Item 2.02 Results of Operation and Financial Condition

As of December 31, 2013, CytRx Corporation (we, us, our or the Company) had cash and cash equivalents of approximately $11.5 million and short-term investments of approximately $27.1 million, or total liquid assets of approximately $38.6 million.

Item 8.01 Other Events

We provide the following information for purposes of updating corresponding information contained in our previously filed reports:

Top-Line Phase 2b Clinical Data

Based on updated data from additional evaluable patients in our ongoing global Phase 2b clinical trial of aldoxorubicin for first-line soft tissue sarcoma, or STS, the trial patients treated with aldoxorubicin exhibited an overall response rate as determined by the trial investigators of 24.0% (2.7% complete response and 21.3% partial response), versus 5.3% partial response (zero complete response) for patients treated with doxorubicin, compared to the previously reported overall response rate of 25.4% (2.7% complete response and 22.7% partial response) for patients treated with aldoxorubicin, versus 5.4% partial response (zero complete response) for patients treated with doxorubicin. There was no change in the previously reported overall response rate of 23.0% for aldoxorubicin versus zero response for doxorubicin, as assessed by blinded central radiology review.

The previously reported progression-free survival, or PFS, PFS at six months and hazard ratio data remain unchanged.

Certain Risk Factors

We have also updated our risk factors from the disclosure contained in our previously filed reports. A copy of our updated risk factors is filed herewith as Exhibit 99.1 and is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits
