ULTRAPAR PARTICIPAÇÕES S.A.

(BOVESPA:UGPA4/NYSE: UGP)

INFORMATION AND RESULTS FOR THE FOURTH QUARTER 2005

(São Paulo, Brazil, February 15, 2006)

The high level of oil prices, the strong appreciation in the Brazilian Real, weaker demand and falling petrochemical commodity prices from May onwards, all had a negative influence on Ultrapar's performance. We ended the year with net earnings of R\$ 299 million, 22% higher than in 2003, but 28% lower than the net earnings reported in 2004.

Ultrapar faced a challenging operating environment during 2005. This environment strengthened Ultrapar's resolve in pursuing its growth strategy through increased operational scale, outstanding technology and focus on the optimization of costs and expenses. During the year, we have financially prepared the Company for expansion, whether through organic expansion in Brazil or through acquisitions abroad. We ended the year with a cash position of R\$ 1.6 billion, of which US\$ 250 million raised in December in the international capital markets, for a ten-year term at a risk rating above that of Brazilian sovereign debt. We are duplicating our efforts towards cost reduction, aiming at the recovery of the company's profitability. At the end of the year, we approved a major capital expenditures program, budgeted at R\$ 388 million for 2006, which will significantly contribute to achieving the goals outlined above. At the same time, the strong cash flow from operations achieved during the year led to the approval of a R\$ 157 million dividend distribution for the year 2005, representing a dividend yield of 5.96% taking the closing share price as at December 29, 2005.□

4^o Trimestre 05

Quarterly Highlights

- Ø **Payment of R\$ 100 million in dividends** - On February 15, 2006 Ultrapar's Board of Directors approved the payment of R\$ 100 million in dividends, equivalent to R\$ 1.232498 per share, to be paid on March 7, 2006. This distribution, added to the advance dividends paid in August 2005, amounts to R\$ 157 million, representing a dividend yield of 5.96%, taking the closing share price of R\$ 32.50 as at December 29, 2005.
- Ø **Issue of US\$ 250 million in notes in the international market** □ Ultrapar, through its subsidiary LPG International Inc., issued of US\$ 250 million in notes in the international capital markets, with the aim of lengthening the company's debt profile, financing possible acquisitions and other corporate purposes. The notes fall due in December 2015, bearing a coupon of 7.25%^{p_a} and were priced at 98.75% of the par value, resulting in a yield of 7.429%^{p_a}. Standard & Poor's assigned its BB+ credit rating on a global scale, above the credit rating of Brazilian sovereign debt, for the company and the securities issued, based principally on the combination of the favorable fundamentals of the company's business, allied to the solid financial position shown for many years. The credit rating on a global basis was only one notch below that of investment grade.
- Ø **Licensing of technology** □ Oxiteno was selected to license production technology for the manufacture of ethanalamines and ethoxylates to Project Management and Development Co. (PMD), a privately owned company in Saudi Arabia. The technologies of Oxiteno will be used in the petrochemical complex under construction by PMD in the Saudi city of Al-Jubail. This contract highlights the recognition of the high level of technology achieved by Oxiteno. The revenues from this contract could amount to more than US\$ 14 million.

Ultrapar in the Macroeconomic Scenario

The modest growth of 1.4% shown by Brazilian industry in the last quarter of the year, compared to 6.3% in the same period a year earlier, accentuated the downward trend in economic activity in 2005, leading to GDP growth expectations of around 2.5% for the year - well below the 5% achieved in 2004. The weakening in the Brazilian economy, the strong appreciation in the Brazilian Real, the soaring oil prices and the decline in international petrochemical commodity prices - were all factors which adversely impacted Ultrapar's financial performance in 2005, especially from the third quarter of the year onwards.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Despite the weakening of the Brazilian economy, specific market initiatives taken by Oxiteno led a good commercial performance in the domestic market, both in 4Q05 and the year as a whole, showing respective increases of 1% and 7% in sales volume. EBITDA at Oxiteno amounted to R\$ 300 million in 2005, 29% lower than in 2004, basically due to the 17% appreciation in the *Real* and the effect of high international oil prices on the cost of ethylene and other raw materials.

In 4Q05 Ultragas reported a drop of 0.6% in volume sold, compared to 4Q04, slightly more than the decline of 0.4% in the Brazilian LPG market. Despite this softening in the market, the restructuring of the company's independent dealers network enabled average sales prices to return back up to the same level as those in 4Q04, after the price drop imposed by increased market competition during 2005. In 2005, Ultragas sold a total of 1,531,000 tons of LPG, down 1% compared to the previous year - in line with the drop of 1% in the market - resulting in a market share of 24% for the year. The lower volume sold, combined with the lower average sale price in the year, as well as cost pressure - principally linked to the rise in fuel prices - led to a 27% drop in EBITDA in relation to 2004.

Ultracargo reported growth in its operational volume in 4Q05, as well as for 2005 as a whole, compared to the same periods in the previous year, particularly in the storage segment - due to the startup of the Santos Intermodal Terminal in July 2005. For the year as a whole, Ultracargo reported Net Sales and Services up 19% and EBITDA up 9%.

Despite the challenging operating environment for its businesses, Ultrapar reported EBITDA of R\$ 546 million and net earnings of R\$ 299 million in 2005, down respectively 26% and 28% on 2004, but up 10% and 22% on 2003.

- 3 -

4º Trimestre 05

Operational Performance

Ultragas □ The LPG market retracted by 0.4% in 4Q05, compared 4Q04. In the same period, Ultragas sales volume softened by 0.6%, driven by a 4.7% decline in the bulk segment. The retraction in the bulk segment was due to: (i) a reduction in the industrial activity driven by the weaker economy, and (ii) the conversion of some large industrial customers to natural gas. During 2005, Ultragas saw a decline of 1% in sales volume, in line with the performance of the market.

Sales Volume □ Ultragas (in thousand tons)

Oxiteno □ Oxiteno's sales volume in 4Q05 amounted to 121,000 tons, down 5% on the same period in 2004, due to lower exports. Sales in the domestic market increased by 1% in 4Q05, compared to 4Q04 despite a significantly weaker economy, reflecting specific market initiatives taken by Oxiteno, which enabled it to expand market share with some clients, with particular emphasis on the cosmetics and detergents, paint and varnishes and polyester segments. Export sales dropped by 23% in relation to 4Q04 - basically due to a stoppage to replace the catalysts in the Camaçari plant. In 2005 Oxiteno reported sales volume of 525,000 tons, 1% higher than the sales volume in 2004, driven by a 7% increase in sales in the domestic market.

Sales Volume □ Oxiteno (in thousand tons)

Ultracargo □ Ultracargo expanded its operating volumes in 4Q05, compared to the same period 2004, with an increase of 12% in its average liquid and gas storage levels. For the year, the increase seen in Ultracargo's operations was mainly due to the startup of the Santos Intermodal Terminal, the building up of operations at the Montes Claros and new clients won.

4º Trimestre 05

Economic □ Financial Performance

Net Sales and Services - Ultrapar's net consolidated sales and services in 4Q05 amounted to R\$ 1.1 billion, down 8% on both 4Q04 and 3Q05. In 2005, Ultrapar's net sales and services were 2% lower than that obtained in 2004.

Ultragaz □ Net sales at Ultragaz in 4Q05 amounted to R\$ 724 million, unchanged in relation to the same period 2004 and practically in line with the level of volume. The completion of restructuring in the distribution network in the company's bottled segment resulted in prices returning to 4Q04 levels. In 2005, Ultragaz's net sales totaled R\$ 2.9 billion, 2% lower than in 2004, largely driven by the lower sales volume and the effect of the retraction in the Brazilian LPG market.

Oxiteno □ Oxiteno's net sales amounted to R\$ 354 million in 4Q05, down 22% compared to 4Q04, due to: (i) the 19% appreciation in the *Real* and (ii) the 5% lower sales volume in the quarter. In 2005, Oxiteno's net sales totaled R\$ 1.6 billion, 3% lower compared to that in 2004 □ principally due to the 17% appreciation in the *Real*, partly offset by an improved sales mix as a result of higher volumes sold to the domestic market.

Ultracargo □ Ultracargo reported net services of R\$ 60 million in 4Q05, 13% higher than in 4Q04, driven by the increase in the volume of its operations. For the year, Ultracargo's net services totaled R\$ 234 million, an increase of 19% in relation to 2004, due to the expansion in its operations, as well as contractual readjustments.

Cost of Sales and Services □ Ultrapar's cost of sales and services in 4Q05 amounted to R\$ 945 million, 1% higher than in 4Q04. In 2005 Ultrapar's cost of sales and services totaled R\$ 3.8 billion, an increase of 3% on 2004.

Ultragaz □ At Ultragaz the cost of sales in 4Q05 amounted to R\$ 642 million, an increase of 4% compared to the same quarter in the previous year. For the whole of 2005, the cost of sales at Ultragaz totaled R\$ 2.5 billion, unchanged in relation to 2004, despite the drop in volume. In the two periods, the increase in the cost of sales was due to increased freight costs, driven by soaring fuel prices, and the annual collective wage increase agreement. Additionally, in 4Q05 there were non-

4º Trimestre 05

recurring items related to the start of a program to revise the distribution structure in Ultragaz, aiming at rationalizing costs and expenses. The company is being assisted by McKinsey consultancy in this project.

