SONO-TEK CORPORATION
Notes to Consolidated Financial Statements
November 30, 2000 and 1999

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consolidation - The accompanying consolidated financial statements of Sono-Tek Corporation, a New York Corporation (the "Company"), include the accounts of the Company and its wholly owned subsidiary, Sono-Tek Cleaning Systems, Inc. ("SCS"), a New Jersey Corporation formerly known as S&K Products International, Inc., ("S&K"), which the Company acquired on August 3, 1999 (the "Acquisition"). All significant intercompany accounts and transactions are eliminated in consolidation. The inclusion of SCS's results since August 3, 1999 has an effect on the comparison of the Company's Fiscal Year 2001 results to prior periods.

Interim Reporting - The attached summary consolidated financial information does

Edgar Filing: SONO TEK CORP - Form 10-Q

not include all disclosures required to be included in a complete set of financial statements prepared in conformity with accounting principles generally accepted in the United States of America. Such disclosures were included with the financial statements of the Company at February 29, 2000, and included in its report on Form 10-K. Such statements should be read in conjunction with the data herein.

The financial information reflects all adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the interim periods presented. The results for such interim periods are not necessarily indicative of the results to be expected for the year.

Patent and Patent Pending Costs - Costs of patent applications are deferred and charged to operations over seventeen years for domestic patents and twelve years for foreign patents. However, if it appears that such costs are related to products which are not expected to be developed for commercial application within the reasonably foreseeable future, or are applicable to geographic areas where the Company no longer requires patent protection, they are written-off to operations. The accumulated amortization is \$84,554 and \$80,053 at November 30 and February 29, 2000, respectively.

Reclassifications - Certain February 29, 2000 balances have been reclassified to conform with the current period presentations.

Adoption of Financial Accounting Standards - In June 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"). This statement establishes standards for the accounting and reporting for derivative instruments and for hedging activities and requires the recognition of all derivatives as assets or liabilities measured at their fair value. Gains or losses resulting from changes in the fair value of derivatives would be recognized in earnings in the period of change unless certain hedging criteria are met. The Company does not expect SFAS 133 to have a material impact on the consolidated financial statements. The FASB issued SFAS Nos. 137 and 138, which deferred the effective date of implementation of SFAS 133 to all fiscal quarters of all fiscal years beginning after June 15, 2000 and amended SFAS 133, respectively.

Revenue Recognition in Financial Statements - In December 1999, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 101 ("SAB 101"), "Revenue Recognition in Financial Statements." SAB 101 summarizes certain of the SEC's views in applying accounting principles generally accepted in the United States of America to revenue recognition in financial statements. On June 26, 2000, the SEC issued SAB 101B to defer the effective date of implementation of SAB 101 until no later than the fourth quarter of fiscal years beginning after December 31, 1999. The Company is required to adopt SAB 101 by February 28, 2001. The Company does not expect the adoption of SAB 101 to have a material impact on the consolidated financial statements.

NOTE 2: SEGMENT INFORMATION

The Company has two reportable segments: spraying products and cleaning and drying systems. The spraying products segment is primarily engaged in the business of developing, manufacturing, selling, installing and servicing ultrasonic spray equipment. The cleaning and drying systems segment is engaged in the business of developing, manufacturing, selling, installing and servicing cleaning and drying systems for the semiconductor, disk drive and precision cleaning industries.

Summary financial information concerning the Company's reportable segments is shown in the following table:

Edgar Filing: SONO TEK CORP - Form 10-Q

The Company operated in a single reportable segment for the period from March 1, 1999 through August 3, 1999.

NOTE 3: ACQUISITION OF SCS

On August 3, 1999 the Company purchased all the outstanding stock of S&K, a supplier of cleaning and drying systems for the semiconductor, disk drive, and precision cleaning industries. In June 2000, the Company changed S&K's name to SCS.

The following unaudited proforma information presents a summary of the consolidated results of operations of the Company and SCS as if the acquisition had occurred on March 1, 1999.

These unaudited pro forma results have been prepared for comparative purposes only and include certain adjustments, such as additional amortization expense as a result of goodwill and the elimination of extraordinary items associated with

Edgar Filing: SONO TEK CORP - Form 10-Q

the acquisition. They do not purport to be indicative of the results of operations that actually would have resulted had the combination occurred on March 1, 1999, or of future results of operations of the consolidated entities.

