## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)
Note 1: Summary of Significant Accounting Policies
Financial Statement Preparation
The unaudited condensed consolidated financial statements as of March 30, 2014, and for the quarter and two quarters ended March 30, 2014 and March 31, 2013, have been prepared by Starbucks Corporation under the rules and regulations of the Securities and Exchange Commission ("SEC"). In the opinion of management, the financial information for the quarter and two quarters ended March 30, 2014 and March 31, 2013 reflects all adjustments and accruals, which are of a normal recurring nature, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. In this Quarterly Report on Form 10-Q ("10-Q") Starbucks Corporation is referred to as "Starbucks," the "Company," "we," "us" or "our."
The financial information as of September 29, 2013 is derived from our audited consolidated financial statements and notes for the fiscal year ended September 29, 2013 ("fiscal 2013") included in Item 8 in the Fiscal 2013 Annual Report on Form $10-\mathrm{K}$ (the " $10-\mathrm{K}$ "). The information included in this $10-\mathrm{Q}$ should be read in conjunction with the footnotes and management's discussion and analysis of the financial statements in the $10-\mathrm{K}$.
The results of operations for the quarter and two quarters ended March 30, 2014 are not necessarily indicative of the results of operations that may be achieved for the entire fiscal year ending September 28, 2014 ("fiscal 2014"). Recent Accounting Pronouncements
In July 2013, the Financial Accounting Standards Board ("FASB") issued guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. This guidance requires the unrecognized tax benefit to be presented in the financial statements as a reduction to a deferred tax asset. When a deferred tax asset is not available, or the asset is not intended to be used for this purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and not netted with a deferred tax asset. The guidance will become effective for us at the beginning of our first quarter of fiscal 2015. We do not expect the adoption of this guidance will have a material impact on our financial statements. In March 2013, the FASB issued guidance on a parent's accounting for the cumulative translation adjustment upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity. This guidance requires a parent to release any related cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. The guidance will become effective for us at the beginning of our first quarter of fiscal 2015. We do not expect the adoption of this guidance will have a material impact on our financial statements.
In February 2013, the FASB issued guidance that adds additional disclosure requirements for items reclassified out of accumulated other comprehensive income. This guidance requires the disclosure of significant amounts reclassified from each component of accumulated other comprehensive income and the income statement line items affected by the reclassification. The guidance became effective for us at the beginning of our first quarter of fiscal 2014 and the additional disclosures are provided in Note 7 of this $10-\mathrm{Q}$.
In January 2013, the FASB issued guidance clarifying the scope of disclosure requirements for offsetting assets and liabilities. The amended guidance limits the scope of balance sheet offsetting disclosures to derivatives, repurchase agreements, and securities lending transactions to the extent that they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement. The guidance became effective for us at the beginning of our first quarter of fiscal 2014 and did not have a material impact on our financial statements.

## Table of Contents

Correction of an Immaterial Error
Effective at the beginning of fiscal 2014, we reclassified certain fees related to our US and Seattle's Best Coffee foodservice operations in our Channel Development segment and All Other Segments, respectively, from other operating expenses to foodservice revenues included in CPG, foodservice and other net revenues in our consolidated statements of earnings. This reclassification results from a correction of an error in our prior period financial statements which we have determined to be immaterial. In order to align prior period classifications with the current period presentation, the historical consolidated financial statements have been corrected, resulting in reclassifications of $\$ 25.4$ million and $\$ 22.7$ million for fiscal years 2013 and 2012, respectively. The reclassifications for the quarter and two quarters ended March 31, 2013 were $\$ 6.3$ million and $\$ 12.7$ million, respectively. The consolidated statements of earnings as corrected are presented below (in millions):

|  | Fiscal 2013 Q1 | Q2 | Q3 | Q4 |  | Full Year |  | Fiscal 2012 <br> Full Year |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Net revenues |  |  |  |  |  |  |  |  |
| Company-operated stores | \$2,989.6 | \$2,807.7 | \$2,986.3 | \$3,009.6 |  | \$ 11,793.2 |  | \$ 10,534.5 |
| Licensed stores | 350.2 | 322.1 | 342.0 | 346.3 |  | 1,360.5 |  | 1,210.3 |
| CPG, foodservice and other | 453.4 | 419.8 | 407.0 | 432.9 |  | 1,713.1 |  | 1,532.0 |
| Total net revenues | 3,793.2 | 3,549.6 | 3,735.3 | 3,788.8 |  | 14,866.8 |  | 13,276.8 |
| Cost of sales including occupancy costs | 1,620.7 | 1,530.4 | 1,597.6 | 1,633.7 |  | 6,382.3 |  | 5,813.3 |

| Depreciation and amortization expenses | 148.9 | 153.1 | 153.3 | 166.1 |  | 621.4 |  | 550.3 |
| General and administrative expenses | 231.9 | 230.3 | 249.6 | 226.1 |  | 937.9 |  | 801.2 |
| Litigation charge | - | - | - | 2,784.1 |  | 2,784.1 |  | - |
| Total operating expenses | 3,217.1 | 3,058.0 | 3,183.5 | 5,985.0 |  | 15,443.6 |  | 11,490.1 |
| Income from equity investees | 54.5 | 52.5 | 63.4 | 81.0 |  | 251.4 |  | 210.7 |
| Operating income/(loss) | 630.6 | 544.1 | 615.2 | (2,115.2 | ) | (325.4 | ) | 1,997.4 |
| Interest income and other, net | (2.9 | ) 50.8 | 3.5 | 72.1 |  | 123.6 |  | 94.4 |
| Interest expense | (6.6 | (6.1 | ) 6.3 | ) $(9.1$ | ) | (28.1 | ) | (32.7 |
| Earnings/(loss) before income taxes | 621.1 | 588.8 | 612.4 | (2,052.2 | ) | (229.9 | ) | 2,059.1 |
| Income taxes | 188.7 | 198.1 | 194.6 | (820.1 | ) | (238.7 | ) | 674.4 |
| Net earnings including noncontrolling interests | 432.4 | 390.7 | 417.8 | (1,232.1 | ) | 8.8 |  | 1,384.7 |
| Net earnings attributable to noncontrolling interests | 0.2 | 0.3 | - | (0.1 | ) | 0.5 |  | 0.9 |
| Net earnings attributable to Starbucks | \$432.2 | \$390.4 | \$417.8 | \$(1,232.0 | ) | \$8.3 |  | \$ 1,383.8 |

There was no impact on operating income or net earnings as a result of the error correction, nor any impact on our consolidated statements of comprehensive income, consolidated balance sheets or consolidated statements of cash flows. Additional disclosure regarding this change as it relates to our segment results is included at Note 11, Segment Reporting.
Note 2: Derivative Financial Instruments
Interest Rates

Depending on market conditions, we enter into interest rate swap agreements to hedge the variability in cash flows due to changes in the benchmark interest rate related to anticipated debt issuances. These agreements are cash settled at the time of the pricing of the related debt. The effective portion of the derivative's gain or loss is recorded in accumulated other comprehensive income ("AOCI") and is subsequently reclassified to interest expense over the life of the related debt.

