Notes to the Consolidated Financial Statements

For the fiscal years beginning on July 1, 2010 and 2009

and ended June 30, 2010 and 2009

(in thousands of pesos)

Free translation from the original prepared in Spanish for the publication in Argentina

NOTE 1: BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

a) Basis of consolidation

The company consolidated on a line by line basis the Balance Sheet as of September 30, 2010 and 2009 and the Statements of Income and the Statements of Cash Flows for the periods ended as of September 30, 2010 and 2009 with the financial statements of subsidiaries, following procedures established by Technical Resolution No. 21 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE), approved by Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires and Comisión Nacional de Valores.

Significant transactions and balances with subsidiaries have been eliminated from the consolidation.

During the semester ended December 31, 2008, Cresud Sociedad Anónima Comercial, Inmobiliaria, Financiera y Agropecuaria and Subsidiaries (Cresud , or the Entity or the Company) acquired directly and indirectly 68,712,008 additional shares of IRSA Inversiones y Representaciones Sociedad Anónima (IRSA). Thus, the Company s direct and indirect interest in IRSA through its affiliates amounted to 54.01%, therefore, from October 1, 2008, the Company began to consolidate the financial statements of IRSA in accordance with Technical Resolution No. 21.

The financial statements as of September 30, 2010 and 2009 of the subsidiary companies Northagro S.A. (Northagro), Futuros y Opciones.Com S.A. (FyO.Com), Agrotech S.A. (Agrotech), Pluriagro S.A. (Pluriagro), FyO Trading S.A. (FyO Trading), Agrology S.A. and IRSA have been used in order to determine line by line consolidation.

These Financial Statements and the corresponding notes are presented in thousand of Argentine Pesos.

On September 13, 2010, APSA sold its 80% interest in Tarshop S.A. Consequently, the unaudited consolidated balance sheet as of this closing does not include Tarshop and the unaudited statements of income and the unaudited statement of cash flows include such company only for the two-month period when Alto Palermo S.A. (APSA) held control over it. Therefore, the compatibility of consolidated financial statements is affected.

For the purpose of the valuation of the investment in IRSA, adjustments necessary to adequate the financial statements to the professional accounting standards have been considered.

In accordance with the regulations of the BCRA, there are certain restrictions on the distribution of profits by Banco Hipotecario S.A. to IRSA.

Tyrus S.A. and Torodur S. A.:

Uruguay-based Tyrus S.A. and Torodur S.A. have been classified as not integrated into the IRSA's operations in relation to its subsidiaries whose operations are carried out fully abroad. Undeveloped parcels of lands:

IRSA acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. IRSA's strategy for land acquisition and development is dictated by specific market conditions where IRSA conducts its operations.

Land held for development and sale and improvements are stated at cost restated as mentioned in Note 1.b. to the basic financial statements or market value, whichever is lower.

Land and land improvements are transferred to inventories or fixed assets when construction commences or their trade is decided.

The values thus obtained, do not exceed their respective estimated recoverable values at the end of the period/year.

d) Business combinations

Real Estate Business

Significant entities on net asset acquired by the Company were recorded in line with the purchased method set forth in Technical Resolution No. 18. and Technical Resolution No. 21. All assets and liabilities acquired to third independent parties were adjusted to show their fair value. IRSA identified the assets and liabilities acquired including intangible assets such as: lease agreements acquired for prices and terms that are either higher or lower than in the market; costs of executing and delivering the lease agreements in force (costs that IRSA avoids incurring as a result of acquiring effective lease agreements); the value of acquired brands, the value of any deposits associated to the investment and the intangible value inherent in customer relations.

The process of identification and the determination of the purchased price paid is a matter that requires complex judgments and significant estimates.

IRSA uses the information contained in valuations estimated by independent appraisers as primary base for assigning the price paid for the land, the building and the shopping centers. The amounts assigned to all the other assets and liabilities are based on independent valuations or on the IRSA's own analysis on comparable assets and liabilities. The current value of tangible assets acquired considers the property value as if it was empty.

If the price paid is larger than the value of tangible and intangible assets and liabilities as identified, the excess is considered to be goodwill.

The allowance for losses is recognized when, based on current information and events, it is probable that IRSA will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a one-by-one basis considering the present value of expected future cash flows.

Edgar Filing: CRESUD INC - Form 6-K

While Management uses the information available to make assessments, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. NOTE 3: (continued)

For impairment of assets: IRSA regularly assesses its non-current assets for recoverability at the end of every period.

IRSA has estimated the recoverable value of rental properties based on their economic use value, which is determined based on estimated future cash flows discounted. For the rest of the assets (inventories and undeveloped parcels of land) IRSA makes a comparison with market values based on values of comparable properties. If the recoverable value of assets, which had been impaired in prior years, increases, IRSA records the corresponding reversals of impairment loss as required by accounting standards.

