

SUN COMMUNITIES INC
Form 10-K
March 02, 2015

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2014
Commission file number 1-12616

SUN COMMUNITIES, INC.
(Exact Name of Registrant as Specified in its Charter)

Maryland (State of Incorporation) 27777 Franklin Rd. Suite 200 Southfield, Michigan (Address of Principal Executive Offices) (248) 208-2500 (Registrant's telephone number, including area code)	38-2730780 (I.R.S. Employer Identification No.)
Common Stock, Par Value \$0.01 per Share Securities Registered Pursuant to Section 12(b) of the Act	New York Stock Exchange Name of each exchange on which registered
7.125% Series A Cumulative Redeemable Preferred Stock, Par Value \$0.01 per Share Securities Registered Pursuant to Section 12(b) of the Act	New York Stock Exchange Name of each exchange on which registered
Securities Registered Pursuant to Section 12(g) of the Act: None	

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Exchange Act. Yes No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required

Edgar Filing: SUN COMMUNITIES INC - Form 10-K

to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of June 30, 2014, the aggregate market value of the Registrant's stock held by non-affiliates was approximately \$1,948,452,037.28 (computed by reference to the closing sales price of the Registrant's common stock as of June 30, 2014). For this computation, the Registrant has excluded the market value of all shares of common stock reported as beneficially owned by executive officers and directors of the Registrant; such exclusion shall not be deemed to constitute an admission that any such person is an affiliate of the Registrant.

Number of shares of common stock, \$0.01 par value per share, outstanding as of February 18, 2015: 53,465,428

Documents Incorporated By Reference

Unless provided in an amendment to this Annual Report on Form 10-K, the information required by Part III is incorporated by reference to the registrant's proxy statement to be filed pursuant to Regulation 14A, with respect to the registrant's 2015 annual meeting of stockholders.

SUN COMMUNITIES, INC.

PART I

ITEM 1. BUSINESS

GENERAL

Sun Communities, Inc., a Maryland corporation, together with the Sun Communities Operating Limited Partnership, a Michigan limited partnership (the "Operating Partnership") and other consolidated subsidiaries are referred to herein as the "Company", "us", "we", and "our". We are a self-administered and self-managed real estate investment trust ("REIT").

We are a fully integrated real estate company which, together with our affiliates and predecessors, has been in the business of acquiring, operating, developing and expanding manufactured housing ("MH") and recreational vehicle ("RV") communities since 1975. We lease individual parcels of land ("sites") with utility access for placement of manufactured homes and RVs to our customers. We are also engaged through a taxable subsidiary, Sun Home Services, Inc., a Michigan corporation ("SHS"), in the marketing, selling, and leasing of new and pre-owned homes to current and future residents in our communities. The operations of SHS support and enhance our occupancy levels, property performance, and cash flows.

We own, operate, and develop MH and RV communities throughout the United States. As of December 31, 2014, we owned and operated a portfolio of 217 properties located in 29 states (collectively, the "Properties"), including 183 MH communities, 25 RV communities, and nine Properties containing both MH and RV sites. As of December 31, 2014, the Properties contained an aggregate of 79,554 developed sites comprised of 61,231 developed manufactured home sites, 9,297 annual RV sites (inclusive of both annual and seasonal usage rights), 9,026 transient RV sites, and approximately 7,000 additional manufactured home sites suitable for development.

Our executive and principal property management office is located at 27777 Franklin Road, Suite 200, Southfield, Michigan 48034 and our telephone number is (248) 208-2500. We have regional property management offices located in Austin, Texas; San Antonio, Texas; Dayton, Ohio; Grand Rapids, Michigan; Elkhart, Indiana; Indianapolis, Indiana; Traverse City, Michigan; Charlotte, North Carolina; Denver, Colorado; Ft. Myers, Florida and Orlando, Florida; and we employed an aggregate of 1,525 full and part time employees as of December 31, 2014.

Our website address is www.suncommunities.com and we make available, free of charge, on or through our website all of our periodic reports, including our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, as soon as reasonably practicable after we file such reports with the Securities and Exchange Commission (the "SEC").

STRUCTURE OF THE COMPANY

The Operating Partnership is structured as an umbrella partnership REIT, or UPREIT. In 1993, we contributed our net assets to the Operating Partnership in exchange for the sole general partner interest in the Operating Partnership and the majority of all the Operating Partnership's initial capital. We substantially conduct our operations through the Operating Partnership. The Operating Partnership owns, either directly or indirectly through subsidiaries, all of our assets. This UPREIT structure enables us to comply with certain complex requirements under the federal tax rules and regulations applicable to REITs, and to acquire MH and RV communities in transactions that defer some or all of the sellers' tax consequences. The financial results of the Operating Partnership and our other subsidiaries are consolidated in our consolidated financial statements. The financial results include certain activities that do not necessarily qualify as REIT activities under the Internal Revenue Code of 1986, as amended (the "Code"). We have formed taxable REIT subsidiaries, as defined in the Code, to engage in such activities. We use taxable REIT subsidiaries to offer certain services to our residents and engage in activities that would not otherwise be permitted under the REIT rules if

provided directly by us or by the Operating Partnership. The taxable REIT subsidiaries include our home sales business, SHS, which provides manufactured home sales, leasing and other services to current and prospective tenants of the Properties.

SUN COMMUNITIES, INC.

We do not own all of the Operating Partnership units ("OP units"). As of December 31, 2014, the Operating Partnership had issued and outstanding:

51,134,405 common OP units,
1,283,819 preferred OP units ("Aspen preferred OP units"),
429,097 Series A-1 preferred OP units,
40,268 Series A-3 preferred OP units,
1,152,766 Series A-4 preferred OP units,
3,400,000 7.125% Series A Cumulative Redeemable Preferred OP Units ("7.125% Series A OP units"), and
112,400 Series B-3 preferred OP units.

As of December 31, 2014, we held:

48,573,063 common OP units, or approximately 95% of the issued and outstanding common OP units,
483,317 Series A-4 preferred OP units, or approximately 42% of the issued and outstanding Series A-4 preferred OP units,
all of the 7.125% Series A OP units, and
no Aspen preferred OP units, Series A-1 preferred OP units, Series A-3 preferred OP units or Series B-3 preferred OP units.

In January 2015, the Operating Partnership issued an additional 6,047,234 Series A-4 preferred OP units, of which 5,847,234 are held by us.

Ranking and Priority

The various classes and series of OP units issued by the Operating Partnership rank as follows with respect to rights to the payment of distributions and the distribution of assets in the event of any voluntary or involuntary liquidation, dissolution or winding up of the Operating Partnership:

first, the 7.125% Series A OP units;
next, the Series A-4 preferred OP units, Aspen preferred OP units and Series A-1 preferred OP units, on parity with each other;
next, the Series B-3 preferred OP units;
next, the Series A-3 preferred OP units; and
finally, the common OP units.

Common OP Units

Subject to certain limitations, the holder of each common OP unit at its option may convert such common OP unit at any time into one share of our common stock. Holders of common OP units are entitled to receive distributions from the Operating Partnership as and when declared by the general partner, provided that all accrued distributions payable on OP units ranking senior to the common OP units have been paid. The holders of common OP units generally receive distributions on the same dates and in amounts equal to the distributions paid to holders of our common stock.

Aspen Preferred OP Units

Subject to certain limitations, at any time prior to January 1, 2024, the holder of each Aspen preferred OP unit at its option may convert such Aspen preferred OP unit into: (a) if the market price of our common stock is \$68.00 per share or less, 0.397 common OP units, or (b) if the market price of our common stock is greater than \$68.00 per share,

that number of common OP units determined by dividing (i) the sum of (A) \$27.00 plus (B) 25% of the amount by which the market price of our common stock exceeds \$68.00 per share, by (ii) the per-share market price of our common stock. The holders of Aspen preferred OP units are entitled to receive distributions not less than quarterly. Distributions on Aspen preferred OP units are generally paid on the same dates as distributions are paid to holders of common OP units. Each Aspen preferred OP unit is entitled to receive distributions in an amount equal to the product of (x) \$27.00, multiplied by (y) an annual rate equal to the 10-year United States Treasury bond yield plus 239 basis points; provided, however, that the aggregate distribution rate shall not be less than 6.5% nor more than 9%. On January 2, 2024, we are required to redeem all Aspen preferred OP units that have not been converted to common OP units. In addition, we are required to redeem the Aspen preferred OP units of any holder thereof within five days after receipt of a written demand during the existence of certain uncured Aspen preferred OP unit defaults, including our failure to pay distributions on the

SUN COMMUNITIES, INC.

Aspen preferred OP units when due and our failure to provide certain security for the payment of distributions on the Aspen preferred OP units. We may also redeem Aspen preferred OP units from time to time if we and the holder thereof agree to do so.

Series A-1 Preferred OP Units

Subject to certain limitations, the holder of each Series A-1 preferred OP unit at its option may exchange such Series A-1 preferred OP unit at any time into 2.439 shares of our common stock (which exchange rate is subject to adjustment upon stock splits, recapitalizations and similar events). The holders of Series A-1 preferred OP units are entitled to receive distributions not less than quarterly. Distributions on Series A-1 preferred OP units are generally paid on the same dates as distributions are paid to holders of common OP units. Each Series A-1 preferred OP unit is entitled to receive distributions in an amount equal to the product of \$100.00 multiplied by an annual rate equal to 6.0%. Series A-1 preferred OP units do not have any voting or consent rights requiring the consent or approval of the Operating Partnership's limited partners.

Series A-3 Preferred OP Units

Subject to certain limitations, the holder of each Series A-3 preferred OP unit at its option may exchange such Series A-3 preferred OP unit at any time into 1.8605 shares of our common stock (which exchange rate is subject to adjustment upon stock splits, recapitalizations and similar events). The holders of Series A-3 preferred OP units are entitled to receive distributions not less than quarterly. Each Series A-3 preferred OP unit is entitled to receive distributions in an amount equal to the product of \$100.00 multiplied by an annual rate equal to 4.5%. Series A-3 preferred OP units do not have any voting or consent rights requiring the consent or approval of the Operating Partnership's limited partners.

Series A-4 Preferred OP Units

In connection with the issuance of our 6.50% Series A-4 Cumulative Convertible Preferred Stock (the "Series A-4 Preferred Stock") in November 2014, the Operating Partnership created the Series A-4 preferred OP units as a new class of OP units. Series A-4 preferred OP units have economic and other rights and preferences substantially similar to those of the Series A-4 Preferred Stock, including rights to receive distributions at the same time and in the same amounts as distributions paid on Series A-4 Preferred Stock. Each Series A-4 preferred OP unit is exchangeable into approximately 0.4444 shares of common stock or common OP units (which exchange rate is subject to adjustment upon stock splits, recapitalizations and similar events). We hold 6,330,551 Series A-4 preferred OP units that the Operating Partnership issued to us in connection with the acquisition of certain MH communities from Green Courte Real Estate Partners, LLC, Green Courte Real Estate Partners II, LLC, Green Courte Real Estate Partners III, LLC and certain of their affiliated entities. In 2014, we also issued 669,449 Series A-4 preferred OP units to the sellers as consideration for the Green Courte acquisition. In January 2015, we issued 200,000 Series A-4 Preferred OP units in a private placement in connection with the Green Courte acquisition. The rights of the 6,330,551 Series A-4 preferred OP units held by us mirror the economic rights of the Series A-4 preferred OP units issued to the Green Courte entities, but certain voting, consent and other rights do not apply to the Series A-4 preferred OP units held by us.

7.125% Series A OP Units

In connection with the issuance of our 7.125% Series A Cumulative Redeemable Preferred Stock ("Series A Preferred Stock") in November 2012, the Operating Partnership created the 7.125% Series A OP units as a new class of OP units. All of the outstanding 7.125% Series A OP units are held by us and they have rights, preferences and other terms substantially similar to the Series A Preferred Stock, including rights to receive distributions at the same time and in the same amounts as distributions paid on Series A Preferred Stock. The Operating Partnership issued the

7.125% Series A OP units to us in consideration of our contributing to the Operating Partnership the net proceeds of our November 2012 offering of shares of Series A Preferred Stock.

Series B-3 Preferred OP Units

Series B-3 preferred OP units are not convertible. The holders of Series B-3 preferred OP units generally receive distributions on the same dates as distributions are paid to holders of common OP units. Each Series B-3 preferred OP unit is entitled to receive distributions in an amount equal to the product of \$100.00 multiplied by an annual rate equal to 8.0%. As of December 31, 2014, there were outstanding 36,700 Series B-3 preferred OP units which were issued on December 1, 2002, 33,450 Series B-3 preferred OP units which were issued on January 1, 2003, and 42,250 Series B-3 preferred OP units which were issued on January 5, 2004. Subject to certain limitations, (x) during the 90-day period beginning on each of the tenth through fifteenth anniversaries of the issue date of the applicable Series B-3 preferred OP units, (y) at any time after the fifteenth anniversary of the issue date of the applicable Series B-3 preferred OP units, or (z) after our receipt of notice of the death of the electing holder of a Series B-3 preferred OP unit, each holder of Series B-3 preferred OP units may require us to redeem such holder's Series B-3 preferred OP units at the

SUN COMMUNITIES, INC.

redemption price of \$100.00 per unit. In addition, at any time after the fifteenth anniversary of the issue date of the applicable Series B-3 preferred OP units we may redeem, at our option, all of the Series B-3 preferred OP units of any holder thereof at the redemption price of \$100.00 per unit. Series B-3 preferred OP units do not have any voting or consent rights requiring the consent or approval of the Operating Partnership's limited partners.

REAL PROPERTY OPERATIONS

Properties are designed and improved for several home options of various sizes and designs and consist of MH communities and RV communities.

An MH community is a residential subdivision designed and improved with sites for the placement of manufactured homes and related improvements and amenities. Manufactured homes are detached, single family homes which are produced off site by manufacturers and installed on sites within the community. Manufactured homes are available in a wide array of designs, providing owners with a level of customization generally unavailable in other forms of multi-family housing developments.

Modern manufactured housing communities, such as the Properties, contain improvements similar to other garden style residential developments, including centralized entrances, paved streets, curbs and gutters, and parkways. In addition, these communities also often provide a number of amenities, such as a clubhouse, a swimming pool, shuffleboard courts, tennis courts, and laundry facilities.

An RV community is a resort or park designed and improved with sites for the placement of RVs for varied lengths of time. Properties may also provide vacation rental homes. RV communities, such as the Properties, include a number of amenities, such as restaurants, golf courses, swimming pools, tennis courts, fitness centers, planned activities and spacious social facilities.

The owner of each home on our Properties leases the site on which the home is located. We own the underlying land, utility connections, streets, lighting, driveways, common area amenities and other capital improvements and are responsible for enforcement of community guidelines and maintenance. Some of the Properties provide water and sewer service through public or private utilities, while others provide these services to residents from on site facilities. Each owner of a home within our Properties is responsible for the maintenance of the home and leased site. As a result, capital expenditure needs tend to be less significant relative to multi family rental apartment complexes.

PROPERTY MANAGEMENT

Our property management strategy emphasizes intensive, hands on management by dedicated, on site district and community managers. We believe that this on site focus enables us to continually monitor and address resident concerns, the performance of competitive properties and local market conditions. As of December 31, 2014, we employed 1,525 full and part time employees, of which 1,374 were located on site as property managers, support staff, or maintenance personnel.

Our community managers are overseen by John B. McLaren, our President and Chief Operating Officer, who has been in the manufactured housing industry since 1995, two Senior Vice Presidents of Operations and Sales, six Division Vice Presidents and 23 Regional Vice Presidents. The Regional Vice Presidents are responsible for semi-annual market surveys of competitive communities, interaction with local manufactured home dealers, regular property inspections and oversight of property operations and sales functions for eight to twelve properties.

Each district or community manager performs regular inspections in order to continually monitor the Property's physical condition and to effectively address tenant concerns. In addition to a district or community manager, each

district or property has on-site maintenance personnel and management support staff. We hold mandatory training sessions for all new property management personnel to ensure that management policies and procedures are executed effectively and professionally. All of our property management personnel participate in on-going training to ensure that changes to management policies and procedures are implemented consistently. We offer nearly 400 courses for our team members through our Sun University, which has led to increased knowledge and accountability for daily operations and policies and procedures.

HOME SALES AND RENTALS

SHS is engaged in the marketing, selling and leasing of new and pre-owned homes to current and future residents in our communities. Since tenants often purchase a home already on-site within a community, such services enhance occupancy and property performance. Additionally, because many of the homes on the Properties are sold through SHS, better control of home quality in our communities can be maintained than if sales services were conducted solely through third-party brokers. SHS also leases

SUN COMMUNITIES, INC.

homes to prospective tenants. At December 31, 2014, SHS had 10,973 occupied leased homes in its portfolio. Homes for this rental program (the "Rental Program") are purchased at discounted rates from finance companies that hold pre-owned and repossessed homes within our communities. New homes are also purchased for the Rental Program. Leases associated with the Rental Program generally have a term of one year. The Rental Program requires intensive management of costs associated with repair and refurbishment of these homes as the tenants vacate and the homes are re-leased, similar to apartment rentals. We received approximately 34,000 applications during 2014 to live in our Properties, providing a significant "resident boarding" system allowing us to market purchasing a home to the best applicants and to rent to the remainder of approved applicants. Through the Rental Program we are able to demonstrate our product and lifestyle to the renters, while monitoring their payment history and converting qualified renters to owners.

REGULATIONS AND INSURANCE

General

MH and RV community properties are subject to various laws, ordinances and regulations, including regulations relating to recreational facilities such as swimming pools, clubhouses and other common areas. We believe that each Property has the necessary operating permits and approvals.

Insurance

Our management believes that the Properties are covered by adequate fire, flood (where appropriate), property and business interruption insurance provided by reputable companies with commercially reasonable deductibles and limits. We maintain a blanket policy that covers all of our Properties. We have obtained title insurance insuring fee title to the Properties in an aggregate amount which we believe to be adequate. Claims made to our insurance carriers that are determined to be recoverable are classified in other receivables as incurred.

SITE LEASES OR USAGE RIGHTS

The typical lease we enter into with a tenant for the rental of a manufactured home site is month to month or year to year, renewable upon the consent of both parties, or, in some instances, as provided by statute. Certain of our leases, mainly Florida properties, are tied to consumer price index or other indices as it relates to rent increase. Generally, market rate adjustments are made on an annual basis. These leases are cancelable for non payment of rent, violation of community rules and regulations or other specified defaults. During the five calendar years ended December 31, 2014, on average 2.5% of the homes in our communities have been removed by their owners and 4.9% of the homes have been sold by their owners to a new owner who then assumes rental obligations as a community resident. The cost to move a home is approximately \$4,000 to \$10,000. The average resident remains in our communities for approximately 13 years, while the average home, which gives rise to the rental stream, remains in our communities for approximately 40 years.

Please see the risk factors at Item 1A, and financial statements and related notes beginning on page F-1 of this Form 10-K for more detailed information.

SUN COMMUNITIES, INC.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains various “forward-looking statements” within the meaning of the United States Securities Act of 1933, as amended (the “Securities Act”), and the United States Securities Exchange Act of 1934, as amended (the “Exchange Act”), and we intend that such forward-looking statements will be subject to the safe harbors created thereby. For this purpose, any statements contained in this filing that relate to expectations, beliefs, projections, future plans and strategies, trends or prospective events or developments and similar expressions concerning matters that are not historical facts are deemed to be forward-looking statements. Words such as “forecasts,” “intends,” “intend,” “intended,” “goal,” “estimate,” “estimates,” “expects,” “expect,” “expected,” “project,” “projected,” “projects,” “predicts,” “potential,” “seeks,” “anticipates,” “anticipated,” “should,” “could,” “may,” “will,” “designed to,” “foreseeable future,” “believes,” “scheduled,” “guidance” and similar expressions are intended to identify forward-looking statements, although not all forward looking statements contain these words. These forward-looking statements reflect our current views with respect to future events and financial performance, but involve known and unknown risks and uncertainties, both general and specific to the matters discussed in this filing. These risks and uncertainties may cause our actual results to be materially different from any future results expressed or implied by such forward-looking statements. In addition to the risks disclosed under “Risk Factors” contained in this Annual Report on Form 10-K and our other filings with the SEC, such risks and uncertainties include:

- changes in general economic conditions, the real estate industry and the markets in which we operate;
- difficulties in our ability to evaluate, finance, complete and integrate acquisitions, developments and expansions successfully;
- our liquidity and refinancing demands;
- our ability to obtain or refinance maturing debt;
- our ability to maintain compliance with covenants contained in our debt facilities;
- availability of capital;
- our ability to maintain rental rates and occupancy levels;
- our failure to maintain effective internal control over financial reporting and disclosure controls and procedures;
- increases in interest rates and operating costs, including insurance premiums and real property taxes;
- risks related to natural disasters;
- general volatility of the capital markets and the market price of shares of our capital stock;
- our failure to maintain our status as a REIT;
- changes in real estate and zoning laws and regulations;
- legislative or regulatory changes, including changes to laws governing the taxation of REITs;
- litigation, judgments or settlements;
- competitive market forces;
- the ability of manufactured home buyers to obtain financing; and
- the level of repossessions by manufactured home lenders.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made. We undertake no obligation to publicly update or revise any forward-looking statements included or incorporated by reference into this filing, whether as a result of new information, future events, changes in our expectations or otherwise, except as required by law.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. All written and oral forward-looking statements attributable to us or persons acting on our behalf are qualified in their entirety by these cautionary statements.

SUN COMMUNITIES, INC.

ITEM 1A. RISK FACTORS

Our prospects are subject to certain uncertainties and risks. Our future results could differ materially from current results, and our actual results could differ materially from those projected in forward looking statements as a result of certain risk factors. These risk factors include, but are not limited to, those set forth below, other one time events, and important factors disclosed previously and from time to time in our other filings with the SEC.

REAL ESTATE RISKS

General economic conditions and the concentration of our properties in Michigan, Florida, Indiana, and Texas may affect our ability to generate sufficient revenue.

The market and economic conditions in our current markets generally, and specifically in metropolitan areas of our current markets, may significantly affect manufactured home occupancy or rental rates. Occupancy and rental rates, in turn, may significantly affect our revenues, and if our communities do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow and ability to pay or refinance our debt obligations could be adversely affected. We derive significant amounts of our rental income from properties located in Michigan, Florida, Indiana, and Texas. As of December 31, 2014, 70 of our 217 Properties, representing approximately 31% of developed sites, are located in Michigan; 29 Properties, representing approximately 17% of developed sites, are located in Florida; 17 Properties, representing approximately 8% of developed sites, are located in Indiana; and 18 Properties, representing approximately 8% of developed sites, are located in Texas. As a result of the geographic concentration of our Properties in Michigan, Florida, Indiana, and Texas, we are exposed to the risks of downturns in the local economy or other local real estate market conditions which could adversely affect occupancy rates, rental rates, and property values of properties in these markets.

Our income would also be adversely affected if tenants were unable to pay rent or if sites were unable to be rented on favorable terms. If we were unable to promptly relet or renew the leases for a significant number of the sites, or if the rental rates upon such renewal or reletting were significantly lower than expected rates, then our business and results of operations could be adversely affected. In addition, certain expenditures associated with each Property (such as real estate taxes and maintenance costs) generally are not reduced when circumstances cause a reduction in income from the Property. Furthermore, real estate investments are relatively illiquid and, therefore, will tend to limit our ability to vary our portfolio promptly in response to changes in economic or other conditions.

The following factors, among others, may adversely affect the revenues generated by our communities:

- the national and local economic climate which may be adversely impacted by, among other factors, plant closings, and industry slowdowns;

- local real estate market conditions such as the oversupply of MH and RV sites or a reduction in demand for MH and RV sites in an area;

- the number of repossessed homes in a particular market;

- the lack of an established dealer network;

- the rental market which may limit the extent to which rents may be increased to meet increased expenses without decreasing occupancy rates;

- the perceptions by prospective tenants of the safety, convenience and attractiveness of our Properties and the neighborhoods where they are located;

zoning or other regulatory restrictions;

competition from other available MH and RV communities and alternative forms of housing (such as apartment buildings and site built single family homes);

our ability to provide adequate management, maintenance and insurance;

10

SUN COMMUNITIES, INC.

REAL ESTATE RISKS, CONTINUED

• increased operating costs, including insurance premiums, real estate taxes, and utilities; and

• the enactment of rent control laws or laws taxing the owners of manufactured homes.

Competition affects occupancy levels and rents which could adversely affect our revenues.

All of our Properties are located in developed areas that include other MH and RV community properties. The number of competitive MH and RV community properties in a particular area could have a material adverse effect on our ability to lease sites and increase rents charged at our Properties or at any newly acquired properties. We may be competing with others with greater resources and whose officers and directors have more experience than our officers and directors. In addition, other forms of multi family residential properties, such as private and federally funded or assisted multi family housing projects and single family housing, provide housing alternatives to potential tenants of MH and RV communities.

Our ability to sell or lease manufactured homes may be affected by various factors, which may in turn adversely affect our profitability.

SHS operates in the manufactured home market offering manufactured home sales and leasing services to tenants and prospective tenants of our communities. The market for the sale and lease of manufactured homes may be adversely affected by the following factors:

• downturns in economic conditions which adversely impact the housing market;

• an oversupply of, or a reduced demand for, manufactured homes;

• the difficulty facing potential purchasers in obtaining affordable financing as a result of heightened lending criteria; and

• an increase or decrease in the rate of manufactured home repossessions which provide aggressively priced competition to new manufactured home sales.

Any of the above listed factors could adversely impact our rate of manufactured home sales and leases, which would result in a decrease in profitability.

The intended benefits of the Green Courte acquisition may not be realized.

Our recent acquisition of 59 Properties from Green Courte poses risks for our ongoing operations, including, among others:

• that senior management's attention may be diverted from the management of daily operations to the integration of the acquired Properties;

• costs and expenses associated with any undisclosed or potential liabilities;

• that the acquired Properties may not perform as well as anticipated; and

• that unforeseen difficulties may arise in integrating the acquired Properties into our portfolio.

As a result of the foregoing, we cannot assure you that the Green Courte acquisition will be accretive to us in the near term or at all. Furthermore, if we fail to realize the intended benefits of the acquired Properties, the market prices of our common stock and preferred stock could decline to the extent that the market price reflects those benefits.

We may not be able to integrate or finance our acquisitions and our acquisitions may not perform as expected.

We have acquired and intend to continue to acquire MH and RV communities on a select basis. Our acquisition activities and their success are subject to the following risks:

- we may be unable to acquire a desired property because of competition from other well capitalized real estate investors, including both publicly traded real estate investment trusts and institutional investment funds;

• even if we enter into an acquisition agreement for a property, it is usually subject to customary conditions to closing, including completion of due diligence investigations to our satisfaction, which may not be satisfied;

SUN COMMUNITIES, INC.

