PART III - NARRATIVE

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, or the transition report or portion thereof, could not be filed within the prescribed time period.

(Attach Extra Sheets if Needed)

The Registrant is currently negotiating with its lender to replace its current revolving credit facility that terminates on June 27, 2002 with a new credit facility. The Registrant seeks an extension of time to file its Annual Report on Form 10-K in order to include the outcome of these negotiations in the report. The outcome of these negotiations will affect the content of the Registrant's disclosures regarding its liquidity and capital resources and other disclosures required in the Annual Report on Form 10-K. As a result, the Registrant would not be able to timely file its Annual Report on Form 10-K without unreasonable effort or expense.

PART IV - OTHER INFORMATION

- (1) Name and telephone number of person to contact in regard to this notification.

Richard S. Langdon	(713)	243-3100

2. One signed original and four conformed copies of this form and amendments thereto must be completed and filed with the Securities and Exchange Commission, Washington, D.C. 20549, in accordance with Rule 0-3 of the General Rules and Regulations under the Act. The information contained in or filed with the form will be made a matter of public record in the Commission files.
3. A manually signed copy of the form and amendments thereto shall be filed with each national securities exchange on which any class of securities of the registrant is registered.
4. Amendments to the notifications must also be filed on form 12b-25 but need not restate information that has been correctly furnished. The form shall be clearly identified as an amended notification.
5. Electronic Filers. This form shall not be used by electronic filers unable to timely file a report solely due to electronic difficulties. Filers unable to submit a report within the time period prescribed due to difficulties in electronic filing should comply with either Rule 201 or Rule 202 of Regulation S-T ((S)232.201 or (S)232.202 of this chapter) or apply for an adjustment in filing date pursuant to Rule 13(b) of Regulation S-T ((S)232.13(b) of this chapter).

SEC 1344 (2-99)

ANNEX I

As previously reported in its Form 8-K filed with the Securities and Exchange Commission on March 7, 2002, the Registrant reported preliminary

Edgar Filing: EEX CORP - Form NT 10-K

results of a \$168 million loss for the fourth quarter ending December 31, 2001, or (\$4.02) per share, compared to net income of \$6 million, or \$0.16 per share, for the same period a year ago. For the year ended December 31, 2001, the Registrant reported preliminary results of a net loss of \$160 million, or (\$3.85) per share, compared to a net loss of \$10 million, or (\$0.25) per share in 2000. The results are subject to completion of the annual audit.

Year-end onshore U.S. reserves, including minority interest, reviewed by the Registrant's independent reserve auditors, were approximately 417 billion cubic feet of natural gas equivalent ("Bcfe"), an increase of 12% over year-end 2000. Reserve additions of 111 Bcfe and downward revisions of 13 Bcfe due to lower product prices, compared to 2001 production of 46 Bcfe, represents a replacement rate of 213%. The Registrant invested a total of approximately \$109 million onshore U.S. during the year resulting in a finding and development cost of \$1.11/Mcfe.

Results without unusual items were a loss of \$8 million for the fourth quarter and \$5 million for 2001. The following table summarizes the significant items that have influenced the preliminary quarterly and annual results of operations (pre-tax amounts, except as indicated):

	Three End December -----
Results without unusual items.....	\$ (8)
Impairments required under FAS 121:	
FPS and Pipelines.....	(82)
Onshore properties.....	(29)
Indonesian assets.....	(16)
Loss on sale - exercise of option.....	(18)
Change in net realizable value of deferred tax asset.....	(11)
Bad debt expense related to Enron.....	(3)
Contract forfeiture of offshore lease.....	(4)
Extraordinary post-tax gain - Repurchase of notes.....	4
Post-tax gain on sale of Llano field.....	--
Stacking and assignment of Arctic I rig.....	--
All other unusual items.....	(1)

Net loss applicable to common shareholders.....	\$ (168)
	=====

In the fourth quarter, the Registrant's Cooper Floating Production System ("FPS") and pipelines were written down to a fair market valuation based on competitive factors for processing and transportation facilities in the Llano area and the values management believes could be received in an orderly sale of the assets. Certain onshore U.S. oil and gas properties were impaired a total of \$29 million of which \$23 million was attributable to the production payment resulting from the Encogen obligation. The Registrant's Indonesian assets were impaired to reflect the bid of a potential purchaser with whom the Registrant is currently negotiating. The fourth quarter results also include a loss on sale of \$18 million from the January exercise of a previously-described option to repurchase a portion of the production payment resulting from the Encogen

Edgar Filing: EEX CORP - Form NT 10-K

obligation and a reduction in the net realizable value of the deferred tax asset in accordance with FAS 109. The Registrant realized an extraordinary post-tax gain from the repurchase of a portion of the notes related to the FPS and pipelines.

Revenues for the fourth quarter were \$47 million, or approximately 36% lower than the \$73 million reported for the fourth quarter a year ago. Lower revenues were primarily the result of lower average oil and natural gas prices and lower volumes of natural gas related to the offshore shelf properties sold in December 2000. Total expenses for the quarter, excluding loss from asset sales and impairments, were \$54 million in 2001, unchanged from 2000. A \$3 million bad debt expense was offset by lower depreciation expenses related primarily to lower overall production volumes.

Revenues for the year 2001 were \$207 million, or approximately 21% lower than the \$262 million reported for 2000. Lower revenues this year were primarily the result of lower natural gas and oil production due to the sale of the offshore shelf properties and lower average oil prices. Total expenses for 2001, excluding the gain from asset sales and impairments, were \$193 million, compared to \$204 million for the twelve months of 2000. Lower depreciation expenses related primarily to lower overall production volumes were partially offset by increased exploration expense due to costs associated with the stacking of the Arctic I rig and recognition of the net cost associated with the assignment of the Arctic I rig contract and increased taxes other than income. Excluding the bad debt expense recorded in the fourth quarter, general, administrative and other expenses were down approximately 18% for the year.

At year-end, the Registrant's debt to capital ratio under its revolving credit agreement is greater than the agreement's limit of 60% because of the decrease in equity resulting from the above-described losses and increase in outstanding borrowings. The lenders have agreed to amend the loan agreement to increase the ratio to 72% and waive the covenant breach; the amendment and waiver will expire April 30, 2002. The current revolving credit agreement terminates June 27, 2002. If the Registrant is not able to effect a new credit agreement or obtain additional waivers, it will be in default under the current revolving credit agreement. The Registrant is negotiating with its lenders for a new credit agreement with a maturity of June 2003. At present, most of the lenders have approved the general terms of the new agreement that will require the Registrant to provide a security interest in all of its U.S. proved reserves and other assets.

3

The Registrant's planned capital expenditures in 2002 are approximately \$50 million. Actual capital expenditures will depend on cash flow, which, in turn, depends principally on realized natural gas prices during the year.
