Generally, when we refer to the prospectus, we are referring to both parts of this document combined. If information in the prospectus supplement differs from information in the accompanying prospectus, you should rely on the information in this prospectus supplement.

Except as used in Description of the Notes, as the context otherwise requires, or as otherwise specified or used in this prospectus supplement or the accompanying prospectus, the terms we, our, us, the company, JCI and Johnson Controls refer to Johnson Controls, Inc. and its subsidiaries. References in this prospectus supplement to U.S. dollars, U.S. \$ or \$ are to the currency of the United States of America.

This prospectus supplement and the accompanying prospectus do not constitute, and may not be used in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

You should not consider any information in this prospectus supplement or the accompanying prospectus to be investment, legal or tax advice. You should consult your own counsel, accountant and other advisors for legal, tax, business, financial and related advice regarding the purchase of the notes. We are not making any representation to you regarding the legality of an investment in the notes by you under applicable investment or similar laws.

You should read and consider all information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus before making your investment decision.

A detailed discussion of risks and uncertainties that could cause actual results and events to differ materially from such

Certain Covenants

The indenture governing the notes will, among other things, limit our and our subsidiaries ability to:

enter into certain mergers, consolidations and transfers of substantially all of our assets.

Table of Contents

The above restrictions are subject to significant exceptions. See Description of the Debt Securities Covenants Applicable to Senior Debt Securities and Merger in the accompanying prospectus.

Use of Proceeds

We will use the net proceeds from the sale of the notes, which will be approximately \$ million, after deducting underwriting discounts and commissions and our offering expenses for general corporate purposes, including to repay short-term indebtedness that we have incurred to finance working capital requirements. See Use of Proceeds.

The notes will be issued only in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof.

Form of Notes

We will issue the notes in the form of one or more fully registered global notes registered in the name of the nominee of The Depository Trust Company (DTC). Investors may elect to hold the interests in the global notes through any of DTC, Clearstream Luxembourg or the Euroclear System, as described under the heading Description of the Notes Delivery and Form.

Further Issues

We may, without the consent of the holders, reopen the notes and issue additional notes that have the same ranking, interest rate, maturity date and other terms as the notes being offered by this prospectus supplement (except for the issue date, the public offering price and, in some cases, the first interest payment date), as described under Description of the Notes Principal Amount; Maturity. These additional notes, together with the notes offered by this prospectus supplement, would constitute a single series of debt securities under the indenture.

Risk Factors

You should consider carefully all the information set forth and incorporated by reference in this prospectus supplement and the accompanying prospectus and, in particular, you should evaluate the specific factors set forth under Risk Factors beginning on page S-4 of this prospectus supplement before deciding whether to invest in the notes.

RISK FACTORS

Investing in the notes involves a high degree of risk. In addition to the other information contained in this prospectus supplement, the accompanying prospectus and the information incorporated by reference herein and therein, you should consider carefully the following factors relating to us and the notes before making an investment in the notes offered hereby. If any of the following events actually occur, our business, results of operations, financial condition, cash flows or prospects could be materially adversely affected, which in turn could adversely affect the trading price of the notes. You may lose all or part of your original investment.

Risks Related to the Notes

The notes are effectively subordinated to any secured debt and any liabilities of our subsidiaries.

The notes will rank senior in right of payment to existing and future indebtedness that is expressly subordinated in right of payment to the notes; equal in right of payment to our existing and future indebtedness that is not so subordinated; junior in right of payment to any future secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness and other liabilities of our subsidiaries. In the event of our bankruptcy, liquidation, reorganization or other winding up, our assets that secure debt ranking senior or equal in right of payment to the notes will be available to pay obligations on the notes only after any secured debt has been repaid in full from these assets. There may not be sufficient assets remaining to pay amounts due on any or all of the notes then outstanding. The indenture governing the notes does not prohibit us from incurring additional indebtedness, nor does it prohibit any of our subsidiaries from incurring additional liabilities. The terms of the indenture limit our ability to secure additional debt without also securing the notes, to enter into sale and leaseback transactions and to transfer certain of our assets to unrestricted subsidiaries. However, these limitations are subject to numerous exceptions. See **Description of the Debt Securities Covenants Applicable to Senior Debt Securities** in the accompanying prospectus.

As of December 31, 2009, we had \$3.3 billion of outstanding indebtedness on a consolidated basis and our subsidiaries had outstanding indebtedness of \$0.1 billion. After giving effect to the issuance of the notes, and the use of proceeds therefrom, our total consolidated indebtedness would have been \$ billion as of December 31, 2009.

The notes are our obligations only, and a portion of our operations are conducted through, and a portion of our consolidated assets are held by, our subsidiaries.

The notes are our obligations exclusively and are not guaranteed by any of our subsidiaries. A portion of our consolidated assets are held by our subsidiaries. Accordingly, our ability to service our debt, including the notes, depends partially on the results of operations of our subsidiaries and upon the ability of such subsidiaries to provide us with cash, whether in the form of dividends, loans or otherwise, to pay amounts due on our obligations, including the notes. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to make payments on the notes or to make any funds available for that purpose. In addition, dividends, loans or other distributions to us from such subsidiaries may be subject to contractual and other restrictions and are subject to other business considerations.

Servicing our debt requires a significant amount of cash, and we may not have sufficient cash flow from our business to pay our substantial debt.

Our ability to make scheduled payments of the principal of, to pay interest on or to refinance our indebtedness, including the notes, depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control. Our business may not continue to generate cash flow from operations in the future sufficient to service our debt and make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as selling assets, restructuring debt or obtaining additional equity capital on terms that may be onerous or highly dilutive. Our ability to refinance our indebtedness will depend on the capital markets and our financial condition at

S-4

Table of Contents

such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on our debt obligations.

The notes do not restrict our ability to incur additional debt or prohibit us from taking other action that could negatively impact holders of the notes.

We are not restricted under the terms of the indenture or the notes from incurring additional indebtedness. The terms of the indenture limit our ability to secure additional debt without also securing the notes, to enter into sale and leaseback transactions and to transfer certain of our assets to unrestricted subsidiaries. However, these limitations are subject to numerous exceptions. See Description of the Debt Securities Covenants Applicable to Senior Debt Securities in the accompanying prospectus. In addition, the notes do not require us to achieve or maintain any minimum financial results relating to our financial position or results of operations. Our ability to recapitalize, incur additional debt, secure existing or future debt or take a number of other actions that are not limited by the terms of the indenture and the notes, including repurchasing subordinated indebtedness or common stock or to transfer assets to our parent if we were to form a holding company, could have the effect of diminishing our ability to make payments on the notes when due, causing a loss in the trading value of your notes, if any, and increasing the risk that the credit rating of the notes is lowered or withdrawn.

We may not have sufficient cash to repurchase the notes upon the occurrence of a Change of Control Triggering Event.

As described under Description of the Notes Offer to Repurchase upon Change of Control Triggering Event, we will be required to offer to repurchase all of the notes upon the occurrence of a Change of Control Triggering Event. We may not, however, have sufficient cash at that time or have the ability to arrange necessary financing on acceptable terms to repurchase the notes under such circumstances. If we are unable to repurchase the notes upon the occurrence of a Change of Control Triggering Event, it would result in an event of default under the indenture. A default under the indenture could also lead to a default under the agreements governing our existing or future indebtedness. If the repayment of the related indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness and repurchase the notes.

Our financial performance and other factors could adversely impact our ability to make payments on the notes.

Our ability to make scheduled payments with respect to our indebtedness, including the notes, will depend on our financial and operating performance, which, in turn, is subject to prevailing economic conditions and to financial, business and other factors beyond our control.

We cannot assure you that an active trading market will develop for the notes.

Prior to this offering, there has been no trading market for the notes. We do not intend to apply for listing of the notes on any securities exchange or to arrange for quotation on any interdealer quotation system. We have been informed by the underwriters that they intend to make a market in the notes after the offering is completed. However, the underwriters may cease their market-making at any time without notice. In addition, the liquidity of the trading market in the notes, and the market price quoted for the notes, may be adversely affected by changes in the overall market for this type of security and by changes in our financial performance or prospects or in the prospects for companies in our industry generally. As a result, we cannot assure you that an active trading market will develop for the notes. If an active trading market does not develop or is not maintained, the market price and liquidity of the notes may be adversely affected. In that case you may not be able to sell your notes at a particular time or you may not be able to sell your notes at a favorable price.

Table of Contents

Ratings of the notes may not reflect all risks of an investment in the notes.

The notes will be rated by at least one nationally recognized statistical rating organization. The ratings of our notes will primarily reflect our financial strength and will change in accordance with the rating of our financial strength. Any rating is not a recommendation to purchase, sell or hold any particular security, including the notes. These ratings do not comment as to market price or suitability for a particular investor. In addition, ratings at any time may be lowered or withdrawn in their entirety. The ratings of the notes may not reflect the potential impact of all risks related to structure and other factors on any trading market for, or trading value of, your notes.

Our management will have broad discretion in allocating the net proceeds of this offering.

Our management has significant flexibility in applying the net proceeds we expect to receive in this offering. We intend to use the net proceeds from this offering for general corporate purposes, including to repay short-term indebtedness that we have incurred to fund working capital requirements. Because the net proceeds are not required to be allocated to any specific investment or transaction, you cannot determine at this time the value or propriety of our application of the proceeds, and you may not agree with our decisions. In addition, our use of the proceeds from this offering may not yield a significant return or any return at all. The failure by our management to apply these funds effectively could have a negative impact on our business, results of operations or financial condition. See Use of Proceeds.

An increase in market interest rates could result in a decrease in the value of the notes.

In general, as market interest rates rise, notes bearing interest at a fixed rate generally decline in value because the premium, if any, over market interest rates will decline. Consequently, if you purchase notes and market interest rates increase, the market value of your notes may decline. We cannot predict the future level of market interest rates.

If you are able to resell your notes, many other factors may affect the price you receive, which may be lower than you believe to be appropriate.

If you are able to resell your notes, the price you receive will depend on many other factors that may vary over time, including:

- our financial performance;
- the amount of indebtedness we have outstanding;
- the market for similar securities;
- market interest rates;
- the liquidity of the market in which the notes trade;
- the redemption and repayment features of the notes to be sold; and
- the time remaining to maturity of your notes.

As a result of these factors, you may only be able to sell your notes at prices below those you believe to be appropriate, including prices below the price you paid for them.

Table of Contents**USE OF PROCEEDS**

We will use the net proceeds that we receive from the sale of the notes, which will be approximately \$, after deducting underwriting discounts and commissions and our offering expenses, for general corporate purposes, including the repayment of short-term indebtedness that we have incurred to finance working capital requirements. As of December 31, 2009, we had various forms of short-term indebtedness that had a weighted average maturity of 45 days and carried a weighted average annual interest rate of 1.25%.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of earnings to fixed charges for us for each year in the five year period ended September 30, 2009, and for the three months ended December 31, 2009.

(a) Total earnings were insufficient to cover fixed charges by 89.2 million in the year ended September 30, 2009.

For the purposes of computing this ratio, earnings consist of income from continuing operations before income taxes, minority interest in earnings or losses of consolidated subsidiaries and income from equity affiliates plus

(a) amortization of previously capitalized interest, (b) distributed income from equity affiliates and (c) fixed charges, minus interest capitalized during the period. Fixed charges consist of (i) interest incurred and amortization of debt expense plus (ii) the portion of rent expense representative of the interest factor.

We did not have any preferred stock outstanding and we did not pay or accrue any preferred stock dividends during the periods presented above.

DESCRIPTION OF THE NOTES

General

For purposes of the accompanying prospectus, the notes are Senior Debt Securities. We refer you to the Description of the Debt Securities in the accompanying prospectus, which you should read carefully. The following description of the particular terms of the notes offered by this prospectus supplement supplements, and to the extent inconsistent with the description in the accompanying prospectus replaces, that description. The notes will be issued under an Indenture, dated as of January 17, 2006, which we refer to as the indenture, between us and U.S. Bank National Association (as successor trustee to JPMorgan Chase Bank). U.S. Bank National Association will be the trustee for the notes. Except as otherwise defined in this prospectus supplement, capitalized definitional terms used in this prospectus supplement have the meanings specified in the accompanying prospectus. The notes will be issued in the form of one or more fully registered global securities which will be deposited with, or on behalf of, The Depository Trust Company, or DTC, as the depository, and registered in the name of the depository's nominee. See Delivery and Form below and Description of the Debt Securities Book-Entry, Delivery and Settlement in the accompanying prospectus.

Principal Amount; Maturity

We will issue a total of \$ initial principal amount of notes that will mature on , . If the date of maturity falls on a day that is not a business day, the related payment of principal and interest will be made on the next business day as if it were made on the date such payment was due, and no interest will accrue on the amounts so payable for the period from and after such date to the next business day. The notes are issuable only in registered form without coupons in denominations of \$2,000 and any integral multiples of \$1,000 in excess thereof. We may, without the consent of the holders, reopen the notes and issue additional notes that have the same ranking, interest rate, maturity date and other terms as the notes being offered by this prospectus supplement (except for the issue date, the public offering price and, in some cases, the first interest payment date). These additional notes, together with the notes offered by this prospectus supplement, would constitute a single series of debt securities under the indenture.

Interest

The notes will bear interest at an annual rate of % per year. Interest will accrue from , 2010. Interest is payable semiannually on and of each year to the holders of record at the close of business on and (whether or not that date is a business day), as the case may be, immediately preceding such interest payment date. Interest on the notes will be computed on the basis of a 360-day year of twelve 30-day months. The first interest payment date will be , 2010. If any interest payment date is not a business day, the payment of interest will be made on the next succeeding business day and no additional interest will accrue.

