The new notes were issued, and additional aggregate cash consideration of approximately \$15.9 million was paid, in exchange for a portion of Lockheed Martin 's outstanding debt securities listed in the table below (the old notes). The table below identifies the aggregate principal amount of each series of old notes exchanged in the exchange offer.

The exchange offer was effected pursuant to an offer to exchange commenced on August 7, 2017, that expired at 12:00 midnight, New York City time, at the end of the day on September 1, 2017. Participation in the exchange was limited to holders of the old notes who certified to Lockheed Martin in an eligibility letter as to certain matters, including (1) their status as qualified institutional buyers as defined in Rule 144A under the Securities Act of 1933, as amended (the Securities Act), or (2) outside the United States, their status as non-U.S. persons as defined in Regulation S under the Securities Act.

The terms of the new notes are governed by the Indenture dated as of September 7, 2017 (the Indenture), between Lockheed Martin and U.S. Bank National Association, as trustee (the Trustee), and represented by global notes executed by Lockheed Martin and dated as of September 7, 2017. The Indenture, including the form of new notes, is filed as exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference. The new notes are Lockheed Martin 's general unsecured obligations and rank equally in right of payment with Lockheed Martin 's other current and future unsecured and unsubordinated indebtedness, but effectively are junior to any current and future secured debt to the extent of the assets securing that debt. The new notes also are effectively subordinated to all indebtedness and other liabilities of Lockheed Martin 's subsidiaries to the extent of Lockheed Martin 's subsidiaries assets.

The new notes will mature on September 15, 2052. The new notes will bear interest at a rate of 4.09% per annum and interest will be payable semi-annually in arrears on March 15 and September 15 of each year beginning on March 15, 2018. Prior to March 15, 2052 (six months prior to the maturity date of the new notes, referred to as the par call date), Lockheed Martin may redeem all or any part of the new notes at a redemption price equal to the greater of (i) 100% of the principal amount of the new notes to be redeemed and (ii) the sum of the present values of the remaining scheduled payments of principal and interest on the new notes to be redeemed if the new notes matured on the par call date (exclusive of interest accrued to the redemption date), discounted to the redemption date on a semi-annual basis, assuming a 360-day year consisting of twelve 30-day months, at the treasury rate (as defined in the Indenture) plus 20 basis points. In either case, the redemption price will also include accrued and unpaid interest to the date of redemption on the principal balance of the new notes being redeemed. In addition, on or after March 15, 2052 (six months prior to the maturity date of the new notes), Lockheed Martin may redeem all or any part of the new notes at a redemption price equal to 100% of the principal amount of the new notes to be redeemed, plus accrued and unpaid interest to the date of redemption.

The new notes have not been registered under the Securities Act or any state securities laws. Therefore, the new notes may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and any applicable state securities laws. In connection with Lockheed Martin's issuance of the new notes, Lockheed Martin and the dealer managers entered into a registration rights agreement. Under that agreement, Lockheed Martin agreed, among other things, to (i) use commercially reasonable efforts to file a registration statement with the Securities and Exchange Commission for an exchange offer in which Lockheed Martin would offer to exchange the new notes for substantially identical notes that would be registered under the Securities Act, and (ii) use commercially reasonable efforts to cause that registration statement to become effective. Lockheed Martin also agreed that under certain circumstances it would file a shelf registration statement with the Securities and Exchange Commission covering resales by holders of the new notes in lieu of the registered exchange offer.

The foregoing descriptions of the Indenture and the new notes are qualified in their entirety by reference to the Indenture which is filed as an exhibit to this Current Report on Form 8-K and is incorporated herein by reference.

INFORMATION PROVIDED FOR U.S. FEDERAL INCOME TAX PURPOSES: Solely for U.S. federal income tax purposes, Lockheed Martin has determined that (i) the new notes are traded on an established market within the meaning of section 1.1273-2(f) of the Treasury Regulations, and (ii) the issue price of the new notes within the meaning of section 1.1273-2(b) of the Treasury Regulations is \$1,017.39 per \$1,000 face amount of the new notes.