REAL ESTATE RISKS, CONTINUED

• even if we are able to acquire a desired property, competition from other real estate investors may significantly increase the purchase price;

• we may be unable to finance acquisitions on favorable terms;

• acquired properties may fail to perform as expected;

• acquired properties may be located in new markets where we face risks associated with a lack of market knowledge or understanding of the local economy, lack of business relationships in the area and unfamiliarity with local governmental and permitting procedures; and

• we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into our existing operations.

If any of the above occurred, our business and results of operations could be adversely affected.

In addition, we may acquire properties subject to liabilities and without any recourse, or with only limited recourse, with respect to unknown liabilities. As a result, if a liability were to be asserted against us based upon ownership of those properties, we might have to pay substantial sums to settle it, which could adversely affect our cash flow.

Increases in taxes and regulatory compliance costs may reduce our revenue.

Costs resulting from changes in real estate laws, income taxes, service or other taxes, generally are not passed through to tenants under leases and may adversely affect our funds from operations and our ability to pay or refinance our debt. Similarly, changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures, which would adversely affect our business and results of operations.

We may not be able to integrate or finance our expansion and development activities.

From time to time, we engage in the construction and development of new communities or expansion of existing communities, and may continue to engage in the development and construction business in the future. Our development and construction business may be exposed to the following risks which are in addition to those risks associated with the ownership and operation of established MH and RV communities:

• we may not be able to obtain financing with favorable terms for community development which may make us unable to proceed with the development;

• we may be unable to obtain, or face delays in obtaining, necessary zoning, building and other governmental permits and authorizations, which could result in increased costs and delays, and even require us to abandon development of the community entirely if we are unable to obtain such permits or authorizations;

• we may abandon development opportunities that we have already begun to explore and as a result we may not recover expenses already incurred in connection with exploring such development opportunities;

• we may be unable to complete construction and lease up of a community on schedule resulting in increased debt service expense and construction costs;

we may incur construction and development costs for a community which exceed our original estimates due to increased materials, labor or other costs, which could make completion of the community uneconomical and we may not be able to increase rents to compensate for the increase in development costs which may impact our profitability;

we may be unable to secure long term financing on completion of development resulting in increased debt service and lower profitability; and

SUN COMMUNITIES, INC.

REAL ESTATE RISKS, CONTINUED

Occupancy rates and rents at a newly developed community may fluctuate depending on several factors, including market and economic conditions, which may result in the community not being profitable.

If any of the above occurred, our business and results of operations could be adversely affected.

Rent control legislation may harm our ability to increase rents.

State and local rent control laws in certain jurisdictions may limit our ability to increase rents and to recover increases in operating expenses and the costs of capital improvements. Enactment of such laws has been considered from time to time in other jurisdictions. Certain Properties are located, and we may purchase additional properties, in markets that are either subject to rent control or in which rent-limiting legislation exists or may be enacted.

We may be subject to environmental liability.

Under various federal, state and local laws, ordinances and regulations, an owner or operator of real estate is liable for the costs of removal or remediation of certain hazardous substances at, on, under or in such property. Such laws often impose such liability without regard to whether the owner knew of, or was responsible for, the presence of such hazardous substances. The presence of such substances, or the failure to properly remediate such substances, may adversely affect the owner's ability to sell or rent such property, to borrow using such property as collateral or to develop such property. Persons who arrange for the disposal or treatment of hazardous substances also may be liable for the costs of removal or remediation of such substances at a disposal or treatment facility owned or operated by another person. In addition, certain environmental laws impose liability for the management and disposal of asbestos containing materials and for the release of such materials into the air. These laws may provide for third parties to seek recovery from owners or operators of real properties for personal injury associated with asbestos containing materials. In connection with the ownership, operation, management, and development of real properties, we may be considered an owner or operator of such properties and, therefore, are potentially liable for removal or remediation costs, and also may be liable for governmental fines and injuries to persons and property. When we arrange for the treatment or disposal of hazardous substances at landfills or other facilities owned by other persons, we may be liable for the removal or remediation costs at such facilities.

All of the Properties have been subject to a Phase I or similar environmental audit (which involves general inspections without soil sampling or ground water analysis) completed by independent environmental consultants. These environmental audits have not revealed any significant environmental liability that would have a material adverse effect on our business. These audits cannot reflect conditions arising after the studies were completed, and no assurances can be given that existing environmental studies reveal all environmental liabilities, that any prior owner or operator of a property or neighboring owner or operator did not create any material environmental condition not known to us, or that a material environmental condition does not otherwise exist as to any one or more Properties.

Losses in excess of our insurance coverage or uninsured losses could adversely affect our cash flow.

We maintain comprehensive liability, fire, flood (where appropriate), extended coverage, and rental loss insurance on the Properties with policy specifications, limits, and deductibles which are customarily carried for similar properties. Certain types of losses, however, may be either uninsurable or not economically insurable, such as losses due to earthquakes, riots, or acts of war. In the event an uninsured loss occurs, we could lose both our investment in and anticipated profits and cash flow from the affected property. Any loss could adversely affect our ability to repay our debt.

FINANCING AND INVESTMENT RISKS

Our significant amount of debt could limit our operational flexibility or otherwise adversely affect our financial condition.

We have a significant amount of debt. As of December 31, 2014, we had approximately \$1.8 billion of total debt outstanding, consisting of approximately \$1.7 billion in debt that is collateralized by mortgage liens on 147 of the Properties, \$123.7 million that is secured by collateralized receivables, and \$45.9 million that is unsecured debt. If we fail to meet our obligations under our secured debt, the lenders would be entitled to foreclose on all or some of the collateral securing such debt which could have a material adverse effect on us and our ability to make expected distributions, and could threaten our continued viability.

We are subject to the risks normally associated with debt financing, including the following risks:

SUN COMMUNITIES, INC.

FINANCING AND INVESTMENT RISKS, CONTINUED

our cash flow may be insufficient to meet required payments of principal and interest, or require us to dedicate a substantial portion of our cash flow to pay our debt and the interest associated with our debt rather than to other areas of our business;

- our existing indebtedness may limit our operating flexibility due to financial and other restrictive covenants, including restrictions on incurring additional debt;

it may be more difficult for us to obtain additional financing in the future for our operations, working capital requirements, capital expenditures, debt service or other general requirements;

we may be more vulnerable in the event of adverse economic and industry conditions or a downturn in our business;

we may be placed at a competitive disadvantage compared to our competitors that have less debt; and

we may not be able to refinance at all or on favorable terms, as our debt matures.

If any of the above risks occurred, our financial condition and results of operations could be materially adversely affected.

We may incur substantially more debt, which would increase the risks associated with our substantial leverage.

Despite our current indebtedness levels, we may incur substantially more debt in the future. If new debt is added to our current debt levels, an even greater portion of our cash flow will be needed to satisfy our debt service obligations. As a result, the related risks that we now face could intensify and increase the risk of a default on our indebtedness.

TAX RISKS

We may suffer adverse tax consequences and be unable to attract capital if we fail to qualify as a REIT.

We believe that since our taxable year ended December 31, 1994, we have been organized and operated, and intend to continue to operate, so as to qualify for taxation as a REIT under the Code. Although we believe that we have been and will continue to be organized and have operated and will continue to operate so as to qualify for taxation as a REIT, we cannot be assured that we have been or will continue to be organized or operated in a manner to so qualify or remain so qualified. Qualification as a REIT involves the satisfaction of numerous requirements (some on an annual and quarterly basis) established under highly technical and complex Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. In addition, frequent changes occur in the area of REIT taxation, which require us to continually monitor our tax status.

If we fail to qualify as a REIT in any taxable year, we could be subject to federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. Moreover, unless entitled to relief under certain statutory provisions,

we also would be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost. This treatment would reduce our net earnings available for investment or distribution to stockholders because of the additional tax liability to us for the years involved. In addition, distributions to stockholders would no longer be required to be made.

We intend for the Operating Partnership to be taxed as a partnership, but we cannot guarantee that it will qualify.

We believe that the Operating Partnership has been organized as a partnership and will qualify for treatment as such under the Code. However, if the Operating Partnership is deemed to be a “publicly traded partnership,” it will be treated as a corporation instead of a partnership for federal income tax purposes unless at least 90% of its income is qualifying income as defined in the Code. The income requirements applicable to REITs and the definition of “qualifying income” for purposes of this 90% test are similar in most respects. Qualifying income for the 90% test generally includes passive income, such as specified types of real property rents, dividends and interest. We believe that the Operating Partnership has and will continue to meet this 90% test, but we cannot guarantee that it has or will. If the Operating Partnership were to be taxed as a regular corporation, it would incur substantial tax liabilities, we would fail to qualify as a REIT for federal income tax purposes, and our ability to raise additional capital could be significantly impaired.

SUN COMMUNITIES, INC.

TAX RISKS, CONTINUED

Our ability to accumulate cash may be restricted due to certain REIT distribution requirements.

In order to qualify as a REIT, we must distribute to our stockholders at least 90% of our REIT taxable income (calculated without any deduction for dividends paid and excluding net capital gain) and to avoid federal income taxation, our distributions must not be less than 100% of our REIT taxable income, including capital gains. As a result of the distribution requirements, we do not expect to accumulate significant amounts of cash. Accordingly, these distributions could significantly reduce the cash available to us in subsequent periods to fund our operations and future growth.

Our taxable REIT subsidiaries, or TRSs, are subject to special rules that may result in increased taxes.

As a REIT, we must pay a 100% penalty tax on certain payments that we receive if the economic arrangements between us and any of our TRSs are not comparable to similar arrangements between unrelated parties. The Internal Revenue Service may successfully assert that the economic arrangements of any of our inter-company transactions are not comparable to similar arrangements between unrelated parties.

Dividends payable by REITs do not qualify for the reduced tax rates applicable to certain dividends.

The maximum federal tax rate for certain qualified dividends payable to domestic stockholders that are individuals, trusts and estates is 20%. Dividends payable by REITs, however, are generally not eligible for this reduced rate. Although this rule does not adversely affect the taxation of REITs or dividends paid by REITs, the more favorable rates applicable to regular qualified corporate dividends could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less competitive than investments in stock of non-REIT corporations that pay dividends, which could adversely affect the comparative value of the stock of REITs, including our common stock and preferred stock.

Complying with REIT requirements may cause us to forego otherwise attractive opportunities.

To remain qualified as a REIT for federal income tax purposes, we must continually satisfy requirements and tests under the tax law concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our stock. In order to meet these tests, we may be required to forego or limit attractive business or investment opportunities and distribute all of our net earnings rather than invest in attractive opportunities or hold larger liquid reserves. Therefore, compliance with the REIT requirements may hinder our ability to operate solely to maximize profits.

Our ability to use net operating loss carryforwards to reduce future tax payments may be limited if we experience a change in ownership, or if taxable income does not reach sufficient levels.

Under Section 382 of the Code, if a corporation undergoes an “ownership change” (generally defined as a greater than 50% change (by value) in its equity ownership over a rolling three-year period), the corporation’s ability to use its pre-ownership-change net operating loss carryforwards to offset its post-ownership-change income may be limited. We may experience ownership changes

BUSINESS RISKS

in the future. If an ownership change were to occur, we would be limited in the portion of net operating loss carryforwards that we could use in the future to offset taxable income for U.S. federal income tax purposes.

Some of our directors and officers may have conflicts of interest with respect to certain related party transactions and other business interests.

Ownership of Origen. We own 5,000,000 shares of Origen Financial, Inc. (“Origen”) common stock and Shiffman Origen LLC (which is owned by the Milton M. Shiffman Spouse’s Marital Trust, Gary A. Shiffman (our Chief Executive Officer), and members of Mr. Shiffman’s family) owns 1,025,000 shares of Origen common stock. Gary A. Shiffman is a member of the Board of Directors of Origen, and one of our directors, Arthur A. Weiss, is a trustee of the Milton M. Shiffman Spouse’s Marital Trust. Ronald A. Klein, one of our directors, is the Chief Executive Officer and a director of Origen. Mr. Klein, Mr. Weiss and Brian M. Hermelin, another of our directors, beneficially own approximately 570,000, 10,000, and 200,000 shares of Origen common stock,

SUN COMMUNITIES, INC.

BUSINESS RISKS, CONTINUED

respectively. Accordingly, in all transactions involving Origen, Mr. Shiffman, Mr. Weiss, Mr. Hermelin or Mr. Klein may have a conflict of interest with respect to their respective obligations as our officer and/or director.

Lease of Executive Offices. Gary A. Shiffman, together with certain of his family members, indirectly owns a 21% equity interest in American Center LLC, the entity from which we lease office space for our principal executive offices. Each of Arthur A. Weiss and Ronald A. Klein owns a less than one percent indirect interest in American Center LLC. Under this lease agreement, we lease approximately 62,900 rentable square feet. The term of the lease is until October 31, 2026, and the base rent through October 31, 2015 is \$16.45 per square foot (gross). From November 1, 2015 to October 31, 2016, the base rent will be \$16.95 per square foot (gross) and from November 1, 2016 to October 31, 2017, the base rent will be \$17.45 per square foot (gross). We also have a temporary lease for approximately 10,500 rentable square feet with base rent equal to \$12.71 per square foot (gross). This temporary lease is currently operating on a month to month basis. Each of Mr. Shiffman, Mr. Weiss and Mr. Klein may have a conflict of interest with respect to his obligations as our officer and/or director and his ownership interest in American Center LLC.

Legal Counsel. During 2014, Jaffe, Raitt, Heuer, & Weiss, Professional Corporation acted as our general counsel and represented us in various matters. Arthur A. Weiss, one of our directors, is the Chairman of the Board of Directors and a shareholder of such firm. We incurred legal fees and expenses owed to Jaffe, Raitt, Heuer, & Weiss of approximately \$7.5 million, \$3.2 million and \$3.4 million in the years ended December 31, 2014, 2013 and 2012, respectively.

Tax Consequences Upon Sale of Properties. Gary A. Shiffman holds limited partnership interests in the Operating Partnership which were received in connection with the contribution of properties from partnerships previously affiliated with him. Prior to any redemption of these limited partnership interests for our common stock, Mr. Shiffman will have tax consequences different from those on us and our public stockholders upon the sale of any of these partnerships. Therefore, we and Mr. Shiffman may have different objectives regarding the appropriate pricing and timing of any sale of those properties.

We rely on key management.

We are dependent on the efforts of our executive officers, Gary A. Shiffman, John B. McLaren, Karen J. Dearing and Jonathan M. Colman. The loss of services of one or more of these executive officers could have a temporary adverse effect on our operations. We do not currently maintain or contemplate obtaining any “key-man” life insurance on the Executive Officers.

Certain provisions in our governing documents may make it difficult for a third-party to acquire us.

9.8% Ownership Limit. In order to qualify and maintain our qualification as a REIT, not more than 50% of the outstanding shares of our capital stock may be owned, directly or indirectly, by five or fewer individuals. Thus, ownership of more than 9.8%, in number of shares or value, of the issued and outstanding shares of our capital stock by any single stockholder has been restricted, with certain exceptions, for the purpose of maintaining our qualification as a REIT under the Code. Such restrictions in our charter do not apply to Milton M. Shiffman, Gary A. Shiffman, and Robert B. Bayer; trustees, personal representatives and agents to the extent acting for them or their respective estates; or certain of their respective relatives.

The 9.8% ownership limit, as well as our ability to issue additional shares of common stock or shares of other stock (which may have rights and preferences over the common stock), may discourage a change of control of the Company and may also: (1) deter tender offers for the common stock, which offers may be advantageous to stockholders; and (2) limit the opportunity for stockholders to receive a premium for their common stock that might otherwise exist if an

investor were attempting to assemble a block of common stock in excess of 9.8% of our outstanding shares or otherwise effect a change of control of the Company.

Preferred Stock. Our charter authorizes the Board of Directors to issue up to 10,000,000 shares of preferred stock and to establish the preferences and rights (including the right to vote and the right to convert into shares of common stock) of any shares issued.

In November 2012, we amended our charter to designate 3,450,000 shares of preferred stock as 7.125% Series A Cumulative Redeemable Preferred Stock, \$0.01 par value per share, and issued 3,400,000 of such shares of stock. In November 2014, we amended our charter to designate 6,330,551 shares of preferred stock as 6.50% Series A-4 Cumulative Convertible Preferred Stock, \$0.01 par value per share, and in November 2014 and January 2015 we issued in the aggregate 6,330,551 of such shares of stock. The power to issue preferred stock could have the effect of delaying or preventing a change in control of the Company even if a change in control were in the stockholders' interest.

SUN COMMUNITIES, INC.

BUSINESS RISKS, CONTINUED

Upon the occurrence of certain change of control events, the result of which is that shares of our common stock and the common securities of the acquiring or surviving entity (or ADRs representing such securities) are not listed on the New York Stock Exchange (“NYSE”), the NYSE MKT or NASDAQ or listed or quoted on an exchange or quotation system that is a successor to the NYSE, the NYSE MKT or NASDAQ, holders of shares of Series A Preferred Stock will have the right, subject to certain limitations, to convert some or all of their shares of Series A Preferred Stock into shares of our common stock (or equivalent value of alternative consideration) and under these circumstances we will also have a special optional redemption right to redeem the shares of Series A Preferred Stock. Upon such a conversion, the holders of shares of Series A Preferred Stock will be limited to a maximum number of shares of our common stock. If our common stock price, as determined in accordance with our charter for these purposes, is less than \$20.97, subject to adjustment, the holders will receive a maximum of 1.1925 shares of our common stock per shares of Series A Preferred Stock, which may result in a holder receiving value that is less than the liquidation preference of the Series A Preferred Stock. Subject to certain limitations, upon written notice to us, each holder of shares of Series A-4 Preferred Stock at its option may convert each share of Series A-4 Preferred Stock held by it for that number of shares of our common stock equal to the quotient obtained by dividing \$25.00 by the then-applicable conversion price. The initial conversion price is \$56.25, so initially each share of Series A-4 Preferred Stock is convertible into approximately 0.4444 shares of common stock. At our option, instead of issuing the shares of common stock to the converting holder of Series A-4 Preferred Stock as described above, we may make a cash payment to the converting holder with respect to each share of Series A-4 Preferred Stock the holder desires to convert equal to the fair market value of one share of our common stock. If, at any time after November 26, 2019, the volume weighted average of the daily volume weighted average price of a share of our common stock on the NYSE equals or exceeds 115.5% of the then prevailing conversion price for at least 20 trading days in a period of 30 consecutive trading days, then, within 10 days thereafter, upon written notice to the holders thereof, we may convert each outstanding share of Series A-4 Preferred Stock into that number of shares of common stock equal to the quotient obtained by dividing \$25.00 by the then prevailing conversion price.

These features of the Series A Preferred Stock and Series A-4 Preferred Stock may have the effect of inhibiting a third party from making an acquisition proposal for Sun or of delaying, deferring or preventing a change of control of Sun under circumstances that otherwise could provide the holders of our common stock and preferred stock with the opportunity to realize a premium over the then-current market price or that stockholders may otherwise believe is in their best interests.

Rights Plan. We adopted a stockholders' rights plan in 2008 that provides our stockholders (other than a stockholder attempting to acquire a 15% or greater interest in us) with the right to purchase our stock at a discount in the event any person attempts to acquire a 15% or greater interest in us. Because this plan could make it more expensive for a person to acquire a controlling interest in us, it could have the effect of delaying or preventing a change in control even if a change in control were in the stockholders' interest.

Certain provisions of Maryland law could inhibit changes in control, which may discourage third parties from conducting a tender offer or seeking other change of control transactions that could involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interest.

Certain provisions of the Maryland General Corporation Law, or MGCL, may have the effect of inhibiting a third party from making a proposal to acquire us or of impeding a change of control under circumstances that otherwise could provide the holders of shares of our capital stock with the opportunity to realize a premium over the then-prevailing market price of such shares, including:

“business combination” provisions that, subject to limitations, prohibit certain business combinations between us and an “interested stockholder” (defined generally as any person who beneficially owns 10% or more of the voting power of our shares or an affiliate thereof or an affiliate or associate of ours who was the beneficial owner, directly or indirectly, of 10% or more of the voting power of our then outstanding voting stock at any time within the two-year period immediately prior to the date in question) for five years after the most recent date on which the stockholder becomes an interested stockholder, and thereafter impose fair price and/or supermajority and stockholder voting

requirements on these combinations; and

“control share” provisions that provide that “control shares” of our company (defined as shares that, when aggregated with other shares controlled by the stockholder, entitle the stockholder to exercise one of three increasing ranges of voting power in electing directors) acquired in a “control share acquisition” (defined as the direct or indirect acquisition of ownership or control of issued and outstanding “control shares”) have no voting rights except to the extent approved by our stockholders by the affirmative vote of at least two-thirds of all the votes entitled to be cast on the matter, excluding all interested shares.

17

SUN COMMUNITIES, INC.

BUSINESS RISKS, CONTINUED

The provisions of the MGCL relating to business combinations do not apply, however, to business combinations that are approved or exempted by our Board of Directors prior to the time that the interested stockholder becomes an interested stockholder. As permitted by the statute, our Board of Directors has by resolution exempted Milton M. Shiffman, Robert B. Bayer, and Gary A. Shiffman, their affiliates and all persons acting in concert or as a group with the foregoing, from the business combination provisions of the MGCL and, consequently, the five-year prohibition and the supermajority vote requirements will not apply to business combinations between us and these persons. As a result, these persons may be able to enter into business combinations with us that may not be in the best interests of our stockholders without compliance by our company with the supermajority vote requirements and the other provisions of the statute.

Also, pursuant to a provision in our bylaws, we have exempted any acquisition of our stock from the control share provisions of the MGCL. However, our Board of Directors may by amendment to our bylaws opt in to the control share provisions of the MGCL at any time in the future.

Additionally, Subtitle 8 of Title 3 of the MGCL permits our Board of Directors, without stockholder approval and regardless of what is currently provided in our charter or bylaws, to elect to be subject to certain provisions relating to corporate governance that may have the effect of delaying, deferring or preventing a transaction or a change of control of our company that might involve a premium to the market price of our common stock or otherwise be in our stockholders' best interests. These provisions include a classified board; two-thirds vote to remove a director; that the number of directors may only be fixed by the Board of Directors; that vacancies on the board as a result of an increase in the size of the board or due to death, resignation or removal can only be filled by the board, and the director appointed to fill the vacancy serves for the remainder of the full term of the class of director in which the vacancy occurred; and a majority requirement for the calling by stockholders of special meetings. Other than a classified board, the filling of vacancies as a result of the removal of a director and a majority requirement for the calling by stockholders of special meetings, we are already subject to these provisions, either by provisions of our charter and bylaws unrelated to Subtitle 8 or by reason of an election to be subject to certain provisions of Subtitle 8. In the future, our Board of Directors may elect, without stockholder approval, to make us subject to the provisions of Subtitle 8 to which we are not currently subject.

Changes in our investment and financing policies may be made without stockholder approval.

Our investment and financing policies, and our policies with respect to certain other activities, including our growth, debt, capitalization, distributions, REIT status, and operating policies, are determined by our Board of Directors. Although the Board of Directors has no present intention to do so, these policies may be amended or revised from time to time at the discretion of the Board of Directors without notice to or a vote of our stockholders. Accordingly, stockholders may not have control over changes in our policies and changes in our policies may not fully serve the interests of all stockholders.

Substantial sales of our common stock could cause our stock price to fall.

The sale or issuance of substantial amounts of our common stock or preferred stock, whether directly by us or in the secondary market, the perception that such sales could occur or the availability of future issuances of shares of our common stock, preferred stock, OP Units or other securities convertible into or exchangeable or exercisable for our common stock or preferred stock, could materially and adversely affect the market price of our common stock or preferred stock and our ability to raise capital through future offerings of equity or equity-related securities. In addition, we may issue capital stock that is senior to our common stock in the future for a number of reasons, including to finance our operations and business strategy, to adjust our ratio of debt to equity or for other reasons.

Based on the applicable conversion ratios then in effect, as of February 18, 2015, in the future we may issue to the limited partners of the Operating Partnership, up to approximately 4.6 million shares of our common stock in exchange for their OP Units. The limited partners may sell such shares pursuant to registration rights, if available, or an available exemption from registration. As of February 18, 2015, options to purchase 29,500 shares of our common stock were outstanding under our equity incentive plans. We currently have the authority to issue restricted stock awards or options to purchase up to an additional 299,398 shares of our common stock pursuant to our equity incentive plans. In addition, we entered into an “at-the-market” Sales Agreement in May 2012 to issue and sell shares of common stock. As of February 18, 2015, our Board of Directors had authorized us to sell approximately an additional \$43.7 million of common stock under this agreement. No prediction can be made regarding the effect that future sales of shares of our common stock or our other securities will have on the market price of shares.

SUN COMMUNITIES, INC.

BUSINESS RISKS, CONTINUED

The issuance of the securities issued on January 6, 2015 in connection with the Green Courte acquisition is expected to be dilutive, which may adversely affect the market price of our common stock or preferred stock.

We expect that the issuance on January 6, 2015 of 4,527,073 shares of common stock, 5,847,234 shares of Series A-4 Preferred Stock and 200,000 Series A-4 preferred OP units in connection with the Green Courte acquisition and a related private placement will have a dilutive effect on our earnings per share and funds from operations per share for the year ending December 31, 2015. The actual amount of dilution cannot be determined at this time and will be based on numerous factors.

An increase in interest rates may have an adverse effect on the price of our common stock.

One of the factors that may influence the price of our common stock in the public market will be the annual distributions to stockholders relative to the prevailing market price of the common stock. An increase in market interest rates may tend to make the common stock less attractive relative to other investments, which could adversely affect the market price of our common stock.

The volatility in economic conditions and the financial markets may adversely affect our industry, business and financial performance.

Although demand in the U.S. improved recently, the U.S. macroeconomic environment remains uncertain and was the primary factor in a slowdown starting in 2008. The global economy remains unstable, and we expect the economic environment may continue to be challenging as continued economic uncertainty has generally given the marketplace less confidence. In particular, the financial crisis that affected the banking system and financial markets and the related uncertainty in global economic conditions resulted in a tightening in the credit markets, a low level of liquidity in many financial markets and volatility in credit, equity and fixed income markets. If such conditions are experienced in future periods, our industry, business and results of operations may be severely impacted. The slow recovery and possible impact of automatic sequesters or a failure to raise the “debt ceiling” in the U.S. may adversely impact us. The other risk factors presented in this Form 10-K discuss some of the principal risks inherent in our business, including liquidity risks, operational risks, and credit risks, among others. Turbulence in financial markets accentuates each of these risks and magnifies their potential effect on us. If these economic developments continue to rebound slowly or worsen, there could be an adverse impact on our access to capital, stock price and our operating results.

Our business operations may not generate the cash needed to make distributions on our capital stock or to service our indebtedness, and we may adjust our common stock distribution policy.

Our ability to make distributions on our common stock and preferred stock, and payments on our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future. We cannot assure you that our business will generate sufficient cash flow from operations or that future borrowings will be available to us in an amount sufficient to enable us to make distributions on our common stock or preferred stock, to pay our indebtedness or to fund our other liquidity needs.

The decision to declare and pay distributions on shares of our common stock in the future, as well as the timing, amount and composition of any such future distributions, will be at the sole discretion of our Board of Directors in light of conditions then existing, including our earnings, financial condition, capital requirements, debt maturities, the availability of debt and equity capital, applicable REIT and legal restrictions and the general overall economic conditions and other factors. Any change in our distribution policy could have a material adverse effect on the market price of our common stock.

Our ability to pay distributions is limited by the requirements of Maryland law.

Our ability to pay distributions on our common stock and preferred stock is limited by the laws of Maryland. Under Maryland law, a Maryland corporation generally may not make a distribution if, after giving effect to the distribution, the corporation would not be able to pay its debts as they become due in the usual course of business, or the corporation's total assets would be less than the sum of its total liabilities plus, unless the corporation's charter provides otherwise, the amount that would be needed, if the corporation were dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of stockholders whose preferential rights are superior to those receiving the distribution, provided, however, that a Maryland corporation may make a distribution from: (i) its net earnings for the fiscal year in which the distribution is made; (ii) its net earnings for the preceding fiscal year; or (iii) the sum of its net earnings for its preceding eight fiscal quarters even if, after such distribution, the corporation's total assets would be less than its total liabilities. Accordingly, we generally may not make a distribution on our common stock or preferred stock if, after giving effect to the distribution, we would not be able to pay our debts as they become due in the usual

SUN COMMUNITIES, INC.

BUSINESS RISKS, CONTINUED

course of business or, unless paid from one of the permitted sources of net earnings as described above, our total assets would be less than the sum of our total liabilities plus, unless the terms of such class or series of stock provide otherwise, the amount that would be needed to satisfy the preferential rights upon dissolution of the holders of shares of any class or series of stock then outstanding, if any, with preferential rights upon dissolution senior to those of our common stock or currently outstanding preferred stock.

We may not be able to pay distributions upon events of default under our financing documents.

Some of our financing documents contain restrictions on distributions upon the occurrence of events of default thereunder. If such an event of default occurs, such as our failure to pay principal at maturity or interest when due for a specified period of time, we would be prohibited from making payments on our common stock and preferred stock.

Our share price could be volatile and could decline, resulting in a substantial or complete loss on our stockholders' investment.

The stock markets, including the NYSE on which we list our common stock and Series A Preferred Stock, have experienced significant price and volume fluctuations. As a result, the market price of our common stock and preferred stock could be similarly volatile, and investors in our common stock and preferred stock may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. The price of our common stock and preferred stock could be subject to wide fluctuations in response to a number of factors, including:

- issuances of other equity securities in the future, including new series or classes of preferred stock;
- our operating performance and the performance of other similar companies;
- our ability to maintain compliance with covenants contained in our debt facilities;
- actual or anticipated variations in our operating results, funds from operations, cash flows or liquidity;
- changes in expectations of future financial performance or changes in our earnings estimates or those of analysts;
- changes in our distribution policy;
- publication of research reports about us or the real estate industry generally;
- increases in market interest rates that lead purchasers of our common stock to demand a higher dividend yield;
- changes in market valuations of similar companies;
- increases in market interest rates that lend purchasers of our common stock and preferred stock to demand a higher dividend yield;
- adverse market reaction to the amount of our debt outstanding at any time, the amount of our debt maturing in the near- and medium-term and our ability to refinance our debt, or our plans to incur additional debt in the future;
- additions or departures of key management personnel;
- speculation in the press or investment community;

• equity issuances by us, or share resales by our stockholders or the perception that such issuances or resales may occur;
• actions by institutional stockholders; and
• general market and economic conditions.

SUN COMMUNITIES, INC.

BUSINESS RISKS, CONTINUED

Many of the factors listed above are beyond our control. Those factors may cause the market price of our common stock or preferred stock to decline significantly, regardless of our financial condition, results of operations and prospects. It is impossible to provide any assurance that the market price of our common stock or preferred stock will not fall in the future, and it may be difficult for holders to resell shares of our common stock or preferred stock at prices they find attractive, or at all. In the past, securities class action litigation has often been instituted against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources.

Our Series A Preferred Stock and Series A-4 Preferred Stock has not been rated.

We have not sought to obtain a rating for our Series A Preferred Stock or Series A-4 Preferred Stock. No assurance can be given, however, that one or more rating agencies might not independently determine to issue such a rating or that such a rating, if issued, would not adversely affect the market price of the Series A Preferred Stock or Series A-4 Preferred Stock. In addition, we may elect in the future to obtain a rating of the Series A Preferred Stock or Series A-4 Preferred Stock, which could adversely affect the market price of such preferred stock. Ratings only reflect the views of the rating agency or agencies issuing the ratings and such ratings could be revised downward, placed on a watch list or withdrawn entirely at the discretion of the issuing rating agency if in its judgment circumstances so warrant. Any such downward revision, placing on a watch list or withdrawal of a rating could have an adverse effect on the market price of the Series A Preferred Stock or Series A-4 Preferred Stock.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

In the ordinary course of our business, we collect and store sensitive data, including our proprietary business information and that of our tenants and clients and personally identifiable information of our employees, in our facility and on our network. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our network and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, disrupt our operations, damage our reputation, and cause a loss of confidence, which could adversely affect our business.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

22

SUN COMMUNITIES, INC.

ITEM 2. PROPERTIES

As of December 31, 2014, the Properties consisted of 183 MH communities, 25 RV communities, and 9 properties containing both MH and RV sites located in 29 states. As of December 31, 2014, the Properties contained an aggregate of 79,554 developed sites comprised of 61,231 developed manufactured home sites, 9,297 annual RV sites (inclusive of both annual and seasonal usage rights), 9,026 transient RV sites, and approximately 7,000 additional manufactured home sites suitable for development. Most of the Properties include amenities oriented toward family and retirement living. Of the 217 Properties, 93 have more than 300 developed manufactured home sites; with the largest having 1,080 developed manufactured home sites. See "Real Estate and Accumulated Depreciation, Schedule III" for detail on Properties that are encumbered.

As of December 31, 2014, the Properties had an occupancy rate of 92.6% excluding transient RV sites. Since January 1, 2014, the Properties have averaged an aggregate annual turnover of homes (where the home is moved out of the community) of approximately 2.6% and an average annual turnover of residents (where the resident-owned home is sold and remains within the community, typically without interruption of rental income) of approximately 5.0%. The average renewal rate for residents in our Rental Program was 59.4% for the year ended December 31, 2014.

We believe that our Properties' high amenity levels contribute to low turnover and generally high occupancy rates. All of the Properties provide residents with attractive amenities with most offering a clubhouse, a swimming pool, and laundry facilities. Many of the Properties offer additional amenities such as sauna/whirlpool spas, tennis, shuffleboard and basketball courts and/or exercise rooms.

We have concentrated our communities within certain geographic areas in order to achieve economies of scale in management and operation. The Properties are principally concentrated in the midwestern, southern, northeastern and southeastern United States. We believe that geographic diversification helps to insulate the portfolio from regional economic influences.

The following tables set forth certain information relating to the properties owned as of December 31, 2014. The occupancy percentage includes MH sites and annual RV sites, and excludes transient RV sites.

(1) Properties have two licenses but operate as one community.

(2) Occupancy in these Properties reflects the fact that these communities are ground-up developments and have not reached full occupancy.

(3) Occupancy in these Properties reflects the fact that these communities are in a lease-up phase following an expansion.

(4) This Property is owned by an affiliate of SunChamp LLC, a joint venture that owns 11 of our consolidated manufactured home communities, in which we own approximately an 82.6% equity interest as of December 31, 2014.

(5) Occupancy percentage excludes transient RV sites. Percentage calculated by dividing revenue producing sites by developed sites. A revenue producing site is defined as a site that is occupied by a paying resident or reserved by a customer with annual or seasonal usage rights. A developed site is defined as an adequate sized parcel of land that has road and utility access which is zoned and licensed (if required) for use as a home site.

(6) The number of developed sites and occupancy percentage at this Property includes sites that have been covered under our comprehensive insurance coverage (subject to deductibles and certain limitations) for both property damage and business interruption from a flood that caused substantial damage to this Property.

(7) Property was sold on January 14, 2015.

SUN COMMUNITIES, INC.

EXECUTIVE OFFICERS OF THE REGISTRANT

The persons listed below are our executive officers.

Name	Age	Office
Gary A. Shiffman	60	Chairman and Chief Executive Officer
John B. McLaren	44	President and Chief Operating Officer
Karen J. Dearing	50	Executive Vice President, Treasurer, Chief Financial Officer and Secretary
Jonathan M. Colman	59	Executive Vice President

Gary A. Shiffman is our Chairman and Chief Executive Officer and has been an executive officer since our inception. He is a member of the Executive Committee of our Board of Directors. He has been actively involved in the management, acquisition, construction and development of MH communities and has developed an extensive network of industry relationships over the past thirty years. He has overseen the acquisition, rezoning, development and marketing of numerous manufactured home expansion projects, as well as other types of income producing real estate. Additionally, Mr. Shiffman has significant direct holdings in various real estate asset classes, which include office, multi-family, industrial, residential and retail. Mr. Shiffman is an executive officer and a director of SHS and all of our other corporate subsidiaries. Mr. Shiffman is also a director of Origen.

John B. McLaren has been in the manufactured housing industry since 1995. He has served as our President since February 2014 and as our Chief Operating Officer since February 2008. From February 2008 to February 2014, he served as an Executive Vice President of the Company. From August 2005 to February 2008, he was Senior Vice President of SHS with overall responsibility for home sales and leasing. Prior to that, Mr. McLaren was a Regional Vice President for Apartment Investment & Management Company (“AIMCO”), a Real Estate Investment Trust engaged in leasing apartments. Prior to AIMCO, Mr. McLaren spent approximately three years as Vice President of Leasing & Service for SHS with responsibility for developing and leading our Rental Program.

Karen J. Dearing joined us in October 1998 as the Director of Finance where she worked extensively with accounting and finance matters related to our ground up developments and expansions. Ms. Dearing became our Corporate Controller in 2002, a Senior Vice President in 2006, and Executive Vice President and Chief Financial Officer in February 2008. She is responsible for the overall management of our information technology, accounting and finance departments, and all internal and external financial reporting. Prior to working for us, Ms. Dearing had eight years of experience as the Financial Controller of a privately-owned automotive supplier and five years’ experience as a certified public accountant with Deloitte.

Jonathan M. Colman joined us in 1994 as Vice President-Acquisitions and became a Senior Vice President in 1995 and an Executive Vice President in March 2003. A certified public accountant, Mr. Colman has over thirty years of experience in the manufactured housing community industry. He has been involved in the acquisition, financing and management of over 75 manufactured housing communities for two of the 10 largest manufactured housing community owners, including Uniprop, Inc. during its syndication of over \$90.0 million in public limited partnerships in the late 1980s. Mr. Colman is also a Vice President of all of our corporate subsidiaries.

SUN COMMUNITIES, INC.

PART II

ITEM MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND
5. ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

Our common stock has been listed on the NYSE since December 8, 1993, and traded under the symbol "SUI". The following table sets forth the high and low sales prices per share for the common stock for the periods indicated as reported by the NYSE and the distributions per share paid by us with respect to each period:

Year Ended December 31, 2014	High	Low	Distributions	
1st Quarter	\$48.70	\$41.65	\$0.65	
2nd Quarter	\$50.84	\$42.97	\$0.65	
3rd Quarter	\$55.00	\$49.36	\$0.65	
4th Quarter	\$64.22	\$50.25	\$0.65	(1)
Year Ended December 31, 2013	High	Low	Distributions	
1st Quarter	\$49.38	\$40.28	\$0.63	
2nd Quarter	\$57.78	\$46.40	\$0.63	
3rd Quarter	\$53.35	\$41.93	\$0.63	
4th Quarter	\$45.96	\$39.53	\$0.63	(2)

(1) Paid on January 16, 2015, to stockholders of record on December 31, 2014

(2) Paid on January 17, 2014, to stockholders of record on December 31, 2013

On February 18, 2015, the closing share price of our common stock was \$67.32 per share on the NYSE, and there were 237 holders of record for the 53,465,428 million outstanding shares of common stock. On February 18, 2015, the Operating Partnership had (i) 2,561,342 common OP units issued and outstanding, not held by us, which were convertible into an equal number of shares of our common stock, (ii) 1,283,819 Aspen preferred OP units issued and outstanding which were exchangeable for 509,676 shares of our common stock, (iii) 427,120 Series A-1 preferred OP units issued and outstanding which were exchangeable for 1,041,754 shares of our common stock, (iv) 40,268 Series A-3 preferred OP units issued and outstanding which were exchangeable for 74,919 shares of our common stock, and (v) 869,449 Series A-4 preferred OP units issued and outstanding, not held by us, which were exchangeable for 386,383 shares of our common stock.

We have historically paid regular quarterly distributions to holders of our common stock and common OP Units. In addition, we are obligated to make distributions to holders of shares of Series A Preferred Stock, Series A-4 Preferred Stock, Aspen preferred OP units, Series A-1 preferred OP units, Series A-3 preferred OP units, Series A-4 preferred OP units and Series B-3 preferred OP units. See "Structure of the Company" under Part I, Item 1 of this Form 10-K. Our ability to make distributions on our common and preferred stock and OP units and payments on our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future. The decision to declare and pay distributions on shares of our common stock and common OP units in the future, as well as the timing, amount and composition of any such future distributions, will be at the sole discretion of our Board of Directors in light of conditions then existing, including our earnings, financial condition, capital requirements, debt maturities, the availability of debt and equity capital, applicable REIT and legal restrictions and the general overall economic conditions and other factors.

SUN COMMUNITIES, INC.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table reflects information about the securities authorized for issuance under our equity compensation plans as of December 31, 2014.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column a)
	(a)	(b)	(c)
Equity compensation plans approved by shareholders	32,500	\$29.56	316,494
Equity compensation plans not approved by shareholders	—	—	—
Total	32,500	\$29.56	316,494

Issuer Purchases of Equity Securities

In November 2004, our Board of Directors authorized us to repurchase up to 1,000,000 shares of our common stock. We have 400,000 common shares remaining in the repurchase program. No common shares were repurchased under this program during 2014. There is no expiration date specified for the repurchase program.

Recent Sales of Unregistered Securities

From time to time, we may issue shares of common stock in exchange for OP units that may be tendered to the Operating Partnership for redemption in accordance with the terms and provisions of the limited partnership agreement of the Operating Partnership. Such shares are issued based on the exchange ratios and formulas described in “Structure of the Company” under Item 1 above.

Holder of common OP Units have converted 9,110 units, zero units and 2,400 units to common stock for the years ended December 31, 2014, 2013 and 2012, respectively.

Holder of Series A-1 preferred OP units converted 26,379 units into 64,335 shares of common stock during the year ended December 31, 2014. No Series A-1 preferred OP units were converted into common stock during 2013 or 2012.

On November 26, 2014, as consideration for the Green Courte acquisition, we issued to the Green Courte sellers 361,797 shares of common stock and 483,717 shares of Class A-4 Preferred Stock, and our Operating Partnership issued to the Green Courte sellers 455,296 common OP units and 608,220 Series A-4 preferred OP units. On December 17, 2014, as additional consideration for the Green Courte acquisition, our Operating Partnership issued to the Green Courte sellers 45,834 common OP units and 61,229 Series A-4 preferred OP units. All of the shares of common stock and common OP units were issued at an issuance price of \$50.00 per share or unit. All of the shares of Series A-4 Preferred Stock and Series A-4 preferred OP units were issued at an issuance price of \$25.00 per share or unit. See Note 2 to our financial statements for other consideration transferred in the transaction.

Subject to certain limitations, upon written notice to us, each holder of shares of Series A-4 Preferred Stock at its option may convert any or all of the shares of Series A-4 Preferred Stock held by it for that number of shares of our

common stock equal to the quotient obtained by dividing \$25.00 by the then-applicable conversion price. The initial conversion price is \$56.25, so initially each share of Series A-4 Preferred Stock is convertible into approximately 0.4444 shares of common stock. The conversion price is subject to adjustment upon various events. At our option, instead of issuing the shares of common stock to the converting holder of Series A-4 Preferred Stock as described above, we may make a cash payment to the converting holder with respect to each share of Series A-4 Preferred Stock the holder desires to convert equal to the fair market value of one share of our common stock. If, at any time after November 26, 2019, the volume weighted average of the daily volume weighted average price of a share of our common stock on the NYSE equals or exceeds 115.5% of the then prevailing conversion price for at least 20 trading days in a period of 30 consecutive trading days, then, within 10 days thereafter, upon written notice to the holders thereof, we may convert each outstanding share of Series A-4 Preferred Stock into that number of shares of common stock equal to the quotient obtained by dividing \$25.00 by the then prevailing conversion price.

Each Series A-4 preferred OP unit is initially exchangeable for that number of shares of common stock or common OP units obtained by dividing \$25.00 by \$56.25. The number of shares of common stock or common OP units into which each Series A-4

SUN COMMUNITIES, INC.

preferred OP unit is exchangeable are subject to adjustment under certain circumstances on the same basis applicable to adjustments in the conversion price for Series A-4 Preferred Stock described above.

Each common OP unit issued by the Operating Partnership is exchangeable at any time (subject to certain limited exceptions) at the holder's option for one share of our common stock.

All of the securities described above were issued in private placements in reliance on Section 4(a)(2) of the Securities Act, including Regulation D promulgated thereunder, based on certain investment representations made by the parties to whom the securities were issued. No underwriters were used in connection with any of such issuances.

SUN COMMUNITIES, INC.

Performance Graph

Set forth below is a line graph comparing the yearly percentage change in the cumulative total shareholder return on our common stock against the cumulative total return of a broad market index composed of all issuers listed on the NYSE and an industry index comprised of fifteen publicly traded residential real estate investment trusts, for the five year period ending on December 31, 2014. This line graph assumes a \$100 investment on December 31, 2009, a reinvestment of distributions and actual increase of the market value of our common stock relative to an initial investment of \$100. The comparisons in this table are required by the SEC and are not intended to forecast or be indicative of possible future performance of our common stock.

Index	As of December 31,					
	2009	2010	2011	2012	2013	2014

SUN COMMUNITIES, INC.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the consolidated financial statements and notes thereto included in this Form 10-K.

EXECUTIVE SUMMARY

2014 Accomplishments

Completed largest acquisition to date with the first closing of the Green Courte acquisition representing 31 MH communities.

Completed acquisitions of six RV communities for an aggregate purchase price of approximately \$137.4 million.

Closed on the disposition of 10 MH communities and recognized a gain on disposition of assets, net of approximately \$17.7 million.

Increased our Same Site occupancy to 93.2% in 2014 from 91.5% in 2013.

- Closed two underwritten registered public offerings totaling 11.7 million shares of common stock with net proceeds of approximately \$562.9 million after deducting offering related expenses.

Increased our annual distribution rate to \$2.60 per share in 2014, an increase of \$0.08 compared to \$2.52 per share in 2013.

Property Operations:

Occupancy in our Properties as well as our ability to increase rental rates directly affects revenues. Our revenue streams are predominantly derived from customers renting our sites on a long-term basis. Our Same Site properties continue to achieve revenue and occupancy increases which drive continued Net Operating Income ("NOI") growth. Home sales are at their historical high, and we expect to continue to increase the number of homes sold in our portfolio.

Portfolio Information:	Year Ended December 31,			
	2014	2013	2012	
Occupancy % - Total Portfolio - MH and annual RV ⁽¹⁾	92.6	% 89.7	% 87.3	%
Occupancy % - Same Site - MH and annual RV ⁽¹⁾⁽²⁾	93.2	% 91.5	% 87.1	%
Funds from operations excluding certain items ⁽³⁾	\$3.37	\$3.22	\$3.19	
NOI ⁽³⁾ - Total Portfolio	\$232,478	\$203,176	\$167,715	
NOI ⁽³⁾ - Same Site	\$206,744	\$191,938	\$164,041	
Homes Sold	1,966	1,929	1,742	
Number of Occupied Rental Homes	10,973	9,726	8,110	

(1) Occupancy % includes MH and annual RV sites, and exclude transient RV sites, which are included in total developed sites.

(2) Occupancy % excludes recently completed but vacant expansion sites.

(3) Refer to Item 7, Supplemental Measures, for information regarding the presentation of the NOI financial measure and funds from operations excluding certain items financial measure.

SUN COMMUNITIES, INC.

Acquisition and Disposition Activity:

During the past three years, we have completed acquisitions of 68 properties with over 26,000 sites located in high growth areas and retirement and vacation destinations such as Florida, California and Eastern coastal areas such as Old Orchard Beach, Maine; Cape May, New Jersey; Chesapeake Bay, Virginia and Cape Cod, Massachusetts.

During 2014, we completed eight acquisitions consisting of six RV communities and 33 MH communities:

Property/Portfolio	Location	Type	Total Consideration	Number of sites - MH/Annual	Number of sites - Transient
Wine Country RV Resort	Paso Robles, CA	RV	\$ 13,199	—	166
Castaways RV Resort & Campground	Worcester County, MD	RV	\$36,102	7	362
Seashore Campsites RV & Campground	Cape May, NJ	RV	\$23,582	430	253
Driftwood Camping Resort	Clermont, NJ	RV	\$31,259	570	128
Saco/Old Orchard Beach RV Resort	Saco, Maine	RV	\$4,133	—	127
Lake Rudolph Campground & RV Resort	Santa Claus, IN	RV	\$29,101	—	501
Green Courte properties	AZ, FL, NY, PA, MT, MI, CO, ME, MN, WI, IL, CA	MH	\$460,683	9,351	188
Oak Creek	Coarsegold, CA	MH	\$6,015	198	—

During 2014, we announced our acquisition of the Green Courte properties for a purchase price of \$1.3 billion, which is our largest acquisition to date. The Green Courte portfolio includes 59 MH communities comprised of over 19,000 sites. This acquisition provides us with a portfolio of large, well-located high-quality communities with attractive amenities and potential for occupancy and rent growth. It increases our overall geographic diversification and size of our age-restricted portfolio with additional exposure to the sought after Florida and Arizona markets. Approximately, 56% of the communities are located in Florida and 73% are considered age-restricted, adding significant growth to our existing highly-stable age-restricted portfolio.

The acquisition was completed in two phases. We acquired 33 properties, which we will operate as 31 communities, on November 26, 2014, and the remaining 26 properties on January 6, 2015.

We continue to experience an active pipeline of acquisition opportunities and will seek to enhance the growth of the Company through continued selective acquisitions. In December 2014, we announced that we entered into an agreement to purchase six MH communities which is expected to close during the second quarter of 2015, comprised of approximately 3,150 sites located in the Orlando, Florida area and with expansion potential of approximately 380 sites. The transaction is subject to the Company's satisfaction with its due diligence investigation and customary closing conditions, including consent of the existing lenders.

We continually review the properties in our portfolio to ensure that they fit our business objectives. During 2014, we sold 10 MH Properties, and redeployed capital to properties in markets we believe have greater long-term potential. A gain of \$17.7 million is recorded in "Gain on disposition of properties, net" in our consolidated statements of operations.

Development Activity:

We have been focused on development and expansion opportunities adjacent to our existing communities, and we have developed nearly 1,400 sites over the past three years. We expanded 374 sites at three properties in 2014. The total cost to construct the sites was approximately \$11.0 million. We continue to expand our properties utilizing our

inventory of owned and entitled land (approximately 7,000 developed sites) and expect to construct over 800 additional sites in 2015.

SUN COMMUNITIES, INC.

Capital Activity:

We closed two underwritten registered public offerings during 2014 totaling 11.7 million shares of common stock with net proceeds of approximately \$562.9 million after deducting offering related expenses.

Proceeds from these capital raises help us to maintain our targeted leverage levels while continuing to expand our portfolio.

Markets

The following table identifies the Company's largest markets by number of sites:

Major Market	Number of Properties	Total Sites	Percentage of Total Sites	
Michigan	70	24,723	31.1	%
Florida	29	13,763	17.3	%
Northeast	26	9,000	11.3	%
Southwest	18	6,721	8.4	%
Texas	18	6,628	8.3	%
Indiana	17	6,212	7.8	%
Ohio	11	3,664	4.6	%
Other	28	8,843	11.1	%
TOTAL	217	79,554		

A large geographic concentration of our properties continues to be in Michigan, Florida and Texas. Occupancy at our Michigan communities has grown from 85% in 2012 to 93% in 2014, occupancy at our Texas communities has grown from 94% in 2012 to 97% in 2014, while occupancy at our Florida communities has remained consistent at 99%. As a result of our recent acquisitions, we have increased the concentration of our properties located in other areas of the United States, predominantly in high growth areas and retirement and vacation destinations, such as Arizona, California and the Northeastern coastal areas. Several of our acquisitions in these areas have been RV communities. Through our expansion into RV communities, we have experienced strong revenue growth. The age demographic of RV communities is attractive, as the population of retirement age baby boomers in the U.S. is growing. RV communities have become a trending vacation opportunity not only for the retiree population, but as an affordable vacation alternative for families.

SUN COMMUNITIES, INC.

SUPPLEMENTAL MEASURES

In addition to the results reported in accordance with generally accepted accounting principles in the United States (“GAAP”), we have provided information regarding NOI in the following tables. NOI is derived from revenues minus property operating and maintenance expenses and real estate taxes. We use NOI as the primary basis to evaluate the performance of our operations. A reconciliation of NOI to net income (loss) attributable to Sun Communities, Inc. is included in “Results of Operations” below.

We believe that NOI is helpful to investors and analysts as a measure of operating performance because it is an indicator of the return on property investment, and provides a method of comparing property performance over time. We use NOI as a key management tool when evaluating performance and growth of particular properties and/or groups of properties. The principal limitation of NOI is that it excludes depreciation, amortization, interest expense, and non-property specific expenses such as general and administrative expenses, all of which are significant costs, and therefore, NOI is a measure of the operating performance of our properties rather than of the Company overall. We believe that these costs included in net income (loss) often have no effect on the market value of our property and therefore limit its use as a performance measure. In addition, such expenses are often incurred at a parent company level and therefore are not necessarily linked to the performance of a real estate asset.

NOI should not be considered a substitute for the reported results prepared in accordance with GAAP. NOI should not be considered as an alternative to net income (loss) as an indicator of our financial performance, or to cash flows as a measure of liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions. NOI, as determined and presented by us, may not be comparable to related or similarly titled measures reported by other companies.

We also provide information regarding Funds From Operations (“FFO”). We consider FFO an appropriate supplemental measure of the financial performance of an equity REIT. Under the National Association of Real Estate Investment Trusts (“NAREIT”) definition, FFO represents net income, excluding extraordinary items (as defined under GAAP), and gain (loss) on sales of depreciable property, plus real estate related depreciation and amortization (excluding amortization of financing costs), and after adjustments for unconsolidated partnerships and joint ventures. Management also uses FFO excluding certain items, a non-GAAP financial measure, which excludes certain gain and loss items that management considers unrelated to the operational and financial performance of our core business. We believe that this provides investors with another financial measure of our operating performance that is more comparable when evaluating period over period results. A discussion of FFO, FFO excluding certain items, a reconciliation of FFO to net income (loss), and FFO to FFO excluding certain items are included in the presentation of FFO following our “Results of Operations.”

SUN COMMUNITIES, INC.

The following table is a summary of our consolidated financial results which are discussed in more detail in the following paragraphs (in thousands):

	Year Ended December 31,

SUN COMMUNITIES, INC.

RESULTS OF OPERATIONS

We report operating results under two segments: Real Property Operations and Home Sales and Rentals. The Real Property Operations segment owns, operates, and develops MH communities and RV communities throughout the United States and is in the business of acquiring, operating, and expanding MH and RV communities. The Home Sales and Rentals segment offers manufactured home sales and leasing services to tenants and prospective tenants of our communities. We evaluate segment operating performance based on NOI and gross profit.

COMPARISON OF THE YEARS ENDED DECEMBER 31, 2014 AND 2013

REAL PROPERTY OPERATIONS – TOTAL PORTFOLIO

The following tables reflect certain financial and other information for our Total Portfolio for the years ended December 31, 2014 and 2013:

Financial Information (in thousands)	Year Ended December 31,				
	2014	2013	Change	% Change	
Income from Real Property	\$357,793	\$313,097	\$44,696	14.3	%
Property operating expenses:					
Payroll and benefits	30,107	26,750	3,357	12.5	%
Legal, taxes, & insurance	5,089	4,769	320	6.7	%
Utilities	41,275	36,071	5,204	14.4	%
Supplies and repair	13,535	11,213	2,322	20.7	%
Other	11,128	8,834	2,294	26.0	%
Real estate taxes	24,181	22,284	1,897	8.5	%
Property operating expenses	125,315	109,921	15,394	14.0	%
Real Property NOI	\$232,478	\$203,176	\$29,302	14.4	%

Other Information	As of December 31,			Change	
	2014	2013			
Number of properties	217	188		29	
Developed sites	79,554	69,789		9,765

Weighted average monthly site rent - MH	\$458	\$445		\$13	
Weighted average monthly site rent - RV ⁽³⁾	\$391	\$376		\$15	
Weighted average monthly site rent - Total	\$450	\$436		\$14	
Sites available for development	6,987	6,339		648	

⁽¹⁾ Occupied sites and occupancy % include MH and annual RV sites, and exclude transient RV sites, which are included in total developed sites.

⁽²⁾ Occupied sites include 9,779 sites acquired during 2014 and 2,480 sites acquired in 2013.

⁽³⁾ Weighted average rent pertains to annual RV sites and excludes transient RV sites.

The 14.4% growth in Real Property NOI consists of \$14.5 million from newly acquired properties and \$14.8 million from our Same Site properties as detailed below.

SUN COMMUNITIES, INC.

REAL PROPERTY OPERATIONS – SAME SITE

A key management tool used when evaluating performance and growth of our properties is a comparison of "Same Site" communities. Same Site communities consist of properties owned and operated throughout 2014 and 2013. The Same Site data may change from time-to-time depending on acquisitions, dispositions, management discretion, significant transactions, or unique situations. The Same Site data in this Form 10-K includes all properties acquired prior to December 31, 2012 and which we have owned and operated continuously since January 1, 2013.

In order to evaluate the growth of the Same Site communities, management has classified certain items differently than our GAAP statements. The reclassification difference between our GAAP statements and our Same Site portfolio is the reclassification of water and sewer revenues from income from real property to utilities. A significant portion of our utility charges are re-billed to our residents. We reclassify these amounts to reflect the utility expenses associated with our Same Site portfolio net of recovery.

The following tables reflect certain financial and other information for our Same Site communities for the years ended December 31, 2014 and 2013:

Financial Information (in thousands) ⁽¹⁾	Year Ended December 31,			
	2014	2013	Change	% Change
Income from Real Property	\$291,720	\$273,574	\$18,146	6.6 %
Property operating expenses:				
Payroll and benefits	22,585	22,918	(333)	(1.5)%
Legal, taxes, & insurance	4,630	4,390	240	5.5 %
Utilities	16,593	15,620	973	6.2 %
Supplies and repair	11,396	10,222	1,174	11.5 %
Other	8,354	7,610	744	9.8 %
Real estate taxes	21,418	20,876	542	2.6 %
Property operating expenses	84,976	81,636	3,340	4.1 %
Real Property NOI	\$206,744	\$191,938	\$14,806	7.7 %

(1) Excludes 10 properties that were disposed during 2014 (refer to Note 2 to our consolidated financial statements).

Other Information ⁽¹⁾	As of December 31,		
	2014	2013	Change
Number of properties	163	163	—
Developed sites	61,734	61,141	593
Occupied sites ⁽²⁾	52,831	51,119	1,712
Occupancy % ⁽²⁾⁽³⁾	93.2 %	91.5 %	1.7 %
Weighted average monthly site rent - MH	\$461	\$446	\$15
Weighted average monthly site rent - RV ⁽⁴⁾	\$413	\$405	\$8
Weighted average monthly site rent - Total	\$456	\$442	\$14
Sites available for development	5,823	6,339	(516)

(1) Excludes 10 properties that were disposed during 2014 (refer to Note 2 to our consolidated financial statements).

(2) Occupied sites and occupancy % include MH and annual RV sites, and exclude transient RV sites, which are included in total developed sites.

(3) Occupancy % excludes recently completed but vacant expansion sites.

(4) Weighted average rent pertains to annual RV sites and excludes transient RV sites.

The 7.7% growth in NOI is primarily due to increased revenues of \$18.1 million partially offset by a \$3.3 million increase in expenses.

Income from real property revenue consists of MH and RV site rent, and miscellaneous other property revenues. The 6.6% growth in income from real property was due to a combination of factors. Revenue from our MH and RV portfolio increased \$17.1 million due to weighted average rental rate increases of 3.2% and the increased number of occupied home sites. This growth in revenue was partially offset by rent concessions offered to new residents and current residents converting from home renters to home owners. Additionally, other revenues increased \$1.1 million primarily due to increases in late fees and insufficient fund charges, month to month fees, application fees, trash income and cable television royalties.

Property operating expenses increased approximately \$3.3 million, or 4.1%, compared to 2013. Of that increase, supplies and repair increased \$1.2 million, of which approximately \$0.5 million was primarily related to weather related maintenance and repair

SUN COMMUNITIES, INC.

costs resulting from extreme temperatures experienced in certain areas of the country during the first part of 2014, \$0.4 million was related to lawn services and tree trimming and removal and \$0.2 million was related to general community maintenance and vehicle maintenance. Utilities increased \$1.0 million primarily as a result of increased gas, electric and trash removal costs. Real estate taxes increased by \$0.5 million, and other expenses increased by \$0.7 million primarily due to increases in bad debt expense and miscellaneous expenses such as software maintenance expense and bank service and credit card processing charges.

HOME SALES AND RENTALS

We acquire pre-owned and repossessed manufactured homes generally located within our communities from lenders and dealers at substantial discounts. We lease or sell these value priced homes to current and prospective residents. We also purchase new homes to lease and sell to current and prospective residents.

The following table reflects certain financial and statistical information for our Home Sales Program for the years ended December 31, 2014 and 2013 (in thousands, except for statistical information):

Financial Information	Year Ended December 31,			
	2014	2013	Change	% Change
New home sales	\$9,464	\$6,645	\$2,819	42.4 %
Pre-owned home sales	44,490	48,207	(3,717)	(7.7)%
Revenue from homes sales	53,954	54,852	(898)	(1.6)%
New home cost of sales	7,977	5,557	2,420	43.5 %
Pre-owned home cost of sales	32,579	34,740	(2,161)	(6.2)%
Cost of home sales	40,556	40,297	259	0.6 %
NOI / Gross profit	\$13,398	\$14,555	\$(1,157)	(7.9)%
Gross profit – new homes	\$1,487	\$1,088	\$399	36.7 %
Gross margin % – new homes	15.7 %	16.4 %	(0.7)%	
Gross profit – pre-owned homes	\$11,911	\$13,467	\$(1,569)	(11.7)%
Gross margin % – pre-owned homes	26.8 %	27.9 %	(1.1)%	
Statistical Information				
Home sales volume:				
New home sales	113	85	28	32.9 %
Pre-owned home sales	1,853	1,844	9	0.5 %
Total homes sold	1,966	1,929	37	1.9 %

Home Sales NOI/Gross profit increased \$0.4 million on new home sales and decreased \$1.6 million on pre-owned home sales. The increased profit on new home sales is primarily due to an increase in volume of home sales. The decreased profit on pre-owned home sales is primarily a result of decreased per unit selling prices in 2014.

SUN COMMUNITIES, INC.

The following table reflects certain financial and other information for our Rental Program for the years ended December 31, 2014 and 2013 (in thousands, except for statistical information):

Financial Information	Year Ended December 31,			
	2014	2013	Change	% Change
Rental home revenue	\$39,213	\$32,500	\$6,713	20.7 %
Site rent from Rental Program ⁽¹⁾	54,289	46,416	7,873	17.0 %
Rental Program revenue	93,502	78,916	14,586	18.5 %
Expenses				
Commissions	2,607	2,507	100	4.0 %
Repairs and refurbishment	11,068	9,411	1,657	17.6 %
Taxes and insurance	5,286	4,446	840	18.9 %
Marketing and other	4,309	4,071	238	5.8 %
Rental Program operating and maintenance	23,270	20,435	2,893	14.2 %
Rental Program NOI	\$70,232	\$58,481	\$11,751	20.0 %
Other Information				
Number of occupied rentals, end of period	10,973	9,726	1,247	12.8 %
Investment in occupied rental homes	\$429,605	\$355,789	\$73,816	20.7 %
Number of sold rental homes	799	924	(125)	(13.5)%
Weighted average monthly rental rate	\$822	\$796	\$26	3.3 %

⁽¹⁾ The renter's monthly payment includes the site rent and an amount attributable to the leasing of the home. The site rent is reflected in the Real Property Operations segment. For purposes of management analysis, the site rent is included in the Rental Program revenue to evaluate the incremental revenue gains associated with implementation of the Rental Program, and assess the overall growth and performance of Rental Program and financial impact to our operations.

The 20.0% growth in NOI is primarily as a result of the increased number of residents participating in the Rental Program and from increased monthly rental rates as indicated in the table above. We renew approximately 60% of our rental home leases primarily at current market rates or above existing rates.

The increase in operating and maintenance expense of \$2.9 million was primarily a result of increased repair and refurbishment expenses of \$1.7 million, of which \$0.9 million was due to increased refurbishment costs related to occupant turnover and \$0.8 million was due to increased repair costs on occupied home rentals. In addition, insurance and personal property and use taxes increased \$0.8 million due to the additional number of homes in the Rental Program and bad debt expense increased \$0.6 million, partially offset by a decrease in advertising expense of \$0.4 million.

SUN COMMUNITIES, INC.

OTHER INCOME STATEMENT ITEMS

The following table summarizes other income and expenses for the years ended December 31, 2014 and 2013 (amounts in thousands):

	Year Ended December 31,		Change	% Change	
	2014	2013			
Ancillary revenues, net	\$5,217	\$1,151	\$4,066	353.3	%
Interest income	\$14,462	\$13,073	\$1,389	10.6	%
Brokerage commissions and other revenues	\$1,036	\$549	\$487	88.7	%
Real property general and administrative	\$31,769	\$25,941	\$5,828	22.5	%
Home sales and rentals general and administrative	\$10,853	\$9,913	\$940	9.5	%
Transaction costs	\$18,259	\$3,928	\$14,331	364.8	%
Depreciation and amortization	\$133,726	\$110,078	\$23,648	21.5	%
Asset impairment charge	\$837	\$—	\$837	N/A	
Interest expense	\$76,981	\$76,577	\$404	0.5	%
Gain on disposition of properties, net	\$17,654	\$—	\$17,654	N/A	
Gain on settlement	\$4,452	\$—	\$4,452	N/A	
Distributions from affiliates	\$1,200	\$2,250	\$(1,050)	(46.7))%

Ancillary revenues, net increased \$4.1 million primarily related to increased vacation rental income of \$3.2 million and increased merchandise income. The increased merchandise income was primarily a result of our acquisition of six RV communities during 2014 and a full year of activity for the 14 RV communities acquired in 2013.

Interest income increased \$1.4 million primarily due to an increase in interest income from collateralized receivables of \$1.2 million.

Real property general and administrative expenses increased \$5.8 million primarily due to increased salaries, wages and bonus expense of \$2.3 million as a result of our acquisitions and increased headcount year over year, increased deferred compensation of \$1.7 million due to awards of restricted stock to our executives and key employees, increased legal expense of \$0.7 million and increased other expenses of \$1.2 million primarily related to increased consulting fees, director fees, corporate office rent and software support and maintenance fees.

Transaction costs increased primarily due to due diligence and other transaction costs related to the Green Courte acquisition (see Note 2).

Depreciation and amortization expenses increased as a result of additional depreciation and amortization of \$16.2 million primarily related to our newly acquired properties (See Note 2 to our financial statements), \$5.7 million related to depreciation on investment property for use in our rental program, \$2.3 million related to depreciation on investment property for our vacation rental property, and \$1.7 million related to the amortization of in place leases and promotions, partially offset by \$2.6 million related to the write off of the remaining net book value for assets replaced during the year.

Asset impairment charge of \$0.8 million is a result of an impairment loss recorded on a long-lived asset for our MH and RV community in La Feria, Texas during 2014. We did not recognize any impairment losses in 2013.

Gain on disposition of properties, net of \$17.7 million is a result of the sale of 10 MH properties during the year ended December 31, 2014 (see Note 2). We did not dispose of any properties in 2013.

Gain on settlement of \$4.5 million is the result of a settlement reached with the selling entities of 10 RV communities that we acquired in February 2013. The settlement was related to various warranties, representations and indemnities included in the agreements under which we acquired the RV communities, including a covenant made by the sellers related to the 2012 revenue of the acquired properties. No such gain was recorded in 2013.

SUN COMMUNITIES, INC.

Distributions from affiliate decreased \$1.1 million. We suspended equity accounting in 2010 on our affiliate, Origen, as our investment balance is zero. The income recorded in 2014 is distribution income. The amount of the distribution is determined by Origen on a quarterly basis. See Note 7 to our financial statements.

SUN COMMUNITIES, INC.

COMPARISON OF THE YEARS ENDED DECEMBER 31, 2013 AND 2012

REAL PROPERTY OPERATIONS – TOTAL PORTFOLIO

The following tables reflect certain financial and other information for our Total Portfolio for the year ended December 31, 2013 and 2012:

Financial Information (in thousands)	Year Ended December 31,			
	2013	2012	Change	% Change
Income from Real Property	\$313,097	\$255,761	\$57,336	22.4 %
Property operating expenses:				
Payroll and benefits	26,750	19,410	7,340	37.8 %
Legal, taxes, & insurance	4,769	3,216	1,553	48.3 %
Utilities	36,071	29,445	6,626	22.5 %
Supplies and repair	11,213	10,085	1,128	11.2 %
Other	8,834	6,683	2,151	32.2 %
Real estate taxes	22,284	19,207	3,077	16.0 %
Property operating expenses	109,921	88,046	21,875	24.8 %
Real Property NOI	\$203,176	\$167,715	\$35,461	21.1 %

Other Information	As of December 31,			
	2013	2012	Change	
Number of properties	188	173	15	
Developed sites	69,789	63,697	6,092	
Occupied sites ^{(1) (2)}	55,459	50,412	5,047	
Occupancy % ⁽¹⁾	89.7 %	87.3 %	2.4 %	
Weighted average monthly site rent - MH ⁽³⁾	\$445	\$433	\$12	
Weighted average monthly site rent - RV ⁽³⁾	\$376	\$392	\$(16))
Weighted average monthly site rent - Total	\$436	\$430	\$6	
Sites available for development	6,339	6,969	(630))

⁽¹⁾ Occupied sites and occupancy % include MH and annual RV sites and excludes transient RV sites.

⁽²⁾ Occupied sites include 2,480 sites acquired in 2013 and 4,989 sites acquired during 2012.

⁽³⁾ Weighted average rent pertains to annual RV sites and excludes transient RV sites.

The 21.1% growth in NOI was primarily due to \$25.9 million from newly acquired properties and \$9.6 million from Same Site properties as detailed below.

SUN COMMUNITIES, INC.

REAL PROPERTY OPERATIONS – SAME SITE

The Same Site information in this comparison of the years ended December 31, 2013 and 2012 includes all properties acquired on or prior to December 31, 2011 and which were owned and operated by the Company during the years ended December 31, 2013 and 2012.

Financial Information (in thousands)	Year Ended December 31,			
	2013	2012	Change	% Change
Income from Real Property	\$245,703	\$233,858	\$11,845	5.1 %
Property operating expenses:				
Payroll and benefits	19,349	18,522	827	4.5 %
Legal, taxes, & insurance	4,101	3,125	976	31.2 %
Utilities	13,624	13,279	345	2.6 %
Supplies and repair	9,279	9,687	(408)	(4.2)%
Other	6,706	6,421	285	4.4 %
Real estate taxes	18,970	18,783	187	1.0 %
Property operating expenses	72,029	69,817	2,212	3.2 %
Real Property NOI	\$173,674	\$164,041	\$9,633	5.9 %

Other Information	As of December 31,		
	2013	2012	Change
Number of properties	159	159	—
Developed sites	55,590	55,006	584
Occupied sites ⁽¹⁾	46,908	45,224	1,684
Occupancy % ⁽¹⁾⁽²⁾	88.9 %	87.1 %	1.8 %
Weighted average monthly rent per site - MH ⁽³⁾	\$445	\$433	\$12
Weighted average monthly rent per site - RV ⁽³⁾	\$405	\$392	\$13
Weighted average month rent per site - Total	\$442	\$430	\$12
Sites available for development	5,631	6,104	(473)

⁽¹⁾ Occupied sites and occupancy % include MH and annual RV sites, and excludes transient RV sites.

⁽²⁾ Occupancy % excludes recently completed but vacant expansion sites.

⁽³⁾ Weighted average rent pertains to annual RV sites and excludes transient RV sites.

The 5.9% growth in NOI is primarily due to increased revenues of \$11.8 million partially offset by a \$2.2 million increase in expenses.

Income from real property revenue consists of MH and RV site rent, and miscellaneous other property revenues. The 5.1% growth in income from real property was due to a combination of factors. Revenue from our MH and RV portfolio increased \$10.7 million due to weighted average rental rate increases of 3.1% and due to the increased number of occupied home sites. This growth in revenue was partially offset by rent concessions offered to new residents and current residents converting from home renters to home owners. Additionally, other revenues increased \$1.1 million primarily due to increases in late fees and insufficient fund charges, cable television royalties, property tax revenues and utility income.

Property operating expenses increased approximately \$2.2 million, or 3.2%, compared to 2012. Of that increase, payroll and benefits increased by \$0.8 million primarily as a result of increased health insurance, workers compensation costs and salary increases. Legal, taxes and insurance increased \$1.0 million primarily due to \$0.6

million of increased property and casualty insurance and \$0.4 million of increased legal fees. Utility expense increased \$0.3 million primarily as a result of the increased gas and electric costs. These increases were partially offset by a decrease in supplies and repairs of \$0.4 million, which was primarily due to decreased lawn services and tree trimming/removal expense, decreased maintenance and repair expenses for water, irrigation and electric systems and decreased maintenance expenses for our clubhouses, garages, sheds and carports.

SUN COMMUNITIES, INC.

HOME SALES AND RENTALS

We acquire pre-owned and repossessed manufactured homes generally located within our communities from lenders and dealers at substantial discounts. We lease or sell these value priced homes to current and prospective residents. We also purchase new homes to lease and sell to current and prospective residents.

The following table reflects certain financial and statistical information for our Home Sales Program for the years ended December 31, 2013 and 2012 (in thousands, except for statistical information):

Financial Information	Year Ended December 31,				% Change
	2013	2012	Change	% Change	
New home sales	\$6,645	\$5,380	\$1,265	23.5	%
Pre-owned home sales	48,207	39,767	8,440	21.2	%
Revenue from homes sales	54,852	45,147	9,705	21.5	%
New home cost of sales	5,557	4,553	1,004	22.1	%
Pre-owned home cost of sales	34,740	30,365	4,375	14.4	%
Cost of home sales	40,297	34,918	5,379	15.4	%
NOI / Gross profit	\$14,555	\$10,229	\$4,326	42.3	%
Gross profit – new homes	\$1,088	\$827	\$261	31.6	%
Gross margin % – new homes	16.4	% 15.4	% 1.0	%	
Gross profit – pre-owned homes	\$13,467	\$9,402	\$4,065	43.2	%
Gross margin % – pre-owned homes	27.9	% 23.6	% 4.3	%	
Statistical Information					
Home sales volume:					
New home sales	85	76	9	11.8	%
Pre-owned home sales	1,844	1,666	178	10.7	%
Total homes sold	1,929	1,742	187	10.7	%

Home Sales NOI/Gross profit increased \$0.3 million on new home sales and \$4.1 million on preowned home sales. The increased profits are due to both an increase in volume of home sales and an increase in average selling price.

SUN COMMUNITIES, INC.

The following table reflects certain financial and other information for our Rental Program for the years ended December 31, 2013 and 2012 (in thousands, except for statistical information):

Financial Information	Year Ended December 31,			
	2013	2012	Change	% Change
Rental home revenue	\$32,500	\$26,589	\$5,911	22.2 %
Site rent from Rental Program ⁽¹⁾	46,416	38,636	7,780	20.1 %
Rental Program revenue	78,916	65,225	13,691	21.0 %
Expenses				
Commissions	2,507	2,207	300	13.6 %
Repairs and refurbishment	9,411	9,002	409	4.5 %
Taxes and insurance	4,446	3,467	979	28.2 %
Marketing and other	4,071	3,465	606	17.5 %
Rental Program operating and maintenance	20,435	18,141	2,294	12.6 %
Rental Program NOI	\$58,481	\$47,084	\$11,397	24.2 %
Other Information				
Number of occupied rentals, end of period	9,726	8,110	1,616	19.9 %
Investment in occupied rental homes	\$355,789	\$287,261	\$68,528	23.9 %
Number of sold rental homes	924	953	(29)	(3.0)%
Weighted average monthly rental rate	\$796	\$782	\$14	1.8 %

⁽¹⁾ The renter's monthly payment includes the site rent and an amount attributable to the leasing of the home. The site rent is reflected in the Real Property Operations segment. For purposes of management analysis, the site rent is included in the Rental Program revenue to evaluate the incremental revenue gains associated with implementation of the Rental Program, and assess the overall growth and performance of Rental Program and financial impact to our operations.

The 24.2% growth in NOI is primarily as a result of the increased number of residents participating in the Rental Program and from increased monthly rental rates as indicated in the table above.

The increase in operating and maintenance expense of \$2.3 million was a result of several factors. Personal property and use taxes increased \$0.6 million and property and casualty insurance increased \$0.4 million, both due to the additional homes in the Rental Program, and bad debt expense increased \$0.5 million. Commissions increased \$0.3 million, primarily due to the increased number of new leases.

SUN COMMUNITIES, INC.

OTHER INCOME STATEMENT ITEMS

The following table summarizes other income and expenses for the years ended December 31, 2013 and 2012 (amounts in thousands):

	Year Ended December 31,		Change	% Change	
	2013	2012			
Ancillary revenues, net	\$1,151	\$ (180)) \$1,331	(739.4)%
Interest income	\$13,073	\$11,018	\$2,055	18.7	%
Brokerage commissions and other revenues	\$549	\$617	\$(68) (11.0)%
Real property general and administrative	\$25,941	\$20,037	\$5,904	29.5	%
Home sales and rentals general and administrative	\$9,913	\$8,316	\$1,597	19.2	%
Transaction costs	\$3,928	\$4,296	\$(368) (8.6)%
Depreciation and amortization	\$110,078	\$89,674	\$20,404	22.8	%
Interest expense	\$76,577	\$71,180	\$5,397	7.6	%
Distributions from affiliates	\$2,250	\$3,900	\$(1,650) (42.3)%

Ancillary revenues, net increased \$1.3 million primarily related to increases in our vacation rental income and golf course, restaurant and pro shop income, as a result of our acquisition of 14 RV communities during 2013.

Interest income increased primarily due to increases in interest income of \$1.3 million from collateralized receivables and \$0.7 million from installment note receivables.

Real property general and administrative costs increased primarily due to increased salaries, wages and bonus expense of \$2.1 million as a result of our acquisitions and increased headcount year over year, increased health insurance and workers compensation costs of \$0.5 million, increased deferred compensation of \$1.7 million due to awards of restricted stock to our executives and key employees, increased other expenses of \$0.9 million related to training and development, travel, consulting fees, software support and maintenance expenses, office expenses and rent, increased human resources expense of \$0.3 million primarily related to pre-employment costs and an update to our payroll processing software and increased legal expense of \$0.3 million.

Home sales and rentals general and administrative costs increased primarily due to increased salary expense of \$0.5 million, increased health insurance costs of \$0.2 million, increased commissions on home sales of \$0.3 million, increased advertising expense of \$0.3 million and increased utility expense of \$0.2 million.

Depreciation and amortization costs increased as a result of additional depreciation and amortization of \$9.5 million primarily related to our newly acquired properties (See Note 2 to our financial statements), \$6.9 million related to depreciation on investment property for use in our rental program, \$2.3 million related to the amortization of in place leases and promotions, and \$1.7 million related to the write off of the remaining net book value for assets replaced during the year.

Interest expense on debt, including interest on mandatorily redeemable debt, increased primarily due to an increase of \$1.8 million in our mortgage interest due to debt associated with the acquired properties (See Note 2 to our financial statements), an increase of \$1.5 million in amortized financing costs, an increase of \$1.3 million in interest expense on our secured borrowing arrangements, and an increase of \$0.9 million in interest on our lines of credit, partially offset by a decrease in preferred OP unit interest expense.

Distributions from affiliate decreased approximately \$1.7 million. We suspended equity accounting in 2010 on our affiliate, Origen, as our investment balance is zero. The income recorded in 2013 and 2012 is distribution income. The amount of the distribution is determined by Origen on a quarterly basis. See Note 7 to our financial statements.

SUN COMMUNITIES, INC.

FUNDS FROM OPERATIONS

We provide information regarding FFO as a supplemental measure of operating performance. FFO is defined by NAREIT as net income (loss) (computed in accordance GAAP), excluding gains (or losses) from sales of depreciable operating property, plus real estate-related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Due to the variety among owners of identical assets in similar condition (based on historical cost accounting and useful life estimates), we believe excluding gains and losses related to sales of previously depreciated operating real estate assets, excluding impairment and excluding real estate asset depreciation and amortization provides a better indicator of our operating performance. FFO is a useful supplemental measure of our operating performance because it reflects the impact to operations from trends in occupancy rates, rental rates, and operating costs, providing perspective not readily apparent from net income (loss). Management believes that the use of FFO has been beneficial in improving the understanding of operating results of REITs among the investing public and making comparisons of REIT operating results more meaningful. Management, the investment community, and banking institutions routinely use FFO, together with other measures, to measure operating performance in our industry. Further, management uses FFO for planning and forecasting future periods.

Because FFO excludes significant economic components of net income (loss) including depreciation and amortization, FFO should be used as an adjunct to net income (loss) and not as an alternative to net income (loss). The principal limitation of FFO is that it does not represent cash flow from operations as defined by GAAP and is a supplemental measure of performance that does not replace net income (loss) as a measure of performance or net cash provided by operating activities as a measure of liquidity. In addition, FFO is not intended as a measure of a REIT's ability to meet debt principal repayments and other cash requirements, nor as a measure of working capital. FFO only provides investors with an additional performance measure. FFO is compiled in accordance with its interpretation of standards established by NAREIT, which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently.

SUN COMMUNITIES, INC.

The following table reconciles net income to FFO data for diluted purposes for the years ended December 31, 2014, 2013 and 2012 (in thousands):

SUN COMMUNITIES, INC.

LIQUIDITY AND CAPITAL RESOURCES

Our principal liquidity demands have historically been, and are expected to continue to be, distributions to our stockholders and the unitholders of the Operating Partnership, capital improvements to properties, the purchase of new and pre-owned homes, property acquisitions, development and expansion of properties, and debt repayment.

Subject to market conditions, we intend to continue to look for opportunities to expand our development pipeline and acquire existing communities. We also intend to continue to strengthen our capital and liquidity positions by continuing to focus on our core fundamentals, which are generating positive cash flows from operations, maintaining appropriate debt levels and leverage ratios, and controlling overhead costs. We intend to meet our liquidity requirements through available cash balances, cash flows generated from operations, draws on our secured credit facility, secured debt financing transactions, and the use of debt and equity offerings under our automatic shelf registration statement.

We completed eight acquisitions in 2014 in which we acquired 39 properties in total, 33 MH communities and six RV communities. See our Executive Summary above and Note 2 to our financial statements for details on the acquisitions, and Note 9 to our financial statements for related debt transactions. We will continue to evaluate acquisition opportunities that meet our criteria for acquisition. Should additional investment opportunities arise in 2015, we may finance the acquisitions through secured financing, draws on our credit facilities, the assumption of existing debt on the properties and/or the issuance of certain equity securities.

During the year ended December 31, 2014, we invested \$52.9 million in the acquisition of homes intended for the Rental Program net of proceeds from third party financing from homes sales. Expenditures for 2015 will be dependent upon the condition of the markets for repossessions and new home sales, as well as rental homes. We finance a portion of our new home purchases with a \$12.0 million floor plan facility. Our ability to purchase homes for sale or rent may be limited by cash received from third party financing of our home sales, available floor plan financing, operating cash flows and working capital available on our secured lines of credit.

Our cash flow activities are summarized as follows (in thousands):

	Year Ended December 31,		
	2014	2013	2012
Net Cash Provided by Operating Activities	\$133,320	\$114,683	\$87,251
Net Cash Used in Investing Activities	\$(550,705)	\$(352,412)	\$(375,219)
Net Cash Provided by Financing Activities	\$496,091	\$212,974	\$311,619

Operating Activities

Cash and cash equivalents increased by \$78.7 million from \$4.8 million as of December 31, 2013, to \$83.5 million as of December 31, 2014. Net cash provided by operating activities increased by \$18.6 million from \$114.7 million for the year ended December 31, 2013 to \$133.3 million for the year ended December 31, 2014.

Our net cash flows provided by operating activities from continuing operations may be adversely impacted by, among other things: (a) the market and economic conditions in our current markets generally, and specifically in metropolitan areas of our current markets; (b) lower occupancy and rental rates of our properties; (c) increased operating costs, such as wage and benefit costs, insurance premiums, real estate taxes and utilities, that cannot be passed on to our tenants; (d) decreased sales of manufactured homes and (e) current volatility in economic conditions and the financial markets. See Part I, Item 1A, "Risk Factors" in this 10-K.

Investing Activities

Net cash used in investing activities was \$550.7 million for the year ended December 31, 2014, compared to \$352.4 million for the year ended December 31, 2013. The increase is primarily due to increased cash invested into acquisitions during 2014, of which approximately \$283.2 million is related to the first closing of our acquisition of the Green Courte properties during the fourth quarter. Additionally, we made payments for deposits on pending acquisitions scheduled for 2015 (see Note 21 to our financial statements). These items are partially offset by proceeds related to the disposition of 10 of our MH properties during 2014. We did not dispose of any properties during 2013. Net cash used in investing activities during 2013 includes an investment

SUN COMMUNITIES, INC.

in a note receivable, which was extinguished in a net cash settlement during the acquisition of the properties the note was attributable to. No such investment was made during 2014.

Financing Activities

Net cash provided by financing activities was \$496.1 million for the year ended December 31, 2014, compared to \$213.0 million for the year ended December 31, 2013. The increase is primarily related to increased net proceeds received from the issuance of additional shares of common stock. We completed two underwritten registered public offerings during 2014 for net proceeds of \$562.9 million and completed one underwritten registered public offering during 2013 for net proceeds of \$249.5 million. Additionally, due to the recent refinancing activity of our mortgage debt (see Note 9 to our financial statements), we increased proceeds from and decreased payments on other debt as compared to 2013. These items are partially offset by increased net payments on our lines of credit and increased distributions to our stockholders and OP unit holders, as a result of our increase in distribution per share and number of shares outstanding in 2014.

We continually evaluate our debt maturities, and, based on management's current assessment, believe we have viable financing and refinancing alternatives that will not materially adversely impact our expected financial results. We continue to pursue borrowing opportunities with a variety of different lending institutions and have noticed that, although pricing and loan-to-value ratios remain dependent on specific deal terms, spreads for non-recourse mortgage financing are compressing and loan-to-value ratios are gradually increasing from levels a year ago. The unsecured debt markets are functioning well and credit spreads are at manageable levels. We continue to assess our debt maturities and financing needs in 2014 and beyond to try to best position the Company if current credit market conditions change.

Financial Flexibility

We have a senior secured revolving credit facility (the "Facility") with a maximum borrowing capacity of \$350.0 million, subject to certain borrowing base calculations, and a built in accordion allowing for up to \$250.0 million in additional borrowings. As of December 31, 2014, we did not have a balance outstanding under the Facility. As of December 31, 2013, we had \$178.1 million outstanding under the Facility. Borrowings under the Facility bear interest at a floating rate based on the Eurodollar rate plus a margin that is determined based on our leverage ratio calculated in accordance with the Facility, which can range from 1.65% to 2.90%. During 2014, the highest balance on the Facility was \$247.3 million. The borrowings under the Facility mature May 15, 2017, which date can be extended for one additional year at our option, subject to the satisfaction of certain conditions as defined in the credit agreement. Although the Facility is a committed facility, the financial failure of one or more of the participating financial institutions may reduce the amount of credit available to us.

Our Facility provides us with the ability to issue letters of credit. Our issuance of letters of credit does not increase our borrowings outstanding under our line of credit, but it does reduce the borrowing amount available. At December 31, 2014, we had outstanding letters of credit to back standby letters of credit totaling approximately \$3.2 million, leaving approximately \$346.8 million available under the Facility.

Pursuant to the terms of the Facility, we are subject to various financial and other covenants. We are currently in compliance with these covenants. The most restrictive financial covenants for the Facility are as follows:

Covenant	Must Be	As of 12/31/14
Maximum Leverage Ratio	< 68.5%	44.3%
Minimum Fixed Charge Coverage Ratio	> 1.40	2.51
Minimum Tangible Net Worth	> \$1,270,104	\$1,714,403
Maximum Dividend Payout Ratio	< 95.0%	72.5%

Market and Economic Conditions

The U.S. rate environment, changes in the Euro area, falling oil prices and turmoil in emerging markets are factors that are influencing financial markets as we move into 2015. Questions on whether the U.S. economy will sustain the growth indicators it has reported and whether or when the U.S. Federal Reserve will hike its benchmark rate for the first time in 10 years, as well as how much of the Eurozone will remain or fall into recession and what the effect of additional global turmoil will have on the world economy keep economic outlooks tempered. While the U.S. economy looks poised for self-sustaining growth, the global economy is expected to slow. Continued economic uncertainty, both nationally and internationally, causes increased volatility in investor

SUN COMMUNITIES, INC.

confidence thereby creating similar volatility in the availability of both debt and equity capital. If such volatility is experienced in future periods, our industry, business and results of operations may be adversely impacted.

We anticipate meeting our long-term liquidity requirements, such as scheduled debt maturities, large property acquisitions, and Operating Partnership unit redemptions through the issuance of certain debt or equity securities and/or the collateralization of our properties. At December 31, 2014, we had 70 unencumbered properties with an estimated market value of \$783.0 million, 56 of these properties support the borrowing base for our \$350.0 million secured line of credit. From time to time, we may also issue shares of our capital stock, issue equity units in our Operating Partnership, obtain debt financing, or sell selected assets. Our ability to finance our long-term liquidity requirements in such a manner will be affected by numerous economic factors affecting the manufactured housing community industry at the time, including the availability and cost of mortgage debt, our financial condition, the operating history of the properties, the state of the debt and equity markets, and the general national, regional, and local economic conditions. When it becomes necessary for us to approach the credit markets, the volatility in those markets could make borrowing more difficult to secure, more expensive, or effectively unavailable. See “Risk Factors” in Part I, Item 1A. If we are unable to obtain additional debt or equity financing on acceptable terms, our business, results of operations and financial condition would be adversely impacted.

Contractual Cash Obligations

Our primary long-term liquidity needs are principal payments on outstanding indebtedness. As of December 31, 2014, our outstanding contractual obligations, including interest expense, were as follows:

	Total Due	Payments Due By Period			
		(In thousands)			
Contractual Cash Obligations ⁽¹⁾		<1 year	1-3 years	3-5 years	After 5 years
Collateralized term loans - FNMA	\$482,639	\$8,389	\$47,832	\$70,856	\$355,562
Collateralized term loans - FMCC	152,462	2,376	5,461	5,944	138,681
Collateralized term loans - Life Company	203,615	25,542	17,679	8,237	152,157
Collateralized term loans - CMBS	799,823	12,595	336,310	16,718	434,200
Preferred OP Units	45,903	3,670	7,570	—	34,663
Lines of credit	5,794	5,794	—	—	—
Secured borrowing	123,650	5,167	11,974	14,164	92,345
Total principal payments	1,813,886	63,533	426,826	115,919	1,207,608
Interest expense ⁽²⁾	604,694	91,685	151,133	123,101	238,775
Operating leases	14,325	1,040	2,175	2,301	8,809
Total contractual obligations	\$2,432,905	\$156,258	\$580,134	\$241,321	\$1,455,192

⁽¹⁾ Our contractual cash obligations exclude debt premiums/discounts.

⁽²⁾ Our contractual cash obligation related to interest expense is calculated based on the current debt levels, rates and maturities as of December 31, 2014 (excluding secured borrowings), and actual payments required in future periods may be different than the amounts included above.

As of December 31, 2014, our net debt to enterprise value approximated 34.8% (assuming conversion of all common OP units, A-1 preferred OP units, A-3 preferred OP units, and A-4 preferred OP units to shares of common stock). Our debt has a weighted average maturity of approximately 7.5 years and a weighted average interest rate of 5.2%.

Capital expenditures for the year ended December 31, 2014 and 2013 included recurring capital expenditures of \$10.2 million and \$14.0 million, respectively. We are committed to the continued upkeep of our properties and therefore do not expect a significant decline in our recurring capital expenditures during 2015.

SUN COMMUNITIES, INC.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. In preparing these financial statements, management has made its best estimate and judgment of certain amounts included in the financial statements. Nevertheless, actual results may differ from these estimates under different assumptions or conditions. Management believes the following critical accounting policies, among others, affect its more significant judgments and estimates used in the preparation of our consolidated financial statements:

Investment Property

Investment property is recorded at cost, less accumulated depreciation. We review the carrying value of long-lived assets to be held and used for impairment quarterly or whenever events or changes in circumstances indicate a possible impairment. Our primary indicator for potential impairment is based on NOI trends period over period. Circumstances that may prompt a test of recoverability may also include a significant decrease in the anticipated market price, an adverse change to the extent or manner in which an asset may be used or in its physical condition or other such events that may significantly change the value of the long-lived asset. An impairment loss is recognized when a long-lived asset's carrying value is not recoverable and exceeds estimated fair value. We estimate the fair value of our long-lived assets based on future cash flows and any potential disposition proceeds for a given asset. Forecasting cash flows requires management to make estimates and assumptions about such variables as the estimated holding period, rental rates, occupancy, development and operating expenses during the holding period, as well as disposition proceeds. Management uses its best judgment when developing these estimates and assumptions, but the development of the projected future cash flows is based on subjective variables. Future events could occur which would cause us to conclude that impairment indicators exist, and significant adverse changes in national, regional, or local market conditions or trends may cause us to change the estimates and assumptions used in our impairment analysis. The results of an impairment analysis could be material to our financial statements.

Capitalized Costs

We capitalize certain costs incurred in connection with the development, redevelopment, capital enhancement and leasing of our properties. Management is required to use professional judgment in determining whether such costs meet the criteria for immediate expense or capitalization. The amounts are dependent on the volume and timing of such activities and the costs associated with such activities. Maintenance, repairs and minor improvements to properties are expensed when incurred. Renovations and improvements to properties are capitalized and depreciated over their estimated useful lives and construction costs related to the development of new community or expansion sites are capitalized until the property is substantially complete. Costs incurred to initially renovate pre-owned and repossessed homes that we acquire for our Rental Program are capitalized and costs incurred to refurbish the homes at turnover and repair the homes while occupied are expensed. Certain expenditures to dealers and residents related to obtaining lessees in our communities are capitalized and amortized over a seven year period based on the anticipated term of occupancy of a resident. Costs associated with implementing our computer systems are capitalized and amortized over the estimated useful lives of the related software and hardware. Costs incurred to obtain new financing are capitalized and amortized over the terms of the related loan agreement using the straight-line method (which approximates the effective interest method).

Notes and Other Receivables

We make financing available to purchasers of manufactured homes generally located in our communities. The notes are collateralized by the underlying manufactured home sold. Notes receivable include both installment loans purchased by the Company as well as transferred loans that have not met the requirements for sale accounting which are presented herein as collateralized receivables (See Note 5 to our financial statements for additional information). For purposes of accounting policy, all notes receivable are considered one homogeneous segment, as the notes are typically underwritten using the same requirements and terms. Notes receivable are reported at their outstanding unpaid principal balance adjusted for an allowance for loan loss. Interest income is accrued based upon the unpaid principal balance of the loans.

Past due status of our notes receivable is determined based upon the contractual terms of the note. When a note receivable becomes 60 days delinquent, we stop accruing interest on the note receivable. The interest on nonaccrual loans is accounted for on the cash basis until qualifying for return to accrual. Loans are returned to accrual when all principal and interest amounts contractually due are brought current and future payments are reasonably assured. Loans on a nonaccrual status were immaterial at December 31, 2014 and 2013. The ability to collect our notes receivable is measured based on current and historical information and events.

SUN COMMUNITIES, INC.

We consider numerous factors including: length of delinquency, estimated costs to lease or sell, and repossession history. Our experience supports a high recovery rate for notes receivable; however there is some degree of uncertainty about the recoverability of our investment in these notes receivable. We are generally able to recover our recorded investment in uncollectible notes receivable by repossessing the homes on the notes retained by us and repurchasing the homes on the collateralized receivables, and subsequently selling or leasing these homes to potential residents in our communities. We have established a loan loss reserve based on our estimated unrecoverable costs associated with repossessed/repurchased homes. We estimate our unrecoverable costs to be the repurchase price of the home collateralizing the note receivable plus repair and remarketing costs in excess of the estimated selling price of the home being repossessed. A historical average of this excess cost is calculated based on prior repossessions/repurchases and is applied to our estimated annual future repossessions to create the allowance for both installment and collateralized notes receivable. See Note 5 to our financial statements for additional information.

We evaluate the collectability of a loan based on our ability to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. We generally see that if the obligor is delinquent on the loan they are also delinquent on site rent. If the scheduled payment is delinquent more than five to seven days, dependent on state law, we begin the repossession and eviction process simultaneously. This process generally takes 30 to 45 days; due to the short time frame from delinquent loan to repossession we do not evaluate the note receivables for impairments. No loans were considered impaired as of December 31, 2014 and 2013.

We evaluate the credit quality of our notes receivable at the inception of the receivable. We consider the following factors in order to determine the credit quality of the applicant - rental payment history; home debt to income ratio; loan value to the collateralized asset; total debt to income ratio; length of employment; previous landlord references; and FICO scores.

Other receivables are generally comprised of amounts due from residents for rent and related charges, home sale proceeds receivable from sales near year end and various other miscellaneous receivables. Accounts receivable from residents are typically due within 30 days and stated at amounts due from residents net of an allowance for doubtful accounts. Accounts outstanding longer than the contractual payment terms are considered past due. We evaluate the recoverability of our receivables whenever events occur or there are changes in circumstances such that management believes it is probable that it will be unable to collect all amounts due according to the contractual terms of the loan and lease agreements. Receivables related to community rents are reserved when we believe that collection is less than probable, which is generally after a resident balance reaches 60 to 90 days past due.

Revenue Recognition

Rental income attributable to site and home leases is recorded on a straight-line basis when earned from tenants. Leases entered into by tenants are generally for one year terms but may range from month-to-month to two years and are renewable by mutual agreement from us and the resident, or in some cases, as provided by state statute. Revenue from the sale of manufactured homes is recognized upon transfer of title at the closing of the sales transaction. Interest income on notes receivable is recorded on a level yield basis over the life of the notes. We report certain taxes collected from the resident and remitted to taxing authorities in revenue. These taxes include certain Florida property and fire taxes.

Refer to Note 1 to our consolidated financial statements for additional information on certain critical accounting policies and estimate.

Impact of New Accounting Standards

See Note 18 to our financial statements, "Recent Accounting Pronouncements", within this Form 10-K.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements with any unconsolidated entities that it believes have or are reasonably likely to have a material effect on its financial condition, results of operations, liquidity or capital resources.

SUN COMMUNITIES, INC.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our principal market risk exposure is interest rate risk. We mitigate this risk by maintaining prudent amounts of leverage, minimizing capital costs and interest expense while continuously evaluating all available debt and equity resources and following established risk management policies and procedures, which include the periodic use of derivatives. Our primary strategy in entering into derivative contracts is to minimize the variability interest rate changes could have on our future cash flows. We generally employ derivative instruments that effectively convert a portion of our variable rate debt to fixed rate debt. We do not enter into derivative instruments for speculative purposes.

We have two derivative contracts consisting of two interest rate cap agreements with a total notional amount of \$162.4 million as of December 31, 2014. The first interest rate cap agreement has a cap rate of 11.27%, a notional amount of \$152.4 million, and a termination date of April 2015. The second interest rate cap agreement has a cap rate of 11.02%, a notional amount of \$10.0 million and a termination date of October 2016.

Our remaining variable rate debt totals \$166.4 million and \$344.0 million as of December 31, 2014 and 2013, respectively, which bear interest at prime or various LIBOR rates. If prime or LIBOR increased or decreased by 1.0% during the year ended December 31, 2014 and 2013, we believe our interest expense would have increased or decreased by approximately \$2.8 million and \$2.4 million based on the \$279.1 million and \$235.9 million average balances outstanding under our variable rate debt facilities for the years ended December 31, 2014 and 2013, respectively.

SUN COMMUNITIES, INC.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Financial statements and supplementary data are filed herewith under Item 15.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

SUN COMMUNITIES, INC.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining disclosure controls and procedures as defined in the rules promulgated under the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer, Gary A. Shiffman, and Chief Financial Officer, Karen J. Dearing, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2014. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2014, to ensure that information we are required to disclose in filings with the SEC under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Design and Evaluation of Internal Control Over Financial Reporting

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, we have included a report of management's assessment of the design and effectiveness of our internal controls as part of this Form 10-K for the fiscal year ended December 31, 2014. Our independent registered public accounting firm also attested to, and reported on, the effectiveness of internal control over financial reporting. Management's report and the independent registered public accounting firm's attestation report are included in our 2014 financial statements under the captions entitled "Management's Report on Internal Control Over Financial Reporting" and "Report of Independent Registered Public Accounting Firm".

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarterly period ended December 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Pursuant to instruction 3 to paragraph (b) of Item 401 of Regulation S-K, certain information regarding our executive officers is contained in Part I of this Form 10-K. Unless provided in an amendment to this Annual Report on Form 10-K, the other information required by this Item is incorporated herein by reference to the applicable information in the proxy statement for our 2015 annual meeting, including the information set forth under the captions “Board of Directors and Corporate Governance - Incumbent Directors and Nominees,” “Management and Executive Compensation - Executive Officers,” “Section 16(a) Beneficial Ownership Reporting Compliance,” “Board of Directors and Corporate Governance - Board of Directors and Committees” and “Board of Directors and Corporate Governance - Consideration of Director Nominees”

ITEM 11. EXECUTIVE COMPENSATION

Unless provided in an amendment to this Annual Report on Form 10-K, the information required by this Item is incorporated by reference to the applicable information in the proxy statement for our 2015 annual meeting, including the information set forth under the captions “Management and Executive Compensation,” “Board of Directors and Corporate Governance - Director Compensation Table,” “Compensation Committee Interlocks and Insider Participation” and “Compensation Committee Report.” The information in the section of an amendment to this Annual Report on Form 10-K or the proxy statement for our 2015 annual meeting captioned “Compensation Committee Report” is incorporated by reference herein but shall be deemed furnished, not filed, and shall not be deemed to be incorporated by reference into any filing we make under the Securities Act of 1933 or the Securities Exchange Act of 1934.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Unless provided in an amendment to this Annual Report on Form 10-K, the information required by this Item is incorporated by reference to the applicable information in the proxy statement for our 2015 annual meeting, including the information set forth under the captions “Security Ownership of Certain Beneficial Owners and Management” and “Securities Authorized for Issuance under Equity Compensation Plans.”

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Unless provided in an amendment to this Annual Report on Form 10-K, the information required by this Item is incorporated by reference to the proxy statement for our 2015 annual meeting, including the information set forth under the captions “Certain Relationships and Related Transactions and Director Independence,” “Board of Directors and Corporate Governance - Board of Directors and Committees” and “Board of Directors and Corporate Governance - Board Leadership Structure and Independence of Non-Employee Directors.”

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Unless provided in an amendment to this Annual Report on Form 10-K, the information required by this Item is incorporated by reference to the proxy statement for our 2015 annual meeting, including the information set forth under the caption “Ratification of Selection of Grant Thornton LLP.”

Certain schedules and exhibits have been omitted pursuant to Item 601(b)(2) of Regulation S-K because such schedules and exhibits do not contain information which is material to an investment decision or which is not otherwise disclosed in the filed agreements. The Company will furnish the omitted schedules and exhibits to the Securities and Exchange Commission upon request by the Commission.

The Second Amended and Restated Bylaws are being re-filed to correct an error in the form filed as an exhibit to Sun Communities, Inc.'s Current Report on Form 8-K dated July 23, 2013. The form previously filed erroneously included language applying the provisions of Article III, Section 14 of the bylaws to vacancies in the Board of Directors arising as a result of a removal of a director. As set forth in the form filed herewith and consistent with Sun Communities, Inc.'s charter and the election made by its Board of Directors, such Section 14 in fact applies only to vacancies arising from the death or resignation of a director or an increase in the size of the Board of Directors.

#Management contract or compensatory plan or arrangement.

SUN COMMUNITIES, INC.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) and 15d-15(f) promulgated under the Securities Exchange Act of 1934, as amended. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;

- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles;

- provide reasonable assurance that receipts and expenditures are being made only in accordance with authorization of our management and directors; and

- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material adverse effect on the financial statements.

All internal control systems, no matter how well designed, have inherent limitations and can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2014. In making this assessment, management used the criteria for effective internal control over financial reporting set forth in "Internal Control – Integrated Framework (2013)" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management determined that, as of December 31, 2014, our internal control over financial reporting was effective.

Grant Thornton LLP, an independent registered public accounting firm, has issued an attestation report on our internal control over financial reporting as of December 31, 2014, and their report is included herein.

SUN COMMUNITIES, INC.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders
Sun Communities, Inc.

We have audited the accompanying consolidated balance sheets of Sun Communities, Inc. (a Maryland corporation) and subsidiaries (the "Company") as of December 31, 2014 and 2013, and the related consolidated statements of operations, comprehensive income, stockholders' equity (deficit), and cash flows for each of the three years in the period ended December 31, 2014. Our audits of the basic consolidated financial statements included the financial statement schedule listed in the index appearing under Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Sun Communities, Inc. and subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2014, based on criteria established in the 2013 Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 2, 2015 expressed an unqualified opinion.

SUN COMMUNITIES, INC.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders
Sun Communities, Inc.

We have audited the internal control over financial reporting of Sun Communities, Inc. (a Maryland corporation) and subsidiaries (the "Company") as of December 31, 2014, based on criteria established in the 2013 Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in the 2013 Internal Control-Integrated Framework issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of the Company as of and for the year ended December 31, 2014, and our report dated March 2, 2015 expressed an unqualified opinion on those financial statements.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Business

Sun Communities, Inc., a Maryland corporation, together with the Sun Communities Operating Limited Partnership, a Michigan limited partnership (the "Operating Partnership") and other consolidated subsidiaries are referred to herein as the "Company", "us", "we", and "our". We are a self-administered and self-managed real estate investment trust ("REIT").

We own, operate, and develop manufactured housing ("MH") and recreational vehicle ("RV") communities throughout the United States. As of December 31, 2014, we owned and operated a portfolio of 217 properties located in 29 states (the "Properties"), including 183 MH communities, 25 RV communities, and nine properties containing both MH and RV sites. As of December 31, 2014, the Properties contained an aggregate of 79,554 developed sites comprised of 61,231 developed manufactured home sites, 9,297 annual RV sites (inclusive of both annual and seasonal usage rights), 9,026 transient RV sites, and approximately 7,000 additional MH and RV sites suitable for development.

Principles of Consolidation

The accompanying financial statements include our accounts and all majority-owned and controlled subsidiaries, including entities in which we have a controlling interest or have been determined to be the primary beneficiary of a variable interest entity ("VIE"). All inter-company transactions have been eliminated in consolidation. Any subsidiaries in which we have an ownership percentage equal to or greater than 50%, but less than 100%, or consider a VIE, represent subsidiaries with a noncontrolling interest. The noncontrolling interests in our subsidiaries are allocated their proportionate share of the subsidiaries' financial results. This allocation is recorded as the noncontrolling interest in our consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States ("GAAP") requires management to make estimates and assumptions related to the reported amounts included in our consolidated financial statements and accompanying footnote disclosures. Actual results could differ from those estimates.

Reclassifications and Revisions

Certain reclassifications have been made to prior periods' financial statements in order to conform to current period presentation.

In the fourth quarter of 2014, management identified that certain accruals related to real estate taxes, deferred revenue and utilities primarily associated with communities acquired prior to 2007 were incorrect. The cumulative revision for the incorrect accruals approximated \$13.5 million.

Pursuant to the guidance of Staff Accounting Bulletin ("SAB") No. 99, Materiality, the Company concluded that the errors were not material to any of its prior period financial statements. Although the errors were immaterial to prior periods, the prior period financial statements were revised, in accordance with SAB No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements, due to the

significance of the out-of-period correction in the fourth quarter of 2014.

Investment Property

Investment property is recorded at cost, less accumulated depreciation. We review the carrying value of long-lived assets to be held and used for impairment quarterly or whenever events or changes in circumstances indicate a possible impairment. Our primary indicator for potential impairment is based on NOI trends period over period. Circumstances that may prompt a test of recoverability may include a significant decrease in the anticipated market price, an adverse change to the extent or manner in which an asset may be used or in its physical condition or other such events that may significantly change the value of the long-lived asset. An impairment loss is recognized when a long-lived asset's carrying value is not recoverable and exceeds estimated fair value. We estimate the fair value of our long-lived assets based on discounted future cash flows and any potential disposition proceeds for a given asset. Forecasting cash flows requires management to make estimates and assumptions about such variables as the estimated holding period, rental rates, occupancy and operating expenses during the holding period, as well as disposition proceeds. Management uses its best judgment when developing these estimates and assumptions, but the development

of the projected future cash flows is based on subjective variables. Future events could occur which would cause us to conclude that impairment indicators exist, and significant adverse changes in national, regional, or local market conditions or trends may cause us to change the estimates and assumptions used in our impairment analysis. The results of an impairment analysis could be material to our financial statements.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies, continued

We periodically receive offers from interested parties to purchase certain of our properties. These offers may be the result of an active program initiated by us to sell the property, or from an unsolicited offer to purchase the property. The typical sale process involves a significant negotiation and due diligence period between us and the potential purchaser. As the intent of this process is to determine if there are items that would cause the purchaser to be unwilling to purchase or we would be unwilling to sell, it is not unusual for such potential offers of sale/purchase to be withdrawn as such issues arise. We classify assets as “held for sale” when it is probable, in our opinion, that a sale transaction will be completed within one year. This typically occurs when all significant contingencies surrounding the closing have been resolved, which often corresponds with the closing date.

We allocate the purchase price of properties to net tangible and identified intangible assets acquired based on their fair values. In making estimates of fair values for purposes of allocating purchase price, we utilize an independent third party to value the net tangible and identified intangible assets in connection with the acquisition of the respective property. We provide historical and pro forma financial information obtained about each property, as well as any other information needed in order for the third party to ascertain the fair value of the tangible and intangible assets (including in-place leases) acquired.

Other Capitalized Costs

We capitalize certain costs incurred in connection with the development, redevelopment, capital enhancement and leasing of our properties. Management is required to use professional judgment in determining whether such costs meet the criteria for immediate expense or capitalization. The amounts are dependent on the volume and timing of such activities and the costs associated with such activities. Maintenance, repairs and minor improvements to properties are expensed when incurred. Renovations and improvements to properties are capitalized and depreciated over their estimated useful lives and construction costs related to the development of new community or expansion sites are capitalized until the property is substantially complete. Costs incurred to initially renovate pre-owned and repossessed homes that we acquire for our Rental Program are capitalized and costs incurred to refurbish the homes at turnover and repair the homes while occupied are expensed. Certain expenditures to dealers and residents related to obtaining lessees in our communities are capitalized and amortized over a seven year period based on the anticipated term of occupancy of a resident. Costs associated with implementing our computer systems are capitalized and amortized over the estimated useful lives of the related software and hardware. Costs incurred to obtain new financing are capitalized and amortized over the terms of the related loan agreement using the straight-line method (which approximates the effective interest method).

Cash and Cash Equivalents

We consider all highly liquid investments with a maturity of three months or less from the date of purchase to be cash and cash equivalents. The maximum amount of credit risk arising from cash deposits in excess of federally insured amounts was approximately \$80.7 million and \$5.7 million as of December 31, 2014 and 2013, respectively. From time to time, we may have cash deposits in excess of federally insured amounts.

Inventory

Inventory of manufactured homes is stated at lower of specific cost or market based on the specific identification method.

Investments in Affiliates

Investments in affiliates in which we do not have a controlling direct or indirect voting interest, but can exercise significant influence over the entity with respect to its operations and major decisions, are accounted for using the equity method of accounting. The carrying value of our investment is adjusted for our proportionate share of the affiliate's net income or loss and reduced by distributions received. We review the carrying value of our investment in affiliates for other than temporary impairment whenever events or changes in circumstances indicate a possible impairment. Financial condition, operational performance, and other economic trends are some of the factors we consider when we evaluate the existence of impairment indicators. When we have a carrying value of zero for our investment, we suspend the equity method of accounting until such time that the affiliate's net income equals or exceeds the share of net losses not recognized during the time in which the equity method of accounting was suspended. See Note 7 for additional information.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies, continued

Notes and Other Receivables

We provide financing to purchasers of manufactured homes generally located in our communities. The notes are collateralized by the underlying manufactured home sold. Notes receivable include both installment loans retained by the Company as well as transferred loans that have not met the requirements for sale accounting which are presented herein as collateralized receivables (See Note 5 for additional information). For purposes of accounting policy, all notes receivable are considered one homogenous population, as the notes are typically underwritten using the same requirements and terms. Notes receivable are reported at their outstanding unpaid principal balance adjusted for an allowance for loan loss. Interest income is accrued based upon the unpaid principal balance of the loans.

Past due status of our notes receivable is determined based upon the contractual terms of the note. When a note receivable becomes 60 days delinquent, we stop accruing interest on the note receivable. The interest on nonaccrual loans is accounted for on the cash basis until qualifying for return to accrual. Loans are returned to accrual when all principal and interest amounts contractually due are brought current and future payments are reasonably assured. Loans on a nonaccrual status were immaterial at December 31, 2014 and 2013. The ability to collect our notes receivable is measured based on current and historical information and events. We consider numerous factors including: length of delinquency, estimated costs to lease or sell, and repossession history. Our experience supports a high recovery rate for notes receivable; however there is some degree of uncertainty about the recoverability of our investment in these notes receivable. We are generally able to recover our recorded investment in uncollectible notes receivable by repossessing the homes on the notes retained by us and repurchasing the homes on the collateralized receivables, and subsequently selling or leasing these homes to potential residents in our communities. We have established a loan loss reserve based on our estimated unrecoverable costs associated with repossessed/repurchased homes. We estimate our unrecoverable costs to be the repurchase price of the home collateralizing the note receivable plus repair and remarketing costs in excess of the estimated selling price of the home being repossessed. A historical average of this excess cost is calculated based on prior repossessions/repurchases and is applied to our estimated annual future repossessions to create the allowance for both installment and collateralized notes receivable. See Note 5 for additional information.

We evaluate the collectability of a loan based on our ability to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. We generally see that if the obligor is delinquent on the loan they are also delinquent on site rent. If the scheduled payment is delinquent more than five to seven days, dependent on state law, we begin the repossession and eviction process simultaneously. This process generally takes 30 to 45 days; due to the short time frame from delinquent loan to repossession we do not evaluate the note receivables for impairment. No loans were considered impaired as of December 31, 2014 and 2013.

We evaluate the credit quality of our notes receivable at the inception of the receivable. We consider the following factors in order to determine the credit quality of the applicant - rental payment history; home debt to income ratio; total debt to income ratio; length of employment; previous landlord references; and credit scores.

Other receivables are generally comprised of amounts due from residents for rent and related charges, home sale proceeds receivable from sales near year end and various other miscellaneous receivables. Accounts receivable from residents are typically due within 30 days and stated at amounts due from residents net of an allowance for doubtful accounts. Accounts outstanding longer than the contractual payment terms are considered past due. We evaluate the

recoverability of our receivables whenever events occur or there are changes in circumstances such that management believes it is probable that it will be unable to collect all amounts due according to the contractual terms of the loan and lease agreements. Receivables related to community rents are reserved when we believe that collection is less than probable, which is generally after a resident balance reaches 60 to 90 days past due.

Restricted Cash

Restricted cash consists of amounts held in deposit at a financial institution to collateralize derivative instruments in a liability position and deposits for tax, insurance and repair escrows held by lenders in accordance with certain debt agreements. At December 31, 2014 and 2013, \$11.8 million and \$9.4 million of restricted cash, respectively, was included as a component of Other assets on the consolidated balance sheets.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies, continued

Identified Intangible Assets

The Company amortizes identified intangible assets that are determined to have finite lives over the period the assets are expected to contribute directly or indirectly to the future cash flows of the property or business. At December 31, 2014 and 2013, the carrying amounts of the identified intangible assets are included in Other assets on the consolidated balance sheets. See Note 6 for additional information on our intangible assets.

Deferred Tax Assets

We are subject to certain state taxes that are considered to be income taxes and have certain subsidiaries that are taxed as regular corporations. Deferred tax assets or liabilities are recognized for temporary differences between the tax basis of assets and liabilities and their carrying amounts in the financial statements and net operating loss carryforwards. Deferred tax assets and liabilities are measured using currently enacted tax rates. A valuation allowance is established if, based on the available evidence, it is considered more likely than not that some portion or all of the deferred tax assets will not be realized. See Note 13 for additional information.

Deferred Financing Costs

Deferred financing costs include fees and costs incurred to obtain long-term financing. The costs are amortized over the terms of the respective loans. Unamortized deferred financing costs are written off when debt is retired before the maturity date. Upon amendment of the line of credit or refinancing of mortgage debt, unamortized deferred financing costs are accounted for in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 470-50-40, Modifications and Extinguishments. At December 31, 2014 and 2013, deferred financing costs are included as a component of Other assets on the consolidated balance sheets.

Share-Based Compensation

Share-based compensation cost for service vesting restricted stock awards is measured based on the closing share price of our common stock on the date of grant. Share-based compensation for restricted stock awards with performance conditions is measured based on an estimate of shares expected to vest. If it is not probable that the performance conditions will be satisfied, we do not recognize compensation expense. We measure the fair value of awards with performance conditions using the closing price of our common stock as of the grant date to calculate compensation cost. Each reporting period, we reevaluate our estimate of the number of shares expected to vest. We estimate the fair value of share-based compensation for restricted stock with market conditions using a Monte Carlo simulation. We recognize compensation cost ratably over each tranche of shares based on the fair value estimated by the model.

Share-based compensation cost for stock options is estimated at the grant date based on each option's fair-value as calculated by the Binomial (lattice) option-pricing model. The Binomial (lattice) option-pricing model incorporates various assumptions including expected volatility, expected life, dividend yield, and interest rates. See Note 11 for additional information.

Fair Value of Financial Instruments

Our financial instruments consist of cash and cash equivalents, accounts and notes receivable, accounts payable, derivative instruments, and debt. We utilize fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures, pursuant to FASB ASC 820, Fair Value Measurements and Disclosures. See Note 17 for additional information regarding the estimates and assumptions used to estimate the fair value of each class of financial instrument.

Revenue Recognition

Rental income attributable to site and home leases is recorded on a straight-line basis when earned from tenants. Leases entered into by tenants are generally for one year terms but may range from month-to-month to two years and are renewable by mutual agreement from us and the resident, or in some cases, as provided by state statute. Revenue from the sale of manufactured homes is recognized upon transfer of title at the closing of the sales transaction. Interest income on notes receivable is recorded on a level yield basis over the life of the notes. We report certain taxes collected from the resident and remitted to taxing authorities in revenue. These taxes include certain Florida property and fire taxes.

F - 15

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies, continued

Advertising Costs

Advertising costs are expensed as incurred. As of December 31, 2014, 2013 and 2012, we had advertising costs of \$3.2 million, \$2.9 million and \$2.5 million, respectively.

Depreciation and Amortization

Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of the assets. Useful lives are 30 years for land improvements and buildings, 10 years for rental homes, seven to 15 years for furniture, fixtures and equipment, and seven to 15 years for intangible assets.

Derivative Instruments and Hedging Activities

We do not enter into derivative instruments for speculative purposes. We adjust our balance sheet on a quarterly basis to reflect the current fair market value of our derivatives. For those hedges that qualify for cash flow hedge accounting, we adjust our balance sheet on a quarterly basis to reflect current fair market value of our derivatives. Changes in the fair value of derivatives are recorded in earnings or comprehensive income, as appropriate. The ineffective portion of the hedge is immediately recognized in earnings to the extent that the change in value of a derivative does not perfectly offset the change in value of the instrument being hedged. The effective portion of the hedge is recorded in accumulated other comprehensive income. We use standard market conventions to determine the fair values of derivative instruments, including the quoted market prices or quotes from brokers or dealers for the same or similar instruments. All methods of assessing fair value result in a general approximation of value and such value may never actually be realized. See Note 16 for additional information. Cash flows from derivative instruments are classified in the same category as the cash flows of the underlying hedged items, which are in the operating activities section of the consolidated statements of cash flows.

2. Real Estate Acquisitions and Dispositions

Green Courte

First Closing

During the fourth quarter of 2014, we completed the first closing of the acquisition of the Green Courte properties. We acquired 32 MH communities with over 9,000 developed sites in 11 states. Included in the total consideration paid for the first closing was the issuance of 361,797 shares of common stock, 501,130 common OP units, 483,317 shares of Series A-4 Preferred Stock and 669,449 Series A-4 preferred OP units.

Second Closing

Subsequent to year-end, in January 2015, we completed the second closing of the acquisition of the Green Courte properties. We acquired the remaining 26 communities comprised of over 10,000 sites. Included in the total consideration paid for the second closing was the issuance of 4,377,072 shares of common stock and 5,847,234 shares of Series A-4 Preferred Stock.

Additionally, subsequent to year-end, one of Green Courte Partners funds purchased 150,000 shares of our common stock and 200,000 Series A-4 preferred OP units, for an aggregate purchase price of \$12.5 million.

2. Real Estate Acquisitions and Dispositions, continued

2014 Other Acquisitions:

In December 2014, we acquired Oak Creek, a MH community with 198 sites located in Coarsegold, California.

In June 2014, we acquired Lake Rudolph Campground and Recreational Vehicle Resort ("Lake Rudolph"), an RV community with 503 sites located in Santa Claus, Indiana.

In April 2014, we acquired Saco/Old Orchard Beach RV Resort ("Saco"), an RV community with 127 sites located in Saco, Maine.

In February 2014, we acquired Driftwood Camping Resort ("Driftwood"), an RV community with 698 sites and expansion potential of approximately 30 sites located in Clermont, New Jersey, and Seashore Campsites RV and Campground ("Seashore"), an RV community with 685 sites located in Cape May, New Jersey.

In January 2014, we acquired Castaways RV Resort & Campground ("Castaways"), an RV community with 369 sites and expansion potential of approximately 25 sites located in Worcester County, Maryland, and Wine Country RV Resort ("Wine Country"), an RV community with 166 sites and expansion potential of approximately 34 sites located in Paso Robles, California.

The following tables summarize the fair value of the assets acquired and liabilities assumed at the acquisition dates and the consideration paid for other acquisitions completed in 2014 (in thousands):

⁽¹⁾ The purchase price allocations for Saco, Lake Rudolph and Oak Creek are preliminary and may be adjusted as final costs and final valuations are determined.

The following unaudited pro forma financial information presents the results of our operations for the years ended December 31, 2014 and 2013 as if the properties acquired during 2014 were acquired on January 1, 2013. The unaudited pro forma results reflect certain adjustments for items that are not expected to have a continuing impact, such as adjustments for transaction costs incurred, management fees and purchase accounting. The information presented below has been prepared for comparative purposes only and does not purport to be indicative of either future results of operations or the results of operations that would have actually occurred had the acquisitions been consummated on January 1, 2013 (in thousands, except per-share data).

2. Real Estate Acquisitions and Dispositions, continued

2013 Acquisition Activity:

During the fourth quarter of 2013, we acquired Camelot Villa, a MH community with approximately 712 sites located in Macomb, Michigan, Jellystone Park at Birchwood Acres ("Jellystone at Birchwood"), an RV community with approximately 269 sites located in Woodridge, New York, and Vines RV Resort ("Vines"), an RV community with approximately 130 sites located in Paso Robles, California.

During the second quarter of 2013, we acquired Big Timber Lake RV Resort ("Big Timber Lake"), an RV community with approximately 528 sites located in Cape May, New Jersey, and Jellystone RV Resort ("Jellystone"), an RV community with approximately 299 sites located in North Java, New York.

During the first quarter of 2013, we acquired 10 RV communities from Gwynns Island RV Resort LLC, Indian Creek RV Resort LLC, Lake Laurie RV Resort LLC, Newpoint RV Resort LLC, Peters Pond RV Resort Inc., Seaport LLC, Virginia Tent LLC,

Wagon Wheel Maine LLC, Westward Ho RV Resort LLC and Wild Acres LLC (collectively, "Morgan RV Properties"), with approximately 3,700 sites located in Ohio, Virginia, Maine, Massachusetts, Connecticut, New Jersey and Wisconsin.

The following table summarizes the amounts of the assets acquired and liabilities assumed recognized at the acquisition dates and the consideration paid for the 2013 acquisitions (in thousands):

At Acquisition Date	2013						Total
	Morgan RV Properties	Jellystone	Big Timber Lake	Camelot Villa	Jellystone at Birchwood	Vines	
Investment in property	\$109,122	\$9,754	\$21,898	\$22,121	\$6,087	\$8,000	\$176,982
Inventory of manufactured homes	—	—	—	2,324	—	—	2,324
Notes and other receivables	—	—	—	852	—	—	852
In-place leases and other intangible assets	2,940	390	580	610	450	—	4,970
Other assets	157	7	48	84	12	1	309
Below market leases	—	—	(3,490)	(240)	—	—	(3,730)
Other liabilities	(3,697)	(930)	(1,157)	(546)	(293)	(4)	(6,627)
Total identifiable assets and liabilities assumed	\$108,522	\$9,221	\$17,879	\$25,205	\$6,256	\$7,997	\$175,080
Consideration							
Cash	\$55,618	\$9,221	\$17,879	\$25,205	\$6,256	\$7,997	\$122,176
Series A-3 preferred OP units ⁽¹⁾	3,463	—	—	—	—	—	3,463
Extinguishment of note receivable	49,441	—	—	—	—	—	49,441
Fair value of total consideration transferred	\$108,522	\$9,221	\$17,879	\$25,205	\$6,256	\$7,997	\$175,080

⁽¹⁾ Included in the total consideration paid for Morgan RV Properties was the issuance of 40,268 Series A-3 preferred OP units. In order to estimate the fair value of these units at the valuation date, we utilized the income approach using estimated future discounted cash flows.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

2. Real Estate Acquisitions and Dispositions, continued

The following unaudited pro forma financial information presents the results of our operations for the years ended December 31, 2013 and 2012 as if acquisitions completed in 2013 were acquired on January 1, 2012. The unaudited pro forma results reflect certain adjustments for items that are not expected to have a continuing impact, such as adjustments for transaction costs incurred, management fees and purchase accounting. The information presented below has been prepared for comparative purposes only and does not purport to be indicative of either future results of operations or the results of operations that would have actually occurred had the acquisitions been consummated on January 1, 2012 (in thousands, except per-share data).

	Year Ended December 31, (unaudited)	
	2013	2012
Total revenues	\$423,490	\$392,862
Net income attributable to Sun Communities, Inc. shareholders	\$16,352	\$23,833
Net income per share attributable to Sun Communities, Inc. shareholders - basic	\$0.47	\$0.87
Net income per share attributable to Sun Communities, Inc. shareholders - diluted	\$0.47	\$0.87

The amount of revenue and net income included in the consolidated statements of operations for the years ended December 31, 2014, 2013 and 2012 for all acquisitions described above is set forth in the following table (in thousands):

	Year Ended December 31, (unaudited)		
	2014	2013	2012
Revenue	\$42,258	\$60,148	\$38,557
Net income	\$9,214	\$5,914	\$290

Transaction Costs

Transaction costs of approximately \$18.3 million, \$3.9 million and \$4.3 million have been incurred for the years ended December 31, 2014, 2013 and 2012, respectively, and are presented as "Transaction costs" in our consolidated statements of operations.

Dispositions

During the year ended December 31, 2014, we completed the sales of 10 MH communities: Bedford Hills, White Oak, Falcon Pointe, Timberbrook, Woodlake Estates, Byrne Hill, Continental Estates, Davison East, Countryside Village and Desert View Village. During the first quarter of 2014, the Company chose to early adopt Accounting Standards Update ("ASU") 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity ("ASU 2014-08"). Pursuant to ASU 2014-08, the disposals of the communities do not qualify for presentation as discontinued operations, as the sales do not have a major impact on our operations and financial results and do not represent a strategic shift. Additionally, the communities are not considered individually significant components and therefore do not qualify for presentation as discontinued operations. A gain of \$17.7 million is recorded in "Gain on disposition of properties, net" in our consolidated statement of operations.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

3. Investment Property

The following table sets forth certain information regarding investment property (in thousands):

	December 31, 2014	December 31, 2013
Land	\$ 309,386	\$ 194,404
Land improvements and buildings	2,471,436	1,806,546
Rental homes and improvements	477,554	393,562
Furniture, fixtures, and equipment	81,586	65,086
Land held for future development	23,955	29,521
Investment property	3,363,917	2,489,119
Accumulated depreciation	(795,753) (734,067
Investment property, net	\$ 2,568,164	\$ 1,755,052

Land improvements and buildings consist primarily of infrastructure, roads, landscaping, clubhouses, maintenance buildings and amenities.

During 2014, we recorded an impairment charge of \$0.8 million associated with a long-lived asset for an MH and RV community located in La Feria, Texas. This community consists of 280 developed sites. Circumstances that prompted this test of recoverability included a decrease in net operating income and the overall operating performance of the community. We recognized the impairment loss because the long-lived asset's carrying value was deemed not recoverable and exceeded the estimated fair value. We estimated the fair value of the long-lived asset based on discounted future cash flows and any potential disposition proceeds for the asset. The impairment loss is recorded in "Asset impairment charge" on our consolidated statements of operations.

See Note 2, "Real Estate Acquisitions and Dispositions", for details on acquisitions.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

4. Transfers of Financial Assets

We completed various transactions with an unrelated entity involving our notes receivable during 2014 and 2013 under which we received a total of \$35.0 million and \$34.0 million, respectively, of cash proceeds in exchange for relinquishing our right, title and interest in certain notes receivable. We have no further obligations or rights with respect to the control, management, administration, servicing, or collection of the installment notes. However, we are subject to certain recourse provisions requiring us to purchase the underlying homes collateralizing such notes, in the event of a note default and subsequent repossession of the home by the unrelated entity. The recourse provisions are considered to be a form of continuing involvement, and therefore these transferred loans did not meet the requirements for sale accounting. We continue to recognize these transferred loans on our balance sheet and refer to them as collateralized receivables as a transfer of financial assets. The proceeds from the transfer have been recognized as a secured borrowing.

In the event of note default, and subsequent repossession of a manufactured home by the unrelated entity, the terms of the agreement require us to repurchase the manufactured home. Default is defined as the failure to repay the installment note according to contractual terms. The repurchase price is calculated as a percentage of the outstanding principal balance of the collateralized receivable, plus any outstanding late fees, accrued interest, legal fees, and escrow advances associated with the installment note. The percentage used to determine the repurchase price of the outstanding principal balance on the installment note is based on the number of payments made on the note. In general, the repurchase price is determined as follows:

Number of Payments	Repurchase %	
Less than or equal to 15	100	%
Greater than 15 but less than 64	90	%
Equal to or greater than 64 but less than 120	65	%
120 or more	50	%

The transferred assets have been classified as collateralized receivables in Notes and Other Receivables (see Note 5) and the cash proceeds received from these transactions have been classified as a secured borrowing in Debt (see Note 9) within the consolidated balance sheets. The balance of the collateralized receivables was \$123.0 million (net of allowance of \$0.7 million) and \$109.8 million (net of allowance of \$0.7 million) as of December 31, 2014 and December 31, 2013, respectively. The outstanding balance on the secured borrowing was \$123.7 million and \$110.5 million as of December 31, 2014 and December 31, 2013, respectively.

The balances of the collateralized receivables and secured borrowings fluctuate. The balances increase as additional notes receivable are transferred and exchanged for cash proceeds. The balances are reduced as the related collateralized receivables are collected from the customers, or as the underlying collateral is repurchased. The change in the aggregate gross principal balance of the collateralized receivables is as follows (in thousands):

	Year Ended	
	December 31, 2014	December 31, 2013
Beginning balance	\$ 110,510	\$ 94,409
Financed sales of manufactured homes	34,952	34,007
Principal payments and payoffs from our customers	(11,845) (7,930
Principal reduction from repurchased homes	(9,967) (9,976
Total activity	13,140	16,101
Ending balance	\$ 123,650	\$ 110,510

The collateralized receivables earn interest income and the secured borrowings accrue interest expense at the same interest rates. The amount of interest income and expense recognized was \$11.8 million, \$10.6 million and \$9.4 million for the years ended December 31, 2014, 2013 and 2012, respectively.

5. Notes and Other Receivables

The following table sets forth certain information regarding notes and other receivables (in thousands):

	December 31, 2014	December 31, 2013
Installment notes receivable on manufactured homes, net	\$25,884	\$25,471
Collateralized receivables, net (see Note 4)	122,962	109,821
Other receivables, net	26,011	29,393
Total notes and other receivables, net	\$174,857	\$164,685

Installment Notes Receivable on Manufactured Homes

The installment notes of \$25.9 million (net of allowance of \$0.1 million) and \$25.5 million (net of allowance of \$0.1 million) as of December 31, 2014 and December 31, 2013, respectively, are collateralized by manufactured homes. The notes represent financing provided by us to purchasers of manufactured homes primarily located in our communities and require monthly principal and interest payments. The notes have a net weighted average interest rate and maturity of 8.7% and 10.4 years as of December 31, 2014, and 8.9% and 11.9 years as of December 31, 2013.

The change in the aggregate gross principal balance of the installment notes is as follows (in thousands):

	Year Ended	
	December 31, 2014	December 31, 2013
Beginning balance	\$25,575	\$22,019
Financed sales of manufactured homes	946	7,798
Acquired notes (see Note 2)	5,189	852
Principal payments and payoffs from our customers	(4,088) (3,838
Principal reduction from repossessed homes	(1,598) (1,256
Total activity	449	3,556
Ending balance	\$26,024	\$25,575

Collateralized Receivables

Collateralized receivables represent notes receivable that were transferred to a third party, but did not meet the requirements for sale accounting (see Note 4). The receivables have a balance of \$123.0 million (net of allowance of \$0.7 million) and \$109.8 million (net of allowance of \$0.7 million) as of December 31, 2014 and December 31, 2013, respectively. The receivables have a net weighted average interest rate and maturity of 10.4% and 14.6 years as of December 31, 2014, and 10.7% and 13.6 years as of December 31, 2013.

Allowance for Losses for Collateralized and Installment Notes Receivable

The following table sets forth the allowance for losses for collateralized and installment notes receivable as of December 31, 2014 and December 31, 2013 (in thousands):

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

5. Notes and Other Receivables, continued

Other Receivables

As of December 31, 2014, other receivables were comprised of amounts due from residents for rent and water and sewer usage of \$4.9 million (net of allowance of \$1.0 million), home sale proceeds of \$7.4 million, insurance receivables of \$1.0 million, insurance settlement of \$3.7 million, rebates and other receivables of \$6.8 million and a note receivable of \$2.2 million. The \$2.2 million note bears interest at 8.0% for the first two years and 7.9% for the remainder of the loan, is secured by the senior mortgage on one MH community and a deed of land, and is due on December 31, 2016. As of December 31, 2013 other receivables were comprised of amounts due from residents for rent and water and sewer usage of \$6.9 million (net of allowance of \$0.7 million), home sale proceeds of \$5.7 million, insurance receivables of \$2.0 million, insurance settlement of \$3.7 million, rebates and other receivables of \$4.6 million and two notes receivable of \$4.3 million and \$2.2 million.

In June 2014, a \$4.3 million note receivable, which was secured by senior mortgages on two RV communities, a pledge of \$4.0 million in Series A-3 Preferred OP Units, a subordinated interest in cash collateral account and equity interests in another RV community, was paid in full.

6. Intangible Assets

Our intangible assets are in-place leases from acquisitions and franchise fees. These intangible assets are recorded within Other assets on the consolidated balance sheet. The accumulated amortization and gross carrying amounts are as follows (in thousands):

Intangible Asset	Useful Life	December 31, 2014		December 31, 2013	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
In-place leases	7 years	\$41,511	\$(12,107)	\$26,961	\$(8,239)
Franchise fees	15 years	764	(106)	770	(29)
Total		\$42,275	\$(12,213)	\$27,731	\$(8,268)

During 2014, in connection with our acquisitions, we purchased intangible assets classified as in-place leases valued at approximately \$14.6 million.

The aggregate net amortization expenses related to the intangible assets are as follows (in thousands):

Intangible Asset	Year Ended December 31,		
	2014	2013	2012
In-place leases	\$3,867	\$3,297	\$1,657
Franchise fees	77	60	—
Total	\$3,944	\$3,357	\$1,657

We anticipate the amortization expense for the existing intangible assets to be as follows for the next five years (in thousands):

Year	2015	2016	2017	2018	2019
------	------	------	------	------	------

Edgar Filing: SUN COMMUNITIES INC - Form 10-K

Estimated expense	\$5,564	\$5,564	\$5,690	\$4,902	\$3,896

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

7. Investment in Affiliates

Origen Financial Services, LLC (“OFS LLC”)

At December 31, 2014 and 2013, we had a 22.9% ownership interest in OFS LLC, an entity formed to originate manufactured housing installment contracts. We have suspended equity accounting as the carrying value of our investment is zero.

Origen Financial, Inc. (“Origen”)

Through Sun OFI, LLC, a taxable REIT subsidiary, we own 5,000,000 shares of common stock of Origen which approximates an ownership interest of 19.0%. Although it is no longer originating or servicing loans, Origen continues to manage an existing portfolio of manufactured home loans and asset backed securities. We have suspended equity accounting for this investment as the carrying value of our investment is zero. We did, however, receive distributions of \$1.2 million on our shares of Origen common stock during 2014. Our investment in Origen had a market value of approximately \$8.2 million based on a quoted market closing price of \$1.64 per share as reported on the OTC Pink Marketplace as of December 31, 2014.

In January 2015, Origen announced that it completed the sale of substantially all of its assets to an affiliate of GoldenTree Asset Management LP. Origen also announced that it has entered into a letter of intent with Mack Real Estate Credit Strategies, (“MRECS”), an affiliate of Mack Real Estate Group, for a proposed transaction pursuant to which MRECS and other third parties would invest additional capital into Origen by purchasing shares of newly issued common stock. Origen would continue to operate its business as a mortgage REIT and would be externally managed pursuant to a market based management agreement with MRECS. Under the letter of intent, it is anticipated that Origen's stockholders would be given the option to: (a) tender their shares to Origen for cash in an amount equal to Origen's estimated current net cash value, payable at the conclusion of the tender period, or (b) retain their shares in Origen. Origen's Board of Directors approved the letter of intent and, as permitted by the plan of dissolution approved by Origen's stockholders in October 2014, Origen has abandoned the plan of dissolution and the distribution of its remaining cash net of expenses and reserves pending completion of the transaction with MRECS. The MRECS transaction is subject to the further negotiation and execution of definitive transaction documents, MRECS's satisfactory completion of its due diligence on Origen, and other customary closing conditions.

The following table sets forth certain summarized financial information for Origen, which was determined to be a significant subsidiary in 2013 and 2012 (in thousands):

	Year Ended December 31,	
	2013	2012
Revenues	\$49,775	\$64,838

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

8. Consolidated Variable Interest Entities

Variable interest entities ("VIEs") that are consolidated include Rudgate Village SPE, LLC, Rudgate Clinton SPE, LLC, Rudgate Clinton Estates SPE, LLC (the "Rudgate Borrowers") and Wildwood Village Mobile Home Park, LLC ("Wildwood"). We evaluated our arrangements with these properties under the guidance set forth in FASB ASC Topic 810, Consolidation. We concluded that the Rudgate Borrowers and Wildwood qualify as VIEs as we are the primary beneficiary and hold controlling financial interests in these entities due to our power to direct the activities that most significantly impact the economic performance of the entities, as well as our obligation to absorb the most significant losses and our rights to receive significant benefits from these entities. As such, the transactions and accounts of these VIEs are included in the accompanying consolidated financial statements.

In December 2014, we assumed a mezzanine loan in the amount of \$17.7 million, in connection with the Green Courte acquisition, and also assumed a property management agreement to manage and operate the Wildwood community.

In November 2012, we guaranteed certain non-recourse carveouts under a \$45.9 million mortgage loan (the "Senior Loan") from Ladder Capital Finance LLC to the Rudgate Borrowers. The Senior Loan is secured by the two MH communities that we manage but do not own, which are located in southeast Michigan. In addition, we entered into a mezzanine loan agreement with the sole members of the Rudgate Borrowers under which we agreed to provide mezzanine financing in the amount of \$15.1 million in respect of the two MH communities managed by us, and entered into property management agreements to manage and operate these two communities.

Included in our consolidated financial statements after appropriate eliminations were amounts related to the VIEs at December 31, 2014 and December 31, 2013 as follows (in thousands):

	December 31, 2014	December 31, 2013
ASSETS		
Investment property, net	\$94,230	\$56,805
Other assets	4,400	3,926
Total Assets	\$98,630	\$60,731
LIABILITIES AND STOCKHOLDERS' EQUITY		
Debt	\$65,849	\$45,209
Other liabilities	10,442	6,564
Noncontrolling interests	(416)	(537)
Total Liabilities and Stockholders' Equity	\$75,875	\$51,236

Investment property, net and other assets related to the consolidated VIEs comprised approximately 3.4% and 3.0% of our consolidated total assets and debt and other liabilities comprised approximately 3.8% and 3.2% of our consolidated total liabilities at December 31, 2014 and December 31, 2013, respectively. Noncontrolling interest related to the consolidated VIEs comprised less than 1.0% of our consolidated total equity at December 31, 2014 and December 31, 2013.

Collateralized Term Loans

In December 2014, we borrowed the aggregate amount of \$74.0 million under two mortgage loans from The Northwestern Mutual Life Insurance Company ("NM"). The loans have a 15 year term and a blended rate of 3.65%.

During the fourth quarter of 2014, in relation to the acquisition of the Green Courte properties (see Note 2), we refinanced approximately \$100.7 million of mortgage debt with Freddie Mac ("FMCC") on 12 of the communities (resulting in proceeds of \$152.5 million) at an interest rate of 4.03% per annum and a term of 10 years, and we assumed approximately \$182.4 million of mortgage debt on 12 of the communities at a weighted average interest rate of 5.89% and a weighted average remaining term of 4.35 years.

In September 2014, we paid off the \$2.4 million mortgage agreement secured by Brookside Village upon maturity and \$13.5 million mortgage agreement secured by Cave Creek and Pine Trace.

In August 2014, we paid off \$52.6 million of Fannie Mae ("FNMA") debt, and we paid in full a \$6.5 million mortgage agreement secured by Sheffield Estates upon maturity.

In July and August 2014, we borrowed the aggregate amount of \$63.5 million under five mortgage loans from Ladder Capital Finance, LLC ("Ladder"). The loans have a 10 year term and a blended annual interest rate of 4.56%. The proceeds of the loans were used to pay down a portion of our senior secured line of credit.

In January 2014, we and four of our subsidiaries borrowed the aggregate amount of \$99.0 million under four mortgage loans (each, an "Individual Loan" and, together, the "Loan") from NM pursuant to a Master Loan Agreement with NM. Each Individual Loan accrues interest at a rate of 4.20% and matures on February 13, 2026. We and each of the four borrowers have guaranteed the Loan. The proceeds of the Loan were used to repay a portion of our senior secured line of credit.

In December 2013, we and nine of our subsidiaries entered into a loan agreement with a lender for a \$72.4 million term loan ("Pool A Loan"), and we and nine of our other subsidiaries entered into a loan agreement with the same lender for a \$69.1 million term loan ("Pool B Loan", and collectively with the Pool A Loan, the "Loans"). The Loans mature on January 1, 2024. The Pool A Loan accrues interest at 4.89% per year and is secured by eight MH communities and two RV communities. The Pool B Loan accrues interest at 4.90% per year and is secured by eight MH communities and one RV community. We used the proceeds of the Loans and \$34.4 million of additional cash to repay in full 11 loans previously made to subsidiaries of the Company.

In October 2013, we paid off maturing loans totaling \$5.8 million, which were secured by two properties, Dutton Mills and Falcon Pointe.

In May 2013, we extended until May 1, 2023, \$151.4 million of FNMA debt, which had an original maturity date of May 1, 2013. The current weighted average interest rate on this debt is 3.6%.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

9. Debt and Lines of Credit, continued

In May 2013, we paid off the entire \$3.5 million mortgage agreement secured by Holiday West Village upon maturity.

In April 2013, we paid off the sellers note associated with the acquisition of Rainbow RV Resort. The note had a principal balance of \$0.6 million.

In January 2013, we paid off the sellers note associated with the acquisition of Palm Creek. The note had a principal balance of \$36.0 million and an interest rate of 2.0%. We also paid off the remaining \$30.0 million outstanding under our \$36.0 million variable financing loan from Bank of America, N.A. and The Private Bank.

The collateralized term loans totaling \$1.7 billion as of December 31, 2014, are secured by 147 properties comprised of 49,390 sites representing approximately \$1.6 billion of net book value.

Preferred OP units

The Aspen preferred OP units are convertible into 509,676 common shares based on a conversion price of \$68 per share with a redemption date of January 1, 2024. The current preferred rate is 6.5%.

Secured Borrowing

See Note 4, "Transfers of Financial Assets", for additional information regarding our collateralized receivables and secured borrowing transactions.

Lines of Credit

We have a senior secured revolving credit facility with Citibank, N.A. and certain other lenders in the amount of \$350.0 million (the "Facility"). The Facility has a four year term ending May 15, 2017, which can be extended for one additional year at our option, subject to the satisfaction of certain conditions as defined in the credit agreement. The credit agreement also provides for, subject to the satisfaction of certain conditions, additional commitments in an amount not to exceed \$250.0 million. The Facility bears interest at a floating rate based on the Eurodollar rate plus a margin that is determined based on our leverage ratio calculated in accordance with the credit agreement, which can range from 1.65% to 2.90%. Based on our calculation of the leverage ratio as of December 31, 2014, the margin was 1.65%. At December 31, 2014 we had no amount outstanding under the Facility and at December 31, 2013, we had approximately \$178.1 million outstanding under the Facility. At December 31, 2014 and 2013, approximately \$3.2 million and \$2.7 million, respectively, of availability was used to back standby letters of credit.

The Facility is secured by a first priority lien on all of our equity interests in each entity that owns all or a portion of the properties constituting the borrowing base and collateral assignments of our senior and junior debt positions in certain borrowing base properties.

In February 2013, we entered into a \$61.5 million credit agreement to fund a portion of the purchase of the Morgan RV Properties acquisition (see Note 2 "Real Estate Acquisitions and Dispositions"). This loan was paid off in March 2013.

We also have a \$20.0 million secured line of credit agreement collateralized by a portion of our rental home portfolio. The net book value of the rental homes pledged as security for the loan must meet or exceed 200% of the outstanding loan balance. The

terms of the agreement require interest only payments for the first five years, with the remainder of the term being amortized based on a 10 year term. The interest rate is the prime rate as published in the Wall Street Journal adjusted the first day of each calendar month plus 200 basis points with a minimum rate of 5.5%. At both December 31, 2014 and 2013, the effective interest rate was 5.5%, and there was no amount outstanding.

We have a \$12.0 million manufactured home floor plan facility renewable indefinitely until our lender provides us at least twelve months' notice of its intent to terminate the agreement. The interest rate is 100 basis points over the greater of the prime rate published in the Wall Street Journal on the first business day of each month or 6.0%. At December 31, 2014 the effective interest

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

9. Debt and Lines of Credit, continued

rate was 7.0%. The outstanding balance was \$5.8 million and \$3.3 million as of December 31, 2014 and December 31, 2013, respectively.

Long-term Debt Maturities

As of December 31, 2014, the total of maturities and amortization of our debt (excluding premiums and discounts) and lines of credit during the next five years are as follows (in thousands):

	Maturities and Amortization By Year						
	Total Due	2015	2016	2017	2018	2019	Thereafter
Lines of credit	\$5,794	\$5,794	\$—	\$—	\$—	\$—	\$—
Mortgage loans payable:							
Maturities	1,410,652	24,810	267,863	92,289	38,315	16,508	970,867
Principal amortization	227,887	24,093	23,804	23,325	23,263	23,670	109,732
Preferred OP units	45,903	3,670	7,570	—	—	—	34,663
Secured borrowing	123,650	5,167	5,715	6,258	6,802	7,362	92,346
Total	\$1,813,886	\$63,534	\$304,952	\$121,872	\$68,380	\$47,540	\$1,207,608

Covenants

The most restrictive of our debt agreements place limitations on secured borrowings and contain minimum fixed charge coverage, leverage, distribution and net worth requirements. As of December 31, 2014, we were in compliance with all covenants.

10. Equity Transactions

During the fourth quarter of 2014, in connection with the Green Courte acquisition, we issued 361,797 shares of common stock at an issuance price of \$50.00 per share, 501,130 common OP units at an issuance price of \$50.00 per unit, 483,317 shares of Series A-4 Preferred Stock at an issuance price of \$25.00 per share and 669,449 Series A-4 preferred OP units at an issuance price of \$25.00 per unit (see Note 2). Series A-4 Preferred Stock and Series A-4 preferred OP unit holders can convert the shares or units into shares of common stock based upon an initial conversion price of \$56.25 per share (subject to adjustment upon various events) and receive a preferred return of 6.50% per year. In September 2014, we closed an underwritten registered public offering of 6,900,000 shares of common stock at a price of \$50.60 per share, which includes 900,000 shares sold to the underwriter pursuant to the full exercise of its option to purchase additional shares. Net proceeds from the offering were approximately \$348.9 million after deducting expenses related to the offering. We used the majority of the net proceeds of the offering to fund the cash portion of the purchase price for the acquisition of MH communities from the Green Courte entities (see Note 2) and used the remainder of the net proceeds from the offering to repay borrowings outstanding under the Facility.

In March 2014, we closed an underwritten registered public offering of 4,200,000 shares of common stock at a price of \$44.45 per share, and in April 2014, the underwriters exercised their option to purchase an additional 630,000

shares of common stock at a price of \$44.45 less the declared dividend of \$0.65 per share. Net proceeds from the offering were \$214.0 million after deducting underwriting discounts and the expenses related to the offering. We used the net proceeds of the offering to repay borrowings outstanding under the Facility, for acquisitions of properties and for working capital and general corporate purposes.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

10. Equity Transactions, continued

In March 2013, we closed an underwritten registered public offering of 5,750,000 shares of common stock at a price of \$45.25 per share. The net proceeds from the offering were \$249.5 million after deducting underwriting discounts and the expenses related to the offering. We used a portion of the proceeds to pay down debt. We used the remaining net proceeds of the offering to fund the acquisition of properties and for working capital and general corporate purposes.

In February 2013, we issued \$4.0 million of Series A-3 preferred OP units in connection with the Morgan RV Properties acquisition (see Note 2). Series A-3 preferred OP unit holders can convert the Series A-3 preferred OP units into shares of common stock based upon a conversion price of \$53.75 per share. The Series A-3 preferred OP unit holders receive a preferred return of 4.5% per year.

In May 2012, we entered into an "at-the-market" sales agreement with BMO Capital Markets Corp. and Liquidnet Inc. to issue and sell up to \$100 million of shares from time to time. During 2014, 157,989 shares of common stock were sold through the agreement. The shares of common stock were sold at the prevailing market price of our common stock at the time of each sale with a weighted average sale price of \$62.42, and we received net proceeds of approximately \$9.7 million. Subsequent to year-end, we sold an additional 342,011 shares of common stock through the agreement at a weighted average sale price of \$63.94. We received net proceeds of approximately \$21.5 million. We are authorized to sell an additional \$43.7 million of common stock remaining under the sales agreement. In November 2004, our Board of Directors authorized us to repurchase up to 1,000,000 shares of our common stock. We have 400,000 common shares remaining in the repurchase program. No common shares were repurchased during 2014 or 2013. There is no expiration date specified for the repurchase program.

Common OP Unit holders can convert their Common OP units into an equivalent number of shares of common stock at any time. During 2014, holders of Common OP units converted 9,110 units into common stock. No units were converted into common stock during 2013.

Series A-1 preferred OP unit holders can convert their preferred OP units into 2.439 shares of our common stock (which exchange rate is subject to adjustment upon stock splits, recapitalizations and similar events) at any time. During 2014, holders of Series A-1 preferred OP units converted 26,379 units into 64,335 shares of common stock. No Series A-1 preferred OP units were converted into common stock during 2013.

Cash distributions of \$0.65 per share were declared for the quarter ended December 31, 2014. On January 16, 2015, cash payments of approximately \$33.2 million for aggregate distributions and distribution equivalents were made to common stockholders, common OP unitholders and restricted stockholders of record as of December 31, 2014. Cash distributions of \$0.4453 per share were declared on the Company's Series A cumulative redeemable preferred stock for the quarter ended December 31, 2014. On January 15, 2015, cash payments of approximately \$1.5 million for aggregate distributions were made to Series A cumulative redeemable preferred stockholders of record as of January 2, 2015. In addition, cash distributions of \$0.1580 per share were declared on the Company's Series A-4 Preferred Stock for the quarter ended December 31, 2014. On December 31, 2014, cash payments of approximately \$0.1 million were made to Series A-4 Preferred Stock holders of record as of December 19, 2014. During 2014, we made total cash payments of approximately \$112.3 million to common stockholders, common OP unitholders and restricted stockholders, \$6.0 million to Series A Preferred Stock holders and \$0.1 million to Series A-4 Preferred Stock holders.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

11. Share-Based Compensation

As of December 31, 2014, we have two share-based compensation plans approved by stockholders: Sun Communities, Inc. Equity Incentive Plan (“2009 Equity Plan”) and the First Amended and Restated 2004 Non-Employee Director Option Plan (“Director Plan”). We believe granting equity awards will provide certain executives, key employees and directors additional incentives to promote our financial success, and promote employee and director retention by providing an opportunity to acquire or increase the direct proprietary interest of those individuals in our operations and future.

2009 Equity Plan

The 2009 Equity Plan was approved by our stockholders at the Annual Meeting of Stockholders held on July 29, 2009. The 2009 Equity Plan replaced the Sun Communities, Inc. Stock Option Plan adopted in 1993, as amended and restated in 1996 and 2000, and terminates automatically July 29, 2019.

The types of awards that may be granted under the 2009 Equity Plan include stock options, stock appreciation rights, restricted stock, and other stock based awards. The maximum number of shares of common stock that may be issued under the 2009 Equity Plan is 950,000 shares, with 240,820 shares remaining for future issuance.

During 2014, the Company and Gary A. Shiffman (the Company's Chairman and Chief Executive Officer) entered into an Amended and Restated Restricted Stock Award Agreement, which amended and restated in its entirety the Restricted Stock Award Agreement dated June 20, 2013 between the Company and Mr. Shiffman. Under the original stock award agreement, the Company granted Mr. Shiffman 250,000 restricted shares of the Company's common stock, of which 175,000 restricted shares were awarded in respect of the performance of Mr. Shiffman and the Company over the prior three years and 75,000 restricted shares were awarded to induce Mr. Shiffman to execute a new five-year employment agreement. All of these restricted shares were scheduled to vest over time through June 2020. The restated stock award agreement amended the vesting schedule of the restricted shares, of which 100,000 restricted shares are now subject to market and performance conditions and the remaining 150,000 shares will vest over time through June 2020. We accounted for the modification of this award in accordance with the FASB ASC Topic 718. See discussion below on the fair value measurement of these awards.

During 2014, we granted 45,250 shares of restricted stock to employees under our 2009 Equity Plan. The restricted shares had an average fair value of \$52.54 per share and will vest as follows: 35% in 2017; 35% in 2018; 20% in 2019, 5% in 2020; and 5% in 2021. The fair value was determined using the closing price of our common stock on the date the shares were issued.

During 2014, we also granted 58,000 shares of restricted stock to our executive officers under our 2009 Equity Plan. The restricted shares had a fair value of \$48.93 per share and will vest as follows: 20% in 2018; 30% in 2019; 35% in 2020; 10% in 2021; and 5% in 2022. The fair value was determined by using the closing share price of our common stock on the date the shares were issued.

Director Plan

The Director Plan was approved by our stockholders at the Annual Meeting of Stockholders held on July 19, 2012. The Director Plan amended and restated in its entirety our 2004 Non-Employee Director Stock Option Plan.

The types of awards that may be granted under the Director Plan are options, restricted stock and OP units. Only non-employee directors are eligible to participate in the Director Plan. The maximum number of options, restricted stock and OP units that may be issued under the Director Plan is 175,000 shares, with 75,674 shares remaining for future issuance.

In February 2014, we granted 14,000 shares of restricted stock to our directors under our Director Plan. The awards vest on February 12, 2017, and had a fair value of \$48.01 per share. The fair value was determined by using the closing share price of our common stock on the date the shares were issued.

During the year ended December 31, 2014, 6,833 shares of common stock were issued in connection with the exercise of stock options and the net proceeds received were \$0.1 million.

We have recognized compensation costs associated with share based awards of \$4.9 million, \$3.2 million, and \$1.5 million for the years ended December 31, 2014, 2013, and 2012 respectively.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

11. Share-Based Compensation, continued

Restricted Stock

The majority of our share-based compensation is awarded as service vesting restricted stock grants to executives and key employees. We have also awarded restricted stock to our non-employee directors. We measure the fair value associated with these awards using the closing price of our common stock as of the grant date to calculate compensation cost. Employee awards typically vest over several years and are subject to continued employment by the employee. Award recipients receive distribution payments on unvested shares of restricted stock.

As of December 31, 2014, we have 50,000 shares of restricted stock issued to Mr. Shiffman subject to certain Company performance criteria, of which 12,500 shares vest on March 1 of each 2015, 2016, 2017 and 2018. Compensation expense is recognized in accordance with ASC Topic 718 and based on an estimate of shares expected to vest. If it is not probable that the performance conditions will be satisfied, we do not recognize compensation expense. The fair value of these awards was measured using the closing price of our common stock as of the grant modification date to calculate compensation cost. Each reporting period, we reevaluate our estimate of the number of shares expected to vest. The performance conditions were satisfied for the shares vesting on March 1, 2015 and compensation expense was recognized as of December 31, 2014.

We also have 50,000 shares of restricted stock issued to Mr. Shiffman subject to certain market performance criteria, of which 16,667 shares vest on March 1 of each 2016, 2017 and 2018. In accordance with ASC Topic 718, we estimated the fair value of the shares using a Monte Carlo simulation. We recognize compensation cost ratably over each tranche of shares based on the fair value estimated by the model.

The following table summarizes our restricted stock activity for the years ended December 31, 2014, 2013 and 2012:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested restricted shares at January 1, 2012	275,871	\$28.93
Granted	44,600	\$40.93
Vested	(8,750) \$19.92
Forfeited	(1,214) \$37.04
Unvested restricted shares at December 31, 2012	310,507	\$30.88
Granted	371,300	\$47.19
Vested	(37,291) \$16.87
Forfeited	(12,560) \$38.47
Unvested restricted shares at December 31, 2013	631,956	\$41.14
Granted	117,250	\$49.97
Vested	(55,488) \$25.57
Forfeited	(4,975) \$38.45
Unvested restricted shares at December 31, 2014	688,743	\$43.87

Total compensation cost recognized for restricted stock was \$4.9 million, \$3.2 million, and \$1.4 million for the years ended December 31, 2014, 2013, and 2012, respectively. The total fair value of shares vested was \$1.4 million, \$0.6 million, and \$0.2 million for the years ended December 31, 2014, 2013 and 2012, respectively. The remaining net

compensation cost related to our unvested restricted shares outstanding as of December 31, 2014 is approximately \$21.1 million. That expense is expected to be recognized \$5.3 million in 2015, \$4.7 million in 2016, \$4.6 million in 2017 and \$6.5 million thereafter.

Options

We have granted stock options to certain employees and non-employee directors. Option awards are generally granted with an exercise price equal to the market price of our common stock as of the grant date. Stock options generally vest over a three year

F - 32

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

11. Share-Based Compensation, continued

period from the date of grant and have a maximum term of 10 years. No grants of options were made in 2014, 2013 or 2012. We issue new shares of common stock at the time of share option exercise (or share unit conversion).