Oxiteno □ Oxiteno's cost of sales in 4Q05 amounted to R\$ 274 million, down 7% compared to 4Q04, practically in line with the reduction in sales volume. The appreciation in the Brazilian Real practically offset the 13% increase in

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

the dollar cost of ethylene, pushed up by the 29% jump in the international oil price (Brent) and the rise of 18% in the international price of naphtha (NWE), comparing the two quarters. In 2005 Oxiteno's cost of sales amounted to R\$ 1.2 billion, up 8% from in 2004, basically due to the 42% increase in the average oil price (Brent) in 2005, compared to 2004. This increase in oil prices led to a 28% rise in the cost of ethylene in dollar terms, in the period, partially compensated for by the appreciation of 17% in the Brazilian Real.

Ultracargo □ The cost of services provided by Ultracargo amounted to R\$ 42 million in 4Q05 and R\$155 million in 2005, up 19% and 24%, respectively compared to 4Q04 and 2004. This was principally due to: (i) new storage operations - in particular the Santos and Montes Claros terminals □and compressed natural gas transport operations, (ii) the increase in fuel prices and (iii) to the salary increase as a result of a collective wage agreement.

Sales, General and Administrative Expenses □ In 4Q05, Ultrapar's sales, general and administrative expenses amounted to R\$ 142 million, down 4% in relation to the figure of R\$ 148 million reported in 4Q04. For 2005 as a whole, Ultrapar's sales, general and administrative expenses totaled R\$ 552 million, 1% lower than in 2004.

Ultragaz □ Sales, general and administrative expenses at Ultragaz in 4Q05 amounted to R\$ 76 million, down 2% from the R\$ 77 million reported in the same period in 2004. This drop was due to a 16% reduction in general and administrative expenses driven by lower provision for employee profit-sharing, related to the company's earnings trend. For the year, Ultragaz accumulated sales general and administrative expenses of R\$ 292 million, 2% lower than the previous year. In addition to the lower provision for employee profit sharing, the reduction also reflects the rationalization programs and optimization initiatives developed during the year.

Oxiteno □ Oxiteno's sales general and administrative expenses in 4Q05 amounted to R\$ 50 million, 14% lower than the same period a year earlier, due principally to: (i) a lowering of 21% in administrative expenses due to the reduction in the provision for employee profit-sharing and (ii) to the reduction of 7% in sales expenses, a consequence of the reduced export freight costs due to the lower export sales in the quarter. Oxiteno ended 2005 with a total of R\$ 203 million in sales, general and administrative expenses, R\$ 10 million or 5% lower, than the year 2004, due principally to the lower provision for employee profit-sharing.

Ultracargo □ Sales, general and administrative expenses at Ultracargo amounted to R\$ 18 million in 4Q05, and R\$ 62 million for the year of as a whole, up 27% and 22% compared to 4Q04 and 2004, respectively. This increase is due to higher operational volume, both in the storage and transport segments, and the implementation of the annual collective wage agreement.

EBITDA □ Ultrapar's EBITDA in 4Q05 amounted to R\$ 87 million, down 53% compared to 4Q04. For the year as a whole, EBITDA for Ultrapar totaled R\$ 546 million, 26% lower than the EBITDA reported in 2004. The main factors which affected the company's performance were: (i) a weaker domestic economy, (ii) the 17% appreciation in the *Real* against the US dollar and (iii) the cost pressures driven by the 42% increase in the average international oil price.

Ultragaz □ Ultragaz reported EBITDA of R\$ 34 million in 4Q05, and R\$ 195 million for 2005 as a whole, down 46% and 27%, respectively, compared to the same periods a year earlier. The reduction of 1% in the LPG market and the impact of oil price increases on the company's distribution costs, were the two main factors which adversely affected its performance during the year.

Oxiteno □ Oxiteno's EBITDA in 4Q05 and for the year 2005 as a whole, amounted to R\$ 42 million and R\$ 300 million, a respective reduction of 62% and 29% compared to the same period a year earlier, principally as a result of the appreciation of the *Real* against the US dollar and the effect of the higher oil prices on the cost of the company's main raw material.

4º Trimestre 05

Ultracargo □ In 4Q05, Ultracargo reported EBITDA of R\$ 8 million, 12% lower than in the same period a year earlier. The reduction in EBITDA is due principally to the increase in fuel costs, as well as the additional costs and expenses due to the start of operations at the Santos Intermodal Terminal, which experienced a period of lower revenues given that the fourth quarter falls during an inter-harvest period in the soybean oil and ethanol markets. For 2005 as a whole, Ultracargo's EBITDA amounted to R\$ 44 million, an increase of 9% compared to 2004, principally as a result of expansion in operational volume.

EBITDA (in R\$ million)

Financial Result □ Ultrapar reported net financial revenues of R\$ 1 million in 4Q05, compared to net financial expenses of R\$ 10 million in 4Q04. The improvement seen between the two quarters was basically due to the increase in the company's net cash position and the 5% depreciation in the Brazilian Real during 4Q05, compared to appreciation of 7% in 4Q04. Ultrapar ended 2005 with net financial expenses of R\$ 27 million, 39% lower than the net financial expenses of R\$ 45 million reported in 2004. The improvement in financial result was due to the R\$ 57 million increase in interest income from financial investments, as a result of the higher average cash position, partially offset by the R\$ 39 million increase in interest expenses.

Net Earnings □ Consolidated net earnings in 4Q05 amounted to R\$ 42 million, down 62% on the same period a year earlier. For 2005 as a whole, Ultrapar accumulated net earnings of R\$ 299 million, 28% lower than the result reported in 2004, but 22% higher than the net earnings reported in 2003.

Investments □ During 4Q05, Ultrapar invested a total of R\$ 60 million, allocated as follows:

- At Ultragaz, the main investments were on the renewal and maintenance of assets.
- At Oxiteno, of the R\$ 34 million invested, R\$ 16 million was allocated to the construction of the new fatty alcohols plant, with the balance allocated to expanding production capacity of specialty chemicals and improving quality.
- At Ultracargo, investment was mainly allocated to expanding the company's transport fleet.

4º Trimestre 05

Additionally, below we set out Ultrapar's investment plan for the year 2006. The investment budget amounts to R\$ 388 million, of which R\$ 238 million is to be allocated at Oxiteno, especially in expansion projects - R\$ 163 million being on the new fatty alcohol plant, with the balance to be spent on expanding the production of specialty chemicals, increasing the production capacity of ethylene oxide, and on continual quality improvement projects, safety and the environment. At Ultragas, R\$ 90 million of investment has been allocated to improving quality and productivity - including IT projects to provide support for the optimization of its sales channels - and on bulk distribution. Investments at Ultracargo are to be allocated to expanding storage capacity, as well as the company's transport fleet. The investments outlined above do not include possible acquisitions.

4º Trimestre 05**Outlook**

The successive reductions in the basic interest rate, begun at the end of 2005, lead to promising prospects for a pickup in the domestic economy, which could benefit the performance of our businesses in the domestic market. Ultragas began the year with an ambitious cost and expense reduction program, and a project to review its logistics and distribution structure - focusing on improving profitability and maximizing free cash generation. For the chemical business, we began 2006 with a major investment plan focused on organic growth. We will be making significant strides in the construction of our new fatty alcohols plant - the first in Latin America, comparable to the largest in the world and using renewable raw materials - adding an additional 100,000 tons of production capacity and increasing our degree of competitiveness in the markets for cosmetics and detergents. We are also increasing our specialty chemicals and ethylene oxide production capacity, scheduled to come on stream at the beginning of 2007 and 2008, respectively. At Ultracargo, the gradual occupational buildup at the Santos Intermodal Terminal and the expansion projects scheduled for existing terminals, should improve the company's ability to provide a differentiated service in integrated logistics for special products, principally in the country's main export ports. We carried out two important funding operations in the debt market, providing

Ultrapar with a long-term debt profile at a competitive cost, which constitutes an additional tool in paving the way for investments in the company's growth, including potential acquisitions abroad. We believe that these initiatives will be instrumental in enabling us to continue on our existing growth path.

Forthcoming Events

Conference Call / Webcast for market analysts: February 17, 2006

Ultrapar will be holding a conference call for market analysts on February 17, 2006, to comment on the company's 4Q05 performance and future outlook. A presentation will be available for download from our website one hour before the start of the conference calls.

National: 11.00 a.m. (Brasília time)

Telephone number for registration (up to February 16, 6.00 p.m.): **+55 11 2103-1687**

Address for registration: conferencecall@wittel.com.br

All financial information is presented according to the accounting principles laid down in Brazilian Corporate Legislation (BR GAAP). All figures are expressed in Brazilian *Reais*, except for the amounts on page 18, which are expressed in US dollars and were obtained using the average rate of exchange (commercial dollar rate) for the corresponding periods.