Optional Redemption

The notes are redeemable, in whole at any time or in part from time to time, at our option at a redemption price equal to the greater of:

- (1) 100% of the principal amount of the notes being redeemed; and
- (2) the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed (not including any portion of such payments of interest accrued to the date of redemption), discounted to the

date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable Treasury Rate (as defined below), plus basis points,

plus, in each case, accrued and unpaid interest on the notes being redeemed to the redemption date. Notwithstanding the foregoing, installments of interest on the notes that are due and payable on interest payment dates falling on or prior to a redemption date will be payable on the interest payment date to the

registered holders as of the close of business on the relevant record date according to the notes and the indenture.

Comparable Treasury Issue means the U.S. Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term (the **Remaining Life**) of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such notes.

Comparable Treasury Price means, with respect to any redemption date, (1) the average of five Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (2) if the Independent Investment Banker obtains fewer than five such Reference Treasury Dealer Quotations, the average of all such quotations.

Independent Investment Banker means one of the Reference Treasury Dealers appointed by us.

Reference Treasury Dealer means (1) each of Banc of America Securities LLC, Citigroup Global Markets Inc. and Barclays Capital Inc. (or their respective affiliates that are primary U.S. Government securities dealers); provided, however, that if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a **Primary Treasury Dealer**), we will substitute therefor another Primary Treasury Dealer, and (2) any other Primary Treasury Dealer selected by us after consultation with the Independent Investment Banker.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

Treasury Rate means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date. The Treasury Rate will be calculated on the third business day preceding the redemption date.

Holders of notes to be redeemed will receive notice thereof by first-class mail at least 30 and not more than 60 days prior to the date fixed for redemption. If fewer than all of the notes are to be redeemed, the trustee will select, not more than 60 days prior to the redemption date, the particular notes or portions thereof for redemption from the outstanding not previously called by such method as the trustee deems fair and appropriate.

Sinking Fund

The notes will not be entitled to any sinking fund.

Offer to Repurchase Upon Change of Control Triggering Event

Upon the occurrence of a Change of Control Triggering Event with respect to the notes, unless we have exercised our right to redeem the notes as described under **Optional Redemption** by giving irrevocable notice to the trustee in accordance with the indenture, each holder of notes will have the right to require us to purchase all or a portion of such holder's notes pursuant to the offer described below (the **Change of Control Offer**), at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, up to but not including the date of purchase (the **Change of Control Payment**), subject to the rights of holders of notes on the relevant record date to receive interest due and owing on the relevant interest payment date.

Within 30 days following the date upon which the Change of Control Triggering Event occurs or, at our option, prior to any Change of Control but after the public announcement of the pending Change of Control, we will be required to send, by first class mail, a notice to each holder of notes, with a copy to the trustee,

which notice will govern the terms of the Change of Control Offer. Such notice will state, among other things, the purchase date, which must be no earlier than 30 days nor later than 60 days from the date such notice is mailed, other than as may be required by law (the Change of Control Payment Date). The notice, if mailed prior to the date of consummation of the Change of Control, will state that the Change of Control Offer is conditioned on the Change of Control being consummated on or prior to the Change of Control Payment Date.

On the Change of Control Payment Date, we will, to the extent lawful:

accept or cause a third party to accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;

deposit or cause a third party to deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and

deliver or cause to be delivered to the trustee the notes properly accepted together with an officers certificate stating the aggregate principal amount of notes or portions of notes being repurchased.

We will not be required to make a Change of Control Offer with respect to the notes if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for such an offer made by us and such third party purchases all the notes properly tendered and not withdrawn under its offer. In addition, we will not repurchase any notes if there has occurred and is continuing on the Change of Control Payment Date an event of default under the indenture, other than a default in the payment of the Change of Control Payment on the Change of Control Payment Date.

We must comply in all material respects with the requirements of Rule 14e-1 under the Securities Exchange Act of 1934, as amended (the Exchange Act), and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any such securities laws or regulations conflict with the Change of Control Offer provisions of the notes, we will be required to comply with those securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Offer provisions of the notes by virtue of any such conflict.

For purposes of the foregoing discussion of a Change of Control Offer, the following definitions are applicable:

Change of Control means the occurrence of any of the following after the date of issuance of the notes:

(1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of our assets and the assets of our subsidiaries taken as a whole to any person or group (as those terms are used in Section 13(d)(3) of the Exchange Act) other than to us or one of our subsidiaries;

(2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person or group (as those terms are used in Section 13(d)(3) of the Exchange Act) (other than Johnson Controls or one of our subsidiaries) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of our Voting Stock representing a majority of the voting power of our outstanding Voting Stock;

(3) we consolidate with, or merge with or into, any Person, or any Person consolidates with, or merges with or into, us, in any such event pursuant to a transaction in which any of our outstanding Voting Stock or Voting Stock of such

other Person is converted into or exchanged for cash, securities or other property, other than any such transaction where our Voting Stock outstanding immediately prior to such transaction constitutes, or is converted into or exchanged for, Voting Stock representing a majority of the voting power of the Voting Stock of the surviving Person immediately after giving effect to such transaction;

(4) the first day on which the majority of the members of the board of directors of the Company cease to be Continuing Directors; or

(5) the adoption by our shareholders of a plan relating to our liquidation or dissolution.

S-11

Table of Contents

Notwithstanding the foregoing, a transaction will not be deemed to involve a change of control under clause (2) above if (1) we become a direct or indirect wholly-owned subsidiary of a holding company and (2)(A) the direct or indirect holders of the Voting Stock of such holding company immediately following that transaction are substantially the same as the holders of our Voting Stock immediately prior to that transaction or (B) immediately following that transaction no person (as that term is used in Section 13(d)(3) of the Exchange Act) (other than a holding company satisfying the requirements of this sentence) is the beneficial owner, directly or indirectly, of more than 50% of the Voting Stock of such holding company.

Change of Control Triggering Event means, with respect to the notes, the notes cease to be rated Investment Grade by each of the Rating Agencies on any date during the period (the *Trigger Period*) commencing 60 days prior to the first public announcement by us of any Change of Control (or pending Change of Control) and ending 60 days following consummation of such Change of Control (which Trigger Period will be extended following consummation of a Change of Control for so long as any of the Rating Agencies has publicly announced that it is considering a possible ratings change). However, a Change of Control Triggering Event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect of a particular Change of Control (and thus shall not be deemed a Change of Control Triggering Event for purposes of the definition of Change of Control Repurchase Event) if the Rating Agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the trustee in writing at our request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the Change in Control Triggering Event). If a Rating Agency is not providing a rating for the notes at the commencement of any Trigger Period, the notes will be deemed to have ceased to be rated Investment Grade by such Rating Agency during that Trigger Period.

Notwithstanding the foregoing, no Change of Control Triggering Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

Continuing Director means, as of any date of determination, any member of our board of directors who:

- (1) was a member of our board of directors on the date of the issuance of the notes; or
- (2) was nominated for election or elected or appointed to our board of directors with the approval of a majority of the Continuing Directors who were members of our board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval of our proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

Investment Grade means a rating of Baa3 or better by Moody's (or its equivalent under any successor rating category of Moody's) and a rating of BBB-or better by S&P (or its equivalent under any successor rating category of S&P), and the equivalent investment grade credit rating from any replacement rating agency or rating agencies selected by us under the circumstances permitting us to select a replacement rating agency and in the manner for selecting a replacement rating agency, in each case as set forth in the definition of *Rating Agency*.

Moody's means Moody's Investors Service, Inc., a subsidiary of Moody's Corporation, and its successors.

Person means any individual, corporation, partnership, limited liability company, business trust, association, joint-stock company, joint venture, trust, incorporated or unincorporated organization or government or any agency or political subdivision thereof.

Rating Agency means each of Moody's and S&P; *provided*, that if any of Moody's or S&P ceases to provide rating services to issuers or investors, we may appoint another nationally recognized statistical rating

S-12

Table of Contents

organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act as a replacement for such Rating Agency; *provided*, that we shall give notice of such appointment to the trustee.

S&P means Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc., and its successors.

Voting Stock of any specified Person as of any date means the capital stock of such Person that is at the time entitled to vote generally in the election of the board of directors of such Person.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of the properties or assets of Johnson Controls and its subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise, established definition of the phrase under applicable law. Accordingly, the applicability of the requirement that we offer to repurchase the notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Johnson Controls and its subsidiaries taken as a whole to another person or group (as those terms are used in Section 13(d)(3) of the Exchange Act) may be uncertain.

Defeasance

The defeasance provisions of Article Thirteen of the indenture will apply to the notes. See Description of the Debt Securities Covenant Defeasance and Satisfaction and Discharge of a Series in the accompanying prospectus.

Same-Day Settlement and Payment

Settlement for the notes will be made in same-day funds. All payments of principal and interest will be made by us in immediately available funds. To the extent any notes are held by DTC, such notes will trade in DTC's Same-Day Funds Settlement System until maturity, and therefore DTC will require secondary trading activity in the notes to be settled in immediately available funds. Please see Description of the Debt Securities Book-Entry, Delivery and Settlement in the accompanying prospectus for a further description of book entry procedures.

Delivery and Form

The notes will be represented by one or more permanent global certificates (each a Global Note and collectively, the Global Notes) deposited with, or on behalf of, DTC and registered in the name of Cede & Co. (DTC's partnership nominee). The notes will be available for purchase in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof in book-entry form only. Unless and until certificated notes are issued under the limited circumstances described in the accompanying prospectus, no beneficial owner of a note shall be entitled to receive a definitive certificate representing a note. So long as DTC or any successor depositary (collectively, the Depositary) or its nominee is the registered owner of the Global Notes, the Depositary, or such nominee, as the case may be, will be considered to be the sole owner or holder of the senior notes for all purposes of the indenture.

Beneficial interests in the Global Notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may elect to hold interests in the Global Notes through DTC either directly if they are participants in DTC or indirectly through organizations that are participants in DTC.

Clearstream. Clearstream Banking, S.A. is incorporated under the laws of Luxembourg as a professional depositary. Clearstream holds securities for its participating organizations (Clearstream Participants) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in

accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides Clearstream Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a

S-13

professional depositary, Clearstream is subject to regulation by the Luxembourg Monetary Institute. Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures to the extent received by the U.S. Depositary for Clearstream.

Euroclear. Euroclear Bank SP./N.V. was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the Euroclear Operator), under contract with Euro-clear Clearance Systems S.C., a Belgian cooperative corporation (the Cooperative). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking Commission.

Links have been established among DTC, Clearstream and Euroclear to facilitate the initial issuance of the senior notes sold outside of the United States and cross-market transfers of the senior notes associated with secondary market trading.

Although DTC, Clearstream and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are under no obligation to perform these procedures, and these procedures may be modified or discontinued at any time.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as DTC, and DTC will record the total ownership of each of the U.S. agents of Clearstream and Euroclear, as participants in DTC. When notes are to be transferred from the account of a DTC participant to the account of a Clearstream participant or a Euroclear participant, the purchaser must send instructions to Clearstream or Euroclear through a participant at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive senior notes against payment. After settlement, Clearstream or Euroclear will credit its participant's account. Credit for the notes will appear on the next day (European time).

Because settlement is taking place during New York business hours, DTC participants will be able to employ their usual procedures for sending notes to the relevant U.S. agent acting for the benefit of Clearstream or Euroclear participants. The sale proceeds will be available to the DTC seller on the settlement date. As a result, to the DTC participant, a cross-market transaction will settle no differently than a trade between two DTC participants.

When a Clearstream or Euroclear participant wishes to transfer notes to a DTC participant, the seller will be required to send instructions to Clearstream or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream or Euroclear will instruct its U.S. agent to transfer these notes against payment for them. The payment will then be reflected in the account of the Clearstream or Euroclear participant the following day, with the proceeds back valued to the value date, which would be the preceding day, when settlement occurs in New York, if settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear participant's account will instead be valued as of the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving the senior notes through Clearstream and Euroclear on the days when those clearing systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time zone differences there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States.

The information in this section concerning the operations and procedures of DTC, Clearstream Luxembourg and Euroclear has been obtained from sources that we believe to be reliable, but neither we nor the underwriters take responsibility for its accuracy. These operations and procedures are solely within the control of DTC, Euroclear and Clearstream Luxembourg, as applicable, and are subject to change by them from time to time. None of us, the underwriters or the trustee takes any responsibility for these operations and procedures, and you are urged to contact DTC, Euroclear, Clearstream Luxembourg or their respective participants to discuss these matters.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

THIS SUMMARY IS OF A GENERAL NATURE AND IS INCLUDED HEREIN SOLELY FOR INFORMATION PURPOSES. THIS SUMMARY IS NOT INTENDED TO BE, AND SHOULD NOT BE, CONSTRUED TO BE LEGAL OR TAX ADVICE. NO REPRESENTATION WITH RESPECT TO THE CONSEQUENCES TO ANY PARTICULAR PURCHASER OF THE NOTES IS MADE. PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR OWN ADVISORS WITH RESPECT TO THEIR PARTICULAR CIRCUMSTANCES.

The following is a summary of certain U.S. federal income tax considerations relevant to U.S. Holders and Non-U.S. Holders (both as defined below) relating to the purchase, ownership and disposition of the notes. This summary is based upon current provisions of the U.S. Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), existing and proposed Treasury Regulations promulgated thereunder, rulings, pronouncements, judicial decisions and administrative interpretations of the U.S. Internal Revenue Service (the "IRS"), all of which are subject to change, possibly on a retroactive basis, at any time by legislative, judicial or administrative action. We cannot assure you that the IRS will not challenge the conclusions stated below, and no ruling from the IRS or an opinion of counsel has been (or will be) sought on any of the matters discussed below.

