RAND CAPITAL CORPORATION AND SUBSIDIARY
CONDENSED CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS

September 30, 2014 (Continued)

(Unaudited)

Notes to the Condensed Consolidated Schedule of Portfolio Investments

- (a) At September 30, 2014, restricted securities represented approximately 98% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable. Freed Maxick CPAs, P.C. has not audited the business descriptions of the portfolio companies.
- (b) The Date Acquired column indicates the year in which the Corporation acquired its first investment in the company or a predecessor company. Freed Maxick CPAs, P.C. has not audited the date acquired of the portfolio companies.
- (c) Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. Freed Maxick CPAs, P.C. has not audited the equity percentages of the portfolio companies. If applicable, the symbol <1% indicates that the Corporation holds an equity interest of less than one percent.
- (d) The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820 Fair Value Measurements which defines fair value and establishes guidelines for measuring fair value. At September 30, 2014, ASC 820 designates 2% of the Corporation's investments as Level 1 and 98% as Level 3 assets. Under the valuation policy of the Corporation, unrestricted publicly held securities are valued at the average closing bid price for these securities for the last three trading days of the month. Restricted securities are subject to restrictions on resale, and are valued at fair value as determined by the management of the Corporation and submitted to the Board of Directors for approval. Fair value is considered to be the amount which the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see Note 3 Investments to the Condensed Consolidated Financial Statements).
- (e) These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months, or are not expected to do so going forward.
- (f) As of September 30, 2014, the total cost of investment securities approximated \$23.2 million. Net unrealized appreciation was approximately \$9.5 million, which was comprised of \$11.0 million of unrealized appreciation of investment securities and (\$1.5) million related to unrealized depreciation of investment securities. At September 30, 2014 the aggregate gross unrealized gain for federal income tax purposes was \$7,058,667 and the aggregate gross unrealized loss for federal income tax purposes was (\$1,729,356). The net unrealized gain was \$5,329,311 based on a tax cost of \$27,420,529.

- (g) Rand Capital SBIC, Inc. investment.
- (h) Reduction in cost and value from previously reported balances reflects current principal repayment.
- (i) Represents interest due (amounts over \$50,000 net of reserves) from investment included as interest receivable on the Corporation's Statement of Financial Position. As of September 30, 2014 there were no interest receivable amounts exceeding \$50,000.
- (j) Non-Control/Non-Affiliate investments are investments that are neither Control Investments nor Affiliate Investments.
- (k) Affiliate investments are defined by the Investment Company Act of 1940, as amended (1940 Act), as those Non-Control investments in companies in which between 5% and 25% of the voting securities are owned.
- (l) Control investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned or where greater than 50% of the board representation is maintained.
- (m) Gemcor II, LLC is an unconsolidated significant subsidiary as defined in SEC's Regulation S-X.
- (n) Publicly owned company.
- (o) On September 30, 2014, the Corporation's shares of Synacor were valued at \$1.86 per share in accordance with the Corporation's valuation policy for unrestricted publicly held securities (Level 1). See Synacor's publicly disclosed financial reports at sec.gov for additional information on Synacor's industry, financial results and business operations.
- (p) Payment in Kind represents earned interest that is added to the cost basis of the investment.

Table of Contents

This schedule should be read in conjunction with the Corporation's Condensed Consolidated Financial Statements, including the Condensed Consolidated Schedule of Portfolio Investments and Notes to the Condensed Consolidated Financial Statements.

- (1) Gross additions include increases in the cost basis of investments resulting from new portfolio investment, follow on investments, capitalized interest and the accretion of discounts. Gross Additions also include net increases in unrealized appreciation or net decreases in unrealized depreciation.
- (2) Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales, net increases in unrealized depreciation and net decreases in unrealized appreciation.
- (3) Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in Control or Affiliate categories, respectively.

RAND CAPITAL CORPORATION AND SUBSIDIARY
CONDENSED CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS

December 31, 2013 (Continued)

(Unaudited)

Notes to the Condensed Consolidated Schedule of Portfolio Investments

- (a) At December 31, 2013, restricted securities represented approximately 96% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable. Freed Maxick CPAs, P.C. has not audited the business descriptions of the portfolio companies (b) The Date Acquired column indicates the year in which the Corporation acquired its first investment in the company or a predecessor company. Freed Maxick CPAs, P.C. has not audited the date acquired of the portfolio companies.
- (c) Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. Freed Maxick CPAs, P.C. has not audited the equity percentages of the portfolio companies. The symbol <1% indicates that the Corporation holds an equity interest of less than one percent. As of December 31, 2013, the Corporation held no equity interests of less than one percent.
- (d) The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820 Fair Value Measurements which defines fair value and establishes guidelines for measuring fair value. At December 31, 2013, ASC 820 designates 4% of the Corporation's investments as Level 1 and 96% as Level 3 assets. Under the valuation policy of the Corporation, unrestricted publicly held securities are valued at the average closing bid price for these securities for the last three trading days of the month. Restricted securities are subject to restrictions on resale, and are valued at fair value as determined by the management of the Corporation and submitted to the Board of Directors for approval. Fair value is considered to be the amount which the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (also see Note 3 Investments to the consolidated financial statements).
- (e) These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months, or are not expected to do so going forward.
- (f) As of December 31, 2013, the total cost of investment securities approximated \$19.9 million. Net unrealized appreciation was approximately \$8.5 million, which was comprised of \$9.9 million of unrealized appreciation of investment securities and (\$1.49) million related to unrealized depreciation of investment securities. At December 31, 2013 the aggregate gross unrealized gain for federal income tax purposes was \$6,372,253 and the aggregate gross unrealized loss for federal income tax purposes was (\$473,613). The net unrealized gain was

\$5,898,640 based on a tax cost of \$22,449,913.

