### Item 1. Consolidated Financial Statements

The accompanying unaudited consolidated financial statements have been prepared by CareCentric, Inc. ("CareCentric" or the "Company") pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of the Company, all adjustments (consisting only of normal recurring entries) necessary for the fair presentation of the Company's results of operations, financial position and cash flows for the periods presented have been included.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2001  
(UNAUDITED)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

MCS as Deemed Acquirer of CareCentric, Inc.  
-----

On March 7, 2000, CareCentric, Inc. (formerly known as Simone Central Holdings Inc.) ("CareCentric" or the "Company") and MCS, Inc. ("MCS") merged in a transaction accounted for as a reverse acquisition for financial reporting purposes. In connection with the acquisition, CareCentric issued 1,489,853 shares of its common stock in exchange for all the outstanding common stock of MCS, and thereby, the former shareholders of MCS acquired control of CareCentric. As a result, for financial reporting purposes MCS is considered the acquiring company; hence, the historical financial statements of MCS became the historical financial statements of CareCentric and include the results of operations of CareCentric only from the effective acquisition date.

The weighted average common shares for the three months ended March 31, 2000 are recast in the accompanying Consolidated Statements of Operations to give effect to the 1,489,853 shares of CareCentric common stock that were issued to the MCS shareholders in connection with the CareCentric/MCS merger on March 7, 2000 as though such shares had been outstanding for the entire period. For the period from January 1, 2000 through March 6, 2000, therefore, 1,489,853 shares of issued and outstanding CareCentric common stock are deemed to be owned by the MCS shareholders. For the period from March 7, 2000 through December 31, 2000, there were 3,849,816 total shares of issued and outstanding Company common stock (after giving effect to the CareCentric/MCS merger). The weighted average shares for the year ended December 31, 2000 are also recast to give effect to the 1,489,853 shares of CareCentric common stock that were issued to the MCS shareholders pursuant to the CareCentric/MCS merger as though such shares had been outstanding for the entire period.

Basis of Presentation  
-----

The consolidated financial statements have been prepared by the Company (which as used herein refers to CareCentric, after giving effect to the merger with MCS and, as the context requires, MCS, prior to the CareCentric/MCS merger), include the results of operations of the parent company and its wholly owned subsidiaries and are unaudited (except for the December 31, 2000 balance sheet). In the opinion of management, all adjustments, which consist of normal recurring adjustments, considered necessary for a fair presentation have been included. All inter-company balances and transactions have been eliminated. Interim results are not necessarily indicative of the results that may be expected for the year ending December 31, 2001.

Certain financial information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto as of December 31, 2000 appearing in the Company's Report on Form 10-K for the year ended December 31, 2000.

## Edgar Filing: CARECENTRIC INC - Form 10-Q

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and amounts and classification of liabilities that might be necessary should the Company be unable to continue to operate in the normal course of business. See the Liquidity and Capital Resources section of Management's Discussion and Analysis of Financial Condition and Results of Operations herein.

Certain prior period amounts have been reclassified to conform to the 2001 financial statement presentation.

### Description of Business

-----

The Company is a leading provider of information technology systems and related services and consulting services designed to help home health care providers more effectively operate their businesses in today's environment. The Company's focus is to help home health care providers streamline their operations and better serve their patients. The Company offers several comprehensive software solutions. Each of these solutions provides a basic set

8

of software applications and specialized modules that can be added based upon customer needs. These software solutions are designed to enable customers to generate and utilize comprehensive financial, operational and clinical information. In addition to its software solutions and related software support services, the Company's home health care consulting services assist providers in addressing the challenges of reducing costs, maintaining quality, streamlining operations and re-engineering organizational structures, as well as assisting with regulatory compliance and merger and acquisition due diligence.

### Cash Equivalents

-----

All highly liquid investments purchased with an original maturity of three months or less are considered to be cash equivalents.

### Intangible Assets and Long-Lived Assets

-----

Statement of Financial Accounting Standards ("SFAS") No. 121, "Accounting for the Impairment of Long-lived Assets and for Long-lived Assets to be Disposed Of" requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the asset's carrying amount.