8

## Table of Contents

## Foreign Currency

To reduce cash flow volatility from foreign currency fluctuations, we enter into forward and swap contracts to hedge portions of cash flows of anticipated revenue streams and inventory purchases in currencies other than the entity's functional currency. The effective portion of the derivative's gain or loss is recorded in AOCI and is subsequently reclassified to revenue or cost of sales when the hedged exposure affects net earnings.
We also enter into forward contracts to hedge the foreign currency exposure of our net investment in certain of our equity method investees. The effective portion of the derivative's gain or loss is recorded in AOCI and will be subsequently reclassified to net earnings when the hedged net investment is either sold or substantially liquidated. To mitigate the translation risk of certain balance sheet items, we enter into foreign currency swap contracts that are not designated as hedging instruments. Gains and losses from these derivatives are largely offset by the financial impact of translating foreign currency denominated payables and receivables; both are recorded in net interest income and other.
Commodities
Depending on market conditions, we enter into coffee futures contracts and collars (the combination of a purchased call option and a sold put option) to hedge a portion of anticipated cash flows under our price-to-be-fixed green coffee contracts, which are described further in Note 4, Inventories. The effective portion of the derivative's gain or loss is recorded in AOCI and is subsequently reclassified to cost of sales when the hedged exposure affects net earnings. To mitigate the price uncertainty of a portion of our future purchases of dairy products and diesel fuel, we enter into dairy futures and collars, as well as diesel fuel swap contracts that are not designated as hedging instruments. Gains and losses from these derivatives are recorded in net interest income and other. Gains and losses from dairy futures largely offset price fluctuations on our dairy purchases, which are included in cost of sales. Gains and losses from diesel fuel swaps largely offset the financial impact of diesel fuel fluctuations on our shipping costs, which are included in operating expenses.
Gains and losses on derivative contracts designated as hedging instruments included in AOCI and expected to be reclassified into earnings within 12 months, net of tax (in millions):

There were no material transfers between levels and there was no significant activity within Level 3 instruments during the periods presented. In the second quarter of fiscal 2014, we revised the classification of coffee and dairy futures from Level 2 to Level 1, as we use quoted prices in active markets for identical assets to determine fair value. The fair values of any financial instruments presented above exclude the impact of netting assets and liabilities when a legally enforceable master netting agreement exists.
Gross unrealized holding gains and losses on investments were not material as of March 30, 2014 and September 29, 2013.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis
Assets and liabilities recognized or disclosed at fair value in the financial statements on a nonrecurring basis include items such as property, plant and equipment, goodwill and other intangible assets, equity and cost method investments, and other assets. These assets are measured at fair value if determined to be impaired. During the the quarter and two quarters ended March 30, 2014 and March 31, 2013, there were no material fair value adjustments. The estimated fair value of our long-term debt based on the quoted market price (Level 2) is included at Note 6, Debt.

Total
Mar 30, 2014 Sep 29, 2013 Mar 31, 2013

Other merchandise held for sale includes, among other items, tea and serveware. Inventory levels vary due to seasonality, commodity market supply and price fluctuations.
As of March 30, 2014, we had committed to purchasing green coffee totaling $\$ 534$ million under fixed-price contracts and an estimated $\$ 560$ million under price-to-be-fixed contracts. As of March 30, 2014, approximately $\$ 33$ million of our price-to-be-fixed contracts were effectively fixed through the use of futures contracts and approximately $\$ 4$ million were price-protected through the use of collar instruments. Price-to-be-fixed contracts are purchase commitments whereby the quality, quantity, delivery period, and other negotiated terms are agreed upon, but the date, and therefore the price, at which the base "C" coffee commodity price component will be fixed has not yet been established. For these types of contracts, either Starbucks or the seller has the option to "fix" the base "C" coffee commodity price prior to the delivery date. Until prices are fixed, we estimate the total cost of these purchase commitments. We believe, based on relationships established with our suppliers in the past, the risk of non-delivery on these purchase commitments is remote.

In addition to 1.2 billion shares of authorized common stock with $\$ 0.001$ par value per share, the Company has authorized 7.5 million shares of preferred stock, none of which was outstanding as of March 30, 2014.
We repurchased 4.1 million shares of common stock at a total cost of $\$ 301.2$ million, and 10.8 million shares at a total cost of $\$ 544.1$ million for the two quarters ended March 30, 2014 and March 31, 2013, respectively. As of March 30, 2014, 22.3 million shares remained available for repurchase under current authorizations.

During the second quarter of fiscal 2014, our Board of Directors declared a quarterly cash dividend to shareholders of $\$ 0.26$ per share to be paid on May 23, 2014 to shareholders of record as of the close of business on May 8, 2014. Note 8: Employee Stock Plans
As of March 30, 2014, there were 56.2 million shares of common stock available for issuance pursuant to future equity-based compensation awards and 7.6 million shares available for issuance under our employee stock purchase plan.

## Table of Contents

Note 9: Earnings Per Share
Calculation of net earnings per common share ("EPS") - basic and diluted (in millions, except EPS):

|  | Quarter Ended |  | Two Quarters | Ended |
| :---: | :---: | :---: | :---: | :---: |
|  | Mar 30, 2014 | Mar 31, 2013 | Mar 30, 2014 | Mar 31, 2013 |
| Net earnings attributable to Starbucks | \$427.0 | \$390.4 | \$967.6 | \$822.5 |
| Weighted average common shares outstanding (for basic calculation) | 755.2 | 749.1 | 755.0 | 747.6 |
| Dilutive effect of outstanding common stock options and RSUs | 9.4 | 12.2 | 10.4 | 13.7 |
| Weighted average common and common equivalent shares outstanding (for diluted calculation) | 764.6 | 761.3 | 765.4 | 761.3 |
| EPS - basic | \$0.57 | \$0.52 | \$1.28 | \$1.10 |
| EPS - diluted | \$0.56 | \$0.51 | \$1.26 | \$1.08 |

