PROSPECTUS SUPPLEMENT

(To Prospectus dated August 2, 2010)

Moody's Corporation

\$500,000,000

4.50% Senior Notes due 2022

We are offering \$500,000,000 aggregate principal amount of our 4.50% Senior Notes due 2022. The notes will be our senior unsecured obligations, will rank equally with all of our other unsecured and unsubordinated indebtedness and will not be convertible or exchangeable. We do not intend to apply for listing of the notes on any securities exchange.

We will pay interest on the notes semi-annually on March 1 and September 1 of each year, beginning on March 1, 2013. The notes will mature on September 1, 2022. We may redeem some or all of the notes at our option from time to time, prior to their maturity at the redemption price described under the caption "Description of Notes—Optional Redemption" in this prospectus supplement, plus any accrued and unpaid interest up to, but not including, the redemption date. Notwithstanding the immediately preceding sentence, we may redeem some or all of the notes from time to time on or after June 1, 2022 (three months prior to their maturity), at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus any accrued and unpaid interest up to, but not including, the redemption date.

If we experience a change of control triggering event, each holder of notes may require us to repurchase some or all of its notes at a purchase price equal to 101% of the aggregate principal amount of the notes repurchased, plus any accrued and unpaid interest up to, but not including, the repurchase date. See "Description of Notes—Change of Control."

Investing in the notes involves risks. You should carefully read and consider the risk factors included in this prospectus supplement beginning on page S-8 and included in our periodic reports and other information that we file with the Securities and Exchange Commission before you invest in the notes.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	Public Offering Price	Underwriting Discount	Proceeds, Before Expenses, to Moody's Corporation
Per Note	99.218%	0.650%	98.568%
Total	\$ 496,090,000	\$ 3,250,000	\$ 492,840,000

The initial public offering price set forth above does not include accrued interest. Interest on the notes will begin to accrue on August 20, 2012 and must be paid by the purchaser if the notes are delivered after August 20, 2012.

The underwriters expect to deliver the notes in book-entry form through the facilities of The Depository Trust Company and its participants, including Clearstream and Euroclear, on or about August 20, 2012.

ABOUT THIS PROSPECTUS SUPPLEMENT

We provide information to you about this offering in two separate documents. The accompanying prospectus provides general information about us and the debt securities we may offer from time to time. This prospectus supplement describes the specific details regarding this offering. Additional information is incorporated by reference in this prospectus supplement. If information in this prospectus supplement is inconsistent with the accompanying prospectus, you should rely on this prospectus supplement.

You should rely only on the information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus or any free writing prospectus filed by us with the Securities and Exchange Commission, or the SEC. We have not, and the underwriters have not, authorized anyone else to provide you with different or additional information. We take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer and sale is not permitted. You should not assume that the information in this prospectus supplement, the accompanying prospectus, any free writing prospectus or any document incorporated by reference is accurate as of any date other than their respective dates. Our business, financial condition, results of operations and prospects may have changed since those dates.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein or therein are forward-looking statements and are based on future expectations, plans and prospects for our business and operations that involve a number of risks and uncertainties. Such statements involve estimates, projections, goals, forecasts, assumptions and uncertainties that could cause actual results or outcomes to differ materially from those contemplated, expressed, projected, anticipated or implied in the forward-looking statements. Those statements appear at various places throughout this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein or therein, including in the sections containing the words believe, expect, anticipate, intend, plan, will, predict, potential, continue, strategy, aspire, target, forecast, project, estimate, should, could, may and variations thereof relating to our views on future events, trends and contingencies. Investors are cautioned not to place undue reliance on these forward-looking statements. The forward-looking statements and other information speak only as of the date on the front cover of the applicable document, and we undertake no obligation (nor do we intend) to publicly supplement, update or revise such statements on a going-forward basis, whether as a result of subsequent developments, changed expectations or otherwise. In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, we are identifying examples of factors, risks and uncertainties that could cause actual results to differ, perhaps materially, from those indicated by these forward-looking statements. Those factors, risks and uncertainties include, but are not limited to:

the current world-wide credit market disruptions and economic slowdown, which is affecting and could continue to affect the volume of debt and other securities issued in domestic and/or global capital markets;

other matters that could affect the volume of debt and other securities issued in domestic and/or global capital markets, including credit quality concerns, changes in interest rates and other volatility in the financial markets;

the uncertain effectiveness and possible collateral consequences of United States and foreign government initiatives to respond to the economic slowdown;

