THE BANCORP, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Structure of Company

The Bancorp, Inc. (the Company) is a Delaware corporation and a registered financial holding company. Its primary subsidiary is The Bancorp Bank (the Bank) which is wholly owned by the Company. The Bank is a Delaware chartered commercial bank located in Wilmington, Delaware and is a Federal Deposit Insurance Corporation (FDIC) insured institution. In its continuing operations, the Bank has four primary lines of specialty lending: securities-backed lines of credit (SBLOC), leasing, Small Business Administration (SBA) loans and loans generated for sale into capital markets primarily through commercial loan securitizations (CMBS). Through the Bank, the Company also provides banking services nationally, which include prepaid cards, private label banking, institutional banking, card payment and other payment processing.

The Company and the Bank are subject to regulation by certain state and federal agencies and, accordingly, they are examined periodically by those regulatory authorities. As a consequence of the extensive regulation of commercial banking activities, the Company's and the Bank's businesses may be affected by state and federal legislation and regulations.

Note 2. Significant Accounting Policies

Basis of Presentation

The financial statements of the Company, as of June 30, 2017 and for the three and six month periods ended June 30, 2017 and 2016, are unaudited. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. However, in the opinion of management, these interim financial statements include all necessary adjustments to fairly present the results of the interim periods presented. The unaudited interim consolidated financial statements should be read in conjunction with the audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 (2016 Form 10-K Report). The results of operations for the six month period ended June 30, 2017 may not necessarily be indicative of the results of operations for the full year ending December 31, 2017.

Note 3. Share-based Compensation

The Company recognizes compensation expense for stock options in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 718, "Stock Based Compensation". The expense of the option is generally measured at fair value at the grant date with compensation expense recognized over the service period, which is typically the vesting period. For grants subject to a service condition, the Company utilizes the Black-Scholes option-pricing model to estimate the fair value of each option on the date of grant. The Black-Scholes model takes into consideration the exercise price and expected life of the options, the current price of the underlying stock and its expected volatility, the expected dividends on the stock and the current risk-free interest rate for the expected life of the option. The Company's estimate of the fair value of a stock option is based on expectations derived from historical

experience and may not necessarily equate to its market value when fully vested. In accordance with ASC 718, the Company estimates the number of options for which the requisite service is expected to be rendered. At June 30, 2017, the Company had two active stock-based compensation plans, which are more fully described in its 2016 Form 10-K Report.

The Company did not grant stock options during the six month period ended June 30, 2017. The Company granted 300,000 stock options with a vesting period of four years in the first six months of 2016. There were no common stock options exercised in the six month periods ended June 30, 2017 or June 30, 2016.

Edgar Filing: Bancorp, Inc. - Form 10-Q

A summary of the status of the Company's equity compensation plans is presented below.

In the first six months of 2016, the Company granted 789,000 restricted stock units (RSUs) of which 620,000 had a vesting period of three years and 169,000 had a vesting period of one year. Of the RSUs granted in the first half of 2016, 489,000 had a fair value of \$4.50 and 300,000 RSUs had a fair value of \$6.75 at issuance. The total fair value of RSUs vested for the six months ended June 30, 2017 and 2016 was \$2.6 million and \$830,000, respectively.

A summary of the status of the Company's RSUs is presented below.

| | Shares | Weighted average grant date fair value | Average remaining contractual term (years) |
|--------------------------------|-----------|--|--|
| Outstanding at January 1, 2017 | 831,775 | \$ 5.77 | 1.62 |
| Granted | 807,482 | 5.07 | |
| Vested | (438,441) | 5.89 | |
| Forfeited | (46,192) | 4.98 | |
| Outstanding at June 30, 2017 | 1,154,624 | \$ 5.27 | 2.08 |

As of June 30, 2017, there was a total of \$5.8 million of unrecognized compensation cost related to unvested awards under share-based plans. This cost is expected to be recognized over a weighted average period of approximately 2.2

years. Related compensation expense for the six months ended June 30, 2017 and 2016 was \$1.6 million and \$1.2 million, respectively.

Note 4. Earnings Per Share

The Company calculates earnings per share under ASC 260, "Earnings Per Share". Basic earnings per share exclude dilution and are computed by dividing income available to common shareholders by the weighted average common shares outstanding during the period. Diluted earnings per share takes into account the potential dilution that could occur if securities or other contracts to issue common stock were exercised and converted into common stock.

At June 30, 2017 and December 31, 2016, there were no investment securities pledged to secure securities sold under repurchase agreements as required or permitted by law. The balance of pledged securities was reduced to \$0 as balances requiring pledging were not expected to increase from minimal levels exceeded by deposit insurance. At June 30, 2017 and December 31, 2016, investment securities with a fair value of approximately \$600.0 million and \$607.2 million, respectively, were pledged to secure a line of credit with the FHLB and a letter of credit with that institution.