Potential dilutive shares consist of the incremental common shares issuable upon the exercise of outstanding stock options (both vested and non-vested) and unvested RSUs, calculated using the treasury stock method. The calculation of dilutive shares outstanding excludes out-of-the-money stock options (i.e., such options' exercise prices were greater than the average market price of our common shares for the period) because their inclusion would have been antidilutive. Out-of-the-money stock options totaled approximately 2.8 million and less than 0.1 million as of March 30, 2014 and March 31, 2013, respectively.
Note 10: Commitments and Contingencies

## Legal Proceedings

On November 12, 2013, the arbitrator in our arbitration with Kraft Foods Global, Inc. (now known as Kraft Foods Group, Inc.) ("Kraft") ordered Starbucks to pay Kraft $\$ 2,227.5$ million in damages plus prejudgment interest and attorneys' fees. We estimated prejudgment interest, which included an accrual through the estimated payment date, and attorneys' fees to be approximately $\$ 556.6$ million. As a result, we recorded a litigation charge of $\$ 2,784.1$ million in our fiscal 2013 operating results.
In the first quarter of fiscal 2014, Starbucks paid all amounts due to Kraft under the arbitration, including prejudgment interest and attorneys' fees, and fully extinguished the litigation charge liability. Of the $\$ 2,784.1$ million litigation charge accrued in the fourth quarter of fiscal 2013, $\$ 2,763.9$ million was paid and the remainder was released as a litigation credit to reflect a reduction to our estimated prejudgment interest payable as a result of paying our obligation earlier than anticipated.
Starbucks is party to various other legal proceedings arising in the ordinary course of business, including, at times, certain employment litigation cases that have been certified as class or collective actions, but is not currently a party to any legal proceeding that management believes could have a material adverse effect on our consolidated financial position, results of operations or cash flows.
Note 11: Segment Reporting
Segment information is prepared on the same basis that our ceo, who is our chief operating decision maker, manages the segments, evaluates financial results, and makes key operating decisions.
The table below presents financial information for our reportable operating segments and All Other Segments for the quarter and two quarters ended March 30, 2014 and March 31, 2013, including reclassifications resulting from the correction of the immaterial error discussed in Note 1. The reclassifications for fiscal years 2013 and 2012 were $\$ 21.8$ million and $\$ 19.2$ million for the Channel Development segment, respectively, and $\$ 3.6$ million and $\$ 3.5$ million for All Other Segments, respectively. The reclassifications for the quarter and two quarters ended March 31, 2013 were $\$ 5.4$ million and $\$ 10.9$ million for the Channel Development segment, respectively, and $\$ 0.9$ million and $\$ 1.8$ million for All Other Segments, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations CAUTIONARY STATEMENT PURSUANT TO THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995
Certain statements herein, including statements regarding trends in or expectations relating to the expected effects of our initiatives and plans, as well as trends in or expectations regarding earnings per share, revenues, operating income, operating margins, comparable store sales, sales leverage, sales growth, profitability, expenses, dividends, share repurchases, other financial results, capital expenditures, scaling and expansion of international operations, shifts in our store portfolio to more licensed stores in EMEA and to more company-operated stores in CAP, profitable growth models and opportunities, strategic acquisitions, commodity costs and our mitigation strategies, the transition from our distribution arrangement with Kraft to a direct distribution model, liquidity, cash flow from operations, use of cash, the potential issuance of debt and applicable interest rate, anticipated store openings, closings and renovations, the health and growth of our business overall and of specific businesses or markets, benefits of recent initiatives, increased traffic to our stores, operational efficiencies, product innovation and distribution, tax rates, and economic conditions in the US and international markets, constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are based on currently available operating, financial and competitive information and are subject to various risks and uncertainties. Actual future results and trends may differ materially depending on a variety of factors, including, but not limited to, coffee, dairy and other raw materials prices and availability, successful execution of our initiatives, successful execution of internal plans, fluctuations in US and international economies and currencies, the impact of competitors' initiatives, the effect of legal proceedings, and other risks detailed in our filings with the SEC, including in Part I Item IA "Risk Factors" in the 10-K.
A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. You should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. We are under no obligation to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise.
This information should be read in conjunction with the condensed consolidated financial statements and the notes included in Item 1 of Part I of this 10-Q and the audited consolidated financial statements and notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations, contained in the 10-K. General
Our fiscal year ends on the Sunday closest to September 30. All references to store counts, including data for new store openings, are reported net of store closures, unless otherwise noted.
Overview
Starbucks second quarter results reflect improvements across all segments. Consolidated total net revenues increased $9 \%$ to $\$ 3.9$ billion, driven by global comparable store sales growth of $6 \%$. Consolidated operating income increased $\$ 100$ million, or $18 \%$, to $\$ 644$ million. Operating margin expanded across all reportable segments, contributing to a consolidated operating margin of $16.6 \%$, reflecting growth of 130 basis points over the prior year quarter. Earnings per share of $\$ 0.56$ increased $10 \%$ over the prior year quarter earnings per share of $\$ 0.51$, which included a $\$ 0.03$ per share gain on the sale of our equity interest in our Mexico joint venture operations.
The Americas segment continued its solid performance in the second quarter, growing revenues by $8 \%$ to $\$ 2.8$ billion, primarily driven by comparable store sales growth of $6 \%$, comprised of a $3 \%$ increase in average ticket and a $2 \%$ increase in number of transactions. Successful promotional beverages and expanded food offerings, including the rollout of our La Boulange ${ }^{\text {Trood platform in the US, contributed to the growth in comparable store sales. Operating }}$ margin expanded 50 basis points to $21.6 \%$, primarily due to lower commodity costs, mainly coffee. Looking forward, we expect to continue to drive revenue growth and margin expansion through new stores and expanded product offerings. We plan to continue elevating our food program, in part with the completion of the rollout of La Boulange ${ }^{\mathrm{TM}}$ bakery items in our US stores and enhancements to our lunch options.
In the EMEA segment, the combination of solid company-operated and licensed store growth drove increased revenues and profitability. Revenues grew $13 \%$ to $\$ 310$ million, driven by favorable foreign currency exchange and comparable store sales growth of $6 \%$, the highest growth in the region in fourteen quarters. Incremental revenues from 168 net new licensed store openings over the past year also contributed. Sales leverage, largely driven by our strategic
portfolio shift to higher margin licensed stores, and continued cost management drove the increase in operating margin of 380 basis points over the prior year quarter, to $5.7 \%$. We expect continued disciplined licensed store expansion and a focus on the customer experience in this region will result in improved operating performance as we progress on our plan towards mid-teens operating margin over time.