- (g) Rand Capital SBIC, Inc. investment.
- (h) Reduction in cost and value from previously reported balances reflects current principal repayment.
- (i) Represents interest due (amounts over \$50,000 net of reserves) from investment included as interest receivable on the Corporation's Statement of Financial Position. As of December 31, 2013 there were no interest receivable amounts exceeding \$50,000.
- (j) Non-Control/Non-Affiliate investments are investments that are neither Control Investments nor Affiliate Investments.
- (k) Affiliate investments are defined by the Investment Company Act of 1940, as amended (1940 Act), as those Non-Control investments in companies in which between 5% and 25% of the voting securities are owned.
- (l) Control investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned or where greater than 50% of the board representation is maintained.
- (m) Gemcor II, LLC is an unconsolidated significant subsidiary as defined in SEC's Regulation S-X.
- (n) Publicly owned company.
- (o) On December 31, 2013, the Corporation's shares of Synacor were valued at \$2.46 per share in accordance with the Corporation's valuation policy for unrestricted publicly held securities (Level 1). See Synacor's publicly disclosed financial reports at sec.gov for additional information on Synacor's industry, financial results and business operations.
- (p) Payment in Kind represents earned interest that is added to the cost basis of the investment.

Rand Capital Corporation and Subsidiary

Notes to the Condensed Consolidated Financial Statements

For the Nine Months Ended September 30, 2014 and 2013

(Unaudited)

Note 1. ORGANIZATION

Rand Capital Corporation (Rand) was incorporated under the laws of New York in February 1969. Rand operates as a publicly traded, closed-end, diversified management company that has elected to be treated as a business development company (BDC) under the Investment Company Act of 1940, as amended (the 1940 Act). Rand Capital SBIC, Inc. (Rand SBIC) is a wholly-owned subsidiary of Rand, operating as a small business investment company (SBIC) and licensed by the U.S. Small Business Administration (SBA). The predecessor of Rand SBIC had originally been organized as a Delaware limited partnership, and was converted into a New York corporation on December 31, 2008, at which time its operations as a licensed SBIC were continued by the newly formed corporation under its current name. Rand SBIC 's board of directors is comprised of the directors of Rand, a majority of whom are not interested persons of Rand or Rand SBIC. Rand and its wholly-owned subsidiary Rand SBIC are referred to herein, collectively, as the Corporation .

The Corporation is listed on the NASDAQ Capital Market under the symbol Rand .

Rand operates Rand SBIC for the same investment purposes and with investments in similar loan and equity securities as Rand. The operations of Rand SBIC are consolidated with those of Rand for both financial reporting and tax purposes.

On February 28, 2012, the Securities and Exchange Commission (the SEC) granted an Order of Exemption for Rand with respect to the operations of Rand SBIC to permit certain joint transactions that would otherwise be prohibited by the 1940 Act, but which would not be prohibited if Rand and Rand SBIC were a single entity and to permit an exemption from separate reporting requirements for Rand SBIC under Section 13(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act). At that time, although Rand SBIC was operated as if it were a BDC, it was registered as an investment company under the 1940 Act. Upon the Corporation 's receipt of the order granting the exemption, on March 28, 2012, Rand SBIC filed an election to be regulated as a BDC under the 1940 Act pursuant to which it may engage in certain transactions which would be permitted if Rand and Rand SBIC were operated as a single entity, but which are not permitted between a parent BDC and a wholly-owned subsidiary BDC without specific exemptions.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - In Management 's opinion, the accompanying consolidated financial statements include all adjustments necessary for a fair presentation of the consolidated financial position, results of operations, and cash flows for the interim periods presented. Certain information and note disclosures normally included in audited annual consolidated financial statements prepared in accordance with United States generally accepted accounting principles (GAAP) have been omitted; however, the Corporation believes that the disclosures made are adequate to make the information presented not misleading. The interim results for the nine months ended September 30, 2014 are not necessarily indicative of the results for the full year.

Edgar Filing: RAND CAPITAL CORP - Form 10-Q

These statements should be read in conjunction with the consolidated financial statements and the notes included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2013. Information contained in this filing should also be reviewed in conjunction with the Corporation's related filings with the SEC prior to the date of this report. Those filings include, but are not limited to, the following:

Form 10-Q	Quarterly Report on Form 10-Q for the quarters ended June 30, 2014, March 31, 2014 and September 30, 2013

The Corporation's website is www.randcapital.com. The Corporation's annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, charters for the Corporation's Board committees and other reports filed with the SEC are available through the Corporation's website.

Principles of Consolidation The consolidated financial statements include the accounts of Rand and its wholly-owned subsidiary Rand SBIC. All intercompany accounts and transactions have been eliminated in consolidation.

Fair Value of Financial Instruments The carrying amounts reported in the consolidated statement of financial position of cash, interest receivable, accounts payable and accrued expenses approximate fair value because of the immediate or short-term maturity of these financial instruments.

Investment Classification In accordance with the provisions of the 1940 Act, the Corporation classifies its investments by level of control. Under the 1940 Act **Control Investments** are investments in companies that the Corporation is deemed to **Control**. The Corporation is deemed to control a portfolio company if it owns more than 25% of the voting securities of the company or has greater than 50% representation on the company's board. **Affiliate Investments** are companies in which the Corporation owns between 5% and 25% of the voting securities.

Non-Control/Non-Affiliate Investments are those companies that are neither **Control Investments** nor **Affiliate Investments**.

Investments Investments are valued at fair value as determined in good faith by the Management of the Corporation and submitted to the Board of Directors for approval. The Corporation invests in loan instruments, debt instruments, and equity instruments. There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistent valuation process for each investment. The Corporation analyzes and values each investment quarterly, and records unrealized depreciation for an investment that it believes has become impaired, including where collection of a loan or realization of the recorded value of an equity security is doubtful. Conversely, the Corporation will record unrealized appreciation if it believes that an underlying portfolio company has appreciated in value and, therefore, its equity security has also appreciated in value. These estimated fair values may differ from the values that would have been used had a ready market for the investments existed and these differences could be material if the Corporation's assumptions and judgments differ from results of actual liquidation events.

Qualifying Assets All of the Corporation's investments were made to privately held small business enterprises, that were not investment companies, were principally based in the United States; and represent qualifying assets as defined by section 55(a) of the 1940 act.