concerns in the marketplace affecting our credibility or otherwise affecting market perceptions of the integrity or utility of independent agency ratings;

the introduction of competing products or technologies by other companies;

pricing pressure from competitors and/or customers;

the impact of regulation as a nationally recognized statistical rating organization, or an NRSRO, and the potential for new United States, state and local legislation and regulations, including provisions in the Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Financial Reform Act, and anticipated regulations resulting from that law;

the potential for increased competition and regulation in the EU and other foreign jurisdictions;

exposure to litigation related to our rating opinions, as well as any other litigation to which we may be subject from time to time;

provisions in the Financial Reform Act and potential EU regulations, modifying pleading and liability standards applicable to credit rating agencies in a manner adverse to rating agencies;

the possible loss of key employees;

failures or malfunctions of our operations and infrastructure;

the outcome of any review by controlling tax authorities of our global tax planning initiatives;

the outcome of those Legacy Tax Matters (as defined in the documents incorporated by reference herein) and legal contingencies that relate to us, our predecessors and affiliated companies for which we have assumed portions of the financial responsibility;

S-2

Table of Contents

our ability to successfully integrate acquired businesses;

currency and foreign exchange volatility; and

a decline in the demand for credit risk management tools by financial institutions.

The foregoing factors, risks and uncertainties as well as other risks and uncertainties that could cause Moody's actual results to differ materially from those contemplated, expressed, projected, anticipated or implied in the forward-looking statements are described in greater detail under

Risk Factors in this prospectus supplement, in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, and in other filings made by us from time to time with the SEC or in materials incorporated herein or therein. Investors are cautioned that the occurrence of any of these factors, risks and uncertainties may cause our actual results to differ materially from those contemplated, expressed, projected, anticipated or implied in the forward-looking statements, which could have a material and adverse effect on our business, results of operations and financial condition. New factors may emerge from time to time, and it is not possible for us to predict new factors, nor can we assess the potential effect of any new factors on us.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to incorporate by reference documents we file with the SEC into this prospectus supplement, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered part of this prospectus supplement. Any statement in this prospectus supplement or incorporated by reference into this prospectus supplement shall be automatically modified or superseded for purposes of this prospectus supplement to the extent that a statement contained herein or in a subsequently filed document that is incorporated by reference in this prospectus supplement modifies or supersedes such prior statement. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus supplement.

We incorporate by reference into this prospectus supplement the documents listed below and all documents we subsequently file with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, prior to the completion of the offering of the notes (other than documents or information deemed to have been furnished and not filed in accordance with SEC rules):

our Annual Report on Form 10-K for the year ended December 31, 2011 filed on February 27, 2012, including portions of our Definitive Proxy Statement on Schedule 14A filed on March 6, 2012, to the extent specifically incorporated by reference into such Annual Report on Form 10-K;

our Quarterly Reports on Form 10-Q for the periods ended March 31, 2012, filed on May 2, 2012 and June 30, 2012, filed on July 30, 2012; and

our Current Reports on Form 8-K filed on April 20, 2012, April 24, 2012 and July 24, 2012.

You may request a copy of these filings, at no cost, by writing or telephoning us at:

SUMMARY

This summary highlights the information contained elsewhere, or incorporated by reference, in this prospectus supplement. Because this is only a summary, it does not contain all of the information that may be important to you. For a more complete understanding of this offering, we encourage you to read this entire prospectus supplement, the accompanying prospectus and the documents to which we refer you. You should read the following summary together with the more detailed information and consolidated financial statements and the notes to those statements included elsewhere in this prospectus supplement and the accompanying prospectus and incorporated by reference herein.

Moody's Corporation

Moody's is a provider of (i) credit ratings, (ii) credit and economic related research, data and analytical tools, (iii) software solutions and related risk management services, (iv) quantitative credit risk measures, financial services training and certification services and (v) outsourced research and analytical services to institutional customers. Moody's reports in two reportable segments: Moody's Investors Service, or MIS and Moody's Analytics, or MA. The MIS segment consists of all credit rating activity. All of Moody's other non-rating commercial activities are included within the MA segment.

MIS, the credit rating agency, publishes credit ratings on a wide range of debt obligations and the entities that issue such obligations in markets worldwide, including various corporate and governmental obligations, structured finance securities and commercial paper programs. Revenue is derived from the originators and issuers of such transactions who use MIS ratings to support the distribution of their debt issues to investors. MIS provides ratings in more than 110 countries. Ratings are disseminated via press releases to the public through a variety of print and electronic media, including the Internet and real-time information systems widely used by securities traders and investors. As of December 31, 2011, MIS had ratings relationships with approximately 11,000 corporate issuers and approximately 22,000 public finance issuers. Additionally, we have rated and currently monitor ratings on approximately 94,000 structured finance obligations (representing approximately 14,000 transactions). The aforementioned amounts relating to the number of issuers and transactions represent issuers or transactions that had an active rating at any point during the year ended December 31, 2011.