Edgar Filing: Bancorp, Inc. - Form 10-Q

Fair value of available-for-sale securities are based on the fair market value supplied by a third-party market data provider, while the fair value of held-to-maturity securities are based on the present value of cash flows, which discounts expected cash flows from principal and interest using yield to maturity at the measurement date. The Company periodically reviews its investment portfolio to determine whether unrealized losses are other than temporary, based on an evaluation of the creditworthiness of the issuers/guarantors as well as the underlying collateral, if applicable, in addition to the continuing performance of the securities. The amount of the credit impairment is calculated by estimating the discounted cash flows for those securities. The Company did not recognize any other-than-temporary impairment charges in the first six months of 2017.

| Security B | 9,091 | 6,224 | (2,867) | Not rated |

Class: All of the above are trust preferred securities.

The Company has evaluated the securities in the above tables and has concluded that none of these securities has impairment that is other-than-temporary. The Company evaluates whether a credit impairment exists by considering primarily the following factors: (a) the length of time and extent to which the fair value has been less than the amortized cost of the security, (b) changes in the financial condition, credit rating and near-term prospects of the issuer, (c) whether the issuer is current on contractually obligated interest and principal payments, (d) changes in the financial condition of the security's underlying collateral and (e) the payment structure of the security. The Company's best estimate of expected future cash flows, which is used to determine the credit loss amount, is a quantitative and qualitative process that incorporates information received from third-party sources along with internal assumptions and judgments regarding the future performance of the security. The Company concluded that most of the securities that are in an unrealized loss position are in a loss position because of changes in market interest rates after the securities were purchased. Securities that have been in an unrealized loss position for 12 months or longer include other securities whose market values are sensitive to market interest rates and changes in credit quality. The Company's unrealized loss for other of the debt securities, which include three single issuer trust preferred securities and one pooled trust preferred security, is primarily related to general market conditions, including a lack of liquidity in the market. The severity of the temporary impairments in relation to the carrying amounts of the individual investments is consistent with market developments. The Company's analysis of each investment is performed at the security level. As a result of its review, the Company concluded that other-than-temporary impairment did not exist due to the Company's ability and intention to hold these securities to recover their amortized cost basis.

Note 6. Loans

The Company has several lending lines of business including SBA loans, direct lease financing, SBLOC and other specialty and consumer lending. The Company also originates loans for sale into commercial mortgage backed securitizations or to secondary government guaranteed loan markets. These sales are accounted for as true sales and there is no continuing involvement in these loans. Servicing rights on these loans are not retained. The Company has elected fair value treatment for these loans to better reflect the economics of the transactions. At June 30, 2017, the fair value of the loans held for sale was \$542.8 million and their book value was \$537.9 million. Included in the gain on sale of loans in the Statements of Operations were gains recognized from changes in fair value of \$2.0 million for the six months ended June 30, 2017. There were no changes in fair value related to credit risk. Interest earned on loans held for sale during the period held are recorded in Interest Income-Loans, including fees, on the Statements of Operations.

In the second quarter of 2016, the Company purchased approximately \$60 million in fleet vehicle leases which resulted in a customer list intangible of \$3.4 million. The balance of the \$8.0 million purchase price was allocated to premium which is being amortized over

the estimated average lives of the leases.

The Company analyzes credit risk prior to making loans on an individual loan basis. The Company considers relevant aspects of the borrowers' financial position and cash flow, past borrower performance, management's knowledge of market conditions, collateral and the ratio of loan amounts to estimated collateral value in making its credit determinations.

Note 7. Transactions with Affiliates

The Bank maintains deposits for various affiliated companies totaling approximately \$5.0 million and \$5.5 million as of June 30, 2017 and December 31, 2016, respectively.

The Bank has entered into lending transactions in the ordinary course of business with directors, executive officers, principal stockholders and affiliates of such persons. All loans were made on substantially the same terms, including interest rate and collateral, as those prevailing at the time for comparable loans with persons not related to the Bank. At June 30, 2017, these loans were current as to principal and interest payments and did not involve more than normal risk of collectability. Loans to these related parties included in Loans, net of deferred loan fees and costs, amounted to \$1.2 million at June 30, 2017 and \$649,000 at December 31, 2016.

The Bank periodically purchases securities under agreements to resell and engages in other securities transactions as follows. The Company executed transactions through J.V.B. Financial Group, LLC, (JVB), a broker dealer in which the Company’s Chairman has a minority interest. The Company’s Chairman also serves as Vice Chairman of Institutional Financial Markets Inc., the parent company of JVB. The Company purchased securities under agreements to resell through JVB primarily consisting of G.N.M.A. certificates which are full faith and credit obligations of the United States government issued at competitive rates. JVB was in compliance with all of the terms of the agreements at June 30, 2017 and had complied with all terms for all prior repurchase agreements. There were \$65.1 million and \$39.2 million of repurchase agreements outstanding at June 30, 2017 and December 31, 2016, respectively.

Mr. Hersh Kozlov, a director of the Company, is a partner at Duane Morris LLP, an international law firm. The Company paid Duane Morris LLP \$1.8 million and \$1.3 million for legal services for the six months ended June 30, 2017 and June 30, 2016, respectively.

