Addition to The Company

Recent Developments

We have learned that the Brazilian Association for the Defense of Consumers Health (Saudecon) filed a national class action against Philip Morris Brasil S.A., or PMB, our wholly-owned subsidiary, and Souza Cruz S.A. before the 15th Civil Court of the City of Porto Alegre, Brazil. Plaintiff purports to represent Brazilian smokers who allegedly are unable to quit smoking and who lack access to cessation treatment medication. Plaintiff claims that defendants have a duty to provide cessation treatment assistance to these smokers. Plaintiff is seeking unspecified monetary relief in order to set up a public fund to purchase cessation medication necessary to treat these smokers for a period of at least two years. Plaintiff asks that defendants' liability be established according to their market share. PMB has not yet been served with this complaint.

Separately, we have just learned of a development in Brazil in *The Smoker Health Defense Association (ADESF) v. Souza Cruz, S.A. and Philip Morris Marketing S.A.* case. This case is disclosed at page 25 of our recent Form 10-Q filed on November 7, 2008. The Sao Paulo Court of Appeals, in a 3-0 decision, today declared the trial court's decision in favor of plaintiff null and void, and sent the case back to the trial court for further adjudication.
