities was \$724,000 in 2005. Cash generated by operating activities in 2005 was a result of non-cash expenses and improved use of working capital, including a decrease in accounts receivable of \$1.3 million and a decrease in inventory of \$2.3 million between December 31, 2004 and December 31, 2005. Cash used by operating activities was \$3.5 million and \$4.7 million in 2004 and 2003, respectively. Cash used by operating activities in 2004 and 2003 primarily resulted from operating losses. The operating loss in 2004 was partially offset by a tax refund of approximately \$3.6 million. Net cash used in investing activities was \$376,000, \$432,000 and \$1.5 million for 2005, 2004 and 2003, respectively. Investing activities during 2005 and 2004 consisted primarily of capital expenditures. Capital expenditures were \$604,000,

Table of Contents

\$1.6 million and \$408,000 in 2005, 2004 and 2003, respectively. Capital expenditures were primarily for the development of engineering assets for product development and training purposes, and upgrades to Accent Optical's information technology systems. Investing activities during 2003 consisted primarily of acquisition of short-term investments. Net cash used in financing activities was \$1.0 million and \$1.3 million in 2005, and 2003, respectively. Cash used in financing activities primarily consisted of payments on a term bank loan. Net cash provided by financing activities was \$4.1 million for the year ended December 31, 2004, primarily as a result of a \$4 million common stock offering completed in the fourth quarter of 2004.

Accent Optical issued a note for \$8.0 million to Bio-Rad in connection with its acquisition of the Bio-Rad SMD in July 2000. This note bears interest at a rate of 13.5% per annum and was originally scheduled to mature on July 31, 2005. Accrued interest has been added to the principal balance on June 30 and December 31 of each year since issuance, and the principal balance of this note was \$11.8 million at December 31, 2005. In November 2003, Accent Optical renegotiated the terms of this note to extend the maturity date to July 31, 2007 and to require that cash interest payments be made semi-annually beginning on June 30, 2004. The Bio-Rad note must be repaid in full within two days of a change in control. In January 2006, Bio-Rad agreed to defer interest due of \$812,000 until the earlier of a change in control of Accent Optical or June 30, 2006.

In December 2002, Accent Optical entered into a term loan agreement with Comerica Bank. Outstanding borrowings under the loan agreement are secured by substantially all of the assets of Accent Optical and its subsidiaries. The loan agreement contains affirmative and negative covenants (including restrictions on Accent Optical entering into certain transactions and certain financial covenants including a minimum liquidity ratio and tangible net worth). In June 2004, Accent Optical amended the loan agreement with Comerica to include a revolving line of credit and a revolving equipment advance line of credit. Accent Optical may request advances under a revolving line of credit not to exceed the lesser of (1) \$7,500,000, minus the balances on all Comerica debt under the amended loan agreement, or (2) the borrowing base established by the debt covenants. Under the terms of this amendment, Accent Optical may also request advances for purchases of equipment not to exceed the lesser of (1) \$7,500,000, minus the balances on all Comerica debt under the amended agreement, or (2) the borrowing base established by the debt covenants.

In October 2004, Accent Optical amended the agreement with Comerica to convert the balance under the revolving equipment advance line of credit to a term loan. Under this amendment, approximately \$626,000 was converted to term debt on December 31, 2004 and an additional \$206,000 was converted to term debt on July 1, 2005. The loan bears interest at the lower of (1) Comerica Bank's prime rate or LIBOR plus reserve percentage (reserve percentage of 2.75% at December 31, 2005) or (2) Comerica Bank's prime rate. The first equipment term loan is payable over 36 months, beginning December 1, 2004. The second equipment term loan is payable over 36 months, beginning July 1, 2005. The equipment term loans may be prepaid in whole or in part without any penalty or premium. The outstanding balance of equipment term loans as of December 31, 2005 is \$594,309.

As of December 31, 2005 and 2004, the balances of the Comerica Bank term loan were \$1,250,000 and \$2,500,000, respectively. The loan bears interest at the lower of either Comerica Bank's prime rate or the LIBOR rate plus a reserve percentage (2.75% at December 31, 2005 and 2004.) The interest rates on the Comerica Bank term loan were 7.03% and 4.86% at December 31, 2005 and 2004, respectively. The term loan is payable in 48 equal monthly installments of principal, plus all accrued interest, beginning January 1, 2003. The term loan may be prepaid in whole or in part without any penalty or premium.

As of December 31, 2005, the balance of the Comerica Bank revolving line of credit was \$900,000. The loan bears interest at the lower of (1) Comerica Bank's prime rate or the LIBOR plus a reserve percentage (2.50% at December 31, 2005) or (2) Comerica Bank's prime rate. The interest rate on the Comerica Bank revolving line of credit at December 31, 2005 was 7.25%. The maturity date on the revolving line of credit is May 31, 2006. Amounts currently available under the revolving line of credit are limited by the borrowing base as defined in the credit agreement. As of March 15, 2006, Accent Optical could borrow approximately \$500,000 under the revolving line of credit.

Table of Contents

As of December 31, 2005, the balance on the Comerica Bank equipment term loan was \$594,000. The loan bears interest at the lower of (1) Comerica Bank's prime rate or the LIBOR plus a reserve percentage (2.75% at December 31, 2005) or (2) Comerica Bank's prime rate. The interest rate on the Comerica Bank revolving equipment line of credit was 7.25%. The equipment term loan is payable over 36 months, beginning December 1, 2004. The equipment term loan may be prepaid in whole or in part without any penalty or premium.

As of December 31, 2005, Accent Optical was not in compliance with its liquidity ratio and net worth covenants and on February 24, 2006 entered into a Forbearance and Second Amendment with Comerica. Under this amendment, Comerica has agreed not to pursue any remedies for any default until the earlier of May 31, 2006 or completion of the merger. In addition, the minimum liquidity ratio was reduced for this period and compliance with the net worth covenant has been waived.

Contractual Obligations. The following is a summary of Accent Optical's contractual commitments and obligations as of December 31, 2005 (in thousands):

Accent Optical's future capital requirements will depend on many factors, including its sales growth, market acceptance of its existing and new systems, the amount and timing of its research and development expenditures, the timing of its introduction of new systems, expansion of its sales and marketing efforts, potential acquisitions and working capital. There can be no assurance that Accent Optical will not require additional financing or that additional equity or debt financing, if required, will be available on satisfactory terms.

Off-Balance Sheet Arrangements

Accent Optical has no off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies and Estimates

The preparation of Accent Optical's consolidated financial statements requires that it make certain estimates and judgments that affect amounts reported and disclosed in Accent Optical's consolidated financial statements and related notes. Accent Optical bases its estimates on historical experience and on other assumptions that it believes to be reasonable under the circumstances. Actual results may differ from these estimates. The following are the critical accounting policies that Accent Optical believes require significant estimation and management judgment.

Revenue Recognition. Accent Optical's revenue recognition policy complies with Staff Accounting Bulletin No. 104 and its related implementation guidance. Accent Optical's revenues are derived from the sale of its systems and from fees associated with service and technical support offered to its customers. Revenues from systems sales are recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the price is fixed and determinable and collectibility is reasonably assured. For sales of standard systems to existing customers who have purchased the same equipment with the same customer-

Table of Contents

specified acceptance provisions in the past, revenues are recognized upon title transfer, which is generally upon shipment of the system to the customer. For sales of existing systems with new specifications or acceptance clauses to a new customer, and for all sales of new systems, revenues are recognized upon customer acceptance. Service and technical support for systems is provided under separate maintenance agreements. Revenues from maintenance agreements, typically from one to two years, are recognized ratably over the term of the respective agreement as the service is provided.

Product sales to distributors are recognized upon transfer of title, which is generally upon shipment of the product to the distributor or the end customer.

Revenues on the sale of spare parts are recognized when persuasive evidence of an arrangement exists (a binding purchase order is received), delivery has occurred, the price is fixed and determinable and collectibility is reasonably assured. Title and the risk and rewards of ownership transfer upon shipment of the spare parts and revenues are recognized upon shipment.

Valuation of Accounts Receivable/Doubtful Accounts. The allowance for doubtful accounts is estimated based on past collection history and known trends with current customers. The risk related to accounts receivable is mitigated by sales to well-established companies, ongoing credit evaluation of Accent Optical's customers, and frequent contact with its customers, especially its most significant customers, thus enabling Accent Optical to monitor current changes in business operations and to respond accordingly. Accent Optical's estimates for allowance for doubtful accounts are reviewed and updated on a quarterly basis. Changes to the reserve occur based upon changes in revenue levels, associated balances in accounts receivable and estimated changes in credit quality. Accent Optical's allowance for doubtful accounts totaled \$231,000 and \$367,000, respectively, at, December 31, 2005 and December 31, 2004. Actual losses from accounts receivable have been within Accent Optical's estimates.

Inventory Valuation. Inventories are stated at the lower of cost (first-in, first-out method) or market. Finished goods and work-in-process include cost of materials, labor and manufacturing overhead costs. Reserves, when required, are recorded to reduce excess and obsolete inventories to their estimated net realizable values. Because of the long-lived nature of many of its systems, Accent Optical maintains a substantial supply of parts for possible use in future repairs and customer field service. As these service parts become older, Accent Optical applies a higher reserve percentage against the recorded balance, recognizing that the older the part, the less likely it will be used. If circumstances related to its inventories change, Accent Optical's estimates of the value of inventory could materially change. Accent Optical records estimated inventory write-downs quarterly as a component of cost of revenues. Inventory reserves of \$5.3 million and \$6.6 million were recorded at December 31, 2005 and December 31, 2004, respectively.

Stock-Based Compensation. Accent Optical accounts for stock-based employee compensation arrangements in accordance with the provisions of Accounting Principles Board, or APB, Opinion No. 25, *Accounting for Stock Issued to Employees*, and complies with the disclosure provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure, Amendment to SFAS No. 123*. Under APB No. 25, compensation expense is based on the difference, if any, on the date of grant, between the fair value of the stock and the exercise price of the option. Accent Optical accounts for stock and stock options issued to non-employees in accordance with the provisions of Emerging Issues Task Force Consensus on Issue No. 96-18, *Accounting for Equity Instruments that are Issued to Other than Employees for Acquiring or in Conjunction with Selling, Goods or Services*. Compensation and services expense are recognized over the vesting period of the options or the periods the related services are rendered, as appropriate.

Income Taxes. Income taxes are accounted for under the asset and liability method. Deferred income taxes are recognized for the difference between the financial statement carrying amounts and the tax basis of existing assets and liabilities. Deferred income taxes are recorded at the tax rates expected to be in effect when amounts

Table of Contents

are to be included in future taxable income. Accent Optical regularly assesses the recoverability of deferred tax assets and records a valuation allowance to reduce the deferred tax assets to the amounts believed to be realizable, considering whether it is more likely than not that some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon carry back to prior periods, tax planning strategies, the scheduled reversal of deferred tax liabilities and the generation of future taxable income during the periods in which those temporary differences become deductible. Based upon Accent Optical's recent taxable losses and the uncertainty of future taxable income, Accent Optical has recorded, and continues to believe that it is appropriate to record, a full valuation allowance against the deferred tax assets. The valuation allowance at December 31, 2005 was \$10.1 million.

Product Installation and Warranty Expense. At the time product revenue is recognized, Accent Optical provides for estimated installation and warranty costs, typically for a period of 12 to 24 months. Accent Optical estimates the cost of installation and warranty based on historical installation costs and actual field repair rates. While Accent Optical believes that the warranty provisions are adequate over the average life of products sold, the timing of installation and warranty repairs may result in fluctuations in quarter-to-quarter costs. Accent Optical re-evaluates the adequacy of its warranty reserves on a quarterly basis.

Acquired Intangibles and Goodwill. Acquired intangibles and goodwill represent, respectively, developed technology and assembled work force and the purchase price in excess of identifiable assets arising from acquisitions. Through 2005 acquired intangibles were amortized on a straight-line basis over their remaining estimated economic lives of between three and five years.

In July 2001, the Financial Accounting Standards Board (FASB) issued SFAS No. 142, *Goodwill and Other Intangible Assets*. Under SFAS No. 142, goodwill and intangible assets with indefinite lives are no longer amortized. In addition, SFAS No. 142 no longer recognizes assembled work force as an intangible asset separate from goodwill. Assembled work force has been combined with goodwill for all periods presented. The effect of adopting SFAS No. 142 reduced Accent Optical's amortization expense by \$837,000 annually, beginning in 2001.

Upon implementation of SFAS No. 142, Accent Optical was required to evaluate goodwill for impairment. In addition, under SFAS No. 142 goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed annually for impairment, or more frequently if impairment indicators arise. If Accent Optical determines that the carrying value of goodwill will not be recoverable, it calculates and records impairment losses using future discounted cash flows. Accent Optical estimates future discounted cash flows using assumptions about its expected future operating performance. Accent Optical's estimates of discounted cash flows may differ from actual cash flow due to, among other things, technological changes, economic conditions, or changes to business operations. Accent Optical completed its annual impairment test at December 31, 2005, 2004 and 2003 and determined that there was no impairment of goodwill.

Impairment of Long-Lived Assets. Property, plant and equipment are reviewed for impairment in accordance with SFAS No. 144, *Accounting for the Disposal of Long-Lived Assets*. Accent Optical assesses impairment of property, plant and equipment whenever changes in circumstances indicate that the carrying values of the assets may not be recoverable. Recoverability of an asset is measured by comparison of its carrying amount to the future undiscounted cash flows that the asset is expected to generate. Any impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeded its fair market value.

Qualitative and Quantitative Disclosures About Market Risks

Accent Optical is subject to financial market risks, including changes in foreign currency exchange rates and interest rates. A significant portion of its revenues is from customers located in Asia and Europe. With the exception of sales into Japan, nearly all of Accent Optical's sales are denominated in U.S. dollars.

Accent Optical's sales to customers in Japan, which represented 27.7% of its revenues during 2005, are denominated in Japanese yen. As a result, fluctuations in the exchange rate between the yen and the U.S. dollar can

Table of Contents

affect Accent Optical's revenues and gross profit. Weakness in the U.S. dollar as compared to the Japanese yen will have the effect of increasing Accent Optical's revenues and gross profits on the same volume of units sold.

A substantial portion of Accent Optical's operating expenses is denominated in foreign currencies, primarily the British pound and, to a lesser extent, the Japanese yen. Weakness in the U.S. dollar as compared to these currencies will have the effect of increasing Accent Optical's operating expenses. At December 31, 2005, the pound was weaker against the dollar, at an exchange rate of \$1.72 per British pound, compared to the average exchange rate of \$1.92 per British pound at December 31, 2004.

Accent Optical does not currently enter into currency hedging transactions to decrease the risk of financial exposure fluctuations in the exchange rate of the dollar against the British pound or yen.

Accent Optical's interest income will be sensitive to changes in the general level of U.S. interest rates. An increase or decrease in interest rates will cause fluctuations in Accent Optical's interest income on cash balances due to its cash being primarily invested in short-term investments.

Recently Issued Accounting Pronouncements

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs - An Amendment of ARB No. 43, Chapter 4* (SFAS 151). SFAS 151 amends the guidance in ARB No. 43, Chapter 4, Inventory Pricing, to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). Among other provisions, the new rule requires that items such as idle facility expense, excessive spoilage, double freight, and re-handling costs be recognized as current period charges regardless of whether they meet the criterion of so abnormal as stated in ARB No. 43. Additionally, SFAS 151 requires that the allocation of fixed production overhead to the costs of conversion be based on the normal capacity of the production facilities. SFAS 151 is effective for fiscal years beginning after June 15, 2005. The adoption of SFAS 151 did not have a material effect on our results of operations or financial position.

In December 2004, the FASB issued SFAS No. 153, *Exchanges of Nonmonetary Assets - An Amendment of APB Opinion No. 29, Accounting for Nonmonetary Transactions* (SFAS 153). SFAS 153 eliminates the exception from fair value measurement for nonmonetary exchanges of similar productive assets in paragraph 21(b) of APB Opinion No. 29, *Accounting for Nonmonetary Transactions*, and replaces it with an exception for exchanges that do not have commercial substance. SFAS 153 specifies that a nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 153 is effective for the fiscal periods beginning after June 15, 2005. The adoption of SFAS 153 did not have a material effect on our results of operations or financial position.

In December 2004, the FASB issued SFAS No. 123(R), *Accounting for Stock-Based Compensation*. SFAS 123(R), which establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS 123(R) requires that the fair value of such equity instruments be recognized as an expense in the historical financial statements as services are performed. Prior to SFAS 123(R), only certain pro forma disclosures of fair value were required. For nonpublic companies, the provisions of this Statement are effective as of the beginning of the first annual reporting period that begins after December 15, 2005. Accent Optical will adopt SFAS 123(R) commencing with the year ending December 31, 2006, and is currently evaluating the effect that the adoption of SFAS 123(R) will have on its results of operations or financial position.

Legal Proceedings

Accent Optical currently is not a party to any legal proceedings the effect of which would have a material adverse affect on its operations and financial condition.

COMPARISON OF RIGHTS OF HOLDERS

In connection with the merger, Accent Optical stockholders will be exchanging shares of Accent Optical, a Delaware corporation, for shares of Nanometrics, a California corporation. California law and Delaware law differ in many respects. It is not practical to summarize all of the differences that could materially affect the rights of Accent Optical stockholders as holders of shares of Nanometrics common stock following the merger. However, the significant differences between the corporation laws of California and Delaware include the following:

Size of Board of Directors

Under California law, although changes in the number of directors must in general be approved by the shareholders, the board of directors may fix the exact number of directors within a stated range set forth in the articles of incorporation or bylaws, if the stated range has been approved by the shareholders. Nanometrics' bylaws fix its number of directors at seven, and Nanometrics current board has seven members.

Delaware law permits the board of directors to change the authorized number of directors by amendment to the bylaws or in the manner provided in the bylaws unless the number of directors is fixed in the certificate of incorporation, in which case a change in the number of directors may be made only by amendment to the certificate of incorporation. Accent Optical's certificate of incorporation does not currently fix or restrict the number of directors. Accent Optical's bylaws provide that the number of directors shall be determined from time to time by the Board and shall be divided into three classes designated Class I, Class II and Class III, each class to consist, as nearly as may be possible, of 1/3 of the total number of directors constituting the entire Board. Accent Optical's board of directors currently consists three Class I members, two Class II members and two Class III members for a total of seven members.

Cumulative Voting

California law provides that any shareholder is entitled to cumulate his or her votes in the election of directors upon proper notice of his or her intention to do so, except that a listed corporation may eliminate cumulative voting with shareholder approval. Nanometrics' articles of incorporation do not eliminate, and its shareholders have not eliminated, cumulative voting with respect to the election of directors and Nanometrics' bylaws provide for cumulative voting in the election of directors.

Under Delaware law, cumulative voting in the election of directors is not mandatory, and for cumulative voting to be effective it must be expressly provided for in the certificate of incorporation. In an election of directors under cumulative voting, each share of stock normally having one vote is entitled to a number of votes equal to the number of directors to be elected. A stockholder may then cast all such votes for a single candidate or may allocate them among as many candidates as the shareholder may choose. Without cumulative voting, the holders of a majority of the shares present at an annual meeting would have the power to elect all the directors to be elected at that meeting, and no person could be elected without the support of holders of a majority of the shares. Accent Optical's certificate of incorporation does not provide for cumulative voting.

Removal of Directors

Under California law, any director or the entire board of directors may be removed, with or without cause, with the approval of a majority of the outstanding shares entitled to vote; however, no directors may be removed (unless the entire board is removed) if the number of votes cast against the removal would be sufficient to elect the director under cumulative voting. Nanometrics' articles of incorporation and bylaws have neither eliminated cumulative voting nor provided for a classified board of directors.

Under Delaware law, a director of a corporation that does not have a classified board of directors or cumulative voting may be removed without cause by a majority stockholder vote. In the case of a Delaware

Table of Contents

corporation having cumulative voting, if less than the entire board is to be removed, a director may not be removed unless the shares voted against such removal would not be sufficient to elect the director under cumulative voting. A director of a corporation with a classified board of directors can be removed only for cause unless the certificate of incorporation otherwise provides. Accent Optical's bylaws provide for a classified board and its directors can be removed only for cause.

Vacancies on the Board of Directors

Under California law, any vacancy on the board of directors other than one created by removal of a director may be filled by the board of directors, unless otherwise provided in the articles of incorporation or bylaws. If the number of directors is less than a quorum, a vacancy may be filled by the unanimous written consent of the directors then in office, by the affirmative vote of a majority of the directors at a meeting held pursuant to notice or waivers of notice, or by a sole remaining director. A vacancy created by removal of a director can only be filled by the shareholders unless board approval is authorized by a corporation's articles of incorporation or by a bylaw approved by the corporation's shareholders. Neither the articles of incorporation nor the bylaws of Nanometrics permit the board of directors to fill a vacancy created by the removal of a director.

Under Delaware law, unless otherwise provided in the certificate of incorporation or the bylaws, (i) vacancies on a board of directors; and (ii) newly created directorships resulting from an increase in the number of directors, may be filled by a majority of the directors then in office. In the case of the classified board of directors of Accent Optical, directors elected to fill vacancies or newly created directorships will hold office until the next election of the class for which the directors have been chosen. The bylaws of Accent Optical provide that any vacancies on its board of directors may be filled by the affirmative vote of a majority of the remaining directors in office, even if less than a quorum, by a sole remaining director, or by the stockholders at the next duly called annual or special meeting.

Loans to Officers and Employees

Under California law, any loan or guaranty to or for the benefit of a director or officer of the corporation or any of its subsidiaries requires approval of the shareholders unless such loan or guaranty is provided under a plan approved by shareholders owning a majority of the outstanding shares of the corporation. In addition, under California law, shareholders of any corporation with 100 or more shareholders of record may approve a bylaw authorizing the board of directors alone to approve a loan or guaranty to or on behalf of an officer (whether or not a director) if the board determines that such a loan or guaranty may reasonably be expected to benefit the corporation. Nanometrics' bylaws authorize the board of directors alone to approve such loans or guaranties provided that (i) the board of directors determines that such a loan or guaranty or plan may reasonably be expected to benefit the corporation, (ii) the corporation has outstanding shares held of record by 100 or more persons on the date of approval, and (iii) the approval of the board of directors is by a vote sufficient without counting the vote of any interested director or directors.

Under Delaware law, a corporation may make loans to, guarantee the obligations of, or otherwise assist its officers or other employees and those of its subsidiaries when such action, in the judgment of the directors, may reasonably be expected to benefit the corporation. Accent Optical's certificate of incorporation and bylaws do not explicitly provide for loans or guarantees to or for the benefit of its and its subsidiaries' officers and employees.

Section 13(k) of the Securities and Exchange Act of 1934 (the Exchange Act), added pursuant to Section 402 of the Sarbanes Oxley Act of 2002, makes it unlawful for any issuer, directly or indirectly, including through any subsidiary, to extend or maintain credit, to arrange for the extension of credit, or to renew an extension of credit, in the form of a personal loan to or for any director or executive officer (or equivalent thereof) of that issuer. Rule 3b-7 under the Exchange Act defines executive officer of an issuer to include the issuer's president, any vice president . . . in charge of a principal business unit, division or function (such as sales, administration or finance), any other officer who performs a policy making function or any other person

Table of Contents

who performs similar policy making functions for the [issuer]. The impact of Section 13(k) is to limit loans or guarantees with respect to persons who are directors or officers subject to Section 16 of the Exchange Act.

Power to Call Special Shareholders Meeting

Under California law, a special meeting of shareholders may be called by the board of directors, the Chairman of the Board, the President, the holders of shares entitled to cast not less than 10% of the votes at such meeting or such other persons as are authorized by the articles of incorporation or bylaws. Nanometrics' bylaws provide that a special meeting of the shareholders may be called at any time by the board of directors, the Chairman of the Board, the President or by one of more shareholders holding shares in the aggregate entitled to cast not less than 10% of the votes at that meeting.

Under Delaware law, a special meeting of stockholders may be called by the board of directors or by any other person authorized to do so in the certificate of incorporation or the bylaws. Accent Optical's bylaws provide that a special meeting of the shareholders may be called only by the Board. As such, stockholders do not have the right to call a special stockholder meeting of Accent Optical.

Indemnification and Limitation of Liability

California law and Delaware law contain similar provisions and limitations on indemnification by a corporation of its officers, directors, employees and other agents. Neither Nanometrics nor Accent Optical is aware of any pending legal action against the officers, directors or employees of such company which would be covered by such indemnification provisions. Both California law and Delaware law also permit a corporation to adopt a provision in its charter eliminating the liability of a director to the corporation or its shareholders for monetary damages for breach of fiduciary duty as a director, provided such liability does not arise from certain proscribed conduct (including intentional misconduct and breach of the duty of loyalty). Accent Optical's certificate of incorporation eliminates the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director. Such limitation of liability provisions also may not limit a director's liability for violation of, or otherwise relieve the company or its directors from the necessity of complying with federal or state securities laws, or affect the availability of nonmonetary remedies such as injunctive relief or rescission.

California law does not permit the elimination of monetary liability where such liability is based on: (i) intentional misconduct or knowing and culpable violation of law; (ii) acts or omissions that a director believes to be contrary to the best interests of the corporation or its shareholders or that involve the absence of good faith on the part of the director; (iii) receipt of an improper personal benefit; (iv) acts or omissions that show reckless disregard for the director's duty to the corporation or its shareholders, where the director in the ordinary course of performing a director's duties should be aware of a risk of serious injury to the corporation or its shareholders; (v) acts or omissions that constitute an unexcused pattern of inattention that amounts to an abdication of the director's duty to the corporation and its shareholders; (vi) transactions between the corporation and a director who has a material financial interest in such transaction; or (vii) liability for improper distributions, loans or guarantees. Nanometrics' articles of incorporation eliminate the liability of the directors for monetary damages to the fullest extent permissible under California law.

Inspection of Shareholders List

Both California law and Delaware law allow any shareholder to inspect the shareholders' list for a purpose reasonably related to such person's interest as a shareholder. California law provides, in addition, an absolute right to inspect and copy the corporation's shareholders' list by a person or persons holding 5% or more of a corporation's voting shares, or any shareholder or shareholders holding 1% or more of such shares who has filed a Schedule 14A with the SEC relating to the election of directors. Delaware law does not provide for any such absolute right of inspection. Delaware law also provides for inspection rights as to a list of stockholders entitled

Table of Contents

to vote at a meeting within a ten day period preceding a stockholders' meeting for any purpose germane to the meeting. However, Delaware law contains no provisions comparable to the absolute right of inspection provided by California law to certain shareholders. Accent Optical's and Nanometrics' bylaws contain provisions that confirm but that do not extend the rights granted to their shareholders in accordance with Delaware law and California law, respectively.

Dividends and Repurchases of Shares

California law dispenses with the concepts of par value of shares as well as statutory definitions of capital, surplus and the like. Under California law, a corporation may not make any distribution (including dividends, whether in cash or other property, and repurchases of its shares) unless either the corporation's retained earnings immediately prior to the proposed distribution equal or exceed the amount of the proposed distribution or, immediately after giving effect to such distribution, the corporation's assets (exclusive of good will, capitalized research and development expenses and deferred charges) would be at least equal to 125% of its liabilities (not including deferred taxes, deferred income and other deferred credits), and the corporation's current assets, as defined, would be at least equal to its current liabilities (or 125% of its current liabilities if the average pre-tax and pre-interest earnings for the preceding two fiscal years were less than the average interest expenses for such year). Under California law, there are certain exceptions to the foregoing rules for repurchases of shares in connection with certain rescission actions or pursuant to certain employee stock plans.

Delaware law recognizes the concepts of par value, capital and surplus. Delaware law permits a corporation, unless otherwise restricted by its certificate of incorporation, to declare and pay dividends out of its surplus or, if there is no surplus, out of net profits for the fiscal year in which the dividend is declared and/or for the preceding fiscal year, as long as the amount of capital of the corporation is not less than the aggregate amount of the capital represented by the issued and outstanding stock of all classes having a preference upon the distribution of assets. Accent Optical's certificate of incorporation does not provide for any such restriction on the ability to declare and pay dividends. In addition, Delaware law generally provides that a corporation may redeem or repurchase its shares only if such redemption or repurchase would not impair the capital of the corporation. The ability of a Delaware corporation to pay dividends on, or to make repurchases or redemptions of, its shares is dependent on the financial status of the corporation standing alone and not on a consolidated basis. In determining the amount of surplus of a Delaware corporation, the assets of the corporation, including stock of subsidiaries owned by the corporation, must be valued at their fair market value as determined by the board of directors, regardless of their historical book value.

The holders of shares of Accent Optical's Series A Preferred Stock are entitled to receive semi-annual cumulative dividends, in preference to all other capital stock of the corporation, at a rate per share per annum of 13.5% of the liquidation preference, as defined (as adjusted for stock dividends, stock splits, combination of shares, reorganization, recapitalization, reclassification, or other similar event), when and as declared by the board of directors. The holders of shares of Accent Optical's Convertible Preferred Stock are entitled to receive cumulative dividends, in preference to the Common Stock, at a rate per share per annum of \$0.164 (as adjusted for stock dividends, stock splits, combination of shares, reorganization, recapitalization, reclassification, or other similar event), when and as declared by the board of directors. Dividends may be paid on the shares of Accent Optical Common Stock as and when declared by the board of directors, subject to the prior dividend rights of the Accent Optical Preferred Stock.

To date, Nanometrics has not paid cash dividends on its capital stock. It is the current policy of the board of directors to retain earnings for use in the business, and Nanometrics therefore does not anticipate paying cash dividends on its common stock in the foreseeable future.

Shareholder Approval of Mergers and Other Business Combinations

Both California and Delaware law generally require that a majority of the shareholders of both acquiring and target corporations approve statutory mergers. Under both California and Delaware law, with certain

Table of Contents

exceptions, any merger or sale of all or substantially all of the assets must be approved by a majority of the outstanding shares entitled to vote of the corporation transferring such assets.

California law contains an exception to its voting requirements for reorganizations where shareholders or the corporation itself, or both, immediately prior to the reorganization will own immediately after the reorganization equity securities constituting more than 83.3% of the voting power of the surviving or acquiring corporation or its parent entity. California law also provides that, except in certain circumstances, when a tender offer or a proposal for a reorganization or for a sale of assets is made by an interested party (generally, a controlling or managing party of the target corporation), an affirmative opinion in writing as to the fairness of the consideration to be paid to the shareholders must be delivered to shareholders. This fairness opinion requirement does not apply to a corporation which does not have shares held of record by at least 100 persons, or to a transaction which has been qualified under California state securities laws. Furthermore, if a tender of shares or vote is sought pursuant to an interested party's proposal and a later proposal is made by another party at least ten days prior to the date of acceptance of the interested party proposal, the shareholders must be informed of the later offer and be afforded a reasonable opportunity to withdraw any vote, consent or proxy, or to withdraw any tendered shares. Delaware law has no comparable provision.

Delaware law does not require a stockholder vote of the surviving corporation in a merger (unless the corporation provides otherwise in its certificate of incorporation) if: (i) the merger agreement does not amend the existing certificate of incorporation; (ii) each share of stock of the surviving corporation outstanding immediately before the effective date of the merger is an identical outstanding share after the merger and; (iii) either no shares of common stock of the surviving corporation and no shares, securities or obligations convertible into such stock are to be issued or delivered under the plan of merger, or the authorized unissued shares or shares of common stock of the surviving corporation to be issued or delivered under the plan of merger plus those initially issuable upon conversion of any other shares, securities or obligations to be issued or delivered under such plan do not exceed 20% of the shares of common stock of such constituent corporation outstanding immediately prior to the effective date of the merger. Accent Optical's certificate of incorporation provide that so long as 50% of the Accent Optical Convertible Preferred Stock issued as of November 2000 is issued and outstanding, a merger or sale of all or substantially all of the assets requires the approval (by vote or written consent as provided by law) of the holders of more than 50% of the outstanding shares of the Convertible Preferred Stock, voting together as a single class on an as-converted basis.

With certain exceptions, California law also requires that mergers, reorganizations, certain sales of assets and similar transactions be approved by a majority vote of each class of shares outstanding. By contrast, Delaware law generally does not require class voting, except in certain transactions involving an amendment to the certificate of incorporation which adversely affects a specific class or series of shares. California law also requires that holders of non-redeemable common stock receive non-redeemable common stock in a merger of the corporation with the holder of more than 50% but less than 90% of such common stock or its affiliate unless all of the holders of such common stock consent to the transaction. This provision of California law may have the effect of making a cash-out merger by a majority shareholder more difficult to accomplish. Delaware law has no comparable provision.

Amendment of the Articles or Certificate of Incorporation

Under California law, an amendment to the articles of incorporation requires the approval of the corporation's board of directors and a majority of the outstanding shares entitled to vote, either before or after the board approval, although certain minor amendments may be adopted by the board alone such as amendments causing stock splits (including an increase in the authorized number of shares in proportion thereto) and amendments changing names and addresses given in the articles.

Under Delaware law, an amendment to the certificate of incorporation requires the approval of the corporation's board of directors and a majority of the outstanding shares.

Table of Contents

Accent Optical's certificate of incorporation provide that Accent Optical will not amend any provision of the certificate of incorporation if such action would adversely alter the rights, preferences, privileges or restrictions of the Accent Optical Series A Preferred Stock without first obtaining the approval (by vote or written consent as provided by law) of the holders of at least a majority of the outstanding shares of Accent Optical Series A Preferred Stock, voting together as a single class on an as-converted basis. In addition, Accent Optical's certificate of incorporation provides that so long as 50% of the Accent Optical Convertible Preferred Stock issued as of November 2000 is issued and outstanding, Accent Optical may not amend any provision of the certificate of incorporation if such action would adversely alter the rights, preferences, privileges or restrictions of the Convertible Preferred Stock without first obtaining the approval (by vote or written consent as provided by law) of the holders of at a majority of the outstanding shares thereof, voting together as a single class on an as-converted basis.

Amendment of Bylaws

Under California law, a corporation's bylaws may be adopted, amended or repealed by either the board of directors or the shareholders of the corporation. Nanometrics' bylaws permit, with certain exceptions, amendment or repeal by the vote or written consent of the holders of a majority of outstanding shares entitled to vote or the board of directors.

Under Delaware law, after a corporation has received any payment for any of its stock, the power to adopt, amend or repeal bylaws is entirely with the shareholders of the corporation. However, a corporation may, in its certificate of incorporation, confer the power to adopt, amend or repeal bylaws upon the directors of the corporation. Accent Optical's certificate of incorporation expressly empowers its board of directors to adopt, amend or repeal the corporation's bylaws. The stockholders also have the power to adopt, amend or repeal the corporation's bylaws; provided, however, that, in addition to any vote of the holders of any class or series of stock of the corporation required by law or by the certificate of incorporation, the affirmative vote of the holders of at least a majority of the voting power of all of the outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class, will be required.

Shareholder Consent in Lieu of Meeting

Under California law, unless otherwise provided in the articles of incorporation, any action required to be taken or which may be taken at an annual or special meeting of shareholders may be taken without a meeting if a consent in writing is signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize such action at a meeting at which all shares entitled to vote were present and voted. If consent is sought for less than the shareholders entitled to vote, notice, as required under California law, shall be given. Nanometrics' bylaws provide for action by written consent of its shareholders consistent with California law and require that, with respect to the election of directors, a written consent shall be effective only if signed by the holders of all of the outstanding shares entitled to vote for the election of directors.

Under Delaware law, unless otherwise provided in the certificate of incorporation, any action to be taken at an annual or special meeting of stockholders may be taken without a meeting, without prior notice and without a vote if a written consent to the action shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize such action at a meeting at which all shares entitled to vote were present and voted. Accent Optical's bylaws require that any action that may be taken at any annual or special meeting of the stockholders may be taken without a meeting and without prior notice, if a consent in writing, setting forth the actions so taken, is signed by the holders of outstanding shares having not less than the minimum number of votes which would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted; provided, however, that effective upon an event in which all outstanding shares of Accent Optical's Series A Preferred Stock and Convertible Preferred Stock convert into Common Stock, any action required or permitted to be taken by the stockholders of the corporation must be effected at a duly called annual or special meeting of the stockholders of the corporation and may not be effected by any consent in writing by such stockholders.

Table of Contents**Dissenters' Rights**

Under California and Delaware law, a shareholder of a corporation participating in certain major corporate transactions may, under varying circumstances, be entitled to dissenters' rights pursuant to which such shareholder may receive cash in the amount of the fair market value of the shares held by such shareholder (as determined by a court or by agreement of the corporation and the shareholder) in lieu of the consideration such shareholder would otherwise receive in the transaction.

Under California law, shareholders of a California corporation whose shares are listed on a national securities exchange or on a list of over-the-counter margin stocks issued by the Board of Governors of the Federal Reserve System generally do not have dissenters' rights unless the holders of at least 5% of the class of outstanding shares claim the right. Additionally, dissenters' rights are unavailable if the shareholders of a corporation or the corporation itself, or both, immediately prior to a reorganization will own (immediately after the reorganization) more than five-sixths of the voting power of the surviving or acquiring corporation or its parent. Under California law, a shareholder attempting to assert dissenters' rights must hold capital stock that satisfies each of the following requirements: (i) the shares must have been outstanding on the company's record date; (ii) the shares must not have been voted in favor of the merger; (iii) the holder of such shares must make a written demand that the company repurchase such shares of capital stock at fair market value; and (iv) the holder of such shares must submit certificates for endorsement. A vote by proxy or in person against the merger does not in and of itself constitute a demand for appraisal under California law. California law generally affords dissenters' rights in reorganizations that are structured as sales of assets.

The limitations on the availability of dissenters' rights under Delaware law are different from those under California law. Under Delaware law, dissenters' rights are not available to (i) stockholders with respect to a merger or consolidation by a corporation the shares of which are either listed on a national securities exchange or designated as a national market system security on an inter-dealer quotation system by the National Association of Securities Dealers, Inc. or are held of record by more than 2,000 holders if such stockholders receive only shares of the surviving corporation or shares of any other corporation which are either listed on a national securities exchange or designated as a national market system security on an inter-dealer quotation system by the National Association of Securities Dealers, Inc. or are held of record by more than 2,000 holders; or (ii) shareholders of a corporation surviving a merger if no vote of the shareholders of the surviving corporation is required to approve the merger because, among other things, the number of shares to be issued in the merger does not exceed 20% of the shares of the surviving corporation outstanding immediately prior to the merger and if certain other conditions are met. Delaware law also does not provide stockholders of a corporation with dissenters' rights when the corporation acquires another business through the issuance of its stock (a) in exchange for the assets of the business to be acquired; (b) in exchange for the outstanding stock of the corporation to be acquired; or (c) in a merger of the corporation to be acquired with a subsidiary of the acquiring corporation. California law, by contrast, treats these kinds of acquisitions in the same manner as a direct merger of the acquiring corporation with the corporation to be acquired.

Dissolution

Under California law, shareholders holding 50% or more of the voting power of a corporation may authorize its dissolution, with or without the approval of the corporation's board of directors. California law provides that this right may not be modified by the articles of incorporation. Nanometrics' articles of incorporation do not contain any provisions that contradict these provisions of California law.

Under Delaware law, a dissolution must be approved by stockholders holding 100% of the total voting power of the corporation or the dissolution must be initiated by the board of directors and approved by a simple majority of the stockholders of the corporation. In the event of such a board-initiated dissolution, Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions. Accent Optical's certificate of incorporation contain no such supermajority voting

Table of Contents

requirement. As a result, a majority of the shares voting at a meeting at which a quorum is present would be sufficient to approve a dissolution of Accent Optical that had previously been approved by its board of directors.

Antitakeover Legislation

Section 203 of the Delaware General Corporation Law makes it more difficult to effect certain transactions between a corporation and a person or group that owns 15% or more of the corporation's outstanding voting stock (including any rights to acquire stock pursuant to an option, warrant, agreement, arrangement or understanding, or upon the exercise of conversion or exchange rights, and stock with respect to which the person has voting rights only), or is an affiliate or associate of the corporation and was the owner of 15% or more of such voting stock, referred to as a 15% stockholder, at any time within the previous three years (excluding persons who became 15% stockholders by action of the corporation alone). For a period of three years following the date that a stockholder became a holder of 15% or more of the corporation's outstanding voting stock, the following types of transactions between the corporation and the 15% stockholder are prohibited (unless certain conditions, described below, are met): (i) mergers or consolidations; (ii) sales, leases, exchanges or other transfers of 10% or more of the aggregate assets of the corporation; (iii) issuances or transfers by the corporation of any stock of the corporation which would have the effect of increasing the 15% stockholder's proportionate share of the stock of any class or series of the corporation; (iv) receipt by the 15% stockholder of the benefit (except proportionately as a shareholder) of loans, advances, guarantees, pledges or other financial benefits provided by the corporation; and (v) any other transaction which has the effect of increasing the proportionate share of the stock of any class or series of the corporation which is owned by the 15% stockholder. The three-year ban does not apply if either the proposed transactions or the transaction by which the 15% stockholder became a 15% stockholder is approved by the board of directors of the corporation prior to the date such stockholder became a 15% stockholder. Additionally, a 15% stockholder may avoid the statutory restriction if upon the consummation of the transaction whereby such stockholder became a 15% stockholder, the stockholder owns at least 85% of the outstanding voting stock of the corporation without regard to those shares owned by the corporation's officers and directors or certain employee stock plans. Business combinations are also permitted within the three-year period if approved by the board of directors and, at an annual or special meeting, by the holders of 66²/₃% of the voting stock not owned by the 15% stockholder.

A corporation may, at its option, exclude itself from the coverage of Section 203 by providing in its certificate of incorporation or bylaws at any time that it is exempt from Section 203, provided that a certificate or bylaws amendment cannot become effective for twelve months after such amendment is adopted. In addition, any transaction is exempt from the statutory ban if it is proposed at a time when the corporation has proposed, and a majority of certain continuing directors of the corporation have approved, a transaction with a party who is not a 15% stockholder of the corporation (or who became such with board approval) if the proposed transaction involves (i) certain mergers or consolidations involving the corporation; (ii) a sale or other transfer of over 50% of the aggregate assets of the corporation; or (iii) a tender or exchange offer for 50% or more of the outstanding voting stock of the corporation. Accent Optical's certificate of incorporation and bylaws do not exempt the corporation from the coverage of Section 203. The application of Section 203 to Accent Optical confers upon the board of directors the power to reject a proposed business combination in certain circumstances, even though a potential acquiror may be offering a substantial premium for Nanometrics' shares over the then-current market price.

Interested Director Transactions

Under both California and Delaware law, certain contracts or transactions in which one or more of a corporation's directors has an interest are not void or voidable because of such interest provided that certain conditions, such as obtaining the required approval and fulfilling the requirements of good faith and full disclosure, have been met. With certain exceptions, the conditions are similar under California and Delaware law. Under both California and Delaware law, (i) either the shareholders or the board of directors must approve any such contract or transaction after full disclosure of the material facts, and, in the case of board of director

Table of Contents

approval, the contract or transaction must also be just and reasonable (in California) or fair (in Delaware) to the corporation or (ii) the contract or transaction must have been just and reasonable or fair as to the corporation at the time it was approved. In the latter case, California law explicitly places the burden of proof on the interested director. Under California law, if shareholder approval is sought, the interested director is not entitled to vote his or her shares at a shareholder meeting with respect to any action regarding such contract or transaction. If the approval of the board of directors is sought, the contract or transaction must be approved by a majority vote of a quorum of the directors, without counting the vote of any interested directors (except that interested directors may be counted for purposes of establishing a quorum).

Derivative Suits

California law provides that a shareholder bringing a derivative action on behalf of a corporation need not have been a shareholder at the time of the transaction in question, provided that certain tests are met. Under Delaware law, a stockholder may only bring a derivative action on behalf of the corporation if the stockholder was a stockholder of the corporation at the time of the transaction in question or his or her stock thereafter devolved upon him or her by operation of law. California law also provides that the corporation or the defendant in a derivative suit may make a motion to the court for an order requiring the plaintiff shareholder to furnish a security bond. Delaware law does not have a similar bonding requirement.

Fair Price Provisions

There are no fair price or similar provisions in either Accent Optical's certificate of incorporation or Nanometrics' articles of incorporation or either companies' bylaws.

Table of Contents**Stock Options Granted in the Fiscal Year Ended December 31, 2005**

The following table sets forth information with respect to stock options granted during the fiscal year ended December 31, 2005 to each of the Named Officers. Options were granted under Nanometrics' 2000 Stock Option Plan and 2005 Stock Option Plan. The potential realizable value amounts in the last two columns of the following chart represent hypothetical gains that could be achieved for the respective options if exercised at the end of the option term. The assumed 5% and 10% annual rates of stock price appreciation from the date of grant to the end of the option term are provided in accordance with rules of the SEC and do not represent Nanometrics' estimate or projection of the future common stock price. Actual gains, if any, on stock option exercises are dependent on the future performance of the common stock, overall market conditions and the option holder's continued employment through the vesting period.

Historically, options granted become exercisable at the rate of 33% on the first anniversary date of the option grant and 33% of the total number of option shares each full year thereafter, such that full vesting occurs three years after the date of grant. Options (whether vested or unvested) expire after 7 years or 90 days after termination of employment.

Employment Contracts and Termination of Employment and Change-in-Control Arrangements

Pursuant to the terms of an agreement between Nanometrics and Vincent J. Coates, the Chairman of the Board of Nanometrics, dated May 1, 1985, as amended and restated in August 1996 and April 1998, Nanometrics is obligated to continue to pay Mr. Coates his salary and benefits for five years from the date of his resignation in the event Mr. Coates is required to resign as Chairman of the Board under certain circumstances, including a change of control.

In April 1998, Nanometrics entered into an agreement with John D. Heaton pursuant to which Nanometrics agreed to pay Mr. Heaton his annual salary (excluding bonuses) for a period of one year from the date that he is required or requested for any reason not involving good cause, including a change of control, to involuntarily relinquish his positions with Nanometrics as President, Chief Executive Officer and director. If Mr. Heaton leaves Nanometrics voluntarily, or if he is asked to leave under certain circumstances, no such severance payment is required.

In March 1995, Nanometrics entered into an agreement with Roger Ingalls, Jr. pursuant to which Nanometrics agreed to pay Mr. Ingalls his annual salary (excluding bonuses) for a period of 120 days from the date he is terminated without cause.

In September 2005, Douglas J. McCutcheon became Executive Vice President, Finance and Administration and Chief Financial Officer of Nanometrics. Nanometrics agreed to pay Mr. McCutcheon an annual base salary of \$285,000. Mr. McCutcheon also received a hiring bonus of \$25,000 and was granted options to purchase 150,000 shares of Nanometrics common stock. Furthermore, Nanometrics agreed to pay Mr. McCutcheon 12 months of continued salary at his then-effective annual rate if Nanometrics terminates him for any reason other than for good cause, provided that Mr. McCutcheon executes a general release. Termination for good cause, as used in the foregoing sentence, shall only occur if Mr. McCutcheon commits misconduct, unjustifiably neglects his duties, or acts in a way that has a direct, substantial and adverse effect on Nanometrics or its reputation.