NOTE 4: ACQUISITION OF SEREC ASSETS

On September 21, 2000, the Company acquired certain intellectual property and intangible assets of Serec Corporation, a Rhode Island corporation which manufactured and sold solvent based cleaning systems. In exchange for \$100,000 cash, the Company received the rights to seven patents, one registered trademark, unfulfilled purchase orders, engineering designs and certain other intangible assets. Professional fees and other costs of \$10,313, \$7,500 of which, was attributed to the issuance of common stock, were capitalized as additional purchase price. The aggregate purchase price of \$110,313 is recorded as goodwill due to the inability to specifically identify the values associated with the various intangible assets acquired. The goodwill will be amortized on the straight-line basis over 5 years. Accumulated amortization of goodwill at November 30, 2000 was \$3,678.

NOTE 5: INVENTORY

Inventories at November 30, 2000 are comprised of:

Finished goods	\$440,492
Work in process	135,188
Raw materials and subassemblies	860,152

Total	1,435,832
Less: Allowance	(195,600)

Net total inventories	\$1,240,232

NOTE 6: LONG-TERM EQUITY INVESTMENT - NET

In January 2000, in connection with the formation of PNR America, LLC, a Delaware limited liability company ("PNR America"), the Company invested \$19,600 in PNR America for a 49% ownership interest. Flowtech Srl ("Flowtech"), an Italian pressure nozzle manufacturer, owns the remaining 51%. In August 2000, the Company and Flowtech pledged an additional investment of \$9,800 and \$10,200, respectively, in PNR America, thereby maintaining each's proportional share. On November 30, 2000 the Company made its \$9,800 contribution by decreasing the amount owed to the Company by PNR America.

PNR America was formed to market and sell nozzles imported from Flowtech in the U.S. The PNR America product line compliments the Company's existing business as there are certain basic nozzle properties common to both product lines and capitalizes on the Company's existing relationships with its customers. Prior to the formation of PNR America, the Company had been a U.S. distributor of Flowtech products.

Certain of the Company's officers and directors are also officers and directors of PNR America, however, PNR America's board of directors is controlled by Flowtech. The Company does not control PNR America and it is therefore not consolidated for reporting purposes.

The Company shares its facilities and personnel with PNR America. The Company allocated costs of \$21,438 and \$78,668 to PNR America for the three and nine month periods ended November 30, 2000, respectively, and \$13,967 for the period of inception through February 29, 2000. Balances due from PNR America of \$58,161 and \$13,967 at November 30, 2000 and February 29, 2000, respectively, are expected to be repaid out of PNR America's fiscal year 2001 operating cash flows.

Edgar Filing: SONO TEK CORP - Form 10-Q

PNR America's year end is December 31, however, for financial reporting purposes the Company will reflect its proportionate share of the operating results of PNR America on a monthly basis, as the records are compiled by the Company. The Company's cumulative recorded equity loss in PNR America at November 30, 2000 was \$55,442. The Company recognized, during the nine and three month period ended November 30, 2000 and the period from inception to February 29, 2000, \$70,585, \$18,558 and \$14,257, respectively, as its estimate of the proportionate share of the net loss of PNR America. The Company, for financial reporting purposes, has netted the cumulative equity loss in PNR America with the intercompany balances due from PNR America.

The condensed financial information of PNR America as of November 30, 2000 and for the three month period ended November 30, 2000 is as follows:

Net loss-three months ended November 30, 2000	\$ (35,654)
	=====
Net loss-nine months ended November 30, 2000	\$ (144,048)
	=====
Total assets - current	\$91,622
	=====
Due to Sono-Tek	\$72,128
Due to Flowtech	137,087
Accrued Expenses	5,756

Liabilities	214,971
Stockholders' deficiency	(123,49)

Total liabilities and stockholders' deficiency	\$91,622
	=====

Note 7: SHORT TERM LOANS RELATED PARTIES

From time to time the Company has required short-term loans to meet its payment obligations. All of these loans, which are payable on demand, have been provided by certain officers and directors of the Company at an interest rate of prime plus 2% computed at the time of the loan (9.75% to 11.5% at November 30, 2000). As of November 30, 2000 the amount of these loans outstanding was \$302,084. Interest expense for the nine month period and three month period ended November 30, 2000 was \$16,657 and \$7,381, respectively. Accrued interest was \$27,337 and \$13,165 at November 30, 2000 and February 29, 2000, respectively.

NOTE 8: COMMITMENTS AND CONTINGENCIES

On October 1, 2000, the Company entered into a lease agreement for additional production space in Milton, NY. The lease, which terminates November 30, 2002, has an annual rent of \$18,000. The Company has the option to renew the lease for a period of three years after expiration.

NOTE 9. EARNINGS (LOSS) PER SHARE

Basic earnings per share ("EPS") and loss per share ("LPS") are computed by dividing net income (loss) by the weighted-average number of common shares outstanding for the period. Diluted EPS would reflect, if applicable, the potential dilution that could occur if securities or other obligations to issue common stock were exercised or converted into common stock. Stock options granted but not yet exercised under the Company's stock option plans would be included for Diluted EPS calculations, if applicable, under the treasury stock method.