## Table of Contents

The China/Asia Pacific segment leveraged strong sales in the quarter to offset the unfavorable margin impact of the portfolio shift toward more company-operated stores in this segment. New store growth, along with a $7 \%$ increase in comparable store sales, drove a $24 \%$ increase in revenues to $\$ 265$ million. The $7 \%$ growth in comparable store sales was driven by an increase in number of transactions. Operating income grew $27 \%$ to $\$ 87$ million, while operating margin expanded 80 basis points to $32.8 \%$, primarily driven by sales leverage. We expect this segment will become a more meaningful contributor to overall company profitability in the future, as we look forward to continued new store openings and establishing China as our largest market outside of the US.
Channel Development segment revenues grew $10 \%$ for the quarter to $\$ 370$ million, primarily due to increased sales of premium single serve products, driven by sales of Starbucks- and Tazo-branded K-Cup ${ }^{\circledR}$ portion packs. Operating income grew $\$ 33$ million, or $35 \%$, to $\$ 127$ million. Operating margin increased 660 basis points to $34.4 \%$ for the second quarter of fiscal 2014, primarily driven by lower coffee costs and sales leverage. As we continue to expand customer occasions outside of our retail stores, including growing our presence in the premium single serve category, we expect this segment to become a more significant contributor to future growth.
Fiscal 2014 - Financial Outlook for the Year
For fiscal year 2014, we expect revenue growth will be driven by mid-single digit comparable store sales growth, new store openings, and continued growth in the Channel Development business. Approximately one-half of new store openings will be in China / Asia Pacific, with the remaining half coming primarily from the Americas.
We expect full-year consolidated operating margin improvement of 175 to 200 basis points over fiscal 2013 and strong EPS growth when excluding the Kraft litigation charge and gains from the sales of our equity in our Mexico, Chile and Argentina joint ventures in fiscal 2013.
Comparable Store Sales
Starbucks comparable store sales for the second quarter and the first two quarters of fiscal 2014:

|  | Quarter Ended Mar 30, 2014 |  | Two Quarters Ended Mar 30, 2014 |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  | Sales | Change in | Change in | Sales | Change in | Change in |
|  | Growth | Transactions | Ticket | Growth | Transactions | Ticket |
| Consolidated | $6 \%$ | $3 \%$ | $3 \%$ | $6 \%$ | $3 \%$ | $2 \%$ |
| Americas | $6 \%$ | $2 \%$ | $3 \%$ | $5 \%$ | $3 \%$ | $2 \%$ |
| EMEA | $6 \%$ | $5 \%$ | $1 \%$ | $5 \%$ | $4 \%$ | $1 \%$ |
| China/Asia Pacific | $7 \%$ | $7 \%$ | $-6 \%$ | $7 \%$ | $7 \%$ | $1 \%$ |

Our comparable store sales represent the growth in revenue from Starbucks ${ }^{\circledR}$ company-operated stores open 13 months or longer. Comparable store sales exclude the effect of fluctuations in foreign currency exchange rates.
Results of Operations (in millions)
Revenues

|  | Quarter Ended |  | Two Quarters Ended |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  | Mar 30, | Mar 31, | $\%$ |  | Mar 30, | Mar 31, | $\%$ |  |
|  | 2014 | 2013 | Change | 2014 | 2013 | Change |  |  |
| Company-operated stores | $\$ 3,068.0$ | $\$ 2,807.7$ | 9.3 | $\%$ | $\$ 6,411.8$ | $\$ 5,797.3$ | 10.6 | $\%$ |
| Licensed stores | 356.2 | 322.1 | 10.6 | 758.0 | 672.2 | 12.8 |  |  |
| CPG, foodservice and other | 449.6 | 419.8 | 7.1 | 943.6 | 873.2 | 8.1 |  |  |
| Total net revenues | $\$ 3,873.8$ | $\$ 3,549.6$ | 9.1 | $\%$ | $\$ 8,113.4$ | $\$ 7,342.7$ | 10.5 | $\%$ |

Total net revenues for the second quarter and the first two quarters of fiscal 2014 increased $\$ 324$ million and $\$ 771$ million, respectively, primarily due to increased revenues from company-operated stores (contributing $\$ 260$ million and $\$ 614$ million, respectively). An increase in comparable store sales was the primary driver of the increase in company-operated store revenues (approximately $6 \%$ for both periods, or $\$ 152$ million for the second quarter and $\$ 312$ million for the first two quarters). Also contributing to net revenue growth for both periods were incremental revenues from 551 net new Starbucks ${ }^{\circledR}$ company-operated store openings over the past 12 months (approximately $\$ 127$ million for the second quarter and $\$ 253$ million for the first two quarters).

## Table of Contents

Licensed store revenue growth also contributed to the increase in total net revenues for the second quarter and the first two quarters of fiscal 2014 (approximately $\$ 34$ million for the second quarter and $\$ 86$ million for the first two quarters). The increase for both periods was primarily due to increased product sales to and royalty revenues from our licensees, as a result of improved comparable store sales and the opening of 1,054 net new licensed stores over the past 12 months.
CPG, foodservice and other revenues increased $\$ 30$ million and $\$ 70$ million for the second quarter and the first two quarters of fiscal 2014, respectively. These increases were primarily due to increased sales of premium single serve products (approximately $\$ 23$ million and $\$ 48$ million, respectively).

as a \% of related revenues
Cost of sales including occupancy costs as a percentage of total net revenues decreased 100 basis points and 70 basis points for the second quarter and first two quarters of fiscal 2014, respectively, primarily driven by lower commodity costs (approximately 100 basis points for the second quarter and 90 basis points for the first two quarters), mainly coffee.
Store operating expenses as a percentage of total net revenues were flat for the second quarter and decreased 50 basis points for the first two quarters of fiscal 2014. Store operating expenses as a percentage of company-operated store revenues were flat for the second quarter and decreased 70 basis points for the first two quarters of fiscal 2014. The decrease for the first two quarters of fiscal 2014 was primarily driven by higher litigation charges in the first quarter of the prior year period (approximately 40 basis points) and a decrease in marketing (approximately 20 basis points), largely due to lapping the prior year launch of the Verismo ${ }^{\circledR}$ system by Starbucks in company-operated stores. Other operating expenses as a percentage of total net revenues decreased 10 basis points for the second quarter and 40 basis points for the first two quarters of fiscal 2014. Excluding the impact of company-operated store revenues, other operating expenses decreased 50 basis points for the second quarter and 170 basis points for the first two quarters of fiscal 2014, primarily due to decreased marketing (approximately 20 basis points for the second quarter and 60 basis points for the first two quarters). The decrease for the first two quarters of fiscal 2014 was primarily attributable to the timing of product launches in Channel Development. Sales leverage from licensed store revenue growth (approximately 20 basis points for the second quarter and 30 basis points for the first two quarters) also contributed to the decreases.