Revenue Recognition - Interest Income - Interest income is recognized on the accrual basis except where the investment is in default or otherwise presumed to be in doubt. In such cases, the loan is placed on non-accrual status and interest income is recognized at the time of receipt. A reserve for possible losses on interest receivables is maintained when appropriate.

The Rand SBIC interest accrual is also regulated by the SBA's Accounting Standards and Financial Reporting Requirements for Small Business Investment Companies. Under these rules interest income cannot be recognized if collection is doubtful, and a 100% reserve must be established. The collection of interest is presumed to be in doubt when there is substantial doubt about a portfolio company's ability to continue as a going concern or the loan is in default for more than 120 days. Management also uses other qualitative and quantitative measures to determine the value of a portfolio investment and the collectability of any accrued interest.

Table of Contents

Revenue Recognition - Fee Income Consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of Rand SBIC financings and income associated with portfolio company board attendance fees. The income associated with the amortization of financing fees was \$8,550 and \$5,550 for the nine months ended September 30, 2014 and 2013, respectively. The board fees were \$12,000 and \$12,500 for the nine months ended September 30, 2014 and 2013.

Revenue Recognition - Dividend Income The Corporation may receive distributions from portfolio companies that are limited liability companies and corporations, and these distributions are classified as dividend income on the statement of operations. Dividend income is recognized on an accrual basis when it can be reasonably estimated.

Original Issue Discount Investments may include original issue discount or OID income. This occurs when the Corporation purchases a warrant and a note from a portfolio company simultaneously, which requires an allocation of a portion of the purchase price to the warrant and reduces the note or debt instrument by an equal amount in the form of a note discount or OID. The note is reported net of the OID and the OID is accreted into interest income over the life of the loan. The Corporation recognized \$11,619 in OID income for each of the nine months ended September 30, 2014 and 2013.

Deferred Debenture Costs SBA debenture origination and commitment costs, which are included in other assets, are amortized ratably over the terms of the SBA debentures and are expensed when the debt is repaid. Amortization expense for the nine months ended September 30, 2014 and 2013 was \$18,265 and \$32,238, respectively. Amortization over the next five years is estimated to be approximately \$23,000 per year.

SBA Leverage The Corporation had \$7,000,000 in outstanding SBA leverage at September 30, 2014 and December 31, 2013 with a weighted average interest rate of 3.57%. The \$7,000,000 in outstanding leverage matures from 2022 through 2024. The remaining undrawn SBA commitment at September 30, 2014 is \$1,000,000 and expires on September 30, 2016.

The Corporation has consented to the exercise by the SBA of all rights of the SBA under 13 C.F.R. 107.1810(i) SBA remedies for automatic events of default and has agreed to take all actions that the SBA may so require, which may include our automatic consent to the appointment of SBA or its designee as receiver under section 311(c) of the Act.

Fair Value of SBA Leverage In September 2014 the SBA pooled its debenture borrowings and they were put to market and competitively priced. The market rate for these debentures was set at 3.015% excluding a mandatory SBA annual charge estimated to be 0.85%; resulting in a total estimated fixed rate for ten years of 3.86%. The carrying value of SBA debentures is a reasonable estimate of fair value because stated interest rates approximate current interest rates that are available for debt with similar terms.

Net Assets per Share Net assets per share are based on the number of shares of common stock outstanding. There are no common stock equivalents.

Accounting Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents

Stockholders Equity (Net Assets) At September 30, 2014 and December 31, 2013, there were 500,000 shares of \$10.00 par value preferred stock authorized and unissued.

On October 24, 2013 the Board of Directors increased the repurchase authorization from 500,000 to 1,000,000 shares of the Corporation's outstanding common stock on the open market through October 24, 2014 at prices no greater than current net asset value. The Corporation repurchased 28,497 shares during the nine months ended September 30, 2014 for a total cost of \$88,052 and an average cost of \$3.09/share. The Corporation had previously purchased 451,116 shares as of December 31, 2013. At September 30, 2014 the total shares held in treasury were 479,613 with a total cost of \$1,278,171. On October 23, 2014, the Corporation extended the stock buyback program through October 23, 2015 to accumulate up to an aggregate of 1,000,000 shares of its common stock on the open market at prices no greater than the then current net asset value.

Profit Sharing and Stock Option Plan In 2001, the stockholders of the Corporation authorized the establishment of an Employee Stock Option Plan (the Option Plan), that provides for the award of options to purchase up to 200,000 common shares to eligible employees. In 2002, the Corporation placed the Option Plan on inactive status as it developed a new profit sharing plan for the Corporation's employees in connection with the formation of its SBIC subsidiary. As of September 30, 2014, no stock options had been awarded under the Option Plan. Because Section 57(n) of the 1940 Act prohibits maintenance of a profit sharing plan for the officers and employees of a BDC where any option, warrant or right is outstanding under an executive compensation plan, no options will be granted under the Option Plan while any profit sharing plan is in effect with respect to the Corporation.

In 2002, the Corporation established a Profit Sharing Plan (the Plan) for its executive officers in accordance with Section 57(n) of the 1940 Act. Under the Plan, the Corporation will pay its executive officers aggregate profit sharing payments equal to 12% of the net realized capital gains of its SBIC subsidiary, net of all realized capital losses and unrealized depreciation of the SBIC subsidiary, for the fiscal year, computed in accordance with the Plan and the Corporation's interpretation of the Plan. Any profit sharing paid or accrued cannot exceed 20% of the Corporation's net income, as defined. For purposes of the 20% profit sharing test, the Corporation interprets net income to be the total of the Corporation's net investment gain (loss) and its net realized gain (loss) on investments, prior to inclusion of the estimated profit sharing obligation. The profit sharing payments are split equally between the Corporation's two executive officers, each of whom is fully vested in the Plan.

There were no amounts earned pursuant to the Plan for the nine months ended September 30, 2014 and September 30, 2013, respectively. During the nine months ended September 30, 2014, the Corporation adjusted the escrow receivable amount for Liazon Corporation to reflect the amount that was actually received. Due to this adjustment the amount accrued for profit sharing from fiscal year 2013 was adjusted and resulted in a reduction of (\$45,635) to profit sharing expense. During the year ended December 31, 2013, the Corporation approved and accrued \$887,244 under the Plan, of which \$833,960 was paid during the nine months ended September 30, 2014.

Income Taxes The Corporation reviews the tax positions it has taken to determine if they meet a more likely than not threshold for the benefit of the tax position to be recognized in the consolidated financial statements. A tax position that fails to meet the more likely than not recognition threshold will result in either a reduction of a current or deferred tax asset or receivable, or the recording of a current or deferred tax liability.

Table of Contents

It is the Corporation's policy to include interest and penalties related to income tax liabilities in income tax expense. There were no amounts recognized for interest or penalties related to tax expense for the nine months ended September 30, 2014 or 2013, respectively.

The Corporation is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ended December 31, 2011 through 2013. In general, the Corporation's state income tax returns are open to audit under the statute of limitations for the years ended December 31, 2009 through 2013. The Corporation's uncertain tax positions are not material and are not expected to change significantly within the next 12 months.

Concentration of Credit and Market Risk The Corporation's financial instruments potentially subject it to concentrations of credit risk. Cash is invested with banks in amounts which, at times, exceed insurable limits. Management does not anticipate non-performance by the banks.

At September 30, 2014, Gemcor II, LLC (Gemcor), BinOptics Corporation (Binoptics), Rheonix, Inc. (Rheonix), Microcision, LLC (Microcision), and Carolina Skiff LLC (Carolina Skiff) represented 30%, 9%, 7%, 6% and 5%, respectively, of the fair value of the Corporation's investment portfolio.

Note 3. INVESTMENTS

The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820, "fair value measurements and disclosures", which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements.

Loan investments are defined as traditional loan financings with no equity features. Debt investments are defined as debt financings that include one or more equity features such as conversion rights, stock purchase warrants, and/or stock purchase options. A financing may also be categorized as a debt financing if it is accompanied by the direct purchase of an equity interest in the company.

The Corporation uses several approaches to determine the fair value of an investment. The main approaches are:

Loan and debt securities are valued at cost when it is representative of the fair value of an investment or sufficient assets or liquidation proceeds are expected to exist from a sale of a portfolio company at its estimated fair value.

The loan and debt securities may also be valued at an amount other than the price the security would command in order to provide a yield to maturity equivalent to the current yield of similar debt securities. A loan or debt instrument may be reduced in value if it is judged to be of poor quality, collection is in doubt or insufficient liquidation proceeds exist.

Equity securities may be valued using the market approach or income approach. The market approach uses observable prices and other relevant information generated by similar market transactions. It may include the use of market multiples derived from a set of comparables to assist in pricing the investment. Additionally, the Corporation adjusts valuations if a subsequent significant equity financing has occurred that includes a meaningful portion of the financing by a sophisticated, unrelated new investor. The income approach employs a cash flow and discounting methodology to value an investment.

Table of Contents

ASC 820 classifies the inputs used to measure fair value into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, used in the Corporation's valuation at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable and significant inputs to determining the fair value.

Financial assets are categorized based upon the level of judgment associated with the inputs used to measure their fair value.

Any changes in estimated fair value are recorded in the statement of operations as Net (decrease) increase in unrealized appreciation on investments.

Under the valuation policy, the Corporation values unrestricted publicly traded companies at the average closing bid price for the last three trading days of the month.

In the valuation process, the Corporation values private securities, categorized as Level 3 investments, using financial information from these portfolio companies, which may include:

Financial information obtained from each portfolio company, including unaudited statements of operations, balance sheets and operating budgets;

Current and projected financial, operational and technological developments of the portfolio company;

Current and projected ability of the portfolio company to service its debt obligations;

The current capital structure of the business and the seniority of the various classes of equity if a deemed liquidation event were to occur;

Pending debt or capital restructuring of the portfolio company;

Current information regarding any offers to purchase the investment; or past sales transactions;

Current ability of the portfolio company to raise additional financing if needed;

Changes in the economic environment which may have a material impact on the operating results of the portfolio company;

Internal occurrences that may have an impact (both positive and negative) on the operating performance of the portfolio company;

Qualitative assessment of key management;

Contractual rights, obligations or restrictions associated with the investment; and

Other factors deemed relevant to assess valuation.

This information is used to determine financial condition, performance, and valuation of the portfolio companies. The valuation may be reduced if a portfolio company's performance and potential have deteriorated significantly. If the factors which led to a reduction in valuation are overcome, the valuation may be readjusted.

Equity Securities

Equity Securities may include Preferred Stock, Common Stock, Warrants and Limited Liability Company Interests.

The significant unobservable inputs used in the fair value measurement of the Corporation's equity investments are EBITDA and revenue multiples, where applicable, the financial and operational performance of the business, and the senior equity preferences which may exist in a deemed liquidation event. Standard industry multiples may be used when available; however, the Corporation's portfolio companies are typically small and in early stages of development and these industry standards may be

Table of Contents

adjusted to more closely match the specific financial and operational performance of the portfolio company. Due to the nature of certain investments, fair value measurements may be based on other criteria, which may include third party appraisals. Significant changes to the unobservable inputs, such as variances in financial performance from expectations, may result in a significantly higher or lower fair value measurement.

Another key factor used in valuing equity investments is recent arms-length equity transactions with unrelated new investors entered into by the portfolio company. The terms of these equity transactions may not be identical to the equity transactions between the portfolio company and the Corporation, and the impact of the difference in transaction terms on the market value of the portfolio company may be difficult or impossible to quantify.

When appropriate the Black-Scholes pricing model is used to estimate the fair value of warrants for accounting purposes. This model requires the use of highly subjective inputs including expected volatility and expected life, in addition to variables for the valuation of minority equity positions in small private and early stage companies. Significant increases or decreases in any of these unobservable inputs would result in a significantly higher or lower fair value measurement.

For recent investments, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair market value inputs are identified causing the Corporation to depart from this basis.

