FORWARD-LOOKING STATEMENTS

This Quarterly Report contains forward-looking statements that are subject to risks and uncertainties. All statements other than statements of historical fact included in this Quarterly Report are forward-looking statements.

Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance, and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as “anticipate,” “estimate,” “expect,” “project,” “plan,” “intend,” “believe,” “may,” “will,” “should,” “can have,” “likely” and other terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. For example, all statements we make relating to our estimated and projected costs, expenditures, cash flows, and financial results, our plans and objectives for future operations, growth or initiatives, strategies, or the expected outcome or impact of pending or threatened litigation are forward-looking statements. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- changes in consumer spending and general economic conditions;
- our ability to identify and respond to new and changing fashion trends, customer preferences, and other related factors;
 - fluctuations in our sales and results of operations on a seasonal basis and due to a variety of other factors;
- increased competition from other retailers;
- the success of the malls and shopping centers in which our stores are located;
- our dependence upon independent third parties to manufacture all of our merchandise;
- the availability constraints and price volatility of raw materials used to manufacture our products;
- interruptions of the flow of our merchandise from international manufacturers causing disruptions in our supply chain;
 - shortages of inventory, delayed shipments to our online customers, and harm to our reputation due to difficulties or shut-down of distribution facilities;
- our reliance upon independent third-party transportation providers for substantially all of our product shipments;
- our dependence upon key executive management;
- our growth strategy, including our international expansion plan;
- our dependence on a strong brand image;
- our leasing substantial amounts of space;
- the failure to find store employees that can effectively operate our stores;
- our reliance on Limited Brands, Inc. ("Limited Brands") to provide us with certain key services for our business;
- our reliance on information systems and any failure, inadequacy, interruption or security failure of those systems;
- claims made against us resulting in litigation;
- changes in laws and regulations applicable to our business;
- our inability to protect our trademarks or other intellectual property rights;
- our substantial indebtedness and lease obligations;
- restrictions imposed by our indebtedness on our current and future operations;
- fluctuations in energy costs;
- changes in taxation requirements or the results of tax audits;
- impairment charges on long-lived assets;
- our failure to maintain adequate internal controls;
- substantial costs as a result of being a public company; and
- potential conflicts of interest with our principal stockholder.

We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors and, it is impossible for us to anticipate all factors that could affect our actual results. For the discussion of these risks and other risks and uncertainties that could cause actual results to differ

materially from those contained in our forward-looking statements, please refer to “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended January 29, 2011, filed with the Securities and Exchange Commission (“SEC”) on March 22, 2011. The forward-looking statements included in this Quarterly Report are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events, or otherwise, except as otherwise required by law.

1. Description of Business and Basis of Presentation

Business Description

Express, Inc. (the "Company" or "Express") is a specialty apparel and accessories retailer of women's and men's merchandise, targeting the 20 to 30 year old customer. Express merchandise is sold through the Company's retail stores and website. As of October 29, 2011, Express operated 607 primarily mall-based stores in the United States, Canada, and Puerto Rico. Additionally, the Company earns royalties from 7 stores in the Middle East operated through a development agreement ("Development Agreement") with Alshaya Trading Co. ("Alshaya"). Under the Development Agreement, Alshaya operates stores that sell Express-branded apparel and accessories purchased directly from a wholly-owned subsidiary of the Company.

Fiscal Year

The Company's fiscal year ends on the Saturday closest to January 31. Fiscal years are referred to by the calendar year in which the fiscal year commences. All references herein to "2011" and "2010" represent the 52-week periods ended January 28, 2012 and January 29, 2011, respectively. All references herein to "the third quarter of 2011" and "the third quarter of 2010" represent the thirteen weeks ended October 29, 2011 and October 30, 2010, respectively.

Basis of Presentation

In connection with the initial public offering of the Company's common stock ("IPO") on May 12, 2010, Express Parent LLC ("Express Parent") converted into a Delaware corporation and changed its name from Express Parent LLC to Express, Inc. This conversion was effective May 2, 2010 for tax purposes. In connection with this conversion, all of the equity interests in Express Parent, which consisted of Class L, Class A, and Class C units, were converted into shares of the Company's common stock at a ratio of 0.702, 0.649, and 0.442, respectively. The accounting effects of the recapitalization, collectively referred to as the "Reorganization", are reflected retrospectively for all periods presented in the unaudited Consolidated Financial Statements.

Express owns all of the outstanding equity interests in Express Topco LLC ("Express Topco"), which owns all of the outstanding equity interests in Express Holding LLC ("Express Holding"). Express Holding owns all of the outstanding equity interests in Express, LLC and Express Finance Corp. ("Express Finance"). Express, LLC conducts the operations of the Company and was a division of Limited Brands until it was acquired by an affiliate of Golden Gate Private Equity, Inc. ("Golden Gate") in 2007 (the "Golden Gate Acquisition"). Express Finance was formed on January 28, 2010, solely for the purpose of serving as co-issuer of the 8 3/4% Senior Notes ("Senior Notes") issued on March 5, 2010 and described in Note 9.

The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying unaudited Consolidated Financial Statements reflect all adjustments (which are of a normal recurring nature) necessary to present fairly the financial position, results of operations, and cash flows for the interim periods, but are not necessarily indicative of the results of operations to be anticipated for 2011. Therefore, these statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto for the year ended January 29, 2011, included in the Company's Annual Report on Form

10-K, filed with the SEC.

Principles of Consolidation

The unaudited Consolidated Financial Statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

2. Recently Issued Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." ASU No. 2011-04 clarifies and changes the application of various fair value measurement principles and disclosure requirements and will be effective for the Company in the first quarter of 2012. The Company has assessed the updated guidance and expects adoption to have no impact on its consolidated financial position or

7

Table of Contents

results of operations.

In June 2011, the FASB issued ASU No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income." ASU No. 2011-05 requires presentation of the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements and eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. ASU No. 2011-05 will be effective for the Company in the first quarter of 2012. The Company has assessed the guidance and expects adoption to have no impact on its consolidated financial position or results of operations.

3. Segment Reporting

The Company defines an operating segment on the same basis that it uses to evaluate performance internally. The Company has determined that the Chief Executive Officer is its Chief Operating Decision Maker and that there is one operating segment. Therefore, the Company reports results as a single segment, which includes Express brick-and-mortar retail stores and e-commerce operations.

The following is information regarding the Company's major product classes and sales channels:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010

Total net sales	\$486,784	\$450,577	\$1,400,202	\$1,284,316

Other revenue consists primarily of shipping and handling revenue related to e-commerce activity, gift card breakage, and royalties from the Development Agreement.

4. Earnings Per Share

The weighted-average shares used to calculate basic and diluted earnings per share for the thirty-nine weeks ended October 30, 2010 have been retroactively adjusted based on the Reorganization (see Note 1).

The following table provides a reconciliation between basic and diluted earnings per share:

(in thousands, except per share amounts)	Thirteen Weeks Ended October 29, 2011			Thirteen Weeks Ended October 30, 2010		
	Net Income	Weighted Average Shares	Per Share Amount	Net Income	Weighted Average Shares	Per Share Amount

Diluted EPS	\$80,303	88,838	\$0.90	\$78,976	85,173	\$0.93

Stock options and restricted stock units to purchase 2.0 million and 2.3 million shares of common stock were not included in the computation of diluted EPS for the thirteen and thirty-nine weeks ended October 29, 2011, respectively, as to do so would have been anti-dilutive. Stock options to purchase 1.3 million shares of common stock were not included in the computation for the thirteen and thirty-nine weeks ended October 30, 2010, as to do so would have been anti-dilutive.

5. Fair Value of Financial Assets and Liabilities

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date.

Level 1-Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2-Valuation is based upon quoted prices for similar assets and liabilities in active markets or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3-Valuation is based upon other unobservable inputs that are significant to the fair value measurement. The following table presents the Company's assets measured at fair value on a recurring basis as of October 29, 2011 and January 29, 2011, respectively, aggregated by level in the fair value hierarchy within which those measurements fall.

	October 29, 2011			Total

6. Intangible Assets

The significant components of intangible assets are as follows:

	October 29, 2011		January 29, 2011	
	Gross Amount (in thousands)	Accumulated Amortization	Gross Amount	Accumulated Amortization
Tradename	\$196,144	\$—	\$196,144	\$—

	\$221,990	\$(20,597) \$221,930	\$(18,766

The Company's tradename and internet domain name have indefinite lives. Net favorable lease obligations, credit card relationships, and customer lists have finite lives and are amortized over a period of up to 7 years, 4 years, and 2 years, respectively, and are included in other assets on the unaudited Consolidated Balance Sheets. Amortization expense totaled \$0.4 million and \$1.8 million during the thirteen and thirty-nine weeks ended October 29, 2011, respectively; and \$0.9 million and \$3.0 million during the thirteen and thirty-nine weeks ended October 30, 2010, respectively.

7. Related Party Transactions

Transactions with Limited Brands

On July 29, 2011, Limited Brands divested its remaining ownership in the Company and, as a result of this disposition, Limited Brands and their affiliates were no longer related parties as of the end of the second quarter of 2011. The 2011 related party activity with Limited Brands and their affiliates described below includes only those expenses transacted prior to Limited Brands' disposition of the Company's common stock.

The Company incurred charges from affiliates of Limited Brands, including Mast Global Logistics ("Mast"), for various transaction services, including home office rent, which is included in selling, general, and administrative expenses. The costs of merchandise sourcing services and logistics services, including distribution center rent, are included in cost of goods sold, buying, and occupancy costs. The amounts included in the unaudited Consolidated Statements of Income and Comprehensive Income are as follows:

	Thirteen Weeks Ended	Thirty-Nine Weeks Ended	
	October 30, 2010 (in thousands)	October 29, 2011 (in thousands)	October 30, 2010
Merchandise Sourcing	\$119,058	\$198,162	\$309,959
Transaction and Logistics Services	\$13,855	\$24,788	\$44,397

The Company's outstanding liability related to merchandise sourcing and transaction and logistics services provided by Limited Brands, including Mast, included in accounts payable and accrued expenses – related parties on the unaudited Consolidated Balance Sheets was \$68.3 million and \$8.6 million, respectively, as of January 29, 2011.

Prior to the IPO, under the Limited Liability Company Agreement of Express Parent ("LLC Agreement"), Limited Brands was entitled to receive a cash payment at the same time payments were made under an advisory agreement with Golden Gate ("Advisory Agreement") equal to the product of (i) the amount of the fees actually paid in cash under the Advisory Agreement and (ii) the quotient of the number of units held by Limited Brands over the number of units held by Golden Gate at the time of payment of such Advisory Agreement fees. Effective May 12, 2010, the LLC Agreement, including the advisory arrangement with Limited Brands, was terminated in connection with the Company's conversion to a corporation and IPO. The Company paid Limited Brands a one-time termination fee of \$3.3 million in the second quarter of 2010 in connection with the termination of the LLC Agreement and has made no

payments subsequent to this termination.

The Company incurred the following charges from Limited Brands related to advisory fees and the termination of the LLC Agreement. These charges are included in other operating expense (income), net, in the unaudited Consolidated Statements of Income and Comprehensive Income:

As a result of the termination of the LLC Agreement, the Company had no financial obligation to Limited Brands related to this agreement as of October 29, 2011 or January 29, 2011.

Transactions with Golden Gate

In connection with the Golden Gate Acquisition, the Company entered into an Advisory Agreement with Golden Gate that was originally scheduled to expire in July 2017. Pursuant to the Advisory Agreement, the Company paid Golden Gate an annual management fee equal to the greater of (i) \$2.0 million per fiscal year or (ii) 3% of adjusted EBITDA of Express Holding. Additionally, the Company reimbursed Golden Gate for reasonable out-of-pocket expenses incurred as a result of providing on-going advisory services. Effective May 12, 2010, the Advisory Agreement was terminated in connection with the Company's conversion to a corporation and IPO. The Company paid Golden Gate a one-time termination fee of \$10.0 million in the second quarter of 2010 in connection with the termination of the Advisory Agreement and has made no payments subsequent to this termination.

The Company incurred the following charges from Golden Gate related to advisory fees, out-of-pocket expenses, and the termination of the Advisory Agreement. These charges are included in other operating expense (income), net in the unaudited Consolidated Statements of Income and Comprehensive Income:

As a result of the termination of the Advisory Agreement, the Company had no financial obligation to Golden Gate related to this agreement as of October 29, 2011 or January 29, 2011.

Transactions with Other Golden Gate Affiliates

The Company also transacts with affiliates of Golden Gate for e-commerce warehouse and fulfillment services, software license purchases, and consulting and software maintenance services. The Company incurred the following charges, included primarily in cost of goods sold, buying, and occupancy costs in the unaudited Consolidated Statements of Income and Comprehensive Income:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended

In March 2010, the Company elected to prepay its e-commerce service provider, a Golden Gate affiliate, \$10.2 million for services from April 2010 through January 2011 in exchange for a discount on those services. This prepaid amount was expensed as services were rendered with \$3.0 million and \$7.0 million being included primarily in cost of goods sold, buying, and occupancy costs in the unaudited Consolidated Statements of Income and Comprehensive Income during the thirteen and thirty-nine weeks ended October 30, 2010, respectively. The prepaid balance related to this Golden Gate affiliate was fully amortized as of January 29, 2011.

The Company's outstanding liability to other Golden Gate affiliates, included in accounts payable and accrued expenses - related parties on the unaudited Consolidated Balance Sheets, was \$4.2 million and \$3.0 million as of October 29, 2011 and

Table of Contents

January 29, 2011, respectively.

In December 2009, the Company began providing real estate services to multiple Golden Gate affiliates. Income recognized for these services during the thirteen and thirty-nine weeks ended October 29, 2011 was \$0.1 million and \$0.4 million, respectively. Income recognized for these services during the thirteen and thirty-nine weeks ended October 30, 2010 was \$0.1 million and \$0.3 million, respectively. The Company's receivable balance related to these services was \$0.1 million as of October 29, 2011 and January 29, 2011.

As part of the prepayment in full of the 14.5% Topco Term C Loan ("Term C Loan") in February 2010, an affiliate of Golden Gate received a payment consisting of \$50.0 million of principal, \$0.6 million of interest, and a \$1.0 million prepayment penalty. As part of the prepayment in full of the 13.5% Topco Term B Loan ("Term B Loan") in May 2010, an affiliate of Golden Gate received a payment consisting of \$58.3 million of principal, \$2.1 million of interest, and a \$3.5 million prepayment penalty. Total interest expense on the Term C Loan and Term B Loan, collectively referred to as the "Topco Credit Facility", attributed to Golden Gate affiliates was \$2.7 million during the thirty-nine weeks ended October 30, 2010. The Company did not incur any interest expense under the Topco Credit Facility during the thirteen and thirty-nine week periods ended October 29, 2011 due to the termination of the Topco Credit Facility in the first half of 2010.

During the first and second quarters of 2011, the Company repurchased \$25.0 million and \$24.2 million of the Senior Notes, respectively, in open market transactions. Of the \$49.2 million of Senior Notes repurchased, \$40.0 million were held by a Golden Gate affiliate, leaving \$10.0 million of Senior Notes owned by a Golden Gate affiliate outstanding as of October 29, 2011. Interest expense incurred on the Senior Notes attributable to the Golden Gate affiliate was \$0.2 million and \$1.5 million during the thirteen and thirty-nine weeks ended October 29, 2011, respectively; and \$1.1 million and \$3.0 million during the thirteen and thirty-nine weeks ended October 30, 2010, respectively.

8. Income Taxes

Prior to May 2, 2010, the Company was treated as a partnership for federal income tax purposes, and therefore had not been subject to federal and state income tax (subject to exception in a limited number of state and local jurisdictions). On May 12, 2010, the Company elected to be treated as a corporation under Subchapter C of Chapter 1 of the United States Internal Revenue Code, effective May 2, 2010 and was therefore subject to federal and state tax expense beginning May 2, 2010.

The Reorganization, for tax purposes, was deemed a contribution by Express Parent of its assets and liabilities to the Company, followed by the liquidation of Express Parent. The Reorganization resulted in a taxable gain to Express Parent. Except in those few jurisdictions where Express Parent was taxed directly, the taxable gain flowed through to the members due to Express Parent's partnership tax treatment. The taxable gain correspondingly increased the tax basis in the assets acquired by the Company in the Reorganization. Also, as a result of the Reorganization, the Company had a liability due to a management holding company totaling \$0.8 million as of January 29, 2011. The Company settled this liability by making a final cash payment during the first quarter of 2011. Additionally, the Company had a net liability of \$3.5 million comprised of a \$4.8 million gross liability payable to a Golden Gate entity and a \$1.3 million gross receivable due from taxing authorities. The Company settled the liability due to Golden Gate by making a final cash payment during the second quarter of 2011.

The provision for income taxes is based on a current estimate of the annual effective tax rate adjusted to reflect the impact of discrete items. The Company's quarterly effective tax rate does not reflect a benefit associated with losses related to certain foreign subsidiaries. The Company's effective tax rate was 40.3% and 41.2% for the thirteen weeks ended October 29, 2011 and October 30, 2010, respectively.

The Company's effective tax rate was 40.2% and (34.2)% for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively. The increase in the effective rate is primarily a result of the Company's conversion to a corporation in connection with its IPO in the second quarter of 2010 and the recognition of a one-time tax benefit of \$31.8 million in conjunction with the corporate reorganization.

The Company recorded a valuation allowance against the deferred tax assets arising from the net operating loss of foreign subsidiaries. As of October 29, 2011 and January 29, 2011, the valuation allowance was approximately \$0.3 million and \$0.1 million, respectively. No other valuation allowances have been provided for deferred tax assets because management believes that it is more-likely-than-not that the full amount of the net deferred tax assets will be realized in the future.

The Company does not expect material adjustments to the total amount of unrecognized tax benefits within the next twelve months, but the outcome of tax matters is uncertain and unforeseen results can occur.

Opco Revolving Credit Facility

On July 29, 2011, Express Holding and its domestic subsidiaries entered into an Amended and Restated \$200.0 million secured Asset-Based Loan Credit Agreement (the "Opco Revolving Credit Facility"). The Opco Revolving Credit Facility amended, restated, and extended the existing \$200.0 million asset-based revolving credit facility, which was scheduled to expire on July 6, 2012. In connection with the amendment, the Company incurred \$1.2 million of debt issuance costs that is being amortized on a straight-line basis through July 2016.

The Opco Revolving Credit Facility is scheduled to expire on July 29, 2016 and allows for up to \$30.0 million of swing line advances and up to \$45.0 million to be available in the form of letters of credit. Borrowings under the Opco Revolving Credit Facility bear interest at a rate equal to either the rate appearing on Bloomberg L.P.'s Page BBAM1/(Official BBA USD Dollar Libor Fixings) (the "Eurodollar Rate") plus an applicable margin rate or the highest of (1) the prime lending rate, (2) 0.50% per annum above the federal funds rate and (3) 1% above the Eurodollar Rate, in each case plus an applicable margin rate. The applicable margin rate is determined based on excess availability as determined by reference to the borrowing base. The applicable margin for Eurodollar Rate-based advances is 1.50%, 1.75%, or 2.00% if excess availability is greater than or equal to 66% of the borrowing base, less than 66% of the borrowing base but greater than or equal to 33% of the borrowing base, or less than 33% of the borrowing base, respectively. The applicable margin rate for base rate-based advances is 0.50%, 0.75%, or 1.00% if excess availability is greater than or equal to 66% of the borrowing base, less than 66% of the borrowing base but greater than or equal to 33% of the borrowing base, or less than 33% of the borrowing base, respectively. The borrowing base components are 90% of credit card receivables plus 90% of the liquidation value of eligible inventory plus 100% of borrowing base-eligible cash collateral (not to exceed 20% of the borrowing base) less certain reserves.

The unused line fee payable under the Opco Revolving Credit Facility is incurred at 0.375% per annum of the average daily unused revolving commitment during each quarter, payable quarterly in arrears on the first day of each May, August, November, and February. In the event that (1) an event of default has occurred or (2) excess availability plus eligible cash collateral is less than 12.5% of the borrowing base for five consecutive days, such unused line fees are payable on the first day of each month.

Interest payments under the Opco Revolving Credit Facility are due quarterly on the first day of each May, August, November, and February for base rate-based advances, provided, however, in the event that (1) an event of default has occurred or (2) excess availability plus eligible cash collateral is less than 12.5% of the borrowing base for five consecutive days, interest payments are due on the first day of each month. Interest payments under the Opco Revolving Credit Facility are due on the last day of the interest period for Eurodollar Rate-based advances for interest periods of one, two, and three months, and additionally every three months after the first day of the interest period for Eurodollar Rate-based advances for interest periods of greater than three months.

The Opco Revolving Credit Facility requires Express Holding and its domestic subsidiaries to maintain a fixed charge coverage ratio of at least 1.0:1.0 if excess availability plus eligible cash collateral is less than 10% of the borrowing base for 15 consecutive days. In addition, the Opco Revolving Credit Facility contains customary covenants and restrictions on Express Holding and its subsidiaries' activities, including, but not limited to, limitations on the

incurrence of additional indebtedness; liens, negative pledges, guarantees, investments, loans, asset sales, mergers, acquisitions, and prepayment of other debt; distributions, dividends, and the repurchase of capital stock; transactions with affiliates; the ability to change the nature of its business or its fiscal year; the ability to amend the terms of the \$125.0 million variable rate term loan ("Opco Term Loan"); and

permitted activities of Express Holding. All obligations under the Opco Revolving Credit Facility are guaranteed by Express Holding and its domestic subsidiaries (that are not borrowers) and secured by a lien on substantially all of the assets of Express Holding and its domestic subsidiaries, provided that the liens on certain assets of Express Holding and its domestic subsidiaries are junior in priority to the liens securing the Opco Term Loan.

In connection with amending and restating the existing \$200.0 million asset-based revolving credit facility, the Company recognized a \$0.3 million loss on extinguishment of debt attributed to the write-off of unamortized debt issuance costs for the thirty-nine weeks ended October 29, 2011, which was recorded as interest expense in the unaudited Consolidated Statements of Income and Comprehensive Income and represents a non-cash adjustment to reconcile net income to net cash provided by operating activities within the unaudited Consolidated Statements of Cash Flows.

As of October 29, 2011, there were no borrowings outstanding and approximately \$198.2 million available under the Opco Revolving Credit Facility.

Senior Notes

On March 5, 2010, Express, LLC and Express Finance co-issued, in a private placement, \$250.0 million of 8 3/4% Senior Notes due 2018 at an offering price of 98.599% of the face value. An affiliate of Golden Gate purchased \$50.0 million of Senior Notes in the offering.

In connection with the Senior Notes offering, Express, LLC and Express Finance entered into a registration rights agreement, which required Express, LLC and Express Finance to use commercially reasonable efforts to register notes having substantially identical terms as the Senior Notes with the SEC. On September 27, 2010, Express, LLC and Express Finance exchanged \$200.0 million of the unregistered Senior Notes for registered Senior Notes having substantially identical terms as the unregistered Senior Notes.

During the first and second quarters of 2011, Express, LLC repurchased \$25.0 million and \$24.2 million of the Senior Notes, respectively, in open market transactions. Of the \$49.2 million of Senior Notes repurchased, \$40.0 million were held by a Golden Gate affiliate, leaving \$10.0 million of unregistered Senior Notes held by a Golden Gate affiliate outstanding as of October 29, 2011. Express, LLC received a written waiver from the Golden Gate affiliate in regards to the requirement to register the remaining \$10.0 million of Senior Notes.

Loss on Extinguishment

In connection with the Senior Notes repurchases in the first and second quarters of 2011, the Company recognized a \$6.9 million loss on extinguishment of debt which was recorded as interest expense in the unaudited Consolidated Statements of Income and Comprehensive Income. Of this loss on extinguishment, the premium on the repurchases represented \$4.4 million. The remaining loss on extinguishment was attributable to the unamortized debt issuance costs and unamortized discount write-offs totaling \$2.5 million. The unamortized debt issuance costs and unamortized discount write-offs are presented as a non-cash adjustment to reconcile net income to net cash provided by operating activities within the unaudited Consolidated Statements of Cash Flows.

Fair Value of Debt

The fair value of the Opco Term Loan was estimated using quoted market prices for similar debt issues. The fair value of the Senior Notes was determined using quoted market prices. As of October 29, 2011, the fair value of the Opco Term Loan and Senior Notes was \$129.3 million and \$209.9 million, respectively.

Letters of Credit

The Company periodically enters into various trade letters of credit ("trade LCs") in favor of certain vendors to secure merchandise. These trade LCs are issued for a defined period of time, for specific shipments, and generally expire 3 weeks after the merchandise shipment date. As of October 29, 2011 and January 29, 2011, there were no outstanding

trade LCs. Additionally, the Company enters into stand-by letters of credit ("stand-by LCs") on an as-needed basis to secure merchandise and fund other general and administrative costs. As of October 29, 2011 and January 29, 2011, outstanding stand-by LCs totaled \$1.8 million.

As of October 29, 2011, there was \$19.1 million of unrecognized compensation expense related to stock options, which is expected to be recognized over a weighted-average period of approximately 1.9 years.

The Company uses the Black-Scholes-Merton option-pricing model for valuation of stock options granted to employees and directors. The Company's determination of the fair value of stock options is affected by the Company's stock price as well as a number of subjective and complex assumptions. These assumptions include the Company's expected stock price volatility over the term of the awards, expected term of the awards, dividend yield, and risk-free interest rate.

Table of Contents

The fair value of stock options was estimated at the date of grant using the Black-Scholes-Merton option pricing model with the following weighted average assumptions:

	Thirty-Nine Weeks Ended		
	October 29, 2011	October 30, 2010	
Risk-free interest rate ⁽¹⁾	1.39	% 2.84	%

(1) Represents the yield on U.S. Treasury securities with a term consistent with the expected term of the stock options.

As the Company's stock has a limited history of being publicly traded, this was based on the historical volatility of

(2) selected comparable companies over a period consistent with the expected term of the stock options. Comparable companies were selected primarily based on industry, stage of life cycle, and size.

(3) Calculated utilizing the "simplified" methodology prescribed by Staff Accounting Bulletin No. 107 due to the lack of historical exercise data necessary to provide a reasonable basis upon which to estimate the term.

(4) Based on the fact that the Company does not currently plan on paying regular dividends.

Restricted Stock Units and Restricted Stock

During the thirty-nine weeks ended October 29, 2011, the Company granted restricted stock units ("RSUs") and restricted stock under the 2010 Plan. The fair value of the RSUs and restricted stock is determined based on the Company's stock price on the date of grant. The Company's activity with respect to RSUs and restricted stock for the thirty-nine weeks ended October 29, 2011 was as follows:

	Number of Shares	Grant Date Weighted Average Fair Value

Unvested, October 29, 2011	946	\$18.49

The total fair value of RSUs and restricted stock that vested during the thirty-nine weeks ended October 29, 2011 was \$0.1 million. No RSUs or restricted stock vested during 2010. As of October 29, 2011, there was \$14.7 million of unrecognized compensation expense related to unvested RSUs and restricted stock, which is expected to be recognized over a weighted average period of approximately 2.2 years.

Restricted Shares (Pre-IPO)

The Company's activity with respect to restricted shares for the thirty-nine weeks ended October 29, 2011 was as follows:

was \$0.2 million and \$2.9 million, respectively.

As of October 29, 2011, there was less than \$0.1 million of unrecognized compensation expense related to unvested restricted shares, which is expected to be recognized over a weighted average period of approximately 0.6 years.

11. Pro forma Information

The pro forma net income applied in computing pro forma earnings per share for the thirty-nine weeks ended October 30, 2010 is based on the Company's historical net income as adjusted to reflect the Company's conversion to a corporation as if it had occurred as of the beginning of 2010. In connection with the Reorganization, effective May 2, 2010, the Company became taxed as a corporation. The Company was previously treated as a partnership for tax purposes, and therefore generally not subject to federal income tax. The pro forma net income includes adjustments for income tax expense as if the Company had been a corporation at an assumed combined federal, state, and local income tax rate of 40.9% for the first quarter of 2010. The pro forma net income for the thirty-nine weeks ended October 30, 2010 also eliminates the non-cash deferred tax benefit of \$31.8 million as a non-recurring item related to the Reorganization (see Note 1).

12. Commitments and Contingencies

Express was named as a defendant in a purported class action lawsuit alleging various California state labor law violations. The complaint was originally filed on February 18, 2009, and amended complaints were subsequently filed. To avoid the expense and uncertainty of further litigation with respect to this matter, on March 31, 2011, the Company entered into a settlement agreement to resolve all claims of the plaintiff and other similarly situated class members that were asserted or could have been asserted based on the factual allegations in the final amended complaint for the case. In September 2011, the court granted final approval of the settlement, and in November 2011, the Company paid all amounts due under the settlement. The accrual was adjusted to the actual payment amount in the unaudited Consolidated Balance Sheet as of October 29, 2011. The adjustment was not material to the financial statements.

In a complaint filed on July 7, 2011, Express was named as a defendant in a purported nationwide class action lawsuit alleging violations of the Fair Labor Standards Act and of applicable state wage and hour statutes related to alleged off-the-clock work. The lawsuit seeks unspecified monetary damages and attorneys' fees. Express is vigorously defending these claims. At this time, Express is not able to predict the outcome of this lawsuit or the amount of any loss that may arise from it.

The Company is subject to various other claims and contingencies arising out of the normal course of business. Management believes that the ultimate liability arising from such claims and contingencies, if any, is not likely to have a material adverse effect on the Company's results of operations, financial condition, or cash flows.

13. Guarantor Subsidiaries

On March 5, 2010, Express, LLC and Express Finance (the “Subsidiary Issuers”), both wholly-owned indirect subsidiaries of the Company, issued the Senior Notes. The Company (“Guarantor”) and certain of the Company’s indirect wholly-owned subsidiaries (“Guarantor Subsidiaries”) have guaranteed, on a joint and several basis, the Company’s obligations under the Senior Notes. The guarantees are not full and unconditional because Guarantor Subsidiaries can be released and relieved of their obligations under certain circumstances contained in the indenture governing the Senior Notes. These circumstances include the following, so long as other applicable provisions of the indenture are adhered to: any sale or other disposition of all or substantially all of the assets of any Guarantor Subsidiary, any sale or other disposition of capital stock of any Guarantor Subsidiary, or designation of any restricted subsidiary that is a Guarantor Subsidiary as an unrestricted subsidiary.

The following consolidating schedules present the condensed financial information on a combined basis.

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS.

The following discussion summarizes the significant factors affecting the consolidated operating results, financial condition, liquidity, and cash flows of our company as of the dates and for the periods presented below. The following discussion and analysis should be read in conjunction with our Annual Report on Form 10-K for the year ended January 29, 2011 and our unaudited consolidated financial statements and the related notes included in Item 1 of this Quarterly Report. This discussion contains forward-looking statements that are based on the beliefs of our management, as well as assumptions made by, and information currently available to, our management. Actual results could differ materially from those discussed in or implied by forward-looking statements as a result of various factors. See "Forward-Looking Statements."

Overview

Express is a nationally recognized specialty apparel and accessory retailer offering both women's and men's merchandise. With over 30 years of experience offering a distinct combination of style and quality at an attractive value, we believe we are a core shopping destination for our customers, and that we have developed strong brand awareness and credibility with them. We target an attractive and growing demographic of women and men between 20 and 30 years old. We offer our customers an edited assortment of fashionable apparel and accessories to address fashion needs across multiple aspects of their lifestyles, including wear-to-work, casual, jeanswear, and going-out occasions.

We again delivered positive results in the third quarter of 2011, as we continued to execute against our four pillars of growth: improving the productivity of our retail stores, expanding of our e-commerce platform, expanding our store base, and growing internationally.

Total sales for the quarter increased 8% over the third quarter of 2010. Even as we continue our store expansion, our existing store and e-commerce businesses continue to perform well, driving a comparable sales increase of 5% during the third quarter on top of a comparable sales increase of 5% in the third quarter of 2010. We are encouraged by our e-commerce sales for the third quarter of 2011, which increased 41% over the third quarter of 2010. We continue to be pleased with our e-commerce business and look for it to contribute even more as a percentage of total sales in the future. While we are encouraged by our top-line growth of 8%, we are equally pleased with our operating results, which show an increase in operating income of 17% and income before income tax of 22% over the third quarter of 2010. While our gross margin deleveraged slightly as a result of increased cancellation charges related to fabric commitments, we believe that our continued focus in this area and execution of our go-to-market strategy will continue to be key drivers of our earnings growth.

We opened our first 2 stores in Canada in September, and plan to open an additional 4 stores in Canada by fiscal year end. In addition to our store openings in Canada, we continue to investigate other potential locations outside the United States as we aggressively develop our international expansion plans. We also opened 6 stores in the United States during the third quarter, bringing our total store openings, including Canadian stores, to 21 year-to-date 2011.

Also, during the third quarter of 2011, we launched a pilot of our new loyalty program. This tender agnostic program will allow us to connect with more of our customers on an ongoing basis. Additionally, we continued to invest in marketing and launched our first catalog which was mailed to approximately 8 million customers, and received positive feedback.

While we continue to be pleased with our results to date, such results are not necessarily indicative of the results to be expected for the full year. Such results could be impacted by a number of factors outside our control, including overall economic conditions in the United States, costs to procure and produce our product, and competitors' actions.

How We Assess the Performance of Our Business

In assessing the performance of our business, we consider a variety of performance and financial measures. These key measures include net sales, comparable sales and other individual store performance factors, gross profit, and selling, general, and administrative expenses. We also review other metrics such as EBITDA, Adjusted EBITDA, and Adjusted Net Income.

Net Sales. Net sales reflects revenues from the sale of our merchandise, less returns and discounts, as well as shipping and handling revenue related to e-commerce, gift card breakage, and royalties earned from the Development Agreement with Alshaya.

Comparable Sales and Other Individual Store Performance Factors. Comparable sales are calculated based upon stores that were open at least thirteen full months as of the end of the reporting period and include e-commerce sales. A store with a square footage change of more than 20% due to remodeling or relocation activities is not considered a comparable store for the

Table of Contents

first year following its reopening. As we continue to increase our store count, we expect that non-comparable sales will begin to contribute more to our total net sales than they currently do. We also review sales per gross square foot, average unit retail price, units per transaction, dollars per transaction, traffic, and conversion, among other things, to evaluate the performance of individual stores. Additionally, we review sales per gross square foot on a company-wide basis.

Gross Profit. Gross profit represents net sales less cost of goods sold, buying, and occupancy costs. Gross margin measures gross profit as a percentage of net sales. Cost of goods sold, buying, and occupancy costs includes the direct cost of purchased merchandise, inventory shrinkage, inventory adjustments, inbound freight to our distribution center, distribution center costs, outbound freight to get merchandise from our distribution center to stores and e-commerce fulfillment center, merchandising, design, planning and allocation and manufacturing/production costs, occupancy costs related to store operations (such as rent and common area maintenance, utilities, and depreciation on assets), and all logistics costs associated with our e-commerce business.

Our cost of goods sold increases in higher volume quarters because the direct cost of purchased merchandise is tied to sales. Buying and occupancy costs are largely fixed and do not necessarily increase as volume increases. Changes in the mix of our products, such as changes in the proportion of accessories, which are higher margin items, may also impact the overall cost of goods sold, buying, and occupancy costs. We review our inventory levels on an on-going basis in order to identify slow moving merchandise and generally use markdowns to clear such merchandise. The timing and level of markdowns are driven primarily by seasonality and customer acceptance of our merchandise. We use third-party vendors to dispose of mark-out-of-stock merchandise which, in turn, is sold to third-party discounters. The primary drivers of costs of individual goods are raw materials, labor in the countries where merchandise is sourced, and logistics costs associated with transporting the merchandise.

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses include all operating costs not included in cost of goods sold, buying, and occupancy costs, with the exception of costs such as advisory fees incurred prior to our IPO, proceeds received from insurance claims, and gain/loss on disposal of assets, which are included in other operating expense (income), net. These costs include payroll and other expenses related to operations at our corporate home office, store expenses other than occupancy, and marketing expenses, which primarily include production, mailing, and print and television advertising costs. With the exception of store payroll and marketing, these expenses generally do not vary proportionally with net sales. As a result, selling, general, and administrative expenses as a percentage of net sales is usually higher in lower volume quarters and lower in higher volume quarters.

Other Operating Expense (Income), Net. Other operating expense (income), net includes proceeds received from insurance claims and gain/loss on disposal of assets. Other operating expense (income), net also included advisory fees paid to Golden Gate under the terms of the Advisory Agreement and to Limited Brands under the LLC Agreement for the periods in which these fees were incurred (see Note 7 to our unaudited Consolidated Financial Statements). In connection with the IPO and Reorganization in the second quarter of 2010, the Advisory Agreement and LLC Agreement were terminated effective May 12, 2010. Therefore, we no longer incur costs related to these agreements.

Results of Operations

The Third Quarter of 2011 Compared to the Third Quarter of 2010

The table below sets forth the various line items in the unaudited Consolidated Statements of Income and Comprehensive Income as a percentage of net sales for the third quarter of 2011 and the third quarter of 2010. Due to seasonal variations in the retail industry, the results of operations for any current period are not necessarily indicative of results expected for the full year or of future financial results. The seasonality of our operations may also lead to significant fluctuations in certain asset and liability accounts.

Comparable sales are calculated based upon stores that were open at least thirteen full months as of the end of the (a) reporting period and include e-commerce sales. A store with a square footage change of more than 20% is not considered a comparable store for the first year following its reopening.

(b) Net sales per average gross square foot is determined by dividing net sales (excluding e-commerce sales, shipping and handling revenue, gift card breakage, and royalties) for the period by average gross square feet during the period. Unless otherwise indicated, references herein to square feet are to gross square feet, rather than net selling space.

Net sales increased \$36.2 million from \$450.6 million in the third quarter of 2010 to \$486.8 million in the third quarter of 2011, an 8% increase. Comparable sales increased by \$21.6 million, or 5%, in the third quarter of 2011 compared to the third quarter of 2010. The comparable sales increase was driven by a rise in average dollar sales during the period, as well as the continued growth in e-commerce sales. Non-comparable sales increased \$14.6 million primarily driven by new store openings. Other revenue increased \$0.6 million in the third quarter of 2011 and totaled \$4.5 million compared to other revenue of \$3.9 million in the third quarter of 2010, which was the result of more shipping and handling revenue related to e-commerce merchandise sales growth.

Gross Profit

The following table shows cost of sales and gross profit in dollars for the stated periods:

	Thirteen Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Cost of goods sold, buying, and occupancy costs	\$310,816	\$286,254
Gross profit	\$175,968	\$164,323

The 30 basis point reduction in gross margin, or gross profit as a percentage of net sales, in the third quarter of 2011 compared to the third quarter of 2010 was comprised of 50 basis points of merchandise margin reduction, partially offset by 20 basis points of buying and occupancy leverage. The merchandise margin reduction was primarily driven by higher cancellation charges for fabric resulting from our strategic positioning of fabric ahead of anticipated cost increases. The average unit cost increases during the quarter were mostly offset by average unit retail increases in certain categories and mitigated, to an extent, by the execution of our go-to-market strategy.

Selling, General, and Administrative Expenses

The following table shows selling, general, and administrative expenses in dollars for the stated periods:

	Thirteen Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Selling, general, and administrative expenses	\$115,061	\$111,309

Table of Contents

The \$3.8 million increase in selling, general, and administrative expenses in the third quarter of 2011 compared to the third quarter of 2010 was driven by a \$4.5 million increase in payroll costs primarily related to annual merit increases, increased share-based compensation expense, and additional store payroll hours to support increased sales.

Other Operating Expense, Net

The following table shows other operating expense, net in dollars for the stated periods:

	Thirteen Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Other operating expense, net	\$34	\$799

The \$0.8 million decrease in the third quarter of 2011 compared to the third quarter of 2010 was primarily due to the write off of fixed assets in the third quarter of 2010.

Interest Expense

The following table shows interest expense in dollars for the stated periods:

	Thirteen Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Interest expense	\$6,328	\$7,570

The \$1.2 million decrease in interest expense in the third quarter of 2011 compared to the third quarter of 2010 resulted primarily from lower debt balances in the current year due to the repurchase of \$49.2 million of Senior Notes in the first and second quarter of 2011.

Income Tax Expense

The following table shows income tax expense in dollars for the stated periods:

	Thirteen Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Income tax expense	\$22,025	\$18,407

The effective tax rate in the third quarter of 2011 was 40.3% compared to an effective tax rate of 41.2% for the third quarter of 2010.

Results of Operations

The Thirty-Nine Weeks Ended October 29, 2011 Compared to the Thirty-Nine Weeks Ended October 30, 2010
The table below sets forth the various line items in the unaudited Consolidated Statements of Income and Comprehensive Income as a percentage of net sales for the thirty-nine weeks ended October 29, 2011 and the thirty-nine weeks ended October 30, 2010. Due to seasonal variations in the retail industry, the results of operations for any current period are not necessarily indicative of results expected for the full year or of future financial results. The seasonality of our operations may also lead to significant fluctuations in certain asset and liability accounts.

Comparable sales are calculated based upon stores that were open at least thirteen full months as of the end of the (a) reporting period and include e-commerce sales. A store with a square footage change of more than 20% is not considered a comparable store for the first year following its reopening.

(b) Net sales per average gross square foot is determined by dividing net sales (excluding e-commerce sales, shipping and handling revenue, gift card breakage, and royalties) for the period by average gross square feet during the period. Unless otherwise indicated, references herein to square feet are to gross square feet, rather than net selling space.

Net sales increased \$115.9 million from \$1,284.3 million in the thirty-nine weeks ended October 30, 2010 to \$1,400.2 million in the thirty-nine weeks ended October 29, 2011, a 9% increase. Comparable sales increased by \$77.4 million, or 6%, in the thirty-nine weeks ended October 29, 2011 compared to the thirty-nine weeks ended October 30, 2010. The comparable sales increase was driven by a rise in average dollar sales during the period, as well as the continued growth in e-commerce sales. Non-comparable sales increased \$38.5 million primarily driven by new store openings. Other revenue increased \$2.8 million in the thirty-nine weeks ended October 29, 2011 and totaled \$14.3 million compared to other revenue of \$11.4 million in the thirty-nine weeks ended October 30, 2010, which was the result of more shipping and handling revenue related to e-commerce merchandise sales growth and additional income related to gift card breakage.

	Thirty-Nine Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Cost of goods sold, buying, and occupancy costs	\$896,088	\$832,770
Gross profit	\$504,114	\$451,546

The 80 basis point improvement in gross margin, or gross profit as a percentage of net sales, for the thirty-nine weeks ended October 29, 2011 compared to the thirty-nine weeks ended October 30, 2010 was comprised of 40 basis points of merchandise margin expansion and 40 basis points of buying and occupancy leverage. The merchandise margin expansion was primarily driven by average unit retail increases in certain categories, partially offset by average unit cost increases and higher cancellation charges resulting from our strategic positioning of fabric ahead of anticipated cost increases. We believe the improvement in merchandise margin was primarily driven by the execution of our go-to-market strategy.

Selling, General, and Administrative Expenses

The following table shows selling, general, and administrative expenses in dollars for the stated periods:

	Thirty-Nine Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Selling, general, and administrative expenses	\$342,236	\$325,155

The \$17.1 million increase in selling, general, and administrative expenses in the thirty-nine weeks ended October 29, 2011 compared to the thirty-nine weeks ended October 30, 2010 was driven by a \$13.7 million increase in payroll primarily from annual merit increases, increased share-based compensation expense, additional store payroll hours to support increased sales, and additional headcount at home office to support e-commerce and information technology initiatives. Also contributing to the increase was a \$7.2 million increase in marketing expense driven by our continued investments in brand building initiatives, including television advertising and increased e-commerce and print advertising to heighten awareness and maximize the strength of our brand, as well as increased investment to support our entrance into Canada. These increases were partially offset by a \$3.4 million decrease in other information technology costs.

Other Operating (Income) Expense, Net

	(in thousands)	
Other operating (income) expense, net	\$(166) \$17,844

Other operating (income) expense, net previously consisted primarily of fees paid to Golden Gate and Limited Brands under the Advisory Agreement and LLC Agreement, respectively. The \$18.0 million decrease in the thirty-nine weeks ended October 29, 2011 compared to the thirty-nine weeks ended October 30, 2010 was primarily due to the termination of the Advisory Agreement and LLC Agreement with Golden Gate and Limited Brands, respectively, upon completion of our IPO on May 18, 2010.

Interest Expense

The following table shows interest expense in dollars for the stated periods:

	Thirty-Nine Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Interest expense	\$27,843	\$51,699

The \$23.9 million decrease in interest expense in the thirty-nine weeks ended October 29, 2011 compared to the thirty-nine weeks ended October 30, 2010 resulted primarily from a \$20.8 million loss on extinguishment of debt associated with Term C Loan and Term B Loan early repayments for the thirty-nine weeks ended October 30, 2010. In addition, for a portion of the thirty-nine weeks ended October 30, 2010, we incurred interest on both the full amount of the Senior Notes and Topco Credit Facility, while in the current year we incurred interest on the Senior Notes, \$49.2 million of which were repurchased in the first and second quarters of 2011. This led to \$8.1 million lower interest expense for the thirty-nine weeks ended October 29, 2011. Additionally, we incurred \$2.0 million of additional interest related to the interest rate swap, which expired in August 2010, during the thirty-nine weeks ended October 30, 2010. These items were partially offset by a \$7.2 million loss on extinguishment of debt associated with the repurchase of Senior Notes and the Opco Revolving Credit Facility amendment in the thirty-nine weeks ended October 29, 2011.

Income Tax Expense (Benefit)

The following table shows income tax expense (benefit) in dollars for the stated periods:

	Thirty-Nine Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Income tax expense (benefit)	\$54,053	\$(20,148)

The effective tax rate in the thirty-nine weeks ended October 29, 2011 was 40.2%. The effective income tax rate in the thirty-nine weeks ended October 30, 2010 fluctuated significantly due to a \$31.8 million one-time, non-cash tax benefit which was recorded as a result of becoming subject to taxation as a corporation, effective May 2, 2010, in connection with our IPO. We were previously treated as a partnership for tax purposes and, therefore, not generally subject to income taxes.

On a full year basis, we anticipate our effective tax rate will be approximately 40.3%. Our effective tax rate is sensitive to the domestic/international profit mix since we recorded a valuation allowance against deferred tax assets arising from the net operating loss of foreign subsidiaries.

Adjusted Net Income and Adjusted Earnings Per Diluted Share

The following table presents Adjusted Net Income and Adjusted Earnings Per Diluted Share for the stated periods:

Adjusted Earnings Per Diluted Share	\$0.37	* \$0.30	\$0.96	\$0.86

* No adjustments were made to net income or earnings per diluted share for the thirteen weeks ended October 29, 2011.

We supplement the reporting of our financial information determined under GAAP with certain non-GAAP financial measures: adjusted net income and adjusted earnings per diluted share. We believe that these non-GAAP measures

provide meaningful information to assist shareholders in understanding our financial results and assessing our prospects for future performance. Management believes adjusted net income and adjusted earnings per diluted share are important indicators of our operations because they exclude items that may not be indicative of, or are unrelated to, our core operating results, and provide a baseline for analyzing trends in our underlying business. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names.

Table of Contents

These adjusted financial measures should not be considered in isolation or as a substitute for reported net income and reported earnings per diluted share. These non-GAAP financial measures reflect an additional way of viewing an aspect of our operations that, when viewed with our GAAP results and reconciliations to the corresponding GAAP financial measures below, provide a more complete understanding of our business. We strongly encourage investors and shareholders to review our financial statements and publicly-filed reports in their entirety and to not rely on any single financial measure.

The tables below reconcile the non-GAAP financial measures, adjusted net income and adjusted earnings per diluted share, with the most directly comparable GAAP financial measures, reported net income and reported earnings per diluted share.

EBITDA and Adjusted EBITDA

The following table presents EBITDA and Adjusted EBITDA for the stated periods:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010
	(in thousands)		(in thousands)	
EBITDA	\$77,044	\$68,459	\$211,069	\$159,375
Adjusted EBITDA	\$83,564	\$74,593	\$230,417	\$196,779

EBITDA and Adjusted EBITDA are presented in this Quarterly Report on Form 10-Q and are supplemental measures of financial performance that are not required by, or presented in accordance with GAAP. EBITDA is defined as consolidated net income before depreciation and amortization, interest expense (net), including amortization of debt issuance costs and debt discounts and losses on debt extinguishment, and income taxes. Adjusted EBITDA is calculated in accordance with our existing credit agreements and is defined as EBITDA adjusted to exclude the items set forth in the table below.

EBITDA and Adjusted EBITDA are included in this Quarterly Report on Form 10-Q because they are key metrics used by management to assess our operating performance and Adjusted EBITDA is also used by lenders to evaluate our covenant compliance. Our Opco Term Loan contains a leverage ratio covenant, and our Opco Revolving Credit Facility contains a fixed charge coverage ratio covenant that we must meet if we do not meet the excess availability requirement under the Opco Revolving Credit Facility. Both covenants are calculated based on Adjusted EBITDA. Non-compliance with the financial ratio covenants contained in the Opco Term Loan and the Opco Revolving Credit Facility could result in the acceleration of our obligations to repay all amounts outstanding under those agreements. The applicable interest rates on the Opco Term Loan are also based, in part, on our leverage ratio. In addition, the Opco Term Loan, Opco Revolving Credit Facility, and indenture governing the Senior Notes contain covenants that restrict, subject to certain exceptions, our ability to incur additional indebtedness or make restricted payments, such as dividends, based, in some cases, on our ability to meet leverage ratios or fixed charge coverage ratios. Adjusted EBITDA is a material component of these ratios.

EBITDA and Adjusted EBITDA are not measures of our financial performance or liquidity under GAAP and should not be considered as alternatives to net income as a measure of operating performance, cash flows from operating activities as a measure of liquidity, or any other performance measure derived in accordance with GAAP.

Additionally, EBITDA and Adjusted EBITDA are not intended to be measures of free cash flow for management's discretionary use, as they do not consider certain cash requirements such as interest payments, tax payments, and debt service requirements. EBITDA and Adjusted EBITDA contain certain other limitations, including the failure to reflect our cash expenditures, cash requirements for working capital needs, and cash costs to replace assets being depreciated and amortized and exclude certain non-recurring charges that may occur in the future. Management compensates for these limitations by relying primarily on our GAAP results and by using EBITDA and Adjusted EBITDA only supplementally. Our measures of EBITDA and Adjusted EBITDA are not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the methods of calculation.

The following table presents a reconciliation of the differences between EBITDA and Adjusted EBITDA to net income, the most directly comparable GAAP financial measure, for the stated periods.

Liquidity and Capital Resources

General

Our business relies on cash flows from operations as our primary source of liquidity. However, we do have access to additional liquidity, if needed, through borrowings under our Opco Revolving Credit Facility. Our primary cash needs are for merchandise inventories, payroll, store rent, capital expenditures associated with constructing and furnishing new stores and renovating existing stores, and information technology. The most significant components of our working capital are merchandise inventories, accounts payable, and other current liabilities. Our liquidity position benefits from the fact that we generally collect cash from sales to customers the same day or, in the case of credit or debit card transactions, within a few days of the related sale and have 75 days to pay certain merchandise vendors and 45 days to pay the majority of our non-merchandise vendors.

In the thirty-nine weeks ended October 29, 2011, we had the following significant cash transactions outside the normal course of business:

• In the first quarter, we repurchased \$25.0 million of Senior Notes on the open market at a price of 108.75% of the principal amount, or \$27.2 million.

• In the second quarter, we repurchased \$24.2 million of Senior Notes on the open market at an average price of 109.21% of the principal amount, or \$26.4 million.

As of October 29, 2011, we had cash and cash equivalents of approximately \$145.0 million and \$198.2 million of availability under our Opco Revolving Credit Facility.

On December 5, 2011, our board of directors approved the prepayment in full of the outstanding principal balance of the Opco

38

Table of Contents

Term Loan. We intend to prepay the entire \$119.7 million balance under the term loan in December 2011 with cash on hand. After the prepayment, we expect to end the year with more than \$100 million of cash on hand and no borrowings outstanding under the Opco Revolving Credit Facility. As a result of the prepayment, we expect to incur charges to write off unamortized debt issuance costs totaling approximately \$2.4 million in the fourth quarter of 2011. The Company estimates that the prepayment of the term loan will reduce the Company's interest payments by approximately \$0.7 million in fiscal 2011 and \$1.3 million quarterly through July of 2014.

Our cash position is seasonal as a result of building up inventory for the next selling season. Our cash balances generally increase during the summer selling season and then increase further during the holiday seasons. We believe that cash generated from operations and the availability of borrowings under our Opco Revolving Credit Facility or other financing arrangements will be sufficient to meet working capital requirements, anticipated capital expenditures, and scheduled debt payments, including the optional prepayment of our Opco Term Loan for at least the next 12 months.

Cash Flow Analysis

A summary of operating, investing, and financing activities are shown in the following table:

	Thirty-Nine Weeks Ended	
	October 29, 2011	October 30, 2010
	(in thousands)	
Provided by operating activities	\$64,343	\$50,857
Used in investing activities	\$(55,975)	\$(41,950)
Used in financing activities	\$(51,148)	\$(161,531)
Net Cash Provided by Operating Activities		

The majority of our operating cash inflows are derived from sales. Our operating cash outflows generally consist of payments to merchandise vendors (net of vendor allowances), employees for wages, salaries, and other employee benefits, and landlords for rent. Operating cash outflows also include payments for income taxes and interest payments on our long-term debt.

Net cash provided by operating activities was \$64.3 million in the thirty-nine weeks ended October 29, 2011 compared to \$50.9 million in the thirty-nine weeks ended October 30, 2010. Relative to the thirty-nine weeks ended October 30, 2010, the increase in cash provided by operations primarily related to the following:

Items included in net income provided \$139.1 million of cash during the thirty-nine weeks ended October 29, 2011 compared to \$110.6 million during the thirty-nine weeks ended October 30, 2010. The increase in the current year was primarily driven by improved operating results of our business and lower interest expense. As discussed in the "Results of Operations" section above, this was primarily the result of higher average dollar sales and the ongoing execution of our go to market strategy, as well as continued debt reduction. In addition, in the thirty-nine weeks ended October 30, 2010, we made \$16.9 million of payments to Golden Gate and Limited Brands related to the Advisory and LLC Agreements, respectively, as discussed further in Note 7 to the unaudited Consolidated Financial Statements. These items were offset by higher taxes in the current year as a result of improved operating results and the change in our tax status during the second quarter of 2010.

The increase in cash provided by operations discussed above was offset by \$74.7 million of cash used for working capital increases during the thirty-nine weeks ended October 29, 2011 compared to \$59.8 million of cash used in the thirty-nine weeks ended October 30, 2010. Working capital is subject to cyclical operating needs, the timing of receivable collections and payable and expense payments, and the seasonal fluctuations in our operations. The working capital increase in the thirty-nine weeks ended October 29, 2011 was primarily attributable to an increase in inventories during the thirty-nine weeks ended October 29, 2011. The increase in inventories was primarily to support our e-commerce growth, new store openings, expansion of shoes, jewelry, and personal care categories, and strategic pre-positioning of fabric during the thirty-nine weeks ended October 29, 2011.

Net Cash Used in Investing Activities

Investing activities primarily consist of capital expenditures for new and remodeled store construction and fixtures, store maintenance, information technology, and home office renovations.

Net cash used in investing activities increased \$14.0 million to \$56.0 million in the thirty-nine weeks ended October 29, 2011

39

Table of Contents

compared to \$42.0 million in the thirty-nine weeks ended October 30, 2010. This increase was primarily driven by capital expenditures, gross of landlord allowances, attributed to new store openings and remodels and store fixtures, totaling \$50.3 million during the thirty-nine weeks ended October 29, 2011 compared to \$30.5 million during the thirty-nine weeks ended October 30, 2010. This increase was offset by a decrease in information technology costs of \$8.9 million due to the transition of our information technology to a standalone function in 2010. The remaining capital expenditures primarily relate to home office renovations.

For the remainder of 2011, we plan to open 6 new stores, including 2 in the United States and 4 in Canada. We expect capital expenditures for the remainder of 2011 to be approximately \$16.0 to \$20.0 million, primarily driven by these new store openings. These capital expenditures do not include offsets for landlord allowances, which are expected to be approximately \$5.0 to \$10.0 million for the remainder of 2011 or approximately \$20.0 to \$24.0 million for the full year 2011.

Net Cash Used in Financing Activities

Net cash used in financing activities for the thirty-nine weeks ended October 29, 2011 totaled \$51.1 million and primarily consisted of the repurchases of \$49.2 million of Senior Notes.

The \$161.5 million use of cash in the thirty-nine weeks ended October 30, 2010 primarily consisted of a \$300.0 million to prepay the Topco Credit Facility, \$261.0 million in distributions to equity holders prior to the IPO, and \$18.6 million in costs related to the Senior Notes offering and IPO. These uses were offset by net proceeds of \$246.5 million, net of original issue discount, received from the Senior Notes offering and \$166.9 million, net of underwriters discount, received from the IPO.

For the remainder of 2011, \$0.3 million of scheduled principal payments are due on the Opco Term Loan. However, on December 5, 2011, as previously noted, the Board authorized prepayment of the \$119.7 million outstanding balance due under our Opco Term Loan by the end of December 2011.

Credit Facilities**Opco Revolving Credit Facility**

On July 29, 2011, Express Holding and its domestic subsidiaries entered into an amended and restated \$200.0 million secured asset-based loan credit agreement. The Opco Revolving Credit Facility amended, restated, and extended the existing \$200.0 million asset-based revolving credit facility, which was scheduled to expire on July 6, 2012. The Opco Revolving Credit Facility is scheduled to expire on July 29, 2016 and allows for up to \$30.0 million of swing line advances and up to \$45.0 million to be available in the form of letters of credit. Borrowings under the Opco Revolving Credit Facility bear interest at a rate equal to either the rate appearing on Bloomberg L.P.'s Page BBAM1/(Official BBA USD Dollar Libor Fixings) (the "Eurodollar Rate") plus an applicable margin rate or the highest of (1) the prime lending rate, (2) 0.50% per annum above the federal funds rate and (3) 1% above the Eurodollar Rate, in each case plus an applicable margin rate. The applicable margin rate is determined based on excess availability as determined by reference to the borrowing base. The applicable margin for Eurodollar Rate-based advances is 1.50%, 1.75%, or 2.00% if excess availability is greater than or equal to 66% of the borrowing base, less than 66% of the borrowing base but greater than or equal to 33% of the borrowing base, or less than 33% of the borrowing base, respectively. The applicable margin rate for base rate-based advances is 0.50%, 0.75%, or 1.00% if excess availability is greater than or equal to 66% of the borrowing base, less than 66% of the borrowing base but greater than or equal to 33% of the borrowing base, or less than 33% of the borrowing base, respectively. The borrowing base components are 90% of credit card receivables plus 90% of the liquidation value of eligible inventory plus 100% of borrowing base-eligible cash collateral (not to exceed 20% of the borrowing base) less certain reserves. The unused line fee payable under the Opco Revolving Credit Facility is incurred at 0.375% per annum of the average daily unused revolving commitment during each quarter, payable quarterly in arrears on the first day of each May, August, November, and February. In the event that (1) an event of default has occurred or (2) excess availability plus eligible cash collateral is less than 12.5% of the borrowing base for five consecutive days, such unused line fees are payable on the first day of each month.

Interest payments under the Opco Revolving Credit Facility are due quarterly on the first day of each May, August, November, and February for base rate-based advances, provided, however, in the event that (1) an event of default has occurred or (2) excess availability plus eligible cash collateral is less than 12.5% of the borrowing base for five consecutive days, interest payments are due on the first day of each month. Interest payments under the Opco Revolving Credit Facility are due on the last day of the interest period for Eurodollar Rate-based advances for interest periods of one, two, and three months, and additionally every three months after the first day of the interest period for Eurodollar Rate-based advances for interest periods of greater than three months.

Table of Contents

The Opco Revolving Credit Facility requires Express Holding and its domestic subsidiaries to maintain a fixed charge coverage ratio of at least 1.0:1.0 if excess availability plus eligible cash collateral is less than 10% of the borrowing base for 15 consecutive days. In addition, the Opco Revolving Credit Facility contains customary covenants and restrictions on Express Holding and its subsidiaries' activities, including, but not limited to, limitations on the incurrence of additional indebtedness; liens, negative pledges, guarantees, investments, loans, asset sales, mergers, acquisitions, and prepayment of other debt; distributions, dividends, and the repurchase of capital stock; transactions with affiliates; the ability to change the nature of its business or its fiscal year; the ability to amend the terms of the Opco Term Loan; and permitted activities of Express Holding. All obligations under the Opco Revolving Credit Facility are guaranteed by Express Holding and its domestic subsidiaries (that are not borrowers) and secured by a lien on substantially all of the assets of Express Holding and its domestic subsidiaries, provided that the liens on certain assets of Express Holding and its domestic subsidiaries are junior in priority to the liens securing the Opco Term Loan.

In connection with amending and restating the existing \$200.0 million asset-based revolving credit facility, we recognized a \$0.3 million loss on extinguishment of debt attributed to the write-off of unamortized debt issuance costs during the second quarter of 2011, which was recorded as interest expense in the unaudited Consolidated Statements of Income and Comprehensive Income and represents a non-cash adjustment to reconcile net income to net cash provided by operating activities within the unaudited Consolidated Statements of Cash Flows.

As of October 29, 2011, there were no borrowings outstanding and we had \$198.2 million of excess availability under the Opco Revolving Credit Facility. We were not subject to the fixed charge coverage ratio covenant in the Opco Revolving Credit Facility at October 29, 2011 because excess availability plus eligible cash collateral exceeded 10% of the borrowing base.

Opco Term Loan

On July 6, 2007, Express Holding and its subsidiaries entered into a \$125.0 million secured term loan. The proceeds of these borrowings were used to finance, in part, the Golden Gate Acquisition and to pay transaction fees and expenses related to the Golden Gate Acquisition. Borrowings under the Opco Term Loan bear interest at a rate equal to LIBOR plus an applicable margin rate or the higher of The Wall Street Journal's prime lending rate and 0.50% per annum above the federal funds rate, plus an applicable margin rate. On February 5, 2010, Express Holding and its subsidiaries entered into an amendment to the Opco Term Loan that became effective March 5, 2010 in connection with the Senior Notes offering.

The applicable margin rate is determined by Express Holding's leverage ratio of consolidated debt for borrowed money (net of cash and cash equivalents provided that no more than \$75.0 million of cash and cash equivalents may be netted against consolidated debt for borrowed money for this purpose), including amounts drawn under letters of credit and any synthetic debt, to Adjusted EBITDA ("Leverage Ratio"), in effect on the first day of each interest period with respect to LIBOR-based advances and by the Leverage Ratio in effect from time to time with respect to base rate-based advances. The applicable margin rate for LIBOR-based advances is 4.25% per annum, or 4.00% if the Leverage Ratio is less than 1.00 to 1.00, and for base rate-based advances is 3.25% per annum, or 3.00% if the Leverage Ratio is less than 1.00 to 1.00. Additionally, these rates may be further increased by 50 basis points per annum in the event that Express, LLC fails to maintain, at the time of determination, a corporate family rating of B2 or better by Moody's Investors Service ("Moody's") and a corporate credit rating of B or better by Standard & Poor ("S&P"). As of October 29, 2011, the interest rate under the Opco Term Loan was 4.43%.

Interest payments under the Opco Term Loan are due quarterly on the last calendar day of each April, July, October, and January for base rate-based advances and on the last day of the applicable interest period for LIBOR-based advances for interest periods of one, two, three, and six months (or if available to all lenders, nine or twelve months), and additionally every three months after the first day of the interest period for LIBOR-based advances for interest periods of greater than three months. Principal payments under the Opco Term Loan are due quarterly on the last business day of each April, July, October, and January through July 6, 2013, in equal installments of 0.25% of the initial principal balance with the balance of principal due on July 6, 2014.

The agreement governing the Opco Term Loan requires that annual prepayments of principal be made within five business days after the 120th calendar day following the end of each fiscal year in the amount by which an applicable

percentage of “excess cash flow” (as defined in the agreement) that corresponds to Express Holding's Leverage Ratio, exceeds any voluntary prepayments of the Opco Term Loan over the fiscal year.

The Opco Term Loan contains customary covenants and restrictions on Express Holding and its subsidiaries' activities, including, but not limited to, limitations on the incurrence of additional indebtedness; liens, negative pledges, guarantees, investments, loans, asset sales, mergers, acquisitions, and prepayment of other debt; distributions, dividends, and the repurchase of capital stock; transactions with affiliates; the ability to change the nature of our business or our fiscal year; the ability to amend the terms of the Opco Revolving Credit Facility; and permitted activities of Express Holding. All obligations under the Opco Term Loan are guaranteed by Express Holding and Express, LLC's subsidiaries and secured by a lien on substantially all

Table of Contents

of the assets of Express Holding and its subsidiaries; provided that the liens on certain assets of Express Holding and its subsidiaries shall be junior in priority to the liens securing the Opco Revolving Credit Facility.

The Opco Term Loan also requires that Express Holding maintain a Leverage Ratio for the most recently completed reporting period (last four consecutive quarters as of the end of each quarter) of not more than 1.75 to 1.00. Express Holding was in compliance with the covenant requirement as of October 29, 2011.

On December 5, 2011 the Board authorized us to prepay the \$119.7 million outstanding principal balance due under our Opco Term Loan by the end of December 2011.

Senior Notes

On March 5, 2010, Express, LLC and Express Finance, as co-issuers, issued, in a private placement, \$250.0 million of 8³/₄% Senior Notes due 2018 at an offering price of 98.599% of the face value. An affiliate of Golden Gate purchased \$50.0 million of Senior Notes in the offering. Interest on the Senior Notes is payable on March 1 and September 1 of each year. A portion of the proceeds from the Senior Notes offering was used to prepay all of the \$150.0 million Term C Loan outstanding under the Topco Credit Facility, plus prepayment penalties of \$3.0 million and accrued and unpaid interest thereon of \$1.9 million. The remaining proceeds, together with cash on hand, were used to make a cash distribution of approximately \$230.0 million to our equity holders and pay related fees and expenses, including discounts and commissions, to the initial purchasers of the Senior Notes, totaling \$15.4 million. In connection with the Senior Notes offering, \$10.8 million of costs were capitalized as debt issuance costs within other assets on the unaudited Consolidated Balance Sheets and will be amortized over the eight year term of the Senior Notes using the effective interest method. Unamortized debt issuance costs outstanding related to the Senior Notes as of October 29, 2011 were \$7.2 million.

Prior to March 1, 2013, a portion of the Senior Notes may be redeemed at 108.75% of the principal amount plus accrued and unpaid interest with the net proceeds of certain equity offerings. At any time prior to March 1, 2014, the Senior Notes may be redeemed in part or in full at a redemption price equal to 100% of the principal amount plus a make-whole premium, calculated in accordance with the indenture governing the Senior Notes, and accrued and unpaid interest. On or after March 1, 2014, the Senior Notes may be redeemed in part or in full at the following percentages of the outstanding principal amount prepaid: 104.375% prior to March 1, 2015; 102.188% on or after March 1, 2015, but prior to March 1, 2016; and 100% on or after March 1, 2016. In the first quarter of 2011, \$25.0 million of Senior Notes were repurchased on the open market at a price of 108.75% of the principal amount. In the second quarter of 2011, \$24.2 million of Senior Notes were repurchased on the open market at an average price of 109.21% of the principal amount. Following these repurchases, the Golden Gate affiliate holds \$10.0 million in face value of Senior Notes as of October 29, 2011.

The indenture governing the Senior Notes contains customary covenants and restrictions on the activities of Express, LLC, Express Finance and Express, LLC's restricted subsidiaries, including, but not limited to, the incurrence of additional indebtedness; payment of dividends or distributions in respect of capital stock or certain other restricted payments or investments; entering into agreements that restrict distributions from restricted subsidiaries; the sale or disposal of assets, including capital stock of restricted subsidiaries; transactions with affiliates; the incurrence of liens; and mergers, consolidations or the sale of substantially all of Express, LLC's assets. Certain of these covenants will be suspended if the Senior Notes are assigned an investment grade rating by both S&P and Moody's and no default has occurred or is continuing. If either rating on the Senior Notes should subsequently decline to below investment grade, the suspended covenants will be reinstated.

Contractual Obligations

Other than the \$49.2 million of Senior Notes repurchases in the first and second quarters of 2011 as discussed in Note 9, our contractual obligations and other commercial commitments did not change materially between January 29, 2011 and October 29, 2011. Subsequent to the end of the third quarter, we announced our intent to prepay the \$119.7 million outstanding principal balance due under our Opco Term Loan by the end of December 2011. This will eliminate the ongoing principal and interest payments of approximately \$1.6 million per quarter through April of 2014

and the previously scheduled payoff at termination of approximately \$116.6 million in July of 2014. For additional information regarding our contractual obligations as of January 29, 2011, see "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended January 29, 2011.

Seasonality

Our business is seasonal and, historically, we have realized a higher portion of our net sales and net income in the third and fourth quarters due primarily to early Fall selling patterns as well as the impact of the holiday season. Generally, the annual sales split is approximately 45% for the Spring season (first and second quarters) and 55% for the Fall season (third and fourth

Table of Contents

quarters). Cash requirements are typically higher in the first and third quarters due to inventory-related working capital requirements for early Fall and holiday selling periods. Our business is also subject, at certain times, to calendar shifts, which may occur during key selling periods close to holidays such as Easter, Thanksgiving, and Christmas, and regional fluctuations for events such as sales tax holidays.

Critical Accounting Policies

Management has determined that our most critical accounting policies are those related to revenue recognition, merchandise inventory valuation, long-lived assets valuation, claims and contingencies, income taxes, and share-based payments. We continue to monitor our accounting policies to ensure proper application of current rules and regulations. There have been no significant changes to these policies discussed in our Annual Report on Form 10-K for the year-ended January 29, 2011.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk

We are subject to interest rate risk in connection with borrowings under our Opco Term Loan. Our Opco Term Loan and Opco Revolving Credit Facility bear interest at variable rates. See "Liquidity and Capital Resources - Credit Facilities" for further information on the calculation of the rates. We did not borrow any amounts under the Opco Revolving Credit Facility during the third quarter of 2011. Borrowings under our Senior Notes bear interest at a fixed rate. For fixed rate debt, interest rate changes affect the fair value of such debt, but do not impact earnings or cash flow.

As of October 29, 2011, the interest rate on our Opco Term Loan outstanding balance was 4.43%. For the thirty-nine weeks ended October 29, 2011, a 100 basis point change in interest rates would have increased or decreased interest expense by approximately \$0.9 million.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e)) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that are designed to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance of achieving the desired control objectives. In reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation prior to filing this report of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of October 29, 2011.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the third quarter of 2011 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Information relating to legal proceedings is set forth in Note 12 to our unaudited Consolidated Financial Statements included in Part I of this Quarterly Report on Form 10-Q and is incorporated herein by reference.

ITEM 1A. RISK FACTORS.

Our risk factors as of October 29, 2011 have not changed materially from those disclosed in our Annual Report on Form 10-K for the year ended January 29, 2011 ("Annual Report") filed with the SEC on March 22, 2011. The risk factors disclosed in our Annual Report, in addition to the other information set forth in this Quarterly Report, could materially affect our business, financial condition or results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The following table provides information regarding the purchase of shares of our common stock made by or on behalf of us or any "affiliated purchaser" as defined in Rule 10b-18(a)(3) under the Exchange Act of 1934, during each month of the quarterly period ended October 29, 2011:

Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Number of Shares that May Yet be Purchased under the Plans or Programs ⁽²⁾
July 31, 2011 - August 27, 2011	29	⁽¹⁾ \$17.94	⁽¹⁾ —	—
August 28, 2011 - October 1, 2011	—	\$—	—	—
October 2, 2011 - October 29, 2011	28	⁽¹⁾ \$22.33	⁽¹⁾ —	—
Total	57	\$20.10	—	—

⁽¹⁾ Represent shares repurchased to cover tax withholdings related to certain restricted stock unit vestings.

⁽²⁾ As of October 29, 2011, we do not have any authorization to repurchase stock in the open market nor any plans to do so.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

Not applicable.

ITEM 4. (REMOVED AND RESERVED).

ITEM 5. OTHER INFORMATION.

On December 5, 2011, our board of directors approved the prepayment in full of the outstanding principal balance of the Opco Term Loan. We intend to prepay the entire \$119.7 million balance under the term loan in December 2011 with cash on hand. After the prepayment, we expect to end the year with more than \$100 million of cash on hand and no borrowings outstanding under the Opco Revolving Credit Facility. As a result of the prepayment, we expect to incur charges to write off unamortized debt issuance costs totaling approximately \$2.4 million in the fourth quarter of 2011. The Company estimates that the prepayment of the term loan will reduce the Company's interest payments by approximately \$0.7 million in fiscal 2011 and \$1.3 million quarterly through July of 2014. For additional information regarding our debt arrangements, see "Liquidity Capital Resources - Credit Facilities."