General and administrative expenses as a percentage of total net revenues decreased 30 basis points for both the second quarter and the first two quarters of fiscal 2014. The decrease for the second quarter was primarily due to increased sales leverage. The decrease for the first two quarters was primarily due to lapping our leadership conference held in the first quarter of the prior year period.
The $\$ 20.2$ million litigation credit (contributing approximately 20 basis points for the first two quarters of fiscal 2014) reflects a reduction to our estimated prejudgment interest payable associated with the Kraft arbitration in the first quarter of fiscal 2014, as a result of paying our obligation earlier than anticipated. The $\$ 2.8$ billion litigation charge was accrued in the fourth quarter of fiscal 2013 and fully extinguished in the first quarter of fiscal 2014.

21

## Table of Contents

The combination of these changes resulted in an overall increase in operating margin of 130 basis points for the second quarter and 200 basis points for the first two quarters of fiscal 2014.
Other Income and Expenses

interests
For the second quarter and first two quarters of fiscal 2014, net interest income and other decreased $\$ 33$ million and $\$ 10$ million, respectively. These decreases were primarily due to lapping the gain on the sale of our equity in the joint venture that operates Starbucks ${ }^{\circledR}$ stores in Mexico in the prior year quarter (approximately $\$ 35$ million). Also contributing to the decreases were unrealized losses on our trading securities portfolio (approximately $\$ 14$ million for the second quarter and $\$ 10$ million for the first two quarters), partially offset by favorable mark-to-market adjustments from derivatives used to manage our risk of commodity price fluctuations (approximately $\$ 8$ million for the second quarter and $\$ 17$ million for the first two quarters).
Interest expense increased $\$ 11$ million for the second quarter and $\$ 19$ million for the first two quarters of fiscal 2014, respectively, due to interest on the long-term debt we issued in the first quarter of fiscal 2014 and the fourth quarter of fiscal 2013.
The effective tax rate for the quarter ended March 30, 2014 was $33.8 \%$ compared to $33.6 \%$ for the same quarter in fiscal 2013. The slight increase in the rate was driven by the release of a capital loss valuation allowance in the prior year period. The effective tax rate for the two quarters ended March 30 , 2014 was $33.9 \%$ compared to $32.0 \%$ for the same period in fiscal 2013. The increase in the rate for the first two quarters of fiscal 2014 was primarily due to lapping the recognition of a net tax benefit in the first quarter of fiscal 2013 primarily from state income tax expense adjustments for returns filed in prior years.

## Revenues

Americas total net revenues for the second quarter and the first two quarters of fiscal 2014 increased $8 \%$ for both periods or $\$ 205$ million and $\$ 437$ million, respectively. These increases were primarily due to higher revenues from company-operated stores (contributing $\$ 185$ million and $\$ 386$ million, respectively) and licensed stores (contributing $\$ 21$ million and $\$ 56$ million, respectively).
The increase in company-operated store revenues for both periods was driven by an increase in comparable store sales (approximately $6 \%$, or $\$ 129$ million, for the second quarter and approximately $5 \%$, or $\$ 265$ million, for the first two quarters). Also contributing were incremental revenues from 311 net new Starbucks ${ }^{\circledR}$ company-operated store openings over the past 12 months (approximately $\$ 88$ million and $\$ 178$ million, respectively). Partially offsetting these increases was unfavorable foreign currency exchange (approximately $\$ 21$ million and $\$ 37$ million, respectively), primarily driven by the strengthening of the US dollar against the Canadian dollar.
The increases in licensed store revenues were primarily due to increased product sales to and higher royalty revenues from our licensees, as a result of improved comparable store sales and the opening of 456 net new licensed stores over the past 12 months.
Operating Expenses
Cost of sales including occupancy costs as a percentage of total net revenues decreased 70 basis points and 60 basis points for the second quarter and the first two quarters of fiscal 2014, respectively. These decreases were primarily driven by lower commodity costs (approximately 60 basis points for the second quarter and 50 basis points for the first two quarters). Sales leverage on occupancy costs also contributed.
Store operating expenses as a percentage of total net revenues and as a percentage of company-operated store revenues, increased 10 basis points for the second quarter and decreased 60 basis points for the first two quarters of fiscal 2014. The slight increase for the second quarter was primarily driven by timing of marketing ( 20 basis points). The decrease for the first two quarters of fiscal 2014 was primarily driven by higher litigation charges in the first quarter of the prior year period (approximately 40 basis points) and a decrease in marketing (approximately 20 basis points), largely due to lapping the prior year launch of the Verismo ${ }^{\circledR}$ system by Starbucks in company-operated stores.

General and administrative expenses as a percentage of total net revenues were flat for the second quarter and decreased 50 basis points for the first two quarters of fiscal 2014, primarily due to lapping our leadership conference held in the first quarter of the prior year period (approximately 40 basis points).

## Table of Contents

The combination of these changes resulted in an overall increase in operating margin of 50 basis points for the second quarter and 180 basis points for the first two quarters of fiscal 2014. EMEA

