The Company has secured approximately 63% of the estimated operating days for 2007 under time charter contracts. At the same time, the seven Suezmaxes that will operate in the spot market, together with the profit sharing component of the time charter contracts, expose approximately 55% of the Company's estimated operating days for 2007 to spot rates, which may be potentially higher.

Spot: 52% of operating days at average daily TCE of \$45,000
 Total (Spot and time charter, including profit sharing): 67% of operating days at average daily TCE of \$41,000.

Handymax Fleet:

All of the Company's Handymax tankers operate under long term employment agreements that provide for a base rate and additional profit-sharing.

During the first quarter of 2007, including the profit-sharing allocated to the Company from these profit-sharing agreements, the Handymax fleet earned on average \$20,279 per vessel per day on a time charter equivalent (TCE) basis.

As of the date of this release, the Company's Handymax fleet for the second quarter of 2007 has been fixed for 66% of its operating days at average daily TCE of \$21,000.

-
- (1) See Appendix A to this release for information about special items and reconciliation of Adjusted EBITDA.
 - (2) Consistent with general practice in the tanker shipping industry, time charter equivalent, or TCE, is a measure of the average daily revenue performance of a vessel on a per voyage basis. Our method of calculating TCE is consistent with industry standards and is determined by dividing net voyage revenue by voyage days for the relevant time period. Net voyage revenues are voyage revenues minus voyage expenses. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions.
 - (3) Adjusted EBITDA represents earnings before interest and finance costs, interest income, taxes, depreciation and amortization. Interest and finance costs, net includes interest expense, interest income, amortization of deferred financing fees, other financial costs, gain or loss from

Edgar Filing: TOP TANKERS INC. - Form 6-K

termination of swaps and swap fair value changes. Adjusted EBITDA is included in this report because we believe it provides investors with an understanding of operating performance over comparative periods. Adjusted EBITDA should not be considered as a substitute for operating income or net income (all as determined in accordance with generally accepted accounting principles) for the purpose of analyzing our operating performance, as Adjusted EBITDA is not defined by generally accepted accounting principles. We presented Adjusted EBITDA, however, because it is commonly used by certain investors and analysts to analyze and compare companies on the basis of operating performance and to determine a company's ability to service and/or incur debt.
