(Address of principal executive offices) (Zip code)

Macquarie Global Infrastructure Total Return Fund Inc.

125 West 55th Street, New York, NY 10019

(Name and address of agent for service)

Registrant's telephone number, including area code: 1 (866) 567-4771

Date of fiscal year end: November 30

Date of reporting period: November 30, 2017

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget (OMB) control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. § 3507.

Item 1. Reports to Stockholders.

The Report to Shareholders is attached herewith.

Section 19(b) disclosure

Macquarie Global Infrastructure Total Return Fund Inc.

November 30, 2017 (Unaudited)

Macquarie Global Infrastructure Total Return Fund Inc. (**MGU** or the **Fund**), acting pursuant to a Securities and Exchange Commission (**SEC**) exemptive order and with the approval of the Fund's Board of Directors (the **Board**), has adopted a plan, consistent with its investment objectives and policies, to support a level distribution of income, capital gains and/or return of capital (the **Plan**). In accordance with the Plan, the Fund currently distributes \$0.37 per share on a quarterly basis.

The fixed amount distributed per share is subject to change at the discretion of the Fund's Board. Under the Plan, the Fund will distribute all available investment income to its shareholders, consistent with its primary investment objectives and as required by the Internal Revenue Code of 1986, as amended (the **Code**). If sufficient investment income is not available on a quarterly basis, the Fund will distribute long-term capital gains and/ or return of capital to shareholders in order to maintain a level distribution. Each quarterly distribution to shareholders is expected to be at the fixed amount established by the Board, except for extraordinary distributions and potential distribution rate increases or decreases to enable the Fund to comply with the distribution requirements imposed by the Code.

Shareholders should not draw any conclusions about the Fund's investment performance from the amount of these distributions or from the terms of the Plan. The Fund's total investment return on net asset value is presented in its financial highlights table.

The Board may amend, suspend or terminate the Fund's Plan without prior notice if it deems such action to be in the best interest of the Fund or its shareholders. The suspension or termination of the Plan could have the effect of creating a trading discount (if the Fund's stock is trading at or above net asset value) or widening an existing trading discount. The Fund is subject to risks that could have an adverse impact on its ability to maintain

level distributions. Examples of potential risks include, but are not limited to, economic downturns impacting the markets, increased market volatility, companies suspending or decreasing corporate dividend distributions and changes in the Code. Please refer to the Fund's prospectus for a more complete description of its risks.

A cumulative summary of the Section 19(a) notices for the Fund's current fiscal period, if applicable, is included in Additional Information. Section 19(a) notices for the Fund, as applicable, are available on the Fund website at www.macquarie.com/mgu.

Caution regarding forward-looking statements and past performance

This Annual Report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended. Forward-looking statements include statements regarding the goals, beliefs, plans or current expectations of Macquarie Capital Investment Management LLC ("MCIM" or "Manager") and its respective representatives, taking into account the information currently available to them. Forward-looking statements include all statements that do not relate solely to current or historical facts. For example, forward-looking statements may include the use of words such as "anticipate," "estimate," "intend," "expect," "believe," "plan," "may," "should," that convey uncertainty of future events or outcomes. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Past performance is not a reliable indication of future performance. When evaluating the information included in this Annual Report, you are cautioned not to place undue reliance on these forward looking statements, which reflect the judgment of MCIM and its respective representatives only as of the date hereof. We undertake no obligation to publicly revise or update these forward-looking statements to reflect events and circumstances that arise after the date hereof.

Capitalized terms used but not defined herein have the meaning assigned to them in the Fund's Prospectus.

Macquarie Global Infrastructure Total Return Fund Inc.

November 30, 2017 (Unaudited)

Introduction

We are pleased to present this annual report to the shareholders of Macquarie Global Infrastructure Total Return Fund Inc. (MGU or the Fund) for the twelve months ended November 30, 2017 (the Period). The Fund commenced operations and began trading on the New York Stock Exchange on August 26, 2005.

Performance & Portfolio Review

Global infrastructure securities outperformed global equities in the Period.

The Period was marked by significant moves by central banks, particularly the US Federal Reserve (Fed) which, as generally expected, raised its benchmark rate several times the first hikes since December 2015. The first rate increase came in December 2016 and followed at an increasing rate. The moves were well telegraphed to the market and generally taken positively. As the Period came to the end, there was speculation as to who will be named the next Fed chair. Given the support central banks have provided for markets in recent years, this is a critical decision for markets.

Oil prices were volatile over the Period, breaking back down through \$50 a barrel several times, as US supply continued to grow and OPEC s production cuts looked less rigidly applied than hoped. The price moves were moderate, compared to the sell-off witnessed through 2015 and early 2016. In contrast, credit weakness was localized in the high yield energy sector. This is a result of improved cost structures, healthier balance sheets and the weakest players having already defaulted or restructured. There is also evidence that this period of oil price weakness is more driven by supply versus 2015, where weak global growth played a role in hitting demand.

In 2017, there was greater attention in the US on the divergence between soft data (sentiment and survey-driven data points, which enjoyed a significant bounce post US election) and hard data

(actual activity indicators, which have lagged). Data points on employment, wage growth and inflation were relatively disappointing, indicating the momentum in hard data is not yet accelerating to match the outlook surveys.

Political developments, particularly in the US impacted markets during the Period. Donald Trump was sworn in as the new US President at the end of January and promptly began pushing against long held US policies, including by issuing bans on immigration and several orders on regulations for energy pipelines. In May, markets reacted negatively to the news that President Trump fired the head of the FBI, James Comey. There was a negative reaction by investors after several chief executives resigned from White House advisory panels after President Trump s controversial comments on civil unrest. Markets fell on both occasions, but the dips were short-lived. By the end of the Period, investors again latched onto optimism for a renewed reform agenda in the US and the potential for heightened economic growth. The catalyst was the release of President Trump s tax proposal, which proposed cuts to corporate tax rates, a simplification of personal tax, and repatriation of offshore profits.

Geopolitical events were of note during the Period. In the beginning of 2017 there was fear that a populist wave of candidates would win several European elections, notably the French presidential election. The elections delivered a more benign result than had been feared, with centrist Macron defeating the populist candidate, Le Pen. The result was a rare win (in recent times, at least) for a centrist candidate, and was well received in European markets. Tensions between North Korea and the world continued to grow through 2017, as a result of a North Korean missile test fired

over Japan. There does not appear to be any simple solution to the tension on the Korean peninsula, though market reactions have remained muted as investors view the most negative outcomes as far too costly, and therefore unlikely.

For the Twelve-Month Period

	Total Return (%)²

Index ⁴ (MGII)	23.72
MSCI World Index (Net Total	
Return) ⁵	23.66

Unless otherwise indicated, all references to currency are to USD.

