PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS

To Be Held May 18, 2011

The enclosed proxy is solicited by and on behalf of the Board of Directors (the "Board") of Scott's Liquid Gold-Inc., a Colorado corporation (the "Company"), for use at the Company's Annual Meeting of Shareholders to be held at 9:00 a.m., Mountain Time, on Wednesday May 18, 2011 at the Company's offices, 4880 Havana Street, Denver, Colorado 80239, or any adjournment thereof. This Proxy Statement, the accompanying form of proxy and a copy of the Annual Report on Form 10-K for the year ended December 31, 2010 are first being mailed or given to the shareholders of the Company on or about April 22, 2011.

Any shareholder signing and mailing the enclosed proxy may revoke it at any time before it is voted by giving written notice of the revocation to the Company's Corporate Secretary, by voting in person at the meeting or by filing at the meeting a later executed proxy.

VOTING SECURITIES AND PRINCIPAL SHAREHOLDERS

All voting rights are vested exclusively in the holders of the Company's \$0.10 par value common stock. Each share of the Company's common stock is entitled to one vote. Cumulative voting in the election of directors is not permitted. Holders of a majority of shares entitled to vote at the meeting, when present in person or by proxy, constitute a quorum. On March 29, 2011, the record date for shareholders entitled to vote at the meeting, the Company had 10,898,500 shares of its \$0.10 par value common stock issued and outstanding.

When a quorum is present, in the election of directors, those six nominees having the highest number of votes cast in favor of their election will be elected to the Company's Board. Consequently, any shares not voted (whether by abstention, broker non-vote or otherwise) have no impact in the election of directors except to the extent the failure to vote for an individual results in another individual receiving a larger number of votes. With respect to any other matter, unless a greater number of votes is required by law, a matter is approved by the shareholders if the votes cast in favor of the matter exceed the votes cast in opposition. Any shares not voted (whether by abstention, broker non-vote or otherwise) have no impact on the vote for such other matters, if any, so long as a quorum is present.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR EACH OF THE DIRECTOR NOMINEES.

BOARD LEADERSHIP STRUCTURE AND ROLE IN RISK OVERSIGHT

The Board is actively involved in assessing and managing risks that could affect the Company. Part of the Board's role is to periodically assess the processes utilized by management with respect to risk assessment and risk management, including identification by management of the primary risks of the Company's business, and the implementation by management of appropriate systems to deal with such risks. The Board fulfills these responsibilities either directly, through delegation to committees of the Board, or, as appropriate, through delegation to individual directors. When the Board determines to delegate any risk management oversight responsibilities, typically such delegation is made to the standing committees of the Board.

Mr. Goldstein serves as both the Chairman of the Board and the Chief Executive Officer of the Company. The Company believes this is appropriate in light of Mr. Goldstein's significant experience and leadership roles with the Company, and his in-depth knowledge of consumer products and the Company's management, marketplace, customers, marketing, sales and strategic vision.

Table of Contents

EXECUTIVE OFFICERS

The Company has four executive officers. They are Mr. Goldstein, Mr. Hinkle, Mr. Passantino and Brian L. Boberick. Information regarding Mr. Goldstein and Mr. Hinkle is stated above under Nominees. Information concerning Mr. Passantino and Mr. Boberick is as follows:

Prior to joining the Company, Mr. Boberick was a controller at a sports marketing company, held finance positions at two other companies and was a senior auditor at an accounting firm.

The officers of the Company are elected annually at the first meeting of the Company's Board held after each annual meeting of shareholders and serve at the pleasure of the Board.

DIRECTORS MEETINGS AND COMMITTEES

During the year ended December 31, 2010, the Company had four Board meetings plus two actions by unanimous written consent. The Company's Board has both a Compensation Committee and an Audit Committee. The Company does not have a nominating committee. No member of the Board attended fewer than 75% of the meetings of the Board or of committees for which such member served during 2010.