The intangible assets arising from the CareCentric/MCS merger are amortized using the straight-line method over the estimated useful lives of the related assets as more fully disclosed in Note 4. The Company reviews its long-lived and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The measurement of possible impairment is based upon determining whether projected undiscounted future cash flow from the use of the asset is less than the carrying amount of the asset.

## Edgar Filing: CARECENTRIC INC - Form 10-Q

### Income Taxes

-----

The Company accounts for income taxes using the asset/liability method which requires recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between the financial statement carrying amount and the tax bases of assets and liabilities.

### Net (Loss) Earnings Per Share

-----

The Company has adopted SFAS No. 128, "Earnings Per Share." SFAS No. 128 replaced the calculation of primary and fully diluted earnings per share with basic and diluted earnings per share. Unlike primary earnings per share, basic earnings per share exclude any dilutive effects of options, warrants and convertible securities. Diluted earnings per share for the quarters ended March 31, 2000 and 2001 exclude the effects of options, warrants and conversion rights as they would be antidilutive, and as a result, basic and diluted earnings are the same for the quarters ended March 31, 2000 and 2001. Per share amounts for all periods have been presented in conformity with SFAS No. 128 requirements.

### Stock Based Compensation

-----

Stock options are accounted for under Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and the provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock Based Compensation (SFAS No. 123 and related interpretations).

9

### Fair Value of Financial Instruments

-----

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Cash and cash equivalents: The carrying amounts reported in the balance sheet for cash and cash equivalents approximate their fair value.

Notes payable: The carrying amounts of the Company's notes payable approximates their fair value.

### Recently Adopted Accounting Standards

-----

In 1998, the Financial Accounting Standards Board issued SFAS No. 133 "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 133 became effective for the Company's fiscal quarter ended March 31, 2001. The Company's management does not believe that the adoption of SFAS No. 133 will have a material impact on the Company's financial position or results of operations.

On December 3, 1999, the SEC released Staff Accounting Bulletin 101, (SAB 101) "Revenue Recognition in Financial Statements". This bulletin established more clearly defined revenue recognition criteria than previously existing accounting pronouncements. On June 26, 2000, the SEC released SAB 101B, which

## Edgar Filing: CARECENTRIC INC - Form 10-Q

delayed the required implementation of SAB 101 until no later than the fourth quarter of fiscal years ending December 31, 2000. The Company believes that the effects of this bulletin were not material to its financial position, results of operations or cash flow.

### NOTE 2 - CARECENTRIC/MCS MERGER

On March 7, 2000, MCS completed the merger with CareCentric. CareCentric issued 1,489,853 shares of common stock to MCS stockholders in exchange for all of the outstanding shares of MCS common stock. This number of shares has been adjusted to reflect a one-for-five reverse stock split that was completed by CareCentric immediately prior to the merger. In connection with the closing of the merger, Mestek invested \$6.0 million in CareCentric in exchange for 5.6 million shares of Series B preferred stock and warrants to purchase 400,000 shares (on a split adjusted basis) of CareCentric common stock. Additional information on the merger is included in the Company's Registration Statement on Form S-4 (Registration No. 333-96529).

As required by generally accepted accounting principles (GAAP), the effects of the merger on the Company's assets and liabilities have been excluded from the operating section of the cash flow statement for reporting purposes.

Pro-forma unaudited results assuming the merger took place as of January 1, 2000 are as follows:

	FOR THREE MONTHS ENDED MARCH 31,	
	2001	2000
Net revenues	\$ 6,844,000	\$ 8,011,000
Net (loss)	\$ (2,331,000)	\$ (2,445,000)
Net (loss) per share - basic	\$ (0.59)	\$ (0.63)
Net (loss) per share - diluted	\$ (0.59)	\$ (0.63)

10

### NOTE 3 - PURCHASED SOFTWARE, FURNITURE AND EQUIPMENT

Purchased software, furniture and equipment consisted of the following:

	MARCH 31, 2001	DECEMBER 31, 2000	DEPR ES USEF
Software	\$ 1,633,000	\$ 1,635,000

	\$26,501,000	\$ (4,013,000)	\$ 22,488,000

### NOTE 5 - NOTES PAYABLE AND CAPITAL LEASE OBLIGATIONS

	March 31, 2001	December 31, 2000
<b>SHORT TERM:</b>		
Line of Credit	\$ 5,996,000	\$ 5,996,000
Note Payable - Mestek	\$ 600,000	\$ 600,000
	\$ 6,596,000	\$ 6,596,000
<b>LONG TERM:</b>		
Convertible Note Payable - Barrett C. O'Donnell	\$ 600,000	\$ 600,000
Convertible Note Payable - J.E Reed	\$ 1,700,000	\$ -
	\$ 2,300,000	\$ 600,000

#### Line of Credit:

On July 12, 2000, the Company entered into a \$6.0 million Loan and Security Agreement facility (the Wainwright Facility) with Wainwright Bank and Trust Company, a commercial bank, under which the Company granted a first priority position on substantially all of its assets as security. The Wainwright Facility was initially used to pay off the line of credit with Silicon Valley Bank, certain short-term loans from Mestek, Inc., and a loan from David O. Ellis, and then to fund the Company's operations. Borrowings under the Wainwright Facility accrue interest, at the bank's prime rate per annum, require monthly payments of interest and mature on July 12, 2001. The

Company expects that line of credit will be renewed at maturity under substantially equivalent terms. The Company's obligations under the Wainwright Facility are guaranteed by Mestek in consideration of which the Company has issued a warrant to Mestek to purchase 104,712 shares of the Company's common stock as more fully explained in Note 7 to these Financial Statements.

## Edgar Filing: CARECENTRIC INC - Form 10-Q

### Convertible Note Payable - Barrett C. O'Donnell:

On November 11, 1999, Simone borrowed \$500,000 from Barrett C. O'Donnell on an unsecured basis and executed a promissory note in connection therewith. Mr. O'Donnell is a director of the Company. When the CareCentric/MCS merger was completed on March 7, 2000, the Company succeeded to this obligation. The note payable to Mr. O'Donnell included interest at 9% per annum, was scheduled to mature on May 11, 2002, and required quarterly payments of accrued interest. On August 8, 2000, the \$500,000 note payable to Mr. O'Donnell, together with \$100,000 of deferred salary, was cancelled in exchange for a \$600,000 subordinated note, convertible into CareCentric common stock at a strike price of \$2.51 per share, with interest at 9% per annum and a five-year maturity.

### Note Payable - Mestek:

The Company is obligated under a one year unsecured promissory note in the principal amount of \$600,000 payable to Mestek Inc. which bears interest at prime with interest payable semiannually and which matures on July 30, 2001. This note covers funds advanced by Mestek to CareCentric to cover payroll and accounts payable obligations incurred by the Company during the period of its transition of senior lenders from Silicon Valley Bank to Wainwright Bank and Trust Company.

### J.E. Reed Facility:

On June 22, 2000, the Company entered into a new financing facility (the J. E. Reed Facility) provided by John E. Reed, Chairman of CareCentric and the Chairman and Chief Executive Officer of Mestek, Inc. The J. E. Reed Facility consists of a \$6.0 million subordinated revolving line of credit, convertible into common stock of the Company at a strike price of \$2.51 per share, with interest at 9% per annum and a five-year maturity. The J. E. Reed Facility can be drawn down by the Company as needed in \$500,000 increments and is secured by a second position on substantially all of the Company's assets. Borrowings totaling \$2.2 million were outstanding under the J. E. Reed Facility as of May 11, 2001.

The Company is obligated under a number of capital lease obligations originally entered into by CareCentric related to computer equipment formerly used in CareCentric's business.

### NOTE 6 - COMMITMENTS AND CONTINGENCIES

The Company is engaged in various legal and regulatory proceedings arising in the normal course of business which management believes will not have a material adverse effect on its financial position or results of operations.

### NOTE 7 - SHAREHOLDERS' EQUITY

Subsequent to December 31, 2000, the Company's Shareholders' Equity (all on a split-adjusted basis) is as follows:

Common Shares - 20,000,000 shares authorized, \$.001 par value, 4,443,504 shares issued and outstanding. Of such shares, 1,489,853 were issued on March 7, 2000 to the former MCS common shareholders, 606,904 were issued on March 7, 2000 to the holders of CareCentric Series A Preferred Stock (the former preferred

shareholders and noteholders of CareCentric Solutions, Inc.), which shares were

## Edgar Filing: CARECENTRIC INC - Form 10-Q

converted into CareCentric common shares in connection with the merger, and 593,688 were issued on March 19, 2001 to the former preferred shareholders and noteholders of CareCentric Solutions, Inc. as described below.

Pursuant to the terms of the July 12, 1999 Merger Agreement by which Simione acquired the stock of CareCentric Solutions, Inc., the Company was required to issue up to an additional 606,904 shares of common stock to the former preferred shareholders and noteholders of CareCentric Solutions if the average closing price of the Company's stock for the period October 1, 2000 through December 31, 2000 is not equal to \$15.00 per share. Since the Company's average closing stock price for the fourth quarter of 2000 was less than \$15.00 per share, on March 19, 2001, the Company issued 593,688 shares of its common stock to the former preferred shareholders and noteholders of CareCentric Solutions. The Company has asserted that it is not required to issue 13,216 additional shares of its common stock as well as 150,740 shares of common stock currently being held by it in escrow under the terms of the CareCentric Solutions Merger Agreement based upon various indemnification and expense overages claims it believes it has against the former CareCentric Solutions preferred shareholders and noteholders. The Company has negotiated a settlement of these claims with the representative of the former CareCentric Solutions parties pursuant to which 88,586 shares of common stock will be released from escrow and distributed to the former CareCentric Solutions preferred shareholders and noteholders, the remaining 62,154 escrow shares will be cancelled, no additional shares of common stock will be issued, and the parties will execute a comprehensive settlement agreement.

Stock Options - The Company has granted options to purchase an aggregate of 698,819 shares (on a split adjusted basis) of common stock as of March 31, 2001. Of the options granted, none were exercised prior to March 31, 2000 and 117,593 have been cancelled. Of the remaining 581,226 options, 243,426 are vested and exercisable as of March 31, 2001. The exercise prices range from \$2.51 to \$73.55 per share, both on a split adjusted basis.

On January 5, 2001, non-qualified options totaling 25,000 shares were granted under the Plan to the non-employee directors at an exercise price of \$3.25 per share.

### NOTE 8 - SEGMENT RESULTS

The Company has two reportable segments: Software Systems and Consulting. The Company's Software Systems segment sells comprehensive and flexible software solutions and services to enable home health care providers to more effectively operate their businesses and compete in prospective payment (PPS) and managed care environments. The Consulting segment assists home health care providers in addressing the challenges of reducing costs, maintaining quality, streamlining operations and re-engineering organizational structures, as well as assisting with regulatory compliance and assisting with merger and acquisition due diligence.

The Company evaluates performance and allocates resources based on profit or loss from operations, not including gains and losses on the Company's investment portfolio. The accounting policies of the reportable segments are the same as those used for the Consolidated Financial Statements. The revenues, operating (losses) profits and assets of the Company include the operations of MCS only from January 1, 2000 through March 7, 2000 and CareCentric from March 7, 2000 forward. Accordingly, because CareCentric's 2000 results from operations are not fully included, comparability between the 2000 and 2001 figures is not meaningful. See Management's Discussion and Analysis of Financial Condition and Results of Operations for a discussion of revenue and results of operations on a "comparable" basis. The revenues, operating losses and assets of the Company by business segment are as follows:

Edgar Filing: CARECENTRIC INC - Form 10-Q

13

	Three Months ended March 31,	
	2001	2000
Revenues:		
Software Systems	\$ 5,685,000	\$ 3,564,000
Consulting	1,159,000	436,000

Certain categories of expenses are omitted. See Consolidated Financial Statements above.

The Net Income (loss) from continuing operations reported above has been affected by non-cash depreciation and amortization charges as reported above.

14

NOTE 9 - LICENSE AGREEMENTS

The Company licenses certain software products from third parties for incorporation in, or other use with, its products and is obligated to pay license fees in connection with such products. The Company sublicenses such products to its customers and collects fees in connection with such sublicenses.

NOTE 10 - SUBSEQUENT EVENTS

On January 31, 2001, the Company changed its name from Simone Central Holdings, Inc. to CareCentric, Inc. pursuant to a Certificate of Ownership and Merger filed under applicable provisions of the Delaware General Corporation Law. On the same date, the Company's two operating subsidiaries also changed their names, with Simone Central Consulting, Inc. changing its name to Simone Consulting, Inc. and Simone Central National, LLC changing its name to CareCentric National, LLC pursuant to filings made with the Georgia Secretary of State's office.

On March 19, 2001, the Company issued 593,688 shares of its common stock to the former preferred shareholders and noteholders of CareCentric Solutions pursuant to the terms of the July 12, 1999 Merger Agreement as more fully explained in Note 7 to these Financial Statements.

In the second quarter of 2001 the Company recorded restructuring charges of approximately \$675,000 relating primarily to initiatives to reduce future operating costs by focusing the software operations into two core markets - Home Medical Equipment - IV and Home Health Agency. Principal costs included in the charge were (i) severance and related benefits for the elimination of 33 positions and the layoff of six employees, and (ii) the costs of closing one non-essential training and support location.

15

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Certain statements set forth in Management's Discussion and Analysis of Financial Condition and Results of Operations constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Act of 1934, as amended, and are

## Edgar Filing: CARECENTRIC INC - Form 10-Q

subject to the safe harbor created by such sections. When used in this report, the words "believe", "anticipate", "estimate", "expect", and similar expressions are intended to identify forward-looking statements. The Company's future financial performance could differ significantly from that set forth herein, and from the expectations of management. Important factors that could cause the Company's financial performance to differ materially from past results and from those expressed in any forward looking statements include, without limitation, the inability to close the transactions required to obtain the additional capital resources described herein, variability in quarterly operating results, customer concentration, product acceptance, long sales cycles, long and varying delivery cycles, the Company's dependence on business partners, emerging technological standards, the effects of changes in regulations affecting health care providers, uncertainties regarding the restructuring described herein, risks associated with acquisitions and the risk factors detailed in the Company's Registration Statement on Form S-4 (File No. 333-96529) and in the Company's periodic reports filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company's consolidated financial statements and the notes thereto.

### Liquidity and Capital Resources

-----

The Company secured \$13.0 million in new debt and equity capital during 2000 as follows:

SOURCE	FUNDING	FORM	DATE
-----	-----	-----	-----
John E. Reed	\$ 1,000,000	Series D Preferred Stock	June
John E. Reed	6,000,000	Line of Credit	June
Wainwright Bank and Trust Company	6,000,000	Line of Credit	July
	-----		
	\$ 13,000,000		
	=====		

Details on these three transactions are described in greater detail in Note 5 to the accompanying Financial Statements.

The Wainwright Bank and Trust Company Line of Credit was used to pay off the Silicon Valley Bank Line of Credit, certain short term loans from Mestek Inc., and the note payable to David O. Ellis. As of May 11, 2001, the unused capacity under the John E. Reed and Wainwright Bank and Trust Company lines of credit are \$3,800,000 and \$0, respectively.

Notwithstanding the Company's continued commitment to research and development, its net borrowings from all sources, representing in effect the Company's "cash run rate", were significantly reduced during the three months ended March 31, 2001, to \$1,700,000, as compared with the three months ended December 31, 2000, during which the Company borrowed \$2,697,000. The Company's borrowings from all sources between April 1, 2001 and May 11, 2001 were \$500,000, with \$3,800,000 in available capacity remaining under the J.E. Reed line of credit as of that date. As disclosed in the financial statements, the Company has a working capital deficit of \$13,515,000 at March 31, 2001.

## Edgar Filing: CARECENTRIC INC - Form 10-Q

In furtherance of the Company's plan to achieve a breakeven cash run rate in the near term, it implemented a restructuring plan in April 2001, as more fully described herein, in addition to the various other ongoing cost reduction initiatives undertaken subsequent to the MCS/CareCentric merger on March 7, 2000. The Company believes in light of these cost reduction efforts that its funding sources, as described above, will be sufficient to meet its working capital needs in 2001. The Company remains dependent, however, on its majority shareholder, J. E. Reed, for its working capital financing needs.

16

As part of the restructuring plan, the Company will record a restructuring charge of approximately \$675,000 to cover the cost of employee severance and related benefits for the elimination of 33 positions, the layoff of six employees, and the closing of one non-essential training and support facility. Total annual payroll and associated benefits for the affected employees are approximately \$3.8 million and total annual operating costs for the closed facility are approximately \$55,000.

The Company's operating earnings for the three months ended March 31, 2001, after adding back non cash charges (amortization and depreciation) and spending on research and development, was \$751,000, computed as follows:

(Loss) Income from operations	\$	(2,101,000)
Amortization and depreciation		1,085,000
Research and development		1,767,000
		-----
	\$	751,000
		=====

### Background

-----  
CareCentric, Inc. (formerly known as Simione Central Holdings, Inc.) ("CareCentric" or the "Company") is a leading provider of information technology systems and related software support services and consulting services designed to help home health care providers more effectively operate their businesses in today's environment. The Company's focus is to help home health care providers streamline their operations and better serve their patients. CareCentric offers several comprehensive software solutions. Each of these solutions provides a basic set of software applications and specialized modules, which can be added based on customer needs. These software solutions are designed to enable customers to generate and utilize comprehensive financial, operational and clinical information. In addition to its software solutions and related software support services, the Company's home health care consulting services assist providers in addressing the challenges of reducing costs, maintaining quality, streamlining operations and re-engineering organizational structures, as well as assisting with regulatory compliance and merger and acquisition due diligence.

The Company sells its software pursuant to non-exclusive license agreements, which provide for the payment of a one-time license fee. In accordance with SOP 97-2, these revenues are recognized when products are delivered and the collectibility of fees is probable, provided that no significant obligations remain under the contract. The Company generally requires payment of a deposit upon the signing of a customer order as well as certain additional payments prior to delivery. As a result, the Company's balance sheet reflects significant customer deposits.

Third party software and computer hardware revenues are recognized when the related products are shipped. Software support agreements are generally renewable for one-year periods, and revenue derived from such agreements is

## Edgar Filing: CARECENTRIC INC - Form 10-Q

recognized ratably over the period of the agreements. The Company has historically maintained high renewal rates with respect to its software support agreements. The Company charges for software implementation, training and technical consulting services as well as management consulting services on an hourly or daily basis. The price of such services varies depending on the level and expertise of the related professionals. These revenues are recognized as the related services are performed.

The Company believes that continued enhancement of its software systems is critical to its future success, and anticipates that investment in existing and new products will continue as needed to support the Company's product strategies. Costs incurred to establish the technological feasibility of computer software products are expensed as incurred. The Company's policy is to capitalize costs incurred between the point of establishing technological feasibility and general release only when such costs are material. For the three months ended March 31, 2001 and 2000, the Company did not capitalize any computer software development costs.

17

### Backlog

-----

The Company had backlog associated with its software operations of approximately \$3.7 million and \$4.1 million on March 31, 2001 and December 31, 2000, respectively. Backlog consists of the unrecognized portion of contractually committed software license fees, hardware, estimated installation fees and professional services. The length of time required to complete an implementation depends on many factors outside the control of the Company, including the state of the customer's existing information systems and the customer's ability to commit the personnel and other resources necessary to complete the implementation process. As a result, the Company may be unable to predict accurately the amount of revenue it will recognize in any period and therefore can make no assurances that the amounts in backlog will be recognized in the next twelve months.

During the first quarter of 2001 CareCentric recorded new orders for software and related services of \$2.1 million, a decrease of \$0.5 million, or 19.0%, from the \$2.6 million recorded in the first quarter of 2000.

### Results of Operations

-----

Results of operation for the three months ended March 31, 2000 included the operations of the former MCS for three months and the operations of CareCentric (formerly Simone Central Holdings, Inc.) for only the period subsequent to March 7, 2000. As a result, a comparison of the 2001 and 2000 Statements of Operations is not meaningful to an understanding of the Company's relative performance. Therefore, for purposes of comparability, the following discussion reflects the assumption that the operations of CareCentric and MCS were combined on a pro-forma basis for the three months ended March 31, 2000, as illustrated in Table 1 below.

Net Revenues. Total net revenues for the three months ended March 31, 2001 decreased by \$1.2 million, or 15.0%, to \$6.8 million in 2001 from \$8.0 million in 2000. Revenues from software systems decreased by \$0.4 million, or 13.3%, to \$2.6 million in 2001 from \$3.0 million in 2000.. Revenues from software maintenance decreased by \$0.3 million, or 9.1%, to \$3.0 million in 2001 from \$3.3 million in 2000. Revenue from consulting services decreased by \$0.5 million, or 29.4%, to \$1.2 million in 2001 from \$1.7 million in 2000.

## Edgar Filing: CARECENTRIC INC - Form 10-Q

These reduced revenues are principally attributable to reduced spending resulting from uncertainties in the marketplace related to a new home health care reimbursement system, the Prospective Payment System (PPS) implemented by the Health Care Financing Administration (HCFA) in October 2000. In contrast to the former Interim Payment System which was based upon Medicare's historic cost reimbursement, PPS is based upon pre-set per episode fees. As such, PPS represented a radical departure from past practice and introduced significant uncertainty in the home health care industry.

**Cost of Revenues.** Total cost of revenues decreased approximately \$1.5 million, or 31%, to \$3.3 million for the three months ended March 31, 2001 from \$4.8 million in 2000. As a percentage of total revenues, cost of revenues decreased to 48.1% in 2001 from 59.6% in 2000. The \$1.5 million decrease resulted from reduced total sales in 2001 as compared to 2000 and efficiencies achieved from the combination of support operations, elimination of excess capacity and cost management after the merger. The improvement in gross margin percentage resulted from efficiencies achieved from the combination of support operations and other cost management activities, as well as a reduction in hardware revenues as a percentage of total revenues.

**Selling, General and Administrative Expenses.** Total selling, general and administrative expenses decreased \$0.1 million to \$2.9 million in 2001 from \$3.0 million in 2000. This decrease is principally attributable to synergies derived from centralization of administrative functions and elimination of non-essential facilities and excess capacity totaling \$0.3 million, which were partially offset by one-time expenditures surrounding the change in corporate identity and increased advertising and marketing costs totaling \$0.2 million. As a percentage of total net revenues, selling, general and administrative expenses were 41.6% for the three months ended March 31, 2001 compared with 37.0% for the three months ended March 31, 2000. The increase as a percent of revenue is primarily attributable to the relatively fixed nature of these costs and reduced revenues.

**Research and Development Expenses.** Research and development expenses increased \$0.3 million, or 20.0% to \$1.8 million in 2001 from 1.5 million in 2000. As a percentage of total net revenues, these expenses increased to 26.0% for the three months ended March 31, 2001 from 18.6% for the three months ended

18

March 31, 2000. This dollar increase was attributable to additional development costs for all products, but especially for The Smart Clipboard(R), PharmMed Rx(TM) and HMEExpress.

**Amortization and Depreciation.** Amortization and depreciation decreased by \$0.1 million, or 9.5% to \$1.1 million in 2001 from \$1.2 million in 2000. This decrease resulted from the normal disposition of fully depreciated assets.

**Other Income (Expense).** Interest expense for the three months ended March 31, 2000 relates primarily to borrowings under the Company's line of credit agreement and capital lease obligations and has increased by approximately \$177,000 as a result of increased borrowing subsequent to March 31, 2000.

**Income Taxes.** The Company has not incurred or paid taxes since its inception.

TABLE 1. CONSOLIDATED PROFORMA STATEMENTS OF OPERATIONS  
(UNAUDITED)

Edgar Filing: CARECENTRIC INC - Form 10-Q

	Three Months Ended March 31,	
	2001	2000
Net revenues:	\$ 6,844,000	\$ 8,011,000
Costs and expenses:		
Cost of revenues	3,268,000	4,778,000
Selling, general and administrative	2,825,000	2,963,000
Research and development	1,767,000	1,489,000
Depreciation and amortization	1,085,000	1,198,000
Total costs and expenses	8,945,000	10,428,000
Loss from operations	(2,101,000)	(2,418,000)
Other (expense) income:		
Interest expense	(356,000)	(178,000)
Interest and other income	126,000	(3,000)
Net loss before taxes	(2,331,000)	(2,599,000)
Income tax benefit	-	(154,000)
Net loss	\$ (2,331,000)	\$ (2,445,000)
Net loss per share - basic and diluted	\$ (0.59)	\$ (0.60)
Weighted average common shares - basic and diluted	3,927,000	3,927,000

19

Impact of New Accounting Standards

In 1998, the Financial and Accounting Standards Board issued SFAS No. 133 ("SFAS No. 133"), "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 133 is effective for the Company's fiscal year ending December 31, 2001. The Company's management does not believe that the adoption of SFAS No. 133 will have a material impact on the Company's position or results of operations.

Item 3. Quantitative and Qualitative Disclosure About Market Risk.

As of March 31, 2001, the Company's obligations include variable rate notes payable and a line of credit bank note with aggregate principal balances of approximately \$7.2 million, which mature at various dates through 2005. The Company is exposed to the market risk of significant increases in future interest rates. Each incremental point change in the prime interest rate would correspondingly increase or decrease the Company's interest expense by approximately \$66,000 per year.

At March 31, 2001, the Company had accounts receivable of approximately \$9.4 million (net of an allowance for doubtful accounts of \$525,000). The

## Edgar Filing: CARECENTRIC INC - Form 10-Q

Company is subject to a concentration of credit risk because most of the accounts receivable are due from companies in the home health industry.

### PART II - OTHER INFORMATION

#### Item 1. Legal Proceedings.

Neither CareCentric nor any of its subsidiaries is currently a party to any legal proceedings which would be material to the business or financial condition of the Company on a consolidated basis.

#### Item 2. Change in Securities.

On March 19, 2001, the Company issued 593,688 shares of its common stock to the former preferred shareholders and noteholders of CareCentric Solutions, Inc. pursuant to the terms of the July 12, 1999 Merger Agreement. In issuing the warrants and shares without registration, the Company relied on the exemption from registration provided in Section 4(2) of the Securities Act of 1933, as amended, and Rule 506 of Regulation D promulgated thereunder.

#### Item 3. Defaults Upon Senior Securities.

None

#### Item 4. Submission of Matters to a Vote of Security Holders.

None.

#### Item 5. Other Information.

None.

20

#### Item 6. Exhibits and Reports on Form 8-K.

##### (a) Exhibits:

The following Exhibits are filed as part of this Quarterly Report on Form 10-Q:

Exhibit No.	Description
-----	-----
10.1*	First Amendment to Voting Agreement Regarding Simone Directors dated as of July 12, 2000 by and among the Company, Mestek, Inc., John E. Reed, Stewart B. Reed, E. Herbert Burk, Daniel J. Mitchell and Jesse I. Treu.