PROPOSAL TWO-PAYMENTS TO EXECUTIVES

CERTAIN PAYMENTS TO EXECUTIVE OFFICERS

Background

The merger will constitute a change in the ownership or effective control of Accent Optical for purposes of Section 280G of the Internal Revenue Code and the Treasury Regulations promulgated thereunder (collectively, Section 280G). Pursuant to Section 280G, payments of compensation made to a disqualified individual that are contingent on a change in the ownership or effective control of a corporation and that exceed a threshold amount applicable to that particular disqualified individual may be characterized as excess parachute payments. Excess parachute payments are not deductible as a business expense by a corporation, and subject the recipient of such payments to a 20% excise tax (in addition to applicable federal and state income and employment taxes), unless such payments are approved by the requisite approval of the stockholders of the corporation. Accent Optical has determined that Bruce C. Rhine, its Chairman and Chief Executive Officer, Bruce Crawford, its President and Chief Operating Officer, and Reid Langrill, its Chief Financial Officer, (collectively, the Executives) may be treated as disqualified individuals for purposes of Section 280G and that a portion of the Potential Parachute Payments (as defined below) may be treated as excess parachute payments.

All holders of shares of outstanding capital stock of Accent Optical as of [], 2006 (other than shares held directly or indirectly by the Executives) are being asked to approve the Potential Parachute Payments. If the Accent Optical stockholders are provided with the opportunity to approve the Potential Parachute Payments, and approval is obtained by a vote of the Accent Optical stockholders holding more than 75% of the voting power of all outstanding capital stock of Accent Optical entitled to vote (the Required Approval), then the adverse tax consequences to both Accent Optical and the Executives should not occur. For purposes of determining whether the Required Approval has been obtained, the vote of individuals (and certain related persons thereto) who receive or are to receive a payment that would be a parachute payment if the stockholder approval requirements under Section 280G were not satisfied is not considered. No assurance can be given, however, that even if the Required Approval is obtained, the Internal Revenue Service will not assert that the Potential Parachute Payments are subject to Sections 280G and 4999 of the Internal Revenue Code.

For purposes of the stockholder approval rules discussed above, any stockholder that is not an individual may exercise its vote through any person authorized by the stockholder to approve the payment. However, if a substantial portion of the assets of a stockholder that is not an individual consists (directly or indirectly) of the stock of the corporation that is undergoing a change of control (i.e., the stock equals or exceeds one-third of the total fair market value of all the assets of the stockholder) and the value of such stock is greater than or equal to 1% of the total value of the outstanding stock of the corporation, the payments must be approved by persons who, immediately before the change of control, own more than 75% of the voting power of the stockholder.

Accent Optical stockholder approval of the Potential Parachute Payments is not a condition to the consummation of the merger. If the Required Approval for the Potential Parachute Payments is not obtained, it will not affect the vote of the Accent Optical stockholders with respect to the merger agreement, the merger and the related transactions.

The discussion below sets forth (i) the material facts relating to each payment that each of the Executives has the right to receive, which may be treated as a parachute payment within the meaning of Section 280G, (ii) the specific payments that are being submitted for approval by the Accent Optical stockholders and (iii) the consequences to each of the Executives if the Required Approval is not obtained.

Important Notice: Please note that the actual amounts of any Potential Parachute Payments for purposes of the Section 280G rules may only be determined once the merger has closed, or upon other subsequent events.

Table of Contents

It should also be noted that the tax rules regarding calculating the value of the Potential Parachute Payments for purposes of Section 280G are highly complex, and issues often arise as to which no authoritative guidance is available. Accordingly, the values of the Potential Parachute Payments set forth in this disclosure statement should for present purposes only be viewed as estimates based upon reasonable interpretations of the Section 280G rules, estimations of the potential Average Closing Price, and other reasonable assumptions.

The descriptions of the Potential Parachute Payments herein assume a closing date for the merger of July 1, 2006. The amounts of many of the payments described herein depend on the Average Closing Price, which will not be known until immediately prior to the closing of the merger. To give a sense of various potential results, we have calculated these Potential Parachute Payments using a number of possible Average Closing Prices. We have included information regarding the Potential Parachute Payments assuming that the Average Closing Price will be \$11.00, \$13.23 and \$15.63. We cannot predict what the actual Average Closing Price will be, and therefore, our use of these three estimates are intended to provide stockholders with a general range of the possible values of the Potential Parachute Payments. The exact value of the Potential Parachute Payments could increase or decrease based on a change in the Average Closing Price, as well as a result of a change in the closing date of the merger and/or a change in the timing of the Executive's termination of employment, a variation of the fair market value of a share of Nanometrics' common stock on the date of such termination from the Average Closing Price or changes from various other assumptions. Accordingly, the final amounts of the Potential Parachute Payments as calculated under Section 280G could be different from the numbers estimated in this proposal.

Description of Potential Parachute Payments

Bruce C. Rhine. On January 25, 2006, the Accent Optical board of directors granted Mr. Rhine nonqualified stock options to purchase 4,112,000 shares of Accent Optical Common Stock at the then fair market value of \$0.33 per share. The options are subject to vesting with one-third of the options vesting on each of the first, second and third anniversaries of the grant date. Upon consummation of the merger, these nonqualified stock options will be assumed by Nanometrics pursuant to the terms of the merger agreement.

Mr. Rhine previously received a number of other stock options to purchase Accent Optical Common Stock. At the time of the merger, approximately 317,083 shares subject to these options are expected to be unvested. Under the stock plan pursuant to which the options were granted to Mr. Rhine, the vesting of each stock option, including the options granted at the January 25, 2006 meeting, accelerates in full in the event the employment or service relationship of the holder of such options is terminated within six months of the merger, other than a termination by Accent Optical or its successor for cause or by the employee or service provider for good reason. At the time of the merger, Mr. Rhine is expected to have a total of approximately 4,429,083 unvested options subject to potential acceleration in the event he is terminated within six months of the merger, if all such options are assumed in the merger. See the section of this joint proxy statement/prospectus entitled *The Merger - Interests of Accent Optical Directors and Executive Officers in the Merger - Executive Officer Option Grants* beginning on page 75.

For Section 280G purposes, the potential value of the acceleration of the unvested options assumed in the merger, other than the January 2006 option, is included in the calculation of Mr. Rhine's Potential Parachute Payment. For these purposes, we have assumed he will have a termination of employment immediately following the merger that will entitle him to this acceleration. We also have assumed that the fair market value of a share of Nanometrics' common stock on the date of this termination will be the same as the Average Closing Price. For purposes of Section 280G, the January 2006 option is considered to have been granted in consideration of the merger and therefore the full value of the option is included in the calculation of Mr. Rhine's Potential Parachute Payment, instead of just the value of the acceleration.

The total value of the January 2006 option grant and potential vesting acceleration of his other assumed options (together, the Rhine Potential Parachute Payments) is dependent on the share price of Nanometrics

common stock. Based on a Average Closing Price of \$13.23, the estimated present value of the Rhine Potential Parachute Payments would be approximately \$639,000. If the Average Closing Price is \$11.00, the estimated present value of the Rhine Potential Parachute Payments would be approximately \$424,000. If the Average Closing Price is \$15.62, the estimated present value of the Rhine Potential Parachute Payments would be approximately \$958,000.

Bruce Crawford. On January 25, 2006, the Accent Optical board of directors granted Mr. Crawford nonqualified stock options to purchase 800,000 shares of Accent Optical Common Stock at the then fair market value of \$0.33 per share. The options are subject to vesting with one-third of the options vesting on each of the first, second and third anniversaries of the grant date. Upon consummation of the merger, these nonqualified stock options will be assumed by Nanometrics pursuant to the terms of the merger agreement.

Mr. Crawford previously received a number of other stock options to purchase Accent Optical Common Stock. At the time of the merger, approximately 642,083 shares subject to these options are expected to be unvested. Under the stock plan pursuant to which the options were granted to Mr. Crawford, the vesting of each stock options, including the option granted at the January 25, 2006 meeting, accelerates in full in the event the employment or service relationship of the holder of such options is terminated within six months of the merger, other than a termination by Accent Optical or its successor for cause or by the employee or service provider for good reason. At the time of the merger, Mr. Crawford is expected to have a total of approximately 1,442,083 unvested options subject to potential acceleration in the event he is terminated within six months of the merger, if all such options are assumed in the merger. See the section of this joint proxy statement/prospectus entitled *The Merger Interests of Accent Optical Directors and Executive Officers in the Merger Executive Officer Option Grants* beginning on page 75.

For Section 280G purposes, the potential value of the acceleration of the unvested options assumed in the merger, other than the January 2006 option, is included in the calculation of Mr. Crawford's Potential Parachute Payment. For these purposes, we have assumed he will have a termination of employment immediately following the merger that will entitle him to this acceleration. We also have assumed that the fair market value of a share of Nanometrics' common stock on the date of this termination will be the same as the Average Closing Price. For purposes of Section 280G, the January 2006 option is considered to have been granted in consideration of the merger and therefore the full value of the option is included in the calculation of Mr. Crawford's Potential Parachute Payment, instead of just the value of the acceleration.

Mr. Crawford and Accent Optical have entered into an employment agreement which grants Mr. Crawford, in the event of his termination in certain circumstances, a lump-sum payment of \$213,000, company-paid health care continuation benefits under COBRA (at an estimated value of approximately \$24,000 with a potential gross-up for taxes arising from the provision of such benefits at an estimated value of approximately \$13,000, and reimbursement of relocation expenses up to \$50,000. See the section of this joint proxy statement/prospectus entitled *The Merger Interests of Accent Optical Directors and Executive Officers in the Merger Executive Officer Retention and Severance Arrangements* beginning on page 74. For purposes of calculating Mr. Crawford's Potential Parachute Payment, we have assumed that he will have a termination of employment immediately following the merger that will entitle him to these severance benefits, and that he will receive them to the fullest extent possible.

The total value of the January 2006 option grant, potential vesting acceleration of his other assumed options, and his potential severance payments and benefits pursuant to his employment agreement (together, the Crawford Potential Parachute Payments) is dependent on the Average Closing Price. Based on an Average Closing Price of \$13.23, the estimated present value of the Crawford Potential Parachute Payments would be approximately \$427,000. If the Average Closing Price is \$11.00, the estimated present value of the Crawford Potential Parachute Payments would be approximately \$384,000. If the Average Closing Price is \$15.62, the estimated present value of the Crawford Potential Parachute Payments would be approximately \$514,000.

Table of Contents

Reid Langrill. On January 25, 2006, the Accent Optical board of directors authorized and approved an employment agreement with Mr. Langrill, pursuant to which Mr. Langrill is entitled to a severance payment equal to the greater of (i) \$185,000 or (ii) the difference between \$500,000 and the fair market value of Mr. Langrill's stock options assumed by Nanometrics pursuant to the terms of the merger agreement, as determined in Mr. Langrill's employment agreement. Mr. Langrill also received a number of stock options to purchase Accent Optical Common Stock. Under the stock plan pursuant to which the options were granted to Mr. Langrill, the vesting of each stock option accelerates in full in the event the employment or service relationship of the holder of such options is terminated within six months of the merger, other than a termination by Accent Optical or its successor for cause or by the employee or service provider for good reason. At the time of the merger, approximately 414,479 shares subject to Mr. Langrill's options are expected to be unvested and, if all such options are assumed in the merger, will be subject to potential acceleration in the event he is terminated within six months of the merger, as is expected. See the section of this joint proxy statement/prospectus entitled *The Merger Interests of Accent Optical Directors and Executive Officers in the Merger Executive Officer Option Grants* beginning on page 75.

For Section 280G purposes, the potential value of the acceleration of the unvested options assumed in the merger is included in the calculation of Mr. Langrill's Potential Parachute Payments. For these purposes, we have assumed he will have a termination of employment immediately following the merger that will entitle him to this acceleration. We also have assumed that the fair market value of a share of Nanometrics common stock on the date of this termination will be the same as the Average Closing Price.

The total value of the severance payment and potential vesting acceleration of his assumed options (together, the Langrill Potential Parachute Payment) is dependent on the Average Closing Price. Based on an Average Closing Price of \$13.23, the Langrill Potential Parachute Payments would be approximately \$326,000. If the Average Closing Price is \$11.00, the Langrill Potential Parachute Payments would be approximately \$390,000. If the Average Closing Price is \$15.62, the Langrill Potential Parachute Payments would be approximately \$246,000.

Payments Subject To Accent Optical Stockholder Approval

The Accent Optical stockholders are being asked to approve the following payments: (i) the Rhine Potential Parachute Payments, (ii) the Crawford Potential Parachute Payments, and (iii) the Langrill Potential Parachute Payments (collectively, the Potential Parachute Payments). Unless and until the Accent Optical stockholders approve the Potential Parachute Payments in accordance with Section 280G, each Executive has agreed, pursuant to the terms of a waiver agreement, to waive any and all rights that he would otherwise possess in that portion of his respective Potential Parachute Payment that would otherwise cause any portion of any of his respective Potential Parachute Payment to be treated as an excess parachute payment within the meaning of Section 280G, as determined by a nationally recognized public accounting firm selected by Accent Optical. In general, if a Potential Parachute Payment equals or exceeds the product of (x) the Executive's average compensation over the preceding five years (the Executive's base amount) multiplied by (y) three, the excess of the Potential Parachute Payment over the base amount is an excess parachute payment. Mr. Rhine's base amount is approximately \$210,000 and three times his base amount is approximately \$630,000. Mr. Crawford's base amount is approximately \$182,000 and three times his base amount is approximately \$547,000. Mr. Langrill's base amount is approximately \$115,000 and three times his base amount is approximately \$346,000.

Comparing the estimated value of the Potential Parachute Payments with the three times base amount of each Executive, Accent Optical estimates that only the Rhine Potential Parachute Payments would constitute a parachute payment at an Average Closing Price of \$13.23 and Mr. Rhine would not have the right receive that portion of his Potential Parachute Payments that equals or exceeds a value of approximately \$630,000. However, if the share price of Nanometrics common stock changes and the Required Approval is not obtained, the other Executives Potential Parachute Payments could become a parachute payment and Mr. Crawford would not have

Table of Contents

the right to receive that portion of his Potential Parachute Payments that equal or exceed a value of approximately \$547,000, and/or Mr. Langrill would not have the right to receive that portion of his Potential Parachute Payments that equal or exceed a value of approximately \$346,000, while Mr. Rhine could forfeit an additional amount of his Potential Parachute Payments.

For example, if the Average Closing Price increases to \$15.62 and the Required Approval is not obtained, Mr. Rhine could forfeit up to approximately \$328,000 worth of his Potential Parachute Payments. Alternatively, if the Average Closing Price decreases to \$13.08 or below as of the time of the merger and the Required Approval is not obtained, Mr. Rhine would not forfeit any of his Potential Parachute Payment, since their value would not equal or exceed three times his base amount.

As a further example, if the Average Closing Price increases to \$15.62, Mr. Langrill would not forfeit any of his Potential Parachute Payment, since their value would not equal or exceed three times his base amount. However, at a Average Closing Price of \$11.00, Mr. Langrill would forfeit approximately \$44,000 of his severance payment if Required Approval is not obtained. As a final example, if the Required Approval is not obtained, none of the Crawford Potential Parachute Payments would be subject to waiver unless the Average Closing Price and the share price of Nanometrics common stock at the time of accelerated vesting exceeds \$17.59.

However, in every case, if the Required Approval is obtained, each of the Executives will have any and all rights to the entire portion of his respective Potential Parachute Payment (subject to the terms and conditions associated with such payments).

Accent Optical has approved option grants and the potential for vesting acceleration under all options to certain other executive officers, in addition to the Potential Parachute Payments described above, which could be deemed parachute payments under Section 280G. However, the possibility that such payments would be deemed excess parachute payments within the meaning of Section 280G is remote, so Accent Optical has elected not to seek stockholder approval of such payments.

Vote Required

The adverse tax consequence of Sections 280G and 4999 of the Internal Revenue Code that may apply to the Potential Parachute Payments can be avoided if approval is obtained by a vote of the Accent Optical stockholders holding more than 75% of the voting power of all outstanding stock of Accent Optical entitled to vote. For this purpose, the outstanding stock of Accent Optical does not include shares owned, directly or indirectly, by anyone receiving parachute payments within the meaning of 280G.

The board of directors of Accent Optical believes that the Potential Parachute Payments to Mr. Rhine, Mr. Crawford and Mr. Langrill are in the best interests of Accent Optical and its stockholders and unanimously recommends that the Accent Optical stockholders vote FOR the proposal to make these payments to the Executives.

Report of Independent Auditors

To the Board of Directors and Stockholders of

Accent Optical Technologies, Inc.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of stockholders' equity, of comprehensive loss and of cash flows present fairly, in all material respects, the financial position of Accent Optical Technologies, Inc. and its subsidiaries at December 31, 2005 and 2004, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has experienced recurring losses from operations, resulting in an accumulated deficit of \$30.4 million as of December 31, 2005. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

As discussed in Note 15, on January 25, 2006, the Company entered into a definitive agreement to be acquired by Nanometrics, Inc. The accompanying financial statements do not include any adjustments relating to this matter.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 The Organization and Nature of Operations

Accent Optical Technologies, Inc. (Accent Optical) was incorporated in Delaware on April 6, 2000. On July 31, 2000, Accent Optical and its wholly owned subsidiaries acquired certain assets and liabilities of Bio-Rad Laboratories, Inc s (Bio-Rad) Semiconductor Measurement Division (SMD).

Prior to the acquisition of Bio-Rad SMD (the SMD Acquisition), Accent Optical was a holding company that was formed to investigate and pursue the SMD Acquisition. Since the SMD Acquisition, all of the operations of Accent Optical have been conducted through its wholly owned subsidiaries. Accent Optical designs, manufactures and services a broad suite of process control and metrology systems used by manufacturers of semiconductor wafers and compound and silicon semiconductor devices for the advanced computing, communications and consumer electronics markets. Accent Optical s primary manufacturing facilities are located in the United Kingdom.

Risks and Uncertainties

Accent Optical is subject to certain risks and uncertainties including, among others: fluctuation of operating results; cyclical nature of the industries in which it operates; new product introductions and rapid technological change; market acceptance of its products; competition from companies with greater resources; dependence on key personnel; customer concentrations; variations in the length of the sales cycles; dependence on key suppliers; limited protection of intellectual property rights; reliance on a single manufacturing location; international operations and currency fluctuations; control by existing stockholders and the need for future financing to fund working capital, repayment of long-term debt and expansion of the business.

Merger Agreement

In January 2006, Accent Optical entered into a definitive agreement to be acquired by Nanometrics, Inc. (Nanometrics) for approximately five million shares of Nanometrics common stock and the assumption of certain liabilities (the merger). The merger is expected to close in the second quarter of 2006, subject to shareholder approval, customary closing conditions and regulatory approvals (Note 15).

Liquidity and Financing Requirements

Accent Optical has experienced net losses of \$5.2 million, \$4.8 million, and \$7.0 million for the years ended December 31, 2005, 2004, and 2003, respectively. Despite the net losses, Accent Optical has been able to fulfill its working capital and capital expenditure needs due, in part, to equity financing, available cash resources and maintaining adequate debt financing arrangements. Based on its operating plan, management estimates that cash at December 31, 2005, existing debt financing arrangements, and cash flows generated from operating activities will not be sufficient to fund operations at the current and projected levels for the next twelve months. In the event that the merger is not completed, or for other reasons, management will pursue actions to sell product lines, reduce costs, or seek alternative financing arrangements and pursue additional placement of Company stock. There can be no assurance that such sources of financing and capital will be available if required or, if available, will be on terms satisfactory to Accent Optical (Note 15).

Note 2 Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Accent Optical and its wholly owned subsidiaries and branches in the United States, France, Germany, Israel, South Korea, Taiwan,

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Switzerland, Japan, Canada, and the United Kingdom. All inter-company accounts and transactions have been eliminated in consolidation.

Foreign Currency Translation

Where the functional currency is the local currency, Accent Optical translates the balance sheet of its foreign subsidiaries using the year end exchange rates and the statement of operations using the average exchange rates for the period. The cumulative effect of these translation adjustments are reported in accumulated other comprehensive income (loss) in stockholders' equity. Exchange gains and losses arising from transactions denominated in a currency other than the functional currency of the entity involved and re-measurement adjustments for foreign operations where the U.S. dollar is the functional currency are included in other income (expense) in the accompanying consolidated statements of operations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the balance sheet dates and the reported amounts of revenues and expenses during the reporting periods. Accent Optical bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from these estimates. Significant estimates made in preparing the consolidated financial statements include depreciation and amortization periods of long-lived and intangible assets, allowance for doubtful accounts, provisions to reduce inventories to their estimated net realizable values, warranty accruals, impairments of goodwill and other long-lived assets, incurred but not reported (IBNR) health claims and the realizability of deferred tax assets.

Concentration of Credit Risk

Financial instruments, which potentially subject Accent Optical to concentrations of credit risk, consist primarily of cash and cash equivalents and accounts receivable. Accent Optical maintains its cash and cash equivalents in bank accounts, which at times may exceed federally insured limits. Accent Optical has not experienced any losses on these accounts. The risk related to accounts receivable is mitigated by sales to well-established companies, ongoing credit evaluation of its customers, and frequent contact with its customers, especially its most significant customers, thus enabling Accent Optical to monitor for current changes in business operations and to respond accordingly. The allowance for doubtful accounts is management's best estimate of the amount of probable credit losses in the existing accounts receivable. Accent Optical determines the allowance based on historical write-off experience. Accent Optical reviews the allowance for doubtful accounts quarterly. Past due balances over 120 days are reviewed individually for collectibility. All other balances are reviewed on a pooled basis by aging category. Account balances are charged off against the allowance when it is probable the receivable will not be recovered. Accent Optical does not have any off-balance sheet credit exposure related to its customers.

Table of Contents**ACCENT OPTICAL TECHNOLOGIES, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

As of December 31, 2005, ten customers accounted for 58.1% of accounts receivable with one customer accounting for approximately 9.1%. As of December 31, 2004, ten customers accounted for 62.7% of accounts receivable with one customer accounting for approximately 21.9%. As of December 31, 2003, ten customers accounted for 63.8% of accounts receivable with one customer accounting for approximately 13.1%. As of December 31, percentages of accounts receivable balances in each of the geographical regions are as follows:

	2005	2004	2003
U.S.	26.8%	12.8%	13.3%
Europe	16.5%	38.6%	12.6%
Japan	35.8%	29.4%	44.8%
Rest of World	20.9%	19.2%	29.3%
Total	100.0%	100.0%	100.0%

Fair Value of Financial Instruments

The carrying amounts of Accent Optical's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities approximates fair value due to their short maturities. The carrying amount of Accent Optical's debt as of December 31, 2005 approximates fair value as the components of the debt are either short-term in nature, or bear interest at rates that approximate prevailing market rates.

Cash and Cash Equivalents

Accent Optical considers all highly liquid investments with an original maturity of three months or less from the date of purchase to be cash and cash equivalents.

Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market using a standard cost system. Finished goods and work-in-process include cost of materials, labor and manufacturing overhead costs. Reserves, when required, are recorded to reduce excess and obsolete inventories to their estimated net realizable values. Inventory reserves of \$5.3 million and \$6.6 million were recorded at December 31, 2005 and 2004, respectively.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation and amortization. Property and equipment acquired from Bio-Rad are stated at their estimated fair values based upon the allocated purchase price at the acquisition date. Accent Optical depreciates property and equipment over their estimated useful lives of two to seven years using the straight-line method. Leasehold improvements are amortized over the shorter of the useful lives of the assets or the lease term. Costs incurred to maintain property and equipment that do not increase the useful life of the underlying assets are expensed as incurred. At the time of retirement or other disposal, the cost and related accumulated depreciation and amortization are removed from the respective accounts and any resulting gain or loss is included in operations.