Loan and Debt Securities

The significant unobservable inputs used in the fair value measurement of the Corporation's debt securities are the financial and operational performance of the portfolio company, similar debt with similar terms with other portfolio companies, as well as the market acceptance for the portfolio company's products or services. These inputs will provide an indicator as to the probability of principal recovery of the investment. The Corporation's debt investments are often junior secured or unsecured debt securities. Fair value may also be determined based on other criteria where appropriate. Significant changes to the unobservable inputs may result in a significantly higher or lower fair value measurement. For recent investments, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair market value inputs are identified causing the Corporation to depart from this level.

The following table provides a summary of the significant unobservable inputs used to fair value the Corporation's Level 3 portfolio investments as of September 30, 2014:

Investment Type	Market Approach EBITDA Multiple	Market Approach Liquidation Seniority	Market Approach Revenue Multiple	Market Approach Transaction Pricing	Black Scholes Pricing Model		Face Value Liquidation Seniority	Totals
					Stock Pricing & Volatility			
Non-Control/Non-Affiliate Equity	\$ 786,748	\$	\$ 3,000,000	\$ 2,304,628	\$ 97,625	\$		\$ 6,189,001

Table of Contents**NOTE 4. - OTHER ASSETS**

At September 30, 2014 and December 31, 2013 other assets was comprised of the following:

	September 30, 2014	December 31, 2013
Deferred debenture costs, net	\$ 209,199	\$ 227,463
Escrow receivable from Ultra-Scan Corporation	28,294	189,141
Prepaid expenses	22,759	
Escrow receivable from QuaDPharma, LLC	14,737	
Equipment (net)	13,546	6,747
Operating receivables	4,333	2,286
Escrow receivable from Liazon Corporation		1,153,277
 Total other assets	 \$ 292,868	 \$ 1,578,914

During 2013 the Corporation sold its investments in Liazon Corporation (Liazon) and Ultra-Scan Corporation (UltraScan) and a portion of the sales proceeds were held in escrow. The Liazon escrow was received during the nine months ended September 30, 2014 and a portion of it was written off as a realized loss. A portion of the Ultra-Scan escrow was received during the nine months ended September 30, 2014 and the remaining amount is expected to be received in 2015. During 2014, the Corporation sold its investment in QuaDPharma, LLC and a portion was held in escrow. The QuaDPharma escrow is expected to be received during the fourth quarter of 2014.

Note 5. COMMITMENTS AND CONTINGENCIES

As of September 30, 2014, the Corporation's commitments and contingencies were as follows:

	As of September 30, 2014
Commitment to fund Crashmob, Inc. Series seed preferred shares	\$ 250,000

Note 6. UNCONSOLIDATED SIGNIFICANT SUBSIDIARY

In accordance with the SEC's Regulation S-X Rule 4.08(g), the Corporation has an unconsolidated significant subsidiary that is not required to be consolidated. Accordingly, comparative financial information is presented below.

	For the periods ended (Unaudited)	
	9/30/2014 (000)	9/30/2013 (000)
Income Statement:		
Net sales	\$ 20,164	\$ 24,842

Edgar Filing: RAND CAPITAL CORP - Form 10-Q

Gross profit	4,664	6,906
Net income	2,801	4,886

Table of Contents**Note 7. FINANCIAL HIGHLIGHTS**

The following schedule provides the financial highlights, calculated based on weighted average shares outstanding, for the nine months ended September 30, 2014 and the year ended December 31, 2013:

	Nine months ended September 30, 2014 (Unaudited)	Year ended December 31, 2013
Income from investment operations (1):		
Investment income	\$ 0.27	\$ 0.38
Expenses	0.17	0.37
Investment gain before income taxes	0.10	0.01
Income tax expense (benefit)	0.01	(0.01)
Net investment gain	0.09	0.02
Purchase of treasury stock (2)	0.00	0.04
Net realized and unrealized gain on investments	0.00	0.42
Increase in net asset value	0.09	0.48
Net asset value, beginning of period	4.38	3.90
Net asset value, end of period	\$ 4.47	\$ 4.38
Per share market price, end of period	\$ 3.09	\$ 3.07
Total return based on market value	0.65%	31.2%
Total return based on net asset value	1.73%	8.87%
Supplemental data:		
Ratio of expenses before income taxes to average net assets	3.84%	8.76%
Ratio of expenses including taxes to average net assets	4.23%	14.03%
Ratio of net investment income to average net assets	2.04%	0.57%
Portfolio turnover	16.8%	17.9%
Net assets, end of period	\$ 28,554,885	\$ 28,069,332
Weighted shares outstanding, end of period	6,408,763	6,513,385

(1) *Per share data are based on weighted average shares outstanding and the results are rounded*

(2) *Net increase is due to purchase of common stock at prices less than beginning of period net asset value per share*

The Corporation's interim period results could fluctuate as a result of a number of factors; therefore results for any interim period should not be relied upon as being indicative of performance in future periods.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

You should read the following discussion and analysis of the Corporation's financial condition and results of operations in conjunction with the Corporation's consolidated financial statements and related notes included elsewhere in this report. Historical results and percentage relationships among any amounts in the consolidated financial statements are not necessarily indicative of trends in operating results for any future periods.

FORWARD LOOKING STATEMENTS

Statements included in this Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report that do not relate to present or historical conditions are forward-looking statements within the meaning of that term in Section 27A of the Securities Act of 1933, and in Section 21F of the Exchange Act. Additional oral or written forward-looking statements may be made by the Corporation from time to time, and forward-looking statements may be included in documents that are filed with the Securities and Exchange Commission. Forward-looking statements involve risks and uncertainties that could cause results or outcomes to differ materially from those expressed in the forward-looking statements. Forward-looking statements may include, without limitation, statements relating to the Corporation's plans, strategies, objectives, expectations and intentions and are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as believes, forecasts, intends, possible, expects, estimates, anticipates, or plans and similar are intended to identify forward-looking statements. Among the important factors on which such statements are based are assumptions concerning the state of the national economy and the local markets in which the Corporation's portfolio companies operate, the state of the securities markets in which the securities of the Corporation's portfolio companies trade or could be traded, liquidity within the national financial markets, and inflation. Forward-looking statements are also subject to the risks and uncertainties described under the caption Risk Factors contained in Part II, Item 1A of this report and in Part I, Item 1A of the Corporation's 2013 Annual Report of Form 10-K.