For lawsuits: IRSA has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor issues. IRSA accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, IRSA's estimates of the outcomes of these matters and IRSA's lawyers' experience in contesting, litigating and settling other matters.

As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have an effect on IRSA's future results of operations and financial condition or liquidity.

At the date of issuance of these financial statements, IRSA's Management understands that there are no elements to foresee other potential contingencies having a negative impact on these financial statements.

j) **Liabilities in kind related to barter transactions**

Real Estate Business

Liabilities in kind corresponding to obligations to deliver units to be built are valued considering the cost of the assets received or the cost of construction of the units to deliver plus necessary additional costs to transfer the assets to the creditor, the major. k) Revenue recognition

Real Estate Business

1) Revenue recognition of IRSA

Sales of properties

IRSA records revenue from the sale of properties when all of the following criteria are met:

The sale has been consummated.

There is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property.

The Company's receivable is not subject to future subordination.

The Company has transferred the property to the buyer.

IRSA uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. IRSA does not commence gain or loss such time as the decision to proceed with the project is made and construction activities have begun. The percentage-of-completion method of accounting requires the IRSA's Management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

Revenues from leases

Revenues from leases are recognized on a straight line basis over the life of the related lease contracts.

Hotel operations

IRSA recognizes revenues from its rooms, catering and restaurant facilities as accrued on the close of each business day.

Net operating results from each business unit are disclosed in Note 5.

2) Revenue recognition of Alto Palermo S.A. (APSA)

Revenues for admission rights and rental of stores and stands

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of (i) a monthly base rent (the Base Rent) and (ii) a specified percentage of the tenant's monthly revenues (the Percentage Rent) (which generally ranges between 4% and 10% of tenant's gross revenues).

Furthermore, pursuant to the rent escalation clause in most leases, the tenant's Base Rent generally increases between 7% and 12% each year during the term of the lease. Minimum rental income is recognized following on the accrued criteria.

Certain lease agreements contain provisions, which provide for rents based on a percentage of revenues or based on a percentage of revenues volume above a specified threshold. APSA determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, APSA's lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six months, upon not less than 60 days' written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds after the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

Additionally, APSA charges its tenants monthly administration fees related to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations. The administration fees are prorated among the tenants according to their leases which vary from shopping center to shopping center. Administration fees are recognized monthly when earned.

In addition to rent, tenants are generally charged admission rights, a non refundable admission fee, that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized in earnings using the straight-line method over the life of the respective lease agreements.

Commissions are recognized at the time the merchants' transactions are processed, while the rest financial income is recognized when accrued. Income generated from granting consumer loans mainly includes financial interests, which are recognized by the accrued method during the period whether collection has or has not been made.

Lease agent operations

Fibesa S.A., company in which APSA has an interest of 99,99996%, acts as the leasing agent for APSA bringing together the Company and potential lessees for the retail space available in certain of APSA's shopping centers. Fibesa S.A.'s revenues are derived primarily from collected commissions calculated as a percentage of the final rental income value and admission's rights. NOTE 6: LAWSUITS AND CLAIMS IN COURSE

A. Agricultural Business

1. Ongoing litigation with the city of Villa Mercedes.

The Misdemeanours Court Judge to the city of Villa Mercedes issued resolution No. 2980/08 about the situation of Cactus in such city, determining that the Company had a 36-month term to stop operating and transferring the establishment located on the Provincial Route 2B.

In such 36-month period, the Company shall not host over 18,500 head of cattle.

Such brief was appealed by Cactus before the Municipality, which was negatively answered on April 7, 2009, by means of Decree No. 0662/09, thus ratifying the Misdemeanour Court Judge's ruling. Under the administrative justice of the city of Villa Mercedes, Cactus would have until April 7, 2012 to conclude its operations and transfer the establishment.

Cactus has filed appeals with the High Court of Justice of the Province of San Luis, objecting the lawfulness of the rulings entered by the Misdemeanours Court Judge of Villa Mercedes. The appeals are pending and the High Court has not ruled on them.

The Company's legal advisors are optimistic about the possibilities of reversing the Misdemeanours Court Judge's ruling.

Irrespective of the above, Cactus is carrying out a plan to improve its relationship with the community of Villa Mercedes, seeking to strengthen the company's position as a valuable member in the social and economic activity in the region, whose purpose is that the scheduled moving be reconsidered by municipal authorities.

B. Real Estate Business

1. Provision for unexpired claims against Llao Llao Holding S.A.

The Llao Llao Holding S.A. (LLH) Company (in liquidation process following the merger with and into the Company), predecessor of Llao Llao Resorts S.A. (LLR) as operator of the Llao Llao Hotel, was sued in 1997 by the National Parks Administration seeking collection of the unpaid

NOTE 6: (continued)

balance of the additional sale price, in Argentine External Debt Bond (EDB) amounting to US\$ 2.9 million. A ruling of the court of original jurisdiction sustained the claim. That ruling was appealed and the Court of Appeals confirmed the judgment of the court of original jurisdiction, demanding payment from the company of US\$ 3.8 million, plus interest accrued through payment, punitive interest and attorney's fees. In March 2004, LLH paid Ps. 9,156 in cash and EDB.

The plaintiff requested the court of original jurisdiction to initiate an incidental procedure for execution of sentence by performing a settlement through the Ministry of Economy, the procedure has been questioned by LLR. In view of the fact that the information provided was not sufficient to evaluate the amount settled by the Ministry of Economy, it was requested that the execution be suspended until there is a sentence on the complaint recourse filed to the National Supreme Court for the denial of the extraordinary recourse soliciting that the debt be converted to pesos.

In July 2008, the Court of Appeals notified LLR that by means of a resolution dated June 18, 2008 it had confirmed the settlement approved by the court of original jurisdiction.

On March 17, 2009, the National Supreme Court admitted the incidental procedure and decided to suspend the enforcement of the judgment in so far as the extraordinary appeal lodged by LLR is not resolved.

On February 23, 2010, the Supreme Court of Justice dismissed the action, which rendered the judgment final and compelled LLR to pay the amount calculated by the State. On April, 2010 LLR paid Ps. 13,122 in cash and bonds.

After LLR's filing was duly notified to the plaintiff, the latter in turn stated that the amounts deposited were in line with the settlement that, having taken place on June 30, 2007, was eventually approved in the framework of these proceedings on December 5, 2007. As a result, the Argentine Agency of National Parks argued that the interest accrued until actual payment were to be adjusted by application of the Argentine Central Bank's borrowing interest rate. As estimated by the Argentine Agency of National Parks, the outstanding balance, to be deposited by LLR would amount to US\$ 659.

NOTE 6: (continued)

On June 10, 2010, LLR was notified of the newly-performed settlement: LLR filed an objection against it in due time and manner. On June 17, 2010, the court ordered that the plaintiff was to be served notice of the objection.

On August 6, 2010, the plaintiff filed a response to the most recent service of process. On September 10, 2010, the trial court judge resolved that the amount deposited by Llao Llao Resorts S.A. is not sufficient to cover the amount of the payment order. An appeal against this resolution was filed on behalf of Llao Llao Resorts S.A. alleging that there has been a material error incurred by the trial court.

In addition, on September 22nd, 2010, the judge calculated that the fees payable to the auctioneer who took part in the proceedings amount to Ps. 1.8 million. As soon as Llao Llao Resorts S.A. is officially notified of the fees as calculated by the court, it is going to lodge an appeal against them for considering them excessively high.

Based on the information provided by the legal advisors litigating these proceedings, LLR has booked Ps. 2,608 under Other current liabilities Payables to National Parks Administration, that is, the amount in Pesos equivalent to the interest claimed by the plaintiff.

1. IRSA

a. Puerto Retiro S.A.

On April 18, 2000, Puerto Retiro S.A (indirect subsidiary of IRSA) was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A. At the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the acquired real estate property from Tandanor S.A. in June 1993.

Indarsa had acquired 90% of the capital stock of Tandanor S.A. to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed. Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The file was passed for the judge to issue a pronouncement, the judge issued a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

The Management and legal advisors of Puerto Retiro S.A. estimate that there are legal and technical issues sufficient to consider that the request for bankruptcy will be denied by the court. However, taking the circumstances into account and the progress of the legal action, this position cannot be considered final.

NOTE 8: ACQUISITION, CONSTITUTION AND RESTRUCTURING OF COMPANIES

A. Agricultural Business

Expanding business into the Republic of Paraguay

Under the framework of a series of transactions that constitute for Cresud a new expansion of the agricultural and livestock businesses in South America, on September 3, 2008, the Company executed jointly with Carlos Casado S.A., an Argentine company owning large stretches of land in southern

Paraguay, a framework agreement by which it was decided to generate synergy between both companies to do business on the real estate, agricultural and livestock, and forestry markets, as well as series of related agreements aiming at formalizing the productive coalition between both companies.

Within such context, Cresud participates together with Carlos Casado (with a 50% interest each) in Cresca S.A. a stock company organized under the law of the Republic of Paraguay, under which Cresud will assume the capacity of advisor under an advisory agreement, for the agricultural, livestock and forestry exploitation of an important rural area in Paraguay and possibly of up to 100,000 hectares also located in Paraguay, which are derived from the purchase option granted by Carlos Casado to Cresca S.A. It should be mentioned that this option was exercised on September 3rd, 2008.

The advisory agreement shall be valid for 10 year terms as from the date the framework agreement is executed and will automatically renewed for two additional 10-year period as from maturity date of the original period, in turn being able to be renewed after the expiration of the additional period.

Cresud has additionally executed a pre-purchase agreement as committed to acquire for a 50% interest in 41,931 hectares in Paraguay, owned by Carlos Casado S.A. for a total and agreed-upon amount of US\$ 5.2 million in turn, to be contributed in kind to the Company aiming at developing the agricultural and forestry business in the neighboring country.

On January 23, 2009, Agrology S.A. directly and indirectly controlled by 99.99% by Cresud made a contribution in kind to the Paraguayan company, Cresca S.A.. Such contribution is made up of undivided 50% of five plots of land with whatever they have on, located in Mariscal José Félix Estigarribia, Dept. of Boquerón, Chaco Paraguayo, Republic of Paraguay, for 41,931 hectares, acquired from the Company Carlos Casado S.A..

Consequently, together with Carlos Casado S.A.'s contribution, the total contribution to Cresca S.A. stands at US\$ 10.5 million.

On February 3, 2009, the previously called general shareholders' meetings were held at Cresca S.A. headquarters, whose agenda included among other matters, the capital increase and the issuance of shares of such company as well as the ratification of those agreements that are among the transactions that together with Carlos Casado S.A. had been planned and that at present Cresud will develop through its affiliate, Agrology S.A.

Likewise, on that date, the amount of US\$ 5.1 million was paid for the balance of the price originated by the capital contribution made by Carlos Casado S.A. to Cresca S.A. on behalf of Agrology S.A. and which resulted from the in-kind contribution of five plots of land located in The Republic of Paraguay, as it was mentioned opportunely.

On March 19, 2010 and in connection with the option already exercised related to the Option Property, Cresca S.A. required from Carlos Casado S.A. that 3,614 hectares (out of which 1,807 hectares belonging to Agrology S.A.) be transferred to it. This area will be confirmed when measured before executing the title deed.

As agreed in the Option Agreement, Cresca S.A. will pay Carlos Casado S.A. US\$ 350 per hectare or US\$ 1.3 million as follows: US\$ 0.3 million paid on March 23, 2010; US\$ 0.5 million were paid on December 1, 2010 and US\$ 0.5 million, on March 1, 2011.

B. Real Estate Business

1. IRSA

a. Constitution of CYRSA Horizons Project

In January 2007, IRSA acquired two adjacent plots of land adjacent located in Vicente López, Province of Buenos Aires (one of them through the acquisition of the total share of Rummaala S.A, actually merged with CYRSA). The purchase price was US\$ 36.2 million, from which US\$ 30.3 million will be canceled by handing over certain units of the building to be constructed. As security for compliance, Rummaala S.A. shares were pledged and the Building located in Suipacha 652 (owned property) was mortgaged.

In April, 2007, IRSA constituted CYRSA S.A. (CYRSA), and in August 2007, CYRELA was incorporated with the ownership of 50% of CYRSA capital stock. IRSA contributed with the plots of land and the liability in kind related in the amount of Ps. 21,495 and CYRELA contributed Ps. 21,495 in cash.

Then, a major real estate development known as Horizons was launched on the two plots of land mentioned.

From May 2008, CYRSA continued the marketing process of the building units to be constructed by executing the agreements to purchase reaching to date 100% of units to be marketed and received advances, which are disclosed in Customer advances .

The purchase-sale price set forth in these preliminary sales contracts are made of a fixed and determined portion and another portion to be determined in line with the future construction expenses.

The buyer can choose from the following purchase plans:

- The balance is cancelled in installments and is fully paid at the time of transfer and signature of deeds.

Through preliminary sales agreements, CYRSA has committed to transfer the functional units before February 2011 to the latest.

As of September 30, 2010, the percentage of completion of the Horizons project was 86.98% considering the cost incurred in relation to the total estimated project costs.

b. Acquisition of shares in Hersha Hospitality Trust (Hersha)

On August 4, 2009, IRSA, through Real Estate Investment Group L.P. (REIG) acquired 5.7 million shares representing approximately 10.4% of Hersha's common stock and a call option that matures on August 4, 2014 to purchase an additional 5.7 million shares at an exercise price of US\$ 3.00 per share. Under the agreement, if starting on August 4, 2011 the quoted market price of Hersha's share were to exceed US\$ 5.00 per share during 20 consecutive trading sessions, Hersha may settle the call option by issuing and delivering a variable amount of shares to be determined in accordance with certain market values. The total purchase price paid was US\$ 14.3 million. As part of the agreement, IRSA's Chairman and CEO, Mr. Eduardo S. Elsztain, has been appointed to Hersha's Board of Trustees.

In January 2010 and March 2010, REIG purchased 8,653,917 additional shares of Hersha's common stock for an aggregate purchase price of US\$ 30.8 million. (4,789,917 for US\$ 3.00 per share and 3,864,000 for US\$ 4.25 per share).