Goodwill

Goodwill represents the purchase price in excess of identifiable assets arising from acquisitions. Goodwill is reviewed for impairment in accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*. Accent

Table of Contents

ACCENT OPTICAL TECHNOLOGIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Accent Optical reviews goodwill annually, or more frequently if impairment indicators arise, for impairment. Accent Optical calculates the fair value of goodwill using a discounted cash flow model. Goodwill is tested for impairment at the reporting unit level. If the fair value of the reporting unit exceeds its carrying amount including goodwill, goodwill is not considered to be impaired. Accent Optical estimates future discounted cash flows using assumptions about the expected future operating performance of Accent Optical. Accent Optical's estimates of discounted cash flows may differ from actual cash flow due to, among other things, technological changes, economic conditions, or changes to its business operations. Management completed its annual impairment test on December 31, 2005 and determined there was no impairment of goodwill (Note 6).

Impairment of Long-Lived Assets

Long-lived assets, such as property and equipment and intangible assets with definite lives, are reviewed for impairment in accordance with SFAS No. 144, *Accounting for the Disposal of Long-Lived Assets*. Accent Optical assesses possible impairment whenever changes in circumstances indicate that the carrying value of the assets may not be recoverable. Recoverability of an asset is measured by comparison of its carrying amount to the future undiscounted cash flows that the asset is expected to generate. Any impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeded its fair market value.

Financing Costs

Costs related to obtaining debt financing are capitalized when incurred and amortized over the life of the applicable loan. These are included in other noncurrent assets. Unamortized loan costs related to debt that is extinguished early are written off. Incremental costs directly attributable to a proposed or actual offering of Accent Optical securities are deferred and charged against the gross proceeds of the offering. Costs incurred for an aborted offering are charged to expense when the decision to abort the offering is made. In 2004, Accent Optical incurred \$991,000 of costs related to an aborted initial public offering of Accent Optical's Common Stock.

Revenue Recognition

Accent Optical's revenues are derived from the sale of its products and from fees associated with maintenance and technical support offered to its customers. Revenues from product sales are recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the price is fixed and determinable and collectibility is reasonably assured. For sales of standard products to existing customers who have purchased the same equipment with the same customer-specified acceptance criteria in the past, revenue is recognized upon title transfer, which is generally upon shipment of the product to the customer. For sales of new products or existing products with unique acceptance criteria to a new customer, revenue is deferred and is recognized only upon customer acceptance, which is generally upon receipt of final payment of the purchase price. Service and technical support for products is provided under separate maintenance agreements. Revenue from maintenance agreements is deferred and is recognized ratably over the term of the agreement as the service is provided.

Product sales to distributors are recognized upon transfer of title, which is generally upon shipment of the product to the distributor or the end customer.

Revenue on the sale of spare parts is recognized when persuasive evidence of an arrangement exists (a binding purchase order is received), delivery has occurred, the price is fixed and determinable and collectibility is reasonably assured. Title and the risk and rewards of ownership transfer upon shipment of the spare parts and revenue is recognized upon shipment.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Deferred Revenues

Deferred revenues represent amounts billed to customers for product sales and maintenance agreements for which the earnings process is incomplete. The portions of maintenance services, which will be provided for more than one year in the future, if applicable, are classified as noncurrent deferred revenues.

Shipping and Handling Costs

Accent Optical incurs shipping, handling and other related costs for shipment of goods to customers. The costs are recognized in the period in which the expenses are incurred and are included in cost of revenues. Amounts billed to customers for shipping, handling, and related costs are included as a component of revenues.

Product Installation and Warranty Costs

At the time product revenue is recognized, Accent Optical accrues for estimated product installation costs and costs associated with warranty on its products, which typically range from a period of between 12 to 24 months. Accent Optical estimates the cost of providing product installation and warranty based on historical costs of installing the products and actual field repair rates (Note 7).

Research and Development

Research and development costs are expensed as incurred and are related to developing new products and improving existing products or processes. These costs primarily include salaries, fees paid to consultants, supplies, legal costs related to patents and design costs. Accent Optical incurred research and development costs of \$8.2 million, \$7.3 million, and \$7.0 million for the years ended December 31, 2005, 2004, and 2003, respectively.

Advertising

Costs related to advertising are charged to selling, general and administrative expense as incurred. Advertising expense for the years ended December 31, 2005, 2004, and 2003 was \$84,881, \$105,514, and \$390,000, respectively.

Income Taxes

Accent Optical accounts for income taxes using the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the book and tax bases of Accent Optical's assets and liabilities. Valuation allowances are provided if based upon the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

Comprehensive Income

SFAS No. 130, *Reporting Comprehensive Income*, establishes standards for reporting and display of comprehensive income and its components. SFAS No. 130 requires companies to report comprehensive income that includes unrealized gains and losses and other items that have been previously excluded from net income or loss and reflected instead in stockholders' equity. Comprehensive loss for Accent Optical consists of net loss and the effect of foreign currency translation adjustments.

Table of Contents**ACCENT OPTICAL TECHNOLOGIES, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Stock-Based Compensation*

Accent Optical accounts for stock-based employee compensation arrangements in accordance with the provisions of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and complies with the disclosure provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure, Amendment to SFAS No. 123*. Under APB No. 25, compensation expense is based on the difference, if any, on the date of grant, between the fair value of Accent Optical's stock and the exercise price of the option. Accent Optical accounts for stock and stock options issued to nonemployees in accordance with the provisions of Emerging Issues Task Force Consensus on Issue No. 96-18, *Accounting for Equity Instruments that are Issued to Other than Employees for Acquiring or in Conjunction with Selling, Goods or Services*. Compensation and services expense are recognized ratably over the vesting period of the options or the periods the related services are rendered, as appropriate.

The following table illustrates the effect on net loss as if Accent Optical had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation for the years ended December 31, 2005, 2004, and 2003:

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions for the years ended December 31, 2005, 2004, and 2003:

	2005	2004	2003

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation. These changes had no impact on the previously reported net loss or stockholders' equity.

Recent Accounting Pronouncements

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs: An Amendment of ARB No. 43, Chapter 4 (SFAS 151)*. SFAS 151 amends the guidance in ARB No. 43, Chapter 4, *Inventory Pricing*, to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). Among other provisions, the new rule requires that items such as idle facility expense, excessive

Table of Contents**ACCENT OPTICAL TECHNOLOGIES, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

spoilage, double freight, and re-handling costs be recognized as current period charges regardless of whether they meet the criterion of so abnormal as stated in ARB No. 43. Additionally, SFAS 151 requires that the allocation of fixed production overhead to the costs of conversion be based on the normal capacity of the production facilities. SFAS 151 is effective for fiscal years beginning after June 15, 2005. The adoption of SFAS 151 did not have a material effect on Accent Optical's results of operations or financial position.

In December 2004, the FASB issued SFAS No. 153, *Exchanges of Nonmonetary Assets - An Amendment of APB Opinion No. 29, Accounting for Nonmonetary Transactions (SFAS 153)*. SFAS 153 eliminates the exception from fair value measurement for nonmonetary exchanges of similar productive assets in paragraph 21(b) of APB Opinion No. 29, *Accounting for Nonmonetary Transactions*, and replaces it with an exception for exchanges that do not have commercial substance. SFAS 153 specifies that a nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 153 is effective for the fiscal periods beginning after June 15, 2005. The adoption of SFAS 153 did not have a material effect on Accent Optical's results of operations or financial position.

In December 2004, the FASB issued SFAS No. 123(R), *Accounting for Stock-Based Compensation*. SFAS 123(R), which establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS 123(R) requires that the fair value of such equity instruments be recognized as an expense in the historical financial statements as services are performed. Prior to SFAS 123(R), only certain pro forma disclosures of fair value were required. For nonpublic companies, the provisions of this Statement are effective as of the beginning of the first annual reporting period that begins after December 15, 2005. Accent Optical will adopt SFAS 123(R) commencing with the year ending December 31, 2006, and is currently evaluating the effect that the adoption of SFAS 123(R) will have on its results of operations or financial position.

Note 3 Compensating Balances

A maximum of \$5.0 million was available to Accent Optical under a revolving credit agreement. Under the terms of the agreement, Accent Optical is required to maintain, on deposit with Comerica Bank (Note 8), a compensating balance, the greater of \$1,000,000 or 50% of the aggregate amount of all outstanding advances plus 50% of the aggregate amount of all outstanding equipment advances. At December 31, 2005, \$1,000,000 of the cash balance shown in the balance sheet was maintained as a compensating balance.

Note 6 Goodwill and Acquired Intangibles

As of December 31, 2005, Accent Optical, as part of its review of financial results, performed an assessment of the carrying value of Accent Optical's long-lived assets to be held and used including the acquired intangible assets other than goodwill. The assessment was performed pursuant to SFAS No. 144. Fair value was determined using the income approach. No impairment charge was required as of December 31, 2005 and 2004. During 2003, as a result of the significant negative industry and economic trends affecting both Accent Optical's current operations and expected future sales as well as the general decline of technology valuations, Accent Optical concluded that the carrying value of its acquired intangibles, primarily developed technology, was impaired and as such took an impairment charge of approximately \$156,000 to reduce the carrying value of the assets to fair value at December 31, 2003.

Acquired intangibles consist of the following at December 31:

Estimated amortization expense for amortizable intangible assets for the year ending December 31, 2006 is \$44,000.

Loans with Comerica Bank

In December 2002, Accent Optical entered into a term loan agreement with Comerica Bank (the Agreement). Outstanding borrowings under the Agreement are secured by substantially all of the assets of Accent Optical and its subsidiaries. The Agreement contains affirmative and negative covenants (including restrictions on Accent Optical entering into certain transactions and certain financial covenants including a minimum liquidity ratio and tangible net worth). As of December 31, 2005, Accent Optical was not in compliance with certain financial covenants related to the loan and Security Agreement entered into on March 31, 2005.

On February 14, 2006, Accent Optical entered into a Forbearance Agreement and Second Amendment to the Agreement (the Revised Agreement), which provided that Comerica would not exercise any remedies available to the Bank for such defaults until the earlier of May 31, 2006 or such date in which further events of default were to occur. In addition, the Revised Agreement provided for (1) a reduction in the total amount available under the revolving line of credit to \$1,355,000; (2) Accent Optical is not required to comply with any net worth covenant; and (3) a reduction in the liquidity ratio covenant from 1.7 to 1.5.

In June 2004, Accent Optical amended the Agreement with Comerica to include a revolving line of credit and a revolving equipment advance line of credit. Accent Optical may request advances under a revolving line of credit not to exceed the lesser of (1) \$7,500,000 minus the balances on all Comerica debt under the amended agreement, or (2) the borrowing base established by the debt covenants. Under the terms of this amendment, Accent Optical may also request advances for purchases of equipment not to exceed the lesser of (1) \$7,500,000 minus the balances on all Comerica debt under the amended agreement, or (2) the borrowing base established by the debt covenants. As of December 31, 2005, the amount available under the revolving line of credit was limited to approximately \$785,000 based upon U.S. eligible accounts receivable and amounts previously borrowed.

In October 2004, Accent Optical amended the Agreement with Comerica to convert the balance under the revolving equipment advance line of credit to a term loan. Under this amendment, approximately \$838,000 was converted to term debt as of December 31, 2005. The loan bears interest at the lower of (1) Comerica Bank's prime rate or LIBOR plus reserve percentage (reserve percentage of 2.75% at December 31, 2005) or (2) Comerica Bank's prime rate. The first equipment term loan is payable over 36 months, beginning December 1, 2004. The second equipment term loan is payable over 36 months, beginning July 1, 2005. The equipment term loans may be prepaid in whole or in part without any penalty or premium. The outstanding balance of equipment term loans as of December 31, 2005 is \$594,309.

As of December 31, 2005 and 2004, the balance of the Comerica Bank term loan was \$1,250,000 and \$2,500,000, respectively. The loan bears interest at the lower of either Comerica Bank's prime rate or LIBOR rate plus reserve percentage (reserve percentage of 2.75% at December 31, 2005.) The interest rate on the Comerica Bank term loan was 7.03% at December 31, 2005. The term loan is payable in 48 equal monthly installments of principal, plus all accrued interest, beginning January 1, 2003. The term loan may be prepaid in whole or in part without any penalty or premium.

As of December 31, 2005 and 2004, the balance of the Comerica Bank revolving line of credit was \$900,000 and \$400,000, respectively. The loan bears interest at the lower of (1) Comerica Bank's prime rate or LIBOR plus reserve percentage (reserve percentage of 2.50% at December 31, 2005) or (2) Comerica Bank's prime rate. The interest rate on the Comerica Bank revolving line of credit at December 31, 2005 was 7.25%. The maturity date on the revolving line of credit was March 30, 2006, which is extended to May 31, 2006 under the Revised Agreement.

Subordinated Note Payable to Bio-Rad

In connection with the SMD Acquisition, Accent Optical issued an \$8 million subordinated note payable to Bio-Rad (the Bio-Rad Note), which had an original due date of July 31, 2005 and accrues interest at 13.5 percent per annum on the principal. Under a penalty clause in the Bio-Rad Note, any principal, interest, premium or other amount due under the Bio-Rad Note that is not paid when due will accrue interest payable on demand at 17.5 percent per annum. Accent Optical shall have the right at any time to prepay the principal of the note without penalty. However, Accent Optical must repay the Bio-Rad Note in full within two business days of a change in control or the completion of an initial public offering resulting in gross proceeds of at least \$35.0 million. For the years ended December 31, 2005, 2004 and 2003, Accent Optical recorded interest expense of approximately \$1,611,000, \$1,671,000 and \$1,560,000, respectively on this note.

In November 2003, Accent Optical amended the Bio-Rad note to extend the principal due date to July 31, 2007. Accent Optical also agreed that interest payments would be paid each June 30 and December 31. In January 2006, Bio-Rad agreed to defer the interest payment of \$812,000 which was due on December 31, 2005, to the earlier of June 30, 2006 or the closing of the merger (Note 15).

Note 9 Commitments and Contingencies*Commitments*

Prior to the SMD Acquisition, all facilities were either owned by Bio-Rad or leased by Bio-Rad from third parties under non-cancelable operating leases. As part of the SMD Acquisition, Accent Optical entered into agreements with Bio-Rad to lease, sublease or assume leases for certain facilities at fair market value (Note 12). Lease expense under all operating leases was approximately \$1,059,000, \$1,348,000 and \$1,693,000 for the years ended December 31, 2005, 2004, and 2003, respectively.

As of December 31, 2005, future minimum lease payments under all non-cancelable operating lease agreements are as follows:

Contingencies

Accent Optical is involved in lawsuits, claims, investigations and other proceedings that arise in the ordinary course of business. There are no matters pending that Accent Optical expects to be material in relation to its financial position or results of operations and cash flows.

Note 10 Stockholders Equity

On July 26, 2000, Accent Optical's Board of Directors approved, and on July 27, 2000 certain stockholders signed a Subscription and Recapitalization Agreement, pursuant to which all of the issued and outstanding shares of Accent Optical Common Stock, originally issued at \$7,000 per share, were converted into 2,729 shares of Accent Optical Series A Preferred Stock at \$1,000 per share and 88,152,000 shares of new Accent Optical Common Stock at \$0.01 per share.

On July 31, 2000, in connection with the SMD Acquisition, Accent Optical issued 21,951,000 shares of its Common Stock to Bio-Rad.

In September 2000, Accent Optical completed a private placement of 11,848,000 shares of its Common Stock at \$0.01 per share and 1,132 shares of Series A Preferred Stock at \$1,000 per share, generating gross proceeds to Accent Optical of approximately \$1.3 million. The proceeds from the private placement were used to repay the principal amounts of the loans of \$1.3 million provided to Accent Optical by certain stockholders of Accent Optical.

In November 2000, Accent Optical completed a private placement of 7,787,804 shares of its Convertible Preferred Stock at \$2.05 per share, generating net proceeds to Accent Optical of approximately \$14.5 million.

In November 2004, Accent Optical completed a private placement of 10,000,000 shares of its Common Stock at \$0.40 per share generating gross proceeds to Accent Optical of \$4,000,000. The proceeds were used for working capital, capital expenditures, payment of debt and general corporate purposes.

Accent Optical has a security holder's agreement that restricts its stockholders' ability to transfer their shares of Accent Optical Common Stock and Series A Preferred Stock without Accent Optical's approval. The security holder's agreement contains tag-along rights, drag-along rights, and a right of first refusal for Accent Optical's founders and Accent Optical on certain permitted sales of stock by a stockholder. In addition, it also contains anti-dilution protection for Bio-Rad and gives Bio-Rad the right to consent to certain issuances of shares of Accent Optical Preferred Stock.

Preferred Stock

As of December 31, 2005 and 2004, Accent Optical has authorized the issuance of 9,765,648 shares of preferred stock (Preferred Stock), par value \$0.01 per share, 9,550 shares of which are designated Series A preferred stock (Series A Preferred Stock) and 9,756,098 shares of which are designated convertible preferred stock (Convertible Preferred Stock).

The rights and preferences of the Series A Preferred Stock are indicated below.

Dividends Series A Preferred Stock

The holders of shares of Series A Preferred Stock shall be entitled to receive semi-annual dividends, payable on June 30 and December 31 of each year (the Dividend Date), when and as declared by the Board of Directors, in an amount per share equal to 13.5% per annum of the liquidation preference per share. Each semi-

annual dividend shall be fully cumulative, shall accrue, whether or not declared, on a daily basis from the last Dividend Date, and shall be added to the liquidation preference. Dividends on the Series A Preferred Stock shall be paid prior to the payment of any dividend on the Convertible Preferred Stock and the Common Stock. If the declaration or payment of any dividend would cause Accent Optical or its subsidiaries to be in default under any credit agreement, the amount of such dividend shall instead be added to the liquidation preference. No dividends were declared for the years ended December 31, 2005, 2004 and 2003. For the years ended December 31, 2005, 2004 and 2003, dividends in arrears on Series A Preferred Stock were \$2.3 million, \$2.1 million and \$1.7 million, respectively. At December 31, 2005, 2004 and 2003, the cumulative dividends in arrears were \$9.7 million, \$7.4 million and \$5.3 million, respectively.

Liquidation Preference Series A Preferred Stock

In the event of any voluntary or involuntary liquidation, dissolution or winding up of Accent Optical, each holder of shares of Series A Preferred Stock then outstanding shall be entitled to be paid out of assets of Accent Optical available for distribution to its stockholders an amount in cash per share equal to (1) \$1,000 per share, plus (2) the amount of all dividends that have been added to the liquidation preference plus an amount in cash equal to all accrued but unpaid dividends not yet added to the liquidation preference through the date fixed for liquidation, dissolution or winding up. This liquidation preference is to be paid to holders of the Series A Preferred Stock before any payment is made of any assets distributed to the holders of Common Stock. See Note 15 Subsequent Event.

Optional Conversion Series A Preferred Stock

At the holder's option, the Series A Preferred Stock will convert into shares of Common Stock only (in an amount equal to the sum of \$1,000 plus the amount of all dividends that have been added to the liquidation preference plus an amount equal to all accrued but unpaid dividends not yet added to the liquidation preference through the date fixed for conversion) (1) upon an initial public offering resulting in gross proceeds of at least \$35 million at a price per share of Common Stock equal to the initial offering price of the Common Stock; (2) upon a change of control at a price per share of Common Stock equal to the price per share of Common Stock (determined after giving effect to the conversion of the Series A Preferred Stock to be converted as a result of such change of control) paid in the transaction resulting in the change of control; or (3) at any time on or after July 28, 2005 at a price per share of Common Stock equal to the fair market value of the Common Stock on the date selected by the holder for conversion. The fair market value shall mean the current market value of such Common Stock or if the current market value cannot be determined because the Common Stock is not quoted or listed, the fair market value shall be determined by an investment bank of national reputation determined by Accent Optical. Accent Optical, in its sole discretion, can subject the conversion of the Series A Preferred Stock to the condition that all holders of Series A Preferred Stock exercise their conversion rights, in which case the vote of a majority of the holders of Series A Preferred Stock will bind all holders of Series A Preferred Stock. As of December 31, 2005, no shares of Series A Preferred Stock have been converted.

Voting Rights Series A Preferred Stock

The holders of record of the shares of Series A Preferred Stock are not entitled to any voting rights except as provided by the General Corporation Law of the State of Delaware and by Accent Optical's Amended and Restated Certificate of Incorporation, which provides, among other things, that a class vote of the majority of the outstanding shares of Series A Preferred Stock is required to amend the Certificate of Incorporation so as to adversely affect the rights of the Series A Preferred Stock.

The rights and preferences of the Convertible Preferred Stock are indicated below.

Dividends Convertible Preferred Stock

The holders of Convertible Preferred Stock shall be entitled to receive dividends, when and as declared by the Board of Directors, at a rate of 8 percent per annum of the original purchase price per share of \$2.05. Such dividends are fully cumulative, shall accrue if not paid, whether or not declared, and shall be payable at the option of Accent Optical (1) in shares of Common Stock upon the closing of an initial public offering, or (2) in cash prior to an initial public offering as determined by Accent Optical. Dividends on the Convertible Preferred Stock will be paid prior to the payment of any dividend on the Common Stock. If the declaration or payment of any dividend would cause Accent Optical or its subsidiaries to be in default under any credit agreement, the amount of such dividend shall instead be added to the liquidation preference. No accrued but unpaid dividends on the Series A Preferred Stock shall be paid in cash unless a proportionate amount of the accrued but unpaid dividend on the Convertible Preferred Stock is also paid. No dividends were declared for the years ended December 31, 2005, 2004 and 2003. For the years ended December 31, 2005, 2004 and 2003, dividends in arrears on Convertible Preferred Stock were \$1.3 million. At December 31, 2005, 2004 and 2003, the cumulative dividends in arrears were \$6.6 million, \$5.3 million and \$4.0 million, respectively.

Liquidation Preference Convertible Preferred Stock

In the event of any liquidation, dissolution or winding up of the corporation, whether voluntary or involuntary, the holders of Convertible Preferred Stock shall be entitled to receive prior and in preference to any distribution of any assets of Accent Optical to the holders of Common Stock, an amount equal to the original purchase price for each share of Convertible Preferred Stock, plus (1) the amount of all dividends that have been added to the liquidation preference, and (2) an amount in cash equal to all accrued but unpaid dividends. If the assets of Accent Optical are not sufficient to pay in full the liquidation payments to holders of the outstanding shares of Preferred Stock, the assets shall be distributed among the holders of Preferred Stock ratably and in proportion to the amount of liquidation preference each such holder is entitled to receive if the amounts to which holders of the outstanding shares of Preferred Stock are entitled were paid in full.

Optional Conversion Convertible Preferred Stock

Each share of Convertible Preferred Stock is convertible, at the option of the holder, at any time after the issuance of such share, into such number of fully paid and nonassessable shares of Common Stock only as is determined by dividing the original purchase price by the conversion price applicable to such share. The initial conversion price per share was equal to the original purchase price. With the issuance of shares pursuant to the November 2004 offering, the conversion price was adjusted to reflect the anti-dilution provisions of the Convertible Preferred Stock. The current conversion price is \$1.95 per share.