This document may contain forecasts of future events. Such predictions merely reflect the expectations of the Company's management. Words such as: "believe", "expect", "plan", "strategy", "prospects", "envisage", "estimate", "forecast", "anticipate", "may" and other words with similar meaning are intended as preliminary declarations regarding expectations and future forecasts. Such declarations are subject to risks and uncertainties, anticipated by the Company or otherwise, which could mean that the reported results turn out to be significantly different from those forecast. Therefore, the reader should not base investment decisions solely on these estimates.

CNPJ nº 33.256.439/0001 -39

DISTRIBUTION OF DIVIDENDS

We hereby announce that the Board of Directors of Ultrapar Participações S.A., at its meeting held on February 15, 2006, approved the distribution of dividends, payable from net earnings account for the fiscal year ending December 31, 2005, in the amount of R\$ 100,000,074.82 (one hundred million and seventy four reais and eighty two cents), to be paid from March 7, 2006 without remuneration or monetary restatement. This distribution, in addition to the distribution of R\$ 57 million paid in advance in August 2005, amounts to a total of R\$ 157 million for the year 2005.

The holders of common and preferred shares will receive the dividend of R\$ 1.232498 per share.

The record date to establish the right to receive the dividend will be February 22, 2006 in Brazil, and February 27, 2006 in the United States of America. As from February 23, 2006, the shares will trade "ex-dividend" on both the São Paulo Stock Exchange (Bovespa) and the New York Stock Exchange (NYSE).

São Paulo, February 15, 2006.

Fábio Schvartsman

Chief Financial and Investor Relations Officer

ULTRAPAR PARTICIPAÇÕES S.A.

MANAGEMENT REPORT 2005

Dear Shareholders,

The Management of ULTRAPAR PARTICIPAÇÕES S.A. (Ultrapar) is pleased to present the following Management Report, Balance Sheet and other Financial Statements for the fiscal year ending December 31, 2005. All data herein has been prepared according to Brazilian Corporate Law and is accompanied by independent auditor's report.

COMPANY PROFILE

Ultrapar is one of Brazil's largest and most solid economic groups. It has operations in Brazil and Mexico, with a prominent position in the sectors in which its three business units operate: the distribution of liquefied petroleum gas (LPG) through Ultragaz, the production of chemicals through Oxiteno, and logistics for chemical products and fuel through Ultracargo.

Ultragaz is the leader in the Brazilian LPG distribution market, with a market share of 24%, and is the sixth largest independent LPG distributor in the world. The company supplies 10.5 million homes, as well as 30,000 industrial and commercial clients in the South, Southeast, Northeast and Central West of Brazil. Oxiteno is Mercosur's sole producer of ethylene oxide and its main derivatives, as well as a major manufacturer of specialty chemicals. Its products are used in PET packaging, polyester textiles, paints, cosmetics, detergents and agrochemicals, among others. Ultracargo is a leading provider of integrated logistics services for the transport, storage, distribution and handling of chemical products and fuels.

OPERATING ENVIRONMENT

The year 2005 was challenging for Ultrapar and Brazil in general. In the domestic market the economic growth seen during 2004 started to slow down from the first quarter of 2005, becoming more visible from the second quarter onwards. The high interest rates, the strong appreciation in the Brazilian Real and the political crisis which began in the first half of the year - all hampered the performance of the Brazilian economy. The international environment remained favourable for Brazilian exports, but the strong appreciation seen in the Brazilian Real during 2005 had an adverse impact on the competitiveness of national industry. Additionally, the rise in international oil prices, increasing from an average of US\$ 38/barrel in 2004, to US\$ 54/barrel in 2005, created cost pressure throughout the global economy, especially in the petrochemical industry. GDP growth in Brazil up to September 30, 2005 amounted to 2.6%. Estimates are that with the weak industrial production in the fourth quarter, GDP growth in 2005 will be significantly lower than in 2004, when it amounted to 5%. On the other hand, Central Bank gradual reduction in interest rates which began at the end of 2005 has created an outlook for a relative improvement in economic activity in 2006.

ULTRAPAR IN 2005**Highlights of the year**

The year 2005 presented a combination of unfavourable factors for Ultrapar, both in respect of the macroeconomic scenario, as well as its sectors of operation. The appreciation of the Brazilian Real, the high oil price levels, the weak domestic economy and the drop in international petrochemical commodity prices from May on - all had a negative influence on the company's financial performance. We ended the year reporting net earnings of R\$ 299 million, a significant amount, however 28% lower than the net earnings reported in 2004, but still 22% higher than the net earnings reported in 2003. This combination of factors has strengthened Ultrapar's strategy of pursuing growth through increased operational scale, outstanding technology and focus on optimising costs and expenses. During the year, we have financially prepared ourselves for the expansion of the company, whether through organic expansion in Brazil or acquisitions abroad. We ended the year with a cash position of R\$ 1.6 billion, of which US\$ 250 million of debt raised in December in the international markets - for a term of 10 years at a risk rating above the Brazilian sovereign debt. We are duplicating our efforts towards cost reduction, aiming at the recovery of the company's profitability. At the end of the year, we approved an intense program of investment, which in 2006 will total R\$ 388 million - deepening our search for competitive raw materials, global scale and the use of state of art technology. At the same time, the good cash generated during the year enabled us to approve the distribution of R\$ 157 million in dividends for the year 2005 - R\$ 57 million distributed in advance in August 2005 and R\$ 100 million to be paid in March 2006, representing a 5.96% yield on the company's closing share price, in December 29, 2005.

Investments

Ultrapar maintains its long-term strategic vision, focusing on the creation of value for its shareholders. All investment carried out by Ultrapar is subjected to a rigorous analysis, which considers strategic, economic, financial and market aspects under various scenarios, using *EVA*[®] *Economic Value Added* as its main tool. In 2005, Ultrapar invested R\$ 219 million in its businesses. The company invested R\$ 94 million in Oxiteno in expanding specialty chemical production capacity in particular, starting construction of a fatty alcohol plant, and investing in modernization of its industrial units, as well as in safety, quality and the environment. At Ultragas, the investment of R\$ 84 million was mainly spent on the modernization of its assets and expanding its distribution of bulk LPG (UltraSystem). At Ultracargo, total investment amounted to R\$ 41 million, spent basically on the completion of the Santos Inter-modal Terminal and the expansion of its transport fleet.

The budget for investment in 2006 is R\$ 388 million, R\$ 238 million of which will be allocated to investment in expansion at Oxiteno - mainly on the new fatty alcohol plant, the expansion of specialty chemical and ethylene oxide production capacity, as well as ongoing improvement projects in quality, safety and the environment. At Ultragas, R\$ 90 million have been budgeted for quality and productivity improvement - including IT projects to provide support for the optimization of sales channels - and in the expansion of bulk distribution. The investments in Ultracargo will be allocated to expanding storage capacity and enlarging the

Capital Markets

Ultrapar continued to have a close relationship with the capital markets in 2005, focusing on transparency and respect for investors and shareholders, recognizing them as essential partners in ensuring the sustained growth of the company. Three large market operations were carried out, one in the equity market and two in the debt market.

In April 2005, Ultrapar completed a primary and secondary offering of preferred shares, totalling R\$ 362 million, including an over-allotment option, with the main object of increasing the liquidity of Ultrapar's shares in the equity market. The offer resulted in an increase of 51% in the company's total free float, which was enlarged from 26% to 39% of the total capital. The company's shareholder base was also significantly increased, with approximately 1,800 new investors.

In the Brazilian debt market, Ultrapar carried out its first issue of debentures, for a total amount of R\$ 300 million and a three-year term, at an annual rate equivalent to 102.5% of the CDI rate. In December, the

company accessed international capital markets with the issue of US\$ 250 million in notes, with a 10-year term and interest of US\$ variation + 7.25%^{pa} - the lowest interest rate obtained by a Brazilian company in the corporate segment for a 10-year term issue. Both on a local as well as a global scale, Standard & Poor's attributed a risk rating above that of Brazilian sovereign debt for the company and the securities issued: AA+ on a national scale and BB+ on a global scale - based mainly on the combination of favourable fundamentals for the company's businesses, together with the solid financial position shown over many years. The risk rating on the global scale is only one notch lower than the investment grade. Ultrapar now has a long term structural debt at a competitive cost, which constitutes an additional tool to enable investment in the company's future growth, including potential acquisitions abroad.

Regarding Ultrapar's performance on the stock exchange, the shares have depreciated by 27% on the Bovespa and 19% on the NYSE. The average daily trading volume was 48% higher than in 2004 - taking into account the

trading on the Bovespa and the NYSE - largely as a result of the company's efforts to increase the liquidity in shares. More than 200 meetings were held during the year with members of the capital markets, with the participation at 20 events with investors and market analysts, both in Brazil as well as abroad.

Ultrapar declared dividends of R\$ 157 million for the year 2005, representing a dividend yield of 5.96% -taking the closing share price of R\$ 32.50 as at December 29, 2005. Ultrapar constantly evaluates its immediate capital needs for investment in assets and acquisitions and, in light of its continuing sound financial position, the company distributes its excess cash in the form of dividends to its shareholders.