Compensation Committee

The primary responsibilities of the Compensation Committee include, without limitation, reviewing the development of a compensation philosophy for the Company, reviewing the compensation packages for executive officers and engaging and overseeing compensation consultants and advisers. The Compensation Committee may not delegate its authority. The Compensation Committee operates under resolutions adopted by the Board of Directors that may constitute a charter, a copy of which is attached hereto as [Appendix B](#). Current members of the Compensation Committee are Dennis H. Field (Chairperson), Carl A. Bellini, and Gerald J. Laber, each of whom is an independent director as defined under the NASDAQ rules. The Compensation Committee had one meeting during 2010.

In making decisions regarding executive compensation, the Compensation Committee requests the comments of the Chief Executive Officer and the other executive officers about their compensation and considers a number of factors. In determining the executive compensation in 2009 and 2010, the Committee considered, among other things, the following matters:

Edgar Filing: SCOTTS LIQUID GOLD INC - Form DEF 14A

The Compensation Committee had previously determined that an outside consultant on compensation matters should be used periodically to provide information about the compensation paid to the Company's executive officers compared to compensation paid by other companies. Most recently, the Compensation Committee engaged The Hay Group in 2004 to provide this type of market analysis. The report from The Hay Group compared each element of the Company's base salary, total cash compensation and total direct compensation for the executive officers to The Hay Group's all company executive compensation survey and to a peer group of 14 companies in the consumer products and specialty chemical industries. This report showed, among other things, that the aggregate actual total direct compensation levels for the Company's executive officers fell between the 25th and 50th percentile levels of the peer group market, with the Chief Executive Officer's actual total direct compensation levels below the median of such market by approximately 20% to 25%. The Compensation Committee has engaged an independent compensation expert to assist the Compensation Committee in evaluating the Company's

Table of Contents

current compensation programs and policies. The Company anticipates having the results of this compensation analysis in the third quarter of the year. To the extent such evaluation leads to changes in compensation, the Company will make any required disclosures in current or periodic reports it files with the SEC.

The Compensation Committee also determines the fees paid to the non-employee directors. The fees for the non-employee directors result from discussions between the executive officers and each of the non-employee directors as to a reasonable amount.

Audit Committee

The Audit Committee's primary responsibilities include appointing the independent auditor for the Company, pre-approving all audit and non-audit services, and assisting the Board in monitoring the integrity of the financial statements of the Company, the independent auditor's qualifications, independence and performance and the Company's compliance with legal requirements. The Audit Committee operates under a written charter adopted by the Board, a copy of which has been filed with the SEC and is available at the Company's website at www.scottsliquidgold.com. The current members of the Audit Committee are Gerald J. Laber (Chairperson), Carl A. Bellini and Dennis H. Field. Each member of the Audit Committee is an independent director as defined in the NASDAQ rules. Mr. Laber has the professional experience deemed necessary to qualify as an audit committee financial expert under rules of the SEC. The Audit Committee had four meetings during 2010.

NOMINATION PROCESS

The Board of the Company does not have a nominating committee. The full Board performs the functions of a nominating committee. The Board believes that it does not need a separate nominating committee because the full Board is relatively small, has the time to perform the functions of selecting Board nominees and in the past has acted unanimously in regard to nominees.

In considering an incumbent director whose term of office is to expire, the Board reviews the director's overall service during the person's term, the number of meetings attended, level of participation and quality of performance. In the case of new directors, the directors on the Board are asked for suggestions as to potential candidates, discuss any candidates suggested by a shareholder of the Company and apply the criteria stated below. The Company may engage a professional search firm to locate nominees for the position of director of the Company. However, to date the Board has not engaged professional search firms for this purpose. A selection of a nominee by the Board requires a majority vote of the Company's directors. The Board consists of six members of which Carl A. Bellini, Dennis H. Field, and Gerald J. Laber are independent as defined under NASDAQ rules.

The Board seeks candidates for nomination to the position of director who have excellent decision-making ability, business experience, particularly those relevant to consumer products, personal integrity and a high reputation, diverse backgrounds and who meet such other criteria as may be set forth in a writing adopted by a majority vote of the Board.