The MA segment develops a wide range of products and services that primarily support financial analysis and risk management activities of institutional participants in global financial markets. Within its Research, Data and Analytics business, MA distributes research and data developed by MIS as part of its ratings process, including in-depth research on major debt issuers, industry studies and commentary on topical credit-related events and also provides economic research as well as data and analytical tools such as quantitative credit risk scores. Within its enterprise risk solutions business (formerly referred to as its Risk Management Software business), MA provides software solutions as well as related risk management services. The professional services business provides outsourced research and analytical services and financial training and certification programs. As of December 31, 2011, MA customers represented more than 4,600 institutions worldwide operating in approximately 115 countries. During 2011, Moody's research web site was accessed by over 226,000 individuals including 28,000 client users.

Corporate information

Our principal executive offices are located at 7 World Trade Center at 250 Greenwich Street, New York, New York 10007, and our telephone number is (212) 553-0300. Information on our website does not constitute part of this prospectus supplement and should not be relied upon in connection with making any investment decision with respect to the securities offered by this prospectus supplement.

S-4

Table of Contents

THE OFFERING

The following is a brief summary of some of the terms of this offering. For a more complete description of the terms of the notes, see Description of Notes herein and Description of Debt Securities in the accompanying prospectus.

Issuer	Moody's Corporation
Notes Offered	\$500 million aggregate principal amount of 4.50% Senior Notes due 2022.
Maturity	The notes will mature on September 1, 2022.
Interest	Interest will accrue on the notes at the rate of 4.50% per year, and will be payable in cash semi-annually in arrears on March 1 and September 1 of each year, beginning on March 1, 2013. Interest on the notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.
Ranking	<p>The notes will be general unsecured obligations of ours and will rank equally with all of our existing and future unsubordinated obligations.</p> <p>Holders of any of our existing or future secured indebtedness will have claims that are prior to your claims as holders of the notes, to the extent of the value of the assets securing such indebtedness, in the event of any bankruptcy, liquidation or similar proceeding.</p> <p>As of June 30, 2012, we had approximately \$1.2 billion of senior, unsecured indebtedness outstanding ranking equally with the notes, and we had no secured indebtedness outstanding.</p> <p>As of August 13, 2012, our outstanding borrowings under our five-year senior, unsecured term loan facility were \$127.5 million.</p> <p>The notes will be structurally subordinated to all existing and future obligations of our subsidiaries, including claims with respect to trade payables. As of June 30, 2012, our subsidiaries had no indebtedness, but they had approximately \$1.8 billion of other liabilities outstanding (excluding intercompany liabilities).</p>
No Guarantees	The notes will not be guaranteed by any of our subsidiaries.
Further Issues	We may create and issue further notes ranking equally and ratably in all respects with the notes being offered hereby, so that such further notes will be consolidated and form a single series with the notes being offered hereby and will have the same terms as to status, CUSIP number or otherwise. See Description of Notes Further Issues.

Table of Contents

Optional Redemption

We may redeem all or a portion of the notes at our option at any time prior to their maturity at the make-whole redemption price described under Description of Notes Optional Redemption, plus accrued and unpaid interest, if any, to, but excluding the redemption date.

Notwithstanding the immediately preceding paragraph, we may redeem all or a portion of the notes at our option at any time on or after June 1, 2022 (three months prior to their maturity), at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding the redemption date.

Certain Covenants

We will issue the notes under an indenture that will, among other things, limit our ability to create liens and enter into sale and leaseback transactions. All of these limitations will be subject to a number of important qualifications and exceptions. See Description of Notes.

Repurchase at the Option of the Holders of the Notes

If we experience a change of control triggering event, each holder of notes may require us to repurchase some or all of the notes at a purchase price equal to 101% of the aggregate principal amount of the notes repurchased, plus any accrued and unpaid interest up to, but not including, the repurchase date. See Description of Notes Change of Control.

Use of Proceeds

The net proceeds from this offering after deducting the underwriters' discount and our estimated expenses will be approximately \$492.3 million. We expect to use the net proceeds from this offering for general corporate purposes, which may include repayment of debt, as set forth under Use of Proceeds.