Note 8. Fair Value Measurements

ASC 825, “Financial Instruments Available for Sale”, requires disclosure of the estimated fair value of an entity’s assets and liabilities considered to be financial instruments. For the Company, as for most financial institutions, the majority of its assets and liabilities are considered to be financial instruments. However, many of such instruments lack an available trading market as characterized by a willing buyer and willing seller engaging in an exchange transaction. Accordingly, estimated fair values are determined by the Company using the best available data and an estimation methodology it believes to be suitable for each category of financial instruments. Also, it is the Company’s general practice and intent to hold its financial instruments to maturity whether or not categorized as “available-for-sale” and not to engage in trading or sales activities, except for the sale of commercial loans to secondary markets. For fair value

purposes, the Company utilized certain value measurement criteria required under the ASC 820, “Fair Value Measurements and Disclosures”, and discussed below.

Estimated fair values have been determined by the Company using the best available data and an estimation methodology it believes to be suitable for each category of financial instruments. Changes in the assumptions or methodologies used to estimate fair values may materially affect the estimated amounts. Also, there may not be reasonable comparability between institutions due to the wide range of permitted assumptions and methodologies in the absence of active markets. This lack of uniformity gives rise to a high degree of subjectivity in estimating financial instrument fair values

Cash and cash equivalents, which are comprised of cash and due from banks, the Company’s balance at the Federal Reserve Bank and securities purchased under agreements to resell, had recorded values of \$546.9 million and \$999.1 billion as of June 30, 2017 and December 31, 2016, respectively, which approximated fair values.

The estimated fair values of investment securities are based on quoted market prices, if available, or estimated using a methodology based on management’s inputs. The fair values of the Company’s investment securities held-to-maturity and loans held for sale are based on using “unobservable inputs” that are the best information available in the circumstances. Level 3 investment securities fair values are based on the present value of cash flows, which discounts expected cash flows from principal and interest using yield to maturity at the measurement date.

FHLB and Atlantic Central Bankers Bank stock is held as required by those respective institutions and is carried at cost. Federal law requires a member institution of the FHLB to hold stock according to predetermined formulas. Atlantic Central Bankers Bank requires its correspondent banking institutions to hold stock as a condition of membership.

Commercial loans held for sale have estimated fair values based upon market indications of the sales price of such loans from recent sales transactions.

The net loan portfolio at June 30, 2017 and December 31, 2016 has been valued using the present value of discounted cash flow where market prices were not available. The discount rate used in these calculations is the estimated current market rate adjusted for credit risk. Accrued interest receivable has a carrying value that approximates fair value

On December 30, 2014, the Bank entered into an agreement for, and closed on, the sale of a portion of its discontinued commercial loan portfolio. The purchaser of the loan portfolio was a newly formed entity, 2014-1 LLC (Walnut Street). The price paid to the Bank for the loan portfolio which had a face value of approximately \$267.6 million, was approximately \$209.6 million, of which approximately \$193.6 million was in the form of two notes issued by Walnut Street to the Bank; a senior note in the principal amount of approximately \$178.2 million bearing interest at

1.5% per year and maturing in December 2024 and a subordinate note in the principal amount of approximately \$15.4 million, bearing interest at 10.0% per year and maturing in December 2024. The balance of these notes comprises the balance of the investment in unconsolidated entity. The fair value was established by the sales price and subsequently subjected to cash flow analysis. The change in value of investment in unconsolidated entity in the income statement includes interest paid and changes in estimated fair value.

Discontinued assets held for sale as of June 30, 2017 are held at the lower of cost basis or market value. For loans, market value was determined using the income approach which converts expected cash flows from the loan portfolio by unit of measurement to a present value estimate. Unit of measurement was determined by loan type and for significant loans on an individual loan basis. The fair values of the Company's loans classified as assets held for sale are based on "unobservable inputs" that are the best information available in the circumstances. Level 3 fair values are based on the present value of cash flows by unit of measurement. For commercial loans, a market adjusted rate to discount expected cash flows from outstanding principal and interest to expected maturity at the measurement date, was utilized. For other real estate owned, market value was based upon appraisals of the underlying collateral by third party appraisers, reduced by 7% to 10% for estimated selling costs.

The estimated fair values of demand deposits (comprising interest and non-interest bearing checking accounts, savings, and certain types of money market accounts) are equal to the amount payable on demand at the reporting date (generally, their carrying amounts). The fair values of securities sold under agreements to repurchase and short term borrowings are equal to their carrying amounts as they are overnight borrowings.

Time deposits and subordinated debentures have a fair value estimated using a discounted cash flow calculation that applies current interest rates to discount expected cash flows. Based upon time deposit maturities at June 30, 2017, the carrying values approximate their fair values. The carrying amount of accrued interest payable approximates its fair value.

The fair values of interest rate swaps are determined using models that use readily observable market inputs and a market standard methodology applied to the contractual terms of the derivatives, including the period to maturity and interest rate indices.

The fair value of commitments to extend credit is estimated based on the amount of unamortized deferred loan commitment fees. The fair value of letters of credit is based on the amount of unearned fees plus the estimated cost to terminate the letters of credit. Fair values of unrecognized financial instruments, including commitments to extend credit, and the fair value of letters of credit are considered immaterial.