During 2011, the Board is undertaking a search for a qualified, independent director. The Board's preference is to nominate a candidate who has experience and expertise in consumer products marketing, advertising, branding and sales. While it is not a requirement for the Company, the goal of the Board is to have a majority of its members meet the independence requirements under the NASDAQ rules in the near term.

Table of Contents

Pursuant to a policy adopted by the Board, the directors will take into consideration a director nominee submitted to the Company by a shareholder; provided that the shareholder submits the director nominee and reasonable supporting material concerning the nominee by the due date for a shareholder proposal to be included in the Company's Proxy Statement for the applicable annual meeting as set forth in rules of the SEC then in effect. See "Shareholder Proposals" below.

DIRECTOR ATTENDANCE AT COMPANY ANNUAL MEETINGS

The Company does not have a policy regarding attendance by members of the Board at the Company's annual meeting of shareholders. The Company has always encouraged its directors to attend its annual meeting. In 2009, the year of our last annual meeting, all directors attended the Company's annual meeting of shareholders.

SHAREHOLDER COMMUNICATIONS WITH THE BOARD

Historically, the Company has not had a formal process for shareholder communications with the Board. The Company does not believe a formal process for handling shareholder communications is necessary because the Board reviews and considers all material communications from shareholders.

CODE OF BUSINESS CONDUCT AND ETHICS

The Company has a Code of Business Conduct and Ethics that reflects long-standing positions of the Company and contains additional provisions that address the Company's expectations relating to ethical business conduct. The Code applies to all employees, including executive officers, and to directors. The Code concerns, among other things, compliance with applicable law, the avoidance of conflicts of interest, trading restrictions imposed on persons who are aware of material non-public information, a prohibition on taking corporate opportunities, competing fairly and honestly, diversity as an asset, the Company's efforts to provide a safe and healthful work environment, recordkeeping, confidentiality, proper use of Company assets and payments to government personnel. A copy of the Code of Business Conduct and Ethics may be obtained upon request to: Corporate Secretary, Scott's Liquid Gold Inc., 4880 Havana Street, Denver, Colorado 80239. The Code is also available at the Company's website.

EXECUTIVE COMPENSATION

The following Summary Compensation Table shows the annual and other compensation of the Chief Executive Officer and all other executive officers of the Company at December 31, 2010, for services in all capacities provided to the Company and its subsidiaries for the past two years. The Company's compensation packages to the executive officers, as determined by the Compensation Committee, are designed to enable the Company to recruit, retain and motivate a talented and diverse group of people who contribute to the Company's success. The packages are also intended to synchronize executive compensation with the Company's performance, motivate executive officers to achieve the Company's business objectives, provide performance incentives and minimize undue risk to the Company. The Company's Chief Executive Officer provides input on determining and recommending compensation packages of the executive officers other than himself.

- September 2008 through the date of this Proxy Statement, the Company, as a cost cutting measure, reduced the base salary of each of Mr. Goldstein and Mr. Hinkle, with their consents, by 5%. Prior to that, in September 2006, the base salary of each of Mr. Goldstein and Mr. Hinkle was reduced by 10%, for an aggregate reduction through the date of this Proxy Statement of 15%.

Such amount for 2010 would have been divided among the Company's executive officers as follows: President, 31%, Vice President-Marketing and Sales, 25%, Treasurer, 22%, and Vice President Operations, 22%. In no event would a bonus have been paid unless pre-tax profits, excluding the above-mentioned items, exceeded \$1,000,000 for the fiscal year, nor would any bonus have been paid on the first \$1,000,000 of pre-tax earnings, excluding the above-mentioned items. After receiving the recommendation of the Compensation Committee, the Board has adopted substantially the same plan for 2011.
- Amounts shown in the column Option Awards are the aggregate grant date fair value of stock options granted in 2010 and 2009, computed in accordance with ASC 718. For information on the valuation assumptions for the stock options, please refer to Note 1(n) of the Company's Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 as filed with the SEC on March 29, 2011, a copy of which accompanies this Proxy Statement. These amounts do not necessarily correspond to the actual value that may be recognized by the executive officers in the future.