Book-Entry Form

The notes will be issued in the form of one or more fully registered global notes, which will be deposited with, or on behalf of, The Depository Trust Company, New York, New York, or the Depository, and registered in the name of Cede & Co., the Depository's nominee. Beneficial interests in the global notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in the Depository. Investors may elect to hold interests in the global notes through either the Depository (in the United States), or Clearstream Banking Luxembourg S.A. or Euroclear Bank S.A./N.V. as operator of the Euroclear System (in Europe), if they are participants in those systems, or indirectly through organizations that are participants in those systems.

Absence of Public Market

The notes are new securities for which there is currently no established market. Accordingly, we cannot assure you as to the development or liquidity of any market for the notes. The

Table of Contents

underwriters have advised us that they currently intend to make a market in the notes. However, they are not obligated to do so, and they may discontinue any market making activities with respect to the notes without notice to you or us. We do not intend to apply for listing of the notes on any securities exchange.

Governing Law

The notes and the indenture under which they will be issued will be governed by New York law.

Trustee

Wells Fargo Bank, National Association

Risk Factors

Investing in the notes involves risk. See **Risk Factors** and the other information included in or incorporated by reference in this prospectus supplement for a discussion of factors you should carefully consider before deciding to invest in the notes.

S-7

Table of Contents

RISK FACTORS

An investment in the notes involves significant risks. Before purchasing the notes you should carefully consider and evaluate all of the information included and incorporated by reference in this prospectus supplement and the accompanying prospectus, including the risk factors incorporated by reference herein from our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, as updated by annual, quarterly and other reports and documents we file with the SEC after the date of this prospectus supplement. Our business, results of operations or financial condition could be adversely affected by any of these risks or by additional risks and uncertainties not currently known to us or that we currently consider immaterial.

Our level of indebtedness could limit cash flow available for our operations and could adversely affect our ability to service our debt or obtain additional financing, if necessary.

As of June 30, 2012, our total debt outstanding was approximately \$1.2 billion, which includes the current portion of our long-term debt of approximately \$127.5 million (consisting of outstanding borrowings under our five-year senior, unsecured term loan facility). Our level of indebtedness could restrict our operations and make it more difficult for us to satisfy our obligations under the notes. For example, our level of indebtedness could, among other things:

limit our ability to obtain additional financing for working capital, capital expenditures and acquisitions or make such financing more costly;

require us to dedicate all or a substantial portion of our cash flow to service our debt, which will reduce funds available for other business purposes, such as capital expenditures, dividends or acquisitions;

limit our flexibility in planning for or reacting to changes in the markets in which we compete;

place us at a competitive disadvantage relative to our competitors with less indebtedness;

render us more vulnerable to general adverse economic and industry conditions; and

make it more difficult for us to satisfy our financial obligations, including those relating to the notes.

In addition, the indenture governing the notes, our existing credit agreements and the terms of the agreements governing our other outstanding indebtedness contain or will contain financial and other restrictive covenants that will limit our ability to engage in activities that may be in our long-term best interests. Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of our outstanding indebtedness and cause our debt to become immediately due and payable, including the notes.

We are a holding company. Our only material source of cash is and will be distributions from our subsidiaries, and the notes are effectively subordinated to all of the indebtedness and other liabilities of our subsidiaries.

We are a holding company and substantially all of our operations are conducted through direct and indirect subsidiaries. As a holding company, we own no significant assets other than our equity in our subsidiaries, and our ability to meet our debt service obligations, including payments on the notes, will be dependent on dividends and other distributions or payments from our subsidiaries. The ability of our subsidiaries to pay dividends or make distributions or other payments to us depends upon the availability of cash flow from operations, proceeds from the sale of assets and/or borrowings, and, in the case of non-wholly owned subsidiaries, our contractual arrangements with other equity holders.

As of June 30, 2012, our subsidiaries had no indebtedness, but they had approximately \$1.8 billion of other liabilities outstanding (excluding intercompany liabilities). Our right to receive any assets of any of our subsidiaries upon liquidation or reorganization, and, as a result, the right of the holders of notes to participate in

S-8

Table of Contents

those assets, will be effectively subordinated to the claims of that subsidiary's creditors, including trade and other creditors and preferred stockholders, if any (except as provided by the limitations on liens covenant). Furthermore, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to indebtedness held by us.

The notes will be effectively subordinated to all of our existing and future secured indebtedness.