There may be other factors not identified that affect the accuracy of the Corporation's forward-looking statements. Further, any forward-looking statement speaks only as of the date it is made and, except as required by law, the Corporation undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time that may cause the Corporation's business not to develop as we expect, and we cannot predict all of them.

Overview

The following discussion describes the financial position and operations of Rand Capital Corporation (Rand) and its wholly-owned subsidiary Rand SBIC, Inc. (Rand SBIC) and, together with Rand, collectively, the Corporation).

Rand is incorporated in New York and has elected to operate as a business development company (BDC) under the 1940 Act. Its wholly-owned subsidiary, Rand SBIC, operates as a small business investment company (SBIC) regulated by the Small Business Administration (SBA). On February 28, 2012, the SEC granted an Order of Exemption for Rand with respect to the operations of Rand SBIC under which Rand SBIC was permitted to elect BDC status. On March 28, 2012, Rand SBIC elected BDC status with the SEC pursuant to which it may now engage in certain transactions which would be permitted if Rand and Rand SBIC were operated as a single entity, but which are not permitted between a parent BDC and a wholly-owned subsidiary BDC without specific exemption.

Table of Contents

The Corporation anticipates that most, if not all, of its investments in the next year will be originated through the SBIC subsidiary.

Business Developments

The United States and global economic conditions continued to improve throughout the first nine months of 2014. To the extent the financial market conditions continue to improve, the Corporation believes its financial condition and the financial condition of the portfolio companies will improve. It remains difficult to forecast when future investment exits will happen.

Critical Accounting Policies

The Corporation prepares its consolidated financial statements in accordance with U.S. generally accepted accounting principles (GAAP), which require the use of estimates and assumptions that affect the reported amounts of assets and liabilities. A summary of the Corporation's critical accounting policies can be found in the Corporation's 2013 Form 10-K under Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents**Financial Condition**

Overview:	9/30/14	12/31/13	(Decrease) Increase	% (Decrease) Increase
Total assets	\$ 37,773,720	\$ 39,750,370	(\$1,976,650)	(5.0%)
Total liabilities	9,218,835	11,681,038	(2,462,203)	(21.1%)
Net assets	\$ 28,554,885	\$ 28,069,332	\$ 485,553	1.7%

Net asset value per share (NAV) was \$4.47 at September 30, 2014 and \$4.38 at December 31, 2013.

The outstanding SBA leverage at September 30, 2014 is \$7,000,000 and will mature from 2022 to 2024. Cash approximated 16% of net assets at September 30, 2014 and 35% at December 31, 2013.

Composition of the Corporation's Investment Portfolio

The Corporation's financial condition is dependent on the success of its portfolio holdings. It has invested substantially all of its assets in small to medium-sized companies. The following summarizes the Corporation's investment portfolio at the dates indicated.

	9/30/14	12/31/13	Increase	% Increase
Investments, at cost	\$ 23,219,687	\$ 19,894,810	\$ 3,324,877	16.7%
Unrealized appreciation, net	9,530,154	8,453,743	1,076,411	12.7%
Investments at fair value	\$ 32,749,841	\$ 28,348,553	\$ 4,401,288	15.5%

The Corporation's total investments at fair value, as estimated by management and approved by the Board of Directors, approximated 115% of net assets at September 30, 2014 and 101% of net assets at December 31, 2013.

The change in investments during the nine months ended September 30, 2014, at cost, is comprised of the following:

	Cost Increase (Decrease)
New investments:	
Teleservices Solutions Holdings, LLC (Teleservices Holdings)	\$ 1,250,000
SocialFlow, Inc. (Socialflow)	750,000
Empire Genomics, LLC (Empire Genomics)	600,000

Knoa interest conversion	1,391
Total of other changes to investments	128,581
Investments repaid, sold or liquidated	
EmergingMed.com, Inc. (Emerging Med)	(778,253)
QuaDPharma, LLC (Quadpharma) repayment	(763,001)
Gemcor II, LLC (Gemcor) repayment	(230,016)
Carolina Skiff LLC (Carolina Skiff) repayment	(125,000)
Synacor, Inc. (Synacor)	(33,250)
NDT Acquisitions, LLC (NDT)	(5,336)
Total of investments repaid, sold or liquidated	(1,934,856)
Net change in investments, at cost	\$ 3,324,877

Table of Contents**Results of Operations****Investment Income**

The Corporation's investment objective is to achieve long-term capital appreciation on its equity investments while investing in a mixture of debenture and equity instruments, which may provide a current return on a portion of the investment portfolio. The equity features contained in the Corporation's investment portfolio are structured to realize capital appreciation over the long-term.

Comparison of the nine months ended September 30, 2014 to the nine months ended September 30, 2013

	September 30, 2014	September 30, 2013	(Decrease) Increase	% (Decrease) Increase
Interest from portfolio companies	\$ 600,825	\$ 598,241	\$ 2,584	0.4%
Interest from other investments	10,523	7,452	3,071	41.2%
Dividend and other investment income	1,126,957	1,389,083	(262,126)	(18.9%)
Fee income	20,550	18,050	2,500	13.9%
Total investment income	\$ 1,758,855	\$ 2,012,826	(\$253,971)	(12.6%)

Interest from portfolio companies The interest from portfolio companies was fairly consistent for the nine months ended September 30, 2014 and 2013.

After reviewing the portfolio company's performance and the circumstances surrounding the Corporation's investment, the Corporation ceased accruing interest income on Mezmeriz in 2014.

Interest from other investments - The increase in interest from other investments is primarily due to higher average cash balances during the nine months ended September 30, 2014 versus the same nine month period in 2013.

Dividend and other investment income - Dividend income is comprised of distributions from Limited Liability Companies (LLCs) in which the Corporation has invested. The Corporation's investment agreements with certain LLCs require the LLCs to distribute funds to the Corporation for payment of income taxes on its allocable share of the LLC's profits. These portfolio companies may also elect to distribute additional discretionary distributions. These dividends will fluctuate based upon the profitability of the LLCs and the timing of the distributions.