- (a) The Company provides funds needed, plus an amount to pay resulting income taxes, to each executive officer for the lease or allowance for the use of an automobile. In the case of Mr. Passantino, the amount shown for 2010 and 2009 represents the lease value, and income tax on that value, for his use in 2010 and 2009 of a vehicle leased by the Company. In the third quarter of 2009, under this policy, Mr. Goldstein leased a vehicle for use by Mr. Goldstein. Mr. Goldstein had previously not purchased or leased an automobile under this policy since 2000. In the case of Mr. Boberick, the amount shown for 2010 and 2009 represents an allowance for use of his personally-owned vehicle.
- (b) In addition to group life, health, hospitalization and medical reimbursement plans which generally are available to all employees, the Company has adopted a plan which provides for additional medical coverage of not more than \$50,000 per year to each of the Company's executive officers.
- (c) ESOP compensation for each of the executive officers consists of Company contributions under an Employee Stock Ownership Plan and Trust Agreement ("ESOP"). The Company may contribute annually to the ESOP cash or common stock which, in combination with any employer contribution made to the 401(k) Plan, cannot exceed 25% of all participants' total compensation (the maximum amount currently deductible under tax laws). The Board determines whether any contributions will be made for the year. Benefits are allocated to all eligible employees according to a formula based on compensation, except that any income earned on assets of the Trust is allocated to ESOP

participants based upon the value that each participant's account bears to the total value of Trust assets.

PROPOSAL 2: AMENDMENT TO STOCK INCENTIVE PLAN

Amendment

The Company's Board amended on March 16, 2011, the Company's 2005 Stock Incentive Plan (the "2005 Plan") to increase the number of shares of common stock available under the 2005 Plan by 1,500,000 shares of common stock, for a total authorized number of 3,000,000 shares. The amendment increasing the number of shares under the 2005 Plan is subject to approval of the Company's shareholders and is included as Appendix A hereto. The effective date of the amendment will be the date of shareholder approval.

Prior to the amendment, 1,500,000 shares have been available under the 2005 Plan. After the amendment, the total number of shares available under the 2005 Plan will be 3,000,000 shares. The reasons for the amendment to the 2005 Plan include:

The Company's Board believes that the Company must have available and grant options to employees in order to retain employees in a competitive environment, particularly employees who are subject to the Company's salary and wage freeze.

The 2005 Plan is the only stock plan of the Company's under which grants may be made.

The increase in options is intended in part to replace options which expire, without being exercised, under the Company's 1997 Stock Option Plan and 1998 Stock Option Plan. See "Shares Under All Plans as of March 31, 2011" below. Stock options issued under the 1997 and 1998 Plans remain outstanding after the expiration of those Plans and continue for the term of the options, which has typically been five years from the date of grant. The amendment will subtract from the total number of shares available under the 2005 Plan the number of shares which are actually issued under the 1997 and 1998 Plans.

Options reward persons who have stayed with the Company.

Options provide an incentive on the part of officers and other employees, as well as directors, to improve the Company's performance.

The grant of options aligns the goals of the optionees with those of the shareholders.

The options provide to directors and executive officers a meaningful stake in the Company.

Table of Contents**Shares Under All Plans As of March 31, 2011**

The Company currently has outstanding options under three stock option plans. They are the 1997 Stock Option Plan (for which the executive officers and directors are ineligible), the 1998 Stock Option Plan and the 2005 Plan. The number of shares available under the Plans are shown in the following table:

	1997 Plan	1998 Plan	2005 Plan ⁽³⁾ With Amendment	Total
Shares authorized for future issuances			3,000,000 ⁽¹⁾⁽²⁾	3,000,000 ⁽¹⁾⁽²⁾
Shares subject to outstanding options	240,500	296,900	1,396,150	1,933,550
Shares previously issued upon exercise of options		22,000	3,500	25,500
Shares available for option grants			1,600,350	1,040,950 ⁽²⁾

(1) Includes 1,500,000 shares added by the amendment being submitted to the shareholders for approval.

