THE COMPANY

Halcón Resources Corporation (Halcón or the Company) is an independent energy company engaged in the acquisition, production, exploration and development of onshore oil and natural gas properties in the United States. Our producing properties are principally located in Texas, Oklahoma and Louisiana.

As of December 31, 2011, our estimated net proved reserves were 21.1 million barrels of oil equivalent, or MMBoe, of which approximately 59% were crude oil, 32% were natural gas, and 9% were natural gas liquids, or NGLs, based on benchmark prices of \$96.19 per barrel, or Bbl, of oil and \$4.12 per thousand cubic feet, or Mcf, of natural gas. The benchmark prices reflect the unweighted arithmetic average of the first-day-of-the-month price for oil and natural gas during each month of 2011, as required by SEC rules. At December 31, 2011, our proved developed reserves comprised 64% of our total proved reserves.

At December 31, 2011, we owned interests in approximately 4,000 gross wells and were the operator of leases upon which approximately 3,200 of these wells are located. We also own a drilling rig, various gathering systems, a natural gas processing plant, service rigs and a supply company that services our properties.

During the twelve months ended December 31, 2011, we drilled or participated in the drilling of 61 gross wells on our oil and natural gas properties, 49 of which were successfully completed as producing wells, five of which were abandoned wells and seven of which were either drilling or waiting to be completed at the end of that period. For the twelve months ended December 31, 2011, we produced 1,504 MBoe, averaging approximately 4,100 Boe per day.

Halcón is a Delaware corporation formerly known as RAM Energy Resources, Inc. Our principal offices are located at 1000 Louisiana Street, Suite 6700, Houston, Texas 77002, telephone number (832) 538-0300, and our website can be found at www.halconresources.com. Unless specifically incorporated by reference in this prospectus, information that you may find on our website is not part of this prospectus.

Recent Developments

We have recently engaged in several significant transactions:

Recapitalization by Halcón Resources, LLC

On February 8, 2012, Halcón Resources, LLC, a newly-formed company led by Floyd C. Wilson, former Chairman and Chief Executive Officer of Petrohawk Energy Corporation, recapitalized us with a \$550.0 million investment structured as the purchase of \$275.0 million in new common stock, a \$275.0 million five-year 8% convertible note and warrants for the purchase of an additional 36,666,667 million shares of our common stock at an exercise price of \$4.50 per share. At closing, Floyd C. Wilson was appointed as our Chairman, President and Chief Executive Officer, and our name was changed to Halcón Resources Corporation. Mark J. Mize was also appointed as our Executive Vice President, Chief Financial Officer, and Treasurer and was designated as our principal accounting officer, and the composition of our board was altered to consist of 10 new individuals: Floyd C. Wilson, Tucker S. Bridwell, James W. Christmas, Thomas R. Fuller, James L. Irish III, E. Murphy Markham IV, David B. Miller, Daniel A. Rioux, Stephen P. Smiley and Mark A. Welsh IV. Mr. Wilson was elected Chairman of the Board and Mr. Irish was named Lead Independent Director. The Audit Committee of the Board is composed of Mr. Irish (Chairman) and Messrs. Christmas and Smiley. The Nominating and Corporate Governance Committee is composed of Mr. Christmas (Chairman) and Messrs. Fuller, Rioux and Welsh. The Compensation Committee is composed of Mr. Smiley (Chairman) and Messrs. Bridwell, Markham and Rioux. Additionally, the Board established a Reserves Committee composed of Mr. Fuller (Chairman) and Messrs. Bridwell and Welsh.

In connection with the closing of the Halcón Transaction, we entered into a Senior Revolving Credit Agreement (the credit agreement) with J.P. Morgan Chase Bank, N.A., as administrative agent, and the other

Table of Contents

lenders named therein on February 8, 2012. The credit agreement provides for a \$500.0 million facility with an initial borrowing base of \$225.0 million. Amounts borrowed under the credit agreement will initially mature on February 8, 2017. The borrowing base will be redetermined semi-annually, with the company and the lenders each having the right to one interim unscheduled redetermination between any two consecutive semi-annual redeterminations. The borrowing base takes into account our oil and natural gas properties, proved reserves, total indebtedness, and other relevant factors consistent with customary oil and gas lending criteria.

Following the recapitalization, our primary focus is to expand our leasehold position in areas we have determined are prospective for oil or liquids-rich resource plays. We have identified several target resource plays for potential leasehold acquisition, including the Utica Shale/Point Pleasant formations in Ohio and Pennsylvania, the Mississippian Lime formation in Northern Oklahoma and Southern Kansas, the Wilcox formation in Southwest Louisiana and the Woodbine/Eagle Ford formations in East Texas. In addition to our ongoing lease acquisition efforts in our targeted resource plays, we have identified several new exploratory areas we believe are prospective for oil and liquids-rich hydrocarbons.

Private Placement of Convertible Preferred Stock

On March 5, 2012, we sold in a private placement to certain institutional accredited investors 4,444.4511 shares of convertible preferred stock for approximately \$400.0 million before offering expenses. On April 17, 2012, the convertible preferred stock automatically converted into 44,444,511 shares of our common stock after a definitive information statement was delivered to holders of Halcón common stock notifying them that Halcón's majority stockholder had consented to the issuance of common stock upon conversion of the convertible preferred stock. This prospectus is part of a registration statement filed by us to register for resale the common stock issued upon conversion of the preferred stock.

Pending Merger with GeoResources

On April 24, 2012, we entered into a definitive merger agreement with GeoResources, Inc., or GeoResources, pursuant to which we agreed to acquire all of the issued and outstanding shares of GeoResources common stock. Upon closing of the GeoResources acquisition, we will pay approximately \$532 million in cash and issue approximately 51 million shares of common stock to GeoResources' stockholders, based on the number of issued and outstanding shares of GeoResources common stock as of date of execution of the merger agreement. The transaction has been approved by each of company's board of directors and is subject to stockholder approval of each company as well as customary closing conditions. Closing of the GeoResources merger is expected to take place in the third quarter of 2012. Financial statements giving pro forma effect to the acquisition of GeoResources are incorporated herein by reference to Form 8-K filed by us with the SEC on June 25, 2012.

At December 31, 2011, GeoResources' estimated net proved reserves were 29.2 MMboe, of which approximately 67% were crude oil, 29% were natural gas, and 4% were natural gas liquids. At December 31, 2011 GeoResources' proved developed reserves comprised 69% of its total proved reserves. For the year ended December 31, 2011, GeoResources' net production averaged 5,270 Boe per day, which was 64% oil, 34% natural gas, and 2% natural gas liquids. For the quarter ended March 31, 2012, GeoResources' net production averaged 6,809 Boe per day, which was 65% oil, 32% natural gas, and 3% natural gas liquids. At December 31, 2011, GeoResources had total leasehold interests of 235,234 net acres, including approximately 55,000 acres in the Bakken trend of North Dakota and Montana and 24,000 acres in the Eagle Ford trend in South Texas.

Pending Acquisition of the East Texas Assets

In June 2012, we entered into purchase and sale agreements with several private oil and gas companies to acquire operating interests in 20,628 net acres of oil and gas leasehold in east Texas that we believe are prospective for the Woodbine formation. We refer to such properties as the East Texas Assets. Net daily

Table of Contents

production from the East Texas Assets is approximately 2,800 Boe per day as of June 1, 2012. The initial aggregate purchase price of \$526.8 million as of June 19, 2012 consists of approximately \$299.8 million in cash and the issuance of approximately 20.7 million shares of our common stock. The purchase price is subject to customary adjustments, including adjustments for an effective date of April 1, 2012, and other closing conditions typical for a transaction of this type, including downward adjustments for title and environmental defects under certain circumstances. We expect to close the acquisition in late July 2012. The statement of revenues and direct operating expenses of the East Texas Assets for the period from February 1, 2011 to December 31, 2011 and pro forma financial statements giving effect to our acquisition of the East Texas Assets are incorporated herein by reference to Form 8-K filed by us with the SEC on June 25, 2012.

RISK FACTORS

An investment in our common stock involves risks. Before you invest in our common stock, you should carefully consider the risk factors discussed or incorporated by reference in the applicable prospectus supplement, together with all the other information contained in the applicable prospectus supplement, this prospectus, or incorporated by reference, including the risk factors and other cautionary statements described under the heading "Risk Factors" included in our most recent Annual Report on Form 10-K, and, to the extent applicable, in subsequently filed Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. If any of these risks were to materialize, our business, results of operations, cash flows and financial condition could be materially adversely affected. In that case, the trading price of our common stock could decline and you could lose all or part of your investment.