Corporate Governance

In 2005, Ultrapar continued the process of improving its corporate governance. The Board of Directors nominated two new officers to the executive board of Ultrapar, Pedro Jorge Filho - also the new CEO of Ultragas, and Eduardo de Toledo, the CEO of Ultracargo. At the same time, the company broadened the concept of transforming its new generation of leading executives into shareholders, strengthening the alignment of interests between management and shareholders. At the end of 2005, the program included five executives of the new generation.

Measures were adopted to give the various management bodies a more structured method of operating, in particular: (i) the establishment of a permanent Fiscal Council in July 2005, which will also assume the role of Audit Committee, in accordance with the requirements of the *Sarbanes-Oxley* act (ii) the formation of an internal audit department, (iii) the start of an evaluation process for various company procedures, from the standpoint of existing risk and actions necessary to meet the requirements of the *Sarbanes Oxley Act*, with the aim of ensuring the effectiveness of internal controls, (iv) joining, by Ultrapar, Level 1 of Bovespa Corporate Governance and (v) participation by Ultrapar in the *Latin American Corporate Governance Roundtable*

Company Circle, a study group sponsored by the *Organization for Economic Co-operation and Development* (OECD), with the cooperation of the IFC (*International Finance Corporation*) and Bovespa, whose objective is to develop corporate governance in Latin America.

The company's efforts were recognized by the market through the granting of awards such as - for the second year running - Best Company in Corporate Governance for the Oil, Gas and Petrochemical Segment, in Latin America ranked by *Institutional Investor Research Group*. Ultrapar's investor relations program was voted among the top five in a poll organized by IR Magazine, for companies outside the Bovespa Index.

Operational Excellency □ Technology, Quality, Safety and the Environment

Ultrapar bases its operations on meeting the needs of its clients, aiming to pleasantly surprise them. To this end, all the company's businesses are centred round a base of leading-edge technology and innovation. At Ultragas, such technology and innovation is exemplified in the decentralized management structure, by which each market manager seeks to understand the precise requirements of his clients, supported by a costing and return analysis systems which permit him to act as if he were the true owner of the business. This is sound use of technology and good commercial sense, when dealing with the different cultures that exist within Brazil's national territory. As recognition for the high standard of its products and services, Ultragas was nominated, for the second time, as the company with the most respect for the consumer in Brazil's domestic gas segment, in research carried out by TNS / Interscience for the Magazine Consumidor Moderno (*modern consumer*), with double the points awarded to the runner up in the research. At Oxiteno, its excellence in technology and innovation is apparent in its □Science and Technology Council□, a consultant body for the Executive Board, of which six of the world's major specialists in tensoactives are members. The Council, set up in 2004, carries out a critical analysis of the company's research and development projects, as well as the management methodology used. Valuable recommendations allow Oxiteno to increase the efficiency of its research and development work, as well as widening the reach of its cooperation with institutions abroad. At Ultracargo, the constant search for innovative logistics solutions for its clients has ended up developing into new business opportunities for the company.

To guarantee the maximum level of safety in its operations, Ultrapar adopts management risk policies aimed at eliminating or minimizing losses in the event of market or operational contingencies. The base of this is a management that is guided by control policies, specific strategies and determined exposure limits, which include quality, safety and environmental programs.

As from the beginning, the company has shown a special concern for quality, safety and the environment, which permeates throughout all its operations, this being fundamental to the company's sustainable growth. Its three businesses hold certificates which attest to the quality of their products and services, as well as the quality of their operations with respect to the environment. In 2005, Oxiteno continued its investment in improving productivity and safety in its asset base, resulting in better use of the resources used in the production process. One important project developed for Oxiteno in the environmental area was the construction of a new effluent treatment station in the plant at Mauá (SP), with a treatment capacity of 50 m³/hour of effluent. Ultragas has implemented an environmental management program, based on the analysis of the aspects and environmental impacts inherent in its operations, which should optimize the use of natural resources in its operations facilities, as well as providing intense training for safety technicians on environmental issues. The objective of this program is to bring all Ultragas's installations into line with the ISO 14000 certification standards. At Ultracargo, 2005 was a year with a zero accident rating - in terms of accidents requiring time off work. There were no grave accidents at any of its terminals or during any of the 10 million kilometres travelled in its transport activities. In the area of finance, Ultrapar seeks to optimize the management of its financial assets and liabilities, with the aim of reducing its long-term cost of capital, always preserving adequate levels of liquidity and safety. Ultrapar has a financial investment committee, which periodically monitors the financial risk assumed by the company.

Personel Management and Social Responsibility

Ultrapar believes that its people are the single most important factor in sustaining its business growth. The management of personnel - including attracting them into the company, retaining them, providing them with professional qualifications, training and satisfactory remuneration - is a major priority. The company's internship and trainee programs demonstrate this concern for the training of its professional staff. In 2005, 77 new trainees and interns were enrolled in 12 and 18-month programs, through which they pass through various areas of the company, each one carrying out important projects. Concrete examples of the training of staff and the development of talent through Ultrapar's internship and trainee programs, are its two new officers, nominated in 2005, who both began their career with the company as graduate trainees. A total of approximately 56,000 hours were spent in training sessions as part of training and development programs in 2005.

In the social area, 2005 saw the development by Ultrapar of partnerships in structured projects for the community. The company's seeks to promote initiatives mainly in regions close to its units, where it is best able to identify the needs and potential of the local public. Through its subsidiaries, it has developed new

relationships and strengthened existing relationships with non-governmental organizations and municipal authorities, such as the Ayrton Senna Institute, the *Obra do Berço* Association (*cultural and educational program for children and adolescents*), *Ação Comunitária* (*promotes social programs in Brazil's slums*) and the Iochpe Foundation - Projeto Formare (*training project*), seeking to focus its efforts on the promotion of education, culture and professionalization as a way of social inclusion.

Added Value

In 2005 Ultrapar generated added value of R\$ 1.2 billion, distributed according to the chart below:

Note: drawn up in agreement with the model of the Accounting, Actuarial and Financial Research Institute Foundation, part of the University of São Paulo □ FIIPECAFI

Relationship with Independent Auditors

Ultrapar's policies and those of its subsidiaries in the contracting of services not related to external auditing

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

from its independent auditors, aim to ensure that there is no conflict of interest, loss of independence or objectivity, being based on principles which preserve the auditor's independence. These principles are based on the premise that the auditor should neither audit its own work, nor exercise any management role.

In accordance with the requirements of the bylaws and the applicable legislation, the Fiscal Council/Audit Committee must first recommend and / or indicate to the Board of Directors the contracting of the services from the independent auditors. In addition, Ultrapar has a procedure which involves its Legal Board in the prior evaluation of the objectives of the various services to be provided by the external auditors, in addition to an examination of the financial statements, in order to conclude, in light of the pertinent legislation, whether or not such services by nature represent a conflict of interest or affect the independence and objectivity of the independent auditors.

Services Contracted in the Period

In the year ending December 31, 2005, Ultrapar and its subsidiaries contracted other work not directly linked to the auditing of financial statements from these auditors, whose value amounted to R\$ 76,072, representing 5.2% of the total fees for external audit services, as follows:

Year of contracting	Nature of service	Total fee amount (R\$)	% in relation to external audit fees
2005	Tax consultancy and training	76,072	5,2

As declared by the external auditors to Ultrapar's management, and based on our own evaluation, the work in question did not affect the independence or objectivity necessary for the satisfactory performance of the independent auditors.

ANALYSIS OF FINANCIAL PERFORMANCE IN 2005

The financial and operational information of Ultrapar is presented on a consolidated basis, according to the general accounting practices adopted in Brazil.

Financial highlights, by business line Amounts expressed in R\$ million

	2005				2004			
	Ultrapar	Ultragaz	Oxiteno	Ultracargo	Ultrapar	Ultragaz	Oxiteno	Ultracargo

The financial and operational information of Ultragas, Oxiteno and Ultracargo is presented without eliminating the transactions carried out between companies.

² Operating profit before financial income (expenses) and equity income.

³ EBITDA is a measure it used to measure of the company's cash generation. For a better understanding of the EBITDA calculation, please see Note 16 in the consolidated financial statements.

Sales Volume Oxiteno's operational performance in the domestic market is strongly correlated to the growth in the economy, given that its products have various applications in different segments of the market. However, despite the weak economic growth in the economy, Oxiteno's sales volume in the domestic market increased by 7% compared to the previous year, the result of winning new clients and growth in market share with existing clients. Exports were down by 10% in 2005, basically due to the increased sales in the domestic market. Due to the performance of the economy, the LPG market in 2005 decreased by 1% in relation to 2004, with a drop of similar magnitude seen in the sales volume of Ultragas. At Ultracargo, effective storage in the liquid and gas segments was 8% higher than in 2004, basically due to the start-up of operations at the Santos Terminal. Additionally, there was an increase of 5% in kilometrage travelled, when compared to the previous year, due to new contracts entered into during 2004.

