QCR HOLDINGS, INC.
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
September 30, 2009

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation: The interim unaudited consolidated financial statements contained herein should be read in conjunction with the audited consolidated financial statements and accompanying notes to the consolidated financial statements for the fiscal year ended December 31, 2008, including QCR Holdings, Inc.'s (the Company) Form 10-K filed with the Securities and Exchange Commission on March 6, 2009. Accordingly, footnote disclosures, which would substantially duplicate the disclosures contained in the audited consolidated financial statements, have been omitted.

The financial information of the Company included herein has been prepared in accordance with U.S. generally accepted accounting principles for interim financial reporting and has been prepared pursuant to the rules and regulations for reporting on Form 10-Q and Rule 10-01 of Regulation S-X. Such information reflects all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation of the financial position and results of operations for the periods presented. Any differences appearing between the numbers presented in financial statements and management's discussion and analysis are due to rounding. The results of the interim periods ended September 30, 2009, are not necessarily indicative of the results expected for the year ending December 31, 2009.

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries which include three state-chartered commercial banks: Quad City Bank & Trust Company (QCBT), Cedar Rapids Bank & Trust Company (CRBT), and Rockford Bank & Trust Company (RB&T); and Quad City Bancard, Inc. (Bancard) which provides cardholder credit card processing services. The Company also engages in direct financing lease contracts through its 80% equity investment in m2 Lease Funds, LLC (m2 Lease Funds), and in real estate holdings through its 73% equity investment in Velie Plantation Holding Company, LLC (Velie Plantation Holding Company). All material intercompany transactions and balances have been eliminated in consolidation.

Activities related to discontinued operations have been recorded separately with current and prior period amounts reclassified as assets and liabilities related to discontinued operations on the consolidated balance sheets and as discontinued operations on the consolidated statements of operations and consolidated statement of cash flows. The notes to the consolidated financial statements have also been adjusted to eliminate the effect of discontinued operations.

Subsequent events: The Company has evaluated all subsequent events through November 9, 2009, the date of issuance of the financial statements.

Stock-based compensation plans: Please refer to Note 14 of our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2008, for information related to the Company's stock option and incentive plans, stock purchase plan, and stock appreciation rights (SARs).

Table of Contents

Part I

Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

The Company accounts for stock-based compensation with measurement of compensation cost for all stock-based awards at fair value on the grant date and recognition of compensation expense over the requisite service period for awards expected to vest. Stock-based compensation expense totaled \$462 thousand and \$289 thousand for the nine months ended September 30, 2009 and 2008, respectively. A key component in the calculation of stock-based compensation expense is the market price of the Company's stock.

Preferred stock and common stock warrant: As more fully described in Note 9, during the first quarter of 2009, the Company issued preferred stock and a common stock warrant to the U.S. Department of Treasury (Treasury) as a result of the Company's participation in the Treasury Capital Purchase Program (TCPP), which are classified in stockholders' equity on the consolidated balance sheet. The outstanding preferred stock has similar characteristics of an Increasing Rate Security as described by the Securities and Exchange Commission (SEC) Staff Accounting Bulletin Topic 5Q, *Increasing Rate Preferred Stock*. The proceeds received in conjunction with the issuance of the preferred stock and common stock warrant were allocated to preferred stock and additional paid-in-capital based on their relative fair values. Discounts on the increasing rate preferred stock are amortized over the expected life of the preferred stock (5 years), by charging imputed dividend cost against retained earnings and increasing the carrying amount of the preferred stock by a corresponding amount. The discount at the time of issuance is computed as the present value of the difference between dividends that will be payable in future periods and the dividend amount for a corresponding number of periods, discounted at a market rate for dividend yield on comparable securities. The amortization in each period is the amount which, together with the stated dividend in the period results in a constant rate of effective cost with regard to the carrying amount of the preferred stock.

Common stock warrants are evaluated for liability and equity treatment. The common stock warrant outstanding is carried as additional paid-in-capital in stockholders' equity until exercised or expired. This is consistent with the view of both the SEC and Financial Accounting Standards Board (FASB) as each withheld objection to classification of such warrants as permanent equity. This view is also consistent with the objective of the TCPP that equity in these securities should be considered part of equity for regulatory reporting purposes. The fair value of the common stock warrant used in allocating total proceeds received was determined using the Black-Scholes option pricing model.

Other-than-temporary impairment: Securities available for sale are reported at fair value, with the unrealized gains and losses reported as a separate component of accumulated other comprehensive income, net of deferred income taxes. Available for sale debt and equity securities are evaluated to determine whether declines in fair value below their amortized cost are other-than-temporary. In estimating other-than-temporary impairment losses on debt securities, management considers a number of factors including, but not limited to, (1) the length of time and extent to which the fair value has been less than amortized cost, (2) the financial condition and near-term prospects of the issuer, (3) the current market conditions, and (4) the intent of the Company to not sell the security or whether it is more-likely-than-not that the Company will be required to sell the security before its anticipated recovery. See Note 3 for additional information regarding securities available for sale and the evaluation of other-than-temporary impairment.

Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

Recent accounting developments: On June 29, 2009, FASB issued an accounting pronouncement establishing the *FASB Accounting Standards Codification* (the ASC) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity of US GAAP. This pronouncement was effective for financial statements issued for interim and annual periods ending after September 15, 2009, for most entities. On the effective date, all non-SEC accounting and reporting standards were superceded. The Company adopted this pronouncement for the quarterly period ended September 30, 2009, as required, and adoption did not have a material impact on the Company's financial statements taken as a whole. On June 12, 2009, FASB issued two related accounting pronouncements changing the accounting principles and disclosures requirements related to securitizations and special-purposed entities. Specifically, these pronouncements eliminate the concept of a qualifying special-purpose entity, change the requirements for derecognizing financial assets and change how a company determines when an entity is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. These pronouncements also expand existing disclosure requirements to include more information about transfers of financial assets, including securitization transactions, and where companies have continuing exposure to the risks related to transferred financial assets. These pronouncements will be effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application is prohibited. The recognition and measurement provisions regarding transfers of financial assets shall be applied to transfers that occur on or after the effective date. The Company will adopt these new pronouncements on January 1, 2010, as required. Management has not yet determined the impact adoption may have on the Company's consolidated financial statements.

On May 28, 2009, FASB issued an accounting pronouncement establishing general standards of accounting for and disclosure of subsequent events, which are events and transactions that occur after the balance sheet date but before the date the financial statements are issued, or available to be issued in the case of non-public entities. In particular, the pronouncement requires entities to recognize in the financial statements the effect of all events or transactions that provide additional evidence of conditions that existed at the balance sheet date, including the estimates inherent in the financial preparation process. Entities shall not recognize the impact of events or transactions that provide evidence about conditions that did not exist at the balance sheet date but arose after that date. This pronouncement also requires entities to disclose the date through which subsequent events have been evaluated. This pronouncement was effective for interim and annual reporting periods ending after June 15, 2009. The Company adopted the provisions of this new pronouncement for the quarter ended June 30, 2009, as required, and adoption did not have a material impact on the Company's financial statements taken as a whole.

On April 9, 2009, FASB issued three related accounting pronouncements intended to provide additional application guidance and enhance disclosures regarding fair value measurements and impairments of securities. In particular, these pronouncements: (1) provide guidelines for making fair value measurements more consistent with the existing accounting principles when the volume and level of activity for the asset or liability have decreased significantly; (2) enhance consistency in financial reporting by increasing the frequency of fair value disclosures and (3) modify existing general standards of accounting for and disclosure of other-than-temporary impairment (OTTI) losses for impaired debt securities.

Table of Contents

Part I

Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

All three pronouncements were effective for interim and annual periods ending after June 15, 2009. Entities were permitted to early adopt these pronouncements for interim and annual periods ending after March 15, 2009, but had to adopt all three pronouncements concurrently. The Company adopted these pronouncements for the quarterly reporting period ending June 30, 2009, as required. See Note 8 for additional information regarding fair value measurements of financial assets and liabilities, and Note 3 for additional information for investment securities. The adoption of these pronouncements did not have a material impact on the Company's consolidated financial statements taken as a whole. In December 2007, FASB issued an accounting pronouncement that changed the measurement, recognition and presentation of minority interests in consolidated subsidiaries (now referred to as noncontrolling interests). This pronouncement was effective for fiscal years beginning on or after December 15, 2008 and was prospective for the change related to measurement and recognition and retrospective for the changes related to presentation.

The Company presents noncontrolling interests (previously shown as minority interest) as a component of equity on the consolidated balance sheets. Minority interest expense is no longer separately reported as a reduction to net income on the consolidated income statement, but is instead shown below net income under the heading net income attributable to noncontrolling interests. The adoption of this pronouncement did not have any other material impact on the Company's consolidated financial statements.

NOTE 2 DISCONTINUED OPERATIONS

During 2008, Bancard sold its merchant credit card acquiring business resulting in gain on sale, net of taxes and related expenses, of approximately \$3.0 million. The 2008 financial results associated with the merchant credit card acquiring business have been reflected as discontinued operations. There is no 2009 activity.

On December 31, 2008, the Company sold its Milwaukee subsidiary, First Wisconsin Bank & Trust Company (FWBT) for \$13.7 million which resulted in a gain on sale, net of taxes and related expenses, of approximately \$356 thousand. The 2008 financial results associated with FWBT have been reflected as discontinued operations. There is no 2009 activity.

Please refer to Note 2 of our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2008, for information related to the Company's discontinued operations.

Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

Gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, as of September 30, 2009 and December 31, 2008, are summarized as follows:

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
September 30, 2009:						
Securities available for sale:						
U.S. govt. sponsored agency securities	\$ 58,214,246	\$ (232,219)	\$	\$	\$ 58,214,246	\$ (232,219)
Municipal securities	662,367	(38,407)	1,102,943	(22,786)	1,765,310	(61,193)
Trust preferred securities	116,000	(84,000)			116,000	(84,000)
Other securities	26,100	(3,124)	2,264	(1,635)	28,364	(4,759)
	\$ 59,018,713	\$ (357,750)	\$ 1,105,207	\$ (24,421)	\$ 60,123,920	\$ (382,171)

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
December 31, 2008:						
Securities available for sale:						
U.S. govt. sponsored agency securities	\$ 8,003,720	\$ (90,217)	\$	\$	\$ 8,003,720	\$ (90,217)
Mortgage-backed securities	630,974	(1,417)			630,974	(1,417)
Municipal securities	8,001,415	(219,181)			8,001,415	(219,181)
Trust preferred securities	165,000	(35,000)			165,000	(35,000)
Other securities	84,264	(57,316)	407,630	(320,146)	491,894	(377,462)
	\$ 16,885,373	\$ (403,131)	\$ 407,630	\$ (320,146)	\$ 17,293,003	\$ (723,277)

At September 30, 2009, the investment portfolio included 322 securities. Of this number, 49 securities have current unrealized losses; 7 of which have had unrealized losses for twelve months or more. All of the debt securities in unrealized loss positions are considered acceptable credit risks. Based upon an evaluation of the available evidence, including the recent changes in market rates, credit rating information and information obtained from regulatory filings, management believes the declines in fair value for these debt securities are temporary. In addition, the Company has the intent to not sell these securities and/or it is not likely that the Company will be required to sell these debt securities before their anticipated recovery. At September 30, 2009 and December 31, 2008, the Company's equity securities represent less than 1% of the total portfolio.

Declines in fair value of debt securities below their amortized cost basis that are deemed to be other-than-temporary impairment are carried at fair value. Any portion of a decline in value associated with credit loss is recognized in

income with the remaining noncredit-related component being recognized in other comprehensive income. A credit loss is determined by assessing whether the amortized cost basis of the debt security will be recovered, by comparing the present value of cash flows expected to be collected from the debt security, computed using original yield as the discount rate, to the amortized cost basis of the debt security. The shortfall of the present value of the cash flows expected to be collected in relation to the amortized cost basis is considered to be the credit loss.

Table of Contents

Part I

Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

The Company has not recognized other-than-temporary impairment on any debt securities for the three and nine months ended September 30, 2009 and 2008.

Should the impairment of any of the equity securities become other-than-temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net earnings in the period which the other-than-temporary impairment is identified.

For the nine months ended September 30, 2009, the Company's evaluation determined that 11 publicly-traded equity securities experienced declines in fair value that were other-than-temporary. As a result, the Company wrote down the value of these securities and recognized losses in the amount of \$206 thousand during the first six months of 2009. For the three months ended September 30, 2009, the Company did not recognize other-than-temporary impairment on any of the remaining equity securities.

The Company sold four U.S. government sponsored agency securities during the third quarter of 2009. The Company received proceeds from the sales of \$9.2 million resulting in pre-tax gains of \$719 thousand. For the three and nine months ended September 30, 2008, there were no sales of investment securities.

The amortized cost and fair value of securities as of September 30, 2009 by contractual maturity are shown below. Expected maturities of mortgage-backed securities may differ from contractual maturities because the mortgages underlying the mortgage-backed securities may be called or prepaid without any penalties. Therefore, these securities are not included in the maturity categories in the following summary. Other securities are excluded from the maturity categories as there is no fixed maturity date.

	Amortized Cost	Fair Value
Securities held to maturity:		
Due in one year or less	\$ 50,000	\$ 50,000
Due after one year through five years	250,000	250,000
Due after five years	50,000	50,000
	\$ 350,000	\$ 350,000
Securities available for sale:		
Due in one year or less	\$ 14,056,992	\$ 14,210,221
Due after one year through five years	133,769,036	135,171,784
Due after five years	190,593,435	193,860,315
	\$ 338,419,463	\$ 343,242,320
Mortgage-backed securities	571,897	590,839
Other securities	1,614,163	1,691,573
	\$ 340,605,523	\$ 345,524,732

Table of ContentsPart I
Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

NOTE 4 OTHER BORROWINGS

Other borrowings as of September 30, 2009 and December 31, 2008 are summarized as follows:

	September 30, 2009	December 31, 2008
Wholesale repurchase agreements	\$ 135,000,000	\$ 70,000,000
364-day revolving note	5,000,000	5,000,000
Other	67,255	582,634
	\$ 140,067,255	\$ 75,582,634

Maturity and interest rate information concerning wholesale repurchase agreements is summarized as follows:

	September 30, 2009		December 31, 2008	
	Amount Due	Weighted Average Interest Rate at Year-End	Amount Due	Weighted Average Interest Rate at Year-End
Maturity:				
Year ending December 31:				
2011	\$ 5,000,000	3.40%	\$ 5,000,000	3.40%
2012	40,000,000	4.47	40,000,000	4.47
2013	10,000,000	3.96		0.00
2014	10,000,000	4.40		0.00
Thereafter	70,000,000	3.64	25,000,000	3.54
	\$ 135,000,000	3.96	\$ 70,000,000	4.06

Each wholesale repurchase agreement has a one-time put option, at the discretion of the counterparty, to terminate the agreement and require the subsidiary bank to repay at predetermined dates prior to the stated maturity date of the agreement.

As of September 30, 2009 and December 31, 2008, embedded within \$65,000,000 and \$30,000,000, respectively, of the wholesale repurchase agreements are interest rate cap options with varying terms. The interest rate cap options are effected when the 3-month LIBOR rate increases to certain levels. If that situation occurs, the rate paid will be decreased by the difference between the 3-month LIBOR rate and the particular cap level. In no case will the rate paid fall below 0.00%.

At December 31, 2008, the Company had a single \$25,000,000 unsecured revolving credit note which matures every 364 days. At December 31, 2008, the note carried a balance outstanding of \$5,000,000. Interest was payable monthly at the effective Federal Funds rate plus 1.25% per annum, as defined by the credit agreement. As of December 31, 2008, the interest rate on the note was 1.34%. The note renewed on April 3, 2009, and the amount of credit was reduced from \$25,000,000 down to \$20,000,000 and is now secured. At September 30, 2009, the note carried a balance outstanding of \$5,000,000. Interest is payable monthly at the effective LIBOR rate plus 2.50% per annum, as defined in the credit agreement. As of September 30, 2009, the interest rate on the note was 2.75%.

The current revolving note agreement contains certain covenants that place restrictions on additional debt and stipulate minimum capital and various operating ratios.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) continued

NOTE 6 BUSINESS SEGMENT INFORMATION

Selected financial and descriptive information is required to be disclosed for reportable operating segments, applying a management perspective as the basis for identifying reportable segments. The management perspective is determined by the view that management takes of the segments within the Company when making operating decisions, allocating resources, and measuring performance. The segments of QCR Holdings, Inc. have been defined by the structure of the Company's internal organization, focusing on the financial information that the Company's operating decision-makers routinely use to make decisions about operating matters.

The Company's primary segment, Commercial Banking, is geographically divided by markets into the secondary segments which are the three subsidiary banks wholly-owned by the Company: QCBT, CRBT, and RB&T. Each of these secondary segments offer similar products and services, but are managed separately due to different pricing, product demand, and consumer markets. Each offers commercial, consumer, and mortgage loans and deposit services. FWBT is accounted for as discontinued bank operations and the related 2008 financial information has been properly excluded where appropriate. FWBT's assets held for sale at September 30, 2008 are reported in the All Other segment. The Company's Credit Card Processing segment represents the continuing operations of Bancard. As previously noted, Bancard sold its merchant credit card acquiring business in 2008 and the Company has accounted for it as discontinued operations. The 2008 financial information has been properly excluded.

The Company's Trust Management segment represents the trust and asset management services offered at the Company's three subsidiary banks in aggregate. This segment generates income primarily from fees charged based on assets under administration for corporate and personal trusts and for custodial services. No assets of the subsidiary banks have been allocated to the Trust Management segment.

The Company's All Other segment includes the operations of all other consolidated subsidiaries and/or defined operating segments that fall below the segment reporting thresholds. This segment includes the corporate operations of the parent and the 73% owned real estate holding operations of Velie Plantation Holding Company.

Selected financial information on the Company's business segments is presented as follows for the three months and nine months ended September 30, 2009 and 2008.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

NOTE 7 COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company's subsidiary banks make various commitments and incur certain contingent liabilities that are not presented in the accompanying consolidated financial statements. The commitments and contingent liabilities include various guarantees, commitments to extend credit, and standby letters of credit. As of September 30, 2009 and December 31, 2008, commitments to extend credit aggregated were \$427.2 million and \$494.8 million, respectively. As of September 30, 2009 and December 31, 2008, standby, commercial and similar letters of credit aggregated were \$16.4 million and \$15.2 million, respectively. Management does not expect that all of these commitments will be funded.

Contractual obligations and other commitments were presented in the Company's 2008 Annual Report on Form 10-K. There have been no material changes in the Company's contractual obligations and other commitments since that report was filed.

Table of ContentsPart I
Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

NOTE 8 FAIR VALUE

The measurement of fair value under U.S. GAAP uses a hierarchy intended to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy includes three levels and is based upon the valuation techniques used to measure assets and liabilities. The three levels are as follows:

1. Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in markets;
2. Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument; and
3. Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Assets measured at fair value on a recurring basis comprise the following at September 30, 2009:

	Fair Value	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Securities available for sale:				
U.S. gov't. sponsored agency securities	\$ 319,336,077	\$	\$ 319,336,077	\$
Mortgage-backed securities	590,839		590,839	
Municipal securities	23,790,243		23,790,243	
Trust preferred securities	116,000		116,000	
Other securities	1,691,573	626,427	1,065,146	
	\$ 345,524,732	\$ 626,427	\$ 344,898,305	\$

A small portion of the securities available for sale portfolio consists of common stocks issued by various unrelated bank holding companies. The fair values used by the Company are obtained from an independent pricing service and represent quoted market prices for the identical securities (Level 1 inputs).

The large majority of the securities available for sale portfolio consists of U.S. government sponsored agency securities for which the Company obtains fair values from an independent pricing service. The fair values are determined by pricing models that consider observable market data, such as interest rate volatilities, LIBOR yield curve, credit spreads and prices from market makers and live trading systems (Level 2 inputs).

Table of ContentsPart I
Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

Certain financial assets are measured at fair value on a non-recurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Financial assets measured at fair value on a non-recurring basis were not significant at September 30, 2009.

The following table presents the carrying values and estimated fair values of financial assets and liabilities carried on the Company's consolidated balance sheets, including those financial assets and liabilities that are not measured and reported at fair value on a recurring basis or non-recurring basis:

	As of September 30, 2009		As of December 31, 2008	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Cash and due from banks	\$ 20,615,008	\$ 20,615,008	\$ 33,464,074	\$ 33,464,074
Federal funds sold	39,815,582	39,815,582	20,695,898	20,695,898
Interest-bearing deposits at financial institutions	22,984,074	22,984,074	2,113,904	2,113,904
Investment securities:				
Held to maturity	350,000	350,000	350,000	350,000
Available for sale	345,524,732	345,524,732	255,726,415	255,726,415
Loans/leases receivable, net	1,219,098,457	1,222,932,000	1,196,880,462	1,189,382,000
Accrued interest receivable	8,102,518	8,102,518	7,835,835	7,835,835
Deposits	1,096,767,735	1,102,938,000	1,058,958,598	1,067,480,000
Short-term borrowings	114,153,590	114,153,590	101,456,950	101,456,950
Federal Home Loan Bank advances	212,850,000	229,441,000	218,695,000	235,309,000
Other borrowings	140,067,255	146,798,000	75,582,634	78,472,000
Accrued interest payable	3,148,544	3,148,544	4,539,122	4,539,122

The methodologies for estimating the fair value of financial assets and liabilities that are measured at fair value on a recurring or non-recurring basis are discussed above. For certain financial assets and liabilities, carrying value approximates fair value due to the nature of the financial instrument. These instruments include: cash and due from banks, federal funds sold, interest-bearing deposits at financial institutions, accrued interest receivable and payable, demand and other non-maturity deposits, and short-term borrowings. The Company used the following methods and assumptions in estimating the fair value of the following instruments:

Loans/leases receivable: The fair values for variable rate loans equal their carrying values. The fair values for all other types of loans/leases are estimated using discounted cash flow analyses, using interest rates currently being offered for loans/leases with similar terms to borrowers with similar credit quality. The fair value of loans held for sale is based on quoted market prices of similar loans sold on the secondary market.

Deposits: The fair values disclosed for demand and other non-maturity deposits equal their carrying amounts, which represent the amount payable on demand. Fair values for time deposits are estimated using a discounted cash flow calculation that applies interest rates currently being offered on time deposits to a schedule of aggregate expected monthly maturities on time deposits.

Table of Contents

Part I

Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

Federal Home Loan Bank advances: The fair value of these instruments is estimated using discounted cash flow analyses, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements.

Other borrowings: The fair value for the wholesale repurchase agreements is estimated using rates currently available for debt with similar terms and remaining maturities. The fair value for variable rate other borrowings is equal to its carrying value.

Junior subordinated debentures: It is not practicable to estimate the fair value of the Company's junior subordinated debentures as instruments with similar terms are not readily available in the market place.

Commitments to extend credit: The fair value of these instruments is not material.

NOTE 9 ISSUANCE OF SERIES D PREFERRED STOCK AND COMMON STOCK WARRANT

On February 13, 2009, the Company issued 38,237 shares of Series D Preferred Stock to Treasury for an aggregate purchase price of \$38,237,000. The sale of Series D Preferred Stock was a result of the Company's participation in the TCPP. This sale also included the issuance of a warrant (Warrant) that allows Treasury to purchase up to 521,888 shares of common stock at an exercise price of \$10.99 per share.

The Warrant has a ten-year term and is immediately exercisable upon its issuance, with an exercise price, subject to anti-dilution adjustments, equal to \$10.99 per share of the Common Stock. As of September 30, 2009, there had been no changes to the number of common shares covered by the Warrant nor had the Treasury exercised any portion of the Warrant.

The Series D Preferred Stock qualifies as Tier 1 capital and will pay cumulative dividends at a rate of 5% per annum for the first five years, and 9% per annum thereafter. Prior to the third anniversary of Treasury's purchase of the Series D Preferred Stock, unless the Series D Preferred Stock has been redeemed or Treasury has transferred all of the Series D Preferred Stock to one or more third parties, the consent of Treasury will be required for the Company to: (i) increase the dividends paid on its Common Stock; or (ii) repurchase its Common Stock or other equity or capital securities, other than in connection with benefit plans consistent with past practice. The Series D Preferred Stock will be non-voting except for class voting rights on matters that would adversely affect the rights of the holders of the Series D Preferred Stock.

Treasury has the ability to unilaterally amend the TCPP documents at any time to comply with changes in the law, and as a result, the terms of the TCPP could change.

Table of Contents

Part I

Item 1

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)-continued

On February 17, 2009, the American Recovery and Reinvestment Act of 2009 (ARRA) was signed into law, which contains provisions that significantly impact TCPP recipients both retroactively and prospectively. Restrictions on repayment, including the Tier 1 qualified capital raise requirement, have been removed allowing institutions to repay the TCPP funds, in whole or in part, upon consultation and approval from the Company's primary federal banking regulator. If the Treasury is repaid, it will liquidate the warrant it holds at the fair market value. ARRA has also imposed more strict compensation limitations and expands the number of executives covered based upon the amount of TCPP funds received. These provisions will apply to existing and future TCPP recipients for periods the TCPP capital is outstanding.

The Series D Preferred Stock and the Warrant were issued in a private placement exempt from registration pursuant to Section 4(2) of the Securities Act of 1933, as amended (the Securities Act). Upon the request of Treasury at any time, the Company has agreed to promptly enter into a deposit arrangement pursuant to which the Series D Preferred Stock may be deposited and depository shares representing fractional shares of Series D Preferred Stock may be issued. The Company registered the Warrant and the shares of Common Stock underlying the Warrant with the Securities and Exchange Commission under the Securities Act. Additionally, the Company has also agreed to register the shares of Series D Preferred Stock upon the written request of Treasury.

The proceeds received from the Treasury were allocated to the Series D Preferred Stock and the Warrant based on relative fair value. The fair value of the Series D Preferred Stock was determined through a discounted future cash flows model using a discount rate of 12%. The fair value of the Warrant was calculated using the Black-Scholes option pricing model, which includes assumptions regarding the Company's dividend yield, stock price volatility, and the risk-free interest rate. The relative fair value of the Series D Preferred Stock and the Warrant on February 13, 2009, was \$35.8 million and \$2.4 million, respectively.

The Company calculated a discount on the Series D Preferred Stock in the amount of \$2.4 million, which is being amortized over a 5 year period. The effective cost on the Series D Preferred Stock, including the accretion of the discount, is approximately 6.23%. In determining net income (loss) attributable to the Company's common stockholders, the periodic accretion and the cash dividend on the preferred stock are subtracted from net income (loss) attributable to the Company.

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

QCR Holdings, Inc. is the parent company of Quad City Bank & Trust, Cedar Rapids Bank & Trust, Rockford Bank & Trust, and Quad City Bancard, Inc.

Quad City Bank & Trust and Cedar Rapids Bank & Trust are Iowa-chartered commercial banks, and Rockford Bank & Trust is an Illinois-chartered commercial bank. All are members of the Federal Reserve System with depository accounts insured to the maximum amount permitted by law by the Federal Deposit Insurance Corporation (FDIC).

Quad City Bank & Trust commenced operations in 1994 and provides full-service commercial and consumer banking, and trust and asset management services, to the Quad City area and adjacent communities through its five offices that are located in Bettendorf and Davenport, Iowa and Moline, Illinois. Quad City Bank & Trust also provides leasing services through its 80%-owned subsidiary, m2 Lease Funds, located in Brookfield, Wisconsin. On January 1, 2008, Quad City Bank & Trust acquired 100% of the membership units of CMG Investment Advisors, LLC, which is an investment management and advisory company.

Cedar Rapids Bank & Trust commenced operations in 2001 and provides full-service commercial and consumer banking, and trust and asset management services, to Cedar Rapids, Iowa and adjacent communities through its main office located on First Avenue in downtown Cedar Rapids, Iowa and its branch facility located on Council Street in northern Cedar Rapids. Cedar Rapids Bank & Trust also provides residential real estate mortgage lending services through its 50%-owned joint venture, Cedar Rapids Mortgage Company.

Rockford Bank & Trust commenced operations in January 2005 and provides full-service commercial and consumer banking, and trust and asset management services, to Rockford, Illinois and adjacent communities through its main office located in downtown Rockford and its branch facility on Guilford Road at Alpine Road in Rockford.

On December 31, 2008, the Company sold its Milwaukee subsidiary, First Wisconsin Bank & Trust, for \$13.7 million which resulted in a gain on sale, net of taxes and related expenses, of approximately \$356 thousand. The 2008 financial results associated with First Wisconsin Bank & Trust have been reflected as discontinued operations. Bancard currently provides credit card processing for its agent banks and for cardholders of the Company's subsidiary banks and agent banks. As discussed in the footnotes to the financial statements, the Company sold the merchant credit card acquiring business segment of Bancard during the third quarter of 2008. The 2008 activity related to the merchant credit card acquiring business is accounted for as discontinued operations.

Table of Contents

Part I

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

OVERVIEW

The Company reported net income attributable to QCR Holdings, Inc. for the quarter ended September 30, 2009 of \$1.6 million, which resulted in diluted earnings per share for common stockholders of \$0.12. By comparison, for the quarter ended June 30, 2009, the Company reported a net loss attributable to QCR Holdings, Inc. of \$820 thousand, and diluted earnings per share of (\$0.42). For the third quarter of 2008, the Company reported net income attributable to QCR Holdings, Inc. of \$4.3 million, and diluted earnings per share of \$0.83. For the nine months ended September 30, 2009, the Company reported net income attributable to QCR Holdings, Inc. of \$853 thousand compared to net income attributable to QCR Holdings, Inc. of \$6.8 million for the same period in 2008. As previously reported and discussed, in September 2008 the Company sold its merchant credit card acquiring business resulting in a gain on sale, net of taxes and related expenses, of approximately \$3.0 million.

For the quarter ended September 30, 2009, the Company recognized net income from continuing operations attributable to QCR Holdings, Inc. of \$1.6 million, or diluted earnings per share of \$0.12, as compared to net income from continuing operations attributable to QCR Holdings, Inc. of \$1.6 million, or diluted earnings per share of \$0.25, for the quarter ended September 30, 2008. The Company's net interest income for the current quarter totaled \$13.8 million which is an increase of \$2.1 million, or nearly 18%, from \$11.7 million for the same period of 2008. Of this increase, \$1.3 million was attributable to the recognition of interest income for cash interest payments previously received on a commercial loan which had been deferred pending the resolution of a contingency which was resolved this quarter. Additionally, the Company recognized gains on securities sold of \$719 thousand. More than offsetting these items, the Company continued to provide reserves at significant levels for its loan/lease portfolio with \$3.5 million of provision expense for the third quarter of 2009. Further, during the third quarter of 2009, the Company continued to incur significant expenses for FDIC insurance and experienced an increase in legal and other expenses incurred in connection with carrying high levels of nonperforming assets.

The performance and factors driving the results for the first nine months of 2009 are consistent with the third quarter of 2009 mentioned above. For the nine months ended September 30, 2009, the Company reported net income from continuing operations attributable to QCR Holdings, Inc. of \$853 thousand, and diluted earnings per share of (\$0.43), as compared to net income from continuing operations attributable to QCR Holdings, Inc. of \$5.3 million, and diluted earnings per share of \$0.85 for the same period of 2008. This decline resulted primarily from substantial increases in the provision for loan/lease losses and FDIC assessments. Partially offsetting these increased expenses, net interest income grew \$4.9 million, including the \$1.3 million one-time adjustment mentioned above, from \$33.1 million for the nine months ended September 30, 2008 to \$38.0 million for the same period in 2009.

Table of Contents

Part I

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

Net interest income, on a tax equivalent basis, increased \$2.0 million, including the \$1.3 million one-time adjustment, to \$13.9 million for the quarter ended September 30, 2009, from \$11.9 million for the third quarter of 2008. For the third quarter of 2009, average earning assets increased by \$260.0 million, or 19%, and average interest-bearing liabilities increased by \$170.9 million, or 14%, when compared with average balances for the third quarter of 2008. A comparison of yields, spread and margin from the third quarter of 2009 to the third quarter of 2008 is as follows (on a tax equivalent basis):

The average yield on interest-earning assets decreased 76 basis points.

The average cost of interest-bearing liabilities decreased 69 basis points.

The net interest spread declined 7 basis points from 3.14% to 3.07%.

The net interest margin declined 4 basis points from 3.44% to 3.40%.

Net interest income, on a tax equivalent basis, increased \$4.9 million, including the \$1.3 million one-time adjustment, to \$38.3 million for the nine months ended September 30, 2009, from \$33.4 million for the first nine months of 2008. For the nine months ended September 30, 2009, average earning assets increased by \$250.9 million, or 19%, and average interest-bearing liabilities increased by \$174.5 million, or 14%, when compared with average balances for the nine months ended September 30, 2008. A comparison of yields, spread and margin for the first nine months of 2009 to the first nine months of 2008 is as follows (on a tax equivalent basis):

The average yield on interest-earning assets decreased 92 basis points.

The average cost of interest-bearing liabilities decreased 79 basis points.

The net interest spread declined 13 basis points from 3.03% to 2.90%.

The net interest margin declined 11 basis points from 3.32% to 3.21%.

The Company's average balances, interest income/expense, and rates earned/paid on major balance sheet categories, as well as the components of change in net interest income, are presented in the following tables:

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

CRITICAL ACCOUNTING POLICIES

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The financial information contained within these statements is, to a significant extent, financial information that is based on approximate measures of the financial effects of transactions and events that have already occurred.

Based on its consideration of accounting policies that involve the most complex and subjective decisions and assessments, management has identified its most critical accounting policy to be that related to the allowance for estimated losses on loans/leases. The Company's allowance for estimated losses on loans/leases methodology incorporates a variety of risk considerations, both quantitative and qualitative in establishing an allowance for estimated loan/lease loss that management believes is appropriate at each reporting date. Quantitative factors include the Company's historical loss experience, delinquency and charge-off trends, collateral values, changes in nonperforming loans/leases, and other factors. Quantitative factors also incorporate known information about individual loans/leases, including borrowers' sensitivity to interest rate movements. Qualitative factors include the general economic environment in the Company's markets, including economic conditions throughout the Midwest, and in particular, the state of certain industries. Size and complexity of individual credits in relation to loan/lease structure, existing loan/lease policies and pace of portfolio growth are other qualitative factors that are considered in the methodology. Management may report a materially different amount for the provision for loan/lease losses in the statement of operations to change the allowance for estimated losses on loans/leases if its assessment of the above factors were different. This discussion and analysis should be read in conjunction with the Company's financial statements and the accompanying notes presented elsewhere herein, as well as the portion in the section entitled

Financial Condition of this Management's Discussion and Analysis that discusses the allowance for estimated losses on loans/leases. Although management believes the level of the allowance as of September 30, 2009 is adequate to absorb losses inherent in the loan/lease portfolio, a decline in local economic conditions, or other factors, could result in increasing losses that cannot be reasonably predicted at this time.

The Company's assessment of other-than-temporary impairment of its available for sale securities portfolio is another critical accounting policy as a result of the level of judgment required by management. Available for sale securities are evaluated to determine whether declines in fair value below their amortized cost are other-than-temporary. In estimating other-than-temporary impairment losses, management considers a number of factors including, but not limited to, (1) the length of time and extent to which the fair value has been less than amortized cost, (2) the financial condition and near-term prospects of the issuer, (3) the current market conditions, and (4) the intent of the Company to not sell the security or whether it is more-likely-than-not that the Company will be required to sell the security before its anticipated recovery. For the nine months ended September 30, 2009, management's evaluations determined that 11 publicly-traded equity securities owned by the Holding Company experienced declines in fair value that were other-than-temporary resulting in recognized losses totaling \$206 thousand. For the third quarter of 2009, management's evaluation determined that the declines in fair value below amortized cost for the remaining securities were temporary.

Table of Contents

Part I

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

RESULTS OF OPERATIONS

INTEREST INCOME

Interest income experienced an increase of \$987 thousand, including the one-time adjustment of \$1.3 million, from \$21.5 million for the quarter ended September 30, 2008 to \$22.5 million for the quarter ended September 30, 2009. The Company grew its interest-earnings assets as the average balance increased \$260.0 million, or 19%, from \$1.38 billion for the third quarter of 2008 to \$1.64 billion for the same quarter of 2009. Most notably, the average balance of the loan/lease portfolio increased 7%, and the average balance of the investment securities portfolio increased 41%. The impact of this growth on interest income was effectively offset as a result of the sharp decline in national and local market interest rates over the past year. The Company's average yield on interest earning assets decreased 76 basis points from 6.28% for the three months ended September 30, 2008 to 5.52% for the same period in 2009.

For the nine months ended September 30, 2009, the Company reported interest income of \$64.7 million, including the one-time adjustment of \$1.3 million, which is an increase from \$63.8 million for the first nine months of 2008. As mentioned above, the impact of significant growth in interest-earning assets on interest income was effectively offset by the sharp decline in national and local market interest rates over the past year.

INTEREST EXPENSE

Interest expense decreased \$1.1 million, or 11%, from \$9.8 million for the third quarter of 2008 to \$8.7 million for the third quarter of 2009. Although the Company saw an increase in the average balance of interest-bearing liabilities of \$170.9 million, or 14%, from the third quarter in 2008 to the third quarter in 2009, the impact of this increase on interest expense was more than offset by the decline in the average cost of interest bearing liabilities. Specifically, the Company's average cost of interest bearing liabilities was 2.45% for the third quarter of 2009, which was a decrease of 69 basis points when compared to 3.14% for the third quarter of 2008.

For the nine months ended September 30, 2009, the Company reported interest expense of \$26.7 million which is a decrease of \$4.0 million, or 13%, from \$30.7 million for the nine months ended September 30, 2008. The Company's ability to effectively manage the cost of interest-bearing liabilities more than offset the impact of increased volume on interest expense.

Table of Contents

Part I
Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

PROVISION FOR LOAN/LEASE LOSSES

The provision for loan/lease losses is established based on a number of factors including the Company's historical loss experience, delinquencies and charge-off trends, the local and national economy and risk associated with the loans/leases in the portfolio as described in more detail in the Critical Accounting Policies section.

The provision for loan/lease losses increased \$1.3 million from \$2.2 million for the third quarter of 2008 to \$3.5 million for the third quarter of 2009. For the nine-month comparative period, the provision for loan/lease losses increased \$8.3 million from \$4.5 million for 2008 to \$12.8 million for 2009. The increases are attributable to growth in loans/leases, continued degradation of specific commercial credits, and the Company's decision to increase the qualitative reserve factors applied to all loans within the reserve adequacy calculations for all of the subsidiary banks and the leasing company due to the continued uncertainty regarding the national economy and the impact on the Company's local markets.

The provision for loan/lease losses for the third quarter of 2009 of \$3.5 million was a decrease of \$1.4 million from \$4.9 million for the second quarter of 2009.

As a result, the Company's allowance for loan/lease losses to gross loans/leases increased to 1.82% at September 30, 2009 from 1.47% at December 31, 2008, and from 1.24% at September 30, 2008.

Other	1,588,293	1,491,681	96,612	6.5
Total non-interest income	\$ 11,105,109	\$ 10,379,321	\$ 725,788	7.0%

Trust department fees decreased \$62 thousand from the third quarter of 2008 to the third quarter of 2009, and decreased \$411 thousand for the nine months ended September 30, 2009 as compared to the same period of 2008. The majority of trust department fees are determined based on the value of the investments within the managed trusts.

With the national economic difficulties experienced over the past year, many of these investments experienced declines in market value.

Table of Contents

Part I

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

Gains on sales of loans, net, increased \$88 thousand for the third quarter of 2009 compared to the same quarter of 2008, and increased \$511 thousand for the first nine months of 2009 compared to the same period of 2008. This consists primarily of sales of residential mortgages. Loan origination and sales activity for these loan types has increased as a result of the reduction in interest rates and the resulting increase in residential mortgage refinancing transactions. The Company sells the majority of the residential mortgages it originates.

During the third quarter of 2009, the Company identified four securities with favorable market positions which were sold at pre-tax gains totaling \$719 thousand. For the nine months ended September 30, 2009, these gains were partially offset as the Company wrote down the value of 11 publicly-traded equity securities owned by the Holding Company which had experienced declines in fair value deemed to be other-than-temporary. The Company recognized losses in the amount of \$206 thousand during the first six months of 2009 for these write-downs.

Investment advisory and management fees decreased \$107 thousand, or 22%, for the third quarter of 2009 compared to the third quarter of 2008. Additionally, for the nine months ended September 30, 2009, investment advisory and management fees experienced a decrease of \$490 thousand, or 31%, when compared to the same period of 2008.

Similar to trust department fees, these fees are determined based on the value of the investments managed. With the economic recession, many of these investments have experienced declines in market value.

FDIC and other insurance	3,325,382	971,037	2,354,345	242.5
Loan/lease expense	1,484,707	501,589	983,118	196.0
Other	753,339	681,579	71,760	10.5
Total non-interest expense	\$ 35,794,007	\$ 31,132,507	\$ 4,661,500	15.0%

Salaries and employee benefits, which is the largest component of non-interest expense, increased \$150 thousand, or 2%, from the third quarter of 2008 to the third quarter of 2009, and increased \$1.2 million, or 6%, for the nine months ended September 30, 2009 as compared to the same period of 2008. These modest increases are largely the result of customary annual salary and benefits increases for the majority of the Company's employees. The Company's

employee base has stabilized over the past year as full time equivalents (FTEs) have remained relatively flat from 349 as of September 30, 2008 to 350 as of June 30, 2009 and 343 as of September 30, 2009.

Table of Contents

Part I

Item 2

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS** continued

FDIC and other insurance expense increased \$897 thousand for the third quarter of 2009 compared to the third quarter of 2008, and increased \$2.4 million for the nine months ended September 30, 2009 compared to the same period of 2008. The reasons for these increases were twofold and both related to expenses for FDIC insurance. First, the FDIC required a one-time special assessment from all insured depository institutions, including the subsidiary banks, for the second quarter of 2009 which amounted to \$794 thousand of additional expense. Second, the remaining increase was primarily the result of the FDIC's new premium pricing system and the base assessment methodology for deposit insurance coverage. Management expects FDIC assessments will continue to be higher than historical levels.

Loan/lease expense increased \$533 thousand from the third quarter of 2008 to the third quarter of 2009, and increased \$983 thousand for the nine months ended September 30, 2009, compared to the same period of 2008. In conjunction with the increase in nonperforming assets over the past year, the Company has incurred increased carrying costs and workout expenses related to these nonperforming assets.

INCOME TAXES

The provision for income taxes from continuing operations totaled \$563 thousand for the third quarter of 2009 compared to \$613 thousand for the third quarter of 2008. For the nine months ended September 30, 2009, the provision for income taxes from continuing operations was a benefit of \$561 thousand compared to an expense of \$2.2 million for the same period of 2008. The decreases were the result of a decrease in income from continuing operations before income taxes and the related increase in the proportionate share of tax-exempt income to total income.

Part I
Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

FINANCIAL CONDITION

Total assets of the Company increased by \$143.7 million, or 9%, to \$1.75 billion at September 30, 2009 from \$1.61 billion at December 31, 2008. The growth resulted primarily from the net increase in the securities available for sale portfolio and the loan/lease portfolio, funded by increases in deposits, short-term and other borrowings, and the issuance of preferred stock.

The composition of the Company's securities portfolio is managed to meet liquidity needs while prioritizing the impact on asset-liability position and maximizing return. Securities increased by \$89.8 million, or 35%, to \$345.9 million at September 30, 2009 from \$256.1 million at December 31, 2008. The increase was the result of increased collateral needs for customer and structured wholesale repurchase agreements at the subsidiary banks. The Company's securities available for sale portfolio consists largely of U.S. government sponsored agency securities. Mortgage-backed securities represents less than 1% of the entire portfolio as of September 30, 2009. See Note 3 for additional information regarding the Company's securities portfolio.

Gross loans/leases receivable experienced an increase of \$27.0 million, or 2%, from \$1.21 billion at December 31, 2008 to \$1.24 billion at September 30, 2009. Consistent with the intention of the TCPP, the Company is committed to providing transparency surrounding its utilization of the proceeds from participation in the TCPP including its lending activities and support of the existing communities served. The mix of the loan/lease types within the Company's loan/lease portfolio is presented in the table on the following page along with a rollforward of activity for the nine months ended September 30, 2009.

The majority of residential real estate loans originated by the Company were sold on the secondary market to avoid the interest rate risk associated with long term fixed rate loans. Loans originated for this purpose were classified as held for sale and are included in the residential real estate loans below.

Table of ContentsPart I
Item 2MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

Changes in the allowance for estimated losses on loans/leases for the three and nine months ended September 30, 2009 and 2008 are presented as follows:

	Three months ended		Nine months ended	
	September 30, 2009	September 30, 2008	September 30, 2009	September 30, 2008
	(dollars in thousands)		(dollars in thousands)	
Balance, beginning	\$ 22,495	\$ 13,259	\$ 17,809	\$ 11,315
Provisions charged to expense	3,527	2,154	12,761	4,494
Loans/leases charged off	(3,596)	(959)	(8,966)	(2,057)
Recoveries on loans/leases previously charged off	214	42	1,036	744
Balance, ending	\$ 22,640	\$ 14,496	\$ 22,640	\$ 14,496

The allowance for estimated losses on loans/leases was \$22.6 million at September 30, 2009 compared to \$17.8 million at December 31, 2008, an increase of \$4.8 million, or 27%. The allowance for estimated losses on loans/leases was determined based on factors that included the overall composition of the loan/lease portfolio, types of loans/leases, past loss experience, loan/lease delinquencies, potential substandard and doubtful credits, economic conditions, collateral positions, governmental guarantees and other factors that, in management's judgment, deserved evaluation. To ensure that an adequate allowance was maintained, provisions were made based on a number of factors, including the increase in loans/leases and a detailed analysis of the loan/lease portfolio. The loan/lease portfolio was reviewed and analyzed monthly with specific detailed reviews completed on all loans risk-rated less than fair quality and carrying aggregate exposure in excess of \$100 thousand. The adequacy of the allowance for estimated losses on loans/leases was monitored by the loan review staff, and reported to management and the board of directors. Due to the continued uncertainty regarding the national economy and the impact on local markets, the Company increased the qualitative reserve factors applied to all loans within the reserve adequacy calculations for all of the subsidiary banks and the leasing company. As a result of these qualitative reserve increases, as well as increased specific reserves on certain loans in the portfolio, the Company's allowance for estimated losses on loans/leases to gross loans/leases increased to 1.82% at September 30, 2009 from 1.47% at December 31, 2008.

Although management believed that the allowance for estimated losses on loans/leases at September 30, 2009 was at a level adequate to absorb losses on existing loans/leases, there can be no assurance that such losses will not exceed the estimated amounts or that the Company will not be required to make additional provisions for loan/lease losses in the future. Unpredictable future events could adversely affect cash flows for both commercial and individual borrowers, which could cause the Company to experience increases in problem assets, delinquencies and losses on loans/leases, and require further increases in the provision. Asset quality is a priority for the Company and its subsidiaries. The ability to grow profitably is in part dependent upon the ability to maintain that quality. The Company continually focuses efforts at its subsidiary banks and leasing company with the intention to improve the overall quality of the Company's loan/lease portfolio.

Net charge-offs for the nine months ended September 30, 2009 were \$7.9 million which is an increase of \$6.6 million from \$1.3 million for the same period of 2008.

Table of ContentsPart I
Item 2MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

The table below presents the amounts of nonperforming assets.

	September 30, 2009	As of June 30, 2009 (dollars in thousands)	December 31, 2008
Nonaccrual loans/leases *	\$ 25,400	\$ 29,420	\$ 20,828
Accruing loans/leases past due 90 days or more	1,503	2,321	222
Other real estate owned	4,994	3,505	3,857
	\$ 31,897	\$ 35,246	\$ 24,907

* Includes the government guaranteed portion for any nonaccrual loans that have a guarantee. The Company previously reported nonaccrual loans/leases excluding the government guaranteed portion. With this report, the Company adjusted the amounts in the prior periods presented to reflect a consistent comparison. The adjustments did not have a significant impact on loan covenant compliance or

other previously
presented
disclosures.

The Company experienced a decline in nonperforming assets of \$3.4 million, or 10%, from \$35.3 million as of June 30, 2009 to \$31.9 million as of September 30, 2009. The level of nonperforming assets remains elevated compared to December 31, 2008 and historical levels. At September 30, 2009, nonperforming assets to total assets was 1.82% which was a decrease from 2.07% as of June 30, 2009, and an increase from 1.48% as of December 31, 2008. The large majority of the nonperforming assets are commercial loans that have been placed on nonaccrual status. Management has thoroughly reviewed these loans and has provided specific reserves as appropriate. As previously noted, the Company's allowance for estimated losses on loans/leases to gross loans/leases increased to 1.82% at September 30, 2009 from 1.47% at December 31, 2008.

Table of ContentsPart I
Item 2MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

Deposits increased by \$37.8 million, or 4%, to \$1.10 billion at September 30, 2009 from \$1.06 billion at December 31, 2008. The table below presents the composition of the Company's deposit portfolio.

	September 30, 2009	As of December 31, 2008 (dollars in thousands)
Non-interest bearing demand deposits	\$ 189,387	\$ 161,126
Interest bearing demand deposits	400,713	355,990
Savings deposits	32,130	31,756
Time deposits	400,742	386,097
Brokered time deposits	73,796	123,990
	\$ 1,096,768	\$ 1,058,959

The Company experienced an increase in demand deposits totaling \$73.0 million, or 14%, from \$517.1 million as of December 31, 2008 to \$590.1 million as of September 30, 2009. This increase and the Company's overall strong liquidity position has allowed the Company to reduce the level of brokered time deposits which have decreased \$50.2 million, or 40%, over the past three quarters.

Short-term borrowings increased \$12.7 million, or 13%, from \$101.5 million at December 31, 2008 to \$114.2 million at September 30, 2009. The subsidiary banks offer short-term repurchase agreements to some of their significant customers. Also, the subsidiary banks purchase federal funds for short-term funding needs from the Federal Reserve Bank or from their correspondent banks. Short-term borrowings were comprised of customer repurchase agreements of \$101.4 million and \$68.1 million at September 30, 2009 and December 31, 2008, respectively, as well as federal funds purchased from correspondent banks of \$12.8 million at September 30, 2009 and \$33.4 million at December 31, 2008.

FHLB advances decreased by \$5.8 million, or 3%, to \$212.9 million at September 30, 2009 from \$218.7 million at December 31, 2008. As a result of their memberships in either the FHLB of Des Moines or Chicago, the subsidiary banks have the ability to borrow funds for short or long-term purposes under a variety of programs. FHLB advances are utilized for loan matching as a hedge against the possibility of rising interest rates, and when these advances provide a less costly or more readily available source of funds than customer deposits.

Other borrowings increased \$64.5 million, or 85%, from \$75.6 million at December 31, 2008 to \$140.1 million at September 30, 2009. Other borrowings consist largely of structured wholesale repurchase agreements which are utilized as an alternative funding source to FHLB advances and customer deposits. During the second quarter of 2009, the subsidiary banks executed \$65.0 million of long-term wholesale structured repurchase agreements with embedded interest rate caps in an effort to reduce long-term interest rate risk in a potential rising rate environment. See Note 4 for additional information regarding the Company's other borrowings.

Table of Contents

Part I

Item 2

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS** continued

Stockholders' equity increased \$36.0 million from \$92.5 million as of December 31, 2008 to \$128.5 million as of September 30, 2009. The issuance of preferred stock and a common stock warrant as part of the Company's participation in the TCPP contributed \$38.1 million to stockholders' equity. Refer to Financial Statement Note 9 for detail of the issuance of this preferred stock. Net income attributable to QCR Holdings, Inc. of \$853 thousand for the first nine months of 2009 increased retained earnings. Declaration and accrual of common and preferred stock dividends, including accretion of the discount on preferred stock, totaling \$3.0 million reduced retained earnings. Specifically, the Company declared a common stock dividend in the amount of \$181 thousand on April 21, 2009. Additionally, \$804 thousand represented the first three quarterly dividends of 2009 on the outstanding shares of Series B Non-Cumulative Perpetual Preferred Stock at a stated rate of 8.00%, and \$534 thousand was the amount of the first three quarterly dividends of 2009 on the outstanding shares of Series C Non-Cumulative Perpetual Preferred Stock at a stated rate of 9.50%. For the Series D Cumulative Perpetual Preferred Stock, dividends at a stated rate of 5.00% were declared and accrued through September 30, 2009 in the amount of \$1.2 million, and the discount accreted through September 30, 2009 in the amount of \$269 thousand. Additionally, the available for sale portion of the securities portfolio experienced a decrease in fair value of \$590 thousand, net of tax, for the first three quarters of 2009 as a result of the increase in long-term interest rates.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity measures the ability of the Company to meet maturing obligations and its existing commitments, to withstand fluctuations in deposit levels, to fund its operations, and to provide for customers' credit needs. The Company monitors liquidity risk through contingency planning stress testing on a regular basis. The Company seeks to avoid over concentration of funding sources and to establish and maintain contingent funding facilities that can be drawn upon if normal funding sources become unavailable. One source of liquidity is cash and short-term assets, such as interest-bearing deposits in other banks and federal funds sold, which totaled \$83.4 million as of September 30, 2009. This was an increase of \$27.1 million, or 48%, from \$56.3 million as of December 31, 2008.

The Company has a variety of sources of short-term liquidity available to it, including federal funds purchased from correspondent banks, FHLB advances, structured wholesale repurchase agreements, brokered certificates of deposit, lines of credit, borrowing at the Federal Reserve Discount Window, sales of securities available for sale, and loan participations or sales. At September 30, 2009, the subsidiary banks had 20 lines of credit totaling \$161.7 million, of which \$32.2 million was secured and \$129.5 million was unsecured. At September 30, 2009, all of the \$161.7 million was available. Additionally, the Company has a single \$20.0 million secured revolving credit note with a maturity date of April 2, 2010. As of September 30, 2009, the Company had \$15.0 million available as the note carried an outstanding balance of \$5.0 million.

Table of ContentsPart I
Item 2MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

Throughout its history, the Company has secured additional capital through various resources including approximately \$36.1 million through the issuance of trust preferred securities and \$58.2 million through the issuance of preferred stock, of which \$38.1 million was issued on February 13, 2009 as part of the Company's participation in the TCPP. The board of directors and management believed it was prudent to participate in the TCPP because (1) the cost of capital under this program was significantly lower than the cost of capital otherwise available to the Company at the time, and (2) despite being well-capitalized, additional capital under this program provided the Company additional capacity to meet future capital needs that may arise in this current uncertain economic environment. See Financial Statement Note 9 for additional information on the issuance of TCPP preferred stock.