The notes will not be secured by any of our assets. As a result, the indebtedness represented by the notes will be effectively subordinated to any existing and future secured indebtedness we may incur to the extent of the value of the assets securing such indebtedness. The terms of the indenture will permit us to incur secured debt, subject to some limitations. In the event of any distribution or payment of our assets in any foreclosure, dissolution, winding up, liquidation or reorganization, or other bankruptcy proceeding, any secured creditors would have a claim to their collateral superior to that of the notes.

Our ability to service our debt and meet our cash requirements depends on many factors, some of which are beyond our control.

Our ability to satisfy our obligations will depend on our future operating performance and financial results, which will be subject, in part, to factors beyond our control, including interest rates and general economic, financial, regulatory and business conditions. If we are unable to generate sufficient cash flow to service our debt, we may be required to:

refinance all or a portion of our debt, including the notes;

obtain additional financing;

sell some of our assets or operations;

reduce or delay capital expenditures and/or acquisitions; or

revise or delay our strategic plans.

If we are required to take any of these actions, it could have a material adverse effect on our business, financial condition and results of operations. In addition, we cannot assure you that we would be able to take any of these actions, that these actions would enable us to continue to satisfy our capital requirements or that these actions would be permitted under the terms of our various debt instruments.

Our failure to meet the terms of covenants in our existing debt agreements may result in an event of default.

Edgar Filing: MOODYS CORP /DE/ - Form 424B2

Covenants in certain of our existing debt agreements include restrictions on our ability to, among other things, enter into transactions with affiliates, dispose of assets, incur or create liens and enter into sale and leaseback transactions. In addition, a covenant in certain of our existing debt agreements limits our ability to consolidate with or merge with any other corporation or convey, transfer or lease substantially all of our assets. Certain of our existing debt agreements also contain financial covenants that require us to maintain a ratio of total indebtedness to earnings before interest, taxes, depreciation and amortization, or a Debt/EBITDA ratio, of not more than 4.0 to 1.0 at the end of any fiscal quarter. At June 30, 2012, our Debt/EBITDA ratio was 1.2. Events beyond our control can affect our ability to meet these covenants.

If we are unable to meet the terms of our financial covenants, or if we break any of these covenants, a default could occur under one or more of these debt agreements. A default, if not waived by our lenders, could result in the acceleration of our outstanding indebtedness and cause our debt to become immediately due and payable. If acceleration occurs, we would not be able to repay our debt and it is unlikely that we would be able to borrow sufficient funds to refinance our debt. Even if new financing is offered to us, it may not be on terms acceptable to us.

S-9

Table of Contents

We may not be able to repurchase the notes upon a change of control.

Upon a change of control triggering event, as defined under the indenture governing the notes, we are required to offer to repurchase all of the notes then outstanding at a price equal to 101% of the aggregate principal amount of the notes repurchased, plus accrued interest. In order to obtain sufficient funds to pay the purchase price of the outstanding notes, we expect that we would have to refinance the notes. We cannot assure you that we would be able to refinance the notes on reasonable terms, if at all. Our failure to offer to purchase all outstanding notes or to purchase all validly tendered notes would be an event of default under the indenture governing the notes. Such an event of default may cause the acceleration of our other indebtedness. Our future indebtedness may also contain restrictions on repayment requirements with respect to specified events or transactions that constitute a change of control triggering event under the indenture. Please see the section entitled Description of Notes Change of Control.

We may choose to redeem the notes when prevailing interest rates are relatively low.

The notes are redeemable at our option, and we may choose to redeem some or all of the notes from time to time, especially when prevailing interest rates are lower than the rate borne by the notes. If prevailing rates are lower at the time of redemption, you would not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on the notes being redeemed. Our redemption right also may adversely affect your ability to sell your notes as the optional redemption date or period approaches. See Description of Notes Optional Redemption.

There is no current public market for the notes and a market may not develop.

The notes are a new issue of securities for which there is currently no public trading market. We cannot guarantee:

the liquidity of any market that may develop for the notes;

your ability to sell the notes; or

the price at which you might be able to sell the notes.

Liquidity of any market for the notes and future trading prices of the notes will depend on many factors, including:

prevailing interest rates;

our operating results; and

the market for similar securities.

The underwriters have advised us that they currently intend to make a market in the notes, but they are not obligated to do so and may cease any market making at any time without notice. We do not intend to apply for listing of the notes on any securities exchange. As a result, it may be difficult for you to find a buyer for the notes at the time you want to sell them and, even if you find a buyer, you might not receive the price you want.

S-10

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our consolidated ratio of earnings to fixed charges for the periods indicated.

	Six months ended June 30,		Year ended December 31,			
	2012	2011	2010	2009	2008	2007
Ratio of earnings to fixed charges(1)	13.5	9.2	9.4	10.2	8.6	14.2

- (1) For the purpose of calculating the ratio of earnings to fixed charges, earnings represent income before income taxes and non-controlling interests plus fixed charges and amortization of capitalized interest expense, less capitalized interest. Fixed charges are the sum of interest on borrowings and one-third of rental expense, which represents our estimate of the interest component of rental expense. Additionally, fixed charges include interest expense (income), net related to unrecognized tax benefits and other tax-related liabilities. As of the date of this prospectus supplement, we had no preferred stock outstanding.

S-11

Table of Contents

USE OF PROCEEDS

We estimate that we will receive net proceeds from this offering of approximately \$492.3 million, after deducting underwriting discounts and estimated expenses of the offering payable by us. We expect to use the net proceeds from this offering for general corporate purposes, including:

redemption and repayment of short-term or long-term borrowings, which may include repayment of up to \$127.5 million of borrowings under our five-year senior, unsecured term loan facility;

working capital;

capital expenditures;

acquisitions of or investments in businesses or assets; and

purchases of our common stock under our authorized stock repurchase program.

As of August 13, 2012, the weighted average interest rate on the term loan facility borrowings which may be repaid was 1.71%, and our outstanding borrowings under the term loan facility were \$127.5 million. Our term loan facility matures on May 7, 2013. Affiliates of certain of the underwriters in this offering are lenders under our term loan facility and may receive a portion of the net proceeds from this offering. See Underwriting in this prospectus supplement.

Pending application of the net proceeds from the sale of the notes, we may invest the net proceeds in short-term investments.

Table of Contents

REGULATION

MIS and many of the securities that it rates are subject to extensive regulation in both the U.S. and in other countries (including by state and local authorities). Thus, existing and proposed laws and regulations can impact our operations and the markets for securities that we rate. Additional laws and regulations have been adopted but not yet implemented or have been proposed or are being considered. Each of the existing, adopted, proposed and potential laws and regulations can increase the costs and legal risk associated with the issuance of credit ratings and may negatively impact our operations or profitability, our ability to compete, or result in changes in the demand for credit ratings, in the manner in which ratings are utilized and in the manner in we operate.

In the EU, in 2009, the European Parliament passed a new regulation (EU Regulation) that establishes an oversight regime for the credit rating agency industry in the EU. The framework for the EU Regulation requires the registration, formal regulation and periodic inspection of credit rating agencies operating in the EU. The EU Regulation also sets out specific requirements for the use of ratings that are produced outside of the EU and are used for regulatory purposes in the EU. Among these is a requirement for the relevant competent authority in the EU and the competent authority of the non-EU jurisdiction where that rating has been produced to enter into a cooperation agreement containing provisions related to the exchange of information and the coordination of supervisory activities. The EU Regulation became fully effective in September 2010. MIS applied for registration in August 2010 and was granted registration in October 2011. In addition, the European Securities and Markets Authority, or ESMA, was established in January 2011 and has had direct supervisory responsibility for the registered credit rating agency industry in the EU since July 2011. In March 2012, ESMA published a report on its supervision of credit rating agencies, which summarized the results of ESMA's first examinations of MIS, Fitch Ratings and S&P. ESMA's report includes a series of recommendations for enhanced or changed practices among all of the examined credit rating agencies. The report did not publicly link any specific credit rating agency with respect to particular findings by ESMA. As of the date of its report, ESMA had not determined whether any of its observations constituted a breach of the provisions of the EU Regulation, ESMA reserved its right to identify specific regulatory breaches at a later stage.

The regulatory framework of the credit rating agency industry continues to be discussed in the EU.

In November 2011, the European Commission issued proposed amendments to its existing regulations. If enacted as proposed, the revised regulations, among other things, would:

impose various additional procedural requirements with respect to ratings of sovereign issuers;

require member states to adopt laws imposing liability on credit rating agencies for an intentional or grossly negligent failure to abide by the applicable regulations;

potentially impose a greater burden of proof on credit rating agencies accused of failing to abide by applicable regulations;

impose mandatory rotation requirements on credit rating agencies hired by issuers of securities, thereby limiting the number of years a credit rating agency can issue ratings for securities of a particular issuer;

enhance ESMA's role in reviewing rating methodologies;