As of September 30, 2010 IRSA's interest in Hersha represents 10.85%. On the other hand, upon exercise of the call option and assuming any Company's interest is not diluted due to newly issued shares, IRSA's interest in Hersha would be 14.34%. IRSA accounts for its investment in Hersha at cost while the call option has been accounted for at its fair value.

c. Acquisition of Metropolitan 885 Third Ave. LLC (Metropolitan)

In July 2008, IRSA (through its subsidiaries) acquired a 30% interest in Metropolitan 885, a Delaware-based limited liability company, which main asset is a rental office building in New York City known as the Lipstick Building and debt related to that asset. The transaction included the acquisition of (i) a put right exercisable until July 2011 to sell a 50% of the interest acquired at the same value paid plus interest at 4.5% per annum and (ii) a right of first offer to acquire a 60% portion of the 5% interest of the shareholding. The total price paid was US\$ 22.6 million.

During 2009 and in the context of the financial crisis and shrinkage of the real estate market in New York, Metropolitan incurred significant losses, which resulted in negative equity mainly due to an impairment recognized in connection with the building. Since IRSA's share in Metropolitan's losses exceeded its equity interest; IRSA recognized a zero value on its investment although a liability of US\$ 1.5 million was booked representing its maximum commitment to fund Metropolitan's operations.

In addition, the put right has been adjusted to its value of US\$ 12.5 million as of September 30, 2010 and is included in Other receivables Non-Current.

To facilitate discussions in the framework of a debt renegotiation that Metropolitan 885 Third Ave. LLC aspires to obtain from Royal Bank of Canada, on August 4, 2010, IRSA entered into an Escrow Agreement with agent Fidelity National Title, Insurance Company, and transferred US\$ 15 million as a non-mandatory, good-faith deposit for the sole purpose of allowing discussions between the parties to move forward. IRSA has reserved the right to extend the term of the agreement for an indefinite period at its sole criterion.

NOTE 1: ACCOUNTING STANDARDS

Below there is a description of the most relevant accounting standards used by the Company in the preparation of these Financial Statements, which have been applied on a consistent basis from the previous period.

a. Presentation standards

These financial statements are stated in Argentine Pesos (Ps.) and have been prepared in accordance with the disclosure and valuation accounting standards contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE), as approved, with resolutions issued by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires (CPCECABA) and the Comisión Nacional de Valores (CNV).

b. The effects of inflation

The financial statements have been prepared in constant currency units recognizing the effects of inflation up to August 31, 1995. As from this date and under professional accounting standards and as required by the enforcement agency, financial statements as of December 31, 2001 were no longer restated. As from January 1st, 2002 and under professional accounting standards, effects for inflation restarted to be recognized considering that accounting measurements restated for the change in the currency purchasing power until August 31, 1995, as those whose original date fell between such date and December 31, 2001, were stated in pesos as of such last date.

On March 25, 2003, the Federal Executive issued Decree No. 664, which established that the financial statements for year ended after such date should be stated in nominal currency. Consequently, in conformity with Resolution No. 441/03 issued by the CNV, the Company discontinued the restatement of financial statements as from March 1, 2003. Such method does not agree with current professional accounting standards, which require that financial statements should be restated until September 30, 2003. However, given the little significance of inflation rates from March through September 2003, this departure has not generated a significant effect on the financial statements taken as a whole.

The rate used for restatement of items until February 28, 2003 was the domestic whole revenue price index published by the National Institute of Statistics and Census.

c. Comparative Information

Amounts as of June 30, 2010 and September 30, 2009, which are disclosed in these financial statements for comparative purposes have been taken from the financial statements as of such dates.

These financial statements have been prepared giving effect to the spin-off merger mentioned in Note 14.2; consequently, the stand-alone financial statements as of September 30, 2010 are not comparable with those issued as of June 30, 2010 and September 30, 2009.

d. Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assessments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at that date and the reported amounts of revenues and expenses during the period.

Estimates are used when accounting for the allowance for doubtful accounts, depreciations and amortizations, income taxes, deferred liabilities, translation differences, provisions for lawsuits and contingencies, accrual for expenses and assets recoverable value and classification of the current and non-current assets and the current value of the assets and liabilities acquired in business combinations. Actual results could differ from these estimates.

e. Adoption of the International Financial Reporting Standards

The National Securities Commission, through the Resolution 562, has mandated that the Technical Resolution No. 26 of the FACPCE is to be applied by the companies admitted to the public offering system under Law No. 17,811 in connection with either their capital stock and/or negotiable obligations, and/or by the companies that have applied for admission to the public offering system. FACPCE's Technical Resolution No. 26 adopts the International Financial Reporting Standards issued by the International Accounting Standards Board. The Company shall apply the IFRS as from the fiscal year beginning on July 1st, 2012. On April 29, 2010, the Company's Board of Director has approved the specific implementation plan to the application of IFRS.

