#### NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some information in this report may contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. We have based these forward-looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward-looking words such as believe, plan, anticipate, continue, estimate, expect, may, will or other similar words.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We have chosen these assumptions or bases in good faith. These forward-looking statements are subject to risks, uncertainties and assumptions, some of which are beyond our control. In addition, these forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. Actual results may differ materially from information contained in the forward-looking statements as a result of a number of factors, including, without limitation, the risk factors set forth in Item 3. Key Information Risk Factors in our annual report on Form 20-F for the fiscal year ended December 31, 2008. You should also keep in mind that any forward-looking statement made by us in this report or elsewhere speaks only as at the date on which we made it. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the statements in this report after the date hereof. In light of these risks and uncertainties, you should keep in mind that actual results may differ materially from any forward-looking statement made in this report or elsewhere.

**PLDT**

**PRESS RELEASE**

## **Consortium to Develop Asia Pacific Gateway**

### **Cable System**

**KUALA LUMPUR, May 26, 2009** A consortium of major telecommunications companies signed yesterday (May 25) a Memorandum of Understanding (MOU) to plan and develop the proposal to build an international undersea cable system within the Asia Pacific Region.

These experienced carriers, all with a growing and ready customer base in their respective domestic markets, include Chunghwa Telecom (Taiwan), China Telecom (China Mainland), China Unicom (China Mainland), KT Corporation (Korea), NTT Communications (Japan), PLDT (Philippines), Telekom Malaysia (Malaysia) and VNPT (Vietnam). The proposed undersea cable system will be called the Asia - Pacific Gateway (APG) and it is planned to connect Malaysia, Singapore, Thailand, Vietnam, Hong Kong, the Philippines, Taiwan, China Mainland, Japan and Korea.

The proposed Asia Pacific Gateway will provide additional capacity for growing demand and an alternative, diverse routing within the region such that it will avoid some of the areas most prone to seismic activity, conditions which are hazardous to undersea cables. The cable system will span about 8,000km and will use the latest Dense Wavelength Division Multiplexing (DWDM) technologies with a minimum design capacity of 4 Terabit/s. It is planned to be ready for service in 2011.

The planning and eventual implementation of the new Asia Pacific Gateway project is timely due to the growing bandwidth demand of PLDT and the other proponents. It is also intended to meet the requirements for cable route diversity, protection, and to provide capacity to replace the retiring cables in the region, said Alejandro Caeg, PLDT First Vice President, International & Carrier Business Group.

The proposed cable system has the potential to provide an alternative route and/or restoration paths to existing cable systems in the region as it is designed to provide a high degree of inter-connectivity with existing and planned high bandwidth systems.

Exhibit 1

The proposed Asia Pacific Gateway is highlighted in the diagram below.

XXX

**About the Asia Pacific Gateway**

The proposed Asia Pacific Gateway Cable System will link major economic growth countries in the Asia Pacific region. It is currently planned to link Malaysia, Singapore, Thailand, Vietnam, Hong Kong, the Philippines, Taiwan, China Mainland, Japan and Korea. It will span about 8,000km and will use the latest Dense Wavelength Division Multiplexing (DWDM) technologies with a minimum design capacity of 4 Terabit/s. Parties to the Asia Pacific Gateway include Chunghwa Telecom (Taiwan), China Telecom (China Mainland), China Unicom (China Mainland), KT Corporation (Korea), NTT Communications (Japan), PLDT (Philippines), Telekom Malaysia (Malaysia) and VNPT (Vietnam).

Exhibit 1

**About PLDT**

PLDT is the leading telecommunications service provider in the Philippines. Through its three principal business groups – wireless, fixed line, and information and communications technology – PLDT offers the largest and most diversified range of telecommunications services across the Philippines – most extensive fiber optic backbone and wireless, fixed line and satellite networks.

PLDT is listed on the Philippine Stock Exchange (PSE:TEL) and its American Depositary Shares are listed on the New York Stock Exchange (NYSE:PHI). PLDT has one of the largest market capitalizations among Philippine-listed companies.
