2018

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended June 30, 2018

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

for the transition period from _____ to _____

Commission file number 1-14105

AVALON HOLDINGS CORPORATION

(Exact name of registrant as specified in its charter)

Ohio
(State or other jurisdiction
of incorporation or organization)

34-1863889
(I.R.S. Employer
Identification No.)

One American Way, Warren, Ohio 44484-5555
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: **(330) 856-8800**

Indicate by a check mark whether the registrant (1) has filed all reports required to be filed by section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by a check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging
Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by a check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The registrant had 3,191,100 shares of its Class A Common Stock and 612,231 shares of its Class B Common Stock outstanding as of August 3, 2018.

AVALON HOLDINGS CORPORATION AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements

June 30, 2018

Note 1. Description of Business

Avalon Holdings Corporation (“Avalon” or the “Company”) was formed on April 30, 1998 as a subsidiary of American Waste Services, Inc. (“AWS”). On June 17, 1998, AWS distributed, as a special dividend, all of the outstanding shares of capital stock of Avalon to the holders of AWS common stock on a pro rata and corresponding basis.

Avalon provides waste management services to industrial, commercial, municipal and governmental customers in selected northeastern and midwestern U.S. markets, captive landfill management services and salt water injection well operations. In addition, Avalon owns Avalon Clubs and Resorts, Inc. (“ACRI”), which includes the operation and management of three golf courses and associated clubhouses, recreation and fitness centers, tennis courts, spa services, dining and banquet facilities and a travel agency. ACRI also owns and operates a hotel and related amenities including dining, banquet and conference facilities, fitness center, indoor junior Olympic size swimming pool and tennis courts.

Note 2. Basis of Presentation

The unaudited condensed consolidated financial statements of Avalon and related notes included herein have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted consistent with such rules and regulations. The accompanying unaudited condensed consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes included in Avalon’s 2017 Annual Report to Shareholders.

The unaudited condensed consolidated financial statements include the accounts of Avalon, its wholly owned subsidiaries and those companies in which Avalon has managerial control. All significant intercompany accounts and transactions have been eliminated in consolidation.

In the opinion of management, these unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position of Avalon as of June 30, 2018, and the results of its operations and cash flows for the interim periods presented.

The operating results for the interim periods are not necessarily indicative of the results to be expected for the full year.

Presentation Revision

To comply with SEC Regulation S-X, Rule 5-03, the Company revised its presentation of net operating revenues and associated operating costs separately for all significant revenue types, consisting of our waste management services as well as food, beverage and merchandise sales and other golf operations, each within our golf and related operations segment in our Condensed Consolidated Statements of Operations. The Company determined that this revision is not material to any prior period and has reflected this revision in the Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2017. This presentation did not affect total revenue, total costs and expenses, operating income (loss), net income (loss) or net income (loss) attributable to Avalon Holdings Corporation common shareholders.

Note 3. Recent Accounting Pronouncements

Adopted Accounting Standards

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, *Revenue from Contracts with Customers* (“ASU 2014-09”). ASU 2014-09 clarifies the principles used to recognize revenue for all entities. ASU 2014-09 provides a unified five-step model to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration for which the entity expects to be entitled in exchange for those goods or services. The new standard replaces most of the existing revenue recognition standards in U.S. GAAP. In addition, in March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, which clarifies how to apply revenue recognition guidance related to whether an entity is a principal or an agent. On January 1, 2018, the Company adopted ASU 2014-09 and ASU 2016-08, and all related amendments using the modified retrospective method. The adoption did not result in an impact to the way the Company records revenue and as such did not result in period reclassifications to or from revenue or its associated costs. As a result of the adoption, the Company separately disclosed contract assets, in our Condensed Consolidated Balance Sheets at June 30, 2018 and December 31, 2017 and associated cash flows in our Condensed Consolidated Statements of Cash Flows for the six months ended June 30, 2018 and 2017. The Company does not expect the adoption to have a material impact on an ongoing basis (See Note 5).

In August 2016, the FASB issued ASU 2016-15, *Classification of Certain Cash Receipts and Cash Payments* (“ASU 2016-15”), which is intended to reduce diversity in practice in how certain cash receipts and payments are presented and classified in the statement of cash flows. The standard provides guidance in a number of situations including, among others, settlement of zero-coupon bonds, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, and distributions received from equity method investees. ASU 2016-15 also provides guidance for classifying cash receipts and payments that have aspects of more than one class of cash flows. On January 1, 2018, the Company adopted ASU 2016-15. The adoption of this standard did not have an impact on Avalon’s financial position, results of operations or financial statement disclosures.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows: Restricted Cash* (“ASU 2016-18”), which requires entities to include restricted cash and restricted cash equivalent balances with cash and cash equivalent balances in the statement of cash flows. On January 1, 2018, the Company adopted ASU 2016-18. The adoption of ASU 2016-18 impacted the presentation of our Condensed Consolidated Statements of Cash Flows and resulted in additional disclosure in our Notes to Unaudited Condensed Consolidated Financial Statements for the restricted cash related to the loan proceeds deposited into our project fund account that have not yet been utilized to fund the additional renovation and expansion of The Avalon Inn (See Note 4).

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business* (“ASU 2017-01”). The purpose of ASU 2017-01 is to change the definition of a business to assist entities with evaluating when a set of transferred assets and activities is a business. The Company adopted ASU 2017-01 on January 1, 2018. The acquisition of the Boardman Tennis Center facility, acquired in March 2018, was accounted for in accordance with ASU 2017-01 (See Note 16).

In March 2018, the FASB issued ASU 2018-05, *Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118* (“ASU 2018-05”). ASU 2018-05 adds the SEC guidance released on December 22, 2017 regarding the Tax Cuts and Jobs Act (the “Tax Act”) to the FASB Accounting Standards Codification. ASU 2018-05 provides additional guidance allowing companies to use a one year measurement period to account for the impacts of the Tax Act in their financial statements. The Company adopted ASU 2018-05 in March 2018. The Company has accounted for the impacts of the Tax Act, including the use of reasonable estimates where necessary. The Company may continue to refine its estimates throughout the measurement period.

Accounting Standards Not Yet Adopted

In February 2016, the FASB issued ASU 2016-02, *Leases*. The new standard establishes a right-of-use (“ROU”) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. Avalon is currently reviewing its agreements for its golf carts, machinery and equipment for the landfill operations, furniture and fixtures for The Avalon Inn and office copiers under operating leases and evaluating the impact the adoption of this guidance will have on its financial position, results of operations, cash flows and related disclosures. Upon adoption, the Company expects that the ROU asset and the lease liability will be recognized in the balance sheets in amounts that will be material.

In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments* (“ASU 2016-13”), which significantly changes the way entities recognize impairment of many financial assets by requiring immediate recognition of estimated credit losses expected to occur over their remaining life. ASU 2016-13 is effective January 1, 2020, with early adoption permitted January 1, 2019. The adoption of this standard is not expected to have a material impact on Avalon’s financial position, results of operations or financial statement disclosures.

Note 4. Cash, Cash Equivalents and Restricted Cash

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents for purposes of the Condensed Consolidated Balance Sheets. Avalon maintains its cash balances in various financial institutions. These balances may, at times, exceed federal insured limits. Avalon has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk relating to its cash and cash equivalents.

Cash and cash equivalents that are restricted as to withdrawal or use under the terms of certain contractual agreements are recorded in restricted cash on the Condensed Consolidated Balance Sheets. Restricted cash consists of loan proceeds deposited into a project fund account to fund costs associated with the renovation and expansion of The Avalon Inn in accordance with the provisions of the loan and security agreement (See Note 9).

In the first quarter of 2018, in accordance with our Term Loan Agreement, the Company withdrew \$1.5 million from the restricted cash account for reimbursement for capital expenditures incurred in 2017 related to The Avalon Inn funded with operating cash. The Company utilized approximately \$1.3 million of those proceeds to fund the acquisition of The Boardman Tennis Center facility (See Note 16).

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported within the Condensed Consolidated Balance Sheets that sum to the total of the same such amounts shown in the Condensed Consolidated Statements of Cash Flows. Cash, cash equivalents and restricted cash consist of the following at June 30, 2018 and December 31, 2017 (in thousands):

	June 30, 2018	December 31, 2017
Cash and cash equivalents	\$2,409	\$ 1,025
Restricted cash	1,326	2,826
Cash, cash equivalents and restricted cash	\$3,735	\$ 3,851

Note 5. Revenues

Adoption of ASC Topic 606, “Revenue from Contracts with Customers”

On January 1, 2018, Avalon adopted the new accounting standard FASB Accounting Standards Codification (“ASC”) 606, *Revenue from Contracts with Customers* (“ASC 606”), and all the related amendments using the modified retrospective method for all contracts. The comparative information has not been adjusted and continues to be reported under Topic 605. The Company's accounting policy has been updated to align with Topic 606, and no significant changes to revenue recognition have occurred as a result of the change. The adoption of ASC 606 did not result in an impact to the way the Company records revenue and as such did not result in period reclassifications to or from revenue or its associated costs. As a result of the adoption, the Company separately disclosed contract assets, further described below, in our Condensed Consolidated Balance Sheets at June 30, 2018 and December 31, 2017 and associated cash flows in our Condensed Consolidated Statements of Cash Flows for the six months ended June 30, 2018 and 2017.

Revenue Recognition

The Company identifies a contract when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. Revenue is recognized when obligations under the terms of the contract with our customer are satisfied; generally this occurs with the transfer of control of the good or service to the customer. Revenue is measured as the amount of consideration we expect to receive in exchange for transferring goods or providing services. Sales and other taxes we collect concurrent with revenue-producing activities are excluded from revenue. The Company does not incur incremental costs to obtain contracts or costs to fulfill contracts that meet the criteria for capitalization. In addition, the Company does not have material significant payment terms as payment is received at or shortly after the point of sale.

Waste Management Services

Avalon's waste management services provide hazardous and nonhazardous waste brokerage and management services, captive landfill management services and salt water injection well operations. Waste management services are provided to industrial, commercial, municipal and governmental customers primarily in selected northeastern and midwestern United States markets.

Avalon's waste brokerage and management business assists customers with managing and disposing of wastes at approved treatment and disposal sites based upon a customer's needs. Avalon provides a service to its customers whereby Avalon, arrange for, and accept responsibility for the removal, transportation and disposal of waste on behalf of the customer.

Avalon's landfill management business provides technical and operational services to customers owning captive disposal facilities. A captive disposal facility only disposes of waste generated by the owner of such facility. The Company provides turnkey services, including daily operations, facilities management and management reporting for its customers. Currently, Avalon manages one captive disposal facility located in Ohio. The net operating revenues of the captive landfill operations are almost entirely dependent upon the volume of waste generated by the owner of the landfill for whom Avalon manages the facility.

Avalon is a minority owner with managerial control over two salt water injection wells and its associated facility. Operations of the salt water injection wells have been temporarily suspended in accordance with the Chief of the Division of Oil and Gas Resources Management order (See Note 15). Due to the temporary suspension of the salt water injection wells, there were no operating revenues for the three months ended June 30, 2018 and 2017.

For the three months ended June 30, 2018 and 2017, the net operating revenues related to waste management services represented approximately 69% and 65%, respectively, of Avalon's total consolidated net operating revenues. For the six months ended June 30, 2018 and 2017, the net operating revenues related to waste management services represented approximately 71% and 68%, respectively, of Avalon's total consolidated net operating revenues.

For our waste management services contracts, the customer contracts with us to provide a series of distinct waste management services over time which integrates a set of tasks (i.e. removal, transportation and disposal of waste) into a single project. Avalon provides substantially the same service over time and the same method is used to measure the Company's progress toward complete satisfaction of the performance obligation to transfer each distinct service in the series to the customer. The series of distinct waste management services, which are the same over time, meets the series provision criteria, and as such, the Company treats that series as a single performance obligation. The Company allocates the transaction price to the single performance obligation and recognizes revenue by applying a single measure of progress to that performance obligation. Avalon transfers control of the service over time and, therefore, satisfies the performance obligation and recognizes the revenue over time as the customer simultaneously receives and consumes the benefits provided by Avalon's performance as we perform.

In addition, as the promise to provide services qualifies as a series accounted for as a single performance obligation, the Company applied the practical expedient guidance that allows an entity that is recognizing revenue over time by using an output method to recognize revenue equal to the amount that the entity has the right to invoice if the invoiced amount corresponds directly to the value transferred to the customer. The Company applied the standard's practical expedient that permits the omission of disclosures relating to unsatisfied performance obligations as most of the Company's waste management service contracts (i) have an original expected length of one year or less and (ii) the Company recognizes revenue at the amount to which the Company has the right to invoice for services performed. For contracts with terms that extend beyond a year, variability will be resolved over the remaining term. The nature of the variability is based on a fixed rate for invoices processed and/or tonnages of waste transported and disposed.

Avalon evaluated whether we are the principal (i.e. report revenues on a gross basis) or agent (i.e. report revenues on a net basis). Avalon reports waste management services on a gross basis, that is, amounts billed to our customers are recorded as revenues, and amounts paid to vendors for providing those services are recorded as operating costs. As principal, Avalon is primarily responsible for fulfilling the promise to provide the waste management service for the customer. Avalon accepts credit risk in the event of nonpayment by the customer and is obligated to pay vendors who provide the service regardless of whether the customer pays the Company. Avalon does have a level of discretion in establishing the pricing for its service.