USE OF PROCEEDS

This prospectus relates to the offer and sale from time to time of up to an aggregate of 44,444,511 shares of common stock for the account of the selling stockholders referred to in this prospectus. We will not receive any of the proceeds from the sale of any shares of common stock by the selling stockholders. Please read *Selling Stockholders* for a list of the persons receiving proceeds from the sale of the common stock covered by this prospectus.

DESCRIPTION OF HALCÓN CAPITAL STOCK

Set forth below is a description of the material terms of our capital stock. However, this description is not complete and is qualified by reference to our certificate of incorporation (including our certificate of designation) and bylaws. Copies of our certificate of incorporation (including our certificate of designation) and bylaws have been filed with the SEC and are incorporated by reference into this prospectus. Please read *Where You Can Find More Information; Incorporation by Reference*. You should also be aware that the summary below does not give full effect to the provisions of statutory or common law that may affect your rights as a stockholder.

Authorized Capital Stock

Our authorized capital stock consists of 366,666,666 shares of common stock, par value of \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. As of June 19, 2012, we had approximately 144.0 million shares of common stock outstanding.

Selected provisions of our organizational documents are summarized below, however, you should read the organizational documents, which are filed as exhibits to our periodic filings with the SEC and incorporated by reference, for other provisions that may be important to you. In addition, you should be aware that the summary below does not give full effect to the terms of the provisions of statutory or common law which may affect your rights as a stockholder.

Common Stock

Voting rights. Each share of common stock is entitled to one vote in the election of directors and on all other matters submitted to a vote of stockholders. Stockholders do not have the right to cumulate their votes in the election of directors.

Dividends, distributions and stock splits. Holders of common stock are entitled to receive dividends if, as and when such dividends are declared by the board of directors out of assets legally available therefor after payment of dividends required to be paid on shares of preferred stock, if any. Our existing debt arrangements restrict our ability to pay cash dividends.

Liquidation. In the event of any dissolution, liquidation, or winding up of our affairs, whether voluntary or involuntary, after payment of debts and other liabilities and making provision for any holders of its preferred stock who have a liquidation preference, our remaining assets will be distributed ratably among the holders of common stock.

Fully paid. All shares of common stock outstanding are fully paid and nonassessable.

Other rights. Holders of common stock have no redemption or conversion rights and no preemptive or other rights to subscribe for our securities.

Table of Contents

Preferred Stock

Our board of directors has the authority to issue up to 1,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion rates, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series or the designation of that series, which may be superior to those of the common stock, without further vote or action by the stockholders. One of the effects of undesignated preferred stock may be to enable our board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a tender offer, proxy contest, merger or otherwise, and as a result to protect the continuity of our management. The issuance of shares of the preferred stock by the board of directors as described above may adversely affect the rights of the holders of common stock. For example, preferred stock issued by us may rank superior to the common stock as to dividend rights, liquidation preference or both, may have full or limited voting rights and may be convertible into shares of common stock. Accordingly, the issuance of shares of preferred stock may discourage bids for our common stock or may otherwise adversely affect the market price of our common stock.

Delaware Anti-Takeover Law and Certain Charter and Bylaw Provisions

Our certificate of incorporation, bylaws and the Delaware General Corporation Law (the "DGCL") contain certain provisions that could discourage potential takeover attempts and make it more difficult for stockholders to change management or receive a premium for their shares.

Delaware law. Under Section 203 of the DGCL, a corporation is prohibited from engaging in any business combination with a stockholder who, together with its affiliates or associates, owns (or who is an affiliate or associate of the corporation and within a three-year period did own) 15% or more of the corporation's outstanding voting stock (which we refer to as an "interested stockholder") for a three-year period following the time the stockholder became an interested stockholder, unless:

prior to the time the stockholder became an interested stockholder, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

the interested stockholder owned at least 85% of the voting stock of the corporation, excluding specified shares, upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder; or

at or subsequent to the time the stockholder became an interested stockholder, the business combination is approved by the board of directors of the corporation and authorized by the affirmative vote, at an annual or special meeting, and not by written consent, of at least $66\frac{2}{3}\%$ of the outstanding voting shares of the corporation, excluding shares held by that interested stockholder.