Ultragas Operational Data	2005	2004	Δ(%) 2005x2004

Ultracargo Operational Data	2005	2004	Δ(%) 2005x2004
Effective storage (□000 m ³)*	221	204	8%
Kilometrage travelled (million)	53	50	5%

* *Monthly average*

Net revenue □ In 2005 Ultrapar's net revenue amounted to R\$ 4,694 million, 2% lower than that reported in 2004. Oxiteno reported net revenue of R\$ 1,610 million, 3% lower than the previous year, basically as a result of the 17% appreciation in the Brazilian Real, compared to 2004, partially compensated for by an improvement in sales mix, with sales growth in the domestic market. Ultragas reported net revenue of R\$ 2,902 million,

down 2% on the previous year, largely due to the 1% drop in the Brazilian LPG market - which resulted in a reduction of equal magnitude in the volume sold by Ultragas, and also due to greater market competition, with a consequent drop in prices. The increase in Ultracargo's operations pushed up net revenues to R\$ 234 million, an increase of 19% on that reported in 2004.

Cost of products and services □ Ultrapar's cost of products and services in 2005 increased by 3%, or R\$ 114 million, in relation to 2004. Oxiteno's cost of products sold increased by 8% in 2005, due to: (i) a sharp increase in the cost of its main raw material, ethylene, as a result of the rise in oil prices and (ii) the increase of 1% in total sales volume. Ultragas's cost of products and services, despite the reduction in its sales volume, remained unchanged in relation to the previous year, due to the increase in freight and fuel costs. Costs at Ultracargo increased by 24% in 2005, principally due to the higher volume of business activity.

Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) □ Ultrapar's consolidated EBITDA amounted to R\$ 546 million, down 26% compared to the previous year, and up 10% in relation to 2003. Oxiteno reported EBITDA of R\$ 300 million, 29% lower than in 2004, reflecting the effect of the appreciation in the Brazilian Real on the company's revenues and the sharp increase in raw material costs. Ultragas ended the year with EBITDA of R\$ 195 million, down 27% in relation to the figure of R\$ 269 million reported in 2004, principally due to the drop of R\$ 66 million in net revenues in 2005. EBITDA at Ultracargo amounted to R\$ 44 million, an increase of 9% on the previous year, basically due to the expansion of its operations.

Net Earnings □ Consolidated net earnings in 2005 amounted to R\$ 299 million, down 28% compared to the previous year, basically as a function of reduced EBITDA. When compared to 2003, net earnings were up by 22%.

Financial liabilities and debt □ Ultrapar ended 2005 with a gross debt of R\$ 1,432 million, representing an increase of R\$ 881 million on the previous year, and a net cash position of R\$ 191 million. The increase in debt reflects two important funding operations carried out during 2005 □ R\$ 300 million in debentures and US\$ 250 million in notes in the external markets. As a result, the structure of the company's debt ended up consisting of 41% in local currency and 59% in foreign currency, extending the average duration from 1.4 year in 2004, to 4.9 years in 2005. As of December 31, 2005, the weighted average cost of debt in local currency was the equivalent of 86% the CDI rate, while that of the foreign currency denominated debt was 6.8% above exchange rate variation.

OUTLOOK

The successive base rate reductions begun at the end of 2005 have signalled prospects for a pickup in the domestic economy, which could benefit the operational performance of the group's companies in the domestic market. Ultragas began the year with an ambitious program of cost and expense reductions and a project to review the structure of its distribution logistics, focusing on improving its profitability and maximizing free cash generation. For the chemical business, we began 2006 with a major investment plan, focusing on organic growth. We will make significant progress in the construction of the new fatty alcohols plant □ the first in Latin America, comparable to the largest ones in the world and using renewable raw materials □ adding 100,000 tons to production capacity and increasing our competitiveness in the markets for cosmetics and detergents. We are also increasing our production capacity for specialty chemicals and ethylene oxide, which will enter into operation at the beginning of 2007 and 2008, respectively. At Ultracargo, the start-up of operations at the Santos Terminal and the expansion project for the existing terminals should strengthen the company's outstanding position in the provision of integrated logistics services for special products, principally at the major export ports. We believe that these initiatives will be instrumental in allowing us to continue firmly on our growth path. Finally, we would like to thank all those who have helped to build another year of solid achievements, replete with challenges and important conquests for the company.

INDEPENDENT AUDITORS' REPORT

To the Stockholders and Management of
Ultrapar Participações S.A.
São Paulo - SP

1. We have audited the accompanying individual (Company) and consolidated balance sheets of Ultrapar Participações S.A. and subsidiaries as of December 31, 2005 and 2004, and the related statements of income, changes in stockholders' equity (Company), and changes in financial position for the years then ended, all expressed in Brazilian reais and prepared under the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements.
2. Our audits were conducted in accordance with auditing standards in Brazil and comprised: (a) planning of the work, taking into consideration the significance of the balances, volume of transactions, and the accounting and internal control systems of the Companies; (b) checking, on a test basis, the evidence and records that support the amounts and accounting information disclosed; and (c) evaluating the significant accounting practices and estimates adopted by Companies' management, as well as the presentation of the financial statements taken as a whole.
3. In our opinion, the financial statements referred to in paragraph 1 present fairly, in all material respects, the individual and consolidated financial positions of Ultrapar Participações S.A. and subsidiaries as of December 31, 2005 and 2004, and the results of their operations, the changes in stockholders' equity (Company), and the changes in their financial positions for the years then ended in conformity with accounting practices adopted in Brazil.
4. Our audits were conducted for the purpose of forming an opinion on the financial statements referred to in paragraph 1 taken as a whole. The individual and consolidated statements of cash flow are presented for purposes of additional analysis and are not a required part of the basic financial statements, prepared in conformity with accounting practices adopted in Brazil. Such information, prepared under the responsibility of the Companies' management, has been subjected to the auditing procedures described in paragraph 2 and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

ULTRAPAR PARTICIPAÇÕES S.A. AND SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2005 AND 2004
(In thousands of Brazilian reais - R\$, unless otherwise stated)

1. OPERATIONS

Ultrapar Participações S.A. (the "Company") invests in commercial and industrial activities, including subscription or purchase of shares of other companies with similar activities.

Through its subsidiaries, the Company is engaged in the distribution of liquefied petroleum gas (LPG) (Ultragaz), production and sale of chemicals (Oxitenó), and logistic services for chemicals and fuels (Ultracargo).

2. PRESENTATION OF FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING PRACTICES

The accounting practices adopted to record transactions and prepare the financial statements are those established by accounting practices adopted in Brazil and the Brazilian Securities Commission (CVM).

a) Results of operations

Determined on the accrual basis of accounting. Revenues from sales and respective costs are recognized when the products are delivered to the customers or services are performed, and the transfer of risks, rights and obligations associated with the ownership of products takes place.

b) Current and long-term assets

Temporary cash and long-term investments are stated at cost, plus accrued income (on a "pro rata temporis" basis), which approximate to the market value. Temporary cash investments include the results from hedges, as described in Notes 4 and 19, that management intends to hold to maturity.

The allowance for doubtful accounts is based on estimated losses and is considered by management to be sufficient to cover potential losses on accounts receivable.

Inventories are stated at the lower of average cost of acquisition or production, market or net realizable value.

Other assets are stated at the lower of cost or probable realizable values, including, when applicable, accrued income and monetary variations or net of allowances for potential losses.

7

Ultrapar Participações S.A. and Subsidiaries

c) Permanent assets

□

Investments

Significant investments in subsidiary and affiliated companies are recorded under the equity method, as shown in Note 10.

Other investments are stated at acquisition cost, less an allowance for losses, should the loss not be considered temporary.

□ Property, plant and equipment

Stated at cost of acquisition, process or construction, and include revaluation write-ups based on appraisal reports issued by independent appraisers, in accordance with item 68, letter b), of CVM Resolution No. 183/95.

Depreciation is calculated on a straight-line basis at the annual rates described in Note 11, based on the economic useful lives of the assets.

□ Deferred charges

Deferred charges comprise costs incurred in the installation of equipment at customers' facilities, projects to modernize systems, and goodwill on acquisition of subsidiaries, as mentioned in Note 12.

d) Current and long-term liabilities

Stated at known or estimated amounts including, when applicable, accrued charges, monetary and exchange variations incurred during the year.

e) Income and social contribution taxes

The income and social contribution taxes, current and deferred (according to CVM Resolution No. 273/98) are measured on the basis of effective rates and include the benefit of tax holidays.

f) Basis for translation of the financial statements of foreign subsidiaries

The financial statements of foreign subsidiaries are translated into Brazilian reais at the current exchange rate in effect at the balance sheet date. The criteria for preparation of the financial statements have been adapted to conform to Brazilian accounting practices.

g) Reclassification

The balance of income tax benefits as of December 31, 2004 has been reclassified from equity in subsidiary and affiliated companies to the heading income and social contribution taxes in the statements of income for a better year-on-year comparison, in accordance with CVM/SNC/SEP Circular No. 01, of February 25, 2005 as stated in Note 9.b).

h) Cash flow statements

The Company is presenting the statements of cash flow as supplementary information, prepared in accordance with Accounting Standards and Procedures No. 20 (NPC) issued by IBRACON - Brazilian Institute of Independent Auditors.