The accounting standards used by the subsidiaries to prepare their financial statements are the same as those used by the Company.

The values thus obtained, do not exceed their respective estimated recoverable values at the end of the period/fiscal year.

2. Acquisitions of equity interests in companies

The significant acquisitions of companies are booked according to the acquisition method as established by Technical Resolution No. 18 and Technical Resolution No. 21. This implies identifying and determining the current values of assets and liabilities acquired, a process requiring complex judgments and significant estimations.

3. Goodwill

- Goodwill

The goodwill represents the excess acquisition cost above the market value of net assets from those subsidiaries acquired at the equity percentage.

The residual value of the goodwill generated by acquiring interests in the companies has been disclosed in the Investments on controlled and related companies account (Schedule C).

Upon defining the useful life, the following factors have been considered: (i) nature and expected life of acquired businesses; (ii) stability and expected life of the respective industry branch; (iii) effects that the obsolescence of products, changes in demand and other economic factors may have on the acquired business; (iv) feasibility of maintaining the required disbursement value to obtain future economic benefits from the acquired business and (v) the control period over the acquired business and legal or contractual provisions that may affect its useful life.

Based on these factors, the Company has estimated that it is not possible to estimate the specific useful life for the goodwill generated by applying the acquisition method provided by Technical Resolution No. 18, and it has therefore determined that they shall have an undefined useful life.

The values thus obtained, do not exceed their respective estimated recoverable values at the end of the period/fiscal year.

This decision was taken to contribute to the decrease in the draw down and reduction of fluctuations in the listed price of the Company's shares aiming at contributing to strengthening the shares on the market, minimizing possible temporary imbalances that there may be between the supply and demand on the market, considering the excessive cost of capital that the current listed prices showed.

In accordance with the law of commercial companies, the board shall dispose of the shares acquired within a period of one year unless an extension is provided for a Shareholders meeting. NOTE 22: (continued)

Additionally, ANTA committed to reduce the concession area through the return of 30,000 hectares and its location will come up from a sketch agreed by the parties involved.

NOTE 23: CAPITALIZATION PROGRAM FOR EXECUTIVE MANAGEMENT

The Company together with its related Company IRSA has developed a capitalization program for executive management staff through contributions made by employees and by the Company (the Plan).

The Plan is addressed to employees selected by those Companies with the purpose of keeping them in the company and increasing their total compensation through an extraordinary reward, provided that certain specific conditions are complied with.

Participation and contributions to the Plan are on a voluntary basis. Once the beneficiary (the Participant) has accepted, he will be able to make two types of contributions: a monthly one (based on the salary) and an extraordinary one (based on the annual bonus). The suggested contribution is up to 2.5% of the salary and up to 15% of the annual bonus. On the other hand, the Company contribution will be 200% of the monthly contributions and 300% of the employee s extraordinary contributions.

Funds collected from participants contributions will initially be sent to an independent financial means especially created for such purpose and placed in Argentina as a Common Investment Fund, which will be approved by the C.N.V. Such funds will be freely redeemed under the requirement of the participants.

The funds arising from the Company contributions will flow to other independent financial means separated from the previous one.

Buenos Aires, November 11, 2010 - Cresud S.A.C.I.F. y A. (Nasdaq: CRESY BASE: CRES), one of the leading agricultural companies in Argentina, announces today its results for the first quarter of fiscal year 2011 ended September 30, 2010.

Consolidated agribusiness sales for the period amounted to Ps. 161.7 million, 158.1% higher than those posted for the same quarter of the previous fiscal year. This increase was caused mainly by the Sale of Farms account generating Ps. 71.1 million from the sale of La Juanita farm, a 42.3% rise in the sales of crops and a 151.7% increase in the sales of beef cattle compared to the same period of the previous fiscal year.

Agribusiness production revenues amounted to Ps. 35.1 million in the period ended September 30, 2010, 166.1% higher than those recorded in the same period of the previous fiscal year. The increase is explained mainly by a 263.1% rise in crop production.

Consolidated sales in the real estate business were Ps. 307.3 million for the three-month period ended September 30, 2010. This represents an improvement from the Ps. 267.0 million in sales for the same quarter of the previous fiscal year.

Gross profit during the first three months of fiscal year 2011 amounted to Ps. 259.4 million compared to Ps. 151.7 million during the same period of the previous year. The increase in gross profit amounting to Ps. 107.8 between both periods resulted from an improvement of Ps. 62.3 million recorded in the agribusiness and increased results amounting to Ps. 45.4 million in the real estate business.

Operating results for the period ended September 30, 2010 showed a Ps. 183.6 million profit, composed of operating income of Ps. 134.8 million in IRSA's segments for the first three months of fiscal year 2011 and a Ps. 48.9 million profit from Cresud's agribusiness activities for the same period. This represents an improvement from the Ps. 90.3 million profit recorded in the same period of the previous fiscal year. The rise is explained mainly by an increase of Ps. 68.5 million from the agribusiness operating results, prompted by higher prices and margins in the agribusiness segment, and the gain resulting from the sale of La Juanita farm.