Dividend income for the nine months ended September 30, 2014 consisted of distributions from Gemcor for \$993,998, Monarch Machine Tool LLC (New Monarch) for \$45,682, Carolina Skiff LLC (Carolina Skiff) for \$44,383, Advantage 24/7 LLC (Advantage 24/7) for \$37,695, Somerset Gas Transmission Company, LLC (Somerset Gas) for \$2,531 and NDT for \$2,668. Dividend income for the nine months ended September 30, 2013 consisted of distributions from Gemcor for \$1,247,300, New Monarch for \$68,522, Carolina Skiff for \$56,239, Somerset Gas for \$16,670 and NDT for \$352.

Table of Contents

Fee income - Fee income consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of Rand SBIC financings and income associated with portfolio company board attendance fees. The income associated with the amortization of financing fees was \$8,550 and \$5,550 for the nine months ended September 30, 2014 and 2013, respectively. The board fees were \$12,000 and \$12,500 for the nine months ended September 30, 2014 and 2013.

Operating Expenses***Comparison of the nine months ended September 30, 2014 to the nine months ended September 30, 2013***

	September 30, 2014	September 30, 2013	Increase	% Increase
Total Expenses	\$ 1,087,895	\$ 968,634	\$ 119,261	12.3%

Operating expenses predominately consist of interest expense on outstanding SBA borrowings, compensation expense, and general and administrative expenses including stockholder and office operating expenses and professional fees.

The 12% or \$119,261 increase in operating expenses for the nine months ended September 30, 2014 as compared to the same nine month period in 2013 is due, in part, to the fact that the Corporation had a bad debt recovery for \$64,654 in the nine months ended September 30, 2013, whereas the Corporation incurred a bad debt expense of \$6,311 for the nine months ended September 30, 2014. The increase was partially offset by the bonus and profit sharing expense reduction of (\$45,635) for the nine months ended September 30, 2014 due to the fact that the Corporation adjusted the escrow receivable amount for Liazon Corporation to reflect the amount that was actually received in the second quarter of 2014 and therefore, incurred a realized loss and a related adjustment to the profit sharing and benefit accrual.

In addition, the SBA borrowings increased from \$5,500,000 at September 30, 2013 to \$7,000,000 at September 30, 2014. The increase in outstanding leverage caused a 51% or \$65,930 increase in SBA interest expense for the nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013.

Net Realized Gains and Losses on Investments***Comparison of the nine months ended September 30, 2014 to the nine months ended September 30, 2013***

	September 30, 2014	September 30, 2013	Decrease
Net realized (loss) gain	(\$ 1,064,558)	\$ 778,567	(\$ 1,843,125)

The Corporation sold its investment in QuaDPharma, LLC (Quadpharma) to Kinex Pharmaceuticals, Inc. (Kinex) during the third quarter of 2014 and received \$923,634 in net proceeds for its debt and equity securities. The realized gain from the sale of \$160,634 included \$14,737 that was held in escrow and is expected to be received in 2015. The Quadpharma escrow holdback is recorded in Other Assets on the accompanying condensed consolidated statement of financial position. As part of the sale, the Corporation also received 11,574 common shares of Kinex that has a fair value of \$254,628.

In addition, during the nine months ended September 30, 2014, the Corporation recognized a realized loss of \$778,253 on Emerging Med when it was sold during January 2014 and the Corporation did not receive proceeds from the sale. This investment had been valued at \$0 at December 31, 2013. The Corporation also recognized a loss of \$476,334 on an adjustment of the Liazon Corporation escrow receivable.

Table of Contents

During the nine months ended September 30, 2014, the Corporation recognized a realized gain of \$29,395 on the sale of 25,000 shares of Synacor, Inc. (Synacor). Synacor trades on the NASDAQ Global Market under the symbol SYNC. The Corporation owned 403,643 shares of Synacor at September 30, 2014 following such sale.

During the nine months ended September 30, 2013, the Corporation recognized a net realized gain of \$1,164,545 on the sale of 252,200 shares of Synacor. At September 30, 2013, the Corporation owned 428,643 shares of Synacor.

In addition, the Corporation recognized a realized gain of \$670,808 on the sale of its shares in Ultra-Scan to a strategic acquirer during the nine months ended September 30, 2013. The Corporation also recognized a realized loss of \$1,063,698 on its investment in Mid-America Brick when the company announced in February 2013 that it had filed for bankruptcy.

Net Change in Unrealized Appreciation of Investments

The Corporation recorded a net increase in unrealized appreciation on investments of \$1,076,410 during the nine months ended September 30, 2014 as compared to a net decrease in unrealized appreciation on investments of (\$2,161,496) during the same nine month period in 2013.

The increase in unrealized appreciation for the nine months ended September 30, 2014 was comprised of the following:

	September 30, 2014
BinOptics Corporation (Binoptics)	\$ 1,200,001
Reclass EmergingMed.com, Inc. (Emerging Med) to a realized loss	778,253
Kinex Pharmaceuticals, Inc. (Kinex)	111,343
NDT Acquisitions, LLC (NDT)	5,336
Synacor, Inc. (Synacor)	(270,250)
Mezmeriz, Inc. (Mezmeriz)	(391,373)
Knoa Software, Inc. (Knoa)	(356,900)
Total change in net unrealized appreciation during the nine months ended September 30, 2014	\$ 1,076,410

The fair value of Binoptics was increased in accordance with ASC 820 due to an overall improvement in the revenues and financial performance of the company.

The Emerging Med investment was written off during the nine months ended September 30, 2014, after the company was sold and the Corporation did not receive proceeds. The NDT investment value was adjusted for royalties received.

The Kinex shares were received as part of the sale of Quadpharma. The proceeds from this sale included cash and Kinex stock. The Corporation valued the Kinex stock based on its 2014 financing.

Synacor, as a publicly traded stock, is marked to market at the end of each quarter. The Corporation valued its 403,643 shares of Synacor at a three day average bid price of \$1.86 as of September 30, 2014.