3. CONSOLIDATION PRINCIPLES

The consolidated financial statements have been prepared in accordance with the basic consolidation principles established by accounting practices adopted in Brazil and by the Brazilian Securities Commission (CVM), and include the following direct and indirect subsidiaries:

	Ownership interest - %			
	2005		2004	
	Direct	Indirect	Direct	Indirect
Ultragaz Participações Ltda.	100	-	100	-
Companhia Ultragaz S.A.	-	99	-	94

Oxiten International Co.	-	100	-	100
Oxiten Overseas Co.	-	100	-	100
Imaven Imóveis e Agropecuária Ltda.	100	-	100	-

Upon consolidation, intercompany investments, accounts, transactions and profits were eliminated. Minority interest in subsidiaries is presented separately in the financial statements.

On December 29, 2004, the Company acquired, through its subsidiary Ultragaz Participações Ltda., 14,336,014 common shares in Companhia Ultragaz S.A., corresponding to 7.31% of total capital. This acquisition amounted to R\$10,000, with goodwill of R\$1,813, based on the acquired company's expected future profitability, to be amortized over five years beginning January 2005.

Ultrapar Participações S.A. and Subsidiaries

On April 29, 2005, Ultragaz Participações Ltda. conducted a capital increase in its subsidiary Companhia Ultragaz S.A., increasing its ownership interest from 93.94% to 98.53% ..

4. TEMPORARY CASH AND LONG-TERM INVESTMENTS

These investments, contracted with leading banks, are substantially composed of securities, notes issued by the Austrian Government, and fixed-income funds, all linked to the interbank deposit rate (CDI) and currency hedges, and are stated at cost plus accrued income on a [pro rata temporis] basis. As of December 31, 2005, funds in the amount of R\$585,910, raised through notes issued by the subsidiary LPG International Inc., were invested in U.S. dollar in certificates of deposit issued by leading foreign banks.

	Company		Consolidated	
	2005	2004	2005	2004
Austrian notes, indexed in Brazilian reais	-	-	344,603	-

The loan balance with Química da Bahia Indústria e Comércio S.A. is adjusted based on the Brazilian long-term interest rate (TJLP). Other loans are not subject to financial charges. Purchase and sale transactions refer substantially to purchases of raw materials, other materials and transportation and storage services, carried out at market prices and conditions.

The loan agreement with Ultracargo - Operações Logísticas e Participações Ltda. results substantially from the sale of shares issued by Oxiteno S.A. - Indústria e Comércio to the Company, so as to avoid cross shareholding resulting from a corporate restructuring conducted in 2002.

9. INCOME AND SOCIAL CONTRIBUTION TAXES

a) Deferred income and social contribution taxes

The Company and its subsidiaries recognize tax assets and liabilities, which do not expire, arising from tax loss carryforwards, temporary add-backs, revaluation of property, plant and equipment, and other procedures. The tax credits are based on continuing profitability from operations. Management expects to realize these tax credits over a maximum period of three years. Deferred income and social contribution taxes are presented in the following principal categories:

	Company		Consolidated	
	2005	2004	2005	2004
Assets:				
Deferred income and social contribution taxes on:				
Provision for loss of assets	-	-	22,783	21,629

c) Tax exemption

The following indirect subsidiaries have partial or total exemption from income tax in connection with a government program for the development of the Northeast Region of Brazil:

Subsidiary	Plants	Exemption - %	Expiration date
Oxiteno Nordeste S.A. - Indústria e Comércio	Camaçari plant	100	2006
Bahiana Distribuidora de Gás Ltda.	Mataripe unit	75	2013
	Suape unit	100	2007
	Ilhéus unit	25	2008
	Aracaju unit	25	2008
	Caucaia unit	75	2012
Terminal Químico de Aratu S.A. - Tequimar	Aratu Terminal	75	2012
	Suape Terminal (storage of acetic acid and butadiene byproducts) (*)	100	2005

(*) In December 2005, this base's exemption expired and a request was filed with ADENE (Northeast Development Agency), the agency in charge of managing this incentive program, seeking a 75% income tax reduction until 2015, still pending approval by ADENE. Should the request not be approved, this base's income tax reduction will be 25% until 2008 and 12.5% from 2009 until 2013.

Construction in progress refers substantially to improvements of subsidiaries' plants.

Buildings include R\$61,514 (R\$23,138 in 2004) of improvement in third-party properties that are being amortized on a straight-line basis at 4% per year.

Other refers to computer equipment in the amount of R\$14,963 (R\$17,242 in 2004), software in the amount of R\$24,368 (R\$27,740 in 2004), and commercial property rights, mainly those described below:

- On July 11, 2002, the subsidiary Terminal Químico de Aratu S.A. - Tequimar won a bid for use of the site where the Aratu Terminal is located for another 20 years, renewable for the same period. The price paid by Tequimar amounted to R\$12,000 and is being amortized from August 2002 to July 2042.
- Further, the subsidiary Terminal Químico de Aratu S.A. - Tequimar has a lease agreement for an area adjacent to the Port of Santos for 20 years, effective December 2002 and renewable for another 20 years, for building and operating a terminal for receiving, tankage, handling and distribution of bulk liquids. The price paid by Tequimar was R\$3,803 and is being amortized from August 2005 until December 2022.

12. DEFERRED CHARGES (CONSOLIDATED)

Represented substantially by costs incurred in the implementation of systems modernization projects in the amount of R\$8,654 (R\$2,052 in 2004), amortized over five to ten years, and for costs associated with the installation of Ultrasystem equipment at customers' facilities in the amount of R\$60,300 (R\$55,954 in 2004), amortized over the terms of the LPG supply contracts with these customers. Deferred charges also include the goodwill from acquisitions and expenses on studies and projects.

13. LOANS, FINANCING AND DEBENTURES (CONSOLIDATED)

19

Ultrapar Participações S.A. and Subsidiaries

b) Notes

In June 1997, the subsidiary Companhia Ultragaz S.A. issued US\$60 million in notes, maturing in 2005. In June 2005, maturity was extended to June 2020, with put/call options in June 2008.

In January 2004, the subsidiary LPG International Inc. issued US\$60 million in notes to acquire the notes of Companhia Ultragaz S.A. In June 2005, the subsidiary LPG International Inc., which held all notes issued by Companhia Ultragaz S.A., sold them to the subsidiary Oxiteno Overseas Corporation, which financed their acquisition through a syndicated loan in the amount of US\$60 million maturing in June 2008, with annual interest rate of 5.05% . The loan was guaranteed by the Company and Oxiteno S.A. - Indústria e Comércio, which, among others, assumed commitment of maintaining the financial index determined by the ratio between net debt and consolidated EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) lesser or equal to 3.5, and the ratio between consolidated EBITDA and consolidated net financial expenses greater than or equal to 1.5. The subsidiary LPG International Inc. used the proceeds from the sale of notes of Companhia Ultragaz S.A. to redeem notes issued by it.

In December 2005, the subsidiary LPG International Inc. issued notes in the amount of US\$250 million, maturing in December 2015, with annual interest rate of 7.25% paid semiannually, with the first payment scheduled for June 2006. The issue price was 98.75% of the notes' face value, which represented a total yield for investors of 7.429% per year upon issuance. The notes were guaranteed by the Company and by Oxiteno S.A. - Indústria e Comércio.

As a result of the issuance of notes and the loan, the Company and its subsidiaries mentioned above are subject to covenants that limit, among other things, their ability to incur indebtedness and establish liens on assets, engage in mergers and acquisitions, conduct transactions with securities issued by it, and conduct transactions with affiliated companies. The restrictions imposed on the Company and its subsidiaries are usual in operations of this nature and have not limited their ability to conduct their business to date.

c) Debentures

On February 2, 2005, the Extraordinary Stockholders' Meeting approved the issuance by the Company and the public distribution in a single series of 30,000 nonconvertible debentures with nominal unit value of R\$10,000.00 (ten thousand Brazilian reais), totaling R\$300,000.

On March 30, 2005, the Company's Board of Directors, as delegated by the Extraordinary Stockholders' Meeting, approved the interest rate determined through a bookbuilding process on the same date.

20

Ultrapar Participações S.A. and Subsidiaries

On April 6, 2005, the Brazilian Securities Commission (CVM) registered the operation, and funds of R\$304,854, net of commission, were received on April 8, 2005.