Net income for the first three months of fiscal year 2011 amounted to Ps. 51.9 million, compared to a Ps. 61.8 million income posted in the same period of the previous fiscal year. This slight decrease in net income resulted mainly from a higher loss in net financial results and lower results from interests in related companies. This reduction was partially offset by the increase in operating results, which rose from Ps. 90.3 million profits in the first quarter of fiscal year 2010 to Ps. 183.6 million profits in the same quarter of fiscal year 2011.

Summary of Operations

Crops

Gross profit in the crops segment amounted to Ps. 6.9 million for the first quarter of fiscal year 2011, compared to a Ps. 1.2 million loss recorded in the same period of the previous fiscal year.

Agribusiness production results rose from a Ps. 4.0 million loss in the first quarter of fiscal year 2010 to a Ps. 0.2 million profit in the same quarter of this fiscal year.

During this quarter, harvesting of the previous crop season was completed, resulting in a higher amount of tons produced than in the 08/09 season: crop production increased 236.6% compared to the same quarter of the previous fiscal year.

The production margin rose from (63.6%) in the first quarter of fiscal year 2010 to 0.9% in the same period of fiscal year 2011. Such improvement in the margin resulted mainly from the decrease in production costs per ton, which fell 34.6%.

Sales volume increased 34.8%.

Sales revenues from the crops segment increased from Ps. 2.8 million profits in the first quarter of fiscal year 2010 to Ps. 6.7 million in the same period of fiscal year 2011.

The operating area is 57,853 hectares in our own farms, 51,695 hectares in leased farms and 13,324 hectares in farms under concession, totaling approximately 123,000 hectares.

In Argentina, we have already planted approximately 8,800 hectares of wheat and we are in process of starting corn and sunflower planting activities.

If we consider the exploited hectares operated by BrasilAgro and AgroUranga S.A., the aggregate planted surface area would stand at approximately 189,000 hectares, an increase of more than 24% compared to the hectares in operation in the previous season.

In this way, we plan to accelerate our production rhythm by taking advantage of higher volumes and capturing the rises in crop prices recorded during this last period.

Beef Cattle

Operating results of the beef cattle segment showed an income of Ps. 9.9 million in the first quarter of fiscal year 2011, compared to a Ps. 8.4 million loss recorded in the same period of the previous fiscal year.

This improvement was caused mainly by holding gains for Ps. 16.1 million, resulting from the strong appreciation of the stock experienced recently as a consequence of the improvement in beef cattle prices.

We increased beef cattle sales by 27.2% in the first quarter of fiscal year 2011, so as to capitalize on the higher prices recorded in the beef cattle market.

As of September 30, 2010, the stock of breeding cattle amounted to 54,930 heads, compared to 59,869 heads in the same quarter of the previous fiscal year.

Winter grazing stock decreased to 12,281 heads in the first quarter of fiscal year 2011, compared to 25,045 heads in the same quarter of the previous fiscal year.

Business Highlight

As of September 30, 2010 we allocated an aggregate of 102,709 hectares to beef cattle production.

Milk

Operating results in the milk segment amounted to an income of Ps. 2.0 million in the first quarter of fiscal year 2011, compared to a Ps. 0.8 million loss in the first quarter of the previous fiscal year.

This improvement is explained by higher production revenues, which were spurred by an 11.9% increase in the liters of milk produced and an improvement of approximately 60.0% in milk prices in this period.

In the first quarter of fiscal year 2011, we had 8,776 milking cows, compared to 8,386 heads in the same quarter of the previous fiscal year, and we allocated 4,717 hectares to the dairy segment in this period, compared to 4,637 hectares in the same quarter of the previous fiscal year.

At present we have one dairy facility known as El Tigre farm, and we have a lease agreement to continue operating until the end of 2010 the two dairy facilities at the La Juanita farm, which we sold as described below.

Sale of La Juanita

On September 3, 2010, Cresud signed the title deed whereby it sold and delivered possession of La Juanita farm.

The aggregate price for the sale amounted to U\$S 18.0 million, resulting in gains of approximately Ps. 49.4 million.

Within the framework of this transaction, a commodatum agreement has been executed in favor of Cresud to expire on January 10, 2011 in relation to certain fractions of real property for the purposes of continuing production operations in the farm until such date.

Development of marginal lands

During fiscal year 2010 the Company transformed 6,290 hectares in Los Pozos and 3,559 in Anta.

At present we have approximately 13,000 hectares ready for agriculture in Anta and 8,000 hectares in Los Pozos, which we expect to start planting in the 2010/2011 season.

On the other hand, we continued transforming non-productive hectares.