¹ *Calculated on a total return basis, adjusting for distributions and assuming dividend reinvestment.*

² *Source: The Bank of New York Mellon, Bloomberg L.P.*

³ *The S&P Global Infrastructure Index (Net Total Return) consists of approximately 75 infrastructure/utilities stocks and is selected by Standard & Poor's Financial Services LLC.*

⁴ *The Macquarie Global Infrastructure Index consists of approximately 250 infrastructure/utilities stocks in the FTSE Global All-Cap Index.*

⁵ *The MSCI World Index (Net Total Return) is a stock market index of approximately 1600 world stocks maintained by MSCI Inc. The index includes a collection of stocks of all the developed markets in the world, as defined by MSCI.*

There were a number of factors driving the Fund's total return during the Period.

The major positive contributors were:

- The strong performance in the Toll Road sector; and

- Strength in the Electric Utility sector

There were no notable negative contributors viewing the Fund by sector. From a country perspective, the primary negative contributor was the Netherlands.

Let's look at these sectors in further detail.

Toll Roads

The Toll Road sector was up during the Period with the Spanish toll road owner and operator, Abertis, being the strongest performer of our holdings in the sector. Abertis performed strongly during the Period as a proposed transaction merging Atlantia (Italy, Toll Roads) and Abertis was reported in the media. Press speculation was quickly confirmed by both companies indicating that high level talks had occurred discussing a potential transaction merging the two companies and a bid was announced in May. Although Abertis reported somewhat weak Q3 earnings, the company's stock price improved on the back of rumors of a counterbid from Spanish construction firm ACS, which was ultimately announced in October.

OHL Mexico also performed well during the Period. OHL (parent company of OHL Mex) announced the sale of its concessions business (which owns 42% of OHL Mex) to IFM, who already own another ~42% of OHL Mexico (acquired via tender offer earlier in the year). As a result of this transaction, IFM will be required to make a tender offer to the minority shareholders of OHL Mex. Although the tender earlier in the year was done at MXP 27, there is speculation that IFM could come in at a higher offer, to try to take 100% ownership of the company.

Stockholder letter

Macquarie Global Infrastructure Total Return Fund Inc.

Electric Utility

The Electric Utility sector was another contributor to the strategy's performance. The portfolio was benefitted by its holdings in NextEra, which consistently performed well through the Period, reporting earnings that exceeded estimates for several quarters. It was particularly strong later in the Period after reporting additional power agreements for its renewable power generation as well as agreements for repowering. Although its service territory was affected by Hurricane Irma, its response to power outages was very quick and efficient. The company requested recovery of repair costs and it is expected to begin recovery in March. Overall NextEra continues to beat expectations and we remain confident in the name.

Netherlands

The Netherlands was a detractor country during the Period with Vopak being particularly weak. The company reported lower revenue in August, causing earnings to fall. The lower revenues were driven primarily by lower utilization in Asia and also the Netherlands. Management pointed to a weak fuel oil market, driven by the shift in the use

of fuel oil to maritime diesel oil, as one of the reasons for lower utilization.

Leverage

As of November 30, 2017, the Fund had USD 108 million and Euro 40 million in leverage outstanding. At Period-end, the Fund's leverage was 30.5% of its Total Assets, which is within the limit outlined in the Fund's Prospectus. To avoid magnifying the USD exposure due to leverage, the Fund also borrows in Euros to help offset the currency exposure of the investments with the currency of the borrowings.

In determining the leverage level for the Fund, we balance the cost of leverage against the longer term potential for enhanced yield and capital returns.

Performance Relative to Reference Benchmarks

The Fund, which is not managed against any benchmark, outperformed two reference benchmarks, the S&P Global Infrastructure Index (Net Total Return) and the MGII. The Fund outperformed the MSCI World Index (Net Total Return).

Fund Diversification by Country & Sector

As of November 30, 2017, the Fund was well diversified across 48 positions in global infrastructure stocks, representing 16 countries and 11 sectors. During the Period, the main increases in the Fund's weightings were Pipelines and Airports while the largest declines in sector weightings were with the Toll Roads sector. Sector changes were driven principally by bottom-up stock selection.

The table below shows the top ten holdings in the Fund as of November 30, 2017.

Rank	Stock	Country	Infrastructure Sector ⁶	% ⁷
1	Enbridge Inc	Canada	Pipelines	7.4
2	Cheniere Energy Inc	United States	Pipelines	5.8
3	Sempra Energy	United States	Electricity and Gas Distribution	5.2
4	Nextera Energy Inc	United States	Electric Utility	4.1
5	National Grid PLC	United Kingdom	Electricity Transmission	4.0
6	Transcanada Corp	Canada	Pipelines	3.7
7	Transurban Group	Australia	Toll Roads	3.7
8	Enav Spa	Italy	Airports	3.5
9	Iberdrola SA	Spain	Electric Utility	3.3
10	PG&E Corp	United States	Electric Utility	2.8

⁶ Industry sectors are based on the Manager's own evaluation of issuers and industries, and do not necessarily track any standard industry or sector classification. Classifications are made by the Investment team and based on the primary business sector of the issuer.

⁷ Based on Total Assets as defined in the Prospectus.

Distributions

The Fund paid quarterly distributions of \$0.37 per share in December 2016, March 2017, June 2017 and September 2017. Altogether, the Fund paid \$1.48 per share during this Period.

A portion of the distributions may be treated as paid from sources other than net income, including, but not limited to, short-term capital gain, long-term capital gain and return of capital. The final determination of the source of all distributions in 2017, including the percentage of qualified dividend income, will be made by the Fund after December 31, 2017.

Outlook

The overall pace of global growth remains robust, which is positive for fundamentals. We continue to note that much of the improvements look already factored into market pricing, which gives less room for error. A new Fed chair was announced,

and will likely follow a business as usual approach, with a focus on deregulation. Markets have performed well over the last several months, with bouts of volatility so far being short lived and quickly bought, as evidenced in November. We believe that is reflective of the near-term outlook, where solid growth, decent corporate results and global demand for yield will continue to remain well supported. In this environment we believe quality and defensive

assets that are underpinned by long-term, stable cash flows will continue to be attractive to investors around the world.

Conclusion

The Fund's investment strategy is to invest in the listed securities of companies globally that own and/or operate infrastructure assets that we believe provide essential services, have strong strategic positions, and are well positioned to

Stockholder letter

Macquarie Global Infrastructure Total Return Fund Inc.

generate sustainable and growing cash flow streams for shareholders from their infrastructure assets.

We believe that MGU provides investors with an attractive vehicle to access the broad global universe of listed infrastructure securities. We continue to appreciate your investment in the Fund.

Financial highlights

Macquarie Global Infrastructure Total Return Fund Inc.