(2) The number of shares under the 2005 Plan is decreased by options exercised under the 1997 and 1998 Plans after May 6, 2008.

(3) Expires on March 31, 2015.

Significant features of the 2005 Plan are summarized below, as currently in effect and as the 2005 Plan will be in effect after the amendment which solely increases the number of shares available for awards. This summary is qualified in its entirety by reference to the full text of the 2005 Plan which is available from the Company and is an exhibit to filings with the SEC.

General

In March, 2005, the Company's Board adopted the 2005 Plan, subject to approval and ratification by shareholders. The shareholders approved the 2005 Plan in May 2005. The shareholders approved an amendment to increase the number of shares available under the 2005 Plan from 900,000 to 1,500,000 on May 6, 2008.

The 2005 Plan provides that the 2005 Plan administrator may issue stock awards consisting of incentive and non-qualified stock options, stock appreciation rights, restricted stock and restricted stock units. The 2005 Plan administrator may grant one or more of these types of awards. The Board will administer the 2005 Plan unless the Board delegates the administration of the 2005 Plan to a committee, which will be appointed by and serve at the pleasure of the Board. The 2005 Plan administrator determines and designates from time to time (a) those eligible persons to whom awards are granted, (b) the size, form, terms (including vesting, if any) and conditions of awards under the 2005 Plan and (c) rules with respect to the administration of the 2005 Plan. The 2005 Plan administrator may at any time cancel an award, whether vested or unvested, if the participant engages in conduct that the 2005 Plan administrator determines to be detrimental to the best interest of the Company, including failure to comply with policies or procedures of the Company.

Table of Contents

Shares Subject to 2005 Plan; Limitations

The aggregate number of shares of Common Stock that may be issued under awards granted pursuant to the 2005 Plan will be 3,000,000 shares of the Company's common stock, less the number of shares issued as a result of the exercise of options under the 1997 and 1998 Plans, after May 6, 2008. If there is a stock dividend, subdivision, reclassification, recapitalization, merger, consolidation, stock split, combination or exchange of stock, or other event described under the terms of the 2005 Plan, the administrator will make appropriate adjustments to the total number of shares available under the 2005 Plan and to outstanding awards. If an outstanding award expires or ceases to be exercisable, the shares that were subject to the award will continue to be available under the 2005 Plan.

During any single calendar year, no participant will be eligible to be granted awards exceeding 10% of the limit on shares under the 2005 Plan. From March, 2005 to the date on which the 2005 Plan terminates, no participant will be eligible to be granted awards exceeding 20% of the limit on shares.

Term of 2005 Plan

The 2005 Plan was effective as of March 31, 2005. The 2005 Plan will terminate on March 31, 2015, unless terminated earlier by the Board. Termination of the 2005 Plan will not affect grants made prior to termination.

Eligibility

All full-time and part-time employees are eligible to receive any award under the 2005 Plan. Directors and consultants of the Company and its subsidiaries, who are not employees, are eligible to receive any award, other than incentive stock options, under the 2005 Plan.

Securities Issuable Under the 2005 Plan

Stock Options

The exercise price for an option granted under the 2005 Plan must not be less than 100% of the fair market value of the shares subject to the option at the date of grant. No option will be repriced. The term of each option may not be more than ten years from the date of grant. An option is fully vested unless otherwise provided by the 2005 Plan administrator in the option agreement. A participant may pay the exercise price and withholding taxes in cash or, upon approval of the 2005 Plan administrator, in common stock of the Company or another form of legal consideration. No incentive stock option may be granted to an employee who, at the time the incentive stock option is granted, owns stock (as determined in accordance with the Internal Revenue Code) representing more than 10% of the total combined voting power of all classes of stock of the Company or of any parent or subsidiary, unless the option price of such incentive stock option is at least 110% of the fair market value of the stock subject to the incentive stock option and the incentive stock option by its terms is not exercisable more than five years from the date it is granted.