Our payment terms vary by the type and location of our customer and the service offered. Avalon does not have any financing arrangements with its customers. The term between invoicing and when payment is due is not significant.

The Company assesses each contract amendment individually. Typically, amendments made to our contracts do not materially change the terms of the agreement or performance obligation of the Company. The Company accounts for such contract amendments as if it were part of the existing contract as the material terms contained in the contract do not change. In cases where Avalon views there is a material change in the terms of the agreement, the Company will reevaluate and determine if the contract should be viewed as an entirely new contract, replacement contract or a continuation of the existing contract.

Consideration promised in our waste management contracts do not typically include material variable amounts such as discounts, rebates, refunds, credits, price concessions, incentives, penalties or other such items, and, as such, no estimate is made by the Company for such items.

Golf and Related Operations

Avalon's golf and related operations include the operation and management of three golf courses and associated clubhouses, recreation and fitness centers, tennis courts, spa services, dining and banquet facilities and a travel agency. The golf and related operations also include the operation of a hotel and its related amenities including dining, banquet and conference facilities, fitness center, indoor junior Olympic size swimming pool and tennis courts. Revenues for the golf and related operations consists primarily of food beverage and merchandise sales, membership dues, greens fees and associated cart rentals, room rentals, fitness activities and spa services. Due to adverse weather conditions, net operating revenues relating to the golf courses, which are located in northeast Ohio and Pennsylvania, were minimal during the first three months of 2018 and 2017.

For the three months ended June 30, 2018 and 2017, the net operating revenues related to the golf and related operations represented approximately 31% and 35%, respectively, of Avalon's total consolidated net operating revenues. For the six months ended June 30, 2018 and 2017, the net operating revenues related to the golf and related

operations represented approximately 29% and 32%, respectively, of Avalon's total consolidated net operating revenues.

For Avalon's golf and related operations, the Avalon Golf and Country Club offers membership packages for use of the country club facilities and its related amenities. Membership agreements are a one year noncancellable commitment and pricing varies based on the membership type selected by the customer. Based on the terms and conditions of the membership contract, resignations received within the membership period do not relieve the member of their annual commitment. Memberships automatically renew on the member's anniversary date unless the member resigns for the upcoming membership period prior to the renewal date.

Membership for the Avalon Golf and Country Club does not contain up-front initiation fees or require monthly minimum spending at the facilities. Annual membership dues do not cover the cost of food, beverage or any other ancillary paid services which are made available to the member nor do they typically provide for discounts on these goods or services. Members have no obligation to purchase or utilize any of these additional goods or services. Avalon is not required to provide such goods or services unless requested and paid for at the point of sale by the member.

Under the terms of the contract, Avalon will provide unlimited use and access to the country club facilities. Avalon's performance obligation in the contract is the "stand ready obligation" to provide access to these facilities for the member for the entire membership term. Avalon providing the "stand ready obligation" for use of the facilities to the member over the entire term of the membership agreement represents a single performance obligation of which Avalon expects the member to receive and consume the benefits of its obligation throughout the membership term, and as such, the Company recognizes membership dues on a straight line basis over the term of the contract. The Company applied the standard's practical expedient that permits the omission of disclosures relating to unsatisfied performance obligations for contracts with an original expected length of one year or less as Avalon Golf and Country Club membership agreements are one year in length.

For our hotel operations, Avalon’s performance obligation is to provide lodging facilities. The separate components of providing these services (hotel room, toiletry items, housekeeping, and amenities) are not distinct within the context of the contract as they are all highly dependent and interrelated as part of the obligation to provide the lodging facility. Room sales are driven by a fixed fee charged to a hotel guest to stay at The Avalon Inn for an agreed upon period. The Company agrees to provide a room to the hotel guest for a specified time period for that agreed-upon rate. Our hotel room reservations are performance obligations satisfied over time as the hotel guest simultaneously receives and consumes the benefits provided by the hotel. For performance obligations satisfied over time, our hotel operations measure the progress toward complete satisfaction of the performance obligation and recognize revenue proportionately over the course of the customer’s stay.

For food, beverage, and merchandise sales, greens fees and associated cart rental, fitness activities, spa services and other ancillary services, the transaction price is the set price charged by the Company for those goods or services. Upon purchase of the good or service, the Company transfers control of the good or service to the customer and the customer immediately consumes the benefits of the Company’s performance and, as such, we recognize revenue at the point of sale.

The following table presents our net operating revenues disaggregated by revenue source (in thousands, unaudited). The comparative information for the three and six months ended June 30, 2017 has not been adjusted and continues to be reported under the previous revenue standard. Sales and other taxes are excluded from revenues.

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	2018	2017	2018	2017
Waste management and brokerage services	\$10,895	\$8,916	\$18,770	\$16,009
Captive landfill management operations	615	574	1,198	1,094
Total waste management services revenues	11,510	9,490	19,968	17,103
Food, beverage and merchandise sales	2,206	2,270	3,246	3,376
Membership dues revenue	1,307	1,294	2,593	2,596
Room rental revenue	666	572	1,042	880
Greens fees and cart rental revenue	557	534	595	576
Other revenue	459	417	777	748
Total golf and related operations revenue	5,195	5,087	8,253	8,176
Total net operating revenues	\$16,705	\$14,577	\$28,221	\$25,279

Avalon does not have operations located outside the United States and, accordingly, geographical revenue information is not presented.

Receivables, Net

Receivables, net, include amounts billed and currently due from customers. The amounts due are stated at their net realizable value. The Company maintains an allowance for doubtful accounts to provide for the estimated amount of receivables that will be collected. Customer accounts that are outstanding longer than the contractual payment terms are considered past due. Avalon determines its allowance by considering a number of factors, including the length of time trade accounts receivable are past due, Avalon's previous accounts receivable loss history, the customer's current ability to pay its obligation to Avalon and the condition of the general economy and the industry as a whole. Avalon writes off accounts receivable when they become uncollectible. Payments subsequently received on such receivables are credited to the allowance for doubtful accounts, or to income, as appropriate under the circumstances. The allowance for doubtful accounts was approximately \$0.3 million at June 30, 2018 and \$0.2 million at December 31, 2017. At June 30, 2018 and December 31, 2017, no one customer accounted for more than 10% of our accounts receivable.

Contract Assets

Contract assets include unbilled membership dues receivables related to the Avalon Golf and Country Club for the customers membership commitment which are billed on a monthly basis over the course of the annual agreement. Such amounts are stated at their net realizable value. Contract assets related to unbilled membership dues are classified as current as revenue related to such agreements is recognized within the annual membership period. Unbilled membership receivables in our Condensed Consolidated Balance Sheets at June 30, 2018 and December 31, 2017 were \$1.0 million and \$0.6 million, respectively.

The following table presents changes in our contract assets during the three and six months ended June 30, 2018 (in thousands):

	Balance at Beginning of Period	Unbilled Membership Dues	Billings	Balance at End of Period
Three months ended June 30, 2018				
Contract Assets:				
Unbilled membership dues receivable	\$ 694	\$ 832	\$ (517)	\$ 1,009
Six months ended June 30, 2018				
Contract Assets:				
Unbilled membership dues receivable	\$ 580	\$ 1,412	\$ (983)	\$ 1,009

Contract Liabilities

Contract liabilities include unrecognized or deferred revenues relating to membership dues. We record deferred revenue when cash payments are received in advance of satisfying our performance obligation. We classify deferred revenue as current based on the timing of when we expect to recognize revenue for the membership commitment based on the Company satisfying the stand ready performance obligation throughout the annual membership period. The unrecognized or deferred revenues related to membership dues in our Condensed Consolidated Balance Sheets at June 30, 2018 and December 31, 2017 were \$4.0 million and \$2.7 million, respectively.

The following table presents changes in our contract liabilities during the three and six months ended June 30, 2018 (in thousands):

	Balance at Beginning of Period	Billings	Revenue Recognized	Balance at End of Period
Three months ended June 30, 2018				
Contract Liabilities:				
Deferred membership dues revenue	\$ 3,147	\$ 2,194	\$ (1,307)) \$ 4,034
Six months ended June 30, 2018				
Contract Liabilities:				
Deferred membership dues revenue	\$ 2,718	\$ 3,909	\$ (2,593)) \$ 4,034

Note 6. Property and Equipment

Property and equipment is stated at cost and depreciated using the straight-line method over the estimated useful life of the asset which varies from 10 to 30 years for land improvements; 5 to 50 years in the case of buildings and improvements; and from 3 to 10 years for machinery and equipment, vehicles and office furniture and equipment.

Major additions and improvements are charged to the property and equipment accounts while replacements, maintenance and repairs, which do not improve or extend the life of the respective asset, are expensed as incurred. The cost of assets retired or otherwise disposed of and the related accumulated depreciation is eliminated from the accounts in the year of disposal. Gains or losses resulting from disposals of property and equipment are credited or charged to operations. Interest costs are capitalized on significant construction projects.

Property and equipment at June 30, 2018 and December 31, 2017 consists of the following (in thousands):

	June 30, 2018	December 31, 2017
Land and land improvements	\$ 14,492	\$ 14,318
Buildings and improvements	36,280	34,721
Machinery and equipment	9,220	9,151
Office furniture and fixtures	6,422	6,301
Vehicles	467	467
Construction in progress	349	294
	67,230	65,252
Less accumulated depreciation and amortization	(23,238)	(22,037)
Property and equipment, net	\$43,992	\$ 43,215

At June 30, 2018, the Company did not have any significant fixed contractual commitments for construction projects.

Note 7. Capital Leased Assets

In November 2003, Avalon entered into a long-term agreement with Squaw Creek Country Club to lease and operate its golf course and related facilities. The lease has an initial term of ten (10) years with four (4) consecutive ten (10) year renewal term options unilaterally exercisable by Avalon. Under the lease, Avalon is obligated to pay \$15,000 in annual rent and make leasehold improvements of \$150,000 per year. Amounts expended by Avalon for leasehold improvements during a given year in excess of \$150,000 will be carried forward and applied to future leasehold improvement obligations. Based upon the amount of leasehold improvements already made, Avalon expects to exercise all its remaining renewal options.

In 2018 and 2017, the golf and related operations entered into leases for a vehicle and golf course maintenance equipment that were determined to be capital leases. The amounts capitalized in the Condensed Consolidated Balance Sheets under the caption “Leased property under capital leases, net” relating to these assets were approximately \$0.8 million at June 30, 2018 and December 31, 2017.

In addition, during 2017, the captive landfill operations entered into a lease for a piece of equipment that was determined to be a capital lease. The amount capitalized in the Condensed Consolidated Balance Sheets under the caption “Leased property under capital leases, net” relating to this asset was approximately \$0.1 million at June 30, 2018 and December 31, 2017.

Leased property under capital leases at June 30, 2018 and December 31, 2017 consists of the following (in thousands):

	June 30, 2018	December 31, 2017
Leased property under capital leases	\$11,537	\$ 11,361
Less accumulated amortization	(5,226)	(5,001)
Leased property under capital leases, net	\$6,311	\$ 6,360

Note 8. Basic and Diluted Net Income (Loss) per Share

Basic net income (loss) per share attributable to Avalon Holdings Corporation common shareholders is computed by dividing the net income (loss) by the weighted average number of common shares outstanding, which were 3,803,331 for each period.

Diluted net income (loss) per share attributable to Avalon Holdings Corporation common shareholders is computed by dividing net income (loss) by the weighted average number of common shares outstanding plus any weighted common equivalent shares determined to be outstanding during the period using the treasury method. The weighted common equivalent shares included in the calculation are related to stock options granted by Avalon where the weighted average market price of Avalon's common stock for the period presented is greater than the option exercise price of the stock option.

For the three months ended June 30, 2018 and 2017, the diluted weighted average number of shares outstanding was 3,817,781 and 3,826,920, respectively.

For the six months ended June 30, 2018 and 2017, the diluted per share amount reported is equal to the basic per share amount because Avalon was in a net loss position and as a result, such dilution would be considered anti-dilutive. Assuming dilution, the weighted average number of common shares outstanding for the six months ended June 30, 2018 and 2017 was 3,817,078 and 3,858,828, respectively.

Note 9. Term Loan and Line of Credit Agreements

On December 20, 2016, Avalon and certain direct and indirect wholly owned subsidiaries entered into a loan and security agreement (the "Term Loan Agreement") with Laurel Capital Corporation which provides for a \$12.0 million term loan. At closing, \$9.1 million of the proceeds were used to pay off amounts outstanding under the then existing line of credit agreement and associated accrued interest with Home Savings Bank, dated May 21, 2015, as amended, and pay related transaction costs associated with the Term Loan Agreement. The line of credit agreement with Home Savings Bank was terminated in conjunction with the repayment. Remaining proceeds of \$2.9 million under the Term Loan Agreement were deposited in a project fund account to fund costs of renovating and expanding The Avalon Inn. At June 30, 2018 and December 31, 2017, the remaining proceeds of \$1.3 million and \$2.8 million, respectively, are presented in the Condensed Consolidated Balance Sheets as "Restricted cash." On December 4, 2017 the Term Loan Agreement was amended to restate the definition of "Total Fixed Charges" utilized in the calculation of the "Fixed Charge Coverage Ratio."