(Expressed in U.S. Dollars)

Selected data for each share of the Fund outstanding throughout each period were as follows:

Net asset value, beginning of period

Income (loss) from investment operations:

Net investment income

Net realized and unrealized gain (loss)

Total from investment operations

Less dividends and distributions from:

Net investment income

Net realized gain

Total dividends and distributions

Accretive effect of tender offers

Net asset value, end of period

Market value, end of period

Total return based on³:

Net asset value

Market value

Ratios and supplemental data:

Net assets, end of period (000 omitted)

Ratio of expenses to average net assets⁴

Ratio of expenses to average net assets prior to interest expenses reimbursed

Ratio of expenses to average net assets excluding interest expenses

Ratio of net investment income to average net assets

Ratio of net investment income to average net assets prior to interest expenses reimbursed

Portfolio turnover

Leverage analysis:

Debt outstanding at end of period (000 omitted)

Asset coverage ratio to total assets⁸

¹ Per share amounts have been calculated using average shares method.

² Includes accretive effect of tender offer of \$0.21. As shares of common stock were tendered at a price less than net asset value (92%), there is an accretive impact to shares remaining in the Fund.

³ Total investment return is calculated assuming a purchase of a common share at the opening on the first day and a sale at closing on the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns exclude brokerage commissions on buying and selling of Fund shares, but do include commissions on buying and selling the underlying portfolio securities. Past performance is not a

guarantee of future results.

- ⁴ For the years ended November 30, 2017, 2016, 2015, 2014 and 2013, the annualized ratios to Total Assets were 1.58%, 1.88%, 1.89%, 1.53%, and 1.56%, respectively. The Prospectus defines Total Assets as Total Net Assets plus leverage.
- ⁵ Excludes reimbursement from Macquarie Capital Investment Management LLC (MCIM) for certain expenses related to the 2012 proxy. The expense ratio, had the reimbursement been included, would have been 2.11%.
- ⁶ Excludes reimbursement from MCIM for certain expenses related to the 2012 proxy. The expense ratio, had the reimbursement been included, would have been 1.73%.
- ⁷ Excludes reimbursement from MCIM for certain expenses related to the 2012 proxy. The net investment income ratio, had the reimbursement been included, would have been 4.44%.
- ⁸ Asset coverage ratios are calculated based on Total Assets as defined in the Fund's Prospectus. (See Note 6) See accompanying notes, which are an integral part of the financial statements.

Notes to financial statements

Macquarie Global Infrastructure Total Return Fund Inc.

November 30, 2017

1. Organization and Significant Accounting Policies

The Fund is a diversified, closed-end investment management company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), and organized under the laws of the State of Maryland. The Fund's investment objective is to provide to its common stockholders a high level of total return consisting of dividends and other income and capital appreciation.

The Fund's shares of common stock are listed on the New York Stock Exchange ("NYSE") under the ticker "MGU".

The Fund's financial statements are prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). This requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates. The Fund is considered an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Standards Codification Topic 946.

The following summarizes the significant accounting policies of the Fund.

Cash and Cash Equivalents Cash equivalents are funds (proceeds) temporarily invested in original maturities of 90 days or less.

Restricted Cash As of November 30, 2017, the Fund did not classify any funds (proceeds) as restricted.

Portfolio Valuation The net asset value ("NAV") of the Fund's shares of common stock will be computed based upon the value of the securities and other assets and liabilities held by the Fund. The NAV is determined as of the close of regular trading on the NYSE (normally 4:00 p.m. Eastern Time) on each day the NYSE is open for trading. U.S. debt securities and non-U.S. securities will normally be priced using data reflecting the earlier closing of the principal markets for those securities (subject to the fair value policies described below).

Readily marketable portfolio securities listed on any U.S. exchange other than the NASDAQ National Market are valued, except as indicated below, at the last sale price on the business day as of which such value is being determined, or if no sale price, at the mean of the most recent bid and asked prices on such day. Securities admitted to trade on the NASDAQ National Market are valued at the NASDAQ official closing price as determined by NASDAQ. Securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. U.S. equity securities traded in the over-the-counter market, but excluding securities admitted to trading on the NASDAQ National Market, are valued at the closing bid prices.

Non-U.S. exchange-listed securities will generally be valued using information provided by an independent third-party pricing service. The official non-U.S. security price is determined using the last sale price at the official close of the security's respective non-U.S. market, which is usually different from the close of the NYSE. Occasionally, events affecting the value of such securities may occur between

such times and the close of the NYSE that will not always be reflected in the computation of the value of such securities. If events materially affecting the value of such securities occur during such period, these securities will be valued at their fair value according to the procedures adopted by the Fund's Board of Directors. Although there are observable inputs assigned on a security level, prices are derived from factors using a third-party vendor's modeling tool. For this reason, significant events will cause movements between Level 1 and Level 2 (see the description of inputs and levels below). Non-U.S. securities, currencies and other assets denominated in non-U.S. currencies are translated into U.S. Dollars at the exchange rate of such currencies against the U.S. Dollar as provided by a pricing service. When price quotes are not available, fair market value may be based on prices of comparable securities in accordance with the Fund's valuation policy.

In the event that the pricing service cannot or does not provide a valuation for a particular security, or such valuation is deemed unreliable, especially with unlisted securities or instruments, fair value is determined by the Valuation Committee. Except as otherwise designated by the Board of Directors, the Valuation Committee shall be comprised of at least five members designated by the Fund or Macquarie Capital Investment Management LLC (MCIM), each of whom are officers of the Fund, and representatives of MCIM. A quorum of the Valuation Committee will consist of a minimum of three voting members, provided that the members present include at least one of the following: the Portfolio Manager, the Chief Financial Officer (or appropriate designee) or the Trader. The Chief Compliance Officer (or appropriate designee) must be in attendance, but shall be non-voting. In fair valuing the Fund's investments, the Valuation Committee will consider the Securities and Exchange Commission (the SEC) pronouncements on valuations, including Accounting Series Release No. 118, to the extent relevant.

A variety of factors may be considered when determining the fair value of such securities, including, but not limited to the following:

- the type of security
- the cost of the holding
- the financial statements of the issuer
- the fundamental business data relating to the issuer
- an evaluation of the forces that influence the market in which these securities are purchased or sold
- transactions in comparable securities
- price quotes from dealers and/or pricing services
- information obtained from contacting the issuer, analysts or appropriate stock exchange
- the existence of merger proposals or tender offers that might affect the value of the security

Fair Value Measurements The Fund discloses the classification of its fair value measurements following a three-tier hierarchy based on the inputs used to measure fair value. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Notes to financial statements

Macquarie Global Infrastructure Total Return Fund Inc.

1. Organization and Significant Accounting Policies (continued)

Various inputs are used in determining the value of the Fund's investments as of the reporting period end. The designated input levels are not necessarily an indication of the risk or liquidity associated with these investments. When inputs used fall into different levels of the fair value hierarchy, the level in the hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, credit risk, yield curves, default rates and similar data.

Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing Management's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The following is a summary of the inputs used as of November 30, 2017 in valuing the Fund's investments carried at value:

Securities*	Level 1	Level 2	Level 3	Total
Common Stock	\$ 247,656,326	\$ 217,870,556	\$	\$ 465,526,882
Master Limited Partnerships	26,954,200			26,954,200
Total Value of Securities	\$ 274,610,526	\$ 217,870,556	\$	\$ 492,481,082

* For detailed country descriptions, see accompanying Schedule of Investments.