Characteristics of the debentures are:

Nominal unit value:	R\$10,000.00
Final maturity:	March 1, 2008
Nominal value payment:	Lump sum at final maturity
Yield:	102.5% of CDI
Yield payment:	Semiannually, beginning March 1, 2005
Repricing:	None

The debentures are subject to commitments that restrict, among other things, certain operations of merger or spin-off, as well as the disposal of operating assets that would result in a reduction of more than 25% of consolidated net sales. They also included the obligation to maintain a consolidated net debt to EBITDA ratio less than or equal to 3.5. Thus far, none of these commitments have restricted the ability of Company and its subsidiaries to conduct business.

d) Collateral

A portion of the financing is collateralized by liens on property, plant and equipment, shares, promissory notes and guarantees provided by the Company and its subsidiaries, as shown below:

	2005	2004
Amount of financing secured by:		
Property, plant and equipment	53,734	39,007
Shares of affiliated companies and minority stockholders' guarantees	11,244	15,549
	<u>64,978</u>	<u>54,556</u>

Other loans are collateralized by guarantees issued by the Company and by the future flow of exports. The Company is responsible for sureties and guarantees offered on behalf of its subsidiaries, amounting to R\$1,017,858 (R\$533,126 in 2004).

Certain subsidiaries have issued guarantees to financial institutions related to amounts owed to those institutions by some of their customers (vendor financing). In the event any subsidiary is required to make a payment under the guarantees, the subsidiary may recover such amounts paid directly from its customers through commercial collection. Maximum future payments related to these guarantees amount to R\$33,208 (R\$45,230 in 2004), with terms of up to 210 days. As of December 31, 2005, the Company and its subsidiaries have not incurred any loss nor recorded any liability related to these guarantees.

21

Ultrapar Participações S.A. and Subsidiaries

Certain subsidiaries have conducted operations denominated "supplier finance" with its suppliers. In the operation, the banks advance to suppliers the proceeds from sales made to the subsidiaries, through acceptance by the subsidiaries with the banks. Those operations have an average term of nine days and are recorded as bank loans, since the suppliers received the funds from the banks, using the subsidiaries' credit. The amount as of December 31, 2005 totalized R\$161. Financial income related to this operation for the year ended December 31, 2005 amounted to R\$18.

14. STOCKHOLDERS' EQUITY

a) Capital

The Company is a listed corporation with shares traded on the São Paulo and New York Stock Exchanges. Subscribed and paid-up capital is represented by 81,325,409 shares without par value, comprised of 49,429,897 common and 31,895,512 preferred shares.

22

Ultrapar Participações S.A. and Subsidiaries

==> Reverse stock split: The Extraordinary Stockholders Meeting held on July 20, 2005 approved the reverse stock split, attributing 1 (one) share in substitution for every 1,000 existing shares. Likewise, each American Depositary Share - ADS, previously representative of 1,000 preferred shares, became representative of 1 (one) preferred share	-	49,429,897	31,895,512	81,325,409
As of December 31, 2005	<u>946,034</u>	<u>49,429,897</u>	<u>31,895,512</u>	<u>81,325,409</u>

As of December 31, 2005, 9,902,405 preferred shares were outstanding abroad, in the form of American Depositary Receipts - ADRs.

Ultrapar Participações S.A. and Subsidiaries

Preferred shares are not convertible into common shares, do not entail voting rights, and have priority in capital redemption, without premium, in the event of liquidation of the Company.

Until May 18, 2004, preferred shares entitled their holders to dividends at least 10% higher than those attributable to common shares. On that date, the Special Meeting of Preferred Stockholders and the Extraordinary Stockholders' Meeting of the Company approved equalizing the dividends of common and preferred shares.

At the beginning of 2000, the Company granted, through a stockholders agreement, tag-along rights, which assure to minority stockholders identical conditions to those negotiated by the controlling shareholders in case of disposal of shareholding control of the Company. The tag-along rights guarantee 100% of the offer amount for all types of shares of the Company. On May 18, 2004, the Company included the tag-along rights in its bylaws.

The Company is authorized to increase its capital, regardless of amendment to the bylaws, through a resolution of the Board of Directors, until it reaches R\$1,500,000 (one billion and five hundred million reais), by means of issuance of common or preferred shares, without keeping the existing ratio, observed the limit of 2/3 of preferred shares to the total shares issued.

b) Treasury shares

The Company acquired its own shares at market price, without capital reduction, for holding in treasury and subsequent disposal or cancellation, in accordance with the provisions of Brazilian Securities Commission (CVM) Instructions No. 10, of February 14, 1980, and No. 268, of November 13, 1997.

As of December 31, 2005, the Company's financial statements record 182,697 preferred shares and 6,617 common shares in treasury, which were acquired at the average cost of R\$26.09 and R\$19.30 per share, respectively. The consolidated financial statements record 377,847 preferred shares and 6,617 common shares in treasury, which were acquired at the average cost of R\$24.35 and R\$19.30 per share, respectively. The average acquisition cost, Company and consolidated, was adjusted to reflect the stock grant and reverse stock split, according to the table above.

The market price of preferred shares issued by the Company as of December 31, 2005 on the São Paulo Stock Exchange (BOVESPA) was R\$32.50.

c) Capital reserve

The capital reserve in the amount of R\$2,046 reflects the goodwill on the disposal of shares to be held in treasury in the Company's subsidiaries, at the average price of R\$33.21 per share. Executives of these subsidiaries were given the usufruct of such shares, as described in Note 21

24

Ultrapar Participações S.A. and Subsidiaries

d) Revaluation reserve

57

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

This reserve reflects the revaluation write-up of assets of subsidiaries and is realized based upon depreciation, write-off or disposal of revalued assets, including the related tax effects.

In some cases, taxes on the revaluation reserve of certain subsidiaries are recognized only upon the realization of this reserve, since the revaluations occurred prior to the publication of CVM Resolution No. 183/95. Taxes on these reserves are R\$7,288 (R\$7,769 in 2004).

e) Retention of profits reserve

This reserve is supported by the investment program, in conformity with article 196 of Brazilian corporate law, and includes both a portion of net income and the realization of the revaluation reserve.

f) Realizable profits reserve

This reserve is established in conformity with article 197 of Brazilian corporate law, based on the equity in subsidiary and affiliated companies. Realization of the reserve usually occurs upon receipt of dividends, disposal and write-off of investments.

g) Dividends and appropriation of net income

According to the Company's bylaws, the stockholders are entitled to a minimum annual dividend of 50% of adjusted net income, calculated according to the terms of accounting practices adopted in Brazil.

Proposed dividends as stated in the Company's financial statements, subject to approval at the Annual Stockholders' Meeting, are as follows:

	2005
Net income	299,178
Legal reserve	(14,959)
Retention of profits reserve	(142,109)
Realization of realizable profits reserve	89,199
Dividends balance	231,309
Realizable profits reserve	(74,224)
Interim dividends (R\$0.703817 per common and preferred share - after reverse stock split - see Note 14.a))	(57,085)
Proposed dividends payable (R\$1.232498 per common and preferred share)	(100.000)

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

h) Conciliation of stockholders' equity - Company and consolidated

	2005	2004
Stockholders' equity - Company	1,795,643	1,605,611
Treasury shares held by subsidiaries, net of realization	(3,761)	(3,396)
Capital reserve arising from sale of treasury shares to subsidiaries, net of realization	(1,717)	(1,713)
Stockholders' equity - consolidated	1,790,165	1,600,502

15. NONOPERATING EXPENSES, NET (CONSOLIDATED)

Refers principally to the result on the disposal of permanent assets, especially cylinders, as well as the write-off, in 2004, of the investment in the affiliate Extracta Moléculas Naturais S.A. in the amount of R\$1,560.

16. CONCILIATION OF EBITDA (CONSOLIDATED)

EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) is calculated by the Company, as shown below:

	2005					2004
	Ultragaz	Oxiteno	Ultracargo	Other	Consolidated	Consolidated
Operating income	36,036	279,967	12,893	3,647	332,543	518,989
(-) Equity in subsidiary and affiliated companies	-	(5,797)	-	4,240	(1,557)	(25)
(+/-) Financial income (expense)	41,730	(16,281)	4,286	(2,391)	27,344	44,982
(+) Depreciation and amortization	117,318	42,362	27,139	872	187,691	172,691
EBITDA	195,084	300,251	44,318	6,368	546,021	736,637

17. SEGMENT INFORMATION

The Company has three reportable segments: gas, chemicals and logistics. The gas segment distributes LPG to retail, commercial and industrial consumers mainly in the South, Southeast and Northeast Regions of Brazil. The chemicals segment primarily produces ethylene oxide, ethylene glycols, ethanolamines and etherglycols. Operations in the logistics segment include storage and transportation, mainly in the Southeast and Northeast Regions of Brazil. Reportable segments are strategic business units that offer different products and services. Intersegment sales are transacted at prices approximating those that the selling entity is able to obtain with third parties.