Automatic Conversion Convertible Preferred Stock

Each share of Convertible Preferred Stock is automatically converted into shares of Common Stock upon the earlier of (1) the election of the holders of a majority of the then outstanding Convertible Preferred Stock voting as a single class; (2) immediately prior to the closing of an initial public offering of the Common Stock, which results in gross proceeds to Accent Optical of at least \$35.0 million; or (3) the election of the Board of Directors upon the consolidation, merger or sale of Accent Optical or other transaction in which control of Accent Optical is transferred.

Voting Rights Convertible Preferred Stock

Each holder of Convertible Preferred Stock is entitled to the number of votes equal to the number of shares of Common Stock into which such Convertible Preferred Stock could be converted.

Anti-Dilution Protection Convertible Preferred Stock

The holders of the Convertible Preferred Stock are protected from dilution. The conversion price of the Convertible Preferred Stock shall be adjusted using the formula designated in the Amended and Restated Certificate of Incorporation. With the issuance of shares pursuant to the November 2004 sale of Common Stock, Accent Optical recorded \$863,600 as an adjustment to Convertible Preferred Stock and additional paid in capital for the value of this beneficial conversion feature. Since the Convertible Preferred Stock is convertible at the option of the holder at any time, the beneficial conversion feature was immediately amortized.

Common Stock

As of December 31, 2005, Accent Optical was authorized to issue 300,000,000 shares of \$0.00001 par value Common Stock. The holders of Common Stock are entitled to one vote per share on all matters to be voted on by Accent Optical.

Acquisition of the Semiconductor Measurements Division of Bio-Rad

Accent Optical financed the SMD Acquisition with bank debt, loans from stockholders, a subordinated note issued to Bio-Rad and proceeds from the issuance of Common and Preferred Stock. The purchase price of SMD was approximately \$36.4 million, which consisted of \$27.2 million in cash, the issuance by Accent Optical of a subordinated note payable to Bio-Rad in the principal amount of \$8.0 million (Note 8), and the issuance by Accent Optical to Bio-Rad of 21,951,000 shares of Accent Optical's Common Stock valued at \$220,000 (based on the most recent issuance of Common Stock at the time of the SMD Acquisition), which represented approximately 20% of the issued and outstanding Common Stock of Accent Optical immediately after the SMD Acquisition. Accent Optical incurred transaction costs of approximately \$1.0 million in connection with the SMD Acquisition.

Pursuant to the Transaction Agreement, Accent Optical must pay additional purchase price consideration to Bio-Rad if any of Accent Optical's stockholders, Accent Optical or their subsidiaries or affiliates receive, or are entitled to receive at a later date or dates, gross consideration in connection with a change of control which has a fair value of not less than \$50.0 million as of the date of such change of control. Subject to limitations contained in the Transaction Agreement, the amount of such additional purchase price consideration may range from \$3.0 million to \$13.0 million depending on the consideration received by Accent Optical upon such change of control. See Note 15. No additional purchase price consideration is payable as a result of or after an initial public offering resulting in gross proceeds of at least \$35.0 million. As of December 31, 2005, such additional amounts have not been accrued.

Stock Incentive Plan

In October 2000, Accent Optical's Board of Directors and stockholders approved the Accent Optical Technologies, Inc. Stock Incentive Plan (the Plan), which authorizes the issuance of up to 17,500,000 shares of Common Stock as either incentive stock options, nonqualified stock options or restricted stock awards to eligible employees, directors and consultants. In January 2004, the Board of Directors and stockholders approved an increase to the Plan to allow for the issuance of options to purchase up to 27,500,000 shares of Common Stock. The exercise price for incentive stock options may not be less than 100% of the fair market value of the Common Stock at the date of grant. The exercise price for nonqualified stock options may not be less than 85% of the fair market value of the Common Stock at the date of grant. In the event a grant is priced at a level below the then current market value for accounting purposes on the date of grant, Accent Optical records the corresponding deferred compensation.

Table of Contents**ACCENT OPTICAL TECHNOLOGIES, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Unless otherwise determined by the Board of Directors or a committee thereof, options generally vest over 48 months and expire 10 years after the date of grant. The Plan provides, among other things, that in the event of a merger or other change in control, all options and other awards outstanding under the Plan shall become fully vested unless the Board of Directors determines prior to the event, that vesting will not accelerate. If an option holder's employment by or service to Accent Optical is terminated by Accent Optical for cause, his or her option terminates, whether or not vested. If an option holder's employment by or service to Accent Optical is terminated other than for cause, he or she has a period of time, ranging from 30 days to 12 months depending on the type of termination, in which to exercise the portion of his or her option that has vested prior to such termination. If the employment or service of a restricted stock award recipient is terminated for any reason, the unvested shares subject to the award may be repurchased by Accent Optical at the lesser of the fair market value or the original purchase price of such shares. In August 2002, the Plan was amended to permit early exercise of stock options prior to vesting subject to repurchase by Accent Optical of unvested shares should the employee terminate employment.

This represents the difference between the estimated fair value of the Common Stock and the aggregate exercise price of such options at the date of grant. This amount of deferred compensation is presented as a reduction of stockholders' equity and will be amortized over the shorter of the period in which the employee or director provides services or the applicable vesting period, which is typically 48 months subject to certain exceptions. Amortization expense related to deferred stock compensation was approximately \$553,000, \$768,000 and \$368,000 for the years ended December 31, 2005, 2004 and 2003, respectively. Note 13 Retirement Plans

In connection with the SMD Acquisition, certain employees of Accent Optical located in the United Kingdom (UK) continued to participate in the existing Bio-Rad sponsored UK Pension Plan, through January 31, 2001. In December 2000, Accent Optical formed its own sponsored retirement plans, which call for discretionary contributions by Accent Optical that are subject to established limits and vesting schedules. Contributions to the UK defined contribution plan amounted to \$221,000, \$229,000 and \$218,000 for the years ended December 31, 2005, 2004 and 2003, respectively.

Accent Optical's Profit Sharing 401(k) Plan was adopted in December 2000 and allows eligible participants to contribute a portion of their compensation to the Plan. Accent Optical may choose to make a discretionary matching employer contribution. During 2005, Accent Optical made discretionary matching contributions for employees participating in the plan. Accent Optical contributed 50% of each participating employee's deferral up to \$1,000 per year. Matching contributions for the year ended December 31, 2005 amounted to approximately \$45,000. There were no matching contribution for the years ended December 31, 2004 and 2003.

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the deferred tax asset as of December 31, 2005 and 2004 are as follows:

	2005	2004
	(in thousands)	
Current deferred tax assets		
Inventory reserve and related items	\$ 218	\$ 322
Warranty reserve	62	78
Accrued vacation	189	161
Other	95	143
Fixed assets	279	56
Accounts receivable	21	36
	864	796
Long-term deferred tax assets (liabilities)		
Intangible assets	3,354	3,650
Fixed assets	30	(88)
Net operating loss carryforward	5,723	4,711
Other	147	(29)
	9,254	8,244
Gross deferred tax asset	10,118	9,040
Less valuation allowance	(10,118)	(9,040)
Net deferred tax assets	\$	\$

Realization of the deferred tax asset is dependent on generating sufficient future taxable income. Management believes that it is more likely than not that the net deferred tax asset will not be realized.

Accent Optical has recorded a valuation allowance at December 31, 2005 and 2004, primarily for deferred tax assets related to IPR&D, intangible assets and net operating loss carry-forwards. As of December 31, 2005, Accent Optical had federal, state and foreign net operating loss carry-forwards before valuation allowance of \$12.2 million, \$20.4 million, and \$3.5 million, respectively, which expire between 2007 and 2013. Utilization of these net operating loss carry-forwards may be limited due to future ownership changes of Accent Optical.

Note 15 Subsequent Events*Merger Agreement*

On January 25, 2006, Accent Optical entered into a definitive agreement to be acquired by Nanometrics, Inc. The transaction is expected to close in the second quarter of 2006, subject to stockholder approval, customary closing conditions and regulatory approvals. Under the terms of the merger agreement Nanometrics will issue approximately 5.0 million shares of their common stock in exchange for all of the capital stock of Accent Optical. In addition, Nanometrics will assume all of the net debt of Accent Optical. At the time of the agreement the transaction was valued at approximately \$80.9 million. No adjustments to these financial statements have been made as a result of this 2006 transaction.

The terms of the promissory notes make the entire \$2.5 million available to Accent Optical at any time prior to closing. In the event that the merger is terminated, Nanometrics will have no further obligations under the promissory notes. Any amounts outstanding will convert into shares of Accent Optical Common Stock on the one year anniversary of the termination of the agreement. (v) Notwithstanding anything to the contrary in this Agreement, any shares of Company Capital Stock that are held by an Effective Time Company Stockholder who has demanded and perfected appraisal or dissenters' rights for such shares in accordance with applicable Law and who, as of the Effective Time, has not effectively withdrawn or lost such appraisal or dissenters' rights (*Dissenting Shares*) shall not be converted into or represent a right to receive the applicable consideration for Company Capital Stock contemplated by this *Section 1.6* and in lieu thereof, any such Effective Time Company Stockholder shall only be entitled to such rights as are granted by applicable Law. Except as set forth on *Section 1.6(c)(iii)* of the Company Disclosure Schedule, the Company shall take no action, other than those actions contemplated by this Agreement, that will cause or result in the accelerated vesting of the Assumed Options and shall take such actions prior to the Effective Time as are reasonably necessary to provide that the Assumed Options will not accelerate in connection with the Merger pursuant to Section 4 of the Company Stock Plan.

(iv) Notwithstanding the foregoing, except as set forth on *Section 1.6(c)(iv)* of the Company Disclosure Schedule, each share of Company Common Stock issued upon exercise of a Company Stock Option prior to vesting or purchased subject to a right of repurchase (*Company Restricted Stock*) issued and outstanding immediately prior to the Effective Time that is unvested as of the Effective Time shall be cancelled and extinguished and will be converted automatically into the right to receive the Common Per Share Amount pursuant to *Section 1.6(b)(iii)* hereof, which amount shall continue to be subject to the same rights of repurchase by Parent as the Company had prior to the Effective Time and shall be subject to permanent retention by Parent (i.e., repurchase at cost from the stockholder) in accordance with the terms of the agreement pursuant to which such Company Stockholder purchased such shares of Company Restricted Stock.

(e) *Capital Stock of Merger Sub*. Each share of common stock, \$0.001 par value per share, of Merger Sub (*Merger Sub Common Stock*) issued and outstanding immediately prior to the Effective Time shall be converted into and become one fully paid and nonassessable share of common stock, \$0.00001 par value per share, of the Surviving Corporation.

(f) *Escrow*. Of the Aggregate Merger Consideration to be issued at the Effective Time pursuant to *Section 1.6(b)* (none of which shares of Parent Common Stock shall be unvested, subject to any right of repurchase, risk of forfeiture or other condition in favor of the Surviving Corporation), the number of whole shares equal to the Escrow Amount shall be held in escrow pursuant to *Article IX* of this Agreement to compensate Parent and its affiliates (including the Surviving Corporation) for any Losses (as defined in *Section 10.3* of this Agreement) incurred in connection with this Agreement and the transactions contemplated hereby.

The date on which the Closing shall occur is hereinafter referred to as the *Closing Date*.

Section 2.2 *Exchange of Certificates*.

(a) *Exchange Agent*. Prior to the Closing Date, Parent shall designate a bank or trust company to act as Exchange Agent hereunder (the *Exchange Agent*). As soon as practicable after the Effective Time, Parent shall deposit with or for the account of the Exchange Agent, for the benefit of the holders of Company Capital Stock, the shares of Parent Common Stock and an amount of cash sufficient to deliver to the holders of Company Capital Stock any cash in lieu of fractional shares payable pursuant to *Section 1.6(b)(iv)* and any dividends or other distributions to which such holders are entitled pursuant to *Section 2.2(d)* (such shares of Parent Common Stock together with cash in lieu of fractional shares and dividends or other distributions being hereinafter referred to as the *Exchange Fund*) deliverable pursuant to *Section 1.6* in exchange for outstanding shares of Company Capital Stock.

(b) *Exchange Procedures*. As soon as practicable after the Effective Time, Parent shall instruct the Exchange Agent to mail to each holder of record of a certificate or certificates which immediately prior to the Effective Time represented outstanding shares of Company Capital Stock (the *Certificates*) that were converted pursuant to *Section 1.6(b)* into the right to receive the Merger Consideration (i) a letter of transmittal (which shall specify that delivery shall be effected, and risk of loss and title to the Certificates shall pass, only upon proper delivery of the Certificates to the Exchange Agent and shall be in such form and have such other provisions as Parent may reasonably specify that are not inconsistent with the terms of this Agreement) and (ii) instructions for use in effecting the surrender of the Certificates in exchange for the Merger Consideration, the cash amount in lieu of any fractional shares pursuant to *Section 1.6(b)(iv)* and any dividends or distributions payable pursuant to *Section 2.2(d)*. Upon surrender of a Certificate for cancellation to the Exchange Agent together with such letter of transmittal, duly executed, and such other customary documents as may be required pursuant to such instructions, the holder of such Certificate shall be entitled to receive (A) certificates evidencing the Merger Consideration which such holder has the right to receive pursuant to *Section 1.6(b)* in respect of the shares of Company Capital Stock formerly evidenced by such Certificate, (B) cash in lieu of any fractional shares of Parent Common Stock to which such holder is entitled pursuant to *Section 1.6(b)(iv)*, and (C) any dividends or other distributions to which such holder is entitled pursuant to *Section 2.2(d)*, after giving effect to any tax withholdings required by applicable Law, and the Certificate so surrendered shall forthwith be cancelled. In the event of a transfer of ownership of shares of Company Capital Stock which is not registered in the transfer records of the Company as of the Effective Time, a certificate representing the proper number of shares of Parent Common Stock may be issued to a transferee if the Certificate evidencing such Company Capital Stock is presented to the Exchange Agent, accompanied by all documents required to evidence and effect such transfer pursuant to this *Section 2.2(b)* and by evidence that any applicable stock transfer taxes have been paid. Until so surrendered, each outstanding Certificate that, prior to the Effective Time, represented shares of Company Capital Stock will be deemed, from and after the Effective Time, for all corporate purposes, to represent only the right to receive upon surrender the Merger Consideration and any cash in lieu of any fractional shares of Parent Common Stock payable pursuant to *Section 1.6(b)(iv)*, in accordance with the terms of this Agreement.

(c) *No Further Ownership Rights in Company Capital Stock*. At the Effective Time, the stock transfer books of the Company shall be closed and thereafter there shall be no further registration of transfers on the stock transfer books of the Company or the Surviving Corporation of the shares

Subject to the effect of escheat, tax or other applicable Laws, following surrender of any such Certificate, there shall be paid to the holder of the certificates representing whole shares of Parent Common Stock issued in exchange therefor, in addition to the Parent Common Stock deliverable therefore pursuant to *Section 1.6(b)*, without interest, (A) the amount of any cash payable with respect to a fractional share of Parent Common Stock to which such holder is entitled pursuant to *Section 1.6(b)(iv)* and the amount of dividends or other distributions with a record date after the date hereof theretofore paid with respect to such whole Shares of Parent Common Stock and (B) at the appropriate payment date, the amount of dividends or other distributions, with a record date after the date hereof but prior to surrender and a payment date occurring after surrender, payable with respect to such whole shares of Parent Common Stock.

(e) *Lost, Stolen or Destroyed Certificates.* In the event any Certificates shall have been lost, stolen or destroyed, the Exchange Agent shall issue in exchange for such lost, stolen or destroyed Certificates, upon the making of an affidavit of that fact by the holder thereof, such shares of Parent Common Stock as may be required pursuant to *Section 1.6(b)* as well as the other Merger Consideration as provided in this *Section 2.2(e)* and any dividends or other distributions to which the holders thereof are entitled pursuant to *Section 2.2(d)*; *provided, however*, that Parent may, in its discretion and as a condition precedent to the issuance thereof, require the owner of such lost, stolen or destroyed Certificates to deliver an agreement of indemnification in form satisfactory to Parent, or a bond in such reasonable sum as Parent may direct as indemnity against any claim that may be made against Parent or the Exchange Agent with respect to the Certificates alleged to have been lost, stolen or destroyed.

(f) *Transfers of Ownership.* If any certificate for shares of Parent Common Stock is to be issued in a name other than that in which the Certificate surrendered in exchange therefor is registered, it will be a condition to the issuance thereof that the Certificate so surrendered will be properly endorsed and otherwise be in proper form for transfer and that the person requesting such exchange will have paid to Parent or any agent designated by it any transfer or other taxes required by reason of the issuance of a certificate for shares of Parent Common Stock in any name other than that of the registered holder of the Certificate surrendered, or will have established to the satisfaction of Parent or any agent designated by it that such tax has been paid or is not payable.

(g) *Termination of Exchange Fund.* At any time following the six (6) month anniversary of the Effective Time, Parent shall be entitled to require the Exchange Agent to deliver to Parent any portion of the Exchange Fund not disbursed to holders of Certificates, and thereafter such holders shall be entitled to look only to Parent (subject to abandoned property, escheat or other similar Law) with respect to the Merger Consideration to which such holders are entitled pursuant to *Section 1.6(b)* any cash in lieu of fractional shares payable to such holders pursuant to *Section 1.6(b)(iv)* and any dividends or other distributions to which such holders are entitled pursuant to *Section 2.2(d)*, upon due surrender of their Certificates, without any interest thereon.

(h) *No Liability.* Neither Parent, Merger Sub, nor the Company shall be liable to any holder of Company Capital Stock or Parent Common Stock, as the case may be, for such shares (or dividends or distributions with respect thereto) delivered to a public official pursuant to any applicable abandoned property, escheat or other similar Law following the passage of time specified therein.

Table of Contents

Parent, the Surviving Corporation or the Exchange Agent is required to deduct and withhold with respect to the making of such payment under the Code, or any provision of state, local or foreign tax Law. To the extent that amounts are so withheld by Parent, the Surviving Corporation or the Exchange Agent, such withheld amounts shall be treated for all purposes of this Agreement as having been paid to the holder of the shares of Company Capital Stock in respect of which such deduction and withholding was made by Parent, the Surviving Corporation or the Exchange Agent.

All shares of Parent Common Stock contributed to the Escrow Fund shall not be unvested or subject to any right of repurchase, risk of forfeiture or other condition in favor of the Surviving Corporation.

(b) The period during which claims for indemnification for Losses may be made against the Escrow Fund shall commence at the Effective Time and terminate on the date that is one (1) year following the Closing Date (the *Escrow Period*). The remainder, if any, of the Escrow Fund shall be paid to the Effective Time Company Stockholders promptly (and in any event within twenty (20) Business Days) after the expiration of the Escrow Period and the Parent and the Stockholder Agent shall give the Depository Agent written instructions to that effect. After the expiration of the Escrow Period, upon resolution of a pending claim for Losses, the portion of the Escrow Fund remaining, if any, after such Losses have been satisfied, shall be returned to the Effective Time Company Stockholders promptly (and in any event within twenty (20) Business Days) after the final resolution of the underlying claim.

(iii) specifying in reasonable detail (based upon the information then possessed by Parent) the individual items of such Losses included in the amount so stated and the nature of the claim for indemnification to which such Losses relate; and

(iv) the specific provisions of this Agreement that form the basis for such claim for indemnification for such Losses.

(b) Subject to *Section 9.1*, no delay in providing an Officer's Certificate in accordance with the terms hereof shall affect a Parent Indemnified Party's rights hereunder, unless (and then only to the extent that) the Stockholder Agent or any other applicable Indemnifying Parties are materially prejudiced thereby.

(c) At the time of delivery of any Officer's Certificate to the Depository Agent, Parent shall deliver a duplicate copy of such Officer's Certificate to the Stockholder Agent, and for a period of twenty (20) Business Days after such delivery to the Depository Agent and the Stockholder Agent of such Officer's Certificate, the Depository Agent shall make no payment or other disbursement of Escrow Funds pursuant to this *Section 9.5* unless the Depository Agent shall have received written authorization from the Stockholder Agent to make such delivery or disbursement. After the expiration of such 20-Business Day period, the Depository Agent shall deliver or disburse Parent Common Stock from the Escrow Fund having a value equal to such Losses from the Escrow Fund to Parent in accordance with this *Section 9.5*; *provided, however*, that no such delivery may be made if and to the extent the Stockholder Agent shall object in a written statement to any claim or claims made in the Officer's Certificate, and such statement shall have been delivered to the Depository Agent and to Parent prior to the expiration of such 20-Business Day period.

Parent and the Stockholder Agent shall certify such determined value in a certificate signed by both Parent and the Stockholder Agent, and shall deliver such certificate to the Depository Agent.

Section 9.6 Resolution of Objections to Indemnification Claims.

(a) If the Stockholder Agent objects in writing to any claim or claims by Parent made in any Officer's Certificate within the 20-Business Day period referenced in *Section 9.5*, Parent and the Stockholder Agent shall attempt in good faith for twenty (20) Business Days after Parent's receipt of such written objection to resolve such objection. If Parent and the Stockholder Agent shall so agree, a memorandum setting forth such agreement shall be prepared and signed by both parties and delivered to the Depository Agent. The Depository Agent shall be entitled to conclusively rely on any such memorandum and the Depository Agent shall distribute Parent Common Stock from the Escrow Fund in accordance with the terms of such memorandum.

(b) If no such agreement can be reached during such 20-Business Day period for good faith negotiation, but in any event upon the expiration of such 20-Business Day period, either Parent or the Stockholder Agent may bring suit in the Court of Chancery of the State of Delaware to resolve the matter.

(c) Judgment upon any award rendered by the trial court may be entered in any court having jurisdiction.

The Stockholder Agent may resign at any time. The Person serving as the Stockholder Agent may be replaced from time to time by the holders of a majority in interest of the Parent Common Stock then on deposit in the Escrow Fund upon not less than ten (10) days prior written notice to Parent. No bond shall be required of the Stockholder Agent. The Stockholder Agent shall receive compensation for his services in the amount of \$200 per hour, and a minimum of \$25,000 if a suit is brought by any party pursuant to *Section 9.6(b)*. Each Parent Indemnified Party shall be entitled to rely upon any such notice, communication, decision, action, failure to act within a designated period of time, agreement, consent, settlement, resolution or instruction as being a notice or communication to or by, or a decision, action, failure to act within a designated period of time, agreement, consent, settlement, resolution or instruction of, each and every such Effective Time Company Stockholder.

hereunder, unless (and then only to the extent that) the Stockholder Agent or any other applicable Indemnifying Parties are materially prejudiced thereby.

The Stockholder Agent (during the Escrow Period) and any other Indemnifying Party against whom any Parent Indemnified Party has brought a claim for indemnification arising out of such Third Party Claim (after the Escrow Period) shall have the right to receive promptly copies of all pleadings, notices and communications with respect to such Third Party Claim to the extent that receipt of such documents does not in the reasonable and good faith judgment of Parent affect any privilege relating to any Parent Indemnified Party, and each such Indemnifying Party shall be entitled, at its expense, to participate in, but not to determine or conduct, any defense of any such Third Party Claim with respect to any such Third Party Claim.

(c) Notification and Reference of Third-Party Claims.

Parent shall have the right in its sole discretion to settle any Third Party Claim following consultation with the Stockholder Agent; *provided, however*, that if such settlement was obtained without the Stockholder Agent's consent, and such consent was neither unreasonably withheld, conditioned nor delayed, Parent shall not be entitled to recover from the Escrow Fund unless and until Parent and the Stockholder Agent shall have agreed upon the amount of the Third Party Claim to be paid from the Escrow Fund or Parent is determined to be entitled to such payment upon the completion of the dispute resolution process set forth in Section 9.6. In the event that the Stockholder Agent has consented to any such settlement, the amount of such settlement shall be conclusively and irrebuttably presumed to be reasonable, and the Stockholder Agent shall not make, and the arbitrators shall have no power or authority to hear, any objection under any provision of this *Article IX* to the amount of any claim by Parent against the Escrow Fund with respect to the amount of Losses incurred by Parent in such settlement.