As a result of utilizing international fair value pricing at November 30, 2017, a portion of the Fund's common stock was categorized as Level 2.

During the year ended November 30, 2017, there were no transfers between Level 1 investments, Level 2 investments, or Level 3 investments that had a significant impact to the Fund. This does not include transfers between Level 1 investments and Level 2 investments due to the Fund utilizing international fair value pricing during the period. In accordance with the fair valuation procedures described above, international fair value pricing of securities in the Fund occurs when market volatility exceeds an established threshold. If the threshold is exceeded on a given date, then prices of international securities

(those that traded on exchanges that close at a different time than the time that the Fund's NAV is determined) are established using a separate pricing feed from a third-party vendor designed to establish a price for each such security as of the time that the Fund's NAV is determined. Further, international fair value pricing uses other observable market-based inputs in place of the closing exchange price due to the events occurring after the close of the exchange or market on which the investment is principally traded, causing a change in classification between levels. The Fund's policy is to recognize transfers between levels based on fair value at the beginning of the reporting period. A reconciliation of Level 3 investments is presented when the Fund has a significant amount of Level 3 investments at the beginning, interim, or end of the period in relation to net assets. During the year ended November 30, 2017, there were no Level 3 investments.

Foreign Currency Translation The accounting records of the Fund are maintained in U.S. Dollars. Prices of securities and other assets and liabilities denominated in non-U.S. currencies are translated into U.S. Dollars using the exchange rate at 4:00 p.m., Eastern Time. Amounts related to the purchases and sales of securities, investment income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions.

Net realized gain or loss on foreign currency transactions represents net foreign exchange gains or losses from the closure of forward currency contracts, disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates on security transactions and the difference between the amount of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. Dollar equivalent amount actually received or paid. Net unrealized currency gains and losses arising from valuing foreign currency denominated assets and liabilities, other than security investments, at the current exchange rate are reflected as part of unrealized appreciation/depreciation on translation of assets and liabilities denominated in foreign currencies.

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the changes in the market prices of securities held at period end. The Fund does not isolate the effect of changes in foreign exchange rates from changes in market prices of securities sold during the year. The Fund may invest in foreign securities and foreign currency transactions that may involve risks not associated with domestic investments as a result of the level of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability, among others.

The Fund has elements of risk, including the risk of loss of principal. There is no assurance that the investment process will consistently lead to successful results. An investment concentrated in sectors and industries may involve greater risk and volatility than a more diversified investment.

Distributions to Shareholders The Fund intends to distribute to holders of its common shares quarterly distributions of all or a portion of its net income and/or realized gains after payment of interest in connection with any leverage used by the Fund. Distributions to shareholders are recorded by the Fund on the ex-dividend date.

The Fund has received approval from the SEC for exemption from Section 19(b) of the 1940 Act, and Rule 19b-1 thereunder permitting the Fund to make periodic distributions of long-term capital gains more frequently than otherwise permitted by the 1940 Act, provided that the Fund adheres to the distribution

Notes to financial statements

Macquarie Global Infrastructure Total Return Fund Inc.

1. Organization and Significant Accounting Policies (continued)

policy that requires the Fund to make level distributions each quarter to shareholders of common stock after payment of interest on any outstanding borrowings.

Securities Transactions and Investment Income Investment security transactions are accounted for as of the trade date. Dividend income is recorded on the ex-dividend date. Distributions received from Master Limited Partnerships are recorded as return on capital on the ex-dividend date. Realized gains and losses from securities transactions are determined on the basis of identified cost for both financial reporting and income tax purposes.

2. Income Taxes and Tax Basis Information

No provision for federal income taxes has been made as the Fund intends to continue to qualify for federal income tax purposes as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to shareholders. The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Management has analyzed the Fund's tax positions taken or to be taken on the Fund's federal/state income tax returns through the year ended November 30, 2017 and for all open federal income tax years (years ended November 30, 2014 - November 30, 2016) and all open state income tax years (years ended November 30, 2011 - November 30, 2016), and has concluded that no provision for federal income tax is required in the Fund's financial statements. In regard to foreign taxes only, the Fund has open tax years in certain foreign countries in which it invests that may date back to the inception of the Fund. If applicable, the Fund recognizes interest accrued on unrecognized tax benefits in interest expense and penalties in other expenses on the Statement of operations. During the year ended November 30, 2017, the Fund did not incur any interest or tax penalties.

Classification of Distributions Net investment income/loss and net realized gain/loss may differ for financial statements and tax purposes. The tax character of the distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes.

The tax character of the distributions paid by the Fund during the years ended November 30, 2017 and 2016, respectively, were as follows:

	Year ended	
	11/30/17	11/30/16
Ordinary income	\$16,866,334	\$14,948,379
Long-term capital gain	1,586,740	3,504,695
Total	\$18,453,074	\$18,453,074

Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from composition of net assets reported under GAAP. Accordingly, for the year ended November 30, 2017, the effects of certain differences were reclassified. The Fund increased its accumulated net investment income by \$2,433,370, decreased paid-in capital by \$1,400, and decreased accumulated net realized gain by \$2,431,970. These differences were primarily due to the differing tax

treatment of foreign currency and investments in passive foreign investment companies and partnerships. Net assets of the portfolio were unaffected by the reclassifications and the calculation of net investment income per share in the Financial Highlights excludes these adjustments.

As of November 30, 2017, the components of distributable earnings on a tax basis were as follows:

Shares of common stock	\$ 317,826,083
Undistributed ordinary income	2,581,959
Undistributed long-term capital gains	1,435,317
Unrealized appreciation of investments and foreign currencies	32,707,243
Net assets	\$ 354,550,602

The tax cost of investments includes adjustments to net unrealized appreciation (depreciation) which may not necessarily be final tax cost basis adjustments, but approximate the tax basis unrealized gains and losses that may be realized and distributed to shareholders. At November 30, 2017, the cost and unrealized appreciation (depreciation) of investments for federal income tax purposes were as follows:

Cost of investments	\$ 459,773,839
Aggregate unrealized appreciation of investments	\$ 64,198,434
Aggregate unrealized depreciation of investments	(31,491,191)
Net unrealized appreciation of investments	\$ 32,707,243

The differences between book and tax net unrealized appreciation and cost were primarily due to the differing tax treatment of partnerships and wash sale deferrals.

3. Capital Transactions

	Year ended	
	11/30/17	11/30/16
Shares:		
Common Shares Outstanding - beginning of period	12,468,293	12,468,293
Common Shares Outstanding - end of period	12,468,293	12,468,293

4. Portfolio Securities

For the year ended November 30, 2017, the Fund made purchases and sales of investment securities other than U.S. government securities and short-term investments as follows:

Purchases	\$ 341,530,548
Sales	323,516,415

Notes to financial statements

Macquarie Global Infrastructure Total Return Fund Inc.