The \$12.0 million term loan amount is payable in 119 equal monthly installments of principal and interest, based on a fifteen (15) year maturity schedule which commenced on January 20, 2017. The Term Loan Agreement matures on December 20, 2026 at which time the final balloon payment equal to the remaining outstanding principal, interest and fees are due. Borrowings under the Term Loan Agreement bear interest at a fixed rate of 5.35% until the fifth anniversary date of the closing at which time the interest rate will be reset to a fixed rate equal to the greater of (a) 5.35% per annum or (b) the sum of the Index Rate on the date two (2) business days prior to the reset date and 3.95%, provided that the applicable rate shall in no event exceed 7.50% per annum.

Avalon has the right to prepay the amount outstanding under the Term Loan Agreement, in whole or in part, at any time upon payment of the principal amount of the loan to be prepaid plus accrued unpaid interest thereon to the prepayment date, plus an applicable prepayment penalty. The prepayment penalty, expressed as a percentage of the principal of the loan being prepaid, is five percent (5%) on any prepayment in the first five years; four percent (4%) on any prepayment in the sixth and seventh year; three percent (3%) on any prepayment in the eighth and ninth year; and two percent (2%) on any prepayment in the tenth year.

Borrowings are secured by certain real property and related business assets as defined in the Term Loan Agreement. The Term Loan Agreement also contains certain financial and other covenants, customary representations, warranties and events of default. Avalon was in compliance with the Term Loan Agreement covenants at June 30, 2018 and

December 31, 2017.

The Company incurred approximately \$191,000 of debt issuance costs in connection with the Term Loan Agreement. These debt issuance costs were capitalized and will be amortized over the life of the Term Loan Agreement. In accordance with ASU 2015-03, *Simplifying the Presentation of Debt Issuance Costs*, these costs are presented in the Condensed Consolidated Balance Sheets as a direct reduction from the carrying amount of the term loan liability.

On May 31, 2018, Avalon entered into a new business loan agreement with Home Savings Bank, (the "Line of Credit Agreement") which provides for a line of credit of up to \$5.0 million maturing on May 31, 2020. Under the Line of Credit Agreement, borrowings in excess of \$1.0 million are subject to a borrowing base which is calculated based off a specific level of eligible accounts receivable of the waste management business as defined in the agreement. The existing line of credit agreement with Home Savings Bank, dated December 20, 2016, as amended, which was entered into concurrently with the Term Loan Agreement, was terminated in conjunction with the new Line of Credit Agreement. No amounts were outstanding under the existing line of credit agreement at termination.

No amounts were drawn under the Line of Credit Agreement at June 30, 2018. Outstanding borrowings under the Line of Credit Agreement bear interest at Prime Rate plus .25%. At June 30, 2018, the interest rate on the Line of Credit Agreement was 5.00%. Effective July 1, 2018, the interest rate on the Line of Credit Agreement increased to 5.25%.

Borrowings under the Line of Credit Agreement are secured by certain business assets of the Company including accounts receivable, inventory and equipment. The Line of Credit Agreement also contains certain financial and other covenants, customary representations, warranties and events of default. Avalon was in compliance with the line of credit agreements covenants at June 30, 2018 and December 31, 2017.

During both the three and six month periods ended June 30, 2018 and 2017, the weighted average interest rate on outstanding borrowings was 5.35%.

Obligations under the Company's debt agreements at June 30, 2018 and December 31, 2017 consist of the following (in thousands):

	June 30, 2018		
	Gross Amount	Debt Issuance Costs	Net Amount
Term loan agreement	\$11,185	\$ (163)	\$ 11,022
Less current portion	581	(19)	562
Long-term debt	\$10,604	\$ (144)	\$ 10,460

	December 31, 2017		
	Gross Amount	Debt Issuance Costs	Net Amount
Term loan agreement	\$11,464	\$ (172)	\$ 11,292
Less current portion	566	(19)	547
Long-term debt	\$10,898	\$ (153)	\$ 10,745

Future maturities of long-term debt are as follows (in thousands):

**For the
Twelve
Month
Period
Ending
June 30,
2019** \$581

2020	613
2021	646
2022	682
2023	719
Thereafter	7,944
Total	\$11,185

Note 10. Income Taxes

During the three month periods ended June 30, 2018 and 2017, net income attributable to Avalon Holdings Corporation shareholders was \$0.6 million and \$0.1 million, respectively. During the six month periods ended June 30, 2018 and 2017, net loss attributable to Avalon Holdings Corporation shareholders was \$0.2 million and \$0.8 million, respectively. Avalon recorded a state income tax provision in both the three and six month periods ended June 30, 2018 and 2017, which was related entirely to the waste management and brokerage operations. Due to the recording of a full valuation allowance against the Company's federal net deferred tax assets, the overall effective tax rate in both periods reflects taxes owed in certain U.S state jurisdictions. Avalon's income tax on the income (loss) before taxes was offset by a change in the valuation allowance. A valuation allowance is provided when it is more likely than not that deferred tax assets relating to certain federal and state loss carryforwards will not be realized. Avalon continues to maintain a valuation allowance against the majority of its deferred tax amounts until it is evident that the deferred tax asset will be utilized in the future.

On December 22, 2017, legislation commonly known as the Tax Act was signed into law. The Tax Act changes existing U.S. tax law and includes numerous provisions that will affect Avalon, including our income tax accounting, disclosure and tax compliance. The most impactful changes within the Tax Act are those that will reduce the U.S. corporate tax rates, business-related exclusions and deductions and credits. ASC 740, "Income Taxes," requires the effects of changes in tax rates and laws on deferred tax balances to be recognized in the period in which the legislation is enacted. To the extent that a company's accounting for certain income tax effects of the Tax Act is incomplete but for which they are able to determine a reasonable estimate, the company must record a provisional amount in the financial statements. Consequently, as of the date of enactment, and during the six months ended June 30, 2018, Avalon valued all deferred tax assets and liabilities at the newly enacted Corporate U.S income tax rate. Avalon has a full valuation allowance on its federal deferred tax assets. Avalon is still in the process of estimating the full tax impact and expects to finalize its adoption of this guidance at year end.

Note 11. Long-Term Incentive Plan

The purpose of the Avalon Holdings Corporation 2009 Long-term Incentive Plan (the “Plan”) is (a) to improve individual employee performance by providing long-term incentives and rewards to employees of Avalon, (b) to assist Avalon in attracting, retaining and motivating employees and non-employee directors with experience and ability, and (c) to associate the interests of such employees and directors with those of the Avalon shareholders. Under the Plan, 1,300,000 shares have been reserved for the issuance of stock options of which 760,000 options were outstanding at June 30, 2018. The stock options, vest ratably over a five year period and have a contractual term of ten years from the date of grant. At the end of each contractual vesting period, the share price of the Avalon common stock, traded on a public stock exchange (NYSE Amex), must reach a predetermined price within three years following such contractual vesting period before the stock options are exercisable (See table below). If the Avalon common stock price does not reach the predetermined price, the stock options will either be cancelled or the period will be extended at the discretion of the Board of Directors. In 2018 and 2017, the Board of Directors extended the period of time for certain vested options that were not exercisable due to those options not meeting the predetermined stock price within the three years following the contractual vesting period.

The grant-date fair values of these stock option awards were estimated using the Monte Carlo Simulation. The Monte Carlo Simulation was selected to determine the fair value because it incorporates six minimum considerations; 1) the exercise price of the option, 2) the expected term of the option, taking into account both the contractual term of the option, the effects of employees’ expected exercise and post-vesting employment termination behavior, as well as the possibility of change in control events during the contractual term of the option agreements, 3) the current fair value of the underlying equity, 4) the expected volatility of the value of the underlying share for the expected term of the option, 5) the expected dividends on the underlying share for the expected term of the option and 6) the risk-free interest rate(s) for the expected term of the option.

The grant date fair value of the underlying equity was determined to be equal to Avalon’s publicly traded stock price as of the grant dates times the sum of the Class A and Class B common shares outstanding.

The expected term, or time until the option is exercised, is typically based on historical exercising behavior of previous option holders of a company’s stock. Due to the fact that the Company has had no historical exercising activity, the simplified method is applied. Because of the nature of the vesting described above, the options are separated into five blocks, with each block having its own vesting period and expected term.

The expected volatility was based on the observed historical volatility of Avalon common stock for a period prior to the grant date. There were no expected dividends and the risk-free interest rate was based on yield data for U. S. Treasury securities over a period consistent with the expected term.

The following table is a summary of the stock option activity:

	Number of Options Granted	Weighted Average Exercise Price	Weighted Average Fair Value at Grant Date
Outstanding at January 1, 2018	760,000	2.51	1.00
Options granted	-	-	-
Options exercised	-	-	-
Options cancelled or forfeited	-	-	-
Outstanding at June 30, 2018	760,000	\$ 2.51	\$ 1.00
Options Vested	706,000		
Exercisable at June 30, 2018	286,000		

The stock options vest and become exercisable based upon achieving two critical metrics as follows:

- 1) Contract Vesting Term: The stock options vest ratably over a five year period.
- 2) The Avalon common stock price traded on a public stock exchange (NYSE Amex) must reach the predetermined vesting price within three years after the options become vested under the contractual vesting term.

The table below represents the period and predetermined stock price needed for vesting.

Begins Vesting	Ends Vesting	Predetermined Vesting Price
Block 1 12 months after Grant Dates	48 months after Grant Dates	\$ 3.43
Block 2 24 months after Grant Dates	60 months after Grant Dates	\$ 4.69
Block 3 36 months after Grant Dates	72 months after Grant Dates	\$ 6.43
Block 4 48 months after Grant Dates	84 months after Grant Dates	\$ 8.81
Block 5 60 months after Grant Dates	96 months after Grant Dates	\$ 12.07

In July 2018, the predetermined stock price was reached for exercising all vested options that have previously met the time vesting requirement.

Compensation costs were approximately \$1,000 and \$2,000 for the three months ended June 30, 2018 and 2017, respectively, and \$3,000 and \$7,000 for the six months ended June 30, 2018 and 2017, respectively, based upon the estimated grant date fair value calculations. As of June 30, 2018, there was approximately \$26,000 of total unrecognized compensation costs related to non-vested share-based compensation arrangements granted under the Plan. That cost is expected to be recognized over a weighted-average period of 5.92 years.

Note 12. Legal Matters

In the ordinary course of conducting its business, Avalon becomes involved in lawsuits, administrative proceedings and governmental investigations, including those related to environmental matters. Some of these proceedings may result in fines, penalties or judgments being assessed against Avalon which, from time to time, may have an impact on its business and financial condition. Although the outcome of such lawsuits or other proceedings cannot be predicted with certainty, Avalon does not believe that any uninsured ultimate liabilities, fines or penalties resulting from such pending proceedings, individually or in the aggregate, will have a material adverse effect on its liquidity, financial position or results of operations (See Note 15).

Note 13. Business Segment Information

In determining the segment information, Avalon considered its operating and management structure and the types of information subject to regular review by its “chief operating decision maker.” Using the criteria of FASB ASC 280 *Segment Reporting*, Avalon’s reportable segments include waste management services and golf and related operations. Avalon accounts for intersegment net operating revenues as if the transactions were to third parties. The segment disclosures are presented on this basis for all periods presented.

Avalon’s primary business segment, the waste management services segment, provides hazardous and nonhazardous brokerage and management services to industrial, commercial, municipal and governmental customers, captive landfill management for an industrial customer and salt water injection well operations.

Avalon’s golf and related operations segment consists of three golf courses and associated clubhouses which provide dining and banquet facilities, a hotel which provides lodging, dining, banquet and conference facilities, a recreation center and a travel agency. Revenue for the golf and related operations segment consists primarily of membership dues, greens fees, cart rentals, room rentals, merchandise sales, tennis and fitness activities, spa services and food and beverage sales.

Avalon does not have significant operations located outside the United States and, accordingly, geographical segment information is not presented.

For the six months ended June 30, 2018, no one customer accounted for 10% of Avalon’s consolidated or reportable segment net operating revenues. For the six months ended June 30, 2017, one customer accounted for 10% of the waste management services segment’s net operating revenues to external customers and 7% of the consolidated net operating revenues.

The accounting policies of the segments are consistent with those described for the consolidated financial statements in the summary of significant accounting policies included in Avalon's 2017 Annual Report to Shareholders. Avalon measures segment profit for internal reporting purposes as income (loss) before taxes.

Business segment information including the reconciliation of segment income before taxes to income (loss) before taxes is as follows (in thousands):

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
Net operating revenues from:				
Waste management services:				
External customer revenues	\$11,510	\$9,490	\$19,968	\$17,103

Waste management services	\$27,861	\$26,449
Golf and related operations	47,468	45,188
Corporate	48,361	49,549
Subtotal	123,690	121,186
Elimination of intersegment receivables	(56,119)	(55,808)
Total	\$67,571	\$65,378

In comparing the total assets at June 30, 2018 with those at December 31, 2017, the increase in total assets of the waste management services segment of \$1.4 million is primarily a result of an increase in intersegment transactions, which are eliminated in consolidation, and to a lesser extent an increase in accounts receivable partially offset by a lower net book value of property and equipment as a result of current year depreciation on the salt water injection wells. The increase in total assets of the golf and related operations segment of \$2.3 million is primarily due to the acquisition of the Boardman Tennis Center facility and an increase in accounts receivable partially offset by current year depreciation on property and equipment. The decrease in corporate total assets of \$1.2 million is primarily due to a decrease in restricted cash that was released from restriction and subsequently utilized to fund the acquisition of the Boardman Tennis Center facility and a decrease in intersegment transactions, which are eliminated in consolidation, partially offset by an increase in operating cash and cash equivalents.

Note 14. Certain Relationships and Related Transactions

In August 2013, Avalon created a new Ohio limited liability company, AWMS Holdings, LLC, to act as a holding company to form and own a series of wholly owned subsidiaries that will own and operate Class II salt water injection wells and facilities (together the “facilities”). AWMS Holdings, LLC, offers investment opportunities to accredited investors by selling membership units of AWMS Holdings, LLC through private placement offerings. The monies received from these offerings, along with internally contributed capital, are used to construct the facilities necessary for the operation of salt water injection wells. AWMS Water Solutions, LLC, a wholly owned subsidiary of Avalon, manages all the salt water injection well operations, including the marketing and sales function and all decisions regarding the well operations for a percentage of the gross revenues.

In 2014 and 2013, Avalon, through a wholly owned subsidiary made capital contributions totaling approximately \$3.4 million, which included cash and certain well assets, including the permits, in exchange for membership units of AWMS Holdings, LLC. Through a private placement offering for the purchase of membership units, AWMS Holdings, LLC raised approximately \$3.8 million from accredited investors in 2014 and 2013. Management and outside directors of Avalon, who qualified as accredited investors, invested approximately \$1.0 million in AWMS Holdings, LLC.

As a result of a private placement offering, Avalon is not the majority owner of AWMS Holdings, LLC. At June 30, 2018 and December 31, 2017, respectively, Avalon owns approximately 47% of AWMS Holdings, LLC. In accordance with ASC 810-10 and related amendment, due to the managerial control of American Water Solutions, LLC, AWMS Holdings, LLC is a variable interest entity, and the financial statements of AWMS Holdings, LLC and subsidiaries are included in Avalon’s consolidated financial statements. ASC 810-10 requires noncontrolling interests to be reported as a separate component of equity. The amount of net loss attributable to the noncontrolling interest is recorded in “net loss attributable to noncontrolling interest” in our Condensed Consolidated Statements of Operations.

Note 15. Injection Wells Suspension

As a result of a seismic event with a magnitude of 2.1 occurring on August 31, 2014, the Chief of the Division of Oil and Gas Resources Management (“Chief” or “Division”) issued Orders on September 3, 2014, to immediately suspend all operations of both of Avalon’s saltwater injection wells. The Orders were based on the findings that the two saltwater injection wells were located in close proximity to an area of known seismic activity and also that the saltwater injection wells pose a risk of increasing or creating seismic activity. The two saltwater injection wells are located approximately 112 feet apart. Based on these findings, the Chief ordered the immediate suspension of all operations of the two saltwater injection wells, until the Division could further evaluate the wells.

On September 5, 2014, Avalon submitted the information required by the Chief's Order in regards to its AWMS #1 injection well, and the Chief lifted the suspension for that well on September 18, 2014. On September 19, 2014, Avalon submitted information and a written plan required by the Chief's Order proposing the establishment of certain operations and management controls on injections at the AWMS #2 injection well. To date, the Division has not responded to that plan despite Avalon's requests for feedback.

On October 2, 2014, Avalon filed an appeal with the Ohio Oil and Gas Commission (the "Commission") disputing the basis for suspending operations of AWMS #2 and also the authority of the Chief to immediately suspend such operations. On March 11, 2015, an appeal hearing was held. The Chief stated during the hearing that the suspension is only temporary, and that he expects that AWMS #2 will be allowed to inject once the state's final policymaking is complete.

On August 12, 2015, the Commission upheld the temporary suspension of injection operations of AWMS #2 stating that the temporary suspension will allow the Chief to more fully evaluate the facts in anticipation of the Division's implementation of a comprehensive regulatory plan that will specifically address injection-induced seismicity. Avalon appealed that decision in September 2015 to the Franklin County Court of Common Pleas, but that appeal was dismissed on a filing technicality. Avalon appealed the dismissal to the Ohio 10th District Court of Appeals, which found the Commission erred in its filing of their decision. Following the Commission's proper notice, Avalon appealed again to the Franklin County Court of Common Pleas (the "Court").

On November 1, 2016 an appeal hearing was held in that Court. On December 23, 2016, the Court issued its Decision and Order in Avalon's favor, and vacated the Commission's decision. The Court found that the Division's suspension and refusal to work with the Company for over 26 months was arbitrary and not in accordance with reason. Subsequent to the ruling, and in accordance with the Court's Decision and Order, both Avalon and the Division submitted their proposed restart plans to the Court. Avalon's plan sets forth both the initial volumes and pressures and increases in volume and pressure while continuously monitoring seismicity and addressing the concerns of public health and safety.

On February 21, 2017, the Court issued its Final Decision and Order. The Court's Final Decision and Order sets conditions for the restarting of AWMS #2 in accordance with the proposed restart plans filed by Avalon with minor revisions. While the Company was making preparations for restarting the well and opening the facility, the Division appealed the Final Decision and Order and filed a Motion to Stay the Court Order on February 22, 2017. The Motion to Stay was granted by the Ohio 10th District Court of Appeals on March 21, 2017. On September 14, 2017, an appeal hearing was held.

On July 31, 2018 the Ohio 10th District Court of Appeals issued its decision on the appeal. In the decision, the Ohio 10th District Court of Appeals overruled the majority of the Division's assignments of error, but also found that the Franklin County Court of Common Pleas abused its discretion in issuing the restart order for the Company's injection well. The Ohio 10th District Court of Appeals therefore reinstated the previous Ohio Oil and Gas Commission decision in this matter. Based on the decision, operations of Company's #2 injection well will remain suspended. The Ohio 10th District Court of Appeals decision is appealable to the Ohio Supreme Court.

The Company is in the process of evaluating the decision in light of other ongoing litigation in this matter, and will vigorously pursue all available legal avenues.

In addition, on August 26, 2016, Avalon filed a complaint in the 11th Appellate District Court in Trumbull County, Ohio for a Peremptory Writ of Mandamus to compel the Director of the Ohio Department of Natural Resources ("ODNR") to initiate appropriations procedures to determine damages from the illegal regulatory taking of the Company's property, or issue an alternative remedy at law. There is currently no implemented state-wide policy on induced seismicity and The ODNR has refused to communicate with the Company regarding the status and requirements of any policymaking. The Company believes that the actions, and lack of responsible actions, by ODNR, which were triggered by a seismic event that presented no hazard or risk to any individual or to the environment, is a clear violation of the Company's property rights and a violation of the Fifth and Fourteenth Amendments to the U.S. Constitution; Article I, Section 19 of the Ohio Constitution; and Ohio Revised Code Chapter 163.

The hearing was scheduled to commence on June 25, 2018. On June 8, 2018, the 11th Appellate District Court in Trumbull County, Ohio issued a motion to stay all further proceedings in the writ of mandamus action until a ruling is made on the suspension order by the Ohio 10th District Court of Appeals. To date, the hearing date has not been

rescheduled based on the July 31, 2018 decision from the Ohio 10th District Court of Appeals. The Company intends to vigorously pursue the complaint and obtain due process and fair compensation.

At December 31, 2017, in accordance with FASB ASC 360-10-35, *Property, Plant and Equipment – Overall – Subsequent Measurement*, Avalon assessed the recoverability of the carrying values of the salt water injection wells based on the Chief’s decision to temporarily suspend operations of the wells. Avalon estimated future cash flows directly associated with and which are expected to arise as a direct result of the wells once the temporary suspension is lifted. The assumptions used by management in developing the estimates of future cash flows were based on current market conditions and comparable prior periods while in operation. Based on the estimated undiscounted sum of the future cash flows, the net book value of the property, plant and equipment relating to the wells of approximately \$3.7 million at December 31, 2017 was recoverable in less than the estimated remaining useful life of those assets. There were no changes to this assessment at June 30, 2018.

Management continues to consider whether indicators of impairment are present and tests for recoverability, as necessary. There can be no guarantee that the salt water injection wells will resume operations. If management concludes that the suspension is other than temporary and the carrying amount of the salt water injection wells are not recoverable, Avalon may record an impairment charge up to \$3.5 million, the carrying value of the salt water injection wells at June 30, 2018.

Note 16. Asset Acquisition

On March 7, 2018, Avalon, through a newly created subsidiary, Avalon Mahoning Sports Center, Inc., completed the acquisition of the Boardman Tennis Center facility in Boardman, Ohio for approximately \$1.3 million in cash. In accordance with our Term Loan Agreement, the Company withdrew funds from the restricted cash account for reimbursement for capital expenditures incurred in 2017 related to The Avalon Inn that were paid with operating cash to fund the acquisition of the Boardman Tennis Center facility. Subsequent to the acquisition, the Boardman Tennis Center facility was renamed The Avalon Athletic Club at Boardman. The primary assets of The Avalon Athletic Club at Boardman include the acquired real property consisting of the building and associated land.

The Avalon Athletic Club at Boardman is currently in operation providing indoor tennis court rental and lessons. The operating results are included in the Company's Condensed Consolidated Statements of Operations and within Avalon's golf and related operations segment from the date of acquisition. The net operating revenues and results of operations related to the Avalon Athletic Club at Boardman from the period of acquisition are not significant and, accordingly, are not provided.

In the second quarter of 2018, the Company started renovating the facility. The renovations include converting the facility into a multipurpose recreation center which will include indoor tennis courts, indoor basketball, volleyball and pickleball courts and a fitness area.

The acquisition of the facility and its associated renovation is consistent with the Company's athletics and fitness business strategy. Members of the Avalon Golf and Country Club will have access to the renovated facility and all the athletic and fitness related activities that will be offered by The Avalon Athletic Club at Boardman. In addition, hotel guests at The Avalon Inn will also be able to utilize the facility during their stay. The Avalon Athletic Club at Boardman will earn revenue through membership fees, athletic and fitness related activities.

The Company accounted for the acquisition of The Avalon Athletic Club at Boardman in accordance with ASU 2017-01. In accordance with ASU 2017-01, the Company evaluated whether to account for the transaction as either a business or asset acquisition. The Company determined that all of the fair value of the gross assets acquired was concentrated in the Boardman Tennis Center building and associated land. In accordance with the guidance, assets that are attached to each other, such as land and a building residing on the land which cannot be physically removed and used separately from each other without incurring significant cost are considered to be a single identifiable asset. In accordance with ASU 2017-01, the Company accounted for the transaction as an asset acquisition as all of the value of the gross assets acquired resides in that single asset.

The following table summarizes the fair values of the assets acquired and liabilities assumed at the transaction date (in thousands):

Assets acquired:

Building and land \$1,302

Total assets acquired: 1,302

Liabilities assumed:

Accrued liabilities 33

Total liabilities assumed 33

Total consideration \$1,269

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion provides information which management believes is relevant to an assessment and understanding of the operations and financial condition of Avalon Holdings Corporation and its subsidiaries. As used in this report, the term “Avalon” or the “Company” means Avalon Holdings Corporation, its wholly owned subsidiaries and variable interest entities when it has been determined that Avalon is the primary beneficiary of those company’s operations, taken as a whole, unless the context indicates otherwise.

Statements included in Management’s Discussion and Analysis of Financial Condition and Results of Operations which are not historical in nature are intended to be, and are hereby identified as, “forward looking statements”. Avalon cautions readers that forward looking statements, including, without limitation, those relating to Avalon’s future business prospects, revenues, working capital, liquidity, capital needs, interest costs, and income, are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward looking statements, due to risks and factors identified herein and from time to time in Avalon’s reports filed with the Securities and Exchange Commission.

Liquidity and Capital Resources

For the six months ended June 30, 2018, Avalon utilized existing cash and cash provided by operations to meet operating needs, make required monthly payments on the term loan facility and to fund capital expenditures which included the renovation of the Avalon Athletic Club at Boardman and the continued renovation and expansion of The Avalon Inn as described below.

In addition, during the first quarter of 2018, in accordance with our Term Loan Agreement, the Company withdrew \$1.5 million from the restricted cash account for reimbursement for capital expenditures incurred in 2017 related to The Avalon Inn funded with operating cash. The Company utilized approximately \$1.3 million of those proceeds to fund the acquisition of The Boardman Tennis Center facility as described below.

On March 7, 2018, Avalon, through a newly created subsidiary, Avalon Mahoning Sports Center, Inc., completed the acquisition of the Boardman Tennis Center facility in Boardman, Ohio for approximately \$1.3 million in cash. In accordance with our Term Loan Agreement, the Company withdrew funds from the restricted cash account for reimbursement for capital expenditures incurred in 2017 related to The Avalon Inn that were paid with operating cash to fund the acquisition of the Boardman Tennis Center facility. Subsequent to the acquisition, the Boardman Tennis Center facility was renamed The Avalon Athletic Club at Boardman. The primary assets of The Avalon Athletic Club at Boardman include the acquired real property consisting of the building and associated land.

The Avalon Athletic Club at Boardman is currently in operation providing indoor tennis court rental and lessons. The operating results are included in the Company's Condensed Consolidated Statements of Operations and within Avalon's golf and related operations segment from the date of acquisition.

In the second quarter of 2018, the Company started renovating the facility. The renovations include converting the facility into a multipurpose recreation center which will include indoor tennis courts, indoor basketball, volleyball and pickleball courts and a fitness area.

The acquisition of the facility and its associated renovation is consistent with the Company's athletics and fitness business strategy. Members of the Avalon Golf and Country Club will have access to the renovated facility and all the athletic and fitness related activities that will be offered by The Avalon Athletic Club at Boardman. In addition, hotel guests at The Avalon Inn will also be able to utilize the facility during their stay. The Avalon Athletic Club at Boardman will earn revenue through membership fees, athletic and fitness related activities.

During the six months ended June 30, 2018, Avalon incurred capital expenditures of \$0.9 million of which \$0.7 million of such expenditures was paid to vendors and primarily related to the continued renovation and expansion of The Avalon Inn and approximately \$0.1 million of such expenditures related to a vehicle acquired under a new capital lease agreement. During the six months ended June 30, 2017, Avalon incurred capital expenditures of \$1.6 million of which \$1.0 million of such expenditures was paid to vendors and primarily related to the continued renovation and expansion of The Avalon Inn and \$0.6 million of such expenditures related to golf course maintenance equipment acquired under new capital lease agreements. In 2018 and 2017, The Avalon Inn was in operation but still in the process of being renovated and expanded. The renovations and expansion include the renovation of existing hotel rooms and recreation center and the addition of an outdoor resort pool and bar. Avalon's aggregate capital expenditures in 2018 are expected to be in the range of \$2 million to \$3 million, funded with cash in our project fund account and cash generated from operations. Capital expenditures will principally relate to the continued renovation and expansion of The Avalon Inn, renovation of The Avalon Athletic Club at Boardman facility, building improvements and equipment purchases.

On December 20, 2016, Avalon and certain direct and indirect wholly owned subsidiaries entered into a loan and security agreement (the “Term Loan Agreement”) with Laurel Capital Corporation which provides for a \$12.0 million term loan. At closing, \$9.1 million of the proceeds were used to pay off amounts outstanding under the then existing line of credit agreement and associated accrued interest with Home Savings Bank, dated May 21, 2015, as amended, and pay related transaction costs associated with the Term Loan Agreement. The line of credit agreement with Home Savings Bank was terminated in conjunction with the repayment. Remaining proceeds of \$2.9 million under the Term Loan Agreement were deposited in a project fund account to fund costs of renovating and expanding The Avalon Inn. At June 30, 2018 and December 31, 2017, the remaining proceeds of \$1.3 million and \$2.8 million, respectively, are presented in the Condensed Consolidated Balance Sheets as “Restricted cash.” On December 4, 2017 the Term Loan Agreement was amended to restate the definition of “Total Fixed Charges” utilized in the calculation of the “Fixed Charge Coverage Ratio.”

The \$12.0 million term loan amount is payable in 119 equal monthly installments of principal and interest, based on a fifteen (15) year maturity schedule which commenced on January 20, 2017. The Term Loan Agreement matures on December 20, 2026 at which time the final balloon payment equal to the remaining outstanding principal, interest and fees are due. Borrowings under the Term Loan Agreement bear interest at a fixed rate of 5.35% until the fifth anniversary date of the closing at which time the interest rate will be reset to a fixed rate equal to the greater of (a) 5.35% per annum or (b) the sum of the Index Rate on the date two (2) business days prior to the reset date and 3.95%, provided that the applicable rate shall in no event exceed 7.50% per annum.

Avalon has the right to prepay the amount outstanding under the Term Loan Agreement, in whole or in part, at any time upon payment of the principal amount of the loan to be prepaid plus accrued unpaid interest thereon to the prepayment date, plus an applicable prepayment penalty. The prepayment penalty, expressed as a percentage of the principal of the loan being prepaid, is five percent (5%) on any prepayment in the first five years; four percent (4%) on any prepayment in the sixth and seventh year; three percent (3%) on any prepayment in the eighth and ninth year; and two percent (2%) on any prepayment in the tenth year.

Borrowings are secured by certain real property and related business assets as defined in the Term Loan Agreement. The Term Loan Agreement also contains certain financial and other covenants, customary representations, warranties and events of default. Avalon was in compliance with the Term Loan Agreement covenants at June 30, 2018 and December 31, 2017.

On May 31, 2018, Avalon entered into a new business loan agreement with Home Savings Bank, (the “Line of Credit Agreement”) which provides for a line of credit of up to \$5.0 million maturing on May 31, 2020. Under the Line of Credit Agreement, borrowings in excess of \$1.0 million are subject to a borrowing base which is calculated based off a specific level of eligible accounts receivable of the waste management business as defined in the agreement. The existing line of credit agreement with Home Savings Bank, dated December 20, 2016, as amended, which was entered into concurrently with the Term Loan Agreement, was terminated in conjunction with the new Line of Credit Agreement. No amounts were outstanding under the existing line of credit agreement at termination.

No amounts were drawn under the Line of Credit Agreement at June 30, 2018. Outstanding borrowings under the Line of Credit Agreement bear interest at Prime Rate plus .25%. At June 30, 2018, the interest rate on the Line of Credit Agreement was 5.00%. Effective July 1, 2018, the interest rate on the Line of Credit Agreement increased to 5.25%.

Borrowings under the Line of Credit Agreement are secured by certain business assets of the Company including accounts receivable, inventory and equipment. The Line of Credit Agreement also contains certain financial and other covenants, customary representations, warranties and events of default. Avalon was in compliance with the line of credit agreements covenants at June 30, 2018 and December 31, 2017.

During both the three and six month periods ended June 30, 2018 and 2017, the weighted average interest rate on outstanding borrowings was 5.35%.

In November 2003, Avalon entered into a long-term agreement with Squaw Creek Country Club to lease and operate its golf course and related facilities. The lease has an initial term of ten (10) years with four (4) consecutive ten (10) year renewal term options unilaterally exercisable by Avalon. Under the lease, Avalon is obligated to pay \$15,000 in annual rent and make leasehold improvements of \$150,000 per year. Amounts expended by Avalon for leasehold improvements during a given year in excess of \$150,000 will be carried forward and applied to future leasehold improvement obligations. Based upon the amount of leasehold improvements already made, Avalon expects to exercise all of its remaining renewal options.

At June 30, 2018 and December 31, 2017, there was a working capital deficit of \$0.1 million and \$0.2 million, respectively. Working capital was negatively impacted primarily by an increase in accounts payable and deferred membership dues revenue partially offset by an increase in cash and cash equivalents, accounts receivable and unbilled membership dues receivable.

Accounts receivable increased to \$11.0 million at June 30, 2018 compared with \$9.9 million at December 31, 2017. The increase was the result of increased sales related to the waste management services segment in the second quarter of 2018 compared with the fourth quarter of 2017 and the timing of receipt on those associated receivables. Net operating revenues related to the waste management segment were \$11.5 million in the second quarter of 2018 compared with \$10.5 million in the fourth quarter of 2017. In addition, accounts receivable related to the golf and related operations segment increased due to the timing of annual membership renewals.

Unbilled membership dues receivable increased to \$1.0 million at June 30, 2018 compared to \$0.6 million at December 31, 2017 due to the associated timing of membership renewals which are billed on a monthly basis over the course of the annual agreement.

Accounts payable increased to \$9.1 million at June 30, 2018 compared with \$7.8 million at December 31, 2017. The increase in accounts payable is primarily due to a increase in the amounts due to disposal facilities and transportation carriers of the waste brokerage and management services business associated with the increase in net operating revenues in the second quarter of 2018 compared with the fourth quarter of 2017 and the associated timing of those vendor payments in the ordinary course of business. To a lesser extent, accounts payable also increased as a result of the increased amounts due to vendors during the golf season related to the golf and related operations segment.

Accrued payroll and other compensation increased to \$1.1 million at June 30, 2018 compared to \$0.7 million at December 31, 2017. The increase was primarily the result of timing of payment of certain accrued annual bonuses.

Deferred revenue relating to membership dues was approximately \$4.0 million at June 30, 2018 compared to \$2.7 million at December 31, 2017. The increase in deferred revenues was primarily due to the associated timing of annual

membership renewals and, to a lesser extent, an increase in memberships during the first six months of 2018. The number of members at June 30, 2018 was 4,502 compared to 4,338 at December 31, 2017.

Management believes that anticipated cash provided from future operations, will be, for the foreseeable future, sufficient to meet operating requirements and make required monthly payments under our term loan facility. If business conditions warrant additional monies needed to fund capital expenditure programs, Avalon will take actions such as refinancing or restructuring our current debt agreements, incurring additional indebtedness, issuance of common stock or issuance of a security with characteristics of both debt and equity.

Growth Strategy

Waste Management Segment

Our growth strategy for the waste management services segment focuses on increasing revenue, gaining market share and enhancing shareholder value through internal growth. Although we are a waste management services company, we do not own any landfills or provide waste collection services. However, because of our many relationships with various disposal facilities and transporters, we are able to be more flexible and provide alternative solutions to a customer's waste disposal or recycling needs. We intend to capitalize on our management and sales staff which has extensive experience in all aspects of the waste business. As such, we intend to manage our internal growth as follows:

- ***Sales and Marketing Activities.*** We will focus on retaining existing customers and obtaining new business through our well-managed sales and marketing activities. We seek to manage our sales and marketing activities to enable us to capitalize on our position in many of the markets in which we operate. We provide a tailored program to all of our customers in response to their particular needs. We accomplish this by centralizing services to effectively manage their needs, such as minimizing their procurement costs.

We currently have a number of professional sales and marketing employees in the field who are compensated using a commission structure that is focused on generating high levels of quality revenue. For the most part, these employees directly solicit business from existing and prospective customers. We emphasize our rate and cost structures when we train new and existing sales personnel. We intend to hire additional qualified professional sales personnel to expand into different geographical areas.

- ***Development Activities.*** We will seek to identify opportunities to further position us as an integrated service provider in markets where we provide services. In addition, we will continue to utilize the extensive experience of our management and sales staff to bid on significant one-time projects and those that require special expertise. Where appropriate, we may seek to obtain permits that would provide vertically integrated waste services or expand the service offerings or leverage our existing volumes with current vendors to provide for long term, cost competitive strategic positioning within our existing markets.

Golf and Related Operations Segment

In August 2014, the Company acquired The Avalon Inn which was integrated into the golf and related operations segment. The acquisition is consistent with the Company's business strategy in that The Avalon Inn provides guests with a self-contained vacation experience, offering hotel guests golf packages to all of the golf courses of the Avalon Golf and Country Club and allows its guests to utilize the facilities at each of the clubhouses. Members of the Avalon Golf and Country Club also have access to all of the amenities offered by The Avalon Inn. The Avalon Inn is open year-round and provides a consistent, comfortable environment where our guests can enjoy our various amenities and activities. Avalon believes that the combination of its three golf facilities and The Avalon Inn will result in additional memberships in the Avalon Golf and Country Club.

On March 7, 2018, Avalon acquired The Avalon Athletic Club at Boardman which was integrated into the golf and related operations segment. The acquisition is consistent with the Company's athletics and fitness business strategy. Members of the Avalon Golf and Country Clubs will have access to all the athletic and fitness related activities that will be offered by The Avalon Athletic Club at Boardman. In addition, hotel guests of The Avalon Inn will also be able to utilize the facility during their stay.

In addition, several private country clubs in the northeast Ohio area are experiencing economic difficulties. Avalon believes some of these clubs may represent an attractive investment opportunity. While Avalon has not entered into any pending agreements for acquisitions, it may do so at any time and will continue to consider acquisitions that make economic sense.

Results of Operations

Avalon's primary business segment, the waste management services segment, provides hazardous and nonhazardous waste brokerage and management services, captive landfill management services and salt water injection well operations. The golf and related operations segment includes the operation and management of three golf courses and related country clubs and facilities, a hotel and its associated amenities, a recreation center and a travel agency.

Performance in the second quarter of 2018 compared with the second quarter of 2017

Overall Performance

Net operating revenues increased to \$16.7 million in the second quarter of 2018 compared with \$14.6 million in the second quarter of 2017. This increase was primarily due to an increase in net operating revenues of the waste management services segment. Net operating revenues of the waste management services segment were \$11.5 million in the second quarter of 2018 compared with \$9.5 million in the second quarter of 2017. Net operating revenues of the golf and related operations segment were approximately \$5.2 million in the second quarter of 2018 compared to \$5.1 million in the second quarter of 2017.

Costs of operations related to the waste management segment increased to \$9.1 million in the second quarter of 2018 compared with \$7.5 million in the second quarter of 2017. The increase in the cost of operations between years for the waste management segment is primarily due to the increased net operating revenues between periods as these costs vary directly with the associated net operating revenues. Cost of operations for the golf and related operations segment was \$4.1 million in both the second quarter of 2018 and 2017.

Depreciation and amortization expense was approximately \$0.7 million in the second quarter of 2018 compared to \$0.8 million in the second quarter of 2017.

Consolidated selling, general and administrative expenses were \$2.2 million in the second quarter of 2018 compared with \$2.1 million in the second quarter of 2017. The increase in selling, general and administrative costs was primarily due to increased employee related costs and, to a lesser extent, an increase in advertising and sales promotions during the golf season.

Interest expense was \$0.2 million in both the second quarter of 2018 and 2017. During both the three month periods ended June 30, 2018 and 2017, the weighted average interest rate on outstanding borrowings was 5.35%.

Net income attributable to Avalon Holdings Corporation common shareholders was \$0.6 million, or \$0.16 per share, in the second quarter of 2018 compared with net income attributable to Avalon Holdings Corporation common shareholders of \$0.1 million, or \$0.03 per share, in the second quarter of 2017.

Segment Performance

Segment performance should be read in conjunction with Note 13 to the Condensed Consolidated Financial Statements.

Waste Management Services Segment

The net operating revenues of the waste management services segment increased to \$11.5 million in the second quarter of 2018 compared with \$9.5 million in the second quarter of 2017. The waste management services segment includes waste disposal brokerage and management services, captive landfill management operations and salt water injection well operations.

The net operating revenues of the waste brokerage and management services business increased to \$10.9 million in the second quarter of 2018 from \$8.9 million in the second quarter of 2017. This increase was due to an increase in net operating revenues relating to continuous work of the waste disposal brokerage business. Continuous work of the waste disposal brokerage business increased \$1.0 million between periods related to increased work from multiple customers. Net operating revenues related to continuous work were approximately \$6.2 million in the second quarter

of 2018 compared with \$5.2 million in the second quarter of 2017. In addition, net operating revenue increased between periods due to event work relating to multiple projects. Event work is defined as bid projects under contract that occurs on a one-time basis over a short period of time. Such work can fluctuate significantly from year to year. Net operating revenues related to event work were approximately \$4.0 million in the second quarter of 2018 compared with \$3.4 million in the second quarter of 2017. Net operating revenues related to managerial, consulting and clerical services also increased during the period. Net operating revenue relating to managerial, consulting and clerical services, which is performed for one customer, is entirely dependent on that customer's needs. Net operating revenues related to managerial, consulting and clerical services increased to \$0.7 million in the second quarter of 2018 compared with \$0.3 million in the second quarter of 2017.

The net operating revenues of the captive landfill management operations were approximately \$0.6 million in both the second quarter of 2018 and 2017. The net operating revenues of the captive landfill operations are almost entirely dependent upon the volume of waste generated by the owner of the landfill for whom Avalon manages the facility.

Due to the temporary suspension of the salt water injections wells described below, there were no operating revenues during the second quarter of 2018 and 2017. As a result of a seismic event with a magnitude of 2.1 occurring on August 31, 2014, the Chief of the Division of Oil and Gas Resources Management ("Chief" or "Division") issued Orders on September 3, 2014, to immediately suspend all operations of both of Avalon's saltwater injection wells. The Orders were based on the findings that the two saltwater injection wells were located in close proximity to an area of known seismic activity and also that the saltwater injection wells pose a risk of increasing or creating seismic activity. The two saltwater injection wells are located approximately 112 feet apart. Based on these findings, the Chief ordered the immediate suspension of all operations of the two saltwater injection wells, until the Division could further evaluate the wells.

On September 5, 2014, Avalon submitted the information required by the Chief's Order in regards to its AWMS #1 injection well, and the Chief lifted the suspension for that well on September 18, 2014. On September 19, 2014, Avalon submitted information and a written plan required by the Chief's Order proposing the establishment of certain operations and management controls on injections at the AWMS #2 injection well. To date, the Division has not responded to that plan despite Avalon's requests for feedback.

On October 2, 2014, Avalon filed an appeal with the Ohio Oil and Gas Commission (the “Commission”) disputing the basis for suspending operations of AWMS #2 and also the authority of the Chief to immediately suspend such operations. On March 11, 2015, an appeal hearing was held. The Chief stated during the hearing that the suspension is only temporary, and that he expects that AWMS #2 will be allowed to inject once the state’s final policymaking is complete.

On August 12, 2015, the Commission upheld the temporary suspension of injection operations of AWMS #2 stating that the temporary suspension will allow the Chief to more fully evaluate the facts in anticipation of the Division’s implementation of a comprehensive regulatory plan that will specifically address injection-induced seismicity. Avalon appealed that decision in September 2015 to the Franklin County Court of Common Pleas, but that appeal was dismissed on a filing technicality. Avalon appealed the dismissal to the Ohio 10th District Court of Appeals, which found the Commission erred in its filing of their decision. Following the Commission’s proper notice, Avalon appealed again to the Franklin County Court of Common Pleas (the “Court”).

On November 1, 2016 an appeal hearing was held in that Court. On December 23, 2016, the Court issued its Decision and Order in Avalon’s favor, and vacated the Commission’s decision. The Court found that the Division’s suspension and refusal to work with the Company for over 26 months was arbitrary and not in accordance with reason. Subsequent to the ruling, and in accordance with the Court’s Decision and Order, both Avalon and the Division submitted their proposed restart plans to the Court. Avalon’s plan sets forth both the initial volumes and pressures and increases in volume and pressure while continuously monitoring seismicity and addressing the concerns of public health and safety.

On February 21, 2017, the Court issued its Final Decision and Order. The Court’s Final Decision and Order sets conditions for the restarting of AWMS #2 in accordance with the proposed restart plans filed by Avalon with minor revisions. While the Company was making preparations for restarting the well and opening the facility, the Division appealed the Final Decision and Order and filed a Motion to Stay the Court Order on February 22, 2017. The Motion to Stay was granted by the Ohio 10th District Court of Appeals on March 21, 2017. On September 14, 2017, an appeal hearing was held.

On July 31, 2018 the Ohio 10th District Court of Appeals issued its decision on the appeal. In the decision, the Ohio 10th District Court of Appeals overruled the majority of the Division’s assignments of error, but also found that the Franklin County Court of Common Pleas abused its discretion in issuing the restart order for the Company’s injection well. The Ohio 10th District Court of Appeals therefore reinstated the previous Ohio Oil and Gas Commission decision in this matter. Based on the decision, operations of Company’s #2 injection well will remain suspended. The Ohio 10th District Court of Appeals decision is appealable to the Ohio Supreme Court.

The Company is in the process of evaluating the decision in light of other ongoing litigation in this matter, and will vigorously pursue all available legal avenues.

In addition, on August 26, 2016, Avalon filed a complaint in the 11th Appellate District Court in Trumbull County, Ohio for a Peremptory Writ of Mandamus to compel the Director of the Ohio Department of Natural Resources (“ODNR”) to initiate appropriations procedures to determine damages from the illegal regulatory taking of the Company’s property, or issue an alternative remedy at law. There is currently no implemented state-wide policy on induced seismicity and The ODNR has refused to communicate with the Company regarding the status and requirements of any policymaking. The Company believes that the actions, and lack of responsible actions, by ODNR, which were triggered by a seismic event that presented no hazard or risk to any individual or to the environment, is a clear violation of the Company’s property rights and a violation of the Fifth and Fourteenth Amendments to the U.S. Constitution; Article I, Section 19 of the Ohio Constitution; and Ohio Revised Code Chapter 163.

The hearing was scheduled to commence on June 25, 2018. On June 8, 2018, the 11th Appellate District Court in Trumbull County, Ohio issued a motion to stay all further proceedings in the writ of mandamus action until a ruling is made on the suspension order by the Ohio 10th District Court of Appeals. To date, the hearing date has not been rescheduled based on the July 31, 2018 decision from the Ohio 10th District Court of Appeals. The Company intends to vigorously pursue the complaint and obtain due process and fair compensation.

Costs of operations related to the waste management segment increased to \$9.1 million in the second quarter of 2018 compared with \$7.5 million in the second quarter of 2017. The increase in the cost of operations between years for the waste management segment is primarily due to the increased net operating revenues between periods as these costs vary directly with the associated net operating revenues. The overall gross margin percentage of the waste brokerage and management services business was approximately 21% in the second quarter of 2018 compared with 20% in the second quarter of 2017. The increased gross margin percentage was primarily attributable to increased net operating revenues on higher gross profit event work during the quarter.

Income before income taxes for the waste management services segment was approximately \$1.0 million in the second quarter of 2018 compared to \$0.7 million in the second quarter of 2017. Income before income taxes of the waste brokerage and management services business was approximately \$1.1 million in the second quarter of 2018 compared to \$0.8 million in the second quarter of 2017. The increased income before taxes was primarily attributable to the increased gross margin from the higher net operating revenues related to continuous work between periods and higher gross profit event work during the quarter. Income before income taxes of the captive landfill operations was approximately \$0.1 million in both the second quarter of 2018 and 2017. During both the second quarter of 2018 and 2017, the salt water injection wells incurred a loss before income taxes of approximately \$0.2 million. The loss was primarily due to depreciation expense recorded on the facility and legal and professional costs incurred relating to Avalon's appeal and mandamus processes described above.

Golf and Related Operations Segment

Net operating revenues of the golf and related operations segment were approximately \$5.2 million in the second quarter of 2018 compared to \$5.1 million in the second quarter of 2017. Avalon's golf and related operations segment consists of the operation and management of three golf courses and related country clubs which provide dining and banquet facilities, a hotel which provides lodging, dining, banquet and conference facilities, a recreation center and a travel agency.

Food, beverage and merchandise sales were \$2.2 million in the second quarter of 2018 compared to \$2.3 million in the second quarter of 2017. The decrease was primarily due to a decrease in food, beverage and merchandise revenue related to the clubs between periods.

Other net operating revenues related to the golf and related operations were \$3.0 million in the second quarter of 2018 compared to \$2.8 million in the second quarter of 2017. Net operating revenues related to room rental was approximately \$0.7 million in the second quarter of 2018 compared with \$0.6 million in the second quarter of 2017. The increase in net operating revenues related to room rental was due to higher occupancy and associated average room rates during the second quarter of 2018 compared with the prior period. Membership dues revenue was approximately \$1.3 million in the second quarter of 2018 and 2017. The increase in membership dues revenue attributable to the increase in membership rates that went into effect on the member's annual renewal date was offset by a decrease in the average number of members between periods. The average number of members during the second quarter of 2018 was 4,512 compared to 4,678 in the prior period. Greens fees and associated cart rentals were approximately \$0.5 million in both the second quarter of 2018 and 2017. Other revenues consisting of athletic, fitness, travel agency and spa related activities were approximately \$0.5 million in the second quarter of 2018 compared to \$0.4 million in the second quarter of 2017.

Cost of food, beverage and merchandise was approximately \$0.9 million in the second quarter of 2018 compared to \$1.0 million in the second quarter of 2017. The decrease is primarily attributable to lower food, beverage and

merchandise sales. Golf and related operations operating costs decreased to approximately \$3.1 million in the second quarter of 2018 compared with \$3.2 million in the second quarter of 2017. The decrease was primarily attributable to lower employee related costs.

Income before income taxes for the golf and related operations was approximately \$0.4 million in the second quarter of 2018 compared with \$0.2 million in the second quarter of 2017. The change between periods was primarily due to higher occupancy and associated room rates attributable to The Avalon Inn and a decrease in employee related costs.

General Corporate Expenses

General corporate expenses were \$0.7 million in both the second quarter of 2018 and 2017.

Interest Expense

Interest expense was \$0.2 million in both the second quarter of 2018 and 2017. During both the three month periods ended June 30, 2018 and 2017, the weighted average interest rate on outstanding borrowings was 5.35%.

Net Income

Net income attributable to Avalon Holdings Corporation common shareholders was \$0.6 million in the second quarter of 2018 compared to \$0.1 million in the second quarter of 2017. Avalon recorded a state income tax provision in both the second quarter of 2018 and 2017, which was related entirely to the waste management and brokerage operations. Due to the recording of a full valuation allowance against the Company's federal net deferred tax assets, the overall effective tax rate in both periods reflects taxes owed in certain U.S state jurisdictions. Avalon's income tax on the income before taxes was offset by a change in the valuation allowance. A valuation allowance is provided when it is more likely than not that deferred tax assets relating to certain federal and state loss carryforwards will not be realized. Avalon continues to maintain a valuation allowance against the majority of its deferred tax amounts until it is evident that the deferred tax asset will be utilized in the future.

Performance in the first six months of 2018 compared with the first six months of 2017

Overall Performance

Net operating revenues increased to \$28.2 million in the first six months of 2018 compared with \$25.3 million in the first six months of 2017. This increase was primarily due to an increase in net operating revenues of the waste management services segment. Net operating revenues of the waste management services segment were \$20.0 million in the first six months of 2018 compared with \$17.1 million in the first six months of 2017. Net operating revenues of the golf and related operations segment were approximately \$8.2 million in the first six months of 2018 and 2017.

Costs of operations related to the waste management segment increased to \$15.8 million in the first six months of 2018 compared with \$13.4 million in the first six months of 2017. The increase in the cost of operations between years for the waste management segment is primarily due to the increased net operating revenues between periods as these costs vary directly with the associated net operating revenues. Cost of operations for the golf and related operations segment decreased to \$6.8 million in the first six months of 2018 compared with \$7.1 million in the first six months of 2017. The decrease was primarily a result of lower food costs directly associated with the lower food revenue and lower employee related costs.

Depreciation and amortization expense was approximately \$1.4 million in the first six months of 2018 compared to \$1.5 million in the first six months of 2017.

Consolidated selling, general and administrative expenses were \$4.4 million in the first six months of 2018 compared with \$4.1 million in the first six months of 2017. The increase in selling, general and administrative costs was primarily due to increased legal and professional costs and, to a lesser extent, an increase in advertising and sales promotions during the golf season.

Interest expense was approximately \$0.4 million in both the first six months of 2018 and 2017. During both the six month periods ended June 30, 2018 and 2017, the weighted average interest rate on outstanding borrowings was 5.35%.

Net loss attributable to Avalon Holdings Corporation common shareholders was \$0.2 million, or \$0.05 per share, in the first six months of 2018 compared with a net loss attributable to Avalon Holdings Corporation common shareholders of \$0.8 million, or \$0.21 per share, in the first six months of 2017.

Segment Performance

Segment performance should be read in conjunction with Note 13 to the Condensed Consolidated Financial Statements.

Waste Management Services Segment

The net operating revenues of the waste management services segment increased to \$20.0 million in the first six months of 2018 compared with \$17.1 million in the first six months of 2017.

The net operating revenues of the waste brokerage and management services business increased to \$18.8 million in the first six months of 2018 from \$16.0 million in the first six months of 2017. This increase was due to an increase in net operating revenues relating to continuous work of the waste disposal brokerage business. Continuous work of the waste disposal brokerage business increased \$1.5 million between periods as a result of increased work from multiple customers. Net operating revenues related to continuous work were approximately \$11.8 million in the first six months of 2018 compared with \$10.3 million in the first six months of 2017. In addition, net operating revenue increased \$0.9 million between periods due to event work relating to multiple projects. Event work is defined as bid projects under contract that occurs on a one-time basis over a short period of time. Such work can fluctuate significantly from year to year. Net operating revenues related to event work were approximately \$6.2 million in the first six months of 2018 compared with \$5.3 million in the first six months of 2017. Net operating revenues related to managerial, consulting and clerical services also increased during the period. Net operating revenue relating to managerial, consulting and clerical services, which is performed for one customer, is entirely dependent on that customer's needs. Net operating revenues related to managerial, consulting and clerical services increased to \$0.8 million in the first six months of 2018 compared with \$0.4 million in the first six months of 2017.

The net operating revenues of the captive landfill management operations were approximately \$1.2 million in the first six months of 2018 compared to \$1.1 million in the first six months of 2017. The net operating revenues of the captive landfill operations are almost entirely dependent upon the volume of waste generated by the owner of the landfill for whom Avalon manages the facility.

Due to the temporary suspension of the salt water injections wells noted above, there were no operating revenues during the first six months of 2018 and 2017.

Costs of operations related to the waste management segment increased to \$15.8 million in the first six months of 2018 compared with \$13.4 million in the first six months of 2017. The increase in the cost of operations between years for the waste management segment is primarily due to the increased net operating revenues between periods as these costs vary directly with the associated net operating revenues. The overall gross margin percentage of the waste brokerage and management services business was approximately 21% in both the first six months of 2018 and 2017.

Income before income taxes for the waste management services segment was approximately \$1.5 million in the first six months of 2018 compared to \$1.2 million in the first six months of 2017. Income before income taxes of the waste brokerage and management services business was approximately \$1.8 million in the first six months of 2018 compared to \$1.4 million in the first six months of 2017. The increased income before taxes was primarily attributable to the increased gross margin from the higher net operating revenues related to both continuous and event work during the first six months of 2018. Income before income taxes of the captive landfill operations was approximately \$0.2 million in both the first six months of 2018 and 2017. During the first six months of 2018 and 2017, the salt water injection wells incurred a loss before income taxes of approximately \$0.5 million and \$0.4 million, respectively. The loss was primarily due to depreciation expense recorded on the facility and legal and professional costs incurred relating to Avalon's appeal and mandamus processes described above.

Golf and Related Operations Segment

Net operating revenues of the golf and related operations segment were approximately \$8.2 million in the first six months of 2018 and 2017.

Food, beverage and merchandise sales were \$3.2 million in the first six months of 2018 compared to \$3.4 million in the first six months of 2017. The decrease was primarily due to a decrease in food, beverage and merchandise revenue related to the clubs between periods.

Other net operating revenues related to the golf and related operations were \$5.0 million in the first six months of 2018 compared to \$4.8 million in the first six months of 2017. Net operating revenues related to room rental was approximately \$1.0 million in the first six months of 2018 compared with \$0.9 million in the first six months of 2017. The increase in net operating revenues related to room rental was due to higher occupancy and associated average room rates during the first six months of 2018 compared with the prior period. Membership dues revenue was approximately \$2.6 million in the first six months of 2018 and 2017. The increase in membership dues revenue attributable to the increase in membership rates that went into effect on the member's annual renewal date was offset by a decrease in the average number of members between periods. The average number of members during the first six months of 2018 was 4,442 compared to 4,700 in the prior period. Greens fees and associated cart rentals were \$0.6 million in both the first six months of 2018 and 2017. Other revenues consisting of athletic, fitness, travel agency and spa related activities were approximately \$0.8 million in the first six months of 2018 compared to \$0.7 million in the first six months of 2017. Due to adverse weather conditions, net operating revenues relating to the golf courses, which are located in northeast Ohio and western Pennsylvania, were minimal during the first three months of 2018 and 2017.

Cost of operations for the golf and related operations segment decreased to \$6.8 million in the first six months of 2018 compared with \$7.1 million in the first six months of 2017. Cost of food, beverage and merchandise was approximately \$1.4 million in the first six months of 2018 compared to \$1.5 million in the first six months of 2017. The decrease is primarily attributable to the decreased food revenue its associated cost coupled with lower cost of food. Golf and related operations operating costs decreased to approximately \$5.4 million in the first six months of 2018 compared with \$5.6 million in the first six months of 2017. The decrease was primarily a result of lower employee related costs.

The golf and related operations broke even during the first six months of 2018 compared with a net loss before income taxes of \$0.4 million in the first six months of 2017. The change between periods was primarily due to higher occupancy and associated room rates attributable to The Avalon Inn and a decrease in employee related costs.

The ability to attract new members and retain members is very important to the success of the golf and related operations segment. Avalon is continually using different marketing strategies to attract and retain members, such as local television advertising and/or various membership promotions. A significant decline in members could adversely impact the financial results of the golf and related operations segment.

General Corporate Expenses

General corporate expenses were \$1.6 million in the first six months of 2018 compared to \$1.5 million in the first six months of 2017. The increase in general corporate expenses related to higher legal and professional costs partially offset with decreased employee related costs.

Interest Expense

Interest expense was \$0.4 million in both the first six months of 2018 and 2017. During both the three month periods ended June 30, 2018 and 2017, the weighted average interest rate on outstanding borrowings was 5.35%.

Net Loss

Net loss attributable to Avalon Holdings Corporation common shareholders was \$0.2 million in the first six months of 2018 compared to \$0.8 million in the first six months of 2017. Avalon recorded a state income tax provision in both

the first six months of 2018 and 2017, which was related entirely to the waste management and brokerage operations. Due to the recording of a full valuation allowance against the Company's federal net deferred tax assets, the overall effective tax rate in both periods reflects taxes owed in certain U.S state jurisdictions. Avalon's income tax benefit on the loss before taxes was offset by a change in the valuation allowance. A valuation allowance is provided when it is more likely than not that deferred tax assets relating to certain federal and state loss carryforwards will not be realized. Avalon continues to maintain a valuation allowance against the majority of its deferred tax amounts until it is evident that the deferred tax asset will be utilized in the future.

Trends and Uncertainties

In the ordinary course of conducting its business, Avalon becomes involved in lawsuits, administrative proceedings and governmental investigations, including those relating to environmental matters. Some of these proceedings may result in fines, penalties or judgments being assessed against Avalon which, from time to time, may have an impact on its business and financial condition. Although the outcome of such lawsuits or other proceedings cannot be predicted with certainty, management assesses the probability of loss and accrues a liability as appropriate. Avalon does not believe that any uninsured ultimate liabilities, fines or penalties resulting from such pending proceedings, individually or in the aggregate, will have a material adverse effect on its liquidity, financial position or results of operations.

On December 22, 2017, legislation commonly known as the Tax Cuts and Jobs Act (the "Tax Act") was signed into law. The Tax Act changes existing U.S. tax law and includes numerous provisions that will affect Avalon, including our income tax accounting, disclosure and tax compliance. The most impactful changes within the Tax Act are those that will reduce the U.S. corporate tax rates, business-related exclusions and deductions and credits. Accounting Standards Codification Topic 740, "*Income Taxes*," requires the effects of changes in tax rates and laws on deferred tax balances to be recognized in the period in which the legislation is enacted. To the extent that a company's accounting for certain income tax effects of the Tax Act is incomplete but for which they are able to determine a reasonable estimate, the company must record a provisional amount in the financial statements. Consequently, as of the date of enactment, and during the six months ended June 30, 2018, Avalon valued all deferred tax assets and liabilities at the newly enacted Corporate U.S income tax rate. Avalon has a full valuation allowance on its federal deferred tax assets. Avalon is still in the process of estimating the full tax impact and expects to finalize its adoption of this guidance at year end.

The federal government and numerous state and local governmental bodies are continuing to consider legislation or regulations to either restrict or impede the disposal and/or transportation of waste. A portion of Avalon's waste brokerage and management services revenues is derived from the disposal and/or transportation of out-of-state waste. Any law or regulation restricting or impeding the transportation of waste or the acceptance of out-of-state waste for disposal could have a negative effect on Avalon.

Avalon's waste brokerage and management services business obtains and retains customers by providing services and identifying cost-efficient disposal options unique to a customer's needs. Consolidation within the solid waste industry has resulted in reducing the number of disposal options available to waste generators and may cause disposal pricing to increase. Avalon's waste brokerage and management services business may not be able to pass these price increases onto some of its customers, which, in turn, may adversely impact Avalon's future financial performance.

A significant portion of Avalon's business is generated from waste brokerage and management services provided to customers that are not subject to long-term contracts. In light of current economic, regulatory and competitive conditions, there can be no assurance that Avalon's current customers will continue to transact business with Avalon at historical levels. Failure by Avalon to retain its current customers or to replace lost business could adversely impact the future financial performance of Avalon.

Avalon's captive landfill management business is dependent upon a single customer as its sole source of revenue. If the captive landfill management business is unable to retain this customer, Avalon's future financial performance could be adversely impacted.

Saltwater disposal wells are regulated by the Ohio Department of Natural Resources ("ODNR"), with portions of the disposal facilities regulated by the Ohio EPA. As exploitation of the Marcellus and Utica shale formations by the hydrofracturing process develops, regulatory and public awareness of the environmental risks of saltwater brine and its disposal in saltwater disposal wells is growing and consequently, it is expected that regulation governing the construction and operation of saltwater disposal wells will increase in scope and complexity. Increased regulation may result in increased construction and/or operating costs, which could adversely affect the financial results of Avalon.

There is a continuing risk during the saltwater disposal well's operation of an environmental event causing contamination to the water tables in the surrounding area, or seismic events. The occurrence of a spill or contamination at a disposal well site could result in remedial expenses and/or result in the operations at the well site being suspended and/or terminated by the Ohio EPA or the ODNR. Incurring remedial expenses and /or a suspension or termination of Avalon's right to operate one or more saltwater disposal wells at the well site could have an adverse effect on Avalon's financial results.

As a result of a seismic event with a magnitude of 2.1 occurring on August 31, 2014, the Chief of the Division of Oil and Gas Resources Management (“Chief” or “Division”) issued Orders on September 3, 2014, to immediately suspend all operations of both of Avalon’s saltwater injection wells. The Orders were based on the findings that the two saltwater injection wells were located in close proximity to an area of known seismic activity and also that the saltwater injection wells pose a risk of increasing or creating seismic activity. The two saltwater injection wells are located approximately 112 feet apart. Based on these findings, the Chief ordered the immediate suspension of all operations of the two saltwater injection wells, until the Division could further evaluate the wells.

On September 5, 2014, Avalon submitted the information required by the Chief’s Order in regards to its AWMS #1 injection well, and the Chief lifted the suspension for that well on September 18, 2014. On September 19, 2014, Avalon submitted information and a written plan required by the Chief’s Order proposing the establishment of certain operations and management controls on injections at the AWMS #2 injection well. To date, the Division has not responded to that plan despite Avalon’s requests for feedback.

On October 2, 2014, Avalon filed an appeal with the Ohio Oil and Gas Commission (the “Commission”) disputing the basis for suspending operations of AWMS #2 and also the authority of the Chief to immediately suspend such operations. On March 11, 2015, an appeal hearing was held. The Chief stated during the hearing that the suspension is only temporary, and that he expects that AWMS #2 will be allowed to inject once the state’s final policymaking is complete.

On August 12, 2015, the Commission upheld the temporary suspension of injection operations of AWMS #2 stating that the temporary suspension will allow the Chief to more fully evaluate the facts in anticipation of the Division's implementation of a comprehensive regulatory plan that will specifically address injection-induced seismicity. Avalon appealed that decision in September 2015 to the Franklin County Court of Common Pleas, but that appeal was dismissed on a filing technicality. Avalon appealed the dismissal to the Ohio 10th District Court of Appeals, which found the Commission erred in its filing of their decision. Following the Commission's proper notice, Avalon appealed again to the Franklin County Court of Common Pleas (the "Court").

On November 1, 2016 an appeal hearing was held in that Court. On December 23, 2016, the Court issued its Decision and Order in Avalon's favor, and vacated the Commission's decision. The Court found that the Division's suspension and refusal to work with the Company for over 26 months was arbitrary and not in accordance with reason. Subsequent to the ruling, and in accordance with the Court's Decision and Order, both Avalon and the Division submitted their proposed restart plans to the Court. Avalon's plan sets forth both the initial volumes and pressures and increases in volume and pressure while continuously monitoring seismicity and addressing the concerns of public health and safety.

On February 21, 2017, the Court issued its Final Decision and Order. The Court's Final Decision and Order sets conditions for the restarting of AWMS #2 in accordance with the proposed restart plans filed by Avalon with minor revisions. While the Company was making preparations for restarting the well and opening the facility, the Division appealed the Final Decision and Order and filed a Motion to Stay the Court Order on February 22, 2017. The Motion to Stay was granted by the Ohio 10th District Court of Appeals on March 21, 2017. On September 14, 2017, an appeal hearing was held.

On July 31, 2018 the Ohio 10th District Court of Appeals issued its decision on the appeal. In the decision, the Ohio 10th District Court of Appeals overruled the majority of the Division's assignments of error, but also found that the Franklin County Court of Common Pleas abused its discretion in issuing the restart order for the Company's injection well. The Ohio 10th District Court of Appeals therefore reinstated the previous Ohio Oil and Gas Commission decision in this matter. Based on the decision, operations of Company's #2 injection well will remain suspended. The Ohio 10th District Court of Appeals decision is appealable to the Ohio Supreme Court.

The Company is in the process of evaluating the decision in light of other ongoing litigation in this matter, and will vigorously pursue all available legal avenues.

In addition, on August 26, 2016, Avalon filed a complaint in the 11th Appellate District Court in Trumbull County, Ohio for a Peremptory Writ of Mandamus to compel the Director of the Ohio Department of Natural Resources ("ODNR") to initiate appropriations procedures to determine damages from the illegal regulatory taking of the Company's property, or issue an alternative remedy at law. There is currently no implemented state-wide policy on induced seismicity and The ODNR has refused to communicate with the Company regarding the status and

requirements of any policymaking. The Company believes that the actions, and lack of responsible actions, by ODNR, which were triggered by a seismic event that presented no hazard or risk to any individual or to the environment, is a clear violation of the Company's property rights and a violation of the Fifth and Fourteenth Amendments to the U.S. Constitution; Article I, Section 19 of the Ohio Constitution; and Ohio Revised Code Chapter 163.

The hearing was scheduled to commence on June 25, 2018. On June 8, 2018, the 11th Appellate District Court in Trumbull County, Ohio issued a motion to stay all further proceedings in the writ of mandamus action until a ruling is made on the suspension order by the Ohio 10th District Court of Appeals. To date, the hearing date has not been rescheduled based on the July 31, 2018 decision from the Ohio 10th District Court of Appeals. The Company intends to vigorously pursue the complaint and obtain due process and fair compensation.

Avalon assessed the recoverability of the carrying values of the salt water injection wells based on the Chief's decision to temporarily suspend operations of the wells. Avalon estimated future cash flows directly associated with and which are expected to arise as a direct result of the wells once the temporary suspension is lifted. The assumptions used by management in developing the estimates of future cash flows were based on current market conditions and comparable prior periods while in operation. Based on the estimated undiscounted sum of the future cash flows, the net book value of the property, plant and equipment relating to the wells of approximately \$3.7 million at December 31, 2017 was recoverable in less than the estimated remaining useful life of those assets. There were no changes to this assessment at June 30, 2018.

Management continues to consider whether indicators of impairment are present and tests for recoverability, as necessary. There can be no guarantee that the salt water injection wells will resume operations. If management concludes that the suspension is other than temporary and the carrying amount of the salt water injection wells are not recoverable, Avalon may record an impairment charge up to \$3.5 million, the carrying value of the salt water injection wells at June 30, 2018.

Economic challenges throughout the industries served by Avalon may result in payment defaults by customers. While Avalon continuously endeavors to limit customer credit risks, customer-specific financial downturns are not controllable by management. Significant customer payment defaults would have a material adverse impact upon Avalon's future financial performance.

The Avalon Golf and Country Club operates golf courses and related clubhouses at each of its three facilities. The Avalon Golf and Country Club facilities also offer swimming pools, fitness centers, tennis courts, dining and banquet facilities and spa services. In addition, The Avalon Inn provides guests with a self-contained vacation experience, offering hotel guests golf packages to all of the golf courses of the Avalon Golf and Country Club and allows its guests to utilize the facilities at each of the clubhouses. Members of the Avalon Golf and Country Club also have access to all of the amenities offered by The Avalon Inn. The Avalon Golf and Country Club competes with many public courses and country clubs in the area. Although the golf courses continue to be available to the general public, the primary source of revenues is derived from the members of the Avalon Golf and Country Club. Avalon believes that the combination of its three facilities and The Avalon Inn will result in additional memberships in the Avalon Golf and Country Club. The ability to retain current members and attract new members has been an ongoing challenge. Although Avalon was able to increase the number of members of the Avalon Golf and Country Club, as of June 30, 2018, Avalon has not attained its membership goals. There can be no assurance as to when such goals will be attained and when the golf and related operations will ultimately become profitable. Avalon is continually using different marketing strategies to attract new members, such as local television advertising and various membership promotions. A significant decline in members could adversely affect the future financial performance of Avalon.

All three of Avalon's golf course operations and The Avalon Inn currently hold liquor licenses for their respective facilities. If, for some reason, any one of these facilities were to lose their liquor license, the financial performance of the golf and related operations would be adversely affected.

Avalon's operations are somewhat seasonal in nature since a significant portion of those operations are primarily conducted in selected northeastern and midwestern states. Additionally, Avalon's golf courses are located in northeast Ohio and western Pennsylvania and are significantly dependent upon weather conditions during the golf season. As a result, Avalon's financial performance is adversely affected by adverse weather conditions.

Recent Accounting Pronouncements

Adopted Accounting Standards

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers* ("ASU 2014-09"). ASU 2014-09 clarifies the principles used to

recognize revenue for all entities. ASU 2014-09 provides a unified five-step model to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration for which the entity expects to be entitled in exchange for those goods or services. The new standard replaces most of the existing revenue recognition standards in U.S. GAAP. In addition, in March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, which clarifies how to apply revenue recognition guidance related to whether an entity is a principal or an agent. On January 1, 2018, the Company adopted ASU 2014-09 and ASU 2016-08, and all related amendments using the modified retrospective method. The adoption did not result in an impact to the way the Company records revenue and as such did not result in period reclassifications to or from revenue or its associated costs. As a result of the adoption, the Company separately disclosed contract assets, in our Condensed Consolidated Balance Sheets at June 30, 2018 and December 31, 2017 and associated cash flows in our Condensed Consolidated Statements of Cash Flows for the six months ended June 30, 2018 and 2017. The Company does not expect the adoption to have a material impact on an ongoing basis.

In August 2016, the FASB issued ASU 2016-15, *Classification of Certain Cash Receipts and Cash Payments* (“ASU 2016-15”), which is intended to reduce diversity in practice in how certain cash receipts and payments are presented and classified in the statement of cash flows. The standard provides guidance in a number of situations including, among others, settlement of zero-coupon bonds, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, and distributions received from equity method investees. ASU 2016-15 also provides guidance for classifying cash receipts and payments that have aspects of more than one class of cash flows. On January 1, 2018, the Company adopted ASU 2016-15. The adoption of this standard did not have an impact on Avalon’s financial position, results of operations or financial statement disclosures.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows: Restricted Cash* (“ASU 2016-18”), which requires entities to include restricted cash and restricted cash equivalent balances with cash and cash equivalent balances in the statement of cash flows. On January 1, 2018, the Company adopted ASU 2016-18. The adoption of ASU 2016-18 impacted the presentation of our Condensed Consolidated Statements of Cash Flows and resulted in additional disclosure in our Notes to Unaudited Condensed Consolidated Financial Statements for the restricted cash related to the loan proceeds deposited into our project fund account that have not yet been utilized to fund the additional renovation and expansion of The Avalon Inn.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business* (“ASU 2017-01”). The purpose of ASU 2017-01 is to change the definition of a business to assist entities with evaluating when a set of transferred assets and activities is a business. The Company adopted ASU 2017-01 on January 1, 2018. The acquisition of the Boardman Tennis Center facility, acquired in March 2018, was accounted for in accordance with ASU 2017-01.

In March 2018, the FASB issued ASU 2018-05, *Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118* (“ASU 2018-05”). ASU 2018-05 adds the SEC guidance released on December 22, 2017 regarding the Tax Cuts and Jobs Act (the “Tax Act”) to the FASB Accounting Standards Codification. ASU 2018-05 provides additional guidance allowing companies to use a one year measurement period to account for the impacts of the Tax Act in their financial statements. The Company adopted ASU 2018-05 in March 2018. The Company has accounted for the impacts of the Tax Act, including the use of reasonable estimates where necessary. The Company may continue to refine its estimates throughout the measurement period.

Accounting Standards Not Yet Adopted

In February 2016, the FASB issued ASU 2016-02, *Leases*. The new standard establishes a right-of-use (“ROU”) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. Avalon is currently reviewing its agreements for its golf carts, machinery and equipment for the landfill operations, furniture and fixtures for The Avalon Inn and office copiers under operating leases and evaluating the impact the adoption of this guidance will have on its financial position, results of operations, cash flows and related disclosures. Upon adoption, the Company expects that the ROU asset and the lease liability will be recognized in the balance sheets in amounts that will be material.

In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments* (“ASU 2016-13”), which significantly changes the way entities recognize impairment of many financial assets by requiring immediate recognition of estimated credit losses expected to occur over their remaining life. ASU 2016-13 is effective January 1, 2020, with early adoption permitted January 1, 2019. The adoption of this standard is not expected to have a material impact on Avalon’s financial position, results of operations or financial statement disclosures.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Avalon does not have significant exposure to changing interest rates. Borrowings under our Term Loan Agreement bear interest at a fixed rate of 5.35% until the fifth anniversary date of the closing at which time the interest rate will be reset to a fixed rate equal to the greater of (a) 5.35% per annum or (b) the sum of the Index Rate on the date two (2) business days prior to the reset date and 3.95%, provided that the applicable rate shall in no event exceed 7.50% per annum. Outstanding borrowings under our Line of Credit Agreement bear interest at Prime Rate plus .25%. At June 30, 2018, the interest rate on the Line of Credit Agreement was 5.00%. No amounts were outstanding under the Line of Credit Agreement at June 30, 2018. Effective July 1, 2018, the interest rate on the Line of Credit Agreement increased to 5.25%.

Avalon does not undertake any specific actions to cover its exposure to interest rate risk and Avalon is not a party to any interest rate risk management transactions. Avalon does not purchase or hold any derivative financial instruments.

Item 4. Controls and Procedures

As required by Rule 13a-15 under the Securities Exchange Act of 1934 (the “Exchange Act”), Avalon’s management conducted an evaluation, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2018. For purposes of the foregoing, the term disclosure controls and procedures means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s (“SEC”) rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Avalon’s disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives as outlined above. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that they believe that, as of June 30, 2018, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Controls over Financial Reporting.

There were no changes in our internal controls over financial reporting during the fiscal quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting. We implemented internal controls to ensure we adequately evaluated our contracts and properly assessed the impact of the new accounting standard related to revenue recognition on our financial statements to facilitate their adoption on January 1, 2018. There were no significant changes to our internal control over financial reporting due to the adoption of the new standard.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Reference is made to “Item 3. Legal Proceedings” in Avalon’s Annual Report on Form 10-K for the year ended December 31, 2017 for a description of legal proceedings.

Item 2. Changes in Securities and Use of Proceeds

None

Item 3. Defaults upon Senior Securities

None

Item 4. Mine Safety Disclosures

None

Item 5. Other Information

None

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits

Exhibit 31.1 Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 31.2 Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

Exhibit 32.1 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

Exhibit 32.2 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

Exhibit 101.INS* XBRL Instance

Exhibit 101.SCH* XBRL Taxonomy Extension Schema

Exhibit 101.CAL* XBRL Taxonomy Extension Calculation

Exhibit 101.DEF* XBRL Taxonomy Extension Definition

Exhibit 101.LAB* XBRL Taxonomy Extension Labels

Exhibit 101.PRE* XBRL Taxonomy Extension Presentation

XBRL information is furnished and not filed or a part of a registration statement or prospectus for purposes of sections 11 or 12 of the Securities Act of 1933, as amended, is deemed not filed for purposes of section 18 of the Securities Exchange Act of 1934, as amended, and otherwise is not subject to liability under these sections.

(b) Reports on Form 8-K

On April 26, 2018, Avalon reported the voting results from the Annual Meeting held on April 26, 2018.

On May 31, 2018, Avalon reported that it entered into a new business loan agreement with Home Savings Bank, which provides for a line of credit of up to \$5.0 million maturing on May 31, 2020. Avalon also reported that the existing line of credit agreement with Home Savings Bank, dated December 20, 2016, as amended, was terminated in conjunction with the new business loan agreement.

On July 30, 2018, Avalon issued a press release regarding the recent trading activity of the Company's common stock.

On August 1, 2018, Avalon reported the Ohio 10th District Court of Appeals decision on the appeal of Company's salt water injection well restart order.