Edgar Filing: CRESUD INC - Form 6-K

We are in process of transforming 3,000 hectares in Los Pozos for agriculture purposes, 800 hectares of which were converted in the first quarter of this fiscal year.

In Anta we expect to transform 4,800 hectares for agriculture purposes, 2,200 hectares of which have been converted, representing a degree of progress of 45.8% only in the first quarter of fiscal year 2011.

In our La Esmeralda farm we had 4,970 hectares allocated to agriculture in the 2009/201 season. This amount increased to 6,798 hectares in the current 2010/2011 season; therefore, at present La Esmeralda has 72% of its surface area allocated to agriculture compared to 57% recorded in the previous season.

Starting in the second quarter of fiscal year 2009, Cresud presents its financial statements consolidated with those of IRSA. The following information has been taken from the balance sheet of our controlled company IRSA as of September 30, 2010.

Offices and Other Rental Properties

During the last quarter, the market trend experienced in the last year has continued, resulting in stagnation in lease prices and a slight increase in office vacancy levels, mainly due to an increase in the surface area built in the northern area of Buenos Aires and Greater Buenos Aires, a market that is still settling down. On the other hand, IRSA has most of its portfolio in the Plaza Roma Zone, which shows a 7.6% vacancy level with an average lease price over US\$ 31/sqm according to CBRE.

IRSA increased its portfolio by more than 11,200 sqm when it opened the DOT Building in the North Area. This building is located in a zone that is still stabilizing; therefore, it has a low occupancy level that affects the portfolio's total occupancy level. However, the occupancy level of the rest of the portfolio has continued to improve and maintained high levels.

- u The rent per leased surface area measured in Ps. / sqm increased by 1% accompanying the decrease in the exchange rate.

- u The growth in revenues and EBITDA lessened as a result of the smaller amount of leaseable properties resulting from sales of non-strategic assets made during fiscal year 2010.

During fiscal year 2009, Metropolitan recorded losses which turned negative its shareholders' equity, mainly due to the recognition of an allowance for impairment of the referred building. Accordingly, the Company's interest in Metropolitan's losses exceeded its interest in its equity and therefore, the Company recognized the investment as zero and recorded liabilities for US\$ 1.5 million, which represents the maximum amount it intends to contribute for the financing of Metropolitan's transactions, if required.

In addition, the put option was revalued at its estimated value as of September 30, 2010, which amounts to US\$ 12.5 million.

On August 4, 2010, and for purposes of facilitating the negotiations, within the framework of a debt renegotiation started by Metropolitan 885 Third Avenue LLC with the Royal Bank of Canada, IRSA, through a subsidiary, executed an Escrow Agreement with the broker Fidelity National Title, Insurance Company and transferred the amount of US\$ 15.0 million as non-binding bona fide deposit, for the sole purpose of allowing further negotiations between the parties. The Escrow Agreement expired on September 27, 2010 and was extended to January 14, 2011.

Prospects for next quarter

At global level, crop prices have increased sharply in the recent months. In Chicago, soybean rose 22.3% during the first quarter of this fiscal year, and it has gone up an additional 18.3% since September 30, 2010.

There is a correlation between these increases and the USDA's downward revisions of U.S. crop forecasts. The lower than expected supply and the firm demand prompted by the growth experienced in the large emerging economies have had a strong impact on prices. Grain inventory stocks relative to consumption levels are at historically lows, another factor that squeezes future supply even further, fueling price increases.

Edgar Filing: CRESUD INC - Form 6-K

On the other hand, the uncertainty related to the value of fiduciary currencies resulting from the various currency flexibilization programs implemented by central banks at world level boosts the potential for appreciation of the real assets in Cresud's portfolio: commodities and real estate.

At production level, prospects are promising. On the one hand we have good conditions for starting planting activities and a much favorable input-product ratio. In addition, we continue to increase our planted hectares, which have risen by 24% to 189 thousand in the current fiscal year, including Brasilagro. In this sense, the consummation of our purchase of Brasilagro's stake marks is a continuation in our strategy to penetrate in the region and increase production volumes, in line with our objective of forming a regional portfolio with significant development and appreciation potential.

In Argentina, we are making progress in our strategy of supplementing agriculture in our own farms with agricultural activities in leased farms and farms under concession. As regards leases, we have focused on renting lands in nucleus areas, seeking to stabilize yields and supplement our development activities in our own farms.

As concerns transforming and adding value to our own hectares, we will continue developing our farms in Salta and Paraguay, where we expect to develop 14 thousand additional hectares to be placed into production in calendar year 2012.

Finally, as concerns our dairy business, following the sale of the La Juanita establishment we will focus on milk production in our state-of-the-art dairy facility in El Tigre, which we plan to operate at full capacity.

The actions described above related to the expansion of planted areas and the increase in Brasilagro's stake are aimed at obtaining higher volumes in a scenario of rising market prices.