## Revenues

EMEA total net revenues increased $\$ 37$ million, or $13 \%$, for the second quarter of fiscal 2014 and increased $\$ 70$ million, or $12 \%$, for the first two quarters of fiscal 2014. These increases were primarily due to higher revenues from company-operated stores (contributing $\$ 27$ million and $\$ 43$ million, respectively). These increases were driven by an increase in comparable store sales (approximately $6 \%$, or $\$ 12$ million, for the second quarter and approximately $5 \%$, or $\$ 24$ million, for the first two quarters) and favorable foreign currency exchange (approximately $\$ 12$ million and $\$ 19$ million, respectively), primarily driven by the weakening of the US dollar against the British pound.
Licensed store revenues grew (approximately $\$ 8$ million, or $18 \%$, for the second quarter and $\$ 25$ million, or $28 \%$, for the first two quarters), due to increased equipment and product sales to and higher royalty revenues from our licensees, primarily from the opening of 168 net new licensed stores over the past 12 months and improved comparable store sales.
Operating Expenses
Cost of sales including occupancy costs as a percentage of total net revenues decreased 40 basis points for the second quarter and 30 basis points for the first two quarters of fiscal 2014, primarily driven by sales leverage and continued cost management (approximately 110 basis points for the second quarter and 100 basis points for the first two quarters). Also contributing to the decreases were lapping higher inventory reserves in the prior year (approximately 80 basis points for the second quarter and 40 basis points for the first two quarters) and lower coffee costs (approximately 60 basis points for both periods), partially offset by lapping a reduction to the estimated asset retirement obligations of our store leases in the region in the second quarter of fiscal 2013 (approximately 190 basis points for the second quarter and 80 basis points for the first two quarters).
Store operating expenses as a percentage of total net revenues decreased 70 basis points and 80 basis points for the second quarter and the first two quarters of fiscal 2014, respectively. These decreases were driven by sales leverage. As a percentage of company-operated store revenues, store operating expenses decreased 40 basis points for the second quarter and 10 basis point for the first two quarters of fiscal 2014.
Other operating expenses as a percentage of total net revenues decreased 10 basis points for the second quarter and increased 30 basis points for the first two quarters of fiscal 2014. Excluding the impact of company-operated store
revenues, other operating expenses decreased 140 basis points for the second quarter and 50 basis points for the first two quarters, primarily driven by sales leverage and continued cost management (approximately 100 basis points for both periods).
General and administrative expenses as a percentage of total net revenues decreased 200 basis points and 170 basis points for the second quarter and the first two quarters of fiscal 2014, respectively. These decreases were primarily due to sales leverage

24

## Table of Contents

and reduced support costs, largely driven by the shift to more licensed stores (approximately 180 basis points for the second quarter and 170 basis points for the first two quarters of fiscal 2014).
The combination of these changes resulted in an overall increase in operating margin of 380 basis points for the second quarter and 320 basis points for the first two quarters of fiscal 2014.
China / Asia Pacific

## Revenues

China/Asia Pacific total net revenues for the second quarter and the first two quarters of fiscal 2014 increased $\$ 52$ million, or $24 \%$, and $\$ 105$ million, or $24 \%$, respectively, primarily due to increased revenues from company-operated stores (contributing $\$ 46$ million for the second quarter and $\$ 97$ million for the first two quarters). The increases in company-operated store revenues were primarily driven by the opening of 241 net new company-operated stores over the past 12 months (approximately $\$ 37$ million for the second quarter and $\$ 75$ million for the first two quarters) and an increase in comparable store sales (approximately $7 \%$ for both periods, or $\$ 11$ million for the second quarter and $\$ 23$ million for the first two quarters).
Operating Expenses
Cost of sales including occupancy costs as a percentage of total net revenues decreased 110 basis points for the second quarter of fiscal 2014 and 50 basis points for the first two quarters of fiscal 2014, primarily due to sales leverage. Store operating expenses as a percentage of total net revenues increased 90 basis points for both the second quarter and the first two quarters of fiscal 2014. As a percentage of company-operated store revenues, store operating expenses increased 10 basis points for the second quarter, primarily driven by increased costs associated with company-operated store growth (approximately 50 basis points), partially offset by an insurance claim credit in the current quarter (approximately 40 basis points). As a percentage of company-operated store revenues, store operating expenses decreased 30 basis points for the first two quarters of fiscal 2014, primarily driven by the insurance claim credit in the second quarter of fiscal 2014 (approximately 20 basis points).
Other operating expenses as a percentage of total net revenues decreased 120 basis points for the second quarter of fiscal 2014 and 100 basis points for the first two quarters of fiscal 2014. Excluding the impact of company-operated store revenues, other operating expenses decreased 240 basis points for the second quarter and 110 basis points for the first two quarters. These decreases were primarily due to sales leverage.

Income from equity investees increased $\$ 7$ million for the second quarter of fiscal 2014 and $\$ 6$ million for the first two quarters of fiscal 2014, driven by higher income from our joint venture operations, mainly in South Korea and China, partially offset by unfavorable foreign currency fluctuations due to the weakening of the Yen against the US dollar. These fluctuations, paired with the accelerated growth in segment revenues resulting from the shift in the composition of the store portfolio to more company-operated stores, resulted in income from equity investees declining as a percentage of total net revenues.

25

## Table of Contents

The changes in the above items resulted in an overall increase in operating margin of 80 basis points for the second quarter of fiscal 2014 and a decrease of 120 basis points for the first two quarters of 2014. Channel Development

Revenues
Total Channel Development net revenues for the second quarter and the first two quarters of fiscal 2014 increased \$32 million, or $10 \%$, and $\$ 59$ million, or $8 \%$, respectively, primarily driven by increased sales of premium single serve products (approximately $\$ 23$ million for the second quarter and $\$ 48$ million for the first two quarters). Also contributing was an increase in foodservice revenues (approximately $\$ 5$ million for the second quarter and $\$ 13$ million for the first two quarters) driven by increased sales volumes compared to the prior year period. The increased sales for the first two quarters of fiscal 2014 were partially offset by the impact of the packaged coffee list price reductions (approximately $\$ 14$ million) effective beginning in the third quarter of fiscal 2013.
Operating Expenses
Cost of sales as a percentage of total net revenues decreased 520 basis points for the second quarter and 330 basis points for the first two quarters of fiscal 2014. The decrease was primarily driven by lower coffee costs (approximately 510 basis points for the second quarter and 420 basis points for the first two quarters). The decrease for the first two quarters was partially offset by the impact of the list price reductions on total net revenues (approximately 100 basis points).
Other operating expenses as a percentage of total net revenues decreased 40 basis points for the second quarter and 190 basis points for the first two quarters of fiscal 2014. The decrease for the second quarter was primarily due to sales leverage. The decrease for the first two quarters was primarily due to decreased marketing (approximately 100 basis points), largely due to the timing of product launches.
Income from equity investees increased $\$ 2$ million for the second quarter of fiscal 2014 and decreased $\$ 1$ million for the first two quarters of fiscal 2014. The increase for the second quarter was a result of higher income from our North American Coffee Partnership joint venture, primarily due to strong sales of bottled Frappuccino ${ }^{\circledR}$ and iced coffee drinks. The decrease for the first two quarters was a result of lower income from our North American Coffee Partnership joint venture, driven by increased investment in support of new product innovation platforms in the first quarter of fiscal 2014. The growth in segment revenues also contributed to our joint venture income declining as a percentage of total net revenues for the first two quarters of fiscal 2014.
The combination of these changes resulted in an overall increase in operating margin of 660 basis points for the second quarter and 510 basis points for the first two quarters of fiscal 2014.