5. Investment Advisory and Management Agreement, Affiliated Transactions and Administration Agreements

On July 11, 2017, the Board of Directors approved the renewal of the Investment Advisory and Management Agreement with MCIM (the "Advisory Agreement"), pursuant to which MCIM serves as the Fund's investment manager and is responsible for determining the Fund's overall investment strategy and implementation through day-to-day portfolio management, subject to the general supervision of the Fund's Board of Directors. MCIM is also responsible for managing the Fund's business affairs, overseeing other service providers and providing management services. As compensation for its services to the Fund, MCIM receives an annual management fee, payable on a quarterly basis, equal to the annual rate of 1.00% of the Fund's Total Assets (as defined below) up to and including \$300 million, 0.90% of the Fund's Total Assets over \$300 million up to and including \$500 million, and 0.65% of the Fund's Total Assets over \$500 million. Total Assets of the Fund, for the purpose of this calculation, include the aggregate of the Fund's average daily net assets plus proceeds from any outstanding borrowings used for leverage.

The Fund may place a portion of its portfolio transactions with a brokerage firm which is an affiliate of MCIM. The commissions paid to the affiliated firm totaled \$6,163 for the year ended November 30, 2017.

The Bank of New York Mellon is the Fund's Administrator and Fund Accountant in accordance with certain fee arrangements.

Computershare Trust Company, N.A. ("Computershare") serves as the Fund's Transfer Agent, dividend-paying agent, and registrar. As compensation for Computershare's services, the Fund pays Computershare a monthly fee plus certain out-of-pocket expenses.

6. Leverage

The Fund has entered into a Committed Facility Agreement with BNP Paribas Prime Brokerage International Ltd. (the "BNP Paribas Facility" or the "Agreement"), which provides for a committed credit facility to be used as leverage for the Fund. The BNP Paribas Facility provides for secured, committed lines of credit for the Fund, where selected Fund assets are pledged against advances made to the Fund. Under the 1940 Act, the Fund, after any such borrowings, must have asset coverage of at least 300% (33 1/3% of the Fund's Total Assets after borrowings). Under the current terms, the total amount of loans that may be outstanding at any one time, or the Maximum Commitment Financing ("MCF"), under the BNP Paribas Facility is \$120,000,000 and Euro 40,000,000. The Fund may reduce the MCF by a total aggregate amount of up to \$20,000,000 upon one business day's prior notice (no more than one time per calendar month). The Fund pays 0.70% per annum above 3-month LIBOR for the U.S. Dollar line and 0.70% above the 3-month EURIBOR for the Euro line. The Fund pays a commitment fee of 0.50% on the undrawn MCF.

On July 23, 2014, \$60,000,000 of the U.S. Dollar line was fixed at a rate of 2.453% for a five year period. At the end of that five year period, the rate will be adjusted, if necessary, in accordance with the modified following business day convention, unless the parties agree in writing to amend or extend the term of the relevant fixed rate period. The Fund paid an arrangement fee of 0.25% on the fixed rate borrowing.

As of November 30, 2017, the Fund had \$48,000,000 and Euro 40,000,000 in leverage outstanding on the variable lines and \$60,000,000 outstanding on the fixed line. The carrying values of the loan approximate fair values. The daily average amounts outstanding over the period on the variable line was \$43,155,195, with an average rate on the borrowing of 1.91%, and Euro 32,449,315, with the average rate on borrowing of 0.37%.

BNP Paribas Facility reimbursed the Fund for overpaying interest on the leverage for the Euro line for the period April 21, 2015 through October 29, 2017. The amount reimbursed is shown on the Statements of Operations under Less reimbursement of interest expenses.

The unused amount under the BNP Paribas Facility was \$12,000,000 at November 30, 2017. The loan payable is carried at value, and the Euro line is adjusted daily for foreign currency translation. At November 30, 2017, the Fund maintained an asset coverage of 328%, and the market value of the securities pledged as collateral for the BNP Paribas Facility totaled \$356,143,612.

7. Soft Dollar Arrangement

MCIM maintains commission sharing arrangements with various executing brokers in which a portion of total commissions paid by the Fund is allocated to a pool of credits maintained by a broker. These credits may be used to pay for a portion of MCIM's permitted investment research services.

8. Compensation of Directors

The non-interested Directors of the Fund receive a quarterly retainer of \$10,000 and the Chairman of the Board of Directors receives a quarterly retainer of \$12,188. Non-interested Directors and the Chairman also receive an additional \$2,500 for each meeting attended, and \$1,500 for each telephonic meeting. Additional out-of-pocket expenses are paid as incurred.

9. Indemnifications

In the normal course of business, the Fund enters into contracts that contain a variety of representations that provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

10. Recent Accounting Pronouncements

On October 13, 2016, the SEC released its Final Rule on Investment Company Reporting Modernization, which contains amendments to Regulation S-X which impact financial statement presentation, particularly the presentation of derivative investments. The financial statements presented are in compliance with the most recent Regulation S-X amendments.

11. Subsequent Events

Distributions On December 4, 2017, the Fund announced a Board-approved regular quarterly distribution of \$0.37 per common share. The distribution was paid on December 29, 2017 to shareholders of record on December 18, 2017.

Notes to financial statements

Macquarie Global Infrastructure Total Return Fund Inc.

11. Subsequent Events (continued)

Management has determined that no other material events or transactions occurred subsequent to November 30, 2017 that would require recognition or disclosure in the Fund's financial statements.

Report of independent

registered public accounting firm

To the Board of Directors and Shareholders of

Macquarie Global Infrastructure Total Return Fund Inc.

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations, of changes in net assets, and of cash flows and the financial highlights present fairly, in all material respects, the financial position of Macquarie Global Infrastructure Total Return Fund Inc. (the Fund) as of November 30, 2017, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities as of November 30, 2017 by correspondence with the custodian, provide a reasonable basis for our opinion.

Macquarie Global Infrastructure Total Return Fund Inc.

Dividend Reinvestment Plan

Unless a stockholder of the Fund (Stockholder) elects to receive cash distributions, all dividends, including any capital gain dividends, on the Stockholder's Common Shares will be automatically reinvested by the Plan Agent, Computershare, in additional Common Shares under the Dividend Reinvestment Plan. If a Stockholder elects to receive cash distributions, the Stockholder will receive all distributions in cash paid by check mailed directly to the Stockholder by Computershare, as dividend paying agent.

If a Stockholder decides to participate in the Plan, the number of Common Shares the Stockholder will receive will be determined as follows:

- If Common Shares are trading at or above NAV at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

A Stockholder may withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If a Stockholder withdraws or the Plan is terminated, the Stockholder will receive a certificate for each whole share in its account under the Plan and the Stockholder will receive a cash payment for any fraction of a share in its account. If the Stockholder wishes, the Plan Agent will sell the Stockholder's shares and send the proceeds, minus brokerage commissions, if any, to the Stockholder.

The Plan Agent maintains all Stockholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information a Stockholder may need for tax records. Common Shares in an account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy a Stockholder receives will include all Common Shares received under the Plan.