The following summary does not purport to be a complete analysis of all the potential U.S. federal income tax considerations relating to the purchase, ownership, and disposition of the notes. Without limiting the generality of the foregoing, this summary does not address the effect of any special rules applicable to certain types of beneficial owners, including, without limitation, dealers in securities or currencies, insurance companies, financial institutions, thrifts, regulated investment companies, tax-exempt entities, governmental bodies or agencies and instrumentalities thereof, U.S. Holders whose functional currency is not the U.S. dollar, U.S. expatriates, persons who hold notes as part of a straddle, hedge, conversion transaction, or other risk reduction or integrated investment transaction, investors in securities that elect to use a mark-to-market method of accounting for their securities holdings, individual retirement accounts or qualified pension plans, controlled foreign corporations, passive foreign investment companies, or investors in pass through entities, including partnerships and Subchapter S corporations. In addition, this summary is limited to holders who are the initial purchasers of the notes at their original issue price and who hold the notes as capital assets within the meaning of Section 1221 of the Internal Revenue Code. This summary does not address the effect of any U.S. state or local income or other tax laws, any U.S. federal estate and gift tax laws, or any foreign tax laws.

U.S. Holders

The term "U.S. Holder" means a beneficial owner of a note that is:

an individual who is a citizen of the United States or who is a resident alien of the United States for U.S. federal income tax purposes;

a corporation or other entity taxable for U.S. federal income tax purposes as a corporation created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or if a valid election is in effect under applicable Treasury Regulations to be treated as a U.S. person.

Taxation of Interest

All of the notes bear interest at a fixed rate. Moreover, we do not intend to issue the notes at a discount that will exceed a de minimis amount of original issue discount. Accordingly, interest on a note will generally be includable in income of a U.S. Holder as ordinary income, in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes. A U.S. Holder using the accrual method of

S-16

Table of Contents

accounting for federal income tax purposes must include interest on the notes in ordinary income as interest accrues. A U.S. Holder using the cash receipts and disbursements method of accounting for U.S. federal income tax purposes must include interest in ordinary income when payments are received, or made available for receipt, by the U.S. Holder.

In certain circumstances (See *Description of the Notes Optional Redemption*, and *Description of the Notes Offer to Repurchase Upon a Change of Control Triggering Event*), we may pay amounts on the notes that are in excess of the stated interest or principal of the notes. We intend to take the position that the possibility that any such payment will be made is remote so that such possibility will not affect the timing or amount of interest income that holders recognize unless and until any such payment is made. Our determination that these contingencies are remote is binding on the holder, unless the holder discloses its contrary position to the IRS in the manner that is required by applicable Treasury regulations. Our determination is not, however, binding on the IRS. It is possible that the IRS might take a different position from that described above, in which case the timing, character and amount of taxable income in respect of the notes may be different from that described herein.

Sale, Exchange, or Other Disposition

A U.S. Holder will generally recognize capital gain or loss on a sale, exchange, redemption, retirement or other taxable disposition of a note measured by the difference, if any, between:

the amount of cash and the fair market value of any property received, except to the extent that the cash or other property received in respect of a note is attributable to accrued interest on the note not previously included in income, which amount will be taxable as ordinary income; and

the U.S. Holder's adjusted tax basis in the note.

Such capital gain or loss will be treated as a long-term capital gain or loss if, at the time of the sale or exchange, the note has been held by the U.S. Holder for more than one year; otherwise, the capital gain or loss will be short-term. Non-corporate taxpayers may be subject to a lower federal income tax rate on their net long-term capital gains than that applicable to ordinary income. U.S. Holders are subject to certain limitations on the deductibility of their capital losses.

Information Reporting and Backup Withholding

U.S. Holders of notes will be subject to information reporting and may be subject, under certain circumstances, to backup withholding (currently at a rate of 28%) on payments of interest, principal, gross proceeds from disposition of notes, and redemption premium, if any. Backup withholding generally applies only if the U.S. Holder:

fails to furnish its social security or other taxpayer identification number within a reasonable time after a request for such information;

furnishes an incorrect taxpayer identification number;

has been notified by the IRS that the U.S. Holder has failed to report interest properly; or

fails, under certain circumstances, to provide a certified statement, signed under penalty of perjury, that the taxpayer identification number provided is its correct number and that the U.S. Holder is not subject to backup withholding.

Backup withholding is not an additional tax. Any amount withheld from a payment to a U.S. Holder under the backup withholding rules is allowable as a credit against such U.S. Holder's U.S. federal income tax liability and such U.S. Holder may be entitled to a refund of any amounts withheld in excess of its actual U.S. federal income tax liability, provided such U.S. Holder files the appropriate returns and/or timely furnishes the required information to the IRS. Certain persons are exempt from backup withholding, including corporations and financial institutions. U.S. Holders of notes should consult their tax advisors as to their

S-17

Table of Contents

qualification for exemption from backup withholding and the procedure for obtaining such exemption. We cannot refund amounts once withheld.

We will furnish annually to the IRS, and to record holders of the notes to whom we are required to furnish such information, information relating to the amount of interest and the amount of backup withholding, if any, with respect to the notes.

Non-U.S. Holders

The following summary is limited to the U.S. federal income tax consequences relevant to a beneficial owner of a note who is not classified for U.S. federal income tax purposes as a partnership or as a disregarded entity and who is not a U.S. Holder (a Non-U.S. Holder). In the case of a Non-U.S. Holder who is an individual, the following summary assumes that this individual was not formerly a U.S. citizen, and was not formerly a resident of the United States for U.S. federal income tax purposes.

Taxation of Interest

Subject to the summary of backup withholding rules below, payments of interest on a note to any Non-U.S. Holder will not generally be subject to U.S. federal income or withholding tax provided we or the person otherwise responsible for withholding U.S. federal income tax from payments on the notes receives a required certification from the Non-U.S. Holder (as discussed below) and the Non-U.S. Holder is not:

an actual or constructive owner of 10% or more of the total combined voting power of all our voting stock;

a controlled foreign corporation related, directly or indirectly, to us through stock ownership;

a bank receiving interest on the notes in connection with an extension of credit made pursuant to a loan entered into in the ordinary course of business; or

receiving such interest payments as income effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States (and, if an income tax treaty applies to the Non-U.S. Holder, as income attributable to a permanent establishment of the Non-U.S. Holder in the United States).

In order to satisfy the certification requirement, the Non-U.S. Holder must provide a properly completed IRS Form W-8BEN (or substitute Form W-8BEN or the appropriate successor form) under penalties of perjury that provides the Non-U.S. Holder's name and address and certifies that the Non-U.S. Holder is not a U.S. person. Alternatively, in a case where a security clearing organization, bank or other financial institution holds the notes in the ordinary course of its trade or business on behalf of the Non-U.S. Holder, the certification requirements provide that we or the person who otherwise would be required to withhold U.S. federal income tax receive from the financial institution a certification under penalties of perjury that a properly completed Form W-8BEN (or substitute Form W-8BEN or the appropriate successor form) has been received by it, or by another such financial institution, from the Non-U.S. Holder, and a copy of such a form is furnished to the payor. Special rules apply to foreign partnerships, estates and trusts, and in certain circumstances, certifications as to foreign status of partners, trust owners, or beneficiaries may be required to be provided to our paying agent or to us. In addition, special rules apply to payments made through a qualified intermediary.

A Non-U.S. Holder that does not qualify for exemption from withholding under the preceding paragraphs generally will be subject to withholding of U.S. federal income tax at the rate of 30%, unless (i) the Non-U.S. Holder provides a properly completed IRS Form W-8BEN and other required documentation evidencing its entitlement to an exemption

from (or a reduction of) withholding under an applicable income tax treaty, or (ii) payments of interest on the notes are effectively connected with the conduct by the Non-U.S. Holder of a trade or business in the United States and the Non-U.S. Holder meets the certification requirement discussed at the end of the following paragraph.

S-18

Table of Contents

If the payments of interest on a note are effectively connected with the conduct by a Non-U.S. Holder of a trade or business in the United States (or, in the event that an income tax treaty is applicable, if the payments of interest are attributable to a U.S. permanent establishment maintained by the Non-U.S. Holder), such payments will be subject to U.S. federal income tax on a net basis at the rates applicable to U.S. persons generally. If the Non-U.S. Holder is a corporation for U.S. federal income purposes, such payments also may be subject to a branch profits tax at the rate of 30%, or lower applicable treaty rate. If payments are subject to U.S. federal income tax on a net basis in accordance with the rules described in the preceding two sentences, such payments will not be subject to U.S. withholding tax so long as the Non-U.S. Holder provides us, or the person who otherwise would be required to withhold U.S. federal income tax, with a properly completed and executed IRS Form W-8ECI.

Non-U.S. Holders should consult their tax advisors regarding any applicable income tax treaties, which may provide for a lower rate of withholding tax, exemption from or reduction of branch profits tax, or other rules different from those described above.

Sale, Exchange, or Other Disposition

Subject to the summary of backup withholding rules below, any gain realized by a Non-U.S. Holder on the sale, exchange, redemption, retirement or other disposition of a note generally will not be subject to U.S. federal income tax, unless:

such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States (or, in the event that an income tax treaty is applicable, such gain is attributable to a U.S. permanent establishment maintained by the Non-U.S. Holder); or

the Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are satisfied.

Proceeds from the disposition of a note that are attributable to accrued but unpaid interest generally will be subject to, or exempt from, tax to the same extent as described above with respect to interest paid on a note, although such proceeds generally are not subject to withholding tax. A non-U.S. Holder should treat any amount received on redemption of a note in the same manner as the non-U.S. Holder treats proceeds received on a sale.

If the gain on a disposition of a note is effectively connected with the conduct by a Non-U.S. Holder of a trade or business in the United States (or, in the event that an income tax treaty is applicable, if the gain is attributable to a U.S. permanent establishment maintained by the Non-U.S. Holder), such gain will be subject to U.S. federal income tax in the same manner as interest that is effectively connected with the conduct by the Non-U.S. Holder of a trade or business in the United States, as described under *Taxation of Interest* above.

Information Reporting and Backup Withholding

Any payments of interest on the notes to a Non-U.S. Holder will generally be reported to the IRS and to the Non-U.S. Holder. Copies of these information returns also may be made available under the provisions of a specific treaty or other agreement to the tax authorities of the country in which the Non-U.S. Holder resides.

The backup withholding tax and certain additional information reporting generally will not apply to payments of interest with respect to which either the requisite certification, as described above, has been received or an exemption otherwise has been established, provided that neither we nor the person who otherwise would be required to withhold U.S. federal income tax has actual knowledge or reason to know that the holder is, in fact, a U.S. person or that the conditions of any other exemption are not, in fact, satisfied.

The payment of the proceeds from the disposition of the notes by or through the U.S. office of any broker, U.S. or foreign, will be subject to information reporting and backup withholding unless the Non-U.S. Holder certifies as to its non-U.S. status (e.g., by furnishing the broker with a properly completed and executed IRS Form W-8BEN) or otherwise establishes an exemption, provided that the broker does not have actual knowledge or reason to know that the holder is a U.S. person or that the conditions of any other

S-19

Table of Contents

exemption are not, in fact, satisfied. The payment of the proceeds from the disposition of the notes by or through a non-U.S. office of a non-U.S. broker will not be subject to information reporting or backup withholding unless the non-U.S. broker has certain types of relationships with the United States (a U.S. related person). In the case of the payment of the proceeds from the disposition of the notes by or through a non-U.S. office of a broker that is either a U.S. person or a U.S. related person, the Treasury Regulations require information reporting (but not backup withholding) on the payment unless the broker has documentary evidence in its files that the beneficial owner is a Non-U.S. Holder and the broker has no knowledge or reason to know to the contrary.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be credited against the Non-U.S. Holder's U.S. federal income tax liability (and the Non-U.S. Holder may be entitled to a refund of amounts withheld in excess of the Non-U.S. Holder's U.S. federal income tax liability) provided such Non-U.S. Holder timely furnishes the required information to and/or files the necessary returns or claims with the IRS. We cannot refund amounts once withheld.

Proposed Legislation

The U.S. House of Representatives recently passed legislation that would require a withholding agent to withhold tax at a rate of 30% on interest, dividends and other withholdable payments made to foreign entities, unless the entity certifies that it has no substantial U.S. owners or provides the withholding agent with the name, address, and taxpayer identification number of each of its substantial U.S. owners. Moreover, the Obama Administration has recently proposed to (i) limit the ability of investors to claim an exemption from U.S. withholding tax through a foreign intermediary that is not a qualified intermediary (a nonqualified intermediary), (ii) require a withholding agent to withhold tax at a rate of 20% on gross proceeds from the sale of securities under certain circumstances when paid to a nonqualified intermediary that is located in a jurisdiction with which the United States does not have a comprehensive income tax treaty that includes a satisfactory exchange of information program, and (iii) limit the ability of certain foreign entities to claim relief from U.S. withholding tax unless those entities provide documentation of their beneficial owners to the withholding agent. It is unclear whether, or in what form, the Obama Administration proposals or the legislation passed by the House of Representatives will be enacted. Holders of notes are encouraged to consult with their tax advisors regarding the possible implications of these proposals on their investment in the notes.

THE PRECEDING SUMMARY OF CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES IS FOR GENERAL INFORMATION ONLY AND IS NOT LEGAL OR TAX ADVICE. ACCORDINGLY, PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR OWN ADVISORS ON THE U.S. FEDERAL, STATE AND LOCAL, AND FOREIGN TAX CONSEQUENCES OF THEIR PURCHASE, OWNERSHIP, AND DISPOSITION OF THE NOTES, AND ON THE CONSEQUENCES OF ANY CHANGES IN APPLICABLE LAW.

Table of Contents**UNDERWRITING**

We intend to offer the notes through the underwriters. Banc of America Securities LLC and Citigroup Global Markets Inc. are acting as representatives of the underwriters named below. Subject to the terms and conditions contained in an underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters and the underwriters severally have agreed to purchase from us, the principal amount of the notes listed opposite their names below:

Underwriter	Principal Amount of Notes
Banc of America Securities LLC	
Citigroup Global Markets Inc.	
Barclays Capital Inc.	
ING Financial Markets LLC	
Total	\$

The underwriters have agreed to purchase all of the notes sold pursuant to the underwriting agreement if any of these notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Discounts and Commissions

The underwriters have advised us that they propose to initially offer the notes at a price of % of the principal amount of the notes, plus accrued interest from the original issue date of the notes, if any, and to dealers at that price less a concession not in excess of % of the principal amount of the notes, plus accrued interest from the original issue date of the notes, if any. After the initial public offering, the public offering price, concession and discount may be changed.

The following table shows the underwriting discounts and commissions that we are to pay the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

	Paid by us
Per note	%

The expenses of the offering, not including the underwriting discounts and commissions, are estimated to be \$ and are payable by us.

New Issue of Notes

The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any national securities exchange or for inclusion of the notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the notes or that an active public market for the notes will develop. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected. If

S-21

Table of Contents

the notes are traded, they may trade at a discount from their initial public offering price, depending on prevailing interest rates, the market for similar securities, our performance and other factors.

Price Stabilization and Short Positions

In connection with the offering, the underwriters are permitted to engage in transactions that stabilize the market price of the notes. Such transactions consist of bids or purchases to peg, fix or maintain the price of the notes.

If the underwriters create a short position in the notes in connection with the offering, i.e., if they sell more notes than are on the cover page of this prospectus supplement, the underwriters may reduce that short position by purchasing notes in the open market. Purchases of the notes to stabilize the price or to reduce a short position could cause the price of the notes to be higher than it might be in the absence of such purchases.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the underwriters makes any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us. They have received customary fees and commissions for these transactions. In addition, affiliates of Banc of America Securities LLC, Citigroup Global Markets Inc. and Barclays Capital Inc. were co-syndication agents on our revolving credit facility, for which they each received customary compensation.

Table of Contents

The following description of our capital stock summarizes general terms and provisions that apply to our capital stock. Since this is only a summary, it does not contain all of the information that may be important to you. The summary is subject to and qualified in its entirety by reference to our restated articles of incorporation and our bylaws, as amended, which are filed as exhibits to the registration statement of which this prospectus is a part. See [Where You Can Find More Information](#).

Common Stock

Preemptive Rights

Our common shareholders do not have any preemptive rights except as the board of directors may otherwise determine.

Dividends

After all dividends on all of our preferred stock outstanding have been paid or declared and set apart for payment, the holders of our common stock are entitled to receive dividends as may be declared from time to time by our board of directors, in its discretion, out of funds legally available therefor.

Liquidation or Dissolution

In the event of a liquidation, dissolution or winding up of our affairs, holders of our common stock are entitled to share ratably in the distribution of our assets that remain after provision for payment of all liabilities to creditors and payment of liquidation preferences and accrued dividends, if any, to our preferred shareholders.

Voting Rights and Extraordinary Transactions

Our common shareholders are entitled to one vote for each share of common stock held on all matters on which our shareholders are entitled to vote, and our common shareholders vote together share for share with our preferred shareholders as one class, except as otherwise provided by law or as determined by our board of directors at the time it establishes a series of preferred stock.

Provisions of our articles of incorporation and bylaws might discourage some types of transactions that involve an actual or threatened change of control. Our articles of incorporation provide that, subject to specified exceptions, the affirmative vote or consent of the holders of four-fifths of all classes of our capital stock, considered as one class, is required (1) for the adoption of any agreement for the merger or consolidation of us with or into any other corporation or (2) to authorize any sale, lease, exchange, mortgage, pledge or other disposition of all or any substantial part of our assets to, or any sale, lease, exchange, mortgage, pledge, other disposition to us in exchange for our securities or any assets of, any other corporation, person or other entity, if, in either case, the other corporation, person or entity is the beneficial owner, directly or indirectly, of more than 10% of our outstanding capital stock. Any corporation, person or other entity will be deemed to be the beneficial owner of all shares of our capital stock which are beneficially owned, directly or indirectly, by it and its affiliates and associates, and which it and its affiliates and associates have the right to acquire pursuant to any agreement, or upon exercise of conversion rights, warrants or options, or otherwise.

The provisions of our articles of incorporation requiring a four-fifths vote are not applicable to (1) any merger or consolidation of us with or into any other corporation, or any sale, lease, exchange, mortgage, pledge or other disposition of all or any substantial part of our assets to, or any sale, lease, mortgage, pledge or other disposition to us in exchange for our securities or any assets of, any other corporation, person or other entity, if our board of directors by resolution has approved a memorandum of understanding with the other corporation, person or other entity, with

respect to and substantially consistent with the proposed transaction, prior to the time the other corporation, person or other entity has become a beneficial owner of more than 10% of our outstanding capital stock or (2) any merger or consolidation of us with, or any sale, lease, exchange, mortgage, pledge or other disposition to as of any assets of, any corporation of which a majority of the outstanding capital stock is held by us.

Table of Contents

No amendment to our articles of incorporation may amend, alter, change or repeal any of the provisions of our articles of incorporation requiring a four-fifths vote unless the amendment effecting the amendment, alteration, change or repeal receives the affirmative vote or consent of the holders of four-fifths of all of our capital stock, considered as one class.

Provisions of Wisconsin law might also discourage some types of transactions that involve an actual or threatened change of control of Johnson Controls. Sections 180.1140 through 180.1144 of the Wisconsin Business Corporation Law contain limitations and special voting provisions applicable to specified business combinations involving Wisconsin corporations, including Johnson Controls, and a significant stockholder, unless the board of directors of the corporation approves the business combination or the stockholder's acquisition of shares before the shares are acquired. Similarly, Sections 180.1130 through 180.1133 of the Wisconsin Business Corporation Law contain special voting provisions applicable to specified business combinations unless minimum price and procedural requirements are met. Following the commencement of a takeover offer, Section 180.1134 of the Wisconsin Business Corporation Law imposes special voting requirements on specified share repurchases effected at a premium to the market and on specified asset sales by the corporation unless, as it relates to the potential sale of assets, the corporation has at least three independent directors and a majority of the independent directors vote not to have the provision apply to the corporation.

Section 180.1150 of the Wisconsin Business Corporation Law provides that the voting power of shares of Wisconsin corporations, including Johnson Controls, held by any person or persons acting as a group in excess of 20% of the voting power of the corporation is limited to 10% of the full voting power of those shares. This restriction does not apply to shares acquired directly from the corporation or in specified transactions or shares for which full voting power has been restored pursuant to a vote of shareholders.

Number and Tenure of Board of Directors; Special Meetings

As of November 19, 2008, our bylaws provide that our board of directors is composed of not less than nine nor more than thirteen directors divided into three classes, consisting of three to four members each, depending on the size of the board of directors. A director may be removed from office by shareholders prior to the expiration of his or her term, but only:

at a special meeting called for the purpose of removing the director;

by the affirmative vote of two-thirds of the outstanding shares entitled to vote for the election of the director; and

for cause, but if the board of directors, by resolution adopted by the affirmative vote of at least two-thirds of the directors then in office plus one director, recommends removal of a director, then the shareholders may remove the director without cause by the vote described in the two clauses above.

A special meeting of shareholders may be called only by the chairman of the board of directors, the vice chairman of the board of directors, the president or the board of directors, and will be called by the chairman of the board of directors or the president upon the demand of shareholders representing at least 10% of all of the votes entitled to be cast at the special meeting.

The affirmative vote of (1) shareholders possessing at least four-fifths of the voting power of the outstanding shares of all classes of our capital stock, considered as one class (subject to the rights of holders of any class or series of stock having a preference over the common stock as to dividends or upon liquidation) or (2) at least two-thirds of the directors then in office plus one director, is required to amend, alter, change or repeal the provisions of the bylaws

relating to the number and tenure of members of our board of directors.

Preferred Stock

General

Our articles of incorporation authorize our board of directors to issue shares of preferred stock in one or more series and with rights, preferences, privileges and restrictions, including dividend rights, voting rights,

Table of Contents

conversion rights, terms of redemption and liquidation preferences, as may be designated by our board of directors without any further vote or action by our shareholders, provided that the aggregate liquidation preference of all shares of preferred stock outstanding may not exceed \$100,000,000. The issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control of Johnson Controls.

The specific terms of a particular series of preferred stock offered pursuant to this prospectus will be described in the prospectus supplement and/or other offering material relating to that series. The related prospectus supplement and/or other offering material will contain a description of material United States federal income tax consequences relating to the purchase and ownership of the series of preferred stock described in the prospectus supplement and/or other offering material.

The rights, preferences, privileges and restrictions of the preferred stock of each series will be fixed by articles of amendment to the articles of incorporation relating to that series. A prospectus supplement and/or other offering material, relating to each series, will specify the terms of the preferred stock as follows:

the maximum number of shares to constitute, and the designation of, the series;

the annual dividend rate, if any, on shares of the series, whether the rate is fixed or variable or both, and the date or dates from which dividends will begin to accrue or accumulate;

the price at and the terms and conditions on which the shares of the series may be redeemed;

the liquidation preference, if any, that the holders of shares of the series would be entitled to receive upon the liquidation, dissolution or winding up of our affairs;

whether or not the shares of the series will be subject to operation of a retirement or sinking fund, and, if so, the extent and manner in which that fund would be applied to the purchase or redemption of the shares of the series for retirement or for other corporate purposes, and the terms and provisions relating to the operation of the fund;

the terms and conditions, if any, on which the shares of the series will be convertible into, or exchangeable for, shares of common stock, including the price or prices or the rate or rates of conversion or exchange and the method, if any, of adjusting the same and whether that conversion is mandatory or optional; and

the voting rights, if any, of the shares of the series.

Dividends

The holders of our preferred stock will be entitled to receive dividends at the rate per year set by our board of directors, payable quarterly on the last day of March, June, September, and December in each year for the respective calendar quarter ending on those dates, when and as declared by our board of directors. Dividends will accrue on each share of preferred stock from the first day of each quarterly dividend period in which the share is issued or from another date as our board of directors may fix for that purpose. All dividends on preferred stock will be cumulative so that if we do not pay or set apart for payment the dividend, or any part thereof, for any dividend period on the preferred stock then issued and outstanding, the unpaid portion of the dividend will thereafter be fully paid or declared and set apart for payment, but without interest, before any dividend will be paid or declared and set apart for payment on our common stock. The holders of our preferred stock will not be entitled to participate in any of our other or additional earnings or profits, except for those premiums, if any, as may be payable in case of redemption, liquidation, dissolution or winding up of our affairs.

Any dividend paid upon our preferred stock at a time when any accrued dividends for any prior dividend period are delinquent will be expressly declared to be in whole or partial payment of the accrued dividends to the extent there are accrued dividends, beginning with the earliest dividend period for which dividends are then wholly or partly delinquent, and will be so designated to each shareholder to whom payment is made. No dividends will be paid upon any shares of any series of preferred stock for a current dividend period unless there has been paid or declared and set apart for payment dividends required to be paid to the holders of each

Table of Contents

other series of preferred stock for all past dividend periods of the other series. If any dividends are paid on any of our preferred stock with respect to any past dividend period at any time when less than the total dividends then accumulated and payable for all past dividend periods on all of the preferred stock then outstanding are to be paid or declared and set apart for payment, then the dividends being paid will be paid on each series of preferred stock in the proportions that the dividends then accumulated and payable on each series for all past dividend periods bear to the total dividends then accumulated and payable for all past dividend periods on all outstanding preferred stock.

Liquidation or Dissolution

In case of our voluntary or involuntary liquidation, dissolution or winding up of our affairs, the holders of each series of preferred stock would be entitled to receive out of our assets in money or money's worth the liquidation preference with respect to that series of preferred stock, together with all accrued but unpaid dividends thereon, whether or not earned or declared, before any of our assets would be paid or distributed to holders of our common stock. In case of our voluntary or involuntary liquidation, dissolution or winding up of our affairs, if our assets would be insufficient to pay the holders of all of the series of our preferred stock then outstanding the full amounts to which they may be entitled, the holders of each outstanding series would share ratably in our assets in proportion to the amounts which would be payable with respect to that series if all amounts payable thereon were paid in full. Our consolidation or merger with or into any other corporation, or a sale of all or any part of our assets, will not be deemed a liquidation, dissolution or winding up of our affairs for purposes of this paragraph.

Redemption

Except as otherwise provided with respect to a particular series of our preferred stock, the following general redemption provisions will apply to each series of preferred stock.

On or prior to the date fixed for redemption of a particular series of our preferred stock or any part of a particular series of our preferred stock as specified in the notice of redemption for that series, we will deposit adequate funds for the redemption, in trust for the account of holders of that series, with a bank having trust powers or a trust company in good standing, organized under the laws of the United States or the State of Wisconsin doing business in the State of Wisconsin and having capital, surplus and undivided profits aggregating at least \$1,000,000. If the name and address of the bank or trust company and the deposit of or intent to deposit the redemption funds in the trust account is stated in the notice of redemption, then from and after the mailing of the notice and the making of the deposit, the shares of the series called for redemption will no longer be deemed to be outstanding for any purpose whatsoever, and all rights of the holders of the shares of the series in or with respect to us will cease and terminate except only the right of the holders of the shares:

to transfer shares prior to the date fixed for redemption;

to receive the redemption price of the shares, including accrued but unpaid dividends to the date fixed for redemption, without interest, upon surrender of the certificate or certificates representing the shares to be redeemed; and

on or before the close of business on the fifth day preceding the date fixed for redemption, to exercise privileges of conversion, if any, not previously expired.

Any money deposited by us that remains unclaimed by the holders of the shares called for redemption and not converted will, at the end of six years after the date fixed for redemption, be paid to us upon our request, after which repayment the holders of the shares called for redemption will no longer look to the bank or trust company for the payment of the redemption price but will look only to us or to others, as the case may be, for the payment of any

lawful claim for the money which holders of the shares may still have. After the six-year period, the right of any shareholder or other person to receive payment for its shares in the series redeemed may be forfeited in the manner and with the effect provided under Wisconsin law. Any portion of

Table of Contents

the money so deposited by us, in respect of shares of our preferred stock called for redemption that are converted into our common stock, will be repaid to us upon our request.

In case of redemption of only a part of a series of preferred stock, we will designate by lot, in the manner our board of directors may determine, the shares to be redeemed, or we will effect the redemption pro rata.

Conversion Rights

Except as otherwise provided with respect to a particular series of our preferred stock, the following general conversion provisions will apply to each series of our preferred stock that is convertible into common stock.

All shares of our common stock issued upon conversion will be fully paid and nonassessable, and will be free of all taxes, liens and charges with respect to the issuance except taxes, if any, payable by reason of issuance in a name other than that of the holder of the share or shares converted and except as otherwise provided by applicable Wisconsin law.

The number of shares of our common stock issuable upon conversion of a particular series of preferred stock at any time will be the quotient obtained by dividing the aggregate conversion value of the shares of the series surrendered for conversion by the conversion price per share of common stock then in effect for that series. We will not be required, however, upon any such conversion, to issue any fractional share of common stock, but in lieu of fractional shares we will pay to the holder who would otherwise be entitled to receive a fractional share a sum in cash equal to the value of the fractional share at the rate of the then-prevailing market value per share of our common stock. The then-prevailing market value per share means for these purposes the last reported sale price of our common stock on the New York Stock Exchange. Shares of our preferred stock will be deemed to have been converted as of the close of business on the date the transfer agent receives the certificate for the shares to be converted, duly endorsed, together with written notice by the holder of its election to convert the shares.

The basic conversion price per share of common stock for a series of our preferred stock, as fixed by the board of directors, will be subject to adjustment from time to time as follows:

If we (1) pay a dividend or make a distribution to all of our common shareholders as a class in shares of common stock, (2) subdivide or split the outstanding shares of common stock into a larger number of shares, or (3) combine the outstanding shares of our common stock into a smaller number of shares, the basic conversion price per share of common stock in effect immediately prior thereto will be adjusted so that the holder of each outstanding share of each series of our preferred stock which by its terms is convertible into common stock will thereafter be entitled to receive upon the conversion of that share the number of shares of common stock which the holder would have owned and been entitled to receive after the happening of any of the events described above had that share of preferred stock been converted immediately prior to the happening of the event.

If we issue to all of our common shareholders as a class any rights or warrants enabling them to subscribe for or purchase shares of our common stock at a price per share less than the current market price per share of our common stock, the conversion price per share of common stock in effect immediately prior thereto for each series of preferred stock which by its terms is convertible into common stock will be adjusted by multiplying the conversion price by a fraction. The numerator of the fraction would be the sum of the number of shares of common stock outstanding and the number of shares of common stock which the aggregate exercise price, before deduction of underwriting discounts or commissions and other expenses we would incur in connection with the issue, of the total number of shares so offered for subscription or purchase would purchase at the current market price per share. The denominator of the fraction would be the sum of the number of shares of common stock outstanding at the record date and the number of additional shares of common stock so offered for subscription or purchase.

If we distribute to all of our common shareholders as a class evidences of our indebtedness or assets, other than cash dividends, the basic conversion price per share of common stock in effect immediately

Table of Contents

prior thereto for each series of preferred stock which by its terms is convertible into common stock would be adjusted by multiplying the basic conversion price by a fraction, of which the numerator will be the difference between the current market price per share of common stock and the fair value, as determined by our board of directors, of the portion of the evidences of indebtedness or assets, other than cash dividends, so distributed with respect to one share of common stock, and of which the denominator would be the current market price per share of common stock.

Any adjustment to the conversion price for any series of our preferred stock is made retroactively. No adjustment will be made in the conversion price for any series of our preferred stock if the amount of the adjustment would be less than fifty cents, but any adjustments which are not made for that reason will be carried forward and taken into account in any subsequent adjustment and all adjustments will be made not later than the earlier of three years after the occurrence of the event giving rise to the adjustment or the date as of which the adjustment would require an increase or decrease of at least 3% in the aggregate number of shares of common stock issued and outstanding on the first date on which an event occurred which required the making of a computation described above. All adjustments will be made to the nearest cent or to the nearest 1/100th of a share, as the case may be.

In the case of any capital reorganization or reclassification of our common stock, or if we consolidate with or merge into, or sell or dispose of all or substantially all of our property and assets to, any other corporation, proper provisions will be made as part of the terms of the capital reorganization, reclassification, consolidation, merger or sale that any shares of a particular series of preferred stock at the time outstanding will thereafter be convertible into the number of shares of stock or other securities or property to which a holder of the number of shares of common stock deliverable upon conversion of the shares of a particular series would have been entitled upon the capital reorganization, reclassification, consolidation or merger.

No adjustment with respect to dividends upon any series of our preferred stock or with respect to dividends upon our common stock will be made in connection with any conversion.

Whenever there is an issuance of additional shares of our common stock requiring an adjustment in the conversion price, and whenever there occurs any other event which results in a change in the existing conversion rights of the holders of shares of a series of our preferred stock, we will file with our transfer agent or agents, and at our principal office in Milwaukee, Wisconsin, a statement signed by our president or a vice president and by our treasurer or an assistant treasurer describing specifically the issuance of additional shares of common stock or other event (and, in the case of a capital reorganization, reclassification, consolidation or merger, the terms thereof), the actual conversion prices or basis of conversion as changed by the issuance or event and the change, if any, in the securities issuable upon conversion. Whenever we issue to all holders of our common stock as a class any rights or warrants enabling them to subscribe for or purchase shares of common stock, we will also file in like manner a statement describing the issuance and the consideration we received as a result of that issuance. The statement so filed may be inspected by any holder of record of shares of any series of our preferred stock.

We will at all times have authorized and will at all times reserve and set aside a sufficient number of duly authorized shares of our common stock for the conversion of all stock of all then outstanding series of preferred stock which are convertible into common stock.

Reissuance of Shares

Any shares of our preferred stock retired by purchase, redemption, through conversion, or through the operation of any sinking fund or redemption or purchase account, will thereafter have the status of authorized but unissued shares of preferred stock, and may thereafter be reissued as part of the same series or may be reclassified and reissued by our board of directors in the same manner as any other authorized and unissued shares of preferred stock.

Table of Contents

Voting Rights

Holders of our preferred stock will be entitled to one vote for each share held on all questions on which our shareholders are entitled to vote and will vote together share for share with the holders of our common stock as one class, except as otherwise provided by law or as described below or as otherwise determined by the board of directors at the time of the establishment of a series of preferred stock.

The affirmative vote or written consent of the holders of record of at least two-thirds of the outstanding shares of a series of our preferred stock is a prerequisite of our right:

to create any shares or any securities convertible into or evidencing the right to purchase shares ranking prior to that series of our preferred stock with respect to the payment of dividends or of assets upon liquidation, dissolution or winding up; or

to change the designations, preferences, limitations, or relative rights of the outstanding shares of that series of preferred stock in any manner prejudicial to the holders thereof.

The affirmative vote or written consent of the holders of a majority of the outstanding shares of each series of our preferred stock will be a prerequisite to our right to authorize any shares of preferred stock in excess of 2,000,000 shares or any other shares ranking on a parity with our preferred stock with respect to the payment of dividends or of assets upon liquidation, dissolution or winding up.

Special Voting Rights for the Election of Directors upon our Failure to Pay Dividends

Whenever dividends payable on any series of our preferred stock are in arrears in an aggregate amount equivalent to six full quarterly dividends on the shares of all of the preferred stock of that series then outstanding, the holders of preferred stock of that series will have the exclusive and special right, voting separately as a class, to elect two of our directors, and the number of directors constituting our board of directors will be increased to the extent necessary to effectuate that right. Whenever the holders of any series of our preferred stock have the right to elect two of our directors, that right may be exercised initially either at a special meeting of the holders possessing that right or at any annual meeting of our shareholders, and thereafter at annual meetings of our shareholders. The right of the holders of any series of our preferred stock voting separately as a class to elect members of our board of directors will continue until the time all dividends accumulated on that series of our preferred stock have been paid in full, at which time the right of the holders of that series of our preferred stock to vote separately as a class for the election of directors will terminate, subject to revesting in the event of any subsequent default in an aggregate amount equivalent to six full quarterly dividends.

At any time when the holders of any series of preferred stock have special voting rights as a result of our failure to make dividends, a proper officer will, upon the written request of the holders of at least 10% of the series of our preferred stock then outstanding entitled to the special voting rights addressed to our secretary, call a special meeting of the holders of that series of our preferred stock for the purpose of electing directors. The special meeting will be held at the earliest practicable date in the place designated pursuant to our bylaws or, if there be no designation, at our principal office in Milwaukee, Wisconsin. If the special meeting is not called by the proper officers within 20 days after personal service of the written request upon our secretary, or within 30 days after mailing the written request within the United States by registered or certified mail addressed to our secretary at our principal office, then the holders of at least 10% of the series of our preferred stock then outstanding may designate in writing one of the holders to call a special meeting at our expense, and the meeting may be called by that person upon the notice required for annual meetings of shareholders and will be held in Milwaukee, Wisconsin. In no event, however, will a special meeting be called during the period within 90 days immediately preceding the date fixed for our next annual meeting

of shareholders.

At any annual or special meeting at which the holders of any series of our preferred stock will have the special right, voting separately as a class, to elect directors as a result of our failure to pay dividends, the presence, in person or by proxy, of the holders of 33 1/3% of the series of preferred stock entitled to the special voting rights will be required to constitute a quorum of that series for the election of any director by the holders of that series as a class. At that meeting or adjournment thereof, the absence of a quorum of the series

Table of Contents

of our preferred stock entitled to special voting rights will not prevent the election of directors other than those to be elected by that series of preferred stock voting as a class, and the absence of a quorum for the election of other directors will not prevent the election of the directors to be elected by that series of preferred stock voting as a class. In the absence of either or both quorums, a majority of the holders present in person or by proxy of the stock or stocks which lack a quorum will have power to adjourn the meeting for the election of directors which they are entitled to elect until a quorum is present, without notice other than announcement at the meeting.

During any period in which the holders of any series of preferred stock have the right to vote as a class for directors as described above, any vacancies in our board of directors will be filled only by vote of a majority (even if that be only a single director) of the remaining directors elected by the holders of the series or class of stock which elected the directors whose offices have become vacant. During that period the directors so elected by the holders of any series of preferred stock will continue in office (1) until the next succeeding annual meeting or until their successors, if any, are elected by those holders and qualify, or (2) unless required by applicable law to continue in office for a longer period, until termination of the special voting rights of those holders, if earlier. If and to the extent permitted by applicable law, immediately upon any termination of the right of the holders of any series of our preferred stock to vote as a class for directors as described in this prospectus, the term of office of the directors then in office so elected by the holders of that series will terminate.

Other Restrictions upon our Failure to Pay Dividends or Retire Shares of Preferred Stock

If we fail at any time to pay dividends in full on our preferred stock, thereafter and until dividends in full, including all accrued and unpaid dividends for all past quarterly dividend periods on our preferred stock outstanding, have been declared and set apart in trust for payment or paid, or if at any time we fail to pay in full amounts payable with respect to any obligations to retire shares of our preferred stock, thereafter and until those amounts have been paid in full or set apart in trust for payment, we cannot:

without the affirmative vote or consent of the holders of at least 66²/₃% of our preferred stock at the time outstanding, redeem less than all of our preferred stock at the time outstanding; or

purchase any of our preferred stock except in accordance with a purchase offer made in writing to all holders of our preferred stock of all series upon the terms our board of directors, in its sole discretion after consideration of the respective annual dividend rate and other relative rights and preferences of the respective series, determines (which determination will be final and conclusive) will result in fair and equitable treatment among the respective series. We may, to meet the requirements of any purchase, retirement or sinking fund provisions with respect to any series, use shares of that series that we acquired prior to our failure to pay dividends. We may also complete the purchase or redemption of shares of our preferred stock for which a purchase contract was entered into for any purchase, retirement or sinking fund purposes, or the notice of redemption of which was initially mailed, prior to our failure to pay dividends; or

redeem, purchase or otherwise acquire any shares of any other class of our stock ranking junior to the preferred stock as to dividends and upon liquidation.

DESCRIPTION OF THE DEBT SECURITIES

The following description of the debt securities sets forth the material terms and provisions of the debt securities to which any prospectus supplement and/or other offering material may relate. The particular terms of the debt securities offered by any prospectus supplement and/or other offering material and the extent, if any, to which the provisions described in this prospectus may apply to the offered debt securities will be described in the prospectus supplement and/or other offering material relating to the offered debt securities. As used in this section, the terms we, us, our,

Johnson Controls and the Company refer to Johnson Controls, Inc., a Wisconsin corporation, and not any of its subsidiaries, unless the context requires.

Table of Contents

Senior debt securities will be issued under an indenture between Johnson Controls and U.S. Bank National Association, as trustee, a form of which is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. The indenture relating to the senior debt securities, as amended or otherwise supplemented by any supplemental indentures, is referred to in this prospectus as the senior indenture. Subordinated debt securities will be issued under an indenture between Johnson Controls and the trustee, the form of which is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. The indenture relating to the subordinated debt securities, as amended or otherwise supplemented by any supplemental indentures, is referred to in this prospectus as the subordinated indenture. The senior indenture and the subordinated indenture are sometimes referred to in this prospectus collectively as the indentures, and each individually, as an indenture.

The following summaries of the material provisions of the indentures and the debt securities do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all of the provisions of the indentures, including the definitions of specified terms used in the indentures, and the debt securities. Wherever particular articles, sections or defined terms of an indenture are referred to, it is intended that those articles, sections or defined terms will be incorporated herein by reference, and the statement in connection with which reference is made is qualified in its entirety by the article, section or defined term in the indenture.

General

The indentures do not limit the amount of debt, either secured or unsecured, which we may issue under the indentures or otherwise. The debt securities may be issued in one or more series with the same or various maturities and may be sold at par, a premium or an original issue discount. Some of the debt securities may be issued under the applicable indenture as original issue discount securities to be sold at a substantial discount below their principal amount. Federal income tax and other considerations applicable to any original issue discount securities will be described in the related prospectus supplement and/or other offering material. We have the right to reopen a previous issue of a series of debt by issuing additional debt securities of such series.

Because we are a holding company, our right, and hence the rights of our creditors and shareholders, to participate in any distribution of assets of any of our subsidiaries upon its liquidation or reorganization or otherwise and the ability of a holder of debt securities to benefit as our creditor from any distribution are subject to prior claims of the creditors of the subsidiary, except to the extent that any claim of ours as a creditor of the subsidiary may be recognized. The debt securities will also effectively rank junior in right of payment to any of our secured debt.

The prospectus supplement and/or other offering material relating to the particular series of debt securities offered thereby will describe the following terms of the offered debt securities:

the title of the offered debt securities;

any limit upon the aggregate principal amount of the offered debt securities;

the date or dates (or the manner of calculating the date or dates) on which the principal of the offered debt securities is payable;

If the purchase price of any of the offered debt securities is denominated in a foreign currency or currencies or foreign currency unit or units or if the principal of, premium, if any, or interest, if any, on any series of offered debt securities is payable in a foreign currency or currencies or foreign currency unit or units, the restrictions, elections, tax consequences, specific terms and other information with respect to the issue of offered debt securities and the foreign currency or currencies or foreign currency unit or units will be described in the related prospectus supplement and/or other offering material.

We will not be required to issue, register the transfer of, or exchange debt securities of any series during the period from 15 days prior to the mailing of a notice of redemption of debt securities of that series to the date the notice is mailed. We will also not be required to register the transfer of or exchange any debt security so selected for redemption, except the unredeemed portion of any debt security being redeemed in part.

Conversion and Exchange

The terms, if any, on which debt securities of any series are convertible into or exchangeable for common stock or preferred stock, property or cash, or a combination of any of the foregoing, will be set forth in the related prospectus supplement and/or other offering material. Terms may include provisions for conversion or exchange that is either mandatory, at the option of the holder, or at our option. The number of shares of common stock or preferred stock to be received by the holders of the debt securities will be calculated in the manner, according to the factors and at the time as described in the related prospectus supplement and/or other offering material.

Covenants Applicable to Senior Debt Securities

The indentures require us to comply with certain restrictive covenants.

Restrictions on Secured Debt

We may not, and may not permit our restricted subsidiaries to, create, assume, or guarantee any indebtedness secured by mortgages, pledges, liens, encumbrances, conditional sale or title retention agreements or other security interests, which we refer to collectively as security interests, on any of our principal properties or any shares of capital stock or indebtedness of any of our restricted subsidiaries without making effective provision for securing the senior debt securities offered under this prospectus and any prospectus supplement and/or other offering material equally and ratably with the secured debt. Notwithstanding this limitation on secured debt, we and our restricted subsidiaries may have debt secured by:

- (a) any security interest on any property hereafter acquired or constructed by us or a restricted subsidiary to secure or provide for the payment of all or any part of the purchase price or construction cost of such property, including, but not limited to, any indebtedness incurred by us or a restricted subsidiary prior to, at the time of, or within 180 days after the later of the acquisition, the completion of construction (including any improvements on an existing property) or the commencement of commercial operation of such property, which indebtedness is incurred for the purpose of financing all or any part of the purchase price thereof or construction or improvements thereon; or (b) the acquisition of property subject to any security interest upon such property existing at the time of acquisition thereof, whether or not assumed by us or such restricted subsidiary; or (c) any security interest existing on the property or on the outstanding shares of capital stock or indebtedness of a corporation at the time such corporation shall become a restricted subsidiary; or (d) a security interest on property or shares of capital stock or indebtedness of a corporation existing at the time such

corporation is merged into or consolidated with us or a restricted subsidiary or at the time of a sale, lease or other disposition of the properties of a corporation or firm as an entirety or substantially as an entirety to us or a restricted subsidiary, provided, however, that no such security interest shall extend to any other principal property of ours or such restricted subsidiary prior to such acquisition or to the other principal property thereafter acquired other than additions to such acquired property;

Table of Contents

security interests in property of ours or a restricted subsidiary in favor of the United States of America or any State thereof, or any department, agency or instrumentality or political subdivision of the United States of America or any State thereof, or in favor of any other country, or any department, agency or instrumentality or political subdivision thereof (including, without limitation, security interests to secure indebtedness of the pollution control or industrial revenue bond type), in order to permit us or a restricted subsidiary to perform any contract or subcontract made by it with or at the request of any of the foregoing, or to secure partial, progress, advance or other payments pursuant to any contract or statute or to secure any indebtedness incurred for the purpose of financing all or any part of the purchase price or the cost of constructing or improving the property subject to such security interests;

any security interest on any property or assets of any restricted subsidiary to secure indebtedness owing by it to us or to a restricted subsidiary;

mechanics', materialmen's, carriers' or other like liens arising in the ordinary course of business (including construction of facilities) in respect of obligations which are not due or which are being contested in good faith;

any security interest arising by reason of deposits with, or the giving of any form of security to, any governmental agency or any body created or approved by law or governmental regulations, which is required by law or governmental regulation as a condition to the transaction of any business, or the exercise of any privilege, franchise or license;

security interests for taxes, assessments or governmental charges or levies not yet delinquent, or the security interests for taxes, assessments or government charges or levies already delinquent but the validity of which is being contested in good faith;

security interests (including judgment liens) arising in connection with legal proceedings so long as such proceedings are being contested in good faith and, in the case of judgment liens, execution thereon is stayed;

landlords' liens on fixtures located on premises leased by us or a restricted subsidiary in the ordinary course of business; or

any extension, renewal or replacement (or successive extensions, renewals or replacements) in whole or in part of any security interest permitted by these indentures.

In addition to these exceptions, we or a restricted subsidiary may assume or guarantee other secured debt without securing the debt securities if the total amount of secured debt outstanding and value of sale and leaseback transactions at the time does not exceed 10% of Consolidated Shareholders' Equity, determined as of a date not more than 90 days prior thereto.

Consolidated Shareholders' Equity means, at any date, our stockholders' equity and that of our consolidated subsidiaries determined on a consolidated basis as of such date in accordance with generally accepted accounting principles; *provided that*, our consolidated stockholders' equity and that of our consolidated subsidiaries is to be calculated without giving effect to (i) the application of Financial Accounting Standards Board Statement No. 106 or (ii) the cumulative foreign currency translation adjustment. The term consolidated subsidiary means, as to any person, each subsidiary of such person (whether now existing or hereafter created or acquired) the financial statements of which shall be (or should have been) consolidated with the financial statements of such person in accordance with generally accepted accounting principles, but excluding any such consolidated subsidiary of York International

Corporation that would not be so consolidated but for the effect of Financial Accounting Standards Board Interpretation No. 46.

The term "value" means with respect to a sale and leaseback transaction, an amount equal to the greater of:

the net proceeds of the sale of the property leased pursuant to the sale and leaseback transaction; or

the fair value of the property at the time of the sale and leaseback transaction, as determined by our board of directors.

Table of Contents

In either case, the amount derived is first divided by the term of the lease and then multiplied by the number of years remaining on the lease at the time of determination.

Restrictions on Sale and Leaseback Transactions

We and our restricted subsidiaries may not engage in sale and leaseback transactions (excluding such transactions between us and our restricted subsidiaries or between our restricted subsidiaries) whereby a principal property that is owned by us or one of our restricted subsidiaries and that has been in full operation for more than 180 days is sold or transferred with the intention of taking back a lease of such property (except a lease for a term of no more than three years entered into with the intent that the use by us or such restricted subsidiary of such property will be discontinued on or before the expiration of such term).

The sale and leaseback of a principal property is not prohibited, however, if we and the applicable restricted subsidiary would be permitted under the applicable indenture to incur secured debt equal in amount to the amount realized or to be realized upon the sale or transfer secured by a lien on the principal property to be leased without equally and ratably securing the debt securities. We and our restricted subsidiaries may also engage in an otherwise prohibited sale and leaseback transaction if an amount equal to the value of the principal property so leased is applied, subject to credits for delivery by us to the trustee of debt securities we have previously purchased or otherwise acquired and specified voluntary redemptions of the debt securities, to the retirement (other than mandatory retirement), within 120 days of the effective date of the arrangement, of specified indebtedness for borrowed money incurred or assumed by us or a restricted subsidiary, as shown on our most recent consolidated balance sheet and, in the case of our indebtedness, the indebtedness is not subordinated to the debt securities.

Restrictions on Transfer of Principal Properties to Some Subsidiaries

The senior indenture provides that, so long as the senior debt securities of any series are outstanding, we will not, and will not cause or permit any of our restricted subsidiaries to, transfer (whether by merger, consolidation or otherwise) any principal property to any unrestricted subsidiary, unless such subsidiary shall apply within one year after the effective date of the transaction, or shall have committed within one year of the effective date to apply, an amount equal to the fair value of the principal property at the time of transfer:

to the acquisition, construction, development or improvement of properties, facilities or equipment which are, or upon the acquisition, construction, development or improvement will be, a principal property or properties or a part thereof;

to the redemption of senior debt securities;

to the repayment of certain indebtedness for borrowed money of us or any of our restricted subsidiaries, other than any indebtedness owed to any restricted subsidiary or our subordinated indebtedness; or

in part to an acquisition, construction, development or improvement and in part to redemption and/or repayment, in each case as described above.

The fair value of any principal property for purposes of this paragraph will be as determined by our board of directors. In lieu of applying all or any part of any amount to redemption of senior debt securities, we may, within one year of the transfer, deliver to the trustee under the senior indenture senior debt securities of any series, other than senior debt securities made the basis of a reduction in a mandatory sinking fund payment, for cancellation and thereby reduce the amount to be applied to the redemption of senior debt securities of that series by an amount equivalent to the

aggregate principal amount of the senior debt securities so delivered.

Certain Definitions

The following are the meanings of terms that are important in understanding the covenants previously described:

principal property means any manufacturing plant, warehouse, office building or parcel of real property, including fixtures but excluding leases and other contract rights which might otherwise be

Table of Contents

deemed real property, owned by us or any restricted subsidiary, whether owned on the date of the senior indenture or thereafter, that has a gross book value (without deduction for any depreciation reserves) at the date as of which the determination is being made of in excess of two percent of the consolidated net tangible assets of us and our restricted subsidiaries, other than such plant, warehouse, office building or parcel of real property or portion thereof which, in the opinion of our board of directors (evidenced by a certified board resolution thereof delivered to the Trustee), is not of material importance to the business conducted by us and our restricted subsidiaries taken as a whole.

restricted subsidiary means any subsidiary other than an unrestricted subsidiary, and any subsidiary which is an unrestricted subsidiary but which is designated by our board of directors to be a restricted subsidiary. Our board of directors may not designate any subsidiary to be a restricted subsidiary if we would thereby breach any covenant or agreement contained in the senior indenture, assuming for the purpose of determining whether such a breach would occur that any secured debt of that subsidiary was incurred at the time of the designation and that any sale and leaseback transaction to which the subsidiary is then a party was entered into at the time of the designation.

secured debt means indebtedness for money borrowed which is secured by a security interest in (a) any principal property or (b) any shares of capital stock or indebtedness of any restricted subsidiary and certain indebtedness for borrowed money having a maturity of more than twelve months from the date of the most recent consolidated balance sheet of the Company and its restricted subsidiaries (excluding indebtedness of unrestricted subsidiaries).

subsidiary means any corporation of which we, or we and one or more of our subsidiaries, or any one or more subsidiaries, directly or indirectly own more than 50% of the voting stock of such corporation.

unrestricted subsidiary means any subsidiary:

acquired or organized after March 31, 1989, other than any subsidiary acquired or organized after that date that is a successor, directly or indirectly, to any restricted subsidiary;

whose principal business or assets are located outside the United States, its territories and possessions, Puerto Rico or Canada;

the principal business of which consists of financing or assisting in financing of customer construction projects or the acquisition or disposition of products of dealers, distributors or other customers;

engaged in the insurance business or whose principal business is the ownership, leasing, purchasing, selling or development of real property; and

substantially all the assets of which consist of stock or other securities of a subsidiary or subsidiaries referred to above in this sentence, unless and until that subsidiary is designated by our board of directors to be a restricted subsidiary.

Merger

Each indenture provides that we may, without the consent of the holders of debt securities, consolidate with, or sell, lease or convey all or substantially all of its assets to, or merge into any other corporation, provided that:

immediately after giving effect to the transaction, no default under the applicable indenture has occurred and is continuing;

the successor corporation is a corporation organized and existing under the laws of the United States or a state thereof; and

performance and observance of all the covenants and conditions of the applicable indenture to be performed by us.

In addition, we must provide to the trustee an opinion of legal counsel that any such transaction and any assumption by a successor corporation complies with the applicable provisions of the indenture and that we have complied with all conditions precedent provided in the indenture relating to such transaction.

Other than the covenants described above, or as set forth in any accompanying prospectus supplement and/or other offering material, neither indenture contains any covenants or other provisions designed to afford holders of the debt securities protection in the event of a takeover, recapitalization or a highly leveraged transaction involving us.

Modification of the Indentures

With the consent of the holders of more than 50% in aggregate principal amount of any series of debt securities then outstanding under the applicable indenture, waivers, modifications and alterations of the terms of either indenture may be made which affect the rights of the holders of the series of debt securities. However, no modification or alteration may, without the consent of all holders of any series of debt securities then outstanding affected thereby:

- extend the fixed maturity of any debt security of that series;

- reduce the rate or extend the time of payment of interest thereon;

- reduce the principal amount thereof or any premium thereon;

- make the principal thereof or interest or premium thereon payable in any coin or currency other than that provided in the debt securities; or

- reduce the percentage of debt securities of that series, the holders of which are required to consent to:

 - any supplemental indenture;

 - rescind and annul a declaration that the debt securities of that series are due and payable as a result of the occurrence of an event of default;

 - waive any past event of default under the applicable indenture and its consequences; and

 - waive compliance with other specified provisions of the applicable indenture.

In addition, as described in the description of Events of Default set forth below, holders of more than 50% in aggregate principal amount of the debt securities of any series then outstanding may waive past events of default in specified circumstances and may direct the trustee in enforcement of remedies.