The Company and the subsidiary banks are subject to various regulatory capital requirements administered by the federal banking agencies. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the subsidiary banks must meet specific capital guidelines that involve quantitative measures of their assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The most recent notification from the FDIC categorized the subsidiary banks as well capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since the notifications that management believes have changed each institution's categories. The Company and the subsidiary banks' actual capital amounts and ratios as of September 30, 2009 and December 31, 2008 are presented in the following tables (dollars in thousands):

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS continued

SPECIAL NOTE CONCERNING FORWARD-LOOKING STATEMENTS

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995. This document (including information incorporated by reference) contains, and future oral and written statements of the Company and its management may contain, forward-looking statements, within the meaning of such term in the Private Securities Litigation Reform Act of 1995, with respect to the financial condition, results of operations, plans, objectives, future performance and business of the Company. Forward-looking statements, which may be based upon beliefs, expectations and assumptions of the Company's management and on information currently available to management, are generally identifiable by the use of words such as believe, expect, anticipate, bode, predict, suggest, propose, appear, plan, intend, estimate, may, will, would, could, should, likely, or other similar expressions. Statements in this document, including forward-looking statements, speak only as of the date they are made, and the Company undertakes no obligation to update any statement in light of new information or future events. The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. The factors which could have a material adverse effect on the Company's operations and future prospects are detailed in the Risk Factors section included under Item 1.A. of Part I of the Company's Form 10-K and Item 1.A. of Part II of this report. In addition to the risk factors described in those sections, there are other factors that may impact any public company, including the Company, which could have a material adverse effect on the Company's operations and future prospects. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

Item 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company, like other financial institutions, is subject to direct and indirect market risk. Direct market risk exists from changes in interest rates. The Company's net income is dependent on its net interest income. Net interest income is susceptible to interest rate risk to the degree that interest-bearing liabilities mature or reprice on a different basis than interest-earning assets. When interest-bearing liabilities mature or reprice more quickly than interest-earning assets in a given period, a significant increase in market rates of interest could adversely affect net interest income. Similarly, when interest-earning assets mature or reprice more quickly than interest-bearing liabilities, falling interest rates could result in a decrease in net interest income.

In an attempt to manage the Company's exposure to changes in interest rates, management monitors the Company's interest rate risk. Each subsidiary bank has an asset/liability management committee of the board of directors that meets quarterly to review the bank's interest rate risk position and profitability, and to make or recommend adjustments for consideration by the full board of each bank. Internal asset/liability management teams consisting of members of the subsidiary banks' management meet weekly to manage the mix of assets and liabilities to maximize earnings and liquidity and minimize interest rate and other risks. Management also reviews the subsidiary banks' securities portfolios, formulates investment strategies, and oversees the timing and implementation of transactions to assure attainment of the board's objectives in the most effective manner. Notwithstanding the Company's interest rate risk management activities, the potential for changing interest rates is an uncertainty that can have an adverse effect on net income.

In adjusting the Company's asset/liability position, the board of directors and management attempt to manage the Company's interest rate risk while maintaining or enhancing net interest margins. At times, depending on the level of general interest rates, the relationship between long-term and short-term interest rates, market conditions and competitive factors, the board of directors and management may decide to increase the Company's interest rate risk position somewhat in order to increase its net interest margin. The Company's results of operations and net portfolio values remain vulnerable to increases in interest rates and to fluctuations in the difference between long-term and short-term interest rates.

Item 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

One method used to quantify interest rate risk is a short-term earnings at risk summary, which is a detailed and dynamic simulation model used to quantify the estimated exposure of net interest income to sustained interest rate changes. This simulation model captures the impact of changing interest rates on the interest income received and interest expense paid on all interest sensitive assets and liabilities reflected on the Company's consolidated balance sheet. This sensitivity analysis demonstrates net interest income exposure over a one year horizon, assuming no balance sheet growth and a 200 basis point upward and a 200 basis point downward shift in interest rates, where interest-bearing assets and liabilities reprice at their earliest possible repricing date. The model assumes a parallel and pro rata shift in interest rates over a twelve-month period. Application of the simulation model analysis at June 30, 2009 demonstrated a 2.80% decrease in net interest income with a 200 basis point increase in interest rates. Due to the status of the current interest rate environment, consideration of any downward shift is not realistic; therefore, the Company didn't formally quantify any risk for downward shifts in interest rates. The simulation is within the board-established policy limits of a 10% decline in value.

Interest rate risk is considered to be one of the most significant market risks affecting the Company. For that reason, the Company engages the assistance of a national consulting firm and its risk management system to monitor and control the Company's interest rate risk exposure. Other types of market risk, such as foreign currency exchange rate risk and commodity price risk, do not arise in the normal course of the Company's business activities.

Item 4

CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. An evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Exchange Act) as of September 30, 2009. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports filed and submitted under the Exchange Act was recorded, processed, summarized and reported as and when required.

Changes in Internal Control over Financial Reporting. There have been no significant changes to the Company's internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1 **Legal Proceedings**

There are no material pending legal proceedings to which the Company or any of its subsidiaries is a party other than ordinary routine litigation incidental to their respective businesses.

Item 1.A. **Risk Factors**

In addition to the risk factors previously disclosed in Part I, Item 1.A. Risk Factors in the Company's 2008 Annual Report on Form 10-K, the Company has identified two risk factors below that could materially affect the Company's business, financial condition, or future operating results.

Increases in FDIC insurance premiums may have a material adverse effect on the Company's earnings.

Recently, higher levels of bank failures have dramatically increased resolution costs of the FDIC and depleted the Deposit Insurance Fund. In addition, the FDIC instituted two temporary programs in 2008 to further insure customer deposits at FDIC-member banks through December 31, 2009: deposit accounts are now insured up to \$250,000 per customer (up from \$100,000) and non-interest bearing transactional accounts are fully insured (unlimited coverage). These programs have placed additional stress on the Deposit Insurance Fund. On May 20, 2009, the FDIC extended the \$250,000 per customer insurance limit through December 31, 2013. On January 1, 2014, the standard insurance amount will return to \$100,000 per depositor for all accounts except for certain retirement accounts which will remain insured up to \$250,000 per depositor.

In order to maintain a strong funding position and restore reserve ratios of the Deposit Insurance Fund, the FDIC increased assessment rates of insured institutions uniformly by 7 cents for every \$100 of deposits beginning with the first quarter of 2009, with additional changes effective April 1, 2009, which required riskier institutions to pay a larger share of premiums by factoring in rate adjustments based on secured liabilities and unsecured debt levels.

On May 22, 2009, the FDIC adopted a final rule that imposed a special assessment on all insured depository institutions, which was collected on September 30, 2009. The final rule also permits the FDIC to impose additional special assessments, if necessary. The latest possible date for imposing additional special assessments under the final rule is December 31, 2009, with collection on March 30, 2010.

Part II

PART II OTHER INFORMATION continued

On September 29, 2009, the FDIC Board of Directors adopted a notice of proposed rulemaking and request for comment that would require insured depository institutions to prepay their quarterly risk-based assessments for the fourth quarter of 2009 and full years 2010 through 2012 on December 29, 2009. This action was taken in connection with the adoption of an Amended Restoration Plan to meet immediate liquidity needs and return the Deposit Insurance Fund to its federally mandated level, without imposing additional special assessments. Further, the prepayment of assessments does not prevent the FDIC from changing assessment rates or revising the risk-based assessment system in future periods.

The Company is generally unable to control the amount of premiums that it is required to pay for FDIC insurance. If there are additional bank or financial institution failures, the Company may be required to pay even higher FDIC premiums than the recently increased levels. Additionally, the FDIC may make material changes to the calculation of the prepaid assessment from the current proposal. Any future changes in the calculation or assessment of FDIC insurance premiums may have a material adverse effect on the Company's results of operations and financial condition.

The limitations on bonuses, retention awards, severance payments, and incentive compensation contained in ARRA may adversely affect the Company's ability to retain its key employees.

For so long as any of the equity securities the Company issued to the Treasury under the TCPP remain outstanding, ARRA restricts bonuses, retention awards, severance payments, and other incentive compensation payable to the Company's five senior executive officers and up to the next 20 highest paid employees. These limitations may adversely affect the Company's ability to recruit and retain key employees, including its executive officers, especially if the Company is competing for talent against institutions that are not subject to the same limitations.