Stock Appreciation Rights

A stock appreciation right, or SAR, is exercisable for the receipt of a number of shares of common stock having a fair market value equal to (1) the fair market value on the date of exercise of the number of shares as to which the SAR has been exercised over (2) the aggregate exercise price of the SAR for such number of shares. The exercise price for each SAR will be no less than the fair market value of the common stock at the time the SAR is granted. No SAR will be repriced. The term of any SAR may not

Table of Contents

exceed ten years from the date of grant. SARs will be fully vested unless otherwise determined by the 2005 Plan administrator and stated in a stock appreciation rights agreement.

Restricted Stock and Restricted Stock Units

Restricted stock may be granted to a participant without the payment of a purchase price. If a grant of restricted stock requires the payment of a purchase price, the purchase price of the restricted stock may not be repriced. If restricted stock has a purchase price, a participant must pay the purchase price in cash or, upon approval of the 2005 Plan administrator, in common stock or another form of legal consideration. If a participant fails to satisfy any applicable restriction (including vesting requirements) on the restricted stock, the restricted stock will be forfeited to the Company in return for no consideration or such consideration as specified in the applicable award agreement. Restricted stock constitutes issued and outstanding shares of common stock for all corporate purposes. The participant will have the right to vote the restricted stock, to receive and retain all regular cash dividends and such other distributions as the Board may, in its discretion, pay on the common stock, and to exercise all other rights, powers and privileges of a holder of common stock.

A restricted stock unit represents an obligation of the Company to deliver a specific number of shares of common stock to the participant on a specified date. Any award of restricted stock or an RSU will be fully vested or will vest in accordance with a vesting schedule provided in the agreement for that award as determined by the 2005 Plan administrator.

Valuation

For purposes of the 2005 Plan, the fair market value of common stock means the average of the closing sales prices for the common stock on its trading market for the five preceding trading days as reported in The Wall Street Journal or another publication or source for market prices selected by the Board. If there has not been trading of the common stock on a specific day, then a trading day is the next preceding day on which there was such trading. If closing sales prices are not available for the trading market, the average of the closing bid and asked prices are used. If none of these alternatives are available, the 2005 Plan administrator will determine the fair market value by applying any reasonable valuation method.

Change in Control

If a change in control event occurs, then the vesting of all awards held by participants in continuous service at the time will be accelerated in full. In anticipation of a change in control event, the 2005 Plan administrator may require that all unexercised awards be exercised upon the change in control event or within a specified number of days of the change in control. The 2005 Plan administrator may in its discretion also accelerate the vesting of any outstanding award in connection with any proposed or completed change in control event, and prior to a change in control event the 2005 Plan administrator may in its discretion terminate all unexercised awards (after acceleration of vesting) in exchange for consideration similar to that received by shareholders of common stock of the Company in the change of control event less the exercise price of the award. Alternatively, if a change in control event occurs, any surviving corporation or acquiring corporation may assume any outstanding award under the 2005 Plan or may substitute similar stock awards.

Termination of Continuous Service

Any vesting of an award ceases upon termination of a participant's service with the Company. A stock option or SAR will terminate and may not be exercised after three months after a participant's

Table of Contents

service with the Company ceases for any reason other than cause, disability or death. If a participant ceases service with the Company for cause or if the participant breaches any covenant not to compete or non-disclosure agreement, an unexercised stock option or SAR shall terminate immediately. If a participant ceases their service with the Company due to death or disability, an outstanding stock option or SAR will be exercisable for one year after that time but not later than the expiration date of the award. The 2005 Plan administrator may in its discretion extend the dates for termination of awards as stated in this paragraph.

If a participant terminates service with the Company for any reason, any unvested restricted stock or unvested RSUs held by the participant as of the date of termination of service will be forfeited to the Company unless otherwise provided in an applicable award agreement.