All Other Segments includes Teavana, Seattle's Best Coffee, Evolution Fresh, and Digital Ventures.
Total net revenues for All Other Segments decreased $\$ 1$ million for the second quarter of fiscal 2014 and increased $\$ 100$ million for the first two quarters of fiscal 2014. The decrease for the second quarter resulted from lower Seattle's Best Coffee revenues (approximately $\$ 10$ million) mostly offset by growth in emerging businesses (approximately $\$ 6$ million), including Teavana and Evolution Fresh. The increase for the first two quarters was primarily driven by having an additional quarter of Teavana revenues in fiscal 2014 as Teavana was acquired at the beginning of the second quarter of fiscal 2013 (approximately $\$ 92$ million).
Total operating expenses increased $\$ 3$ million for the second quarter and $\$ 86$ million for the first two quarters of fiscal 2014. The increase for the second quarter was driven by investments to support our emerging businesses. The increase for the first two quarters was primarily due to having an additional quarter of Teavana expenses in fiscal 2014 as Teavana was acquired at the beginning of the second quarter of fiscal 2013.

Financial Condition, Liquidity and Capital Resources
Investment Overview
Starbucks cash and short-term investments totaled $\$ 1.5$ billion and $\$ 3.2$ billion as of March 30, 2014 and September 29, 2013, respectively. As discussed below, in the first quarter of fiscal 2014 we paid $\$ 2.8$ billion for the Kraft arbitration matter that was accrued in the fourth quarter of fiscal 2013. We actively manage our cash and short-term investments in order to internally fund operating needs, make scheduled interest and principal payments on our borrowings, and return cash to shareholders through common stock cash dividend payments and share repurchases. Our short-term and long-term investments consist of highly liquid available-for-sale securities, including agency obligations, corporate bonds, government treasury securities (foreign and domestic), state and local government obligations, mortgage and asset-backed securities, commercial paper, mutual funds, and certificates of deposit. As of March 30, 2014, approximately $\$ 1.1$ billion of cash and investments was held in foreign subsidiaries. Borrowing Capacity
In December 2013, we issued $\$ 400$ million of 3-year 0.875\% Senior Notes ("the 2014 3-year notes") due December 2016, and $\$ 350$ million of 5 -year $2.000 \%$ Senior Notes ("the 20145 -year notes") due December 2018, in an underwritten registered public offering, to fund a portion of the payment required by the arbitration award in the Kraft litigation matter. The remaining net proceeds will be used for general corporate purposes, which may include business expansion, payment of cash dividends on our common stock, the repurchase of common stock under our ongoing share repurchase program, or financing of possible acquisitions. Interest on the notes is payable semi-annually on June 5 and December 5 of each year, commencing on June 5, 2014. See Note 6, Debt, to the condensed consolidated financial statements included in Item 1 of Part I of this 10-Q for details of the components of our long-term debt. The indentures under which all of our Senior Notes were issued require us to maintain compliance with certain covenants, including limits on future liens and sale and leaseback transactions on certain material properties. As of March 30, 2014, we were in compliance with each of these covenants.

Our $\$ 750$ million unsecured, revolving credit facility with various banks, of which $\$ 150$ million may be used for issuances of letters of credit, is available for working capital, capital expenditures and other corporate purposes, including acquisitions and share repurchases, and is currently set to mature on February 5, 2018. Starbucks has the option, subject to negotiation and agreement with the related banks, to increase the maximum commitment amount by an additional $\$ 750$ million. Borrowings under the credit facility will bear interest at a variable rate based on LIBOR, and, for US dollar-denominated loans under certain circumstances, a Base Rate (as defined in the credit facility), in each case plus an applicable margin. The applicable margin is based on the better of (i) the Company's long-term credit ratings assigned by Moody's and Standard \& Poor's rating agencies, and (ii) the Company's fixed charge coverage ratio, pursuant to a pricing grid set forth in the credit facility. The current applicable margin is $0.795 \%$ for Eurocurrency Rate Loans and $0.00 \%$ for Base Rate Loans. The credit facility contains provisions requiring us to maintain compliance with certain covenants, including a minimum fixed charge coverage ratio, which measures our ability to cover financing expenses. As of March 30,2014 , we were in compliance with each of these covenants. No amounts were outstanding under our credit facility as of March 30, 2014.
Under our commercial paper program, as approved by our Board of Directors, we may issue unsecured commercial paper notes up to a maximum aggregate amount outstanding at any time of $\$ 1$ billion, with individual maturities that may vary but not exceed 397 days from the date of issue. Amounts outstanding under the commercial paper program are to be backstopped by available commitments under our credit facility. Currently, we may issue up to $\$ 727$ million under our commercial paper program (the $\$ 750$ million committed credit facility amount, less $\$ 23$ million in outstanding letters of credit). The proceeds from borrowings under our commercial paper program may be used for working capital needs, capital expenditures and other corporate purposes, including acquisitions and share repurchases. In the first quarter of fiscal 2014, we issued and subsequently repaid commercial paper borrowings of $\$ 225$ million to fund a portion of the $\$ 2.8$ billion payment for the Kraft arbitration matter. We had no borrowings under our commercial paper program during the second quarter of fiscal 2014.