(ii) In the event the Stockholder Agent or an Effective Time Company Stockholder is served with a Third Party Claim, such Effective Time Company Stockholder shall notify the Stockholder Agent and Parent of such Third Party Claim, and the Stockholder Agent shall be entitled, at the expense of the Effective Time Company Stockholder, to participate in any defense of such Third Party Claim. Parent shall have the right in its sole discretion to settle any Third Party Claim following consultation with the Stockholder Agent; *provided, however*, that if such settlement was obtained without the Stockholder Agent's consent, and such consent was neither unreasonably withheld, conditioned nor delayed, Parent shall not be entitled to recover from the Escrow Fund unless and until Parent and the Stockholder Agent shall have agreed upon the amount of the Third Party Claim to be paid from the Escrow Fund or Parent is determined to be entitled to such payment upon the completion of the dispute resolution process set forth in Section 9.6. In the event that the Stockholder Agent has consented to any such settlement, the amount of such settlement shall be conclusively and irrebuttably presumed to be reasonable, and the Stockholder Agent shall not make, and the arbitrators shall have no power or authority to hear, any objection under any provision of this *Article IX* to the amount of any claim by the Effective Time Company Stockholder against Parent with respect to the amount of Losses incurred by the Effective Time Company Stockholder in such settlement.

PARENT SHAREHOLDER VOTING AGREEMENT

THIS PARENT SHAREHOLDER VOTING AGREEMENT (this Agreement) is entered into as of January 25, 2006, by and between Accent Optical Technologies, Inc., a Delaware corporation (the Company), and the undersigned shareholder (the Shareholder) of Nanometrics Incorporated, a California corporation (Parent).

WITNESSETH:

WHEREAS, Parent, Alloy Merger Corporation, a Delaware corporation and a wholly owned subsidiary of Parent (Merger Sub), the Company and Sanford Waller (the Stockholder Agent) are entering into an Agreement and Plan of Merger and Reorganization (the Reorganization Agreement) concurrently herewith pursuant to which Merger Sub will merge with and into the Company (the Merger), whereupon (A) the Company will become a wholly owned subsidiary of Parent, and (B) all outstanding shares of capital stock of the Company will be converted into the right to receive a number of shares of common stock of Parent as set forth therein.

WHEREAS, in order to induce the Company to enter into the Reorganization Agreement and in consideration of the execution of the Reorganization Agreement by the Company, the Shareholder (solely in his capacity as such) is hereby agreeing to vote the Shares (as defined below), so as to facilitate the consummation of the Merger.

NOW, THEREFORE, in consideration of the premises and the covenants and agreements set forth in the Reorganization Agreement and in this Agreement, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and accepted, the parties hereto hereby agree as follows:

1. Certain Definitions. Capitalized terms used but not otherwise defined herein shall have the respective meanings ascribed to them in the Reorganization Agreement. For purposes of this Agreement, the following terms shall have the following respective meanings:

(b) The Shareholder has all requisite power, capacity and authority to enter into this Agreement and to perform its obligations under this Agreement. The execution and delivery of this Agreement by the Shareholder and the consummation by the Shareholder of the transactions contemplated hereby have been duly authorized by all necessary action, if any, on the part of the Shareholder. This Agreement has been duly executed and delivered by the Shareholder and constitutes a valid and binding obligation of the Shareholder, enforceable against the Shareholder in accordance with its terms, subject only to the effect, if any, of (a) applicable bankruptcy and other similar laws affecting the rights of creditors generally and (b) rules of law governing specific performance, injunctive relief and other equitable remedies.

(c) The execution and delivery of this Agreement by the Shareholder does not, and the Shareholder's performance of the obligations under this Agreement will not: (i) conflict with, or result in any violation of any order, decree or judgment applicable to the Shareholder or by which the Shareholder or any of the Shareholder's properties or the Shares are bound; (ii) result in any breach of or constitute a default (with notice or lapse of time, or both) under, or give to others any rights of termination, amendment, acceleration or cancellation of any contract to which the Shareholder is a party or by which the Shareholder or any of the Shareholder's properties (including the Shares) is bound or affected; or (iii) result in the creation of any Encumbrance on any of the Shares. (d) There is (i) no action, suit, proceeding, claim, arbitration or investigation pending before any Governmental Entity or, to the Shareholder's actual knowledge, threatened against, and (ii) no judgment, decree or order against, (A) the Shareholder, or (B) any of (1) the Shareholder's affiliates, (2) the Shareholder's or its affiliates' respective properties, (3) the Shareholder's officers or directors (in the case of a corporate entity (in their capacities as such)), or (4) the Shareholder's respective partners (in the case of a partnership), in the case of each of (i) and (ii) that, individually or in the aggregate, would reasonably be expected to materially delay or impair the Shareholder's ability to consummate the transactions contemplated by this Agreement.

6. Consent and Waiver. The Shareholder hereby gives any consents or waivers that are reasonably required for the consummation of the Merger under the terms of any agreement or instrument to which the Shareholder is a party or subject or in respect of any rights the Shareholder may have in connection with the Merger or the other transactions provided for in the Reorganization Agreement (whether such rights exist under the articles of incorporation or bylaws of the Company, any contract or commitment of the Company under statutory or common law or otherwise). Without limiting the generality or effect of the foregoing, the Shareholder hereby waives any and all rights to contest or object to the execution and delivery of the Reorganization Agreement, Parent Board of Directors' actions in approving and recommending the Merger, the consummation of the Merger and the other transactions provided for in the Reorganization Agreement, or to seek damages or other legal or equitable relief in connection therewith.

10. Termination. This Agreement shall terminate and shall have no further force or effect after the Expiration Date. This Agreement may be executed in one or more counterparts, all of which shall be considered one and the same instrument and shall become effective when one or more counterparts have been signed by each of the parties and delivered to the other parties hereto; it being understood that all parties need not sign the same counterpart.

(e) **Entire Agreement; Nonassignability; Parties in Interest**. This Agreement and the documents and instruments and other agreements specifically referred to herein or delivered pursuant hereto (including the Proxy) (i) constitute the entire agreement among the parties with respect to the subject matter hereof and supersede all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter hereof and (ii) are not intended to confer, and shall not be construed as conferring, upon any person other than the parties hereto any rights or remedies hereunder. Neither this Agreement nor any of the rights, interests, or obligations under this Agreement may be assigned or delegated, in whole or in part, by operation of law or otherwise, by the Shareholder without the prior written consent of the Company, and any such assignment or delegation that is not consented to shall be null and void. Any agreement on the part of a party hereto to any such waiver shall be valid only if set forth in an instrument in writing signed on behalf of such party. Without limiting the generality or effect of the preceding sentence, no delay in exercising any right under this Agreement shall constitute a waiver of such right, and no waiver of any breach or default shall be deemed a waiver of any other breach or default of the same or any other provision in this Agreement.

(g) **Severability**. In the event that any provision of this Agreement, or the application thereof, becomes or is declared by a court of competent jurisdiction to be illegal, void or unenforceable, the remainder of this Agreement shall continue in full force and effect and shall be interpreted so as reasonably to effect the intent of the parties hereto. The parties hereto further agree to use their commercially reasonable efforts to replace such void or unenforceable provision of this Agreement with a valid and enforceable provision that shall achieve, to the extent possible, the economic, business and other purposes of such void or unenforceable provision.

(h) **Remedies Cumulative**. Except as otherwise provided herein, any and all remedies herein expressly conferred upon a party shall be deemed cumulative with and not exclusive of any other remedy conferred hereby, or by law or equity upon such party, and the exercise by a party of any one remedy shall not preclude the exercise of any other remedy.

(i) **Governing Law**. This Agreement shall be governed by and construed in accordance with the laws of the State of California without reference to such state's principles of conflicts of law. Each of the parties hereto irrevocably consents to the exclusive jurisdiction of any court located within the State of California, in connection with any matter based upon or arising out of this Agreement or the matters contemplated herein, agrees that process may be served upon them in any manner authorized by the laws of the State of California for such persons and waives and covenants not to assert or plead any objection which they might otherwise have to such jurisdiction and such process.

Board of Directors

Nanometrics Incorporated

1550 Buckeye Drive

Milpitas, CA 95035

Ladies and Gentlemen:

You have requested our opinion as to the fairness, from a financial point of view, to Nanometrics Incorporated (the Company), of the Consideration (as defined below) to be paid by the Company pursuant to the terms of that certain Agreement and Plan of Merger and Reorganization, dated as of January 25, 2006 (the Agreement), by and among the Company, Merger Sub (Merger Sub) and Accent Optical Technologies, Inc. (Target).

As more specifically set forth in the Agreement, and subject to the terms, conditions and adjustments set forth in the Agreement, we understand that the Company will acquire Target through the merger of Merger Sub with and into Target with Target surviving as a wholly-owned subsidiary of the Company (the Merger or Transaction). Pursuant to the Agreement, the outstanding equity of Target is to be converted into the right to receive an aggregate of up to 4,900,000 shares of the Company's common stock plus an additional number of shares of common stock to reflect the value of the aggregate exercise price of assumed options and the aggregate consideration received by Target between the signing of the Agreement and the closing of the Transaction as the result of the exercise of stock options (the Consideration). The Company has also agreed to assume certain options granted by Target between January 23, 2006 and the closing of the transaction. The terms and conditions of the Transaction are more fully set forth in the Agreement.

SG Cowen & Co. LLC (SG Cowen), as part of its investment banking business, is continually engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, negotiated underwritings, secondary distributions of listed and unlisted securities, private placements and valuations for corporate and other purposes. In the ordinary course of our business, we and our affiliates actively trade the securities of the Company for our own account and for the accounts of our customers and, accordingly, may at any time hold a long or short position in such securities.

We are acting as exclusive financial advisor to the Company in connection with the Transaction and will receive a fee from the Company for our services pursuant to the terms of our engagement letter with the Company, dated as of December 19, 2005, a portion of which is contingent upon the consummation of the Transaction. We will also receive a fee for providing this Opinion. SG Cowen and its affiliates in the ordinary course of business have from time to time provided, and in the future may continue to provide, commercial and investment banking services to the Company. In addition, TCW, which owns approximately 10% of the currently outstanding shares of the Company's Common Stock, is an indirect majority owned subsidiary of Societe Generale, which is the parent company of SG Cowen.

In connection with our opinion, we have reviewed and considered such financial and other matters as we have deemed relevant, including, among other things:

a draft of the Agreement dated January 23, 2006;

certain publicly available financial and other information for the Company and certain other relevant financial and operating data furnished to SG Cowen by Company management;

Edgar Filing: NANOMETRICS INC - Form S-4

certain publicly available financial and other information for Target and certain other relevant financial and operating data furnished to SG Cowen by Target and Company management;

certain internal financial analyses, financial forecasts, reports and other information concerning the Company (the Company Forecasts) and the Target (the Target Forecasts), prepared by the management of the Company and Target, and the amounts and timing of the cost savings and related expenses expected to result from the Transaction furnished to us by the management of the Company and Target (the Expected Synergies);

First Call estimates (First Call Estimates) and financial projections in Wall Street analyst reports (Wall Street Projections) for the Company;

discussions we have had with certain members of the managements of each of the Company and Target concerning the historical and current business operations, financial conditions and prospects of the Company and Target, the Expected Synergies and such other matters we deemed relevant;

certain operating results and the reported price and trading histories of the shares of the common stock of the Company as compared to operating results and the reported price and trading histories of certain publicly traded companies we deemed relevant;

certain financial terms of the Transaction as compared to the financial terms of certain selected business combinations we deemed relevant;

certain pro forma financial effects excluding the amortization of transaction related intangibles and other one-time and non-recurring items of the Transaction on an accretion/dilution basis; and

such other information, financial studies, analyses and investigations and such other factors that we deemed relevant for the purposes of this opinion.

In conducting our review and arriving at our opinion, we have, with your consent, assumed and relied, without independent investigation, upon the accuracy and completeness of all financial and other information provided to us by the Company and Target, respectively, or which is publicly available. We have not undertaken any responsibility for the accuracy, completeness or reasonableness of, or independently to verify, such information. In addition, we have not conducted nor have assumed any obligation to conduct any physical inspection of the properties or facilities of the Company or the Target. At the request of the Company, we have not contacted any customers of the Company or Target to ascertain what their likely reaction might be to a Transaction. We have further relied upon the assurance of management of the Company that they are unaware of any facts that would make the information provided to us incomplete or misleading in any respect. We have, with your consent, assumed that the financial forecasts and description of Expected Synergies which we examined were reasonably prepared by the management of the Company on bases reflecting the best currently available estimates and good faith judgments of such management as to the future performance of the Company and Target, and such projections and synergies, and the Wall Street Projections utilized in our analyses, provide a reasonable basis for our opinion.

We have not made or obtained any independent evaluations, valuations or appraisals of the assets or liabilities of the Company or Target, nor have we been furnished with such materials. With regard to accounting matters and an assessment of the financial condition and sufficiency of the internal controls of Target, we have relied exclusively on Company management's own assessment. With respect to all legal matters relating to the Company and Target, we have relied on the advice of legal counsel to the Company. Our services to the Company in connection with the Transaction have been comprised of rendering an opinion from a financial point of view with respect to the Consideration. Our opinion is necessarily based upon economic and market conditions and other circumstances as they exist and can be evaluated by us on the date hereof. It

should be understood that although subsequent developments may affect our opinion, we do not have any obligation to update, revise or reaffirm our opinion and we expressly disclaim any responsibility to do so.

For purposes of rendering our opinion we have assumed in all respects material to our analysis, that the representations and warranties of each party contained in the Agreement are true and correct, that each party will perform all of the covenants and agreements required to be performed by it under the Agreement and that all conditions to the consummation of the Transaction will be satisfied without waiver thereof. We have assumed that the final form of the Agreement will be substantially similar to the last draft reviewed by us. We have also assumed that all governmental, regulatory and other consents and approvals contemplated by the Agreement will be obtained and that in the course of obtaining any of those consents no restrictions will be imposed or waivers made that would have an adverse effect on the contemplated benefits of the Transaction. You have informed us, and we have assumed, that the Transaction will be treated as a tax-free reorganization.

It is understood that this letter is intended for the benefit and use of the Board of Directors of the Company in its consideration of the Transaction and may not be used for any other purpose or be reproduced, disseminated, quoted or referred to at any time, in any manner or for any purpose without our prior written consent. This letter does not constitute a recommendation to any stockholder as to how such stockholder should vote with respect to the Transaction. We have not been requested to opine as to, and our opinion does not in any manner address, the Company's underlying business decision to effect the Transaction. Furthermore, we express no view as to the price or trading range for shares of the common stock of the Company following the consummation of the Transaction.

Based upon and subject to the foregoing, including the various assumptions and limitations set forth herein, it is our opinion that, as of the date hereof, the Consideration in the Transaction is fair, from a financial point of view, to the Company.

Very truly yours,

Accent Optical Technologies, Inc. (the Company), Nanometrics Incorporated (the Acquiror) and Alloy Merger Corporation, a newly formed, wholly owned subsidiary of the Acquiror (the Acquisition Sub), propose to enter into an Agreement and Plan of Merger and Reorganization (the Agreement) pursuant to which the Acquisition Sub will be merged with the Company in a transaction (the Merger) in which the outstanding shares of the Company's Series A preferred stock, par value \$0.01 (the Series A Preferred Stock), convertible preferred stock, par value \$0.01 (the Convertible Preferred Stock) and common stock, par value \$0.00001 per share (the Common Stock, and together with the Series A Preferred Stock and the Convertible Preferred Stock, the Company Shares), will be converted into the right to receive, in the aggregate, 4,900,000 shares (the Consideration) of the common stock of the Acquiror, no par value (the Acquiror Shares).

You have asked us whether, in our opinion, the Consideration is fair from a financial point of view to the holders of the Company Shares.

In arriving at the opinion set forth below, we have, among other things:

- (1) Reviewed certain publicly available business and financial information relating to the Company and the Acquiror that we deemed to be relevant;
- (2) Reviewed certain information, including financial forecasts, relating to the business, earnings, cash flow, assets, liabilities and prospects of the Company and the Acquiror furnished to us by the Company and the Acquiror, respectively, as well as the amount and timing of the cost savings and related expenses and synergies expected to result from the Merger (the Expected Synergies) furnished to us by the Company;

In preparing our opinion, we have assumed and relied on the accuracy and completeness of all information supplied or otherwise made available to us, discussed with or reviewed by or for us, or publicly available, and we have not assumed any responsibility for independently verifying such information or undertaken an independent evaluation or appraisal of any of the assets or liabilities of the Company or the Acquiror, nor have we evaluated the solvency or fair value of the Company or the Acquiror under any state or federal laws relating to bankruptcy, insolvency or similar matters. In addition, we have not assumed any obligation to conduct any physical inspection of the properties or facilities of the Company or the Acquiror. With respect to the financial forecast information and the Expected Synergies furnished to or discussed with us by the Company or the Acquiror, we have assumed that they have been reasonably prepared and reflect the best currently available estimates and judgment of the Company's or the Acquiror's management as to the expected future financial performance of the Company or the Acquiror, as the case may be, and the Expected Synergies. We have also assumed that the final form of the Agreement will be substantially similar to the last draft reviewed by us.

Our opinion is necessarily based upon market, economic and other conditions as they exist and can be evaluated on, and on the information made available to us as of, the date hereof. We have assumed that in the course of obtaining the necessary regulatory or other consents or approvals (contractual or otherwise) for the Merger, no restrictions, including any divestiture requirements or amendments or modifications, will be imposed that will have a material adverse effect on the contemplated benefits of the Merger.

We are acting as financial advisor to the Company in connection with the Merger and will receive a fee from the Company for our services, a significant portion of which is contingent upon the consummation of the Merger. In addition, the Company has agreed to indemnify us for certain liabilities arising out of our engagement. In addition, in the ordinary course of our business, we may actively trade the Acquiror Shares for our own account and for the accounts of customers and, accordingly, may at any time hold a long or short position in such securities.

This opinion is for the use and benefit of the Board of Directors of the Company. Our opinion does not address the merits of the underlying decision by the Company to engage in the Merger and does not constitute a recommendation to any stockholder as to how such stockholder should vote on, or consent to, the proposed Merger or any matter related thereto. In addition, you have not asked us to address, and this opinion does not address, the fairness to, or any other consideration of, the holders of any class of securities, creditors or other constituencies of the Company, other than the holders of the Company Shares.

We are not expressing any opinion herein as to the prices at which the Acquiror Shares will trade following the announcement or consummation of the Merger.

On the basis of and subject to the foregoing, we are of the opinion that, as of the date hereof, the Consideration is fair from a financial point of view to the holders of the Company Shares.

WITNESSETH:

WHEREAS, Parent, Alloy Merger Corporation, a Delaware corporation and a wholly owned subsidiary of Parent (*Merger Sub*), the Company and Sanford S. Wadler (the *Stockholder Agent*) are entering into an Agreement and Plan of Merger and Reorganization (the *Reorganization Agreement*) concurrently herewith pursuant to which Merger Sub will merge with and into the Company (the *Merger*), whereupon (A) the Company will become a wholly owned subsidiary of Parent, and (B) all outstanding shares of capital stock of the Company (the *Company Capital Stock*) will be converted into the right to receive a number of shares of common stock of Parent as set forth therein.

WHEREAS, for all purposes of and under this Agreement capitalized terms used but not otherwise defined herein shall have the respective meanings ascribed thereto in the Reorganization Agreement.

WHEREAS, the Shareholder is the beneficial owner (as determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended) of the shares of Company Capital Stock and options to acquire shares of Company Capital Stock, each as set forth on the signature page of this Agreement.

WHEREAS, in consideration of the execution of the Reorganization Agreement by the Company, the Shareholder is hereby agreeing to limit such Shareholder's dispositions of the Parent Common Stock that such Shareholder will receive as consideration of such Shareholder's interests in Company Capital Stock or upon exercise of options, so as to facilitate orderly market for the Parent's common stock after the consummation of the Merger.

NOW, THEREFORE, in consideration of the premises and the covenants and agreements set forth in the Reorganization Agreement and in this Agreement, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and accepted, the parties hereto hereby agree as follows:

1. *Certain Definitions*. Capitalized terms used but not otherwise defined herein shall have the respective meanings ascribed to them in the Reorganization Agreement. For purposes of this Agreement, the following terms shall have the following respective meanings:

(e) *Unrestricted Shares* shall mean (a) initially one twenty fourth (1/24) of the Shares and on the first day of each subsequent calendar month after the Effective Time an additional one twenty fourth (1/24th) of the Shares; minus (b) the number of Shares previously Transferred in accordance with Section 2(b)(i), (ii), (v) or (vi) of this Agreement (all as properly adjusted to reflect any Shares Transferred pursuant to Sections 2(b)(iii) and 2(b)(iv) of this Agreement).

2. *Transfer of Shares.*

(a) *No Transfer of Shares other than Pursuant to this Agreement.* The Shareholder hereby agrees that, at all times during the period commencing with the date of this Agreement until the Expiration Date, the Shareholder shall not cause or permit any Transfer of any of the Shares (or any securities convertible into or exercisable or exchangeable for Shares), or any interest in the foregoing, to be effected unless in accordance with the terms and conditions of this Agreement.

(b) *Orderly Disposition of Shares.* Notwithstanding the foregoing, the Shareholder may Transfer Shares held by the Shareholder after the Effective Time: (i) in transactions effected on a national securities exchange or through the Nasdaq Stock Market so long as the number of Shares so Transferred in any month does not exceed the lesser of (x) the number of Unrestricted Shares and (y) one eighth (1/8th) of the aggregate number of Shares and options to acquire Shares received in the Merger by such Shareholder in exchange for such Shareholder's Company Capital Stock and options to acquire Company Capital Stock, (ii) any of the Shares in connection with the exercise (cashless or otherwise) of options to acquire shares of the Parent common stock in an amount that is sufficient to satisfy the payment of any transaction costs and any tax liability incurred by that Shareholder in connection with that exercise, (iii) to a family member or trust for estate planning purposes, provided the transferee has agreed in writing to be bound by the terms of this Agreement (and any Shares Transferred by all such Persons shall be aggregated with Transfers by such Shareholder for purposes of this Section) and to hold such Shares subject to all the terms and provisions of this Agreement, (iv) to a lender pursuant to a margin loan or other secured lending obligation provided the lender has agreed in writing to be bound by the terms of this Agreement (and any Shares Transferred by such lender shall be aggregated with Transfers by such Shareholder for purposes of this Section), (v) pursuant to, and in accordance with, the terms of a Shareholder's 10b5-1 plan or arrangement with the Parent, if any, with terms and conditions consistent with the provisions of this Agreement, including the limitations set forth in this Section (and any Shares Transferred to third parties under such 10b5-1 Plan shall be aggregated with Transfers by such Shareholder for purposes of this Section) or (vi) in a transaction approved in writing by the Parent.

3. *Representations, Warranties and Covenants of the Shareholder.* The Shareholder hereby represents, warrants and covenants to Parent as follows:

(a) The Shareholder is the beneficial or record owner of, or exercises voting power over, the Shares. The Shares constitute the Shareholder's entire interest in the outstanding shares of voting securities of the Company and the Shareholder does not hold any other outstanding shares of Company Capital Stock or rights to acquire Company Capital Stock. No Person not a signatory to this Agreement has a beneficial interest in or a right to acquire or vote any of the Shares (other than, (i) pursuant to a Voting Agreement dated as of January 1, 2006 with Parent; (ii) if the Shareholder is a partnership, the rights and interest of persons and entities that own partnership interests in the Shareholder under the partnership agreement governing the Shareholder and applicable partnership law or (iii) if the Shareholder is a married individual

and resides in a State with community property laws, the community property interest of his or her spouse to the extent applicable under such community property laws). The Shares are and will be at all times up until the Expiration Date free and clear of any security interests, liens, claims, pledges, options, rights of first refusal, co-sale rights, agreements, limitations on the Shareholder's voting rights, charges and other encumbrances of any nature (*Encumbrances*) that would adversely affect the ability of Shareholder to perform such Shareholder's obligations under this Agreement.

(b) The Shareholder has all requisite power, capacity and authority to enter into this Agreement and to perform such Shareholder's obligations under this Agreement. The execution and delivery of this Agreement by the Shareholder and the consummation by the Shareholder of the transactions contemplated hereby have been duly authorized by all necessary action, if any, on the part of the Shareholder. This Agreement has been duly executed and delivered by the Shareholder and constitutes a valid and binding obligation of the Shareholder, enforceable against the Shareholder in accordance with its terms, subject only to the effect, if any, of (a) applicable bankruptcy and other similar laws affecting the rights of creditors generally and (b) rules of law governing specific performance, injunctive relief and other equitable remedies.

(c) The execution and delivery of this Agreement by the Shareholder does not, and the Shareholder's performance of the obligations under this Agreement will not: (a) conflict with, or result in any violation of any order, decree or judgment applicable to the Shareholder or by which the Shareholder or any of the Shareholder's properties or the Shares are bound; or (b) result in any breach of or constitute a default (with notice or lapse of time, or both) under, or give to others any rights of termination, amendment, acceleration or cancellation of, or result in the creation of any Encumbrance on, any of the Shares pursuant to any contract to which the Shareholder is a party or by which the Shareholder or any of the Shareholder's properties (including the Shares) is bound or affected. The execution and delivery of this Agreement by the Shareholder does not, and the performance of this Agreement by the Shareholder will not, require the consent of any third party.

(d) There is (a) no action, suit, proceeding, claim, arbitration or investigation pending before any Governmental Entity or, to the Shareholder's actual knowledge, threatened against, and (b) no judgment, decree or order against, (i) the Shareholder, or (ii) any of (A) the Shareholder's affiliates, (B) the Shareholder's or its affiliates' respective properties, (C) the Shareholder's officers or directors (in the case of a corporate entity (in their capacities as such)), or (D) the Shareholder's respective partners (in the case of a partnership), in the case of each of (i) and (ii) that, individually or in the aggregate, would reasonably be expected to materially delay or impair the Shareholder's ability to consummate the transactions contemplated by this Agreement.

4. *Additional Documents.* The Shareholder hereby agrees to execute and deliver any additional documents necessary or desirable, in the reasonable opinion of the Company, to carry out the intent of this Agreement. If Shareholder is a married person, Shareholder's spouse has executed and delivered to Parent a signature page to this Agreement.

5. *Confidentiality.* The Shareholder shall hold any information regarding this Agreement, the Merger, the Reorganization Agreement and the transactions contemplated thereby, in strict confidence and shall not divulge any such information to any third person until such time as the Merger has been publicly disclosed by the Parent. Neither the Shareholder, nor any of its affiliates shall issue or cause the publication of any press release or other public announcement with respect to this Agreement, the Merger, the Reorganization Agreement or the other transactions contemplated thereby without the prior written consent of the Parent, except as may be required by law or by any listing agreement with, or the policies of, the Nasdaq Stock Market or an applicable national securities exchange in which circumstance such announcing party shall make reasonable efforts to consult with the Parent to the extent practicable.

2. *Transfer of Shares.*

(a) *No Transfer of Shares other than Pursuant to this Agreement.* The Shareholder hereby agrees that, at all times during the period commencing with the date of this Agreement until the Expiration Date, the Shareholder shall not cause or permit any Transfer of any of the Shares (or any securities convertible into or exercisable or exchangeable for Shares), or any interest in the foregoing, to be effected unless in accordance with the terms and conditions of this Agreement.

(b) *Orderly Disposition of Shares.* Notwithstanding the foregoing, the Shareholder may Transfer Shares held by the Shareholder after the Effective Time: (i) in transactions effected on a national securities exchange or through the Nasdaq Stock Market so long as the number of Shares so Transferred in any one month period does not exceed 1/12th of the aggregate number of Shares and options to acquire Shares received in the Merger by such Shareholder in exchange for such Shareholder's Company Capital Stock and options to acquire Company Capital Stock, (ii) any of the Shares in connection with the exercise (cashless or otherwise) of options to acquire shares of the Parent common stock in an amount that is sufficient to satisfy the payment of any transaction costs and any tax liability incurred by that Shareholder in connection with that exercise, (iii) to a family member or trust for estate planning purposes, provided the transferee has agreed in writing to be bound by the terms of this Agreement (and any Shares Transferred by all such Persons shall be aggregated with Transfers by such Shareholder for purposes of this Section) and to hold such Shares subject to all the terms and provisions of this Agreement, (iv) pursuant to, and in accordance with, the terms of a Shareholder's 10b5-1 plan or arrangement with the Parent, if any, with terms and conditions consistent with the provisions of this Agreement, including the limitations set forth in this Section (and any Shares Transferred to third parties under such 10b5-1 Plan shall be aggregated with Transfers by such Shareholder for purposes of this Section) or (v) in a transaction approved in writing by the Parent.

3. *Representations, Warranties and Covenants of the Shareholder.* The Shareholder hereby represents, warrants and covenants to Parent as follows:

(a) The Shareholder is the beneficial or record owner of, or exercises voting power over, the Shares. The Shares constitute the Shareholder's entire interest in the outstanding shares of voting securities of the Company and the Shareholder does not hold any other outstanding shares of Company Capital Stock or rights to acquire Company Capital Stock. No Person not a signatory to this Agreement has a beneficial interest in or a right to acquire or vote any of the Shares (other than, (i) pursuant to a Voting Agreement dated as of January 25, 2006 with Parent; (ii) if the Shareholder is a partnership, the rights and interest of persons and entities that own partnership interests in the Shareholder under the partnership agreement governing the Shareholder and applicable partnership law or (iii) if the Shareholder is a married individual and resides in a State with community property laws, the community property interest of his or her spouse to the extent applicable under such community property laws). The Shares are and will be at all times up until the Expiration Date free and clear of any security interests, liens, claims, pledges, options, rights of first refusal, co-sale rights, agreements, limitations on the Shareholder's voting rights, charges and other encumbrances of any nature (*Encumbrances*) that would adversely affect the ability of Shareholder to perform such Shareholder's obligations under this Agreement.

(b) The Shareholder has all requisite power, capacity and authority to enter into this Agreement and to perform such Shareholder's obligations under this Agreement. The execution and delivery of this Agreement by the Shareholder and the consummation by the Shareholder of the transactions contemplated hereby have been duly authorized by all necessary action, if any, on the part of the Shareholder. This Agreement has been duly executed and delivered by the Shareholder and constitutes a valid and binding

obligation of the Shareholder, enforceable against the Shareholder in accordance with its terms, subject only to the effect, if any, of (a) applicable bankruptcy and other similar laws affecting the rights of creditors generally and (b) rules of law governing specific performance, injunctive relief and other equitable remedies.

(c) The execution and delivery of this Agreement by the Shareholder does not, and the Shareholder's performance of the obligations under this Agreement will not: (a) conflict with, or result in any violation of any order, decree or judgment applicable to the Shareholder or by which the Shareholder or any of the Shareholder's properties or the Shares are bound; or (b) result in any breach of or constitute a default (with notice or lapse of time, or both) under, or give to others any rights of termination, amendment, acceleration or cancellation of, or result in the creation of any Encumbrance on, any of the Shares pursuant to any contract to which the Shareholder is a party or by which the Shareholder or any of the Shareholder's properties (including the Shares) is bound or affected. The execution and delivery of this Agreement by the Shareholder does not, and the performance of this Agreement by the Shareholder will not, require the consent of any third party.

(d) There is (a) no action, suit, proceeding, claim, arbitration or investigation pending before any Governmental Entity or, to the Shareholder's actual knowledge, threatened against, and (b) no judgment, decree or order against, (i) the Shareholder, or (ii) any of (A) the Shareholder's affiliates, (B) the Shareholder's or its affiliates' respective properties, (C) the Shareholder's officers or directors (in the case of a corporate entity (in their capacities as such)), or (D) the Shareholder's respective partners (in the case of a partnership), in the case of each of (i) and (ii) that, individually or in the aggregate, would reasonably be expected to materially delay or impair the Shareholder's ability to consummate the transactions contemplated by this Agreement.

4. *Additional Documents.* The Shareholder hereby agrees to execute and deliver any additional documents necessary or desirable, in the reasonable opinion of the Company, to carry out the intent of this Agreement. If Shareholder is a married person, Shareholder's spouse has executed and delivered to Parent a signature page to this Agreement.

5. *Confidentiality.* The Shareholder shall hold any information regarding this Agreement, the Merger, the Reorganization Agreement and the transactions contemplated thereby, in strict confidence and shall not divulge any such information to any third person until such time as the Merger has been publicly disclosed by the Parent. Neither the Shareholder, nor any of its affiliates shall issue or cause the publication of any press release or other public announcement with respect to this Agreement, the Merger, the Reorganization Agreement or the other transactions contemplated thereby without the prior written consent of the Parent, except as may be required by law or by any listing agreement with, or the policies of, the Nasdaq Stock Market or an applicable national securities exchange in which circumstance such announcing party shall make reasonable efforts to consult with the Parent to the extent practicable.

6. *Termination.* This Agreement shall terminate and shall have no further force or effect after the Expiration Date.

the entire agreement among the parties with respect to the subject matter hereof and supersede all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter hereof and (ii) are not intended to confer, and shall not be construed as conferring, upon any person other than the parties hereto any rights or remedies hereunder. Neither this Agreement nor any of the rights, interests, or obligations under this Agreement may be assigned or delegated, in whole or in part, by operation of law or otherwise, by the Shareholder without the prior written consent of the Company, and any such assignment or delegation that is not consented to shall be null and void. This Agreement, together with any rights, interests or obligations of the Company hereunder, may be assigned or delegated in whole or in part by the Company without the consent of or any action by the Shareholder upon notice by the Company to the Shareholder as herein provided. (g) *Severability.* In the event that any provision of this Agreement, or the application thereof, becomes or is declared by a court of competent jurisdiction to be illegal, void or unenforceable, the remainder of this Agreement shall continue in full force and effect and shall be interpreted so as reasonably to effect the intent of the parties hereto. ESCROW AGREEMENT

THIS ESCROW AGREEMENT (this *Agreement*) is made and entered into as of January 25, 2006, by and among Nanometrics Incorporated, a California corporation (*Parent*), Alloy Merger Corporation, a Delaware corporation and wholly owned subsidiary of Parent (*Merger Sub*), Sanford Wadler, an individual (the *Stockholder Agent*), and U.S Stock Transfer Corporation, a California company (the *Depository Agent*).

RECITALS

A. Parent, Merger Sub, Accent Optical Technologies, Inc., a Delaware corporation (the *Company*), and the Stockholder Agent, have entered into an Agreement and Plan of Merger and Reorganization, of even date herewith (as may be amended from time to time, the *Merger Agreement*), a copy of which is attached hereto as *Exhibit A*, providing, among other things, for the acquisition of the Company by Parent pursuant to the merger of Merger Sub with and into the Company (the *Merger*). Capitalized terms that are used but not defined herein shall have the respective meanings ascribed thereto in Merger Agreement.

B. Pursuant to *Section 1.6(f)* of the Merger Agreement, 490,000 shares of Parent Common Stock (the *Escrow Shares*) are to be delivered to and deposited with the Depository Agent and held in an escrow fund (the *Escrow Fund*) in order to secure the performance of the Company's and the former stockholders of the Company as of the Closing Date of the Merger (*Effective Time Company Stockholders*) indemnification obligations under the Merger Agreement.

C. The Stockholder Agent has been appointed as agent for, and to act on behalf of, the Effective Time Company Stockholders to undertake certain obligations specified in the Merger Agreement.

D. The parties hereto desire to set forth additional terms and conditions relating to the operation of the Escrow Fund.

NOW, THEREFORE, in consideration of the foregoing premises, and the representations, warranties, covenants and other agreements set forth herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and accepted by the parties, and intending to be legally bound hereby, the parties hereto hereby agree as follows:

1. *Escrow Fund.*

(a) On the Closing Date of the Merger, Parent shall deliver the Escrow Shares, without any act of any Effective Time Company Stockholder or the Stockholder Agent, to the Depository Agent. The Depository Agent agrees to accept delivery of the Escrow Shares and to hold such Escrow Shares in escrow subject to the terms and conditions of this Agreement.

(b) The Escrow Fund shall, subject to the terms and conditions of the Merger Agreement and this Agreement, be held as security for the indemnification obligations of the Effective Time Company Stockholders pursuant to *Article IX* of the Merger Agreement. The Escrow Fund shall be held and distributed by the Depository Agent in accordance with the provisions of this Agreement and the Merger Agreement.

2. *Rights and Obligations of the Parties.* The Depository Agent shall be entitled to such rights and shall perform such duties as depository agent as set forth herein (collectively, the *Duties*), in accordance with the provisions of this Agreement. Parent and the Stockholder Agent shall be entitled to their respective rights and shall perform their respective duties and obligations as set forth herein and as set forth in the Merger Agreement, in accordance with the provisions of this Agreement and the Merger Agreement.

3. *Duties of Depositary Agent.*

(a) The Duties of the Depositary Agent shall include the following: the Depositary Agent shall (i) safeguard and treat the Escrow Fund as a trust fund in accordance with the provisions of this Agreement, and shall hold the Escrow Fund in a separate account, apart from any other funds or accounts of the Depositary Agent or any other Person and (ii) hold and dispose of the Escrow Fund only in accordance with the provisions of this Agreement.

(b) Following the Closing, the Duties of the Depositary Agent with respect to the Escrow Shares may be altered, amended, modified or revoked only by a writing signed by the Parent, the Depositary Agent and the Stockholder Agent.

4. *Dividends, Etc.; Voting of Escrow Shares*

(a) *Dividends, Etc.* Any securities distributed in respect of or in exchange for any of the Escrow Shares, whether by way of stock dividends, stock splits or otherwise, shall be delivered to the Depositary Agent, who shall hold such securities in the Escrow Fund on behalf of the Effective Time Company Stockholders. Such securities shall be considered Escrow Shares for purposes hereof. Any cash dividends or property (other than securities) distributed in respect of the Escrow Shares shall promptly be distributed by the Depositary Agent to the Effective Time Company Stockholders in accordance with Section 5(f).

(b) *Voting of Shares.* The Stockholder Agent shall have the right, in his sole discretion, on behalf of the Effective Time Company Stockholders, to direct the Depositary Agent in writing as to the exercise of any voting rights pertaining to the Escrow Shares, and the Depositary Agent shall comply with any such written instructions. In the absence of such instructions, the Depositary Agent shall not vote any of the Escrow Shares. The Stockholder Agent shall have no obligation to solicit consents or proxies from the Effective Time Company Stockholders for purposes of any such vote. The Depositary Agent shall promptly forward to the Stockholder Agent copies of all materials delivered to the Depositary Agent with respect to the Escrow Shares.

(c) *Transferability.* The respective interests of the Effective Time Company Stockholders in the Escrow Shares shall not be assignable or transferable, other than by operation of law. Notice of any such assignment or transfer by operation of law shall be given to the Depositary Agent and the Parent, and no such assignment or transfer shall be valid until such notice is given.

5. *Distribution of Escrow Shares.*

(a) *Distribution by Depositary Agent.* The Depositary Agent shall distribute the Escrow Shares only in accordance with (i) a written instrument delivered to the Depositary Agent that is executed by both Parent and the Stockholder Agent and that instructs the Depositary Agent as to the distribution of some or all of the Escrow Shares, (ii) an order of a court of competent jurisdiction, a copy of which is delivered to the Depositary Agent by either Parent or the Stockholder Agent, that instructs the Depositary Agent as to the distribution of some or all of the Escrow Shares, or (iii) the provisions of Sections 5(b), (c) or (d) hereof.

(b) *Indemnification Claim Procedures Prior to Termination Date.* On or before the first anniversary of the Closing Date of the Merger (the *Termination Date*), Parent may deliver to the Depositary Agent a certificate signed by any officer of Parent (an *Officer's Certificate*):

(i) stating that an indemnified party has paid, suffered, incurred or sustained (or reasonably and in good faith anticipates that it may pay, suffer, incur or sustain) Losses for which such indemnified party is entitled to indemnification pursuant to the Merger Agreement;

(ii) stating the amount of such Losses (which, in the case of Losses not yet paid, suffered, incurred, sustained, may be the maximum amount reasonably anticipated to be so paid, suffered, incurred or sustained);

Table of Contents

(iii) specifying in reasonable detail (based upon the information then possessed by Parent) the individual items of such Losses included in the amount so stated and the nature of the claim for indemnification to which such Losses relate; and

(iv) the specific provisions of the Merger Agreement that form the basis for such claim for indemnification of such Losses.

At the time of delivery of any Officer's Certificate to the Depositary Agent, Parent shall deliver a duplicate copy of such Officer's Certificate to the Stockholder Agent, and for a period of twenty (20) Business Days after such delivery to the Depositary Agent and the Stockholder Agent of such Officer's Certificate, the Depositary Agent shall make no disbursement of Escrow Shares pursuant to this Section 5(b) unless the Depositary Agent shall have received written authorization from the Stockholder Agent to make such delivery or disbursement. After the expiration of such 20-Business Day period, the Depositary Agent shall deliver or disburse Escrow Shares having a value equal to such Losses from the Escrow Fund to Parent in accordance with this Section 5(b); *provided, however*, that no such delivery may be made if and to the extent the Stockholder Agent shall object in a written statement to any claim or claims made in the Officer's Certificate, and such statement shall have been delivered to the Depositary Agent and to Parent prior to the expiration of such 20-Business Day period.

(c) *Distribution to the Stockholder Agent.* On or before the Termination Date, the Stockholder Agent may deliver to Depositary Agent a certificate or certificates (each, a Stockholder Agent Certificate) requesting disbursement of Escrow Shares with an aggregate value of up to \$100,000.

(d) *Value of Escrow Shares.* For the purposes of determining the number of Escrow Shares to be delivered to Parent or the Stockholder Agent, as applicable, out of the Escrow Fund pursuant to Sections 5(b) and (c), the Escrow Shares shall be valued at the average of the closing prices of Parent Common Stock for the ten (10) trading days ending two (2) trading days prior to the time that an Officer's Certificate or Stockholder Agent Certificate is delivered to the Depositary Agent. Parent and the Stockholder Agent shall certify such determined value in a certificate signed by both Parent and the Stockholder Agent, and shall deliver such certificate to the Depositary Agent.

(e) *Distribution Following Termination Date.* Within 20 Business days after the Termination Date, the Depositary Agent shall distribute to the Effective Time Company Stockholders that number of Escrow Shares, if any, then held in escrow less any Escrow Shares to be delivered to the Stockholder Agent pursuant to Section 5(c). Notwithstanding the foregoing, if Parent has previously delivered to the Depositary Agent a copy of an Officers' Certificate and the Depositary Agent has not received written notice of the resolution of the claim covered thereby, the Depositary Agent, upon written instructions received from the Parent and the Stockholder Agent shall retain in escrow after such Termination Date such number of Escrow Shares as have a value (as defined in Section 4) equal to 100% of (i) the Losses covered by such Officers' Certificate or (ii) the estimated amount of Losses set forth in such Officers' Certificate, as the case may be. Any Escrow Shares so retained in escrow shall be distributed only in accordance with the terms of clauses (i) or (ii) of Section 5(a) hereof.

(f) *Method of Distribution.* Any distribution of all or a portion of the Escrow Shares (or cash or other property pursuant to Section 4(a)) to the Effective Time Company Stockholders shall be made by delivery of a check, in the case of a cash payment, other property (as described in Section 4(a)) or stock certificates, as applicable, issued in the name of the Effective Time Company Stockholders, with the distribution to the individual Effective Time Company Stockholders to be determined by multiplying the aggregate cash, other property or Escrow Shares being distributed by the percentages set forth opposite such holders' respective names on *Attachment A* hereto; *provided, however*, that the Depositary Agent shall withhold the distribution of the portion of the cash, other property or Escrow Shares otherwise distributable to an Effective Time Company Stockholder who has not, according to a written notice provided by the Parent to the Depositary Agent and the Stockholder Agent, prior to such distribution, surrendered pursuant to the terms of the Merger Agreement his, her or its stock certificates formerly representing shares of stock of the Company. Any such cash, other property or withheld shares shall be delivered to the Parent promptly after the Termination Date,

and shall be delivered by the Parent to the Effective Time Company Stockholders to whom such cash, other property or shares would have otherwise been distributed upon surrender of their Company Certificates. Distributions to the Effective Time Company Stockholders shall be made by mailing checks, other property or stock certificates, as applicable, to such holders at their respective addresses shown on *Attachment A* (or such other address as may be provided in writing to the Depositary Agent by any such holder). No fractional Escrow Shares shall be distributed to Effective Time Company Stockholders pursuant to this Agreement. Instead, the number of shares that each Effective Time Company Stockholder shall receive shall be rounded up or down to the nearest whole number (provided that the Stockholder Agent shall have the authority to effect such rounding in such a manner that the total number of whole Escrow Shares to be distributed equals the number of Escrow Shares then being distributed).

6. Exculpatory Provisions.

(a) The Depositary Agent shall be obligated only for the performance of such Duties as are specifically set forth herein and may rely and shall be protected in relying or refraining from acting on any instrument reasonably believed to be genuine and to have been signed or presented by the proper party or parties. The Depositary Agent shall not be liable for forgeries or false impersonations. The Depositary Agent shall not be liable for any act done or omitted hereunder as depositary agent except for gross negligence, willful misconduct or breach of this Agreement. The Depositary Agent shall in no case or event be liable for any representations or warranties of the Company for punitive, incidental or consequential damages. Any act done or omitted pursuant to the advice or opinion of counsel shall be conclusive evidence of the good faith of the Depositary Agent.

(b) In the event of a dispute between the parties hereto, the Depositary Agent is hereby expressly authorized to disregard any and all notifications given by any of the parties hereto or by any other person, excepting only memoranda of agreement signed by both Parent and the Stockholder Agent and orders or process of courts of law to which the Depositary Agent shall be entitled to conclusively rely and shall distribute the Escrow Fund in accordance with the terms thereof, and is hereby expressly authorized to comply with and obey orders, judgments or decrees of any court. In case the Depositary Agent obeys or complies with any such order, judgment or decree of any court, the Depositary Agent shall not be liable to any of the parties hereto or to any other person by reason of such compliance, notwithstanding any such order, judgment, or decree being subsequently reversed, modified, annulled, set aside, vacated or found to have been entered without jurisdiction.

(c) The Depositary Agent shall not be liable in any respect on account of the identity, authority or rights of the other parties executing or delivering or purporting to execute or deliver the Merger Agreement, this Agreement or any documents or papers deposited or called for thereunder or hereunder.

(d) The Depositary Agent shall not be liable for the outlawing of any rights under any statute of limitations with respect to the Merger Agreement, this Agreement or any documents deposited with the Depositary Agent.