We and the trustee may, without the consent of any holders, modify and supplement the applicable indenture:

- to evidence the succession of another corporation to us under the applicable indenture, or successive successions, and the assumption by the successor corporation of the covenants, agreements and obligations of us pursuant to the applicable indenture;

to add to the covenants applicable to us such further covenants, restrictions, conditions or provisions as our board of directors and the trustee shall consider to be for the protection of the holders of debt securities of any or all series, and to make the occurrence, or the occurrence and continuance, of a default in any of such additional covenants, restrictions, conditions or provisions a default or event of default with respect to such series permitting the enforcement of all or any of the several remedies provided in the applicable indenture; provided, however, that in respect of any such additional covenant, restriction or condition, such supplemental indenture may provide for a particular period of grace after default (which period may be shorter or longer than that allowed in the case of other defaults) or may provide for an immediate enforcement upon such default or may limit the remedies available to the trustee upon such default;

to cure any ambiguity or to correct or supplement any provision contained in the applicable indenture or in any supplemental indenture which may be defective or inconsistent with any other provision contained in the indenture or in any supplemental indenture;

to convey, transfer, assign, mortgage or pledge any property to or with the trustee;

to make other provisions in regard to matters or questions arising under the applicable indenture as shall not adversely affect the interests of the holders;

to evidence and provide for the acceptance of appointment by another corporation as a successor trustee under the applicable indenture with respect to one or more series of debt securities and to add to or change any of the provisions of the indenture as shall be necessary to provide for or facilitate the administration of the trusts under the indenture by more than one trustee;

to modify, amend or supplement the applicable indenture in such a manner as to permit the qualification of any supplemental indenture under the Trust Indenture Act of 1939 as then in effect, except that nothing contained in the indentures shall permit or authorize the inclusion in any supplemental indenture of the provisions referred to in Section 316(a)(2) of the Trust Indenture Act of 1939;

to provide for the issuance under the applicable indenture of debt securities in coupon form (including debt securities registrable as to principal only) and to provide for exchangeability of such debt securities with debt securities of the same series issued hereunder in fully registered form and to make all appropriate changes for such purpose;

to change or eliminate any of the provisions of the applicable indenture, *provided, however*, that any such change or elimination shall become effective only when there is no debt security outstanding of any series created prior to the execution of such supplemental indenture which is entitled to the benefit of such provision; and

to establish any additional form of debt security and to provide for the issuance of any additional series of debt securities.

Covenant Defeasance and Satisfaction and Discharge of a Series

Covenant Defeasance of any Series

If we deposit with the trustee, in trust, at or before maturity or redemption:

lawful money;

direct obligations of the government which issued the currency in which the debt securities of a series are denominated, or obligations of a person controlled or supervised by and acting as an agency or instrumentality of such government and which obligations are guaranteed by such government (which direct or guaranteed obligations are full faith and credit obligations of such government, are denominated in the currency in which the debt securities of such are denominated and which are not callable or redeemable at the option of the issuer there) in an amount and with a maturity so that the proceeds therefrom will provide funds; or

a combination thereof,

in each case in an amount sufficient, after payment of all federal, state and local taxes in respect thereof payable by the trustee, in the opinion of a nationally-recognized firm of independent public accountants expressed in a written certification thereof delivered to the trustee, to pay when due the principal, premium, if any, and interest to maturity or to the redemption date, as the case may be, with respect to any series of debt securities then outstanding, and any mandatory sinking fund payments or similar payments or payment pursuant to any call for redemption applicable to such debt securities of such series on the day on which such payments are due and payable in accordance with the terms of the applicable indenture and such debt securities, then the provisions of the indenture would no longer be effective as to the debt securities to which

such deposit relates, including the restrictive covenants described in this prospectus or any prospectus supplement relating to such debt securities, except as to:

our obligation to duly and punctually pay the principal of and premium, if any, and interest on the series of debt securities if the debt securities are not paid from the money or securities held by the trustee;

certain of the events of default described under **Events of Default** below; and

other specified provisions of the applicable indenture including, among others, those relating to registration, transfer and exchange, lost or stolen securities, maintenance of place of payment and, to the extent applicable to the series, the redemption and sinking fund provisions of the applicable indenture.

Defeasance of debt securities of any series is subject to the satisfaction of specified conditions, including, among others, the absence of an event of default at the date of the deposit and the perfection of the holders' security interest in the deposit.

Satisfaction and Discharge of any Series

Upon the deposit of money or securities contemplated above and the satisfaction of specified conditions, the provisions of the applicable indenture (excluding the exceptions discussed above under the heading **Covenant Defeasance of any Series**) would no longer be effective as to the related debt securities, we may cease to comply with our obligation to pay duly and punctually the principal of and premium, if any, and interest on a particular series of debt securities, the events of default in the applicable indenture no longer would be effective as to such debt securities and thereafter the holders of the series of debt securities will be entitled only to payment out of the money or securities deposited with the trustee.

The specified conditions include, among others, except in limited circumstances involving a deposit made within one year of maturity or redemption:

the absence of an event of default at the date of deposit or on the 91st day thereafter;

our delivery to the trustee of an opinion of nationally-recognized tax counsel, or our receipt or publication of a ruling by the Internal Revenue Service, to the effect that holders of the debt securities of the series will not recognize income, gain or loss for federal income tax purposes as a result of the deposit and discharge, and the holders will be subject to federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and discharge had not occurred; and

that we receive an opinion of counsel to the effect that the satisfaction and discharge will not result in the delisting of the debt securities of that series from any nationally-recognized exchange on which they are listed.

Events of Default

As to any series of debt securities, an event of default is defined in the applicable indenture as being:

failure to pay any interest on the debt securities of that series when due, which failure continues for 30 days;

failure to pay principal or premium, if any, with respect to the debt securities of that series when due;

failure to pay or satisfy any sinking fund payment or similar obligation with respect to debt securities of that series when due;

failure to observe or perform any other covenant, warranty or agreement in the applicable indenture or debt securities of that series, other than a covenant, warranty or agreement, a default in whose performance or whose breach is specifically dealt with in the section of the applicable indenture governing events of default, if the failure continues for 75 days after written notice by the trustee or the

Table of Contents

holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding;

uncured or unwaived failure to pay principal of or interest on any of our other obligations for borrowed money, including any other series of debt securities, beyond any period of grace with respect thereto if

the aggregate principal amount of any the obligation is in excess of \$100,000,000; and

the default in payment is not being contested by us in good faith and by appropriate proceedings;

specified events of bankruptcy, insolvency, receivership or reorganization; or

any other event of default provided with respect to debt securities of that series.

Notice and Declaration of Defaults

So long as the debt securities of any series remain outstanding, we will be required to furnish annually to the trustee a certificate of one of our corporate officers stating whether, to the best of such officer's knowledge, we are in default under any of the provisions of the applicable indenture, and specifying all defaults, and the nature thereof, of which such officer has knowledge. We will also be required to furnish to the trustee copies of specified reports filed by us with the SEC.

Each indenture provides that the trustee will, within 90 days after the occurrence of a default with respect to any series for which there are debt securities outstanding which is continuing, give to the holders of those debt securities notice of all uncured defaults known to it, including events specified above without grace periods. Except in the case of default in the payment of principal, premium, if any, or interest on any of the debt securities of any series or the payment of any sinking fund installment on the debt securities of any series, the trustee may withhold notice to the holders if the trustee in good faith determines that withholding notice is in the interest of the holders of the debt securities.

The trustee or the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of any series may declare the debt securities of that series immediately due and payable upon the occurrence of any event of default after expiration of any applicable grace period. In some cases, the holders of a majority in principal amount of the debt securities of any series then outstanding may waive any past default and its consequences, except a default in the payment of principal, premium, if any, or interest, including sinking fund payments.

Actions upon Default

Subject to the provisions of the applicable indenture relating to the duties of the trustee in case an event of default with respect to any series of debt securities occurs and is continuing, the applicable indenture provides that the trustee will be under no obligation to exercise any of its rights or powers under the applicable indenture at the request, order or direction of any of the holders of debt securities outstanding of any series unless the holders have offered to the trustee reasonable indemnity. The right of a holder to institute a proceeding with respect to the applicable indenture is subject to conditions precedent including notice and indemnity to the trustee, but the holder has a right to receipt of principal, premium, if any, and interest on their due dates or to institute suit for the enforcement thereof, subject to specified limitations with respect to defaulted interest.

The holders of a majority in principal amount of the debt securities outstanding of the series in default will have the right to direct the time, method and place for conducting any proceeding for any remedy available to the trustee, or exercising any power or trust conferred on the trustee. Any direction by the holders will be in accordance with law and

the provisions of the related indenture, provided that the trustee may decline to follow any such direction if the trustee determines on the advice of counsel that the proceeding may not be lawfully taken or would be materially or unjustly prejudicial to holders not joining in the direction. The trustee will be under no obligation to act in accordance with the direction unless the holders offer the trustee reasonable security or indemnity against costs, expenses and liabilities which may be incurred thereby.

Subordination of Subordinated Debt Securities

The senior debt securities will constitute part of our senior indebtedness and will rank equally with all outstanding senior debt. Except as set forth in the related prospectus supplement and/or other offering material, the subordinated debt securities will be subordinated, in right of payment, to the prior payment in full of the senior indebtedness, including the senior debt securities, whether outstanding at the date of the subordinated indenture or thereafter incurred, assumed or guaranteed. The term "senior indebtedness" means:

the principal, premium, if any, and unpaid interest on indebtedness for money borrowed;

purchase money and similar obligations;

obligations under capital leases;

guarantees, assumptions or purchase commitments relating to, or other transactions as a result of which we are responsible for the payment of, indebtedness of others;

renewals, extensions and refunding of any senior indebtedness;

interest or obligations in respect of any senior indebtedness accruing after the commencement of any insolvency or bankruptcy proceedings; and

obligations associated with derivative products, including interest rate and currency exchange contracts, foreign exchange contracts, commodity contracts, and similar arrangements unless, in each case, the instrument by which we incurred, assumed or guaranteed the indebtedness or obligations described in the foregoing clauses expressly provides that the indebtedness or obligation is not senior in right of payment to the subordinated debt securities.

Upon any distribution of our assets in connection with any dissolution, winding up, liquidation or reorganization of our company, whether in a bankruptcy, insolvency, reorganization or receivership proceeding or upon an assignment for the benefit of creditors or any other marshalling of our assets and liabilities or otherwise, except a distribution in connection with a merger or consolidation or a conveyance or transfer of all or substantially all of our properties in accordance with the subordinated indenture, the holders of all senior indebtedness will first be entitled to receive payment of the full amount due on the senior indebtedness, or provision will be made for that payment in money or money's worth, before the holders of any of the subordinated debt securities are entitled to receive any payment in respect of the subordinated debt securities.

In the event that a payment default occurs and is continuing with respect to the senior indebtedness, the holders of all senior indebtedness will first be entitled to receive payment of the full amount due on the senior indebtedness, or provision will be made for that payment in money or money's worth, before the holders of any of the subordinated debt securities are entitled to receive any payment in respect of the subordinated debt securities. In the event that the principal of the subordinated debt securities of any series is declared due and payable pursuant to the subordinated indenture and that declaration is not rescinded and annulled, the holders of all senior indebtedness outstanding at the time of the declaration will first be entitled to receive payment of the full amount due on the senior indebtedness, or provision will be made for that payment in money or money's worth, before the holders of any of the subordinated debt securities are entitled to receive any payment in respect of the subordinated debt securities.

This subordination will not prevent the occurrence of any event of default with respect to the subordinated debt securities. There is no limitation on the issuance of additional senior indebtedness in the subordinated indenture.

Governing Law

The indentures and the debt securities will be governed by, and construed in accordance with, the laws of the State of New York.

Concerning the Trustee

We and our affiliates utilize a full range of treasury services, including investment management and banking services, from the trustee and its affiliates in the ordinary course of business to meet our funding and investment needs.

Under each indenture, the trustee is required to transmit annual reports to all holders regarding its eligibility and qualifications as trustee under the applicable indenture and specified related matters.

Book-Entry, Delivery and Settlement

We will issue the debt securities in whole or in part in the form of one or more global certificates, which we refer to as global securities. We will deposit the global securities with or on behalf of The Depository Trust Company, which we refer to as DTC, and registered in the name of Cede & Co., as nominee of DTC. Beneficial interests in the global securities may be held through the Euroclear System (Euroclear) and Clearstream Banking, S.A. (Clearstream) (as indirect participants in DTC).

We have provided the following descriptions of the operations and procedures of DTC, Euroclear and Clearstream solely as a matter of convenience. These operations and procedures are solely within the control of DTC, Euroclear and Clearstream and are subject to change by them from time to time. Neither we, any underwriter nor the trustee take any responsibility for these operations or procedures, and you are urged to contact DTC, Euroclear or Clearstream directly to discuss these matters.

DTC has advised us that:

DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered under Section 17A of the Securities Exchange Act of 1934;

DTC holds securities that its direct participants deposit with DTC and facilitates the settlement among direct participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in direct participants' accounts, thereby eliminating the need for physical movement of securities certificates;

Direct participants include securities brokers and dealers, trust companies, clearing corporations and other organizations;

DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the American Stock Exchange LLC and the Financial Industry Regulatory Authority;

Access to the DTC system is also available to indirect participants such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly; and

The rules applicable to DTC and its direct and indirect participants are on file with the SEC.

We expect that under procedures established by DTC:

Upon deposit of the global securities with DTC or its custodian, DTC will credit on its internal system the accounts of direct participants designated by the underwriters with portions of the principal amounts of the global securities; and

Ownership of the debt securities will be shown on, and the transfer of ownership of the debt securities will be effected only through, records maintained by DTC or its nominee, with respect to interests of direct participants, and the records of direct and indirect participants, with respect to interests of persons other than participants.

