### **USE OF PROCEEDS**

We will not receive any of the proceeds from the sale of the common shares.

### **UNDERWRITING**

BMO Capital Markets Corp. is acting as the sole underwriter of the offering. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, the underwriter has agreed to purchase from the selling shareholders, and the selling shareholders have agreed, severally and not jointly, to sell to the underwriter, an aggregate of 5,080,532 common shares.

The underwriting agreement provides that the obligations of the underwriter to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriter is obligated to purchase all the shares if it purchases any of the shares.

The underwriter proposes to offer the common shares from time to time for sale in the United States in one or more transactions on The Nasdaq Stock Market, in the over-the-counter market, through negotiated transactions or otherwise, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. In connection with the sale of common shares offered hereby, the underwriter may be deemed to have received compensation in the form of underwriting discounts. The underwriter may effect such transactions by selling common shares to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and/or purchasers of the common shares for whom they may act as agents or to whom they may sell as principal.

### **Expenses**

The selling shareholders have agreed to pay all of the expenses in connection with this offering.

### **Indemnification**

We and the selling shareholders have agreed to indemnify the underwriter against liabilities under the Securities Act, or contribute to payments that the underwriter may be required to make in that respect.

### **Stabilization Transactions**

In connection with this offering the underwriter may engage in stabilizing transactions, over-allotment transactions, covering transactions and passive market making in accordance with Regulation M under the Securities Exchange Act of 1934.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriter of shares in excess of the number of shares the underwriter is obligated to purchase, which creates a short position. Covering transactions involve purchases of the common shares in the open market after the distribution has been completed in order to cover short positions. If the underwriter sells more shares than the underwriter is obligated to purchase, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriter is concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

In passive market making, market makers in the common shares who are underwriters or prospective underwriters may, subject to limitations, make bids for or purchases of our common shares until the time, if any, at which a stabilizing bid is made.

## **Table of Contents**

These stabilizing transactions and covering transactions may have the effect of raising or maintaining the market price of our common shares or preventing or retarding a decline in the market price of the common shares. As a result the price of our common shares may be higher than the price that might otherwise exist in the open market. These transactions may be effected on The Nasdaq Stock Market or otherwise and, if commenced, may be discontinued at any time.

## **Electronic Distribution**

A prospectus in electronic format may be made available on the Internet sites or through other online services maintained by the underwriter or by its affiliates. In those cases, prospective investors may view offering terms online and, depending upon the particular underwriter, prospective investors may be allowed to place orders online. The underwriter may agree with us to allocate a specific number of shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriter on the same basis as other allocations.

Other than the prospectus in electronic format, the information on the underwriter's website and any information contained in any other website maintained by the underwriter is not part of the prospectus or the registration statement of which the prospectus forms a part, has not been approved and/or endorsed by us or the underwriter in its capacity as underwriter and should not be relied upon by investors.

## **Relationships**

From time to time, BMO Capital Markets Corp. and its affiliates have, directly or indirectly, provided investment and commercial banking or financial advisory services to us for which they have received customary fees and commissions, and expect to provide these services to us and others in the future, for which they expect to receive customary fees and commissions.
