RIVERVIEW BANCORP PROFITS INCREASE 47% TO \$2.2 MILLION FOR FIRST FISCAL

QUARTER AS REVENUES INCREASE 31%

Vancouver, WA - July 20, 2004 - Riverview Bancorp, Inc. (Nasdaq: RVSB) today reported strong loan and deposit growth and a substantial asset sale contributed to a 47% increase in net income for the first fiscal quarter ended June 30, 2004. Net income for the quarter grew to \$2.2 million, or \$0.45 per diluted share, compared to \$1.5 million, or \$0.34 per diluted share in the like quarter a year ago.

"Over the past year we have continued to grow our balance sheet by attracting new deposits and building our loan portfolio to reflect more of a commercial loan mix. The success of these initiatives, coupled with the continuing benefits from our acquisition of Today's Bancorp, has energized the entire organization and generated double digit profit growth," said Pat Sheaffer, Chairman and CEO. "To share our success with shareholders, we recently increased our quarterly cash dividend 11% to \$0.155 per share."

First quarter revenues (net interest income before the provision for loan losses + non-interest income) increased 31% to \$8.2 million for the quarter, compared to \$6.2 million in the first fiscal quarter last year. Net interest income before the provision for loan losses increased 20% to \$5.6 million for the quarter, compared to \$4.6 million for the like quarter last fiscal year.

For the fiscal first quarter, net interest income after provision for loan

losses grew 19% to \$5.4 million, compared to \$4.6 million for the like quarter a year ago. For the quarter, the net interest margin was 4.90% compared to 4.87% in the previous quarter and 4.95% for the first fiscal quarter last year.

"In the first quarter, we announced the sale and leaseback of the Camas branch and operations center. We made this decision because our operations departments, which worked out of the Camas branch, were at capacity and running out of space. We plan to use the proceeds from the sale to expand our operations departments in another facility in Southwest Washington. The Camas branch will continue to operate as it has for the past 30 years at this location," said Sheaffer. Fiscal first quarter non-interest income increased 63% to \$2.6 million, compared to \$1.6 million in the like quarter a year ago. This increase was largely due to the \$828,000 pre-tax gain on the sale of the Camas branch and operations center, which contributed approximately \$0.11 per diluted share to earnings.

"Primarily due to the added personnel that came to us through the Today's Bank acquisition last July, fiscal first quarter, non-interest expense was \$4.8 million compared to \$3.9 million a year earlier," said Sheaffer. Net of intangible amortization, the efficiency ratio improved to 57.54% for the quarter, compared to 62.03% in the fourth fiscal quarter of 2004 and 59.90% in 2004's first fiscal quarter.

Total assets increased 17% to \$515 million at June 30, 2004 compared to \$440 million a year earlier. Deposits grew 18% to \$403 million compared to \$340 million at June 30, 2003. Shareholders' equity increased 20% to \$66 million and book value grew 10% to \$13.83 per share over the 12-month period.

"Our loan portfolio continued to grow at double digit rates compared to year ago levels," said Ron Wysaske, President and COO. "The acquisition brought substantial growth to our commercial loan portfolio. Commercial and commercial real estate loans have increased 72% from a year ago and now account for 58% of the loan portfolio, compared to 43% of the portfolio at June 30, 2003." Net loans at June 30, 2004, increased 29% to \$382 million, compared to \$296 million at June 30, 2003. Single family lending represents just 12% of Riverview's loan portfolio.

Credit quality remains high, as non-performing assets were 0.34% of total assets at June 30, 2004, a 5 basis point improvement from 0.39% of total assets at March 31, 2004. The allowance for loan losses remained steady at \$4.5 million or 1.16% of total net loans outstanding at June 30, 2004.

Riverview's profitability measures improved as annualized return on average assets reached 1.74% and annualized return on average equity was 13.32% in the first quarter of fiscal 2005 compared to 1.47% and 10.77% for the same period a year ago.