The weighted average fair value of the options issued is estimated on the date of the grant using the Binomial (lattice) option pricing model. The options outstanding as of December 31, 2014 consist of 32,500 non-employee director options. There are no employee options outstanding. The compensation expense associated with non-vested stock option awards was not significant for the years ended December 31, 2014, 2013, and 2012.

The following table summarizes our option activity during the years ended December 31, 2014, 2013 and 2012:

	Number of Options	Weighted Average Exercise Price (per common share)
Options outstanding at January 1, 2012	77,086	\$29.64
Granted	—	\$—
Exercised	(16,256) \$30.12
Forfeited or expired	(4,880) \$33.16
Options outstanding at December 31, 2012	55,950	\$29.19
Granted	—	\$—
Exercised	(9,700) \$21.67
Forfeited or expired	—	\$—
Options outstanding at December 31, 2013	46,250	\$30.77
Granted	—	\$—
Exercised	(12,250) \$33.40
Forfeited or expired	(1,500) \$35.44
Options outstanding at December 31, 2014	32,500	\$29.56

The following table summarizes our options outstanding and options currently exercisable at December 31, 2014:

	December 31, 2014			
	Number of Options	Weighted Average Exercise Price (per common share)	Weighted Average Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Options vested and expected to vest	32,500	\$29.56	4.2	\$1,004
Options vested and exercisable	32,500	\$29.56	4.2	\$1,004

Aggregate intrinsic value represents the value of our closing share price as of the end of the year in excess of the exercise price multiplied by the number of options outstanding or exercisable. The aggregate intrinsic value excludes the effect of stock options that have a zero or negative intrinsic value. For the years ended December 31, 2014, 2013 and 2012, the intrinsic value of exercised options was \$0.3 million, \$0.2 million and \$0.2 million, respectively. For the years ended December 31, 2014, 2013 and 2012, the intrinsic value of vested and exercisable options was \$1.0 million, \$0.5 million and \$0.5 million, respectively.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

12. Segment Reporting

We group our operating segments into reportable segments that provide similar products and services. Each operating segment has discrete financial information evaluated regularly by the Company's chief operating decision maker in evaluating and assessing performance. We have two reportable segments: (i) Real Property Operations and (ii) Home Sales and Rentals. The Real Property Operations segment owns, operates, and develops MH communities and RV communities and is in the business of acquiring, operating, and expanding MH and RV communities. The Home Sales and Rentals segment offers manufactured home sales and leasing services to tenants and prospective tenants of our communities.

Transactions between our segments are eliminated in consolidation. Transient RV revenue is included in Real Property Operations' revenues and is approximately \$31.6 million for the year ended December 31, 2014. This transient revenue was recognized 25.3% in the first quarter, 18.3% in the second quarter, 43.3% in the third quarter and 13.1% in the fourth quarter of 2014.

A presentation of segment financial information is summarized as follows (in thousands):

13. Income Taxes

We have elected to be taxed as a real estate investment trust ("REIT") as defined under Section 856 of the Internal Revenue Code of 1986 ("Code"), as amended. In order for us to qualify as a REIT, at least ninety-five percent (95%) of our gross income in any year must be derived from certain-specified qualifying sources and at least seventy-five percent (75%) of our gross income must be derived from income qualifying as real estate income under the Code. In addition, a REIT must distribute at least ninety percent (90%) of its REIT ordinary taxable income to its stockholders and meet other tests.

Qualification as a REIT involves the satisfaction of numerous requirements (some on an annual and quarterly basis) established under highly technical and complex Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. In addition, frequent changes occur in the area of REIT taxation which requires us to continually monitor our tax status. We analyzed the various REIT tests and determined that we continued to qualify as a REIT for the year ended December 31, 2014.

As a REIT, we generally will not be subject to U.S. federal income taxes at the corporate level on the ordinary taxable income we distribute to our stockholders as dividends. If we fail to qualify as a REIT in any taxable year, our taxable income could be subject to U.S. federal income tax at regular corporate rates (including any applicable alternative minimum tax). Even if we qualify as a REIT, we may be subject to certain state and local income taxes and to U.S. federal income and excise taxes on our undistributed income.

For income tax purposes, distributions paid to common stockholders consist of ordinary income, capital gains, and return of capital. For the years ended December 31, 2014, 2013, and 2012, distributions paid per share were taxable as follows (unaudited):

	Years Ended December 31,		2013		2012			
	2014	Percentage	Amount	Percentage	Amount	Percentage		
Ordinary income	\$0.82	31.7	% \$0.87	34.6	% \$0.92	48.7	%	
Capital gain	0.64	24.6	% —	—	% —	—	%	
Return of capital	1.14	43.7	% 1.65	65.4	% 0.97	51.3	%	
Total distributions declared	\$2.60	100.0	% \$2.52	100.0	% \$1.89	100.0	%	

Sun Home Services, Inc. ("SHS"), our taxable REIT subsidiary, is subject to U.S. federal income taxes. Our deferred tax assets and liabilities reflect the impact of temporary differences between the amounts of assets and liabilities for financial reporting purposes and the bases of such assets and liabilities as measured by tax laws. Deferred tax assets are reduced, if necessary, by a valuation allowance to the amount where realization is more likely than not assured after considering all available evidence. Our temporary differences primarily relate to net operating loss carryforwards and depreciation.

The deferred tax assets included in the consolidated balance sheets are comprised of the following tax effects of temporary differences (in thousands):

	As of December 31,	
	2014	2013
Deferred tax assets:		
Net operating loss carryforwards	\$26,214	\$24,237

Edgar Filing: SUN COMMUNITIES INC - Form 10-K

Real estate assets	29,092	23,999
Amortization of intangibles	(128) (128
Gross deferred tax assets	55,178	48,108
Valuation allowance	(54,178) (47,108
Net deferred tax assets	\$1,000	\$1,000

SHS has operating loss carryforwards of approximately \$77.1 million (or \$26.2 million after tax) as of December 31, 2014. The loss carryforwards will begin to expire in 2021 through 2031 if not offset by future taxable income. Management believes its net deferred tax asset will be realized but realization is continuously subject to an assessment as to recoverability in the future.

F - 37

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

13. Income Taxes, continued

The deferred tax asset will be used when we generate sufficient taxable income. No federal tax expense was recognized in the years ended December 31, 2014, 2013, and 2012.

We had no unrecognized tax benefits as of December 31, 2014 and 2013. We expect no significant increases or decreases in unrecognized tax benefits due to changes in tax positions within one year of December 31, 2014.

We classify certain state taxes as income taxes for financial reporting purposes. We record Texas Margin Tax as income tax in our financial statements. We recorded a provision for state income taxes of approximately \$0.2 million, for each of the years ended December 31, 2014, 2013, and 2012. No deferred tax liability is recorded in relation to the Texas Margin Tax as of December 31, 2014 and 2013.

We and our subsidiaries are subject to income taxes in the U.S. and various state jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, we are no longer subject to U.S. federal, state and local, examinations by tax authorities for the tax years ended December 31, 2008 and prior.

Our policy is to report income tax penalties and income tax related interest expense as a component of income tax expense. No interest or penalty associated with any unrecognized income tax benefit or provision was accrued, nor was any income tax related interest or penalty recognized during the years ended December 31, 2014, 2013 and 2012.

14. Earnings Per Share

We have outstanding stock options, unvested restricted shares and Series A-4 Preferred Stock, and our Operating Partnership has Common OP units, convertible Series A-1 preferred OP units, Series A-3 preferred OP units, Series A-4 preferred OP units and Aspen preferred OP Units, which if converted or exercised, may impact dilution.

Computations of basic and diluted earnings per share were as follows (in thousands, except per share data):

	Year Ended December 31,		
	2014	2013	2012
Numerator			
Net income attributable to common stockholders	\$22,376	\$10,610	\$4,958

Gain on settlement	\$ —	\$ —	\$ —	\$ 4,452
Net income (loss) attributable to Sun Communities, Inc. common stockholders	\$ 7,846	\$ 4,928	\$ 22,671	\$ (13,069)
Earnings per share:				
Basic	\$ 0.21	\$ 0.12	\$ 0.54	\$ (0.27)
Diluted	\$ 0.21	\$ 0.12	\$ 0.54	\$ (0.27)
2013 ⁽³⁾				
Total revenues	\$ 102,913	\$ 100,151	\$ 107,201	\$ 104,957
Total expenses	94,983	97,290	101,841	102,976
Income (loss) before income taxes and distributions from affiliate	\$ 7,930	\$ 2,861	\$ 5,360	\$ 1,981
Distributions from affiliate ⁽¹⁾	\$ 400	\$ 450	\$ 700	\$ 700
Net income (loss) attributable to Sun Communities, Inc. common stockholders	\$ 5,744	\$ 1,035	\$ 3,749	\$ 82
Earnings (loss) per share:				
Basic	\$ 0.19	\$ 0.03	\$ 0.10	\$ —
Diluted	\$ 0.19	\$ 0.03	\$ 0.10	\$ —

⁽¹⁾ Refer to Note 7 for more information regarding distributions from affiliate.

⁽²⁾ During the second quarter of 2014, we recorded a gain on disposition of properties, net of \$0.9 million. In the fourth quarter of 2014, we identified and recorded a revision to this gain of \$3.2 million. Had this revision been recorded in the second quarter instead of the fourth quarter, our basic and diluted earnings per share would have been income of \$0.20 in the second quarter and a loss of \$0.34 in the fourth quarter. Management of the Company concluded that the effect of the fourth quarter revision was not material to the second and fourth quarter 2014 financial statements.

⁽³⁾ Financial information includes certain reclassifications to conform to current period presentation.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

16. Derivative Instruments and Hedging Activities

Our objective in using interest rate derivatives is to manage exposure to interest rate movements thereby minimizing the effect of interest rate changes and the effect it could have on future cash flows. Interest rate swaps and caps are used to accomplish this objective. We require hedging derivative instruments to be highly effective in reducing the risk exposure that they are designated to hedge. We formally designate any instrument that meets these hedging criteria as a hedge at the inception of the derivative contract. We do not enter into derivative instruments for speculative purposes.

The following table provides the terms of our interest rate derivative contracts that were in effect as of December 31, 2014:

Type	Purpose	Effective Date	Maturity Date	Notional (in millions)	Based on	Variable Rate	Fixed Rate	Spread	Effective Fixed Rate
Cap	Cap Floating Rate	4/1/2012	4/1/2015	\$ 152.4	3 Month LIBOR	0.2320%	11.2650%	—%	N/A
Cap	Cap Floating Rate	10/3/2011	10/3/2016	\$ 10.0	3 Month LIBOR	0.2320%	11.0200%	—%	N/A

In January 2014, our interest rate swap agreement with a notional amount of \$20.0 million expired. We did not enter into a new interest rate swap agreement.

In accordance with ASC Topic 815, Derivatives and Hedging, we have recorded the fair value of our derivative instruments designated as cash flow hedges on the balance sheet. See Note 17 for information on the determination of fair value for the derivative instruments. The following table summarizes the fair value of derivative instruments included in our consolidated balance sheets as of December 31, 2014 and December 31, 2013 (in thousands):

	Asset Derivatives		Liability Derivatives			
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value		
Derivatives designated as hedging instruments		December 31, 2014	December 31, 2013	December 31, 2014	December 31, 2013	
Interest rate swap and cap agreements	Other assets	\$—	\$ —	Other liabilities	\$—	\$ 97
Total derivatives designated as hedging instruments		\$—	\$ —		\$—	\$ 97

These valuation adjustments will only be realized under certain situations. For example, if we terminate contracts prior to maturity or if derivatives fail to qualify for hedge accounting, we would need to amortize amounts currently included in accumulated other comprehensive income into interest expense over the terms of the derivative contracts. We did not terminate our swap prior to maturity, and it did not fail to qualify for hedge accounting; therefore, the net of valuation adjustments through the maturity date approximated zero.

Our hedges were highly effective and had minimal effect on income. The following table summarizes the impact of derivative instruments for the years ended December 31, 2014, 2013 and 2012 as recorded in the consolidated statements of operations (in thousands):

Edgar Filing: SUN COMMUNITIES INC - Form 10-K

Derivatives in cash flow hedging relationship	Amount of gain or (loss) recognized in OCI (effective portion)			Location of gain or (loss) reclassified from accumulated OCI into income (effective portion)	Amount of gain or (loss) reclassified from accumulated OCI into income (effective portion)		
	Year Ended December 31,				Year Ended December 31,		
	2014	2013	2012		2014	2013	2012
Interest rate swap and cap agreements	\$97	\$362	\$643	Interest expense	\$—	\$—	\$—

Our financial derivative instruments are designated and qualify as cash flow hedges and the effective portion of the gain or loss on such hedges are reported as a component of accumulated other comprehensive loss in our consolidated balance sheets. To the extent that the hedging relationship is not effective or does not qualify as a cash flow hedge, the ineffective portion is recorded in interest expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that they are designated as well as through the hedging period. No gain or loss was recognized in the consolidated financial statements

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

16. Derivative Instruments and Hedging Activities, continued

related to hedge ineffectiveness or to amounts excluded from effectiveness testing on our cash flow hedge during the years ended December 31, 2014 and 2013. An insignificant loss was recognized during the year ended December 31, 2012.

Certain of our derivative instruments contain provisions that require us to provide ongoing collateralization on derivative instruments in a liability position. As of December 31, 2013, we had collateral deposits recorded in other assets of approximately \$0.7 million. As of December 31, 2014, we had no such deposits recorded.

17. Fair Value of Financial Instruments

Our financial instruments consist primarily of cash and cash equivalents, accounts and notes receivable, accounts payable, derivative instruments, and debt.

ASC Topic 820, Fair Value Measurements and Disclosures, establishes guidance for the fair value hierarchy that requires the use of observable market data, when available, and prioritizes the inputs to valuation techniques used to measure fair value in the following categories:

Level 1—Quoted unadjusted prices for identical instruments in active markets.

Level 2—Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which all observable inputs and significant value drivers are observable in active markets.

Level 3—Model derived valuations in which one or more significant inputs or significant value drivers are unobservable, including assumptions developed by us.

We utilize fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value.

Derivative Instruments

The derivative instruments held by us are interest rate swap and cap agreements for which quoted market prices are indirectly available. For those derivatives, we use model-derived valuations in which all observable inputs and significant value drivers are observable in active markets provided by brokers or dealers to determine the fair values of derivative instruments on a recurring basis (Level 2).

Installment Notes on Manufactured Homes

The net carrying value of the installment notes on manufactured homes estimates the fair value as the interest rates in the portfolio comparable to current prevailing market rates (Level 2).

Long Term Debt and Lines of Credit

The fair value of long term debt (excluding the secured borrowing) is based on the estimates of management and on rates currently quoted and rates currently prevailing for comparable loans and instruments of comparable maturities (Level 2).

Collateralized Receivables and Secured Borrowing

The fair value of these financial instruments offset each other as our collateralized receivables represent a transfer of financial assets and the cash proceeds received from these transactions have been classified as a secured borrowing in the consolidated comparable to current prevailing market rates (Level 2).

Other Financial Instruments

The carrying values of cash and cash equivalents, accounts receivable, and accounts payable approximate their fair market values due to the short-term nature of these instruments.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

17. Fair Value of Financial Instruments, continued

The table below sets forth our financial assets and liabilities that required disclosure of their fair values on a recurring basis as of December 31, 2014. The table presents the carrying values and fair values of our financial instruments as of December 31, 2014 and December 31, 2013 that were measured using the valuation techniques described above (in thousands). The table excludes other financial instruments such as cash and cash equivalents, accounts receivable, and accounts payable because the carrying values associated with these instruments approximate fair value since their maturities are less than one year.

	December 31, 2014		December 31, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial assets				
Installment notes receivable on manufactured homes, net	\$25,884	\$25,884	\$25,471	\$25,471
Collateralized receivables, net	\$122,962	\$122,962	\$109,821	\$109,821
Financial liabilities				
Derivative instruments	\$—	\$—	\$97	\$97
Debt (excluding secured borrowing)	\$1,702,643	\$1,752,939	\$1,200,927	\$1,211,821
Secured borrowing	\$123,650	\$123,649	\$110,510	\$110,510
Lines of credit	\$5,794	\$5,794	\$181,383	\$181,383

The table below sets forth, by level, our financial assets and liabilities that were required to be carried at fair value in the consolidated balance sheets as of December 31, 2014 and 2013 (in thousands):

	Description	Frequency	Asset/(Liability)	Level 1	Level 2	Level 3
December 31, 2014	Derivative instruments	Recurring	\$ —	\$—	\$—	\$—
December 31, 2013	Derivative instruments	Recurring	\$ (97)	\$—	\$(97)	\$—

The derivative instruments are the only financial liabilities that were required to be carried at fair value in the consolidated balance sheets for the periods indicated, and we have no financial assets that are required to be carried at fair value.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

18. Recent Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board (the "FASB") issued ASU No. 2014-15, ("ASU 2014-15"), Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern. ASU 2014-15 requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued and provides guidance on determining when and how to disclose going concern uncertainties in the financial statements. Certain disclosures will be required if conditions give rise to substantial doubt about an entity's ability to continue as a going concern. ASU 2014-15 applies to all entities and is effective for annual and interim reporting periods ending after December 15, 2016, with early adoption permitted. We are currently evaluating the potential impacts the new standard will have on our quarterly reporting process.

In May 2014, the FASB issued ASU No. 2014-09, ("ASU 2014-09"), Revenue from Contracts with Customers as a new Topic, Accounting Standards Codification ("ASC") Topic 606. The objective of ASU 2014-09 is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the new standard, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB ASC. This ASU is effective for annual reporting periods (including interim periods within those periods) beginning after December 15, 2016 and shall be applied using either a full retrospective or modified retrospective approach. Early adoption is not permitted. We are currently evaluating the new guidance and have not determined the impact this standard may have on our consolidated financial statements nor decided upon the method of adoption.

In April 2014, the FASB issued ASU No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity ("ASU 2014-08"). ASU 2014-08 raises the threshold for a disposal to qualify as a discontinued operation by requiring only those disposals of a component or group of components that represent a strategic shift or that will have a major effect on a company's operational and financial results and also requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. The guidance does not change the presentation requirements for discontinued operations in the statement where net income is presented. ASU 2014-08 also requires the reclassification of assets and liabilities of a discontinued operation in the statement of financial position for all prior periods presented. The standard expands the disclosures for discontinued operations and requires new disclosures related to individually material disposals that do not meet the definition of a discontinued operation, an entity's continuing involvement with a discontinued operation following the disposal date and retained equity method investments in a discontinued operation. ASU 2014-08 is effective for annual periods beginning on or after December 15, 2014 and interim periods within annual periods beginning on or after December 15, 2015. Early adoption is permitted but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issue. We have chosen to early adopt this pronouncement and have applied the guidance to recent applicable disposals (see Note 2).

19. Commitments and Contingencies

On June 4, 2010, we settled all of the claims arising out of the litigation filed in 2004 by TJ Holdings, LLC in the Superior Court of Guilford County, North Carolina and the associated arbitration proceeding commenced by TJ Holdings in Southfield, Michigan. Under the terms of the settlement agreement, in which neither party admitted any liability whatsoever, we paid TJ Holdings \$360,000. In addition, pursuant to this settlement, TJ Holdings' percentage ownership interest in Sun/Forest, LLC will be increased on a one time basis, in the event of a sale or refinance of all of the SunChamp Properties, to between 9.03% and 28.99% depending on our average closing stock price as reported by

the NYSE during the 30 days preceding the sale or refinance of all the SunChamp Properties. Once this percentage ownership interest has been adjusted, there will be no further adjustments from subsequent sales or refinances of the SunChamp Properties. The likelihood of a sale or refinancing of all of the SunChamp properties is not probable as these properties continue to see growth potential nor do we have a need to refinance all of the properties, so we do not expect it to have a material adverse impact on our results of operations or financial condition.

We are involved in various other legal proceedings arising in the ordinary course of business. All such proceedings, taken together, are not expected to have a material adverse impact on our results of operations or financial condition.

F - 44

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

20. Related Party Transactions

We have entered into the following transactions with OFS LLC:

Investment in OFS LLC. We entered into an agreement with four unrelated companies and we contributed cash of approximately \$0.6 million towards the formation of OFS LLC. OFS LLC purchased the loan origination platform of Origen. The purpose of the venture is to originate manufactured housing installment contracts for its members. We accounted for our investment in OFS LLC using the equity method of accounting which we have since suspended. As of December 31, 2014, we had an ownership interest in the OFS LLC of 22.9%, and the carrying value of our investment was zero.

Loan Origination, Sale and Purchase Agreement. As of 2014, our agreement with OFS LLC, in which OFS LLC agreed to fund loans that meet our underwriting guidelines and then transfer those loans to us pursuant to a Loan Origination, Sale and Purchase Agreement, was terminated. In 2013, we paid OFS LLC a fee of \$650 per loan pursuant to a Loan Origination, Sale and Purchase Agreement which totaled approximately \$0.1 million and we purchased, at par, \$7.7 million of these loans during the year ended December 31, 2013.

We have entered into the following transactions with Origen:

Investment in Origen. We own 5,000,000 shares of Origen common stock and Shiffman Origen LLC (which is owned by the Milton M. Shiffman Spouse's Marital Trust, Gary A. Shiffman (our Chairman and Chief Executive Officer), and members of Mr. Shiffman's family) owns 1,025,000 shares of Origen common stock. Gary A. Shiffman is a member of the Board of Directors of Origen and Arthur A. Weiss, our director, is a trustee of the Milton M. Shiffman Spouse's Marital Trust. Ronald A. Klein, one of our directors, is the Chief Executive Officer and a director of Origen. Mr. Klein, Mr. Weiss and Brian M. Hermelin, another of our directors, beneficially own approximately 570,000, 10,000, and 200,000 shares of Origen common stock, respectively. We accounted for our investment in Origen using the equity method of accounting which we have since suspended. As of December 31, 2014 we had an ownership interest in Origen of approximately 19%, and the carrying value of our investment was zero.

Board Membership and Chief Executive Officer. Gary A. Shiffman, our Chairman and Chief Executive Officer, is a board member of Origen, and Ronald A. Klein is a board member and the Chief Executive Officer of Origen.

In addition to the transactions with Origen described above, Mr. Shiffman, Mr. Weiss and Mr. Klein have entered into the following transactions with us:

Lease of Executive Offices. Gary A. Shiffman, together with certain of his family members, indirectly owns a 21% equity interest in American Center LLC, the entity from which we lease office space for our principal executive offices. Each of Arthur A. Weiss and Ronald A. Klein owns a less than one percent indirect interest in American Center LLC. Under this lease agreement, we lease approximately 62,900 rentable square feet. The term of the lease is until October 31, 2026, and the base rent through October 31, 2015 is \$16.45 per square foot (gross). From November 1, 2015 to October 31, 2016, the base rent will be \$16.95 per square foot (gross) and from November 1, 2016 to October 31, 2017, the base rent will be \$17.45 per square foot (gross). We also have a temporary lease for approximately 10,500 rentable square feet with base rent equal to \$12.71 per square foot (gross). This temporary lease is currently operating on a month to month basis. Our annual rent expense associated with the lease of our executive offices was approximately \$1.0 million for each of the years ended December 31, 2014 and 2013, and \$0.7 million for the year ended December 31, 2012. Our future annual rent expense will be approximately \$1.0 million for 2015, \$1.1 million for 2016, 2017 and 2018, \$1.2 million for 2019 and \$8.8 million thereafter. Each of Mr. Shiffman, Mr. Weiss

and Mr. Klein may have a conflict of interest with respect to his obligations as our officer and/or director and his ownership interest in American Center LLC.

Legal Counsel. During 2012-2014, Jaffe, Raitt, Heuer, & Weiss, Professional Corporation acted as our general counsel and represented us in various matters. Arthur A. Weiss is the Chairman of the Board of Directors and a shareholder of such firm. We incurred legal fees and expenses owed to Jaffe, Raitt, Heuer, & Weiss of approximately \$7.5 million, \$3.2 million and \$3.4 million in the years ended December 31, 2014, 2013 and 2012, respectively.

Tax Consequences Upon Sale of Properties. Gary A. Shiffman holds limited partnership interests in the Operating Partnership which were received in connection with the contribution of properties from partnerships previously affiliated with him. Prior to any redemption of these limited partnership interests for our common stock, Mr. Shiffman will have tax consequences different from those on us and our public stockholders upon the sale of any of these partnerships. Therefore, we and Mr. Shiffman may have different objectives regarding the appropriate pricing and timing of any sale of those properties.

SUN COMMUNITIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

21. Subsequent Events

We have evaluated our financial statements for subsequent events through the date that this Form 10-K was issued.

Second Closing of Green Courte Acquisition

During January 2015, we completed the second closing of the acquisition of the Green Courte properties. See Note 2 for details on the acquisition.

Debt

In relation to the acquisition of the Green Courte properties (see Note 2), subsequent to year end we refinanced approximately \$120.9 million of mortgage debt on 13 of the communities (resulting in proceeds of \$126.0 million) at a weighted average interest rate of 3.87% per annum and a weighted average term of 14.1 years, and we assumed approximately \$149.9 million of mortgage debt at a weighted average interest rate of 5.74% and a weighted average remaining term of 6.3 years.

Disposition

In January 2015, we completed the sale of a MH community comprised of 798 sites located in Indiana for \$17.3 million.

Acquisition Agreement

On December 4, 2014, we entered into seven separate contribution agreements (the "Contribution Agreements") with a group of related selling entities (collectively, the "Selling Parties") with respect to our planned acquisition of a portfolio of seven manufactured housing communities, including associated manufactured homes and certain other personal property and intangibles. After closing, we will operate the properties as six communities rather than seven. The properties are located in the Orlando, Florida area, are comprised of approximately 3,150 manufactured housing sites (approximately 60% of which are in age-restricted communities) and are 96% occupied. In addition to the developed sites, there are approximately 380 potential expansion sites in the Properties.

Total consideration for the acquisition is approximately \$257.6 million, including the assumption of approximately \$157.5 million of debt. The balance of the consideration will be paid in a combination of up to approximately \$41.8 million in cash, common OP units of the Operating Partnership at an issuance price of \$61 per unit and newly-created Series C preferred OP units of the Operating Partnership at an issuance price of \$100 per unit (the "Series C Preferred Units"). Of the consideration to be paid with OP units in the Operating Partnership, 60% will be paid in Series C Preferred Units and 40% will be paid in common OP units. Distributions will be paid on the Series C Preferred Units at a rate equal to 4.0% per year from the date of issuance until the second anniversary of the date of issuance, 4.5% per year during the following three years, and 5.0% per year thereafter. Subject to certain limited exceptions, at the holder's option, each Series C Preferred Unit will be exchangeable into 1.1111 shares of the Company's common stock. Holders of Series C Preferred Units will not have voting or consent rights.

The transaction is subject to the Company's satisfaction with its due diligence investigation and customary closing conditions, including consent of the existing lenders. The transaction is expected to close in the second quarter of 2015.