Investors in the global securities who are participants in DTC's system may hold their interests therein directly through DTC. Investors in the global notes who are not participants may hold their interests therein

Table of Contents

indirectly through organizations (including Euroclear and Clearstream) which are participants in such system. Euroclear and Clearstream may hold interests in the global securities on behalf of their participants through customers securities accounts in their respective names on the books of their respective depositories, which are Euroclear Bank S.A./N.V., as operator of Euroclear, and Citibank, N.A., as depository of Clearstream. All interests in a securities, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such systems.

The laws of some jurisdictions require that purchasers of securities take physical delivery of those securities in the form of a certificate. For that reason, it may not be possible to transfer interests in a global security to those persons. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person having an interest in a global security to pledge or transfer that interest to persons or entities that do not participate in DTC's system, or otherwise to take actions in respect of that interest, may be affected by the lack of a physical definitive security in respect of that interest.

So long as DTC or its nominee is the registered owner of a global security, DTC or that nominee will be considered the sole owner or holder of the debt securities represented by that global security for all purposes under the applicable indenture and under the debt securities. Except as described below, owners of beneficial interests in a global security will not be entitled to have debt securities represented by that global security registered in their names, will not receive or be entitled to receive the debt securities in the form of a physical certificate and will not be considered the owners or holders of the debt securities under the applicable indenture or under the debt securities, and may not be entitled to give the trustee directions, instructions or approvals. For that reason, each holder owning a beneficial interest in a global security must rely on DTC's procedures and, if that holder is not a direct or indirect participant in DTC, on the procedures of the DTC participant through which that holder owns its interest, to exercise any rights of a holder of debt securities under the applicable indenture or the global security.

Neither we nor the trustee will have any responsibility or liability for any aspect of DTC's records relating to the debt securities or relating to payments made by DTC on account of the debt securities, or any responsibility to maintain, supervise or review any of DTC's records relating to the debt securities.

We will make payments on the debt securities represented by the global securities to DTC or its nominee, as the registered owner of the debt securities. We expect that when DTC or its nominee receives any payment on the debt securities represented by a global security, DTC will credit participants' accounts with payments in amounts proportionate to their beneficial interests in the global security as shown in DTC's records. We also expect that payments by DTC's participants to owners of beneficial interests in the global security held through those participants will be governed by standing instructions and customary practice as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. DTC's participants will be responsible for those payments.

Payments on the debt securities represented by the global securities will be made in immediately available funds. Transfers between participants in DTC will be made in accordance with DTC's rules and will be settled in immediately available funds.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Cross-market transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or

Clearstream, as the case may be, by its depository; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (European time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its

Table of Contents

behalf by delivering or receiving interests in the relevant global security in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more participants to whose account DTC has credited the interests in the global securities and only in respect of such portion of the aggregate principal amount of the notes as to which such participant or participants has or have given such direction. However, if there is an event of default under the notes, DTC reserves the right to exchange the global securities for certificated notes, and to distribute such notes to its participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global securities among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. None of the Company, the trustee or any of their respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective direct or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Securities for Certificated Securities

We will issue certificated debt securities to each person that DTC identifies as the beneficial owner of debt securities represented by the global securities upon surrender by DTC of the global securities only if:

DTC notifies us that it is no longer willing or able to act as a depository for the global securities, and we have not appointed a successor depository within 90 days of that notice;

An event of default with respect to the debt securities has occurred and is continuing; or

We decide not to have the debt securities represented by a global security.

Neither we nor the trustee will be liable for any delay by DTC, its nominee or any direct or indirect participant in identifying the beneficial owners of the related debt securities. We and the trustee may conclusively rely on, and will be protected in relying on, instructions from DTC or its nominee, including instructions about the registration and delivery, and the respective principal amounts, of the debt securities to be issued.

Same Day Settlement and Payment

We will make payments in respect of the notes represented by the global securities (including principal, premium, if any, and interest) by wire transfer of immediately available funds to the accounts specified by the global securities holder. We will make all payments of principal, interest and premium, if any, with respect to certificated notes by wire transfer of immediately available funds to the accounts specified by the holders of the certificated notes or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the global securities are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. The Company expects that secondary trading in any certificated notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a global security from a participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a

business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream as a result of sales of interests in a global securities by or through a Euroclear or Clearstream participant to a participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

DESCRIPTION OF THE STOCK PURCHASE CONTRACTS AND STOCK PURCHASE UNITS

We may issue stock purchase contracts that obligate you to purchase from us, and obligate us to sell to you, a specified or varying number of shares of common stock at a future date or dates. Alternatively, the stock purchase contracts may obligate us to purchase from you, and obligate you to sell to us, a specified or varying number of shares of common stock or preferred stock at a future date or dates. The price per share of common stock or preferred stock may be fixed at the time the stock purchase contracts are entered into or may be determined by reference to a specific formula set forth in the stock purchase contracts. Any stock purchase contract may include anti-dilution provisions to adjust the number of shares to be delivered pursuant to the stock purchase contract upon the occurrence of specified events.

The stock purchase contracts may be entered into separately or as a part of stock purchase units consisting of a stock purchase contract and, as security for your obligations to purchase or sell the shares of common stock or preferred stock, as the case may be, under the stock purchase contracts, either:

common stock;

preferred stock;

debt securities; or

debt obligations of third parties, including U.S. Treasury securities.

If we issue stock purchase units where debt obligations of third parties are used as security for your obligations to purchase or sell shares of common stock or preferred stock, we will include in the prospectus supplement and/or other offering material relating to the offering information about the issuer of the debt securities. Specifically, if the issuer has a class of securities registered under the Securities Exchange Act of 1934 and is either eligible to register its securities on Form S-3 under the Securities Act of 1933 or meets the listing criteria to be listed on a national securities

exchange, we will include a brief description of the business of the issuer, the market price of its securities and how you can obtain more information about the issuer. If the issuer does not meet the criteria described in the previous sentence, we will include substantially all of the information that would be required if the issuer were making a public offering of the debt securities.

The stock purchase contracts may require us to make periodic payments to you or vice versa, and these payments may be unsecured or prefunded and may be paid on a current or deferred basis. The stock purchase contracts may require you to secure your obligations in a specified manner and, in some circumstances, we may deliver newly issued prepaid stock purchase contracts upon release to you of any collateral securing your obligations under the original stock purchase contract.

The applicable prospectus supplement and/or other offering material will describe the specific terms of any stock purchase contracts or stock purchase units and, if applicable, prepaid stock purchase contracts.

SELLING SHAREHOLDERS

We may register shares of common stock covered by this prospectus for re-offers and resales by any selling shareholders to be named in a prospectus supplement. A selling shareholder may resell all, a portion or none of such shareholder's shares at any time and from time to time. Selling shareholders may also sell, transfer or otherwise dispose of some or all of their shares of our common stock in transactions exempt from the registration requirements of the Securities Act. We do not know when or in what amounts the selling shareholders may offer shares for sale under this prospectus and any prospectus supplement. We will not receive any proceeds from any sale of shares by a selling shareholder under this prospectus and any prospectus supplement. We may pay all expenses incurred with respect to the registration of the shares of common stock owned by the selling shareholders, other than underwriting fees, discounts or commissions which will be borne by the selling shareholders. We will provide you with a prospectus supplement naming the selling shareholders, the amount of shares to be registered and sold and any other terms of the shares of common stock being sold by each selling shareholder.

PLAN OF DISTRIBUTION

We may sell our securities, and any selling shareholder may sell shares of our common stock, in any one or more of the following ways from time to time: (1) through agents; (2) to or through underwriters; (3) through brokers or dealers; (4) directly by us or any selling shareholders to purchasers, including through a specific bidding, auction or other process; or (5) through a combination of any of these methods of sale. The applicable prospectus supplement and/or other offering materials will contain the terms of the transaction, name or names of any underwriters, dealers, agents and the respective amounts of securities underwritten or purchased by them, the initial public offering price of the securities, and the applicable agent's commission, dealer's purchase price or underwriter's discount. Any selling shareholders, dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and compensation received by them on resale of the securities may be deemed to be underwriting discounts. Additionally, because selling shareholders may be deemed to be underwriters within the meaning of Section 2(11) of the Securities Act, selling shareholders may be subject to the prospectus delivery requirements of the Securities Act.

Any initial offering price, dealer purchase price, discount or commission may be changed from time to time.

The securities may be distributed from time to time in one or more transactions, at negotiated prices, at a fixed price or fixed prices (that may be subject to change), at market prices prevailing at the time of sale, at various prices determined at the time of sale or at prices related to prevailing market prices.

Offers to purchase securities may be solicited directly by us or any selling shareholder or by agents designated by us from time to time. Any such agent may be deemed to be an underwriter, as that term is defined in the Securities Act, of the securities so offered and sold.

If underwriters are utilized in the sale of any securities in respect of which this prospectus is being delivered, such securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at fixed public offering prices or at varying prices determined by the underwriters at the time of sale. Securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more underwriters. If any underwriter or underwriters are utilized in the sale of securities, unless otherwise indicated in the applicable prospectus supplement and/or other offering material, the obligations of the underwriters are subject to certain conditions precedent, and the underwriters

will be obligated to purchase all such securities if they purchase any of them.

If a dealer is utilized in the sale of the securities in respect of which this prospectus is delivered, we will sell such securities, and any selling shareholder will sell shares of our common stock to the dealer, as principal. The dealer may then resell such securities to the public at varying prices to be determined by such dealer at the time of resale.

Transactions through brokers or dealers may include block trades in which brokers or dealers will attempt to sell shares as agent but may position and resell as principal to facilitate the transaction or in cross trades, in which the same broker or dealer acts as agent on both sides of the trade. Any such dealer may be deemed to be an underwriter, as such term is defined in the Securities Act, of the securities so offered and sold. In addition, any selling shareholder may sell shares of our common stock in ordinary brokerage transactions or in transactions in which a broker solicits purchases.

Offers to purchase securities may be solicited directly by us or any selling shareholder and the sale thereof may be made by us or any selling shareholder directly to institutional investors or others, who may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale thereof.

Any selling shareholders may also resell all or a portion of their shares of our common stock in transactions exempt from the registration requirements of the Securities Act in reliance upon Rule 144 under the Securities Act provided they meet the criteria and conform to the requirements of that rule, Section 4(1) of the Securities Act or other applicable exemptions, regardless of whether the securities are covered by the registration statement of which this prospectus forms a part.

If so indicated in the applicable prospectus supplement and/or other offering material, we or any selling shareholder may authorize agents and underwriters to solicit offers by certain institutions to purchase securities from us or any selling shareholder at the public offering price set forth in the applicable prospectus supplement and/or other offering material pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the applicable prospectus supplement and/or other offering material. Such delayed delivery contracts will be subject only to those conditions set forth in the applicable prospectus supplement and/or other offering material.

Agents, underwriters and dealers may be entitled under relevant agreements with us or any selling shareholder to indemnification by us against certain liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which such agents, underwriters and dealers may be required to make in respect thereof. The terms and conditions of any indemnification or contribution will be described in the applicable prospectus supplement and/or other offering material.

We may pay all expenses incurred with respect to the registration of the shares of common stock owned by any selling shareholders, other than underwriting fees, discounts or commissions, which will be borne by the selling shareholders. We or any selling shareholder may also sell shares of our common stock through various arrangements involving mandatorily or optionally exchangeable securities, and this prospectus may be delivered in connection with those sales.

We or any selling shareholder may enter into derivative, sale or forward sale transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement and/or other offering material indicates, in connection with those transactions, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement and/or other offering material, including in short sale transactions and by issuing securities not covered by this prospectus but convertible into, exchangeable for or representing beneficial interests in securities covered by this prospectus, or the return of which is derived in whole or in part from the value of such securities. The third parties may use securities received under derivative, sale or forward sale transactions or securities pledged by us or any selling shareholder or borrowed from us, any selling shareholder or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us or any selling shareholder in settlement of those transactions to close out any

related open borrowings of stock. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement (or a post-effective amendment) and/or other offering material.

Additionally, any selling shareholder may engage in hedging transactions with broker-dealers in connection with distributions of shares or otherwise. In those transactions, broker-dealers may engage in short sales

of shares in the course of hedging the positions they assume with such selling shareholder. Any selling shareholder also may sell shares short and redeliver shares to close out such short positions. Any selling shareholder may also enter into option or other transactions with broker-dealers which require the delivery of shares to the broker-dealer. The broker-dealer may then resell or otherwise transfer such shares pursuant to this prospectus. Any selling shareholder also may loan or pledge shares, and the borrower or pledgee may sell or otherwise transfer the shares so loaned or pledged pursuant to this prospectus. Such borrower or pledgee also may transfer those shares to investors in our securities or the selling shareholder's securities or in connection with the offering of other securities not covered by this prospectus.

Underwriters, broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from us or any selling shareholder. Underwriters, broker-dealers or agents may also receive compensation from the purchasers of shares for whom they act as agents or to whom they sell as principals, or both. Compensation as to a particular underwriter, broker-dealer or agent will be in amounts to be negotiated in connection with transactions involving shares and might be in excess of customary commissions. In effecting sales, broker-dealers engaged by us or any selling shareholder may arrange for other broker-dealers to participate in the resales.

Any securities offered other than common stock will be a new issue and, other than the common stock, which is listed on the New York Stock Exchange, will have no established trading market. We may elect to list any series of securities on an exchange, and in the case of the common stock, on any additional exchange, but, unless otherwise specified in the applicable prospectus supplement and/or other offering material, we shall not be obligated to do so. No assurance can be given as to the liquidity of the trading market for any of the securities.

Agents, underwriters and dealers may engage in transactions with, or perform services for, us or our subsidiaries or any selling shareholder in the ordinary course of business.

Any underwriter may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Securities Exchange Act of 1934. Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. An underwriter may carry out these transactions on the New York Stock Exchange, in the over-the-counter market or otherwise.

The place and time of delivery for securities will be set forth in the accompanying prospectus supplement and/or other offering material for such securities.
