The India Fund, Inc.

August 27, 2007

Dear Fund Shareholder,

We are pleased to provide you with the unaudited financial statements of The India Fund, Inc. (the Fund) for the six months ended June 30, 2007. The Fund's net asset value (NAV) closed at \$49.99 on June 30, 2007, representing an increase of 17.21% (after taking the Fund's dividend into account) from the NAV on December 31, 2006, which was \$42.65. The S&P/IFC Investable India Index* gained 20.09%, driven by large-cap companies like Reliance Industries and Bharti Airtel, which were both up approximately 33% for the six months ended June 30, 2007.

Thus far, 2007 has been an exciting year for India-dedicated investors, with the country's share market indices hitting new highs. For the 12 months ended March 31, 2007, the economy expanded 9.2%, the highest growth rate ever recorded. Corporate earnings are on track to grow approximately 22%** in the current fiscal year, and though the market's forward price-to-earnings ratio (PE ratio) remains above its historical average at 14.4x**, Indian stocks continue to trade at a modest PEG multiple (i.e., PE ratio/earnings-per-share growth) of only 0.7x. Partly due to overheating worries as well as stubbornly high inflation, the Reserve Bank of India has raised interest rates by 125 basis points since the beginning of the year. Yet despite this monetary tightening, investor sentiment remains positive due to strong underlying fundamentals. In fact, foreign portfolio investment for the six months ended June 30, 2007 reached \$5.7 billion, which represents 70% of the amount received in all of 2006.

Looking ahead, we believe India's robust manufacturing and service sectors will continue to lead the country's growth, with both strong domestic-driven and export-driven demand helping to sustain momentum. The economy's recent performance has been particularly impressive considering that structural reforms have actually been slowing recently, with continued resistance from political parties to opening up key sectors to foreign investors. Also, domestic politics have resulted in the government selectively interfering in what normally should be market-driven pricing. We believe such policies are generally counter-productive and, if not curtailed, could ultimately jeopardize the economy's ability to sustain high single-digit growth rates.

We remain bullish on India's growth story, but with a full appreciation of the short-term challenges that lie ahead. We believe the Reserve Bank of India needs to be convinced that inflation is under control and that growth is well-balanced before it begins lowering interest rates. In addition, the 8% year-to-date appreciation of the Indian rupee versus the U.S. dollar appears to be making life more challenging for India's exporters, including the important information

THE INDIA FUND, INC.

technology sector. We believe further currency appreciation could start having an unwelcome, negative impact on India's export growth. Finally, although India's economy is not as export-driven as other Asian economies, the country cannot be entirely shielded from the current volatility in global markets. Nevertheless, we continue to be optimistic regarding both India's medium-term and long-term growth prospects.

On behalf of the Board of Directors, we thank you for your participation and continued support of the Fund. If you have any questions, please do not hesitate to visit our website at www.blackstone.com or call our toll-free number, 1-866-800-8933.

Sincerely,

Prakash Melwani
Director and President

¹ Total investment return is calculated assuming a purchase of common stock at the market price on the first day and a sale at the market price on the last day of each period reported. Dividends and distributions, if any, are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions or sales charges and is not annualized. Past performance is not a guarantee of future results.

² Based on average shares outstanding.

³ A reversal of \$20,551,036 has been made to the prior year's tax provision described below (see Note B).

⁴ A provision of \$25,507,350 was made for U.S. federal income tax purposes for the fiscal year ended December 31, 2005. This provision was made as, at that time, it was unclear whether the Fund qualified as a regulated investment company (a RIC) under Subchapter M of the Internal Revenue Code for the taxable year ended December 31, 2004 (see Note B).