7. Resignation and Removal of the Depositary Agent. The Depositary Agent may resign as Depositary Agent at any time with or without cause, with respect to the Escrow Fund by giving at least thirty (30) calendar days prior written notice to each of Parent and the Stockholder Agent, such resignation to be effective thirty (30) calendar days following the date such notice is given. In addition, Parent and the Stockholder Agent may jointly remove the Depositary Agent as depositary agent at any time with or without cause, by an instrument executed by Parent and the Stockholder Agent (which may be executed in counterparts) given to the Depositary Agent, which instrument shall designate the effective date of such removal. In the event of any such resignation or removal, a successor depositary agent, which shall be a bank or trust company organized under the laws of the United States of America or of the State of California having (or if such bank or trust company is a member of a bank company, its bank holding company shall have) a combined capital and surplus of not less than \$50,000,000, shall be appointed by Parent on the terms of this Agreement with the written approval of the Stockholder Agent, which approval shall not be unreasonably withheld or delayed. Any such successor

depository agent shall deliver to Parent and the Stockholder Agent, a written instrument accepting such appointment, and thereupon it shall succeed to all the rights and duties of the depository agent hereunder and shall be entitled to receive possession of the Escrow Fund. Upon receipt of the identity of the successor Depository Agent, the Depository Agent shall deliver the Escrow Fund then held hereunder to the successor Depository Agent.

8. *Fees.* Parent shall pay the Depository Agent such fees as are established by the Fee Schedule attached hereto as *Exhibit B*.

9. *Further Instruments.* If the Depository Agent reasonably requires other or further instruments in connection with its performance of the Duties, the necessary parties hereto shall join in furnishing such instruments.

10. *Disputes.* It is understood and agreed that should any dispute arise with respect to the delivery and/or ownership or right of possession of the cash and/or other property held by the Depository Agent hereunder, the Depository Agent is authorized and directed to act in accordance with, and in reliance upon, the provisions of this Agreement.

11. *Indemnification.* In consideration of the Depository Agent's acceptance of this appointment, Parent, Merger Sub and the Stockholder Agent, on behalf of the Effective Time Company Stockholders and not individually, jointly and severally, agree to indemnify and hold the Depository Agent harmless as to any liability incurred by it to any person, firm or corporation by reason of its having accepted such appointment or in carrying out the provisions of this Agreement, and to reimburse the Depository Agent for all its costs and expenses (including, without limitation, counsel fees and expenses) reasonably incurred by reason of any matter as to which such indemnity is paid pursuant to this *Section 11*; *provided, however*, that no indemnity need be paid in case of the Depository Agent's gross negligence, willful misconduct or breach of this Agreement.

12. *General.*

(a) *Notice.* All notices, demands and other communications required or permitted hereunder shall be in writing and may be telexed or faxed, which shall be followed forthwith by letter, and such notice, request, demand or other communication shall be deemed to have been received on the next business day following dispatch and acknowledgement of receipt by the recipient's telex or fax machine. In addition, notices hereunder may be delivered by hand, in which event the notice shall be deemed effective when delivered, or by overnight courier, in which event the notice shall be deemed to have been received on the next business day following delivery to such courier. All remedies, either under this Agreement or by law or otherwise afforded, will be cumulative and not alternative.

(d) *No Assignment; Binding Effect.* Neither this Agreement nor any right, interest or obligation hereunder may be assigned (by operation of Law or otherwise) by any party without the prior written consent of the other parties and any attempt to do so will be void; provided, however, that the Stockholder Agent may assign this Agreement to his successor without the prior written consent of the other parties. Subject to the preceding sentence, this Agreement is binding upon, inures to the benefit of and is enforceable by the parties hereto and their respective successors and assigns.

(e) *Headings*. The headings and table of contents used in this Agreement have been inserted for convenience of reference only and do not define or limit the provisions hereof.

(f) *Invalid Provisions*. If any provision of this Agreement is held to be illegal, invalid or unenforceable under any present or future Law, and if the rights or obligations of any party hereto under this Agreement will not be materially and adversely affected thereby, (i) such provision will be fully severable, (ii) this Agreement will be construed and enforced as if such illegal, invalid or unenforceable provision had never comprised a part hereof, (iii) the remaining provisions of this Agreement will remain in full force and effect and will not be affected by the illegal, invalid or unenforceable provision or by its severance herefrom and (iv) in lieu of such illegal, invalid or unenforceable provision, there will be added automatically as a part of this Agreement a legal, valid and enforceable provision as similar in terms to such illegal, invalid or unenforceable provision as may be possible.

(g) *Governing Law*. This Agreement shall be governed by and construed in accordance with the domestic laws of the State of Delaware, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of Delaware.

(h) *Construction*. The parties hereto agree that this Agreement is the product of negotiation between sophisticated parties and individuals, all of who were represented by counsel, and each of who had an opportunity to participate in and did participate in the drafting of each provision hereof. Accordingly, ambiguities in this Agreement, if any, shall not be construed strictly or in favor of or against any party hereto but rather shall be given a fair and reasonable construction without regard to the rule of *contra proferentem*.

(i) *Counterparts*. This Agreement may be executed in any number of counterparts, each of which when so executed shall constitute an original copy hereof, but all of which together shall constitute one instrument. Any counterpart may be executed and delivered by means of a facsimile or other electronic transmission.

(j) *Specific Performance*. The parties hereto agree that irreparable damage would occur in the event that any of the provisions of this Agreement were not performed in accordance with its specific terms or were otherwise breached. It is agreed that the parties shall be entitled to an injunction or injunctions to prevent breaches of this Agreement and to enforce specifically the terms and provisions hereof in any court of the United States or any state having jurisdiction, this being in addition to any other remedy to which they are entitled at law or in equity.

13. *Tax Reporting Matters*. Within 30 calendar days of the Closing Date, Parent and the Effective Time Company Stockholders each agree to provide the Depository Agent with appropriate Forms W-9 (or Forms W-8, in the case of non-U.S. persons) and other forms and documents to the Depository Agent that the Depository Agent may reasonably request (collectively, *Tax Reporting Documentation*). The parties hereto understand that, if such Tax Reporting Documentation is not so certified to the Depository Agent, the Depository Agent may be required by the Internal Revenue Code of 1986, as amended, to withhold a portion of any payments made to the Effective Time Company Stockholders pursuant to this Agreement.

14. *Patriot Act Compliance*. To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. For a non-individual person such as a business entity, a charity, a trust or other legal entity the Depository Agent will ask for documentation to verify its formation and existence as a legal entity. The Depository Agent may also ask to see financial statements, licenses, identification and authorization documents from individuals claiming authority to represent the entity or other relevant documentation. Parent and the Stockholder Agent each agree to provide all such information and documentation as to themselves as requested by Depository Agent to ensure compliance with federal law.

If to the Company:

Attn: Larry Hong, Human Resources Manager

If to Executive:

12. **Effective Date.** The Closing Date (as defined in the Merger Agreement) will be the Effective Date of this Agreement and this Agreement will be null and void and have no effect unless the Merger contemplated by the Merger Agreement is consummated.

13. **Severability.** In the event that any provision hereof becomes or is declared by a court of competent jurisdiction to be illegal, unenforceable or void, this Agreement will continue in full force and effect without said provision.

14. **Waiver of Breach.** The waiver of a breach of any term or provision of this Agreement, which must be in writing, will not operate as or be construed to be a waiver of any other previous or subsequent breach of this Agreement.

15. **Arbitration.**

(a) **General.** In consideration of Executive's service to the Company, its promise to arbitrate all employment related disputes and Executive's receipt of the compensation, pay raises and other benefits paid to Executive by the Company, at present and in the future, Executive agrees that any and all controversies, claims, or disputes with anyone (including the Company and any employee, officer, director, shareholder or benefit plan

of the Company in their capacity as such or otherwise) arising out of, relating to, or resulting from Executive's service to the Company under this Agreement or otherwise or the termination of Executive's service with the Company, including any breach of this Agreement, shall be subject to binding arbitration under the Arbitration Rules set forth in California Code of Civil Procedure Section 1280 through 1294.2, including Section 1283.05 (the Rules) and pursuant to California law. Disputes which Executive agrees to arbitrate, and thereby agrees to waive any right to a trial by jury, include any statutory claims under state or federal law, including, but not limited to, claims under Title VII of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, the Age Discrimination in Employment Act of 1967, the Older Workers Benefit Protection Act, the California Fair Employment and Housing Act, the California Labor Code, claims of harassment, discrimination or wrongful termination and any statutory claims. Executive further understands that this Agreement to arbitrate also applies to any disputes that the Company may have with Executive.

(b) **Procedure.** Executive agrees that any arbitration will be administered by the American Arbitration Association (AAA) and that a neutral arbitrator will be selected in a manner consistent with its National Rules for the Resolution of Employment Disputes. The arbitration proceedings will allow for discovery according to the rules set forth in the *National Rules for the Resolution of Employment Disputes or California Code of Civil Procedure*. Executive agrees that the arbitrator shall have the power to decide any motions brought by any party to the arbitration, including motions for summary judgment and/or adjudication and motions to dismiss and demurrers, prior to any arbitration hearing. Executive agrees that the arbitrator shall issue a written decision on the merits. Executive also agrees that the arbitrator shall have the power to award any remedies, including attorneys' fees and costs, available under applicable law. Executive understands the Company will pay for any administrative or hearing fees charged by the arbitrator or AAA except that Executive shall pay the first \$200.00 of any filing fees associated with any arbitration Executive initiates. Executive agrees that the arbitrator shall administer and conduct any arbitration in a manner consistent with the Rules and that to the extent that the AAA's National Rules for the Resolution of Employment Disputes conflict with the Rules, the Rules shall take precedence.

(c) **Remedy.** Except as provided by the Rules, arbitration shall be the sole, exclusive and final remedy for any dispute between Executive and the Company. Accordingly, except as provided for by the Rules, neither Executive nor the Company will be permitted to pursue court action regarding claims that are subject to arbitration. Notwithstanding, the arbitrator will not have the authority to disregard or refuse to enforce any lawful Company policy, and the arbitrator shall not order or require the Company to adopt a policy not otherwise required by law which the Company has not adopted.

(d) **Availability of Injunctive Relief.** In addition to the right under the Rules to petition the court for provisional relief, Executive agrees that any party may also petition the court for injunctive relief where either party alleges or claims a violation of this Agreement or the Confidentiality Agreement or any other agreement regarding trade secrets, confidential information, nonsolicitation or Labor Code §2870. In the event either party seeks injunctive relief, the prevailing party shall be entitled to recover reasonable costs and attorneys' fees.

(e) **Administrative Relief.** Executive understands that this Agreement does not prohibit Executive from pursuing an administrative claim with a local, state or federal administrative body such as the Department of Fair Employment and Housing, the Equal Employment Opportunity Commission or the workers' compensation board. This Agreement does, however, preclude Executive from pursuing court action regarding any such claim.

(f) **Voluntary Nature of Agreement.** Executive acknowledges and agrees that Executive is executing this Agreement voluntarily and without any duress or undue influence by the Company or anyone else. Executive further acknowledges and agrees that Executive has carefully read this Agreement and that Executive has asked any questions needed for Executive to understand the terms, consequences and binding effect of this Agreement and fully understand it, including that Executive is waiving Executive's right to a jury trial. Finally, Executive agrees that Executive has been provided an opportunity to seek the advice of an attorney of Executive's choice before signing this Agreement.

Annex H

SECTION 262 OF THE DELAWARE GENERAL CORPORATION LAW

RIGHTS OF DISSENTING STOCKHOLDERS

SECTION 262. APPRAISAL RIGHTS.

(a) Any stockholder of a corporation of this State who holds shares of stock on the date of the making of a demand pursuant to subsection (d) of this section with respect to such shares, who continuously holds such shares through the effective date of the merger or consolidation, who has otherwise complied with subsection (d) of this section and who has neither voted in favor of the merger or consolidation nor consented thereto in writing pursuant to § 228 of this title shall be entitled to an appraisal by the Court of Chancery of the fair value of the stockholder's shares of stock under the circumstances described in subsections (b) and (c) of this section. As used in this section, the word "stockholder" means a holder of record of stock in a stock corporation and also a member of record of a nonstock corporation; the words "stock" and "share" mean and include what is ordinarily meant by those words and also membership or membership interest of a member of a nonstock corporation; and the words "depository receipt" mean a receipt or other instrument issued by a depository representing an interest in one or more shares, or fractions thereof, solely of stock of a corporation, which stock is deposited with the depository.

(b) Appraisal rights shall be available for the shares of any class or Series of stock of a constituent corporation in a merger or consolidation to be effected pursuant to § 251 (other than a merger effected pursuant to § 251(g) of this title), § 252, § 254, § 257, §258, § 263 or § 264 of this title:

(1) Provided, however, that no appraisal rights under this section shall be available for the shares of any class or Series of stock, which stock, or depository receipts in respect thereof, at the record date fixed to determine the stockholders entitled to receive notice of and to vote at the meeting of stockholders to act upon the agreement of merger or consolidation, were either (i) listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or (ii) held of record by more than 2,000 holders; and further provided that no appraisal rights shall be available for any shares of stock of the constituent corporation surviving a merger if the merger did not require for its approval the vote of the stockholders of the surviving corporation as provided in subsection (f) of § 251 of this title.

(2) Notwithstanding paragraph (1) of this subsection, appraisal rights under this section shall be available for the shares of any class or Series of stock of a constituent corporation if the holders thereof are required by the terms of an agreement of merger or consolidation pursuant to §§ 251, 252, 254, 257, 258, 263 and 264 of this title to accept for such stock anything except:

- a. Shares of stock of the corporation surviving or resulting from such merger or consolidation, or depository receipts in respect thereof;
- b. Shares of stock of any other corporation, or depository receipts in respect thereof, which shares of stock (or depository receipts in respect thereof) or depository receipts at the effective date of the merger or consolidation will be either listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or held of record by more than 2,000 holders;
- c. Cash in lieu of fractional shares or fractional depository receipts described in the foregoing subparagraphs a. and b. of this paragraph; or
- d. Any combination of the shares of stock, depository receipts and cash in lieu of fractional shares or fractional depository receipts described in the foregoing subparagraphs a., b. and c. of this paragraph.

(3) In the event all of the stock of a subsidiary Delaware corporation party to a merger effected under § 253 of this title is not owned by the parent corporation immediately prior to the merger, appraisal rights shall be available for the shares of the subsidiary Delaware corporation.

Table of Contents

(c) Any corporation may provide in its certificate of incorporation that appraisal rights under this section shall be available for the shares of any class or Series of its stock as a result of an amendment to its certificate of incorporation, any merger or consolidation in which the corporation is a constituent corporation or the sale of all or substantially all of the assets of the corporation. If the certificate of incorporation contains such a provision, the procedures of this section, including those set forth in subsections (d) and (e) of this section, shall apply as nearly as is practicable.

(d) Appraisal rights shall be perfected as follows:

(1) If a proposed merger or consolidation for which appraisal rights are provided under this section is to be submitted for approval at a meeting of stockholders, the corporation, not less than 20 days prior to the meeting, shall notify each of its stockholders who was such on the record date for such meeting with respect to shares for which appraisal rights are available pursuant to subsection (b) or (c) hereof that appraisal rights are available for any or all of the shares of the constituent corporations, and shall include in such notice a copy of this section. Each stockholder electing to demand the appraisal of such stockholder's shares shall deliver to the corporation, before the taking of the vote on the merger or consolidation, a written demand for appraisal of such stockholder's shares. Such demand will be sufficient if it reasonably informs the corporation of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of such stockholder's shares. A proxy or vote against the merger or consolidation shall not constitute such a demand. A stockholder electing to take such action must do so by a separate written demand as herein provided. Within 10 days after the effective date of such merger or consolidation, the surviving or resulting corporation shall notify each stockholder of each constituent corporation who has complied with this subsection and has not voted in favor of or consented to the merger or consolidation of the date that the merger or consolidation has become effective; or

(2) If the merger or consolidation was approved pursuant to § 228 or § 253 of this title, then, either a constituent corporation before the effective date of the merger or consolidation, or the surviving or resulting corporation within 10 days thereafter, shall notify each of the holders of any class or Series of stock of such constituent corporation who are entitled to appraisal rights of the approval of the merger or consolidation and that appraisal rights are available for any or all shares of such class or Series of stock of such constituent corporation, and shall include in such notice a copy of this section. Such notice may, and, if given on or after the effective date of the merger or consolidation, shall, also notify such stockholders of the effective date of the merger or consolidation. Any stockholder entitled to appraisal rights may, within 20 days after the date of mailing of such notice, demand in writing from the surviving or resulting corporation the appraisal of such holder's shares. Such demand will be sufficient if it reasonably informs the corporation of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of such holder's shares. If such notice did not notify stockholders of the effective date of the merger or consolidation, either (i) each such constituent corporation shall send a second notice before the effective date of the merger or consolidation notifying each of the holders of any class or Series of stock of such constituent corporation that are entitled to appraisal rights of the effective date of the merger or consolidation or (ii) the surviving or resulting corporation shall send such a second notice to all such holders on or within 10 days after such effective date; provided, however, that if such second notice is sent more than 20 days following the sending of the first notice, such second notice need only be sent to each stockholder who is entitled to appraisal rights and who has demanded appraisal of such holder's shares in accordance with this subsection. An affidavit of the secretary or assistant secretary or of the transfer agent of the corporation that is required to give either notice that such notice has been given shall, in the absence of fraud, be prima facie evidence of the facts stated therein. For purposes of determining the stockholders entitled to receive either notice, each constituent corporation may fix, in advance, a record date that shall be not more than 10 days prior to the date the notice is given, provided, that if the notice is given on or after the effective date of the merger or consolidation, the record date shall be such effective date. If no record date is fixed and the notice is given prior to the effective date, the record date shall be the close of business on the day next preceding the day on which the notice is given.

Table of Contents

(e) Within 120 days after the effective date of the merger or consolidation, the surviving or resulting corporation or any stockholder who has complied with subsections (a) and (d) hereof and who is otherwise entitled to appraisal rights, may file a petition in the Court of Chancery demanding a determination of the value of the stock of all such stockholders. Notwithstanding the foregoing, at any time within 60 days after the effective date of the merger or consolidation, any stockholder shall have the right to withdraw such stockholder's demand for appraisal and to accept the terms offered upon the merger or consolidation. Within 120 days after the effective date of the merger or consolidation, any stockholder who has complied with the requirements of subsections (a) and (d) hereof, upon written request, shall be entitled to receive from the corporation surviving the merger or resulting from the consolidation a statement setting forth the aggregate number of shares not voted in favor of the merger or consolidation and with respect to which demands for appraisal have been received and the aggregate number of holders of such shares. Such written statement shall be mailed to the stockholder within 10 days after such stockholder's written request for such a statement is received by the surviving or resulting corporation or within 10 days after expiration of the period for delivery of demands for appraisal under subsection (d) hereof, whichever is later.

(f) Upon the filing of any such petition by a stockholder, service of a copy thereof shall be made upon the surviving or resulting corporation, which shall within 20 days after such service file in the office of the Register in Chancery in which the petition was filed a duly verified list containing the names and addresses of all stockholders who have demanded payment for their shares and with whom agreements as to the value of their shares have not been reached by the surviving or resulting corporation. If the petition shall be filed by the surviving or resulting corporation, the petition shall be accompanied by such a duly verified list. The Register in Chancery, if so ordered by the Court, shall give notice of the time and place fixed for the hearing of such petition by registered or certified mail to the surviving or resulting corporation and to the stockholders shown on the list at the addresses therein stated. Such notice shall also be given by 1 or more publications at least 1 week before the day of the hearing, in a newspaper of general circulation published in the City of Wilmington, Delaware or such publication as the Court deems advisable. The forms of the notices by mail and by publication shall be approved by the Court, and the costs thereof shall be borne by the surviving or resulting corporation.

(g) At the hearing on such petition, the Court shall determine the stockholders who have complied with this section and who have become entitled to appraisal rights. The Court may require the stockholders who have demanded an appraisal for their shares and who hold stock represented by certificates to submit their certificates of stock to the Register in Chancery for notation thereon of the pendency of the appraisal proceedings; and if any stockholder fails to comply with such direction, the Court may dismiss the proceedings as to such stockholder.

(h) After determining the stockholders entitled to an appraisal, the Court shall appraise the shares, determining their fair value exclusive of any element of value arising from the accomplishment or expectation of the merger or consolidation, together with a fair rate of interest, if any, to be paid upon the amount determined to be the fair value. In determining such fair value, the Court shall take into account all relevant factors. In determining the fair rate of interest, the Court may consider all relevant factors, including the rate of interest which the surviving or resulting corporation would have had to pay to borrow money during the pendency of the proceeding. Upon application by the surviving or resulting corporation or by any stockholder entitled to participate in the appraisal proceeding, the Court may, in its discretion, permit discovery or other pretrial proceedings and may proceed to trial upon the appraisal prior to the final determination of the stockholder entitled to an appraisal. Any stockholder whose name appears on the list filed by the surviving or resulting corporation pursuant to subsection (f) of this section and who has submitted such stockholder's certificates of stock to the Register in Chancery, if such is required, may participate fully in all proceedings until it is finally determined that such stockholder is not entitled to appraisal rights under this section.

(i) The Court shall direct the payment of the fair value of the shares, together with interest, if any, by the surviving or resulting corporation to the stockholders entitled thereto. Interest may be simple or compound, as the Court may direct. Payment shall be so made to each such stockholder, in the case of holders of uncertificated stock forthwith, and the case of holders of shares represented by certificates upon the surrender to the corporation

Table of Contents

of the certificates representing such stock. The Court's decree may be enforced as other decrees in the Court of Chancery may be enforced, whether such surviving or resulting corporation be a corporation of this State or of any state.

(j) The costs of the proceeding may be determined by the Court and taxed upon the parties as the Court deems equitable in the circumstances. Upon application of a stockholder, the Court may order all or a portion of the expenses incurred by any stockholder in connection with the appraisal proceeding, including, without limitation, reasonable attorney's fees and the fees and expenses of experts, to be charged pro rata against the value of all the shares entitled to an appraisal.

(k) From and after the effective date of the merger or consolidation, no stockholder who has demanded appraisal rights as provided in subsection (d) of this section shall be entitled to vote such stock for any purpose or to receive payment of dividends or other distributions on the stock (except dividends or other distributions payable to stockholders of record at a date which is prior to the effective date of the merger or consolidation); provided, however, that if no petition for an appraisal shall be filed within the time provided in subsection (e) of this section, or if such stockholder shall deliver to the surviving or resulting corporation a written withdrawal of such stockholder's demand for an appraisal and an acceptance of the merger or consolidation, either within 60 days after the effective date of the merger or consolidation as provided in subsection (e) of this section or thereafter with the written approval of the corporation, then the right of such stockholder to an appraisal shall cease. Notwithstanding the foregoing, no appraisal proceeding in the Court of Chancery shall be dismissed as to any stockholder without the approval of the Court, and such approval may be conditioned upon such terms as the Court deems just.

(l) The shares of the surviving or resulting corporation to which the shares of such objecting stockholders would have been converted had they assented to the merger or consolidation shall have the status of authorized and unissued shares of the surviving or resulting corporation. (Last amended by Ch. 82, L. 01, eff. 7-1-01.)

Item 22. Undertakings

(1) The undersigned registrant hereby undertakes as follows: that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.

(2) The registrant undertakes that every prospectus (i) that is filed pursuant to paragraph (i) immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Securities Act of 1933 (the "Act"), and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(4) Insofar as indemnification for liabilities arising under the Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions hereof, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the

question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(5) The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11 or 13 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(6) The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

(7) The undersigned registrant hereby undertakes:

(A) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) under the Act if, in the aggregate, the changes in amount and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (A)(i) and (A)(ii) do not apply if the registration statement is on Form S-3, Form S-8 or Form F-3, and the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference into the registration statement.

(B) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(C) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