The Mezmeriz investment was revalued during the nine months ended September 30, 2014 after the Corporation's management reviewed the portfolio company and its financials and determined that the business of this portfolio company had deteriorated since the time of the original funding. The portfolio company remains in operation and is developing new business strategies.

Table of Contents

The valuation of Knoa was decreased during the second quarter of 2014 to value the Corporation's equity holdings at the price of the most recent insider round of financing.

The decrease in unrealized appreciation for the nine months ended September 30, 2013 was comprised of the following:

	September 30, 2013
Reclass Mid America Brick & Structural Clay Products, LLC (Mid America Brick) to a realized loss	\$ 1,063,698
NDT Acquisition, LLC (NDT)	15,033
EmergingMed.com, Inc. (Emerging Med)	(440,707)
Reclass Ultra-Scan Corporation (Ultra-Scan) to realized gain	(561,836)
Synacor, Inc. (Synacor)	(2,237,684)
Total change in net unrealized appreciation during the nine months ended September 30, 2013	(\$2,161,496)

Synacor, as a publicly traded stock, is marked to market at the end of each quarter. The Corporation valued its 428,643 shares of Synacor at a three day average bid price of \$2.58 as of September 30, 2013.

The Emerging Med investment was written down based on a financial analysis of the company and to reflect anticipated liquidation proceeds. The NDT investment value was adjusted for royalties received.

The Ultra-Scan investment was sold during the nine months ending September 30, 2013 and the Corporation recognized a realized gain on the investment. The Mid America Brick investment was written off after the company filed for bankruptcy protection in the first quarter of 2013.

All of these value adjustments resulted from a review by management using the guidance set forth by ASC 820 and the Corporation's established valuation policy.

Net Increase in Net Assets from Operations

The Corporation accounts for its operations under GAAP for investment companies. The principal measure of its financial performance is net increase (decrease) in net assets from operations on its consolidated statements of operations. For the nine months ended September 30, 2014 and 2013, the net increase (decrease) in net assets from operations was \$573,605 and (\$166,285), respectively.

Liquidity and Capital Resources

The Corporation's principal objective is to achieve growth in net asset value per share through capital appreciation. Therefore, a significant portion of the investment portfolio is structured to maximize the potential for capital appreciation and certain portfolio investments may be structured to provide little or no current yield in the form of dividends or interest payments.

As of September 30, 2014, the Corporation's total liquidity was \$4,647,673 in cash.

Management expects that the cash at September 30, 2014, coupled with the \$1,000,000 of available SBA leverage and the scheduled interest and expected dividend payments on its portfolio investments, will be sufficient to meet the Corporation's cash needs throughout the next twelve months.

Table of Contents

The Corporation is also evaluating potential exits from portfolio companies to increase the amount of liquidity available for new investments, operating activities and future SBA debenture obligations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Corporation's investment activities contain elements of risk. The portion of the Corporation's investment portfolio consisting of equity and debt securities in private companies is subject to valuation risk. Because there is typically no public market for the equity and equity-linked debt securities in which it invests, the valuation of the equity interests in the portfolio is stated at fair value as determined in good faith by the management of the Corporation and submitted to the Board of Directors for approval. This is in accordance with the Corporation's investment valuation policy (see the discussion of valuation policy contained in Note 3.-Investments in the consolidated financial statements contained in Item 1 of this report, which is hereby incorporated herein by reference.) In the absence of readily ascertainable market values, the estimated value of the Corporation's portfolio may differ significantly from the values that would be placed on the portfolio if a ready market for the investments existed. Any changes in valuation are recorded in the Corporation's consolidated statement of operations as Net increase (decrease) in unrealized appreciation on investments.

At times the Corporation's portfolio may include marketable securities, including marketable securities traded in the over-the-counter market. In addition, there may be securities in the Corporation's portfolio for which no regular trading market exists. In order to realize the full value of a security, the market must trade in an orderly fashion or a willing purchaser must be available when a sale is to be made. Should an economic or other event occur that would not allow markets to trade in an orderly fashion, the Corporation may not be able to realize the fair value of its marketable investments or other investments in a timely manner.

As of September 30, 2014, the Corporation did not have any off-balance sheet arrangements or hedging or similar derivative financial instrument investments.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. The Corporation maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that this information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Chief Executive Officer and the Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures as of September 30, 2014. Based on the evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's controls and procedures were effective as of September 30, 2014.

Changes in Internal Control over Financial Reporting. There have been no changes in our internal control over financial reporting during the Corporation's most recent fiscal quarter that have materially affected or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Item 1A. Risk Factors

See Part I, Item 1A, Risk Factors, of the Annual Report on Form 10-K for the year ended December 31, 2013. The Risk Factors from our 2013 report on Form 10-K remain applicable with the exception of the following addition:

Fluctuations of Quarterly Results

The Corporation's quarterly operating results could fluctuate as a result of a number of factors. These factors include, among others, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which portfolio companies encounter competition in their markets and general economic conditions and the market value of publicly traded securities. As a result of these factors, results for any one quarter should not be relied upon as being indicative of performance in future quarters.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchases of Equity Securities**

Period	Total number of shares purchased (1)	Average price paid per share (2)	Total number of shares purchased as part of publicly announced plan (3)	Maximum number of shares that may yet be purchased under the share repurchase program
7/1/2014 - 7/31/2014				548,858
8/1/2014 - 8/31/2014				548,858
9/1/2014 - 9/30/2014	28,471	\$ 3.09	28,471	520,387

- (1) The total number of shares purchased was 28,471 for the third quarter of 2013. All transactions were made in the open market.
- (2) The average price paid per share is calculated on a settlement basis and includes commission.
- (3) On October 24, 2013, the Board of Directors authorized the repurchase of up to 1,000,000 shares of the Corporation's outstanding Common Stock on the open market at prices no greater than the then current net asset value through October 24, 2014. Subsequent to September 30, 2014, the Corporation extended the stock buyback program through October 23, 2015 to accumulate up to an aggregate of 1,000,000 shares of its common stock.