Edgar Filing: SONO TEK CORP - Form 10-Q

The computation of basic and diluted (loss) per share are set forth on the following table:

	Nine Months Ended November 30,		Three M No 2000 ----
	2000	1999	2000
Numerator-			
Numerator for basic and diluted earnings (loss) per share	\$(114,816)	\$(31,139)	\$64,022
Denominator:			
Denominator for basic earnings (loss) per share - weighted average shares	8,984,787	7,155,467	9,047,025
Effects of dilutive securities:			
Stock warrants	0*	0*	1,526,483
Stock options for employees, directors and outside consultants	0*	0*	414,140
Denominator for diluted earnings (loss) per share	8,984,787*	7,155,467*	10,987,648

*Stock options and warrants for employees, directors and outside consultants are antidilutive as a result of the net loss and therefore are not considered in the Diluted LPS calculation.

Under the assumption that stock options, warrants and convertible long term loans were not antidilutive as described above, the denominator for Diluted LPS would be 11,234,771 and 9,408,667 weighted average shares for the nine month period at November 30, 2000 and 1999, respectively and 11,340,411 weighted average shares for the three month period at November 30, 1999.

On October 9, 2000, the Board of Directors of the Company granted options to acquire 72,500 shares of common stock to qualified employees of the Company which are exercisable at the fair market value on the date of grant, under the Company's 1993 Stock Incentive Plan, as amended.

NOTE 10: SUBSEQUENT EVENTS

Letter of intent - On May 16, 2000, the Company signed a letter of intent to purchase all the outstanding stock of a corporation to further expand the Company's product base. This letter of intent has expired by its terms and the Company is no longer pursuing the purchase.

Short term loans - related parties - During December 2000, a director of the Company loaned the Company \$20,000 at the fixed rate of 9%, convertible at \$1.00 per share into the Company's common stock.

Subordinated mezzanine debt - During December 2000, the note was increased by \$100,000. If the \$100,000 plus interest is not repaid by March 22, 2001, the scheduled principal payments will increase to \$15,278 per month and a replacement Warrant will be issued for 1,344,444 shares of the Company's common stock.

Edgar Filing: SONO TEK CORP - Form 10-Q

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Certain statements made in this report may constitute "forward-looking statements" within the meaning of the Federal Securities Laws. Such forward-looking statements include statements regarding the intent, belief or current expectations of the Company and its management and involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among other things, the following: general economic and business conditions; political, regulatory, competitive and technological developments affecting the Company's operations or the demand for its products; timely development and market acceptance of new products; adequacy of financing; capacity additions; and ability to enforce patents.

The Company undertakes no obligation to update publicly any forward-looking statements.

Liquidity and Capital Resources

The Company's working capital decreased \$69,652 from \$22,612 at February 29, 2000 to a working capital deficiency of \$(47,040) at November 30, 2000. The decrease in working capital was primarily a result of a decrease in accounts receivable of \$466,851 that was offset by a decrease in deferred revenue of \$725,491 and increases in accrued expenses of \$219,176 and customer deposits of \$181,396.

The Company's stockholders' equity increased \$155,809 from \$727,630 on February 29, 2000 to \$883,439 on November 30, 1999. Of this increase, \$137,500 was due to the sale of 137,500 shares of common stock through a Private Placement, \$132,242 was due to the exercise of warrants and options that were offset by the \$114,816 loss for the nine months ended November 30, 2000.

During Fiscal Year 2000, the Company entered into an agreement with a Small Business Investment Corporation, Norwood Venture Corporation ("Norwood"), pursuant to which the Company obtained a five-year loan in the principal amount of \$450,000. The terms of the loan require interest payments only for the first two years followed by monthly payments of \$12,500 plus interest through September 30, 2004. The Company also granted Norwood a warrant to purchase 1,100,000 shares of the Company's common stock which can be put to the Company. Such warrants were valued at \$77,000 which is accounted for as a discount and will be imputed as additional interest expense over the term of the loan.

The Company currently has a \$350,000 line of credit with a bank. The loan is collateralized by accounts receivable, inventory and all other personal property of the Company and is guaranteed by the Chairman and CEO of the Company. As of November 30, 2000 the outstanding balance was \$350,000.

Due to losses incurred during Fiscal Years 2000 and 1999, the Company has borrowed on a short-term basis from officers and directors. As of November 30, 2000 the balance owed these officers and directors was \$302,084.

Although there can be no assurances, management believes that its current backlog of orders and continued sales and expanding markets for its products will lead to increases in profits. These factors, and the anticipated success of PNR America, should allow the Company to meet its current obligations as they become due.

