Edgar Filing: RESEARCH FRONTIERS INC - Form 8-K

Item 7.01 Regulation FD Disclosure

Research Frontiers President and CEO Joseph M. Harary will give a presentation at Glasstec 2012, which is being held from October 23-26, 2012 in Dusseldorf, Germany.

Mr. Harary's presentation, entitled "SPD-SmartGlass: Optimizing Vehicle and Building Performance," is based on a paper he co-authored with Gregory M. Sottile, Ph.D., Research Frontiers Director of Market Development. The presentation will discuss the size and outlook of the smart glass industry, highlight the distinctive performance characteristics of SPD-SmartGlass and how they contribute to energy efficiency and user well-being. It will feature real-world uses of SPD-SmartGlass in the automotive, architectural, aerospace and marine markets. The presentation is scheduled for October 26 at 4:00 PM local time in Dusseldorf and is part of the Engineered Transparency conference section of Glasstec.

SPD-Smart technology is a film-based light-control technology that allows users to instantly change the tint of glass or plastic from clear to dark or anything in between. This can be done automatically or at the touch of a button. SPD-Smart technology also blocks over 99% of harmful UV radiation and allows users to control the heat, light and glare entering vehicles, buildings, aircraft and boats.

Glasstec 2012, which is held every two years, is the international trade fair and conference for glass production and products. It is the world's largest trade fair for the glass industry and is expected to include 1,300 exhibitors from throughout the world and attract 45,000 glass industry professionals. The Engineered Transparency conference of Glasstec aims to present research and latest developments on glass construction, facade engineering and solar technology. More information about Glasstec 2012 is available from the event website at www.glasstec-online.com.

About Research Frontiers Inc.

Research Frontiers Inc. (Nasdaq: REFR) has invested over \$86 million to develop SPD-Smart light-control technology which allows users to instantly, precisely and uniformly control the shading of glass or plastic, either manually or automatically. Research Frontiers has built an infrastructure of 39 licensed companies that collectively are capable of serving the growing global demand for smart glass products in automobiles, homes, buildings, aircraft and boats. Research Frontiers holds approximately 300 patents on SPD-Smart technology worldwide.

Details are noted in the press release attached as an exhibit to this report. This press release is also available on the Company's website at www.SmartGlass.com and at various other places on the internet.

This report and the press releases referred to herein may include statements that may constitute "forward-looking" statements as referenced in the Private Securities Litigation Reform Act of 1995. Those statements usually contain words such as "believe", "estimate", "project", "intend", "expect", or similar expressions. Any forward-looking statements are made by the Company in good faith, pursuant to the safe-harbor provisions of the Act. These forward-looking statements reflect management's current views and projections regarding economic conditions, industry environments and Company performance. Factors, which could significantly change results, include but are not limited to: sales performance, expense levels, competitive activity, interest rates, changes in the Company's financial condition and several business factors. Additional information regarding these and other factors may be included in the Company's quarterly 10-Q and 10K filings and other public documents, copies of which are available from the Company on request. By making these forward-looking statements, the Company undertakes no obligation to update these statements for revisions or changes after the date of this report.

The information in this Form 8-K or the press release reproduced herein shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

Item 9.01. Financial Statements and Exhibits.

(c) Exhibits.
