Item 2.02 Results of Operations and Financial Condition.

Included below is a release of financial information mailed to stockholders on November 13, 2007. It reflects the financial condition, in a condensed format, for Kansas City Life Insurance Company as of September 30, 2007, and was previously included in the Company's third quarter Form 10-Q report filed on November 2, 2007.

Message from the President, CEO and Chairman of the Board

Kansas City Life Insurance Company reported net income of \$9.1 million or \$0.77 per share for the quarter and \$29.2 million or \$2.47 per share for the nine months ended September 30, 2007. Net income declined \$0.4 million or 4% for the third quarter and increased \$2.4 million or 9% for the nine months, relative to the same periods in 2006.

Net income for the third quarter was favorably impacted by increases in immediate annuity premiums and investment gains from the sale of real estate, along with reduced policyholder benefits and operating expenses. Offsetting these favorable results was the impact of reduced net investment income, which resulted from both a lower level of invested assets during the current year and lower investment expenses in the third quarter of 2006.

The increase in net income in the nine months was primarily due to a \$4.1 million increase in realized investment gains, accompanied by a decline in the amortization of deferred acquisition costs and value of business acquired, and reduced operating expenses.

New premiums increased 3% for the third quarter and nine month period relative to the prior year. This included increases in individual life, immediate annuity, and group life insurance premiums in the third quarter. New deposits on policyholder account balances increased 7% for the third quarter, primarily due to increases in variable and fixed deferred annuities. New deposits in the nine months increased 5%, primarily due to increased sales of variable annuities and universal life insurance.

Policyholder benefits and interest credited declined \$1.7 million or 3% in the third quarter relative to the same period in the prior year, primarily as a result of lower death benefits and reduced policyholder account balances. These same changes resulted in a decline of \$2.4 million or 1% in policyholder benefits and interest credited for the nine month period.

In addition to strong financial results, the Company strengthened its product mix with the addition of a new guaranteed minimum withdrawal benefit rider during the third quarter. This new product works in tandem with the Company's variable annuity product to provide policyholders with certain guaranteed levels of income in retirement. The introduction of this new product is noteworthy because these types of guaranteed income and benefit products are becoming very popular with consumers as they prepare for the uncertainties of providing for a secure future. The Company remains focused on increasing its life insurance business and an important aspect of successfully doing so is to maintain a competitive array of financial protection products that help Kansas City Life agents meet the financial security needs of their clients.

We were saddened by the recent passing of Warren J. Hunzicker, M.D., a member of the Kansas City Life Board of Directors since 1989. Having served as Vice President and Medical Director for Kansas City Life for many years prior to his service on the Board of Directors, Dr. Hunzicker contributed greatly to the success of Kansas City Life and will truly be missed.

The Kansas City Life Board of Directors approved a quarterly dividend of \$0.27 per share to be paid November 13, 2007, to shareholders of record as of November 8, 2007.