Amendment of 2005 Plan

The Board may at any time and from time to time alter, amend, suspend or terminate the 2005 Plan or any part thereof as it may deem proper, except that no such action can diminish or impair the rights under an award previously granted. However, approval of the shareholders shall be required to increase the total number of shares issuable under the 2005 Plan, to reduce the exercise price for any option, SAR or RSU or the purchase price for any restricted stock below a level required by the 2005 Plan or to modify materially requirements for eligibility under the 2005 Plan. The 2005 Plan administrator may modify, extend or renew outstanding awards except that this action must not diminish or impair the rights of a previously granted award without the consent of the participant.

Federal Income Tax Consequences

The rules governing the tax treatment of stock awards granted under the 2005 Plan depend largely on the surrounding facts and circumstances. Generally, under current federal income tax laws, a participant will recognize income, and the Company will be entitled to a deduction as follows:

Stock Options

If an employee does not dispose of the shares acquired pursuant to the exercise of an incentive stock option within one year after the transfer of the shares to the participant and within two years from the grant of the option, the employee will not realize taxable income as a result of the grant or exercise of the option (except for purposes of the alternative minimum tax upon the exercise of the option), and any gain or loss that is subsequently realized may be treated as a long term capital gain or loss, depending on the circumstances. The Company will not be able to deduct any amount for the grant of the incentive stock option or the transfer of shares upon exercise. If the employee disposes of the stock prior to one year after the transfer of the shares (or two years prior to the option grant date), the participant will realize ordinary income in an amount equal to the lesser of (a) the excess of the fair market value of the common stock acquired on the date of exercise over the exercise price or (b) the gain recognized on such disposition. Upon the exercise of a nonqualified stock option, the participant will generally realize ordinary income equal to the excess of the fair market value of the shares on the date of exercise over the exercise price. The Company will be able to deduct an amount equal to the ordinary income realized by the participant.

Restricted Stock

A participant who receives an award of restricted stock will realize ordinary income (on a per share basis) at the time any restrictions lapse equal to the difference between the fair market value of the common stock at the time such restrictions lapse and the amount (if any) paid for the stock. Alternatively,

Table of Contents

under Section 83 of the Internal Revenue Code, the participant may elect to accelerate the tax event and realize ordinary income (on a per share basis) equal to the difference between the purchase price (if any) of the common stock and the fair market value of the common stock on the date of grant upon the receipt of an award of restricted stock. When the participant recognizes ordinary income, the Company will be able to deduct an amount equal to the ordinary income recognized by the participant.

Restricted Stock Units

A participant who is granted an RSU will generally not recognize any income upon the grant of the award. The participant will generally recognize as ordinary income an amount equal to the fair market value of any shares transferred to the participant upon the vesting of such award. The Company will ordinarily be entitled to a deduction, in the amount of the ordinary income recognized by the participant, at the same time the participant recognizes such income, so long as the amount constitutes reasonable compensation.

Stock Appreciation Rights

Upon the exercise of any SAR, the value of any stock received will constitute ordinary income to the participant equal to the fair market value of the shares transferred to a participant upon the exercise. The Company will ordinarily be entitled to a deduction in the same amount and at the same time, so long as the amount constitutes reasonable compensation.

Section 409A

Section 409A, a section added to the Code in 2004, can affect the tax treatment of certain types of deferred compensation. Failure to comply with the requirements of Section 409A results in current income of amounts deferred, along with interest and a significant tax penalty. Certain types of equity-based compensation are exempt from Section 409A. The Company intends to operate the 2005 Plan so that all grants under the 2005 Plan are exempt from Section 409A.

Amendment Benefits

As of the date of this Proxy Statement, no executive officer, employee, director or consultant has been granted any award based upon the proposed amendment to the 2005 Plan. The benefits to be received by the eligible participants pursuant to the proposed amendment to the 2005 Plan are not determinable at this time.