There is no brokerage charge for reinvestment of a Stockholder's dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that a Stockholder does not have to pay income taxes due upon receiving dividends and distributions.

If a Stockholder holds Common Shares with a brokerage firm that does not participate in the Plan, the Stockholder will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above. Stockholders should consult their financial adviser for more information.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Directors the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare, PO Box 505000, Louisville, KY 40233 or Computershare, 462 South 4th Street, Louisville, KY 40202 (for overnight courier), 1-866-587-4518.

Board Approval of Investment Advisory and Management Agreement

The Directors, including all of the non-interested Directors, met on July 11, 2017 and considered the continuation of the Investment Advisory and Management Agreement with MCIM (the *Advisory Agreement*) for a one-year term. In their consideration, the Directors took into account a memorandum from MCIM regarding the services rendered to the Fund by MCIM, relevant information provided and discussed during the meeting, the experience of the principal portfolio managers, as well as the broader portfolio management team, the organizational structure and key personnel of MCIM's securities business and MCIM's financial statements and information relating to its profitability (collectively, the *Renewal Materials*). The Directors noted that they found the *Renewal Materials* provided by MCIM and its affiliated entities to be responsive to the Board's request for information. The Directors also considered a memorandum titled *Directors' Duties and Responsibilities in Connection with the Renewal of the Investment Advisory and Management Agreement* dated June 16, 2017 describing the legal duties of the Directors under the 1940 Act, which was reviewed with their independent counsel. The Directors also considered information prepared by Broadridge Financial Solutions, Inc. (*Broadridge*) comparing the Fund's fee rate for management services, expenses and performance characteristics to those of other similar funds. The Directors considered, among other factors, the following:

- (a) *The nature, extent and quality of services provided by the Adviser.* The Directors considered the services that MCIM provides to the Fund, MCIM's reputation as a manager of infrastructure assets and the information in the *Renewal Materials*, including information regarding Macquarie's position as a global market leading infrastructure manager, Macquarie's global infrastructure network, the extent of MCIM's team and its ability to leverage Macquarie's global infrastructure capabilities, its strong portfolio construction and risk management process and the Fund's performance in light of current economic conditions. Based on this presentation, the Directors concluded that the nature, extent and quality of services provided to the Fund by MCIM under the *Advisory Agreement* supported the Board's re-approval of the *Advisory Agreement*.
- (b) *Management fee, expense ratio and investment performance of the Fund, including a comparison of fees paid to those under other investment advisory contracts, such as contracts of the same and other investment advisers or other clients.* Consistent with the process followed in previous years, the

Additional information (Unaudited)

Macquarie Global Infrastructure Total Return Fund Inc.

Directors were provided with two sets of comparisons prepared by Broadridge that compared the Fund's performance, management fees and expenses to other closed-end sector equity funds, including the other closed-end infrastructure fund sub-advised by MCIM. One set of funds was selected by Broadridge and the other set selected by MCIM based on disclosed criteria. The Renewal Materials provided further detail on the comparison groups, limitations of the Broadridge data and analysis of the comparisons.

The Directors considered information prepared by Broadridge comparing the Fund's management fee rate and expenses to those of other funds and noted that the Fund's management fee rate was below the median for both the MCIM-selected comparison group and the Broadridge-selected comparison group for contractual management fees at a common asset level, and the Fund's expense ratio was higher than the medians of the MCIM-selected and Broadridge-selected comparison groups for actual total expenses common and leveraged assets. The Directors noted MCIM's assertion that certain of the expenses that contribute to the Fund having higher expenses than the median of the comparison group include investment-related expenses, which are attributed to the Fund's leverage, and certain non-management expenses.

The Directors considered the performance information prepared by Broadridge comparing the Fund's performance to the Fund's Broadridge-selected comparison group, and noted that the Fund's performance ranked 1st of 8 for the 1 year period, 2nd of 8 for the three year period, 2nd of 8 for the five year period and 2nd of 5 since inception. The Directors also noted that in comparison to the Fund's MCIM-selected comparison group, the Fund's performance ranked 1st of 8 for the 1 year period, 1st of 8 for the 3 year period, 2nd of 8 for the 5 year period, and 1st of 6 since inception.

Based on these considerations and the other factors considered at the meeting, the Directors concluded that the Fund's management fee rate, expense level and performance supported the re-approval of the Advisory Agreement.

(c) *Cost of the services to be provided and profits realized by MCIM from the relationship with the Fund.* The Directors considered the pro forma income statement relating to the cost of the services provided by MCIM and the profits realized by MCIM from its relationship with the Fund. It was noted that affiliates of MCIM did not derive any material direct or indirect economic benefits from MCIM's relationship with the Fund, other than through commissions received by an affiliated broker/dealer. On a quarterly basis, the Board is provided with Rule 17e-1 transaction reports (regarding transactions executed with the affiliated broker-dealer), including commissions paid with respect to those transactions. After reviewing the pro forma financial information, the Directors concluded that the profitability of MCIM attributable to the Fund did not suggest that the investment advisory fee was so disproportionately large that it could not have been the product of arms length bargaining.

(d) *The extent to which economies of scale are realized as the Fund grows and whether fee levels reflect such economies of scale.* The Directors considered that economies of scale should be predicated on increasing assets and that, because the Fund is a closed-end fund without daily inflows and outflows of capital, there were not at this time significant economies of scale to be realized by MCIM in managing the Fund's assets.

Conclusion. No single factor was determinative to the decision of the Directors. In addition, the Directors consideration of the advisory fee arrangements had the benefit of, and was performed in part by reference to, a number of years of reviews during which lengthy discussions took place between the Directors and MCIM representatives. Certain aspects of the arrangements may have received greater scrutiny in some years than in others, and the Directors conclusions may be based, in part, on information considered in prior years or learned throughout the period of their service. Based on the foregoing and such other matters as were deemed relevant, all of the Directors, including the Independent Directors, approved the continuation of Advisory Agreement. It was noted that the Independent Directors were represented by independent legal counsel who assisted them in their deliberations.

Certain discussions and conclusions occurred during executive session but are included here, in one place, for ease of presentation.

Fund Proxy Voting Policies & Procedures

Policies and procedures used in determining how to vote proxies relating to portfolio securities and information regarding how the Fund voted proxies during the most recent 12-month period ended June 30, are available without a charge, upon request, by contacting the Fund at 1-866-567-4771 or on the Fund's website at <http://www.macquarie.com/mgu> and on the SEC's web site at <http://www.sec.gov>.

Portfolio Holdings

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q within 60 days after the end of the period. Copies of the Fund's Forms N-Q are available without a charge, upon request, by contacting the Fund at 1-866-567-4771 or on the Fund's website at <http://www.macquarie.com/mgu> and on the SEC's web site at <http://www.sec.gov>. You may also review and copy Form N-Q at the SEC's Public Reference Room in Washington, D.C. For more information about the operation of the Public Reference Room, please call the SEC at 1-800-SEC-0330.

