GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Organization and Basis of Presentation

Organization

Global Partners LP (the “Partnership”) is a midstream logistics and marketing master limited partnership formed in March 2005 engaged in the purchasing, selling, storing and logistics of transporting petroleum and related products, including domestic and Canadian crude oil, gasoline and gasoline blendstocks (such as ethanol), distillates (such as home heating oil, diesel and kerosene), residual oil, renewable fuels, natural gas and propane. The Partnership also receives revenue from convenience store sales and gasoline station rental income. The Partnership owns, controls or has access to one of the largest terminal networks of refined petroleum products and renewable fuels in Massachusetts, Maine, Connecticut, Vermont, New Hampshire, Rhode Island, New York, New Jersey and Pennsylvania (collectively, the “Northeast”). The Partnership owns transload and storage terminals in North Dakota and Oregon that extend its origin-to-destination capabilities from the mid-continent region of the United States and Canada to the East and West Coasts. The Partnership is one of the largest distributors of gasoline, distillates, residual oil and renewable fuels to wholesalers, retailers and commercial customers in the New England states and New York. As of September 30, 2016, the Partnership had a portfolio of 1,472 owned, leased and/or supplied gasoline stations, including 257 directly operated convenience stores, in the Northeast, Maryland and Virginia.

Global GP LLC, the Partnership’s general partner (the “General Partner”), manages the Partnership’s operations and activities and employs its officers and substantially all of its personnel, except for most of its gasoline station and convenience store employees who are employed by Global Montello Group Corp. (“GMG”).

The General Partner, which holds a 0.67% general partner interest in the Partnership, is owned by affiliates of the Slifka family. As of September 30, 2016, affiliates of the General Partner, including its directors and executive officers and their affiliates, owned 7,433,829 common units, representing a 21.9% limited partner interest.

Recent Transaction

Sale of Gasoline Stations—On August 22, 2016, Drake Petroleum Company, Inc., an indirect wholly owned subsidiary of the Partnership, sold to Mirabito Holdings, Inc. (“Mirabito”) 30 gasoline stations and convenience stores located in New York and Pennsylvania (the “Drake Sites”) for an aggregate total cash purchase price of approximately \$40.0 million (the “Mirabito Disposition”). The Drake Sites are a portion of the sites that were acquired by the Partnership in connection with the acquisition of Warren Equities, Inc. (“Warren”) in January 7, 2015 (see Note 2). In connection with closing, the parties entered into long-term supply contracts for branded and unbranded gasoline and other petroleum products. See Note 15.

Basis of Presentation

On January 7, 2015, the Partnership acquired, through one of its wholly owned subsidiaries, GMG, 100% of the equity interests in Warren from The Warren Alpert Foundation. On January 14, 2015, the Partnership acquired the Revere terminal (the “Revere Terminal”) located in Boston Harbor in Revere, Massachusetts from Global Petroleum Corp. (“GPC”) and related entities. On June 1, 2015, the Partnership acquired, through one of its wholly owned subsidiaries, Alliance Energy LLC (“Alliance”), retail gasoline stations and dealer supply contracts from Capitol Petroleum Group (“Capitol”). See Note 2.

The financial results of Capitol for the four months ended September 30, 2015 are included in the accompanying statement of operations for the nine months ended September 30, 2015. The financial results of Warren and the Revere Terminal for the nine months ended September 30, 2015 are included in the accompanying statement of operations for

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

the nine months ended September 30, 2015. The accompanying consolidated financial statements as of September 30, 2016 and December 31, 2015 and for the three and nine months ended September 30, 2016 and 2015 reflect the accounts of the Partnership. Upon consolidation, all intercompany balances and transactions have been eliminated.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and reflect all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial condition and operating results for the interim periods. The interim financial information, which has been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"), should be read in conjunction with the consolidated financial statements for the year ended December 31, 2015 and notes thereto contained in the Partnership's Annual Report on Form 10-K. The significant accounting policies described in Note 2, "Summary of Significant Accounting Policies," of such Annual Report on Form 10-K are the same used in preparing the accompanying consolidated financial statements.

The results of operations for the three and nine months ended September 30, 2016 are not necessarily indicative of the results of operations that will be realized for the entire year ending December 31, 2016. The consolidated balance sheet at December 31, 2015 has been derived from the audited consolidated financial statements included in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2015.

Due to the nature of the Partnership's business and its reliance, in part, on consumer travel and spending patterns, the Partnership may experience more demand for gasoline during the late spring and summer months than during the fall and winter. Travel and recreational activities are typically higher in these months in the geographic areas in which the Partnership operates, increasing the demand for gasoline. Therefore, the Partnership's volumes in gasoline are typically higher in the second and third quarters of the calendar year. As demand for some of the Partnership's refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally greater during the winter months, heating oil and residual oil volumes are generally higher during the first and fourth quarters of the calendar year. These factors may result in fluctuations in the Partnership's quarterly operating results.

Noncontrolling Interest

These financial statements reflect the application of Accounting Standards Codification ("ASC") Topic 810, "Consolidations" ("ASC 810") which establishes accounting and reporting standards that require: (i) the ownership interest in subsidiaries held by parties other than the parent to be clearly identified and presented in the consolidated

balance sheet within shareholder's equity, but separate from the parent's equity; (ii) the amount of consolidated net income attributable to the parent and the noncontrolling interest to be clearly identified and presented on the face of the consolidated statements of operations; and (iii) changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary to be accounted for consistently.

The Partnership acquired a 60% interest in Basin Transload, LLC ("Basin Transload") on February 1, 2013. After evaluating ASC 810, the Partnership concluded it is appropriate to consolidate the balance sheet and statements of operations of Basin Transload based on an evaluation of the outstanding voting interests. Amounts pertaining to the noncontrolling ownership interest held by third parties in the financial position and operating results of the Partnership are reported as a noncontrolling interest in the accompanying consolidated balance sheets and statements of operations.

Concentration of Risk

The following table presents the Partnership's product sales and other revenues as a percentage of the consolidated sales for the periods presented:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2016		2015		2016		2015	
Gasoline sales: gasoline and gasoline blendstocks (such as ethanol)	71	%	67	%	66	%	59	%
Crude oil sales and crude oil logistics revenue	6	%	13	%	7	%	11	%
Distillates (home heating oil, diesel and kerosene), residual oil, natural gas and propane sales	18	%	16	%	22	%	26	%
Convenience store sales, rental income and sundry sales	5	%	4	%	5	%	4	%
Total	100	%	100	%	100	%	100	%

The following table presents the Partnership's product margin by segment as a percentage of the consolidated product margin for the periods presented:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2016		2015		2016		2015	
Wholesale segment	10	%	20	%	19	%	33	%
GDSO segment	87	%	77	%	77	%	62	%
Commercial segment	3	%	3	%	4	%	5	%
Total	100	%	100	%	100	%	100	%

See Note 10, "Segment Reporting," for additional information on the Partnership's operating segments.

None of the Partnership's customers accounted for greater than 10% of total sales for the three and nine months ended September 30, 2016 and 2015.

Goodwill and Long-Lived Asset Impairment

The following table presents goodwill and long-lived asset impairment charges recognized during the three and nine months ended September 30, 2016 and 2015 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Goodwill impairment	\$ 121,752	\$ —	\$ 121,752	\$ —
Long-lived asset impairment	26,065	—	28,220	—
Total	\$ 147,817	\$ —	\$ 149,972	\$ —

Goodwill

As disclosed in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2015, the declining crude oil prices, changes in certain market conditions and decline in the Partnership's common unit price, collectively caused the Partnership to reassess its goodwill allocated to the Wholesale reporting unit for impairment as of December 31, 2015. The Partnership's results in 2015 were impacted by tighter differentials as mid-continent crude oil did not discount sufficiently to make rail transport to the East Coast competitive with imports. Certain of the key

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

assumptions in the development of discounted cash flows used to evaluate the Wholesale reporting unit, included the expectation of a recovery from tight differentials and low crude oil prices within 2017. Based on the results of this assessment, the Partnership concluded that step two of the quantitative assessment was not necessary and no impairment was required at that time.

During the first quarter ended March 31, 2016 and second quarter ended June 30, 2016, the Partnership considered whether there were any change of circumstances or events which would more likely than not reduce the fair value of the Wholesale segment's reporting unit below its carrying amount. While the Partnership had then concluded that such events and circumstances had not occurred, the Partnership disclosed the possibility that a continuation of low crude oil prices and tight differentials might cause the Partnership to conclude that the timing of a market recovery might be more extended than estimated within the Partnership's five-year forecast and estimate of terminal values.

The Partnership further disclosed in its Annual Report on Form 10-K for the year ended December 31, 2015 and in its Quarterly Reports on Forms 10-Q as of March 31, 2016 and June 30, 2016, that a further sustained decline in commodity prices may cause the Partnership to reassess its long-lived assets and goodwill for impairment, and could result in future non-cash impairment charges as a result of such impairment assessments. If the Partnership is required to perform step two in the future for the Wholesale reporting unit, up to \$121.7 million of goodwill assigned to this reporting unit could be written off in the period of such impairment assessment.

During the third quarter ended September 30, 2016, the Partnership continued to monitor the extent and timing of future demand. Crude oil prices have remained at lower levels but, more importantly, tight differentials have continued such that the Partnership may no longer reasonably include an assumption that the market for crude oil by rail to the coasts might recover sometime within 2017 as previously expected. Factors contributing to the Partnership's assumption include:

- Lack of logistics nominations by one particular customer and the expectations for limited, if any, nominations for the balance of 2016 by that customer;
- A decline in spot crude oil volume indicating weakening demand for the Partnership's services/assets;
- Increased pipeline capacity out of the Bakken region; and
- The lifting of the export ban, which provides another clearing mechanism for crude oil.

These current market conditions, in addition to declines noted during fiscal year 2015 as well as the first and second quarters of 2016, negatively affected the Partnership's current period results and future projections sufficiently to constitute triggering events for the Wholesale reporting unit. Based on its consideration of the factors above, the

Partnership concluded it was necessary to perform an interim goodwill impairment test for the Wholesale reporting unit pursuant to the guidelines of ASC Topic 350, "Intangibles—Goodwill and Other" ("ASC 350"). The Partnership did not extend the interim test for recoverability to the Gasoline Distribution and Station Operations ("GDSO") reporting unit, as the indicators described above are specific to the Wholesale reporting unit.

The process of testing goodwill for impairment involves numerous judgments, assumptions and estimates made by management which inherently reflect a high degree of uncertainty. The impairment test includes either a qualitative assessment or a two-step quantitative assessment. The impairment test's qualitative assessment is used in order to conclude if it is more likely than not that the reporting unit's fair value exceeds its carrying value. Factors considered in the qualitative analysis include changes in the business and industry, as well as macro-economic conditions, that would influence the fair value of the reporting unit as well as changes in the carrying values of the reporting unit. In the impairment test's two step quantitative assessment, the fair value of each reporting unit is determined and compared to the book value of the reporting unit as determined under step one. If the fair value of the reporting unit is less than the book value, including goodwill, then step two is performed to compare the carrying amount of reporting unit goodwill to the implied fair value of that goodwill. If the carrying amount of reporting unit goodwill exceeds the implied fair value

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

of that goodwill, an impairment loss is recognized for that excess with a charge to operations. The Partnership calculates the fair value of each reporting unit using a combination of discounted cash flows and market comparables.

Key assumptions included in the development of the discounted cash flow value for each reporting unit include:

Future commodity volumes and margins. The discounted cash flows are based on a five-year forecast with an estimate of terminal values. In general, the reporting units' fair values are most sensitive to volume and gross margin assumptions. The Wholesale reporting unit's cash flows are significantly influenced by the crude oil market, given the Partnership's 2013 investment in transloading terminals in North Dakota and Oregon.

Discount rate commensurate with the risks involved. The Partnership applies a discount rate to its expected cash flows based on a variety of factors, including market and economic conditions, operational risk, regulatory risk and political risk. A higher discount rate decreases the net present value of cash flows.

Future capital requirements. The Partnership's estimates of future capital requirements are based upon a combination of authorized spending and internal forecasts.

As of September 30, 2016, as a result of the impairment indicators discussed above, the Partnership completed a preliminary assessment of the impairment of the Wholesale reporting unit's goodwill. As a result of the step one assessment, the Partnership concluded that the fair value of the Wholesale reporting unit no longer exceeded its carrying value and as a result, performed a step two assessment to measure the impairment. In step two of the quantitative assessment, the implied fair value of goodwill is determined by assigning the fair value of a reporting unit to all the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination. If the carrying amount of a reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized for that excess. Upon applying step two of the impairment test, the Partnership preliminarily determined that the implied fair value of the Wholesale reporting unit goodwill was \$0, and accordingly the Partnership recorded an impairment charge of \$121.7 million as of September 30, 2016, or all of the goodwill previously allocated to this reporting unit.

Due to the complexity of the analysis required to complete the step one and step two impairment tests and the timing of the Partnership's determination of the goodwill impairment, the Partnership has not yet finalized its step one and

step two impairment tests. The Partnership has completed a preliminary assessment of the expected impact of the step one and step two impairment tests using reasonable estimates of discounted cash flows and for the theoretical purchase price allocation and has recorded a preliminary estimate of the goodwill impairment losses for the three and nine months ended September 30, 2016 of approximately \$121.7 million. The preliminary estimates of goodwill impairment losses will be finalized prior to the issuance of the Partnership's Annual Report on Form 10-K for the year ending December 31, 2016 as part of its annual evaluation as of October 1. The Partnership believes that the preliminary estimates of goodwill impairment losses are reasonable and represent the Partnership's best estimate of the goodwill impairment losses to be incurred.

The following procedures are, among others, the more significant analyses that the Partnership needs to complete to finalize its year end step one and step two impairment tests:

- Final appraisals to determine the estimated fair value of Wholesale, Commercial and GDSO reporting units, including final calculation of discount rates;
- Final appraisals, certain of which are being determined by third-party valuation specialists, to determine the estimated fair value of intangible assets, leases, and property and equipment within the Wholesale reporting unit; and
- Final analysis for the Wholesale reporting unit to determine the estimated fair value adjustments required to certain other assets and liabilities of the reporting unit.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In connection with the preliminary step two impairment test, the Partnership made what it considered to be reasonable estimates of each of the above items in order to determine its preliminary best estimate of the goodwill impairment loss under the theoretical purchase price allocation required for a step two impairment test.

Judgments and assumptions are inherent in management's estimates used to determine the fair value of the Partnership's reporting units and are consistent with what management believes would be utilized by the primary market participant. The use of alternate judgments and assumptions could result in the recognition of different levels of impairment charges in our financial statements.

The following table presents changes in goodwill by segment during the nine months ended September 30, 2016 (in thousands):

	Goodwill Allocated to Wholesale Reporting Unit	GDSO Reporting Unit	Total
Balance at December 31, 2015	\$ 121,752	\$ 313,617	\$ 435,369
Impairment	(121,752)	—	(121,752)
Disposals	—	(13,631)	(13,631)
Other activity (1)	—	(929)	(929)
Balance at September 30, 2016	\$ —	\$ 299,057	\$ 299,057

(1) Other activity represents changes to goodwill as a result of finalizing the acquisition accounting related to the acquisition of Warren Equities, Inc. (See Note 2).

Goodwill associated with the Partnership's disposition activities of GDSO sites will be included in the carrying value of assets sold in determining the gain or loss on disposal, to the extent the disposition of assets qualifies as a disposition of a business under ASC 805. As of September 30, 2016, GDSO goodwill of \$13.6 million has been derecognized related to the disposition of a portfolio of sites for the three and nine months ended September 30, 2016 (see Note 15).

Evaluation of Long-Lived Asset Impairment

The Partnership evaluates its assets for impairment on a quarterly basis. The Partnership recognized an impairment charge of \$23.2 million for the three and nine months ended September 30, 2016 relating to long-lived assets used at its crude oil transloading terminals in North Dakota. Additionally, the Partnership recognized an impairment charge of approximately \$2.9 million for the three and nine months ended September 30, 2016 associated with certain long-lived assets at its Albany, New York terminal and development work in Port Arthur, Texas associated with the initial investments related to expanding the Partnership's ability to handle crude oil at those locations. The long-term recoverability of these assets has been adversely impacted by a prolonged decline in crude oil prices and crude oil differentials. The method used for determining fair value of these assets predominately relied on a combination of the cost and market approaches. These terminal assets are allocated to the Wholesale segment, and the total impairment charge of \$26.1 million is included in goodwill and long-lived asset impairment in the accompanying statements of operations for the three and nine months ended September 30, 2016.

During the nine months ended September 30, 2016, the Partnership recognized an impairment charge of \$1.9 million associated with the long-lived assets used in supplying compressed natural gas ("CNG") which is viewed as an alternative fuel to oil. The long-term recoverability of these assets has been adversely impacted by the decline in commodity prices and the cost differential between natural gas and oil. As oil has remained an attractive alternative to CNG due to lower oil prices, the related impact on the CNG operating and cash flows was determined to be an

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

impairment indicator, resulting in the impairment of the CNG long-lived assets during the nine months ended September 30, 2016. The method used for determining fair value of the CNG assets predominately relied on the market approach. The CNG assets are allocated to the Commercial segment, and the impairment charge is included in goodwill and long-lived asset impairment in the accompanying statement of operations for the nine months ended September 30, 2016.

Additionally, the Partnership recognized an impairment charge of \$0.3 million for the nine months ended September 30, 2016 associated with the long-lived assets of one discrete GDSO site. The method used for determining fair value of this GDSO site predominately relied on the market approach. The impairment charge is included in goodwill and long-lived asset impairment in the accompanying statement of operations for the nine months ended September 30, 2016.

Note 2. Business Combinations

2015 Acquisitions

Warren Equities, Inc.—On January 7, 2015, the Partnership acquired, through GMG, 100% of the equity interests in Warren, one of the largest independent marketers of petroleum products in the Northeast, from The Warren Alpert Foundation. The acquisition included 147 company-owned Xtra Mart convenience stores and related fuel operations, 53 commission agent locations and fuel supply rights for approximately 330 dealers. The acquired properties are located in the Northeast, Maryland and Virginia. The purchase price, inclusive of post-closing adjustments, was approximately \$381.8 million, including working capital. The acquisition was funded with borrowings under the Partnership's credit facility and with proceeds from its December 2014 public offering of 3,565,000 common units.

The acquisition was accounted for using the purchase method of accounting in accordance with the Financial Accounting Standards Board's ("FASB") guidance regarding business combinations. The Partnership's financial statements include the results of operations of Warren subsequent to the acquisition date.

In connection with the acquisition of Warren, the Partnership recorded acquisition costs of \$0 and approximately \$5.4 million for the three and nine months ended September 30, 2015, respectively, which are included in selling, general and administrative expenses in the accompanying consolidated statements of operations. Additionally, in

January 2015 and subsequent to the acquisition date, the Partnership recorded a restructuring charge of approximately \$2.3 million, which is included in selling, general and administrative expenses in the accompanying consolidated statement of operations for the nine months ended September 30, 2015.

Revere Terminal—On January 14, 2015, through the Partnership’s wholly owned subsidiary, Global Companies LLC (“Global Companies”), the Partnership acquired the Revere Terminal located in Boston Harbor in Revere, Massachusetts from GPC, a privately held affiliate of the Partnership, and related entities for a purchase price of \$23.7 million. The acquisition includes contingent consideration which would be payable under specific circumstances involving a subsequent sale of the property during the eight years following the acquisition. The contingent consideration was estimated to be \$0 as of the acquisition date as the Partnership concluded that the sale of the terminal for non-petroleum use within the eight years following the acquisition is not probable. There have been no changes to this assessment since the acquisition date. The Partnership financed the transaction with borrowings under its revolving credit facility. In connection with the Revere Terminal transaction, the pre-existing terminal storage rental and throughput agreement between the Partnership and GPC was terminated.

The acquisition was accounted for using the purchase method of accounting in accordance with the FASB’s guidance regarding business combinations. As the acquisition transitioned the Revere Terminal from a formerly leased facility to an owned facility, the transaction did not have a material impact on the Partnership’s consolidated financial statements.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Capitol Petroleum Group—On June 1, 2015, the Partnership acquired 97 primarily Mobil and Exxon branded owned or leased retail gasoline stations and seven dealer supply contracts in New York City and Prince George’s County, Maryland, along with certain related supply and franchise agreements and third-party leases and other assets associated with the operations from Liberty Petroleum Realty, LLC, East River Petroleum Realty, LLC, Big Apple Petroleum Realty, LLC, White Oak Petroleum, LLC, Anacostia Realty, LLC, Mount Vernon Petroleum Realty, LLC and DAG Realty, LLC (collectively, “Capitol Petroleum Group”). The purchase price was approximately \$155.7 million. The acquisition was financed with borrowings under the Partnership’s revolving credit facility.

The acquisition was accounted for using the purchase method of accounting in accordance with the FASB’s guidance regarding business combinations. The Partnership’s financial statements include the results of operations of Capitol subsequent to the acquisition date.

In connection with the acquisition of Capitol, the Partnership incurred acquisition costs of approximately \$0.1 million and \$3.2 million which were recorded for the three and nine months ended September 30, 2015, respectively, and are included in selling, general and administrative expenses in the accompanying consolidated statements of operations.

Supplemental Pro Forma Information—Revenues and net income not included in the Partnership’s consolidated operating results for Warren from January 1, 2015 through January 7, 2015, the acquisition date, were immaterial. Accordingly, the supplemental pro forma information for the nine months ended September 30, 2015 is consistent with the amounts reported in the accompanying consolidated statement of operations for the nine months ended September 30, 2015 as it relates to Warren.

The following unaudited pro forma information presents the consolidated results of operations of the Partnership for the nine months ended September 30, 2015 as if the acquisition of Capitol occurred on January 1, 2015 (in thousands, except per unit data):

Sales	\$ 8,370,830
Net income attributable to Global Partners LP	\$ 49,837
Net income per limited partner unit, basic	\$ 1.26
Net income per limited partner unit, diluted	\$ 1.25

Note 3. Net (Loss) Income Per Limited Partner Unit

Under the Partnership's partnership agreement, for any quarterly period, the incentive distribution rights ("IDRs") participate in net income only to the extent of the amount of cash distributions actually declared, thereby excluding the IDRs from participating in the Partnership's undistributed net income or losses. Accordingly, the Partnership's undistributed net income or losses is assumed to be allocated to the common unitholders, or limited partners' interest, and to the General Partner's general partner interest.

Common units outstanding as reported in the accompanying consolidated financial statements at September 30, 2016 and December 31, 2015 excluded 462,161 and 488,719 common units, respectively, held on behalf of the Partnership pursuant to its repurchase program (see Note 13). These units are not deemed outstanding for purposes of calculating net (loss) income per limited partner unit (basic and diluted).

Diluted net (loss) income per limited partner unit (2)		\$ (3.97)				\$ 1.20		

(1) The general partner interest was 0.67% for the nine months ended September 30, 2016. As a result of the June 2015 issuance of 3,000,000 common units, the general partner interest was, based on a weighted average, 0.73% for the nine months ended September 30, 2015.

(2)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Basic units were used to calculate diluted net loss per limited partner unit for the nine months ended September 30, 2016, as using the effects of phantom units would have an anti-dilutive effect on net loss per limited partner unit.

During 2016, the board of directors of the General Partner declared the following quarterly cash distributions:

Cash Distribution Declaration Date	Per Unit Cash Distribution Declared	Distribution Declared for the Quarterly Period Ended
April 26, 2016	\$ 0.4625	March 31, 2016
July 27, 2016	\$ 0.4625	June 30, 2016
October 26, 2016	\$ 0.4625	September 30, 2016

See Note 8, “Partners’ Equity and Cash Distributions” for further information.

Note 4. Inventories

The Partnership hedges substantially all of its petroleum and ethanol inventory using a variety of instruments, primarily exchange-traded futures contracts. These futures contracts are entered into when inventory is purchased and are either designated as fair value hedges against the inventory on a specific barrel basis for inventories qualifying for fair value hedge accounting or not designated and maintained as economic hedges against certain inventory of the Partnership on a specific barrel basis. Changes in fair value of these futures contracts, as well as the offsetting change in fair value on the hedged inventory, is recognized in earnings as an increase or decrease in cost of sales. All hedged inventory designated in a fair value hedge relationship is valued using the lower of cost, as determined by specific identification, or market, as determined at the product level. All petroleum and ethanol inventory not designated in a fair value hedging relationship is carried at the lower of historical cost, on a first-in, first-out basis, or market.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Convenience store inventory and Renewable Identification Numbers (“RINs”) inventory are carried at the lower of historical cost or market.

Inventories consisted of the following (in thousands):

	September 30, 2016	December 31, 2015
Distillates: home heating oil, diesel and kerosene	\$ 168,055	\$ 156,411
Gasoline	72,157	62,467
Gasoline blendstocks	38,303	32,542
Crude oil	119,942	102,253
Residual oil	21,988	12,895
Propane and other	715	1,469
Renewable identification numbers (RINs)	489	803
Convenience store inventory	16,605	20,112
Total	\$ 438,254	\$ 388,952

In addition to its own inventory, the Partnership has exchange agreements for petroleum products and ethanol with unrelated third-party suppliers, whereby it may draw inventory from these other suppliers and suppliers may draw inventory from the Partnership. Positive exchange balances are accounted for as accounts receivable and amounted to \$5.8 million and \$3.4 million at September 30, 2016 and December 31, 2015, respectively. Negative exchange balances are accounted for as accounts payable and amounted to \$19.2 million and \$12.1 million at September 30, 2016 and December 31, 2015, respectively. Exchange transactions are valued using current carrying costs.

Note 5. Derivative Financial Instruments

The Partnership principally uses derivative instruments, which include regulated exchange-traded futures and options contracts (collectively, “exchange-traded derivatives”) and physical and financial forwards and over-the-counter (“OTC”)

swaps (collectively, “OTC derivatives”), to reduce its exposure to unfavorable changes in commodity market prices and interest rates. The Partnership uses these exchange-traded and OTC derivatives to hedge commodity price risk associated with its inventory and undelivered forward commodity purchases and sales (“physical forward contracts”) and uses interest rate swap instruments to reduce its exposure to fluctuations in interest rates associated with the Partnership’s credit facilities. The Partnership accounts for derivative transactions in accordance with ASC 815, “Derivatives and Hedging,” and recognizes derivatives instruments as either assets or liabilities in the consolidated balance sheet and measures those instruments at fair value. The changes in fair value of the derivative transactions are presented currently in earnings, unless specific hedge accounting criteria are met.

The fair value of exchange-traded derivative transactions reflects amounts that would be received from or paid to the Partnership’s brokers upon liquidation of these contracts. The fair value of these exchange-traded derivative transactions are presented on a net basis, offset by the cash balances on deposit with the Partnership’s brokers, presented as brokerage margin deposits in the consolidated balance sheets. The fair value of OTC derivative transactions reflects amounts that would be received from or paid to a third party upon liquidation of these contracts under current market conditions. The fair value of these OTC derivative transactions is presented on a gross basis as derivative assets or derivative liabilities in the consolidated balance sheets, unless a legal right of offset exists. The presentation of the change in fair value of the Partnership’s exchange-traded derivatives and OTC derivative transactions depends on the intended use of the derivative and the resulting designation.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table summarizes the notional values related to the Partnership's derivative instruments outstanding at September 30, 2016:

	Units (1)	Unit of Measure
Exchange-Traded Derivatives		
Long	90,523	Thousands of barrels
Short	(95,484)	Thousands of barrels
OTC Derivatives (Petroleum/Ethanol)		
Long	6,260	Thousands of barrels
Short	(4,820)	Thousands of barrels
OTC Derivatives (Natural Gas)		
Long	13,081	Thousands of decatherms
Short	(12,672)	Thousands of decatherms
Interest Rate Swaps	\$ 100.0	Millions of U.S. dollars

(1) Number of open positions and gross notional values do not measure the Partnership's risk of loss, quantify risk or represent assets or liabilities of the Partnership, but rather indicate the relative size of the derivative instruments and are used in the calculation of the amounts to be exchanged between counterparties upon settlements.

Derivatives Accounted for as Hedges

The Partnership utilizes fair value hedges and cash flow hedges to hedge commodity price risk and interest rate risk.

Fair Value Hedges

Derivatives designated as fair value hedges are used to hedge price risk in commodity inventories and principally include exchange-traded futures contracts that are entered into in the ordinary course of business. For a derivative instrument designated as a fair value hedge, the gain or loss is recognized in earnings in the period of change together

with the offsetting change in fair value on the hedged item of the risk being hedged. Gains and losses related to fair value hedges are recognized in the consolidated statement of operations through cost of sales. These futures contracts are settled on a daily basis by the Partnership through brokerage margin accounts.

The Partnership's fair value hedges include exchange-traded futures contracts and OTC derivative contracts that are hedges against inventory with specific futures contracts matched to specific barrels. The change in fair value of these futures contracts and the change in fair value of the underlying inventory generally provide an offset to each other in the consolidated statement of operations.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table presents the gains and losses from the Partnership's derivative instruments involved in fair value hedging relationships recognized in the consolidated statements of operations for the three and nine months ended September 30, 2016 and 2015 (in thousands):

	Statement of Gain (Loss) Recognized in Income on Derivatives	Three Months Ended September 30,		Nine Months Ended September 30,	
		2016	2015	2016	2015
Derivatives in fair value hedging relationship					
Exchange-traded futures contracts and OTC derivative contracts for petroleum commodity products	Cost of sales	\$ 16,506	\$ 62,500	\$ (1,546)	\$ 72,067
Hedged items in fair value hedge relationship					
Physical inventory	Cost of sales	\$ (19,336)	\$ (65,387)	\$ 9,152	\$ (71,718)

Cash Flow Hedges

Derivatives designated as cash flow hedges are used to hedge interest rate risk from fluctuations in interest rates and may include various interest rate derivative instruments entered into with major financial institutions. For a derivative instrument being designated as a cash flow hedge, the effective portion of the derivative gain or loss is initially reported as a component of other comprehensive income (loss) and subsequently reclassified into the consolidated statement of operations through interest expense in the same period that the hedged exposure affects earnings. The ineffective portion is recognized in the consolidated statement of operations immediately.

The Partnership's cash flow hedges for the three and nine months ended September 30, 2016 and 2015 included interest rate swaps and an interest rate cap that were hedges of variability in forecasted interest payments due to changes in the interest rate on LIBOR-based borrowings, a summary of which includes the following designations:

- In October 2009, the Partnership executed an interest rate swap with a major financial institution. The swap, which became effective on May 16, 2011 and expired on May 16, 2016, was used to hedge the variability in interest payments due to changes in the one month LIBOR swap curve with respect to \$100.0 million of one-month LIBOR-based borrowings on the credit facility at a fixed rate of 3.93%.
- In April 2011, the Partnership executed an interest rate cap with a major financial institution. The rate cap, which became effective on April 13, 2011 and expired on April 13, 2016, was used to hedge the variability in interest payments due to changes in the one-month LIBOR rate above 5.5% with respect to \$100.0 million of one-month LIBOR-based borrowings on the credit facility.
- In September 2013, the Partnership executed an interest rate swap with a major financial institution. The swap, which became effective on October 2, 2013 and expires on October 2, 2018, is used to hedge the variability in cash flows in monthly interest payments due to changes in the one month LIBOR swap curve with respect to \$100.0 million of one-month LIBOR-based borrowings on the credit facility at a fixed rate of 1.819%.

In the aggregate, these hedging instruments have historically been effective in hedging the variability in interest payments due to changes in the one month LIBOR swap curve or rate with respect to \$300.0 million of one month LIBOR based borrowings on the credit facility. In June 2014 and as a result of the issuance of the Partnership's \$375.0 million aggregate principal amount of its 6.25% senior notes due 2022 (see Note 6), the Partnership determined that maintaining an excess of \$300.0 million in principal of outstanding floating-rate debt was no longer probable. Therefore, the Partnership elected to de-designate its interest rate cap and discontinued the related hedge accounting for this instrument. The interest rate cap, which expired on April 13, 2016, was not in a hedging relationship for the three and nine months ended September 30, 2016 and 2015. Accordingly, all changes in fair value of this instrument

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

subsequent to the date of de-designation were recorded in the consolidated statement of operations through interest expense.

At September 30, 2016, the Partnership had in place one interest rate swap agreement which is hedging \$100.0 million of variable rate debt and continues to be accounted for as a cash flow hedge.

The following table presents the amount of gains and losses from the Partnership's derivative instruments designated in cash flow hedging relationships recognized in the consolidated statements of operations and partners' equity for the three and nine months ended September 30, 2016 and 2015 (in thousands):

Interest rate cap	—	(16)	Interest expense	—	—
Total	\$ 1,199	\$ 1,349		\$ —	\$ —

The amount of gain (loss) recognized in income as ineffectiveness for derivatives designated in cash flow hedging relationships was \$0 for the three and nine months ended September 30, 2016 and 2015.

Derivatives Not Accounted for as Hedges

The Partnership utilizes petroleum and ethanol commodity contracts, natural gas commodity contracts and foreign currency derivatives to hedge price and currency risk in certain commodity inventories and physical forward contracts.

Petroleum and Ethanol Commodity Contracts

The Partnership uses exchange-traded derivative contracts to hedge price risk in certain commodity inventories which do not qualify for fair value hedge accounting or are not designated by the Partnership as fair value hedges. Additionally, the Partnership uses exchange-traded derivative contracts, and occasionally financial forward and OTC swap agreements, to hedge commodity price exposure associated with its physical forward contracts which are not designated by the Partnership as cash flow hedges. These physical forward contracts, to the extent they meet the definition of a derivative, are considered OTC physical forwards and are reflected as derivative assets or derivative liabilities in the consolidated balance sheet. The related exchange-traded derivative contracts (and financial forward and OTC swaps, if applicable) are also reflected as brokerage margin deposits (and derivative assets or derivative liabilities, if applicable) in the consolidated balance sheet, thereby creating an economic hedge. Changes in fair value of these

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

derivative instruments are recognized in the consolidated statement of operations through cost of sales. These exchange-traded derivatives are settled on a daily basis by the Partnership through brokerage margin accounts.

While the Partnership seeks to maintain a position that is substantially balanced within its commodity product purchase and sale activities, it may experience net unbalanced positions for short periods of time as a result of variances in daily purchases and sales and transportation and delivery schedules as well as other logistical issues inherent in the business, such as weather conditions. In connection with managing these positions, the Partnership is aided by maintaining a constant presence in the marketplace. The Partnership also engages in a controlled trading program for up to an aggregate of 250,000 barrels of commodity products at any one point in time. Changes in fair value of these derivative instruments are recognized in the consolidated statement of operations through cost of sales.

Natural Gas Commodity Contracts

The Partnership uses physical forward purchase contracts to hedge price risk associated with the marketing and selling of natural gas to third-party users. These physical forward purchase commitments for natural gas are typically executed when the Partnership enters into physical forward sale commitments of product for physical delivery. These physical forward contracts, to the extent they meet the definition of a derivative, are reflected as derivative assets and derivative liabilities in the consolidated balance sheet. Changes in fair value of the forward purchase and sale commitments are recognized in the consolidated statement of operations through cost of sales.

Foreign Currency Contracts

The Partnership uses forward foreign currency contracts to hedge certain foreign denominated (Canadian) commodity product purchases. These forward foreign currency contracts are not designated by the Partnership as hedges and are reflected as prepaid expenses and other current assets or accrued expenses and other current liabilities in the consolidated balance sheets. Changes in fair values of these forward foreign currency contracts are reflected in cost of sales.

The following table presents the gains and losses from the Partnership's derivative instruments not involved in a hedging relationship recognized in the consolidated statements of operations for the three and nine months ended September 30, 2016 and 2015 (in thousands):

	Statement of Gain (Loss)	Three Months Ended		Nine Months Ended	
	Recognized in	September 30,		September 30,	
	Income on Derivatives	2016	2015	2016	2015
Derivatives not designated as hedging instruments	Cost of sales	\$ 1,883	\$ (1,013)	\$ 1,794	\$ 3,500
Commodity contracts	Cost of sales	(32)	3	71	35
Forward foreign currency contracts					
Total		\$ 1,851	\$ (1,010)	\$ 1,865	\$ 3,535

Margin Deposits

All of the Partnership's exchange-traded derivative contracts (designated and not designated) are transacted through clearing brokers. The Partnership deposits initial margin with the clearing brokers, along with variation margin, which is paid or received on a daily basis, based upon the changes in fair value of open futures contracts and settlement of closed futures contracts. Cash balances on deposit with clearing brokers and open equity are presented on a net basis within brokerage margin deposits in the consolidated balance sheets.

Commodity Contract Derivatives and Other Derivative Activity

The Partnership's commodity contract derivatives and other derivative activity include: (i) exchange-traded derivative contracts that are hedges against inventory and either do not qualify for hedge accounting or are not

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

designated in a hedge accounting relationship, (ii) exchange-traded derivative contracts used to economically hedge physical forward contracts, (iii) financial forward and OTC swap agreements used to economically hedge physical forward contracts and (iv) the derivative instruments under the Partnership's controlled trading program. The Partnership does not take the normal purchase and sale exemption available under ASC 815 for its physical forward contracts.

The following table presents the fair value of each classification of the Partnership's derivative instruments and its location in the consolidated balance sheets at September 30, 2016 and December 31, 2015 (in thousands):

	Balance Sheet Location	September 30, 2016		Total

(1) Forward derivative contracts include the Partnership's petroleum and ethanol physical and financial forwards and OTC swaps.

Credit Risk

The Partnership's derivative financial instruments do not contain credit risk related to other contingent features that could cause accelerated payments when these financial instruments are in net liability positions.

The Partnership is exposed to credit loss in the event of nonperformance by counterparties to the Partnership's exchange-traded and OTC derivative contracts, but the Partnership has no current reason to expect any material nonperformance by any of these counterparties. Exchange-traded derivative contracts, the primary derivative instrument utilized by the Partnership, are traded on regulated exchanges, greatly reducing potential credit risks. The Partnership utilizes primarily three clearing brokers, all major financial institutions, for all New York Mercantile Exchange

(“NYMEX”), Chicago Mercantile Exchange (“CME”) and Intercontinental Exchange (“ICE”) derivative transactions and the right of offset exists with these financial institutions under master netting agreements. Accordingly, the fair value of the Partnership’s exchange-traded derivative instruments is presented on a net basis in the consolidated balance sheets. Exposure on OTC derivatives is limited to the amount of the recorded fair value as of the balance sheet dates.

Note 6. Debt and Financing Obligations

Credit Agreement

Certain subsidiaries of the Partnership, as borrowers, and the Partnership and certain of its subsidiaries, as guarantors, have a \$1.475 billion senior secured credit facility (the “Credit Agreement”). The Credit Agreement will mature on April 30, 2018.

As of September 30, 2016, the two facilities under the Credit Agreement included:

- a working capital revolving credit facility to be used for working capital purposes and letters of credit in the principal amount equal to the lesser of the Partnership’s borrowing base and \$900.0 million; and
- a \$575.0 million revolving credit facility to be used for acquisitions, joint ventures, capital expenditures, letters of credit and general corporate purposes.

In addition, the Credit Agreement has an accordion feature whereby the Partnership may request on the same terms and conditions of its then-existing credit agreement, provided no Event of Default (as defined in the Credit Agreement) then exists, an increase to the working capital revolving credit facility, the revolving credit facility, or both, by up to another \$300.0 million, in the aggregate, for a total credit facility of up to \$1.775 billion. The Partnership cannot provide assurance, however, that its lending group will agree to fund any request by the Partnership for additional amounts in excess of the total available commitments of \$1.475 billion.

In addition, the Credit Agreement includes a swing line pursuant to which Bank of America, N.A., as the swing line lender, may make swing line loans in U.S. Dollars in an aggregate amount equal to the lesser of (a) \$50.0 million and (b) the Aggregate WC Commitments (as defined in the Credit Agreement). Swing line loans will bear interest at the Base Rate (as defined in the Credit Agreement). The swing line is a sub-portion of the working capital revolving credit facility and is not an addition to the total available commitments of \$1.475 billion.

Pursuant to the Credit Agreement, and in connection with any agreement by and between a Loan Party and a Lender (as such terms are defined in the Credit Agreement) or affiliate thereof (an “AR Buyer”), a Loan Party may sell certain of its accounts receivables to an AR Buyer. The Loan Parties are permitted to sell or transfer any account receivable to an AR Buyer only pursuant to the provisions provided in the Credit Agreement. To date, the level of receivables sold has not been significant, and the Partnership has accounted for such transfers as sales pursuant to ASC 860, “Transfers and Servicing.” Due to the short term nature of the receivables sold to date, no servicing obligation has been recorded because it would have been de minimis.

Availability under the working capital revolving credit facility is subject to a borrowing base which is redetermined from time to time based on specific advance rates on eligible current assets. Under the Credit Agreement, borrowings under the working capital revolving credit facility cannot exceed the then current borrowing base. Availability under the borrowing base may be affected by events beyond the Partnership’s control, such as changes in petroleum product prices, collection cycles, counterparty performance, advance rates and limits and general economic conditions. These and other events could require the Partnership to seek waivers or amendments of covenants or alternative sources of financing or to reduce expenditures. The Partnership can provide no assurance that such waivers, amendments or alternative financing could be obtained or, if obtained, would be on terms acceptable to the Partnership.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Borrowings under the working capital revolving credit facility bear interest at (1) the Eurocurrency rate plus 2.00% to 2.50%, (2) the cost of funds rate plus 2.00% to 2.50%, or (3) the base rate plus 1.00% to 1.50%, each depending on the Utilization Amount (as defined in the Credit Agreement). Borrowings under the revolving credit facility bear interest at (1) the Eurocurrency rate plus 2.25% to 3.50%, (2) the cost of funds rate plus 2.25% to 3.50%, or (3) the base rate plus 1.25% to 2.50%, each depending on the Combined Total Leverage Ratio (as defined in the Credit Agreement).

The average interest rates for the Credit Agreement were 3.4% and 3.8% for the three months ended September 30, 2016 and 2015, respectively, and 3.6% and 3.5% for the nine months ended September 30, 2016 and 2015, respectively. The decline in the average interest rates is due to the May 2016 expiration of an interest rate swap.

As of September 30, 2016, the Partnership had one interest rate swap which was used to hedge the variability in interest payments under the Credit Agreement due to changes in LIBOR rates. See Note 5 for additional information.

The Credit Agreement provides for a letter of credit fee equal to the then applicable working capital rate or then applicable revolver rate (each such rate as defined in the Credit Agreement) per annum for each letter of credit issued. In addition, the Partnership incurs a commitment fee on the unused portion of each facility under the Credit Agreement, ranging from 0.375% to 0.50% per annum.

The Partnership classifies a portion of its working capital revolving credit facility as a current liability and a portion as a long-term liability. The portion classified as a long-term liability represents the amounts expected to be outstanding during the entire year based on an analysis of historical daily borrowings under the working capital revolving credit facility, the seasonality of borrowings, forecasted future working capital requirements and forward product curves, and because the Partnership has a multi-year, long-term commitment from its bank group. Accordingly, at September 30, 2016, the Partnership estimated working capital revolving credit facility borrowings will equal or exceed \$150.0 million over the next 12 months and, therefore, classified \$168.0 million as the current portion at September 30, 2016, representing the amount the Partnership expects to pay down over the next 12 months. The long-term portion of the working capital revolving credit facility was \$150.0 million and \$150.0 million at September 30, 2016 and December 31, 2015, respectively, and the current portion was \$168.0 million and \$98.1 million at September 30, 2016 and December 31, 2015, respectively. The increase in total borrowings under the working capital revolving credit facility of \$69.9 million from December 31, 2015 was primarily due to cash used in operating assets and liabilities during the year. Inventory increased due to higher prices, accounts payable decreased due to seasonality relating to the heating season and to lower crude oil volume and accounts receivable decreased due,

in part, due to lower crude oil and logistics activity.

As of September 30, 2016, the Partnership had total borrowings outstanding under the Credit Agreement of \$498.8 million, including \$180.8 million outstanding on the revolving credit facility. In addition, the Partnership had outstanding letters of credit of \$51.8 million. Subject to borrowing base limitations, the total remaining availability for borrowings and letters of credit was \$924.4 million and \$1.2 billion at September 30, 2016 and December 31, 2015, respectively.

The Credit Agreement is secured by substantially all of the assets of the Partnership and the Partnership's wholly owned subsidiaries and is guaranteed by the Partnership and its subsidiaries with the exception of Basin Transload.

The Credit Agreement imposes certain requirements on the borrowers including, for example, a prohibition against distributions if any potential default or Event of Default (as defined in the Credit Agreement) would occur as a result thereof, and certain limitations on the Partnership's ability to grant liens, make certain loans or investments, incur additional indebtedness or guarantee other indebtedness, make any material change to the nature of the Partnership's business or undergo a fundamental change, make any material dispositions, acquire another company, enter into a

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

merger, consolidation, sale leaseback transaction or purchase of assets or make capital expenditures in excess of specified levels.

The Credit Agreement imposes financial covenants that require the Partnership to maintain certain minimum working capital amounts, a minimum combined interest coverage ratio, a maximum senior secured leverage ratio and a maximum total leverage ratio. The Partnership was in compliance with the foregoing covenants at September 30, 2016. The Credit Agreement also contains a representation whereby there can be no event or circumstance, either individually or in the aggregate, that has had or could reasonably be expected to have a Material Adverse Effect (as defined in the Credit Agreement). In addition, the Credit Agreement limits distributions by the Partnership to its unitholders to the amount of Available Cash (as defined in the Partnership's partnership agreement).

6.25% Senior Notes

On June 19, 2014, the Partnership and GLP Finance Corp. ("GLP Finance" and, together with the Partnership, the "Issuers") entered into a Purchase Agreement (the "Purchase Agreement") with the Initial Purchasers (as defined therein) (the "Initial Purchasers") pursuant to which the Issuers agreed to sell \$375.0 million aggregate principal amount of the Issuers' 6.25% senior notes due 2022 (the "6.25% Notes") to the Initial Purchasers in a private placement exempt from the registration requirements under the Securities Act of 1933, as amended (the "Securities Act"). The 6.25% Notes were resold by the Initial Purchasers to qualified institutional buyers pursuant to Rule 144A under the Securities Act and to persons outside the United States pursuant to Regulation S under the Securities Act.

The Purchase Agreement contained customary representations and warranties of the parties and indemnification and contribution provisions under which the Issuers and the subsidiary guarantors, on one hand, and the Initial Purchasers, on the other, agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act. In addition, the Purchase Agreement required the execution of a registration rights agreement, described below, relating to the 6.25% Notes. Closing of the offering occurred on June 24, 2014.

Indenture

In connection with the private placement of the 6.25% Notes on June 24, 2014, the Issuers and the subsidiary guarantors and Deutsche Bank Trust Company Americas, as trustee, entered into an indenture (the "Indenture").

The 6.25% Notes mature on July 15, 2022 with interest accruing at a rate of 6.25% per annum and payable semi-annually in arrears on January 15 and July 15 of each year, commencing January 15, 2015. The 6.25% Notes are guaranteed on a joint and several senior unsecured basis by each of the Issuers and the subsidiary guarantors to the extent set forth in the Indenture. Upon a continuing event of default, the trustee or the holders of at least 25% in principal amount of the 6.25% Notes may declare the 6.25% Notes immediately due and payable, except that an event of default resulting from entry into a bankruptcy, insolvency or reorganization with respect to the Partnership, any restricted subsidiary of the Partnership that is a significant subsidiary or any group of its restricted subsidiaries that, taken together, would constitute a significant subsidiary of the Partnership, will automatically cause the 6.25% Notes to become due and payable.

The Issuers have the option to redeem up to 35% of the 6.25% Notes prior to July 15, 2017 at a redemption price (expressed as a percentage of principal amount) of 106.25% plus accrued and unpaid interest, if any. The Issuers have the option to redeem the 6.25% Notes, in whole or in part, at any time on or after July 15, 2017, at the redemption prices of 104.688% for the twelve-month period beginning on July 15, 2017, 103.125% for the twelve-month period beginning July 15, 2018, 101.563% for the twelve-month period beginning July 15, 2019, and 100.0% beginning on July 15, 2020 and at any time thereafter, together with any accrued and unpaid interest to the date of redemption. In addition, before July 15, 2017, the Issuers may redeem all or any part of the 6.25% Notes at a redemption price equal to the sum of the principal amount thereof, plus a make whole premium at the redemption date, plus accrued and unpaid interest, if any, to

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

the redemption date. The holders of the notes may require the Issuers to repurchase the 6.25% Notes following certain asset sales or a Change of Control (as defined in the Indenture) at the prices and on the terms specified in the Indenture.

The Indenture contains covenants that will limit the Partnership's ability to, among other things, incur additional indebtedness and issue preferred securities, make certain dividends and distributions, make certain investments and other restricted payments, restrict distributions by its subsidiaries, create liens, enter into sale-leaseback transactions, sell assets or merge with other entities. Events of default under the Indenture include (i) a default in payment of principal of, or interest or premium, if any, on, the 6.25% Notes, (ii) breach of the Partnership's covenants under the Indenture, (iii) certain events of bankruptcy and insolvency, (iv) any payment default or acceleration of indebtedness of the Partnership or certain subsidiaries if the total amount of such indebtedness unpaid or accelerated exceeds \$15.0 million and (v) failure to pay within 60 days uninsured final judgments exceeding \$15.0 million.

Registration Rights Agreement

On June 24, 2014, the Issuers and the subsidiary guarantors entered into a registration rights agreement (the "Registration Rights Agreement") with the Initial Purchasers in connection with the Issuers' private placement of the 6.25% Notes. Under the Registration Rights Agreement, the Issuers and the subsidiary guarantors agreed to file and use commercially reasonable efforts to cause to become effective a registration statement relating to an offer to exchange the 6.25% Notes for an issue of SEC-registered notes with terms identical to the 6.25% Notes (except that the exchange notes are not subject to restrictions on transfer or to any increase in annual interest rate for failure to comply with the Registration Rights Agreement) that are registered under the Securities Act so as to permit the exchange offer to be consummated by the 360th day after June 24, 2014. The exchange offer was completed on April 21, 2015, and 100% of the 6.25% Notes were exchanged for SEC-registered notes.

7.00% Senior Notes

On June 1, 2015, the Issuers entered into a Purchase Agreement (the "7.00% Notes Purchase Agreement") with the Initial Purchasers (as defined therein) (the "7.00% Notes Initial Purchasers") pursuant to which the Issuers agreed to sell \$300.0 million aggregate principal amount of the Issuers' 7.00% senior notes due 2023 (the "7.00% Notes") to the 7.00% Notes Initial Purchasers in a private placement exempt from the registration requirements under the Securities Act. The 7.00% Notes were resold by the 7.00% Notes Initial Purchasers to qualified institutional buyers pursuant to Rule 144A under the Securities Act and to persons outside the United States pursuant to Regulation S under the

Securities Act.

The 7.00% Notes Purchase Agreement contained customary representations and warranties of the parties and indemnification and contribution provisions under which the Issuers and the subsidiary guarantors, on one hand, and the 7.00% Notes Initial Purchasers, on the other, agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act. In addition, the 7.00% Notes Purchase Agreement required the execution of a registration rights agreement, described below, relating to the 7.00% Notes. Closing of the offering occurred on June 4, 2015.

Indenture

In connection with the private placement of the 7.00% Notes on June 4, 2015 the Issuers and the subsidiary guarantors and Deutsche Bank Trust Company Americas, as trustee, entered into an indenture (the “7.00% Notes Indenture”).

The 7.00% Notes will mature on June 15, 2023 with interest accruing at a rate of 7.00% per annum and payable semi-annually in arrears on June 15 and December 15 of each year, commencing December 15, 2015. The 7.00% Notes are guaranteed on a joint and several senior unsecured basis by each of the Issuers and the subsidiary guarantors to the

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

extent set forth in the 7.00% Notes Indenture. Upon a continuing event of default, the trustee or the holders of at least 25% in principal amount of the 7.00% Notes may declare the 7.00% Notes immediately due and payable, except that an event of default resulting from entry into a bankruptcy, insolvency or reorganization with respect to the Partnership, any restricted subsidiary of the Partnership that is a significant subsidiary or any group of its restricted subsidiaries that, taken together, would constitute a significant subsidiary of the Partnership, will automatically cause the 7.00% Notes to become due and payable.

The Issuers will have the option to redeem up to 35% of the 7.00% Notes prior to June 15, 2018 at a redemption price (expressed as a percentage of principal amount) of 107.00% plus accrued and unpaid interest, if any. The Issuers have the option to redeem the 7.00% Notes, in whole or in part, at any time on or after June 15, 2018, at the redemption prices of 105.250% for the twelve-month period beginning June 15, 2018, 103.500% for the twelve-month period beginning June 15, 2019, 101.750% for the twelve-month period beginning June 15, 2020, and 100.0% beginning June 15, 2021 and at any time thereafter, together with any accrued and unpaid interest to the date of redemption. In addition, before June 15, 2018, the Issuers may redeem all or any part of the 7.00% Notes at a redemption price equal to the sum of the principal amount thereof, plus a make whole premium, plus accrued and unpaid interest, if any, to the redemption date. The holders of the 7.00% Notes may require the Issuers to repurchase the 7.00% Notes following certain asset sales or a Change of Control (as defined in the 7.00% Notes Indenture) at the prices and on the terms specified in the 7.00% Notes Indenture.

The 7.00% Notes Indenture contains covenants that will limit the Partnership's ability to, among other things, incur additional indebtedness and issue preferred securities, make certain dividends and distributions, make certain investments and other restricted payments, restrict distributions by its subsidiaries, create liens, enter into sale-leaseback transactions, sell assets or merge with other entities. Events of default under the 7.00% Notes Indenture include (i) a default in payment of principal of, or interest or premium, if any, on, the 7.00% Notes, (ii) breach of the Partnership's covenants under the 7.00% Notes Indenture, (iii) certain events of bankruptcy and insolvency, (iv) any payment default or acceleration of indebtedness of the Partnership or certain subsidiaries if the total amount of such indebtedness unpaid or accelerated exceeds \$50.0 million and (v) failure to pay within 60 days uninsured final judgments exceeding \$50.0 million.

Registration Rights Agreement

On June 4, 2015, the Issuers and the subsidiary guarantors entered into a registration rights agreement (the "7.00% Notes Registration Rights Agreement") with the 7.00% Notes Initial Purchasers in connection with the Issuers' private placement of the 7.00% Notes. Under the 7.00% Notes Registration Rights Agreement, the Issuers and the subsidiary guarantors agreed to file and use commercially reasonable efforts to cause to become effective a registration statement

relating to an offer to exchange the 7.00% Notes for an issue of SEC-registered notes with terms identical to the 7.00% Notes (except that the exchange notes are not subject to restrictions on transfer or to any increase in annual interest rate for failure to comply with the 7.00% Notes Registration Rights Agreement) that are registered under the Securities Act so as to permit the exchange offer to be consummated by the 420th day after June 4, 2015. The exchange offer was completed on October 22, 2015, and 100% of the 7.00% Notes were exchanged for SEC-registered notes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Financing Obligations

Capitol Acquisition

In connection with the Capitol acquisition on June 1, 2015 (see Note 2), the Partnership assumed a financing obligation of \$89.6 million associated with two sale-leaseback transactions by Capitol for 53 leased sites that did not meet the criteria for sale accounting. During the term of these leases, which expire in May 2028 and September 2029, in lieu of recognizing lease expense for the lease rental payments, the Partnership incurs interest expense associated with the financing obligation. Interest expense of approximately \$2.4 million and \$2.4 million was recorded for the three months ended September 30, 2016 and 2015, respectively, and \$7.2 million and \$3.2 million was recorded for the nine months ended September 30, 2016 and 2015, respectively, and is included in interest expense in the accompanying statements of operations. The financing obligation will amortize through expiration of the lease based upon the lease rental payments which were \$2.4 million and \$2.3 million for the three months ended September 30, 2016 and 2015, respectively, and \$7.1 million and \$3.1 million for the nine months ended September 30, 2016 and 2015, respectively. The financing obligation balance outstanding at September 30, 2016 was \$89.9 million associated with the Capitol acquisition.

Sale Leaseback Transaction

On June 29, 2016, the Partnership, through its wholly owned subsidiaries, Global Companies, GMG and Alliance, and Alliance's wholly owned subsidiary, Bursaw Oil LLC, sold to a premier institutional real estate investor (the "Buyer") real property assets, including the buildings, improvements and appurtenances thereto, at 30 gasoline stations and convenience stores located in Connecticut, Maine, Massachusetts, New Hampshire and Rhode Island (the "Sale Leaseback Sites") for a purchase price of approximately \$63.5 million. In connection with the sale, the Partnership entered into a Master Unitary Lease Agreement with the Buyer to lease back the real property assets sold with respect to the Sale Leaseback Sites (such Master Lease Agreement, together with the Sale Leaseback Sites, the "Sale Leaseback Transaction"). The Master Unitary Lease Agreement provides for an initial term of fifteen years that expires in 2031. The Partnership has one successive option to renew the lease for a ten-year period followed by two successive options to renew the lease for five-year periods on the same terms, covenants, conditions and rental as the primary non-revocable lease term. The Partnership does not have any residual interest nor the option to repurchase any of the sites at the end of the lease term. The proceeds from the Sale Leaseback Transaction were used to reduce indebtedness outstanding under the Partnership's revolving credit facility.

The sale did not meet the criteria for sale accounting as of September 30, 2016 due to prohibited continuing involvement. Specifically, the sale is considered a partial-sale transaction, which is a form of continuing involvement as the Partnership did not transfer to the Buyer the storage tank systems which are considered integral equipment of the Sale Leaseback Sites. Additionally, a portion of the sold sites have material sub-lease arrangements, which is also a form of continuing involvement. As the sale of the Sale-Leaseback Sites did not meet the criteria for sale accounting, the Partnership did not recognize a gain or loss on the sale of the Sale Leaseback Sites for the three and nine months ended September 30, 2016.

As a result of not meeting the criteria for sale accounting for these sites, the Sale Leaseback Transaction is accounted for as a financing arrangement. As such, the property and equipment sold and leased back by the Partnership has not been derecognized and will continue to be depreciated. The Partnership recognized a corresponding financing obligation of \$62.5 million equal to the \$63.5 million cash proceeds received for the sale of these sites, net of \$1.0 million financing fees. During the term of the lease, which expires in June 2031, in lieu of recognizing lease expense for the lease rental payments, the Partnership will incur interest expense associated with the financing obligation. Lease rental payments will be recognized as both interest expense and a reduction of the principal balance associated with the financing obligation. Interest expense and lease rental payments were \$1.1 million and \$1.1 million for the three and nine months ended September 30, 2016, respectively. The financing obligation balance outstanding at September 30, 2016 was \$62.5 million associated with the Sale Leaseback Transaction.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following provides future minimum lease payments, which are subject to annual adjustments based on a consumer price index based calculation, for the non-cancelable operating lease for each of the next five years ending December 31:

2016 (10/1/16 - 12/31/16)	\$ 1,102
2017	4,411
2018	4,411
2019	4,411
2020	4,411
Thereafter	46,286
Total	\$ 65,032

The following provides future minimum sublease rentals from third-party tenants of the sold Sale Leaseback Sites for each of the next five years ending December 31:

2016 (10/1/16 - 12/31/16)	\$ 507
2017	1,527
2018	905
2019	434
2020	169
Total	\$ 3,542

Total rental income from third-party tenants of the sold Sale Leaseback Sites was \$0.6 million for the three and nine months ended September 30, 2016.

Deferred Financing Fees

The Partnership incurs bank fees related to its Credit Agreement and other financing arrangements. These deferred financing fees are capitalized and amortized over the life of the Credit Agreement or other financing

arrangements. The Partnership capitalized additional financing fees of \$1.0 million for the nine months ended September 30, 2016, including recording, deed transfer, survey and legal fees associated with the financing obligation recognized as part of the Sale Leaseback Transaction and \$2.0 million associated with the February 2016 amendment to the Credit Agreement. The Partnership had unamortized deferred financing fees of \$15.7 million and \$19.0 million at September 30, 2016 and December 31, 2015, respectively.

Unamortized fees related to the Credit Agreement are included in other current assets and other long-term assets and amounted to \$7.8 million and \$11.2 million at September 30, 2016 and December 31, 2015, respectively. Unamortized fees related to the senior notes are presented as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, and amounted to \$6.9 million and \$7.8 million at September 30, 2016 and December 31, 2015, respectively. Unamortized fees related to the Sale-Leaseback Transaction are presented as a direct deduction from the carrying amount of the financing obligation and amounted to \$1.0 million at September 30, 2016.

On February 24, 2016, the Partnership voluntarily elected to reduce its working capital revolving credit facility from \$1.0 billion to \$900.0 million and its revolving credit facility from \$775.0 million to \$575.0 million. As a result, the Partnership incurred expenses of approximately \$1.8 million associated with the write-off of a portion of its deferred financing fees. These expenses are included in interest expense in the accompanying statement of operations for the nine months ended September 30, 2016.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Amortization expense of approximately \$1.5 million for each of the three months ended September 30, 2016 and 2015, and \$4.5 million and \$4.4 million for the nine months ended September 30, 2016 and 2015, respectively, is included in interest expense in the accompanying consolidated statements of operations.

Note 7. Related Party Transactions

The Partnership was a party to an exclusive Second Amended and Restated Terminal Storage Rental and Throughput Agreement, as amended (the “Terminal Storage Rental and Throughput Agreement”), with GPC, an affiliate of the Partnership that is 100% owned by members of the Slifka family, with respect to the Revere Terminal in Revere, Massachusetts. On January 14, 2015, the Partnership acquired the Revere Terminal from GPC and related entities, and the Terminal Storage Rental and Throughput Agreement was terminated. Prior to the acquisition, the agreement was accounted for as an operating lease. The expenses under this agreement totaled \$0.8 million for the nine months ended September 30, 2015.

The Partnership was a party to an Amended and Restated Services Agreement with GPC, whereby GPC provided certain terminal operating management services to the Partnership and used certain administrative, accounting and information processing services of the Partnership. The expenses from these services totaled approximately \$8,000 for the nine months ended September 30, 2015.

On March 11, 2015, the Partnership entered into the following amendments and restatements to its shared services agreements: (i) Global Companies entered into an Amended and Restated Services Agreement with AE Holdings Corp. (the “AE Holdings Amended and Restated Services Agreement”), and (ii) certain of the Partnership’s subsidiaries entered into a Second Amended and Restated Services Agreement with GPC (the “GPC Second Amended and Restated Services Agreement”).

Under the AE Holdings Amended and Restated Services Agreement, the Partnership provided AE Holdings with certain tax, accounting, treasury and legal support services for which AE Holdings paid the Partnership an aggregate of \$15,000 per year in equal monthly installments until it was voluntarily dissolved effective on July 10, 2015. Under the GPC Second Amended and Restated Services Agreement, GPC no longer provides the Partnership with terminal, environmental and operational support services, but the Partnership continues to provide GPC with certain tax, accounting, treasury, legal, information technology, human resources and financial operations support services for which GPC pays the Partnership a monthly services fee at an agreed amount subject to the approval by the Conflicts Committee of the board of directors of the General Partner. The GPC Second Amended and Restated Services

Agreement is for an indefinite term and any party may terminate some or all of the services upon ninety (90) days' advanced written notice. As of September 30, 2016, no such notice of termination was given by GPC.

The General Partner employs substantially all of the Partnership's employees, except for most of its gasoline station and convenience store employees, who are employed by GMG. The Partnership reimburses the General Partner for expenses incurred in connection with these employees. These expenses, including payroll, payroll taxes and bonus accruals, were \$21.4 million and \$27.0 million for the three months ended September 30, 2016 and 2015, respectively, and \$70.6 million and \$83.2 million for the nine months ended September 30, 2016 and 2015, respectively. The Partnership also reimburses the General Partner for its contributions under the General Partner's 401(k) Savings and Profit Sharing Plans and the General Partner's qualified and non-qualified pension plans.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The table below presents trade receivables with GPC and the Partnership and receivables from the General Partner (in thousands):

	September 30, 2016	December 31, 2015
Receivables from GPC	\$ 6	\$ —
Receivables from the General Partner (1)	2,329	2,578
Total	\$ 2,335	\$ 2,578

(1) Receivables from the General Partner reflect the Partnership's prepayment of payroll taxes and payroll accruals to the General Partner.

Note 8. Partners' Equity and Cash Distributions

Partners' Equity

Partners' equity at September 30, 2016 consisted of 33,995,563 common units issued, including 7,433,829 common units held by affiliates of the General Partner, including directors and executive officers, collectively representing a 99.33% limited partner interest in the Partnership, and 230,303 general partner units representing a 0.67% general partner interest in the Partnership. There have been no changes to partners' equity during the nine months ended September 30, 2016.

Cash Distributions

The Partnership intends to make cash distributions to unitholders on a quarterly basis, although there is no assurance as to the future cash distributions since they are dependent upon future earnings, capital requirements, financial

condition and other factors. The Credit Agreement prohibits the Partnership from making cash distributions if any potential default or Event of Default, as defined in the Credit Agreement, occurs or would result from the cash distribution. The indentures governing the Partnership's outstanding senior notes also limit the Partnership's ability to make distributions to its unitholders in certain circumstances.

Within 45 days after the end of each quarter, the Partnership will distribute all of its Available Cash (as defined in its partnership agreement) to unitholders of record on the applicable record date. The amount of Available Cash is all cash on hand on the date of determination of Available Cash for the quarter, less the amount of cash reserves established by the General Partner to provide for the proper conduct of the Partnership's business, to comply with applicable law, any of the Partnership's debt instruments, or other agreements or to provide funds for distributions to unitholders and the General Partner for any one or more of the next four quarters.

The Partnership will make distributions of Available Cash from distributable cash flow for any quarter in the following manner: 99.33% to the common unitholders, pro rata, and 0.67% to the General Partner, until the Partnership distributes for each outstanding common unit an amount equal to the minimum quarterly distribution for that quarter; and thereafter, cash in excess of the minimum quarterly distribution is distributed to the unitholders and the General Partner based on the percentages as provided below.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

As holder of the IDRs, the General Partner is entitled to incentive distributions if the amount that the Partnership distributes with respect to any quarter exceeds specified target levels shown below:

	Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions			
		Unitholders		General Partner	
First Target Distribution	up to \$0.4625	99.33	%	0.67	%
Second Target Distribution	above \$0.4625 up to \$0.5375	86.33	%	13.67	%
Third Target Distribution	above \$0.5375 up to \$0.6625	76.33	%	23.67	%
Thereafter	above \$0.6625	51.33	%	48.67	%

The Partnership paid the following cash distributions during 2016 (in thousands, except per unit data):

Cash Distribution Payment Date	Earned for the Quarter Ended	Per Unit Cash Distribution	Common Units	General Partner	Incentive Distribution	Total Cash Distribution
2/16/2016	12/31/15	\$ 0.4625	\$ 15,723	\$ 106	\$ —	\$ 15,829
5/16/2016	03/31/16	0.4625	15,723	106	—	15,829
8/12/2016	06/30/16	0.4625	15,723	106	—	15,829

In addition, on October 26, 2016, the board of directors of the General Partner declared a quarterly cash distribution of \$0.4625 per unit (\$1.85 per unit on an annualized basis) on all of its outstanding common units for the period from July 1, 2016 through September 30, 2016 to the Partnership's unitholders of record as of the close of business on November 14, 2016.

Note 9. Unitholders' Equity

Equity Offering

On June 11, 2015, the Partnership entered into an underwriting agreement relating to the public offering of 3,000,000 common units at a price to the public of \$38.12 per common unit. On June 16, 2015, the Partnership completed the offering, and the net proceeds of approximately \$109.3 million (after deducting underwriting discounts and estimated expenses) were used to reduce indebtedness outstanding under the Partnership's revolving credit facility.

At-the-Market Offering Program

On May 19, 2015, the Partnership entered into an equity distribution agreement pursuant to which the Partnership may sell from time to time through its sales agents, following a standard due diligence effort, the Partnership's common units having an aggregate offering price of up to \$50.0 million. Sales of the common units, if any, will be made by any method permitted by law deemed to be an "at-the-market" offering, including ordinary brokers' transactions through the facilities of the New York Stock Exchange, to or through a market maker, or directly on or through an electronic communication network, a "dark pool" or any similar market venue, at market prices, in block transactions, or as otherwise agreed upon by the Partnership and one or more of its sales agents.

The Partnership may also sell common units to one or more of its sales agents as principal for its own account at a price to be agreed upon at the time of sale. Any sale of common units to a sales agent as principal would be pursuant to the terms of a separate agreement between the Partnership and such sales agent.

The Partnership intends to use the net proceeds from any sales pursuant to the at-the-market offering program, after deducting the sales agents' commissions and the Partnership's offering expenses, for general partnership purposes, which may include, among other things, repayment of indebtedness, acquisitions and capital expenditures.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The sales agents and/or affiliates of each of the sales agents have, from time to time, performed, and may in the future perform, various financial advisory and commercial and investment banking services for the Partnership and its affiliates, for which they have received and in the future will receive customary compensation and expense reimbursement. Affiliates of the sales agents are lenders under the Partnership's credit facility and, accordingly, may receive a portion of the net proceeds from this offering if and to the extent any proceeds are used to reduce outstanding borrowings under the Partnership's credit facility.

As of September 30, 2016, no common units were sold by the Partnership pursuant to the at-the-market offering program.

Note 10. Segment Reporting

The Partnership engages in the purchasing, selling, storing and logistics of transporting petroleum and related products, including domestic and Canadian crude oil, gasoline and gasoline blendstocks (such as ethanol), distillates (such as home heating oil, diesel and kerosene), residual oil, renewable fuels, natural gas and propane. The Partnership also receives revenue from convenience store sales and gasoline station rental income. The Partnership's operating segments are based upon the revenue sources for which discrete financial information is reviewed by the chief operating decision maker (the "CODM") and include Wholesale, GDSO and Commercial. Each of these operating segments generates revenues and incurs expenses and is evaluated for operating performance on a regular basis.

These operating segments are also the Partnership's reporting segments based on the way the CODM manages the business and on the similarity of customers and expected long-term financial performance of each segment. For the three and nine months ended September 30, 2016 and 2015, the Commercial operating segment did not meet the quantitative metrics for disclosure as a reportable segment on a stand-alone basis as defined in accounting guidance related to segment reporting. However, the Partnership has elected to present segment disclosures for the Commercial operating segment as management believes such disclosures are helpful to the user of the Partnership's financial information. The accounting policies of the segments are the same as those described in Note 2, "Summary of Significant Accounting Policies," in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2015.

In the Wholesale reporting segment, the Partnership sells branded and unbranded gasoline and gasoline blendstocks and diesel to wholesale distributors. The Partnership transports these products by railcars, barges and/or pipelines pursuant to spot or long term contracts. The Partnership aggregates crude oil by truck or pipeline in the mid-continent region of the United States and Canada, transports it by train and ships it by barge to refiners on the East Coast. The Partnership sells home heating oil, diesel, kerosene, residual oil and propane to home heating oil and propane retailers and wholesale distributors. Generally, customers use their own vehicles or contract carriers to take delivery of the gasoline and distillates at bulk terminals and inland storage facilities that the Partnership owns or controls or with which it has throughput or exchange arrangements. Additionally, ethanol is shipped primarily by rail and by barge.

In the GDSO reporting segment, gasoline distribution includes sales of branded and unbranded gasoline to gasoline station operators and sub jobbers. Station operations include (i) convenience stores, (ii) rental income from gasoline stations leased to dealers, from commissioned agents and from cobranding arrangements and (iii) sundries (such as car wash sales, lottery and ATM commissions).

In the Commercial segment, the Partnership includes sales and deliveries to end user customers in the public sector and to large commercial and industrial end users of unbranded gasoline, home heating oil, diesel, kerosene, residual oil, bunker fuel and natural gas. In the case of public sector commercial and industrial end user customers, the Partnership sells products primarily either through a competitive bidding process or through contracts of various terms. The Partnership generally arranges for the delivery of the product to the customer's designated location, and the

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Partnership responds to publicly-issued requests for product proposals and quotes. The Commercial segment also includes sales of custom blended fuels delivered by barges or from a terminal dock to ships through bunkering activity.

The Partnership evaluates segment performance based on product margins before allocations of corporate and indirect operating costs, depreciation, amortization (including non-cash charges) and interest. Based on the way the CODM manages the business, it is not reasonably possible for the Partnership to allocate the components of operating costs and expenses among the reportable segments.

Summarized financial information for the Partnership's reportable segments is presented in the table below (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Wholesale Segment:				
Sales				
Gasoline and gasoline blendstocks	\$ 558,845	\$ 708,198	\$ 1,495,985	\$ 2,203,312
Crude oil (1)	129,293	311,381	438,390	927,371
Other oils and related products (2)	259,587	273,310	996,719	1,618,086
Total	\$ 947,725	\$ 1,292,889	\$ 2,931,094	\$ 4,748,769
Product margin				
Gasoline and gasoline blendstocks	\$ 21,529	\$ 7,157	\$ 64,503	\$ 54,694
Crude oil (1)	(16,818)	15,719	(28,839)	67,804
Other oils and related products (2)	11,435	12,389	52,488	53,801
Total	\$ 16,146	\$ 35,265	\$ 88,152	\$ 176,299
Gasoline Distribution and Station Operations Segment:				
Sales				
Gasoline	\$ 818,403	\$ 927,154	\$ 2,250,140	\$ 2,530,999
Station operations (3)	101,943	104,699	288,186	286,191
Total	\$ 920,346	\$ 1,031,853	\$ 2,538,326	\$ 2,817,190
Product margin				
Gasoline	\$ 88,111	\$ 88,297	\$ 220,497	\$ 203,205
Station operations (3)	48,729	49,047	140,921	130,836
Total	\$ 136,840	\$ 137,344	\$ 361,418	\$ 334,041

Commercial Segment:

Sales	\$ 162,127	\$ 161,461	\$ 457,789	\$ 579,448
Product margin	\$ 4,176	\$ 6,088	\$ 16,566	\$ 24,669
Combined sales and Product margin:				
Sales	\$ 2,030,198	\$ 2,486,203	\$ 5,927,209	\$ 8,145,407
Product margin (4)	\$ 157,162	\$ 178,697	\$ 466,136	\$ 535,009
Depreciation allocated to cost of sales	(24,551)	(26,398)	(74,124)	(69,964)
Combined gross profit	\$ 132,611	\$ 152,299	\$ 392,012	\$ 465,045

-
- (1) Crude oil consists of the Partnership's crude oil sales and revenue from its logistics activities.
- (2) Other oils and related products primarily consist of distillates, residual oil and propane.
- (3) Station operations primarily consist of convenience store sales and rental income.
- (4) Product margin is a non-GAAP financial measure used by management and external users of the Partnership's consolidated financial statements to assess its business. The table above includes a reconciliation of product margin on a combined basis to gross profit, a directly comparable GAAP measure.

Approximately 130 million gallons and 121 million gallons of the GDSO segment's sales for the three months ended September 30, 2016 and 2015, respectively, and 362 million gallons and 347 million gallons of the GDSO segment's sales for the nine months ended September 30, 2016 and 2015, respectively, were supplied from petroleum products and renewable fuels sourced by the Wholesale segment. Except for natural gas, predominantly all of the

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Commercial segment's sales are sourced by the Wholesale segment. These intra-segment sales are not reflected as sales in the Wholesale segment as they are eliminated.

A reconciliation of the totals reported for the reportable segments to the applicable line items in the consolidated financial statements is as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Combined gross profit	\$ 132,611	\$ 152,299	\$ 392,012	\$ 465,045
Operating costs and expenses not allocated to operating segments:				
Selling, general and administrative expenses	36,705	42,480	108,329	136,657
Operating expenses	70,591	77,309	218,718	218,133

Net loss on sale and disposition of assets	7,486	680	13,966	1,330
Goodwill and long-lived asset impairment	147,817	—	149,972	—
Total operating costs and expenses	264,859	122,788	498,113	366,850
Operating (loss) income	(132,248)	29,511	(106,101)	98,195
Interest expense	(21,197)	(20,643)	(65,192)	(51,057)
Income tax expense	(3,138)	(722)	(1,668)	(969)
Net (loss) income	(156,583)	8,146	(172,961)	46,169
Net loss (income) attributable to noncontrolling interest	37,032	66	39,076	(324)
Net (loss) income attributable to Global Partners LP	\$ (119,551)	\$ 8,212	\$ (133,885)	\$ 45,845

The Partnership's foreign assets and foreign sales were immaterial as of and for the three and nine months ended September 30, 2016 and 2015.

Segment Assets

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership's terminal assets are allocated to the Wholesale and Commercial segments, and its acquired retail gasoline stations are allocated to the GDSO segment. Due to the commingled nature and uses of the remainder of the Partnership's assets, it is not reasonably possible for the Partnership to allocate these assets among its reportable segments.

The table below presents total assets by reportable segment at September 30, 2016 and December 31, 2015 (in thousands):

	Wholesale	Commercial	GDSO	Unallocated	Total
September 30, 2016	\$ 644,571	\$ 980	\$ 1,307,202	\$ 431,767	\$ 2,384,520
December 31, 2015	\$ 774,352	\$ 3,224	\$ 1,392,397	\$ 493,702	\$ 2,663,675

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 11. Property and Equipment

Property and equipment consisted of the following (in thousands):

	September 30, 2016	December 31, 2015
Buildings and improvements	\$ 924,053	\$ 992,917
Land	429,475	450,045
Fixtures and equipment	39,719	40,946
Construction in process	74,410	67,080
Capitalized internal use software	20,098	18,852
Total property and equipment	1,487,755	1,569,840
Less accumulated depreciation	358,990	327,157
Total	\$ 1,128,765	\$ 1,242,683

Property and equipment includes assets held for sale of \$27.2 million and \$7.4 million at September 30, 2016 and December 31, 2015, respectively (see Note 15).

At September 30, 2016, the Partnership had a \$64.4 million remaining net book value of long-lived assets at its West Coast facility, including \$30.5 million related to the Partnership's ethanol plant acquired in 2013. The Partnership has completed the measures necessary to shift the ethanol plant from crude oil to ethanol transloading. The Partnership has begun transloading ethanol but will, however, need to take certain measures to prepare the facility for ethanol production to place the plant into service. Therefore, the \$30.5 million related to the ethanol plant was included in construction in process at September 30, 2016 and December 31, 2015. If the Partnership is unable to generate cash flows to support the recoverability of the plant and facility assets, this may become an indicator of potential impairment of the West Coast facility. The Partnership will monitor the market for ethanol, the continued business development of this facility for either ethanol or crude oil transloading and the related impact this may have on the facility's operating cash flows and whether this would constitute an impairment indicator.

Note 12. Environmental Liabilities, Asset Retirement Obligations and Renewable Identification Numbers

Environmental Liabilities

The Partnership owns or leases properties where refined petroleum products, renewable fuels and crude oil are being or may have been handled. These properties and the refined petroleum products, renewable fuels and crude oil handled thereon may be subject to federal and state environmental laws and regulations. Under such laws and regulations, the Partnership could be required to remove or remediate containerized hazardous liquids or associated generated wastes (including wastes disposed of or abandoned by prior owners or operators), to clean up contaminated property arising from the release of liquids, pollutants or wastes into the environment, including contaminated groundwater, or to implement best management practices to prevent future contamination.

The Partnership maintains insurance of various types with varying levels of coverage that it considers adequate under the circumstances to cover its operations and properties. The insurance policies are subject to deductibles that the Partnership considers reasonable and not excessive. In addition, the Partnership has entered into indemnification agreements with various sellers in conjunction with several of its acquisitions. Allocation of a known environmental liability is an issue negotiated in connection with each of the Partnership's acquisition transactions. In each case, the Partnership makes an assessment of potential environmental liability exposure based on available information. Based on that assessment and relevant economic and risk factors, the Partnership determines whether to, and the extent to which it will, assume liability for existing environmental conditions.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In connection with the June 2015 acquisition of retail gasoline stations from Capitol, the Partnership assumed certain environmental liabilities, including future remediation activities required by applicable federal, state or local law or regulation at certain of the retail gasoline stations owned by Capitol. Certain environmental remediation obligations at most of the acquired retail gasoline station assets from Capitol are being funded by third parties who assumed certain liabilities in connection with Capitol's acquisition of these assets from ExxonMobil Corporation ("ExxonMobil") in 2009 and 2010 and, therefore, cost estimates for such obligations at these stations are not included in this estimate of liability to the Partnership. As a result, the Partnership initially recorded, on an undiscounted basis, a total environmental liability of approximately \$0.3 million for those locations not covered by third parties.

In connection with the January 2015 acquisition of the Revere Terminal, the Partnership assumed certain environmental liabilities, including certain ongoing environmental remediation efforts. As a result, the Partnership initially recorded, on an undiscounted basis, a total environmental liability of approximately \$3.1 million.

In connection with the January 2015 acquisition of Warren, the Partnership assumed certain environmental liabilities, including certain ongoing environmental remediation efforts at certain of the retail gasoline stations owned or leased by Warren and future remediation activities required by applicable federal, state or local law or regulation. As a result, the Partnership initially recorded, on an undiscounted basis, a total environmental liability of approximately \$36.5 million.

In connection with the December 2012 acquisition of six New England retail gasoline stations from Mutual Oil Company, the Partnership assumed certain environmental liabilities, including certain ongoing remediation efforts. As a result, the Partnership initially recorded, on an undiscounted basis, a total environmental liability of approximately \$0.6 million.

In connection with the March 2012 acquisition of Alliance, the Partnership assumed Alliance's environmental liabilities, including ongoing environmental remediation at certain of the retail gasoline stations owned by Alliance and future remediation activities required by applicable federal, state or local law or regulation. Remedial action plans are in place, as may be applicable, with the state agencies regulating such ongoing remediation. Based on reports from environmental consultants, the Partnership's estimated cost of the ongoing environmental remediation for which Alliance was responsible and future remediation activities required by applicable federal, state or local law or regulation is estimated to be approximately \$16.1 million to be expended over an extended period of time. Certain environmental remediation obligations at the retail stations acquired by Alliance from ExxonMobil in 2011 are being funded by a third party who assumed the liability in connection with the Alliance/ExxonMobil transaction in 2011 and, therefore, cost estimates for such obligations at these stations are not included in this estimate. As a result, the Partnership initially recorded, on an undiscounted basis, total environmental liabilities of approximately \$16.1 million.

In connection with the September 2010 acquisition of retail gasoline stations from ExxonMobil, the Partnership assumed certain environmental liabilities, including ongoing environmental remediation at and monitoring activities at certain of the acquired sites and future remediation activities required by applicable federal, state or local law or regulation. Remedial action plans are in place with the applicable state regulatory agencies for the majority of these locations, including plans for soil and groundwater treatment systems at certain sites. Based on consultations with environmental consultants, the Partnership's estimated cost of the remediation is expected to be approximately \$30.0 million to be expended over an extended period of time. As a result, the Partnership initially recorded, on an undiscounted basis, total environmental liabilities of approximately \$30.0 million.

In connection with the June 2010 acquisition of three refined petroleum products terminals in Newburgh, New York, the Partnership assumed certain environmental liabilities, including certain ongoing remediation efforts. As a result, the Partnership initially recorded, on an undiscounted basis, a total environmental liability of approximately \$1.5 million.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In addition to the above-mentioned environmental liabilities related to the Partnership's retail gasoline stations, the Partnership retains some of the environmental obligations associated with certain gasoline stations that the Partnership has sold.

The following table presents a summary roll forward of the Partnership's environmental liabilities at September 30, 2016 (in thousands):

	Balance at December 31, 2015	Payments in 2016	Dispositions 2016	Other Adjustments 2016	Balance at September 30, 2016
Environmental Liability Related to:					
Retail gasoline stations	\$ 68,451	\$ (3,045)	\$ (3,680)	\$ (482)	\$ 61,244
Terminals	4,782	(145)	—	—	4,637
Total environmental liabilities	\$ 73,233	\$ (3,190)	\$ (3,680)	\$ (482)	\$ 65,881
Current portion	\$ 5,350				\$ 5,329
Long-term portion	67,883				60,552
Total environmental liabilities	\$ 73,233				\$ 65,881

The Partnership's estimates used in these environmental liabilities are based on all known facts at the time and its assessment of the ultimate remedial action outcomes. Among the many uncertainties that impact the Partnership's estimates are the necessary regulatory approvals for, and potential modification of, its remediation plans, the amount of data available upon initial assessment of the impact of soil or water contamination, changes in costs associated with environmental remediation services and equipment, relief of obligations through divestitures of sites and the possibility of existing legal claims giving rise to additional claims. Dispositions generally represent relief of legal obligations through the sale of the related property with no retained obligation. Other adjustments generally represent changes in estimates for existing obligations or obligations associated with new sites. Therefore, although the Partnership believes that these environmental liabilities are adequate, no assurances can be made that any costs incurred in excess of these environmental liabilities or outside of indemnifications or not otherwise covered by insurance would not have a material adverse effect on the Partnership's financial condition, results of operations or cash flows.

Asset Retirement Obligations

The Partnership is required to account for the legal obligations associated with the long-lived assets that result from the acquisition, construction, development or operation of long-lived assets. Such asset retirement obligations specifically pertain to the treatment of underground gasoline storage tanks (“USTs”) that exist in those states which statutorily require removal of the USTs at a certain point in time. Specifically, the Partnership’s retirement obligations consist of the estimated costs of removal and disposals of USTs.

The liability for an asset retirement obligation is recognized on a discounted basis in the year in which it is incurred. The associated asset retirement costs are capitalized as part of the carrying cost of the asset. The Partnership had approximately \$8.0 million and \$7.8 million in total asset retirement obligations at September 30, 2016 and December 31, 2015, respectively, which are included in other long-term liabilities in the accompanying balance sheets.

Renewable Identification Numbers (RINs)

A RIN is a serial number assigned to a batch of renewable fuel for the purpose of tracking its production, use and trading as required by the U.S. Environmental Protection Agency’s (“EPA”) Renewable Fuel Standard that originated with the Energy Policy Act of 2005 and modified by the Energy Independence and Security Act of 2007. To evidence that the required volume of renewable fuel is blended with gasoline and diesel motor vehicle fuels, obligated parties must retire sufficient RINs to cover their Renewable Volume Obligation (“RVO”). The Partnership’s EPA obligations relative to renewable fuel reporting are largely limited to the foreign gasoline that the Partnership may choose to import and a

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

small amount of blending operations at certain facilities. As a wholesaler of transportation fuels through its terminals, the Partnership separates RINs from renewable fuel through blending with gasoline and can use those separated RINs to settle its RVO. While the annual compliance period for the RVO is a calendar year and the settlement of the RVO typically occurs by March 31 of the following year, the settlement of the RVO can occur, under certain EPA deferral actions, more than one year after the close of the compliance period.

The Partnership's Wholesale segment's operating results may be sensitive to the timing associated with its RIN position relative to its RVO at a point in time, and the Partnership may recognize a mark-to-market liability for a shortfall in RINs at the end of each reporting period. To the extent that the Partnership does not have a sufficient number of RINs to satisfy the RVO as of the balance sheet date, the Partnership charges cost of sales for such deficiency based on the market price of the RINs as of the balance sheet date and records a liability representing the Partnership's obligation to purchase RINs. The Partnership's RVO deficiency was immaterial at September 30, 2016 and \$0.4 million at and December 31, 2015, respectively.

The Partnership may enter into RIN forward purchase and sales commitments. Total losses from firm non-cancellable commitments were immaterial at September 30, 2016 and December 31, 2015.

Note 13. Long-Term Incentive Plan

The Partnership has a Long Term Incentive Plan, as amended (the "LTIP"), whereby a total of 4,300,000 common units were authorized for delivery with respect to awards under the LTIP. The LTIP provides for awards to employees, consultants and directors of the General Partner and employees and consultants of affiliates of the Partnership who perform services for the Partnership. The LTIP allows for the award of options, unit appreciation rights, restricted units, phantom units, distribution equivalent rights, unit awards and substitute awards.

Awards granted under the LTIP are authorized by the Compensation Committee of the board of directors of the General Partner (the "Committee") from time to time. Additionally and in accordance with the LTIP, the Committee established a "CEO Authorized LTIP" program pursuant to which the Chief Executive Officer ("CEO") may grant awards of phantom units without distribution equivalent rights to employees of the General Partner and the Partnership's subsidiaries, other than named executive officers. The CEO Authorized LTIP program was approved for three consecutive calendar years commencing January 1, 2014, subject to modification or earlier termination by the Committee. During each calendar year of the program, the CEO is authorized to grant awards of up to an aggregate amount of \$2.0 million of phantom units payable in common units upon vesting, with unused dollar amounts carrying

over in the next year, and no individual grant may be made for an award valued at the time of grant of more than \$550,000, unless otherwise previously approved by the Committee. Awards granted pursuant to the CEO Authorized LTIP generally would be for a term of six years and vest in equal tranches at the end of each of the fourth, fifth and sixth anniversary dates of the particular award.

Phantom Unit Awards

In 2013, the Committee granted a total of 498,112 phantom units under the LTIP to certain employees and non-employee directors of the General Partner. In 2014, a total of 44,902 phantom units were granted to certain employees. In 2015, a total of 76,893 phantom units were granted to certain employees and the non-employee directors. No awards were granted during the three and nine months ended September 30, 2016.

The phantom units for these awards vest pursuant to the terms of the grant agreements. The Partnership currently intends and reasonably expects to issue and deliver the common units upon vesting.

The Partnership recorded total compensation expense related to the above awards of \$0.9 million and \$1.1 million for the three months ended September 30, 2016 and 2015, respectively, and \$3.1 million and \$3.2 million for the nine

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

months ended September 30, 2016 and 2015, respectively, which is included in selling, general and administrative expenses in the accompanying consolidated statements of operations. The total compensation cost related to the non-vested awards not yet recognized at September 30, 2016 was approximately \$10.8 million and is expected to be recognized ratably over the remaining requisite service periods.

The following table presents a summary of the status of the non-vested phantom units:

	Number of Non-vested Units	Weighted Average Grant Date Fair Value (\$)
Outstanding non—vested units at December 31, 2015	595,720	38.85
Vested	(11,605)	35.76
Forfeited	(14,953)	32.82
Outstanding non—vested units at September 30, 2016	569,162	39.08

Repurchase Program

In May 2009, the board of directors of the General Partner authorized the repurchase of the Partnership's common units (the "Repurchase Program") for the purpose of meeting the General Partner's anticipated obligations to deliver common units under the LTIP and meeting the General Partner's obligations under existing employment agreements and other employment related obligations of the General Partner (collectively, the "General Partner's Obligations"). The General Partner is authorized to acquire up to 1,242,427 of its common units in the aggregate over an extended period of time, consistent with the General Partner's Obligations. Common units may be repurchased from time to time in open market transactions, including block purchases, or in privately negotiated transactions. Such authorized unit repurchases may be modified, suspended or terminated at any time and are subject to price and economic and market conditions, applicable legal requirements and available liquidity. Since the Repurchase Program was implemented, the General Partner has repurchased 838,505 common units pursuant to the Repurchase Program for approximately \$24.8 million. No units were purchased during the three and nine months ended September 30, 2016.

Note 14. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Partnership utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated or generally unobservable. The Partnership primarily applies the market approach for recurring fair value measurements and endeavors to utilize the best available information. Accordingly, the Partnership utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The Partnership is able to classify fair value balances based on the observability of those inputs. The fair value hierarchy that prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

At each balance sheet reporting date, the Partnership categorizes its financial assets and liabilities using the three levels of the fair value hierarchy defined as follows:

Level—Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active
1 markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as the Partnership's exchange-traded derivative instruments and pension plan assets.

Level—Quoted prices in active markets are not available; however, pricing inputs are either directly or indirectly
2 observable as of the reporting date. Level 2 includes those financial instruments that are valued using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors, and current market and contractual prices for the underlying instruments, as well as other relevant economic measures. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. Level 2 primarily consists of non-exchange-traded derivatives such as OTC derivatives.

Level—Pricing inputs include significant inputs that are generally less observable from objective sources. These
3 inputs may be used with internally developed methodologies that result in management's best estimate of fair value. Level 3 includes certain OTC forward derivative instruments related to crude oil and propane.

Recurring Fair Value Measures

Assets and liabilities are classified in the entirety based on the lowest level of input that is significant to the fair value measurement. The Partnership's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of the fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following tables present, by level within the fair value hierarchy, the Partnership's financial assets and liabilities that were measured at fair value on a recurring basis as of September 30, 2016 and December 31, 2015 (in thousands):

	Fair Value at September 30, 2016			Cash Collateral Netting	Total
	Level 1	Level 2	Level 3		
Assets:					
Forward derivative contracts (1)	\$ —	\$ 21,831	\$ 2,293	\$ —	\$ 24,124
Swap agreements and options	—	439	—	—	439
Exchange-traded/cleared derivative instruments (2)	(35,838)	—	—	54,519	18,681
Pension plan	16,544	—	—	—	16,544
Total assets	\$ (19,294)	\$ 22,270	\$ 2,293	\$ 54,519	\$ 59,788
Liabilities:					
Forward derivative contracts (1)	\$ —	\$ (23,209)	\$ (1,039)	\$ —	\$ (24,248)
Swap agreements and options	—	(243)	—	—	(243)
Interest rate swaps	—	(2,144)	—	—	(2,144)
Total liabilities	\$ —	\$ (25,596)	\$ (1,039)	\$ —	\$ (26,635)

Table of Contents

GLOBAL PARTNERS LP

(Unaudited)

	Fair Value at December 31, 2015			Cash Collateral Netting	Total
	Level 1	Level 2	Level 3		
Assets:					
Forward derivative contracts (1)	\$ —	\$ 62,382	\$ 3,717	\$ —	\$ 66,099
Foreign currency derivatives	—	10	—	—	10
Exchange-traded/cleared derivative instruments (2)	95,367	—	—	(64,040)	31,327
Pension plan	16,886	—	—	—	16,886
Total assets	\$ 112,253	\$ 62,392	\$ 3,717	\$ (64,040)	\$ 114,322
Liabilities:					
Forward derivative contracts (1)	\$ —	\$ (27,602)	\$ (3,653)	\$ —	\$ (31,255)
Swap agreements and options	—	(656)	—	—	(656)
Interest rate swaps	—	(3,343)	—	—	(3,343)
Total liabilities	\$ —	\$ (31,601)	\$ (3,653)	\$ —	\$ (35,254)

- (1) Forward derivative contracts include the Partnership's petroleum and ethanol physical and financial forwards and OTC swaps.
- (2) Amount includes the effect of cash balances on deposit with clearing brokers.

This table excludes cash on hand and assets and liabilities that are measured at historical cost or any basis other than fair value. The carrying amounts of certain of the Partnership's financial instruments, including cash equivalents, accounts receivable, accounts payable and other accrued liabilities approximate fair value due to their short maturities. The carrying value of the credit facility approximates fair value due to the variable rate nature of these financial instruments.

The carrying value of the inventory qualifying for fair value hedge accounting approximates fair value due to adjustments for changes in fair value of the hedged item. The fair values of the derivatives used by the Partnership are disclosed in Note 5.

The determination of the fair values above incorporates factors including not only the credit standing of the counterparties involved, but also the impact of the Partnership's nonperformance risks on its liabilities.

The values of the Level 1 exchange-traded/cleared derivative instruments and pension plan assets were determined using quoted prices in active markets for identical assets. Specifically, the fair values of the Level 1 exchange-traded/cleared derivative instruments were based on quoted process obtained from the NYMEX, CME and ICE. The fair values of the Level 1 pension plan assets were based on quoted prices for identical assets which primarily consisted of fixed income securities, equity securities and cash and cash equivalents.

The values of the Level 2 derivative contracts were calculated using expected cash flow models and market approaches based on observable market inputs, including published and quoted commodity pricing data, which is verified against other available market data. Specifically, the fair values of the Level 2 derivative commodity contracts were derived from published and quoted NYMEX, CME, ICE, New York Harbor and third-party pricing information for the underlying instruments using market approaches. The fair value of the Level 2 interest rate instruments were derived from the implied forward LIBOR yield curve for the sale period as the future interest rate swap and interest rate cap settlements using expected cash flow models. The fair value of the Level 2 foreign currency derivatives were derived from the implied forward currency curve for the Canadian and U.S. Dollar. The Partnership has not changed its valuation techniques or Level 2 inputs during the nine months ended September 30, 2016.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The fair values of the 6.25% Notes and 7.00% Notes, estimated by observing market trading prices of the 6.25% Notes and 7.00% Notes, respectively, were as follows (in thousands):

	September 30, 2016		December 31, 2015	
	Face Value	Fair Value	Face Value	Fair Value
6.25% Notes	\$ 375,000	\$ 345,000	\$ 375,000	\$ 307,500
7.00% Notes	\$ 300,000	\$ 276,000	\$ 300,000	\$ 249,000

Level 3 Information

The values of the Level 3 derivative contracts were calculated using market approaches based on a combination of observable and unobservable market inputs, including published and quoted NYMEX, CME, ICE, New York Harbor and third-party pricing information for a component of the underlying instruments as well as internally developed assumptions where there is little, if any, published or quoted prices or market activity. The unobservable inputs used in the measurement of the Level 3 derivative contracts include estimates for location basis, transportation and throughput costs net of an estimated margin for current market participants. The estimates for these inputs for crude oil were \$3.25 to \$5.25 per barrel and \$4.00 to \$13.55 per barrel as of September 30, 2016 and December 31, 2015, respectively. The estimates for these inputs for propane were \$0.84 to \$7.98 per barrel and \$2.10 to \$9.66 per barrel as of September 30, 2016 and December 31, 2015, respectively. Gains and losses recognized in earnings (or changes in net assets) are disclosed in Note 5.

Sensitivity of the fair value measurement to changes in the significant unobservable inputs is as follows:

Significant Unobservable Input	Position	Change to Input	Impact on Fair Value Measurement
Location basis	Long	Increase (decrease)	Gain (loss)
Location basis	Short	Increase (decrease)	Loss (gain)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Transportation	Long	Increase (decrease)	Gain (loss)
Transportation	Short	Increase (decrease)	Loss (gain)
Throughput costs	Long	Increase (decrease)	Gain (loss)
Throughput costs	Short	Increase (decrease)	Loss (gain)

The following table presents a reconciliation of changes in fair value of the Partnership's derivative contracts classified as Level 3 in the fair value hierarchy at September 30, 2016 (in thousands):

	2016
Fair value at December 31, 2015	\$ 64
Transfers into Level 3	—
Derivatives entered into during the period	1,492
Derivatives sold during the period	(329)
Realized gains (losses) recorded in cost of sales	153
Unrealized gains (losses) recorded in cost of sales	(126)
Fair value at September 30, 2016	\$ 1,254

The Partnership's policy is to recognize transfers between levels with the fair value hierarchy as of the beginning of the reporting period. The Partnership also excludes any activity for derivative instruments that were not classified as Level 3 at either the beginning or end of the reporting period.

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Non-Recurring Fair Value Measures

Certain nonfinancial assets and liabilities are measured at fair value on a non-recurring basis and are subject to fair value adjustments in certain circumstances, such as acquired assets and liabilities, losses related to firm non-cancellable purchase commitments or long-lived assets subject to impairment. For assets and liabilities measured on a non-recurring basis during the period, accounting guidance requires quantitative disclosures about the fair value measurements separately for each major category. See Note 11 for a discussion of the Partnership's losses on impairment of assets and Note 15 for assets held for sale.

Note 15. Sales and Disposition of Assets

The following table provides the Partnership's (gain) loss on sale and dispositions of assets for the three and nine months ended September 30, 2016 and 2015 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Periodic divestiture of gasoline stations	\$ (139)	\$ 183	\$ 518	\$ 393
Strategic asset divestiture program - Mirabito Disposition	3,850	—	3,850	—
Strategic asset divestiture program - Real estate firm coordinated sale	(201)	—	(201)	—
Loss on assets held for sale	4,000	—	9,644	—
Other	(24)	497	155	937
Total	\$ 7,486	\$ 680	\$ 13,966	\$ 1,330

Periodic Divestiture of Gasoline Stations

As part of the routine course of operations in the GDSO segment, the Partnership may periodically divest certain gasoline stations. The gain or loss on the sale, representing cash proceeds less net book value of assets at disposition, net of settlement and dispositions costs, is recorded in net loss on sale and disposition of assets in the accompanying consolidated statements of operations and amounted to a \$0.1 million gain and a \$0.2 million loss for the three

months ended September 30, 2016 and 2015, respectively, and losses of \$0.5 million and \$0.4 million for the nine months ended September 30, 2016 and 2015, respectively.

Strategic Asset Divestiture Program

The Partnership identified certain non-strategic GDSO sites that are part of its Strategic Asset Divestiture Program (the “Divestiture Program”).

Mirabito Disposition—On August 22, 2016, Drake Petroleum Company, Inc., an indirect wholly owned subsidiary of the Partnership, completed its sale to Mirabito Holdings, Inc. (“Mirabito”) of 30 gasoline stations and convenience stores located in New York and Pennsylvania (the “Drake Sites”) for an aggregate total cash purchase price of approximately \$40.0 million (the “Mirabito Disposition”). The Drake Sites are a portion of the sites that were acquired by the Partnership in connection with the acquisition of Warren on January 7, 2015 (see Note 2).

The gain or loss on the sale, representing cash proceeds less net book value of assets at disposition, net of settlement and dispositions costs, is recorded in net loss on sale and disposition of assets in the accompanying consolidated statements of operations and amounted to a \$3.9 million loss for the three and nine months ended September 30, 2016, including the derecognition of \$12.8 million of GDSO goodwill.

Real Estate Firm Coordinated Sale—The Partnership has retained a real estate firm that is coordinating the sale of 84 non-strategic GDSO sites. As of September 30, 2016, the Partnership completed the sale of 5 of these sites. The

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

gain or loss on the sale, representing cash proceeds less net book value of assets at disposition, net of settlement and dispositions costs, is recorded in net loss on sale and disposition of assets in the accompanying consolidated statements of operations and amounted to a \$0.2 million gain for the three and nine months ended September 30, 2016, including the derecognition of \$0.8 million of GDSO goodwill. As of September 30, 2016, the criteria to be presented as held for sale was met for 36 of the remaining 79 sites. In October 2016, such criteria was met for eight additional sites (see Note 20).

Loss on Assets Held for Sale

In conjunction with the periodic divestiture of gasoline stations and the sale of sites within the Divestiture Program, the Partnership may classify certain gasoline station assets as held for sale.

The Partnership classified 21 sites and 15 sites as held for sale at September 30, 2016 and December 31, 2015, respectively, which are periodic divestiture gasoline station sites. The Partnership recorded impairment charges related to these assets held for sale in the amount of \$0 and \$0 for the three months ended September 30, 2016 and 2015, respectively, and \$5.6 million and \$0 for the nine months ended September 30, 2016 and 2015, respectively, which are included in net loss on sale and disposition of assets in the accompanying consolidated statements of operations.

Additionally, the Partnership classified 36 sites associated with the real estate firm coordinated sale discussed above as held for sale at September 30, 2016. The Partnership recorded impairment charges related to these assets held for sale in the amount of \$4.0 million for the three and nine months ended September 30, 2016, which are included in net loss on sale and disposition of assets in the accompanying consolidated statements of operations.

Assets held for sale of \$27.2 million and \$7.4 million at September 30, 2016 and December 31, 2015, respectively, are included in property and equipment in the accompanying balance sheets. Assets held for sale are expected to be sold within the next 12 months.

Other

The Partnership recognizes gains and losses on the sale and disposition of other assets, including vehicles, fixtures and equipment, and the gain or loss on such other assets are included in other in the aforementioned table.

Note 16. Income Taxes

Section 7704 of the Internal Revenue Code provides that publicly-traded partnerships are, as a general rule, taxed as corporations. However, an exception, referred to as the “Qualifying Income Exception,” exists under Section 7704(c) with respect to publicly-traded partnerships of which 90% or more of the gross income for every taxable year consists of “qualifying income.” Qualifying income includes income and gains derived from the transportation, storage and marketing of refined petroleum products, crude oil and ethanol to resellers and refiners. Other types of qualifying income include interest (other than from a financial business), dividends, gains from the sale of real property and gains from the sale or other disposition of capital assets held for the production of income that otherwise constitutes qualifying income.

Substantially all of the Partnership’s income is “qualifying income” for federal income tax purposes and, therefore, is not subject to federal income taxes at the partnership level. Accordingly, no provision has been made for income taxes on the qualifying income in the Partnership’s financial statements. Net income for financial statement purposes may differ significantly from taxable income reportable to unitholders as a result of differences between the tax basis and financial reporting basis of assets and liabilities and the taxable income allocation requirements under the Partnership’s agreement of limited partnership. Individual unitholders have different investment basis depending upon the timing and price at which they acquired their common units. Further, each unitholder’s tax accounting, which is

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

partially dependent upon the unitholder's tax position, differs from the accounting followed in the Partnership's consolidated financial statements. Accordingly, the aggregate difference in the basis of the Partnership's net assets for financial and tax reporting purposes cannot be readily determined because information regarding each unitholder's tax attributes in the Partnership is not available to the Partnership.

One of the Partnership's wholly owned subsidiaries, GMG, is a taxable entity for federal and state income tax purposes. Current and deferred income taxes are recognized on the separate earnings of GMG. The after-tax earnings of GMG are included in the earnings of the Partnership. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes for GMG. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Partnership calculates its current and deferred tax provision based on estimates and assumptions that could differ from actual results reflected in income tax returns filed in subsequent years. Adjustments based on filed returns are recorded when identified.

On July 1, 2015 the Partnership commenced business in Canada through its wholly owned Canadian subsidiary, Global Partners Energy Canada ULC ("GPEC"). GPEC predominantly consists of sourcing crude oil and other petroleum based products for sale to the Partnership and customers in Canada. GPEC is a taxable entity for Canadian corporate income and branch taxes. In its first year of operations, GPEC realized a pre-tax loss generating a net operating loss that might be used to offset future taxable income when GPEC operates at a profit. The Partnership recognizes deferred tax assets to the extent that the recoverability of these assets satisfies the "more likely than not" recognition criteria in accordance with the accounting guidance regarding income taxes. Based upon projections of future taxable income, limited capital assets and market conditions, the Partnership has provided a full valuation allowance against the GPEC deferred tax asset.

For the nine months ended September 30, 2016, the Partnership excluded the impairment and derecognition of goodwill from ordinary income for purposes of estimating the annual effective rate, given its significantly unusual and infrequent nature. The Partnership recognizes deferred tax assets to the extent that the recoverability of these assets satisfies the "more likely than not" recognition criteria in accordance with the accounting guidance regarding income taxes. Based upon projections of future taxable income, the Partnership believes that the recorded deferred tax assets will be realized.

Unrecognized tax benefits represent uncertain tax positions for which reserves have been established. As of September 30, 2016, the Partnership had \$1.6 million of unrecognized tax benefits, of which all would favorably impact the effective tax rate if recognized. As of December 31, 2015, the Partnership had \$0.1 million of unrecognized tax benefits, of which none would favorably impact the effective tax rate if recognized. The Partnership's unrecognized tax benefits were increased by \$0.8 million and \$1.5 million for the three and nine months ended September 30, 2016, respectively, due to establishing a reserve for a potential tax assessment related to an ongoing state income tax audit and an uncertain tax position identified as part of the Warren acquisition.

As of September 30, 2016, unrecognized tax benefits for uncertain tax positions could change up to \$0.7 million in the next 12 months as a result of settlements with the state taxing authorities. The Partnership's policy is to recognize interest and penalties related to uncertain tax positions as a component of its provision for income taxes. Approximately \$0.2 million of gross interest and penalties were accrued as of September 30, 2016. There was a tax expense associated with accrued interest and penalties of \$0.1 million and \$0.2 million for the three and nine months ended September 30, 2016.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

GMG files income tax returns in the United State and various state jurisdictions. With few exceptions, the Partnership is subject to income tax examination by tax authorities for all years dated back to 2012.

Note 17. Legal Proceedings

General

Although the Partnership may, from time to time, be involved in litigation and claims arising out of its operations in the normal course of business, the Partnership does not believe that it is a party to any litigation that will have a material adverse impact on its financial condition or results of operations. Except as described below and in Note 12 included herein, the Partnership is not aware of any significant legal or governmental proceedings against it, or contemplated to be brought against it. The Partnership maintains insurance policies with insurers in amounts and with coverage and deductibles as its general partner believes are reasonable and prudent. However, the Partnership can provide no assurance that this insurance will be adequate to protect it from all material expenses related to potential future claims or that these levels of insurance will be available in the future at economically acceptable prices.

Other

The Partnership determined that gasoline loaded from certain loading bays at one of its terminals did not contain the necessary additives as a result of an IT-related configuration error. The error was corrected and all gasoline being sold at the terminal now contains the appropriate additives. Based upon current information, the Partnership believes approximately 14 million gallons of gasoline were impacted. The Partnership has notified the EPA. As a result of this error, the Partnership could be subject to fines, penalties and other related claims, including customer claims.

In February 2016, the Partnership received a request for information from the EPA seeking certain information regarding its Albany terminal in order to assess its compliance with the Clean Air Act (the “CAA”). The information requested generally related to crude oil received by, stored at and shipped from the Partnership’s petroleum product transloading facility in Albany, New York (the “Albany Terminal”), including its composition, control devices for emissions and various permitting-related considerations. The Albany Terminal is a 63-acre licensed, permitted and operational stationary bulk petroleum storage and transfer terminal that currently consists of petroleum product storage tanks, along with truck, rail and marine loading facilities, for the storage, blending and distribution of various

petroleum and related products, including gasoline, ethanol, distillates, heating and crude oils. No violations were alleged in the request for information. The Partnership submitted responses and documentation, in March and April 2016, to the EPA in accordance with the EPA request. On August 2, 2016, the Partnership received a Notice of Violation (“NOV”) from the EPA, alleging that permits for the Albany Terminal, issued by the New York State Department of Environmental Conservation (“NYSDEC”) between August 9, 2011 and November 7, 2012, violated the CAA and the federally enforceable New York State Implementation Plan (“SIP”) by increasing throughput of crude oil at the Albany Terminal without complying with the New Source Review (“NSR”) requirements of the SIP. The applicable permits issued by the NYSDEC to the Partnership in 2011 and 2012 specifically authorize the Partnership to increase the throughput of crude oil at the Albany Terminal. According to the allegations in the NOV, the NYSDEC permits should have been regulated as a major modification under the NSR program, requiring additional emission control measures and compliance with other NSR requirements. The CAA authorizes the EPA to take enforcement action in response to violations of the New York SIP seeking compliance and penalties. The Partnership believes that the permits issued by the NYSDEC comply with the CAA and applicable State air permitting requirements and that no material violation of law has occurred. The Partnership disputes the claims alleged in the NOV and responded to the EPA in September, 2016. The Partnership has met with EPA and provided additional information at the agency’s request. To-date, the EPA has taken no further action with respect to the NOV.

By letter dated October 5, 2015, the Partnership received a notice of intent to sue (the “October NOI”), which supersedes and replaces a prior notice of intent to sue that the Partnership received on September 1, 2015 (the

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

“September NOI”) from Earthjustice, an environmental advocacy organization on behalf of the County of Albany, New York, a public housing development owned and operated by the Albany Housing Authority and certain environmental organizations, related to alleged violations of the CAA at the Albany Terminal, particularly with respect to crude oil operations at the Albany Terminal. The October NOI revises the superseded and replaced September NOI to add two additional environmental advocacy organizations and to revise the relief sought and the description of the alleged CAA violations.

On February 3, 2016, Earthjustice and the other entities identified in the October NOI filed suit against the Partnership in federal court in Albany under the citizen suit provisions of the CAA. In summary, this lawsuit alleges that the Partnership’s operations at the Albany Terminal are in violation of the CAA. The plaintiffs seek, among other things, relief that would compel the Partnership both to apply for what the plaintiffs contend is the applicable permit under the CAA, and to install additional pollution controls. In addition, the plaintiffs seek to prohibit the Albany Terminal from receiving, storing, handling, and marine loading certain types of Bakken crude oil and to require payment of a civil penalty of \$37,500 for each day the Partnership as operated the Albany Terminal in violation of the CAA. The Partnership believes that it has meritorious defenses against all allegations. On February 26, 2016, the Partnership filed a motion to dismiss the CAA action. No decision has yet been issued by the Court and all discovery and other litigation activity is stayed pending a decision by the Court on the motion to dismiss.

On May 29, 2015 and in connection with a commercial dispute with Tethys Trading Company LLC (“Tethys”), the Partnership received a notice from Tethys alleging a default under, and purporting to terminate, the Partnership’s contract with Tethys for crude oil services at the Partnership’s Oregon facility. However, the Partnership does not believe Tethys had the right to terminate the contract, and the Partnership will continue to investigate and determine the appropriate action to take to enforce its rights under the agreement.

On March 26, 2015, the Partnership received a Notice of Non-Compliance (“NON”) from the Massachusetts Department of Environmental Protection (“DEP”) with respect to the Revere Terminal, alleging certain violations of the National Pollutant Discharge Elimination System Permit (“NPDES Permit”) related to storm water discharges. The NON requires the Partnership to submit a plan to remedy the reported violations of the NPDES Permit. The Partnership has responded to the NON with a plan and has implemented modifications to the storm water management system at the Revere Terminal. The Partnership has requested that the DEP acknowledge completion of the required modifications to the storm water management system in satisfaction of the NON. The Partnership has determined that compliance with the NON and implementation of the plan will have no material impact on its operations.

The Partnership had a dispute with Lansing Ethanol Services, LLC (“Lansing”) for damages in excess of \$12.0 million. The dispute involved Lansing’s failure to transfer RINs to the Partnership in connection with certain agreements for the

purchase and sale of ethanol. The parties had agreed to arbitrate under the rules of the American Arbitration Association. The Partnership filed for arbitration on March 24, 2015 and the hearing was conducted in March 2016. A decision was rendered on June 10, 2016, which netted the Partnership \$1.5 million. Neither party appealed the decision and the appeal period expired on July 14, 2016. The parties executed a Settlement Agreement and Mutual Release on August 2, 2016, and payment was made by Lansing and received by the Partnership on that date.

On May 16, 2014, the Partnership received a subpoena from the SEC requesting information for relevant time periods primarily relating to the Partnership's accounting for RINs and the restatements of its consolidated financial statements as of and for the quarters ended March 31, 2013, June 30, 2013 and September 30, 2013. The Partnership has cooperated fully with the SEC and believes it has provided the SEC with all requested materials. On October 26, 2016, the Partnership was informed that the SEC has concluded its investigation and does not intend to recommend that an enforcement action by the SEC be taken against the Partnership.

The Partnership received letters from the EPA dated November 2, 2011 and March 29, 2012, containing requirements and testing orders (collectively, the "Requests for Information") for information under the CAA. The

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Requests for Information were part of an EPA investigation to determine whether the Partnership has violated sections of the CAA at certain of its terminal locations in New England with respect to residual oil and asphalt. On June 6, 2014, a NOV was received from the EPA, alleging certain violations of its Air Emissions License issued by the Maine Department of Environmental Protection, based upon the test results at the South Portland, Maine terminal. The Partnership met with and provided additional information to the EPA with respect to the alleged violations. On April 7, 2015, the EPA issued a Supplemental Notice of Violation (the "Supplemental NOV") modifying the allegations of violations of the terminal's Air Emissions License. The Partnership has responded to the Supplemental NOV and is engaged in further negotiations with the EPA. A tolling agreement was executed with the United States on December 1, 2015, which was extended on May 17, 2016 and further extended on August 2, 2016. The Partnership does not believe that a material violation has occurred, and it contests the allegations presented in the NOV and Supplemental NOV. The Partnership does not believe any adverse determination in connection with the NOV would have a material impact on its operations.

Note 18. Changes in Accumulated Other Comprehensive Loss

The following table presents the changes in accumulated other comprehensive loss by component for the three and nine months ended September 30, 2016 (in thousands):

	Pension Plan	Derivatives	Total
Three Months Ended September 30, 2016			
Balance at June 30, 2016	\$ (4,062)	\$ (2,805)	\$ (6,867)
Other comprehensive income before reclassifications of gain (loss)	178	660	838
Amount of (loss) gain reclassified from accumulated other comprehensive income	(9)	—	(9)
Total comprehensive income	169	660	829
Balance at September 30, 2016	\$ (3,893)	\$ (2,145)	\$ (6,038)
	Pension Plan	Derivatives	Total
Nine Months Ended September 30, 2016			
Balance at December 31, 2015	\$ (4,436)	\$ (3,658)	\$ (8,094)
Other comprehensive income before reclassifications of gain (loss)	571	1,513	2,084
Amount of (loss) gain reclassified from accumulated other comprehensive income	(28)	—	(28)
Total comprehensive income	543	1,513	2,056
Balance at September 30, 2016	\$ (3,893)	\$ (2,145)	\$ (6,038)

Amounts are presented prior to the income tax effect on other comprehensive income. Given the Partnership's partnership status for federal income tax purposes, the effective tax rate is immaterial.

Note 19. New Accounting Standards

Accounting Standards or Updates Recently Adopted

In September 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-16, "Business Combinations: Simplifying the Accounting for Measurement-Period Adjustments." This standard eliminates the requirement that an acquirer in a business combination account for measurement-period adjustments retrospectively. Instead, acquirers must recognize measurement-period adjustments during the period in which they determine the amounts, including the effect on earnings of any amounts they would have recorded in

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

previous periods if the accounting had been completed at the acquisition date. The acquirer still must disclose the amounts and reasons for adjustments to the provisional amounts. The acquirer also must disclose, by line item, the amount of the adjustment reflected in the current-period income statement that would have been recognized in previous periods if the adjustment to provisional amounts had been recognized as of the acquisition date. Alternatively, an acquirer may present those amounts separately on the face of the income statement. The Partnership adopted this standard on January 1, 2016. The adoption of this standard did not have a material impact on the Partnership's consolidated financial statements.

Accounting Standards or Updates Not Yet Effective

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments." This standard reduces diversity in practice in how certain transactions are classified in the statement of cash flows by addressing eight specific cash receipt and cash payment issues. This standard is effective for annual periods beginning after December 15, 2017 and interim periods within those annual periods, with early adoption permitted. The Partnership is assessing the impact this standard will have on its consolidated financial statements.

In May 2016, the FASB issued ASU 2016-12, "Revenue from Contracts with Customers: Narrow-Scope Improvements and Practical Expedients." This standard amends ASU 2014-09, "Revenue from Contracts with Customers" ("ASU 2014-09") discussed below. The amendments do not change the principles of ASU 2014-09, but clarify matters related to assessment of collectability criteria, presentation of sales and other taxes collected from customers, non-cash consideration, contract modifications at transition and completed contracts at transition. The effective date for this standard is the same as the effective date in ASU 2014-09. The Partnership is assessing the impact this standard will have on its consolidated financial statements.

In April 2016, the FASB issued ASU 2016-10, "Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing." This standard amends ASU 2014-09. The amendments in this standard clarify guidance related to identifying performance obligations and licensing implementation guidance provided in ASU 2014-09. The effective date and transition requirements for the amendments in this standard are the same as the effective date and transition requirements in ASU 2014-09. The Partnership is assessing the impact this standard will have on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, “Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting.” This standard simplifies several aspects of the accounting for share-based payment award transactions, including accounting for income taxes and classification of excess tax benefits on the statement of cash flows, forfeitures and minimum statutory tax withholding requirements. This standard is effective for annual periods beginning after December 15, 2016 and interim periods within those annual periods. Early adoption is permitted for any interim or annual period. The Partnership is assessing the impact this standard will have on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-05, “Derivatives and Hedging: Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships.” This standard clarifies that a change in the counterparty to a derivative instrument that has been designated as a hedging instrument does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria continue to be met. This standard is effective for fiscal years beginning after December 15, 2016 and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. The adoption of this standard is not expected to have a material impact on the Partnership’s consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, “Leases.” This standard amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making

Table of Contents

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

targeted changes to lessor accounting. This standard is effective beginning in the first quarter of 2019. Early adoption of this standard is permitted. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. The Partnership is assessing the impact this standard will have on its consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments - Recognition and Measurement of Financial Assets and Financial Liabilities." This standard revises the classification and measurement of investments in certain equity investments and the presentation of certain fair value changes for certain financial liabilities measured at fair value. This standard also requires the change in fair value of many equity investments to be recognized in net income. This standard is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted. The adoption of this standard is not expected to have a material impact on the Partnership's consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory," which requires an entity to measure inventory within the scope of the amendment at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The new standard is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Partnership is assessing the impact this standard will have on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," that introduces a new five-step revenue recognition model in which an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This standard also requires disclosures sufficient to enable users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative disclosures about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. In July 2015, the FASB approved a one-year deferral of the effective date of the standard to fiscal periods beginning after December 15, 2017. The Partnership is evaluating the guidance to determine the impact it will have on its consolidated financial statements.

Note 20. Subsequent Events

Distribution—On October 26, 2016, the board of directors of the General Partner declared a quarterly cash distribution of \$0.4625 per unit (\$1.85 per unit on an annualized basis) for the period from July 1, 2016 through September 30, 2016. On November 14, 2016, the Partnership will pay this cash distribution to its unitholders of record as of the close of business on November 8, 2016.

Sale of Gasoline Stations—Beginning in April 2016, the Partnership retained a real estate firm to coordinate the sale of non-strategic GDSO sites which are part of the Divestiture Program. At September 30, 2016, the coordinated sale included 84 sites, 5 of which the Partnership completed the sale of and 36 of which met the criteria to be presented as held for sale (see Note 15). In October 2016, the criteria to be presented as held for sale was met for 8 sites. The net book value of the assets at these 8 sites that will be sold or considered as held for sale in the fourth quarter of 2016 was \$6.3 million at September 30, 2016. Assets held for sale are expected to be sold within the next 12 months.

Note 21. Supplemental Guarantor Condensed Consolidating Financial Statements

The Partnership's wholly owned subsidiaries, other than GLP Finance, are guarantors of senior notes issued by the Partnership and GLP Finance. As such, the Partnership is subject to the requirements of Rule 3-10 of Regulation S-X of the SEC regarding financial statements of guarantors and issuers of registered guaranteed securities. The Partnership

Table of Contents

presents condensed consolidating financial information for its subsidiaries within the notes to consolidated financial statements in accordance with the criteria established for parent companies in the SEC's Regulation S-X, Rule 3-10(d).

The following condensed consolidating financial information presents the Condensed Consolidating Balance Sheets as of September 30, 2016 and December 31, 2015, the Condensed Consolidating Statements of Operations for the three and nine months ended September 30, 2016 and 2015 and the Condensed Consolidating Statements of Cash Flows for the nine months ended September 30, 2016 and 2015 of the Partnership's 100% owned guarantor subsidiaries, the non-guarantor subsidiary and the eliminations necessary to arrive at the information for the Partnership on a consolidated basis. The principal elimination entries eliminate investments in subsidiaries and intercompany balances and transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of financial condition and results of operations of Global Partners LP should be read in conjunction with the historical consolidated financial statements of Global Partners LP and the notes thereto included elsewhere in this Quarterly Report on Form 10-Q.

Forward-Looking Statements

Some of the information contained in this Quarterly Report on Form 10-Q may contain forward-looking statements. Forward-looking statements include, without limitation, any statement that may project, indicate or imply future results, events, performance or achievements, and may contain the words "may," "believe," "should," "could," "expect," "anticipate," "plan," "intend," "estimate," "continue," "will likely result" or other similar expressions. In addition, any statements made by our management concerning future financial performance (including future revenues, earnings or growth rates), ongoing business strategies or prospects, and possible actions by us are also forward-looking statements. Forward-looking statements are not guarantees of performance. Although we believe these forward-looking statements are based on reasonable assumptions, statements made regarding future results are subject to a number of assumptions, uncertainties and risks, many of which are beyond our control, which may cause future results to be materially different from the results stated or implied in this document. These risks and uncertainties include, among other things:

- We may not have sufficient cash from operations to enable us to maintain distributions at current levels following establishment of cash reserves and payment of fees and expenses, including payments to our general partner.
- A significant decrease in price or demand for the products we sell or a significant decrease in demand for our logistics activities could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.
- Our crude oil sales and logistics activities have been and could continue to be adversely affected by, among other things, changes in the crude oil market structure, grade differentials and volatility (or lack thereof), implementation of regulations that adversely impact the market for transporting crude oil or other products by rail, changes in refiner demand, severe weather conditions, significant changes in prices and interruptions in rail transportation services and other necessary services and equipment, such as railcars, trucks, loading equipment and qualified drivers.
- We depend upon marine, pipeline, rail and truck transportation services for a substantial portion of our logistics business in transporting the products we sell. Implementation of regulations and directives that adversely impact the market for transporting these products by rail or otherwise could adversely affect that business. In addition, a

disruption in these transportation services could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

- We have contractual obligations for certain transportation assets such as railcars, barges and pipelines. A decline in demand for (i) the products we sell, including crude oil and ethanol or (ii) our logistics activities could result in a decrease in the utilization of these transportation assets, which could negatively impact our financial condition, results of operations and cash available for distribution to our unitholders. For example, during 2015 and to date in 2016, we have experienced adverse market conditions in crude oil caused by an over-supplied crude oil market which resulted in tighter price differentials, and we have experienced a reduction in our railcar movements but have remained obligated to pay the applicable fixed charges for railcar leases.
- Our sales of home heating oil and residual oil continue to be reduced by conversions to natural gas.
- We may not be able to fully implement or capitalize upon planned growth projects. Even if we consummate acquisitions or expend capital in pursuit of growth projects that we believe will be accretive, they may in fact result in no increase or even a decrease in cash available for distribution to our unitholders.

Table of Contents

- Erosion of the value of major gasoline brands could adversely affect our gasoline sales and customer traffic.
- Our gasoline sales could be significantly reduced by a reduction in demand due to higher prices and to new technologies and alternative fuel sources, such as electric, hybrid or battery powered motor vehicles.
- Changes in government usage mandates and tax credits could adversely affect the availability and pricing of ethanol, which could negatively impact our sales.
- Warmer weather conditions could adversely affect our home heating oil and residual oil sales.
- Our risk management policies cannot eliminate all commodity risk, basis risk or the impact of unfavorable market conditions which can adversely affect our financial condition, results of operations and cash available for distribution to our unitholders. In addition, noncompliance with our risk management policies could result in significant financial losses.
- Our results of operations are affected by the overall forward market for the products we sell, and pricing volatility may adversely impact our results.
- Our business could be affected by a range of issues, such as changes in commodity prices, energy conservation, competition, the global economic climate, movement of products between foreign locales and within the United States, changes in refiner demand, weekly and monthly refinery output levels, changes in local, domestic and worldwide inventory levels, changes in safety regulations, seasonality, supply, weather and logistics disruptions and other factors and uncertainties inherent in the transportation, storage, terminalling and marketing of crude oil, refined products and renewable fuels.
- Increases and/or decreases in the prices of the products we sell could adversely impact the amount of borrowing available for working capital under our credit agreement, which credit agreement has borrowing base limitations and advance rates.
- We are exposed to trade credit risk and risk associated with our trade credit support in the ordinary course of our business.
- The condition of credit markets may adversely affect us.
- Our credit agreement and the indentures governing our senior notes contain operating and financial covenants, and our credit agreement contains borrowing base requirements. A failure to comply with the operating and financial covenants in our credit agreement, the indentures and any future financing agreements could impact our access to

bank loans and other sources of financing as well as our ability to pursue our business activities.

- A significant increase in interest rates could adversely affect our ability to service our indebtedness.
- Our gasoline station and convenience store business could expose us to an increase in consumer litigation and result in an unfavorable outcome or settlement of one or more lawsuits where insurance proceeds are insufficient or otherwise unavailable.
- Our business could expose us to litigation and result in an unfavorable outcome or settlement of one or more lawsuits where insurance proceeds are insufficient or otherwise unavailable.
- Adverse developments in the areas where we conduct our business could have a material adverse effect on such businesses and can reduce our ability to make distributions to our unitholders.

Table of Contents

- A serious disruption to our information technology systems could significantly limit our ability to manage and operate our business efficiently.
- We are exposed to performance risk in our supply chain.
- Our business is subject to both federal and state environmental and non-environmental regulations which could have a material adverse effect on such businesses.
- Our general partner and its affiliates have conflicts of interest and limited fiduciary duties, which could permit them to favor their own interests to the detriment of our unitholders.
- Unitholders have limited voting rights and are not entitled to elect our general partner or its directors or remove our general partner without the consent of the holders of at least 66 2/3% of the outstanding units (including units held by our general partner and its affiliates), which could lower the trading price of our common units.
- Our tax treatment depends on our status as a partnership for federal income tax purposes.
- Unitholders may be required to pay taxes on their share of our income even if they do not receive any cash distributions from us.

Additional information about risks and uncertainties that could cause actual results to differ materially from forward-looking statements is contained in Part I, Item 1A, “Risk Factors,” in our Annual Report on Form 10-K for the year ended December 31, 2015 and Part II, Item 1A, “Risk Factors,” in this Quarterly Report on Form 10-Q.

We expressly disclaim any obligation or undertaking to update these statements to reflect any change in our expectations or beliefs or any change in events, conditions or circumstances on which any forward-looking statement is based, other than as required by federal and state securities laws. All forward-looking statements included in this Quarterly Report on Form 10-Q and all subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

Overview

General

We are a midstream logistics and marketing company engaged in the purchasing, selling, storing and logistics of transporting petroleum and related products, including domestic and Canadian crude oil, gasoline and gasoline blendstocks (such as ethanol), distillates (such as home heating oil, diesel and kerosene), residual oil, renewable fuels, natural gas and propane. We also receive revenue from convenience store sales and gasoline station rental income. We own, control or have access to one of the largest terminal networks of refined petroleum products and renewable fuels in Massachusetts, Maine, Connecticut, Vermont, New Hampshire, Rhode Island, New York, New Jersey and Pennsylvania (collectively, the “Northeast”). We own transload and storage terminals in North Dakota and Oregon that extend our origin-to-destination capabilities from the mid-continent region of the United States and Canada to the East and West Coasts. We are one of the largest distributors of gasoline, distillates, residual oil and renewable fuels to wholesalers, retailers and commercial customers in the New England states and New York. As of September 30, 2016, we had a portfolio of 1,472 owned, leased and/or supplied gasoline stations, including 257 directly operated convenience stores, in the Northeast, Maryland and Virginia.

Collectively, we sold approximately \$1.9 billion and \$5.6 billion of refined petroleum products, renewable fuels, crude oil, natural gas and propane for the three and nine months ended September 30, 2016, respectively. In addition, we had other revenues of approximately \$0.1 billion and \$0.3 billion for the three and nine months ended September 30, 2016, respectively, primarily from convenience store sales at our directly operated stores and rental income from dealer leased or commission agent leased gasoline stations and from cobranding arrangements.

Table of Contents

We base our pricing on spot prices, fixed prices or indexed prices and routinely use the New York Mercantile Exchange (“NYMEX”), Chicago Mercantile Exchange (“CME”), Intercontinental Exchange (“ICE”) or other counterparties to hedge the risk inherent in buying and selling commodities. Through the use of regulated exchanges or derivatives, we seek to maintain a position that is substantially balanced between purchased volumes and sales volumes or future delivery obligations.

Recent Events

2016

Goodwill and Long-Lived Asset Impairment—We recognized a goodwill impairment charge of \$121.7 million for the three and nine months ended September 30, 2016 related to the Wholesale reporting unit and a long-lived asset impairment charge of \$26.1 million and \$28.2 million for the three and nine months ended September 30, 2016 and 2015, respectively, substantially all of which is due to crude oil related activities. See Note 1 of Notes to Consolidated Financial Statements for a description of the facts and circumstances related to the impairment charges recognized in the third quarter ended September 30, 2016.

Sale of Gasoline Stations—On August 22, 2016, Drake Petroleum Company, Inc., an indirect wholly owned subsidiary of ours, sold to Mirabito Holdings, Inc. 30 gasoline stations and convenience stores located in New York and Pennsylvania (the “Drake Sites”) for an aggregate total cash purchase price of approximately \$40.0 million. See Note 15 of Notes to Consolidated Financial Statements. In connection with closing, the parties entered into long-term supply contracts for branded and unbranded gasoline and other petroleum products. The Drake Sites are a portion of the sites that were acquired by us in connection with the acquisition of Warren Equities, Inc. (“Warren”) in January 7, 2015. We used approximately \$28.3 million of the proceeds from the sale of the Drake Sites to reduce indebtedness outstanding under our revolving credit facility, and the balance of the proceeds as of September 30, 2016 remained available to pursue like-kind exchange transactions. In October 2016, we elected not to execute a like-kind exchange.

Sale Leaseback Transaction—On June 29, 2016, we and our wholly owned subsidiaries Global Companies LLC (“Global Companies”), Global Montello Group Corp. (“GMG”) and Alliance Energy LLC (“Alliance”), and Alliance’s wholly owned subsidiary, Bursaw Oil LLC (“Bursaw”) sold to a premier institutional real estate investor (the “Buyer”) real property assets, including the buildings, improvements and appurtenances thereto, at 30 gasoline stations and convenience stores located in Connecticut, Maine, Massachusetts, New Hampshire and Rhode Island for a purchase price of approximately \$63.5 million. In connection with the sale, we entered into a Master Unitary Lease Agreement with the Buyer to lease back the real property assets sold with respect to these sites. See Note 6 of Notes to Consolidated Financial Statements.

Expanded Retail Network—In April 2016, we expanded our gasoline station and convenience-store network in Western Massachusetts with the addition of 22 leased retail sites. Located in the Pittsfield and Springfield areas, the stores were added through long-term leases.

Sale of Compressed Natural Gas Assets—On November 1, 2016, we, through our wholly owned subsidiary, Global CNG LLC (“Global CNG”), completed the sale of our delivered compressed natural gas (“CNG”) assets to NG Advantage LLC (“NGA”) for approximately \$1.5 million in cash and other consideration. The sale consisted of an assignment to NGA of all of Global CNG’s customer contracts, trailers and offloading equipment. Excluded from the sale were Global CNG’s lease of a CNG loading facility in Bangor, Maine and its take-or-pay supply agreement with Bangor Gas Company, LLC. As part of the consideration for the sale, we have agreed not to compete with NGA for a period of three years by utilizing Global CNG’s loading facility in Bangor, Maine to deliver CNG to customers within Maine, New Hampshire and Massachusetts.

Ceased Development Plans with Kansas City Southern—In our Annual Report on Form 10-K for the year ended December 31, 2014, we announced plans with Kansas City Southern (“KCS”) for the development of a unit train terminal in Port Arthur, Texas on an approximately 200-acre parcel leased by Global Companies from KCS. On August 24, 2016, Global Companies elected to cease pursuing any permits necessary for the construction and operation of the proposed terminal and terminated its lease with KCS.

Table of Contents

2015

On January 7, 2015, we acquired, through one of our wholly owned subsidiaries, Global Montello Group Corp. (“GMG”), 100% of the equity interests in Warren from The Warren Alpert Foundation.

On January 14, 2015, through our wholly owned subsidiary, Global Companies, we acquired the Revere terminal (the “Revere Terminal”) located in Boston Harbor in Revere, Massachusetts from Global Petroleum Corp. (“GPC”) and related entities.

On June 1, 2015, through one of our wholly owned subsidiaries, Alliance Energy LLC (“Alliance”), we acquired retail gasoline stations and dealer supply contracts from Capitol Petroleum Group (“Capitol”).

See Note 2 of Notes to Consolidated Financial Statements, “Business Combinations,” for additional information.

Operating Segments

We purchase refined petroleum products, renewable fuels, crude oil, natural gas and propane primarily from domestic and foreign refiners and ethanol producers, crude oil producers, major and independent oil companies and trading companies. We operate our business under three segments: (i) Wholesale, (ii) Gasoline Distribution and Station Operations (“GDSO”) and (iii) Commercial.

Wholesale

In our Wholesale segment, we engage in the logistics of selling, gathering, storage and transportation of refined petroleum products, renewable fuels, crude oil and propane. We transport these products by railcars, barges and/or pipelines pursuant to spot or long-term contracts. We aggregate crude oil by truck or pipeline in the mid-continent region of the United States and Canada, transport it by rail and ship it by barge to refiners on the East Coast. We sell home heating oil, branded and unbranded gasoline and gasoline blendstocks, diesel, kerosene, residual oil and propane to home heating oil and propane retailers and wholesale distributors. Generally, customers use their own vehicles or contract carriers to take delivery of the gasoline and distillates at bulk terminals and inland storage facilities that we own or control or at which we have throughput or exchange arrangements. Ethanol is shipped primarily by rail and by barge.

In our Wholesale segment, we obtain Renewable Identification Numbers (“RINs”) in connection with our purchase of ethanol which is used for bulk trading purposes or for blending with gasoline through our terminal system. A RIN is a renewable identification number associated with government-mandated renewable fuel standards. To evidence that the required volume of renewable fuel is blended with gasoline, obligated parties must retire sufficient RINs to cover their Renewable Volume Obligation (“RVO”). Our U.S. Environmental Protection Agency (“EPA”) obligations relative to renewable fuel reporting are largely limited to the foreign gasoline that we may choose to import.

Gasoline Distribution and Station Operations

In our GDSO segment, gasoline distribution includes sales of branded and unbranded gasoline to gasoline station operators and sub-jobbers. Station operations include (i) convenience stores, (ii) rental income from gasoline stations leased to dealers, from commissioned agents and from cobranding arrangements and (iii) sundries (such as car wash sales, lottery and ATM commissions).

Table of Contents

As of September 30, 2016, we had a portfolio of owned, leased and/or supplied gasoline stations, primarily in the Northeast, that consisted of the following:

Company operated	257
Commissioned agents	285
Lessee dealers	260
Contract dealers	670
Total	1,472

At our company operated stores, we operate the gasoline stations and convenience stores with our employees, and we set the retail price of gasoline at the station. At commission agent locations, we own the gasoline inventory, and we set the retail price of gasoline at the station and pay the commission agent a fee related to the gallons sold. We receive rental income from commission agent leased gasoline stations for the leasing of the convenience store premises, repair bays and other businesses that may be conducted by the commission agent. At dealer leased locations, the dealer purchases gasoline from us, and the dealer sets the retail price of gasoline at the dealer's station. We also receive rental income from dealer leased gasoline stations and from cobranding arrangements. We also supply gasoline to independent contract dealers under agreements with the operators at these locations. Additionally, we have contractual relationships with distributors in certain New England states pursuant to which we supply these distributors' gasoline stations with ExxonMobil branded gasoline.

Commercial

In our Commercial segment, we include sales and deliveries to end user customers in the public sector and to large commercial and industrial end users of unbranded gasoline, home heating oil, diesel, kerosene, residual oil, bunker fuel and natural gas. In the case of public sector commercial and industrial end user customers, we sell products primarily either through a competitive bidding process or through contracts of various terms. We generally arrange for the delivery of the product to the customer's designated location, and we respond to publicly-issued requests for product proposals and quotes. Our Commercial segment also includes sales of custom blended fuels delivered by barges or from a terminal dock to ships through bunkering activity.

Seasonality

Due to the nature of our business and our reliance, in part, on consumer travel and spending patterns, we may experience more demand for gasoline during the late spring and summer months than during the fall and winter. Travel and recreational activities are typically higher in these months in the geographic areas in which we operate, increasing the demand for gasoline. Therefore, our volumes in gasoline are typically higher in the second and third quarters of the calendar year. As demand for some of our refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally greater during the winter months, heating oil and residual oil volumes are generally higher during the first and fourth quarters of the calendar year. These factors may result in

fluctuations in our quarterly operating results.

Outlook

This section identifies certain risks and certain economic or industry-wide factors that may affect our financial performance and results of operations in the future, both in the short-term and in the long-term. Our results of operations and financial condition depend, in part, upon the following:

- Our business is influenced by the overall markets for refined petroleum products, renewable fuels, crude oil, natural gas and propane and increases and/or decreases in the prices of these products may adversely impact our financial condition, results of operations and cash available for distribution to our unitholders and the amount of borrowing available for working capital under our credit agreement. Results from our purchasing, storing, terminalling, transporting and selling operations are influenced by prices for refined petroleum products, renewable fuels, crude oil, natural gas and propane, price volatility and the market for such products. Prices in the overall markets for these products may affect our financial condition, results of operations and cash available for

Table of Contents

distribution to our unitholders. Our margins can be significantly impacted by the forward product pricing curve, often referred to as the futures market. We typically hedge our exposure to petroleum product and renewable fuel price moves with futures contracts and, to a lesser extent, swaps. In markets where future prices are higher than current prices, referred to as contango, we may use our storage capacity to improve our margins by storing products we have purchased at lower prices in the current market for delivery to customers at higher prices in the future. In markets where future prices are lower than current prices, referred to as backwardation, inventories can depreciate in value and hedging costs are more expensive. For this reason, in these backward markets, we attempt to reduce our inventories in order to minimize these effects. When prices for the products we sell rise, some of our customers may have insufficient credit to purchase supply from us at their historical purchase volumes, and their customers, in turn, may adopt conservation measures which reduce consumption, thereby reducing demand for product. Furthermore, when prices increase rapidly and dramatically, we may be unable to promptly pass our additional costs on to our customers, resulting in lower margins which could adversely affect our results of operations. Higher prices for the products we sell may (1) diminish our access to trade credit support and/or cause it to become more expensive and (2) decrease the amount of borrowings available for working capital under our credit agreement as a result of total available commitments, borrowing base limitations and advance rates thereunder. When prices for the products we sell decline, our exposure to risk of loss in the event of nonperformance by our customers of our forward contracts may be increased as they and/or their customers may breach their contracts and purchase the products we sell at the then lower market price from a competitor. A significant decrease in the price for crude oil has adversely affected the economics of domestic crude oil production which, in turn, had an adverse effect on our crude oil logistics activities and sales. A significant decrease in differentials also had an adverse effect on our crude oil logistics activities and sales. In addition, the prolonged decline in crude oil prices and differentials has indicated an impairment of our long-lived assets used at our terminals in North Dakota. As a result of these events, we recognized a goodwill and long-lived asset impairment of \$147.8 million for three months ended September 30, 2016.

- On January 28, 2016, we announced a reduction in the quarterly distribution for the fourth quarter of 2015 on all outstanding common units to \$0.4625. This distribution represented a decrease of 33.7% from the distribution of \$0.6975 per unit paid in November 2015 and a decrease of 30.5% from the distribution of \$0.6650 per unit paid in February 2015. The reduction in the distribution primarily reflected the continuing weakness in the crude oil market. The significant decline in the price of crude oil and tight crude oil differentials negatively impacted our fiscal 2015 and to date 2016 results. On April 26, 2016, July 27, 2016 and October 26, 2016, we announced a quarterly distribution of \$0.4625 per unit for the first, second and third quarters of 2016, respectively.
- We commit substantial resources to pursuing acquisitions and expending capital for growth projects, although there is no certainty that we will successfully complete any acquisitions or growth projects or receive the economic results we anticipate from completed acquisitions or growth projects. We are continuously engaged in discussions with potential sellers and lessors of existing (or suitable for development) terminalling, storage, logistics and/or marketing assets, including gasoline stations, and related businesses. Our growth largely depends on our ability to make accretive acquisitions and/or accretive development projects. We may be unable to execute such accretive transactions for a number of reasons, including, but not limited to, the following: (1) we are unable to identify attractive transaction candidates or negotiate acceptable terms; (2) we are unable to obtain financing for such transactions on economically acceptable terms; or (3) we are outbid by competitors. In addition, we may consummate transactions that at the time of consummation we believe will be accretive but that ultimately may not be accretive. If any of these events were to occur, our future growth and ability to increase or maintain distributions could be limited. We can give no assurance that our transaction efforts will be successful or that any such efforts will be completed on terms that are favorable to us.

- The condition of credit markets may adversely affect our liquidity. In the past, world financial markets experienced a severe reduction in the availability of credit. Possible negative impacts in the future could include a decrease in the availability of borrowings under our credit agreement, increased counterparty credit risk on our derivatives contracts and our contractual counterparties requiring us to provide collateral. In addition, we could experience a tightening of trade credit from our suppliers.

Table of Contents

- We depend upon marine, pipeline, rail and truck transportation services for a substantial portion of our logistics business in transporting the products we sell. A disruption in these transportation services could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders. Hurricanes, flooding and other severe weather conditions could cause a disruption in the transportation services we depend upon which could affect the flow of service. In addition, accidents, labor disputes between the railroads and their employees and labor renegotiations, including strikes, lockouts or a work stoppage, shortage of railcars, mechanical difficulties or bottlenecks and disruptions in railroad logistics could also disrupt rail service. These events could result in service disruptions and increased cost which could also adversely affect our financial condition, results of operations and cash available for distribution to our unitholders. Other disruptions, such as those due to an act of terrorism or war, could also adversely affect our business.

- We have contractual obligations for certain transportation assets such as railcars, barges and pipelines. A decline in demand for (i) the products we sell, including crude oil and ethanol, or (ii) our logistics activities could result in a decrease in the utilization of these transportation assets, which could negatively impact our financial condition, results of operations and cash available for distribution to our unitholders. For example, during 2015 and to date in 2016, we have experienced adverse market conditions in crude oil caused by an over-supplied crude oil market which resulted in tighter price differentials, and we have experienced a reduction in our railcar movements but remained obligated to pay the applicable fixed charges for railcar leases.

- Our gasoline financial results are seasonal and can be lower in the first and fourth quarters of the calendar year. Due to the nature of our business and our reliance, in part, on consumer travel and spending patterns, we may experience more demand for gasoline during the late spring and summer months than during the fall and winter. Travel and recreational activities are typically higher in these months in the geographic areas in which we operate, increasing the demand for gasoline that we distribute. Therefore, our results of operations in gasoline can be lower in the first and fourth quarters of the calendar year.

- Our heating oil and residual oil financial results are seasonal and can be lower in the second and third quarters of the calendar year. Demand for some refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally higher during November through March than during April through October. We obtain a significant portion of these sales during the winter months. Therefore, our results of operations in heating oil and residual oil for the first and fourth calendar quarters can be better than for the second and third quarters.

- Warmer weather conditions could adversely affect our results of operations and financial condition. Weather conditions generally have an impact on the demand for both home heating oil and residual oil. Because we supply distributors whose customers depend on home heating oil and residual oil for space heating purposes during the winter, warmer-than-normal temperatures during the first and fourth calendar quarters in the Northeast can decrease the total volume we sell and the gross profit realized on those sales.

- Energy efficiency, higher prices, new technology and alternative fuels could reduce demand for our products. Increased conservation and technological advances have adversely affected the demand for home heating oil and residual oil. Consumption of residual oil has steadily declined over the last three decades. We could face additional competition from alternative energy sources as a result of future government-mandated controls or regulation further promoting the use of cleaner fuels. End users who are dual-fuel users have the ability to switch between residual oil

and natural gas. Other end users may elect to convert to natural gas. During a period of increasing residual oil prices relative to the prices of natural gas, dual-fuel customers may switch and other end users may convert to natural gas. During periods of increasing home heating oil prices relative to the price of natural gas, residential users of home heating oil may also convert to natural gas. Such switching or conversion could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders. In addition, higher prices and new technologies and alternative fuel sources, such as electric, hybrid or battery powered motor vehicles, could reduce the demand for gasoline and adversely impact our gasoline sales. A reduction in gasoline sales could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.

Table of Contents

- Changes in government usage mandates and tax credits could adversely affect the availability and pricing of ethanol, which could negatively impact our sales. Future demand for ethanol will be largely dependent upon the economic incentives to blend based upon the relative value of gasoline and ethanol, taking into consideration the EPA's regulations on the Renewable Fuels Standard ("RFS") program and oxygenate blending requirements. A reduction or waiver of the RFS mandate or oxygenate blending requirements could adversely affect the availability and pricing of ethanol, which in turn could adversely affect our future gasoline and ethanol sales. In addition, changes in blending requirements could affect the price of RINs which could impact the magnitude of the mark-to-market liability recorded for the deficiency, if any, in our RIN position relative to our RVO at a point in time.
- We may not be able to fully implement or capitalize upon planned growth projects. We could have a number of organic growth projects that may require the expenditure of significant amounts of capital in the aggregate. Many of these projects involve numerous regulatory, environmental, commercial and legal uncertainties that will be beyond our control. As these projects are undertaken, required approvals, permits and licenses may not be obtained, may be delayed or may be obtained with conditions that materially alter the expected return associated with the underlying projects. Moreover, revenues associated with these organic growth projects will not increase immediately upon the expenditures of funds with respect to a particular project and these projects may be completed behind schedule or in excess of budgeted cost. We may pursue projects in anticipation of market demand that dissipates or market growth that never materializes. As a result of these uncertainties, the anticipated benefits associated with our capital projects may not be achieved.
- New, stricter environmental laws and other industry-related regulations could significantly impact our operations and/or increase our costs, which could adversely affect our results of operations and financial condition. Our operations are subject to federal, state and local laws and regulations regulating, among other matters, logistics activities, product quality specifications and other environmental matters. The trend in environmental regulation is towards more restrictions and limitations on activities that may affect the environment over time. Our business may be adversely affected by increased costs and liabilities resulting from such stricter laws and regulations. We try to anticipate future regulatory requirements that might be imposed and plan accordingly to remain in compliance with changing environmental laws and regulations and to minimize the costs of such compliance. The federal government recently finalized a rule including new design and construction requirements for railroad tank cars that are used to transport crude oil and ethanol. The establishment of more stringent design or construction requirements for railroad tank cars that are used to transport crude oil and ethanol with too short of a timeframe for compliance may lead to shortages of compliant railcars available to transport crude oil and ethanol, which could adversely affect our business. Likewise, some environmental interest groups have commenced efforts to seek to use state and local laws to restrict the types of railroad tanks cars that can be used to deliver crude oil and ethanol to bulk storage terminals. Were such state and local laws to come into effect and were they to survive appeals and judicial review, they would potentially expose our operations to duplicative and possibly inconsistent regulation. There can be no assurances as to the timing and type of such changes in existing laws or the promulgation of new laws or the amount of any required expenditures associated therewith.

Results of Operations

Evaluating Our Results of Operations

Our management uses a variety of financial and operational measurements to analyze our performance. These measurements include: (1) product margin, (2) gross profit, (3) earnings before interest, taxes, depreciation and amortization (“EBITDA”) and Adjusted EBITDA, (4) distributable cash flow, (5) selling, general and administrative expenses (“SG&A”), (6) operating expenses, and (7) degree day.

Product Margin

We view product margin as an important performance measure of the core profitability of our operations. We review product margin monthly for consistency and trend analysis. We define product margin as our product sales minus product costs. Product sales primarily include sales of unbranded and branded gasoline, distillates, residual oil,

Table of Contents

renewable fuels, crude oil, natural gas and propane, as well as convenience store sales, gasoline station rental income and revenue generated from our logistics activities when we engage in the storage, transloading and shipment of products owned by others. Product costs include the cost of acquiring the refined petroleum products, renewable fuels, crude oil, natural gas and propane and all associated costs including shipping and handling costs to bring such products to the point of sale as well as product costs related to convenience store items and costs associated with our logistics activities. We also look at product margin on a per unit basis (product margin divided by volume). Product margin is a non-GAAP financial measure used by management and external users of our consolidated financial statements to assess our business. Product margin should not be considered an alternative to net income, operating income, cash flow from operations or any other measure of financial performance presented in accordance with GAAP. In addition, our product margin may not be comparable to product margin or a similarly titled measure of other companies.

Gross Profit

We define gross profit as our product margin minus terminal and gasoline station related depreciation expense allocated to cost of sales.

EBITDA and Adjusted EBITDA

EBITDA and Adjusted EBITDA are non-GAAP financial measures used as supplemental financial measures by management and may be used by external users of our consolidated financial statements, such as investors, commercial banks and research analysts, to assess:

- our compliance with certain financial covenants included in our debt agreements;
- our financial performance without regard to financing methods, capital structure, income taxes or historical cost basis;
- our ability to generate cash sufficient to pay interest on our indebtedness and to make distributions to our partners;
- our operating performance and return on invested capital as compared to those of other companies in the wholesale, marketing, storing and distribution of refined petroleum products, renewable fuels, crude oil, natural gas and propane, without regard to financing methods and capital structure; and
-

the viability of acquisitions and capital expenditure projects and the overall rates of return of alternative investment opportunities.

Adjusted EBITDA is EBITDA further adjusted for the gain or loss on the sale and disposition of assets and the goodwill and long-lived asset impairment. EBITDA and Adjusted EBITDA should not be considered as alternatives to net income, operating income, cash flow from operating activities or any other measure of financial performance or liquidity presented in accordance with GAAP. EBITDA and Adjusted EBITDA exclude some, but not all, items that affect net income, and these measures may vary among other companies. Therefore, EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

Distributable Cash Flow

Distributable cash flow is an important non-GAAP financial measure for our limited partners since it serves as an indicator of our success in providing a cash return on their investment. Distributable cash flow as defined by our partnership agreement is net income plus depreciation and amortization minus maintenance capital expenditures, as well as adjustments to eliminate items approved by the audit committee of the board of directors of our general partner that are extraordinary or non-recurring in nature and that would otherwise increase distributable cash flow.

Distributable cash flow as used in our partnership agreement determines our ability to make cash distributions on our incentive distribution rights. The investment community also uses a distributable cash flow metric similar to the metric used in our partnership agreement with respect to publicly traded partnerships to indicate whether or not such

Table of Contents

partnerships have generated sufficient earnings on a current or historic level that can sustain or support an increase in quarterly cash distribution. Our partnership agreement does not permit adjustments for certain non-cash items, such as net losses on the sale and disposition of assets and goodwill and long-lived asset impairment charges.

Distributable cash flow should not be considered as an alternative to net income, operating income, cash flow from operations, or any other measure of financial performance presented in accordance with GAAP. In addition, our distributable cash flow may not be comparable to distributable cash flow or similarly titled measures of other companies.

Selling, General and Administrative Expenses

Our SG&A expenses include, among other things, marketing costs, corporate overhead, employee salaries and benefits, pension and 401(k) plan expenses, discretionary bonuses, non-interest financing costs, professional fees and information technology expenses. Employee-related expenses including employee salaries, discretionary bonuses and related payroll taxes, benefits, and pension and 401(k) plan expenses are paid by our general partner which, in turn, is reimbursed for these expenses by us.

Operating Expenses

Operating expenses are costs associated with the operation of the terminals, transload facilities and gasoline stations used in our business. Lease payments and storage expenses, maintenance and repair, utilities, credit card fees, taxes, labor and labor-related expenses comprise the most significant portion of our operating expenses. The majority of these expenses remains relatively stable independent of the volumes through our system but fluctuate slightly depending on the activities performed during a specific period.

Degree Day

A “degree day” is an industry measurement of temperature designed to evaluate energy demand and consumption. Degree days are based on how far the average temperature departs from a human comfort level of 65°F. Each degree of temperature above 65°F is counted as one cooling degree day, and each degree of temperature below 65°F is counted as one heating degree day. Degree days are accumulated each day over the course of a year and can be compared to a monthly or a long-term (multi-year) average, or normal, to see if a month or a year was warmer or cooler than usual. Degree days are officially observed by the National Weather Service and officially archived by the National Climatic Data Center. For purposes of evaluating our results of operations, we use the normal heating degree day amount as reported by the National Weather Service at its Logan International Airport

station in Boston, Massachusetts.

Table of Contents

Key Performance Indicators

The following table provides a summary of some of the key performance indicators that may be used to assess our results of operations. These comparisons are not necessarily indicative of future results (gallons and dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Net (loss) income attributable to Global Partners LP	\$ (119,551)	\$ 8,212	\$ (133,885)	\$ 45,845
EBITDA (1)	\$ (67,825)	\$ 59,321	\$ 16,048	\$ 179,872
Adjusted EBITDA (1)	\$ 51,644	\$ 60,001	\$ 144,152	\$ 181,202

-
- (1) EBITDA and Adjusted EBITDA are non-GAAP financial measures which are discussed above under “—Evaluating Our Results of Operations.” The table below presents reconciliations of EBITDA and Adjusted EBITDA to the most directly comparable GAAP financial measures.
- (2) Distributable cash flow is a non-GAAP financial measure which is discussed above under “—Evaluating Our Results of Operations.” As defined by our partnership agreement, distributable cash flow is not adjusted for the loss on sale and disposition of assets and goodwill and long-lived asset impairment. The table below presents reconciliations of distributable cash flow to the most directly comparable GAAP financial measures.
- (3) Distributable cash flow includes a net loss on sale and disposition of assets of \$7.5 million and \$0.7 million for the three months ended September 30, 2016 and 2015, respectively, and \$14.0 million and \$1.3 million for the nine months ended September 30, 2016 and 2015, respectively. Distributable cash flow also includes a net goodwill and long-lived asset impairment of \$112.0 million (\$147.8 million attributed to us offset by \$35.8 million attributed to the noncontrolling interest) and \$0 for the three months ended September 30, 2016 and 2015, respectively, and \$114.1 million (\$150.0 million attributed to us offset by \$35.8 million attributed to the noncontrolling interest) and \$0 for the nine months ended September 30, 2016 and 2015, respectively. Excluding the net loss on sale and disposition of assets and the net goodwill and long-lived asset impairment, distributable cash flow would have been \$19.3 million and \$30.3 million for the three months ended September 30, 2016 and 2015, respectively, and \$58.5 million and \$110.8 million for the nine months ended September 30, 2016 and 2015, respectively.
- (4) Crude oil consists of our crude oil sales and revenue from our logistics activities.
- (5) Other oils and related products primarily consist of distillates, residual oil and propane.
- (6) Station operations primarily consist of convenience stores sales and rental income.
- (7) Product margin is a non-GAAP financial measure used by management and external users of our consolidated financial statements to assess our business. The table above includes a reconciliation of product margin on a combined basis to gross profit, a directly comparable GAAP measure.

Table of Contents

The following table presents reconciliations of EBITDA and Adjusted EBITDA to the most directly comparable GAAP financial measures on a historical basis for each period presented (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Reconciliation of net (loss) income to EBITDA and Adjusted EBITDA:				
Net (loss) income	\$ (156,583)	\$ 8,146	\$ (172,961)	\$ 46,169
Net loss (income) attributable to noncontrolling interest	37,032	66	39,076	(324)
Net (loss) income attributable to Global Partners LP	(119,551)	8,212	(133,885)	45,845
Depreciation and amortization, excluding the impact of noncontrolling interest	27,391	29,744	83,073	82,003
Interest expense, excluding the impact of noncontrolling interest	21,197	20,643	65,192	51,055
Income tax expense	3,138	722	1,668	969
EBITDA	(67,825)	59,321	16,048	179,872
Net loss on sale and disposition of assets	7,486	680	13,966	1,330

Goodwill and long-lived asset impairment attributable to noncontrolling interest	(35,834)	—	(35,834)	—
Adjusted EBITDA	\$ 51,644	\$ 60,001	\$ 144,152	\$ 181,202
Reconciliation of net cash provided by (used in) operating activities to EBITDA and Adjusted EBITDA:				
Net cash provided by (used in) operating activities	\$ 74,143	\$ 51,840	\$ 14,160	\$ (5,392)
Net changes in operating assets and liabilities and certain non-cash items	(202,201)	(12,885)	(100,647)	137,610
Net cash from operating activities and changes in operating assets and liabilities attributable to noncontrolling interest	35,898	(999)	35,675	(4,370)
Interest expense, excluding the impact of noncontrolling interest	21,197	20,643	65,192	51,055
Income tax expense	3,138	722	1,668	969
EBITDA	(67,825)	59,321	16,048	179,872
Net loss on sale and disposition of assets	7,486	680	13,966	1,330
Goodwill and long-lived asset impairment	147,817	—	149,972	—
Goodwill and long-lived asset impairment attributable to noncontrolling interest	(35,834)	—	(35,834)	—
Adjusted EBITDA	\$ 51,644	\$ 60,001	\$ 144,152	\$ 181,202

Table of Contents

The following table presents reconciliations of distributable cash flow to the most directly comparable GAAP financial measures on a historical basis for each period presented (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Reconciliation of net (loss) income to distributable cash flow:				
Net (loss) income	\$ (156,583)	\$ 8,146	\$ (172,961)	\$ 46,169
Net loss (income) attributable to noncontrolling interest	37,032	66	39,076	(324)
Net (loss) income attributable to Global Partners LP	(119,551)	8,212	(133,885)	45,845
Depreciation and amortization, excluding the impact of noncontrolling interest	27,391	29,744	83,073	82,003
Amortization of deferred financing fees and senior notes discount	1,868	1,824	5,506	5,162
Amortization of routine bank refinancing fees	(1,168)	(1,134)	(3,413)	(3,381)
Maintenance capital expenditures, excluding the impact of noncontrolling interest	(8,742)	(9,009)	(20,854)	(20,110)
Distributable cash flow (1)(2)	\$ (100,202)	\$ 29,637	\$ (69,573)	\$ 109,519
Reconciliation of net cash provided by (used in) operating activities to distributable cash flow:				
Net cash provided by (used in) operating activities	\$ 74,143	\$ 51,840	\$ 14,160	\$ (5,392)
Net changes in operating assets and liabilities and certain non-cash items	(202,201)	(12,885)	(100,647)	137,610
Net cash from operating activities and changes in operating assets and liabilities attributable to noncontrolling interest	35,898	(999)	35,675	(4,370)
Amortization of deferred financing fees and senior notes discount	1,868	1,824	5,506	5,162
Amortization of routine bank refinancing fees	(1,168)	(1,134)	(3,413)	(3,381)
Maintenance capital expenditures, excluding the impact of noncontrolling interest	(8,742)	(9,009)	(20,854)	(20,110)
Distributable cash flow (1)(2)	\$ (100,202)	\$ 29,637	\$ (69,573)	\$ 109,519

- (1) Distributable cash flow is a non-GAAP financial measure which is discussed above under “—Evaluating Our Results of Operations.” As defined by our partnership agreement, distributable cash flow is not adjusted for the loss on sale and disposition of assets and goodwill and long-lived asset impairment. The table above presents reconciliations of distributable cash flow to the most directly comparable GAAP financial measures.
- (2) Includes a net loss on sale and disposition of assets of \$7.5 million and \$0.7 million for the three months ended September 30, 2016 and 2015, respectively, and \$14.0 million and \$1.3 million for the nine months ended September 30, 2016 and 2015, respectively. Distributable cash flow also includes a net goodwill and long-lived asset impairment of \$112.0 million (\$147.8 million attributed to us offset by \$35.8 million attributed to the noncontrolling interest) and \$0 for the three months ended September 30, 2016 and 2015, respectively, and \$114.1 million (\$150.0 million attributed to us offset by \$35.8 million attributed to the noncontrolling interest) and \$0 for the nine months ended September 30, 2016 and 2015, respectively. Excluding the net loss on sale and disposition of assets and the net goodwill and long-lived asset impairment, distributable cash flow would have

been \$19.3 million and \$30.3 million for the three months ended September 30, 2016 and 2015, respectively, and \$58.5 million and \$110.8 million for the nine months ended September 30, 2016 and 2015, respectively

Consolidated Sales

Our total sales were \$2.0 billion and \$2.5 billion for the three months ended September 30, 2016 and 2015, respectively, a decrease of \$0.5 billion, or approximately 20%, due to a decline in prices and volume sold. Our aggregate volume of product sold was approximately 1.2 billion gallons and 1.4 billion gallons for the three months ended September 30, 2016 and 2015, respectively, a decrease of approximately 137 million gallons, or 10%. The decrease in volume sold includes a decrease of 165 million gallons in our Wholesale segment, primarily in crude oil and, to a lesser extent, gasoline and gasoline blendstocks, offset by increases of 19 million gallons in our Commercial segment and 9 million gallons in our GDSO segment.

Table of Contents

Our total sales were \$5.9 billion and \$8.1 billion for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$2.2 billion, or 27%, due to a decrease in prices and to a decline in volume sold. Our aggregate volume of product sold was 3.8 billion gallons and 4.3 billion gallons for the nine months ended September 30, 2016 and 2015, respectively, a decrease of approximately 0.5 billion gallons, or 11%. The decrease in volume sold includes a decrease of 570 million gallons in our Wholesale segment, primarily in gasoline and gasoline blendstocks and crude oil but also in distillates. The decrease in volume sold was offset by increases of 58 million gallons in our GDSO segment, primarily due to the Capitol acquisition as well as the addition of 22 leased sites in April, and 28 million gallons in our Commercial segment.

Gross Profit

Our gross profit was \$132.6 million and \$152.3 million for the three months ended September 30, 2016 and 2015, respectively, a decrease of \$19.7 million, or 13%, primarily due to less activity in crude oil caused by tighter differentials, partially offset by more favorable market conditions in our Wholesale segment in gasoline.

Our gross profit was \$392.0 million and \$465.0 million for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$73.0 million, or 16%, primarily due to less activity in crude oil caused by tighter differentials, partially offset by an increase in our GDSO segment due to the Capitol acquisition and the addition of 22 leased sites in April 2016, and by favorable market conditions in our Wholesale segment in gasoline.

Results for Wholesale Segment

Gasoline and Gasoline Blendstocks. Sales from wholesale gasoline and gasoline blendstocks were \$0.6 billion and \$0.7 billion for the three months ended September 30, 2016 and 2015, respectively. The decrease of approximately \$0.1 billion, was due to a decrease in prices and to a decline in volume sold. Our gasoline and gasoline blendstocks product margin was \$21.5 million and \$7.2 million for the three months ended September 30, 2016 and 2015, respectively, an increase of \$14.3 million, or approximately 200%, primarily due to more favorable market conditions in wholesale gasoline.

Sales from wholesale gasoline and gasoline blendstocks were \$1.5 billion and \$2.2 billion for the nine months ended September 30, 2016 and 2015, respectively. The decrease of approximately \$0.7 billion, or 32%, was due to a decrease in gasoline prices and to a decline in volume sold. The decrease in volume sold was due, in part, to an elective change made in early 2015 in supply logistics by a particular gasoline customer, which did not have a material impact on our product margin for the first nine months of 2016. Our gasoline and gasoline blendstocks product margin was \$64.5 million and \$54.7 million for the nine months ended September 30, 2016 and 2015, an

increase \$9.8 million, or 18%, primarily due to favorable market conditions in wholesale gasoline.

Crude Oil. Crude oil sales and logistics revenues were \$0.1 billion and \$0.3 billion for the three months ended September 30, 2016 and 2015, respectively, a decrease of \$0.2 billion due to a decrease in volume. We had a negative product margin from crude oil of \$16.8 million for the third quarter of 2016 compared to a product margin of \$15.7 million for the third quarter of 2015, a decrease of approximately \$32.5 million, or 207%, primarily due to the result of tighter crude oil differentials as mid-continent crude oil did not discount sufficiently to make rail transport to the East Coast competitive with imports. In the third quarter of 2016, our product margin was negatively impacted by the absence of logistics nominations from one particular contract customer. Due to the absence of third quarter 2016 nominations by that customer, we expect additional revenue of approximately \$8.2 million related to the take-or-pay nature of the contract by December 31, 2016. Revenue from this contract in the fourth quarter of 2016 will reflect those amounts owed to us for the lack of logistics nominations during the year, which through the first three quarters of 2016 totals \$19.8 million. Our crude oil product margin for the third quarters of 2016 and 2015 was negatively impacted by fixed costs which included contracted barges, pipeline commitments and railcar leases. The primary fixed cost allocated to crude oil was our railcar lease expense of \$11.6 million and \$13.4 million for the three months ended September 30, 2016 and 2015, respectively. The majority of these cars were in storage as of September 30, 2016.

Table of Contents

Crude oil sales and logistics revenues were \$0.4 billion and \$0.9 billion for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$0.5 billion, due primarily a decrease in volume and to a decline in crude oil prices during the first half of 2016. We had a negative product margin from crude oil of \$28.8 million for the first nine months of 2016 compared to a product margin of \$67.8 million for the same period in 2015, a decrease of \$96.6 million, or 142%, primarily due to the result of tighter crude oil differentials as mid-continent crude oil did not discount sufficiently to make rail transport to the East Coast competitive with imports. Our product margin for the first nine months of 2016 was negatively impacted by the absence of logistics nominations from one particular contract customer, specifically in the second and third quarters. Revenue from this contract in the fourth quarter of 2016 will reflect those amounts owed to us for the lack of logistics nominations during the year, which through the first nine months of 2016 totaled \$19.8 million. Our crude oil product margin for the first nine months of 2016 and 2015 was negatively impacted by fixed costs which included contracted barges, pipeline commitments and railcar leases. The primary fixed cost allocated to crude oil was our railcar lease expense of \$34.7 million and \$37.2 million in the first nine months of 2016 and 2015, respectively. The future lease expense for these railcars is estimated at \$10.9 million for the remainder of 2016, and approximately \$43.7 million and \$37.0 million in 2017 and 2018, respectively, with a significant reduction to approximately \$13.1 million in 2019 after which the leases expire. These cars can be used for crude oil, ethanol or other products.

Other Oils and Related Products. Sales from other oils and related products (primarily distillates, residual oil and propane) were \$0.3 billion for each of the three months ended September 30, 2016 and 2015. Our product margin from other oils and related products was \$11.4 million and \$12.4 million for the three months ended September 30, 2016 and 2015, respectively, a decrease of \$1.0 million, or 8%, primarily in propane.

Sales from other oils and related products were \$1.0 billion and \$1.6 billion for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$0.6 billion, or 38%, primarily due to a decrease in prices. Our product margin from other oils and related products was \$52.5 million and \$53.8 million for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$1.3 million, or 2%, primarily, due to warmer weather during the first quarter of 2016 when temperatures were 12% warmer than normal and 26% warmer than the first quarter of 2015, offset by more favorable market conditions in distillates in the first half of 2016 and improved margins in propane.

Results for Gasoline Distribution and Station Operations Segment

Gasoline Distribution. Sales from gasoline distribution were \$0.8 billion and \$0.9 billion for the three months ended September 30, 2016 and 2015, respectively, a decrease of \$0.1 billion, or 11% due to a decline in price. Our sales benefitted from the addition of 22 leased sites in April 2016 but were negatively impacted by the sale of the Drake Sites and by lower prices during the quarter. Our product margin from gasoline distribution was \$88.1 million and \$88.3 million for the three months ended September 30, 2016 and 2015, respectively, a decrease of \$0.2 million, in part due to the sale of the Drake Sites. Our product margin from gasoline distribution was favorably impacted by the addition of the 22 leased sites in April.

Sales from gasoline distribution were \$2.2 billion and \$2.5 billion for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$0.3 billion, or 12%, due to lower prices during the period and to the sale of the Drake Sites, offset by an increase in volume sold primarily due to the acquisition of Capitol and the addition of the 22 leased sites in April. Our product margin from gasoline distribution was \$220.5 million and \$203.2 million for the nine months ended September 30, 2016 and 2015, respectively, an increase of \$17.3 million, or 8%, primarily due to the Capitol acquisition, the expansion of our leased portfolio, including the addition of the 22 leased sites in April 2016, and the opening for business of certain raze and rebuild projects and new-to-industry sites.

Station Operations. Our station operations, which include (i) convenience stores sales at our directly operated stores, (ii) rental income from gasoline stations leased to dealers or from commissioned agents and from cobranding arrangements and (iii) sale of sundries, such as car wash sales, lottery and ATM commissions, collectively generated revenues of \$0.1 billion for each of the three months ended September 30, 2016 and 2015. Our product margin from station operations was \$48.7 million and \$49.0 million for the three months ended September 30, 2016 and 2015, respectively, a decrease of \$0.3 million. Our sales and product margin reflect the sale of the Drake sites and the addition of the 22 leased sites in April.

Table of Contents

Sales from our station operations were approximately \$0.3 billion for each of the nine months ended September 30, 2016 and 2015, respectively. Our product margin from station operations was \$140.9 million and \$130.8 million for the nine months ended September 30, 2016 and 2015, respectively, an increase of \$10.1 million, or 8%, primarily due to the Capitol acquisition, the expansion of our leased portfolio, including the addition of 22 leased sites in April 2016, and the opening of certain raze and rebuild projects and new-to-industry sites.

Results for Commercial Segment

Our commercial sales were approximately \$0.2 billion for each of the three months ended September 30, 2016 and 2015. Our commercial product margin was \$4.2 million and \$6.1 million for the three months ended September 30, 2016 and 2015, respectively, a decrease of \$1.9 million, or 31%, primarily due to a decrease in bunkering activity.

Our commercial sales were \$0.5 billion and \$0.6 billion for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$0.1 billion due to a decrease in prices. Our commercial product margin was \$16.5 million and \$24.7 million for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$8.2 million, or 33%, primarily due to a decrease in bunkering activity during the second and third quarters of 2016 and to warmer weather which negatively impacted our weather-sensitive products during the first quarter of 2016 compared to the same period in 2015.

Selling, General and Administrative Expenses

SG&A expenses were \$36.7 million and \$42.5 million for the three months ended September 30, 2016 and 2015, respectively, a decrease of approximately \$5.8 million, or 14%, including decreases of \$3.2 million in professional fees and due diligence expenses related to potential acquisitions and growth opportunities, \$0.5 million in wages and benefits, \$0.4 million in bad debt expense, \$0.4 million in bank fees and \$1.3 million in various other SG&A expenses.

SG&A expenses were \$108.3 million and \$136.7 million for the nine months ended September 30, 2016 and 2015, respectively, a decrease of approximately \$28.4 million, or 21%, including decreases of \$8.7 million in professional fees and due diligence expenses related to potential acquisitions and growth opportunities, \$7.4 million in accrued incentive compensation, \$1.0 million in wages and benefits, \$0.6 million in bad debt expense, \$0.6 million in bank fees and \$1.3 million in various other SG&A expenses. The decrease in SG&A expenses also reflects \$7.7 million in acquisition costs and restructuring charges in connection with the Warren acquisition and \$3.2 million in acquisition costs in connection with the Capitol acquisition in 2015. The decrease in SG&A expenses was offset by \$2.1 million in severance charges incurred related to a reduction in our workforce.

Operating Expenses

Operating expenses were \$70.6 million and \$77.3 million for the three months ended September 30, 2016 and 2015, respectively, a decrease of approximately \$6.7 million, or 9%. Operating expenses decreased by \$2.4 million in expenses associated with our terminal operations, \$2.3 million associated with our GDSO segment, \$1.1 million at our Basin Transload facilities in North Dakota and \$0.9 million at our Oregon facility. The decrease in operating expenses in our GDSO segment was partially offset by increased operating expenses associated with the addition of 22 leased sites, primarily in direct overhead expenses, rent expense and credit card fees.

Operating expenses were \$218.7 million and \$218.1 million for the nine months ended September 30, 2016 and 2015, respectively, an increase of \$0.6 million. Operating expenses increased by \$6.7 million associated with our GDSO segment, largely due to the Capitol acquisition and the addition of the 22 leased sites, primarily in direct overhead, rent expense, maintenance and repairs and property taxes. Operating expenses at our Oregon facility increased by \$1.7 million, due to \$3.5 million in costs associated with cleaning tanks and related infrastructure in order to convert the facility to ethanol transloading, offset by a decrease of \$1.8 million in various operating expenses. The increase in operating expenses was offset by decreases of \$4.6 million in operating expenses associated with our terminal operations and \$3.2 million in operating costs at our Basin Transload facilities in North Dakota.

Table of Contents

Amortization Expense

Amortization expense related to our intangible assets was \$2.3 million for each of the three months ended September 30, 2016 and 2015. Amortization expense was \$7.1 million and \$10.7 million for the nine months ended September 30, 2016 and 2015, respectively, a decrease of \$3.6 million, or 34%, primarily due to intangibles that became fully amortized during the second quarter of 2015, partially offset by the intangible assets acquired in the Capitol acquisition.

Net Loss on Sale and Disposition of Assets

Net loss on sale and disposition of assets was \$7.5 million and \$0.7 million for the three months ended September 30, 2016 and 2015, respectively, primarily due to the sale of certain GDSO sites. Included in the net loss on sale and disposition of assets for the three months ended September 30, 2016 is approximately \$13.6 million of goodwill derecognized as part of the site divestitures. See Note 15 of Notes to Consolidated Financial Statements for additional information.

Net loss on sale and disposition of assets was \$14.0 million and \$1.3 million for the nine months ended September 30, 2016 and 2015, respectively, primarily due to the sale of certain GDSO sites. Included in the net loss on sale and disposition of assets for the nine months ended September 30, 2016 is approximately \$13.6 million of goodwill derecognized as part of the site divestitures. See Note 15 of Notes to Consolidated Financial Statements for additional information.

Goodwill and Long-Lived Asset Impairment

We recognized a goodwill impairment charge of \$121.7 million for the three and nine months ended September 30, 2016 related to the Wholesale reporting unit and a long-lived asset impairment charge of \$26.1 million and \$28.2 million for the three and nine months ended September 30, 2016 and 2015, respectively. See Note 1 of Notes to Consolidated Financial Statements for a description of the facts and circumstances related to the impairment charges recognized in the third quarter ended September 30, 2016.

Interest Expense

Interest expense was \$21.2 million and \$20.6 million for the three months ended September 30, 2016 and 2015, respectively, an increase of \$0.6 million, or 3%. The increase was due to \$1.1 million in the third quarter of 2016 associated with the financing obligation recognized in connection with the Sale Leaseback Transaction (see Note 6 of Notes to Consolidated Financial Statements), partially offset by lower average balances on our revolving credit facility for the third quarter of 2016 compared to the same period in 2015 and lower average interest rates for the third quarter of 2016 due to the May 2016 expiration of our interest rate swap.

Interest expense was \$65.2 million and \$51.1 million for the nine months ended September 30, 2016 and 2015, respectively, an increase of \$14.1 million, or 28%. The increase was due primarily to (i) increased interest related to the issuance of the 7.00% Notes in 2015; (ii) additional borrowings related to the Capitol acquisition; (iii) an increase of \$5.1 million for the first nine months of 2016 associated with the financing obligations recognized in connection with the acquisition of Capitol and the Sale Leaseback Transaction; and (iv) \$1.8 million associated with the write-off of a portion of our deferred financing fees associated with the elective reduction in our working capital revolving credit facility and our revolving credit facility. Please see Note 6 of Notes to Consolidated Financial Statements for additional information on the 7.00% Notes, our financing obligations and the write-off of deferred financing fees.

Income Tax Expense

Income tax expense of \$3.1 million and \$0.7 million for the three months ended September 30, 2016 and 2015, respectively, and \$1.7 million and \$0.9 million for the nine months ended September 30, 2016 and 2015, respectively, reflect income tax expense on the operating results of our wholly owned subsidiary, GMG, which is a taxable entity for

Table of Contents

federal and state income tax purposes. The increase of \$2.6 million for the three months ended September 30, 2016 compared to the same period in 2015 is due, in part, to the gain on the sale of the Drake Sites.

Net (Loss) Income Attributable to Noncontrolling Interest

In February 2013, we acquired a 60% membership interest in Basin Transload. The net (loss) income attributable to noncontrolling interest was (\$37.0 million) and (\$0.1 million) for the three months ended September 30, 2016 and 2015, respectively, and (\$39.1 million) and \$0.3 million for the nine months ended September 30, 2016 and 2015, respectively, which represents the 40% noncontrolling ownership of the net loss reported. The noncontrolling interest includes a \$35.8 million goodwill and long-lived asset impairment for the three and nine months ended September 30, 2016.

Liquidity and Capital Resources

Liquidity

Our primary liquidity needs are to fund our working capital requirements, capital expenditures and distributions and to service our indebtedness. Our primary sources of liquidity are cash generated from operations, amounts available under our working capital revolving credit facility and equity and debt offerings. Please read “—Credit Agreement” for more information on our working capital revolving credit facility.

Working capital was \$277.4 million and \$272.3 million at September 30, 2016 and December 31, 2015, respectively, an increase of \$5.1 million. Increases to working capital primarily include (i) a \$49.3 million increase in inventories due to higher prices; (ii) a \$13.8 million increase in cash, in part reflecting a portion of the proceeds from the sale of the Drake Sites that were available to pursue like-kind exchange transactions; and (iii) a \$72.5 million reduction in accounts payable, primarily due to seasonality relating to the heating season and to lower crude oil volume, for a total increase of \$138.9 million. The increase was offset by an increase of \$69.9 million in the current portion of our working capital revolving credit facility, which represents the amount we expect to pay down during the course of the year (see Note 6 of Notes to Consolidated Financial Statements) and by decreases of \$34.1 million in the change in derivatives and \$30.3 million in accounts receivable.

Cash Distributions

During 2016, we paid the following cash distributions to our common unitholders and our general partner:

Cash Distribution Payment Date	Total Paid	Distribution Paid for the Quarterly Period Ended
February 16, 2016 (1)	\$ 15.8 million	Fourth quarter 2015
May 16, 2016	\$ 15.8 million	First quarter 2016
August 12, 2016	\$ 15.8 million	Second quarter 2016

-
- (1) On January 28, 2016, we announced a reduction in the quarterly distribution for the fourth quarter of 2015 on all outstanding common units to \$0.4625. This distribution represented a decrease of 33.7% from the distribution of \$0.6975 per unit paid in November 2015 and a decrease of 30.5% from the distribution of \$0.6650 per unit paid in February 2015. The distribution reflects continuing weakness in the crude oil market.

On October 26, 2016, the board of directors of our general partner declared a quarterly cash distribution of \$0.4625 per unit (\$1.85 per unit on an annualized basis) for the period from July 1, 2016 through September 30, 2016 to our unitholders of record as of the close of business on November 8, 2016. We expect to pay the cash distribution of approximately \$15.8 million on November 14, 2016.

Table of Contents

Contractual Obligations

We have contractual obligations that are required to be settled in cash. The amounts of our contractual obligations at September 30, 2016 were as follows (in thousands):

	Payments due by period					
	Remainder				2020 and	
Contractual Obligations	of				Thereafter	Total
	2016	2017	2018	2019		
Credit facility obligations (1)	\$ 172,468	\$ 173,301	\$ 173,301	\$ —	\$ —	\$ 519,070
Senior notes obligations (2)	11,109	44,438	44,438	44,438	807,094	951,517
Operating lease obligations (3)	37,386	138,855	111,825	61,040	184,032	533,138
Capital lease obligations	44	201	97	—	—	342
Other long-term liabilities (4)	8,138	26,344	24,659	32,441	98,445	190,027
Financing obligations (5)	3,506	14,099	14,327	14,561	158,509	205,002
Total	\$ 232,651	\$ 397,238	\$ 368,647	\$ 152,480	\$ 1,248,080	\$ 2,399,096

- (1) Includes principal and interest on our working capital revolving credit facility and our revolving credit facility at September 30, 2016 and assumes a ratable payment through the expiration date. Our credit agreement has a contractual maturity of April 30, 2018 and no principal payments are required prior to that date. However, we repay amounts outstanding and reborrow funds based on our working capital requirements. Therefore, the current portion of the working capital revolving credit facility included in the accompanying balance sheets is the amount we expect to pay down during the course of the year, and the long-term portion of the working capital revolving credit facility is the amount we expect to be outstanding during the entire year. Please read “—Credit Agreement” for more information on our working capital revolving credit facility.
- (2) Includes principal and interest on the 6.25% Notes and the 7.00% Notes. No principal payments are required prior to maturity.
- (3) Includes operating lease obligations related to leases for office space and computer equipment, land, terminals and throughputs, gasoline stations, railcars, mobile equipment, access rights and barges.
- (4) Includes amounts related to our 15-year brand fee agreement entered into in 2010 with ExxonMobil and amounts related to our pipeline connection agreements and our natural gas transportation and reservation agreements. Other long-term liabilities include pension and deferred compensation obligations.
- (5) Includes lease rental payments in connection with (i) the acquisition of Capitol related to properties previously sold by Capitol within two sale-leaseback transactions; and (ii) the sale of real property assets at 30 gasoline stations and convenience stores. These transactions did not meet the criteria for sale accounting and the lease rental payments will be classified as interest expense on the respective financing obligation and the pay-down of the related financing obligation. See Note 6 of Notes to Consolidated Financial Statement for additional information.

Capital Expenditures

Our operations require investments to maintain, expand, upgrade and enhance existing operations and to meet environmental and operational regulations. We categorize our capital requirements as either maintenance capital expenditures or expansion capital expenditures. Maintenance capital expenditures represent capital expenditures to repair or replace partially or fully depreciated assets to maintain the operating capacity of, or revenues generated by, existing assets and extend their useful lives. Maintenance capital expenditures also include expenditures required to maintain equipment reliability, tankage and pipeline integrity and safety and to address certain environmental regulations. We anticipate that maintenance capital expenditures will be funded with cash generated by operations. We had approximately \$20.8 million and \$20.2 million in maintenance capital expenditures for the nine months ended September 30, 2016 and 2015, respectively, which are included in capital expenditures in the accompanying consolidated statements of cash flows and largely consisted of investments in our gasoline stations. Specifically, approximately \$15.5 million and \$14.9 million for the nine months ended September 30, 2016 and 2015, respectively, are related to our investments in our gasoline stations. Repair and maintenance expenses associated with existing assets that are minor in nature and do not extend the useful life of existing assets are charged to operating expenses as incurred.

Expansion capital expenditures include expenditures to acquire assets to grow our business or expand our existing facilities, such as projects that increase our operating capacity or revenues by increasing, for example, rail capacity, dock capacity and tankage, diversifying product availability, raze and rebuilds, new-to-industry gasoline stations and convenience stores, storage flexibility at various terminals and by adding terminals. We have the ability to fund our expansion capital expenditures through cash from operations or our credit agreement or by issuing debt securities or

Table of Contents

additional equity. We had approximately \$33.9 million and \$467.5 million in expansion capital expenditures for the nine months ended September 30, 2016 and 2015, respectively, which are included in capital expenditures in the accompanying consolidated statements of cash flows.

For the nine months ended September 30, 2016, the \$33.9 million in expansion capital expenditures consisted of (i) \$21.9 million in raze and rebuilds, expansion and improvements at retail gasoline stations and new-to-industry sites, and includes \$5.5 million related to the additional 22 leased sites; (ii) \$8.6 million in costs associated with our terminal assets, including \$7.7 million in dock and infrastructure expansion at our Oregon facility and tank construction projects, and (iii) \$3.4 million in other expansion capital expenditures including, in part, investments in information technology and computer and equipment.

For the nine months ended September 30, 2015, the \$467.5 million in expansion capital expenditures included approximately \$431.2 million in property and equipment associated with the acquisitions of Warren, the Revere Terminal and Capitol. In addition, we had \$36.3 million in expansion capital expenditures which consists of (i) \$22.4 million in new site development, rebuilds, expansion and improvements at retail gasoline stations, (ii) \$7.0 million in costs associated with our crude oil activities, including, in part, tank construction projects, rail expansion and improvement costs and equipment upgrades and (iii) \$6.9 million in other expansion capital expenditures including, in part, investments in information technology and computer and equipment upgrades at various terminals. Certain of the \$7.0 million for the nine months ended September 30, 2015 in costs associated with our crude oil activities include expenditures related to our Beulah, North Dakota facility, 60% of which was funded by us and 40% was funded by the noncontrolling interest at Basin Transload. These costs are reported in the accompanying consolidated statements of cash flows as we concluded that we control the entity based on an evaluation of the outstanding voting interests.

We expect maintenance capital expenditures of approximately \$35.0 million and expansion capital expenditures of approximately \$45.0 million for the full year ending December 31, 2016. These current estimates depend, in part, on the timing of completion of projects, availability of equipment, weather and unanticipated events requiring additional maintenance or investments.

We believe that we will have sufficient cash flow from operations, borrowing capacity under our credit agreement and the ability to issue additional common units and/or debt securities to meet our financial commitments, debt service obligations, contingencies and anticipated capital expenditures. However, we are subject to business and operational risks that could adversely affect our cash flow. A material decrease in our cash flows would likely have an adverse effect on our borrowing capacity as well as our ability to issue additional common units and/or debt securities.

Cash Flow

The following table summarizes cash flow activity (in thousands):

	Nine Months Ended September 30,	
	2016	2015
Net cash provided by (used in) operating activities	\$ 14,160	\$ (5,392)
Net cash (provided by) used in investing activities	\$ 4,179	\$ (615,141)
Net cash (used in) provided by financing activities	\$ (4,512)	\$ 616,060

Cash flow from operating activities generally reflects our net income, balance sheet changes arising from inventory purchasing patterns, the timing of collections on our accounts receivable, the seasonality of parts of our business, fluctuations in product prices, working capital requirements and general market conditions.

Table of Contents

Net cash provided by (used in) operating activities was \$14.1 million and (\$5.4 million) for the nine months ended September 30, 2016 and 2015, respectively, for a period-over-period increase in cash provided by operating activities of \$19.5 million. The primary drivers of the change include the following (in thousands):

	Nine Months Ended September 30,		Period over Period Change
	2016	2015	
Decrease in accounts receivable	\$ 30,296	\$ 89,726	\$ (59,430)
Increase in inventories	\$ (51,773)	\$ (27,574)	\$ (24,199)
Decrease in accounts payable	\$ (71,611)	\$ (163,387)	\$ 91,776

During the nine months ended September 30, 2016, the increase in inventories was due to higher prices, the decrease in accounts payable was primarily due to seasonality relating to the heating season and to lower crude oil volume and the decrease in accounts receivable was, in part, due to lower crude oil and logistics activity. The increase in net cash provided by operating activities also reflects the period-over-period decrease in net income of \$219.1 million, including the net loss on sale and disposition of assets and goodwill and long-lived asset impairment. In addition, the change in derivatives year over year provided funds of \$33.6 million.

During the nine months ended September 30, 2015, the decreases in accounts receivable and accounts payable were primarily due to declining prices. In addition, due to favorable market conditions, we elected to use our storage to carry increased levels of inventory.

Net cash provided by investing activities was \$4.2 million for the nine months ended September 30, 2016 and included \$58.9 million in proceeds from the sale of property and equipment, primarily associated with the sale of the Drake Sites, offset by \$33.9 million in expansion capital expenditures and \$20.8 million in maintenance capital expenditures.

Net cash used in investing activities was \$615.1 million for the nine months ended September 30, 2015 and included \$381.8 million, \$155.7 million and \$23.7 million in cash used to fund the acquisitions of Warren, Capitol and the Revere Terminal, respectively, \$36.3 million in expansion capital expenditures and \$20.2 million in maintenance capital expenditures, offset by \$2.5 million in proceeds from the sale of property and equipment.

See “—Capital Expenditures” for a discussion of our expansion capital expenditures for the nine months ended September 30, 2016 and 2015.

Net cash used in financing activities was \$4.5 million for the nine months ended September 30, 2016 and included \$88.2 million in net payments on our revolving credit facility, \$46.9 million in cash distributions to our common unitholders and our general partner and \$1.8 million in distributions to our noncontrolling interest at Basin Transload, offset by \$69.9 million in net borrowings from our working capital revolving credit facility and \$62.5 million in net proceeds from our sale leaseback transaction (see Note 6 to Notes to Consolidated Financial Statements).

Net cash provided by financing activities was \$616.0 million for the nine months ended September 30, 2015 and included \$295.1 million in proceeds from the issuance of our 7.00% Notes, \$154.9 million in borrowings from our working capital revolving credit facility, \$134.2 million in borrowings from our revolving credit facility to fund the acquisitions of Warren, the Revere Terminal and Capitol, \$109.3 million in net proceeds from our June 2015 issuance of common units and \$2.6 million in capital contributions from our noncontrolling interest at Basin Transload. Net cash provided by financing activities was offset by \$71.2 million in cash distributions to our common unitholders and our general partner, \$4.3 million in distributions to our noncontrolling interest at Basin Transload, \$3.9 million in the repurchase of common units pursuant to our repurchase program for future satisfaction of our general partner's obligations and \$0.7 million in net payments on our line of credit related to Basin Transload.

Credit Agreement

Certain subsidiaries of ours, as borrowers, and we and certain of our subsidiaries, as guarantors, have a \$1.475 billion senior secured credit facility. We repay amounts outstanding and reborrow funds based on our working

Table of Contents

capital requirements and, therefore, classify as a current liability the portion of the working capital revolving credit facility we expect to pay down during the course of the year. The long-term portion of the working capital revolving credit facility is the amount we expect to be outstanding during the entire year. The credit agreement will mature on April 30, 2018.

As of September 30, 2016, the two facilities under the credit agreement included:

- a working capital revolving credit facility to be used for working capital purposes and letters of credit in the principal amount equal to the lesser of our borrowing base and \$900.0 million; and
- a \$575.0 million revolving credit facility to be used for acquisitions, joint ventures, capital expenditures, letters of credit and general corporate purposes.

In addition, the credit agreement has an accordion feature whereby we may request on the same terms and conditions of our then-existing credit agreement, provided no Event of Default (as defined in the credit agreement) then exists, an increase to the working capital revolving credit facility, the revolving credit facility, or both, by up to another \$300.0 million, in the aggregate, for a total credit facility of up to \$1.775 billion. We cannot provide assurance, however, that our lending group will agree to fund any request by us for additional amounts in excess of the total available commitments of \$1.475 billion.

In addition, the credit agreement includes a swing line pursuant to which Bank of America, N.A., as the swing line lender, may make swing line loans in U.S. Dollars in an aggregate amount equal to the lesser of (a) \$50.0 million and (b) the Aggregate WC Commitments (as defined in the credit agreement). Swing line loans will bear interest at the Base Rate (as defined in the credit agreement). The swing line is a sub-portion of the working capital revolving credit facility and is not an addition to the total available commitments of \$1.475 billion.

Availability under the working capital revolving credit facility is subject to a borrowing base which is redetermined from time to time based on specific advance rates on eligible current assets. Under the credit agreement, borrowings under the working capital revolving credit facility cannot exceed the then current borrowing base. Availability under the borrowing base may be affected by events beyond our control, such as changes in petroleum product prices, collection cycles, counterparty performance, advance rates and limits and general economic conditions. These and other events could require us to seek waivers or amendments of covenants or alternative sources of financing or to reduce expenditures. We can provide no assurance that such waivers, amendments or alternative financing could be obtained or, if obtained, would be on terms acceptable to us.

Borrowings under the working capital revolving credit facility bear interest at (1) the Eurocurrency rate plus 2.00% to 2.50%, (2) the cost of funds rate plus 2.00% to 2.50%, or (3) the base rate plus 1.00% to 1.50%, each depending on the Utilization Amount (as defined in the credit agreement). Borrowings under the revolving credit facility bear interest at (1) the Eurocurrency rate plus 2.25% to 3.50%, (2) the cost of funds rate plus 2.25% to 3.50%, or (3) the

base rate plus 1.25% to 2.50%, each depending on the Combined Total Leverage Ratio (as defined in the credit agreement).

The average interest rates for the credit agreement were 3.4% and 3.8% for the three months ended September 30, 2016 and 2015, respectively, and 3.6% and 3.5% for the nine months ended September 30, 2016 and 2015, respectively. The decline in the average interest rates is due to the May 2016 expiration of an interest rate swap.

The credit agreement provides for a letter of credit fee equal to the then applicable working capital rate or then applicable revolver rate (each such rate as defined in the credit agreement) per annum for each letter of credit issued. In addition, we incur a commitment fee on the unused portion of each facility under the credit agreement, ranging from 0.375% to 0.50% per annum.

As of September 30, 2016, we had total borrowings outstanding under the credit agreement of \$498.8 million, including \$180.8 million outstanding on the revolving credit facility. In addition, we had outstanding letters of credit of \$51.8 million. Subject to borrowing base limitations, the total remaining availability for borrowings and letters of credit was \$924.4 million and \$1.2 billion at September 30, 2016 and December 31, 2015, respectively.

Table of Contents

Our obligations under the credit agreement are secured by substantially all of our assets and the assets of our wholly-owned subsidiaries, and the credit agreement is guaranteed by us and our subsidiaries with the exception of Basin Transload.

The credit agreement imposes financial covenants that require us to maintain certain minimum working capital amounts, a minimum combined interest coverage ratio, a maximum senior secured leverage ratio and a maximum total leverage ratio. We were in compliance with the foregoing covenants at September 30, 2016. The credit agreement also contains a representation whereby there can be no event or circumstance, either individually or in the aggregate, that has had or could reasonably be expected to have a Material Adverse Effect (as defined in the credit agreement). In addition, the credit agreement limits distributions by us to our unitholders to the amount of Available Cash (as defined in the partnership agreement).

6.25% Senior Notes

On June 19, 2014, we and GLP Finance Corp. (collectively, the “Issuers”) entered into a Purchase Agreement (the “Purchase Agreement”) with the Initial Purchasers (as defined therein) (the “Initial Purchasers”) pursuant to which the Issuers agreed to sell \$375.0 million aggregate principal amount of the Issuers’ 6.25% senior notes due 2022 (the “6.25% Notes”) to the Initial Purchasers in a private placement exempt from the registration requirements under the Securities Act of 1933, as amended (the “Securities Act”). The 6.25% Notes were resold by the Initial Purchasers to qualified institutional buyers pursuant to Rule 144A under the Securities Act and to persons outside the United States pursuant to Regulation S under the Securities Act.

The Purchase Agreement contained customary representations and warranties of the parties and indemnification and contribution provisions under which the Issuers and the subsidiary guarantors, on one hand, and the Initial Purchasers, on the other, agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act. In addition, the Purchase Agreement required the execution of a registration rights agreement, described below, relating to the 6.25% Notes. Closing of the offering occurred on June 24, 2014.

Indenture

In connection with the private placement of the 6.25% Notes on June 24, 2014, the Issuers and the subsidiary guarantors and Deutsche Bank Trust Company Americas, as trustee, entered into an indenture (the “Indenture”).

The 6.25% Notes mature on July 15, 2022 with interest accruing at a rate of 6.25% per annum and payable semi-annually in arrears on January 15 and July 15 of each year, commencing January 15, 2015. The 6.25% Notes are guaranteed on a joint and several senior unsecured basis by each of the Issuers and the subsidiary guarantors to the extent set forth in the Indenture. Upon a continuing event of default, the trustee or the holders of at least 25% in principal amount of the 6.25% Notes may declare the 6.25% Notes immediately due and payable, except that an event of default resulting from entry into a bankruptcy, insolvency or reorganization with respect to us, any restricted subsidiary of ours that is a significant subsidiary or any group of our restricted subsidiaries that, taken together, would constitute a significant subsidiary of ours, will automatically cause the 6.25% Notes to become due and payable.

The Issuers have the option to redeem up to 35% of the 6.25% Notes prior to July 15, 2017 at a redemption price (expressed as a percentage of principal amount) of 106.25% plus accrued and unpaid interest, if any. The Issuers have the option to redeem the 6.25% Notes, in whole or in part, at any time on or after July 15, 2017, at the redemption prices of 104.688% for the twelve-month period beginning on July 15, 2017, 103.125% for the twelve-month period beginning July 15, 2018, 101.563% for the twelve-month period beginning July 15, 2019, and 100.0% beginning on July 15, 2020 and at any time thereafter, together with any accrued and unpaid interest to the date of redemption. In addition, before July 15, 2017, the Issuers may redeem all or any part of the 6.25% Notes at a redemption price equal to the sum of the principal amount thereof, plus a make whole premium at the redemption date, plus accrued and unpaid interest, if any, to the redemption date. The holders of the notes may require the Issuers to repurchase the 6.25% Notes following certain asset sales or a Change of Control (as defined in the Indenture) at the prices and on the terms specified in the Indenture.

Table of Contents

The Indenture contains covenants that will limit our ability to, among other things, incur additional indebtedness and issue preferred securities, make certain dividends and distributions, make certain investments and other restricted payments, restrict distributions by our subsidiaries, create liens, enter into sale-leaseback transactions, sell assets or merge with other entities. Events of default under the Indenture include (i) a default in payment of principal of, or interest or premium, if any, on, the 6.25% Notes, (ii) breach of our covenants under the Indenture, (iii) certain events of bankruptcy and insolvency, (iv) any payment default or acceleration of indebtedness of ours or certain subsidiaries if the total amount of such indebtedness unpaid or accelerated exceeds \$15.0 million and (v) failure to pay within 60 days uninsured final judgments exceeding \$15.0 million.

Registration Rights Agreement

On June 24, 2014, the Issuers and the subsidiary guarantors entered into a registration rights agreement (the “Registration Rights Agreement”) with the Initial Purchasers in connection with the Issuers’ private placement of the 6.25% Notes. Under the Registration Rights Agreement, the Issuers and the subsidiary guarantors agreed to file and use commercially reasonable efforts to cause to become effective a registration statement relating to an offer to exchange the 6.25% Notes for an issue of SEC-registered notes with terms identical to the 6.25% Notes (except that the exchange notes are not subject to restrictions on transfer or to any increase in annual interest rate for failure to comply with the Registration Rights Agreement) that are registered under the Securities Act so as to permit the exchange offer to be consummated by the 360th day after June 24, 2014. The exchange offer was completed on April 21, 2015, and 100% of the 6.25% Notes were exchanged for SEC-registered notes.

7.00% Senior Notes

On June 1, 2015, the Issuers entered into a Purchase Agreement (the “7.00% Notes Purchase Agreement”) with the Initial Purchasers (as defined therein) (the “7.00% Notes Initial Purchasers”) pursuant to which the Issuers agreed to sell \$300.0 million aggregate principal amount of the Issuers’ 7.00% senior notes due 2023 (the “7.00% Notes”) to the 7.00% Notes Initial Purchasers in a private placement exempt from the registration requirements under the Securities Act. The 7.00% Notes were resold by the 7.00% Notes Initial Purchasers to qualified institutional buyers pursuant to Rule 144A under the Securities Act and to persons outside the United States pursuant to Regulation S under the Securities Act.

The 7.00% Notes Purchase Agreement contained customary representations and warranties of the parties and indemnification and contribution provisions under which the Issuers and the subsidiary guarantors, on one hand, and the 7.00% Notes Initial Purchasers, on the other, agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act. In addition, the 7.00% Notes Purchase Agreement required the execution of a registration rights agreement, described below, relating to the 7.00% Notes. Closing of the offering occurred on June 4, 2015.

Indenture

In connection with the private placement of the 7.00% Notes on June 4, 2015 the Issuers and the subsidiary guarantors and Deutsche Bank Trust Company Americas, as trustee, entered into an indenture (the “7.00% Notes Indenture”).

The 7.00% Notes will mature on June 15, 2023 with interest accruing at a rate of 7.00% per annum and payable semi-annually in arrears on June 15 and December 15 of each year, commencing December 15, 2015. The 7.00% Notes are guaranteed on a joint and several senior unsecured basis by each of the Issuers and the subsidiary guarantors to the extent set forth in the 7.00% Notes Indenture. Upon a continuing event of default, the trustee or the holders of at least 25% in principal amount of the 7.00% Notes may declare the 7.00% Notes immediately due and payable, except that an event of default resulting from entry into a bankruptcy, insolvency or reorganization with respect to us, any restricted subsidiary of ours that is a significant subsidiary or any group of our restricted subsidiaries that, taken together, would constitute a significant subsidiary of ours, will automatically cause the 7.00% Notes to become due and payable.

Table of Contents

The Issuers will have the option to redeem up to 35% of the 7.00% Notes prior to June 15, 2018 at a redemption price (expressed as a percentage of principal amount) of 107.00% plus accrued and unpaid interest, if any. The Issuers have the option to redeem the 7.00% Notes, in whole or in part, at any time on or after June 15, 2018, at the redemption prices of 105.250% for the twelve-month period beginning June 15, 2018, 103.500% for the twelve-month period beginning June 15, 2019, 101.750% for the twelve-month period beginning June 15, 2020, and 100.0% beginning June 15, 2021 and at any time thereafter, together with any accrued and unpaid interest to the date of redemption. In addition, before June 15, 2018, the Issuers may redeem all or any part of the 7.00% Notes at a redemption price equal to the sum of the principal amount thereof, plus a make whole premium, plus accrued and unpaid interest, if any, to the redemption date. The holders of the 7.00% Notes may require the Issuers to repurchase the 7.00% Notes following certain asset sales or a Change of Control (as defined in the 7.00% Notes Indenture) at the prices and on the terms specified in the 7.00% Notes Indenture.

The 7.00% Notes Indenture contains covenants that will limit our ability to, among other things, incur additional indebtedness and issue preferred securities, make certain dividends and distributions, make certain investments and other restricted payments, restrict distributions by our subsidiaries, create liens, enter into sale-leaseback transactions, sell assets or merge with other entities. Events of default under the 7.00% Notes Indenture include (i) a default in payment of principal of, or interest or premium, if any, on, the 7.00% Notes, (ii) breach of our covenants under the 7.00% Notes Indenture, (iii) certain events of bankruptcy and insolvency, (iv) any payment default or acceleration of indebtedness of ours or certain subsidiaries if the total amount of such indebtedness unpaid or accelerated exceeds \$50.0 million and (v) failure to pay within 60 days uninsured final judgments exceeding \$50.0 million.

Registration Rights Agreement

On June 4, 2015, the Issuers and the subsidiary guarantors entered into a registration rights agreement (the “7.00% Notes Registration Rights Agreement”) with the 7.00% Notes Initial Purchasers in connection with the Issuers’ private placement of the 7.00% Notes. Under the 7.00% Notes Registration Rights Agreement, the Issuers and the subsidiary guarantors agreed to file and use commercially reasonable efforts to cause to become effective a registration statement relating to an offer to exchange the 7.00% Notes for an issue of SEC-registered notes with terms identical to the 7.00% Notes (except that the exchange notes are not subject to restrictions on transfer or to any increase in annual interest rate for failure to comply with the 7.00% Notes Registration Rights Agreement) that are registered under the Securities Act so as to permit the exchange offer to be consummated by the 420th day after June 4, 2015. The exchange offer was completed on October 22, 2015, and 100% of the 7.00% Notes were exchanged for SEC-registered notes.

Financing Obligations

Capitol Acquisition

In connection with the Capitol acquisition on June 1, 2015, we assumed a financing obligation of \$89.6 million associated with two sale-leaseback transactions by Capitol for 53 leased sites that did not meet the criteria for sale accounting. During the term of these leases, which expire in May 2028 and September 2029, in lieu of recognizing lease expense for the lease rental payments, we incur interest expense associated with the financing obligation. Interest expense of approximately \$2.4 million and \$2.4 million was recorded for the three months ended September 30, 2016 and 2015, respectively, and \$7.2 million and \$3.2 million was recorded for the nine months ended September 30, 2016 and 2015, respectively, and is included in interest expense in the accompanying statements of operations. The financing obligation will amortize through expiration of the lease based upon the lease rental payments which were \$2.4 million and \$2.3 million for the three months ended September 30, 2016 and 2015, respectively, and \$7.1 million and \$3.1 million for the nine months ended September 30, 2016 and 2015, respectively. The financing obligation balance outstanding at September 30, 2016 was \$89.9 million associated with the Capitol acquisition.

Sale Leaseback Transaction

On June 29, 2016, we, through our wholly owned subsidiaries, Global Companies, GMG and Alliance, and Alliance's wholly owned subsidiary, Bursaw Oil LLC, sold to a premier institutional real estate investor (the "Buyer") real property assets, including the buildings, improvements and appurtenances thereto, at 30 gasoline stations and convenience

Table of Contents

stores located in Connecticut, Maine, Massachusetts, New Hampshire and Rhode Island (the “Sale Leaseback Sites”) for a purchase price of approximately \$63.5 million. In connection with the sale, we entered into a Master Unitary Lease Agreement with the Buyer to lease back the real property assets sold with respect to the Sale Leaseback Sites (such Master Lease Agreement, together with the Sale Leaseback Sites, the “Sale Leaseback Transaction”). The Master Unitary Lease Agreement provides for an initial term of fifteen years that expires in 2031. We have one successive option to renew the lease for a ten-year period followed by two successive options to renew the lease for five-year periods on the same terms, covenants, conditions and rental as the primary non-revocable lease term. We do not have any residual interest nor the option to repurchase any of the sites at the end of the lease term. The proceeds from the Sale Leaseback Transaction were used to reduce indebtedness outstanding under our revolving credit facility.

The sale did not meet the criteria for sale accounting as of September 30, 2016 due to prohibited continuing involvement. Specifically, the sale is considered a partial-sale transaction, which is a form of continuing involvement as we did not transfer to the Buyer the storage tank systems which are considered integral equipment of the Sale Leaseback Sites. Additionally, a portion of the sold sites have material sub-lease arrangements, which is also a form of continuing involvement. As the sale of the Sale-Leaseback Sites did not meet the criteria for sale accounting, we did not recognize a gain or loss on the sale of the Sale Leaseback Sites for the three and nine months ended September 30, 2016.

As a result of not meeting the criteria for sale accounting for these sites, the Sale Leaseback Transaction is accounted for as a financing arrangement. As such, the property and equipment sold and leased back by us has not been derecognized and will continue to be depreciated. We recognized a corresponding financing obligation of \$62.5 million equal to the \$63.5 million cash proceeds received for the sale of these sites, net of \$1.0 million financing fees. During the term of the lease, which expires in June 2031, in lieu of recognizing lease expense for the lease rental payments, we will incur interest expense associated with the financing obligation. Lease rental payments will be recognized as both interest expense and a reduction of the principal balance associated with the financing obligation. Interest expense and lease rental payments were \$1.1 million and \$1.1 million for the three and nine months ended September 30, 2016, respectively. The financing obligation balance outstanding at September 30, 2016 was \$62.5 million associated with the Sale Leaseback Transaction.

Deferred Financing Fees

We incur bank fees related to our credit agreement and other financing arrangements. These deferred financing fees are capitalized and amortized over the life of the credit agreement or other financing arrangements. We capitalized additional financing fees of \$1.0 million for the nine months ended September 30, 2016, including recording, deed transfer, survey and legal fees associated with the financing obligation recognized as part of the Sale Leaseback Transaction and \$2.0 million associated with the February 2016 amendment to the credit agreement. . We had unamortized deferred financing fees of \$15.7 million and \$19.0 million at September 30, 2016 and December 31, 2015, respectively.

Unamortized fees related to the credit agreement are included in other current assets and other long-term assets and amounted to \$7.8 million and \$11.2 million at September 30, 2016 and December 31, 2015, respectively. Unamortized fees related to the senior notes are presented as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, and amounted to \$6.9 million and \$7.8 million at September 30, 2016 and December 31, 2015, respectively. Unamortized fees related to the Sale-Leaseback Transaction are presented as a direct deduction from the carrying amount of the financing obligation and amounted to \$1.0 million at September 30, 2016.

On February 24, 2016, we voluntarily elected to reduce our working capital revolving credit facility from \$1.0 billion to \$900.0 million and our revolving credit facility from \$775.0 million to \$575.0 million. As a result, we incurred expenses of approximately \$1.8 million associated with the write-off of a portion of its deferred financing fees. These expenses are included in interest expense in the accompanying statement of operations for the nine months ended September 30, 2016.

Amortization expense of approximately \$1.5 million for each of the three months ended September 30, 2016 and 2015, and \$4.5 million and \$4.4 million for the nine months ended September 30, 2016 and 2015, respectively, is included in interest expense in the accompanying consolidated statements of operations.

Table of Contents

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates under different assumptions or conditions.

These estimates are based on our knowledge and understanding of current conditions and actions that we may take in the future. Changes in these estimates will occur as a result of the passage of time and the occurrence of future events. Subsequent changes in these estimates may have a significant impact on our financial condition and results of operations and are recorded in the period in which they become known. We have identified the following estimates that, in our opinion, are subjective in nature, require the exercise of judgment, and involve complex analysis: inventory, leases, revenue recognition, derivative financial instruments, valuation of intangibles, valuation of long-lived assets (discussed below), goodwill (discussed below), environmental and other liabilities and related party transactions.

The significant accounting policies and estimates that we have adopted and followed in the preparation of our consolidated financial statements are detailed in Note 2 of Notes to Consolidated Financial Statements, "Summary of Significant Accounting Policies" included in our Annual Report on Form 10-K for the year ended December 31, 2015. There have been no subsequent changes in these policies and estimates that had a significant impact on our financial condition and results of operations for the periods covered in this report.

Goodwill

As disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015, the declining crude oil prices, changes in certain market conditions and decline in our common unit price, collectively caused us to reassess our goodwill allocated to the Wholesale reporting unit for impairment as of December 31, 2015. Our results in 2015

were impacted by tighter differentials as mid-continent crude oil did not discount sufficiently to make rail transport to the East Coast competitive with imports. Certain of the key assumptions in the development of discounted cash flows used to evaluate the Wholesale reporting unit, included the expectation of a recovery from tight differentials and low crude oil prices within 2017. Based on the results of this assessment, we concluded that step two of the quantitative assessment was not necessary and no impairment was required at that time.

During the first quarter ended March 31, 2016 and second quarter ended June 30, 2016, we considered whether there were any change of circumstances or events which would more likely than not reduce the fair value of the Wholesale segment's reporting unit below its carrying amount. While we had then concluded that such events and circumstances had not occurred, we disclosed the possibility that a continuation of low crude oil prices and tight differentials might cause us to conclude that the timing of a market recovery might be more extended than estimated within our five-year forecast and estimate of terminal values.

We further disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015 and in our Quarterly Reports on Forms 10-Q as of March 31, 2016 and June 30, 2016, that a further sustained decline in commodity prices may cause us to reassess our long-lived assets and goodwill for impairment, and could result in future non-cash impairment charges as a result of such impairment assessments. If we are required to perform step two in the future for the Wholesale reporting unit, up to \$121.7 million of goodwill assigned to this reporting unit could be written off in the period of such impairment assessment.

Table of Contents

During the third quarter ended September 30, 2016, we continued to monitor the extent and timing of future demand. Crude oil prices have remained at lower levels but, more importantly, tight differentials have continued such that we may no longer reasonably include an assumption that the market for crude oil by rail to the coasts might recover sometime within 2017 as previously expected. Factors contributing to our assumption include:

- Lack of logistics nominations by one particular customer and the expectations for limited, if any, nominations for the balance of 2016 by that customer;
- A decline in spot crude oil volume indicating weakening demand for our services/assets;
- Increased pipeline capacity out of the Bakken region; and
- The lifting of the export ban, which provides another clearing mechanism for crude oil.

These current market conditions, in addition to declines noted during fiscal year 2015 as well as the first and second quarters of 2016, negatively affected our current period results and future projections sufficiently to constitute triggering events for the Wholesale reporting unit. Based on our consideration of the factors above, we concluded it was necessary to perform an interim goodwill impairment test for the Wholesale reporting unit pursuant to the guidelines of ASC Topic 350, “Intangibles—Goodwill and Other” (“ASC 350”). We did not extend the interim test for recoverability to the GDSO reporting unit, as the indicators described above are specific to the Wholesale reporting unit.

The process of testing goodwill for impairment involves numerous judgments, assumptions and estimates made by management which inherently reflect a high degree of uncertainty. The impairment test includes either a qualitative assessment or a two-step quantitative assessment. The impairment test’s qualitative assessment is used in order to conclude if it is more likely than not that the reporting unit’s fair value exceeds its carrying value. Factors considered in the qualitative analysis include changes in the business and industry, as well as macro-economic conditions, that would influence the fair value of the reporting unit as well as changes in the carrying values of the reporting unit. In the impairment test’s two step quantitative assessment, the fair value of each reporting unit is determined and compared to the book value of the reporting unit as determined under step one. If the fair value of the reporting unit is less than the book value, including goodwill, then step two is performed to compare the carrying amount of reporting unit goodwill to the implied fair value of that goodwill. If the carrying amount of reporting unit goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized for that excess with a charge to operations. We calculate the fair value of each reporting unit using a combination of discounted cash flows and market comparables.

Key assumptions included in the development of the discounted cash flow value for each reporting unit include:

Future commodity volumes and margins. The discounted cash flows are based on a five-year forecast with an estimate of terminal values. In general, the reporting units’ fair values are most sensitive to volume and gross margin assumptions. The Wholesale reporting unit’s cash flows are significantly influenced by the crude oil market, given our 2013 investment in transloading terminals in North Dakota and Oregon.

Discount rate commensurate with the risks involved. We apply a discount rate to our expected cash flows based on a variety of factors, including market and economic conditions, operational risk, regulatory risk and political risk. A higher discount rate decreases the net present value of cash flows.

Future capital requirements. Our estimates of future capital requirements are based upon a combination of authorized spending and internal forecasts.

As of September 30, 2016, as a result of the impairment indicators discussed above, we completed a preliminary assessment of the impairment of the Wholesale reporting unit's goodwill. As a result of the step one assessment, we concluded that the fair value of the Wholesale reporting unit no longer exceeded its carrying value and as a result, performed a step two assessment to measure the impairment. In step two of the quantitative assessment, the implied fair value of goodwill is determined by assigning the fair value of a reporting unit to all the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination. If the carrying amount of a reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized for that excess. Upon applying step two of the impairment test, we preliminarily determined that the implied

Table of Contents

fair value of the Wholesale reporting unit goodwill was \$0, and accordingly we recorded an impairment charge of \$121.7 million as of September 30, 2016, or all of the goodwill previously allocated to this reporting unit.

Due to the complexity of the analysis required to complete the step one and step two impairment tests and the timing of our determination of the goodwill impairment, we have not yet finalized our step one and step two impairment tests. We have completed a preliminary assessment of the expected impact of the step one and step two impairment tests using reasonable estimates of discounted cash flows and for the theoretical purchase price allocation and has recorded a preliminary estimate of the goodwill impairment losses for the three and nine months ended September 30, 2016 of approximately \$121.7 million. The preliminary estimates of goodwill impairment losses will be finalized prior to the issuance of our Annual Report on Form 10-K for the year ending December 31, 2016 as part of our annual evaluation as of October 1. We believe that the preliminary estimates of goodwill impairment losses are reasonable and represent our best estimate of the goodwill impairment losses to be incurred.

The following procedures are, among others, the more significant analyses that we need to complete to finalize our year end step one and step two impairment tests:

- Final appraisals to determine the estimated fair value of Wholesale, Commercial and GDSO reporting units, including final calculation of discount rates;
- Final appraisals, certain of which are being determined by third-party valuation specialists, to determine the estimated fair value of intangible assets, leases and property and equipment within the Wholesale reporting unit; and
- Final analysis for the Wholesale reporting unit to determine the estimated fair value adjustments required to certain other assets and liabilities of the reporting unit.

In connection with the preliminary step two impairment test, we made what we considered to be reasonable estimates of each of the above items in order to determine our preliminary best estimate of the goodwill impairment loss under the theoretical purchase price allocation required for a step two impairment test.

Judgments and assumptions are inherent in management's estimates used to determine the fair value of our reporting units and are consistent with what management believes would be utilized by the primary market participant. The use of alternate judgments and assumptions could result in the recognition of different levels of impairment charges in our financial statements.

Goodwill associated with our disposition activities of GDSO sites will be included in the carrying value of assets sold in determining the gain or loss on disposal, to the extent the disposition of assets qualifies as a disposition of a business under ASC 805. As of September 30, 2016, GDSO goodwill of \$13.6 million has been derecognized related to the disposition of a portfolio of sites for the three and nine months ended September 30, 2016 (see Note 15 of Notes to Consolidated Financial Statements).

Evaluation of Long-Lived Asset Impairment

We evaluate our assets for impairment on a quarterly basis. We recognized an impairment charge of \$23.2 million for the three and nine months ended September 30, 2016 relating to long-lived assets used at our crude oil transloading terminals in North Dakota. Additionally, we recognized an impairment charge of approximately \$2.9 million for the three and nine months ended September 30, 2016 associated with certain long-lived assets at our Albany, New York terminal and development work in Port Arthur, Texas associated with the initial investments related to expanding our ability to handle crude oil at those locations. The long-term recoverability of these assets has been adversely impacted by a prolonged decline in crude oil prices and crude oil differentials. The method used for determining fair value of these assets predominately relied on a combination of the cost and market approaches. These terminal assets are allocated to the Wholesale segment, and the total impairment charge of \$26.1 million is included in goodwill and long-lived asset impairment in the accompanying statements of operations for the three and nine months ended September 30, 2016.

Table of Contents

During the nine months ended September 30, 2016, we recognized an impairment charge of \$1.9 million associated with the long-lived assets used in supplying CNG which is viewed as an alternative fuel to oil. The long-term recoverability of these assets has been adversely impacted by the decline in commodity prices and the cost differential between natural gas and oil. As oil has remained an attractive alternative to CNG due to lower oil prices, the related impact on the CNG operating and cash flows was determined to be an impairment indicator, resulting in the impairment of the CNG long-lived assets during the nine months ended September 30, 2016. The method used for determining fair value of the CNG assets predominately relied on the market approach. The CNG assets are allocated to the Commercial segment, and the impairment charge is included in goodwill and long-lived asset impairment in the accompanying statement of operations for the nine months ended September 30, 2016.

Additionally, we recognized an impairment charge of \$0.3 million for the nine months ended September 30, 2016 associated with the long-lived assets of one discrete GDSO site. The method used for determining fair value of this GDSO site predominately relied on the market approach. The impairment charge is included in goodwill and long-lived asset impairment in the accompanying statement of operations for the nine months ended September 30, 2016.

Recent Accounting Pronouncements

A description and related impact expected from the adoption of certain new accounting pronouncements is provided in Note 19 of Notes to Consolidated Financial Statements included elsewhere in this report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices. The principal market risks to which we are exposed are interest rate risk and commodity risk. We currently utilize an interest rate swap to manage exposure to interest rate risk and various derivative instruments to manage exposure to commodity risk.

Interest Rate Risk

We utilize variable rate debt and are exposed to market risk due to the floating interest rates on our credit agreement. Therefore, from time to time, we utilize interest rate collars, swaps and caps to hedge interest obligations on specific and anticipated debt issuances.

As of September 30, 2016, we had total borrowings outstanding under our credit agreement of \$498.8 million. Please read Item 2, “Management’s Discussion and Analysis—Liquidity and Capital Resources—Credit Agreement,” for information on interest rates related to our borrowings. The impact of a 1% increase in the interest rate on this amount of debt would have resulted in an increase in interest expense, and a corresponding decrease in our results of operations, of approximately \$5.0 million annually, assuming, however, that our indebtedness remained constant throughout the year.

In October 2009, we executed an interest rate swap with a major financial institution. The swap, which became effective on May 16, 2011 and expired on May 16, 2016, was used to hedge the variability in interest payments due to changes in the one-month LIBOR swap curve with respect to \$100.0 million of one-month LIBOR-based borrowings on the credit facility at a fixed rate of 3.93%.

In April 2011, we executed an interest rate cap with a major financial institution. The rate cap, which became effective on April 13, 2011 and expired on April 13, 2016, was used to hedge the variability in interest payments due to changes in the one-month LIBOR rate above 5.5% with respect to \$100.0 million of one-month LIBOR-based borrowings on the credit facility.

In September 2013, we executed a forward interest rate swap with a major financial institution. The swap, which became effective on October 2, 2013 and expires on October 2, 2018, is used to hedge the variability in cash flows in monthly interest payments due to changes in the one-month LIBOR swap curve with respect to \$100.0 million of one-month LIBOR-based borrowings on the credit facility at a fixed rate of 1.819%.

Table of Contents

In the aggregate, these hedging instruments historically have been effective in hedging the variability in interest payments due to changes in the one-month LIBOR swap curve or rate with respect to \$300.0 million of one-month LIBOR-based borrowings on the credit facility. In June 2014 and as a result of the issuance of our \$375.0 million aggregate principal amount of the 6.25% senior notes due 2022s (see Note 6 of Notes to Consolidated Financial Statements), we determined that maintaining an excess of \$300.0 million in principal of outstanding floating-rate debt was no longer probable. Therefore, we elected to de-designate our interest rate cap and discontinued the related hedge accounting for this instrument. The interest rate cap, which expired on April 13, 2016, was not in a hedging relationship for the three and nine months ended September 30, 2016 and 2015. Accordingly, all changes in fair value of this instrument were recorded in the consolidated statements of operations through interest expense.

At September 30, 2016, we had in place one interest rate swap agreement which is hedging \$100.0 million of variable rate debt and continues to be accounted for as a cash flow hedge.

See Note 5 of Notes to Consolidated Financial Statements for additional information on our derivative instruments.

Commodity Risk

We hedge our exposure to price fluctuations with respect to refined petroleum products, renewable fuels, crude oil and gasoline blendstocks in storage and expected purchases and sales of these commodities. The derivative instruments utilized consist primarily of exchange-traded futures contracts traded on the NYMEX, CME and ICE and over-the-counter transactions, including swap agreements entered into with established financial institutions and other credit-approved energy companies. Our policy is generally to purchase only products for which we have a market and to structure our sales contracts so that price fluctuations do not materially affect our profit. While our policies are designed to minimize market risk, as well as inherent basis risk, exposure to fluctuations in market conditions remains. Except for the controlled trading program discussed below, we do not acquire and hold futures contracts or other derivative products for the purpose of speculating on price changes that might expose us to indeterminable losses.

While we seek to maintain a position that is substantially balanced within our commodity product purchase and sales activities, we may experience net unbalanced positions for short periods of time as a result of variances in daily purchases and sales and transportation and delivery schedules as well as other logistical issues inherent in the business, such as weather conditions. In connection with managing these positions, we are aided by maintaining a constant presence in the marketplace. We also engage in a controlled trading program for up to an aggregate of 250,000 barrels of commodity products at any one point in time. Changes in the fair value of these derivative instruments are recognized in the consolidated statements of operations through cost of sales. In addition, because a portion of our crude oil business may be conducted in Canadian dollars, we may use foreign currency derivatives to minimize the risks of unfavorable exchange rates. These instruments may include foreign currency exchange contracts and forwards. In conjunction with entering into the commodity derivative, we may enter into a foreign currency derivative to hedge the resulting foreign currency risk. These foreign currency derivatives are generally

short-term in nature and not designated for hedge accounting.

We utilize exchange-traded futures contracts and other derivative instruments to minimize or hedge the impact of commodity price changes on our inventories and forward fixed price commitments. Any hedge ineffectiveness is reflected in our results of operations. We utilize regulated exchanges, including the NYMEX, CME and ICE, which are exchanges for the respective commodities that each trades, thereby reducing potential delivery and supply risks. Generally, our practice is to close all exchange positions rather than to make or receive physical deliveries. With respect to other products such as ethanol, which may not have a correlated exchange contract, we enter into derivative agreements with counterparties that we believe have a strong credit profile, in order to hedge market fluctuations and/or lock-in margins relative to our commitments.

Table of Contents

At September 30, 2016, the fair value of all of our commodity risk derivative instruments and the change in fair value that would be expected from a 10% price increase or decrease are shown in the table below (in thousands):

	Fair Value at September 30, 2016	Gain (Loss)	
		Effect of 10% Price Increase	Effect of 10% Price Decrease
Exchange traded derivative contracts	\$ (35,838)	\$ (31,537)	\$ 31,537
Forward derivative contracts	72	(4,312)	4,312
	\$ (35,766)	\$ (35,849)	\$ 35,849

The fair values of the futures contracts are based on quoted market prices obtained from the NYMEX, CME and ICE. The fair value of the swaps and option contracts are estimated based on quoted prices from various sources such as independent reporting services, industry publications and brokers. These quotes are compared to the contract price of the swap, which approximates the gain or loss that would have been realized if the contracts had been closed out at September 30, 2016. For positions where independent quotations are not available, an estimate is provided, or the prevailing market price at which the positions could be liquidated is used. All hedge positions offset physical exposures to the physical market; none of these offsetting physical exposures are included in the above table. Price-risk sensitivities were calculated by assuming an across-the-board 10% increase or decrease in price regardless of term or historical relationships between the contractual price of the instruments and the underlying commodity price. In the event of an actual 10% change in prompt month prices, the fair value of our derivative portfolio would typically change less than that shown in the table due to lower volatility in out-month prices. We have a daily margin requirement to maintain a cash deposit with our brokers based on the prior day's market results on open futures contracts. The balance of this deposit will fluctuate based on our open market positions and the commodity exchange's requirements. The brokerage margin balance was \$18.7 million at September 30, 2016.

We are exposed to credit loss in the event of nonperformance by counterparties to our exchange-traded derivative contracts, physical forward contracts, and swap agreements. We anticipate some nonperformance by some of these counterparties which, in the aggregate, we do not believe at this time will have a material adverse effect on our financial condition, results of operations or cash available for distribution to our unitholders. Exchange-traded derivative contracts, the primary derivative instrument utilized by us, are traded on regulated exchanges, greatly reducing potential credit risks. We utilize primarily three clearing brokers, all major financial institutions, for all NYMEX, CME and ICE derivative transactions and the right of offset exists with these financial institutions. Accordingly, the fair value of our exchange-traded derivative instruments is presented on a net basis in the consolidated balance sheet. Exposure on physical forward contracts and swap agreements is limited to the amount of the recorded fair value as of the balance sheet dates.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that the information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 (the “Exchange Act”) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. Under the supervision and with the participation of our principal executive officer and principal financial officer, management evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Exchange Act). Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of September 30, 2016.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

General

Although we may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business, we do not believe that we are a party to any litigation that will have a material adverse impact on our financial condition or results of operations. Except as described below and in Note 12 in this Quarterly Report on Form 10-Q, we are not aware of any significant legal or governmental proceedings against us, or contemplated to be brought against us. We maintain insurance policies with insurers in amounts and with coverage and deductibles as our general partner believes are reasonable and prudent. However, we can provide no assurance that this insurance will be adequate to protect us from all material expenses related to potential future claims or that these levels of insurance will be available in the future at economically acceptable prices.

Other

We determined that gasoline loaded from certain loading bays at one of our terminals did not contain the necessary additives as a result of an IT-related configuration error. The error was corrected and all gasoline being sold at the terminal now contains the appropriate additives. Based upon current information, we believe approximately 14 million gallons of gasoline were impacted. We have notified the EPA. As a result of this error, we could be subject to fines, penalties and other related claims, including customer claims.

In February 2016, we received a request for information from the EPA seeking certain information regarding our Albany terminal in order to assess its compliance with the Clean Air Act (the “CAA”). The information requested generally related to crude oil received by, stored at and shipped from our petroleum product transloading facility in Albany, New York (the “Albany Terminal”), including its composition, control devices for emissions and various permitting-related considerations. The Albany Terminal is a 63-acre licensed, permitted and operational stationary bulk petroleum storage and transfer terminal that currently consists of petroleum product storage tanks, along with truck, rail and marine loading facilities, for the storage, blending and distribution of various petroleum and related products, including gasoline, ethanol, distillates, heating and crude oils. No violations were alleged in the request for information. We submitted responses and documentation, in March and April 2016, to the EPA in accordance with the EPA request. On August 2, 2016, we received a Notice of Violation (“NOV”) from the EPA, alleging that permits for the Albany Terminal, issued by the New York State Department of Environmental Conservation (“DEC”) between August 9, 2011 and November 7, 2012, violated the CAA and the federally enforceable New York State Implementation Plan (“SIP”) by increasing throughput of crude oil at the Albany Terminal without complying with the New Source Review (“NSR”) requirements of the SIP. The applicable permits issued by the New York State

Department of Environmental Conservation (“NYSDEC”) to us in 2011 and 2012 specifically authorize us to increase the throughput of crude oil at the Albany Terminal. According to the allegations in the NOV, the NYSDEC permits should have been regulated as a major modification under the NSR program, requiring additional emission control measures and compliance with other NSR requirements. The CAA authorizes the EPA to take enforcement action in response to violations of the New York SIP seeking compliance and penalties. We believe that the permits issued by the NYSDEC comply with the CAA and applicable State air permitting requirements and that no material violation of law has occurred. We dispute the claims alleged in the NOV and responded to the EPA in September, 2016. We have met with the EPA and provided additional information at the agency’s request. To-date, the EPA has taken no further action with respect to the NOV.

By letter dated October 5, 2015, we received a notice of intent to sue (“October NOI”), which supersedes and replaces a prior notice of intent to sue that we received on September 1, 2015 (the “September NOI”) from Earthjustice, an environmental advocacy organization on behalf of the County of Albany, New York, a public housing development owned and operated by the Albany Housing Authority and certain environmental organizations, related to alleged violations of the CAA, particularly with respect to crude oil operations at the Albany Terminal. The October NOI revises the superseded and replaced September NOI to add two additional environmental advocacy organizations and to revise the relief sought and the description of the alleged CAA violations.

Table of Contents

On February 3, 2016, Earthjustice and the other entities identified in the October NOI filed suit against us in federal court in Albany under the citizen suit provisions of the CAA. In summary, this lawsuit alleges that our operations at the Albany Terminal are in violation of the CAA. The plaintiffs seek, among other things, relief that would compel us both to apply for what the plaintiffs contend is the applicable permit under the CAA, and to install additional pollution controls. In addition, the plaintiffs seek to prohibit the Albany Terminal from receiving, storing, handling, and marine loading certain types of Bakken crude oil and to require payment of a civil penalty of \$37,500 for each day we operated the Albany Terminal in violation of the CAA. We believe that we have meritorious defenses against all allegations. On February 26, 2016, we filed a motion to dismiss the CAA action. No decision has yet been issued by the Court and all discovery and other litigation activity is stayed pending a decision by the Court on the motion to dismiss.

On May 29, 2015 and in connection with a commercial dispute with Tethys Trading Company LLC (“Tethys”), we received a notice from Tethys alleging a default under, and purporting to terminate, our contract with Tethys for crude oil services at our Oregon facility. However, we do not believe Tethys had the right to terminate the contract, and we will continue to investigate and determine the appropriate action to take to enforce our rights under the agreement.

On March 26, 2015, we received a Notice of Non-Compliance (“NON”) from the Massachusetts Department of Environmental Protection (“DEP”) with respect to the Revere Terminal, alleging certain violations of the National Pollutant Discharge Elimination System Permit (“NPDES Permit”) related to storm water discharges. The NON requires us to submit a plan to remedy the reported violations of the NPDES Permit. We have responded to the NON with a plan and have implemented modifications to the storm water management system at the Revere Terminal. We have requested that the DEP acknowledge completion of the required modifications to the storm water management system in satisfaction of the NON. We have determined that compliance with the NON and implementation of the plan will have no material impact on our operations.

We had a dispute with Lansing Ethanol Services, LLC (“Lansing”) for damages in excess of \$12.0 million. The dispute involved Lansing’s failure to transfer RINs to us in connection with certain agreements for the purchase and sale of ethanol. The parties had agreed to arbitrate under the rules of the American Arbitration Association. We filed for arbitration on March 24, 2015 and the hearing was conducted in March 2016. A decision was rendered on June 10, 2016, which netted us \$1.5 million. Neither party appealed the decision and the appeal period expired on July 14, 2016. The parties executed a Settlement Agreement and Mutual Release on August 2, 2016, and payment was made by Lansing and received by us on that date.

On May 16, 2014, we received a subpoena from the SEC requesting information for relevant time periods primarily relating to our accounting for RINs and the restatement of our consolidated financial statements as of and for the quarters ended March 31, 2013, June 30, 2013 and September 30, 2013. We have cooperated fully with the SEC and believe we have provided the SEC with all requested materials. On October 26, 2016, we were informed that the SEC has concluded its investigation and does not intend to recommend that an enforcement action by the SEC be taken against us.

We received letters from the EPA dated November 2, 2011 and March 29, 2012, containing requirements and testing orders (collectively, the “Requests for Information”) for information under the CAA. The Requests for Information were part of an EPA investigation to determine whether we have violated sections of the CAA at certain of our terminal locations in New England with respect to residual oil and asphalt. On June 6, 2014, a NOV was received from the EPA, alleging certain violations of its Air Emissions License issued by the Maine Department of Environmental Protection, based upon the test results at the South Portland, Maine terminal. We met with and provided additional information to the EPA with respect to the alleged violations. On April 7, 2015, the EPA issued a Supplemental Notice of Violation (the “Supplemental NOV”) modifying the allegations of violations of the terminal’s Air Emissions License. We have responded to the Supplemental NOV and engaged in further negotiations with the EPA. A tolling agreement was executed with the United States on December 1, 2015, which was extended on May 17, 2016 and further extended on August 2, 2016. While we do not believe that a material violation has occurred, and we contest the allegations presented in the NOV and Supplemental NOV, we do not believe any adverse determination in connection with the NOV would have a material impact on our operations.

INDEX TO EXHIBITS

Exhibit Number	Description
3.1	— Certificate of Limited Partnership of Global Partners LP (incorporated by reference to Exhibit 3.1 to the Registration Statement on Form S-1 filed on May 10, 2005).
3.2	— Third Amended and Restated Agreement of Limited Partnership of Global Partners LP dated as of December 9, 2009 (incorporated herein by reference to Exhibit 3.1 to the Current Report on Form 8-K filed on December 15, 2009).
4.1	— Indenture, dated as of June 24, 2014, among the Issuers, the Guarantors, and Deutsche Bank Trust Company Americas, as trustee (incorporated herein by reference to Exhibit 4.1 to the Current Report on Form 8-K filed on June 25, 2014).
4.2	— Registration Rights Agreement, dated June 24, 2014, among the Issuers, the Guarantors and the Initial Purchasers (incorporated herein by reference to Exhibit 4.2 to the Current Report on Form 8-K filed on June 25, 2014).
4.3	— Indenture, dated as of June 4, 2015, among the Issuers, the Guarantors, and Deutsche Bank Trust Company Americas, as trustee (incorporated herein by reference to Exhibit 4.1 to the Current Report on Form 8-K filed on June 4, 2015).
4.4	— Registration Rights Agreement, dated June 4, 2015, among the Issuers, the Guarantors and the Initial Purchasers (incorporated herein by reference to Exhibit 4.2 to the Current Report on Form 8-K filed on June 4, 2015).
10.1*	— Sixth Amendment to Second Amended and Restated Credit Agreement dated October 26, 2016.
10.2*	— Amendment No. 1 to Equity Distribution Agreement dated August 5, 2016 among Global Partners LP, Global GP LLC, Global Operating LLC and Wells Fargo Securities, LLC and BMO Capital Markets Corp.
31.1*	— Rule 13a-14(a)/15d-14(a) Certification of Principal Executive Officer of Global GP LLC, general partner of Global Partners LP.
31.2*	— Rule 13a-14(a)/15d-14(a) Certification of Principal Financial Officer of Global GP LLC, general partner of Global Partners LP.
32.1†	— Section 1350 Certification of Chief Executive Officer of Global GP LLC, general partner of Global Partners LP.
32.2†	— Section 1350 Certification of Chief Financial Officer of Global GP LLC, general partner of Global Partners LP.