## Table of Contents

Use of Cash
In the first quarter of fiscal 2014, Starbucks paid all amounts due to Kraft under the arbitration, including prejudgment interest and attorneys' fees, and fully extinguished the litigation charge liability. Of the $\$ 2,784.1$ million litigation charge accrued in the fourth quarter of fiscal 2013, $\$ 2,763.9$ million was paid and the remainder was released as a litigation credit to reflect a reduction to our estimated prejudgment interest payable as a result of paying our obligation earlier than anticipated.
We expect to use additional available cash and short-term investments, including additional potential future borrowings under the credit facility and commercial paper program, to invest in our core businesses, including new product innovations and related marketing support, as well as other new business opportunities related to our core businesses. We believe that future cash flows generated from operations and existing cash and short-term investments both domestically and internationally will be sufficient to finance capital requirements for our core businesses in those respective markets as well as shareholder distributions for the foreseeable future.
We consider the majority of undistributed earnings of our foreign subsidiaries and equity investees as of March 30, 2014 to be indefinitely reinvested and, accordingly, no US income and foreign withholding taxes have been provided on such earnings. We have not, nor do we anticipate the need to, repatriate funds to the US to satisfy domestic liquidity needs; however, in the event that we need to repatriate all or a portion of our foreign cash to the US we would be subject to additional US income taxes, which could be material. We do not believe it is practical to calculate the potential tax impact of repatriation, as there is a significant amount of uncertainty around the calculation, including the availability and amount of foreign tax credits at the time of repatriation, tax rates in effect, and other indirect tax consequences associated with repatriation.
We may use our available cash resources to make proportionate capital contributions to our equity method and cost method investees. We may also seek strategic acquisitions to leverage existing capabilities and further build our business in support of our growth agenda. Acquisitions may include increasing our ownership interests in our equity method and cost method investees. Any decisions to increase such ownership interests will be driven by valuation and fit with our ownership strategy. Significant new joint ventures, acquisitions and/or other new business opportunities may require additional outside funding.
Other than normal operating expenses, cash requirements for the remainder of fiscal 2014 are expected to consist primarily of capital expenditures for remodeling and refurbishment of, and equipment upgrades for, existing company-operated stores; new company-operated stores; systems and technology investments in the stores and in the support infrastructure; and additional investments in manufacturing capacity. Total capital expenditures for fiscal 2014 are expected to be approximately $\$ 1.2$ billion.
During the second quarter of fiscal 2014, our Board of Directors declared a quarterly cash dividend to shareholders of $\$ 0.26$ per share to be paid on May 23, 2014 to shareholders of record as of the close of business on May 8, 2014. We repurchased 4.1 million shares of common stock ( $\$ 301.2$ million) during the first two quarters of fiscal 2014 under share repurchase authorizations. The number of remaining shares authorized for repurchase as of March 30, 2014 totaled 22.3 million.

## Cash Flows

Cash used by operating activities was $\$ 983.5$ million for the first two quarters of fiscal 2014, compared to cash provided by operating activities of $\$ 1.4$ billion for the same period in fiscal 2013. The decrease was driven by the first quarter payment of $\$ 2.8$ billion for the Kraft arbitration matter discussed above. This was partially offset by cash provided by operating activities of $\$ 1.8$ billion resulting from increased earnings and improvements in working capital accounts.
Cash used by investing activities for the first two quarters of fiscal 2014 totaled $\$ 549.0$ million, compared to $\$ 613.0$ million for the same period in fiscal 2013. The change was primarily due to the use of cash to acquire Teavana in the second quarter of fiscal 2013, partially offset by increased investment in long-term securities during the first two quarters of fiscal 2014.
Cash provided by financing activities for the first two quarters of fiscal 2014 totaled $\$ 157.4$ million, compared to cash used by financing activities of $\$ 718.5$ million for the same period in fiscal 2013. The increase was primarily due to the proceeds from the issuance of long-term debt in the first quarter of fiscal 2014 and decreased share repurchases
compared to the first two quarters of fiscal 2013.
Contractual Obligations
In Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 10-K, we disclosed that we had $\$ 10.0$ billion in total contractual obligations as of September 29, 2013. Other than the items discussed below, there have been no material changes to this total obligation during the period covered by this 10-Q outside of the ordinary course of our business.
In the first quarter of fiscal 2014, we issued $\$ 750$ million of debt, as described in Note 6 to the condensed consolidated financial statements included in Item 1 of Part I of this $10-\mathrm{Q}$. In addition, the $\$ 2.8$ billion that was accrued for the Kraft arbitration matter as of September 29, 2013 was removed from total contractual obligations, as this obligation was fully extinguished in the first quarter of fiscal 2014.

29

## Table of Contents

Off-Balance Sheet Arrangements
There has been no material change in our off-balance sheet arrangements discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 10-K.
Commodity Prices, Availability and General Risk Conditions
Commodity price risk represents our primary market risk, generated by our purchases of green coffee and dairy products, among other items. We purchase, roast and sell high quality whole bean arabica coffee and related products and risk arises from the price volatility of green coffee. In addition to coffee, we also purchase significant amounts of dairy products to support the needs of our company-operated stores. The price and availability of these commodities directly impact our results of operations and we expect commodity prices, particularly coffee, to impact future results of operations. For additional details see Product Supply in Item 1 of the $10-\mathrm{K}$, as well as Risk Factors in Item 1A of the $10-\mathrm{K}$.
Seasonality and Quarterly Results
Our business is subject to seasonal fluctuations, including fluctuations resulting from the holiday season in December. Notwithstanding our $\$ 2.8$ billion cash payment in the first quarter of 2014 related to the Kraft arbitration matter, our cash flows from operations are considerably higher in the first fiscal quarter than the remainder of the year. This is largely driven by cash received as Starbucks Cards are purchased and loaded during the holiday season. Since revenues from the Starbucks Card are recognized upon redemption and not when purchased, seasonal fluctuations on the consolidated statements of earnings are much less pronounced. Quarterly results are affected by the timing of the opening of new stores and the closing of existing stores. For these reasons, results for any quarter are not necessarily indicative of the results that may be achieved for the full fiscal year.
RECENT ACCOUNTING PRONOUNCEMENTS
See Note 1 to the condensed consolidated financial statements included in Item 1 of Part I of this 10-Q.
Item 3. Quantitative and Qualitative Disclosures About Market Risk
There has been no material change in the commodity price risk, foreign currency exchange risk, equity security price risk, or interest rate risk discussed in Item 7A of the 10-K.
Item 4. Controls and Procedures
We maintain disclosure controls and procedures that are designed to ensure that material information required to be disclosed in our periodic reports filed or submitted under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our disclosure controls and procedures are also designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer as appropriate, to allow timely decisions regarding required disclosure.
During the second quarter of fiscal 2014, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this report (March 30, 2014).
There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that materially affected or are reasonably likely to materially affect internal control over financial reporting.
The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as exhibits 31.1 and 31.2 to this $10-\mathrm{Q}$.
PART II - OTHER INFORMATION
Item 1. Legal Proceedings
See Note 10 to the condensed consolidated financial statements included in Item 1 of Part I of this $10-\mathrm{Q}$ for information regarding certain legal proceedings in which we are involved.
Item 1A. Risk Factors

## Table of Contents

There have been no material changes to the risk factors previously disclosed in the $10-\mathrm{K}$.
Item 2.Unregistered Sales of Equity Securities and Use of Proceeds
Information regarding repurchases of our common stock during the quarter ended March 30, 2014:
