COMPENSATION DISCLOSURE AND ANALYSIS

Overview

This compensation discussion describes the material elements of compensation awarded to, earned by or paid to each of our executive officers who served as named executive officers during the last completed fiscal year. This compensation discussion focuses on the information contained in the following tables and related footnotes and narrative for primarily the last completed fiscal year, but also describes compensation actions taken before or after the last completed fiscal year to the extent it enhances the understanding of our executive compensation disclosure.

The Compensation Committee's Responsibilities

The Compensation Committee of the Board is responsible for oversight of the Company's executive compensation and benefit policies to ensure that they provide the appropriate motivation to achieve superior corporate performance and stockholder value. The Committee performs an annual evaluation of the Principal Executive Officer's performance compared to pre-established performance goals and objectives, and recommends compensation actions impacting executive officers and directors to the Board.

The Committee is composed entirely of independent directors. Reports of the Committee's actions and recommendations are presented to the full Board after each meeting. The purpose of this analysis is to summarize the philosophical principles, specific program elements and other factors considered by the Committee in making decisions about executive compensation. The Committee has engaged Hay Group, an independent executive compensation consultant, to provide benchmarking data, analysis and recommendations on various projects as part of the Committee's comprehensive review of executive compensation programs to evaluate whether the compensation programs are aligned with the Company's compensation philosophy and strategy. In addition, the Principal Executive Officer and Senior Vice President, Operations provide the Committee with information, perspectives, and recommendations on a variety of human resources matters, such as annual incentive goals and plan design changes for Board-approved compensation plans. The Company's General Counsel also advises the Committee on various legal aspects relating to compensation and employment matters.

Compensation Philosophy

The Committee's guiding philosophy is to establish a compensation program that will enable the attraction, development, and retention of quality executive leadership who will achieve competitively superior corporate performance and stockholder value creation. The compensation program is designed to be competitive with the compensation programs of other comparable employers, and to align the executive's compensation with the Company's objectives as measured against established goals. The Company employs a balanced approach to compensation that considers market pay data, achievement of individual and organization performance objectives, the Company's progress toward strategic goals, and the retention of key executive talent. The Committee bases its compensation decisions on the following core principles:

- **Pay is Performance Based:** Executive officer compensation is aligned with Company performance. Base salary midpoints are targeted to median salary levels as provided in Hay Group's All-Insurance Industry database ("competitive market"). Total Cash compensation (base salary + annual incentive) is targeted at Median of the All Insurance market where annual incentives are paid at target levels. To ensure our pay practices remain competitive within the industry, the Committee also reviews compensation data on base salary, annual incentives, and long-term incentives paid at a peer group of 14 comparable insurance companies ("peer group"). Our compensation philosophy is to provide executives the opportunity to earn total direct compensation at the 75th Percentile of the Company's competitive market where performance exceeds targeted

levels, as proposed by management and affirmed by the Committee. Similarly, where performance does not meet threshold levels no incentive payout will occur, and executives will earn total direct compensation below Median levels of the competitive market.

- **Compensation Opportunities Must Be Competitive:** Competition for key management talent in the insurance industry is aggressive. The Committee carefully monitors the compensation practices of the competitive market and the peer group to ensure the Company's compensation philosophy is appropriately competitive.

Program Elements

The Company's executive compensation program is composed of base salary, bonuses, annual incentive and long term incentive compensation. The Company uses a formal job evaluation methodology to consider both the internal and external equity of our executives' total compensation. Internal equity is considered in order to ensure that executives are compensated at an appropriate level relative to other Company executives, while external equity is a measure of how our compensation compares to compensation for comparable job content at other companies that are similar to our Company. Hay Group reviews each executive position using its proprietary job evaluation methodology to assess the position's relative size. In this process, Hay Group considers the breadth of responsibilities, the complexity of the role, and the role's impact on the success of the business. Once each job is valued independently, Hay Group compares the jobs to determine relative relationships and then relates these job content sizes to pay opportunity levels based on compensation market data from Hay Group's All Insurance compensation database.

Base Salary. The Committee sets base salary midpoints after considering the particular responsibilities of the executive positions and base salaries paid to similar positions in the competitive market, as adjusted for company size. Base salary midpoints for executive officers are targeted to the Median of the competitive market. Salary ranges are set with the minimum at 20 percent below midpoint and the maximum at 20 percent above midpoint.

The peer group of companies consists of:

American Equity Investment Life Holding Co.
Delphi Financial Group, Inc.
FBL Financial Group, Inc.
Horace Mann Educators Life
Nationwide Financial Services, Inc.
National Western Life Insurance Co.
Phoenix Companies, Inc., The

Presidential Life Corporation
Protective Life Corporation
StanCorp Financial Group, Inc.
Torchmark Corporation
United Fire and Casualty Company
Unitrin, Inc.
Universal American Corp.

All executive officers are eligible for an annual merit increase to base salary, effective January 1, based primarily on performance of job responsibilities and accomplishment of predetermined performance objectives. Job responsibilities are described by a current written job description and are measured using Hay Group's proprietary job evaluation methodology (as discussed above). The Principal Executive Officer evaluates the executive officers' performance and the Compensation Committee evaluates the Principal Executive Officer's performance.

In accordance with common Company practice, annual base salary increases for 2009 were developed in late 2008. Based on market data available in late summer 2008 preliminary merit increases were targeted at 3.5% for senior officers. Given the deteriorating economic conditions in the fourth quarter of 2008, and impact of the downturn on the Insurance industry, the Committee approved a 1.9% annual merit increase for senior officers, representing a 46% reduction from the preliminary target merit increases.

Bonus. Discretionary bonuses are approved by the Committee and Board of Directors or Executive Committee.

Annual Incentive. The Company provides the named executive officers and 85 other participants with an opportunity to earn cash incentive awards based on annual performance through the Company's Annual Incentive Plan (the "AIP"). Annual incentive compensation is paid in cash. The Company targets total cash (base salary + annual incentive) at median of the Hay Group All Insurance Industry database, as adjusted for company size, when incentive awards are paid at target. Historically, the Committee has established aggressive AIP targets resulting in actual annual incentive payouts below target levels. Consequently, actual total cash received by the Company's executives has trailed median levels of the competitive market.

In conjunction with setting plan targets for 2008, the Committee determined that target annual incentive opportunities are falling short of median levels in the insurance market, as specified in the Company's compensation philosophy. As a result, the Committee approved increased annual incentive opportunities for 2008 for executives ranging to 70% of base salary for the Chairman/CEO and 40% of base salary for executive officers. These incentive opportunity targets were not changed for plan year 2009. AIP participants are divided into six classes based on their level within the Company. Each class is assigned a target incentive opportunity, expressed as a percent of base salary. The more senior the participant, the higher the percentage of the award is allocated to corporate goals in order to reflect broader job duties. Incentive opportunities for all AIP participants, with the exception of the Principal Executive Officer, are based on the achievement of three corporate goals and two individual goals. The Principal Executive Officer is incented based solely on the Company's achievement against corporate goals.

Edgar Filing: KANSAS CITY LIFE INSURANCE CO - Form DEFA14A

The Committee established the following three fiscal year corporate goals for the 2008 AIP: Finance, Growth and Expense Control (discussed more fully below). The Committee has re-affirmed the use of these three corporate goals for the 2009 AIP.

The Finance Goal is measured by operating earnings excluding the impact of incentive compensation plans. The Growth Goal is measured by new life insurance target premiums. The Expense Control Goal is measured by controllable expenses. Performance measures have a threshold, target and maximum award. For plan year 2009, the Expense Goal has been established as an “all or nothing” cliff goal, without threshold or maximum performance levels.

The AIP is designed such that no payouts are made unless the fiscal year earnings trigger is achieved. The intention of the Committee in using an earnings trigger is to prevent AIP payouts unless a specific level of earnings is achieved. For 2008, the net income earnings trigger of \$27 million was not achieved, and no payouts were made under the AIP. For 2009, the earnings trigger will be \$13 million of operating earnings net of applicable taxes and the impact of incentive compensation plans.

The AIP is designed to award individual and Company performance that result in meeting important Company objectives. In establishing and approving AIP goals for plan year 2009, the Committee considered the current state of the U.S. economy, the impact of the downturn on investment portfolio values, and the projected continued slowdown in life insurance sales. The Committee’s objective is to establish AIP goals at levels that will drive superior performance, but that remain attainable, to provide the desired motivational impact to AIP participants.

The AIP goals and earnings trigger are annually recommended by management and approved by the Compensation Committee.

Long Term Incentive. The Company provides executive officers with a Long Term Incentive Plan (“LTIP”) that annually grants Phantom Stock Options (PSOs) for three year overlapping terms. The 2006-2008 plan cycle began on January 1, 2006 and concluded on December 31, 2008. The initial face value of one PSO is the volume weighted average Company stock closing price from December 1, 2005 to December 31, 2005.

Edgar Filing: KANSAS CITY LIFE INSURANCE CO - Form DEFA14A

The ending value of one PSO for this plan cycle was the volume weighted average Company stock closing price from December 1, 2008 to December 31, 2008. Payouts to LTIP participation are determined by the increase in the ending PSO value over the initial PSO face value plus Company stock dividends accrued over the three-year cycle. Under the LTIP, dividends are payable at the end of each plan cycle, to the extent that the aggregate dividends exceed any negative share price appreciation. For the 2006-2008 plan cycle that concluded on December 31, 2008, no payouts were made as the decline in stock price between the initial and end dates exceeded dividends accrued from PSOs awarded in 2006.

As in 2008, for 2009, the Compensation Committee granted PSO awards under the LTIP using a percentage of base salary approach. For each executive, the Committee reviewed data from the competitive market, as adjusted for company size, provided by its compensation consultant to determine the appropriate percentage of base salary at which to set long-term incentive awards. For 2009, these percentages remain at 90% for the Chairman/CEO and 65% to 50% for other senior executives. To determine the number of PSOs to be granted under the LTIP, the option value of a PSO unit is calculated using an Expanded Black-Scholes valuation methodology.

Upon timely election, executive officers may irrevocably elect to defer receipt of the plan award into deferred stock units (DSU) which fluctuate directly with the company stock price. The DSUs can be settled in stock, cash or a combination of both. All dividends on the DSUs are deferred until settlement of the DSUs. The election is intended to further align the participants' interests with that of the Company and shareholders.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code provides guidance on the deductibility of compensation paid to the Company's five highest-paid officers. The Company has taken the necessary actions to ensure the deductibility of payments under the Company's annual and long-term performance incentive compensation plans. The Company also intends to take the actions necessary to maintain the future deductibility of payments and awards under these programs.

Conclusion

The Company and Compensation Committee are satisfied that the base salary, bonus, Annual Incentive Plan and Long Term Incentive Plan provided to the named executive officers of the Company are structured and operate to foster a performance-oriented culture and create strong alignment with the long-term best interests of the Company and its stockholders, and that compensation levels are reasonable in light of performance and industry practices.

Employees must be at least age 21 and have completed one year of service in order to participate in the plans. The normal retirement benefit available to participants is the greater of the participant's Cash Balance Account or the actuarial equivalent of the participant's Prior Plan Benefit or Grandfathered Benefit. The Cash Balance Account is credited with a percentage of compensation each year based on years of service and is also credited with interest each year. The normal form of payment is a life annuity if single or a qualified joint and survivor annuity if married. Participants also have the option of electing an actuarial equivalent form of payment, including a lump sum.

Edgar Filing: KANSAS CITY LIFE INSURANCE CO - Form DEFA14A

Participants who entered the Plan prior to January 1, 1982 are eligible for early retirement at age 60 with 10 years of participation or age 55 with 15 years of participation. All other participants are eligible for early retirement at age 55 and sum of age and years of employment after age 25 equals at least 75. The early retirement benefit is the accrued benefit at severance actuarially reduced for early commencement. The Prior Plan Benefit and the Grandfathered Benefit are reduced by the Prior Plan reduction factors.

The compensation used in determining the accrued benefit is base pay excluding bonuses, overtime pay, vacation pay, severance pay or any other extraordinary payments.

The Medical Plan provides benefits to retired employees who satisfy eligibility requirements under the Kansas City Life Insurance Company Retiree Medical Plan ("Retiree Medical Plan") if the retired employee continues to pay the applicable premium for medical benefits. Active employees hired prior to January 1, 2000 who become eligible to retire in the future must continuously participate in the Medical Plan during the last sixty (60) months of employment immediately prior to retirement to be eligible for Retiree Medical Plan coverage. Active employees hired on or after January 1, 2000 but prior to January 1, 2005 who become eligible to retire in the future must have a minimum of one hundred twenty (120) months of service and continuously participate in the Medical Plan during the last sixty (60) months of employment immediately prior to retirement to be eligible for Retiree Medical Plan coverage. Employees hired on or after January 1, 2005 are not eligible to participate in the Retiree Medical Plan.

The Non-Qualified Plan has the same provisions as the Qualified Plan except for IRC Section 401(a)(17) compensation limits and IRC Section 415 benefit limitations. The Non-Qualified Plan provides the benefits that cannot be provided by the Qualified Plan due to the limitations of IRC Section 401(a)(17) and IRC Section 415.

The Plans are designed to provide some retirement benefits for all eligible Company employees.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Assuming the employment of the named executive officers were to be terminated because of a reduction in staff, each as of December 31, 2008, the following individuals would be entitled to payments in the amounts set forth opposite to their name in the below table. As provided in the Company's severance plan applicable to senior officers, they would each receive one month's pay for each year of service up to a maximum of one year.

			<u>Cash Severance</u>
R. Philip Bixby	\$ 57,395	per month for 12 months	\$ 688,740
Mark A. Milton	\$ 23,335	per month for 12 months	\$ 280,020
Tracy W. Knapp	\$ 23,050	per month for 9 months	\$ 207,450
Charles R. Duffy, Jr.	\$ 23,430	per month for 12 months	\$ 281,160
Donald E. Krebs	\$ 21,775	per month for 12 months	\$ 261,300

No severance payment is provided for any of the executive officers in the event of death, disability or retirement.

No payments are due in connection with a severance by reduction in staff unless the executive executes a general release and waiver of claims against the Company following procedures set out by the Company.

A change in control does not affect the amount or timing of cash severance payments, nor are there any other payments for change in control.

Assuming the employment of the named executive officers were to be terminated due to death, disability or retirement as of December 31, 2008 their year end payout as shown in the summary compensation table for the Annual Incentive Plan and the Long Term Incentive Plan would not change. Upon all other terminations, the amounts in the Annual Incentive Plan and Long Term Incentive Plan would be forfeited.

Payments upon termination are also disclosed in the Non-Qualified Deferred Compensation and Pension Benefit Tables in the two immediately preceding sections of this Proxy Statement.