Designation Requirements

The Fund designates the following for federal income tax purposes for the year ended November 30, 2017:

Foreign Taxes Paid	\$ 1,232,221
Foreign Source Income	20,800,620

Of the distributions paid by the Fund from ordinary income for the calendar year ended December 31, 2016, the following percentages met the requirements to be treated as qualifying for the corporate dividends received deduction and qualified dividend income, respectively:

Dividends Received Deduction	28.51%
Qualified Dividend Income	80.12%

Additional information (Unaudited)

Macquarie Global Infrastructure Total Return Fund Inc.

In early 2017, if applicable, shareholders of record received this information for the distributions paid to them by the Fund during the calendar year 2016 via Form 1099. The Fund will notify shareholders in early 2018 of amounts paid to them by the Fund, if any, during the calendar year 2017.

Pursuant to Section 852(b)(3) of the Internal Revenue Code, the Fund designated \$1,586,740 as a long-term capital gain distribution.

Notice

Notice is hereby given in accordance with Section 23(c) of the 1940 Act that the Fund may purchase at market prices from time to time shares of its common stock in the open market.

Section 19(a) Notices

The following table sets forth the estimated amount of the sources of distribution for purposes of Section 19 of the 1940 Act, as amended, and the related rules adopted there under. The Fund estimates the following percentages, of the total distribution amount per share, attributable to (i) current and prior fiscal year net investment income, (ii) net realized short-term capital gain, (iii) net realized long-term capital gain, and (iv) return of capital or other capital source as a percentage of the total distribution amount. These percentages are disclosed for the fiscal year-to-date cumulative distribution amount per share for the Fund.

The amounts and sources of distributions reported in these 19(a) notices are only estimates and not for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. Shareholders will receive a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

Total Cumulative Distributions

for the year ended

November 30, 2017

Net Investment Income	Net Realized Capital Gains	Return of Capital	Total Per Common Share
\$0.8548	\$0.1952	\$0.4300	\$1.4800

% Breakdown of the

Total Cumulative Distributions

for the year ended

November 30, 2017

Net Investment Income	Net Realized Capital Gains	Return of Capital	Total Per Common Share
57.76%	13.19%	29.05%	100.00%

The Fund's distribution policy is to distribute all or a portion of its net investment income to its shareholders on a quarterly basis. In order to provide shareholders with a more stable level of dividend

distributions, the Fund may at times pay out less than the entire amount of net investment income earned in any particular quarter and may at times in any particular quarter pay out such accumulated but undistributed income in addition to net investment income earned in that quarter. As a result, the distributions paid by the Fund for any particular quarter may be more or less than the amount of net investment income earned by the Fund during such quarter. The Fund's current accumulated but undistributed net investment income, if any, is disclosed in the Statement of Assets and Liabilities, which comprises part of the financial information included in this report.

Directors & Officers

November 30, 2017 (Unaudited)

Certain biographical and other information relating to the Directors and Executive Officers of the Fund is set out below, including their year of birth, their principal occupations for at least the last five years,

Principal Occupation(s) During the Past Five Years

Mr. Frishberg has been Managing Director and Chief Investment Officer of Infrastructure Securities of Macquarie Asset Management since December 2009. Previously, he was Managing Director and U.S. Equity Portfolio Manager of JP Morgan Asset Management from 2000 – 2008.

Mr. Fink is a Senior Manager for Macquarie Bank Limited (September 2014 – present); previously, he was the Chief Compliance Officer for EACM Advisors LLC, a subsidiary of the Bank of New York Mellon (January 2011 – September 2014) and was President and Chief Compliance Officer of IMS Financial (June 2004 – December 2010).

Mr. Kim is Managing Director and U.S. General Counsel of Macquarie Asset Management (June 2009 – present); previously, he was Head of U.S. Alternatives Legal within the Asset Management Division of Deutsche Bank AG (April 2001 – June 2009).

Mr. Geatens has served in various capacities at different times at Macquarie Investment Management since 1997.

Item 2. Code of Ethics.

- (a) The registrant, as of the end of the period covered by this report, has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (c) There have been no amendments, during the period covered by this report, to a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, and that relates to any element of the code of ethics description.
- (d) The registrant has not granted any waivers, including an implicit waiver, from a provision of the code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, that relates to one or more of the items set forth in paragraph (b) of this item's instructions.

Item 3. Audit Committee Financial Expert.

The Board of Directors of the Registrant has determined that the Registrant has at least one audit committee financial expert serving on its audit committee. The Board of Directors has determined that each of the independent directors is an audit committee financial expert. Each of Gordon A. Baird, Chris LaVictoire Mahai and Thomas W. Hunersen is independent as defined in paragraph (a)(2) of Item 3 to Form N-CSR.

Item 4. Principal Accountant Fees and Services.

Audit Fees

- (a) The aggregate fees billed for services provided to the registrant by its independent auditors for the audit of the registrant's annual financial statements and for services normally provided by the independent auditors in connection with statutory and regulatory filings or engagements were \$60,000 for 2017 and \$99,664 for 2016.

Audit-Related Fees

- (b) The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the

registrant's financial statements and are not reported under paragraph (a) of this Item were \$1,800 for 2017 and \$2,200 for 2016.

The aggregate fees billed by the registrant's independent auditors for services relating to the performance of the audit of the financial statements of the registrant's investment adviser and other service providers under common control with the adviser and that relate directly to the operations or financial reporting of the registrant were \$0 for 2017 and \$0 for 2016.

The above Audit-Related Fees were related to the year-end audit procedures, group reporting and subsidiary statutory audits.

Tax Fees

- (c) The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning are \$15,907 for 2017 and \$52,642 for 2016.

The above Tax-Fees were related to the review of income tax returns and review of annual excise distribution calculations.

All Other Fees

- (d) The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item are \$0 for 2017 and \$0 for 2016.

- (e)(1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c)(7) of Rule 2-01 of Regulation S-X.

All services to be performed by the Registrant's principal auditors must be pre-approved by the Registrant's audit committee, which may include the approval of certain services up to an amount determined by the audit committee. Any services that would exceed that amount would require additional approval of the audit committee.

- (e)(2) The percentage of services described in each of paragraphs (b) through (d) of this Item that were approved by the audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X are as follows:

(b) N/A

(c) N/A

(d) N/A

- (f) Not applicable

- (g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another

investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant was \$11,180,000 for 2017 and \$8,665,000 for 2016.

- (h) The registrant's audit committee of the board of directors has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants.

- (a) The Registrant has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934 and is comprised of the following members: Gordon A. Baird, Chris LaVictoire Mahai and Thomas W. Hunersen.

- (b) Not applicable

Item 6. Investments.

- (a) Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.