Notes to Financial Statements

June 30, 2007
(Unaudited)**NOTE A: ORGANIZATION**

The India Fund, Inc. (the Fund) was incorporated in Maryland on December 27, 1993, and commenced operations on February 23, 1994. The Fund operates through a branch in the Republic of Mauritius. The Fund is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a closed-end, non-diversified management investment company. The Fund's investment objective is long-term capital appreciation by investing primarily in Indian equity securities.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies are in conformity with generally accepted accounting principles in the United States of America (GAAP), which are consistently followed by the Fund in the preparation of its financial statements.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reported period. Actual results could differ from those estimates.

Significant accounting policies are as follows:

Portfolio Valuation. Investments are stated at value in the accompanying financial statements. All securities for which market quotations are readily available are valued at:

- (i) the last sales price prior to the time of determination, if there was a sale on the date of determination,
- (ii) at the mean between the last current bid and asked prices, if there was no sales price on such date and bid and asked quotations are available, or
- (iii) at the bid price if there was no sales price on such date and only bid quotations are available.

Securities that are traded over-the-counter are valued, if bid and asked quotations are available, at the mean between the current bid and asked prices. Securities for which sales prices and bid and asked quotations are not available on the date of determination may be valued at the most recently available prices or quotations under policies adopted by the Board of Directors. Investments in short-term debt securities having a maturity of 60 days or less are valued at amortized cost which approximates market value. Securities for which market values are not readily ascertainable are carried at fair value as determined in good faith by or under the supervision of the Board of Directors. The net asset value per share of the Fund is calculated weekly and at the end of each month.

Investment Transactions and Investment Income. Investment transactions are accounted for on the trade date. The cost of investments sold is determined by use of the specific identification method for both

financial reporting and income tax reporting purposes. Interest income is recorded on the accrual basis; dividend income is recorded on the ex-dividend date or, using reasonable diligence, when known. The collectibility of income receivable from Indian securities is evaluated periodically, and any resulting allowances for uncollectible amounts are reflected currently in the determination of investment income.

Tax Status. No provision is made for U.S. federal income or excise taxes for 2006 as it is the Fund's intention to continue to qualify as a regulated investment company under subchapter M of the Internal Revenue Code and to make the requisite distributions to its shareholders that will be sufficient to relieve it from all or substantially all federal income and excise taxes.

For the year ended December 31, 2005, a provision of \$25,507,350 was made for U.S. federal income tax purposes as, at that time, it was unclear whether the Fund qualified as a regulated investment company (a RIC) under Subchapter M of the Internal Revenue Code for the taxable year ended December 31, 2004. In order to preserve the Fund's status as a RIC under Subchapter M of the Internal Revenue Code for the taxable year ended December 31, 2004, on April 20, 2006 the Fund distributed a deficiency dividend to shareholders in the amount of \$1.07 per share, of which \$0.95 per share was designated as a Capital Gain Dividend. Under the deficiency dividend procedure, the maximum amount that the Fund will be obligated to pay to the Internal Revenue Service in interest and penalties is approximately \$4,956,314. Accordingly, a reversal of \$20,551,036 has been made to the prior year's tax provision.

Income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP.

The tax character of distributions paid during the year ended December 31, 2006 were as follows:

Ordinary income	\$ 10,980,955
Long term capital gains	204,622,749
Total	\$ 215,603,704

At December 31, 2006, the Fund had the following undistributed income on a tax basis:

Ordinary income	\$ 15,498,386
Long term capital gains	55,431,434

Foreign Currency Translation. The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (i) value of investment securities, assets and liabilities at the prevailing rates of exchange on the valuation date; and

- (ii) purchases and sales of investment securities and investment income at the relevant rates of exchange prevailing on the respective dates of such transactions.

18

Notes to Financial Statements (continued)

June 30, 2007
(Unaudited)

The Fund generally does not isolate the effect of fluctuations in foreign exchange rates from the effect of fluctuations in the market prices of securities. However, the Fund does isolate the effects of fluctuations in foreign currency rates when determining the gain or loss upon the sale of foreign currency denominated debt obligations pursuant to U.S. federal income tax regulations; such amounts are categorized as foreign currency gains or losses for federal income tax purposes. The Fund reports certain realized foreign exchange gains and losses as components of realized gains and losses for financial reporting purposes, whereas such amounts are treated as ordinary income for U.S. federal income tax reporting purposes.

Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in foreign exchange rates. Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among other factors, the level of governmental supervision and regulation of foreign securities markets, the possibility of political or economic instability and the fact that foreign securities markets may be smaller and may have less developed and less reliable settlement and share registration procedures.

Distribution of Income and Gains. The Fund intends to distribute annually to shareholders substantially all of its net investment income, including foreign currency gains, and to distribute annually any net realized gains after the utilization of available capital loss carryovers. An additional distribution may be made to the extent necessary to avoid payment of a 4% U.S. federal excise tax.

Distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified at the end of each fiscal year with the capital accounts based on their U.S. federal tax-basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed net investment income and net realized capital gains for financial reporting purposes but not for tax purposes are reported as dividends in excess of net investment income and net realized capital gains. To the extent they exceed net investment income and net realized gains for tax purposes, they are reported as distributions of additional paid-in capital.

During the year ended December 31, 2006, the Fund reclassified \$7,284,570 from accumulated realized gain on investments to over distribution of net investment income. This was the result of currency and investments in Passive Foreign Investment Companies, and net assets were not affected by this reclassification.

The Fund has obtained a certificate from the Mauritian authorities that it is a resident of Mauritius under the tax treaty between Mauritius and India. Under current regulations, a fund which is a tax resident in Mauritius under the treaty, but has no branch or permanent establishment in India, will not be subject to capital gains tax in India on the sale of securities or to tax on dividends paid by Indian companies. The Fund is subject to and accrues Indian withholding tax on interest earned on Indian securities at the rate of 20.91%.

The Fund will, in any year that it has taxable income for Mauritius tax purposes, elect to pay tax on its net income for Mauritius tax purposes at any rate between 0% and 35%.

The Fund continues to: (i) comply with the requirements of the tax treaty between India and Mauritius; (ii) be a tax resident of Mauritius; and (iii) maintain that its central management and control resides in Mauritius, and therefore management believes that the Fund will be able to obtain the benefits of the tax treaty between India and Mauritius. Accordingly, no provision for Indian income taxes has been made in accompanying financial statements of the Fund for taxes related to capital gains or dividends.

The foregoing is based upon current interpretation and practice and is subject to future changes in Indian or Mauritian tax laws and in the treaty between India and Mauritius.

NOTE F: SEMI-ANNUAL REPURCHASE OFFERS

In February 2003, the Board of Directors approved, subject to stockholder approval, a fundamental policy whereby the Fund would adopt an interval fund structure pursuant to Rule 23c-3 under the 1940 Act. Stockholders of the Fund approved the policy on April 30, 2003. As an interval fund, the Fund makes semi-annual repurchase offers at net asset value (less a 2% repurchase fee) to all Fund stockholders. The percentage of outstanding shares that the Fund can repurchase in each offer is established by the Fund's Board of Directors shortly before the commencement of each semi-annual offer and is between 5% and 25% of the Fund's then-outstanding shares.

NOTE H: 2006 RIGHTS OFFER

On July 3, 2006, the Fund commenced a second rights offering and issued to stockholders as of July 3, 2006 one right for each share of common stock held. The Fund sold 13,206,525 shares at the subscription price per share of \$34.00 (representing 95% of the Fund's net asset value per share on the expiration date of the offer). The total proceeds of the rights offering were \$449,021,850, and the Fund incurred costs of \$1,127,708.

NOTE I: CONCENTRATION OF RISKS

At June 30, 2007, substantially all of the Fund's net assets were invested in Indian securities. The Indian securities markets are among other things substantially smaller, less developed, less liquid, subject to less regulation and more volatile than the securities markets in the United States. Consequently, and as further discussed above, acquisitions and dispositions of securities by the Fund involve special risks and considerations not present with respect to U.S. securities. At June 30, 2007, the Fund has a concentration of its investment in computer, finance and diversified industries. The values of such investments may be affected by changes in such industry sectors.

Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in foreign exchange. Foreign security and currency transactions involve certain considerations and risks not typically associated with those of domestic origin as a result of, among other factors, the level of governmental supervision and regulation of foreign securities markets and the possibilities of political or economic instability, the fact that foreign securities markets may be smaller and less developed and the fact that securities, tax and corporate laws may have only recently developed or are in developing stages, and laws may not exist to cover all contingencies or to protect investors adequately.

THE INDIA FUND, INC.

Notes to Financial Statements (continued)

**June 30, 2007
(Unaudited)**

In the normal course of business, the Fund may enter into contracts that contain a variety of representations and warranties and which may provide for general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, management expects the risk of loss to be remote.

NOTE J: RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 establishes for all entities, including pass-through entities such as the Fund, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns, including whether an entity is taxable in a particular jurisdiction, and requires certain expanded tax disclosures. FIN 48 permits the recognition of the benefit of an uncertain tax position only when the position is more likely than not to be sustained assuming examination by taxing authorities. The Fund adopted the provisions of FIN 48 on June 29, 2007 (the last business day of the semi-annual reporting period). Management has reviewed the Fund's tax positions for all open tax years and has concluded that adoption has had no effect on the Fund's financial position or results of operations. Except as discussed in Note B, at June 30, 2007, the Fund has recorded no liability for net unrecognized tax benefits relating to uncertain income tax positions it has taken or expects to take in future tax returns.

The Fund files U.S. federal income tax returns and returns in various foreign jurisdictions in which it invests. While the statute of limitations remains open to examine the Fund's U.S. federal income tax returns filed for the fiscal years from 2003-2006, no examinations are in progress or anticipated at this time. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

In September 2006, the FASB issued *Statement on Financial Accounting Standards No. 157, Fair Value Measurements*, (SFAS No. 157). This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this Statement relate to the definition of fair value, the methods used to measure fair value and the expanded disclosures about fair value measurements. As of December 31, 2006, the Fund does not believe the adoption of SFAS No. 157 will impact the amounts reported in the financial statements; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements reported on the Statements of Changes in Net Assets for a fiscal period.

ANNUAL MEETING

The Fund held its Annual Meeting of Stockholders on April 19, 2007. At the meeting, stockholders elected the nominees proposed for election to the Fund's Board of Directors. The following table provides information concerning the matters voted on at the meeting:

I. Election of Directors

Nominee	Votes For	Votes Withheld	Non-Voting Shares	Total Voting and Non-Voting Shares
J. Marc Hardy	34,444,890	259,603	0	34,704,493
Prakash A. Melwani	34,413,902	290,592	0	34,704,494

At April 30, 2007, in addition to J. Marc Hardy and Prakash A. Melwani, the other directors of the Fund were as follows:

Lawrence K. Becker

Leslie H. Gelb

Stephane R. F. Henry

Peter G. Peterson

Luis F. Rubio

Jeswald W. Salacuse

The Fund's Board of Directors is divided into three classes: Class I, Class II, and Class III. The terms of office of the Class I, Class II, and Class III Directors expire at the Annual Meeting of Stockholders in the year 2008, year 2009 and year 2010, respectively, or thereafter in each case when their respective successors are duly elected and qualified. The Fund's executive officers are chosen each year at the first meeting of the Fund's Board of Directors following the Annual Meeting of Stockholders, to hold office until the meeting of the Board following the next Annual Meeting of Stockholders and until their successors are duly elected and qualified.

THE INDIA FUND, INC.

Dividends and Distributions

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund intends to distribute annually to shareholders substantially all of its net investment income, and to distribute any net realized capital gains at least annually. Net investment income for this purpose is income other than net realized long and short-term capital gains net of expenses.

Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the Plan), shareholders whose shares of Common Stock are registered in their own names will be deemed to have elected to have all distributions automatically reinvested by the Plan Agent in Fund shares pursuant to the Plan, unless such shareholders elect to receive distributions in cash. Shareholders who elect to receive distributions in cash will receive all distributions in cash paid by check in dollars mailed directly to the shareholder by the dividend paying agent. In the case of shareholders such as banks, brokers or nominees that hold shares for others who are beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholders as representing the total amount registered in such shareholders' names and held for the account of beneficial owners that have not elected to receive distributions in cash. Investors that own shares registered in the name of a bank, broker or other nominee should consult with such nominee as to participation in the Plan through such nominee, and may be required to have their shares registered in their own names in order to participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. If the directors of the Fund declare an income dividend or a capital gains distribution payable either in the Fund's Common Stock or in cash, nonparticipants in the Plan will receive cash and participants in the Plan will receive Common Stock, to be issued by the Fund or purchased by the Plan Agent in the open market, as provided below. If the market price per share on the valuation date equals or exceeds net asset value per share on that date, the Fund will issue new shares to participants at net asset value; provided, however, that if the net asset value is less than 95% of the market price on valuation date, then such shares will be issued at 95% of the market price. The valuation date will be the dividend or distribution payment date or, if that date is not a New York Stock Exchange trading day, the next preceding trading day. If net asset value exceeds the market price of Fund shares at such time, or if the Fund should declare an income dividend or capital gains distribution payable only in cash, the Plan Agent will, as agent for the participants, buy Fund shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts on, or shortly after, the payment date. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of a Fund share, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund's shares, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund on the dividend payment date.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (continued)

Because of the forgoing difficulty with respect to open market purchases, the Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent will cease making open-market purchases and shareholders will receive the uninvested portion of the dividend amount in newly issued shares at the close of business on the last purchase date.

Participants have the option of making additional cash payments to the Plan Agent, annually, in any amount from \$100 to \$3,000, for investment in the Fund's Common Stock. The Plan Agent will use all such funds received from participants to purchase Fund shares in the open market on or about February 15.

Any voluntary cash payment received more than 30 days prior to this date will be returned by the Plan Agent, and interest will not be paid on any uninvested cash payment. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Plan Agent, it is suggested that participants send in voluntary cash payments to be received by the Plan Agent approximately ten days before an applicable purchase date specified above. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than 48 hours before such payment is to be invested.

The Plan Agent maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in an account, including information needed by shareholders for personal and tax records. Shares in the account of each Plan participant will be held by the Plan Agent in the name of the participant, and each shareholder's proxy will include those shares purchased pursuant to the Plan.

There is no charge to participants for reinvesting dividends or capital gains distributions or voluntary cash payments. The Plan Agent's fees for the reinvestment of dividends and capital gains distributions and voluntary cash payments will be paid by the Fund. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in stock or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends and capital gains distributions and voluntary cash payments made by the participant. Brokerage charges for purchasing small amounts of stock for individual accounts through the Plan are expected to be less than the usual brokerage charges for such transactions, because the Plan Agent will be purchasing stock for all participants in blocks and prorating the lower commissions thus attainable.

THE INDIA FUND, INC.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (continued)

The receipt of dividends and distributions under the Plan will not relieve participants of any income tax that may be payable on such dividends or distributions.

Experience under the Plan may indicate that changes in the Plan are desirable. Accordingly, the Fund and the Plan Agent reserve the right to terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to notice of the termination sent to members of the Plan at least 30 days before the record date for such dividend or distribution. The Plan also may be amended by the Fund or the Plan Agent, but (except when necessary or appropriate to comply with applicable law, rules or policies of a regulatory authority) only by at least 30 days written notice to participants in the Plan. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43027, Westborough, Massachusetts 01581.