A business combination generally includes:

mergers and consolidations with or caused by an interested stockholder;

sales or other dispositions of 10% or more of the assets of a corporation to an interested stockholder;

specified transactions resulting in the issuance or transfer to an interested stockholder of any capital stock of the corporation or its subsidiaries; and

other transactions resulting in a disproportionate financial benefit to an interested stockholder.

The provisions of Section 203 of the DGCL do not apply to a corporation if, subject to certain requirements, the certificate of incorporation or bylaws of the corporation contain a provision expressly electing not to be governed by the provisions of the statute or the corporation does not have voting stock listed on a national securities exchange or held of record by more than 2,000 stockholders.

Table of Contents

Because our certificate of incorporation and bylaws do not include any provision to opt-out of Section 203 of the DGCL, the statute will apply to business combinations involving the Company.

Charter and bylaw provisions. Delaware law permits any Delaware corporation to classify its board of directors into as many as three (3) classes as equally as possible with staggered terms of office. After initial implementation of a classified board, one class will be elected at each annual meeting of the stockholders to serve for a term of three (3) years (depending upon the number of classes into which directors are classified) or until their successors are elected and take office. Our certificate of incorporation and bylaws provide for a classified board of directors divided into three (3) classes, with the number of directors in each class as nearly equal as possible and each class serving for a term of three (3) years or until their successors are elected and qualified. Under Delaware law, stockholders of a corporation with a classified board of directors may only remove a director for cause unless the certificate of incorporation provides otherwise. Our certificate of incorporation does not so provide and, accordingly, stockholders may only remove a director for cause. Further, our bylaws provide that a majority vote of the holders of the outstanding shares entitled to vote at the meeting is required to effect such removal. The likely effect of the classification of the board of directors and the limitations on the removal of directors is an increase in the time required for the stockholders to change the composition of the board of directors. For example, because only approximately one-third of the directors may be replaced by stockholder vote at each annual meeting of stockholders, stockholders seeking to replace a majority of the members of the board of directors will need at least two annual meetings of stockholders to effect this change.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Continental Stock Transfer & Trust Company, 17 Battery Place, New York, NY 10004. Its phone number is (212) 509-4000.

Table of Contents**SELLING STOCKHOLDERS**

The shares of our common stock covered by this prospectus are being offered by the selling stockholders listed in the table below. This prospectus will not cover subsequent sales of common stock purchased from a selling stockholder named in this prospectus.

No offer or sale under this prospectus may be made by a stockholder unless that holder is listed in the table below, in a supplement to this prospectus or in an amendment to the related registration statement that has become effective. We will supplement or amend this prospectus to include additional selling stockholders upon request and upon provision of all required information to us, subject to the terms of a registration rights agreement between us and one of the placement agents, on behalf of the selling stockholders.

The following table sets forth the maximum number of shares of our common stock to be sold by the selling stockholders. The table also sets forth the name of each selling stockholder, the nature of any position, office, or other material relationship which the selling stockholder has had, within the past three years, with us or with any of our predecessors or affiliates, and the number of shares of our common stock to be owned by such stockholders after completion of the offering.

We prepared the table based on information supplied to us by the selling stockholders. We have not sought to verify such information. Additionally, the selling stockholders may have sold or transferred some or all of their shares of our common stock in transactions exempt from the registration requirements of the Securities Act of 1933, as amended (the Securities Act) since the date on which the information in the table was provided to us. Other information about the selling stockholders may also change over time.

Except as otherwise indicated, each selling stockholder has sole voting and dispositive power with respect to such shares.

- (1) Beneficial ownership is determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended (the Exchange Act), and includes any shares as to which the stockholder has sole or shared voting power or investment control, and also any shares which the stockholder has the right to acquire within 60 days of the date hereof, whether through the exercise or conversion of any stock option, convertible security, warrant or other right. The indication herein that shares are beneficially owned is not an admission on the part of the stockholder that he, she or it is a direct or indirect beneficial owner of those shares. Because the selling stockholders are not obligated to sell all or any portion of the shares of our common stock shown as offered by them, we cannot estimate the actual number of shares (or actual percentage of the class) of our common stock that will be held by any selling stockholder upon completion of this resale offering. However, for purposes of this table, we have assumed that, after completion of the offering, none of the shares covered by this prospectus will be held by the applicable selling stockholder.