- (b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Registrant's (MGU) Proxy Voting Procedures

Macquarie Capital Investment Manager LLC (MCIM) is the adviser of MGU and is responsible for voting proxies on its behalf. MCIM has adopted the following policies and procedures designed to ensure that all such votes are in the best interest of MGU.

a) MCIM's policy is to vote on all proxies for securities held by MGU consistently and in the best interest of MGU and its shareholders, considered as a group rather than individually, unless it determines that abstaining from the vote would be in the best interest of MGU. For this purpose, best interest means in the best economic interest of MGU and its shareholders, as investors (hereafter, collectively, MGU), without regard to any self-interest which MCIM, its management or affiliates might have in a particular voting matter or any interest which MGU shareholders may have other than their economic interest, in common, as MGU investors.

b) MCIM has engaged the services of Institutional Shareholder Services to make recommendations to MCIM with respect to voting proxies related to securities held by MGU. Institutional Shareholder Services' recommendations will be based on Institutional Shareholder Services' pre-established voting guidelines.

c) MCIM will review each Institutional Shareholder Services recommendation and will generally vote in accordance with such recommendation unless it determines that the recommendation is not in the best interest of MGU.

d) In the event that MCIM determines that it is not in the best interest of MGU to vote, or to vote in accordance with an Institutional Shareholder Services recommendation, regarding a particular voting matter, MCIM will document its reasons for such determinations.

e) In the event that MCIM manages the assets of a company or its pension plan and the Fund holds securities issued by that company, MCIM will vote proxies relating to that company's securities in accordance with Institutional Shareholder Services' recommendations to avoid any actual or apparent conflict of interest in the matter.

f) In the event, apart from the situation described in e) immediately above, that MCIM determines it has an actual, potential or apparent conflict of interest regarding a particular voting matter, it will generally follow the Institutional Shareholder Services recommendation to ensure that such conflict is avoided. Should MCIM determine that a vote according to Institutional Shareholder Services' recommendation regarding such a matter would not be in the best interest of MGU, MCIM will promptly escalate the matter so that voting instructions may be obtained from the MGU Board of Directors upon the advice, if sought, of legal counsel or other advisers to the Fund and/or its independent directors.

g) MCIM will follow any specific voting procedures adopted by MGU, unless it determines that it is unable to do so. In the event that MCIM is unable, for any reason, to follow specific procedures adopted by MGU, it will document the reasons for its determination and promptly so notify the Board of Directors of MGU or their appointed delegate.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) Portfolio Managers as of November 30, 2017:

Name	Title	Length of Service	Business Experience During the Past 5 Years
Jonathon Ong, CFA	Co-Portfolio Manager	Since November 2012	Mr. Ong joined the Macquarie's Investment Management Infrastructure Securities team in Sydney as a Portfolio Manager in January 2008. He has been a member of the team's Investment Committee since then. He has over 20 years of investment experience. Prior to joining Macquarie, Mr. Ong held Analyst and Portfolio Manager roles at Credit Suisse Asset Management (CSAM), where he worked for 8 years in Sydney and Tokyo. His portfolio management and analytical responsibilities were primarily focused on infrastructure and related stocks. Prior to CSAM, he spent 3 years as an Asia-Pacific telecom analyst for Bankers Trust, having started his career as a sell-side analyst in Hong Kong for Kim Eng Securities. Mr. Ong earned a Bachelor of Science degree from the University of Melbourne and a Bachelor of Business (Banking and Finance) from Monash University.

Brad Frishberg, CFA	Co-Portfolio Manager	Since November 2012	Mr. Frishberg is the head of Macquarie Investment Management Infrastructure Securities business and serves as its Chief Investment Officer. He is also a Co-Portfolio Manager for a number of portfolios. He has more than 20 years of asset management experience. Prior to joining Macquarie in 2009, Mr. Frishberg was managing director and US equity portfolio manager at J.P. Morgan Asset Management, where over a period of 13 years he was responsible for managing portfolios and businesses in London, Tokyo, and New York. He started his career at Aetna Asset Management as an international analyst and then as a portfolio manager for Japanese equity and fixed income. Mr. Frishberg earned his Bachelor's degree in business economics from Brown University and his Master's degree in economics from Trinity College.

(a)(2) **Other Accounts Managed as of November 30, 2017:**

Portfolio Manager's Name	Number of Registered Investment Companies, Total Assets	Number of Other Pooled Investment Vehicles, Total Assets	Number of Other Accounts, Total Assets	Advisory Fee Based on Performance Number of Accounts and Total Assets
Jonathon Ong	0	1,\$404M	0	0
Brad Frishberg	2, \$390M	6,\$382M	5,\$1,047M	0

Material Conflicts of Interest. Macquarie Capital Investment Management LLC (the Adviser) believes that Mr. Ong and Mr. Frishberg's simultaneous management of the Registrant and other accounts may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the Registrant and other accounts. To address these conflicts, the Adviser has adopted a Trade Allocation/Aggregation Policy that is designed to ensure fair and equitable allocation of investment opportunities among accounts over time and to ensure compliance with applicable regulatory requirements. All accounts are to be treated in a non-preferential manner, such that allocations are not based upon account performance, fee structure or preference of the portfolio

manager.

(a)(3) Portfolio Manager Compensation as of November 30, 2017:

Compensation consists of three components:

1. Fixed remuneration in the form of a base salary;
2. Variable (at risk) pay in the form of an annual profit share allocation; and

3. A long term incentive in the form of stock (applies to Director level employees only). Fixed remuneration takes into consideration the role of each individual and market conditions. Remuneration is reviewed on a yearly basis in March/April and takes effect from 1 July of that year.

Aggregate staff profit share is linked to Macquarie Group's profitability and return on ordinary equity, with the allocation of individual profit share being based on factors including contribution to profit, use of capital, funding and risk. Macquarie Group operates profit share retention arrangements for employees meeting certain pay thresholds, to ensure an appropriate balance between short and longer-term incentives. Retained profit share is invested in the Macquarie Employee Retained Equity Plan (MEREPE) to further align employee and shareholder interests as well as enhance Macquarie Group's ability to attract and retain high caliber talent.

(a)(4) Dollar Range of Securities Owned by Portfolio Managers as of November 30, 2017:

Portfolio Manager	Dollar Range of Equity Securities in Registrant ¹
Jonathon Ong	\$0
Brad Frishberg	\$0

¹ Beneficial Ownership is determined in accordance with Rule 16a-1(a)(2) under the Securities Exchange Act of 1934, as amended.

(b) Not applicable

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which the shareholders may recommend nominees to the registrant's board of directors, where those changes were implemented after the registrant last provided disclosure in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or this Item.

Item 11. Controls and Procedures.

(a)

The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as

defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c)) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies.

Not applicable.

Item 13. Exhibits.

- (a)(1) Code of ethics, or any amendment thereto, that is the subject of disclosure required by Item 2 is attached hereto.
- (a)(2) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (a)(3) Not applicable.
- (a)(4) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the 1940 Act and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (c) Pursuant to the Securities and Exchange Commission's Order granting relief from Section 19(b) of the Investment Company Act of 1940 dated January 6, 2009, the 19(a) Notices to Beneficial Owners are attached hereto as Exhibit 12(c).