Ultrapar Participações S.A. and Subsidiaries

The principal financial information about each of the Company's reportable segments is as follows:

	2005				2004	
	Ultragaz	Oxiteno	Ultracargo	Other	Consolidated	Consolidated
Net sales, net of related-party transactions	2,901,692	1,609,866	182,204	86	4,693,848	4,784,249
Income from operations before financial income (expenses) and equity in subsidiary and affiliated companies	77,766	257,889	17,179	5,496	358,330	563,946
EBITDA	195,084	300,251	44,318	6,368	546,021	736,637
Total assets, net of related parties	929,444	1,987,644	317,678	396,507	3,631,273	2,578,764

18 FINANCIAL INCOME AND EXPENSES, NET (CONSOLIDATED)

Interest on loans and financing	(42,869)	(45,224)
Interest on debentures	(41,436)	-
Bank charges	(17,125)	(12,161)
Monetary and exchange variations expenses	32,343	25,737
Financial results from currency hedge transactions	(48,801)	(52,570)
CPMF/IOF/other financial expenses	(25,608)	(26,312)
Other expenses	(2,498)	(3,350)
	<u>(145,994)</u>	<u>(113,880)</u>

19. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

 Ultrapar Participações S.A. and Subsidiaries

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of December 31, 2005, the subsidiaries Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio maintained R\$848 (R\$2,077 in 2004) and the subsidiaries of Ultragas Participações Ltda. maintained R\$25,191 (R\$23,062 in 2004) as an allowance for doubtful accounts.
- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Temporary cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to the interbank deposit rate (CDI), as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Borrowings originate from the BNDES, and foreign currency financing, as mentioned in Note 13.
- Exchange rate - The Company's subsidiaries use hedge (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes equivalent to the assets and liabilities in foreign currency to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian reais at December 31, 2005 and 2004:

	2005	2004
	<u> </u>	<u> </u>
Assets:		
Investments abroad and hedges	126,236	266,619
Foreign cash and cash equivalents	3,129	884
Foreign temporary cash and long-term investments	722,565	108,093
Receivables from foreign customers, net of advances on exchange contracts	21,949	35,002
	<u>873,879</u>	<u>410,598</u>
Liabilities:		
Foreign currency financing	844,266	346,809
Import payables	16,054	12,294
	<u>860,320</u>	<u>359,103</u>
Net asset position	<u>13,559</u>	<u>51,495</u>

The exchange rate variation related to cash and banks, temporary cash investment, long-term investments and investments of foreign subsidiaries was recorded as financial expense in the consolidated statement of income for the year ended December 31, 2005, in the amount of R\$9,434 (financial expense of R\$10,995 in 2004).

Ultrapar Participações S.A. and Subsidiaries

- Market value of financial instruments

Market value of financial instruments as of December 31, 2005 and 2004 are as follow:

	2005		2004	
	Book value	Market value	Book value	Market value
Financial assets:				
Cash and banks	32,714	32,714	41,280	41,280
Temporary cash investments	1,218,210	1,215,638	517,099	526,093
Long-term investments	372,692	372,692	38,754	38,754
	<u>1,623,616</u>	<u>1,621,044</u>	<u>597,133</u>	<u>606,127</u>
Financial liabilities:				
Current and long-term loans	1,114,463	1,113,665	551,130	552,126
Current and long-term debentures	317,853	318,495	-	-
	<u>1,432,316</u>	<u>1,432,160</u>	<u>551,130</u>	<u>552,126</u>
Investment—				
Investment in affiliated company	<u>18,694</u>	<u>23,703</u>	<u>18,694</u>	<u>32,611</u>

The market value of financial instruments was obtained through the commonly used marking to market methodology, which consists of carrying the balances of the instruments until the maturity at the respective contracted rates, discounting them to present value at market rates as of December 31, 2005 and 2004. The market value of investment in affiliated company is based on the share price trading on the São Paulo Stock Exchange (BOVESPA) on December 31, 2005 and 2004.

20. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

a) Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in a collective labor agreement, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of December 31, 2005.

Ultrapar Participações S.A. and Subsidiaries

The subsidiaries Companhia Ultragaz S.A. and SPGás Distribuidora de Gás Ltda. are parties to an administrative proceeding at the SDE (Economic Law Department), linked to CADE (Administrative Council for Economic Defense), under the allegation of anticompetitive practice in the municipalities of a region of the State of Minas Gerais in 2001. In September 2005, the SDE issued a technical notice recommending to CADE a ruling against the companies involved in this proceeding. In their defense, the subsidiaries' arguments, among others, are that: (i) under the terms of the notice issued by the Company's chief executive officer on July 4, 2000, the subsidiaries' employees were forbidden to discuss with third parties matters related to prices; and (ii) no consistent evidence was attached to the proceeding's records, and the SDE acknowledges its failure in the attempt to prove the practice. In view of the arguments presented, the fact that the technical notice has no binding effect on CADE's decision, and their legal counsel's opinion, the subsidiaries did not record a provision for this issue. Should CADE's decision be unfavorable, the subsidiaries can still discuss the issue at the judicial level.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, State of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for property damage and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragaz's on-site LPG storage facilities did not contribute to the explosion. Of the 54 lawsuits judged thus far, a favorable judgment was obtained for 53, with 1 unfavorable decision, which is still subject to appeal, and whose amount, should the decision be upheld, is R\$17. The subsidiary has insurance for this contingency, and the uninsured contingent amount is R\$39,633. The Company has not recorded any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9,718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$36,966 (R\$33,699 in 2004). Recently the Federal Supreme Court (STF) has decided the matter favorable to the taxpayer. Although it is a precedent, the effect of this decision does not automatically apply to all companies, since they have to await judgment of their own lawsuits. In addition to the accrued amount, the Company has subsidiaries that have been unsuccessful in obtaining an injunction and, accordingly, have been paying the taxes. Thus, should there be final favorable outcomes for the subsidiaries in all lawsuits, the Company estimates that the total effect on result before income and social contribution taxes should reach R\$56,540, net of attorney's fees.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

The subsidiary Oxiteno S.A. - Indústria e Comércio and its subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio accrued R\$14,532 (R\$7,346 in 2004) for ICMS tax assessments being judged at lower-level and appeal-level administrative courts. The subsidiaries are currently awaiting a decision on the appeals.

The subsidiary Utingás Armazenadora S.A. has been challenging in court an ISS tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower-court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The unprovisioned updated amount of the contingency as of December 31, 2005 is R\$29,995 (R\$25,405 in 2004).

On October 7, 2005, the subsidiaries of Ultragas Participações Ltda. filed for and obtained an injunction to support the offset of PIS and COFINS credits against other federal taxes, notably income and social contribution taxes. According to the injunction obtained, the subsidiaries have been making escrow deposits for these debits and recognizing the corresponding liability for this purpose.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks on these proceedings as possible and/or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

Escrow deposits and provisions are summarized below:

	2005		2004	
	Escrow deposits	Provision	Escrow deposits	Provision
Income and social contribution taxes on net income	6,148	9,272	-	2,910
Labor claims	11,780	-	9,904	2,016
PIS and COFINS on other revenues	58	36,966	58	33,699
ICMS	804	14,532	538	9,435
Other	3,742	-	3,603	4,009
	<u>22,532</u>	<u>60,770</u>	<u>14,103</u>	<u>52,069</u>

31

Ultrapar Participações S.A. and Subsidiaries

b) Contracts

The subsidiary Terminal Químico de Aratu S.A. - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment. As

64

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

of December 31, 2005, such rates were R\$3.67 and R\$3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since inception of the contracts.

The subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the years ended December 31, 2005 and 2004, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased.

	Minimum purchase commitment	Actual demand	
		2005	2004
In tons	137,900	192,190	192,439

c) Insurance coverage for subsidiaries

The Company has appropriate insurance policies to cover various risks, including loss and damage from fire, lightning, explosion of any nature, windstorm, plane crash and electrical damage, among others, protecting the units and other branches of all subsidiaries. The estimated amount of insured assets is US\$240 million.

For the units of Oxiteno S.A. - Indústria e Comércio, Oxiteno Nordeste S.A. - Indústria e Comércio and Canamex Químicos S.A. de C.V., there is also loss of income insurance against losses from potential accidents related to their assets, in the amount of US\$128 million.

A civil liability insurance program covers all the Group companies, with coverage of US\$150 million, for losses and damage from accidents caused to third parties, related to the commercial/industrial operations and/or distribution and sale of products and services.

Group life insurance, personal accident insurance, health insurance, and domestic and international transportation insurance are also contracted.

32

Ultrapar Participações S.A. and Subsidiaries

21. STOCK COMPENSATION PLAN (CONSOLIDATED)

The Extraordinary Stockholders' Meeting held on November 26, 2003 approved a compensation plan for management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed; and (ii) the transfer of the beneficial ownership of the shares after ten years from the initial grant, provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. The total amount granted to executives until December 31, 2005, including taxes, was R\$8,940 (R\$7,654 in 2004). This amount is being amortized over a period of ten years and the amortization related to the year ended December 31, 2005, in the amount of R\$776 (R\$567 in 2004), was recorded as an operating expense for the period.

65

22. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name in Ultraprev; or (ii) a fixed-monthly amount that will deplete the fund accumulated in the participant's name in a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt of the retirement benefit. In 2005, the Company and its subsidiaries contributed R\$2,982 (R\$3,991 in 2004) to Ultraprev, which was charged to income for the year. The total number of participating employees as of December 31, 2005 was 5,975, with no participants retired to date. Additionally, Ultraprev has 1 active participant and 31 former employees receiving defined benefits according to the policies of a previous plan.