Edgar Filing: SONO TEK CORP - Form 10-Q

Results of Operations

The Company's sales increased \$2,614,704 from \$3,660,200 for the nine months ended November 30, 1999 to \$6,274,904 for the nine months ended November 30, 2000. The increase was due to an increase in SCS sales of \$2,310,100, increased sales of the SonoFlux System of \$609,948, that were offset by a decrease in nozzle and liquid delivery sales of \$107,657.

The Company's sales increased \$429,149 from \$1,551,772 for the three months ended November 30, 1999 to \$1,980,921 for the three months ended November 30, 2000. The increase was due to \$274,710 in sales attributable to SCS, increased sales of the SonoFlux System of \$109,084, MCSoInfinity and AccuMistoSystems of \$163,673, that were offset by a decrease in nozzle and liquid delivery sales of \$68,918.

Gross profit increased \$732,035 from \$1,934,133 for the nine-month period ended November 30, 1999 to \$2,666,168 for the nine-month period ended November 30, 2000. The increase in gross profit is due to the increase in sales that was offset by increases in personnel costs of \$607,175, service travel of \$135,651 and warranty expense of \$75,314.

The Company's gross profit increased \$144,261 from \$812,249 for the three months ended November 30, 1999 to \$956,510 for the three months ended November 30, 2000. The increase in gross profit is due to the increase in sales that was offset by increases in personnel costs of \$89,627, service travel of \$45,899 and warranty expense of \$19,922.

The gross profit was 42% and 53% of sales for the nine month period ending November 30, 2000 and 1999, respectively. The gross profit was 48% and 52% of sales for the three month period ending November 30, 2000 and 1999, respectively. For both the three and nine month periods the decrease in the Company's gross profit was primarily a result of increased sales of the Company's products with lower profit margins.

Research and product development costs increased \$257,625 from \$430,068 for the nine months ended November 30, 1999 to \$687,693 for the nine months ended November 30, 2000. Research and product development costs increased \$47,346 from \$170,712 for the three months ended November 30, 1999 to \$218,058 for the three months ended November 30, 2000. For both the three and nine month periods, the increase in the Company's research and product development costs was a result of increased compensation and rent expense resulting from a larger engineering staff and travel costs associated with new products for SCS.

Marketing and selling costs increased \$320,708 from \$787,757 for the nine months ended November 30, 1999 to \$1,108,465 for the nine months ended November 30, 2000. The increase was a result of increased sales commissions and additional sales personnel that totaled \$236,312 and increased marketing expenses of \$25,030.

Marketing and selling costs increased \$60,130 from \$303,061 for the three months ended November 30, 1999 to \$363,191 for the three months ended November 30, 2000. The increase was a result of additional commissions of \$118,707 that were offset by decreases in personnel costs of \$15,623, travel costs of \$11,471 and marketing costs of \$23,899.

General and administrative costs increased \$99,409 from \$591,840 for the nine month period ended November 30, 1999 to \$691,249 for the nine month period ended November 30, 2000. The increase was due to increases in professional and consulting fees of \$128,817 plus goodwill and deferred financing amortization of \$44,232 that were offset by a decrease in personnel costs of \$58,929.

General and administrative costs decreased \$57,881 from \$300,986 for the three

Edgar Filing: SONO TEK CORP - Form 10-Q

month period ended November 30, 1999 to \$243,105 for the three month period ended November 30, 2000. The decrease was due to increases in professional and consulting fees of \$45,758 that were offset by decreased personnel costs of \$81,313.

Interest expense increased \$63,178 from \$167,587 for the nine month period ended November 30, 1999 to \$230,765 for the nine months ended November 30, 2000. Interest expense increased \$14,852 from \$38,550 for the three month period ended November 30, 1999 to \$53,402 for the three months ended November 30, 2000. The increase is primarily due to an increase in interest costs associated with the addition of SCS and Norwood loan interest and new equipment loans from the bank.

For the nine months ended November 30, 2000 the Company had a net loss of \$114,816 or \$(0.01) per share as compared to a net loss of \$31,139 or \$(0.00) per share for the nine months ended November 30, 1999.

For the three months ended November 30, 2000 the Company had a net income of \$64,022 or \$0.01 per share as compared to a net loss of \$1,648 or \$(0.00) per share for the three months ended November 30, 1999.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk related to changes in interest rates. The interest rate on the Company's debt is based on fluctuations in the prime rates. If the prime rate increased by 1 percentage point from the levels at February 29, 2000, the negative effect on the Company's results of operations would approximate \$1,300 for the quarter ended November 30, 2000 and \$3,500 for the nine months ended November 30, 2000.
